CINCINNATI OH 45999-0023

Date of this notice: 01-04-2019

Employer Identification Number:
83-3015292

Form: SS-4

Number of this notice: CP 575 A

GALMUDUG INC
28 ACADEMY COURT
ROXBURY, MA 02119

For assistance you may call us at:
1-800-829-4933

IF YOU WRITE, ATTACH THE
STUB AT THE END OF THIS NOTICE.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 83-3015292. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 1120 04/15/2020

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, *Accounting Periods and Methods*.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

IMPORTANT INFORMATION FOR S CORPORATION ELECTION:

If you intend to elect to file your return as a small business corporation, an election to file a Form 1120-S must be made within certain timeframes and the corporation must meet certain tests. All of this information is included in the instructions for Form 2553, *Election by a Small Business Corporation*.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(IRS USE ONLY) 575A 01-04-2019 GALM B 9999999999 SS-4

If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly, which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, *Electronic Choices to Pay All Your Federal Taxes*. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

To obtain tax forms and publications, including those referenced in this notice, visit our Web site at www.irs.gov. If you do not have access to the Internet, call 1-800-829-3676 (TTY/TDD 1-800-829-4059) or visit your local IRS office.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. **This notice is issued only one time and the IRS will not be able to generate a duplicate copy for you.** You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

If you have questions about your EIN, you can call us at the phone number or write to us at the address shown at the top of this notice. If you write, please tear off the stub at the bottom of this notice and send it along with your letter. If you do not need to write us, do not complete and return the stub.

Your name control associated with this EIN is GALM. You will need to provide this information, along with your EIN, if you file your returns electronically.

Thank you for your cooperation.

Important information for vehicle owners

- Certificate of Registration: Every person operating a motor vehicle shall have the Certificate of Registration for the motor vehicle and/or trailer, in the vehicle, in some easily accessible place. The records of the RMV constitute the official status of the vehicle registration.
- Change of Address: By law, you must report any change of address to the RMV within 30 days. Visit mass.gov/rmv to change your address. Once you have reported the address change to the RMV, please write corrected address in box provided above.
- No Insurance Card Required: Massachusetts law does not require an insurance card. M.G.L. Chapter 90, Section 34, ar Chapter 175, Section 113A, requires the vehicle's owner to maintain a compulsory motor vehicle liability insurance policy or bond for bodily injury coverage and property damage insurance. The insurer is required by law to electronically notify the Registry of Motor Vehicles if coverage lapses. The vehicle owner is then notified by the RMV to obtain new insurance within 10 days or the registration will be revoked. Bonds are filed with the State Treasurer's Office.
- Transferring Your Plates: Massachusetts General Law (M.G.L. Chapter 90, Section 2) allows you to transfer valid registration plates from this vehicle to a newly acquired new or used motor vehicle or trailer while you obtain insurance and a new registration. See the Transferring a Registration Section on the RMV's website at mass.gov/rmv for more information.
- Cancel the registration plates if:
  - The vehicle has been sold or junked and the registration is not going to be transferred to another vehicle.
  - You move to another state and you register the vehicle in that state.
  - The insurance policy is not renewed or is cancelled and there is no plan to obtain a new policy.

September 26, 2021

Shannon Phillips, Esq.
City Solicitor
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Ms. Phillips,

As you probably know, lower Main Street in Ward 5 is the subject of a bike lane pilot project, which has resulted in temporary parking restrictions, narrowing of the roadway, and the inclusion of dedicated pathways for bicyclists in the north and south directions.

In my communications with DPW Director Elena Proakis Ellis, who also serves as Chair of the Melrose Traffic Commission, it is clear that the administration has taken the position that the Traffic Commission has limited authority over any permanent changes to lower Main Street in connection with this project. For example, in an e-mail to me from August 23rd, Director Proakis Ellis wrote, *"The only changes within TC jurisdiction are changes to parking regulations and the addition of new crosswalks. Nothing else in the pilot is regulatory in nature."* Please be advised that Director Proakis Ellis has communicated similar sentiments to the abutters.

Although one might argue that there is precedent in Melrose for creating bike lanes without Traffic Commission approval, the legality of doing so is questionable. As such, I am requesting a written, independent legal opinion from you as it relates to the following questions: 1) Does the creation of a permanent, dedicated bike lane require Traffic Commission approval? 2) Can the administration unilaterally create a dedicated bike lane without a public process? 3) If the administration has the authority to do so, where specifically does that authority exist?

When considering these questions, it is important to draw a distinction between a Dedicated Bike Lane and an Advisory Bike Lane. Dedicated bike lanes, as proposed by this pilot, are reserved for the **sole use** of bicyclists, thus making them regulatory by their very nature. As such, I believe that the Traffic Commission, not the Mayor's Office or the Department of Public Works, has exclusive jurisdiction over the creation of a Dedicated Bike Lane. As explained in a 2017 white paper published by Alta Planning and Design, an Oregon-based international transportation consulting firm, *"Unlike dedicated bicycle lanes, which prohibit motor vehicle use, an Advisory Bike Lane overlaps with the motor vehicle travel area, and it is expected that motorists will regularly encounter meeting or passing situations where driving in the bike lane is necessary and safe."*

To the uninitiated, an Advisory Bike Lane may be more easily recognized by a series of painted, broken lines on the roadway adjacent to the flow of traffic. Were the administration proposing a design of this kind, I would concede that Traffic Commission approval would not be necessary,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

because it would not be a regulatory measure. However, the design of the bike lanes on lower Main Street and details communicated to the public about them, makes clear that the lanes are anything but advisory.

As you know, M.G.L. c. 89, s. 4D prohibits parking any vehicle on *"an on-street path or lane designated by an official sign or marking for the exclusive use of bicycles, except in cases of emergency."* Additionally, operating a motor vehicle in a bike lane may constitute a civil or criminal violation, depending on the intent of the motorist and the manner in which he/she operates. When considering that interfering with a bicyclist's ability to ride safely and unfettered on a bike path -- whether willfully, negligently, or unknowingly -- can be enforced by the Melrose Police Department or any other agency with Chapter 90 powers, it seems to validate the argument that a dedicated bike lane is, in fact, a regulatory matter. Reflecting on the following question offers further validation: If the Traffic Commission considers crosswalks to be regulatory, why would bike lanes be any different? Both are designated pathways on public ways that are intended to protect the people who use them; and both have corresponding statutes under state law that provide an enforcement mechanism when motorists unduly interfere with them.

In the case of this pilot project, I am very concerned that this administration, like prior administrations, is cherry-picking what does and does not go before the Traffic Commission as a way to execute its vision outside of a deliberative and transparent public process. Although I appreciate the administration's efforts to engage the public through an informational meeting held on July 26th and by scheduling an upcoming neighborhood meeting with the abutters, I believe that a formal public process is needed. Not only is it needed, but it appears to be required in the case of what has been proposed, for it is clear that what is pending would amount to a regulatory change, not an advisory one. As such, the decision-making process should play out in a public meeting; and the ultimate decision as to what should or should not happen to lower Main Street should rest with the statutory, authoritative body as elucidated by the Acts of 1998, c. 76, s. 4: An Act Establishing a Traffic Commission in the City of Melrose. In accordance with its responsibilities and authority, as established by the Board of Aldermen and as codified by the Massachusetts Legislature, there seems to be little question the that Melrose Traffic Commission should decide the merits of this proposal (or any modified version that follows) before any permanent changes to the roadway are made.

I look forward to receiving your legal opinion on this matter. Thank you in advance for your assistance.

Sincerely,

Shawn M. MacMaster
City Councilor, Ward 5
City of Melrose

August 17, 2021

Elena Proakis Ellis
Director of Public Works
City of Melrose
72 Tremont Street
Melrose, MA 02176

Dear Ms. Proakis Ellis,

I am writing as a follow up to my August 7th e-mail to you regarding the Lower Main Street Pilot Project. I very much appreciate the time you took in responding to me that same day. To be clear, the purpose of my e-mail was not to suggest that the process underway be paused, but rather that your team and I have a concurrent conversation, in the form of an in-person meeting, in order to account for the concerns that have been brought to my attention by residential and commercial abutters alike.

Considering the timeline you have laid out, I believe that it would be imprudent to wait until the conclusion of the pilot project to address some of the conspicuous issues that need not be validated by the pilot. Although data from the pilot will most certainly be instructive to this project, the historical experiences of those who live and operate businesses on Lower Main Street -- a number of them having been on Main Street for many years now -- *already* offers a deep and vast well of critical data to consider. Put another way, the abutters are best capable of familiarizing the City with the potential impacts of this project before the commencement of any substantive work.

While some of the abutters were heard at the July 26th virtual neighborhood meeting, others did not participate for a variety of reasons. From what I understand (as just one example), Metropolitan Credit Union, Melrose Glass, Stead Properties, and Simple Fitness were never notified of the meeting. Concerning to me is that there are three primary stakeholders with respect to this project (residential abutters, commercial abutters, and the bicycle community), yet two of the three (the neighborhood stakeholders) were not consulted before designs were commissioned.

Please understand that I convey this not in an attempt to play "Monday morning quarterback," but rather to help you and other members of the administration understand *why* the neighborhood feels left out of the process and why many believe that the fate of Lower Main Street has already been determined. These concerns are further buttressed by the fact that I myself was not briefed on the timing, nature, and scope of the project, nor did I see the schematics until the public meeting was held. In fact, on February 2, 2020, Patrick Prendergast from the Mayor's Office reached out to me to inform me that the administration was considering adding bicycle lanes to Lower Main Street. At that time, I informed Mr. Prendergast that, when more information became available, a neighborhood meeting should occur in order to elicit feedback from the abutters. It wasn't until July 15th (seventeen months later) that I learned anything further about this project, having received the same public e-notification that went out to residents that afternoon. When checking my e-mail later that day, I saw that a related e-mail was sent to the City Council -- as well as a follow-up e-mail directly to me -- the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

prior evening. Although there were clearly many months of planning underway with respect to the pilot, which could have given ample time for the abutters and me as the Ward Councilor to weigh in before plans were drawn up, to dwell on this oversight would not be constructive, nor would it be productive. I would much rather use these next few months to advocate that the City prioritize abutter concerns *before* the pilot period concludes. Doing so would help mitigate some of the inevitable disruptions and impacts of any surface-level changes to Lower Main Street and hopefully mollify some of the neighborhood concerns that have arisen to date.

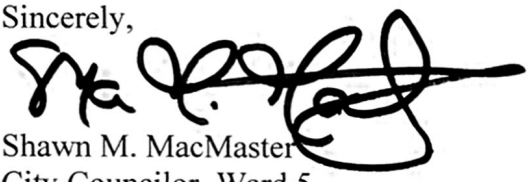
These concerns include, but are not limited to, the following:

- Safe access in and out of residential driveways
- Reduced/eliminated on-street parking for businesses
- Delayed access to properties in the event of an emergency (e.g., police and fire)
- Snow removal from bike lanes and street corners
- Loss of curbside parking for visitors, including home healthcare aides
- Loss of curbside access for contractors, service providers, and delivery workers
- Delivery trucks parking and/or idling on adjacent streets

Furthermore, from the bicycle lane examples depicted in the PowerPoint presentation, what is being considered does not seem to account for the unique characteristics of a *residential* neighborhood. In fact, the examples contained in the PowerPoint portray areas very different from Lower Main Street: i.e., a commercial area (Boston), rural areas (Natick and Wayland), and a divided highway (Somerville/Medford). This beckons the question: were areas comparable to Lower Washington Street considered during the pilot design process -- specifically, areas in communities where bicycle lanes exist in largely residential neighborhoods?

In addition, a few other questions come to mind. What, if any, anticipated costs will be incurred to fund any aspect of this project, whether that be direct or indirect costs? Moreover, do you expect there to be any ancillary costs, such as the need to purchase specialized equipment in order to remove snow from the bicycle lanes? If so, have funding sources been identified? Have there been any future expenditures (or any likely expenditures, for that matter) determined which will require City Council approval?

In light of the questions and concerns raised herein, there are several recommendations that I would like to offer. First, as the City embarks on this ambitious project, it would behoove us -- as I said during the neighborhood meeting -- to make a concerted effort to enhance the *entire* corridor, including making improvements to both stretches of sidewalk running from West/East Wyoming to Sylvan, and to better maintain the trees that currently line the street. Second, I recommend convening a business roundtable in which representatives from the City and myself meet with the business owners mentioned earlier to brief them on the initiative and hear out their concerns. Third, rather than conduct one large, general meeting at the end of the pilot project, I would encourage a separate meeting with the abutters, so that their concerns are not diluted by the voices of those who do not live and work in the neighborhood. That being said, as Main Street is not a private way and is used by residents from across the City, I do think that a general meeting to elicit broader feedback is certainly in order -- and important. Finally, I was pleased to hear that a post-pilot survey would be distributed. As I am sure you can appreciate, having a baseline survey from which to compare future data is paramount. With this in mind, I strongly recommend that the City consider developing and circulating targeted, pre-pilot surveys to the three primary stakeholder groups. As their concerns and needs are unique from one another, a universal survey would be far less reliable. For instance, having a better understanding of the ways in which residential abutters rely on curbside parking and knowing the frequency by which they have visitors to their homes is important. So too is having a better understanding of the challenges that Lower Main Street residents currently face when pulling into and backing out of their driveways, especially during the winter months. Similarly, for commercial



Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

abutters, understanding how they rely on curbside parking is important, as well as the potential impacts on their business operations should on-street parking be reduced or eliminated. Data from a pre-pilot survey when compared with data from a post-pilot survey can ascertain the degree by which the pilot may have exacerbated existing problems.

Having worked together on past municipal projects and having enjoyed a strong working relationship with you, I am confident that we can work together to ensure that the individual and collective concerns of the abutters are weighed heavily before any final decisions are made, even if that means extending certain deadlines associated with this project.

I look forward to continuing this discussion with you. For now, thank you for your attention to the concerns that I have raised.

Sincerely,

Shawn M. MacMaster
City Councilor, Ward 5
City of Melrose

Re: Legal Opinion: Bike Lanes and Traffic Commission Approval

Councilor MacMaster:

I write in response to your letter dated September 26, 2021 in which you requested a formal legal opinion relative to the decision-making authority for the creation and placement of bike lanes within the City of Melrose.

After careful review, it is my opinion that Section 4 of the City of Melrose Traffic Commission's (Commission) enabling legislation clearly vests the Commission with the exclusive decision-making authority over the approval and placement of dedicated (permanent) bike lanes on streets under the control of the City of Melrose.

As you are aware, Section 4 of the Melrose Traffic Commission's enabling legislation provides in pertinent part, "the Traffic Commission shall have exclusive authority, except as otherwise herein provided, to adopt, amend, alter and repeal rules and regulations, not inconsistent with the General Laws as modified by this act, relative to vehicular street traffic and parking in the city and to the movement, stopping, and standing of vehicles on and their exclusion from, all or any streets, ways, highways, roads and parkways, under the control of the city…"*(emphasis supplied).* [1] The Melrose Traffic Commission meets to consider and vote upon *regulatory* traffic and parking issues such as proposed new parking restrictions, speed limit changes, modifications to roadway regulations (one way, stop signs, etc.), and associated regulatory signage.

[1] See Chapter 76 of the Acts of 1998, accepted by the City of Melrose 6- 15-1998 by Ord. No. 97-30A, *An Act Establishing a Traffic Commission in the City of Melrose*.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Not only does the creation of bike lanes implicate parking changes, but also the changed flow of vehicular traffic movement along streets under the control of the City of Melrose. Creation of such bike lanes allows for additional criminal/civil violations which are enforceable by law enforcement through state law should passage over the dedicated bike lanes be made (either with vehicles moving, stopping, or parking). M.G.L. c. 89, s. 4D for example prohibits parking any vehicle on "an on-street path or lane designated by an official sign or marking for the exclusive use of bicycles, except in case of emergency." This state law went into effect in 2017 and results in a $50 fine for any violators when enforced (tickets aren't considered moving violations). Furthermore, M.G.L. c. 90 provides law enforcement with the ability to issue violations against motorists for interfering with the path of travel of bicyclists.

As with the approval and placement of crosswalks within the City of Melrose, it is my opinion that the approval and placement of a dedicated bike lane is in fact *regulatory* in nature, and the decision-making authority lies with the Commission as dictated by its powers set forth in the Acts of 1998, c. 76, s. 4: *An Act Establishing a Traffic Commission in the City of Melrose*.

I am available to discuss this matter further and to answer any additional questions you might have in this regard.

Very truly yours,

Shannon Phillips

William Francis Galvin
Secretary of the Commonwealth - 2020 Census Liaison

Local Re-Precincting

Municipalities have the initial responsibility of establishing ward and precinct boundaries, which become the building blocks in determining legislative and local government districts.

A **precinct** is the smallest geographically bounded unit used for state election purposes. A precinct is where one polling place in a municipality is located. A **ward** is a geographically bounded unit for election purposes, which consists of one or more precincts.

Towns with representative town meetings elect their members by precinct and cities choose political party committees and sometimes city council members or other officials by ward. In some municipalities, the council members are elected by districts, which are created using precincts.

After obtaining the necessary local approval, each city and town must submit their plans, including maps, population information and a legal description of the boundaries of each ward and precinct, to the Secretary of the Commonwealth who thereafter makes this information and material available to an independent commission known as the **Local Election Districts Review Commission (LEDRC)**.

ESTABLISHMENT OF WARDS AND PRECINCTS

Each city and town, unless otherwise exempt, is required to establish ward and precinct lines every ten years, following the federal census if:

- the wards of a city do not contain approximately equal numbers of residents so that each ward's population is within 5 percent of the average;
- a ward not divided into precincts contains more than 4,000 residents;
- a town contains more than 6,200 residents; or
- a precinct contains more than 4,000 residents.

Even if a city or town does not need to re-draw their precinct lines because their existing plan remains in conformity with the law, they must still file all the necessary information based on the latest federal census figures and have the plan reapproved by the LEDRC.

STANDARDS

The law requires that voting precincts established by a city or town must meet the following requirements:

- Each new precinct must be "composed of compact and contiguous territory" without protruding fingers or long tails.
- Precincts must be bounded by the center-line of streets or other well defined boundaries such as streams or other bodies of water, railroad tracks, power lines or other clearly visible geographic figures. These features must be recognized as block boundaries by the United States Bureau of the Census and appear on their official block boundary maps. Rear lot lines or other imaginary lines are not acceptable. The use of census boundaries provides redistricting authorities with not only a definitive number of inhabitants in a fixed area, but with demographic information obtained from the federal census, which is essential to any redistricting plan.
- No precinct may contain more than 4,000 residents.
- Every precinct's population must be within five percent (5%) of the average precinct population for that ward or town. Ward populations must be within five percent (5%) of the average ward population for the city.
- Redrawn precinct and ward boundaries must not result in the dilution of minority group members' votes.

For state election purposes, precincts established during the re-precincting process may not be changed in a ward or town which is in more than one senatorial, representative or governor's council district. They may be changed for local elections only and in this case two sets of precinct lines must be maintained.

For the purposes of dividing a city or town into precincts and of apportioning representation in any elected municipal body, the figures reported by the federal census are the only numbers used.

CITY OF MELROSE

OFFICE OF THE CITY CLERK

Kristin Foote
City Clerk

562 Main Street
Melrose, Massachusetts 02176
Telephone – (781) 979-4116

To: Honorable City Council
City of Melrose

Date: September 30, 2021

Re: **Order No. 2022-39 Census Data of 2020, Map, Ward and Precinct Revisions**

Dear Honorable City Council,

Every ten years' federal census data is provided to the Office of the Secretary of the Commonwealth, as census liaison, for analysis and distribution to the 351 Massachusetts communities to be used as a basis for redistricting, should population variations occur. The 2020 census data reflects a 10.5% increase in Melrose population from 26,983 in 2010 to 29,817. As expected, the Ward and Precinct map of Melrose and corresponding boundary descriptions need revision based on this increase. According to the Secretary's Office the law requires that precincts as established by a city or town meet the following requirements where possible:

- Each new precinct must be "composed of compact and contiguous territory" without protruding fingers or long tails.
- Precincts must be bounded by the center-line of streets or other well defined boundaries such as streams or other bodies of water, railroad tracks, power lines or other clearly visible geographic figures. These features must be recognized as block boundaries by the United States Bureau of the Census and appear on their official block boundary maps. Rear lot lines or other imaginary lines are not acceptable. The use of census boundaries provides redistricting authorities with not only a definitive number of inhabitants in a fixed area, but with demographic information obtained from the federal census, which is essential to any redistricting plan.
- No precinct may contain more than 4,000 residents.
- Every precinct's population must be within five percent (5%) of the average precinct population for that ward or town. Ward populations must be within five percent (5%) of the average ward population for the city.
- Redrawn precinct and ward boundaries must not result in the dilution of minority group members' votes.

The SOC has taken the above factors into consideration when supplying the proposed materials. Attached hereto please find the information supplied by the Office of the Secretary for your review and approval.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Part I ADMINISTRATION OF THE GOVERNMENT

Title VIII ELECTIONS

Chapter 54 ELECTIONS

Section 1 DECENNIAL DIVISION OF CITIES INTO WARDS AND PRECINCTS

Section 1. In the year 2001, and every tenth year thereafter, no later than June fifteenth, a city, by vote of its city council may, or if the existing wards in such city do not contain, as nearly as can be ascertained, an equal number of inhabitants, shall make a new division of its territory into such number of wards as may be fixed by law. Any such vote of a city council hereunder dividing a city into wards shall, at the same time, divide each ward into such number of precincts as is required by section two. Within 7 days of the last day the city council may vote, the city clerk shall give written notice to the state secretary of the number and designation of wards and precincts provided for in this section and in section two, together with an official map and description of said wards and precincts indicating, as nearly as can be ascertained, the numbers of inhabitants residing therein. The provisions of this section and section two shall not apply to any city which has a special law to the contrary covering the procedure for the division of wards and precincts.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The state secretary shall make available to the local election districts review commission, for its scrutiny, the written notices, maps and descriptive information submitted to him by city clerks in reference to the new or unrevised wards and precincts of their respective cities under this section. If the said commission shall find that any such plan of new or unrevised wards or precincts of any city conflicts with the applicable requirements of this chapter, or is of questionable constitutionality, it shall transmit a written notice of such findings, with a clear indication of the deficiencies of such plan, to the mayor of such city, or in a city having a council-manager form of government to the city manager, not later than 35 days after the final day to give written notice to the state secretary. Said mayor or city manager shall, within 7 days following his receipt of such notice, present to the city council of such city his recommendations for a division of the city into wards and precincts free of the defects cited by the commission. If the city council shall fail to ordain such division, or a substitute division, conformable to this chapter within 7 days after said presentation by said mayor or city manager, he shall issue forthwith, not later than 14 days after the last day to receive notice from the local election district review commission, an executive order making a division of said city into wards and precincts subject to the approval of the local election districts review commission which shall take effect according to the provisions of this chapter, as though it had been ordained by the city council.

For any city that fails to act by the forty-ninth day following the final day to give notice to the state secretary, the local election districts review commission shall, within 15 days, make such division of the city into

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

wards and precincts or appoint a master who shall make such division which shall be subject to approval and amendment by the commission. The cost of redistricting by a master shall be paid by the city.

Should the state secretary determine that decennial federal census figures are available at such time as to allow this process to begin earlier, the state secretary shall designate the date on which such process shall begin.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Part I ADMINISTRATION OF THE GOVERNMENT

Title VIII ELECTIONS

Chapter 54 ELECTIONS

Section 2 DIVISION OF CITIES AND WARDS INTO VOTING PRECINCTS; CENSUS; EFFECT UPON FORMATION OF CONGRESSIONAL, REPRESENTATIVE, SENATORIAL OR COUNCILLOR DISTRICTS

Section 2. Each city shall be divided into convenient voting precincts, designated by numbers or letters and containing not more than four thousand inhabitants. Every ward shall constitute a voting precinct by itself, or shall be divided into precincts containing as nearly as may be an equal number of inhabitants, consisting of compact and contiguous territory entirely within the ward, and bounded, so far as possible, by the center line of known streets or ways or by other well defined limits that constitute block boundaries recognized by the United States bureau of the census. If a ward constituting one precinct contains more than four thousand inhabitants, the aldermen shall divide it into two or more voting precincts. They may so divide a ward or precinct containing less than four thousand inhabitants. Except as provided in section one, when new precincts are established, the new division shall take effect on the thirty-first day of December following the making thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Notwithstanding any authorization or requirement of this chapter, any precinct established or remaining unchanged following the decennial federal census shall remain unchanged for the purpose of forming congressional, representative, senatorial or councillor districts based on said census until the formation thereof as aforesaid, and if such precinct is within a ward the territory of which in such formation is included in two or more congressional, representative, senatorial or councillor districts, shall remain unchanged for the purpose of electing such officers so long as such districts are required by the constitution to be used for such purpose.

City of Melrose
562 Main Street
Melrose, MA 02176

From : Tim Bailey
62 Glen Street
Melrose, MA 02176

Date: 09/28/2021

Dear Denise,

Thank you very much for the opportunity to be considered for a position on the Melrose Planning Board. My interest in joining the planning board is for many reasons. The overarching reason is I love the City of Melrose and want to contribute to its continued success and excellent reputation.

That said, I have been a registered architect since 2009 (12 years) and have been working professionally in a firm in the Seaport (Margulies Perruzzi Architects) since 2005. My interest in architecture (mostly as a designer) makes me appreciate the built environment around me and gives me a great background on what existing conditions to cherish and preserve, and what conditions could be improved and evolve to create and even better environment for the myself and others that visit and live in Melrose.

I have been a Partner at Margulies Perruzzi for the last 6 years, and that position of part-owner, has made me branch out into areas of management and leading my company as a designer. My work also requires me to present on behalf of my clients to other respective planning boards, so I am already very familiar with the process of how the planning board will work. I have helped my clients to not only design buildings that feed economic and social development, but ones that are also designed in a way that are sensitive to sites they reside on, sensitive to neighboring entities, and provide positive impacts for the client and the city.

Lastly, I have some personal goals as an architect which I think can contribute to the Melrose Planning board. I appreciate good design and would look to contribute to the board with that design background. Also, sustainability is a big part of my personal and professional life. I am LEED registered professional and strive to be more sustainable not only for the projects that I design, but for the life I live in general.

In conclusion, I hope that for the reasons mentioned above (and I am sure the many reasons that will evolve in the future), I am appreciative of your consideration for this opening on the Melrose Planning Board. I am eager to contribute in a meaningful way to help not only the city of Melrose but the people that call Melrose home, and visitors alike.

Attached is my professional resume, but more information is available on LinkedIn as well.

SECTION 3

PROJECT TEAM

TEAM RESUME

TIM BAILEY, AIA, LEED AP BD+C

SENIOR ARCHITECT | ASSOCIATE PARTNER

Tim is an award-winning architect who's leadership plays a critical role in the design of Real Estate projects across the firm. An advocate for high-performance building repositioning, creative office space and sustainable urban development, Tim leads large integrated projects, providing expertise on the design of the building, and the interiors. His work bridges the shared interest of both building owner and user conveying both parties' objectives for designations such as "Best Place to Work," and "Top Place to Work in Boston."

CONTENTS

★ *Award Winner*

RELEVANT PROJECTS

» **RREEF 50 Staniford Street:** Repositioning of this property in Boston's West End. The project transformed the facade, lobby, and the building's relationship to the street. Complicated property ownership required a robust civic outreach effort.

» ★ **Boston Scientific:** LEED Gold 110,000 SF new building and interior design of their Marlborough headquarters, including a training center, innovation cafe, executive board room amenities, and television recording studio.

» ★ **Hobbs Brook Management:** This 315,000 SF new Class A, LEED-Gold building at 275 Wyman St. on the Hobbs Brook campus in Waltham includes a fitness center, café, kitchen with servery, and a two-story lobby and terrace. An exterior glass canopy with a covered walkway leads to a 1,000+ car parking garage.

» **FM Global:** LEED Silver certified; 80,000 SF new building interior fit-up space located in a multi-tenant building in Norwood, MA. Included in the building is a medical center, cafeteria, fitness center, servery and offices spaces. The building was turned over to Dedham Medical Association in June 2012 to start their tenant work.

» ★ **Cimpress/Vistaprint:** Leasing space, Cimpress and its well-known brand Vistaprint retained MP to provide LEED Gold interior design services to their new 200,000 SF N. American headquarters. The space features an executive suite, a variety of conference rooms and huddle spaces, a library, game room, telepresence room, training suite, data center, and a 1,200 SF network operations center with raised flooring.

BRIAN GREGORY

American Institute of Architects | No. 952322

An architect by training, urban planner by practice. I operate at the intersection of buildings and the public realm, crafting contextual design frameworks that build community concensus by translating shared aspirations into actionable visions. I enjoy exploring the interplay between infrastructure and the built environment, focusing on synergies between housing, transit, open space, and urban form.

Mayor Paul Brodeur

Melrose City Hall

562 Main St, Melrose MA

November 4, 2021

Dear Mayor Brodeur,

I'm writing to express my keen interest in joining the Melrose Planning Board. When my wife and I were searching for a place to put down roots we instantly fell in love Melrose for a multitude of reasons- the tight-knit yet open and welcoming community, the palpable sense of civic pride, its walkability and intact, vibrant downtown, its robust connections to public transit, its rich historic fabric, and its proximity to amazing natural resources. As the greater Boston region faces intense pressure to meet an ever-increasing demand for housing, it's imperative that Melrose thoughtfully, purposefully, and proactively plan for smart, sustainable growth that invigorates our downtown businesses, expands access to a range of transit-oriented housing, and protects our cherished open spaces.

I believe that my professional training and personal experiences would allow me to meaningfully help the City chart a future that grows the community by building upon and reinforcing the amazing assets and attributes that attracted my family to Melrose. I am trained as an architect and urban planner, and over the course of my career have had the opportunity to work on projects ranging from historic single-family renovations to large-scale planning efforts for city neighborhoods. I have conducted design reviews of development proposals on behalf of municipalities as well as aided towns and cities in understanding the redevelopment potential of underutilized properties. I have interpreted, written, and updated municipal zoning code and crafted corresponding illustrated design guidelines to create easily understandable and predictable development standards. And I had the opportunity to serve on the board of an affordable housing Community Development Corporation for seven years while living in East Boston. I would be honored to be able to contribute what I have learned from these experiences to my community.

For all these reasons and more I would greatly appreciate your support for my joining the Melrose Planning Board. I welcome any and all questions from yourself, the Office of Planning and Community Development, the City Council, Planning Board Members, and fellow Melrosians, and am hopeful that I can soon begin to contribute my passion and talents to this wonderful community I call home.

Sincerely,

Brian Gregory, AIA

GALMUDUG INC
28 ACADEMY COURT
ROXBURY, MA 02119

For assistance you may call us at:
1-800-829-4933

IF YOU WRITE, ATTACH THE
STUB AT THE END OF THIS NOTICE.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 83-3015292. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 1120 04/15/2020

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, *Accounting Periods and Methods*.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

IMPORTANT INFORMATION FOR S CORPORATION ELECTION:

If you intend to elect to file your return as a small business corporation, an election to file a Form 1120-S must be made within certain timeframes and the corporation must meet certain tests. All of this information is included in the instructions for Form 2553, *Election by a Small Business Corporation*.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(IRS USE ONLY) 575A 01-04-2019 GALM B 9999999999 SS-4

If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly, which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, *Electronic Choices to Pay All Your Federal Taxes*. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

To obtain tax forms and publications, including those referenced in this notice, visit our Web site at www.irs.gov. If you do not have access to the Internet, call 1-800-829-3676 (TTY/TDD 1-800-829-4059) or visit your local IRS office.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. **This notice is issued only one time and the IRS will not be able to generate a duplicate copy for you.** You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

If you have questions about your EIN, you can call us at the phone number or write to us at the address shown at the top of this notice. If you write, please tear off the stub at the bottom of this notice and send it along with your letter. If you do not need to write us, do not complete and return the stub.

Your name control associated with this EIN is GALM. You will need to provide this information, along with your EIN, if you file your returns electronically.

Thank you for your cooperation.

Important information for vehicle owners

- Certificate of Registration: Every person operating a motor vehicle shall have the Certificate of Registration for the motor vehicle and/or trailer, in the vehicle, in some easily accessible place. The records of the RMV constitute the official status of the vehicle registration.
- Change of Address: By law, you must report any change of address to the RMV within 30 days. Visit mass.gov/rmv to change your address. Once you have reported the address change to the RMV, please write corrected address in box provided above.
- No Insurance Card Required: Massachusetts law does not require an insurance card. M.G.L. Chapter 90, Section 34, ar Chapter 175, Section 113A, requires the vehicle's owner to maintain a compulsory motor vehicle liability insurance policy or bond for bodily injury coverage and property damage insurance. The insurer is required by law to electronically notify the Registry of Motor Vehicles if coverage lapses. The vehicle owner is then notified by the RMV to obtain new insurance within 10 days or the registration will be revoked. Bonds are filed with the State Treasurer's Office.
- Transferring Your Plates: Massachusetts General Law (M.G.L. Chapter 90, Section 2) allows you to transfer valid registration plates from this vehicle to a newly acquired new or used motor vehicle or trailer while you obtain insurance and a new registration. See the Transferring a Registration Section on the RMV's website at mass.gov/rmv for more information.
- Cancel the registration plates if:
  - The vehicle has been sold or junked and the registration is not going to be transferred to another vehicle.
  - You move to another state and you register the vehicle in that state.
  - The insurance policy is not renewed or is cancelled and there is no plan to obtain a new policy.

Skip the Line, Go Online! Visit Mass.Gov/RMV for list of available transactions.

Shannon Phillips, Esq.
City Solicitor
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Ms. Phillips,

As you probably know, lower Main Street in Ward 5 is the subject of a bike lane pilot project, which has resulted in temporary parking restrictions, narrowing of the roadway, and the inclusion of dedicated pathways for bicyclists in the north and south directions.

In my communications with DPW Director Elena Proakis Ellis, who also serves as Chair of the Melrose Traffic Commission, it is clear that the administration has taken the position that the Traffic Commission has limited authority over any permanent changes to lower Main Street in connection with this project. For example, in an e-mail to me from August 23rd, Director Proakis Ellis wrote, *"The only changes within TC jurisdiction are changes to parking regulations and the addition of new crosswalks. Nothing else in the pilot is regulatory in nature."* Please be advised that Director Proakis Ellis has communicated similar sentiments to the abutters.

Although one might argue that there is precedent in Melrose for creating bike lanes without Traffic Commission approval, the legality of doing so is questionable. As such, I am requesting a written, independent legal opinion from you as it relates to the following questions: 1) Does the creation of a permanent, dedicated bike lane require Traffic Commission approval? 2) Can the administration unilaterally create a dedicated bike lane without a public process? 3) If the administration has the authority to do so, where specifically does that authority exist?

When considering these questions, it is important to draw a distinction between a Dedicated Bike Lane and an Advisory Bike Lane. Dedicated bike lanes, as proposed by this pilot, are reserved for the **sole use** of bicyclists, thus making them regulatory by their very nature. As such, I believe that the Traffic Commission, not the Mayor's Office or the Department of Public Works, has exclusive jurisdiction over the creation of a Dedicated Bike Lane. As explained in a 2017 white paper published by Alta Planning and Design, an Oregon-based international transportation consulting firm, *"Unlike dedicated bicycle lanes, which prohibit motor vehicle use, an Advisory Bike Lane overlaps with the motor vehicle travel area, and it is expected that motorists will regularly encounter meeting or passing situations where driving in the bike lane is necessary and safe."*

To the uninitiated, an Advisory Bike Lane may be more easily recognized by a series of painted, broken lines on the roadway adjacent to the flow of traffic. Were the administration proposing a design of this kind, I would concede that Traffic Commission approval would not be necessary,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

because it would not be a regulatory measure. However, the design of the bike lanes on lower Main Street and details communicated to the public about them, makes clear that the lanes are anything but advisory.

As you know, M.G.L. c. 89, s. 4D prohibits parking any vehicle on *"an on-street path or lane designated by an official sign or marking for the exclusive use of bicycles, except in cases of emergency."* Additionally, operating a motor vehicle in a bike lane may constitute a civil or criminal violation, depending on the intent of the motorist and the manner in which he/she operates. When considering that interfering with a bicyclist's ability to ride safely and unfettered on a bike path -- whether willfully, negligently, or unknowingly -- can be enforced by the Melrose Police Department or any other agency with Chapter 90 powers, it seems to validate the argument that a dedicated bike lane is, in fact, a regulatory matter. Reflecting on the following question offers further validation: If the Traffic Commission considers crosswalks to be regulatory, why would bike lanes be any different? Both are designated pathways on public ways that are intended to protect the people who use them; and both have corresponding statutes under state law that provide an enforcement mechanism when motorists unduly interfere with them.

In the case of this pilot project, I am very concerned that this administration, like prior administrations, is cherry-picking what does and does not go before the Traffic Commission as a way to execute its vision outside of a deliberative and transparent public process. Although I appreciate the administration's efforts to engage the public through an informational meeting held on July 26th and by scheduling an upcoming neighborhood meeting with the abutters, I believe that a formal public process is needed. Not only is it needed, but it appears to be required in the case of what has been proposed, for it is clear that what is pending would amount to a regulatory change, not an advisory one. As such, the decision-making process should play out in a public meeting; and the ultimate decision as to what should or should not happen to lower Main Street should rest with the statutory, authoritative body as elucidated by the Acts of 1998, c. 76, s. 4: An Act Establishing a Traffic Commission in the City of Melrose. In accordance with its responsibilities and authority, as established by the Board of Aldermen and as codified by the Massachusetts Legislature, there seems to be little question the that Melrose Traffic Commission should decide the merits of this proposal (or any modified version that follows) before any permanent changes to the roadway are made.

I look forward to receiving your legal opinion on this matter. Thank you in advance for your assistance.

Sincerely,

Shawn M. MacMaster
City Councilor, Ward 5
City of Melrose

August 17, 2021

Elena Proakis Ellis
Director of Public Works
City of Melrose
72 Tremont Street
Melrose, MA 02176

Dear Ms. Proakis Ellis,

I am writing as a follow up to my August 7th e-mail to you regarding the Lower Main Street Pilot Project. I very much appreciate the time you took in responding to me that same day. To be clear, the purpose of my e-mail was not to suggest that the process underway be paused, but rather that your team and I have a concurrent conversation, in the form of an in-person meeting, in order to account for the concerns that have been brought to my attention by residential and commercial abutters alike.

Considering the timeline you have laid out, I believe that it would be imprudent to wait until the conclusion of the pilot project to address some of the conspicuous issues that need not be validated by the pilot. Although data from the pilot will most certainly be instructive to this project, the historical experiences of those who live and operate businesses on Lower Main Street -- a number of them having been on Main Street for many years now -- *already* offers a deep and vast well of critical data to consider. Put another way, the abutters are best capable of familiarizing the City with the potential impacts of this project before the commencement of any substantive work.

While some of the abutters were heard at the July 26th virtual neighborhood meeting, others did not participate for a variety of reasons. From what I understand (as just one example), Metropolitan Credit Union, Melrose Glass, Stead Properties, and Simple Fitness were never notified of the meeting. Concerning to me is that there are three primary stakeholders with respect to this project (residential abutters, commercial abutters, and the bicycle community), yet two of the three (the neighborhood stakeholders) were not consulted before designs were commissioned.

Please understand that I convey this not in an attempt to play "Monday morning quarterback," but rather to help you and other members of the administration understand *why* the neighborhood feels left out of the process and why many believe that the fate of Lower Main Street has already been determined. These concerns are further buttressed by the fact that I myself was not briefed on the timing, nature, and scope of the project, nor did I see the schematics until the public meeting was held. In fact, on February 2, 2020, Patrick Prendergast from the Mayor's Office reached out to me to inform me that the administration was considering adding bicycle lanes to Lower Main Street. At that time, I informed Mr. Prendergast that, when more information became available, a neighborhood meeting should occur in order to elicit feedback from the abutters. It wasn't until July 15th (seventeen months later) that I learned anything further about this project, having received the same public e-notification that went out to residents that afternoon. When checking my e-mail later that day, I saw that a related e-mail was sent to the City Council -- as well as a follow-up e-mail directly to me -- the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

prior evening. Although there were clearly many months of planning underway with respect to the pilot, which could have given ample time for the abutters and me as the Ward Councilor to weigh in before plans were drawn up, to dwell on this oversight would not be constructive, nor would it be productive. I would much rather use these next few months to advocate that the City prioritize abutter concerns *before* the pilot period concludes. Doing so would help mitigate some of the inevitable disruptions and impacts of any surface-level changes to Lower Main Street and hopefully mollify some of the neighborhood concerns that have arisen to date.

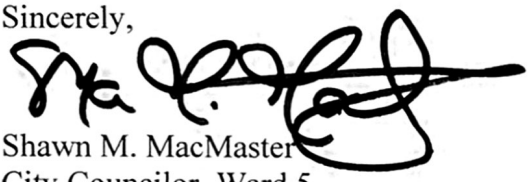
These concerns include, but are not limited to, the following:

- Safe access in and out of residential driveways
- Reduced/eliminated on-street parking for businesses
- Delayed access to properties in the event of an emergency (e.g., police and fire)
- Snow removal from bike lanes and street corners
- Loss of curbside parking for visitors, including home healthcare aides
- Loss of curbside access for contractors, service providers, and delivery workers
- Delivery trucks parking and/or idling on adjacent streets

Furthermore, from the bicycle lane examples depicted in the PowerPoint presentation, what is being considered does not seem to account for the unique characteristics of a *residential* neighborhood. In fact, the examples contained in the PowerPoint portray areas very different from Lower Main Street: i.e., a commercial area (Boston), rural areas (Natick and Wayland), and a divided highway (Somerville/Medford). This beckons the question: were areas comparable to Lower Washington Street considered during the pilot design process -- specifically, areas in communities where bicycle lanes exist in largely residential neighborhoods?

In addition, a few other questions come to mind. What, if any, anticipated costs will be incurred to fund any aspect of this project, whether that be direct or indirect costs? Moreover, do you expect there to be any ancillary costs, such as the need to purchase specialized equipment in order to remove snow from the bicycle lanes? If so, have funding sources been identified? Have there been any future expenditures (or any likely expenditures, for that matter) determined which will require City Council approval?

In light of the questions and concerns raised herein, there are several recommendations that I would like to offer. First, as the City embarks on this ambitious project, it would behoove us -- as I said during the neighborhood meeting -- to make a concerted effort to enhance the *entire* corridor, including making improvements to both stretches of sidewalk running from West/East Wyoming to Sylvan, and to better maintain the trees that currently line the street. Second, I recommend convening a business roundtable in which representatives from the City and myself meet with the business owners mentioned earlier to brief them on the initiative and hear out their concerns. Third, rather than conduct one large, general meeting at the end of the pilot project, I would encourage a separate meeting with the abutters, so that their concerns are not diluted by the voices of those who do not live and work in the neighborhood. That being said, as Main Street is not a private way and is used by residents from across the City, I do think that a general meeting to elicit broader feedback is certainly in order -- and important. Finally, I was pleased to hear that a post-pilot survey would be distributed. As I am sure you can appreciate, having a baseline survey from which to compare future data is paramount. With this in mind, I strongly recommend that the City consider developing and circulating targeted, pre-pilot surveys to the three primary stakeholder groups. As their concerns and needs are unique from one another, a universal survey would be far less reliable. For instance, having a better understanding of the ways in which residential abutters rely on curbside parking and knowing the frequency by which they have visitors to their homes is important. So too is having a better understanding of the challenges that Lower Main Street residents currently face when pulling into and backing out of their driveways, especially during the winter months. Similarly, for commercial



Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

abutters, understanding how they rely on curbside parking is important, as well as the potential impacts on their business operations should on-street parking be reduced or eliminated. Data from a pre-pilot survey when compared with data from a post-pilot survey can ascertain the degree by which the pilot may have exacerbated existing problems.

Having worked together on past municipal projects and having enjoyed a strong working relationship with you, I am confident that we can work together to ensure that the individual and collective concerns of the abutters are weighed heavily before any final decisions are made, even if that means extending certain deadlines associated with this project.

I look forward to continuing this discussion with you. For now, thank you for your attention to the concerns that I have raised.

Sincerely,

Shawn M. MacMaster

Shawn M. MacMaster
City Councilor, Ward 5
City of Melrose

Re: Legal Opinion: Bike Lanes and Traffic Commission Approval

Councilor MacMaster:

I write in response to your letter dated September 26, 2021 in which you requested a formal legal opinion relative to the decision-making authority for the creation and placement of bike lanes within the City of Melrose.

After careful review, it is my opinion that Section 4 of the City of Melrose Traffic Commission's (Commission) enabling legislation clearly vests the Commission with the exclusive decision-making authority over the approval and placement of dedicated (permanent) bike lanes on streets under the control of the City of Melrose.

As you are aware, Section 4 of the Melrose Traffic Commission's enabling legislation provides in pertinent part, "the Traffic Commission shall have exclusive authority, except as otherwise herein provided, to adopt, amend, alter and repeal rules and regulations, not inconsistent with the General Laws as modified by this act, relative to vehicular street traffic and parking in the city and to the movement, stopping, and standing of vehicles on and their exclusion from, all or any streets, ways, highways, roads and parkways, under the control of the city…"*(emphasis supplied).* [1] The Melrose Traffic Commission meets to consider and vote upon *regulatory* traffic and parking issues such as proposed new parking restrictions, speed limit changes, modifications to roadway regulations (one way, stop signs, etc.), and associated regulatory signage.

[1] See Chapter 76 of the Acts of 1998, accepted by the City of Melrose 6- 15-1998 by Ord. No. 97-30A, *An Act Establishing a Traffic Commission in the City of Melrose*.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Not only does the creation of bike lanes implicate parking changes, but also the changed flow of vehicular traffic movement along streets under the control of the City of Melrose. Creation of such bike lanes allows for additional criminal/civil violations which are enforceable by law enforcement through state law should passage over the dedicated bike lanes be made (either with vehicles moving, stopping, or parking). M.G.L. c. 89, s. 4D for example prohibits parking any vehicle on "an on-street path or lane designated by an official sign or marking for the exclusive use of bicycles, except in case of emergency." This state law went into effect in 2017 and results in a $50 fine for any violators when enforced (tickets aren't considered moving violations). Furthermore, M.G.L. c. 90 provides law enforcement with the ability to issue violations against motorists for interfering with the path of travel of bicyclists.

As with the approval and placement of crosswalks within the City of Melrose, it is my opinion that the approval and placement of a dedicated bike lane is in fact *regulatory* in nature, and the decision-making authority lies with the Commission as dictated by its powers set forth in the Acts of 1998, c. 76, s. 4: *An Act Establishing a Traffic Commission in the City of Melrose.*

I am available to discuss this matter further and to answer any additional questions you might have in this regard.

Very truly yours,

Shannon Phillips

William Francis Galvin
Secretary of the Commonwealth - 2020 Census Liaison

United States Census 2020

Local Re-Precincting

Municipalities have the initial responsibility of establishing ward and precinct boundaries, which become the building blocks in determining legislative and local government districts.

A **precinct** is the smallest geographically bounded unit used for state election purposes. A precinct is where one polling place in a municipality is located. A **ward** is a geographically bounded unit for election purposes, which consists of one or more precincts.

Towns with representative town meetings elect their members by precinct and cities choose political party committees and sometimes city council members or other officials by ward. In some municipalities, the council members are elected by districts, which are created using precincts.

After obtaining the necessary local approval, each city and town must submit their plans, including maps, population information and a legal description of the boundaries of each ward and precinct, to the Secretary of the Commonwealth who thereafter makes this information and material available to an independent commission known as the **Local Election Districts Review Commission (LEDRC)**.

ESTABLISHMENT OF WARDS AND PRECINCTS

Each city and town, unless otherwise exempt, is required to establish ward and precinct lines every ten years, following the federal census if:

- the wards of a city do not contain approximately equal numbers of residents so that each ward's population is within 5 percent of the average;
- a ward not divided into precincts contains more than 4,000 residents;
- a town contains more than 6,200 residents; or
- a precinct contains more than 4,000 residents.

Even if a city or town does not need to re-draw their precinct lines because their existing plan remains in conformity with the law, they must still file all the necessary information based on the latest federal census figures and have the plan reapproved by the LEDRC.

STANDARDS

The law requires that voting precincts established by a city or town must meet the following requirements:

- Each new precinct must be "composed of compact and contiguous territory" without protruding fingers or long tails.
- Precincts must be bounded by the center-line of streets or other well defined boundaries such as streams or other bodies of water, railroad tracks, power lines or other clearly visible geographic figures. These features must be recognized as block boundaries by the United States Bureau of the Census and appear on their official block boundary maps. Rear lot lines or other imaginary lines are not acceptable. The use of census boundaries provides redistricting authorities with not only a definitive number of inhabitants in a fixed area, but with demographic information obtained from the federal census, which is essential to any redistricting plan.
- No precinct may contain more than 4,000 residents.
- Every precinct's population must be within five percent (5%) of the average precinct population for that ward or town. Ward populations must be within five percent (5%) of the average ward population for the city.
- Redrawn precinct and ward boundaries must not result in the dilution of minority group members' votes.

For state election purposes, precincts established during the re-precincting process may not be changed in a ward or town which is in more than one senatorial, representative or governor's council district. They may be changed for local elections only and in this case two sets of precinct lines must be maintained.

For the purposes of dividing a city or town into precincts and of apportioning representation in any elected municipal body, the figures reported by the federal census are the only numbers used.

CITY OF MELROSE

OFFICE OF THE CITY CLERK

Kristin Foote
City Clerk

562 Main Street
Melrose, Massachusetts 02176
Telephone – (781) 979-4116

To: Honorable City Council
City of Melrose

Date: September 30, 2021

Re: **Order No. 2022-39 Census Data of 2020, Map, Ward and Precinct Revisions**

Dear Honorable City Council,

Every ten years' federal census data is provided to the Office of the Secretary of the Commonwealth, as census liaison, for analysis and distribution to the 351 Massachusetts communities to be used as a basis for redistricting, should population variations occur. The 2020 census data reflects a 10.5% increase in Melrose population from 26,983 in 2010 to 29,817. As expected, the Ward and Precinct map of Melrose and corresponding boundary descriptions need revision based on this increase. According to the Secretary's Office the law requires that precincts as established by a city or town meet the following requirements where possible:

- Each new precinct must be "composed of compact and contiguous territory" without protruding fingers or long tails.
- Precincts must be bounded by the center-line of streets or other well defined boundaries such as streams or other bodies of water, railroad tracks, power lines or other clearly visible geographic figures. These features must be recognized as block boundaries by the United States Bureau of the Census and appear on their official block boundary maps. Rear lot lines or other imaginary lines are not acceptable. The use of census boundaries provides redistricting authorities with not only a definitive number of inhabitants in a fixed area, but with demographic information obtained from the federal census, which is essential to any redistricting plan.
- No precinct may contain more than 4,000 residents.
- Every precinct's population must be within five percent (5%) of the average precinct population for that ward or town. Ward populations must be within five percent (5%) of the average ward population for the city.
- Redrawn precinct and ward boundaries must not result in the dilution of minority group members' votes.

The SOC has taken the above factors into consideration when supplying the proposed materials. Attached hereto please find the information supplied by the Office of the Secretary for your review and approval.

Part I ADMINISTRATION OF THE GOVERNMENT

Title VIII ELECTIONS

Chapter 54 ELECTIONS

Section 1 DECENNIAL DIVISION OF CITIES INTO WARDS AND PRECINCTS

Section 1. In the year 2001, and every tenth year thereafter, no later than June fifteenth, a city, by vote of its city council may, or if the existing wards in such city do not contain, as nearly as can be ascertained, an equal number of inhabitants, shall make a new division of its territory into such number of wards as may be fixed by law. Any such vote of a city council hereunder dividing a city into wards shall, at the same time, divide each ward into such number of precincts as is required by section two. Within 7 days of the last day the city council may vote, the city clerk shall give written notice to the state secretary of the number and designation of wards and precincts provided for in this section and in section two, together with an official map and description of said wards and precincts indicating, as nearly as can be ascertained, the numbers of inhabitants residing therein. The provisions of this section and section two shall not apply to any city which has a special law to the contrary covering the procedure for the division of wards and precincts.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The state secretary shall make available to the local election districts review commission, for its scrutiny, the written notices, maps and descriptive information submitted to him by city clerks in reference to the new or unrevised wards and precincts of their respective cities under this section. If the said commission shall find that any such plan of new or unrevised wards or precincts of any city conflicts with the applicable requirements of this chapter, or is of questionable constitutionality, it shall transmit a written notice of such findings, with a clear indication of the deficiencies of such plan, to the mayor of such city, or in a city having a council-manager form of government to the city manager, not later than 35 days after the final day to give written notice to the state secretary. Said mayor or city manager shall, within 7 days following his receipt of such notice, present to the city council of such city his recommendations for a division of the city into wards and precincts free of the defects cited by the commission. If the city council shall fail to ordain such division, or a substitute division, conformable to this chapter within 7 days after said presentation by said mayor or city manager, he shall issue forthwith, not later than 14 days after the last day to receive notice from the local election district review commission, an executive order making a division of said city into wards and precincts subject to the approval of the local election districts review commission which shall take effect according to the provisions of this chapter, as though it had been ordained by the city council.

For any city that fails to act by the forty-ninth day following the final day to give notice to the state secretary, the local election districts review commission shall, within 15 days, make such division of the city into

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

wards and precincts or appoint a master who shall make such division which shall be subject to approval and amendment by the commission. The cost of redistricting by a master shall be paid by the city.

Should the state secretary determine that decennial federal census figures are available at such time as to allow this process to begin earlier, the state secretary shall designate the date on which such process shall begin.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Part I ADMINISTRATION OF THE GOVERNMENT

Title VIII ELECTIONS

Chapter 54 ELECTIONS

Section 2 DIVISION OF CITIES AND WARDS INTO VOTING PRECINCTS; CENSUS; EFFECT UPON FORMATION OF CONGRESSIONAL, REPRESENTATIVE, SENATORIAL OR COUNCILLOR DISTRICTS

Section 2. Each city shall be divided into convenient voting precincts, designated by numbers or letters and containing not more than four thousand inhabitants. Every ward shall constitute a voting precinct by itself, or shall be divided into precincts containing as nearly as may be an equal number of inhabitants, consisting of compact and contiguous territory entirely within the ward, and bounded, so far as possible, by the center line of known streets or ways or by other well defined limits that constitute block boundaries recognized by the United States bureau of the census. If a ward constituting one precinct contains more than four thousand inhabitants, the aldermen shall divide it into two or more voting precincts. They may so divide a ward or precinct containing less than four thousand inhabitants. Except as provided in section one, when new precincts are established, the new division shall take effect on the thirty-first day of December following the making thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Notwithstanding any authorization or requirement of this chapter, any precinct established or remaining unchanged following the decennial federal census shall remain unchanged for the purpose of forming congressional, representative, senatorial or councillor districts based on said census until the formation thereof as aforesaid, and if such precinct is within a ward the territory of which in such formation is included in two or more congressional, representative, senatorial or councillor districts, shall remain unchanged for the purpose of electing such officers so long as such districts are required by the constitution to be used for such purpose.

CITY CLERK MELROSE-MA
2021 OCT 19 AM10:37

TO: CITY CLERK
DATE: October 19, 2021

Please docket, file and schedule:

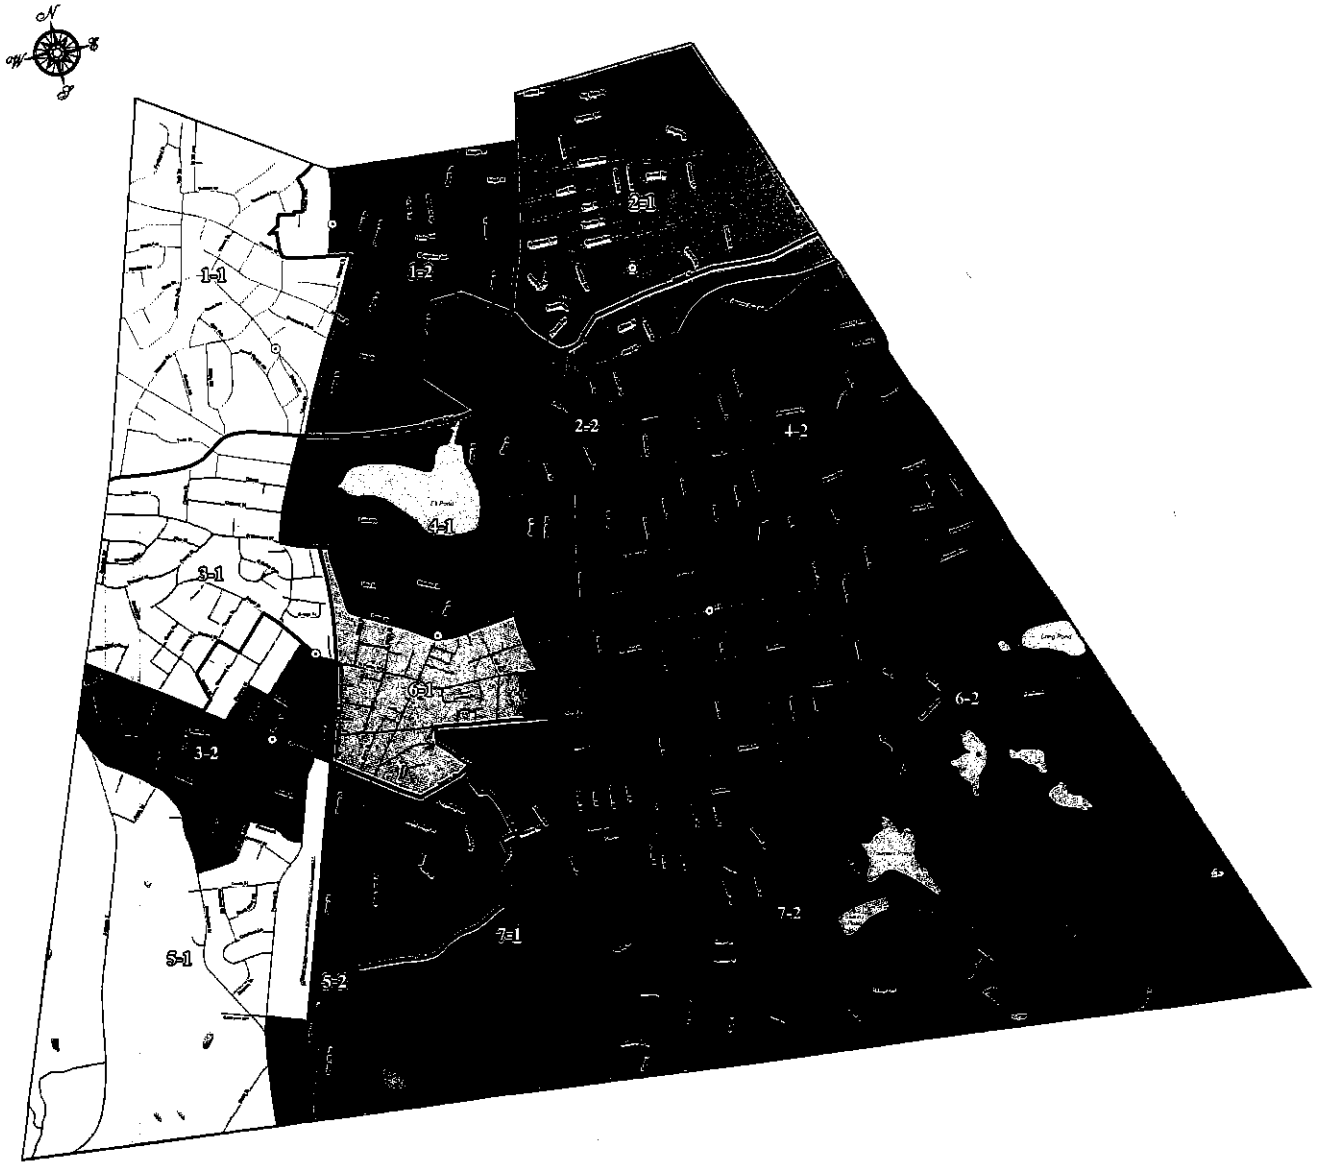
Motion to Reconsider: Order 2022-39

This motion is filed pursuant to Rule 44 of the Rules of Order of the Melrose City Council.

As reason thereof, the body was deprived of material information that may have affected how councilors voted at the October 18, 2021 meeting of the City Council.

In support of this motion, representations were made at the October 14, 2021 Finance Committee meeting that the City was in possession of a single, draft map, and that this map was the only one reviewed and considered by the Re-Precincting Working Group prior to the order in question having been filed. Recently, it has been learned that an earlier iteration of a map exists and was submitted to the City from the Secretary of State's Office and reviewed by the Reprecincting Working Group. A copy of that map is attached to this motion. There may have been an additional Re-Precincting map produced by the City Office of Planning and Development and may or may not have been reviewed and considered by the Reprecincting Working Group.

The City Council was not advised of, nor had the opportunity to review and discuss, this information prior to voting on the order.



Until this motion is heard and settled by the full Council, the City Clerk is hereby directed to not furnish the approved map to the Secretary of State's Office or to any external agency involved in the reprecincting process.

Respectfully submitted,

John Tramontozzi,
Melrose City Council, Ward 1

Please docket, file and schedule:

Motion to WITHDRAW my Motion to reconsider: Order 2022-39

Kindly withdraw my motion to reconsider Order 2022-39.

In support of this motion there is no need to consider a motion to reconsider since the purpose of the initial filing has been accomplished. By having filed the motion, the simulation map created by the Secretary of State's Office, which was attached to the filing, is now part of the original order and memorialized in IQM2. That map, which is based on population estimates, was released for training and technical assistance purposes, while the Secretary of State's Office awaited official census data from the United States Census Bureau.

As I understand it, the map on which the City Council voted at the October 18th meeting was the only map considered by the working group that utilized reliable census data. While it is important that simulation maps be part of the public record, it is unlikely to have affected the manner in which councilors voted. Accordingly, the motion to reconsider is hereby withdrawn.

Respectfully submitted,

John Tramontozzi,
Melrose City Council, Ward 1

MEMORANDUM

Date: November 3, 2021

To: City of Melrose City Council

From: Elena Proakis Ellis, Director of Public Works

cc: Paul Brodeur, Mayor
Patrick Dello Russo, CFO/Auditor
Kerriann Golden, Assistant City Auditor
Jim Troup, Asst. DPW Director – Admin. & Finance

Subject: Request to Accept Rideshare Funds

Each year, the City of Melrose receives a disbursement from the Department of Public Utilities associated with the services provided by rideshare companies. The payment is based on 10 cents per ride initiated in Melrose. We are hereby requesting acceptance of funds in the amount of $9,049.20 to be used on projects that address infrastructure impacted by rideshare services. The amount of $9,049.20 represents the municipal portion of 10 cents per ride for 90,492 rides that originated in Melrose in 2020. This number is down from prior years due to the pandemic but still provides value in our ability to complete small projects that do not have another identified funding source.

The 2020 funds are proposed to be used to install accessible curb ramps at the intersection of Howard Street and Sunset Road. This portion of Howard Street was recommended for Complete Streets improvements in the City's 2017 Prioritization Plan, however the present funding approach from MassDOT will not result in work being completed along this corridor for many years via the competitive MassDOT Complete Streets grant program. While other intersections along this corridor may require upgrades to become fully accessible in the future (e.g., tactile warning pads), the intersection at Sunset Road is currently the only barrier to a continuous path with curb ramps on the north side of Howard Street from the Saugus line to Green Street. Completion of this work will substantially improve accessibility along this corridor.

There is no City match component to this funding source. We would be happy to answer any questions about this requested acceptance of funds.

Meeting Date: November 15, 2021
Subject: Classification of Property
Order #: ORDER-2022-49

In compliance with the provisions of Chapter 40, Section 56 of M.G.L. relating to the classification of property, the Board of Assessors requests that a date be set for a classification hearing and final vote on Monday, December 6th, 2021 at 8:00PM.

The Board of Assessors will provide the City Council with information necessary to make a decision on adopting a residential factor and thereby determining the percentages of local tax levy to be borne by each class of real and personal property for the Fiscal Year 2022.

INFORMATION ITEM 2022-1

An Informational Order on Melrose Kind Day, November 20, 2021

BE IT ORDERED, that representatives from Melrose Kind come before the City Council to make a presentation regarding their plans throughout our community for Melrose Kind Day scheduled for Saturday, November 20th.

Submitted By

Councilor Mark D. Garipay, Ward 4
Councilor Jack Eccles, At-Large

COMMENTS - Current Meeting:

Representatives from the non-profit Melrose Kind discuss their efforts advising that Melrose public schools have been included in Kindness outreach with the elementary schools letter writing to seniors; middle schoolers writing get well and thank you's to hospital workers and over 900 impact letters sent to Melrose educators from high school students. Organizers note the generosity of the Dunkin buisness partner donating over $2,500.

Councilor Tramontozzi asks for social media/website contact information and where donations can be directed. The Council learns there is a donate now option on the Melrose Kind website.

Northeast Metropolitan Regional Vocational School District
Vote of the School Committee to Approve New School Borrowing

VOTED: That the Northeast Metropolitan Regional Vocational School District Committee hereby appropriates the amount of $317,422,620 for the purpose of paying costs of designing, engineering, constructing and equipping the New Northeast Metropolitan Regional Vocational School and related athletic facilities located at 100 Hemlock Drive in Wakefield, MA 01880 including the payment of all costs incidental or related thereto (the "Project"), which school facility shall have an anticipated useful life as an educational facility for the instruction of school children of at least 50 years and for which the District may be eligible for a school construction grant from the Massachusetts School Building Authority ("MSBA"), said amount to be expended at the direction of the Northeast Metropolitan Regional Vocational School Committee. To meet this appropriation the District is authorized to borrow said amount, under and pursuant to Chapter 703 of the Acts of 1962, as amended, the District Agreement, as amended, or pursuant to any other enabling authority. The District acknowledges that the MSBA's grant program is a non-entitlement, discretionary program based on need as determined by the MSBA, and any Project costs the District incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the District; provided further that any grant that the District may receive from the MSBA shall not exceed the lesser of (1) seventy-six and eighty-four one hundredths percent (76.84%) of eligible, approved Project costs, as determined by the MSBA, or (2) the total maximum grant amount determined by the MSBA, and that the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the District and the MSBA. No amounts shall be borrowed pursuant to this vote in the event that a member city or town of the District shall express disapproval of the debt authorized by this vote within sixty (60) days of the date of adoption of this vote.

FURTHER VOTED: That within seven (7) days from the date on which this vote is adopted the Secretary be and hereby is instructed to notify the city council of each city and the board of selectmen of each town comprising the District as to the amount and general purposes of the debt herein authorized, as required by the District Agreement and by Chapter 703, Section 6(d), of the Acts of 1962, as amended.

PROPOSED RULES OF ORDER
MELROSE CITY COUNCIL

Special Committee on the Rules of Order

Councilor Shawn M. MacMaster, Chairman
Councilor Jack Eccles, Vice Chair
Councilor Mark Garipay
Councilor Jeffrey C. McNaught
Councilor Robb Stewart

September 8, 2021

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

OVERVIEW

The Special Committee on the Rules of Order was established by President Jennifer Grigoraitis in 2020 pursuant to Rule 25. Charged with modernizing the Council's governing rules, the Committee met on five occasions between November 11, 2020 and September 8, 2021 for a total of six hours. The Committee's scope of work involved simplifying the language of existing rules, addressing ambiguity, ensuring consistency in the use of terms, and offering recommendations for a series of revised and new rules.

Attached to this proposal is a commentary section; its purpose is to memorialize the intent behind the rules that, in accordance with our mandate, have been either substantially amended or newly created.

Respectfully submitted,

Special Committee on the Rules of Order

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

RULES OF ORDER

Proposed New Rules: 7A, 28, 31A, 35A, 55, 56, 57, 58

Rule 1 Regular Meetings of the City Council shall be held on the first and third Mondays of each month at 7:45 p.m. except as follows: (1) during July and August when there shall be one meeting each month on the third Monday; (2) when an election is to be held the following day such meeting shall be held on the following Monday; and (3) when a meeting falls on a holiday, such meeting shall be held on Tuesday.

Rule 2 A majority of the Council or any Committee thereof shall constitute a quorum.

PRESIDENT

Rule 3 The President shall take the chair at the scheduled hour, call the members to order and, on the appearance of a quorum, proceed with business.

Rule 4 In the absence of the President, the President Pro Tempore of the Council, who shall be the senior member in length of service present at the meeting, shall call the Council to order and preside over meetings until the President resumes the Chair. When two or more members have the same seniority, names shall be drawn by the City Clerk thirty (30) minutes before the commencement of the meeting in the presence of the Clerk of Committees and at least one (1) member of the body, to determine who the presiding officer will be.

In the event that the longest serving member of the Council is elected President, the second longest serving member of the body shall serve as President Pro Tempore. When two or more members have the same seniority, the aforementioned selection process shall be followed.

Rule 5 The President shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal by the Council. The President shall declare all votes and may vote in all cases.

Rule 6 The President may call the President Pro Tempore to the chair to preside over a full Council meeting, but such substitution shall not continue longer than one meeting without a majority vote of the members. The President may express an opinion on any subject under debate; but in such case he/she must leave the chair and shall not resume the chair while the question is pending. The President may state facts and give an opinion on questions of order without leaving the chair.

Rule 7 It shall be the duty of the President or his/her designee to examine and approve the records of each meeting. It shall, likewise, be the duty of the President or the President Pro Tempore to sign all legislative matters which have been passed at any meeting.

Rule 7A It shall be the duty of the President to oversee the City Clerk who shall report directly to the Council President.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY CLERK AND ASSISTANT CITY CLERK

Rule 8 The City Clerk or Assistant City Clerk shall keep minutes of the proceedings of the Council which shall be subject to correction when the Council meets. The City Clerk shall note upon legislative papers the action taken by the Council relating to said papers.

The City Clerk shall perform such duties in connection with the transaction of business during the sessions of the Council as the President deems necessary.

Whenever a petition is filed as provided by Section 22 of Chapter 166 of the General Laws seeking a permit for an original location for wires, poles, piers, abutments or conduits to be used for the transmission of electricity, the City Clerk shall forthwith, upon receipt of such petition, send notice, in the manner required by said Section, of a public hearing to be held thereon at the next meeting of the Council occurring not less than seven (7) days following such receipt. The City Clerk shall also send notice of such hearing to the Inspector of Wires.

The City Clerk shall be responsible for preparing a re-Meeting Calendar for full Council meetings containing the following items: all matters of new business; all reports of committees to be presented at any regular or special meeting of the Council; a statement of any orders for which notice of a motion to reconsider has been filed; all orders which have been laid upon the table or postponed to a day certain; all hearings which may have been ordered; and all matters of unfinished business, such Calendar shall be electronically transmitted to each member of the Council at least forty-eight (48) hours prior to said meeting.

Agendas and corresponding agenda packets for all committee meetings and full Council meetings shall be publicly posted seventy-two (72) hours before a meeting is called to order, excluding Saturdays, Sundays, and legal holidays. Agendas maybe updated after their initial posting so long as subsequent agenda items are added at least forty-eight (48) hours prior to a meeting in accordance with the Massachusetts Open Meeting Law. All Orders, Ordinances, Petitions, Resolutions, and Remonstrances appearing on meeting agendas shall include the name(s) of the corresponding sponsor(s).

Notice of emergency meetings must be posted as soon as reasonably possible prior to a meeting and in a manner accessible to disabled persons to the extent required by federal and state law.

The City Clerk or the Clerk of Committees shall post meeting agendas to the city website. The agenda of a full Council meeting shall be subject to approval of the President and be posted in the same location as public meeting notices.

When a committee fails to issue a report on an item within forty-five (45) days after the matter is referred to committee, the Clerk of Committees shall notify the City Clerk of such and the City Clerk shall place said item on the agenda for the next regularly scheduled Council meeting under Reports from Committee with the following notation: “No Action Taken.”

Whenever any Order or Ordinance adopted by the Council at any meeting has not been returned by the Mayor within ten (10) days and is thereby enacted pursuant to Section 3.7 of the City

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Charter, the Pre-Meeting Calendar for the next meeting of the Council shall include a statement that such Order or Ordinance has taken effect by operation of law.

Within forty-eight (48) hours after adjournment of a Council meeting, the City Clerk shall prepare a Post-Meeting Bulletin containing a statement of all items referred to committees, whether standing or special. All matters so referred shall be listed separately under the heading of the respective committees; and all matters laid upon the table or postponed to a further date, and any hearings ordered to be held at any subsequent meeting, shall be included in said Bulletin.

Whenever a notice is filed by any member as a Motion to Reconsider a vote passed by the Council, such Bulletin shall include a statement to that effect. There shall also be noted upon said Bulletin a statement as to the action taken by the Council on which a Motion to Reconsider was filed. Bulletins shall be transmitted electronically to the members within seventy-two (72) hours after adjournment of the meeting to which they pertain.

Rule 9 The Assistant City Clerk, in the absence of the City Clerk, shall perform the duties of the City Clerk.

CONDUCT & DECORUM OF MEMBERS

Rule 10 When a member speaks, he/she shall address the presiding officer and shall confine his/her remarks to the question under consideration. While speaking, members shall avoid personalities, and no member shall directly or indirectly impugn another member or conduct themselves in a manner unworthy or unbecoming of a City Councilor. No member shall speak or vote out of his/her place without leave of the presiding officer.

Rule 11 No member shall be interrupted while speaking except by their consent or by a point of order or point of information; nor shall there be any conversation among the members while a question is being stated, while a member is speaking or a paper is being read.

Rule 12 If a member repeatedly violates any of the rules of the Council or disrupts the orderly procedure of the Council, the presiding officer, after warning the member of such violations, shall call the member to order, and a member so called to order shall lose the right to speak on the pending subject matter but shall not be prevented from voting. A member so called to order shall remain silent until the presiding officer returns to the member his/her rights to the floor.

Rule 13 A Councilor or any combination of Councilors who file an Order, Ordinance, Petition, Resolution, or Remonstrance shall be given up to fifteen (15) minutes in total to introduce the matter.

When a matter is being debated, no member may occupy more than five (5) minutes for each point under debate, nor shall he/she speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak.

When a city official or other person appears before the Council or committee thereof, an individual Councilor shall not occupy more than fifteen (15) minutes of dialogue with the party. If a Councilor, however, requires additional time for questions, he/she may seek leave of the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

presiding officer. In determining whether to grant the Councilor additional time, the presiding officer shall consider but is not limited to the following factors:

1) The number of remaining questions the Councilor intends to ask.
2) The number of questions the Councilor has already asked.
3) The relevancy of the questions.
4) The amount of time that has been occupied by the attendee in answering questions.
5) The responsiveness of the attendee.
6) The nature of the matter before the Council or committee.
7) Public interest considerations.
8) The hour of day.
9) Remaining business before the Council or committee.

On general matters of discussion, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject.

The presiding officer, at his/her discretion, may designate the City Clerk or Clerk of Committees to monitor the time provisions of this rule.

Rule 14 No member shall vote on any matter or serve on any committee where his/her private interest is immediately distinct from that of the public.

Rule 15 When a question is put forward, every member present, except the President, shall vote, unless excused by vote of the Council or excluded by personal interests.

No member shall leave without permission of the presiding officer if his/her presence is necessary to make a quorum.

Rule 16 The reading of any paper, if objected to, shall be decided by the Council.

Rule 17 No member shall stand up, to the inconvenience of others, while a member is speaking; pass unnecessarily between the presiding officer and the member speaking; stand in the area in front of the chair; or stand at the City Clerk's desk while a roll call is in progress. The use of electronic devices should be restricted for Council business only during a meeting of the full Council or committee thereof.

Rule 18 The members of the Council shall not stand or leave their places on a Motion to Adjourn until the presiding officer has declared the Council adjourned.

Rule 19 Every member shall take notice of the day and hour to which the Council stands adjourned.

STANDING COMMITTEES

Rule 20 The President shall appoint voting members to each Standing Committee, one of whom shall serve as Chairperson,

The President shall at the first meeting in January, announce the Chairpersons and voting members appointed to all Standing Committees for that calendar year

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The President shall serve as a member ex-officio of all committees and, when required, may be counted in the making of a quorum. The President shall be entitled to vote as an ex-officio member of all standing committees.

All members of the Council shall be considered a member of each Standing Committee but shall not be authorized to vote on pending matters unless assigned as a voting member of that Committee. A quorum of a committee shall be determined on the basis of voting members only.

A non-voting member of a committee may only speak on a pending matter after all voting members have been given the opportunity to deliberate; and non-voting members shall only speak once unless granted leave by the Chairperson. This provision of the rule, however, shall not apply to non-voting members who have sponsored or co-sponsored a matter appearing before a committee. The sponsor(s) shall always be recognized first by the Chairperson for the purposes of introducing an order.

The following Standing Committees are hereby established:

Appropriations & Oversight: Eleven (11) voting members to include the annual Budget and all supplementary budgets, redevelopment authority, federal or state grants, zoning, and all general oversight matters.

Finance: Five (5) voting members to include accounts and surety bonds, election matters, print and supplies, and City Council purchases.

Health, Education and Welfare: Five (5) voting members) to include public schools, public library, and veterans' affairs.

Legal and Legislative Matters: Five (5) voting members) to include rules, legislative matters and claims.

Protection and License: Five (5) voting members) to include the Police and Fire Departments, Emergency Management, and licenses.

Public Service: Five (5) voting members) to include public grounds and buildings.

Public Works: Five (5) voting members) to include Public Works Department, public transportation, all municipal parking areas and lighting of streets and municipal parking areas, and electric, cable and telephone wires.

Rule 21 The member first named on any committee shall be its Chairperson and the second named member of the Committee will be recognized as the Vice Chair of the Committee. In the case of the Chairperson's resignation, absence or disability, the other members, in the order in which they are named to the Committee, shall call meetings of the Committee and act as Chairperson. If, for any reason, any committee has not assembled within three (3) weeks from the reference of matters thereto, except for the summer season, the member second in order may call meetings of the committee.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 21A Committee Chairpersons serve at the pleasure of the President, who may at any time remove a Chair and designate a new Chair. Neither the removal nor the appointment or re-appointment of a Chairperson shall be subject to the approval of the Council.

Rule 21B A committee Chairperson shall take the chair at the scheduled time and shall convene the meeting within thirty (30) minutes thereof. If a quorum is not present within thirty (30) minutes of the time originally scheduled, the Chairperson shall not commence such meeting and it shall be rescheduled to a later date.

Rule 21C The Chairperson shall call upon the Vice Chair to preside whenever the Chairperson intends to ask questions of an attendee or express an opinion on a matter before the Committee. The Chairperson may resume the chair when the matter for which he/she gave up the chair is no longer before the Committee.

Rule 21D Whenever one (1) or more committee meetings are scheduled to commence the same evening as the full Council or other committee meeting(s), each meeting shall commence within thirty (30) minutes of the meeting's respective scheduled meeting time. Where the earlier opened meeting(s) has not adjourned prior to the time by which another meeting must commence, the earlier committee(s) may recess so as to allow the other scheduled committee meeting(s) to open for the purpose of public comment. After public comment the members may vote to recess and reconvene the preceding meeting.

Rule 22 The Chairperson of each standing committee shall ensure that the sponsor(s) of any legislative item have proper notice of all related hearings. A matter pending in committee shall not be disposed of at the committee level without the sponsor(s) being present and available to vote on that matter.

Rule 23 Reports on all matters from committees shall be made as early as practicable and shall be signed by the Chairperson, unless otherwise ordered by the Committee. Reports shall be appropriately designated by the action taken in committee and presented as such on all future meeting agendas until that time the Council disposes of a matter. Reports shall be designated in one of three (3) ways: Favorable Report ("ought to pass"); Adverse Report ("ought not to pass"); Undeclared Report ("without recommendation"). Any member may call for the degree of progress reached with respect to any matter referred to a committee. Whenever any committee reports to the Council and one or more members dissent from the report, the name(s) of the dissenting member(s) shall be printed on the agenda under Reports from Committee followed by the "Dissents," provided a statement is filed as a minority report by such dissenting member(s), containing the reasons therefore, with the Clerk of Committees, which statement shall accompany the report of the Committee and shall be read by the President.

Rule 24 The President shall form special committees of the Council as needed and shall appoint its members Special committees shall consist of three members, unless otherwise ordered.

Rule 25 All committees of the Council shall be notified of their meetings by the Clerk of Committees. No two committee meetings may occur at the same time.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMITTEE OF THE WHOLE

Rule 26 When a committee determines to go into a Committee of the Whole, the Chairperson shall be appointed by the President.

Rule 27 The Rules of the Council shall be observed in a Committee of the Whole, so far as they may be applicable, except the rules limiting debate. A motion to rise, report progress, and ask leave to sit again shall always be first in order and be decided without debate.

CLERK OF COMMITTEES

Rule 28 The Clerk of Committees shall report to the City Council, providing legislative assistance, support, and other professional services as needed. The City Council President shall have ultimate oversight over the Clerk of Committees, with day-to-day supervision provided by the City Clerk.

Rule 28A The Clerk of Committees shall keep proper records of committee meetings in written format, which shall be an official record. Audio/visual records may also be kept. A copy of the written record shall be available to all members of the Council and the public. He/she shall prepare all reports of committees for presentation to the full Council subject to the approval of the Chairperson. The Clerk of Committees shall, following the final action of the Committee on Appropriations & Oversight and the making of its report on the annual budget, or any supplementary budget, prepare a statement with respect to the appropriations recommended for each department, when such appropriations include any sums for increase in salaries for employees of such departments, stating in detail the amount of such increases allowed in such appropriations and the period of the budget year allowed by said appropriations.

ORDER OF BUSINESS

Rule 29 At every meeting of the Council the order of business shall be as follows:

I. Call to Order

II. Reading of the Minutes -- An electronic copy of the minutes shall be transmitted to the full Council twenty- four (48) hours in advance of any vote regarding those minutes. Minutes of each meeting of the full Council shall be given to the City Clerk to be posted on the city website within twenty-four (24) hours after the minutes are accepted by the full Council.

III. Public Comment

IV. Public Hearings

V. New Business

a) Filings by His Honor the Mayor

b) Filings by Members of the City Council

VI. Communications from His Honor the Mayor & Other City Officials

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VII. Unfinished Business

VIII. Reports from Committees

IX. Expiries

X. Rule 53 Reports

X1. Adjournment

The above order may be changed, at any meeting, by a two-thirds (2/3) vote of the members present and, upon motion to change the order of business, no debate shall be allowed.

LEGISLATIVE PROCEEDINGS

Rule 29A Each meeting of the Council or any standing committee thereof shall allow up to seven (7) minutes per person for public comment prior to the reading of "COMMUNICATIONS FROM THE MAYOR AND OTHER CITY OFFICIALS." Public comment shall be permitted only for residents of Melrose and/or Melrose property owners unless the Chairperson rules otherwise. Before addressing the Council, speakers shall, on the record, identify the street on which they live or on which they own property.

Members of the public shall limit their remarks to matters on the agenda for the meeting at which they speak and shall be out of order if said speaker addresses other issues not on the agenda. It shall be at the discretion of the President or Chairperson of any standing committee to grant up to ten (10) minutes per person for public comment at any meeting.

This rule shall only be suspended by unanimous consent of the members.

Rule 30 All pending matters before the Council shall be presented by the President or; and shall be read by the President, City Clerk or such other person as the President may request. They shall be acted upon in the order in which they are presented unless the Council shall otherwise direct.

Rule 31 All nominations/appointments made by the Mayor, subject to the confirmation of the Council, shall, when received by the Council, be referred without debate to the proper standing committee and said committee shall report its recommendations thereon within forty-five (45) days or at the next regular meeting.

Rule 31A No appointment made by the Mayor and subject to the confirmation of the Council shall be entertained by the Council or committee thereof without the candidate's cover letter and resume having been furnished to the Council prior to the meeting and posted publicly on the City's meeting agenda platform.

Rule 32 All filings (legislative or otherwise), communications from the Mayor or other city officials, and reports from committees that may require action by the Council, must be in the hands of the City Clerk no later than noon on Tuesday prior to each regular meeting. The City Clerk shall confirm the receipt of all filings by notifying the sponsor(s) via e-mail at the time of receipt.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Any written document in support of a filing or communication from the Mayor, including documents prepared by a department head or other city employee after the filing of said matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than four (4) Councilors, or the affirmative vote of not less than two (2) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it.

Whenever any, Order, Ordinance, Petition, Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing.

Rule 32A No Legislation, Petition, Resolution, or Remonstrance shall be accepted by the City Clerk and placed upon the agenda for a meeting of the City Council unless a copy of the full text has been filed with the City Clerk.

Rule 33 Ordinances of the city and associated amendments shall be established by a two-thirds (2/3) vote of all the members of the Council, to be taken by a Roll Call vote. In the case of all other legislative matters, except as otherwise provided in the General Laws, or in the Revised Charter and Ordinances of the City of Melrose, the affirmative vote of a majority of all members of the Council shall be necessary for passage at each debatable legislative stage.

Rule 34 Subject to the provisions of Section 2-9(b) of the City Charter, every legislative matter shall be read once when it is introduced and shall then be referred to its appropriate committee, unless, where appropriate, immediate consideration is requested. In the case of a request for immediate consideration, the legislative matter shall be at once considered, provided no councilor objects; and no motion shall be applied to any such matter when originally introduced until immediate consideration has been granted. It shall be the duty of the President to ask if there is objection before immediate consideration is given any matter, and upon objection the matter will be referred to the appropriate committee.

Rule 34A All matters involving the appropriation of moneys in the treasury not otherwise appropriated, the intra-departmental transfer of moneys from one account of the city to another, or otherwise affecting municipal finances, shall be referred to the Finance Committee. The Committee shall make its recommendation thereon not later than three (3) weeks from the date of such reference. The provisions of this section shall not apply in the case of matters referred to the Committee on Appropriations & Oversight.

Rule 35 Upon the report of a committee recommending the passage of any Order, Ordinance, Petition, Resolution, or Remonstrance the item shall be read a second time at the next full Council meeting and shall then be in order for a final action unless the next full Council meeting falls on the same day. When an Order, Ordinance, Petition, Resolution or Remonstrance appears before the full Council with a recommendation from a committee that same day, it shall be

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

presumed that the matter will be placed on the agenda of the next full Council meeting under the Reports from Committee section of the agenda. Any councilor, however, shall be entitled to make a motion to immediately pull a matter from committee, when a matter is recommended by that committee on the same day, provided that a showing of good cause has been made. The burden shall be on the maker of the motion to demonstrate good cause. After a second to the motion has been made, the motion to pull from committee shall require a simple majority vote. Appointments of city officials by the Mayor are not included in connection with the aforesaid.

Rule 35A When a matter is introduced to the full Council with a recommendation for passage from any standing or special committee, a period of discussion shall be in order before a Motion for Passage is entertained by the President, President Pro Tempore, or other member presiding on behalf of the President.

Rule 36 All matters pertaining to amendments to the Rules of Order of the City Council, Ordinances and legal affairs shall be referred to the committee on Legal and Legislative Matters.

When amendments are recommended to the Council, the City Clerk shall forward copies of any proposed changes to all members, and no amendment shall be in order for final passage until each member shall have received such copy.

Rule 37 When any matter has been rejected by the full Council, no measure embodying substantially the same subject shall be introduced by any committee or member within six (6) months of its previous rejection.

Rule 37A Any matter not acted upon by the Council or the appropriate committee within one (1) year of said matter being filed, shall be considered null and void and shall be removed from the calendar of the Clerk of Committees. Any matter considered null and void by operation of this rule shall not be subject to any refiling restriction of Rule 37.

Rule 37B During a Council meeting, standing committee thereof, or a public hearing, a non-member may speak no more than ten (10) minutes unless he obtains the consent of the Council or standing committee thereof, nor may he/she speak more than twice on the same issue.

Rule 38 Unless otherwise ordered, votes shall be taken orally. If the vote is doubted, the members voting shall rise in their places until counted. A Roll Call vote shall be taken upon request of five (5) or more councilors.

Rule 39 The President shall consider a motion to adjourn as always in order, except on immediate repetition. When a matter before the Council is under debate, he/she shall receive no motion except:

1. To adjourn
2. To lay on table
3. The previous question
4. To close debate

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. To postpone to a day certain

6. To amend

7. To postpone indefinitely

Motions shall have precedence in the order arranged.

Rule 40 On the following motions, the debate shall be limited to the time specified in each case:

To Adjourn: No Debate

Roll Call: No Debate

Lay on Table: No Debate

The previous question; to close debate at a specified time; indefinite postponement; postponement to a day certain; to suspend the rules; to reconsider: Ten Minutes (10) -- No member to occupy more than three (3) minutes.

Whenever, at any meeting, a question is laid on the table, it shall remain there until the close of the next regular meeting, if not taken up earlier; but, if it is not taken from the table at such next meeting, or earlier, the Clerk shall place the same in the files of the Council and shall make a record thereof in the minutes of such meeting and upon any paper relating to such question.

Rule 41 Any motion shall be in writing if the President so directs, or any member of the Council so requests.

Rule 42 A question containing two or more propositions capable of division shall be divided whenever any member so requests and is confirmed by majority vote.

Rule 43 No motion or proposition of a subject different from that under consideration shall be admitted under the color of any amendment.

Rule 43A Any member may move the consideration of any report of committee out of the order said report appears on the agenda, subject to the unanimous consent of the Council.

Rule 44 When a vote has been taken, except those enumerated in Rule 45, it shall be in order for any member voting on the prevailing side to move a reconsideration thereof at the same meeting at which such vote was taken, or to file with the City Clerk notice of a motion to reconsider such vote within twenty-four (24) hours from the taking of the same. When a motion to reconsider has been decided, that vote shall not be reconsidered and, unless two-thirds (2/3) of the members of the Council are present, a motion to reconsider shall be laid upon the table until the next meeting of the Council.

A notice of a motion to reconsider filed with the City Clerk shall be regarded in the same manner as if a motion to reconsider had been made while the Council was in regular session and, except as hereinbefore provided, shall be called up by the member filing such notice, or by some other member of the Council, at the next regular meeting, or at any intervening special meeting provided the same is included in the call thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Whenever notice of a motion to reconsider has been filed, as aforesaid, the City Clerk shall notify all the members of the Council. No notice of a motion to reconsider may be withdrawn except by a majority vote of the Council. No notice of a motion to reconsider may be filed with respect to any. Order, Ordinance, Petition, Resolution, or Remonstrance or vote acted upon at the final meeting of the term to which the members of any Council may have been elected.

Rule 45 No vote on any of the following motions shall be reconsidered:

1. To Adjourn
2. To Lay on the Table
3. To Take from the Table
4. To the Previous Question
5. To Reconsider

APPEAL

Rule 46 No appeal from any decision of the President shall be entertained unless it is duly seconded, and no other business shall be in order until the question on the appeal has been decided by a majority vote of the Council. The question shall be put as follows: *"Shall the decision of the Chair stand as the judgment of the Council"*?

USE OF COUNCIL CHAMBER

Rule 47 The use of the Council Chamber, or the Council Committee Room, shall not be granted to any person or organization without the permission of the President. Said request shall be in writing, and the Clerk of Committees shall keep a suitable calendar noting the permitted uses thereon.

CAUCUS & ELECTION OF PRESIDENT

Rule 48 The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year. Notice of the holding of the Caucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such Caucus shall be held in the Council Chamber; shall be called to order by the President Pro Tempore; shall include a period for public comment and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Notice of the Caucus shall be posted, and the Caucus shall be held in public session. The President Pro Tempore shall call upon the City Clerk to conduct the Caucus, tally votes, and announce the results. Nominations, as aforesaid, shall be followed by a Roll Call vote, each member present answering to his/her name when called by the City Clerk, stating the name of the person for whom he/she votes, or that he/she declines to vote. The vote of the majority of all the members of the Council shall be necessary to so nominate a President. Upon being elected, the prior President shall escort the newly-elected President to the rostrum.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A candidate with the intention of pursuing the presidency shall state so publicly at any prior meeting of the full Council before the scheduled caucus.

The nomination of a President shall be a non-binding vote. The formal election of the President shall take place at the first meeting in January next following. Before a final vote commences, all nominees shall be required to make a public statement regarding their candidacy, at the first meeting in January, which shall not exceed five (5) minutes in length. The conduct of the election shall follow the process of the Caucus.

MISCELLANEOUS

Rule 49 Any rule may be suspended by an affirmative vote of two-thirds (2/3) of the members of the Council present. When a motion to suspend a rule is made, the specific rule for which suspension is sought must be cited in the motion and the reason stated on the record.

Any rule may be amended or repealed by a vote of a majority of all the members of the Council, but the motion for such purpose shall not be made and acted upon at the same meeting. All motions for amendments to these rules shall be in writing and copies thereof shall be sent to each member by the City Clerk before final action thereon.

Rule 50 The Council shall be governed by Robert's Rules of Order, in all questions of parliamentary procedure not provided for by special rules of order.

Rule 51 In order to promote fair and open discussion, once a public hearing is called to order, the presiding officer shall recognize members of the public who may speak in the order of recognition. Public hearings shall not be divided into time periods for proponents and opponents to speak.

Rule 52 In the event the Council must elect a person to complete the term of a Councilor in accordance with Section 2-11 (c) of the City Charter, the procedure for filling such vacancy shall be as follows:

1. Notice shall be given by immediate publication once in a newspaper of local circulation and for not less than two (2) weeks on the City's website homepage that the vacancy exists and that are placement is being sought.

2. Individuals interested in filling the vacancy (hereinafter "Applicants") shall be requested to contact the Clerk of Committees. By the close of business of the 14th day following publication in a newspaper of local circulation, applicants shall submit a letter of intent and resume to the Clerk of Committees.

3. Applicants who have complied with Rule 52, Section 2 above shall be invited to a meeting of the full Council, at which time all applicants will be given an opportunity to address the Council. At that time, Applicants will be afforded up to 10 minutes to make a statement; and Councilors will have the opportunity to ask questions of the Applicants.

4. After all applicants have been given an opportunity to address the Council, an election shall be conducted.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. In order to be eligible for election, an Applicant must have his/her name placed in nomination and must receive a second.

6. The voting shall be public with each member of the Council stating the name of the Applicant for whom he or she is voting.

7. The first Applicant to receive six (6) votes shall be elected pursuant to Section 2-11(c) of the City Charter.

8. If there is more than one Applicant and no Applicant receives six (6) votes on the first ballot, the two (2) individuals who receive the most votes shall move to a second ballot. The other Applicants shall be eliminated. In the event that there is a tie for either of the top two spots, any individual in such a tie shall move on to a second ballot.

9. In the event that no Applicant receives six (6) votes after at least five (5) ballots, the Council may place the order on the table and continue with the process at the next regularly scheduled meeting of the full Council.

Rule 53 Whenever the President, or a member of the Council appointed by the President or Mayor to serve on a committee, commission, council, board or other working group, attends a meeting of such committee, commission, council, board or other working group, that member shall report back at the next regular meeting of the Council as to the actions taken on all matters on the agenda of said body.

Rule 54 In the event of a vacancy in the position of the City Clerk or Clerk of Committees, the President of the Council shall appoint a nominating committee of three (3) Councilors. The nominating committee will cause any such vacancy to be posted, will review applicant resumes, and conduct interviews. Thereafter, the nominating committee shall recommend three (3) candidates for consideration by the full Council.

Rule 55 When a standing committee votes to move forward any Order, Ordinance, Petition, Resolution or Remonstrance to the full Council on the preceding Thursday before a full Council meeting, the City Clerk shall, on the next business day, update the meeting agenda of the full Council to include the committee's recommendation. The updated agenda shall be posted in accordance with the provisions of Rule 8.

Rule 56 All correspondence from members of the public submitted in writing to the Council in connection with any matter before the full Council or committee thereof shall be publicly available; such correspondence shall be automatically attached to the order in question by the City Clerk or Clerk of Committees and shall not require a vote of the full Council or any committee thereof.

Correspondence relating to a matter, when submitted to the Council at least twenty-four hours (24) prior to a scheduled meeting on said matter, shall be attached to the order before the start of the meeting; correspondence submitted thereafter shall be attached to the order no later than forty-eight 48 hours from the time of adjournment.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The City Clerk shall redact the e-mail address and phone number of any member of the public who submits correspondence to the Council before any such correspondence is attached to the order.

Rule 57 The final disposition of all Orders, Ordinances, Petitions, Resolutions, and Remonstrances for a given fiscal year shall be posted to the City Council section of the City's webpage by the City Clerk within 48 hours of a measure having been disposed. The public posting of dispositions, hereinafter known as the Legislative Disposition List, shall include the following information for all disposed matters: 1) the title of the filing; 2) the filing number; 3) the name of the Councilor who sponsored the filing; 4) the names of any co-sponsors; 5) how each Councilor voted on the matter; 6) the outcome of the vote; and 7) the date of disposition.

The Legislative Disposition List shall be maintained in the order that matters are disposed.

Rule 58 When a virtual meeting occurs, public participation shall be enabled in accordance with Rule 29A, whenever feasible.

Councilors must utilize a video feed when participating in a virtual meeting. In the event that a Councilor loses video and audio feed during a meeting, no vote shall occur on any matter until after such time that a recess has occurred in order to troubleshoot the problem. If the Councilor's video and audio feed has not been reestablished within 15 minutes of recessing, the members shall decide whether to proceed with a vote.

If the City Clerk loses video and audio feed during a meeting, the Clerk of Committees shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a meeting, the committee Vice Chair shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a full Council meeting, the City Clerk shall read all orders of business into the record.

When a remote meeting of the full Council or committee thereof occurs, the City Clerk or Clerk of Committees shall admit any member of the administration or other participant to the meeting as directed by the presiding officer. No member of the administration or other participant shall be admitted without the approval of the presiding officer. Members of the administration or other participants shall remain in the virtual meeting room until such time that the presiding officer determines that their presence is no longer needed.

Members of the administration or other participants appearing before the Council in a remote format must utilize a video feed to the extent possible.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMENTARY

Rule 4

Commentary: In legislative bodies at all levels of government, a recognized officer, usually the longest-serving member, serves as President Pro Tempore. Although not recognized by this title in the last iteration of the Rules of Order, the longest-serving member has historically presided over the Council in the President's absence. This new rule removes the requirement that the Council vote for a temporary presiding officer each time the President is unable to fulfill his/her duties, affording deference to the most experienced Councilor to preside over the body.

Rule 7A

Commentary: This rule delineates and streamlines the structure of supervision as it relates to the City Clerk.

Rule 8

Commentary: The Massachusetts Open Meeting Law requires public bodies to provide *at least* 48-hours' notice to the public when a meeting will be held. This amended rule requires that notice of a City Council meeting or committee thereof is posted at least 72-hours in advance of a meeting -- an affirmative step at promoting greater transparency in City government by extending the period of time for which the public is given notice. This rule does not prohibit the updating of agendas or agenda packets after the initial posting so long as any and all updates comport with the Open Meeting Law.

Rule 13

Commentary: This rule recognizes that inquiry, debate, and discussion are separate and distinct parts of the legislative process. Historically, the cap on how much time a Councilor was allowed to speak on a given matter had been defined in an arbitrary way; moreover, the cap failed to recognize the nuances of a deliberative public process, having a stifling effect on Councilors, especially the sponsors of an order. This rule sets parameters for how much time a member can occupy when speaking on a particular matter, while accounting for the different stages of a matter under examination and allotting appropriate time for each stage. It also affords the President the flexibility to grant a member additional time, when leave has been requested by that member.

Rule 28

Commentary: This rule delineates and streamlines the structure of supervision as it relates to the Clerk of Committees.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 32

Commentary: This rule is meant to compel the administration to provide the City Council with all documents and other materials related to an order filed by the Mayor at least 48-hours' in advance of a meeting. Recognizing that no Councilor should be forced to proceed on a matter for which he/she has not been given adequate time to prepare, a minority of Councilors may vote to postpone the consideration of a matter by invocation of this rule.

Rule 35

Commentary: This amended rules prevents the fast-tracking of legislative matters by ensuring that a final vote does not occur by the full Council on the same evening that a matter is voted out of Committee. The intent of this rule is that pending legislation remains in the public eye for a longer period of time. With a showing of good cause, however, any Councilor may move to pull a matter from Committee on the same evening when it was voted out of Committee. This provision accounts for items that may be time sensitive in nature.

Rule 48

Commentary: The selection of a President is more than a procedural exercise determining the leadership of the Council. As the City Charter designates the President to assume the duties of Mayor during the Mayor's temporary absence, as well as to fill the unexpired term of the Mayor should the Mayor resign or no longer be able to execute the duties of the office, choosing a President must be a transparent and deliberative public process. Any Councilor seeking the presidency should have to state his/her interest at an earlier public meeting and, after being duly nominated at caucus, be required to state publicly the reasons for his/candidacy before any vote occurs.

Rule 55

Commentary: For any matter voted out of Committee on the Thursday preceding the Monday meeting of the full Council, that matter should, in the spirit of transparency, be added to Monday's meeting agenda that next business day. Failure to provide notice of a matter scheduled for a final vote is an opaque, administrative practice that only works to discourage access and participation by the public. This amended rule is an antidote to that.

Rule 56

Commentary: This rule makes clear that any written or electronic correspondence submitted by a member of the public in connection with a matter pending before the council be automatically attached to the order and included in the meeting agenda packet, without requiring a vote of the Council. It further recognizes that the public has the right to know when correspondence connected to any matter under consideration has been directed to the Council, and how such correspondence may or may not influence decisions made by the body.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 57

Commentary: The intent of this rule is to create a centralized, on-line location so that the public can easily access and review all legislative matters disposed in a given year, whether in committee or by the full Council. A clearinghouse of this kind offers the public unfettered access to the legislative voting record, avoiding the unnecessary and cumbersome process of the public having to navigate IQM2 to peruse meeting minutes in order to determine the outcome of a vote.

Rule 58

Commentary: This rule establishes protocols governing how business will be conducted during virtual meetings of the City Council or a committee thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

REDLINE VERSION as discussed by the Rules of Order Special Committee

Proposed New Rules: 7A, 28, 31A, 35A, 55, 56, 57, 58

Rule 1 Regular Meetings of the City Council shall be held on the first and third Mondays of each month at 7:45 p.m.~~,~~ except as followed: ~~-~~(1) during July and August when there shall be one meeting each month on the third Monday; (2) when an election is to be held the following day ~~the~~ such meeting shall be held on the following Monday; and (3) when ~~said Monday~~ a meeting falls on a holiday, ~~the~~ such meeting shall be held on ~~the~~ Tuesday~~. following such holiday~~.

QUORUM

Rule 2 A majority of the Council or any Committee thereof shall constitute a quorum~~,, but a less number may adjourn from day to day~~.

PRESIDENT

Rule 3 The President shall take the chair at the scheduled hour~~, to which the Council stands adjourned~~, call the members to order and, on the appearance of a quorum~~;~~, proceed ~~to~~ with business.

Rule 4 In the absence of the President, the President Pro Tempore of the Council, who shall be the senior member in length of service, shall call the Council to order and preside over meetings until the President resumes the Chair. ~~a President pro tempore is chosen, which shall be by ballot unless a roll call is requested by not less than three members, and a plurality of votes shall elect. In case~~ When two or more members have the same seniority, ~~lots~~ names shall be drawn by the City Clerk thirty (30) minutes before the commencement of the meeting in the presence of the Clerk of Committees and at least one (1) member of the body,~~-~~ to determine ~~who shall~~ who the presiding officer will be.~~call the Council to order~~.

In the event that the longest serving member of the Council is elected President, the second longest serving member of the body shall serve as President Pro Tempore. When two or more members have the same seniority, the aforementioned selection process shall be followed.

Rule 5 The President shall preserve decorum and order~~;~~, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal by the Council. The President shall declare all votes and may vote in all cases.

Rule 6 The President may call ~~any member~~ the President Pro Tempore to the chair to preside over a full Council meeting, but such substitution shall not continue longer than one meeting without a majority vote of the members. The President may express an opinion on any subject under debate; but in such case he/she must leave the chair~~, appointing some other member to preside,~~ and shall not resume the chair while the question is pending~~; provided the same is taken before adjournment~~. The President may state facts and give an opinion on questions of order without leaving the chair.

Rule 7 It shall be the duty of the President or his/her designee to examine and approve the records of each meeting. It shall, likewise, be the duty of the President or the President ~~p~~Pro ~~t~~Tempore to sign all legislative matters which have been passed at any meeting.

Rule 7A It shall be the duty of the President to oversee the City Clerk who~~, and the Clerk of Committees as employees of the Council; these two roles~~ shall report directly to the Council President.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY CLERK AND ASSISTANT CITY CLERK

Rule 8 The City Clerk or Assistant City Clerk shall keep ~~a written record~~minutes of the proceedings of the ~~City~~ Council which shall~~, at the meeting of said Council~~ be subject to correction when the Council meets. The City Clerk shall note upon legislative papers the action taken by the Council relating to said papers. ~~and shall, for the time being, have charge of such papers.~~

The City Clerk shall perform such duties in connection with the transaction of business during the sessions of the ~~City~~ Council as the President deems necessary. ~~may deem best for expediting the business of said Council~~.

Whenever a petition is filed as provided by Section 22 of Chapter 166 of the General Laws seeking a permit for an original location for wires, poles, piers, abutments or conduits to be used for the transmission of electricity, the City Clerk shall forthwith, upon receipt of such petition, send notice, in the manner required by said Section, of a public hearing to be held thereon at the next meeting of the ~~City~~ Council occurring not less than seven (7) days following such receipt. The City Clerk shall also send notice of such hearing to the Inspector of Wires.

The City Clerk shall be responsible for preparing~~e a c Pre-Meeting Calendar~~a ~~published agenda~~ a Pre-Meeting Calendar for full Council meetings containing the following items: all matters of new business; all reports of committees to be presented at any regular or special meeting of the Council~~,~~; ~~which calendar shall include~~ a statement of any orders ~~with respect to~~ for which notice of a motion to reconsider ~~may have~~ has been filed~~,~~; ~~of~~ all orders which have been laid upon the table or postponed to a day certain~~,~~; ~~of~~ all hearings which may have been ordered~~,~~; and ~~of~~ all matters of unfinished business~~;~~, ~~and~~ ~~s~~such ~~c~~Calendar shall be ~~mailed or delivered~~ electronically transmitted to each member of the Council at least forty-eight (48) hours prior to said meeting.

~~After receipt by the City Clerk of all communications and papers referred to in Rule 32, he/she shall prepare a calendar of new business for such meeting, which shall be distributed to the members of the Council as seasonably as may be before the hour at which such meeting is called.~~

Agendas and corresponding agenda packets for all committee meetings and ~~Orders of the Day for~~ full Council meetings shall be publicly posted ~~to the public~~ ~~forty-eight~~ seventy-two (~~48~~72) hours before ~~that~~ a meeting is called to order, excluding Saturdays, Sundays, and legal holidays~~:~~. ~~a~~Agendas may~~, however,~~ be updated after their initial posting so long as subsequent agenda items are added at least forty-eight (48) hours prior to a meeting in accordance with the Massachusetts Open Meeting Law. All Orders, Ordinances, Petitions, Resolutions, and Remonstrances appearing on meeting agendas shall include the name(s) of the corresponding sponsor(s).

Notice of emergency meetings must be posted as soon as reasonably possible prior to ~~the~~ a meeting~~. Notices must be posted~~ and in a manner ~~that is~~ accessible to disabled persons to the extent required by federal and state law. ~~In addition, the IT Department~~ The City Clerk or the Clerk of Committees shall post ~~all~~ meeting agendas ~~on~~ to the city website~~.; and A all~~ The agenda ~~s~~ of a full Council meeting shall be subject to approval of the President and be posted in the same location as meeting notices.

Commented [rs1]: Sub-rule to indicate president approve agenda

~~Any member who wishes to remove an Order from committee for consideration by the full Council shall notify the City Clerk on or before the deadline specified in Rule 32, and the City Clerk shall place the Order on the Orders of the Day for the next regularly scheduled Council meeting. Should five or more members object to the taking of an Order from committee that appears on the Orders of the Day of the full Council, the Order shall be referred back to committee.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

~~Shall~~When~~-~~ a committee fails to issue a report on an item ~~an Order~~ within forty-five (45) days after the ~~Order~~ matter is referred to ~~that~~ committee, the Clerk of Committees shall notify the City Clerk of ~~said order~~ such and the City Clerk shall place said ~~Order~~ item on the agenda ~~Orders of the Day~~ for the next regularly scheduled Council meeting under Reports from Committee with the following notation: "No Action Taken."

Whenever any ~~o~~~~O~~Order or~~,~~ ~~o~~Ordinance ~~or resolution~~ adopted by the Council at any meeting has not been returned by the Mayor within ten (10) days and is thereby ~~in force~~ enacted~~,~~ ~~as provided~~ pursuant to ~~by~~ Section 3.7 of the City Charter, ~~there shall be included in said~~ the ~~c~~Pre-Meeting Calendar ~~of new business for the first~~ for the next meeting of the Council ~~next following the expiration of such ten (10) day period~~ shall include a statement ~~as to~~ that such ~~o~~Order or~~,~~ ~~o~~Ordinance~~, or resolution setting forth that the same has become law by~~ has taken effect by operation of law. ~~limitation.~~

~~Following each meeting of the Council~~Within forty-eight (48) hours after adjournment of a Council meeting, the City Clerk shall prepare a ~~b~~Post-Meeting Bulletin containing a statement of all ~~orders~~ items referred to committees, whether standing or special~~:~~. ~~said bulletin to be in such form that a~~All matters so referred shall be listed separately under the heading of the respective committees; and ~~containing, likewise, a statement of~~ all matters laid upon the table or postponed to a further ~~day~~ date ~~certain~~, and ~~of~~ any hearings ordered to be held at any subsequent meeting, shall be included in said Bulletin~~.~~

Whenever a notice is filed by any member as a ~~m~~Motion to ~~r~~Reconsider a vote passed by the Council ~~at any meeting~~, such ~~b~~Bulletin ~~for said meeting~~ shall include a statement to that effect. ~~with respect to such vote.~~ There shall also be noted upon said ~~b~~Bulletin a statement as to the action taken by the Council on which a Motion to Reconsider was filed. ~~on all matters considered at such meeting.~~ Bulletins shall be ~~delivered~~ transmitted electronically to the members within ~~forty-eight~~ seventy-two (~~48~~72) hours after adjournment of the meeting to which they pertain.

Rule 9 The Assistant City Clerk, in the absence of the City Clerk, shall perform the duties of the City Clerk.

CONDUCT & DECORUM OF MEMBERS

Formatted: Centered

Rule 10 When a member speaks, he/she shall address the presiding officer~~-~~ and shall confine his/her remarks to the question under ~~debate~~ consideration. ~~Every member while~~ While speaking, members shall ~~at all times~~ avoid personalities~~:~~, and no member ~~in debate~~ shall directly or indirectly ~~impute to~~ impugn another member or ~~to any other members any conduct or~~ conduct themselves ~~motive~~ in a manner unworthy or unbecoming ~~a member~~ of a City Councilor. No member shall speak or vote out of his/her place without leave of the presiding officer.

Rule 11 No member shall be interrupted while speaking except by their consent or by a point of order or point of information; nor shall there be any conversation among the members while a question is being stated, while a member is speaking or a paper is being read.

Rule 12 If a member repeatedly violates any of the rules of the Council or disrupts the orderly procedure of the Council, the presiding officer, after warning the member of such violations, shall call the member to order, and a member so called to order shall lose the right to speak on the pending subject matter but shall not be prevented from voting. A member so called to order shall remain silent until ~~the Council begins consideration of another subject matter or unless~~ the presiding officer returns to the member his/her rights to the floor. ~~No debate shall be permitted on any point of order, except on appeal and on such appeal no member shall be allowed to speak more than once.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 13 ~~During debates, if objection is made thereto, no member shall speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak.~~ A Councilor or any combination of Councilors who file an ~~o~~Order, Ordinance, Petition, Resolution, or Remonstrance shall be given up to fifteen (15) minutes in total to introduce the matter~~any order~~.

~~No member shall occupy more than five minutes in total while~~ When a matter is being debated, no member may occupy more than five (5) minutes for each point under debate, nor shall he/she speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak. ~~speaking on any question where debate is unlimited.~~

When a city official or other person appears before the Council or committee thereof, an individual Councilor shall not occupy more than ~~twenty-five (25)~~fifteen (15) minutes ~~when asking questions of~~of dialogue with the ~~attendee~~ party. If a Councilor, however, requires additional time for questions, he/she may seek leave of the presiding officer. In determining whether to grant the Councilor additional time, the presiding officer shall consider but is not limited to the following factors:

1) The number of remaining questions the Councilor intends to ask.
2) The number of questions the Councilor has already asked.
3) The relevancy of the questions.
4) The amount of time that has been occupied by the attendee in answering questions.
5) The responsiveness of the attendee.
6) The nature of the matter before the Council or committee.
7) Public interest considerations.
8) The hour of day.
9) Remaining business before the Council or committee.

Formatted: Font: (Default) Times New Roman,

Formatted: Indent: Left: 0.25"

On general matters of discussion, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject.

The presiding officer, at his/her discretion, may designate the City Clerk or Clerk of Committees to monitor the time provisions of this rule.

~~A person designated by the presiding officer shall keep strict accounting of the time occupied by any member and shall inform the presiding officer when a member's time has expired. Without leave of the Council, any member must thereupon stop speaking until the Council begins consideration of another subject matter.~~

Rule 14 No member shall vote on any ~~question~~ matter or serve on any committee where his/her private interest is immediately distinct from that of the public.

Rule 15 ~~Every~~ When a question is put forward, every member present, except the President, ~~present when a question is put forward~~ shall vote, unless excused by vote of the Council or excluded by personal interests.

No member shall leave without permission of the presiding officer if his/her presence is necessary to make a quorum.

Rule 16 The reading of any paper, if objected to, shall be decided by the Council.

Rule 17 No member shall stand up, to the inconvenience of others, while a member is speaking; ~~or~~ pass unnecessarily between the presiding officer and the member speaking; ~~or~~ stand in the area in front of the chair; or stand at the City Clerk's desk while a roll call is in progress~~.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

~~No member shall handle any electronic device, other than one that may be necessary for Council business, during a meeting of the Council or committee thereof.~~ The use of electronic devices should be restricted for Council business only during a meeting of the full Council or committee thereof.

Rule 18 The members of the Council shall not stand ~~not~~ or leave their places on a Motion to Adjourn ~~adjournment~~ until the presiding officer ~~shall have~~ has declared the Council adjourned.

Rule 19 Every member shall take notice of the day and hour to which the Council ~~may~~ stands adjourned.

STANDING COMMITTEES

Formatted: Centered

Rule 20 The President shall appoint voting members to each Standing Committee, one of whom shall serve as Chairperson,

~~,~~The President shall ~~annually,~~ at the first meeting in January, ~~appoint~~ ~~members~~ announce ~~to~~ the Chairpersons and voting members appointed to all Standing Committees for that calendar year ~~of the City Council,~~

~~and t~~The President shall ~~be~~ serve as a member ex-~~-~~officio of all committees and, when required, may be counted in the making of a quorum. ~~at committee meetings.~~ The President shall be entitled to vote as an ex-officio member of all standing committees. ~~the Appropriations Committee or when he/she is required to make a quorum.~~

All members of the ~~Melrose City~~ Council shall be considered a~~s~~ member~~s~~ of each ~~of the Council's~~ Standing Committee~~s~~. ~~The President shall name those members of each committee, to include its Chairperson; who are authorized to vote on matters while pending in committee; all other members of each committee are not~~ but shall not be authorized to vote on ~~such~~ pending matters ~~while~~ ~~pending in committee~~ unless assigned as a voting member of that Committee. A quorum of ~~the~~ a committee shall be determined on the basis of ~~the~~ voting members only.~~.~~

A non-voting member of a committee may only speak on a pending matter after all voting members have been given the opportunity to ~~speak~~deliberate; and non-voting members shall only speak once unless granted leave by the Chairperson. This provision of the rule, however, shall not apply to non-voting members who have sponsored or co-sponsored a~~n order~~ matter ~~that~~ appearing~~s~~ before a committee. The sponsor(s) ~~of an order~~ shall always be recognized first by the Chairperson for the purposes of introducing an order.

The following Standing Committees are hereby established:

~~COMMITTEES~~

Formatted: Left

Appropriations & Oversight ~~(11 members~~5eleven (11) voting members~~)~~ to include the annual Budget and all supplementary budgets, redevelopment authority, federal or state grants, ~~and~~ zoning, and all general oversight matters.~~.~~

Finance ~~(11 members~~five (5) voting members ~~)~~ to include accounts and surety bonds, election matters, print and supplies, and City Council purchases.

Health, Education and Welfare (~~11 members~~five (5) voting members) to include public schools, public library, and veteran~~'~~s ~~services~~ affairs.

Legal and Legislative Matters (~~11 members~~ five (5) voting members) to include rules, legislative matters and claims.

Protection and License (~~11 members~~five (5) voting members) to include the Police and Fire Departments, Emergency Management, and licenses.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Public Service (~~11 members~~five (5) voting members) to include ~~P~~public grounds and buildings.

Public Works (~~11 members~~five (5) voting members) to include Public Works Department, public transportation, all municipal parking areas and lighting of streets and municipal parking areas, and electric, cable and telephone wires.

Rule 21 The member first named on any committee shall be its Chairperson and the second named member of the Committee will be recognized as the Vice Chair of the Committee. ~~and, i~~In the case of ~~his/her~~the Chairperson's resignation, absence or disability, the other members, in the order in which they are named to the Committee, shall call meetings of the ~~c~~Committee and ~~-~~act as Chairperson~~; and i~~. If, for any reason, any committee ~~shall not have~~has not assembled within three (3) weeks from the reference ~~to it of any~~ of matters ~~pertaining~~ thereto ~~such committee~~, except for the Summer season, the member second in order may call meetings of the committee. ~~It shall be the duty of the Committee on Finance to approve all purchases for the City Council.~~

Commented [O2]: Added above to "Finance" sec

- **Rule 21A** Committee Chairpersons~~s~~ serve at the pleasure of the President, who may at any time remove a Chair and designate a new Chair. Neither the removal nor the appointment or re-appointment of a Chairperson~~, nor the appointment of a new Chair one~~ shall be subject to the approval of the Council.

- **Rule 21B** A committee Chairperson shall take the chair at the scheduled time and shall convene the meeting within thirty (30) minutes thereof. If a quorum is not present within thirty (30) minutes of the time originally scheduled, ~~then~~ the Chairperson shall not commence such meeting and it shall be rescheduled to a later date.

- Rule 21C The Chairperson shall call upon the Vice Chair to preside whenever the Chairperson intends to ask questions of an attendee or express an opinion on a matter before the Committee. The Chairperson may resume the chair when the matter for which he/she gave up the chair is no longer before the Committee.

~~**PROCEEDINGS WITH RESPECT TO LEGISLATIVE MATTERS**~~

Rule 32 Except by unanimous consent, all legislative matters, communications from the Mayor or heads of departments and all papers of whatever description which may require action by the ~~City~~ Council, must be in the hands of the City Clerk ~~–~~no later than noon on ~~Wednesday~~ Tuesday prior to each regular meeting. The City Clerk shall confirm the receipt of all legislative filings by notifying the ~~maker~~ sponsor(s) of a~~n order~~ filing via e-mail at the time of receipt. Reports of committees must be filed with the Clerk at the same time.

Any written document in support of a~~n order filed by~~ filing or communication from the Mayor, including documents prepared by a department head or other city employee after the filing of said ~~order~~ matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the ~~order~~matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than four (4) Councilors, or the affirmative vote of not less than two (2) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it.

Whenever any ~~bill~~, ~~o~~Order, Ordinance, ~~p~~Petition, ~~memorial or remonstrance~~ ~~or~~ Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing. ~~and, if the same is referred to any committee, the name of such member shall, in the event of a favorable report, or, if such report is unfavorable and is not adopted by the Council, appear upon any order based thereon which may be enacted by said Council.~~

Rule 32A No ~~order containing a~~ Petition, Resolution, or Remonstrance shall be accepted by the City Clerk and placed upon the agenda for a meeting of the City Council unless a copy of the full text ~~of the Resolution is~~ has

Formatted: Font: Bold
Formatted: Centered
Formatted: Font: Bold, Underline
Formatted: Left

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

been filed with the ~~Order~~City Clerk.~~, and the honoree(s), if any, confirm their attendance at the time the resolution is introduced~~.

Rule 33 Ordinances of the city and associated amendments ~~thereto~~ shall be established ~~only~~ by a two-thirds (2/3) vote of all the members of the ~~City~~ Council, to be taken by a Roll Call~~Viva Voce~~ vote~~the yeas and nays~~. In the case of all other legislative matters, except as otherwise provided in the General Laws, or in the Revised Charter and Ordinances of the City of Melrose, the affirmative vote of a majority of all members of the Council shall be necessary for passage at each debatable legislative stage.

Rule 34 Subject to the provisions of Section 2-9(b) of the City Charter, every legislative matter shall be read once when it is introduced and shall then be referred to its appropriate committee, unless, where appropriate, immediate consideration is ~~asked for~~requested. ~~, in which event it~~In the case of a request for immediate consideration, the legislative matter shall be at once considered, provided no councilor objects; and no motion shall be applied to any such matter when originally introduced until immediate consideration has been granted. It shall be the duty of the President to ask if there is objection before immediate consideration is given any matter, and upon objection the matter will be referred to the appropriate committee.

Rule 34A All matters involving the appropriation of moneys in the treasury not otherwise appropriated, the intra-departmental transfer of moneys from one account of the city to another, or otherwise affecting municipal finances, shall be referred to the ~~committee on Finance~~Finance Committee. The ~~committee~~ Committee shall make its recommendation thereon not later than three (3) weeks from the date of such reference. The provisions of this section shall not apply in the case of matters referred to the Committee on Appropriations & Oversight.

Rule 35 Upon the report of a committee recommending the passage~~ing~~ of any ~~ordinance,~~ ~~o~~Order, Ordinance, Petition, ~~or~~ ~~r~~Resolution, or Remonstrance ~~it~~ the item shall be read a second time at the next full Council meeting and shall then be in order for a final action unless the next full Council meeting falls on the same day. ~~unless there is objection on the part of not less than five (5) Councilors.~~ When an Order, Ordinance, Petition, ~~or~~ Resolution or Remonstrance appears before the full Council with a recommendation from a committee that same day, it shall be presumed that the matter will be placed on the agenda of the next full Council meeting under the Reports from Committee section of the agenda. Any councilor, however, shall be entitled to make a motion to immediately pull a matter from committee, when a matter is recommended by that committee on the same day, provided that a showing of good cause has been made. The burden shall be on the maker of the motion to demonstrate good cause~~;~~. ~~to be ruled upon by the President, before a second shall be entertained.~~ After a ~~determination of good cause has been made by the President~~second to the motion has been made, the motion to pull from committee shall require a ~~two thirds (2/3) viva voce~~simple majority vote. ~~It shall be the duty of the President to ask if there is objection before consideration. If not less than five (5) Councilors object, it shall be placed in the orders of the day for the next meeting.~~ Appointments of city officials by the Mayor are not included in connection with the aforesaid.

Rule 35A When a matter is introduced to the full Council with a recommendation for passage from any standing or special committee, a period of discussion shall be in order before a Motion for Passage is entertained by the President, President Pro Tempore, or other member presiding on behalf of the President.

Rule 36 All matters pertaining to amendments to the Rules of Order of the City Council, Ordinances and legal affairs shall be referred to the committee on Legal and Legislative Matters.

When amendments are recommended to the Council, the City Clerk shall forward copies of any proposed changes to all members, and no amendment shall be in order for final passage until each member shall have received such copy.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 37 When any ~~order~~ matter has been ~~finally~~ rejected by the full Council, no measure embodying substantially the same subject shall be introduced by any committee or member within six (6) months of its previous rejection.

Rule 37A Any ~~order~~ matter not ~~finally~~ acted upon by the Council or the appropriate committee within one (1) year of said ~~order~~ matter being filed, shall be considered null and void and shall be removed from the ~~files~~ calendar of the Clerk of Committees. Any ~~order~~ matter considered null and void by operation of this rule shall not be subject to any refiling restriction of Rule 37.

Rule 37B During a ~~City~~ Council meeting, standing committee thereof, or a public hearing, a non-member ~~speaker~~ may speak no more than ten (10) minutes unless he obtains the consent of the ~~City~~ Council or standing committee thereof, nor may he/she speak more than twice on the same issue.

Rule 38 Unless otherwise ordered, votes shall be taken orally. If the vote is doubted, the members voting shall rise in their places until counted. A ~~Viva Voce~~ Roll Call vote shall be taken upon request of five (5) or more councilors.~~by yeas and nays when five members of the Council so request~~.

Rule 39 The President shall consider a motion to adjourn as always in order, except on immediate repetition. When a ~~question~~matter before the Council is under debate, he/she shall receive no motion except:

Commented [rs6]: Has 'question' been defined in context of debatable item? i.e., is this an ordinance or resolution?

1. To adjourn
2. To lay on table
3. The previous question
4. To close debate
5. To postpone to a day certain
6. To amend
7. To postpone indefinitely

~~which several~~ ~~m~~Motions shall have precedence in the order arranged.

Rule 40 On the following motions, the debate shall be limited to the time specified in each case:

To adjourn:~~-~~ N~~n~~o ~~d~~Debate;

Roll Call ~~Viva Voce Vote~~~~Yeas and Nays~~:~~-~~ ~~n~~No ~~d~~Debate;

Lay on Table:~~-~~ ~~n~~No ~~d~~Debate;

The previous question:~~,~~ to close debate at a specified time~~,~~; indefinite postponement~~,~~; postponement to a day certain~~,~~; to suspend the rules~~,~~; to reconsider:~~;~~ ~~t~~Ten ~~m~~Minutes (10) ~~(~~-- no member to occupy more than three (3) minutes.~~)~~

Whenever, at any meeting, a question is laid on the table, it shall remain there until the close of the next regular meeting, if not taken up earlier; but, if it is not taken from the table at such next meeting, or earlier, the ~~c~~Clerk shall place the same in the files of the Council and shall make a record thereof in the ~~journal~~ minutes of such meeting and upon any paper relating to such question.

Rule 41 Any motion shall be in writing if the President so directs, or any member of the Council so requests.

Rule 42 A question containing two or more propositions capable of division shall be divided whenever any member so requests and is confirmed by majority vote.~~.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 43 No motion or proposition of a subject different from that under consideration shall be admitted under the color of any amendment.

Rule 43A Any member may move the consideration of any report of committee out of the order said report appears on the ~~calendar~~ agenda, subject to~~with~~ the unanimous consent of the Council ~~move the consideration of any report of committee out of the order said report appears on the calendar~~.

Rule 44 When a vote has been taken, except those enumerated in Rule 45, it shall be in order for any member voting on the prevailing side to move a reconsideration thereof at the same meeting at which such vote was taken, or to file with the City Clerk notice of a motion to reconsider such vote within twenty-four (24) hours from the taking of the same~~, but,~~. ~~w~~When a motion to reconsider has been decided, that vote shall not be reconsidered and, unless two-thirds (2/3) of the members of the Council are present, a motion to reconsider shall be laid upon the table until the next meeting of the Council.

A notice of a motion to reconsider filed with the City Clerk shall be regarded in the same manner as if a motion to reconsider had been made while the Council was in regular session and, except as hereinbefore provided, shall be called up by the member filing such notice, or by some other member of the Council, at the next regular meeting, or at any intervening special meeting provided the same is included in the call thereof.

Whenever notice of a motion to reconsider has been filed, as aforesaid, the City Clerk shall notify all the members of the Council. No notice of a motion to reconsider may be withdrawn except by a majority vote of ~~all the members of~~ the ~~City~~ Council. No notice of a motion to reconsider may be filed with respect to any ~~ordinance~~, ~~o~~Order, Ordinance, Petition, ~~or~~ R~~r~~esolution, or Remonstrance or vote acted upon at the final meeting of the term to which the members of any Council may have been elected.

Commented [rs7]: Struck all members in the cas… less than the full council is present but a quorum ha… established.

Rule 45 No vote on any of the following motions shall be reconsidered:

1. To ~~a~~Adjourn
2. To ~~l~~Lay on the ~~t~~Table
3. To ~~t~~Take from the ~~t~~Table
4. To the ~~p~~Previous ~~q~~Question
5. To ~~r~~Reconsider

APPEAL

Rule 46 No appeal from any decision of the President shall be entertained unless it is duly seconded, and no other business shall be in order until the question on the appeal has been decided by a majority vote of the Council. The question shall be put as follows: *"Shall the decision of the Chair stand as the judgment of the Council~~?~~"*? ~~and it shall be deemed to be decided in the affirmative unless a majority of the votes are given to the contrary.~~

USE OF COUNCIL CHAMBER

Rule 47 The use of the Council Chamber, or the Council ~~c~~Committee ~~r~~Room, shall not be granted to any person or organization without the permission of the President. Said request shall be in writing, and the Clerk of Committees shall keep a suitable calendar noting the permitted uses thereon.

CAUCUS FOR NOMINATION OF PRESIDENT

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 48 The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year~~., and the formal election of the President shall take place at the first meeting in January next following~~. Notice of the holding of the C~~c~~aucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such ~~c~~Caucus shall be held in the Council Chamber; shall be called to order by the ~~City Clerk~~ President Pro Tempore; shall include a period for public comment~~;~~ and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Notice of the ~~c~~Caucus shall be posted, and the ~~c~~Caucus shall be held in public session~~.~~.

The President Pro Tempore shall call upon the City Clerk to conduct the Caucus, tally votes, and announce the results. Nominations, as aforesaid, shall ~~be made by~~ result in a ~~v~~Viva ~~v~~Voce Roll Call vote, each member present answering to his/her name when called by the City Clerk ~~or other proper officer~~, stating the name of the person for whom he/she votes, or that he/she declines to vote. The vote of the majority of all the members of the Council shall be necessary to so nominate a President. Upon being elected, the prior President shall escort the newly-elected President to the rostrum.

~~Notice of the caucus shall be posted and the caucus shall be held in public session.~~A candidate with the intention of pursuing the presidency shall state so publicly at any prior meeting of the full Council before the scheduled caucus.

The nomination of a President shall be a non-binding vote. The formal election of the President shall take place at the first meeting in January next following. Before a final vote commences, all nominees shall be required to make a public statement regarding their candidacy, at the first meeting in January, which shall not exceed five (5) minutes in length. The conduct of the election shall follow the process of the Caucus.

Formatted: Left

~~SUSPENSION, AMENDMENT OR REPEAL~~ MISCELLANEOUS

Rule 49 ~~These~~ Any rule~~s~~ may be suspended by an affirmative vote of two-thirds (2/3) of the members of the Council present~~.~~~~;~~ When a motion to suspend a rule is made, the specific rule for which suspension is sought must be cited in the motion and the reason stated on the record. ~~they may be~~

Any rule may be amended or repealed by ~~–~~a vote of a majority of all the members of the Council, but the motion for such purpose shall not be made and acted upon at the same meeting. All motions for amendments to these rules shall be in writing and copies thereof shall be sent to each member by the City Clerk before final action thereon.

Rule 50 The Council shall be governed by Robert's Rules of Order, in all questions of parliamentary procedure not provided for by special rules of order.

Rule 51 In order to promote fair and open discussion, once a public hearing is called to order, the presiding officer shall recognize members of the public who may speak in the order of recognition. Public hearings shall ~~no longer~~ not be divided into time periods for proponents and opponents to speak.

Rule 52 In the event the ~~City~~ Council must elect a person to complete the term of a Councilor in accordance with Section 2-11 (c) of the City Charter, the procedure for filling such vacancy shall be as follows:

- 1. Notice shall be given by immediate publication once in a newspaper of local circulation and for not less than two (2) weeks on the City's website homepage that the vacancy exists and that are placement is being sought.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- 2. Individuals interested in filling the vacancy (hereinafter "Applicants") shall be requested to contact the Clerk of Committees. By the close of business of the 14th day following publication in a newspaper of local circulation, applicants shall submit a letter of ~~introduction~~ intent and ~~current~~ resume ~~when contacting~~ to the Clerk of Committees.

- 3. Applicants who have complied with ~~paragraph 2~~Rule 52, Section 2 above shall be invited to a meeting of the full Council ~~Appropriations Committee~~, at which time all applicants will be given an opportunity to address the Council. At that time, Applicants will be afforded up to 10 minutes to make a statement; and Councilors will have the opportunity to ask questions of the Applicants.

- 4. After all applicants have been given an opportunity to address the Council, an election shall be conducted.

- 5. In order to be eligible for election, an Applicant must have his/her name placed in nomination and must receive a second.

- 6. The voting shall be public with each member of the ~~City~~ Council stating the name of the Applicant for whom he or she is voting.

- 7. The first Applicant to receive six (6) votes shall be elected pursuant to Section 2-11(c) of the City Charter.

- 8. If there is more than one Applicant and no Applicant receives six (6) votes on the first ballot, the two (2) individuals who receive the most votes shall move to a second ballot. The other ~~a~~Applicants shall be eliminated. In the event that there is a tie for either of the top two spots, any individual in such a tie shall move on to a second ballot.

- 9. In the event that no Applicant receives six (6) votes after at least five (5) ballots, the Council may place the order on the table and continue with the process at the next regularly scheduled meeting of the ~~City~~ full Council.

Rule 53 Whenever the President, or a member of the ~~City~~ Council appointed by the President or Mayor to serve on a committee, commission, ~~C~~council, board or other working group, attends a meeting of such committee, commission, ~~C~~council, board or other working group, that member shall report back ~~to the full City Council~~ at the next regular meeting of the Council as to the actions taken on all matters on the agenda of said body. ~~committee, commission, Council or other working group~~.

Rule 54 In the event of a vacancy in the position of the City Clerk or Clerk of Committees, the President of the Council shall appoint a nominating committee of three (3) Councilors. The nominating committee will cause any such vacancy to be posted, will review applicant resumes, and conduct interviews. Thereafter, the nominating committee shall recommend three (3) candidates for consideration by the full ~~City~~ Council.

Rule 55 When a standing committee votes to move forward any Order, Ordinance, Petition, ~~or~~ Resolution or Remonstrance to the full Council on the preceding Thursday before a full Council meeting, the City Clerk shall, on the next business day, update the meeting agenda of the full Council to include the committee's recommendation. The updated agenda shall be posted in accordance with the provisions of Rule 8.

Rule 56 All correspondence from members of the public submitted in writing to the Council in connection with any matter before the full Council or committee thereof shall be publicly available; such correspondence shall be automatically attached to the order in question by the City Clerk or Clerk of Committees and shall not require a vote of the full Council or any committee thereof.

Formatted: No underline

Formatted: No underline

Formatted: Underline

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Correspondence relating to a matter, when submitted to the Council at least twenty-four hours (24) prior to a scheduled meeting on said matter, shall be attached to the order before the start of the meeting; correspondence submitted thereafter shall be attached to the order no later than 48 hours from the time of adjournment.

The City Clerk shall redact the e-mail address and phone number of any member of the public who submits correspondence to the Council before any such correspondence is attached to the order.

Rule 57. The final disposition of all Orders, Ordinances, Petitions, ~~and~~ Resolutions, and Remonstrances for a given fiscal year shall be ~~be~~ posted to the City Council section of the City's webpage by the City Clerk within 48 hours of a measure having been disposed. The public posting of dispositions, hereinafter known as the Legislative Disposition List, shall include the following information for all disposed matters: 1) the title of the ~~order~~ filing; 2) the ~~order~~filing number; 3) the name of the Councilor who sponsored the ~~order~~ filing; 4) the names of any co-sponsors; 5) how each Councilor voted on the matter; 6) the outcome of the vote; and 7) the date of disposition.

The Legislative Disposition List shall be maintained in the order that matters are disposed.

Rule 58 When a virtual meeting occurs, public participation shall be enabled in accordance with Rule 29A, whenever feasible.

Councilors must utilize a video feed when participating in a virtual meeting. In the event that a Councilor loses video and audio feed during a meeting, no vote shall occur on any matter until after such time that a recess has occurred in order to troubleshoot the problem. If the Councilor's video and audio feed has not been reestablished within 15 minutes of recessing, the members shall decide whether to proceed with a vote.

If the City Clerk loses video and audio feed during a meeting, the Clerk of Committees shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a meeting, the committee Vice Chair shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a full Council meeting, the City Clerk shall read all orders of business into the record.

When a remote meeting of the full Council or committee thereof occurs, the City Clerk or Clerk of Committees shall admit any member of the administration or other participant to the meeting as directed by the presiding officer. No member of the administration or other participant shall be admitted without the approval of the presiding officer. Members of the administration or other participants shall remain in the virtual meeting room until such time that the presiding officer determines that their presence is no longer needed.

Members of the administration or other participants appearing before the Council in a remote format must utilize a video feed to the extent possible.

September 2, 2021

Ms. Stacey Minchello
Melrose Council on Aging
235 W. Foster St.
Melrose, MA 02176

Dear Ms. Minchello:

I am pleased to inform you that the Board of Directors has approved funding under Title III B of the Older Americans Act in support of the Melrose Council on Aging Program for elders in the Mystic Valley Elder Services (MVES) planning and service area of Chelsea, Everett, Malden, Medford, Melrose, North Reading, Reading, Revere, Stoneham, Wakefield, and Winthrop. The amount of the award, subject to federal funding, is $6,220 for Fiscal Year 2022 (October 1, 2021 through September 30, 2022).

The MVES Board has requested that this award amount under **Special Programs for the Aging, Title III, Part B, Grants for Supportive Services, CFDA Number 93.044, Federal Administration for Community Living** be granted upon the following conditions:

- Melrose Council on Aging will serve 216 unduplicated elders as participants through a series of Teachable Moments workshops around topics of Cultural Competency, Diversity Issues, and Inclusion and monthly participation in LGBT social programs.
- Melrose Council on Aging will provide an in-service or Zoom training for Mystic Valley Elder Services' staff in FY 22 regarding these support services.

The Title III service contract will be mailed to you by mid-September. Upon receipt of the contract, please return a) one signed copy of the contract and b) a signed copy of the Executive Order 504 Provider Certification and Data Security Addendum (Attachment D) to Mystic Valley Elder Services, Attn: Lauren Reid, Title III Planner by 4:00 p.m. on Thursday, September 23, 2021.

Please contact Lauren Reid, Title III Planner, at 781-388-2382 or at lreid@mves.org if you have any questions. The award amount and conditions will be reflected in the Title III service contracts for FY 2022.

We look forward to working with the Melrose Council on Aging again this year.

Sincerely,

Daniel J. O'Leary
Chief Executive Officer

CC: Lauren Reid

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

PROGRAM SERVICE AGREEMENT
between

MYSTIC VALLEY ELDER SERVICES
Area Agency on Aging (AAA)

and
Melrose Council on Aging
Grantee

This Agreement is entered into by and between the Area Agency on Aging (AAA), **Mystic Valley Elder Services** (hereinafter referred to as the **Corporation**), and the Grantee, **Melrose Council on Aging** (hereinafter called the **Provider**), operating in the Commonwealth of Massachusetts as a 501(c)3 organization, having its principal offices at **235 West Foster Street, Melrose, MA 02176**.

WHEREAS, the Corporation desires to purchase programs **to provide access to services for isolated, marginalized, and LGBT elders, and those who are disadvantaged by racial, cultural and/or linguistic barriers and** giving priority to those elderly individuals with the greatest social and economic needs as defined in Attachment B; and

WHEREAS, the Corporation has received authorization from the Commonwealth of Massachusetts, Executive Office of Elder Affairs (hereinafter "Elder Affairs") to fund such services as an Area Agency on Aging under Title III of the Older Americans Act of 1965, as amended in 2006 (Public Law 109-365) under the Special Programs for Aging Title III, Part B, Grants for Supportive Services, CFDA Number 93.044, Administration for Community Living, hereinafter referred to as Title III, and

WHEREAS, the Provider agrees, under Title IIIB, to conduct programs that provide access to services for socially insecure/isolated elders and elders marginalized for reasons including sexual orientation **in the Mystic Valley area, giving priority to those elder individuals with the greatest social and economic needs as defined in Attachment B; and**

NOW, THEREFORE, the Corporation and the Provider do mutually agree as follows:

1. **Engagement**

The Corporation hereby engages the Provider to provide and the Provider agrees to provide "Project Services" to individuals sixty years of age or older, giving priority to those elder individuals with the greatest social and economic need who reside within the following designated area as set forth in Attachment A of this contract. The term "Project Services" shall mean the program as described in the grantee's grant application (see Attachment E). The term "Greatest Social and Economic Need" is defined in Attachment B, which definition may be changed from time to time by the Corporation. The activities of the Provider under this agreement shall hereinafter be referred to as the "Program".

2. **Period of Performance**

This Agreement shall take effect on or about **October 1, 2021** and shall remain in effect until and through **September 30, 2022**, at which time the Agreement expires automatically, unless earlier terminated in accordance with the terms set forth herein. This renewable contract is subject to the Corporation and the Executive Office of Elder Affairs confirmation of available Title III funds, and compliance with the provisions of the regulations as set forth in this Program Service Agreement. Programmatic and fiscal activity on this grant must be demonstrated within thirty (30) days* of the issuance of the grant award or the corporation may terminate the grant.

*Days are defined as calendar days unless specified in the agreement as business days.

3. **Fiscal and Administrative Conditions**

I. Maximum Obligation

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- The Corporation shall pay to the Provider an obligation of up to **$6,220** of Title III funds for the period ending **September 30, 2022**, as contained in Section 2 of this Agreement. These funds shall be the Corporation's maximum obligation under this contract. The Provider shall provide a matching share of not less than **15%** of the total Program budget in non-Title III cash or in-kind services. **Specific administrative conditions for FY22 include:**

1. **The Melrose Council on Aging will serve 216 unduplicated individuals age 60 and older in the Mystic Valley Elder Services (MVES) planning and service area through the Teachable Moments Workshops and the LGBT Social Programs,**
2. **The Melrose Council on Aging will provide monthly documentation regarding the number of referrals made to Mystic Valley Elder Services, and**
3. **Melrose Council on Aging will provide an in-service or Zoom training for Mystic Valley Elder Services staff regarding these programs.**

II. Approved Budget

In no case shall the Provider's Program Services expenditures exceed the total approved budget or exceed the approved costs for each budget category as specified in this Agreement without the prior written approval of the Corporation. The portion of the total budget allocated to the individual line items as set forth in the budget may be amended by mutual consent of the parties at the request of either party, but in no event shall the sum of the reimbursable amounts as amended exceed the level of funding itemized in the original budget. Failure of the Provider to request written approval for budget changes from the Corporation may be a cause for disallowance of expended monies, which determination is the sole decision of the Corporation.

III. Reimbursement of Provider Expenditures

The Provider shall submit periodic expenditure and program reports as requested by the Corporation in a format as set forth in Attachment C to this Agreement. Such reports shall be for Program Services authorized by the Corporation pursuant to this Agreement and rendered to eligible participants by the Provider during the previous period, and shall include such programmatic, fiscal and administrative data as the Corporation reasonably deems necessary for the monitoring and evaluation of such services and to substantiate the Corporation's claim for reimbursement from Elder Affairs. Upon receipt and approval of properly completed expenditure and program reports, the Corporation shall, subject to receipt of funds from Elder Affairs, make its best effort to process payments to the Provider within thirty (30) days. The Corporation may, within ninety (90) days of the expiration of this Agreement and after consultation with the Provider, adjust any invoice of the Provider both before and after payments have been made; however, the failure of the Corporation to exercise this provision shall not constitute a waiver of any right of the Corporation to otherwise recover funds paid to the Provider pursuant to this Agreement.

IV. Accounts

Both federal Program grant funds and non-federal resources (cash or in-kind) which constitute matching share for the Program shall be maintained in a separate account from any other funds. Provider Program accounting records shall be itemized in sufficient detail to show the exact nature of all receipts and disbursements. The Provider shall establish and maintain appropriate procedures to safeguard and account for all contributions and project income. All financial and accounting records shall be maintained by the Provider in accordance with generally accepted accounting practice and principles.

V. Contributions

Consistent with the mandate of the Older Americans Act, 42 USC 3001 et seq. and 45 CFR 1321.67, the Area Agency on Aging shall assure that each Provider shall provide each older person with an opportunity to voluntarily contribute to the cost of the service(s). This opportunity should be publicized with project participants while effective procedures maintain both the voluntary nature and confidentiality of any donations. A service Provider that receives funds under Title III may not deny any older person a service because the older person will not or cannot contribute to the cost of the service. All contributions are to be used by the grantee to expand the services of the program being funded under this grant.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

4. **Monitoring**

The Provider shall establish and maintain such documents and financial and program records which are required by the Corporation to ensure documentation, monitoring and evaluation of financial activities and the provision of purchased services. All financial records, program records, and other books, records, documents, and property pertaining to this Agreement shall at all reasonable times be open for inspection, review or audit by the Administration on Aging, Elder Affairs, the Corporation, or their authorized representatives, who shall at all reasonable time have access to the premises wherein such books, records, documents and property are stored for seven (7) years after final payment hereunder.

The Corporation reserves the right to make a site visit at any time during the regular business hours of the program for the purpose of conducting program and fiscal audits. The Corporation shall conduct at least an annual site visit for such purpose. The provider shall develop and keep on file participant surveys as well as other evaluation measures the Provider uses to measure its program impact and improve Program operations.

The Provider shall provide the Corporation with any additional data that the Corporation may reasonably require to permit it to monitor performance of this Agreement at a level sufficient to assure fiscal administration, accountability and program quality.

5. **Confidentiality**

The Provider shall not use or release any reports, data, or other information identifying applicants or persons served, or which could reasonably lead to the identification of such applicant or person served, in accordance with the laws of the Commonwealth, including but not limited to Executive Order 504, M.G.L. c 93H, M.G.L. c. 66A § 2, Elder Affairs PI-97-55; and where applicable, Federal law, governing the use, safeguarding and access to personal data as defined in The Fair Information Practices Act. Such information as may be necessary shall be used only to assure proper administration, planning, coordination and monitoring of performance under this Agreement and to permit the transfer of records of a person served to another agency for the purpose of continuing services. The Provider shall provide the Corporation such additional data as the Corporation may require to monitor the Provider's information system and to guarantee adequate safeguarding of the human and civil rights of the applicants and persons served. The Provider shall furnish to the Corporation, within thirty (30) days following the request by the Corporation, a written description of the Provider's system for gathering, storing, and releasing personal data so the Corporation may determine compliance with Section 6 of this Agreement.

6. **Protection of Clients**

The Provider shall comply with the applicable provisions of Elder Affairs' rules governing the Elder Rights Review Committee (ERRC), set forth at EOEA-PI-03-17. Under these rules, Elder Affairs must review all research, experimentation, surveys, market testing or similar research that seeks access to clients or client information connected with programs funded by Elder Affairs.

7. **Non-Discrimination in Service Delivery**

The Provider shall not deny any services to or otherwise discriminate in the delivery of services against any person who otherwise meets the eligibility criteria for the program as determined by the Corporation on the basis of race, color, religion, sex, age, national origin, ancestry, physical or mental disability, sexual orientation or because such a person is a recipient of federal, state or local public assistance or housing subsidies. The Provider agrees that program staff shall make reasonable accommodations to allow for client participation in the program and its benefits.

The Provider shall comply with all applicable provisions of:

(a) Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq.) - prohibits discrimination on the basis of race, color or national origin, in programs receiving federal assistance;

(b) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794) and the regulations promulgated thereunder, (45 CFR part 84) - prohibits discrimination against qualified disabled individuals on the basis of the disability in any program or activity receiving or benefiting from federal financial assistance and requires programs and activities, when viewed in their entirety, to be readily accessible to disabled persons;

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(c) M.G.L. c 151B, § 4 (10) - prohibits discrimination in furnishing services on the grounds that an individual is a recipient of federal, state or local public assistance or housing subsidies, nor should any services be denied to any person who chooses not to make a donation to the cost of the Program.

8. **Non-Discrimination in Employment**

The Provider shall not discriminate against any qualified employee or applicant for employment because of race, color, national origin, ancestry, age, sex, sexual orientation, religion, or physical or mental handicap. The Provider shall comply with all applicable provisions of:

(a) Title VII of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et. seq.) - prohibits discrimination in Employment on the basis of race, color, religion, sex, or national origin;
(b) M.G.L.,c. 151B, § 4 subsections 1, 1A and 1B - prohibits discrimination on the basis of race, color, sex, religion, creed, national origin, ancestry or age;
(c) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794) and the regulations promulgated thereunder (45 CRF part 84) - prohibits discrimination against qualified disabled individuals on the basis of the disability and requires employers to make reasonable accommodations to known physical or mental limitations of otherwise qualified disabled applicants and employees.

9. **Affirmative Action**

The Provider shall develop and adhere to a policy of affirmative action in all aspects of employment under this Agreement. In addition, if the maximum compensation paid to the Provider in the Commonwealth's fiscal year immediately prior to the beginning of this Agreement, or payable during the term of this Agreement, from agencies acting pursuant to contracts with the Executive Office of Elder Affairs, is fifty thousand dollars ($50,000) or more, the Provider shall develop and maintain an affirmative action plan in accordance with the applicable requirements of Executive Order 526 and transmit a copy to the Corporation within thirty (30) days of receiving the Notification of Grant Award.

10. **Grievance**

The Provider shall develop and adhere to a policy in writing, in a conspicuous manner at the place where services are rendered or delivered, a notice informing individuals eligible for or receiving Title III services that they may file a grievance with the Corporation, within twenty-one (21) days, when said individuals are dissatisfied with or denied Title III services by the Provider. This notice must include the name and address of the Corporation. The Corporation will provide to the complainant a written Grievance Application.

11. **Conflict of Interest**

The Provider shall not knowingly employ, compensate or arrange to compensate any employee of the Corporation during the term of the Agreement without the prior written approval of the Corporation. It shall be a breach of this Agreement for the Provider to give, or agree to give, or to solicit, demand, accept, or agree to accept, any additional gratuity, including an offer of prospective employment or favor, in connection with any action or other particular matter within the purview of scope of duties of any employee, officer or director of the Corporation.

12. **Notice**

Unless otherwise specified herein, any notice, approval, request, or demand hereunder from either party to the other shall be in writing and shall be deemed to have been given when either delivered personally, electronically by fax, or deposited in a United States mail box in a postage prepaid envelope addressed to the other.

13. **Political Activity**

No employee of the Provider may engage in partisan or non-partisan political activity during hours for which the employee is paid in whole or in part with Corporation funds. The Provider may not select or promote an employee based on his or her political affiliation. The Provider agrees that for the term of this

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Agreement, no employee paid in whole or in part, nor board member of the Provider, shall at any time use the name of the Corporation and funds received pursuant to this Agreement, either directly or indirectly, for the purpose of interfering with or affecting the results of an election or nomination for office, whether partisan or non-partisan.

14 **Lobbying**

I. The Provider agrees that for the term of this Agreement, to the best of his or her knowledge, no federal appropriated funds will be paid, by or on behalf of the provider, to any person for influencing or attempting to influence an officer or employee or any agency, a Member of Congress, an officer or employee of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, contribution, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement.

II. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee or any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the Provider shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

III. The Provider shall require that the language of this certification be included in the award documents for all subawards at all tiers, including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements, and that all subrecipients shall certify and disclose accordingly.

"This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure."

15. **Termination**

(a) If, for any reason, the Provider is unable to provide the services specified by this Agreement, it shall promptly notify the Corporation of its inability to provide services and indicate the specific reasons.

(b) The Corporation may suspend, reduce the grant in whole or in part at any time or terminate this Agreement, if the Provider has failed to comply with the provisions of this Agreement, in whole or part. However, prior to suspension, reduction of the grant in whole or part or termination of this Agreement pursuant to this subsection, the Corporation shall notify the Provider, in writing, of the specific areas of non-compliance. The Provider shall restore compliance within thirty (30) days of the date of notice. If the Provider has not restored compliance within the thirty (30) day period, the Corporation may terminate this Agreement by furnishing the Provider with written notice not less than forty-five (45) days prior to the effective date of termination.

(c) If the Corporation determines that any non-compliance with the terms of this Agreement on the part of the Provider endangers the life, health, and safety of any recipients of services under this Agreement, it shall terminate this Agreement by orally notifying the Provider of termination followed by the making of written notification, return receipt requested, setting forth the specific reasons for termination, within three (3) business days following the oral notification. Termination pursuant to this subsection shall take effect upon the furnishing of the oral notification.

(d) The Provider may terminate this Agreement prior to its expiration date if the Corporation fails to comply with a material provision of this Agreement. The Provider shall furnish the Corporation with written notice of termination not less than forty-five (45) days prior to the effective date of termination.

16. **Early Termination: Change in Law**

In the event that any statute or regulation which governs performance hereunder is changed, differently interpreted by a court or other competent authority, or newly enacted, adopted or promulgated, so as to increase the burden on either party in complying with the terms of this Agreement significantly beyond

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

those existing at the time of the execution of this Agreement, the party so burdened my terminate this Agreement upon written notice to the other party of not less than forty-five (45) calendar days.

17. **Early Termination: Elimination or Reduction in Funding**

In the event that Title III funding appropriated through the Executive Office for Elder Affairs for Title III service contracts to the Corporation is eliminated or reduced to an extent that funding of this contract is not feasible, the Corporation may terminate this Agreement by providing written notice of termination to the Provider effective not less than forty-five (45) days after date of such notice.

18. **Early Termination: De-Designation of the Area Agency on Aging**

The Corporation shall notify the Provider in writing of its receipt of notification by Elder Affairs (hereinafter in this subsection referred to as "the Department") that the Department intends to de-designate the Corporation as the Area Agency on Aging for the service area covered by this Agreement. Thereafter, the Corporation shall notify the Provider of any appeal it may take of the Department's action and the disposition of any such appeal. All notices required by this subsection shall be made in writing within ten (10) days of the event which prompts the notice requirement.

In the event that Elder Affairs finally de-designates the Corporation as the Area Agency on Aging for the service area covered by this Agreement, the Corporation may terminate this Agreement by furnishing the Provider with written notice at least sixty (60) days prior to the effective date of termination. The parties shall cooperate fully with each other and with the Department, and take all reasonable steps and utilize all reasonable means to ensure continuity of services to program clients, including the use of available Corporation funds for the continuing delivery of legal assistance under this Agreement.

19. **Obligations upon Expiration, Termination, or Suspension**

The Corporation will pay the Provider for any reimbursable cost not covered by previous payments, for services rendered, pursuant to this Agreement, prior to notice of termination, if rendered in accordance with this Agreement, provided that the Provider submits the properly completed fiscal reports to the Corporation covering services rendered not later than thirty (30) days after notice of termination, suspension, or expiration. The Provider will immediately refund to the Corporation in accordance with the Corporation's instructions any unobligated balances of cash advanced by the Corporation.

If the Grant is terminated or expires without an audit, the Corporation retains the right to disallow and recover an appropriate amount after fully considering any recommended disallowance's resulting from an audit, which may be conducted later. The termination or expiration of this Agreement does not affect the retention period for or the Corporation's right to access to program records as contained in Section 5 of this Agreement. The expiration or termination of this Agreement does not affect the Provider's responsibilities with respect to property as contained in Section 25 of this Agreement.

20. **Reproduction of Reports: Copyright**

The Provider shall not disseminate, reproduce or publish any report, information, data, or other documents produced in whole or in part pursuant to the terms of this Agreement without prior written consent of the Corporation, nor shall any such report, information, data or other document be the subject of an application for copyright by or on behalf of the Provider without the prior written consent of the Corporation.

21. **Assignment and Subcontract**

The Provider shall not assign or subcontract any interest in this Agreement without the express written permission of the Corporation and Elder Affairs; provided that claims for money due or to become due to the Provider from the Corporation under this Agreement may be assigned to a bank, trust company or other financial institution without such consent. Notice of any such assignment shall be furnished promptly to the Corporation. None of the services to be provided by the Provider pursuant to this Agreement shall be subcontracted to any other organization, association, individual, partnership or group of individuals without the prior express written approval of the Corporation and EOEA.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

22. **Insurance**

The Provider shall procure and maintain insurance. The insurance will protect itself, its subcontractors, and the Corporation adequately from fire and extended coverage losses and from claims for bodily injury, death or property damage which may arise from operations under this Agreement. The Provider will provide the Corporation with a Certificate of Insurance prior to the commencement of the Program work. This certificate will provide that the policy shall not be canceled by the insurance company without ten (10) days notice to the Corporation of intention to cancel.

The Provider agrees to hold harmless and safe the Corporation, its officers, its agents, and employees from liability of any nature or kind including costs, expenses and attorney's fees for or on account of any or all suits or damages sustained by any person(s) or property resulting in whole or in part, from the negligence, performance, omissions or intentional act of any employee, agent, or representative of the Provider.

The Provider shall procure and maintain the following insurance coverage from a company or companies authorized to do business in Massachusetts:

(a) Workers Compensation Insurance shall be secured and maintained as required by the Commonwealth of Massachusetts;
(b) Public Liability - Bodily injury and Property Damage in amounts approved by the Commonwealth of Massachusetts;
(c) Malpractice-professional Liability Coverage (as applicable) in amounts approved by the Commonwealth of Massachusetts;
(d) Provider shall also purchase and maintain fidelity bonds of no less than twenty-five thousand dollars ($25,000) per incident for all employees with direct access to or responsibility for the receipt and disbursement of funds.

23. **Waiver of Default**

Waiver by either party of any non-compliance shall not constitute a waiver of any subsequent non-compliance. A waiver or modification of any of the provisions of this Agreement shall be effective only if made in writing and executed with the same formality as this Agreement.

24. **Maintenance of Effort**

Services provided with funds under this Agreement must be in addition to any program services already provided to elderly persons in the cities and towns of Chelsea, Everett, Malden, Medford, Melrose, North Reading, Reading, Revere, Stoneham, Wakefield, and Winthrop.

25. **Equipment**

Equipment acquired or purchased by the Provider which was fully paid or reimbursed by grant funds provided by the Corporation pursuant to this Agreement shall be the property of the Corporation. No title or right in said equipment shall pass to the Provider except the right herein expressly granted. Plates or other markings will be affixed to or placed on said equipment by the Corporation indicating that the Corporation is the owner thereof and the Provider will not remove said plates or other markings. Upon expiration or termination of this Agreement, the Provider will immediately return said equipment to the Corporation in as good condition as received less normal wear, tear, and depreciation. Said equipment shall always remain and be deemed personal property even though attached to realty.

All replacements, equipment repairs, or accessories made to or placed in or upon said equipment shall become a component part thereof and title thereto shall be immediately vested in the Corporation and shall be included under the terms thereof. The Corporation may inspect the equipment at any time; and the Provider agrees to keep the equipment in first-class condition and repair it at the Provider's expense and house the equipment in a suitable shelter; and not to sell, pledge, encumber or otherwise dispose or limit the Corporation's interest in the equipment or accessories attached thereto without the written approval of the Corporation.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The Provider assumes the entire risk of loss or damages to the equipment, whether or not covered by insurance. The Provider agrees to and does hereby indemnify and hold the Corporation harmless of, from and against all claims, costs expenses, damages, and liabilities, including reasonable attorney fees resulting from an incident to the use, operation, or storage of the equipment during the term of this Agreement and while said equipment is in possession or control of the Provider. The Provider agrees to keep the equipment insured to protect all interests of the Corporation, at the Provider's expense against all risks of loss or damage from every cause whatsoever in a manner and in an amount approved by the Corporation. Said insurance proceeds there from shall be payable to the Corporation. *Equipment means those items identified in Appendix I, attached hereto and incorporated herein in reference.*

26. **Staffing Pattern of Provider** (Refer to Grant Application)

27. **Provision and Delivery of Services** (Refer to Grant Application)

28. **Licenses**

The Provider shall procure and keep current any license, certification, permit or accreditation required by local, state, or federal statute or regulations and shall, upon the request of the Corporation, submit to the Corporation proof of such license, certification, permit or accreditation.

29. **Criminal Procedure**

The Provider shall request a Criminal Offender Record Information (hereinafter referred to as "CORI") from the Criminal History Systems Board, prior to employing an individual whose salary is to be paid with Title III funds, referring for employment or accepting such individual as a volunteer, pursuant to M.G.L.c.6,§ 172 and § 172C, and 101 CMR 15.00 et seq. This includes but is not limited to agencies which employ or accept as a volunteer or refer for employment those persons who will provide care, treatment, education, training, transportation, delivery of meals, instruction, counseling, supervision, recreation or other services in a home or in a community-based setting for any elderly and/or disabled person, or one who will have direct or indirect contact with such elderly and/or disabled person, or access to such person's files.

30. **Publications**

The Provider shall insure that the distribution of any web sites, videos, vehicles, brochures, periodicals or other publications describing any program funded, in part or whole, by Title III funds, prominently display in such report a statement to the following effect:

"This agency and its programs are funded (in whole or in part) by a grant from Mystic Valley Elder Services, the Massachusetts Executive Office of Elder Affair, and the federal Administration on Aging."

31. Compliance with Legal Services Corporation Restrictions as Set Forth In Public Law 104-134 (If Applicable)

Title III legal assistance Providers (LAP) who receive funding from the Legal Services Corporation shall comply with the restrictions on activities set forth in P.L. 104-134. The Corporation and said LAP may elect to execute the Model Title III-B Legal Assistance Agreement previously adopted by Elder Affairs in place of this Agreement.

32. **Integration**

All attachments to this Agreement are deemed to be part of this Agreement. The entire agreement of the parties is contained herein and this Agreement supersedes all oral agreement and negotiations between the parties relating to the subject matter contained herein.

This Agreement has the following attachments:

Attachment A	Corporation's Service Area
Attachment B	Definition of Greatest Social and Economic Need
Attachment C	Project Reporting (program and expenditure report formats)
Attachment D	Executive Order 504

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

If any provision of this Agreement is held to be invalid or unenforceable, all other provisions shall nevertheless continue in full force and effect.

33. **Compliance with Law and Regulations**

Provider agrees to comply with the provisions of the Older Americans Act of 1965 as amended in 2006 (Public Law 109-365) and all regulations pertaining thereto, as well as all terms of 45 CFR Part 74 (Administration of Grants) that has not been expressly and specifically modified by this Agreement.

IN WITNESS WHEREOF, the parties have caused this contract to be executed by their duly authorized officers.

RE: Lincoln School Pedestrian Safety Survey

DATE: December 7, 2020

The purpose of this letter is to share the findings of the Lincoln School Pedestrian Safety Survey that I initiated earlier this year. I am hopeful that the findings will provide a launching pad from which we can begin a conversation about improving safety on the West Wyoming corridor in the vicinity of the Lincoln School.

Since the earliest days of my service as the Ward 5 City Councilor, pedestrian safety in the Lincoln School area has been the number one concern I have heard from residents. This is also an issue of particular importance to the Lincoln School PTO. Recognizing this, I advocated that at least one set of flashing crosswalk signs (preferably two) be installed at the Lincoln School crosswalks prior to the 2019 school year. As a result, Mayor Infurna earmarked free cash for the purpose of installing a set of flashing crosswalk signs at the crosswalk closest to the school's driveway. As demonstrated by the survey, parents consider this to be an enhanced safety feature.

Although signage is no doubt helpful, it is but one step of what -- I am sure we all agree -- needs to be a robust, multipronged approach to improve safety on the corridor. Pedestrian safety at *all* of our school locations is paramount; but the Lincoln School is unique in that the safety of children and parents walking or biking to and from school is impacted by a number of variables distinct to its location. Such variables include, but are not limited to, the following:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- **Work Traffic** -- West Wyoming is a busy thoroughfare for motorists traveling west in the morning to access the Fellsway, Route 1, and Interstate 93.

- **The Commuter Rail** -- Motorists are likely to confront a stopped train at Wyoming Station at four possible times during school travel: 7:44 a.m. outbound train; 7:50 a.m. inbound train; and two trains around the time of "Early Bird" drop off, one at 6:57 a.m. and the other at 7:10 a.m.

- **Stoppage** -- Motorists traveling west on West Wyoming from Main Street hit three crosswalks, two staffed by crossing guards, in just under two tenths of a mile (≤0.2) before reaching the first crosswalk at the Lincoln School.

The above variables alone cause impatience and frustration on the part of some motorists, leading to aggressive operation practices that pose a risk to public safety, as validated by both the quantitative and qualitative data presented in the attached report. These findings have been further validated through my conversations with the longtime crossing guard about his personal observations. Although I recognize that we cannot control the feelings and behaviors of motorists, I do believe that we can take affirmative steps to mitigate the related safety risks. To that end, I am hopeful that findings from this survey will be helpful to us in determining an aggressive plan of action.

As background, the pedestrian safety study was hosted via Google Survey. Representatives from the Lincoln School PTO and the Melrose Ped/Bike Advisory Committee, as well as the Lincoln School crossing guard, were consulted prior to the launch of the survey and given the opportunity to recommend questions and other survey-related content. The survey targeted households of Lincoln School students and was promoted through the PTO's online and social media networks, beginning in January 2020. Although the survey remained open until August, the vast majority of responses were received over the first two months. The household response rate was 31% (N=102), a favorable data collection outcome when considering that online surveys typically yield a response rate less than 30%. The survey contained six (6) demographic questions and fifteen (15) distinct safety questions. Below are some key results from the survey:

- 55% of households have had a child/children enrolled at the Lincoln School for more than four (4) years; of that number, 28.4% have had a child/children enrolled for six (6) or more years. This represents an intimate familiarity with traffic safety in the area due to years of personal experience.

- 57% of households walk to and from school every day.

- 89% of households consider traffic safety to be a problem, with 41.2% considering it a "Serious Problem."

- 44% of households are aware of one or more incident where a child was injured or almost injured.

- 62.7% of households worry about their child's safety when traveling to and from school.

- 49% of households report that vehicles occasionally or sometimes stop at crosswalks.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- 65.7% of households say that distracted driving on the West Wyoming corridor is a problem, with 30% considering it a “Serious Problem.”

- 28.4% of households believe that the new flashing crosswalk sign has had a “Major Effect,” while 36.3% believe that it has had a “Moderate Effect.”

The attached report includes additional data points as well as personal attestations from Lincoln School parents that will be instructive to us in working collaboratively to improve safety on the West Wyoming corridor. I am thankful for everyone’s shared interest in finding a lasting solution to this problem, and I am confident that *together* we will do just that.

I look forward to hearing your thoughts and suggestions, and to working with all of you to discuss next steps. In the meantime, if you have any questions, please do not hesitate to contact me.

Qualitative Data

Observations and Experiences of Respondents…

“While we do not cross West Wyoming ourselves, it often appears parents and children are struggling to cross safely.”

“City council should take more of an interest.”

“Drivers speed and do not pay attention on W Wyoming all time, not just during school hours. Few people want to stop at either crosswalk due to trying to make lights or beat the trains. It seems drivers just ignore the school zone.”

“As a car driver, I see the the major problem as commuter related traffic backups exacerbated by the train schedule and solar glare. Any solution that is strictly pedestrian focused will not get to the root cause of the traffic problems.”

“The Everett St back entrance is often a mess of traffic and cars improperly parked. Blocking the crosswalks and driveways. Causing a gridlock at crescent/Everett cross st.“

“The male traffic/crossing guard at the Lincoln school is amazing ! Always paying attention to all kids and traffic.”

“City Council needs to act.”

“I think the only problem is that cars don’t stop even at the cross walk. They just fly through them esp when school is in session too. When I’m volunteering at the school and trying to cross no one rarely stops to let me cross. I think parking is a big issue too! There’s not enough spots for the parents to park and we’re left constantly looping around until our child gets out.“

“Everett Street/ Crescent Avenue is a problem -- too narrow for two way traffic. People stopping on crosswalk to drop kids off. Very dangerous in the mornings.”

“Everyone is is such a rush to get their morning routine done including stay at home parents, working parents, and those drivers trying to get to work that everyone lacks common courtesy and safety. Drivers get frustrated and angry which then causes them to become unsafe. I think everyone feels as if their schedule is more important than the next person's and this impacts their decision making which impacts kids. I wonder if there is a way to funnel all the kids down to the crossing guard in front of Lincoln and this might cut down on traffic being grid locked. Encouraging kids to use the main crossing guard would also help. Trenton at Wyoming is often a treacherous spot for cars and pedestrians, so are Florence and Cottage (going north bound). Perhaps adding extra traffic details would help. The police department's shift change happens at the time kids are walking to school (especially so since the new elementary time started). There used to be officers visible until the time change. Also, the police department is understaffed as is and day shift tends to be the busiest time. There are many variables at play here. Lincoln is in a tough spot, on the bus line, effected by the commuter rail, effected by commuter traffic, as well as parents driving from across the city to get to Lincoln.”

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"I also live near the Lincoln school and it's a traffic nightmare. Cars parked in no parking zones blocking entry to my street, cars parked across my driveway...the worst was when I said something to a man parking illegally and he told me to F- off, with his young child right there. I have to call the cops routinely. Once they had to tow a car blocking my driveway. Ridiculous."

"As far as safety, I was standing at the 32 bus stop one morning and almost saw a child get hit by a car because the driver was applying make up while driving. And she has kids she was dropping off in the back seat!!! Horrifying."

"Constant parking in the staff only parking lots drop off and pick up."

"Parking in the drop off area on W. Wyoming at drop off and pick up."

"Crossing Trenton at Wyoming is not safe as cars drive fast to get across Wyoming."

"Crossing at Trenton and Russell would benefit from a crossing guard."

"Cross traffic stops only half the time to allow pedestrians to cross in the cross walk. People especially kids are difficult to see when walking from the Lincoln to Adams St. Crossing at Trenton and Russell as there is a tree right there making it difficult for cars to see pedestrians until they are right at the cross walk."

"Parking on both sides of Crescent impacts the flow of traffic and at times makes it impossible to actual get down Crescent."

"I have seen near misses with cars on the tracks when the gate has come down and there's no place to move to. Dangerous for cars and pedestrians."

"Cars are constantly rolling through stop signs and speeding. Drivers almost never stop at crosswalks. Other cities have put in speedbumps and raised crosswalks, as well as putting in protected bike lanes to narrow the road and slow traffic. We really shouldn't wait until people have died to implement safety changes."

"I am shocked that there has been so little outrage about pedestrian safety in our neighborhood, when there have been 3 fatalities in recent years. In order to really address the issue of safety for all modes of transportation, the City needs to make an investment of time and money in comprehensive engineering improvements along the West Wyoming corridor (including reduce crossing distances, raised crosswalks, signal timing). Also, while this is the "third rail" of Melrose politics, traffic would slow down if more on street parking were allowed along West Wyoming."

"One issue that I see is that the sidewalk next to the tot lot on Cottage Street is almost if never properly shoveled and sanded. This results in a very uneven slippery surface and parents and children end up walking on the street to take the corner around to West Wyoming to get to the Lincoln School. I call every year to the DPW, and every year they rectify it but yet every year it happens again. Part of the problem that I have heard is that the ownership of the sidewalk around the park belongs to the school in the city. It is never been consistent on who actually does it though. It is a large safety concern of mine in my families and other families in the neighborhood. It is a dangerous corner."

"I have watched children standing at the crosswalk adjacent to the tot lot waiting for a car to stop so they could cross and car after car after car just keeps passing them. I've had to wave my hands at drivers and point to children waiting in order to get them to stop. It's not cell phones its stupidity. They just aren't paying attention to the kids on the sidewalk. Also at night drivers can't see anyone in this area trying to cross because the lighting is poor."

"I've found the flashing lights to be helpful later in the day, when its dark. During the day, if the crossing guards aren't also there, cars often will not stop. There is no way I would let my child cross the street alone the way it is now, if a crossing guard were not present. I'm already uneasy when I cross by myself or with my child in tow. We do not use the drop off area because it would add another 10 minutes to our commute to school, as it's hard to get to from our end of Melrose. There should be a drop off location for families coming from the eastern sides."

"This year in particular I have found many parents using the back parking lot for drop off. This is dangerous as walkers don't expect anyone to be exiting the parking lot -- only teachers entering. I wrote to Shawn MacMaster and he was very responsive. A police officer came to the lot and deterred cars from going into the lot. This was helpful but will probably only last for a few days. There needs to be more signage in the back lot or the gate needs to be replaced allowing access only to teachers/staff."

"A driver turning into the Richdale market parking lot almost got my daughter and I on Friday morning because he was in a hurry and thought he could beat us, he waved, as if his tires being inches from my daughter's toes was something I allowed and he was thanking me."

"The back lot is a nightmare. Parents use it as a drop off in the morning."

"My grandchild is in 2nd grade. I think the flashing signs are helpful on Wyoming side. But can they flash until the kids are released from Ed Stations"?

"Pleasant Street needs to.be addressed. People drive like bats out of hell on Pleasant Street in AM and PM. Reluctantly slowing down for kids and parents then speeding up like they were soooo annoyed! (Flashing sign and another crosswalk on Pleasant are needed.)"

"Once I was walking in crosswalk with my grandchild and her baby brother on Wyoming in front of school. A woman nearly ran us over. She was going at least 40mph. She was on her cell phone."

"Distracted drivers on phones, rushing to work, speeding."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"I walk each morning and evening with my son. He attends early bird and Ed's. We walk from Lebanon St at 6:35 each morning towards Lynde to Main. This route is reversed arc 5:30-6 for coming home. We have to cross through two five way intersections (in Lynde Lindwood area) in which cars roll through stop signs making it unsafe for us to cross. Many drivers are oblivious to us walking and don't stop for our right of way. There is also a long stretch of Lynde St that has no sidewalk - only gravel. This forces us to walk in the road when there is snow. Thais streets are also not well lit."

"My other concern is the intersection of Pleasant and West Wyoming during the evenings. Those crosswalks should also have the sign that lights up."

On Crescent Ave people park on both sides of the street and facing the wrong way, makes safe travel on Crescent Ave impossible."

"If dropping off by car, it is very difficult to find a place to pull over to park."

"When it snows you have to get the children into the car in the street. The snow doesn't get cleared so you can't open the doors of the car on the sidewalk. I believe if we can do snow removal for businesses we should be able to do the same for the safety of our Lincoln School community, on such a busy street."

"Multiple times, a car has stopped for us to cross and the car behind it crossed the yellow line to aggressively go around them--very scary. Also, lots of kids participate in Ed Stations, and there is no enforcement around 5 PM when many kids are picked up, which is especially tough with rush hour traffic and low visibility. Finally, the flashing crosswalk sign is great, but it doesn't make sense for us to use it coming from the west side of the school. Crosswalks all the way down W. Wyoming should have them."

"The traffic on Pleasant Street is incredibly dangerous. There should be a crosswalk at the entrance to the baseball field. Cars speed down the road, even after stopping at the crosswalk at W Wyoming and Pleasant. Drivers are distracted. It is dangerous. I've almost been struck more than once and I've seen others have similar experiences."

"I see people looking at their cell phones while driving in front of the school on W. Wyoming frequently. The crossing guard is great"!

"Remember the kids leaving education stations later in the day with parents. No crossing guards and traffic almost never stops."

"I would like to have seen this survey include other area where children enter the school grounds. There is a major issue in the back parking lot where parents consistently dropped children off with little regard to safety. The area is not a drop off zone. Parents ignore the sign that states Authorized Personal Only, as well as the weekly reminders in emails and teachers explanations. These parents either stay in the car and let the child exit the car in the middle of the lot or illegally park in the lot and wait for the first bell. This has led to the staff being delayed entry to the lot and delaying their arrival to school."

"My children and I cross west Wyoming on the crosswalk closest to Florence street, and without my continued guidance and physically holding on to them, there would have bee[illegible] terrible consequences. On average 2-3 cars blow past the crosswalk for each one that stops. I have also experienced multiple situations where the drivers in the cars have swerved and been angry while flying past that we have been walking in the first half of the crosswalk while they speed through the 2nd part. I have never seen a police presence in the crosswalk area we typically use, and with the rate at which there is total disregard for young children attempting to cross, I plea for both a crosswalk light as well as traffic enforcement there. Especially as when after-care pickup happens in the winter after sunset, and the 2-3 car average becomes even higher. To me, this is the top safety issue in Melrose - specifically on the main thoroughfares such as West Wyoming."

"My child and I have almost been hit by cars several times over the years at the Wyoming/Pleasant Street intersection before and after school. It's worse when no crossing guards are available – i.e., post ed stations pick up it's extremely hard to cross at night especially. I don't feel comfortable letting my 10 year walk home and we live across the street"!

"I believe the traffic is handled well on West Wyoming (Main Entrance of Lincoln) - however, a majority of students/families walk down Everett, Pleasant and Crescent and these streets have little parking, no stop signs or signage and cars travel quickly and distractedly during the morning commute. West Wyoming is the LEAST of the issues - it is the side streets."

"We always cross at the crossing guard, who is wonderful. I worry about when my children are old enough to walk home by themselves after the crossing guard has left and need to cross W. Wyoming. Drivers regularly drive through the crosswalks above the speed limit."

"Speeding on w Wyoming is a problem."

"Traffic on Crescent Street in and out of the parking lot is VERY unsafe. There is a ""Authorized Vehicles Only"" sign... but parents believe they have authorized vehicles. The gate should be shut an locked except to staff."

"I have seen numerous minor accidents near Lincoln, especially at the Cottage And West Wyoming intersection. I often do not cross there (and instruct my son not to) because of safety concerns. More often than not, multiple cars do not stop at the secondary crosswalk where there is no crossing guard, and many students and parents cross there. Just yesterday, I was with another parent and six 5th graders loading food donations into a car around 2:00. We pressed the cross signal sign and watched a car blow right passed us as we all stood at the crosswalk waiting to cross. There needs to be police presence there to enforce rules and ensure safety."

"The intersection at Cottage and West Wyoming is extremely dangerous, cars speed onto Cottage."

"The crossing guard is definitely effective, however, when he/she is not there cars speed and rarely stop for people trying to cross at crosswalks. I have watched up to 10 cars pass on either side of the street without stopping while my children and I have waited on the sidewalk at the crosswalk (and have gotten absolutely soaked by drivers on rainy days)."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Qualitative Data

Ideas and Suggestions Offered by Respondents…

“Ban automobiles.”

"The current crossing guards are entirely focused on the children, but that means that they're not concerned with regulating the flow of traffic. Holding back traffic for too long leads to backups by the train tracks and at the intersection with Main and Wyoming. That, in turn, leads to a dangerous situations farther away from the school.”

“If we want to improve cyclist and pedestrian safety at the school, I suggest training the crossing guards in proper auto traffic management techniques as well."

“Regular police presence near the back entrance, I think I have seen them there once all year.”

“Bring back neighborhood school, school choice has caused too much vehicle congestion. Also the change in start times is terrible.”

“I think a light at the cross walk would help. And parking is tough but this over flow of drivers and the increased number of residents due to the apt complexes is ridiculous. They need to stop building! And work on fixing the problems of overflow that we currently have.”

“Police officer on site actively stopping and issuing citations for not yielding to pedestrians in cross walk, distracted driving and speeding.”

“Make Everett St a one way.”

“Bicyclists should be encouraged to use other routes during school drop off. Presumably they aren't dropping off children. The road is narrow enough in that area during that time. Maybe alternate bike route signs. People certainly watch their driving and how unsafe they are being when there's a police presence however that would require additional planning. Maybe signs that light up well before the school asking drivers to be patient for school kids and the traffic.”

"Crossing guard at Trenton and Wyoming; crossing guard at Trenton and Russell."

“Have ALL teachers and school staff park in the school lot and not on our neighborhood streets.”

“Eliminate street parking on Main St and West Wyoming to create safe bike lanes.”

“Need to have a shoveled route down Washington St while we’re at it.”

"Signage at railroad tracks explaining how to cross them safely and to wait when there are cars ahead of you."

"Parents should only use the crosswalk where the crossing guard is. They should block the other one off in the morning and at dismissal. It is confusing for the drivers to stop twice and therefore dangerous for the kids."

"Automatic speed cameras that ticket the driver."

"One idea is that the crosswalk that is closer to the Lincoln School fourth grade entry, should be taken away. The only available crosswalk should be the one where the crossing guard is. If there are too many places that cars need to stop they ignore the other crosswalk. It seems like it's more of a hazard than a help. A place where there could be another crosswalk is between Cottage St S and Cottage St N, by the Tot Lot people cross there all the time without across walk and it is always been an issue."

"Enforce the parking rules in the back of the school. improve the signage around the school--cars parked on the sides of W Wyoming impede the seeing of these signs."

"Additional signage, stoplights, and speed trackers. There isn't enough space for a bicycle lane, and street parking is essential. Families who drive should be allowed to use the parking rotary on the side of the school near the main entrance, especially on inclement weather days. We used a similar system at the ECC for two years and it was awesome."

"Police presence to enforce speed laws in the area because drivers aren't slowing to 20 mph, and a stop light."

"Monitor the back lot and Everett Street."

"More flashing lights at crosswalks, increased police enforcement."

"There is a crosswalk on Pleasant at Wyoming corner. But, there should be an additional crosswalk near the ball field side. I've seen people gun their motors once they've made the turn from Wyoming onto Pleasant. Also…when it snows why cant the sidewalks be salted? I saw a parent and a child slip and fall on ice on the Pleasant Street sidewalk - come on"!!!!

"Enforce the no texting while driving. I see it several times a day at drop off and pickup Installing another flashing crosswalk sign at the crosswalk near the playground. And periodically having police presence enforcing speed limits."

"More flashing crosswalk signs, better enforcement of crosswalk violations. Also, the flashing lights at the intersection of Trenton and W. Wyoming can be distracting, drawing attention away from pedestrians trying to cross. Bump-outs would be helpful too, as foliage sometimes blocks the line of sight there in the summer."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"Crosswalk on Pleasant Street near driveway to apartments/commuter rail parking lot and across from entrance to baseball field."

"Police presence on W Wyoming during pick up/drop off."

"Please put a traffic light at the crosswalk right in front of the school. Please have a police officer pull over and ticket people texting and driving--have an officer there regularly. Allow student drop off in the back parking lot or on the ballfield side. Install speed bumps and/or raised crosswalks."

"Pressure the police to do their job – enforce traffic violations"!

"Install speed cameras, widen side walk, narrow Wyoming Street to reduce speed naturally, install fence along street."

"Having an officer periodically at the crosswalk without a crossing guard might help, or maybe get rid of one crosswalk and force everyone to cross at the same one with a crossing guard."

"Stopping people from driving into the back parking lot for drop off. Moving the cross walk near Trenton St, a tree and telephone pole currently block view of pedestrians to east bound traffic (this is more for my MVMMS child and not my child at Lincoln)."

"More police presence and actual enforcement of rules, speed cameras (are they legal?!). I don't think the digital 'how fast are you going' signs make much of a difference (they don't feel like they do at least). More flagging of pedestrian crosswalks including more flashing lights, elevated crossing area to help slow people down; I'm sure there are good ideas out there already, I'm sorry to say I am just not familiar with what they are. A campaign for road safety, less driving (more walking or carpooling in our small city), sharing the roads for bikes and to keep our kids safe - what has been tried has not landed or resonated enough to impact people to change their behaviors."

"Please have traffic enforcement at crosswalks as well as more lights installed to indicate crosswalk usage. Perhaps even a raised area to encourage slowing down at the most used ones? I would love such measures at the crosswalk closest to Florence St."

"Safety is more of an issue at the rear of Lincoln School (Everett St/Crescent St) and on the side entrance by the field (Pleasant St) - there are no crossing guards at all."

"Blinking signs at the other crosswalk on W. Wyoming. Police presence."

"Signage on ALL crosswalks, not just the main crosswalk at Lincoln."

"Please block or gate all Lincoln Parking lots during school hours and clearly indicate staff only use."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

“I honestly am not sure as there are so many intersections and side streets, combined with high traffic volume. It is a difficult situation to rectify but something should be done a continues to be dangerous. Add a traffic light? I worry that will cause congestion just like the middles school which is a nightmare.”

“The drop off area in front of the school is not enforced at all. Cars park there for a period of time, sometimes blocking traffic.”

“Do not allow cars to park and wait at the designated drop-off areas. Have police officers enforce the speed limit on West Wyoming.“

City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-0142

JAMES TROUP
Deputy Director Admin/Finance

To: Mayor Paul Brodeur
From: James Troup
Meeting Date: December 6, 2021
Subject: Appropriation of $93,000 from Water and Sewer Enterprise Fund Retained Earnings
Order #: ORDER-2022-52

As the City approaches a critical winter season, the Department of Public Works is faced with several challenges in delivering services to the City. The equipment used to address water and sewer infrastructure repairs, coupled with our pending snow operations, has presented an immediate need. In conducting a search for a replacement loader, we have discovered that lead times for these heavy vehicles has exceeded 18 months. Currently, there is one inoperable loader, further taxing an aging fleet. The DPW has received notification that there is a loader available with all of the necessary accessories to allow us to continue to deliver the above mentioned services.

With cooperation from the City's CFO/Auditor's office, we have identified a strategy to act quickly to secure this vehicle. Please accept this request to appropriate retained earnings in the amount of $93,000, divided equally between Water and Sewer Enterprise Accounts ($46,500 each), in order to purchase and deliver this vehicle before the winter operations commence.

As a matter of conversation, approximately three weeks ago, a similar opportunity was presented to the DPW. In the matter of 30 minutes, the vehicle was sold as we pondered a fiscally responsible strategy that would not compromise our operating budget. We considered this a tremendous lost opportunity. Thus, time is of the essence and we appreciate the Melrose Finance Team's sense of urgency to have these funds in place. We are confident that this necessary purchase will position us to continue to deliver the services that the City expects and helps address the pending concern over snow operations, the aging fleet, and rising costs to repair and maintain our equipment.

Attached to this memo is the current quote that is available to the Melrose DPW. Feel welcome to contact me with any questions. Thank you for your consideration of this important matter.

Margot Fleishman, Director of Strategic Initiatives

Subject: Request for Appropriation from Retained Earnings for Capital Purchase

As the City approaches a critical winter season, the Department of Public Works is faced with several challenges in delivering services to the City. The equipment used to address water and sewer infrastructure repairs, coupled with our pending snow operations, has presented an immediate need. In conducting a search for a replacement loader, we have discovered that lead times for these heavy vehicles has exceeded 18 months. Currently, there is one inoperable loader, further taxing an aging fleet. The DPW has received notification that there is a loader available with all of the necessary accessories to allow us to continue to deliver the above mentioned services.

With cooperation from the City's CFO/Auditor's office, we have identified a strategy to act quickly to secure this vehicle. Please accept this request to appropriate retained earnings in the amount of $93,000, divided equally between Water and Sewer Enterprise Accounts ($46,500 each), in order to purchase and deliver this vehicle before the winter operations commence.

As a matter of conversation, approximately three weeks ago, a similar opportunity was presented to the DPW. In the matter of 30 minutes, the vehicle was sold as we pondered a fiscally responsible strategy that would not compromise our operating budget. We considered this a tremendous lost opportunity. Thus, time is of the essence and we appreciate the Melrose Finance Team's sense of urgency to have these funds in place. We are confident that this necessary purchase will position us to continue to deliver the services that the City expects and helps address the pending concern over snow operations, the aging fleet, and rising costs to repair and maintain our equipment.

Attached to this memo is the current quote that is available to the Melrose DPW. Feel welcome to contact me with any questions. Thank you for your consideration of this important matter.

United Construction & Forestry LLC is pleased to offer the following proposal for a new 2021 John Deere 544 P Loader utilizing the Sourcewell Contract 032119-JDC & Member ID 116115, per your requested specifications.

2021 John Deere 544 P Loader, in stock unit with 26 hours on hourmeter

Deere wet sleeved PowerTech™ PVS 6068 engine, EPA certified Final Tier 4 emissions, 166 Net HP
Engine block heater, chrome exhaust stack, engine compartment light
Standard rear differential axle and hydraulic front differential axle with manual front diff lock
Inboard planetary drive and inboard wet disk brakes
5-speed powershift transmission, Quick shift button with automatic/manual shift modes
Factory-installed ride control
Engine air intake system with precleaner
Bridgestone 20.5 R 25 L3 radial tires on 3 piece wheels
Full width front & rear fenders with mud flaps, left & ride side platforms, left side steps into cab
Three function loader hydraulics, with single lever control of loader/bucket functions, joystick controls, FNR on joystick,
John Deere ZBar linkage - new standard parallelism is 8 degrees minimizing rollback
John Deere 416 series coupler, GEM 3.0 cy QC loader bucket with bolt on cutting edge, NO FORKS
In cab adjustable automatic boom height kickout, return to carry, and new updated return to dig feature allowing dump & curl positions with in-cab switch
ROPS/FOPS cab, with premium heated, high-back, cloth/leather air suspension seat with lumbar adjustment & back rest extension, 7" display monitor, heater, air conditioning, defrosters with new blower vent for rear window defrost, pressurizer, windshield wipers/washers front & rear, intermittent type, sun visor, and new standard dual tilt steering column.
Premium AM/FM/WB radio with Bluetooth, remote aux & remote USB port
Dual exterior heated oversize mirrors remote powered
12/24 volt – 15 amp converter; 140 amp alternator
5 lb. multi-purpose (ABC) dry chemical fire extinguisher
Two 950 CCA batteries, Lockable master electrical disconnect switch
Premium LED light package
Rear camera
Transmission side frame guards and bottom guards
SMV & Lighted License Plate Bracket
Rear cast bumper/counterweight with rear hitch and locking pin
Environmental drain & ports
JDLink Connectivity remote telematic machine monitoring
Operator's manual along with parts and repair on USB stick
Standard 12 months unlimited hour factory warranty with additional 48 months up to 5000 hours full Comprehensive extended warranty.
Whelen M2 series LED lights
Lubrication Technologies lube system installed

Price	$198,000.00
Trade allowance for 2006 JD 544J Loader #DW544JZ602479	-$25,000.00
Net delivered price after trade	$173,000.00

Option: GEM 3 cy Grapple Bucket installed, additional cost $25,800.00

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Municipal Lease Option:
We are including pricing for Deere Credit Inc. Municipal Lease payment options. During the lease period the City of Melrose will be required to provide physical damage and liability insurance with Deere Credit, Inc. named as Loss Payee. Upon completion of all scheduled lease payments and upon the lease buyout payment of $1.00, the City will own the equipment at no additional cost. The current interest rate is 2.50%.

Five (5) year, annual advance lease, based on $173,000., the annual advance lease payment is $36,349.41 each

If you exercise the option for the GEM 3 cy grapple bucket, the additional amount to lease payment is $5,420.90 each.

This is currently an in-stock unit, subject to prior sale.

Delivery: Within 30 days of receipt of written notice of award/signed contract.

This quote is valid for 30 days.

We have five locations to serve your needs, supplying parts and providing service: North Oxford, Springfield, North Swansea, Plymouth, and North Billerica. United Construction & Forestry LLC provides 90% of all John Deere repair and maintenance parts over the counter for immediate delivery, at our branch locations. Special emphasis is placed on stocking those parts determined to be "critical", those which would keep a machine down and which can be replaced easily within two hours. For non-stocked machine down parts, John Deere's parts depot, located in Grimsby, Ontario, provides us with over 95% availability. These parts are provided overnight, through a special delivery arrangement, and are available at each branch location by 8:30 A.M. the next business day.

We appreciate the opportunity to provide this proposal and look forward to being able to supply the City of Melrose DPW with a new 2021 John Deere 544 P Loader. If there are any questions, please call me at 508-713-7311 or Mark Charest, General Manager at 508-989-5703.

Sincerely,
United Construction & Forestry LLC

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE

PUBLIC WORKS DEPARTMENT
City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-4171

ELENA PROAKIS ELLIS
Director, DPW

To: Mayor Paul Brodeur
From: Elena Proakis Ellis
Meeting Date: December 6, 2021
Subject: Acceptance of Massachusetts Department of Environmental Protection Recycling Dividend Program Grant
Order #: ORDER-2022-53

Annually, the City of Melrose applies for a Recycling Dividend Program Grant through the Massachusetts Department of Environmental Protection's Municipal Recycling Program. This year, the City was awarded the grant for up to $11,700 in November 2021.

Mass DEP, pursuant to the Green Communities Act, accepts applications from municipal solid waste programs and awards points based on several criteria. Melrose received points for our efforts in the categories of Organics, Re-Use, Yard Waste, Household Hazardous Waste, Center for Hard to Recycle Materials, Outreach and Education, Textile and Recycling Center Access. The maximum available to the City of Melrose is $33,800 and every effort is being made to achieve that as a goal.

The City's DPW, through the Solid Waste and Recycling Coordinator is required to maintain the records and report on our efforts and our compliance as it relates to the use of the funds. In order to avoid any delays in future payments, we are required to expend the funds in a timely manner and they must adhere to eligible expenses. Thus, 100% of the expenses are obligated toward the improvement of recycling and diversion efforts in the City. The grant allows us to purchase new educational materials, hire part time recycling enforcement officers, purchase materials and services to support our recycling efforts, and to fund our municipal drop off events. Increasing the quantity and quality of the recycling stream can save on disposal fees, improve resident satisfaction with our current recycling program, and ensure the success and sustainability of the recycling system both city and state wide. The final products of this project will be to have succinct and widespread education regarding the importance of proper recycling, to see the contamination percentages and charges decrease yearly, and decreased costs on our curbside trash collection.

We formally request acceptance of this grant in the amount of eleven thousand seven hundred dollars ($11,700) for these purposes, with funds to be transferred into the Solid Waste and Recycling/Mass DEP Program Grant Account (4046) that has been established by the Auditor's Office. There is no required monetary match to these funds as it is a supplement to our Operating Budget. This project will not have any impact to the FY22 or FY23 budget.

Re: Mass DEP Recycling Dividends Program Grant

As a result of our annual application to the Massachusetts Department of Environmental Protection, the City of Melrose Department of Public Works Solid Waste and Recycling team is proud to report that we have qualified for and received an award of $11,700.

As part of the application process, the City of Melrose identifies all of the recycling initiatives that are part of our operation and available to the residents. These practices qualify us for points that are the criteria to determine the amount of the award available to the City. The maximum available is $33,800. Every effort is being made to achieve that goal.

The City achieved points for our efforts toward Organics collection, a Re-Use program (ex. Zero Waste Days), Yard Waste operations, Household Hazardous Waste and CHaRM (Center for Hard to Recycle Materials) events, Outreach and Education efforts, Recycling Center Access (City Yard drop-off), and Textile diversion. Each point was worth $1,300.

This award goes a long way to supplement our operating budget and is 100% dedicated to our recycling effort. The money is used to purchase needed supplies and educational materials, and to fund the services that drive recyclable materials out of the trash stream. The desired goal includes reduced costs on our curbside trash collection, less contamination in our recycling materials, and increased sustainability.

We formally request acceptance of this grant award of $11,700 from the Mass DEP for our Recycling Dividends Program. Funds will be deposited into our Solid Waste and Recycling revolving account (2657) that has been set up by the City Auditor. There is no cost or encumbrance required to enter into this agreement and there will be no effect on the FY22 or FY23 Operating Budget.

SIGN AND RETURN THIS DOCUMENT TO MASSDEP VIA EMAIL

RECYCLING DIVIDEND PROGRAM CONTRACT ("RDP Contract")
BETWEEN THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF ENVIRONMENTAL PROTECTION ("MassDEP")
AND THE City of Melrose ("Municipality")

Pursuant to the Green Communities Act, relevant provisions of which are codified at M.G.L. c. 25A, Section 11F(d) and the regulations promulgated thereunder at 310 CMR 19.300 and in support of the Massachusetts Solid Waste Master Plan developed pursuant to M.G.L. c. 16, Section 21, MassDEP has awarded the Municipality a Sustainable Materials Recovery Program grant under the Recycling Dividends Program ("RDP"). The Municipality has earned a payment of $11,700.

The Recycling Dividends Program provides payments to municipalities that have implemented specific programs and policies proven to maximize reuse, recycling and waste reduction. Municipalities receive payments according to the number of criteria points their program earns based on the *2021 Grant Guidelines* and number of residents served as described below. RDP provides an incentive for municipalities to improve their recycling programs by implementing best practices and rewards communities with model recycling and waste reduction programs.

Duration: The term of this Contract shall be in effect until the municipality has expended all RDP funds and reported to MassDEP on use of funds.

RESPONSIBILITIES OF THE MUNICIPALITY

1. Authority: The Signatory of this RDP Contract is authorized by the governing body of the Municipality to enter into this Contract on behalf of the Municipality and apply for and accept funds on behalf of the Municipality.

2. Commonwealth Terms and Conditions: The Municipality shall comply with the Commonwealth Terms and Conditions and other requirements set forth in the Municipality's executed Master Agreement.

3. Failure to Comply: If, in the judgment of MassDEP, the Municipality fails to comply with any of its responsibilities identified in this Contract, then, at the election of MassDEP, (a) the Municipality shall repay the RDP funds to MassDEP within 90 days; and/or (b) title to all materials purchased with the RDP funds immediately and without any further steps shall be transferred to MassDEP; and/or (c) MassDEP may find the Municipality not eligible to seek another Sustainable Materials Recovery Program Grant for up to three years. MassDEP may provide written notice to the Municipality of any such failure to comply. Such notice may provide a time period and manner for the Municipality to cease or remedy the failure. Such notice from MassDEP of any such failure by the Municipality is not a precondition to MassDEP's right to select options (a), (b), and/or (c) above. The Municipality shall follow the instructions of MassDEP regarding possession of the materials purchased with RDP funds. The Parties hereby agree to execute any and all documents necessary to accomplish said transfer. Furthermore, the Municipality shall transfer or arrange to transfer actual possession of said materials to an authorized representative of the Commonwealth of Massachusetts or its designee.

4. Recycling in Practice: The Municipality has established paper, bottle and can recycling in all municipal buildings, offices and meeting spaces, including schools. The Municipality shall continue such paper, bottle and can recycling during the term of the RDP Contract.

5. Notification of Buy Recycled Policy: The Grantee has established a written policy which promotes a preference for the purchase of recycled products in lieu of non-recycled products and distributes an annual notification of the Buy Recycled Policy, ordinance or by-law to all staff, department heads and employees with purchasing authority. This notice should be sent from the Mayor, Board of Selectmen, Town Manager, Town Administrator, or Chief Purchasing or Procurement Officer; and should include specific language encouraging the purchase of recycled products as it supports municipal recycling collection programs, recycling markets, and supports closed loop recycling. The Grantee shall continue to send an annual notification during the term of the Grant

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SIGN AND RETURN THIS DOCUMENT TO MASSDEP VIA EMAIL

6. RDP Payment Calculation: MassDEP has calculated the RDP Payment using the table below which shows payment brackets based on the number of households served by the municipal solid waste program and the point value for each bracket. *Section 7 – Program Criteria* and the 2021 *Grant Guidelines* describe in detail the conditions for earning points.

RDP Payment Brackets

Trash HH Served	Value of Each Point	Minimum Payment	Maximum Payment
0 - 1,999	$350	$2,800	$9,100
2,000 - 4,999	$600	$4,800	$15,600
5,000 - 7,499	$1,100	$8,800	$28,600
7,500 - 9,499	$1,300	$10,400	$33,800
9,500 - 12,499	$1,800	$14,400	$46,800
12,500 - 16,999	$3,000	$24,000	$78,000
17,000 - 24,999	$3,500	$28,000	$91,000
25,000 - 31,999	$4,000	$32,000	$104,000
32,000 - 99,999	$6,500	$52,000	$169,000
100,000 +	$10,000	$80,000	$260,000

7. Program Criteria: The Municipality, through its RDP application, certifies that all points earned are for programs that were in place no later than June 30, 2021 and that these programs fully meet the performance standard set forth in the *2021 Grant Guidelines*. *Section 13 – RDP Payment Calculation* lists the program criteria for which the Municipality has earned points, and upon which the Municipality's payment was calculated.

8. Use of Funds: RDP Payments shall be expended on Approved Expenses listed in the *Grant Guidelines* to enhance the performance of the Municipality's waste reduction programs. Use of a dedicated account or revolving account is recommended but not required. Funds may be carried over to future years and accumulated to fund a larger eligible expense or project. Planned use of funds shall be noted on the Annual RDP Spending Report. However, MassDEP may delay future RDP payments if municipality is not expending funds.

9. Record Keeping: The Municipality shall be responsible for keeping documentation (i.e. proof of purchase in the form of an invoice which lists the vendor name and address, item purchased, item price, number of items purchased and shipping costs if any) by calendar year, of how RDP funds were expended and the remaining balance of RDP funds. MassDEP may conduct record audits to ensure compliance with this Contract.

10. Reporting: By February 15th of each year, for the duration of the Contract, the Municipality shall submit the annual Recycling and Solid Waste survey and the RDP Spending Report through its ReTRAC Connect™ account. Failure to comply with these reporting requirements will jeopardize future grant awards and RDP payments.

11. Environmental Compliance: The Municipality understands receipt of RDP funds from MassDEP does not in any way imply that the Municipality is in compliance with applicable environmental regulations. This Municipality shall not be construed as, nor operate as, relieving the Municipality or any other person of the necessity of complying with all applicable federal, state, and local laws, regulations and approvals. The Municipality's facility(ies) are subject to inspection at any time by MassDEP and noncompliance with applicable environmental regulations may result in formal enforcement actions, including penalties.

12. Addendums: Should MassDEP award additional RDP funds, an addendum to the Contract shall be provided to the Municipality. The same terms and conditions apply to the addendum.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SIGN AND RETURN THIS DOCUMENT TO MASSDEP VIA EMAIL

13. RDP Payment Calculation:
The Municipality's payment has been calculated as follows:
(Value of each point) x (Total RDP Points)

a.	Solid Waste Program	0
b.	Organics	0
c.	Bulky Items	0
d.	ReUse Points	0
e.	Yard Waste	2
f.	Household Hazardous Waste	2
g.	Center for Hard to Recycle Materials	2
h.	Comprehensive Hauler Regulation Adopted	0
i.	Enforced Residential Curbside Recycling	0
j.	Outreach and Education	1
k.	Recycling Center Access	1
l.	Textile	1
	TOTAL RDP POINTS	9
	VALUE OF EACH POINT	$1,300
	RDP PAYMENT AMOUNT	$11,700

IN WITNESS WHEREOF, MassDEP and the Municipality hereby execute this Contract.

Paul Brodeur
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur,

Congratulations! It is my pleasure to inform you that the Massachusetts Department of Environmental Protection (MassDEP) has awarded the City of Melrose Recycling Dividends Program funds under the Sustainable Materials Recovery Program. The City of Melrose has earned 9 points and will receive $11,700.

The Sustainable Materials Recovery Program (SMRP) was created under 310 CMR 19.300-303 and the Green Communities Act, which directs a portion of the proceeds from the sale of Waste Energy Certificates to recycling programs approved by MassDEP. The Recycling Dividends Program (RDP) provides payments to municipalities that have implemented specific programs and policies proven to maximize reuse, recycling, and waste reduction. We are awarding over $3.1 million in RDP payments to 226 municipalities in this round of funding. The next application for SMRP funding will be released in April 2022.

Recycling programs play a vital role in limiting our dependence on landfills and incinerators, reducing greenhouse gas emissions and supporting economic activity in the Commonwealth. Recycling Dividend Program funds foster investment in local programs including recycling equipment, organics diversion, outreach and education, pilot programs, school recycling, toxics reduction and more. MassDEP has invested in developing nationally recognized tools to assist municipalities with reducing recycling contamination and improving public awareness of smart recycling practices. We encourage you to utilize the Recycling IQ Kit and Recycle Smart MA website and to consult with your MassDEP Municipal Assistance Coordinator for assistance in implementing these best practices.

To accept your Recycling Dividends Program (RDP) award, please sign and return the attached RDP Contract via email before January 15, 2022. After we receive your signed contract, funds will be sent to your community. Should you have any questions, please email Wilfred Mbah at Wilfred.Mbah@mass.gov.

The increased challenge of maintaining our vital solid waste and recycling programs during a pandemic underscores the critical role of local government in keeping our communities safe and clean. Thank you for your continued commitment to recycling and waste reduction in Massachusetts.

Sincerely,

Martin Suuberg
Commissioner

Sustainable Materials Recovery Program

Checklist for Recycling Dividends Program Grant Award

This document contains important grant deadlines and requirements

STEP ONE: EXECUTING THE CONTRACT

It is the responsibility of the municipal Recycling Contact to ensure that the RDP Contract is signed by an **individual currently holding one of the Titles** listed on the Authorized Signatory Listing form, which your municipality filed with MassDEP in the spring of 2017. If the person(s) listed on the form has changed (for example, a new Mayor has been elected), the municipal official with the same title may sign the RDP Contract and a new Authorized Signatory Listing form **IS NOT REQUIRED**.

Please sign and email the RDP Contract to wilfred.mbah@mass.gov for processing of payment no later than **January 15, 2022 or funds may be forfeited.** Acceptable forms of signature are:

1. Traditional "wet signature" (ink on paper, scan and email);
2. Electronic signature that is either a hand drawn signature using a mouse or finger if working from a touch screen device; or
3. Electronic signatures affixed using a digital tool such as Adobe Sign or DocuSign.

STEP TWO: TRACK EXPENDITURES BY APPROVED EXPENSE CATEGORY

- This is not a reimbursement-based grant. Your award payment will be processed as soon as the RDP Contract is returned.
- However, you are required to keep track of approved expenditures, by expense categories. Pre-approved spending of RDP grant funds is listed in the Grant Guidelines. Please follow this list of approved spending; a municipality is allowed one special spending request per year for an item not found on the approved spending list. If your municipality intends to spend its grant funds on an item or service not listed, you must contact Wilfred Mbah.
- Be prepared to be audited.

STEP THREE: REPORT EXPENDITURES AND REMAINING BALANCE

- The municipality is required to report all expenditures from the previous calendar year no later than February 15th.

Contact Wilfred Mbah with any questions.

Dear Chief Lyle:

The Commonwealth of Massachusetts, State 911 Department would like to thank you for participating in the **FY2022 State 911 Department Emergency Medical Dispatch Grant Program.**

For your files, attached please find a copy of the executed contract for your grant. Please note your contract start date is **November 2, 2021** and will run through June 30, 2022. Please keep in mind that there shall be no reimbursement for costs incurred prior to the effective date of the contract and all goods and services MUST be received on or before June 30, 2022.

Reimbursement requests should be submitted to the Department within **thirty (30) days** of the date on which the cost is incurred. We have made the request for payment forms available on our website www.mass.gov/e911. For any questions related to this process, please contact Michelle Hallahan at 508-821-7216. Please note that funding of reimbursement requests received more than one (1) month after the close of the fiscal year under which costs were incurred cannot be guaranteed.

If, in the future, you would like to make any changes to the authorized signatory, the contract manager, and/or the budget worksheet, please e-mail those proposed changes to 911DeptGrants@mass.gov. Grantees are strongly encouraged to submit final, year-end budget modification requests on or before March 31, 2022.

Sincerely,

Frank P. Pozniak
Executive Director

X NEW CONTRACT

PROCUREMENT OR EXCEPTION TYPE: (Check one option only)

- __ **Statewide Contract** (OSD or an OSD-designated Department)
- __ **Collective Purchase** (Attach OSD approval, scope, budget)
- X **Department Procurement** (includes all Grants - 815 CMR 2.00) (Solicitation Notice or RFR, and Response or other procurement supporting documentation)
- __ **Emergency Contract** (Attach justification for emergency, scope, budget)
- __ **Contract Employee** (Attach Employment Status Form, scope, budget)
- __ **Other Procurement Exception** (Attach authorizing language, legislation with specific exemption or earmark, and exception justification, scope and budget)

__ CONTRACT AMENDMENT

Enter **Current Contract End Date *Prior*** to Amendment: _____, 20___.

Enter **Amendment Amount:** $ _____. (or "no change")

AMENDMENT TYPE: (Check one option only. Attach details of amendment changes.)

- __ **Amendment to Date, Scope or Budget** (Attach updated scope and budget)
- __ **Interim Contract** (Attach justification for Interim Contract and updated scope/budget)
- __ **Contract Employee** (Attach any updates to scope or budget)
- __ **Other Procurement Exception** (Attach authorizing language/justification and updated scope and budget)

The Standard Contract Form Instructions and Contractor Certifications and the following Commonwealth Terms and Conditions document are incorporated by reference into this Contract and are legally binding: (Check ONE option): X Commonwealth Terms and Conditions __ Commonwealth Terms and Conditions For Human and Social Services __ Commonwealth IT Terms and Conditions

COMPENSATION: (Check ONE option): The Department certifies that payments for authorized performance accepted in accordance with the terms of this Contract will be supported in the state accounting system by sufficient appropriations or other non-appropriated funds, subject to intercept for Commonwealth owed debts under 815 CMR 9.00.

__ **Rate Contract.** (No Maximum Obligation) Attach details of all rates, units, calculations, conditions or terms and any changes if rates or terms are being amended.)

X **Maximum Obligation Contract.** Enter total maximum obligation for total duration of this contract (or *new* total if Contract is being amended). $ 18,000.00

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting accelerated payments must identify a PPD as follows: Payment issued within 10 days __% PPD; Payment issued within 15 days __ % PPD; Payment issued within 20 days __ % PPD; Payment issued within 30 days __% PPD. If PPD percentages are left blank, identify reason: X agree to standard 45 day cycle __ statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); __ only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT: (Enter the Contract title, purpose, fiscal year(s) and a detailed description of the scope of performance or what is being amended for a Contract Amendment. Attach all supporting documentation and justifications.) **Contract is for the reimbursement of funds under the State 911 Department FY 2022 Emergency Medical Dispatch Grant as authorized and awarded in compliance with the grant guidelines and the grantee's approved application.**

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

X 1. may be incurred as of the Effective Date (latest signature date below) and no obligations have been incurred prior to the Effective Date.

__ 2. may be incurred as of _____, 20___, a date LATER than the Effective Date below and no obligations have been incurred prior to the Effective Date.

__ 3. were incurred as of _____, 20___, a date PRIOR to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of June 30 , 2022, with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, the applicable Commonwealth Terms and Conditions, this Standard Contract Form, the Standard Contract Form Instructions and Contractor Certifications, the Request for Response (RFR) or other solicitation, the Contractor's Response (excluding any language stricken by a Department as unacceptable, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

Melrose, MA 02176

Dear Chief Lyle:

The Commonwealth of Massachusetts, State 911 Department would like to thank you for participating in the **FY 2022 State 911 Department Support and Incentive Grant** program.

For your files, attached please find a copy of the executed contract and the final approved Appendix A: Personnel Costs form for your grant. Please note your contract start date is **November 2, 2021** and will run through June 30, 2022. Please keep in mind that there shall be no reimbursement for costs incurred prior to the effective date of the contract and all goods and services MUST be received on or before June 30, 2022.

Reimbursement requests should be submitted to the Department within **thirty (30) days** of the date on which the cost is incurred. We have made the request for payment forms available on our website www.mass.gov/E911. For any questions related to this process, please contact Michelle Hallahan at 508-821-7216. Please note that funding of reimbursement requests received more than one (1) month after the close of the fiscal year under which costs were incurred cannot be guaranteed.

If, in the future, you would like to make any changes to the authorized signatory, the contract manager, and/or the budget worksheet, please e-mail those proposed changes to 911DeptGrants@mass.gov. Grantees are strongly encouraged to submit final, year-end budget modification requests on or before March 31, 2022.

Sincerely,

Frank P. Pozniak
Executive Director

Hi Kristin,

Just wanted to let you know, Melrose map was approved unanimously by the LEDRC this morning.

You should receive written notice of the approval also.

Thank you for all your hard work on getting this done!

Best,
Mike

Subject: Amending 152-12 common vic fee waiver for 2022
Order #: ORDER-2022-56

WHEREAS, the current COVID-19 global health pandemic has negatively impacted small businesses; and,

WHEREAS, small businesses are a critical part of our community and are in need of support;

NOW THEREFORE, BE IT ORDERED, that the City of Melrose, acting through the City Council, further amends section 152-12 of the Code of the City of Melrose by inserting the following sentence at the end of said section:

"The fee for a Common Victualler's license set forth herein shall be waived for Calendar Year 2022 as a result of the ongoing impacts of the COVID-19 global health pandemic."

COMMENTS - Current Meeting:

Place on file - moved by Councilor Garipay; Seconded by McNaught.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE - IN CITY COUNCIL

A Resolution Honoring Christopher C. Cinella
2021 President of the Melrose City Council

Offered by Jeffrey C. McNaught, Councilor of Ward 2

WHEREAS, *Christopher C. Cinella has served as President of the Melrose City Council for the year Two Thousand Twenty-one; and,*

WHEREAS, *the City Council congratulates President Cinella for completing his first term as a Councilor-At-Large for the City of Melrose and appreciates his commitment to serving Melrose; and,*

WHEREAS, *the City Council recognizes that President Cinella's dedication to our community extends well beyond his efforts in this chamber; and,*

WHEREAS, *that President Cinella led the second year of this City Council, which included nine new members elected in 2020, and provided guidance, acumen, and respect to all members of the Council; and,*

WHEREAS, *that President Cinella oversaw the Council during unprecedented times, in which a global pandemic impacted all aspects of life across our nation, our state, and our city, and primarily conducted the affairs of the Council in an uncharted remote environment; and,*

WHEREAS, *that President Cinella has demonstrated his dedication to the Melrose community as a longtime business owner on Main Street, as a longtime member and past president of the Melrose Chamber of Commerce, as a longtime member and past president of the Melrose Rotary Club, as a lifelong member of the Melrose community and product of the Melrose Public Schools, and as a City Councilor following in the footsteps of his late father, John T. Cinella, Jr., Esq,.former City Solicitor, and his late uncle, Edward Cinella both longtime residents of Melrose and serving as council members and past presidents of this very body and in many other roles in the Melrose community; and,*

WHEREAS, *that President Cinella's wife Margaret, children, C.J. and Jacob, are also part of the Melrose community and will always have a home here; and,*

WHEREAS, *that we, the members of the City Council, do hereby express our sincere appreciation to President Cinella for his able administration of the office of the President and for his efforts on behalf of the City of Melrose, and, in recognition thereof, direct that the gavel wielded by him be suitably inscribed and presented to him on this sixth Day of December of the year Two Thousand Twenty-One; and,*

WHEREAS, *that, a copy of this resolution be spread upon the records of the City Council, and that a special copy be signed by each member of the Council and presented to President Cinella,*

BE IT RESOLVED, *that, we, the Melrose City Council recognize and applaud these achievements and record these accomplishments in the permanent records of the City of Melrose on this sixth day of December in the year Two Thousand and Twenty-One.*

Attest: *Members, Melrose City Council*

September 8, 2021

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

OVERVIEW

The Special Committee on the Rules of Order was established by President Jennifer Grigoraitis in 2020 pursuant to Rule 25. Charged with modernizing the Council's governing rules, the Committee met on five occasions between November 11, 2020 and September 8, 2021 for a total of six hours. The Committee's scope of work involved simplifying the language of existing rules, addressing ambiguity, ensuring consistency in the use of terms, and offering recommendations for a series of revised and new rules.

Attached to this proposal is a commentary section; its purpose is to memorialize the intent behind the rules that, in accordance with our mandate, have been either substantially amended or newly created.

Respectfully submitted,

Special Committee on the Rules of Order

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

RULES OF ORDER

Proposed New Rules: 7A, 28, 31A, 35A, 55, 56, 57, 58

Rule 1 Regular Meetings of the City Council shall be held on the first and third Mondays of each month at 7:45 p.m. except as follows: (1) during July and August when there shall be one meeting each month on the third Monday; (2) when an election is to be held the following day such meeting shall be held on the following Monday; and (3) when a meeting falls on a holiday, such meeting shall be held on Tuesday.

Rule 2 A majority of the Council or any Committee thereof shall constitute a quorum.

PRESIDENT

Rule 3 The President shall take the chair at the scheduled hour, call the members to order and, on the appearance of a quorum, proceed with business.

Rule 4 In the absence of the President, the President Pro Tempore of the Council, who shall be the senior member in length of service present at the meeting, shall call the Council to order and preside over meetings until the President resumes the Chair. When two or more members have the same seniority, names shall be drawn by the City Clerk thirty (30) minutes before the commencement of the meeting in the presence of the Clerk of Committees and at least one (1) member of the body, to determine who the presiding officer will be.

In the event that the longest serving member of the Council is elected President, the second longest serving member of the body shall serve as President Pro Tempore. When two or more members have the same seniority, the aforementioned selection process shall be followed.

Rule 5 The President shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal by the Council. The President shall declare all votes and may vote in all cases.

Rule 6 The President may call the President Pro Tempore to the chair to preside over a full Council meeting, but such substitution shall not continue longer than one meeting without a majority vote of the members. The President may express an opinion on any subject under debate; but in such case they must leave the chair and shall not resume the chair while the question is pending. The President may state facts and give an opinion on questions of order without leaving the chair.

Rule 7 It shall be the duty of the President or their designee to examine and approve the records of each meeting. It shall, likewise, be the duty of the President or the President Pro Tempore to sign all legislative matters which have been passed at any meeting.

Rule 7A It shall be the duty of the President to oversee the City Clerk who shall report directly to the Council President.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY CLERK AND ASSISTANT CITY CLERK

Rule 8 The City Clerk or Assistant City Clerk shall keep minutes of the proceedings of the Council which shall be subject to correction when the Council meets. The City Clerk shall note upon legislative papers the action taken by the Council relating to said papers.

The City Clerk shall perform such duties in connection with the transaction of business during the sessions of the Council as the President deems necessary.

Whenever a petition is filed as provided by Section 22 of Chapter 166 of the General Laws seeking a permit for an original location for wires, poles, piers, abutments or conduits to be used for the transmission of electricity, the City Clerk shall forthwith, upon receipt of such petition, send notice, in the manner required by said Section, of a public hearing to be held thereon at the next meeting of the Council occurring not less than seven (7) days following such receipt. The City Clerk shall also send notice of such hearing to the Inspector of Wires.

The City Clerk shall be responsible for preparing a Pre-Meeting Calendar for full Council meetings containing the following items: all matters of new business; all reports of committees to be presented at any regular or special meeting of the Council; a statement of any orders for which notice of a motion to reconsider has been filed; all orders which have been laid upon the table or postponed to a day certain; all hearings which may have been ordered; and all matters of unfinished business. Such Calendar shall be electronically transmitted to each member of the Council at least forty-eight (48) hours prior to said meeting.

Agendas and corresponding agenda packets for all committee meetings and full Council meetings shall be publicly posted seventy-two (72) hours before a meeting is called to order, excluding Saturdays, Sundays, and legal holidays. Agendas maybe updated after their initial posting so long as subsequent agenda items are added at least forty-eight (48) hours prior to a meeting in accordance with the Massachusetts Open Meeting Law. All Orders, Ordinances, Petitions, Resolutions, and Remonstrances appearing on meeting agendas shall include the name(s) of the corresponding sponsor(s).

Notice of emergency meetings must be posted as soon as reasonably possible prior to a meeting and in a manner accessible to persons with disabilities to the extent required by federal and state law. The City Clerk or the Clerk of Committees shall post meeting agendas to the city website. The agenda of a full Council meeting shall be subject to approval of the President and be posted in the same location as public meeting notices.

When a committee fails to issue a report on an item within forty-five (45) days after the matter is referred to committee, the Clerk of Committees shall notify the City Clerk of such and the City Clerk shall place said item on the agenda for the next regularly scheduled Council meeting under Reports from Committee with the following notation: “No Action Taken.”

Whenever any Order or Ordinance adopted by the Council at any meeting has not been returned by the Mayor within ten (10) days and is thereby enacted pursuant to Section 3.7 of the City Charter, the Pre-Meeting Calendar for the next meeting of the Council shall include a statement that such Order or Ordinance has taken effect by operation of law.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Within forty-eight (48) hours after adjournment of a Council meeting, the City Clerk shall prepare a Post-Meeting Bulletin containing a statement of all items referred to committees, whether standing or special. All matters so referred shall be listed separately under the heading of the respective committees; and all matters laid upon the table or postponed to a further date, and any hearings ordered to be held at any subsequent meeting, shall be included in said Bulletin.

Whenever a notice is filed by any member as a Motion to Reconsider a vote passed by the Council, such Bulletin shall include a statement to that effect. There shall also be noted upon said Bulletin a statement as to the action taken by the Council on which a Motion to Reconsider was filed. Bulletins shall be transmitted electronically to the members within seventy-two (72) hours after adjournment of the meeting to which they pertain.

Rule 9 The Assistant City Clerk, in the absence of the City Clerk, shall perform the duties of the City Clerk.

CONDUCT & DECORUM OF MEMBERS

Rule 10 When a member speaks, they shall address the presiding officer and shall confine their remarks to the question under consideration. While speaking, members shall avoid personalities, and no member shall directly or indirectly impugn another member or conduct themselves in a manner unworthy or unbecoming of a City Councilor. No member shall speak or vote out of their place without leave of the presiding officer.

Rule 11 No member shall be interrupted while speaking except by their consent or by a point of order or point of information; nor shall there be any conversation among the members while a question is being stated, while a member is speaking or a paper is being read.

Rule 12 If a member repeatedly violates any of the rules of the Council or disrupts the orderly procedure of the Council, the presiding officer, after warning the member of such violations, shall call the member to order, and a member so called to order shall lose the right to speak on the pending subject matter but shall not be prevented from voting. A member so called to order shall remain silent until the presiding officer returns to the member their rights to the floor.

Rule 13 A Councilor or any combination of Councilors who file an Order, Ordinance, Petition, Resolution, or Remonstrance shall be given up to fifteen (15) minutes in total to introduce the matter.

When a matter is being debated, no member may occupy more than five (5) minutes for each point under debate, nor shall they speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak.

When a city official or other person appears before the Council or committee thereof, an individual Councilor shall not occupy more than fifteen (15) minutes of dialogue with the party. If a Councilor, however, requires additional time for questions, they may seek leave of the presiding officer. In determining whether to grant the Councilor additional time, the presiding officer shall consider but is not limited to the following factors:

1) The number of remaining questions the Councilor intends to ask.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

2) The number of questions the Councilor has already asked.
3) The relevancy of the questions.
4) The amount of time that has been occupied by the attendee in answering questions.
5) The responsiveness of the attendee.
6) The nature of the matter before the Council or committee.
7) Public interest considerations.
8) The hour of day.
9) Remaining business before the Council or committee.

On general matters of discussion, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject.

The presiding officer, at their discretion, may designate the City Clerk or Clerk of Committees to monitor the time provisions of this rule.

Rule 14 No member shall vote on any matter or serve on any committee where their private interest is immediately distinct from that of the public.

Rule 15 When a question is put forward, every member present, except the President, shall vote, unless excused by vote of the Council or excluded by personal interests.

No member shall leave without permission of the presiding officer if their presence is necessary to make a quorum.

Rule 16 The reading of any paper, if objected to, shall be decided by the Council.

Rule 17 No member shall stand up, to the inconvenience of others, while a member is speaking; pass unnecessarily between the presiding officer and the member speaking; stand in the area in front of the chair; or stand at the City Clerk's desk while a roll call is in progress. The use of electronic devices should be restricted for Council business only during a meeting of the full Council or committee thereof.

Rule 18 The members of the Council shall not stand or leave their places on a Motion to Adjourn until the presiding officer has declared the Council adjourned.

Rule 19 Every member shall take notice of the day and hour to which the Council stands adjourned.

STANDING COMMITTEES

Rule 20 The President shall appoint voting members to each Standing Committee, one of whom shall serve as Chairperson.

The President shall, at the first meeting in January, announce the Chairpersons and voting members appointed to all Standing Committees for that calendar year.

The President shall serve as a member ex-officio of all committees and, when required, may be counted in the making of a quorum. The President shall be entitled to vote as an ex-officio member of all standing committees.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

All members of the Council shall be considered a member of each Standing Committee but shall not be authorized to vote on pending matters unless assigned as a voting member of that Committee. A quorum of a committee shall be determined on the basis of voting members only.

A non-voting member of a committee may only speak on a pending matter after all voting members have been given the opportunity to deliberate; and non-voting members shall only speak once unless granted leave by the Chairperson. This provision of the rule, however, shall not apply to non-voting members who have sponsored or co-sponsored a matter appearing before a committee. The sponsor(s) shall always be recognized first by the Chairperson for the purposes of introducing an order.

The following Standing Committees are hereby established:

Appropriations & Oversight: Eleven (11) voting members to include the annual Budget and all supplementary budgets, redevelopment authority, federal or state grants, zoning, and all general oversight matters.

Finance: Five (5) voting members to include accounts and surety bonds, election matters, print and supplies, and City Council purchases.

Health, Education and Welfare: Five (5) voting members to include public schools, public library, and veterans' affairs.

Legal and Legislative Matters: Five (5) voting members to include rules, legislative matters and claims.

Protection and License: Five (5) voting members to include the Police and Fire Departments, Emergency Management, and licenses.

Public Service: Five (5) voting members to include public grounds and buildings.

Public Works: Five (5) voting members to include Public Works Department, public transportation, all municipal parking areas and lighting of streets and municipal parking areas, and electric, cable and telephone wires.

Rule 21 The member first named on any committee shall be its Chairperson and the second named member of the Committee will be recognized as the Vice Chair of the Committee. In the case of the Chairperson's resignation, absence or disability, the other members, in the order in which they are named to the Committee, shall call meetings of the Committee and act as Chairperson. If, for any reason, any committee has not assembled within three (3) weeks from the reference of matters thereto, except for the summer season, the member second in order may call meetings of the committee.

Rule 21A Committee Chairpersons serve at the pleasure of the President, who may at any time remove a Chair and designate a new Chair. Neither the removal nor the appointment or re-appointment of a Chairperson shall be subject to the approval of the Council.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 21B A committee Chairperson shall take the chair at the scheduled time and shall convene the meeting within thirty (30) minutes thereof. If a quorum is not present within thirty (30) minutes of the time originally scheduled, the Chairperson shall not commence such meeting and it shall be rescheduled to a later date.

Rule 21C The Chairperson shall call upon the Vice Chair to preside whenever the Chairperson intends to ask questions of an attendee or express an opinion on a matter before the Committee. The Chairperson may resume the chair when the matter for which they gave up the chair is no longer before the Committee.

Rule 21D Whenever one (1) or more committee meetings are scheduled to commence the same evening as the full Council or other committee meeting(s), each meeting shall commence within thirty (30) minutes of the meeting's respective scheduled meeting time. Where the earlier opened meeting(s) has not adjourned prior to the time by which another meeting must commence, the earlier committee(s) may recess so as to allow the other scheduled committee meeting(s) to open for the purpose of public comment. After public comment the members may vote to recess and reconvene the preceding meeting.

Rule 22 The Chairperson of each standing committee shall ensure that the sponsor(s) of any legislative item have proper notice of all related hearings. A matter pending in committee shall not be disposed of at the committee level without the sponsor(s) being present and available to vote on that matter.

Rule 23 Reports on all matters from committees shall be made as early as practicable and shall be signed by the Chairperson, unless otherwise ordered by the Committee. Reports shall be appropriately designated by the action taken in committee and presented as such on all future meeting agendas until that time the Council disposes of a matter. Reports shall be designated in one of three (3) ways: Favorable Report ("ought to pass"); Adverse Report ("ought not to pass"); Undeclared Report ("without recommendation"). Any member may call for the degree of progress reached with respect to any matter referred to a committee. Whenever any committee reports to the Council and one or more members dissent from the report, the name(s) of the dissenting member(s) shall be printed on the agenda under Reports from Committee followed by the "Dissents," provided a statement is filed as a minority report by such dissenting member(s), containing the reasons therefore, with the Clerk of Committees, which statement shall accompany the report of the Committee and shall be read by the President.

Rule 24 The President shall form special committees of the Council as needed and shall appoint its members. Special committees shall consist of three members, unless otherwise ordered.

Rule 25 All committees of the Council shall be notified of their meetings by the Clerk of Committees. No two committee meetings may occur at the same time.

COMMITTEE OF THE WHOLE

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 26 When a committee determines to go into a Committee of the Whole, the Chairperson shall be appointed by the President.

Rule 27 The Rules of the Council shall be observed in a Committee of the Whole, so far as they may be applicable, except the rules limiting debate. A motion to rise, report progress, and ask leave to sit again shall always be first in order and be decided without debate.

CLERK OF COMMITTEES

Rule 28 The Clerk of Committees shall report to the City Council, providing legislative assistance, support, and other professional services as needed. The City Council President shall have ultimate oversight over the Clerk of Committees, with day-to-day supervision provided by the City Clerk.

Rule 28A The Clerk of Committees shall keep proper records of committee meetings in written format, which shall be an official record. Audio/visual records may also be kept. A copy of the written record shall be available to all members of the Council and the public. They shall prepare all reports of committees for presentation to the full Council subject to the approval of the Chairperson. The Clerk of Committees shall, following the final action of the Committee on Appropriations & Oversight and the making of its report on the annual budget, or any supplementary budget, prepare a statement with respect to the appropriations recommended for each department, when such appropriations include any sums for increase in salaries for employees of such departments, stating in detail the amount of such increases allowed in such appropriations and the period of the budget year allowed by said appropriations.

ORDER OF BUSINESS

Rule 29 At every meeting of the Council the order of business shall be as follows:

I. Call to Order

II. Reading of the Minutes -- An electronic copy of the minutes shall be transmitted to the full Council twenty- four () hours in advance of any vote regarding those minutes. Minutes of each meeting of the full Council shall be given to the City Clerk to be posted on the city website within twenty-four (24) hours after the minutes are accepted by the full Council.

III. Public Comment

IV. Public Hearings

V. New Business

a) Filings by the Honorable Mayor

b) Filings by Members of the City Council

VI. Communications from the Honorable Mayor & Other City Officials

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VII. Unfinished Business

VIII. Reports from Committees

IX. Expiries

X. Rule 53 Reports

X1. Adjournment

The above order may be changed, at any meeting, by a two-thirds (2/3) vote of the members present and, upon motion to change the order of business, no debate shall be allowed.

Rule 29A Each meeting of the Council or any standing committee thereof shall allow up to seven (7) minutes per person for public comment prior to the reading of "COMMUNICATIONS FROM THE MAYOR AND OTHER CITY OFFICIALS." Public comment shall be permitted only for residents of Melrose and/or Melrose property owners unless the Chairperson rules otherwise. Before addressing the Council, speakers shall, on the record, identify the street on which they live or on which they own property.

Members of the public shall limit their remarks to matters on the agenda for the meeting at which they speak and shall be out of order if said speaker addresses other issues not on the agenda. It shall be at the discretion of the President or Chairperson of any standing committee to grant up to ten (10) minutes per person for public comment at any meeting.

This rule shall only be suspended by unanimous consent of the members.

LEGISLATIVE PROCEEDINGS

Rule 30 All pending matters before the Council shall be presented by the President or; and shall be read by the President, City Clerk or such other person as the President may request. They shall be acted upon in the order in which they are presented unless the Council shall otherwise direct.

Rule 31 All nominations/appointments made by the Mayor, subject to the confirmation of the Council, shall, when received by the Council, be referred without debate to the proper standing committee and said committee shall report its recommendations thereon within forty-five (45) days or at the next regular meeting.

Rule 31A No appointment made by the Mayor and subject to the confirmation of the Council shall be entertained by the Council or committee thereof without the candidate's cover letter and resume having been furnished to the Council prior to the meeting and posted publicly on the City's meeting agenda platform.

Rule 32 All filings (legislative or otherwise), communications from the Mayor or other city officials, and reports from committees that may require action by the Council, must be in the hands of the City Clerk no later than noon on Tuesday prior to each regular meeting. The City

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Clerk shall confirm the receipt of all filings by notifying the sponsor(s) via e-mail at the time of receipt.

Any written document in support of a filing or communication from the Mayor, including documents prepared by a department head or other city employee after the filing of said matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than four (4) Councilors, or the affirmative vote of not less than two (2) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it.

Whenever any Order, Ordinance, Petition, Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing.

> **Rule 32A** No Legislation, Petition, Resolution, or Remonstrance shall be accepted by the City Clerk and placed upon the agenda for a meeting of the City Council unless a copy of the full text has been filed with the City Clerk.

Rule 33 Ordinances of the city and associated amendments shall be established by a two-thirds (2/3) vote of all the members of the Council, to be taken by a Roll Call vote. In the case of all other legislative matters, except as otherwise provided in the General Laws, or in the Revised Charter and Ordinances of the City of Melrose, the affirmative vote of a majority of all members of the Council shall be necessary for passage at each debatable legislative stage.

Rule 34 Subject to the provisions of Section 2-9(b) of the City Charter, every legislative matter shall be read once when it is introduced and shall then be referred to its appropriate committee, unless, where appropriate, immediate consideration is requested. In the case of a request for immediate consideration, the legislative matter shall be at once considered, provided no councilor objects; and no motion shall be applied to any such matter when originally introduced until immediate consideration has been granted. It shall be the duty of the President to ask if there is objection before immediate consideration is given any matter, and upon objection the matter will be referred to the appropriate committee.

> **Rule 34A** All matters involving the appropriation of moneys in the treasury not otherwise appropriated, the intra-departmental transfer of moneys from one account of the city to another, or otherwise affecting municipal finances, shall be referred to the Finance Committee. The Committee shall make its recommendation thereon not later than three (3) weeks from the date of such reference. The provisions of this section shall not apply in the case of matters referred to the Committee on Appropriations & Oversight.

Rule 35 Upon the report of a committee recommending the passage of any Order, Ordinance, Petition, Resolution, or Remonstrance the item shall be read a second time at the next full

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Council meeting and shall then be in order for a final action unless the next full Council meeting falls on the same day. When an Order, Ordinance, Petition, Resolution or Remonstrance appears before the full Council with a recommendation from a committee that same day, it shall be presumed that the matter will be placed on the agenda of the next full Council meeting under the Reports from Committee section of the agenda. Any councilor, however, shall be entitled to make a motion to immediately pull a matter from committee, when a matter is recommended by that committee on the same day, provided that a showing of good cause has been made. The burden shall be on the maker of the motion to demonstrate good cause. After a second to the motion has been made, the motion to pull from committee shall require a simple majority vote. Appointments of city officials by the Mayor are not included in connection with the aforesaid.

> **Rule 35A** When a matter is introduced to the full Council with a recommendation for passage from any standing or special committee, a period of discussion shall be in order before a Motion for Passage is entertained by the President, President Pro Tempore, or other member presiding on behalf of the President.

Rule 36 All matters pertaining to amendments to the Rules of Order of the City Council, Ordinances and legal affairs shall be referred to the committee on Legal and Legislative Matters.

When amendments are recommended to the Council, the City Clerk shall forward copies of any proposed changes to all members, and no amendment shall be in order for final passage until each member shall have received such copy.

Rule 37 When any matter has been rejected by the full Council, no measure embodying substantially the same subject shall be introduced by any committee or member within six (6) months of its previous rejection.

> **Rule 37A** Any matter not acted upon by the Council or the appropriate committee within one (1) year of said matter being filed, shall be considered null and void and shall be removed from the calendar of the Clerk of Committees. Any matter considered null and void by operation of this rule shall not be subject to any refiling restriction of Rule 37.
>
> **Rule 37B** During a Council meeting, standing committee thereof, or a public hearing, a non-member may speak no more than ten (10) minutes unless he obtains the consent of the Council or standing committee thereof, nor may they speak more than twice on the same issue.

Rule 38 Unless otherwise ordered, votes shall be taken orally. If the vote is doubted, the members voting shall rise in their places until counted. A Roll Call vote shall be taken upon request of five (5) or more councilors.

Rule 39 The President shall consider a motion to adjourn as always in order, except on immediate repetition. When a matter before the Council is under debate, it shall receive no motion except:

1. To adjourn
2. To lay on table

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

3. The previous question
4. To close debate
5. To postpone to a day certain
6. To amend
7. To postpone indefinitely

Motions shall have precedence in the order arranged.

Rule 40 On the following motions, the debate shall be limited to the time specified in each case:

To Adjourn: No Debate

Roll Call: No Debate

Lay on Table: No Debate

The previous question; to close debate at a specified time; indefinite postponement; postponement to a day certain; to suspend the rules; to reconsider: Ten Minutes (10) -- No member to occupy more than three (3) minutes.

Whenever, at any meeting, a question is laid on the table, it shall remain there until the close of the next regular meeting, if not taken up earlier; but, if it is not taken from the table at such next meeting, or earlier, the Clerk shall place the same in the files of the Council and shall make a record thereof in the minutes of such meeting and upon any paper relating to such question.

Rule 41 Any motion shall be in writing if the President so directs, or any member of the Council so requests.

Rule 42 A question containing two or more propositions capable of division shall be divided whenever any member so requests and is confirmed by majority vote.

Rule 43 No motion or proposition of a subject different from that under consideration shall be admitted under the color of any amendment.

Rule 43A Any member may move the consideration of any report of committee out of the order said report appears on the agenda, subject to the unanimous consent of the Council.

Rule 44 When a vote has been taken, except those enumerated in Rule 45, it shall be in order for any member voting on the prevailing side to move a reconsideration thereof at the same meeting at which such vote was taken, or to file with the City Clerk notice of a motion to reconsider such vote within twenty-four (24) hours from the taking of the same. When a motion to reconsider has been decided, that vote shall not be reconsidered and, unless two-thirds (2/3) of the members of the Council are present, a motion to reconsider shall be laid upon the table until the next meeting of the Council.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A notice of a motion to reconsider filed with the City Clerk shall be regarded in the same manner as if a motion to reconsider had been made while the Council was in regular session and, except as hereinbefore provided, shall be called up by the member filing such notice, or by some other member of the Council, at the next regular meeting, or at any intervening special meeting provided the same is included in the call thereof.

Whenever notice of a motion to reconsider has been filed, as aforesaid, the City Clerk shall notify all the members of the Council. No notice of a motion to reconsider may be withdrawn except by a majority vote of the Council. No notice of a motion to reconsider may be filed with respect to any. Order, Ordinance, Petition, Resolution, or Remonstrance or vote acted upon at the final meeting of the term to which the members of any Council may have been elected.

Rule 45 No vote on any of the following motions shall be reconsidered:

1. To Adjourn
2. To Lay on the Table
3. To Take from the Table
4. To the Previous Question
5. To Reconsider

APPEAL

Rule 46 No appeal from any decision of the President shall be entertained unless it is duly seconded, and no other business shall be in order until the question on the appeal has been decided by a majority vote of the Council. The question shall be put as follows: *"Shall the decision of the Chair stand as the judgment of the Council"*?

USE OF COUNCIL CHAMBER

Rule 47 The use of the Council Chamber, or the Council Committee Room, shall not be granted to any person or organization without the permission of the President. Said request shall be in writing, and the Clerk of Committees shall keep a suitable calendar noting the permitted uses thereon.

CAUCUS & ELECTION OF PRESIDENT

Rule 48 The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year. Notice of the holding of the Caucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such Caucus shall be held in the Council Chamber; shall be called to order by the President Pro Tempore; shall include a period for public comment and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Notice of the Caucus shall be posted, and the Caucus shall be held in public session. The President Pro Tempore shall call upon the City Clerk to conduct the Caucus, tally votes, and announce the results. Nominations, as aforesaid, shall be followed by a Roll Call vote, each member present answering to their name

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

when called by the City Clerk, stating the name of the person for whom they vote, or that they decline to vote. The vote of the majority of all the members of the Council shall be necessary to so nominate a President. Upon being elected, the prior President shall escort the newly-elected President to the rostrum.

A candidate with the intention of pursuing the presidency shall state so publicly at any prior meeting of the full Council before the scheduled caucus.

The nomination of a President shall be a non-binding vote. The formal election of the President shall take place at the first meeting in January next following. Before a final vote commences, all nominees shall be required to make a public statement regarding their candidacy, at the first meeting in January, which shall not exceed five (5) minutes in length. The conduct of the election shall follow the process of the Caucus.

MISCELLANEOUS

Rule 49 Any rule may be suspended by an affirmative vote of two-thirds (2/3) of the members of the Council present. When a motion to suspend a rule is made, the specific rule for which suspension is sought must be cited in the motion and the reason stated on the record.

Any rule may be amended or repealed by a vote of a majority of all the members of the Council, but the motion for such purpose shall not be made and acted upon at the same meeting. All motions for amendments to these rules shall be in writing and copies thereof shall be sent to each member by the City Clerk before final action thereon.

Rule 50 The Council shall be governed by Robert's Rules of Order, in all questions of parliamentary procedure not provided for by special rules of order.

Rule 51 In order to promote fair and open discussion, once a public hearing is called to order, the presiding officer shall recognize members of the public who may speak in the order of recognition. Public hearings shall not be divided into time periods for proponents and opponents to speak.

Rule 52 In the event the Council must elect a person to complete the term of a Councilor in accordance with Section 2-11 (c) of the City Charter, the procedure for filling such vacancy shall be as follows:

1. Notice shall be given by immediate publication once in a newspaper of local circulation and for not less than two (2) weeks on the City's website homepage that the vacancy exists and that are placement is being sought.

2. Individuals interested in filling the vacancy (hereinafter "Applicants") shall be requested to contact the Clerk of Committees. By the close of business of the 14th day following publication in a newspaper of local circulation, applicants shall submit a letter of intent and resume to the Clerk of Committees.

3. Applicants who have complied with Rule 52, Section 2 above shall be invited to a meeting of the full Council, at which time all applicants will be given an opportunity to

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

address the Council. At that time, Applicants will be afforded up to 10 minutes to make a statement; and Councilors will have the opportunity to ask questions of the Applicants.

4. After all applicants have been given an opportunity to address the Council, an election shall be conducted.

5. In order to be eligible for election, an Applicant must have their name placed in nomination and must receive a second.

6. The voting shall be public with each member of the Council stating the name of the Applicant for whom they are voting.

7. The first Applicant to receive six (6) votes shall be elected pursuant to Section 2-11(c) of the City Charter.

8. If there is more than one Applicant and no Applicant receives six (6) votes on the first ballot, the two (2) individuals who receive the most votes shall move to a second ballot. The other Applicants shall be eliminated. In the event that there is a tie for either of the top two spots, any individual in such a tie shall move on to a second ballot.

9. In the event that no Applicant receives six (6) votes after at least five (5) ballots, the Council may place the order on the table and continue with the process at the next regularly scheduled meeting of the full Council.

Rule 53 Whenever the President, or a member of the Council appointed by the President or Mayor to serve on a committee, commission, council, board or other working group, attends a meeting of such committee, commission, council, board or other working group, that member shall report back at the next regular meeting of the Council as to the actions taken on all matters on the agenda of said body.

Rule 54 In the event of a vacancy in the position of the City Clerk or Clerk of Committees, the President of the Council shall appoint a nominating committee of three (3) Councilors. The nominating committee will cause any such vacancy to be posted, will review applicant resumes, and conduct interviews. Thereafter, the nominating committee shall recommend three (3) candidates for consideration by the full Council.

Rule 55 When a standing committee votes to move forward any Order, Ordinance, Petition, Resolution or Remonstrance to the full Council on the preceding Thursday before a full Council meeting, the City Clerk shall, on the next business day, update the meeting agenda of the full Council to include the committee's recommendation. The updated agenda shall be posted in accordance with the provisions of Rule 8.

Rule 56 All correspondence from members of the public submitted in writing to the Council in connection with any matter before the full Council or committee thereof shall be publicly available; such correspondence shall be automatically attached to the order in question by the City Clerk or Clerk of Committees and shall not require a vote of the full Council or any committee thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Correspondence relating to a matter, when submitted to the Council at least twenty-four hours (24) prior to a scheduled meeting on said matter, shall be attached to the order before the start of the meeting; correspondence submitted thereafter shall be attached to the order no later than forty-eight 48 hours from the time of adjournment.

The City Clerk shall redact the e-mail address and phone number of any member of the public who submits correspondence to the Council before any such correspondence is attached to the order.

Rule 57 The final disposition of all Orders, Ordinances, Petitions, Resolutions, and Remonstrances for a given fiscal year shall be posted to the City Council section of the City's webpage by the City Clerk within 48 hours of a measure having been disposed. The public posting of dispositions, hereinafter known as the Legislative Disposition List, shall include the following information for all disposed matters: 1) the title of the filing; 2) the filing number; 3) the name of the Councilor who sponsored the filing; 4) the names of any co-sponsors; 5) how each Councilor voted on the matter; 6) the outcome of the vote; and 7) the date of disposition.

The Legislative Disposition List shall be maintained in the order that matters are disposed.

Rule 58 When a virtual meeting occurs, public participation shall be enabled in accordance with Rule 29A, whenever feasible.

Councilors must utilize a video feed when participating in a virtual meeting. In the event that a Councilor loses video and audio feed during a meeting, no vote shall occur on any matter until after such time that a recess has occurred in order to troubleshoot the problem. If the Councilor's video and audio feed has not been reestablished within 15 minutes of recessing, the members shall decide whether to proceed with a vote.

If the City Clerk loses video and audio feed during a meeting, the Clerk of Committees shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a meeting, the committee Vice Chair shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a full Council meeting, the City Clerk shall read all orders of business into the record.

When a remote meeting of the full Council or committee thereof occurs, the City Clerk or Clerk of Committees shall admit any member of the administration or other participant to the meeting as directed by the presiding officer. No member of the administration or other participant shall be admitted without the approval of the presiding officer. Members of the administration or other participants shall remain in the virtual meeting room until such time that the presiding officer determines that their presence is no longer needed.

Members of the administration or other participants appearing before the Council in a remote format must utilize a video feed to the extent possible.

COMMENTARY

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 4

Commentary: In legislative bodies at all levels of government, a recognized officer, usually the longest-serving member, serves as President Pro Tempore. Although not recognized by this title in the last iteration of the Rules of Order, the longest-serving member has historically presided over the Council in the President's absence. This new rule removes the requirement that the Council vote for a temporary presiding officer each time the President is unable to fulfill their duties, affording deference to the most experienced Councilor to preside over the body.

Rule 7A

Commentary: This rule delineates and streamlines the structure of supervision as it relates to the City Clerk.

Rule 8

Commentary: The Massachusetts Open Meeting Law requires public bodies to provide *at least* 48-hours' notice to the public when a meeting will be held. This amended rule requires that notice of a City Council meeting or committee thereof is posted at least 72-hours in advance of a meeting -- an affirmative step at promoting greater transparency in City government by extending the period of time for which the public is given notice. This rule does not prohibit the updating of agendas or agenda packets after the initial posting so long as any and all updates comport with the Open Meeting Law.

Rule 13

Commentary: This rule recognizes that inquiry, debate, and discussion are separate and distinct parts of the legislative process. Historically, the cap on how much time a Councilor was allowed to speak on a given matter had been defined in an arbitrary way; moreover, the cap failed to recognize the nuances of a deliberative public process, having a stifling effect on Councilors, especially the sponsors of an order. This rule sets parameters for how much time a member can occupy when speaking on a particular matter, while accounting for the different stages of a matter under examination and allotting appropriate time for each stage. It also affords the President the flexibility to grant a member additional time, when leave has been requested by that member.

Rule 28

Commentary: This rule delineates and streamlines the structure of supervision as it relates to the Clerk of Committees.

Rule 32

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Commentary: This rule is meant to compel the administration to provide the City Council with all documents and other materials related to an order filed by the Mayor at least 48-hours' in advance of a meeting. Recognizing that no Councilor should be forced to proceed on a matter for which they have not been given adequate time to prepare, a minority of Councilors may vote to postpone the consideration of a matter by invocation of this rule.

Rule 35

Commentary: This amended rules prevents the fast-tracking of legislative matters by ensuring that a final vote does not occur by the full Council on the same evening that a matter is voted out of Committee. The intent of this rule is that pending legislation remains in the public eye for a longer period of time. With a showing of good cause, however, any Councilor may move to pull a matter from Committee on the same evening when it was voted out of Committee. This provision accounts for items that may be time sensitive in nature.

Rule 48

Commentary: The selection of a President is more than a procedural exercise determining the leadership of the Council. As the City Charter designates the President to assume the duties of Mayor during the Mayor's temporary absence, as well as to fill the unexpired term of the Mayor should the Mayor resign or no longer be able to execute the duties of the office, choosing a President must be a transparent and deliberative public process. Any Councilor seeking the presidency should have to state their interest at an earlier public meeting and, after being duly nominated at caucus, be required to state publicly the reasons for their candidacy before any vote occurs.

Rule 55

Commentary: For any matter voted out of Committee on the Thursday preceding the Monday meeting of the full Council, that matter should, in the spirit of transparency, be added to Monday's meeting agenda that next business day. Failure to provide notice of a matter scheduled for a final vote is an opaque, administrative practice that only works to discourage access and participation by the public. This amended rule is an antidote to that.

Rule 56

Commentary: This rule makes clear that any written or electronic correspondence submitted by a member of the public in connection with a matter pending before the council be automatically attached to the order and included in the meeting agenda packet, without requiring a vote of the Council. It further recognizes that the public has the right to know when correspondence connected to any matter under consideration has been directed to the Council, and how such correspondence may or may not influence decisions made by the body.

Rule 57

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Commentary: The intent of this rule is to create a centralized, on-line location so that the public can easily access and review all legislative matters disposed in a given year, whether in committee or by the full Council. A clearinghouse of this kind offers the public unfettered access to the legislative voting record, avoiding the unnecessary and cumbersome process of the public having to navigate IQM2 to peruse meeting minutes in order to determine the outcome of a vote.

Rule 58

Commentary: This rule establishes protocols governing how business will be conducted during virtual meetings of the City Council or a committee thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

REDLINE VERSION as discussed by the Rules of Order Special Committee

Proposed New Rules: 7A, 28, 31A, 35A, 55, 56, 57, 58

Rule 1 Regular Meetings of the City Council shall be held on the first and third Mondays of each month at 7:45 p.m.~~,~~ except as followed: ~~-~~(1) during July and August when there shall be one meeting each month on the third Monday; (2) when an election is to be held the following day ~~the~~ such meeting shall be held on the following Monday; and (3) when ~~said Monday~~ a meeting falls on a holiday, ~~the~~ such meeting shall be held on ~~the~~ Tuesday~~. following such holiday~~.

QUORUM

Rule 2 A majority of the Council or any Committee thereof shall constitute a quorum~~,, but a less number may adjourn from day to day~~.

PRESIDENT

Rule 3 The President shall take the chair at the scheduled hour~~, to which the Council stands adjourned~~, call the members to order and, on the appearance of a quorum~~;~~, proceed ~~to~~ with business.

Rule 4 In the absence of the President, the President Pro Tempore of the Council, who shall be the senior member in length of service, shall call the Council to order and preside over meetings until the President resumes the Chair. ~~a President pro tempore is chosen, which shall be by ballot unless a roll call is requested by not less than three members, and a plurality of votes shall elect. In case~~ When two or more members have the same seniority, ~~lots~~ names shall be drawn by the City Clerk thirty (30) minutes before the commencement of the meeting in the presence of the Clerk of Committees and at least one (1) member of the body,~~-~~ to determine ~~who shall~~ who the presiding officer will be.~~call the Council to order~~.

In the event that the longest serving member of the Council is elected President, the second longest serving member of the body shall serve as President Pro Tempore. When two or more members have the same seniority, the aforementioned selection process shall be followed.

Rule 5 The President shall preserve decorum and order~~;~~, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal by the Council. The President shall declare all votes and may vote in all cases.

Rule 6 The President may call ~~any member~~ the President Pro Tempore to the chair to preside over a full Council meeting, but such substitution shall not continue longer than one meeting without a majority vote of the members. The President may express an opinion on any subject under debate; but in such case he/she must leave the chair~~, appointing some other member to preside,~~ and shall not resume the chair while the question is pending~~; provided the same is taken before adjournment~~. The President may state facts and give an opinion on questions of order without leaving the chair.

Rule 7 It shall be the duty of the President or his/her designee to examine and approve the records of each meeting. It shall, likewise, be the duty of the President or the President ~~p~~Pro ~~t~~Tempore to sign all legislative matters which have been passed at any meeting.

Rule 7A It shall be the duty of the President to oversee the City Clerk who~~, and the Clerk of Committees as employees of the Council; these two roles~~ shall report directly to the Council President.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY CLERK AND ASSISTANT CITY CLERK

Rule 8 The City Clerk or Assistant City Clerk shall keep ~~a written record~~minutes of the proceedings of the ~~City~~ Council which shall~~, at the meeting of said Council~~ be subject to correction when the Council meets. The City Clerk shall note upon legislative papers the action taken by the Council relating to said papers. ~~and shall, for the time being, have charge of such papers.~~

The City Clerk shall perform such duties in connection with the transaction of business during the sessions of the ~~City~~ Council as the President deems necessary. ~~may deem best for expediting the business of said Council~~.

Whenever a petition is filed as provided by Section 22 of Chapter 166 of the General Laws seeking a permit for an original location for wires, poles, piers, abutments or conduits to be used for the transmission of electricity, the City Clerk shall forthwith, upon receipt of such petition, send notice, in the manner required by said Section, of a public hearing to be held thereon at the next meeting of the ~~City~~ Council occurring not less than seven (7) days following such receipt. The City Clerk shall also send notice of such hearing to the Inspector of Wires.

The City Clerk shall be responsible for preparing~~e a c Pre-Meeting Calendar~~a ~~published agenda~~ a Pre-Meeting Calendar for full Council meetings containing the following items: all matters of new business; all reports of committees to be presented at any regular or special meeting of the Council~~,~~; ~~which calendar shall include~~ a statement of any orders ~~with respect to~~ for which notice of a motion to reconsider ~~may have~~ has been filed~~,~~; ~~of~~ all orders which have been laid upon the table or postponed to a day certain~~,~~; ~~of~~ all hearings which may have been ordered~~,~~; and ~~of~~ all matters of unfinished business~~;~~, ~~and~~ ~~s~~such ~~c~~Calendar shall be ~~mailed or delivered~~ electronically transmitted to each member of the Council at least forty-eight (48) hours prior to said meeting.

~~After receipt by the City Clerk of all communications and papers referred to in Rule 32, he/she shall prepare a calendar of new business for such meeting, which shall be distributed to the members of the Council as seasonably as may be before the hour at which such meeting is called.~~

Agendas and corresponding agenda packets for all committee meetings and ~~Orders of the Day for~~ full Council meetings shall be publicly posted ~~to the public~~ ~~forty-eight~~ seventy-two (~~48~~72) hours before ~~that~~ a meeting is called to order, excluding Saturdays, Sundays, and legal holidays~~:~~. ~~a~~Agendas may~~, however,~~ be updated after their initial posting so long as subsequent agenda items are added at least forty-eight (48) hours prior to a meeting in accordance with the Massachusetts Open Meeting Law. All Orders, Ordinances, Petitions, Resolutions, and Remonstrances appearing on meeting agendas shall include the name(s) of the corresponding sponsor(s).

Notice of emergency meetings must be posted as soon as reasonably possible prior to ~~the~~ a meeting~~. Notices must be posted~~ and in a manner ~~that is~~ accessible to disabled persons to the extent required by federal and state law. ~~In addition, the IT Department~~ The City Clerk or the Clerk of Committees shall post ~~all~~ meeting agendas ~~on~~ to the city website~~.; and A all~~ The agenda ~~s~~ of a full Council meeting shall be subject to approval of the President and be posted in the same location as meeting notices.

Commented [rs1]: Sub-rule to indicate president approve agenda

~~Any member who wishes to remove an Order from committee for consideration by the full Council shall notify the City Clerk on or before the deadline specified in Rule 32, and the City Clerk shall place the Order on the Orders of the Day for the next regularly scheduled Council meeting. Should five or more members object to the taking of an Order from committee that appears on the Orders of the Day of the full Council, the Order shall be referred back to committee.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

~~Shall~~When~~-~~ a committee fails to issue a report on an item ~~an Order~~ within forty-five (45) days after the ~~Order~~ matter is referred to ~~that~~ committee, the Clerk of Committees shall notify the City Clerk of ~~said order~~ such and the City Clerk shall place said ~~Order~~ item on the agenda ~~Orders of the Day~~ for the next regularly scheduled Council meeting under Reports from Committee with the following notation: "No Action Taken."

Whenever any ~~o~~~~O~~Order or~~,~~ ~~o~~Ordinance ~~or resolution~~ adopted by the Council at any meeting has not been returned by the Mayor within ten (10) days and is thereby ~~in force~~ enacted~~,~~ ~~as provided~~ pursuant to ~~by~~ Section 3.7 of the City Charter, ~~there shall be included in said~~ the ~~c~~Pre-Meeting Calendar ~~of new business for the first~~ for the next meeting of the Council ~~next following the expiration of such ten (10) day period~~ shall include a statement ~~as to~~ that such ~~o~~Order or~~,~~ ~~o~~Ordinance~~, or resolution setting forth that the same has become law by~~ has taken effect by operation of law. ~~limitation.~~

~~Following each meeting of the Council~~Within forty-eight (48) hours after adjournment of a Council meeting, the City Clerk shall prepare a ~~b~~Post-Meeting Bulletin containing a statement of all ~~orders~~ items referred to committees, whether standing or special~~:~~. ~~said bulletin to be in such form that a~~All matters so referred shall be listed separately under the heading of the respective committees; and ~~containing, likewise, a statement of~~ all matters laid upon the table or postponed to a further ~~day~~ date ~~certain~~, and ~~of~~ any hearings ordered to be held at any subsequent meeting, shall be included in said Bulletin~~.~~

Whenever a notice is filed by any member as a ~~m~~Motion to ~~r~~Reconsider a vote passed by the Council ~~at any meeting~~, such ~~b~~Bulletin ~~for said meeting~~ shall include a statement to that effect. ~~with respect to such vote.~~ There shall also be noted upon said ~~b~~Bulletin a statement as to the action taken by the Council on which a Motion to Reconsider was filed. ~~on all matters considered at such meeting.~~ Bulletins shall be ~~delivered~~ transmitted electronically to the members within ~~forty-eight~~ seventy-two (~~48~~72) hours after adjournment of the meeting to which they pertain.

Rule 9 The Assistant City Clerk, in the absence of the City Clerk, shall perform the duties of the City Clerk.

CONDUCT & DECORUM OF MEMBERS

Formatted: Centered

Rule 10 When a member speaks, he/she shall address the presiding officer~~-~~ and shall confine his/her remarks to the question under ~~debate~~ consideration. ~~Every member while~~ While speaking, members shall ~~at all times~~ avoid personalities~~:~~, and no member ~~in debate~~ shall directly or indirectly ~~impute to~~ impugn another member or ~~to any other members any conduct or~~ conduct themselves ~~motive~~ in a manner unworthy or unbecoming ~~a member~~ of a City Councilor. No member shall speak or vote out of his/her place without leave of the presiding officer.

Rule 11 No member shall be interrupted while speaking except by their consent or by a point of order or point of information; nor shall there be any conversation among the members while a question is being stated, while a member is speaking or a paper is being read.

Rule 12 If a member repeatedly violates any of the rules of the Council or disrupts the orderly procedure of the Council, the presiding officer, after warning the member of such violations, shall call the member to order, and a member so called to order shall lose the right to speak on the pending subject matter but shall not be prevented from voting. A member so called to order shall remain silent until ~~the Council begins consideration of another subject matter or unless~~ the presiding officer returns to the member his/her rights to the floor. ~~No debate shall be permitted on any point of order, except on appeal and on such appeal no member shall be allowed to speak more than once.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 13 ~~During debates, if objection is made thereto, no member shall speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak.~~ A Councilor or any combination of Councilors who file an ~~o~~Order, Ordinance, Petition, Resolution, or Remonstrance shall be given up to fifteen (15) minutes in total to introduce the matter~~any order~~.

~~No member shall occupy more than five minutes in total while~~ When a matter is being debated, no member may occupy more than five (5) minutes for each point under debate, nor shall he/she speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak. ~~speaking on any question where debate is unlimited.~~

When a city official or other person appears before the Council or committee thereof, an individual Councilor shall not occupy more than ~~twenty-five (25)~~fifteen (15) minutes ~~when asking questions of~~of dialogue with the ~~attendee~~ party. If a Councilor, however, requires additional time for questions, he/she may seek leave of the presiding officer. In determining whether to grant the Councilor additional time, the presiding officer shall consider but is not limited to the following factors:

1) The number of remaining questions the Councilor intends to ask.
2) The number of questions the Councilor has already asked.
3) The relevancy of the questions.
4) The amount of time that has been occupied by the attendee in answering questions.
5) The responsiveness of the attendee.
6) The nature of the matter before the Council or committee.
7) Public interest considerations.
8) The hour of day.
9) Remaining business before the Council or committee.

Formatted: Font: (Default) Times New Roman,

Formatted: Indent: Left: 0.25"

On general matters of discussion, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject.

The presiding officer, at his/her discretion, may designate the City Clerk or Clerk of Committees to monitor the time provisions of this rule.

~~A person designated by the presiding officer shall keep strict accounting of the time occupied by any member and shall inform the presiding officer when a member's time has expired. Without leave of the Council, any member must thereupon stop speaking until the Council begins consideration of another subject matter.~~

Rule 14 No member shall vote on any ~~question~~ matter or serve on any committee where his/her private interest is immediately distinct from that of the public.

Rule 15 ~~Every~~ When a question is put forward, every member present, except the President, ~~present when a question is put forward~~ shall vote, unless excused by vote of the Council or excluded by personal interests.

No member shall leave without permission of the presiding officer if his/her presence is necessary to make a quorum.

Rule 16 The reading of any paper, if objected to, shall be decided by the Council.

Rule 17 No member shall stand up, to the inconvenience of others, while a member is speaking; ~~or~~ pass unnecessarily between the presiding officer and the member speaking; ~~or~~ stand in the area in front of the chair; or stand at the City Clerk's desk while a roll call is in progress~~.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

~~No member shall handle any electronic device, other than one that may be necessary for Council business, during a meeting of the Council or committee thereof.~~ The use of electronic devices should be restricted for Council business only during a meeting of the full Council or committee thereof.

Rule 18 The members of the Council shall not stand ~~not~~ or leave their places on a Motion to Adjourn ~~adjournment~~ until the presiding officer ~~shall have~~ has declared the Council adjourned.

Rule 19 Every member shall take notice of the day and hour to which the Council ~~may~~ stands adjourned.

STANDING COMMITTEES

Formatted: Centered

Rule 20 The President shall appoint voting members to each Standing Committee, one of whom shall serve as Chairperson,

~~,~~The President shall ~~annually,~~ at the first meeting in January, ~~appoint~~ ~~members~~ announce ~~to~~ the Chairpersons and voting members appointed to all Standing Committees for that calendar year ~~of the City Council,~~

~~and t~~The President shall ~~be~~ serve as a member ex-officio of all committees and, when required, may be counted in the making of a quorum. ~~at committee meetings.~~ The President shall be entitled to vote as an ex-officio member of all standing committees. ~~the Appropriations Committee or when he/she is required to make a quorum.~~

All members of the ~~Melrose City~~ Council shall be considered as ~~s~~ members ~~s~~ of each ~~of the Council's~~ Standing Committee~~s~~. ~~The President shall name those members of each committee, to include its Chairperson; who are authorized to vote on matters while pending in committee; all other members of each committee are not~~ but shall not be authorized to vote on ~~such~~ pending matters ~~while~~ ~~pending in committee~~ unless assigned as a voting member of that Committee. A quorum of ~~the~~ a committee shall be determined on the basis of ~~the~~ voting members only.~~.~~

A non-voting member of a committee may only speak on a pending matter after all voting members have been given the opportunity to ~~speak~~deliberate; and non-voting members shall only speak once unless granted leave by the Chairperson. This provision of the rule, however, shall not apply to non-voting members who have sponsored or co-sponsored a ~~n order~~ matter ~~that~~ appearing~~s~~ before a committee. The sponsor(s) ~~of an order~~ shall always be recognized first by the Chairperson for the purposes of introducing an order.

The following Standing Committees are hereby established:

~~COMMITTEES~~

Formatted: Left

Appropriations & Oversight ~~(11 members~~5eleven (11) voting members~~)~~ to include the annual Budget and all supplementary budgets, redevelopment authority, federal or state grants, ~~and~~ zoning, and all general oversight matters.~~.~~

Finance ~~(11 members~~five (5) voting members ~~)~~ to include accounts and surety bonds, election matters, print and supplies, and City Council purchases.

Health, Education and Welfare (~~11 members~~five (5) voting members) to include public schools, public library, and veteran~~'~~s ~~services~~ affairs.

Legal and Legislative Matters (~~11 members~~ five (5) voting members) to include rules, legislative matters and claims.

Protection and License (~~11 members~~five (5) voting members) to include the Police and Fire Departments, Emergency Management, and licenses.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Public Service (~~11 members~~five (5) voting members) to include ~~P~~public grounds and buildings.

Public Works (~~11 members~~five (5) voting members) to include Public Works Department, public transportation, all municipal parking areas and lighting of streets and municipal parking areas, and electric, cable and telephone wires.

Rule 21 The member first named on any committee shall be its Chairperson and the second named member of the Committee will be recognized as the Vice Chair of the Committee. ~~and, i~~In the case of ~~his/her~~the Chairperson's resignation, absence or disability, the other members, in the order in which they are named to the Committee, shall call meetings of the ~~c~~Committee and ~~-~~act as Chairperson~~; and i~~. If, for any reason, any committee ~~shall not have~~has not assembled within three (3) weeks from the reference ~~to it of any~~ of matters ~~pertaining~~ thereto ~~such committee~~, except for the Summer season, the member second in order may call meetings of the committee. ~~It shall be the duty of the Committee on Finance to approve all purchases for the City Council.~~

Commented [O2]: Added above to "Finance" sec

- **Rule 21A** Committee Chairpersons~~s~~ serve at the pleasure of the President, who may at any time remove a Chair and designate a new Chair. Neither the removal nor the appointment or re-appointment of a Chairperson~~, nor the appointment of a new Chair one~~ shall be subject to the approval of the Council.

- **Rule 21B** A committee Chairperson shall take the chair at the scheduled time and shall convene the meeting within thirty (30) minutes thereof. If a quorum is not present within thirty (30) minutes of the time originally scheduled, ~~then~~ the Chairperson shall not commence such meeting and it shall be rescheduled to a later date.

- Rule 21C The Chairperson shall call upon the Vice Chair to preside whenever the Chairperson intends to ask questions of an attendee or express an opinion on a matter before the Committee. The Chairperson may resume the chair when the matter for which he/she gave up the chair is no longer before the Committee.

~~**CLERK OF COMMITTEES**~~

Formatted: Left

~~**Rule 22** The Clerk of Committees shall keep proper records of committee meetings in written format, which shall be an official record. Audio/visual records may also be kept. A copy of the written record shall be available to all members of the Council or and members of the public. He/sShe shall prepare all reports of committees for presentation to the City full Council subject to the approval of the Chairperson. The Clerk of Committees shall, following the final action of the Committee on Appropriations & Oversight and the making of its report on the annual budget, or any supplementary budget, prepare a statement with respect to the appropriations recommended for each department, when such appropriations include any sums for increase in salaries for employees of such departments, stating in detail the amount of such increases allowed in such appropriations and the period of the budget year allowed by said appropriations.~~

Commented [SM3]: Moved below and renumbe

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 2~~3~~ ~~The Chairperson of~~ ~~E~~each standing committee shall~~, in all cases of original reference on a petition or request for legislation,~~ ~~i~~ensure that the ~~parties so requesting~~ makers of any legislative ~~order~~ item ha~~s~~~~ve~~ proper notice of all related hearings. ~~Orders~~ A matter pending in committee shall not be disposed of at the committee level without the ~~maker~~sponsor(s) of the ~~order~~ being present and available to vote on ~~the~~ thatmatter. ~~and ample opportunity to be heard before final action is taken~~.

Rule 2~~3~~ Reports on all matters ~~referred to~~ from committees shall be made as early as practicable and shall be signed by the Chairperson, unless otherwise ordered by the ~~c~~Committee. Reports shall be appropriately designated by the action taken in committee and presented as such on all future meeting agendas until the Council disposes of a matter. Reports shall be designated in one of three (3) ways: Favorable Report ("ought to pass"); Adverse Report ("ought not to pass"); Undeclared Report ("without recommendation"). -Any member may call for the degree of progress reached with respect to any matter referred to a committee. Whenever any committee reports to the ~~City~~ Council and ~~any~~ one or more members dissent~~s~~ from the report, the name(s) of ~~such~~ the dissenting member(s) shall be printed on the ~~c~~~~C~~~~alendar~~ agenda under Reports from Committee followed by the ~~word~~ "~~d~~Dissents"; provided a statement is filed, as a minority report, by such dissenting member(s) ~~or members~~, containing the reasons therefore ~~for~~, with the Clerk of Committees, which statement shall accompany the report of the ~~c~~Committee and shall be read by the President.

Rule 24 ~~All committees shall be appointed by the President, unless otherwise provided.~~ ~~Special committees of the Council shall consist of three members, unless otherwise ordered~~ The President shall form special committees of the Council as needed and shall appoint its members~~.~~ Special committees shall consist of three members, unless otherwise ordered.

Commented [O4]: Redundant with Rule 20.

Rule 25 All committees of the Council shall be notified of their meetings by the Clerk of Committees. No two committee meetings may occur at the same time. ~~They shall not sit during sessions of the Council without special leave.~~

COMMITTEE OF THE WHOLE

Rule 26 When ~~the Council~~ a ~~C~~committee determines to go into a ~~c~~Committee of the ~~w~~Whole, the ~~c~~Chairperson shall be appointed by the President.

Rule 27 The Rules of the Council shall be observed in a ~~c~~Committee of the ~~w~~Whole, so far as they may be applicable, except the rules limiting debate. A motion to rise, report progress, and ask leave to sit again shall always be first in order and be decided without debate.

CLERK OF COMMITTEES

Formatted: Font: Bold

Formatted: Centered

Rule 2~~8~~ The Clerk of Committees shall report to the City Council, providing legislative assistance, support, and other professional services as needed. The City Council President shall have ultimate oversight over the Clerk of Committees, with day-to-day supervision provided by the City Clerk.

Rule 28A The Clerk of Committees shall keep proper records of committee meetings in written format, which shall be an official record. Audio/visual records may also be kept. A copy of the written record shall be available to all members of the Council and the public. He/she shall prepare all reports of committees for presentation to the full Council subject to the approval of the Chairperson. The Clerk of Committees shall, following the final action of the Committee on Appropriations & Oversight and the making of its report on the annual budget, or any supplementary budget, prepare a statement with respect to the appropriations recommended for each department, when such appropriations include any sums for increase in salaries for employees of such departments, stating in detail the amount of such increases allowed in such appropriations and the period of the budget year allowed by said appropriations.

Formatted: Centered

Commented [rs5]: Councilors MacMaster and St dissent from proposed language

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Members of the public shall limit their remarks to matters on the agenda for the meeting at which they speak and shall be out of order if said speaker addresses other issues not on the agenda. ~~This rule may be suspended by unanimous consent of the members.~~ It shall be at the discretion of the President or Chairperson of any standing committee to ~~reduce the allotted~~grant ~~additional~~ up to ten (10) minutes per person for public comment at any meeting.

This rule shall only be suspended by unanimous consent of the members.

Rule 30 All ~~papers~~ ~~orders~~ pending matters before the Council shall be presented by the President or ~~a member in his/her place~~ ~~presiding officer~~; and shall be read by the President, City Clerk or such other person as the President may request. They shall be acted upon in the order in which they are presented unless the Council shall otherwise direct.

Rule 31 All ~~appointments~~ nominations/appointments made by the Mayor, subject to the confirmation of the ~~City~~ Council, shall, when received by the Council, be referred without debate to the proper standing committee and said committee shall report its recommendations thereon within forty-five (45) days or at the next regular meeting.

RULE 31A No nomination/appointment made by the Mayor and subject to the confirmation of the Council shall be entertained by the Council or committee thereof without the candidate's cover letter and resume having been furnished to the Council prior to the meeting and posted publicly on IQM2.

~~**PROCEEDINGS WITH RESPECT TO LEGISLATIVE MATTERS**~~

Rule 32 Except by unanimous consent, all legislative matters, communications from the Mayor or heads of departments and all papers of whatever description which may require action by the ~~City~~ Council, must be in the hands of the City Clerk ~~–~~no later than noon on ~~Wednesday~~ Tuesday prior to each regular meeting. The City Clerk shall confirm the receipt of all legislative filings by notifying the ~~maker~~ sponsor(s) of a~~n~~ ~~order~~ filing via e-mail at the time of receipt. Reports of committees must be filed with the Clerk at the same time.

Any written document in support of a~~n order filed by~~ filing or communication from the Mayor, including documents prepared by a department head or other city employee after the filing of said ~~order~~ matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the ~~order~~matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than four (4) Councilors, or the affirmative vote of not less than two (2) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it.

Whenever any ~~bill~~, ~~o~~Order, Ordinance, ~~p~~Petition, ~~memorial or remonstrance~~ ~~or~~ Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing. ~~and, if the same is referred to any committee, the name of such member shall, in the event of a favorable report, or, if such report is unfavorable and is not adopted by the Council, appear upon any order based thereon which may be enacted by said Council.~~

Rule 32A No ~~order containing a~~ Petition, Resolution, or Remonstrance shall be accepted by the City Clerk and placed upon the agenda for a meeting of the City Council unless a copy of the full text ~~of the Resolution is~~ has

Formatted: Font: Bold, Underline
Formatted: Left

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

been filed with the ~~Order~~City Clerk.~~, and the honoree(s), if any, confirm their attendance at the time the resolution is introduced~~.

Rule 33 Ordinances of the city and associated amendments ~~thereto~~ shall be established ~~only~~ by a two-thirds (2/3) vote of all the members of the ~~City~~ Council, to be taken by a Roll Call~~Viva Voce~~ vote~~the yeas and nays~~. In the case of all other legislative matters, except as otherwise provided in the General Laws, or in the Revised Charter and Ordinances of the City of Melrose, the affirmative vote of a majority of all members of the Council shall be necessary for passage at each debatable legislative stage.

Rule 34 Subject to the provisions of Section 2-9(b) of the City Charter, every legislative matter shall be read once when it is introduced and shall then be referred to its appropriate committee, unless, where appropriate, immediate consideration is ~~asked for~~requested. ~~, in which event it~~In the case of a request for immediate consideration, the legislative matter shall be at once considered, provided no councilor objects; and no motion shall be applied to any such matter when originally introduced until immediate consideration has been granted. It shall be the duty of the President to ask if there is objection before immediate consideration is given any matter, and upon objection the matter will be referred to the appropriate committee.

Rule 34A All matters involving the appropriation of moneys in the treasury not otherwise appropriated, the intra-departmental transfer of moneys from one account of the city to another, or otherwise affecting municipal finances, shall be referred to the ~~committee on Finance~~Finance Committee. The ~~committee~~ Committee shall make its recommendation thereon not later than three (3) weeks from the date of such reference. The provisions of this section shall not apply in the case of matters referred to the Committee on Appropriations & Oversight.

Rule 35 Upon the report of a committee recommending the passage~~ing~~ of any ~~ordinance,~~ ~~o~~Order, Ordinance, Petition, ~~or~~ ~~r~~Resolution, or Remonstrance ~~it~~ the item shall be read a second time at the next full Council meeting and shall then be in order for a final action unless the next full Council meeting falls on the same day. ~~unless there is objection on the part of not less than five (5) Councilors.~~ When an Order, Ordinance, Petition, ~~or~~ Resolution or Remonstrance appears before the full Council with a recommendation from a committee that same day, it shall be presumed that the matter will be placed on the agenda of the next full Council meeting under the Reports from Committee section of the agenda. Any councilor, however, shall be entitled to make a motion to immediately pull a matter from committee, when a matter is recommended by that committee on the same day, provided that a showing of good cause has been made. The burden shall be on the maker of the motion to demonstrate good cause~~;~~. ~~to be ruled upon by the President, before a second shall be entertained.~~ After a ~~determination of good cause has been made by the President~~second to the motion has been made, the motion to pull from committee shall require a ~~two thirds (2/3) viva voce~~simple majority vote. ~~It shall be the duty of the President to ask if there is objection before consideration. If not less than five (5) Councilors object, it shall be placed in the orders of the day for the next meeting.~~ Appointments of city officials by the Mayor are not included in connection with the aforesaid.

Rule 35A When a matter is introduced to the full Council with a recommendation for passage from any standing or special committee, a period of discussion shall be in order before a Motion for Passage is entertained by the President, President Pro Tempore, or other member presiding on behalf of the President.

Rule 36 All matters pertaining to amendments to the Rules of Order of the City Council, Ordinances and legal affairs shall be referred to the committee on Legal and Legislative Matters.

When amendments are recommended to the Council, the City Clerk shall forward copies of any proposed changes to all members, and no amendment shall be in order for final passage until each member shall have received such copy.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 37 When any ~~order~~ matter has been ~~finally~~ rejected by the full Council, no measure embodying substantially the same subject shall be introduced by any committee or member within six (6) months of its previous rejection.

Rule 37A Any ~~order~~ matter not ~~finally~~ acted upon by the Council or the appropriate committee within one (1) year of said ~~order~~ matter being filed, shall be considered null and void and shall be removed from the ~~files~~ calendar of the Clerk of Committees. Any ~~order~~ matter considered null and void by operation of this rule shall not be subject to any refiling restriction of Rule 37.

Rule 37B During a ~~City~~ Council meeting, standing committee thereof, or a public hearing, a non-member ~~speaker~~ may speak no more than ten (10) minutes unless he obtains the consent of the ~~City~~ Council or standing committee thereof, nor may he/she speak more than twice on the same issue.

Rule 38 Unless otherwise ordered, votes shall be taken orally. If the vote is doubted, the members voting shall rise in their places until counted. A ~~Viva Voce~~ Roll Call vote shall be taken upon request of five (5) or more councilors.~~by yeas and nays when five members of the Council so request~~.

Rule 39 The President shall consider a motion to adjourn as always in order, except on immediate repetition. When a ~~question~~matter before the Council is under debate, he/she shall receive no motion except:

Commented [rs6]: Has 'question' been defined in context of debatable item? i.e., is this an ordinance or resolution?

1. To adjourn
2. To lay on table
3. The previous question
4. To close debate
5. To postpone to a day certain
6. To amend
7. To postpone indefinitely

~~which several~~ ~~m~~Motions shall have precedence in the order arranged.

Rule 40 On the following motions, the debate shall be limited to the time specified in each case:

To adjourn:~~-~~ N~~n~~o ~~d~~Debate;

Roll Call ~~Viva Voce Vote~~~~Yeas and Nays~~;~~-~~ ~~n~~No ~~d~~Debate;

Lay on Table:~~-~~ ~~n~~No ~~d~~Debate;

The previous question:~~,~~ to close debate at a specified time~~,~~; indefinite postponement~~,~~; postponement to a day certain~~,~~; to suspend the rules~~,~~; to reconsider:~~,~~ ~~t~~Ten ~~m~~Minutes (10) ~~(~~-- no member to occupy more than three (3) minutes.~~)~~

Whenever, at any meeting, a question is laid on the table, it shall remain there until the close of the next regular meeting, if not taken up earlier; but, if it is not taken from the table at such next meeting, or earlier, the ~~c~~Clerk shall place the same in the files of the Council and shall make a record thereof in the ~~journal~~ minutes of such meeting and upon any paper relating to such question.

Rule 41 Any motion shall be in writing if the President so directs, or any member of the Council so requests.

Rule 42 A question containing two or more propositions capable of division shall be divided whenever any member so requests and is confirmed by majority vote.~~.~~

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 43 No motion or proposition of a subject different from that under consideration shall be admitted under the color of any amendment.

Rule 43A Any member may move the consideration of any report of committee out of the order said report appears on the ~~calendar~~ agenda, subject to~~with~~ the unanimous consent of the Council ~~move the consideration of any report of committee out of the order said report appears on the calendar~~.

Rule 44 When a vote has been taken, except those enumerated in Rule 45, it shall be in order for any member voting on the prevailing side to move a reconsideration thereof at the same meeting at which such vote was taken, or to file with the City Clerk notice of a motion to reconsider such vote within twenty-four (24) hours from the taking of the same~~, but,~~. ~~w~~When a motion to reconsider has been decided, that vote shall not be reconsidered and, unless two-thirds (2/3) of the members of the Council are present, a motion to reconsider shall be laid upon the table until the next meeting of the Council.

A notice of a motion to reconsider filed with the City Clerk shall be regarded in the same manner as if a motion to reconsider had been made while the Council was in regular session and, except as hereinbefore provided, shall be called up by the member filing such notice, or by some other member of the Council, at the next regular meeting, or at any intervening special meeting provided the same is included in the call thereof.

Whenever notice of a motion to reconsider has been filed, as aforesaid, the City Clerk shall notify all the members of the Council. No notice of a motion to reconsider may be withdrawn except by a majority vote of ~~all the members of~~ the ~~City~~ Council. No notice of a motion to reconsider may be filed with respect to any ~~ordinance~~, ~~o~~Order, Ordinance, Petition, ~~or~~ R~~r~~esolution, or Remonstrance or vote acted upon at the final meeting of the term to which the members of any Council may have been elected.

Commented [rs7]: Struck all members in the cas… less than the full council is present but a quorum ha… established.

Rule 45 No vote on any of the following motions shall be reconsidered:

1. To ~~a~~Adjourn
2. To ~~l~~Lay on the ~~t~~Table
3. To ~~t~~Take from the ~~t~~Table
4. To the ~~p~~Previous ~~q~~Question
5. To ~~r~~Reconsider

APPEAL

Rule 46 No appeal from any decision of the President shall be entertained unless it is duly seconded, and no other business shall be in order until the question on the appeal has been decided by a majority vote of the Council. The question shall be put as follows: *"Shall the decision of the Chair stand as the judgment of the Council~~?~~"*? ~~and it shall be deemed to be decided in the affirmative unless a majority of the votes are given to the contrary.~~

Formatted: Font: Italic

USE OF COUNCIL CHAMBER

Rule 47 The use of the Council Chamber, or the Council ~~c~~Committee ~~r~~Room, shall not be granted to any person or organization without the permission of the President. Said request shall be in writing, and the Clerk of Committees shall keep a suitable calendar noting the permitted uses thereon.

CAUCUS FOR NOMINATION OF PRESIDENT

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 48 The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year~~., and the formal election of the President shall take place at the first meeting in January next following~~. Notice of the holding of the C~~c~~aucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such ~~c~~Caucus shall be held in the Council Chamber; shall be called to order by the ~~City Clerk~~ President Pro Tempore; shall include a period for public comment~~,~~ and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Notice of the ~~c~~Caucus shall be posted, and the ~~c~~Caucus shall be held in public session~~.,~~

The President Pro Tempore shall call upon the City Clerk to conduct the Caucus, tally votes, and announce the results. Nominations, as aforesaid, shall ~~be made by~~ result in a ~~v~~Viva ~~v~~Voce Roll Call vote, each member present answering to his/her name when called by the City Clerk ~~or other proper officer~~, stating the name of the person for whom he/she votes, or that he/she declines to vote. The vote of the majority of all the members of the Council shall be necessary to so nominate a President. Upon being elected, the prior President shall escort the newly-elected President to the rostrum.

~~Notice of the caucus shall be posted and the caucus shall be held in public session.~~A candidate with the intention of pursuing the presidency shall state so publicly at any prior meeting of the full Council before the scheduled caucus.

The nomination of a President shall be a non-binding vote. The formal election of the President shall take place at the first meeting in January next following. Before a final vote commences, all nominees shall be required to make a public statement regarding their candidacy, at the first meeting in January, which shall not exceed five (5) minutes in length. The conduct of the election shall follow the process of the Caucus.

Formatted: Left

~~SUSPENSION, AMENDMENT OR REPEAL~~ MISCELLANEOUS

Rule 49 ~~These~~ Any rule~~s~~ may be suspended by an affirmative vote of two-thirds (2/3) of the members of the Council present~~.;~~ When a motion to suspend a rule is made, the specific rule for which suspension is sought must be cited in the motion and the reason stated on the record. ~~they may be~~

Any rule may be amended or repealed by ~~–~~a vote of a majority of all the members of the Council, but the motion for such purpose shall not be made and acted upon at the same meeting. All motions for amendments to these rules shall be in writing and copies thereof shall be sent to each member by the City Clerk before final action thereon.

Rule 50 The Council shall be governed by Robert's Rules of Order, in all questions of parliamentary procedure not provided for by special rules of order.

Rule 51 In order to promote fair and open discussion, once a public hearing is called to order, the presiding officer shall recognize members of the public who may speak in the order of recognition. Public hearings shall ~~no longer~~ not be divided into time periods for proponents and opponents to speak.

Rule 52 In the event the ~~City~~ Council must elect a person to complete the term of a Councilor in accordance with Section 2-11 (c) of the City Charter, the procedure for filling such vacancy shall be as follows:

- 1. Notice shall be given by immediate publication once in a newspaper of local circulation and for not less than two (2) weeks on the City's website homepage that the vacancy exists and that are placement is being sought.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- 2. Individuals interested in filling the vacancy (hereinafter "Applicants") shall be requested to contact the Clerk of Committees. By the close of business of the 14th day following publication in a newspaper of local circulation, applicants shall submit a letter of ~~introduction~~ intent and ~~current~~ resume ~~when contacting~~ to the Clerk of Committees.

- 3. Applicants who have complied with ~~paragraph 2~~Rule 52, Section 2 above shall be invited to a meeting of the full Council ~~Appropriations Committee~~, at which time all applicants will be given an opportunity to address the Council. At that time, Applicants will be afforded up to 10 minutes to make a statement; and Councilors will have the opportunity to ask questions of the Applicants.

- 4. After all applicants have been given an opportunity to address the Council, an election shall be conducted.

- 5. In order to be eligible for election, an Applicant must have his/her name placed in nomination and must receive a second.

- 6. The voting shall be public with each member of the ~~City~~ Council stating the name of the Applicant for whom he or she is voting.

- 7. The first Applicant to receive six (6) votes shall be elected pursuant to Section 2-11(c) of the City Charter.

- 8. If there is more than one Applicant and no Applicant receives six (6) votes on the first ballot, the two (2) individuals who receive the most votes shall move to a second ballot. The other ~~a~~Applicants shall be eliminated. In the event that there is a tie for either of the top two spots, any individual in such a tie shall move on to a second ballot.

- 9. In the event that no Applicant receives six (6) votes after at least five (5) ballots, the Council may place the order on the table and continue with the process at the next regularly scheduled meeting of the ~~City~~ full Council.

Rule 53 Whenever the President, or a member of the ~~City~~ Council appointed by the President or Mayor to serve on a committee, commission, ~~C~~council, board or other working group, attends a meeting of such committee, commission, ~~C~~council, board or other working group, that member shall report back ~~to the full City Council~~ at the next regular meeting of the Council as to the actions taken on all matters on the agenda of said body. ~~committee, commission, Council or other working group~~.

Rule 54 In the event of a vacancy in the position of the City Clerk or Clerk of Committees, the President of the Council shall appoint a nominating committee of three (3) Councilors. The nominating committee will cause any such vacancy to be posted, will review applicant resumes, and conduct interviews. Thereafter, the nominating committee shall recommend three (3) candidates for consideration by the full ~~City~~ Council.

Rule 55 When a standing committee votes to move forward any Order, Ordinance, Petition, ~~or~~ Resolution or Remonstrance to the full Council on the preceding Thursday before a full Council meeting, the City Clerk shall, on the next business day, update the meeting agenda of the full Council to include the committee's recommendation. The updated agenda shall be posted in accordance with the provisions of Rule 8.

Rule 56 All correspondence from members of the public submitted in writing to the Council in connection with any matter before the full Council or committee thereof shall be publicly available; such correspondence shall be automatically attached to the order in question by the City Clerk or Clerk of Committees and shall not require a vote of the full Council or any committee thereof.

Formatted: No underline

Formatted: No underline

Formatted: Underline

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Correspondence relating to a matter, when submitted to the Council at least twenty-four hours (24) prior to a scheduled meeting on said matter, shall be attached to the order before the start of the meeting; correspondence submitted thereafter shall be attached to the order no later than 48 hours from the time of adjournment.

The City Clerk shall redact the e-mail address and phone number of any member of the public who submits correspondence to the Council before any such correspondence is attached to the order.

Rule 57. The final disposition of all Orders, Ordinances, Petitions, ~~and~~ Resolutions, and Remonstrances for a given fiscal year shall be ~~be~~ posted to the City Council section of the City's webpage by the City Clerk within 48 hours of a measure having been disposed. The public posting of dispositions, hereinafter known as the Legislative Disposition List, shall include the following information for all disposed matters: 1) the title of the ~~order~~ filing; 2) the ~~order~~filing number; 3) the name of the Councilor who sponsored the ~~order~~ filing; 4) the names of any co-sponsors; 5) how each Councilor voted on the matter; 6) the outcome of the vote; and 7) the date of disposition.

The Legislative Disposition List shall be maintained in the order that matters are disposed.

Rule 58 When a virtual meeting occurs, public participation shall be enabled in accordance with Rule 29A, whenever feasible.

Councilors must utilize a video feed when participating in a virtual meeting. In the event that a Councilor loses video and audio feed during a meeting, no vote shall occur on any matter until after such time that a recess has occurred in order to troubleshoot the problem. If the Councilor's video and audio feed has not been reestablished within 15 minutes of recessing, the members shall decide whether to proceed with a vote.

If the City Clerk loses video and audio feed during a meeting, the Clerk of Committees shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a meeting, the committee Vice Chair shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a full Council meeting, the City Clerk shall read all orders of business into the record.

When a remote meeting of the full Council or committee thereof occurs, the City Clerk or Clerk of Committees shall admit any member of the administration or other participant to the meeting as directed by the presiding officer. No member of the administration or other participant shall be admitted without the approval of the presiding officer. Members of the administration or other participants shall remain in the virtual meeting room until such time that the presiding officer determines that their presence is no longer needed.

Members of the administration or other participants appearing before the Council in a remote format must utilize a video feed to the extent possible.

Proposed Amendments Order 2022-34, Revised Rules of Order of the Melrose City Council

Rule 29A Each meeting of the Council or any standing committee thereof shall allow up to ~~seven (7)~~ ten (10) minutes per person for public comment prior to the reading of "COMMUNICATIONS FROM THE MAYOR AND OTHER CITY OFFICIALS." ~~Public comment shall be permitted only for residents of Melrose and/or Melrose property owners unless the Chairperson rules otherwise. Before addressing the Council, speakers shall, on the record, identify the street on which they live or on which they own property~~. Members of the public shall limit their remarks to matters on the agenda for the meeting at which they speak and shall be out of order if said speaker addresses other issues not on the agenda. ~~It shall be at the discretion of the President or Chairperson of any standing committee to grant up to ten (10) minutes per person for public comment at any meeting.~~ There will be an option to speak in public comment via remote participation whenever practicable, to be managed by the City Clerk and/or the Clerk of Committees.This rule shall only be suspended by unanimous consent of the members.

Rule 41 Any motion shall be in writing if the President so directs, or any member of the Council so requests. In a remote meeting format, written motions shall be emailed to the Clerk of Committees and/or City Clerk for distribution to the Councilors through the appropriate and available electronic means.

Rule 54 In the event of a vacancy in the position of the City Clerk or Clerk of Committees, the President of the Council shall appoint a nominating committee of three (3) Councilors. The nominating committee will cause any such vacancy to be posted, will review applicant resumes, and conduct interviews. Thereafter, the nominating committee shall recommend up to three (3) candidates for consideration by the full Council.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Order 2022-34
Proposed Amendments
Leila Migliorelli
11/23/21

Amendment 1: Rule 13

Rule 13 A Councilor or any combination of Councilors who file an Order, Ordinance, Petition, Resolution, or Remonstrance shall be given up to ~~fifteen~~ ten (~~15~~10) minutes in total to introduce the matter.

On general matters of discussion or when a matter is under debate, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject or for each point under debate. No member ~~When a matter is being debated, no member may occupy more than five (5) minutes for each point under debate, nor~~ shall ~~he/she~~ speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak.

When a city official or other person appears before the Council or committee thereof, an individual Councilor shall not occupy more than fifteen (15) minutes of dialogue with the party prior to seeking leave of the presiding officer. Additional time may be granted to the Councilor, at the discretion of the presiding officer, if said party has occupied the majority of the time in responding to questions ~~. If a Councilor, however, requires additional time for questions, he/she may seek leave of the presiding officer. In determining whether to grant the Councilor additional time, the presiding officer shall consider but is not limited to the following factors:~~

~~1) The number of remaining questions the Councilor intends to ask.~~
~~2) The number of questions the Councilor has already asked.~~
~~3) The relevancy of the questions.~~
~~4) The amount of time that has been occupied by the attendee in answering questions.~~
~~5) The responsiveness of the attendee.~~
~~6) The nature of the matter before the Council or committee.~~
~~7) Public interest considerations.~~
~~8) The hour of day.~~
~~9) Remaining business before the Council or committee.~~

~~On general matters of discussion, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject.~~

The presiding officer, at his/her discretion, may designate the City Clerk or Clerk of Committees to monitor the time provisions of this rule.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Amendment 2: Rule 22

Rule 22 The ~~Chairperson~~ Clerk of Committees ~~of each standing committee~~ shall ensure that the sponsor(s) of any legislative item have ~~proper notice~~72 hours ~~of~~ for all related hearings. A matter pending in committee shall not be disposed of at the committee level without the sponsor(s) being present and available to vote on that matter.

Amendment 3: Rule 31A

~~Rule 31A No a~~All appointments made by the Mayor and subject to the confirmation of the Council shall ~~be entertained by the Council or committee thereof without the~~include a written statement and/or ~~candidate's cover letter and~~ resume from the candidate. ~~having been furnished to the Council prior to the meeting and posted publicly on the City's meeting agenda platform~~.

Amendment 4: Rule 32

Rule 32 All filings (legislative or otherwise), communications from the Mayor or other city officials, and reports from committees that may require action by the Council, must be in the hands of the City Clerk no later than noon on Tuesday prior to each regular meeting. All filings from the Mayor or other city officials must include a written statement or memorandum detailing the intent of the filing and any impacts to the City's finances, if applicable. The City Clerk shall confirm the receipt of all filings by notifying the sponsor(s) via e-mail at the time of receipt.

~~Any written document in support of a filing or communication from the Mayor, including documents prepared by a department head or other city employee after the filing of said matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than four (4) Councilors, or the affirmative vote of not less than two (2) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it.~~

Whenever any, Order, Ordinance, Petition, Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 32 All filings (legislative or otherwise), communications from the Mayor or other city officials, and reports from committees that may require action by the Council, must be in the hands of the City Clerk no later than noon on Tuesday prior to each regular meeting. The City Clerk shall confirm the receipt of all filings by notifying the sponsor(s) via e-mail at the time of receipt.

Any written document ~~in support of a filing or communication from the Mayor~~submitted by the administration, including documents prepared by a department head or other city employee after the filing of said matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than five~~four~~ (45) Councilors, or the affirmative vote of not less than three~~two~~ (23) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it.

Whenever any, Order, Ordinance, Petition, Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing.

Rule 48 The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year. Notice of the holding of the Caucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such Caucus shall be held in the Council Chamber; shall be called to order by the President Pro Tempore; shall include a period for public comment and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Notice of the Caucus shall be posted, and the Caucus shall be held in public session. The President Pro Tempore shall call upon the City Clerk to conduct the Caucus, tally votes, and announce the results. Nominations, as aforesaid, shall be followed by a Roll Call vote, each member present answering to his/her name when called by the City Clerk, stating the name of the person for whom he/she votes, or that he/she declines to vote. The vote of the majority of all the members of the Council shall be necessary to so nominate a President. Upon being elected, the prior President shall escort the newly-elected President to the rostrum.

A ~~candidate~~current member with the intention of pursuing the presidency shall state so publicly at any prior meeting of the full Council before the scheduled caucus.

The nomination of a President shall be a non-binding vote. The formal election of the President shall take place at the first meeting in January next following. Before a final vote commences, all nominees shall be required to make a public statement regarding their candidacy, at the first meeting in January, which shall not exceed five (5) minutes in length. The conduct of the election shall follow the process of the Caucus.

Dear Karen

It was really nice to see and talk with you today. Thank you for telling me about the open availability regarding the Melrose Disability Commission. I am very interested in applying for a spot on this special and important committee. As you know I myself have a disability.. I was born with spastic diplegic cerebral palsy and have dealt with many issues because of it. I have a couple of friends who have a disability as well and we have talked about various issues we have encountered and came up with some good ideas about possible ways to fix them or at least make these issues more manageable to deal with. I am also a licensed Certified Occupational Therapy Assistant so I have also dealt with numerous people with varying disabilities in that capacity. At a patients discharge planning meeting i have frequently discussed issues and concerns my patients might face upon re-integrating back into their communities. I believe I would not only be able to provide valuable input about my own personal struggles but also as the struggles I have discussed with others with disabilities. I strongly believe I can also come together with others to help provide solutions or ways to make to these issues and concerns easier to deal with. I myself try really hard to deal with struggles and issues in a positive way. I am a very friendly, easy going person and I love dealing with people. I respectfully ask you to please consider me for this available opening with the Melrose Disability Commission. I truly believe that I would be a valuable asset to this committee which would also allow me to help make Melrose a better community. Thank you again for letting me know. Please feel free to call me with any questions. I look forward to hearing from you.

Sincerely,

Judy Bushee

Melrose, MA 02176

RE: Appointment to the Melrose Commission on Women

Dear Mayor Paul Brodeur-

I am pleased to submit this cover letter for the appointment to the Melrose Commission on Women ("MCW"). My family has resided in the City of Melrose for the past 15 years. We have found that Melrose is a City that aims at providing opportunity for people from various walks of life. In fact, when we mention that we live in Melrose, people take notice, and have great things to say about our City.

I am interested in being appointed to the MCW because I believe that women have unique issues that need to be addressed. Moreover, women and girls need to feel confident in themselves and their abilities and be assured that their voices are heard. I have worked mentoring young women and women of various ages and believe that I will bring my experience and a listening ear to women so that they know that they are valuable members of our community.

I pride myself in my ability to work effectively with others as a team player and to speak positivity into the lives of others. Kindly accept this correspondence as a Letter of Interest in being appointed as a Commissioner on the MCW. You will see that I will make a valuable addition to the MCW. I look forward to an opportunity to serve on this Commission.

Sincerely,

Alicia A. McNeil

Mayor Paul Brodeur

Melrose City Hall

562 Main St, Melrose MA

November 4, 2021

Dear Mayor Brodeur,

I'm writing to express my keen interest in joining the Melrose Planning Board. When my wife and I were searching for a place to put down roots we instantly fell in love Melrose for a multitude of reasons- the tight-knit yet open and welcoming community, the palpable sense of civic pride, its walkability and intact, vibrant downtown, its robust connections to public transit, its rich historic fabric, and its proximity to amazing natural resources. As the greater Boston region faces intense pressure to meet an ever-increasing demand for housing, it's imperative that Melrose thoughtfully, purposefully, and proactively plan for smart, sustainable growth that invigorates our downtown businesses, expands access to a range of transit-oriented housing, and protects our cherished open spaces.

I believe that my professional training and personal experiences would allow me to meaningfully help the City chart a future that grows the community by building upon and reinforcing the amazing assets and attributes that attracted my family to Melrose. I am trained as an architect and urban planner, and over the course of my career have had the opportunity to work on projects ranging from historic single-family renovations to large-scale planning efforts for city neighborhoods. I have conducted design reviews of development proposals on behalf of municipalities as well as aided towns and cities in understanding the redevelopment potential of underutilized properties. I have interpreted, written, and updated municipal zoning code and crafted corresponding illustrated design guidelines to create easily understandable and predictable development standards. And I had the opportunity to serve on the board of an affordable housing Community Development Corporation for seven years while living in East Boston. I would be honored to be able to contribute what I have learned from these experiences to my community.

For all these reasons and more I would greatly appreciate your support for my joining the Melrose Planning Board. I welcome any and all questions from yourself, the Office of Planning and Community Development, the City Council, Planning Board Members, and fellow Melrosians, and am hopeful that I can soon begin to contribute my passion and talents to this wonderful community I call home.

Sincerely,

Brian Gregory, AIA

CITY OF MELROSE

ASSESSOR
City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-4103

SARAH MACLELLAN

To: Mayor Paul Brodeur
From: Sarah MacLellan
Meeting Date: December 6, 2021
Subject: Classification of Property
Order #: ORDER-2022-49

In compliance with the provisions of Chapter 40, Section 56 of M.G.L. relating to the classification of property, the Board of Assessors requests that a date be set for a classification hearing and final vote on Monday, December 6th, 2021 at 8:00PM.

The Board of Assessors will provide the City Council with information necessary to make a decision on adopting a residential factor and thereby determining the percentages of local tax levy to be borne by each class of real and personal property for the Fiscal Year 2022.

FINANCIAL IMPACT:N/A

RESULT:	**ADOPTED [UNANIMOUS]**
MOVER:	Jeff McNaught, Ward 2
SECONDER:	Robb Stewart, Ward 3
AYES:	Cinella, Eccles, Jamaleddine, Migliorelli, Tramontozzi, McNaught, Stewart, Garipay, MacMaster, Grigoraitis, Thomas

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

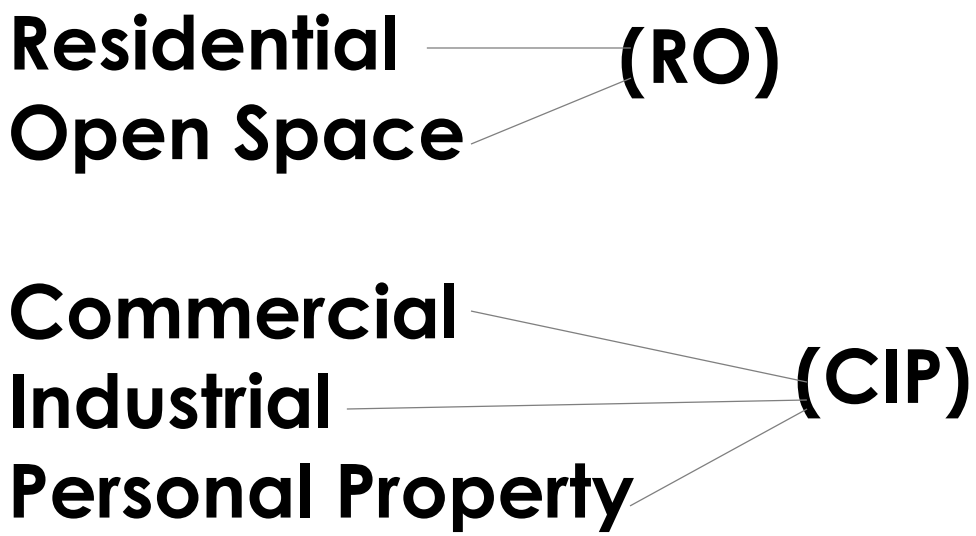
CITY OF MELROSE
FISCAL YEAR 2022
CLASSIFICATION OF PROPERTY

TAX CLASSIFICATION HEARING - DECEMBER 6, 2021

PRESENTED BY

THE MELROSE BOARD OF ASSESSORS:

CATHY GULINO



LEE PHALEN

SARAH MACLELLAN

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

TAX CLASSIFICATION HEARING - PURPOSE

To adopt the City's Tax Policy by allocating the tax levy among the 5 property types:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

ACTION REQUIRED BY THE CITY COUNCIL

- **VOTE**: Selection of a **Residential Factor**
- **VOTE**: Whether to adopt a **Small Commercial Exemption**
- **VOTE**: Whether to grant an **Open Space Discount**
- **VOTE**: Whether to adopt a **Residential Exemption**

The City Council, with the Mayor's approval, must determine the percentage of the tax levy to be paid by each class of real and personal property for the Fiscal Year 2022.

To do so, a Residential Factor is chosen. The Residential Factor governs the percentage of the tax levy to be paid by **Residential** and **Open Space** (**R/O**) properties. The difference is shifted to the **Commercial, Industrial** and **Personal Property** (**CIP**) classes.

The adopted factor cannot be less than the **Minimum Residential Factor** (**MRF**), which is determined by the Dept. of Revenue for each community. The **MRF** represents the maximum shift allowed in the tax levy for the year and establishes the parameters for local decision making.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SINGLE VERSUS SPLIT TAX RATE

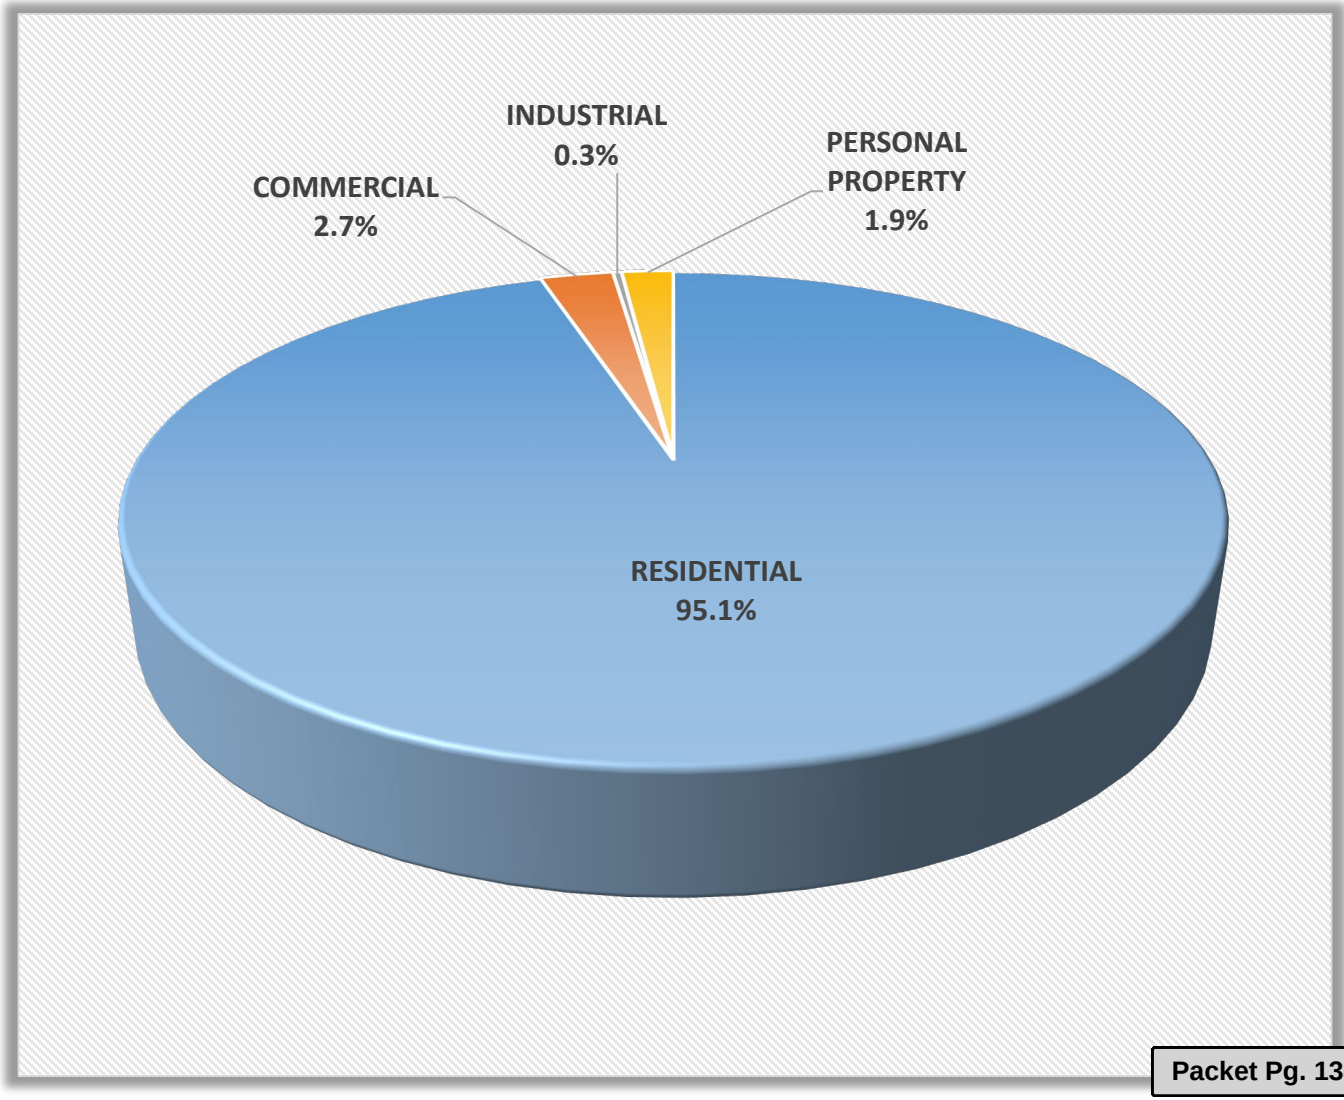
NOTE: THE TOTAL AMOUNT THAT CAN BE RAISED IN TAXES STAYS THE SAME, WHETHER THERE IS A SINGLE OR SPLIT TAX RATE. A SPLIT TAX RATE DOES NOT RAISE MORE REVENUE, IT SIMPLY SHIFTS THE TAX BURDEN AMONG THE TAXPAYERS.

- Adopting a Residential Factor of "1", results in taxation of all property at the same rate.

  For FY22, adopting a Factor of 1 would yield a single tax rate of

  $10.94 per $1,000 of property value.

- Adopting a factor less than "1", to as low as the **Minimum Residential Factor** (**MRF**) , results in an increasingly greater tax burden shift from the **Residential** and **Open Space** (**R/O**) classes to the **Commercial, Industrial** and **Personal Property** (**CIP**) classes.



- The MRF for the City of Melrose for FY 2022 is .961408, (or CIP Shift of 1.75), as determined by the MA Dept. of Revenue.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SMALL COMMERCIAL EXEMPTION

- Council could adopt an exemption that reduces the taxable valuation by up to 10% of eligible Commercial parcels only.
- Eligible businesses must have an average annual employment of **not more than 10 people** during the previous calendar year.
- Assessed value of the parcel occupied by eligible business must be **$1 million or less**.
- In order for a commercial parcel to qualify, every business occupying the parcel must also qualify for the exemption.
- This exemption shifts the tax burden within the CIP Classes from small commercial properties to larger commercial and industrial parcels.
- Increases the Commercial/Industrial/Personal Property Tax Rate.
- The exemption goes to the building owner, not the business owner, so depending on lease agreements, a small business owner may or may not benefit.
- Melrose has not historically adopted this exemption.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

OPEN SPACE DISCOUNT

- There are no parcels in Melrose currently classified as Open Space.

- Open Space is defined in Massachusetts General Law as:

"Land which is not otherwise classified and which in not taxable under the provisions of 61, 61A or 61B, or taxable under a permanent conservation restriction, and land not held for the production of income but is maintained in an open or natural condition, which contributes significantly to the benefit and enjoyment of the public".

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

RESIDENTIAL EXEMPTION

- If adopted, exempts of a portion of assessed value for residents who demonstrate that they occupy their home as their primary domicile.
- Allows exemption of assessed value of up to 35% of the average value of all residential properties in Melrose. This a fixed dollar amount, rather than 35% of value of each qualifying property.
- The amount of the of the tax levy paid by the Residential Class remains the same, however because the Residential portion of the levy is distributed over less assessed value, this results in a higher tax rate for the entire Residential Class.
- The Residential Class includes single family homes, condominiums, two and three family homes, apartment complexes, vacant lots and the residential portion of mixed-use properties.
- Effectively shifts the Residential tax burden to the top one-third (in value) of owner-occupied parcels and to non-owner occupied rental units throughout the City.
- Fewer than 20 communities in MA have adopted this exemption. Some of them are: Barnstable, Boston, Brookline, Cambridge, Chelsea, Nantucket, Tisbury, Truro, and Wellfleet.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CLASSIFICATION HEARING TERMS

CIP - Commercial, Industrial, and Personal Property Classes

Levy - the revenue a community can raise through real and personal property taxes.

Levy Limit - The maximum amount a community can levy in a given year; equal to last year's levy plus 2.5% plus new growth plus debt exclusion / override if applicable.

Levy Ceiling - Equal to 2.5% of the total full and fair cash value of all taxable real and personal property in the community.

New Growth - Increase in the tax base due to new construction, parcel subdivisions, condo conversions and property renovations, but not due to revaluation. It is calculated by dividing the resulting increased assessed value by $1,000 and multiplying by the prior year's tax rate for the property class.

Override - A permanent increase to a community's levy limit.

Override Capacity - The difference between the levy ceiling and the levy limit. It is the maximum amount by which a community may override its levy limit.

Debt Exclusion - A temporary increase to the levy limit for the payment of a specific debt service item over a specified period of time.

Capital Outlay Expenditure - A temporary exclusion for the purpose of raising funds for capital projects.

Excess Levy Capacity - The difference between the actual levy and the levy limit.

Subject: Nominate a City Council President - FY2022
Order #: ORDER-2022-50

CAUCUS FOR NOMINATION OF PRESIDENT

Rule 48 - Rules of Order, Melrose City Council

The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year, and the formal election of the President shall take place *at the first meeting in January next following*. Notice of the holding of the caucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such caucus shall be held in the Council Chamber; shall be called to order by the City Clerk, and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Nominations, as aforesaid, shall be made by a viva voce vote, each member present answering to his/her name when called by the City Clerk or other proper officer, stating the name of the person for whom he votes, or that he declines to vote.

The vote of the majority of all the members of the Council shall be necessary to so nominate a President.

Notice of the caucus shall be posted and the caucus shall be held in public session.

2. **RES-2021-7:** A Resolution Honoring City Councilor John Tramontozzi, Ward One

Sponsored by: Ward 5 Shawn M. MacMaster

Councilor MacMaster reads the resolution. Offers thanks for the friendship, mentorship and example over the years. John has always been a professional, true gentleman and class act. Mayor Brodeur takes a moment to recognize the service of the three outgoing Councilors. No matter how much time you have served, until you do it, no one can quite understand what it takes; huge commitment. The Mayor notes what a great colleague Councilor Tramontozzi has been over the years. Thanks him for all the efforts on behalf of Ward 1.

Councilor Garipay thanks the outgoing members noting Councilors' Thomas and McNaught were unfamiliar to him previously and it was great building a relationship with them. Most people can't understanding the time commitment and advocacy needs placed on a Councilor but all the efforts are for the betterment of Melrose. Notes the Melrose Towers, Warren St Park, and Highland District redevelopment projects influenced by Councilor Tramontozzi. Hopes he will have helped as many people at the end of his tenure as Councilor Tramontozzi has.

President Cinella says the Council and City thank him.

, ,
Councilor Tramontozzi says it's been an honor, pleasure and privilege working with all the elected member iterations and to serve this community. Thanks his wife and daughters for putting up with all the time spent away attending meetings and working with residents over the years.

RESULT:	**ASSIGNED TO COMMITTEE**

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH TERMS AND CONDITIONS

This Commonwealth Terms and Conditions form is jointly issued by the Executive Office for Administration and Finance (ANF), the Office of the Comptroller (CTR) and the Operational Services Division (OSD) for use by all Commonwealth of Massachusetts ("State") Departments and Contractors. ***Any changes or electronic alterations by either the Department or the Contractor to the official version of this form, as jointly published by ANF, CTR and OSD, shall be void.*** Upon execution of the Standard Contract Form these Commonwealth Terms and Conditions will be incorporated by reference. Performance shall include services rendered, obligations due, costs incurred, commodities and deliverables provided and accepted by the Department, programs provided or other commitments authorized under a Contract. A deliverable shall include any tangible product to be delivered as an element of performance under a Contract. The Commonwealth is entitled to ownership and possession of all deliverables purchased or developed with State funds. Contract shall mean the Standard Contract Form issued jointly by ANF, CTR and OSD.

1. *Contract Effective Start Date.* Notwithstanding verbal or other representations by the parties, the effective start date of performance under a Contract shall be the later of the date the Contract was executed by an authorized signatory of the Contractor, the date the Contract was executed by an authorized signatory of the Department, the date specified in the Contract, or the date of any approvals required by law or regulation.

2. *Payments And Compensation.* The Contractor shall only be compensated for performance delivered and accepted by the Department in accordance with the specific terms and conditions of a Contract. All Contract payments are subject to appropriation pursuant to M.G.L. c. 29, § 26, or the availability of sufficient non-appropriated funds for the purposes of a Contract, and shall be subject to intercept pursuant to M.G.L. c. 7A, § 3 and 815 CMR 9.00. Overpayments shall be reimbursed by the Contractor or may be offset by the Department from future payments in accordance with state finance law. Acceptance by the Contractor of any payment or partial payment, without any written objection by the Contractor, shall in each instance operate as a release and discharge of the State from all claims, liabilities or other obligations relating to the performance of a Contract.

3. *Contractor Payment Mechanism.* All Contractors will be paid using the Comptroller's payment system unless a different payment mechanism is required. The Contractor shall timely submit invoices and supporting documentation as prescribed in a Contract. The Department shall review and return rejected invoices within fifteen (15) days of receipt with a written explanation for rejection. Payments shall be made in accordance with the bill paying policy issued by the Office of the Comptroller and 815 CMR 4.00, provided that payment periods listed in a Contract of less than forty-five (45) days from the date of receipt of an invoice shall be effective only to enable a Department to take advantage of early payment incentives and shall not subject any payment made within the forty-five (45) day period to a penalty. The Contractor Payroll System shall be used only for Individual Contractors who have been determined to be Contract Employees as a result of the Department's completion of an Internal Revenue Service SS-8 form in accordance with the Omnibus Budget Reconciliation Act (OBRA) 1990, and shall automatically process all state and federal mandated payroll, tax and retirement deductions.

4. *Contract Termination Or Suspension.* A Contract shall terminate on the date specified in a Contract, unless this date is properly amended in accordance with all applicable laws and regulations prior to this date, or unless terminated or suspended under this Section upon prior written notice to the Contractor. The Department may terminate a Contract without cause and without penalty, or may terminate or suspend a Contract if the Contractor breaches any material term or condition or fails to perform or fulfill any material obligation required by a Contract, or in the event of an elimination of an appropriation or availability of sufficient funds for the purposes of a Contract, or in the event of an unforeseen public emergency mandating immediate Department action. Upon immediate notification to the other party, neither the Department nor the Contractor shall be deemed to be in breach for failure or delay in performance due to Acts of God or other causes factually beyond their control and without their fault or negligence. Subcontractor failure to perform or price increases due to market fluctuations or product availability will not be deemed factually beyond the Contractor's control.

5. *Written Notice.* Any notice shall be deemed delivered and received when submitted in writing in person or when delivered by any other appropriate method evidencing actual receipt by the Department or the Contractor. Any written notice of termination or suspension delivered to the Contractor shall state the effective date and period of the notice, the reasons for the termination or suspension, if applicable, any alleged breach or failure to perform, a reasonable period to cure any alleged breach or failure to perform, if applicable, and any instructions or restrictions concerning allowable activities, costs or expenditures by the Contractor during the notice period.

6. *Confidentiality.* The Contractor shall comply with M.G.L. c. 66A if the Contractor becomes a "holder" of "personal data". The Contractor shall also protect the physical security and restrict any access to personal or other Department data in the Contractor's possession, or used by the Contractor in the performance of a Contract, which shall include, but is not limited to, the Department's public records, documents, files, software, equipment or systems.

7. *Record-keeping And Retention, Inspection Of Records.* The Contractor shall maintain records, books, files and other data as specified in a Contract and in such detail as shall properly substantiate claims for payment under a Contract, for a minimum retention period of six (6) years beginning on the first day after the final payment under a Contract, or such longer period as is necessary for the resolution of any litigation, claim, negotiation, audit or other inquiry involving a Contract. The Department shall have access, as well as any parties identified under Executive Order 195, during the Contractor's regular business hours and upon reasonable prior notice, to such records, including on-site reviews and reproduction of such records at a reasonable expense.

8. *Assignment.* The Contractor may not assign or delegate, in whole or in part, or otherwise transfer any liability, responsibility, obligation, duty or interest under a Contract, with the exception that the Contractor shall be authorized to assign present and prospective claims for money due to the Contractor pursuant to a Contract in accordance with M.G.L. c. 106, § 9-318. The Contractor must provide sufficient notice of assignment and supporting documentation to enable the Department to verify and implement the assignment. Payments to third party assignees will be processed as if such payments were being made directly to the Contractor and these payments will be subject to intercept, offset, counter claims or any other Department rights which are available to the Department or the State against the Contractor.

9. *Subcontracting By Contractor.* Any subcontract entered into by the Contractor for the purposes of fulfilling the obligations under a Contract must be in writing, authorized in advance by the Department and shall be consistent with and subject to the provisions of these Commonwealth Terms and Conditions and a Contract. Subcontracts will not relieve or discharge the Contractor from any duty, obligation, responsibility or liability arising under a Contract. The Department is entitled to copies of all subcontracts and shall not be bound by any provisions contained in a subcontract to which it is not a party.

10. *Affirmative Action, Non-Discrimination In Hiring And Employment.* The Contractor shall comply with all federal and state laws, rules and regulations promoting fair employment practices or prohibiting employment discrimination and unfair labor practices and shall not discriminate in the hiring of any applicant for employment nor shall any qualified employee be demoted, discharged or otherwise subject to discrimination in the tenure, position, promotional opportunities, wages, benefits or terms and conditions of their employment because of race, color, national origin, ancestry, age, sex, religion, disability,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH TERMS AND CONDITIONS

handicap, sexual orientation or for exercising any rights afforded by law. The Contractor commits to purchasing supplies and services from certified minority or women-owned businesses, small businesses or businesses owned by socially or economically disadvantaged persons or persons with disabilities.

11. *Indemnification.* Unless otherwise exempted by law, the Contractor shall indemnify and hold harmless the State, including the Department, its agents, officers and employees against any and all claims, liabilities and costs for any personal injury or property damages, patent or copyright infringement or other damages that the State may sustain which arise out of or in connection with the Contractor's performance of a Contract, including but not limited to the negligence, reckless or intentional conduct of the Contractor, its agents, officers, employees or subcontractors. The Contractor shall at no time be considered an agent or representative of the Department or the State. After prompt notification of a claim by the State, the Contractor shall have an opportunity to participate in the defense of such claim and any negotiated settlement agreement or judgment. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph. Any indemnification of the Contractor shall be subject to appropriation and applicable law.

12. *Waivers.* Forbearance or indulgence in any form or manner by a party shall not be construed as a waiver, nor in any way limit the legal or equitable remedies available to that party. No waiver by either party of any default or breach shall constitute a waiver of any subsequent default or breach.

13. *Risk Of Loss.* The Contractor shall bear the risk of loss for any Contractor materials used for a Contract and for all deliverables, Department personal or other data which is in the possession of the Contractor or used by the Contractor in the performance of a Contract, until possession, ownership and full legal title to the deliverables are transferred to and accepted by the Department.

14. *Forum, Choice of Law And Mediation.* Any actions arising out of a Contract shall be governed by the laws of Massachusetts, and shall be brought and maintained in a state or federal court in Massachusetts which shall have exclusive jurisdiction thereof. The Department, with the approval of the Attorney General's Office, and the Contractor may agree to voluntary mediation through the Massachusetts Office of Dispute Resolution (MODR) of any Contract dispute and will share the costs of such mediation. No legal or equitable rights of the parties shall be limited by this Section.

15. *Contract Boilerplate Interpretation, Severability, Conflicts With Law, Integration.* Any amendment or attachment to any Contract which contains conflicting language or has the effect of a deleting, replacing or modifying any printed language of these Commonwealth Terms and Conditions, as officially published by ANF, CTR and OSD, shall be interpreted as superseded by the official printed language. If any provision of a Contract is found to be superseded by state or federal law or regulation, in whole or in part, then both parties shall be relieved of all obligations under that provision only to the extent necessary to comply with the superseding law; provided however, that the remaining provisions of the Contract, or portions thereof, shall be enforced to the fullest extent permitted by law. All amendments must be executed by the parties in accordance with Section 1 of these Commonwealth Terms and Conditions and filed with the original record copy of a Contract as prescribed by CTR. The printed language of the Standard Contract Form, as officially published by ANF, CTR and OSD, which incorporates by reference these Commonwealth Terms and Conditions, shall supersede any conflicting verbal or written agreements relating to the performance of a Contract, or attached thereto, including contract forms, purchase orders or invoices of the Contractor. The order of priority of documents to interpret a Contract shall be as follows: the printed language of the Commonwealth Terms and Conditions, the Standard Contract Form, the Department's Request for Response (RFR) solicitation document and the Contractor's Response to the RFR solicitation, excluding any language stricken by a Department as unacceptable and including any negotiated terms and conditions allowable pursuant to law or regulation.

IN WITNESS WHEREOF, the Contractor certifies under the pains and penalties of perjury that it shall comply with these Commonwealth Terms and Conditions for any applicable Contract executed with the Commonwealth as certified by their authorized signatory signing the Standard Contract Form.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

December 6, 2021

City of Melrose
562 Main Street
Melrose, MA 02176

Dear Martha Grover,

The Massachusetts Department of Environmental Protection (MassDEP) is pleased to announce that City of Melrose has been awarded a grant of $12,093.60 to acquire one electric vehicle charging station(s) under the Massachusetts Electric Vehicle Incentive Program (MassEVIP) Workplace & Fleet (WPF) Charging Program at the following location(s):

- An amount not to exceed $12,093.60 for two ports at 56 W. Foster Street, Melrose, MA.

Contract documents are attached. You will need to sign and return the two that require signatures within **30** business days of receipt. The Grantee is authorized to proceed with the acquisition of the EV charging station(s) with the receipt of this approval letter. The contract documents include:

- *Commonwealth of Massachusetts - Standard Contract Form*, **to be signed** by an authorized signatory;
- *Commonwealth Terms and Conditions*, no signature required;
- *Contractor Authorized Signatory Listing*, **to be signed** by one of the parties specified on the listing;
- *End User Agreement*, no signature required.

Please email scanned copies of documents requiring signatures to MassEVIP.MassDEP@mass.gov and mail originals (wet signature, no copies) to the following address:

MassDEP
Attn: MassEVIP
One Winter Street, 6th Floor
Boston, MA 02108

This information is available in alternate format. Contact Michelle Waters-Ekanem, Director of Diversity/Civil Rights at 617-292-5751.
TTY# MassRelay Service 1-800-439-2370
MassDEP Website: www.mass.gov/dep
Printed on Recycled Paper

MassDEP will execute the *Commonwealth of Massachusetts - Standard Contract Form* and email you a scanned copy for your records

You have up to 6 months from the contract documents' execution date to make the EV charging station operational. You have up to 90 days from the date the EV charging station is operational to request payment by completing and submitting the *End-User Agreement* Attachment A *Payment Request Form* and required attachments. MassDEP will not authorize the payment until receiving a complete *Payment Request Form* and required attachments. Required attachments include:

- Final invoice for EV charging station with line items for individual EV charging station costs.
- Final invoice for EV charging station installation costs.
- Photographs of installed EV charging station. Pictures should clearly show parking spaces, ADA accessible EV parking space and EV designated signage.

The MassEVIP WPF grant can be paid to either the grantee or the equipment vendor, as specified by the grantee. Where possible, MassDEP would prefer to pay the grant to the equipment vendor.

On behalf of Commissioner Suuberg, I want to congratulate City of Melrose for taking this important step towards making Massachusetts a leader in deploying electric vehicle charging equipment and helping the Commonwealth achieve its ambitious climate goals.

If you have any questions or comments regarding MassEVIP or the awarded grant, please contact us at MassEVIP.MassDEP@mass.gov.

Sincerely,

Christine Kirby
Assistant Commissioner
Bureau of Air and Waste

COMMONWEALTH OF MASSACHUSETTS ~ STANDARD CONTRACT FORM

This form is jointly issued and published by the Office of the Comptroller (CTR), the Executive Office for Administration and Finance (ANF), and the Operational Services Division (OSD) as the default contract for all Commonwealth Departments when another form is not prescribed by regulation or policy. The Commonwealth deems void any changes made on or by attachment (in the form of addendum, engagement letters, contract forms or invoice terms) to the terms in this published form or to the **Standard Contract Form Instructions and Contractor Certifications,** the **Commonwealth Terms and Conditions for Human and Social Services** or the **Commonwealth IT Terms and Conditions** which are incorporated by reference herein. Additional non-conflicting terms may be added by Attachment. Contractors are required to access published forms at CTR Forms: https://www.macomptroller.org/forms. Forms are also posted at OSD Forms: https://www.mass.gov/lists/osd-forms.

Vendor Code Address ID (e.g. "AD001"): AD__. **(Note: The Address ID must be set up for EFT payments.)**		**MMARS Doc ID(s):** **RFR/Procurement or Other ID Number: BD-19-1045-BAW00-BAW01-34706**	

_X_ NEW CONTRACT

PROCUREMENT OR EXCEPTION TYPE: (Check one option only)

__ **Statewide Contract** (OSD or an OSD-designated Department)
__ **Collective Purchase** (Attach OSD approval, scope, budget)
_X_ **Department Procurement** (includes all Grants - 815 CMR 2.00) (Solicitation Notice or RFR, and Response or other procurement supporting documentation)
__ **Emergency Contract** (Attach justification for emergency, scope, budget)
__ **Contract Employee** (Attach Employment Status Form, scope, budget)
__ **Other Procurement Exception** (Attach authorizing language, legislation with specific exemption or earmark, and exception justification, scope and budget)

___ CONTRACT AMENDMENT

Enter **Current Contract End Date *Prior*** to Amendment: _____, **20**___.
Enter **Amendment Amount**: $ _____. (or "no change")

AMENDMENT TYPE: (Check one option only. Attach details of amendment changes.)

__ **Amendment to Date, Scope or Budget** (Attach updated scope and budget)
__ **Interim Contract** (Attach justification for Interim Contract and updated scope/budget)
__ **Contract Employee** (Attach any updates to scope or budget)
__ **Other Procurement Exception** (Attach authorizing language/justification and updated scope and budget)

The Standard Contract Form Instructions and Contractor Certifications and the following Commonwealth Terms and Conditions document are incorporated by reference into this Contract and are legally binding: (Check ONE option): __ Commonwealth Terms and Conditions __ Commonwealth Terms and Conditions For Human and Social Services __ Commonwealth IT Terms and Conditions

COMPENSATION: (Check ONE option): The Department certifies that payments for authorized performance accepted in accordance with the terms of this Contract will be supported in the state accounting system by sufficient appropriations or other non-appropriated funds, subject to intercept for Commonwealth owed debts under 815 CMR 9.00.
__ **Rate Contract.** (No Maximum Obligation) Attach details of all rates, units, calculations, conditions or terms and any changes if rates or terms are being amended.)
_X_ **Maximum Obligation Contract.** Enter total maximum obligation for total duration of this contract (or ***new*** total if Contract is being amended). $ 12,093.60 .

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting **accelerated** payments must identify a PPD as follows: Payment issued within 10 days __% PPD; Payment issued within 15 days __% PPD; Payment issued within 20 days __% PPD; Payment issued within 30 days __% PPD. If PPD percentages are left blank, identify reason: _X_ agree to standard 45 day cycle __ statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); __ only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT: (Enter the Contract title, purpose, fiscal year(s) and a detailed description of the scope of performance or what is being amended for a Contract Amendment. Attach all supporting documentation and justifications.)

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

__ 1. may be incurred as of the Effective Date (latest signature date below) and **no** obligations have been incurred **prior** to the Effective Date.
__ 2. may be incurred as of _____, **20**___, a date **LATER** than the Effective Date below and **no** obligations have been incurred **prior** to the Effective Date.
__ 3. were incurred as of _____, **20**___, a date **PRIOR** to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of **December 6, 2024**, with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, the applicable Commonwealth Terms and Conditions, this Standard Contract Form, the Standard Contract Form Instructions and Contractor Certifications, the Request for Response (RFR) or other solicitation, the Contractor's Response (excluding any language stricken by a Department as unacceptable, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH OF MASSACHUSETTS
AGREEMENT BETWEEN MASSACHUSETTS
DEPARTMENT OF ENVIRONMENTAL PROTECTION
AND CITY OF MELROSE

The *Volkswagen Diesel Emissions Environmental Mitigation Trust for State Beneficiaries, Puerto Rico and the District of Columbia* (VW Trust) was established to settle enforcement actions against Volkswagen (VW) and its subsidiaries[1] after it was discovered that VW illegally installed defeat devices in millions of Volkswagen, Audi, and Porsche diesel vehicles worldwide,[2] causing these vehicles to emit higher-than-allowed amounts of nitrogen oxides (NO_x). The Commonwealth of Massachusetts has been allocated approximately $75 million of these Trust funds and the Massachusetts Department of Environmental Protection (MassDEP) is designated as the Massachusetts lead agency to administer the VW Funds.

This Agreement is entered into by the Commonwealth of Massachusetts, acting through MassDEP, and City of Melrose (Grantee) for the purpose of implementing an Eligible Mitigation Action under the VW Trust to offset excess NO_x emissions resulting from the VW violations and to electrify the Massachusetts transportation network. In accordance with the Massachusetts VW Beneficiary Mitigation Plan, MassDEP is charged with the implementation of and oversight for the Massachusetts Electric Vehicle Incentive Program (MassEVIP) Workplace and Fleet Charging. Through MassEVIP Workplace and Fleet Charging, $12,093.60 of the VW Funds shall be allocated to Grantee for the procurement and deployment of one Level 2 MassEVIP-funded electric vehicle (EV) charging station(s) ("EV charging station(s)"). The funding consists of:

- An amount not to exceed $12,093.60 for two ports at 56 W. Foster Street, Melrose, MA.

By accepting the grant funding, Grantee expressly agrees, through the execution of the *Commonwealth of Massachusetts - Standard Contract Form* and *Commonwealth Terms and Conditions*, to be bound by this Agreement, which is an Attachment to the *Commonwealth of Massachusetts - Standard Contract Form* and *Commonwealth Terms and Conditions* and incorporated therein by reference. Grantee agrees that, from time to time as deemed necessary by MassDEP, to effectuate the goals and purposes of the VW Trust, MassDEP and Grantee shall amend this Agreement.

[1] Volkswagen AG, Audi AG, Porsche Cars of North America, Inc., Volkswagen Group of America, Inc., Volkswagen Group of America Chattanooga Operations, LLC Dr. Ing. h.c. F. Porsche AG, and Porsche Cars North America, Inc.
[2] VW installed the devices in over 11 million vehicles worldwide, including 590,000 in the U.S. and over 14,000 in Massachusetts.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Terms and Conditions

1. Agreement Duration/Timeline
   a) Grantee has up to 6 months after the effective date of this Agreement to make the EV charging station(s) operational.
   b) Grantee shall request MassDEP's approval of any extension of the 6 month timeframe by notifying MassDEP in writing at least 7 days prior to the end of the 6 month timeframe if the EV charging station(s) will not be operational within 6 months following the effective date of this Agreement. Grantee shall include documentation in any such request to show the reason for the delay, the efforts made by Grantee to avoid the delay, and a timeline by which the EV charging station(s) will be in service. Grantee's request for an extension will not be deemed granted unless approved in writing by MassDEP.
   c) Grantee shall operate the EV charging station(s) for a minimum of 3 full consecutive years following the date the EV charging station(s) are operational.

2. Hardware and Location Requirements
   a) Grantee shall install EV charging station(s) that:
      i. are hard-wired Level 1 or Level 2 EV charging station(s);
      ii. are UL listed (certified to Underwriters Laboratories, Inc. standards);
      iii. are able to charge EVs produced by multiple manufacturers;
      iv. enable payment option for all EV drivers without restrictions based on network membership or subscription (e.g., allow credit card payment without login), if the EV charging station(s) are equipped to accept payment; and
      v. are new installations, and not ordered until after an approval letter is received from MassDEP.
   b) Grantee shall limit use of the EV charging station(s) to grantee-owned EV use only.
   c) Grantee shall have at least one grantee-owned electric vehicle that can use the EV charging station(s).
   d) Grantee shall have evidence of ownership of the location identified in application or evidence that installation is allowed on the property (i.e., written permission of owner and/or pertinent language in lease, license agreement, or easement, etc.), and provide such evidence to MassDEP upon request.
   e) The location at which the EV charging station(s) are installed shall be a non-residential place of business.

3. EV Charging Station(s) and Installation Costs
   a) The grant amount listed on the first page of this Agreement will cover 60% of the cost of the EV charging station(s) and installation, including:
      i. a console wired into the electrical supply;
      ii. a cable and connector to plug into the EV;
      iii. cable management strategy (e.g., coil, retractable, etc.);
      iv. mounting, either pedestal or wall (Pedestal: hard-wired to a permanent pole or box. Wall: hard-wired to a wall and typically includes a mounting plate.);
      v. separate payment module;
      vi. upgrading electrical supply;
      vii. construction costs related to installation (including accessible EV parking space);

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

viii. signage and pavement painting; and
ix. shipping/freight for i-viii.

b) Grantee shall provide funds, either directly from Grantee or another source, to cover the remaining cost of the EV charging station(s), the remaining installation costs, and operating and maintenance costs for a minimum of 3 full consecutive years after EV charging station(s) is operational.
c) Costs not covered include:
   i. land/parking space purchase or lease;
   ii. shipping/freight for items not included in Paragraph 3.a) above;
   iii. software subscription;
   iv. warranty;
   v. taxes;
   vi. internet connection or cell signal;
   vii. planning or permitting for the project;
   viii. bollards, curbs, wheel stops, setbacks, bumper guards;
   ix. electricity consumption and demand charges;
   x. preventative and corrective maintenance on EV charging station(s); and
   xi. any other required costs not covered by Paragraph 3.a) above.
d) Funding from multiple MassDEP EVIP programs cannot be combined for a single EV charging station.
e) Funding from MassDEP EVIP programs cannot be combined with grants from the Massachusetts Green Communities Division for a single EV charging station and installation.
f) MassEVIP grant combined with funding from other sources shall not exceed 100% of the cost paid for the EV charging station(s) and installation.

4. EV Charging Station(s) Parking Requirements
   a) For each port installed, one parking space shall be designated for grantee-owned plug-in EV use only and marked clearly through visible signage, examples of which are provided in Attachment B. Grantee shall actively enforce this requirement. Grantee is encouraged to paint the pavement of the parking area to indicate the parking space is designated for plug-in EVs.
   b) The parking space(s) and EV charging station(s) shall be located such that the connector from each EV charging station can easily reach a plug-in EV parked in the associated parking space.
   c) The EV charging station(s)' location shall be designed to protect the EV charging station(s) from physical damage. Such protective measures may include curbs, wheel stops, setbacks, bumper guards, and bollards.
   d) The EV charging station(s) parking space(s) and area around the EV charging station(s) shall be maintained, including snow removal and general cleaning.

5. Payment Requests

Grantee shall complete and submit Attachment A *Payment Request Form* no later than 90 days after the date the EV charging station(s) are operational in order to request the release of funding for the EV charging station(s) and installation, as applicable. The grant payment will be based on the final invoice for the EV charging station(s) and installation, as applicable, submitted

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

by Grantee. The grant payment may be less than the total grant amount listed on page 1 of this Agreement and will not exceed the per street address grant amount listed on page 1 of this Agreement. MassDEP reserves the right to refuse payment if Grantee fails to submit timely documentation. Grantee may submit multiple payment requests if receiving a grant for multiple EV charging stations and the EV charging stations become operational at different times. Once MassDEP has received all required documentation from Grantee for a payment request, MassDEP will submit a request that the trustee of the grant funds disburse the funds to Grantee. It can take up to 45 days for the funds to be released by the trustee. Information required by Attachment A includes, without limitation:

a) the amount of funds that are the subject of the payment request for the EV charging station(s), and date(s) when EV charging station(s) were operational;
b) detailed final cost invoices for the EV charging station(s) and installation, as applicable, that are the subject of the Payment Request;
c) pictures of the installed and operational EV charging station(s); and
d) the party and address to whom the funds shall be directed.

Grantee agrees to provide MassDEP with any additional information requested by MassDEP as may be necessary to support a funding request under the VW Trust.

If Grantee is subject to state public contracting laws, Grantee shall include with any payment request the following certification, "I hereby certify under the pains and penalties of perjury that Grantee has complied with all laws, regulations and other requirements applicable to the procurement and acquisition of the EV charging station(s) that are the subject of this Payment Request."

6. MassEVIP Workplace and Fleet Charging Program Funding Payee

Wilmington Trust N.A. is the Trustee under the VW Trust and is the entity that will be issuing payments under this Agreement. Grantee agrees and acknowledges that:

a) Wilmington Trust N.A. ("WT") is acting on behalf of MassDEP solely to assist it in making payments;
b) Grantee waives any and all claims whatsoever, in law and/or in equity, against WT and Grantee will not initiate a suit against WT;
c) WT will not be liable for any actions that WT takes or abstains from taking arising out of or in connection with the performance of its duties on behalf of and as directed by MassDEP;
d) WT will not be liable for indirect, special, incidental, punitive or consequential losses or damages of any kind whatsoever in connection with making payments on behalf of MassDEP; and
e) WT is a third party beneficiary of this acknowledgement.

7. Promotion of EV Charging Station(s)

a) Grantee agrees to promote the EV charging station(s) to employees, visitors and general public (if applicable) via various marketing strategies throughout the minimum period of 3 full consecutive years specified in Paragraph 1. Availability of Workplace Charging shall be made known to employees through signage and email messaging in the first month of the 3-year period. Other marketing strategies may include but are not limited to:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Ride and Drive events, education for interested employees on the proper operation of the EV charging station(s), flyers, internal/external newsletters and webpages, etc. Grantee shall provide proof of such promotion to MassDEP upon request.

b) If EV charging station(s) are available for public use, register each on the United States Department of Energy's (DOE) Alternative Fuels Data Center Station Locator http://www.afdc.energy.gov/fuels/electricity_locations.html. Grantees are also encouraged to submit the location to other EV charging websites such as www.PlugShare.com.

c) Grantee is encouraged to conduct an EV "Ride and Drive" event at their location. A Ride and Drive event provides a hands-on driving experience for consumers who are unfamiliar with EVs and also showcases how EVs are easy to drive, function like traditional vehicles, and can reduce oil consumption, pollution, and fuel and maintenance expenses. Grantee is encouraged to utilize the following on-line resource when conducting a Ride and Drive event: https://driveelectricweek.org/resources.php.

8. Insurance Coverage for EV Charging Station(s)

Adequate property and casualty insurance coverage for each EV charging station shall be provided by Grantee through third party coverage or self-insurance. Grantee shall provide proof of such coverage to MassDEP upon request.

9. Training on the Operation and Maintenance of EV Charging Station(s)

Upon installation of the EV charging station(s), Grantee agrees to require all pertinent personnel to attend a training session on the operation and maintenance of the equipment.

10. MassDEP Verification of EV Charging Station(s)

Grantee agrees to allow MassDEP access to the EV charging station(s) during normal business hours so that MassDEP can verify the installation, maintenance, and use of the EV charging station(s).

11. Data Reporting and Recordkeeping Requirements

For a minimum of 3 full consecutive years after the EV charging station(s) are operational, Grantee shall collect data on the operation, maintenance and usage, e.g., hours of use, number of sessions, number of unique users, kilowatt hours charged, downtime, and maintenance costs, if available. Upon request by MassDEP and within a reasonable time, Grantee shall prepare and submit such data or records to MassDEP, in a format specified by MassDEP.

12. EV Charging Station(s) and Electrical Infrastructure Maintenance Requirements

Grantee shall maintain the EV charging station(s) and land-based electrical infrastructure in order to provide proper electrical supply for the operation of the EV charging station(s) for the duration of the 3 full consecutive year in-service period. Grantee shall maintain such EV charging station(s) and infrastructure in accordance with the manufacturer's recommended procedures and specifications and agrees that it is responsible for any maintenance and repair work that is not covered under the scope of the manufacturer's warranty. If the electrical infrastructure fails such that proper electrical supply required for the operation of the EV charging station(s) is not provided, Grantee shall contact either the vendor that performed the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

installation of the EV charging station(s), if such vendor also performed work on the electrical infrastructure, or another vendor/electrician of Grantee's choice. Grantee shall ensure that all necessary repairs to EV charging station(s), electrical infrastructure and electrical supply are completed within 14 calendar days of Grantee having knowledge of failure. Grantee shall keep records of its maintenance efforts and will make those records available to MassDEP upon request.

13. Noncompliance

Grantee agrees that it is required to keep the EV charging station(s) in service for a minimum of 3 full consecutive years after the EV charging station(s) become operational. In the event Grantee fails to comply with this requirement, the Commonwealth of Massachusetts and MassDEP shall, without limitation, have the right to require Grantee to return all or a portion of the VW Funds, such portion to be calculated *pro rata* based on the remaining portion of the required 3 full consecutive year in-service period.

MassDEP reserves the right to recover any funding provided to Grantee and/or pursue any other legal actions deemed appropriate if MassDEP determines that Grantee did not provide complete and accurate information or fails to meet the requirements or intent of the program.

The provisions of this paragraph shall in no way be construed to limit or prohibit the Commonwealth of Massachusetts or MassDEP from pursuing any other legal or equitable right, remedy, action or claim available under applicable federal or state laws and regulations for the failure of Grantee to meet any of its obligations including, without limitation, requiring Grantee to return VW funds grants hereunder.

14. Notices, Submissions and Requests

Except as otherwise provided in this Agreement, all notices, submissions and requests by Grantee shall be sent to MassEVIP.MassDEP@mass.gov.

15. Effective Date

The "Effective Date" of this Agreement is the date MassDEP signs the *Commonwealth of Massachusetts - Standard Contract Form*. The sequence of signing will be Grantee followed by MassDEP.

16. Transfer

Grantee agrees that it may not transfer the EV charging station(s), except as follows. In the event of an unforeseen circumstance that requires Grantee to transfer ownership of one or more EV charging station(s), Grantee may request written pre-approval from MassDEP to transfer such ownership. The decision to approve such a request shall be in MassDEP's sole and exclusive discretion, and Grantee shall provide MassDEP with all requested information and comply with all conditions imposed by MassDEP in connection with such approval. The Commonwealth of Massachusetts and MassDEP reserve all of their rights, remedies, actions and claims available under state and federal laws and regulations in the event of any inaccurate, misleading or fraudulent information provided by Grantee in connection with a request hereunder.

MassEVIP Workplace & Fleet Charging Payment Request Form

Incentive Information

Total Number of EV Charging Stations:	Total Number of Ports:	Total Eligible EV Charging Station Costs:	Total Eligible Installation Costs (if applicable):
_____	_____	$_____	$_____

Only include costs eligible through the MassEVIP Workplace & Fleet Charging Program in the boxes above. See *MassEVIP Workplace & Fleet Charging (WPF) Program Requirements* for details on eligible costs.

Payment will be 60% of the eligible costs identified above and confirmed via the attached invoices or the amount awarded in the approval letter, whichever is less.

ATTACHMENTS

- ☐ Final invoice(s) for EV charging station(s) with line items for individual EV charging station costs.
- ☐ Final invoice(s) for EV charging station installation costs (even if not funded by MassEVIP).
- ☐ Photographs of installed EV charging station(s). Pictures should clearly show all parking spaces, including Accessible EV parking spaces and EV only signage. Accessible EV parking spaces should NOT be signed as handicapped only. (For additional guidance related to the accessibility requirements, please see the section titled "*Accessibility*" found within the *MassEVIP Workplace & Fleet Charging (WPF) Program Requirements*.)

Grantee agrees to provide MassDEP with any additional information requested as necessary to support a funding request under the VW Trust.

I hereby certify under the pains and penalties of perjury that: 1) I have personally examined and am familiar with the information submitted herein, including all attachments, and to the best of my knowledge, the information submitted to MassDEP in this Payment Request, is true, accurate, and complete; 2) Grantee has complied with all laws, regulations and other requirements applicable to the procurement, acquisition, and installation of the EV charging station(s) that are the subject of this Payment Request; and 3) I have authority to submit this Payment Request on behalf of Grantee. I am also aware that, in the event it is determined that any grant funding was awarded based on false information, Grantee will be required to return the grant money.

LESS ESTIMATED MASSEVIP GRANT AWARD: *Denotes eligible costs for MassEVIP WFP award (60% of $20,156)	-$12,093.60
ESTIMATED NET PROJECT COST:	**$10,692.40**

Scope of Work

All labor and material required to install EV chargers:

- Install 100-amp 1 phase service including meter socket, 2" RSC riser conduit & conductors for overhead service from National Grid Utility Pole # 374, allowance of linear of 40 feet includes mast.
- Install 100 amp "main circuit breaker" single phase Load-center with 2 – 40-amp 2 pole circuit breakers.
- Furnish & Install 1" conduit from Load-center to proposed EV wall mounted station using # 8 AWG -30 linear ft.
- Installation & activation of a Qty of 1 – E20DWP-CR Wall Mounted PowerCharge Station.
- Assemble, mount and connect charging stations.

Complimentary Voltrek services (no charge):

- Activate, program, and test stations.
- Assist with grant applications and payment request submissions.
- Client onboarding and software training

Voltrek Preventative Service and Maintenance

Voltrek is pleased to offer its customers a Preventative Service & Maintenance Program. This program offers the following services:

- Quarterly visits to clean, inspect and test units using J1772 tools
- Active monitoring of stations functionality via ChargePoint software interface
- Provide support services, on site, within twenty-four (24) hours. Diagnostic included, all other labor charges on an hourly basis, at Voltrek's then current rates with travel time at half-rate
- Cancellable at any time

Single station, annual cost (billed quarterly): $900 (billed $225 per quarter)
Add additional stations at the same location: $300 per additional station, per year
Not available in some areas. Price applies to locations within 100 miles of Boston MA.
Contact Voltrek to request price and availability outside of that area

Warranty

PowerCharge stations come with a 3 year standard parts only warranty. 5 Years extended parts & Labor warranty included in the quoted pricing. Optional 3 year Parts & Labor Warranty available for $1,300 flat.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VOLTREK
POWERING YOUR JOURNEY℠

Communication Requirements

PowerCharge stations rely on a cellular connection to communicate with the Amp up network and send data. **A Verizon, T-Mobile, or AT&T 4G/LTE signal** is required at the site for the stations to function.

Voltrek

Is a small business enterprise specializing in planning, installing, and servicing commercial charging station projects. We have been in business for 11 years and offer a full scope of turnkey services to meet your EV Charger needs. Voltrek has installed more than 2500 charging stations to date and is DBE & WBE certified. Voltrek is on the Commonwealth of Massachusetts OSD contract VEH102.

Terms

Hardware will be billed net 30 from date of equipment shipping and labor billed Net 30 from date of completion. Quote is subject to change at any time due to global supply-chain issues.

Please contact me with any questions and thank you for considering Voltrek.

Sincerely,
Mohammed Faiz

Part I ADMINISTRATION OF THE GOVERNMENT

Title XII EDUCATION

Chapter 71 PUBLIC SCHOOLS

Section 16 REGIONAL SCHOOL DISTRICTS; STATUS; POWERS AND DUTIES

Section 16. A regional school district established under the provisions of the preceding section shall be a body politic and corporate with all the powers and duties conferred by law upon school committees, and with the following additional powers and duties:

(a) To adopt a name and a corporate seal, and the engraved or printed facsimile of such seal on a bond or note of the district shall have the same validity and effect as though such seal were impressed thereon.

(b) To sue and be sued, but only to the same extent and upon the same conditions that a town may sue or be sued.

(c) To acquire property within the towns comprising the district under the provisions of chapter seventy-nine and section fourteen of chapter forty for the purposes of the district and to construct, reconstruct, add to, remodel, make extraordinary repairs to, equip, organize and operate a school or schools for the benefit of the towns comprising the district, and to make any necessary contracts in relation thereto; provided, however, that no property shall be acquired unless the town in which such property

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

is located approves such acquisition by a two-thirds vote at a town meeting which shall be called within sixty days after the district committee authorizes the incurring of debt for such purpose.

(d) To incur debt for the purpose of acquiring land and constructing, reconstructing, adding to and equipping a school building or for the purpose of remodeling and making extraordinary repairs to a school building and for the construction of sewerage systems and sewerage treatment and disposal facilities, or for the purchase or use of such systems with municipalities, and for the purpose of purchasing department equipment; or for the purpose of constructing, reconstructing or making improvements to outdoor playground, athletic or recreational facilities; or for the purpose of constructing, reconstructing or resurfacing roadways and parking lots; or for the purpose of any other public work or improvement of a permanent nature required by the district; or for the purpose of any planning, architectural or engineering costs relating to any of the above purposes; provided, however, that written notice of the amount of the debt and of the general purposes for which it was authorized shall be given to the board of selectmen in each of the towns comprising the district not later than 7 days after the date on which the debt was authorized by the district committee; provided further, that no debt may be incurred until the expiration of 60 days after the date on which the debt was authorized; and provided further, that before the expiration of this period any member town of the regional school district may hold a town meeting for the purpose of expressing disapproval of the amount of debt authorized by the district committee, and if at that meeting a majority of the voters present and voting express disapproval of the amount authorized by the district committee, the debt shall not be incurred and the district school committee shall prepare another proposal

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

which may be the same as any prior proposal and an authorization to incur debt therefor. Debt incurred under this section shall be payable within 30 years, but no such debt shall be issued for a period longer than the maximum useful life of the project being financed as determined in accordance with guidelines established by the director of accounts pursuant to section 38 of chapter 44.

In the case of a vocational regional school district, if the district agreement so provides or is amended to so provide, such debt may also be incurred if two thirds of the member towns do not vote disapproval within said sixty day period provided that said towns which have not voted disapproval agree, within ninety days of the date on which said debt was authorized, to pay the total bond indebtedness authorized by the district committee without contribution by the member towns which voted disapproval of the amount of said debt. The member towns of such vocational regional school district which have voted disapproval of the new indebtedness shall have the right to retain their membership in the school district as provided in their district agreement except that they shall not be allowed any added enrollment that might result solely from the expansion of facilities that occurs on account of said new indebtedness.

(e) To issue bonds and notes in the name and upon the full faith and credit of said district; said bonds or notes shall be signed by the chairman and treasurer of the district committee, except that said chairman by a writing bearing his written signature and filed in the office of said treasurer, which writing shall be open to public inspection, may authorize said treasurer to cause to be engraved or printed on said bonds or notes a

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

facsimile of said chairman's signature, and such facsimile so engraved or printed shall have the same validity and effect as said chairman's written signature, and each issue of bonds or notes shall be a separate loan.

(f) To receive and disburse funds for any district purpose.

(g) To incur temporary debt in anticipation of revenue to be received from any source. This clause shall also apply to all regional school districts established under the provisions of special laws.

(h) To assess member towns for any expenses of the district.

(i) To receive any grants or gifts for the purposes of the regional district school or schools.

(j) To engage legal counsel.

(k) To submit an annual report to each of the member towns, containing a detailed financial statement, and a statement showing the method by which the annual charges assessed against each town were computed, together with such additional information relating to the operation and maintenance of such school or schools as may be deemed necessary by the district school committee or by the selectmen of any member town.

(l) To employ a superintendent of schools who may also be a superintendent of one or more of the towns comprising said district and to establish an employment contract for a period of time to provide for the salary, fringe benefits, and other conditions of employment, including but not limited to, severance pay, relocation expenses, reimbursement for expenses incurred in the performance of duties of office, liability insurance, and leave for said superintendent, and said superintendent shall have all the powers and duties imposed upon school superintendents by law.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(m) To adopt an annual operating and maintenance budget for the next fiscal year not later than forty-five days prior to the earliest date on which the business session of the annual town meeting of any member town is to be held, but not later than March thirty-first, provided that said budget need not be adopted prior to February first; provided, further, that a superintendent may, with the approval of a majority of the member communities, submit said budget for approval following the notification of the annual local aid distribution, so-called.

(n) To incur debt for the purposes and terms specified in clause (d); provided that the vote of the district committee authorizing such debt is approved by a majority of the registered voters in the member towns voting on the question at an election called and held pursuant to the following provisions. The election shall be called by a warrant addressed to the registered voters in the member towns and signed by a majority of the members of the district committee which shall set forth the date of the election, the polling place or places in each town, the hours during which the polls are to be open and the question which is to appear upon the ballot. Notice of the election shall be given by posting a copy of the warrant attested by the secretary of the committee in at least one public place in each town and by publishing a copy thereof at least once in a newspaper of general circulation in the district, said posting and publishing to occur at least ten days before said election. A certificate of the secretary shall be conclusive evidence that the warrant was duly posted and published. The number and location of the polling place, or places, in each town shall be determined by the district committee after consultation with the selectmen thereof; and the hours during which all the polls in the district are open shall be uniform throughout the district and shall be not less than four nor more than eight consecutive hours. The

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

district committee shall be responsible for preparing the ballots used at the election. The town clerk of each town shall certify the results of the election to the district committee. Except as provided herein the election shall be conducted in each town in the same manner as town meetings for the election of town officers. The expenses of the election shall be paid by the regional school district as an operating expense of the district; and if provision for their payment is not included in the budget for the year in which they are incurred, the district committee may use any available funds of the district or may transfer the sums required from appropriations included in the budget. The defeat of a proposal for incurring debt shall not prevent the resubmission of the same proposal as a new authorization.

(o) To refinance any debt incurred under paragraphs (d), (e), or (n), in accordance with the provisions of section 21A of chapter 44.

(p) To lease, or lease with an option to purchase, equipment for educational purposes. Such leases may be made for periods not exceeding five years.

(q) To lease land and buildings for educational purposes. Such leases may be made for periods not exceeding five years.

(r) To rent or lease with the approval of the commissioner of education surplus space in a school building of the district to house public or private profit-making businesses or nonprofit organizations; provided, however, that if said school building is in actual use such joint occupancy shall not interfere with education programs being conducted therein; and provided, further, that if said school building is not in actual use, such lease must be approved by the city or town in which the said building is located. Such leases may be made for periods not exceeding ten years. The monies

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

received from such rental or lease shall be kept separate and apart from other funds in the district treasury by the district treasurer, and the principal and interest thereon may be expended without further appropriation by the regional school district committee for the upkeep of the facility in which such surplus space is located; provided, however, that any balance remaining in such account at the close of a fiscal year shall be paid into the excess and deficiency fund, so called, of the regional school district as unencumbered funds and expended as provided in section sixteen B1/2.

SCHEDULED

Meeting: 12/20/21 07:45 PM
Department: City Council
Category: Resolution
Prepared By: Kristin Foote
Initiator: Kristin Foote
Sponsors: Ward 5 Shawn M. MacMaster
DOC ID: 9530

RESOLUTION 2021-7

A Resolution Honoring City Councilor John Tramontozzi, Ward One

COMMENTS - Current Meeting:

Councilor MacMaster reads the resolution. Offers thanks for the friendship, mentorship and example over the years. John has always been a professional, true gentleman and class act. Mayor Brodeur takes a moment to recognize the service of the three outgoing Councilors. No matter how much time you have served, until you do it, no one can quite understand what it takes; huge commitment. The Mayor notes what a great colleague Councilor Tramontozzi has been over the years. Thanks him for all the efforts on behalf of Ward 1.

Councilor Garipay thanks the outgoing members noting Councilors' Thomas and McNaught were unfamiliar to him previously and it was great building a relationship with them. Most people can't understanding the time commitment and advocacy needs placed on a Councilor but all the efforts are for the betterment of Melrose. Notes the Melrose Towers, Warren St Park, and Highland District redevelopment projects influenced by Councilor Tramontozzi. Hopes he will have helped as many people at the end of his tenure as Councilor Tramontozzi has.

President Cinella says the Council and City thank him.

, ,

Councilor Tramontozzi says it's been an honor, pleasure and privilege working with all the elected member iterations and to serve this community. Thanks his wife and daughters for putting up with all the time spent away attending meetings and working with residents over the years.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE

City Council

A RESOLUTION HONORING City Councilor John N. Tramontozzi, Ward 1
Offered by City Councilor Shawn M. MacMaster, Ward 5

WHEREAS: *Councilor John Tramontozzi served as the Ward 1 Alderman and City Councilor for 16 consecutive years, having been first elected on November, 1 2005 and re-elected 7 additional times; and,*

WHEREAS: *Councilor Tramontozzi served as President of the Board of Aldermen in the year Two Thousand and Twelve and has chaired every standing committee of the Board of Aldermen and City Council at least once during his tenure; and,*

WHEREAS: *Councilor Tramontozzi is retiring after 16 years of distinguished service to the City of Melrose as an Alderman and City Councilor; and,*

WHEREAS: *Councilor Tramontozzi served as an effective representative to the residents of Ward 1, helping to secure funding for the Franklin Street Improvement Project and the Warren Street Park, as well as advocating for responsible development, infrastructural improvements, and fiscal prudency; and,*

WHEREAS: *the City Council recognizes that Councilor Tramontozzi' s dedication to the community as a resident of Melrose for 26 years extends well beyond his efforts in this chamber; and,*

WHEREAS: *Councilor Tramontozzi has spent countless hours giving back to the community through his involvement in the Melrose Chamber of Commerce, the Melrose Sons of Italy, the Beethoven Society of Melrose, the Polymnia Choral Society, the Friends of Middlesex Fells, the Boy Scouts of America, and the Rotary Club of Wakefield; and,*

WHEREAS: *Councilor Tramontozzi has also supported numerous charitable causes in Melrose and is well known and admired for his civic mindedness and volunteerism; and,*

WHEREAS: *Councilor Tramontozzi, as an attorney, has devoted a considerable amount of time over the years to providing pro bono legal assistance to senior citizens, veterans, and to arts and cultural organizations; and*

WHEREAS: *Councilor Tramontozzi is the loving husband of Martina Taylor Tramontozzi, to whom he has been married for 33 years, and the proud father of four intelligent and talented daughters, Tina, Anastasia, Laura, and Maria; and,*

WHEREAS: *we, the members of the City Council, do hereby express our sincere appreciation to Councilor Tramontozzi for his contributions to the City of Melrose both inside and outside of the Chamber, and, in recognition thereof,*

BE IT RESOLVED: *that a copy of this Resolution recognizing Councilor Tramontozzi for his honorable and distinguished service to the City of Melrose be spread across the records of the Melrose City Council on this 20th Day of December of the year Two Thousand and Twenty-One*

MEMORANDUM

Date: November 3, 2021

To: City of Melrose City Council

From: Elena Proakis Ellis, Director of Public Works

cc: Paul Brodeur, Mayor
Patrick Dello Russo, CFO/Auditor
Kerriann Golden, Assistant City Auditor
Jim Troup, Asst. DPW Director – Admin. & Finance

Subject: Request to Accept Rideshare Funds

Each year, the City of Melrose receives a disbursement from the Department of Public Utilities associated with the services provided by rideshare companies. The payment is based on 10 cents per ride initiated in Melrose. We are hereby requesting acceptance of funds in the amount of $9,049.20 to be used on projects that address infrastructure impacted by rideshare services. The amount of $9,049.20 represents the municipal portion of 10 cents per ride for 90,492 rides that originated in Melrose in 2020. This number is down from prior years due to the pandemic but still provides value in our ability to complete small projects that do not have another identified funding source.

The 2020 funds are proposed to be used to install accessible curb ramps at the intersection of Howard Street and Sunset Road. This portion of Howard Street was recommended for Complete Streets improvements in the City's 2017 Prioritization Plan, however the present funding approach from MassDOT will not result in work being completed along this corridor for many years via the competitive MassDOT Complete Streets grant program. While other intersections along this corridor may require upgrades to become fully accessible in the future (e.g., tactile warning pads), the intersection at Sunset Road is currently the only barrier to a continuous path with curb ramps on the north side of Howard Street from the Saugus line to Green Street. Completion of this work will substantially improve accessibility along this corridor.

There is no City match component to this funding source. We would be happy to answer any questions about this requested acceptance of funds.

Melrose, MA 02176

Dear Chief Lyle:

The Commonwealth of Massachusetts, State 911 Department would like to thank you for participating in the **FY2022 State 911 Department Emergency Medical Dispatch Grant Program.**

For your files, attached please find a copy of the executed contract for your grant. Please note your contract start date is **November 2, 2021** and will run through June 30, 2022. Please keep in mind that there shall be no reimbursement for costs incurred prior to the effective date of the contract and all goods and services MUST be received on or before June 30, 2022.

Reimbursement requests should be submitted to the Department within **thirty (30) days** of the date on which the cost is incurred. We have made the request for payment forms available on our website www.mass.gov/e911. For any questions related to this process, please contact Michelle Hallahan at 508-821-7216. Please note that funding of reimbursement requests received more than one (1) month after the close of the fiscal year under which costs were incurred cannot be guaranteed.

If, in the future, you would like to make any changes to the authorized signatory, the contract manager, and/or the budget worksheet, please e-mail those proposed changes to 911DeptGrants@mass.gov. Grantees are strongly encouraged to submit final, year-end budget modification requests on or before March 31, 2022.

Sincerely,

Frank P. Pozniak
Executive Director

X NEW CONTRACT

PROCUREMENT OR EXCEPTION TYPE: (Check one option only)

- __ **Statewide Contract** (OSD or an OSD-designated Department)
- __ **Collective Purchase** (Attach OSD approval, scope, budget)
- X **Department Procurement** (includes all Grants - 815 CMR 2.00) (Solicitation Notice or RFR, and Response or other procurement supporting documentation)
- __ **Emergency Contract** (Attach justification for emergency, scope, budget)
- __ **Contract Employee** (Attach Employment Status Form, scope, budget)
- __ **Other Procurement Exception** (Attach authorizing language, legislation with specific exemption or earmark, and exception justification, scope and budget)

__ CONTRACT AMENDMENT

Enter **Current Contract End Date *Prior*** to Amendment: _____, 20___.

Enter **Amendment Amount:** $ _____. (or "no change")

AMENDMENT TYPE: (Check one option only. Attach details of amendment changes.)

- __ **Amendment to Date, Scope or Budget** (Attach updated scope and budget)
- __ **Interim Contract** (Attach justification for Interim Contract and updated scope/budget)
- __ **Contract Employee** (Attach any updates to scope or budget)
- __ **Other Procurement Exception** (Attach authorizing language/justification and updated scope and budget)

The Standard Contract Form Instructions and Contractor Certifications and the following Commonwealth Terms and Conditions document are incorporated by reference into this Contract and are legally binding: (Check ONE option): X Commonwealth Terms and Conditions __ Commonwealth Terms and Conditions For Human and Social Services __ Commonwealth IT Terms and Conditions

COMPENSATION: (Check ONE option): The Department certifies that payments for authorized performance accepted in accordance with the terms of this Contract will be supported in the state accounting system by sufficient appropriations or other non-appropriated funds, subject to intercept for Commonwealth owed debts under 815 CMR 9.00.

__ **Rate Contract.** (No Maximum Obligation) Attach details of all rates, units, calculations, conditions or terms and any changes if rates or terms are being amended.)

X **Maximum Obligation Contract.** Enter total maximum obligation for total duration of this contract (or *new* total if Contract is being amended). $ 18,000.00

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting accelerated payments must identify a PPD as follows: Payment issued within 10 days __% PPD; Payment issued within 15 days __ % PPD; Payment issued within 20 days __ % PPD; Payment issued within 30 days __% PPD. If PPD percentages are left blank, identify reason: X agree to standard 45 day cycle __ statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); __ only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT: (Enter the Contract title, purpose, fiscal year(s) and a detailed description of the scope of performance or what is being amended for a Contract Amendment. Attach all supporting documentation and justifications.) **Contract is for the reimbursement of funds under the State 911 Department FY 2022 Emergency Medical Dispatch Grant as authorized and awarded in compliance with the grant guidelines and the grantee's approved application.**

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

X 1. may be incurred as of the Effective Date (latest signature date below) and no obligations have been incurred prior to the Effective Date.

__ 2. may be incurred as of _____, 20___, a date LATER than the Effective Date below and no obligations have been incurred prior to the Effective Date.

__ 3. were incurred as of _____, 20___, a date PRIOR to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of **June 30 , 2022,** with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, the applicable Commonwealth Terms and Conditions, this Standard Contract Form, the Standard Contract Form Instructions and Contractor Certifications, the Request for Response (RFR) or other solicitation, the Contractor's Response (excluding any language stricken by a Department as unacceptable, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

Melrose, MA 02176

Dear Chief Lyle:

The Commonwealth of Massachusetts, State 911 Department would like to thank you for participating in the **FY 2022 State 911 Department Support and Incentive Grant** program.

For your files, attached please find a copy of the executed contract and the final approved Appendix A: Personnel Costs form for your grant. Please note your contract start date is **November 2, 2021** and will run through June 30, 2022. Please keep in mind that there shall be no reimbursement for costs incurred prior to the effective date of the contract and all goods and services MUST be received on or before June 30, 2022.

Reimbursement requests should be submitted to the Department within **thirty (30) days** of the date on which the cost is incurred. We have made the request for payment forms available on our website www.mass.gov/E911. For any questions related to this process, please contact Michelle Hallahan at 508-821-7216. Please note that funding of reimbursement requests received more than one (1) month after the close of the fiscal year under which costs were incurred cannot be guaranteed.

If, in the future, you would like to make any changes to the authorized signatory, the contract manager, and/or the budget worksheet, please e-mail those proposed changes to 911DeptGrants@mass.gov. Grantees are strongly encouraged to submit final, year-end budget modification requests on or before March 31, 2022.

Sincerely,

Frank P. Pozniak
Executive Director

JAMES TROUP
Deputy Director Admin/Finance

To: Mayor Paul Brodeur
From: James Troup
Meeting Date: December 20, 2021
Subject: Appropriation of $93,000 from Water and Sewer Enterprise Fund Retained Earnings
Order #: ORDER-2022-52

As the City approaches a critical winter season, the Department of Public Works is faced with several challenges in delivering services to the City. The equipment used to address water and sewer infrastructure repairs, coupled with our pending snow operations, has presented an immediate need. In conducting a search for a replacement loader, we have discovered that lead times for these heavy vehicles has exceeded 18 months. Currently, there is one inoperable loader, further taxing an aging fleet. The DPW has received notification that there is a loader available with all of the necessary accessories to allow us to continue to deliver the above mentioned services.

With cooperation from the City's CFO/Auditor's office, we have identified a strategy to act quickly to secure this vehicle. Please accept this request to appropriate retained earnings in the amount of $93,000, divided equally between Water and Sewer Enterprise Accounts ($46,500 each), in order to purchase and deliver this vehicle before the winter operations commence.

As a matter of conversation, approximately three weeks ago, a similar opportunity was presented to the DPW. In the matter of 30 minutes, the vehicle was sold as we pondered a fiscally responsible strategy that would not compromise our operating budget. We considered this a tremendous lost opportunity. Thus, time is of the essence and we appreciate the Melrose Finance Team's sense of urgency to have these funds in place. We are confident that this necessary purchase will position us to continue to deliver the services that the City expects and helps address the pending concern over snow operations, the aging fleet, and rising costs to repair and maintain our equipment.

Attached to this memo is the current quote that is available to the Melrose DPW. Feel welcome to contact me with any questions. Thank you for your consideration of this important matter.

United Construction & Forestry LLC is pleased to offer the following proposal for a new 2021 John Deere 544 P Loader utilizing the Sourcewell Contract 032119-JDC & Member ID 116115, per your requested specifications.

2021 John Deere 544 P Loader, in stock unit with 26 hours on hourmeter

Deere wet sleeved PowerTech™ PVS 6068 engine, EPA certified Final Tier 4 emissions, 166 Net HP
Engine block heater, chrome exhaust stack, engine compartment light
Standard rear differential axle and hydraulic front differential axle with manual front diff lock
Inboard planetary drive and inboard wet disk brakes
5-speed powershift transmission, Quick shift button with automatic/manual shift modes
Factory-installed ride control
Engine air intake system with precleaner
Bridgestone 20.5 R 25 L3 radial tires on 3 piece wheels
Full width front & rear fenders with mud flaps, left & ride side platforms, left side steps into cab
Three function loader hydraulics, with single lever control of loader/bucket functions, joystick controls, FNR on joystick,
John Deere ZBar linkage - new standard parallelism is 8 degrees minimizing rollback
John Deere 416 series coupler, GEM 3.0 cy QC loader bucket with bolt on cutting edge, NO FORKS
In cab adjustable automatic boom height kickout, return to carry, and new updated return to dig feature allowing dump & curl positions with in-cab switch
ROPS/FOPS cab, with premium heated, high-back, cloth/leather air suspension seat with lumbar adjustment & back rest extension, 7" display monitor, heater, air conditioning, defrosters with new blower vent for rear window defrost, pressurizer, windshield wipers/washers front & rear, intermittent type, sun visor, and new standard dual tilt steering column.
Premium AM/FM/WB radio with Bluetooth, remote aux & remote USB port
Dual exterior heated oversize mirrors remote powered
12/24 volt – 15 amp converter; 140 amp alternator
5 lb. multi-purpose (ABC) dry chemical fire extinguisher
Two 950 CCA batteries, Lockable master electrical disconnect switch
Premium LED light package
Rear camera
Transmission side frame guards and bottom guards
SMV & Lighted License Plate Bracket
Rear cast bumper/counterweight with rear hitch and locking pin
Environmental drain & ports
JDLink Connectivity remote telematic machine monitoring
Operator's manual along with parts and repair on USB stick
Standard 12 months unlimited hour factory warranty with additional 48 months up to 5000 hours full Comprehensive extended warranty.
Whelen M2 series LED lights
Lubrication Technologies lube system installed

Price	$198,000.00
Trade allowance for 2006 JD 544J Loader #DW544JZ602479	-$25,000.00
Net delivered price after trade	$173,000.00

Option: GEM 3 cy Grapple Bucket installed, additional cost $25,800.00

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Municipal Lease Option:
We are including pricing for Deere Credit Inc. Municipal Lease payment options. During the lease period the City of Melrose will be required to provide physical damage and liability insurance with Deere Credit, Inc. named as Loss Payee. Upon completion of all scheduled lease payments and upon the lease buyout payment of $1.00, the City will own the equipment at no additional cost. The current interest rate is 2.50%.

Five (5) year, annual advance lease, based on $173,000., the annual advance lease payment is $36,349.41 each

If you exercise the option for the GEM 3 cy grapple bucket, the additional amount to lease payment is $5,420.90 each.

This is currently an in-stock unit, subject to prior sale.

Delivery: Within 30 days of receipt of written notice of award/signed contract.

This quote is valid for 30 days.

We have five locations to serve your needs, supplying parts and providing service: North Oxford, Springfield, North Swansea, Plymouth, and North Billerica. United Construction & Forestry LLC provides 90% of all John Deere repair and maintenance parts over the counter for immediate delivery, at our branch locations. Special emphasis is placed on stocking those parts determined to be "critical", those which would keep a machine down and which can be replaced easily within two hours. For non-stocked machine down parts, John Deere's parts depot, located in Grimsby, Ontario, provides us with over 95% availability. These parts are provided overnight, through a special delivery arrangement, and are available at each branch location by 8:30 A.M. the next business day.

We appreciate the opportunity to provide this proposal and look forward to being able to supply the City of Melrose DPW with a new 2021 John Deere 544 P Loader. If there are any questions, please call me at 508-713-7311 or Mark Charest, General Manager at 508-989-5703.

Sincerely,

ELENA PROAKIS ELLIS
Director, DPW

To: Mayor Paul Brodeur
From: Elena Proakis Ellis
Meeting Date: December 20, 2021
Subject: Acceptance of Massachusetts Department of Environmental Protection Recycling Dividend Program Grant
Order #: ORDER-2022-53

Annually, the City of Melrose applies for a Recycling Dividend Program Grant through the Massachusetts Department of Environmental Protection's Municipal Recycling Program. This year, the City was awarded the grant for up to $11,700 in November 2021.

Mass DEP, pursuant to the Green Communities Act, accepts applications from municipal solid waste programs and awards points based on several criteria. Melrose received points for our efforts in the categories of Organics, Re-Use, Yard Waste, Household Hazardous Waste, Center for Hard to Recycle Materials, Outreach and Education, Textile and Recycling Center Access. The maximum available to the City of Melrose is $33,800 and every effort is being made to achieve that as a goal.

The City's DPW, through the Solid Waste and Recycling Coordinator is required to maintain the records and report on our efforts and our compliance as it relates to the use of the funds. In order to avoid any delays in future payments, we are required to expend the funds in a timely manner and they must adhere to eligible expenses. Thus, 100% of the expenses are obligated toward the improvement of recycling and diversion efforts in the City. The grant allows us to purchase new educational materials, hire part time recycling enforcement officers, purchase materials and services to support our recycling efforts, and to fund our municipal drop off events. Increasing the quantity and quality of the recycling stream can save on disposal fees, improve resident satisfaction with our current recycling program, and ensure the success and sustainability of the recycling system both city and state wide. The final products of this project will be to have succinct and widespread education regarding the importance of proper recycling, to see the contamination percentages and charges decrease yearly, and decreased costs on our curbside trash collection.

We formally request acceptance of this grant in the amount of eleven thousand seven hundred dollars ($11,700) for these purposes, with funds to be transferred into the Solid Waste and Recycling/Mass DEP Program Grant Account (4046) that has been established by the Auditor's Office. There is no required monetary match to these funds as it is a supplement to our Operating Budget. This project will not have any impact to the FY22 or FY23 budget.

Re: Mass DEP Recycling Dividends Program Grant

As a result of our annual application to the Massachusetts Department of Environmental Protection, the City of Melrose Department of Public Works Solid Waste and Recycling team is proud to report that we have qualified for and received an award of $11,700.

As part of the application process, the City of Melrose identifies all of the recycling initiatives that are part of our operation and available to the residents. These practices qualify us for points that are the criteria to determine the amount of the award available to the City. The maximum available is $33,800. Every effort is being made to achieve that goal.

The City achieved points for our efforts toward Organics collection, a Re-Use program (ex. Zero Waste Days), Yard Waste operations, Household Hazardous Waste and CHaRM (Center for Hard to Recycle Materials) events, Outreach and Education efforts, Recycling Center Access (City Yard drop-off), and Textile diversion. Each point was worth $1,300.

This award goes a long way to supplement our operating budget and is 100% dedicated to our recycling effort. The money is used to purchase needed supplies and educational materials, and to fund the services that drive recyclable materials out of the trash stream. The desired goal includes reduced costs on our curbside trash collection, less contamination in our recycling materials, and increased sustainability.

We formally request acceptance of this grant award of $11,700 from the Mass DEP for our Recycling Dividends Program. Funds will be deposited into our Solid Waste and Recycling revolving account (2657) that has been set up by the City Auditor. There is no cost or encumbrance required to enter into this agreement and there will be no effect on the FY22 or FY23 Operating Budget.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SIGN AND RETURN THIS DOCUMENT TO MASSDEP VIA EMAIL

RECYCLING DIVIDEND PROGRAM CONTRACT ("RDP Contract")
BETWEEN THE COMMONWEALTH OF MASSACHUSETTS
DEPARTMENT OF ENVIRONMENTAL PROTECTION ("MassDEP")
AND THE City of Melrose ("Municipality")

Pursuant to the Green Communities Act, relevant provisions of which are codified at M.G.L. c. 25A, Section 11F(d) and the regulations promulgated thereunder at 310 CMR 19.300 and in support of the Massachusetts Solid Waste Master Plan developed pursuant to M.G.L. c. 16, Section 21, MassDEP has awarded the Municipality a Sustainable Materials Recovery Program grant under the Recycling Dividends Program ("RDP"). The Municipality has earned a payment of $11,700.

The Recycling Dividends Program provides payments to municipalities that have implemented specific programs and policies proven to maximize reuse, recycling and waste reduction. Municipalities receive payments according to the number of criteria points their program earns based on the *2021 Grant Guidelines* and number of residents served as described below. RDP provides an incentive for municipalities to improve their recycling programs by implementing best practices and rewards communities with model recycling and waste reduction programs.

Duration: The term of this Contract shall be in effect until the municipality has expended all RDP funds and reported to MassDEP on use of funds.

RESPONSIBILITIES OF THE MUNICIPALITY

1. Authority: The Signatory of this RDP Contract is authorized by the governing body of the Municipality to enter into this Contract on behalf of the Municipality and apply for and accept funds on behalf of the Municipality.

2. Commonwealth Terms and Conditions: The Municipality shall comply with the Commonwealth Terms and Conditions and other requirements set forth in the Municipality's executed Master Agreement.

3. Failure to Comply: If, in the judgment of MassDEP, the Municipality fails to comply with any of its responsibilities identified in this Contract, then, at the election of MassDEP, (a) the Municipality shall repay the RDP funds to MassDEP within 90 days; and/or (b) title to all materials purchased with the RDP funds immediately and without any further steps shall be transferred to MassDEP; and/or (c) MassDEP may find the Municipality not eligible to seek another Sustainable Materials Recovery Program Grant for up to three years. MassDEP may provide written notice to the Municipality of any such failure to comply. Such notice may provide a time period and manner for the Municipality to cease or remedy the failure. Such notice from MassDEP of any such failure by the Municipality is not a precondition to MassDEP's right to select options (a), (b), and/or (c) above. The Municipality shall follow the instructions of MassDEP regarding possession of the materials purchased with RDP funds. The Parties hereby agree to execute any and all documents necessary to accomplish said transfer. Furthermore, the Municipality shall transfer or arrange to transfer actual possession of said materials to an authorized representative of the Commonwealth of Massachusetts or its designee.

4. Recycling in Practice: The Municipality has established paper, bottle and can recycling in all municipal buildings, offices and meeting spaces, including schools. The Municipality shall continue such paper, bottle and can recycling during the term of the RDP Contract.

5. Notification of Buy Recycled Policy: The Grantee has established a written policy which promotes a preference for the purchase of recycled products in lieu of non-recycled products and distributes an annual notification of the Buy Recycled Policy, ordinance or by-law to all staff, department heads and employees with purchasing authority. This notice should be sent from the Mayor, Board of Selectmen, Town Manager, Town Administrator, or Chief Purchasing or Procurement Officer; and should include specific language encouraging the purchase of recycled products as it supports municipal recycling collection programs, recycling markets, and supports closed loop recycling. The Grantee shall continue to send an annual notification during the term of the Grant

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SIGN AND RETURN THIS DOCUMENT TO MASSDEP VIA EMAIL

6. RDP Payment Calculation: MassDEP has calculated the RDP Payment using the table below which shows payment brackets based on the number of households served by the municipal solid waste program and the point value for each bracket. *Section 7 – Program Criteria* and the 2021 *Grant Guidelines* describe in detail the conditions for earning points.

RDP Payment Brackets

Trash HH Served	Value of Each Point	Minimum Payment	Maximum Payment
0 - 1,999	$350	$2,800	$9,100
2,000 - 4,999	$600	$4,800	$15,600
5,000 - 7,499	$1,100	$8,800	$28,600
7,500 - 9,499	$1,300	$10,400	$33,800
9,500 - 12,499	$1,800	$14,400	$46,800
12,500 - 16,999	$3,000	$24,000	$78,000
17,000 - 24,999	$3,500	$28,000	$91,000
25,000 - 31,999	$4,000	$32,000	$104,000
32,000 - 99,999	$6,500	$52,000	$169,000
100,000 +	$10,000	$80,000	$260,000

7. Program Criteria: The Municipality, through its RDP application, certifies that all points earned are for programs that were in place no later than June 30, 2021 and that these programs fully meet the performance standard set forth in the *2021 Grant Guidelines*. *Section 13 – RDP Payment Calculation* lists the program criteria for which the Municipality has earned points, and upon which the Municipality's payment was calculated.

8. Use of Funds: RDP Payments shall be expended on Approved Expenses listed in the *Grant Guidelines* to enhance the performance of the Municipality's waste reduction programs. Use of a dedicated account or revolving account is recommended but not required. Funds may be carried over to future years and accumulated to fund a larger eligible expense or project. Planned use of funds shall be noted on the Annual RDP Spending Report. However, MassDEP may delay future RDP payments if municipality is not expending funds.

9. Record Keeping: The Municipality shall be responsible for keeping documentation (i.e. proof of purchase in the form of an invoice which lists the vendor name and address, item purchased, item price, number of items purchased and shipping costs if any) by calendar year, of how RDP funds were expended and the remaining balance of RDP funds. MassDEP may conduct record audits to ensure compliance with this Contract.

10. Reporting: By February 15th of each year, for the duration of the Contract, the Municipality shall submit the annual Recycling and Solid Waste survey and the RDP Spending Report through its ReTRAC Connect™ account. Failure to comply with these reporting requirements will jeopardize future grant awards and RDP payments.

11. Environmental Compliance: The Municipality understands receipt of RDP funds from MassDEP does not in any way imply that the Municipality is in compliance with applicable environmental regulations. This Municipality shall not be construed as, nor operate as, relieving the Municipality or any other person of the necessity of complying with all applicable federal, state, and local laws, regulations and approvals. The Municipality's facility(ies) are subject to inspection at any time by MassDEP and noncompliance with applicable environmental regulations may result in formal enforcement actions, including penalties.

12. Addendums: Should MassDEP award additional RDP funds, an addendum to the Contract shall be provided to the Municipality. The same terms and conditions apply to the addendum.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

SIGN AND RETURN THIS DOCUMENT TO MASSDEP VIA EMAIL

13. RDP Payment Calculation:
The Municipality's payment has been calculated as follows:
(Value of each point) x (Total RDP Points)

a.	Solid Waste Program	0
b.	Organics	0
c.	Bulky Items	0
d.	ReUse Points	0
e.	Yard Waste	2
f.	Household Hazardous Waste	2
g.	Center for Hard to Recycle Materials	2
h.	Comprehensive Hauler Regulation Adopted	0
i.	Enforced Residential Curbside Recycling	0
j.	Outreach and Education	1
k.	Recycling Center Access	1
l.	Textile	1
	TOTAL RDP POINTS	9
	VALUE OF EACH POINT	$1,300
	RDP PAYMENT AMOUNT	$11,700

IN WITNESS WHEREOF, MassDEP and the Municipality hereby execute this Contract.

Dear Mayor Paul Brodeur,

Congratulations! I am pleased to notify you that the City of Melrose has been awarded a Recycling Dividends Program grant of $11,700 through the Sustainable Materials Recovery Program. I want to thank you for your commitment to reducing waste and increasing recycling for the benefit of our communities and the environment.

Enclosed you will find further instructions from the Department of Environmental Protection on next steps. Please feel free to contact Wilfred Mbah if you have any questions.

Paul Brodeur
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur,

Congratulations! It is my pleasure to inform you that the Massachusetts Department of Environmental Protection (MassDEP) has awarded the City of Melrose Recycling Dividends Program funds under the Sustainable Materials Recovery Program. The City of Melrose has earned 9 points and will receive $11,700.

The Sustainable Materials Recovery Program (SMRP) was created under 310 CMR 19.300-303 and the Green Communities Act, which directs a portion of the proceeds from the sale of Waste Energy Certificates to recycling programs approved by MassDEP. The Recycling Dividends Program (RDP) provides payments to municipalities that have implemented specific programs and policies proven to maximize reuse, recycling, and waste reduction. We are awarding over $3.1 million in RDP payments to 226 municipalities in this round of funding. The next application for SMRP funding will be released in April 2022.

Recycling programs play a vital role in limiting our dependence on landfills and incinerators, reducing greenhouse gas emissions and supporting economic activity in the Commonwealth. Recycling Dividend Program funds foster investment in local programs including recycling equipment, organics diversion, outreach and education, pilot programs, school recycling, toxics reduction and more. MassDEP has invested in developing nationally recognized tools to assist municipalities with reducing recycling contamination and improving public awareness of smart recycling practices. We encourage you to utilize the Recycling IQ Kit and Recycle Smart MA website and to consult with your MassDEP Municipal Assistance Coordinator for assistance in implementing these best practices.

To accept your Recycling Dividends Program (RDP) award, please sign and return the attached RDP Contract via email before January 15, 2022. After we receive your signed contract, funds will be sent to your community. Should you have any questions, please email Wilfred Mbah at Wilfred.Mbah@mass.gov.

The increased challenge of maintaining our vital solid waste and recycling programs during a pandemic underscores the critical role of local government in keeping our communities safe and clean. Thank you for your continued commitment to recycling and waste reduction in Massachusetts.

Sincerely,

Martin Suuberg
Commissioner

Checklist for Recycling Dividends Program Grant Award

This document contains important grant deadlines and requirements

STEP ONE: EXECUTING THE CONTRACT

It is the responsibility of the municipal Recycling Contact to ensure that the RDP Contract is signed by an **individual currently holding one of the Titles** listed on the Authorized Signatory Listing form, which your municipality filed with MassDEP in the spring of 2017. If the person(s) listed on the form has changed (for example, a new Mayor has been elected), the municipal official with the same title may sign the RDP Contract and a new Authorized Signatory Listing form **IS NOT REQUIRED**.

Please sign and email the RDP Contract to wilfred.mbah@mass.gov for processing of payment no later than **January 15, 2022 or funds may be forfeited.** Acceptable forms of signature are:

1. Traditional "wet signature" (ink on paper, scan and email);
2. Electronic signature that is either a hand drawn signature using a mouse or finger if working from a touch screen device; or
3. Electronic signatures affixed using a digital tool such as Adobe Sign or DocuSign.

STEP TWO: TRACK EXPENDITURES BY APPROVED EXPENSE CATEGORY

- This is not a reimbursement-based grant. Your award payment will be processed as soon as the RDP Contract is returned.
- However, you are required to keep track of approved expenditures, by expense categories. Pre-approved spending of RDP grant funds is listed in the Grant Guidelines. Please follow this list of approved spending; a municipality is allowed one special spending request per year for an item not found on the approved spending list. If your municipality intends to spend its grant funds on an item or service not listed, you must contact Wilfred Mbah.
- Be prepared to be audited.

STEP THREE: REPORT EXPENDITURES AND REMAINING BALANCE

- The municipality is required to report all expenditures from the previous calendar year no later than February 15th.

Contact Wilfred Mbah with any questions.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE

CITY CLERK
City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-4116

KRISTIN FOOTE
City Clerk

To: Mayor Paul Brodeur
From: Kristin Foote
Meeting Date: December 20, 2021
Subject: Amending Ch 4 section 4-1 Wards/Precinct boundaries
Order #: ORDER-2022-55

The Ward and Precinct description changes reflected below are the result of 2020 U.S. Census Information, and have been approved by the Melrose City Council and the Massachusetts Local Election Districts Commission. In order for these changes to take effect within the City of Melrose, Council must now approve amending Administrative Legislation § 4-1 of the City of Melrose Code as follows:

WARDS

Ward One.

All of that portion of Middlesex County bounded and described as follows: Beginning at the point of intersection of the Stoneham/Melrose town/city line and Lynn Fells Pkwy, and proceeding northerly along the Stoneham/Melrose town/city line to the Wakefield/Melrose town/city line, and proceeding easterly along the Wakefield/Melrose town/city line to Main St, and proceeding southerly along Main St to Franklin St, and proceeding westerly along Franklin St to Albion St, and proceeding westerly then southerly along Albion St to Melrose St, and proceeding southeasterly along Melrose St to Lynn Fells Pkwy, and proceeding westerly along Lynn Fells Pkwy to Vinton St, and proceeding southerly along Vinton St to Otis St, and proceeding westerly along Otis St to Leeds St, and proceeding northerly along Leeds St to Youle St, and proceeding westerly along Youle St to Lynn Fells Pkwy, and proceeding westerly along Lynn Fells Pkwy to the point of beginning.

Ward Two.

Hi Kristin,

Just wanted to let you know, Melrose map was approved unanimously by the LEDRC this morning.

You should receive written notice of the approval also.

Thank you for all your hard work on getting this done!

Best,
Mike

Meeting Date: December 20, 2021
Subject: Amending 152-12 common vic fee waiver for 2022
Order #: ORDER-2022-56

WHEREAS, the current COVID-19 global health pandemic has negatively impacted small businesses; and,

WHEREAS, small businesses are a critical part of our community and are in need of support;

NOW THEREFORE, BE IT ORDERED, that the City of Melrose, acting through the City Council, further amends section 152-12 of the Code of the City of Melrose by inserting the following sentence at the end of said section:

"The fee for a Common Victualler's license set forth herein shall be waived for Calendar Year 2022 as a result of the ongoing impacts of the COVID-19 global health pandemic."

Respectfully submitted,
Councilor Jen Grigoraitis, Ward 6
Councilor Leila Migliorelli, At-Large

Melrose
Chamber of Commerce

December 13, 2021

Melrose City Council
562 Main Street
Melrose, MA 02176

RE: Statement in Support of Suspending 2022 Common Victualler License Fees

Dear Members of the Melrose City Council:

This letter comes to you on behalf of the Melrose Chamber of Commerce, through its Board of Directors, regarding the December 13, 2021 meeting agenda item: *An Order to Amend Section 152-12 of the Code of the City of Melrose for the purposes of waiving Common Victualler fees for Calendar 2022.*

The Chamber strongly supports waiving of the fee for 2022 as it would relieve a financial burden to some extent for many small businesses in Melrose, including the following Chamber members:

1. Bellevue Golf Club
2. Bitty & Beau's Coffee
3. Bobby C's
4. Giacomo's
5. Jitters Café
6. Kennedy's Ice Cream Bar
7. Liberty Bell Roast Beef & Seafood
8. Mass Golf Management LLC
9. Melrose House of Pizza
10. Melrose-Wakefield Hospital Cafeteria
11. Mexico Lindo
12. Petrone's Pizza and Deli
13. Rising Eagle Publick House
14. Turner's Seafood Grill & Market
15. Wood & Fire

Our local food establishments play an essential role in Melrose's business community, ensuring the continued vibrancy of and activity in our business districts. At a fee of $75 per business, it is not a substantial amount of money for the City budget, and a nominal amount for each business impacted. The Chamber respectfully encourages the City Council to vote in favor of this renewal fee waiver.

Thank you in advance for your thoughtful consideration.

Jennifer Manning
Executive Director, Melrose Chamber of Commerce

RULES OF ORDER
MELROSE CITY COUNCIL

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Adopted January 2022

OVERVIEW

The Special Committee on the Rules of Order was established by President Jennifer Grigoraitis in 2020 pursuant to Rule 25. Charged with modernizing the Council's governing rules, the Committee met on five occasions between November 11, 2020 and September 8, 2021 for a total of six hours. The Committee's scope of work involved simplifying the language of existing rules, addressing ambiguity, ensuring consistency in the use of terms, and offering recommendations for a series of revised and new rules.

Attached to this proposal is a commentary section; its purpose is to memorialize the intent behind the rules that, in accordance with our mandate, have been either substantially amended or newly created.

Respectfully submitted,

Special Committee on the Rules of Order

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

RULES OF ORDER

Rule 1 Regular Meetings of the City Council shall be held on the first and third Mondays of each month at 7:45 p.m. except as follows: (1) during July and August when there shall be one meeting each month on the third Monday; (2) when an election is to be held the following day such meeting shall be held on the following Monday; and (3) when a meeting falls on a holiday, such meeting shall be held on Tuesday.

Rule 2 A majority of the Council or any Committee thereof shall constitute a quorum.

PRESIDENT

Rule 3 The President shall take the chair at the scheduled hour, call the members to order and, on the appearance of a quorum, proceed with business.

Rule 4 In the absence of the President, the President Pro Tempore of the Council, who shall be the senior member in length of service present at the meeting, shall call the Council to order and preside over meetings until the President resumes the Chair. When two or more members have the same seniority, names shall be drawn by the City Clerk thirty (30) minutes before the commencement of the meeting in the presence of the Clerk of Committees and at least one (1) member of the body, to determine who the presiding officer will be.

In the event that the longest serving member of the Council is elected President, the second longest serving member of the body shall serve as President Pro Tempore. When two or more members have the same seniority, the aforementioned selection process shall be followed.

Rule 5 The President shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal by the Council. The President shall declare all votes and may vote in all cases.

Rule 6 The President may call the President Pro Tempore to the chair to preside over a full Council meeting, but such substitution shall not continue longer than one meeting without a majority vote of the members. The President may express an opinion on any subject under debate; but in such case they must leave the chair and shall not resume the chair while the question is pending. The President may state facts and give an opinion on questions of order without leaving the chair.

Rule 7 It shall be the duty of the President or their designee to examine and approve the records of each meeting. It shall, likewise, be the duty of the President or the President Pro Tempore to sign all legislative matters which have been passed at any meeting.

Rule 7A It shall be the duty of the President to oversee the City Clerk who shall report directly to the Council President.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY CLERK AND ASSISTANT CITY CLERK

Rule 8 The City Clerk or Assistant City Clerk shall keep minutes of the proceedings of the Council which shall be subject to correction when the Council meets. The City Clerk shall note upon legislative papers the action taken by the Council relating to said papers.

The City Clerk shall perform such duties in connection with the transaction of business during the sessions of the Council as the President deems necessary.

Whenever a petition is filed as provided by Section 22 of Chapter 166 of the General Laws seeking a permit for an original location for wires, poles, piers, abutments or conduits to be used for the transmission of electricity, the City Clerk shall forthwith, upon receipt of such petition, send notice, in the manner required by said Section, of a public hearing to be held thereon at the next meeting of the Council occurring not less than seven (7) days following such receipt. The City Clerk shall also send notice of such hearing to the Inspector of Wires.

The City Clerk shall be responsible for preparing a Pre-Meeting Calendar for full Council meetings containing the following items: all matters of new business; all reports of committees to be presented at any regular or special meeting of the Council; a statement of any orders for which notice of a motion to reconsider has been filed; all orders which have been laid upon the table or postponed to a day certain; all hearings which may have been ordered; and all matters of unfinished business. Such Calendar shall be electronically transmitted to each member of the Council at least forty-eight (48) hours prior to said meeting.

Agendas and corresponding agenda packets for all committee meetings and full Council meetings shall be publicly posted seventy-two (72) hours before a meeting is called to order, excluding Saturdays, Sundays, and legal holidays. Agendas maybe updated after their initial posting so long as subsequent agenda items are added at least forty-eight (48) hours prior to a meeting in accordance with the Massachusetts Open Meeting Law. All Orders, Ordinances, Petitions, Resolutions, and Remonstrances appearing on meeting agendas shall include the name(s) of the corresponding sponsor(s).

Notice of emergency meetings must be posted as soon as reasonably possible prior to a meeting and in a manner accessible to persons with disabilities to the extent required by federal and state law. The City Clerk or the Clerk of Committees shall post meeting agendas to the city website. The agenda of a full Council meeting shall be subject to approval of the President and be posted in the same location as public meeting notices.

When a committee fails to issue a report on an item within forty-five (45) days after the matter is referred to committee, the Clerk of Committees shall notify the City Clerk of such and the City Clerk shall place said item on the agenda for the next regularly scheduled Council meeting under Reports from Committee with the following notation: “No Action Taken.”

Whenever any Order or Ordinance adopted by the Council at any meeting has not been returned by the Mayor within ten (10) days and is thereby enacted pursuant to Section 3.7 of the City Charter, the Pre-Meeting Calendar for the next meeting of the Council shall include a statement that such Order or Ordinance has taken effect by operation of law.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Within forty-eight (48) hours after adjournment of a Council meeting, the City Clerk shall prepare a Post-Meeting Bulletin containing a statement of all items referred to committees, whether standing or special. All matters so referred shall be listed separately under the heading of the respective committees; and all matters laid upon the table or postponed to a further date, and any hearings ordered to be held at any subsequent meeting, shall be included in said Bulletin.

Whenever a notice is filed by any member as a Motion to Reconsider a vote passed by the Council, such Bulletin shall include a statement to that effect. There shall also be noted upon said Bulletin a statement as to the action taken by the Council on which a Motion to Reconsider was filed. Bulletins shall be transmitted electronically to the members within seventy-two (72) hours after adjournment of the meeting to which they pertain.

Rule 9 The Assistant City Clerk, in the absence of the City Clerk, shall perform the duties of the City Clerk.

CONDUCT & DECORUM OF MEMBERS

Rule 10 When a member speaks, they shall address the presiding officer and shall confine their remarks to the question under consideration. While speaking, members shall avoid personalities, and no member shall directly or indirectly impugn another member or conduct themselves in a manner unworthy or unbecoming of a City Councilor. No member shall speak or vote out of their place without leave of the presiding officer.

Rule 11 No member shall be interrupted while speaking except by their consent or by a point of order or point of information; nor shall there be any conversation among the members while a question is being stated, while a member is speaking or a paper is being read.

Rule 12 If a member repeatedly violates any of the rules of the Council or disrupts the orderly procedure of the Council, the presiding officer, after warning the member of such violations, shall call the member to order, and a member so called to order shall lose the right to speak on the pending subject matter but shall not be prevented from voting. A member so called to order shall remain silent until the presiding officer returns to the member their rights to the floor.

Rule 13 A Councilor or any combination of Councilors who file an Order, Ordinance, Petition, Resolution, or Remonstrance shall be given up to ten (10) minutes in total to introduce the matter.

When a matter is being debated, no member may occupy more than five (5) minutes for each point under debate, nor shall they speak twice to the same question without leave of the Council, nor more than once if any other member, who has not previously spoken, desires to speak.

When a city official or other person appears before the Council or committee thereof, an individual Councilor shall not occupy more than fifteen (15) minutes of dialogue with the party. If a Councilor, however, requires additional time for questions, they may seek leave of the presiding officer. In determining whether to grant the Councilor additional time, the presiding officer shall consider but is not limited to the following factors:

1) The number of remaining questions the Councilor intends to ask.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

2) The number of questions the Councilor has already asked.
3) The relevancy of the questions.
4) The amount of time that has been occupied by the attendee in answering questions.
5) The responsiveness of the attendee.
6) The nature of the matter before the Council or committee.
7) Public interest considerations.
8) The hour of day.
9) Remaining business before the Council or committee.

On general matters of discussion, members of the Council shall occupy no more than five (5) minutes when speaking on a particular subject.

The presiding officer, at their discretion, may designate the City Clerk or Clerk of Committees to monitor the time provisions of this rule.

Rule 14 No member shall vote on any matter or serve on any committee where their private interest is immediately distinct from that of the public.

Rule 15 When a question is put forward, every member present, except the President, shall vote, unless excused by vote of the Council or excluded by personal interests.

No member shall leave without permission of the presiding officer if their presence is necessary to make a quorum.

Rule 16 The reading of any paper, if objected to, shall be decided by the Council.

Rule 17 No member shall stand up, to the inconvenience of others, while a member is speaking; pass unnecessarily between the presiding officer and the member speaking; stand in the area in front of the chair; or stand at the City Clerk's desk while a roll call is in progress. The use of electronic devices should be restricted for Council business only during a meeting of the full Council or committee thereof.

Rule 18 The members of the Council shall not stand or leave their places on a Motion to Adjourn until the presiding officer has declared the Council adjourned.

Rule 19 Every member shall take notice of the day and hour to which the Council stands adjourned.

STANDING COMMITTEES

Rule 20 The President shall appoint voting members to each Standing Committee, one of whom shall serve as Chairperson.

The President shall, at the first meeting in January, announce the Chairpersons and voting members appointed to all Standing Committees for that calendar year.

The President shall serve as a member ex-officio of all committees and, when required, may be counted in the making of a quorum. The President shall be entitled to vote as an ex-officio member of all standing committees.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

All members of the Council shall be considered a member of each Standing Committee but shall not be authorized to vote on pending matters unless assigned as a voting member of that Committee. A quorum of a committee shall be determined on the basis of voting members only.

A non-voting member of a committee may only speak on a pending matter after all voting members have been given the opportunity to deliberate; and non-voting members shall only speak once unless granted leave by the Chairperson. This provision of the rule, however, shall not apply to non-voting members who have sponsored or co-sponsored a matter appearing before a committee. The sponsor(s) shall always be recognized first by the Chairperson for the purposes of introducing an order.

The following Standing Committees are hereby established:

Appropriations & Oversight: Eleven (11) voting members to include the annual Budget and all supplementary budgets, redevelopment authority, federal or state grants, zoning, and all general oversight matters.

Finance: Five (5) voting members to include accounts and surety bonds, election matters, print and supplies, and City Council purchases.

Health, Education and Welfare: Five (5) voting members to include public schools, public library, and veterans' affairs.

Legal and Legislative Matters: Five (5) voting members to include rules, legislative matters and claims.

Protection and License: Five (5) voting members to include the Police and Fire Departments, Emergency Management, and licenses.

Public Service: Five (5) voting members to include public grounds and buildings.

Public Works: Five (5) voting members to include Public Works Department, public transportation, all municipal parking areas and lighting of streets and municipal parking areas, and electric, cable and telephone wires.

Rule 21 The member first named on any committee shall be its Chairperson and the second named member of the Committee will be recognized as the Vice Chair of the Committee. In the case of the Chairperson's resignation, absence or disability, the other members, in the order in which they are named to the Committee, shall call meetings of the Committee and act as Chairperson. If, for any reason, any committee has not assembled within three (3) weeks from the reference of matters thereto, except for the summer season, the member second in order may call meetings of the committee.

Rule 21A Committee Chairpersons serve at the pleasure of the President, who may at any time remove a Chair and designate a new Chair. Neither the removal nor the appointment or re-appointment of a Chairperson shall be subject to the approval of the Council.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Rule 21B A committee Chairperson shall take the chair at the scheduled time and shall convene the meeting within thirty (30) minutes thereof. If a quorum is not present within thirty (30) minutes of the time originally scheduled, the Chairperson shall not commence such meeting and it shall be rescheduled to a later date.

Rule 21C The Chairperson shall call upon the Vice Chair to preside whenever the Chairperson intends to ask questions of an attendee or express an opinion on a matter before the Committee. The Chairperson may resume the chair when the matter for which they gave up the chair is no longer before the Committee.

Rule 21D Whenever one (1) or more committee meetings are scheduled to commence the same evening as the full Council or other committee meeting(s), each meeting shall commence within thirty (30) minutes of the meeting's respective scheduled meeting time. Where the earlier opened meeting(s) has not adjourned prior to the time by which another meeting must commence, the earlier committee(s) may recess so as to allow the other scheduled committee meeting(s) to open for the purpose of public comment. After public comment the members may vote to recess and reconvene the preceding meeting.

Rule 22 The Chairperson of each standing committee, in conjunction with the Clerk of Committees, shall ensure that the Councilor(s) who sponsor(s) any legislative item will have proper notice of all related hearings. A matter pending in committee shall not be disposed of at the committee level without the sponsor(s) being present and available to vote on that matter.

Rule 23 Reports on all matters from committees shall be made as early as practicable and shall be signed by the Chairperson, unless otherwise ordered by the Committee. Reports shall be appropriately designated by the action taken in committee and presented as such on all future meeting agendas until that time the Council disposes of a matter. Reports shall be designated in one of three (3) ways: Favorable Report ("ought to pass"); Adverse Report ("ought not to pass"); Undeclared Report ("without recommendation"). Any member may call for the degree of progress reached with respect to any matter referred to a committee. Whenever any committee reports to the Council and one or more members dissent from the report, the name(s) of the dissenting member(s) shall be printed on the agenda under Reports from Committee followed by the "Dissents," provided a statement is filed as a minority report by such dissenting member(s), containing the reasons therefore, with the Clerk of Committees, which statement shall accompany the report of the Committee and shall be read by the President.

Rule 24 The President shall form special committees of the Council as needed and shall appoint its members. Special committees shall consist of three members, unless otherwise ordered.

Rule 25 All committees of the Council shall be notified of their meetings by the Clerk of Committees. No two committee meetings may occur at the same time.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMITTEE OF THE WHOLE

Rule 26 When a committee determines to go into a Committee of the Whole, the Chairperson shall be appointed by the President.

Rule 27 The Rules of the Council shall be observed in a Committee of the Whole, so far as they may be applicable, except the rules limiting debate. A motion to rise, report progress, and ask leave to sit again shall always be first in order and be decided without debate.

CLERK OF COMMITTEES

Rule 28 The Clerk of Committees shall report to the City Council, providing legislative assistance, support, and other professional services as needed. The City Council President shall have ultimate oversight over the Clerk of Committees, with day-to-day supervision provided by the City Clerk.

Rule 28A The Clerk of Committees shall keep proper records of committee meetings in written format, which shall be an official record. Audio/visual records may also be kept. A copy of the written record shall be available to all members of the Council and the public. They shall prepare all reports of committees for presentation to the full Council subject to the approval of the Chairperson. The Clerk of Committees shall, following the final action of the Committee on Appropriations & Oversight and the making of its report on the annual budget, or any supplementary budget, prepare a statement with respect to the appropriations recommended for each department, when such appropriations include any sums for increase in salaries for employees of such departments, stating in detail the amount of such increases allowed in such appropriations and the period of the budget year allowed by said appropriations.

ORDER OF BUSINESS

Rule 29 At every meeting of the Council the order of business shall be as follows:

I. Call to Order

II. Reading of the Minutes -- An electronic copy of the minutes shall be transmitted to the full Council twenty-four (24) hours in advance of any vote regarding those minutes. Minutes of each meeting of the full Council shall be given to the City Clerk to be posted on the city website within twenty-four (24) hours after the minutes are accepted by the full Council.

III. Public Comment

IV. Public Hearings

V. New Business

a) Filings by the Honorable Mayor

b) Filings by Members of the City Council

VI. Communications from the Honorable Mayor & Other City Officials

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VII. Unfinished Business

VIII. Reports from Committees

IX. Expiries

X. Rule 53 Reports

X1. Adjournment

The above order may be changed, at any meeting, by a two-thirds (2/3) vote of the members present and, upon motion to change the order of business, no debate shall be allowed.

Rule 29A Each meeting of the Council or any standing committee thereof shall allow up to ten (10) minutes per person for public comment prior to the reading of "COMMUNICATIONS FROM THE MAYOR AND OTHER CITY OFFICIALS." Members of the public shall limit their remarks to matters on the agenda for the meeting at which they speak and shall be out of order if said speaker addresses other issues not on the agenda. There will be an option to speak in public comment via remote participation whenever practicable, to be managed by the City Clerk and/or the Clerk of Committees. This rule shall only be suspended by unanimous consent of the members.

LEGISLATIVE PROCEEDINGS

Rule 30 All pending matters before the Council shall be presented by the President or; and shall be read by the President, City Clerk or such other person as the President may request. They shall be acted upon in the order in which they are presented unless the Council shall otherwise direct.

Rule 31 All nominations/appointments made by the Mayor, subject to the confirmation of the Council, shall, when received by the Council, be referred without debate to the proper standing committee and said committee shall report its recommendations thereon within forty-five (45) days or at the next regular meeting.

Rule 31A All appointments made by the Mayor and subject to the confirmation of the Council shall include a written statement of interest and/or resume from the candidate.

Rule 32 All filings (legislative or otherwise), communications from the Mayor or other city officials, and reports from committees that may require action by the Council, must be in the hands of the City Clerk no later than noon on Tuesday prior to each regular meeting. All filings from the Mayor or other city officials must include a written statement or memorandum detailing the intent of the filing and any impacts to the City's finances, if applicable. The City Clerk shall confirm the receipt of all filings by notifying the sponsor(s) via e-mail at the time of receipt.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Any written document independently submitted by the administration, including documents prepared by a department head or other city employee after the filing of said matter, shall be transmitted electronically to the Council or committee thereof at least forty-eight (48) hours in advance of the meeting at which the matter is scheduled to be heard. Upon invocation of this rule by any Councilor, and the subsequent affirmative vote of not less than five (5) Councilors, or the affirmative vote of not less than three (3) Councilors when a matter is before a standing committee, an agenda item may be postponed. The Councilor who invokes this rule shall be required to vote on it. Invocation of this rule shall not apply to the annual budget.

Whenever any, Order, Ordinance, Petition, Resolution, or Remonstrance is introduced by a member of the Council, the name of such member shall be designated thereon and be reflected on all agendas and reports related to the matter. The filer of any matter shall be listed first on all agendas followed by the names of any co-sponsors in the order that they appear in the original filing.

Rule 32A No Legislation, Petition, Resolution, or Remonstrance shall be accepted by the City Clerk and placed upon the agenda for a meeting of the City Council unless a copy of the full text has been filed with the City Clerk.

Rule 33 Ordinances of the city and associated amendments shall be established by a two-thirds (2/3) vote of all the members of the Council, to be taken by a Roll Call vote. In the case of all other legislative matters, except as otherwise provided in the General Laws, or in the Revised Charter and Ordinances of the City of Melrose, the affirmative vote of a majority of all members of the Council shall be necessary for passage at each debatable legislative stage.

Rule 34 Subject to the provisions of Section 2-9(b) of the City Charter, every legislative matter shall be read once when it is introduced and shall then be referred to its appropriate committee, unless, where appropriate, immediate consideration is requested. In the case of a request for immediate consideration, the legislative matter shall be at once considered, provided no councilor objects; and no motion shall be applied to any such matter when originally introduced until immediate consideration has been granted. It shall be the duty of the President to ask if there is objection before immediate consideration is given any matter, and upon objection the matter will be referred to the appropriate committee.

> **Rule 34A** All matters involving the appropriation of moneys in the treasury not otherwise appropriated, the intra-departmental transfer of moneys from one account of the city to another, or otherwise affecting municipal finances, shall be referred to the Finance Committee. The Committee shall make its recommendation thereon not later than three (3) weeks from the date of such reference. The provisions of this section shall not apply in the case of matters referred to the Committee on Appropriations & Oversight.

Rule 35 Upon the report of a committee recommending the passage of any Order, Ordinance, Petition, Resolution, or Remonstrance the item shall be read a second time at the next full Council meeting and shall then be in order for a final action unless the next full Council meeting falls on the same day. When an Order, Ordinance, Petition, Resolution or Remonstrance appears before the full Council with a recommendation from a committee that same day, it shall be

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

presumed that the matter will be placed on the agenda of the next full Council meeting under the Reports from Committee section of the agenda. Any councilor, however, shall be entitled to make a motion to immediately pull a matter from committee, when a matter is recommended by that committee on the same day, provided that a showing of good cause has been made. The burden shall be on the maker of the motion to demonstrate good cause. After a second to the motion has been made, the motion to pull from committee shall require a simple majority vote. Appointments of city officials by the Mayor are not included in connection with the aforesaid.

Rule 35A When a matter is introduced to the full Council with a recommendation for passage from any standing or special committee, a period of discussion shall be in order before a Motion for Passage is entertained by the President, President Pro Tempore, or other member presiding on behalf of the President.

Rule 36 All matters pertaining to amendments to the Rules of Order of the City Council, Ordinances and legal affairs shall be referred to the committee on Legal and Legislative Matters.

When amendments are recommended to the Council, the City Clerk shall forward copies of any proposed changes to all members, and no amendment shall be in order for final passage until each member shall have received such copy.

Rule 37 When any matter has been rejected by the full Council, no measure embodying substantially the same subject shall be introduced by any committee or member within six (6) months of its previous rejection.

Rule 37A Any matter not acted upon by the Council or the appropriate committee within one (1) year of said matter being filed, shall be considered null and void and shall be removed from the calendar of the Clerk of Committees. Any matter considered null and void by operation of this rule shall not be subject to any refiling restriction of Rule 37.

Rule 37B During a Council meeting, standing committee thereof, or a public hearing, a non-member may speak no more than ten (10) minutes unless he obtains the consent of the Council or standing committee thereof, nor may they speak more than twice on the same issue.

Rule 38 Unless otherwise ordered, votes shall be taken orally. If the vote is doubted, the members voting shall rise in their places until counted. A Roll Call vote shall be taken upon request of five (5) or more councilors.

Rule 39 The President shall consider a motion to adjourn as always in order, except on immediate repetition. When a matter before the Council is under debate, it shall receive no motion except:

1. To adjourn
2. To lay on table
3. The previous question
4. To close debate

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. To postpone to a day certain

6. To amend

7. To postpone indefinitely

Motions shall have precedence in the order arranged.

Rule 40 On the following motions, the debate shall be limited to the time specified in each case:

To Adjourn: No Debate

Roll Call: No Debate

Lay on Table: No Debate

The previous question; to close debate at a specified time; indefinite postponement; postponement to a day certain; to suspend the rules; to reconsider: Ten Minutes (10) -- No member to occupy more than three (3) minutes.

Whenever, at any meeting, a question is laid on the table, it shall remain there until the close of the next regular meeting, if not taken up earlier; but, if it is not taken from the table at such next meeting, or earlier, the Clerk shall place the same in the files of the Council and shall make a record thereof in the minutes of such meeting and upon any paper relating to such question.

Rule 41 Any motion shall be in writing if the President so directs, or any member of the Council so requests. In a remote meeting format, written motions shall be emailed to the Clerk of Committees and/or City Clerk for distribution to the Council through the appropriate and available electronic means.

Rule 42 A question containing two or more propositions capable of division shall be divided whenever any member so requests and is confirmed by majority vote.

Rule 43 No motion or proposition of a subject different from that under consideration shall be admitted under the color of any amendment.

Rule 43A Any member may move the consideration of any report of committee out of the order said report appears on the agenda, subject to the unanimous consent of the Council.

Rule 44 When a vote has been taken, except those enumerated in Rule 45, it shall be in order for any member voting on the prevailing side to move a reconsideration thereof at the same meeting at which such vote was taken, or to file with the City Clerk notice of a motion to reconsider such vote within twenty-four (24) hours from the taking of the same. When a motion to reconsider has been decided, that vote shall not be reconsidered and, unless two-thirds (2/3) of the members of the Council are present, a motion to reconsider shall be laid upon the table until the next meeting of the Council.

A notice of a motion to reconsider filed with the City Clerk shall be regarded in the same manner as if a motion to reconsider had been made while the Council was in regular session and, except

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

as hereinbefore provided, shall be called up by the member filing such notice, or by some other member of the Council, at the next regular meeting, or at any intervening special meeting provided the same is included in the call thereof.

Whenever notice of a motion to reconsider has been filed, as aforesaid, the City Clerk shall notify all the members of the Council. No notice of a motion to reconsider may be withdrawn except by a majority vote of the Council. No notice of a motion to reconsider may be filed with respect to any. Order, Ordinance, Petition, Resolution, or Remonstrance or vote acted upon at the final meeting of the term to which the members of any Council may have been elected.

Rule 45 No vote on any of the following motions shall be reconsidered:

1. To Adjourn
2. To Lay on the Table
3. To Take from the Table
4. To the Previous Question
5. To Reconsider

APPEAL

Rule 46 No appeal from any decision of the President shall be entertained unless it is duly seconded, and no other business shall be in order until the question on the appeal has been decided by a majority vote of the Council. The question shall be put as follows: *"Shall the decision of the Chair stand as the judgment of the Council"*?

USE OF COUNCIL CHAMBER

Rule 47 The use of the Council Chamber, or the Council Committee Room, shall not be granted to any person or organization without the permission of the President. Said request shall be in writing, and the Clerk of Committees shall keep a suitable calendar noting the permitted uses thereon.

CAUCUS & ELECTION OF PRESIDENT

Rule 48 The City Council shall, on the first Monday in December of each year, nominate a President for the ensuing year. Notice of the holding of the Caucus herein provided shall be sent to each member qualified to vote therein not less than four (4) days before the date thereof.

Such Caucus shall be held in the Council Chamber; shall be called to order by the President Pro Tempore; shall include a period for public comment and shall be conducted in accordance with the rules of the Council pertaining to the conduct of regular meetings. Notice of the Caucus shall be posted, and the Caucus shall be held in public session. The President Pro Tempore shall call upon the City Clerk to conduct the Caucus, tally votes, and announce the results. Nominations, as aforesaid, shall be followed by a Roll Call vote, each member present answering to their name when called by the City Clerk, stating the name of the person for whom they vote, or that they decline to vote. The vote of the majority of all the members of the Council shall be necessary to

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

so nominate a President. Upon being elected, the prior President shall escort the newly-elected President to the rostrum.

A current member with the intention of pursuing the presidency shall state so publicly at any prior meeting of the full Council before the scheduled caucus.

The nomination of a President shall be a non-binding vote. The formal election of the President shall take place at the first meeting in January next following. Before a final vote commences, all nominees shall be required to make a public statement regarding their candidacy, at the first meeting in January, which shall not exceed five (5) minutes in length. The conduct of the election shall follow the process of the Caucus.

MISCELLANEOUS

Rule 49 Any rule may be suspended by an affirmative vote of two-thirds (2/3) of the members of the Council present. When a motion to suspend a rule is made, the specific rule for which suspension is sought must be cited in the motion and the reason stated on the record.

Any rule may be amended or repealed by a vote of a majority of all the members of the Council, but the motion for such purpose shall not be made and acted upon at the same meeting. All motions for amendments to these rules shall be in writing and copies thereof shall be sent to each member by the City Clerk before final action thereon.

Rule 50 The Council shall be governed by Robert's Rules of Order, in all questions of parliamentary procedure not provided for by special rules of order.

Rule 51 In order to promote fair and open discussion, once a public hearing is called to order, the presiding officer shall recognize members of the public who may speak in the order of recognition. Public hearings shall not be divided into time periods for proponents and opponents to speak.

Rule 52 In the event the Council must elect a person to complete the term of a Councilor in accordance with Section 2-11 (c) of the City Charter, the procedure for filling such vacancy shall be as follows:

1. Notice shall be given by immediate publication once in a newspaper of local circulation and for not less than two (2) weeks on the City's website homepage that the vacancy exists and that are placement is being sought.

2. Individuals interested in filling the vacancy (hereinafter "Applicants") shall be requested to contact the Clerk of Committees. By the close of business of the 14th day following publication in a newspaper of local circulation, applicants shall submit a letter of intent and resume to the Clerk of Committees.

3. Applicants who have complied with Rule 52, Section 2 above shall be invited to a meeting of the full Council, at which time all applicants will be given an opportunity to address the Council. At that time, Applicants will be afforded up to 10 minutes to make a statement; and Councilors will have the opportunity to ask questions of the Applicants.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

4. After all applicants have been given an opportunity to address the Council, an election shall be conducted.

5. In order to be eligible for election, an Applicant must have their name placed in nomination and must receive a second.

6. The voting shall be public with each member of the Council stating the name of the Applicant for whom they are voting.

7. The first Applicant to receive six (6) votes shall be elected pursuant to Section 2-11(c) of the City Charter.

8. If there is more than one Applicant and no Applicant receives six (6) votes on the first ballot, the two (2) individuals who receive the most votes shall move to a second ballot. The other Applicants shall be eliminated. In the event that there is a tie for either of the top two spots, any individual in such a tie shall move on to a second ballot.

9. In the event that no Applicant receives six (6) votes after at least five (5) ballots, the Council may place the order on the table and continue with the process at the next regularly scheduled meeting of the full Council.

Rule 53 Whenever the President, or a member of the Council appointed by the President or Mayor to serve on a committee, commission, council, board or other working group, attends a meeting of such committee, commission, council, board or other working group, that member shall report back at the next regular meeting of the Council as to the actions taken on all matters on the agenda of said body.

Rule 54 In the event of a vacancy in the position of the City Clerk or Clerk of Committees, the President of the Council shall appoint a nominating committee of three (3) Councilors. The nominating committee will cause any such vacancy to be posted, will review applicant resumes, and conduct interviews. Thereafter, the nominating committee shall recommend up to three (3) candidates for consideration by the full Council.

Rule 55 When a standing committee votes to move forward any Order, Ordinance, Petition, Resolution or Remonstrance to the full Council on the preceding Thursday before a full Council meeting, the City Clerk shall, on the next business day, update the meeting agenda of the full Council to include the committee's recommendation. The updated agenda shall be posted in accordance with the provisions of Rule 8.

Rule 56 All correspondence from members of the public submitted in writing to the Council in connection with any matter before the full Council or committee thereof shall be publicly available; such correspondence shall be automatically attached to the order in question by the City Clerk or Clerk of Committees and shall not require a vote of the full Council or any committee thereof.

Correspondence relating to a matter, when submitted to the Council at least twenty-four hours (24) prior to a scheduled meeting on said matter, shall be attached to the order before the start of

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

the meeting; correspondence submitted thereafter shall be attached to the order no later than forty-eight 48 hours from the time of adjournment.

The City Clerk shall redact the e-mail address and phone number of any member of the public who submits correspondence to the Council before any such correspondence is attached to the order.

Rule 57 The final disposition of all Orders, Ordinances, Petitions, Resolutions, and Remonstrances for a given fiscal year shall be posted to the City Council section of the City's webpage by the City Clerk within 48 hours of a measure having been disposed. The public posting of dispositions, hereinafter known as the Legislative Disposition List, shall include the following information for all disposed matters: 1) the title of the filing; 2) the filing number; 3) the name of the Councilor who sponsored the filing; 4) the names of any co-sponsors; 5) how each Councilor voted on the matter; 6) the outcome of the vote; and 7) the date of disposition.

The Legislative Disposition List shall be maintained in the order that matters are disposed.

Rule 58 When a virtual meeting occurs, public participation shall be enabled in accordance with Rule 29A, whenever feasible.

Councilors must utilize a video feed when participating in a virtual meeting. In the event that a Councilor loses video and audio feed during a meeting, no vote shall occur on any matter until after such time that a recess has occurred in order to troubleshoot the problem. If the Councilor's video and audio feed has not been reestablished within 15 minutes of recessing, the members shall decide whether to proceed with a vote.

If the City Clerk loses video and audio feed during a meeting, the Clerk of Committees shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a meeting, the committee Vice Chair shall call the roll and record all votes. If the Clerk of Committees loses video and audio feed during a full Council meeting, the City Clerk shall read all orders of business into the record.

When a remote meeting of the full Council or committee thereof occurs, the City Clerk or Clerk of Committees shall admit any member of the administration or other participant to the meeting as directed by the presiding officer. No member of the administration or other participant shall be admitted without the approval of the presiding officer. Members of the administration or other participants shall remain in the virtual meeting room until such time that the presiding officer determines that their presence is no longer needed.

Members of the administration or other participants appearing before the Council in a remote format must utilize a video feed to the extent possible.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMENTARY

Rule 4

Commentary: In legislative bodies at all levels of government, a recognized officer, usually the longest-serving member, serves as President Pro Tempore. Although not recognized by this title in the last iteration of the Rules of Order, the longest-serving member has historically presided over the Council in the President's absence. This new rule removes the requirement that the Council vote for a temporary presiding officer each time the President is unable to fulfill their duties, affording deference to the most experienced Councilor to preside over the body.

Rule 7A

Commentary: This rule delineates and streamlines the structure of supervision as it relates to the City Clerk.

Rule 8

Commentary: The Massachusetts Open Meeting Law requires public bodies to provide *at least* 48-hours' notice to the public when a meeting will be held. This amended rule requires that notice of a City Council meeting or committee thereof is posted at least 72-hours in advance of a meeting -- an affirmative step at promoting greater transparency in City government by extending the period of time for which the public is given notice. This rule does not prohibit the updating of agendas or agenda packets after the initial posting so long as any and all updates comport with the Open Meeting Law.

Rule 13

Commentary: This rule recognizes that inquiry, debate, and discussion are separate and distinct parts of the legislative process. Historically, the cap on how much time a Councilor was allowed to speak on a given matter had been defined in an arbitrary way; moreover, the cap failed to recognize the nuances of a deliberative public process, having a stifling effect on Councilors, especially the sponsors of an order. This rule sets parameters for how much time a member can occupy when speaking on a particular matter, while accounting for the different stages of a matter under examination and allotting appropriate time for each stage. It also affords the President the flexibility to grant a member additional time, when leave has been requested by that member.

Rule 28

Commentary: This rule delineates and streamlines the structure of supervision as it relates to the Clerk of Committees.

Rule 32

Commentary: This rule is meant to compel the administration to provide the City Council with

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

all documents and other materials related to an order filed by the Mayor at least 48-hours' in advance of a meeting. Recognizing that no Councilor should be forced to proceed on a matter for which they have not been given adequate time to prepare, a minority of Councilors may vote to postpone the consideration of a matter by invocation of this rule.

Rule 35

Commentary: This amended rules prevents the fast-tracking of legislative matters by ensuring that a final vote does not occur by the full Council on the same evening that a matter is voted out of Committee. The intent of this rule is that pending legislation remains in the public eye for a longer period of time. With a showing of good cause, however, any Councilor may move to pull a matter from Committee on the same evening when it was voted out of Committee. This provision accounts for items that may be time sensitive in nature.

Rule 48

Commentary: The selection of a President is more than a procedural exercise determining the leadership of the Council. As the City Charter designates the President to assume the duties of Mayor during the Mayor's temporary absence, as well as to fill the unexpired term of the Mayor should the Mayor resign or no longer be able to execute the duties of the office, choosing a President must be a transparent and deliberative public process. Any Councilor seeking the presidency should have to state their interest at an earlier public meeting and, after being duly nominated at caucus, be required to state publicly the reasons for their candidacy before any vote occurs.

Rule 55

Commentary: For any matter voted out of Committee on the Thursday preceding the Monday meeting of the full Council, that matter should, in the spirit of transparency, be added to Monday's meeting agenda that next business day. Failure to provide notice of a matter scheduled for a final vote is an opaque, administrative practice that only works to discourage access and participation by the public. This amended rule is an antidote to that.

Rule 56

Commentary: This rule makes clear that any written or electronic correspondence submitted by a member of the public in connection with a matter pending before the council be automatically attached to the order and included in the meeting agenda packet, without requiring a vote of the Council. It further recognizes that the public has the right to know when correspondence connected to any matter under consideration has been directed to the Council, and how such correspondence may or may not influence decisions made by the body.

Rule 57

Commentary: The intent of this rule is to create a centralized, on-line location so that the public can easily access and review all legislative matters disposed in a given year, whether in committee or by the full Council. A clearinghouse of this kind offers the public unfettered

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

access to the legislative voting record, avoiding the unnecessary and cumbersome process of the public having to navigate IQM2 to peruse meeting minutes in order to determine the outcome of a vote.

Rule 58

Commentary: This rule establishes protocols governing how business will be conducted during virtual meetings of the City Council or a committee thereof.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

INFORMATION ITEM 2022-2

Order for an Update on the Status of Covid-19 in Melrose (ID # 9548)

BE IT ORDERED, pursuant to Section 2-7 of the Melrose City Charter, that the Health Director appear before the City Council to provide an update on the status of Covid-19 in the City of Melrose. In particular, this order seeks information regarding the City's efforts to monitor and mitigate the spread of Covid-19 in our community, including but not limited to the metrics that the city is following, the roll out of the citywide mask mandate, health protocols in place for all public-facing city staff, and/or plans for vaccine requirements.

This update will not include mitigation efforts at the Melrose Public Schools, as it is not under the jurisdiction of the Council.

Submitted by

Councilor Leila B. Migliorelli, At-Large
Councilor Maya Jamaleddine, At-Large
Councilor Jen Grigoraitis, Ward 6

COMMENTS - Current Meeting:

Health Director Anthony Chui appears to discuss the ongoing efforts to address the pandemic; there has been a surge with between 59-70% of active cases attributed to the Omicron variant. Delta is prevalent as well. Still seeing hospitalizations and folks struggling with the virus; this is still serious. We are in good shape in vaccinations with 80% vaccinated in Melrose. Room for improvement in administering boosters. Going to be promoting need to get vaccine and booster as well as provide additional clinics with the state. The indoor mask mandate was recently reinstalled to prevent spread. Messaging mask quality - cloth masks alone are not as useful in preventing transmission as 3 ply or N95's or KN95's. Positive rate is currently 13%, a number we haven't seen since beginning of Covid however hospitalizations have not increased. It is believed these numbers are undercounted as there is no state reporting mechanism for home positive test results.

Councilor Migliorelli ("LM") asks about the statewide procurement program for antigen test kits. Director Chui ("AC") is looking at different vendors as well as the state program so there will be procurement through a combination of both. LM -How many kits are anticipated and has there been a bulk purchase for staff? AC - minimum order number will be forthcoming; as well as a distribution plan. Some of the mask supply was distributed first to businesses. Employees may also get masks. LM - Do all departments have access to masks? AC - either from us or they may

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

place an order. LM - any other city-wide restrictions anticipated? AC - not at this time. LM - asks about booster rate. AC - to align with CDC and DPH guidelines we have to allow time for people to obtain the vaccine/booster. Reviews the guidelines.

Councilor Jamaleddine ("MJ") asks if the vaccination rate for employees is known. AC - not at this time but we're looking at data collection. MJ - Is a vaccination mandate on the table? AC- not at this moment. MJ - There is no certainty that the city employee I am dealing with is vaccinated like an responding officer. AC - Hypothetically if there were an emergency we could not guarantee the person was vaccinated. We mandate masks for all employee interactions. MJ - Is there consideration for supporting our elderly population in test education? AC - a plan is being developed for equitable distribution for those who do not have ready access, for example the senior population. Working with Mystic Valley Health, our social worker and the Council on Aging to be sure seniors have access and that they are using them correctly. MJ - Is our nurse assisting our older adults? AC - the public health nurse is doing lot of city wide education and she will be working with the new public health specialist. They should be able to help reach this group and help with education. MJ - is testing offered to city employees? AC - we don't have any community PCR sites but are ordering at-home tests. MJ - is Melrose/Wakefield hospital an option? AC - we are in discussion on collaborating.

Councilor Grigoraitis ("JG") asks about the City's three prong approach of masking, testing, vaccines -currently adults entering Melrose public schools (teachers, custodians, health staff, school resource officers) have to either show proof of vaccination or submit to weekly testing. Seeks to understand why this is in place at school but not for all municipal buildings like the library, senior center. From a public health perspective how are these different situations? AC - We were separating schools from the community and are discussing whether this is sustainable. Looking at different employee mandate options. JG - Is there a timeline? We're at 13% positive rate and it is probably too late for Omicron. As you hire the new public health nurse are asking vaccination status? AC - clarifies that the COVID nurse position is a school floater position. We are looking at vaccination status of new as well as current employees. We aren't looking to drag this out. JG - asks about mitigating community efforts are capacity limits on the table. AC - not at this time. JG- we ask students testing positive on an antigen test to self report. Are we also asking residents to do the same? AC - The school environment is much more controlled. For the general community it is a struggle to operationally collect the positive data via MAVEN. Cannot link close contact within this system and track positive at-home antigen tests. JG - Are negative antigen test results are being discussed for municipal staff similar to students? Right now city hall staff are able to return to work on day 6 following a positive test without a negative test? AC - symptoms are the indicator; if someone has symptoms they are asked to stay home

Councilor Stewart offers feedback regarding Health Department communication. Exercise caution and be crystal clear, particularly that directed to parents regarding change in school policy. When an email is unclear it can create more noise than necessary. Offers assistance.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Councilor Eccles ("JE") clarifies vaccination status of job applicants - is status required now? AC - no. JE - concerned with Melrose becoming a place where unvaccinated people apply to work. Wants all employees to feel safe.

Councilor Garipay ("MG") asks for details on how the vaccine clinics work, what is the process with the state? AC - trying to find balance with state. The vax bus can be brought to the community and has now come to Melrose congregant housing. We were able to provide 2, 000 boosters and are determining what group has the most need at this time. Looking at regional events with surrounding communities to share resources like staff.

Councilor Karamcheti ("MK") asks if deeper analytics are available regarding the positive cases to determine needed support? AC - some of the state data is detailed and they are examining it to see where the need is?

Councilor Williams ("RW") asks if a public testing program is being considered? AC - working with the state to provide a resource that will be Melrose region specific. Currently testing is being done by private companies - CVS, Walgreens, Square One.

ELECTION WARRANT

The Commonwealth of Massachusetts

NORTHEAST METROPOLITAN REGIONAL VOCATIONAL SCHOOL DISTRICT

Middlesex, ss.

To the registered voters of the City of Chelsea, the City of Malden, the City of Melrose, the Town of North Reading, the Town of Reading, the City of Revere, the Town of Saugus, the Town of Stoneham, the Town of Wakefield, the Town of Winchester, the Town of Winthrop and the City of Woburn, Massachusetts

GREETINGS:

You are hereby notified and warned that the inhabitants of the City of Chelsea, the City of Malden, the City of Melrose, the Town of North Reading, the Town of Reading, the City of Revere, the Town of Saugus, the Town of Stoneham, the Town of Wakefield, the Town of Winchester, the Town of Winthrop and the City of Woburn, registered to vote in any of said cities or towns, as the case may be, are to meet at their respective polling places, to wit,

> In the CITY OF CHELSEA at Chelsea City Hall, City Council Chambers, 500 Broadway, Chelsea, in the CITY OF MALDEN at the Senior Center Auditorium, 7 Washington Street, Malden, in the CITY OF MELROSE at the Middle School Gym Complex, 90 Melrose Street, Melrose, in the TOWN OF NORTH READING at St. Theresa's Church, 51 Winter St, North Reading, in the TOWN OF READING at Reading Memorial High School - Hawkes Field House - 62 Oakland Road, Reading, in the CITY OF REVERE at St. Anthony's Church, 250 Revere Street, Rear Entrance, Revere, in the TOWN OF SAUGUS at Saugus Senior Center 466 Central Street, Saugus, in the TOWN OF STONEHAM at Stoneham Town Hall, 35 Central Street, Stoneham, in the TOWN OF WAKEFIELD at Galvin Middle School, 525 Main Street, Wakefield, in the TOWN OF WINCHESTER at Winchester Town Hall, 71 Mt. Vernon Street, Winchester, in the TOWN OF WINTHROP at Old Middle School Gym, 151 Pauline Street, Winthrop, Robert DeLeo Senior Center, 35 Harvard St., Winthrop, and O'Connell Hall, 9 Golden Drive, Winthrop, and in the CITY OF WOBURN at Old Wyman Elementary School, Main Street and Eaton Avenue, Woburn.

On January 25, 2022 from 11:00 o'clock AM to 6:00 o'clock PM, to vote by BALLOT on the following question:

"Do you approve of the vote of the Regional District School Committee of the Northeast Metropolitan Regional Vocational School District adopted on December 9, 2021, to authorize the borrowing of $317,422,620 to pay costs of designing, constructing, originally equipping and furnishing a new Northeast Metropolitan Regional Vocational School and related athletic facilities, located at 100 Hemlock Road in Wakefield, Massachusetts, including the payment of all costs incidental and related thereto, which vote provides, in relevant part, as follows:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VOTED: That the Northeast Metropolitan Regional Vocational School District (the "District") hereby appropriates the amount of $317,422,620 for the purpose of paying costs of designing, constructing, originally equipping and furnishing a new Northeast Metropolitan Regional Vocational School and related athletic facilities, located at 100 Hemlock Road in Wakefield, Massachusetts 01880, including the payment of all costs incidental and related thereto (the "Project"), which school facility shall have an anticipated useful life as an educational facility for the instruction of school children of at least 50 years, and for which the District may be eligible for a school construction grant from the Massachusetts School Building Authority ("MSBA"), said amount to be expended at the direction of the School Building Committee. To meet this appropriation, the District is authorized to borrow said amount, under and pursuant to Chapter 703 of the Acts of 1962, as amended, G.L. c. 71, §16(n) as authorized by G.L. c. 71, §14D, and the District Agreement, as amended, or pursuant to any other enabling authority. The District acknowledges that the MSBA's grant program is a non-entitlement, discretionary program based on need as determined by the MSBA, and any Project costs the District incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the District; provided further that any grant that the District may receive from the MSBA shall not exceed the lesser of (1) seventy-six and eighty-four one hundredths percent (76.84%) of eligible, approved Project costs, as determined by the MSBA, and (2) the total maximum grant amount determined by the MSBA, and that the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the District and the MSBA. Any premium received upon the sale of any bonds or notes approved by this vote, less any such premium applied to the payment of the costs of issuance of such bonds or notes, may be applied to the payment of costs approved by this vote in accordance with G.L. c. 44, §20, thereby reducing the amount authorized to be borrowed to pay such costs by a like amount."

Yes _____ No _____

The polls will be open from 11 o'clock AM, to 6:00 o'clock PM.

The District Secretary is hereby directed to serve this Warrant by posting an attested copy thereof in at least one public place in the City of Chelsea, the City of Malden, the City of Melrose, the Town of North Reading, the Town of Reading, the City of Revere, the Town of Saugus, the Town of Stoneham, the Town of Wakefield, the Town of Winchester, the Town of Winthrop and the City of Woburn, and by publishing a copy thereof at least once in a newspaper of general circulation in the District, said posting and publication to occur at least ten days before the day of election as aforesaid.

The District Secretary shall make due return of this Warrant with his or her doings thereon to the District Secretary, on or before the day of the election aforesaid.

[The balance of this page is intentionally blank.]

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Massachusetts Emergency Management Agency (MEMA) grant
Date: January 18, 2022

The City of Melrose has been awarded a grant from the Massachusetts Emergency Management Agency (MEMA): the Emergency Management Performance Grant (EMPG), which we apply for annually, has been awarded in the amount of $6,500 to support the City's emergency preparedness efforts.

The purpose of the EMPG program is to focus on all-hazards emergency preparedness and resilience, and to enhance the four phases of emergency management operations (Planning, Training/Exercising, Response, and Recovery). As has been our usual practice, the requirement for matching funds for this grant award is met through a portion of the Emergency Management Director's salary.

This year's grant will be used to complete the upgrade the Emergency Management Room in City Hall with technology, including wall mounted monitors, computers and accessories, and other furnishings necessary to perform the training center's function, and to support our Emergency Management planning activities.

The Emergency Management Room training center will be available to all City departments for both public safety and routine municipal trainings. During an emergency (for example, a severe weather event) the training center would be used to coordinate emergency operations and monitor Police, Fire, and DEP radios, as well as various public safety websites.

I respectfully request that the City Council accept this grant.

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting **accelerated** payments must identify a PPD as follows: Payment issued within 10 days ___% PPD; Payment issued within 15 days ___% PPD; Payment issued within 20 days ___% PPD; Payment issued within 30 days ___% PPD. If PPD percentages are left blank, identify reason: agree to standard 45 day cycle statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); X only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT:

Funding for this grant is provided via a Federal Fiscal Year 2021 Emergency Management Performance Grant (EMPG) and EMPG Program funding provided under the American Rescue Plan Act (ARPA), CFDA #97.042 and has a required dollar-for-dollar match. Funds will only be used for activities outlined in the subrecipient's approved FFY2021 application and in accordance with attached Federal Terms and Conditions, and MEMA Special Conditions and Reporting Requirements.

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

X 1. may be incurred as of the Effective Date (latest signature date below) and no obligations have been incurred prior to the Effective Date.
__ 2. may be incurred as of_____, 20 , a date LATER than the Effective Date below and no obligations have been incurred prior to the Effective Date.
__ 3. were incurred as of_____, 20 , a date PRIOR to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of **June 30, 2022,** with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, this Standard Contract Form, the Standard Contract Form Instructions, Contractor Certifications, the applicable Commonwealth Terms and Conditions, the Request for Response (RFR) or other solicitation, the Contractor's Response, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

Meeting Date: January 18, 2022
Subject: Reappointment of Joanne Perperian as Assistant City Clerk
Order #: ORDER-2022-62

Dear Honorable City Council:

In accordance with Article I section 56-10 of the City Charter, it is my pleasure to recommend the reappointment of Ms. Joanne Perperian, of 357 Porter Street, Melrose, as Assistant City Clerk for a one year term; ending the first Monday in February, 2023. Ms. Perperian is a superior employee serving both residents and colleagues alike with competence, compassion and a sense of collaborative purpose. She is an invaluable asset to the office and the City of Melrose overall.

Respectfully,
Kristin Foote, City Clerk

PAUL BRODEUR
Mayor

City Hall, 562 Main Street
Melrose, Massachusetts
02176
Telephone - (781) 979-4440

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Municipal ADA Improvement Grant
Date: January 18, 2022

The City of Melrose has been awarded a grant in the amount of $54,918 from the Massachusetts Office on Disability's Municipal ADA Improvement Grant program. These grant funds must be expended by June 30, 2022, and there is no match required.

The purpose of this grant is to allow the City to hire a consultant to complete an ADA Self-Evaluation and Transition Plan. The goal is evaluate the City's services, policies, and practices, including physical access of City owned buildings. The scope of the evaluation will include the following physical structures:

- City Hall
- Memorial Hall
- Public Library
- Milano Center
- Beebe Estate
- Fire stations (3)
- City Yard
- Wyoming Cemetery
- McCarthy House (senior housing)
- Steele House (senior housing)
- Mt Hood Park Building
- School Buildings (9 total)

The Self-Evaluation will also include an examination of policies and procedures to determine whether they ensure an equal opportunity for people with disabilities to participate and benefit from the City's services, activities, and programs. This will include in part a review of the city's website accessibility.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The Self-Evaluation process will engage City personnel from various departments and the public schools to gather information and get input from the public. This will be done via outreach conducted by the City of Melrose Commission on Disability through public meetings, community surveys, and social media. In addition, targeted outreach will be conducted to community groups, such as the Council on Aging, Special Education Parents' Advisory Group, veteran's groups, Human Rights Commission, Chamber of Commerce, Biking and Pedestrian Committee, and others.

Upon completion of the Self-Evaluation, a Transition Plan will be developed that will include the following:

- A list of the physical barriers that limit accessibility of programs, activities, or services.
- Methods to remove the barriers and make the facilities accessible.
- Estimated costs and time schedule for work completion.

For each facility, the most substantial access issues and order of magnitude will be identified. The transition plan will also include a spreadsheet of priorities for corrective action.

In addition to facilities, the Transition Plan will include a review of policies, practices and procedures to determine compliance with the requirements of the ADA, with a goal of providing recommendations that result in a more usable, inclusive, and welcoming environment for the Melrose community. Examples of policies and procedures to be addressed are requesting reasonable accommodations and modifications for City meetings and events, and ensuring ease of making such requests, equally effective communication, etc.

The City last conducted a Self-Evaluation and developed a Transition Plan in 1996. This comprehensive plan focused primary on access of facilities and buildings, with limited examination of policies and procedures. Many of the issues identified were subsequently addressed. It is clearly time to develop an updated Self-Evaluation and Transition Plan, based on changes and developments over the past 25 years, including: a) changes to the ADA and other laws and codes; b) changes in best practices for accessibility; c) changes to buildings and facilities within the City, including aging of existing facilities, renovations, and new construction; d) the emergence of electronic information sharing and use of the internet as a primary information source.

I respectfully request that the City Council accept this grant in order to allow this important and timely work to move forward.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH OF MASSACHUSETTS ~ STANDARD CONTRACT FORM

This form is jointly issued and published by the Office of the Comptroller (CTR), the Executive Office for Administration and Finance (ANF), and the Operational Services Division (OSD) as the default contract for all Commonwealth Departments when another form is not prescribed by regulation or policy. DENISE GAFFEY
City Planner

To: Mayor Paul Brodeur
From: Denise Gaffey
Meeting Date: January 18, 2022
Subject: Hoover and Horace Mann Roof Replacements
Order #: ORDER-2022-64

I respectfully request that the Honorable City Council enact the following order:

BE IT ORDERED by the Melrose City Council that the City of Melrose appropriate the amount of Seventy Five Thousand ($75,000) Dollars for the purpose of paying costs of the Feasibility Study and Schematic Design for Roof Replacement Projects at the Herbert Clark Hoover Elementary School at 37 Glendower Road, Melrose, Massachusetts, and the Horace Mann Elementary School at 40 Damon Avenue, Melrose, Massachusetts, including the payment of all costs incidental or related thereto, and for which the City of Melrose may be eligible for a grant from the Massachusetts School Building Authority ("MSBA"), said amount to be expended under the direction of the Mayor. To meet this appropriation the City Council, with the approval of the Mayor, is authorized to borrow said amount under and pursuant to M.G.L. Chapter 44, or pursuant to any other enabling authority. The City of Melrose acknowledges that the MSBA's grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and any costs the City of Melrose incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the City of Melrose, and that the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the City of Melrose and the MSBA.

Re: City of Melrose, Herbert Clark Hoover Elementary School, Horace Mann Elementary School

Dear Mayor Brodeur:

I am pleased to report that on October 27, 2021, the Board of Directors (the "Board") of the Massachusetts School Building Authority (the "MSBA") voted to invite the City of Melrose (the "City") into the Accelerated Repair Program (the "ARP") to partner with the MSBA in conducting a Schematic Design Study at the Herbert Clark Hoover Elementary School for a potential roof replacement project and at the Horace Mann Elementary School for a potential roof replacement project.

I do want to emphasize that this invitation to partner on a Schematic Design Study is ***not*** approval of a project but is strictly an invitation to the City to work with the MSBA to explore potential solutions to the building needs that have been identified. Moving forward in the MSBA's ARP process requires a partnership with the MSBA, and communities that "get ahead" of the MSBA without MSBA approval will not be eligible for grant funding. To qualify for any funding from the MSBA, local communities must follow the MSBA's statute, regulations, and policies, including the ARP requirements, which require MSBA partnership and approval at each step of the process.

The ARP will focus on the preservation of existing assets by performing energy-efficient and cost-saving upgrades, which will result in direct operational savings for school districts. Districts that are invited into the ARP will be required to use Owner's Project Managers and Designers who are pre-selected and randomly assigned by the MSBA and must also adhere to other requirements that are unique to this program, such as implementing an accelerated project schedule and complying with the MSBA's reimbursement dollar thresholds. Districts will be expected to complete a Schematic Design Study and receive authorization for a Project Funding Agreement by the Board of Directors no later than 12 months from Program invitation. Districts seeking reimbursement under the ARP will be allowed to submit requests for reimbursement monthly, but only if the total value of the invoices being submitted equals more than $50,000.

During the Schematic Design Study phase, the MSBA will partner with the City and its assigned Owner's Project Manager and Designer to find the most fiscally responsible, educationally appropriate and sustainable solution to the building needs identified at the Herbert Clark Hoover

Elementary School and the Horace Mann Elementary School. If during the Schematic Design Study phase, the City determines that the potential project does not meet the qualifying criteria of the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Board's invitation, the City will be required to remove its Statement of Interest and will not be authorized for a Project Funding Agreement for the project. For the 2021 ARP, the qualifying criteria included roofs of 29 years or more (installed in or before 1992), window and door systems of 30 years or more (installed in or before 1991) and boiler systems of 29 years or more (installed in or before 1992).

The City must complete several pre-requisites prior to beginning work with its consultants. Please submit the following information to the MSBA by no later than the date listed below in order to fulfill these pre-requisites:

- a current routine and capital maintenance plan for the City's school facilities, to be submitted electronically using the MSBA web-based tool (submit prior to February 25, 2022); and,
- an Initial Compliance Certification (attachment to this letter) executed by the City to ensure that the City understands and will comply with the MSBA's requirements and regulations (submit prior to February 25, 2022).

The City must approve funding for the Feasibility Study/Schematic Design portion of this potential project by January 28, 2022. Submission of the properly certified documentation that the City has appropriated its funding should be submitted to the MSBA prior to February 25, 2022. Future funding for the total project budget will be required within 90 days after the date of the MSBA's approval of the project scope and budget.

Once the City has completed the pre-requisites listed above according to the MSBA's standards, the MSBA will assign an Owner's Project Manager and Designer using the MSBA's list of pre-selected and randomly assigned consultants for the ARP. In the meantime, I wanted to share with you the Board's decision and provide a brief overview of what this means for the City of Melrose.

I look forward to continuing to work with you as part of the MSBA's Accelerated Repair Program. As always, feel free to contact me or my staff at (617) 720-4466 should you have any questions.

Sincerely,

John K. McCarthy

Subject: Acceptance of MassEVIP Grant
Order #: ORDER-2022-57

The City of Melrose has been awarded a grant in the amount of $12,093.60 from the Massachusetts Department of Environmental Protection to acquire one electric vehicle charging station under the Massachusetts Electric Vehicle Incentive Program (MassEVIP) Workplace & Fleet (WPF) Charging Program. The proposed charging station equipment, installation, and network software license as described in the attached quote will be attached to the garage at the Melrose Police Station for the purpose of charging police fleet vehicles only. It will not be available for public use.

The balance of the cost of installing the charging station is $10,692.40 and will be funded from DPW Facilities Budget.

We seek City Council approval to accept the MassEVIP award and execute the attached contract. Please let me know if you need any further information.

COMMONWEALTH TERMS AND CONDITIONS

This Commonwealth Terms and Conditions form is jointly issued by the Executive Office for Administration and Finance (ANF), the Office of the Comptroller (CTR) and the Operational Services Division (OSD) for use by all Commonwealth of Massachusetts ("State") Departments and Contractors. ***Any changes or electronic alterations by either the Department or the Contractor to the official version of this form, as jointly published by ANF, CTR and OSD, shall be void.*** Upon execution of the Standard Contract Form these Commonwealth Terms and Conditions will be incorporated by reference. Performance shall include services rendered, obligations due, costs incurred, commodities and deliverables provided and accepted by the Department, programs provided or other commitments authorized under a Contract. A deliverable shall include any tangible product to be delivered as an element of performance under a Contract. The Commonwealth is entitled to ownership and possession of all deliverables purchased or developed with State funds. Contract shall mean the Standard Contract Form issued jointly by ANF, CTR and OSD.

1. *Contract Effective Start Date.* Notwithstanding verbal or other representations by the parties, the effective start date of performance under a Contract shall be the later of the date the Contract was executed by an authorized signatory of the Contractor, the date the Contract was executed by an authorized signatory of the Department, the date specified in the Contract, or the date of any approvals required by law or regulation.

2. *Payments And Compensation.* The Contractor shall only be compensated for performance delivered and accepted by the Department in accordance with the specific terms and conditions of a Contract. All Contract payments are subject to appropriation pursuant to M.G.L. c. 29, § 26, or the availability of sufficient non-appropriated funds for the purposes of a Contract, and shall be subject to intercept pursuant to M.G.L. c. 7A, § 3 and 815 CMR 9.00. Overpayments shall be reimbursed by the Contractor or may be offset by the Department from future payments in accordance with state finance law. Acceptance by the Contractor of any payment or partial payment, without any written objection by the Contractor, shall in each instance operate as a release and discharge of the State from all claims, liabilities or other obligations relating to the performance of a Contract.

3. *Contractor Payment Mechanism.* All Contractors will be paid using the Comptroller's payment system unless a different payment mechanism is required. The Contractor shall timely submit invoices and supporting documentation as prescribed in a Contract. The Department shall review and return rejected invoices within fifteen (15) days of receipt with a written explanation for rejection. Payments shall be made in accordance with the bill paying policy issued by the Office of the Comptroller and 815 CMR 4.00, provided that payment periods listed in a Contract of less than forty-five (45) days from the date of receipt of an invoice shall be effective only to enable a Department to take advantage of early payment incentives and shall not subject any payment made within the forty-five (45) day period to a penalty. The Contractor Payroll System shall be used only for Individual Contractors who have been determined to be Contract Employees as a result of the Department's completion of an Internal Revenue Service SS-8 form in accordance with the Omnibus Budget Reconciliation Act (OBRA) 1990, and shall automatically process all state and federal mandated payroll, tax and retirement deductions.

4. *Contract Termination Or Suspension.* A Contract shall terminate on the date specified in a Contract, unless this date is properly amended in accordance with all applicable laws and regulations prior to this date, or unless terminated or suspended under this Section upon prior written notice to the Contractor. The Department may terminate a Contract without cause and without penalty, or may terminate or suspend a Contract if the Contractor breaches any material term or condition or fails to perform or fulfill any material obligation required by a Contract, or in the event of an elimination of an appropriation or availability of sufficient funds for the purposes of a Contract, or in the event of an unforeseen public emergency mandating immediate Department action. Upon immediate notification to the other party, neither the Department nor the Contractor shall be deemed to be in breach for failure or delay in performance due to Acts of God or other causes factually beyond their control and without their fault or negligence. Subcontractor failure to perform or price increases due to market fluctuations or product availability will not be deemed factually beyond the Contractor's control.

5. *Written Notice.* Any notice shall be deemed delivered and received when submitted in writing in person or when delivered by any other appropriate method evidencing actual receipt by the Department or the Contractor. Any written notice of termination or suspension delivered to the Contractor shall state the effective date and period of the notice, the reasons for the termination or suspension, if applicable, any alleged breach or failure to perform, a reasonable period to cure any alleged breach or failure to perform, if applicable, and any instructions or restrictions concerning allowable activities, costs or expenditures by the Contractor during the notice period.

6. *Confidentiality.* The Contractor shall comply with M.G.L. c. 66A if the Contractor becomes a "holder" of "personal data". The Contractor shall also protect the physical security and restrict any access to personal or other Department data in the Contractor's possession, or used by the Contractor in the performance of a Contract, which shall include, but is not limited to, the Department's public records, documents, files, software, equipment or systems.

7. *Record-keeping And Retention, Inspection Of Records.* The Contractor shall maintain records, books, files and other data as specified in a Contract and in such detail as shall properly substantiate claims for payment under a Contract, for a minimum retention period of six (6) years beginning on the first day after the final payment under a Contract, or such longer period as is necessary for the resolution of any litigation, claim, negotiation, audit or other inquiry involving a Contract. The Department shall have access, as well as any parties identified under Executive Order 195, during the Contractor's regular business hours and upon reasonable prior notice, to such records, including on-site reviews and reproduction of such records at a reasonable expense.

8. *Assignment.* The Contractor may not assign or delegate, in whole or in part, or otherwise transfer any liability, responsibility, obligation, duty or interest under a Contract, with the exception that the Contractor shall be authorized to assign present and prospective claims for money due to the Contractor pursuant to a Contract in accordance with M.G.L. c. 106, § 9-318. The Contractor must provide sufficient notice of assignment and supporting documentation to enable the Department to verify and implement the assignment. Payments to third party assignees will be processed as if such payments were being made directly to the Contractor and these payments will be subject to intercept, offset, counter claims or any other Department rights which are available to the Department or the State against the Contractor.

9. *Subcontracting By Contractor.* Any subcontract entered into by the Contractor for the purposes of fulfilling the obligations under a Contract must be in writing, authorized in advance by the Department and shall be consistent with and subject to the provisions of these Commonwealth Terms and Conditions and a Contract. Subcontracts will not relieve or discharge the Contractor from any duty, obligation, responsibility or liability arising under a Contract. The Department is entitled to copies of all subcontracts and shall not be bound by any provisions contained in a subcontract to which it is not a party.

10. *Affirmative Action, Non-Discrimination In Hiring And Employment.* The Contractor shall comply with all federal and state laws, rules and regulations promoting fair employment practices or prohibiting employment discrimination and unfair labor practices and shall not discriminate in the hiring of any applicant for employment nor shall any qualified employee be demoted, discharged or otherwise subject to discrimination in the tenure, position, promotional opportunities, wages, benefits or terms and conditions of their employment because of race, color, national origin, ancestry, age, sex, religion, disability,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH TERMS AND CONDITIONS

handicap, sexual orientation or for exercising any rights afforded by law. The Contractor commits to purchasing supplies and services from certified minority or women-owned businesses, small businesses or businesses owned by socially or economically disadvantaged persons or persons with disabilities.

11. *Indemnification.* Unless otherwise exempted by law, the Contractor shall indemnify and hold harmless the State, including the Department, its agents, officers and employees against any and all claims, liabilities and costs for any personal injury or property damages, patent or copyright infringement or other damages that the State may sustain which arise out of or in connection with the Contractor's performance of a Contract, including but not limited to the negligence, reckless or intentional conduct of the Contractor, its agents, officers, employees or subcontractors. The Contractor shall at no time be considered an agent or representative of the Department or the State. After prompt notification of a claim by the State, the Contractor shall have an opportunity to participate in the defense of such claim and any negotiated settlement agreement or judgment. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph. Any indemnification of the Contractor shall be subject to appropriation and applicable law.

12. *Waivers.* Forbearance or indulgence in any form or manner by a party shall not be construed as a waiver, nor in any way limit the legal or equitable remedies available to that party. No waiver by either party of any default or breach shall constitute a waiver of any subsequent default or breach.

13. *Risk Of Loss.* The Contractor shall bear the risk of loss for any Contractor materials used for a Contract and for all deliverables, Department personal or other data which is in the possession of the Contractor or used by the Contractor in the performance of a Contract, until possession, ownership and full legal title to the deliverables are transferred to and accepted by the Department.

14. *Forum, Choice of Law And Mediation.* Any actions arising out of a Contract shall be governed by the laws of Massachusetts, and shall be brought and maintained in a state or federal court in Massachusetts which shall have exclusive jurisdiction thereof. The Department, with the approval of the Attorney General's Office, and the Contractor may agree to voluntary mediation through the Massachusetts Office of Dispute Resolution (MODR) of any Contract dispute and will share the costs of such mediation. No legal or equitable rights of the parties shall be limited by this Section.

15. *Contract Boilerplate Interpretation, Severability, Conflicts With Law, Integration.* Any amendment or attachment to any Contract which contains conflicting language or has the effect of a deleting, replacing or modifying any printed language of these Commonwealth Terms and Conditions, as officially published by ANF, CTR and OSD, shall be interpreted as superseded by the official printed language. If any provision of a Contract is found to be superseded by state or federal law or regulation, in whole or in part, then both parties shall be relieved of all obligations under that provision only to the extent necessary to comply with the superseding law; provided however, that the remaining provisions of the Contract, or portions thereof, shall be enforced to the fullest extent permitted by law. All amendments must be executed by the parties in accordance with Section 1 of these Commonwealth Terms and Conditions and filed with the original record copy of a Contract as prescribed by CTR. The printed language of the Standard Contract Form, as officially published by ANF, CTR and OSD, which incorporates by reference these Commonwealth Terms and Conditions, shall supersede any conflicting verbal or written agreements relating to the performance of a Contract, or attached thereto, including contract forms, purchase orders or invoices of the Contractor. The order of priority of documents to interpret a Contract shall be as follows: the printed language of the Commonwealth Terms and Conditions, the Standard Contract Form, the Department's Request for Response (RFR) solicitation document and the Contractor's Response to the RFR solicitation, excluding any language stricken by a Department as unacceptable and including any negotiated terms and conditions allowable pursuant to law or regulation.

IN WITNESS WHEREOF, the Contractor certifies under the pains and penalties of perjury that it shall comply with these Commonwealth Terms and Conditions for any applicable Contract executed with the Commonwealth as certified by their authorized signatory signing the Standard Contract Form.

RE: MassEVIP Grant Award

DATE: December 10, 2021

The City of Melrose has been awarded a grant in the amount of $12,093.60 from the Massachusetts Department of Environmental Protection to acquire one electric vehicle charging station under the Massachusetts Electric Vehicle Incentive Program (MassEVIP) Workplace & Fleet (WPF) Charging Program. The proposed charging station equipment, installation, and network software license as described in the attached quote will be attached to the garage at the Melrose Police Station for the purpose of charging police fleet vehicles only. It will not be available for public use.

The balance of the cost of installing the charging station is $10,692.40 and will be funded from the DPW facilities budget.

We seek City Council approval to accept the MassEVIP award and execute the attached contract. Please let me know if you need any further information.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

December 6, 2021

City of Melrose
562 Main Street
Melrose, MA 02176

Dear Martha Grover,

The Massachusetts Department of Environmental Protection (MassDEP) is pleased to announce that City of Melrose has been awarded a grant of $12,093.60 to acquire one electric vehicle charging station(s) under the Massachusetts Electric Vehicle Incentive Program (MassEVIP) Workplace & Fleet (WPF) Charging Program at the following location(s):

- An amount not to exceed $12,093.60 for two ports at 56 W. Foster Street, Melrose, MA.

Contract documents are attached. You will need to sign and return the two that require signatures within **30** business days of receipt. The Grantee is authorized to proceed with the acquisition of the EV charging station(s) with the receipt of this approval letter. The contract documents include:

- *Commonwealth of Massachusetts - Standard Contract Form*, **to be signed** by an authorized signatory;
- *Commonwealth Terms and Conditions*, no signature required;
- *Contractor Authorized Signatory Listing*, **to be signed** by one of the parties specified on the listing;
- *End User Agreement*, no signature required.

Please email scanned copies of documents requiring signatures to MassEVIP.MassDEP@mass.gov and mail originals (wet signature, no copies) to the following address:

MassDEP
Attn: MassEVIP
One Winter Street, 6th Floor
Boston, MA 02108

This information is available in alternate format. Contact Michelle Waters-Ekanem, Director of Diversity/Civil Rights at 617-292-5751.
TTY# MassRelay Service 1-800-439-2370
MassDEP Website: www.mass.gov/dep
Printed on Recycled Paper

MassDEP will execute the *Commonwealth of Massachusetts - Standard Contract Form* and email you a scanned copy for your records

You have up to 6 months from the contract documents' execution date to make the EV charging station operational. You have up to 90 days from the date the EV charging station is operational to request payment by completing and submitting the *End-User Agreement* Attachment A *Payment Request Form* and required attachments. MassDEP will not authorize the payment until receiving a complete *Payment Request Form* and required attachments. Required attachments include:

- Final invoice for EV charging station with line items for individual EV charging station costs.
- Final invoice for EV charging station installation costs.
- Photographs of installed EV charging station. Pictures should clearly show parking spaces, ADA accessible EV parking space and EV designated signage.

The MassEVIP WPF grant can be paid to either the grantee or the equipment vendor, as specified by the grantee. Where possible, MassDEP would prefer to pay the grant to the equipment vendor.

On behalf of Commissioner Suuberg, I want to congratulate City of Melrose for taking this important step towards making Massachusetts a leader in deploying electric vehicle charging equipment and helping the Commonwealth achieve its ambitious climate goals.

If you have any questions or comments regarding MassEVIP or the awarded grant, please contact us at MassEVIP.MassDEP@mass.gov.

Sincerely,

Christine Kirby
Assistant Commissioner
Bureau of Air and Waste

_X_ NEW CONTRACT

PROCUREMENT OR EXCEPTION TYPE: (Check one option only)

__ **Statewide Contract** (OSD or an OSD-designated Department)
__ **Collective Purchase** (Attach OSD approval, scope, budget)
_X_ **Department Procurement** (includes all Grants - 815 CMR 2.00) (Solicitation Notice or RFR, and Response or other procurement supporting documentation)
__ **Emergency Contract** (Attach justification for emergency, scope, budget)
__ **Contract Employee** (Attach Employment Status Form, scope, budget)
__ **Other Procurement Exception** (Attach authorizing language, legislation with specific exemption or earmark, and exception justification, scope and budget)

___ CONTRACT AMENDMENT

Enter **Current Contract End Date *Prior*** to Amendment: _____, **20**___.
Enter **Amendment Amount**: $ _____. (or "no change")

AMENDMENT TYPE: (Check one option only. Attach details of amendment changes.)

__ **Amendment to Date, Scope or Budget** (Attach updated scope and budget)
__ **Interim Contract** (Attach justification for Interim Contract and updated scope/budget)
__ **Contract Employee** (Attach any updates to scope or budget)
__ **Other Procurement Exception** (Attach authorizing language/justification and updated scope and budget)

The Standard Contract Form Instructions and Contractor Certifications and the following Commonwealth Terms and Conditions document are incorporated by reference into this Contract and are legally binding: (Check ONE option): __ Commonwealth Terms and Conditions __ Commonwealth Terms and Conditions For Human and Social Services __ Commonwealth IT Terms and Conditions

COMPENSATION: (Check ONE option): The Department certifies that payments for authorized performance accepted in accordance with the terms of this Contract will be supported in the state accounting system by sufficient appropriations or other non-appropriated funds, subject to intercept for Commonwealth owed debts under 815 CMR 9.00.
__ **Rate Contract.** (No Maximum Obligation) Attach details of all rates, units, calculations, conditions or terms and any changes if rates or terms are being amended.)
_X_ **Maximum Obligation Contract.** Enter total maximum obligation for total duration of this contract (or ***new*** total if Contract is being amended). $ 12,093.60 .

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting **accelerated** payments must identify a PPD as follows: Payment issued within 10 days __% PPD; Payment issued within 15 days __% PPD; Payment issued within 20 days __% PPD; Payment issued within 30 days __% PPD. If PPD percentages are left blank, identify reason: _X_ agree to standard 45 day cycle __ statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); __ only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT: (Enter the Contract title, purpose, fiscal year(s) and a detailed description of the scope of performance or what is being amended for a Contract Amendment. Attach all supporting documentation and justifications.)

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

__ 1. may be incurred as of the Effective Date (latest signature date below) and **no** obligations have been incurred **prior** to the Effective Date.
__ 2. may be incurred as of _____, **20**___, a date **LATER** than the Effective Date below and **no** obligations have been incurred **prior** to the Effective Date.
__ 3. were incurred as of _____, **20**___, a date **PRIOR** to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of **December 6, 2024**, with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, the applicable Commonwealth Terms and Conditions, this Standard Contract Form, the Standard Contract Form Instructions and Contractor Certifications, the Request for Response (RFR) or other solicitation, the Contractor's Response (excluding any language stricken by a Department as unacceptable, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

Print Title: _____.	**Print Title:** Dir. COM Fiscal Management Division _____.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH OF MASSACHUSETTS
AGREEMENT BETWEEN MASSACHUSETTS
DEPARTMENT OF ENVIRONMENTAL PROTECTION
AND CITY OF MELROSE

The *Volkswagen Diesel Emissions Environmental Mitigation Trust for State Beneficiaries, Puerto Rico and the District of Columbia* (VW Trust) was established to settle enforcement actions against Volkswagen (VW) and its subsidiaries[1] after it was discovered that VW illegally installed defeat devices in millions of Volkswagen, Audi, and Porsche diesel vehicles worldwide,[2] causing these vehicles to emit higher-than-allowed amounts of nitrogen oxides (NO_x). The Commonwealth of Massachusetts has been allocated approximately $75 million of these Trust funds and the Massachusetts Department of Environmental Protection (MassDEP) is designated as the Massachusetts lead agency to administer the VW Funds.

This Agreement is entered into by the Commonwealth of Massachusetts, acting through MassDEP, and City of Melrose (Grantee) for the purpose of implementing an Eligible Mitigation Action under the VW Trust to offset excess NO_x emissions resulting from the VW violations and to electrify the Massachusetts transportation network. In accordance with the Massachusetts VW Beneficiary Mitigation Plan, MassDEP is charged with the implementation of and oversight for the Massachusetts Electric Vehicle Incentive Program (MassEVIP) Workplace and Fleet Charging. Through MassEVIP Workplace and Fleet Charging, $12,093.60 of the VW Funds shall be allocated to Grantee for the procurement and deployment of one Level 2 MassEVIP-funded electric vehicle (EV) charging station(s) ("EV charging station(s)"). The funding consists of:

- An amount not to exceed $12,093.60 for two ports at 56 W. Foster Street, Melrose, MA.

By accepting the grant funding, Grantee expressly agrees, through the execution of the *Commonwealth of Massachusetts - Standard Contract Form* and *Commonwealth Terms and Conditions*, to be bound by this Agreement, which is an Attachment to the *Commonwealth of Massachusetts - Standard Contract Form* and *Commonwealth Terms and Conditions* and incorporated therein by reference. Grantee agrees that, from time to time as deemed necessary by MassDEP, to effectuate the goals and purposes of the VW Trust, MassDEP and Grantee shall amend this Agreement.

[1] Volkswagen AG, Audi AG, Porsche Cars of North America, Inc., Volkswagen Group of America, Inc., Volkswagen Group of America Chattanooga Operations, LLC Dr. Ing. h.c. F. Porsche AG, and Porsche Cars North America, Inc.
[2] VW installed the devices in over 11 million vehicles worldwide, including 590,000 in the U.S. and over 14,000 in Massachusetts.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Terms and Conditions

1. Agreement Duration/Timeline
   a) Grantee has up to 6 months after the effective date of this Agreement to make the EV charging station(s) operational.
   b) Grantee shall request MassDEP's approval of any extension of the 6 month timeframe by notifying MassDEP in writing at least 7 days prior to the end of the 6 month timeframe if the EV charging station(s) will not be operational within 6 months following the effective date of this Agreement. Grantee shall include documentation in any such request to show the reason for the delay, the efforts made by Grantee to avoid the delay, and a timeline by which the EV charging station(s) will be in service. Grantee's request for an extension will not be deemed granted unless approved in writing by MassDEP.
   c) Grantee shall operate the EV charging station(s) for a minimum of 3 full consecutive years following the date the EV charging station(s) are operational.

2. Hardware and Location Requirements
   a) Grantee shall install EV charging station(s) that:
      i. are hard-wired Level 1 or Level 2 EV charging station(s);
      ii. are UL listed (certified to Underwriters Laboratories, Inc. standards);
      iii. are able to charge EVs produced by multiple manufacturers;
      iv. enable payment option for all EV drivers without restrictions based on network membership or subscription (e.g., allow credit card payment without login), if the EV charging station(s) are equipped to accept payment; and
      v. are new installations, and not ordered until after an approval letter is received from MassDEP.
   b) Grantee shall limit use of the EV charging station(s) to grantee-owned EV use only.
   c) Grantee shall have at least one grantee-owned electric vehicle that can use the EV charging station(s).
   d) Grantee shall have evidence of ownership of the location identified in application or evidence that installation is allowed on the property (i.e., written permission of owner and/or pertinent language in lease, license agreement, or easement, etc.), and provide such evidence to MassDEP upon request.
   e) The location at which the EV charging station(s) are installed shall be a non-residential place of business.

3. EV Charging Station(s) and Installation Costs
   a) The grant amount listed on the first page of this Agreement will cover 60% of the cost of the EV charging station(s) and installation, including:
      i. a console wired into the electrical supply;
      ii. a cable and connector to plug into the EV;
      iii. cable management strategy (e.g., coil, retractable, etc.);
      iv. mounting, either pedestal or wall (Pedestal: hard-wired to a permanent pole or box. Wall: hard-wired to a wall and typically includes a mounting plate.);
      v. separate payment module;
      vi. upgrading electrical supply;
      vii. construction costs related to installation (including accessible EV parking space);

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

viii. signage and pavement painting; and
ix. shipping/freight for i-viii.

b) Grantee shall provide funds, either directly from Grantee or another source, to cover the remaining cost of the EV charging station(s), the remaining installation costs, and operating and maintenance costs for a minimum of 3 full consecutive years after EV charging station(s) is operational.
c) Costs not covered include:
   i. land/parking space purchase or lease;
   ii. shipping/freight for items not included in Paragraph 3.a) above;
   iii. software subscription;
   iv. warranty;
   v. taxes;
   vi. internet connection or cell signal;
   vii. planning or permitting for the project;
   viii. bollards, curbs, wheel stops, setbacks, bumper guards;
   ix. electricity consumption and demand charges;
   x. preventative and corrective maintenance on EV charging station(s); and
   xi. any other required costs not covered by Paragraph 3.a) above.
d) Funding from multiple MassDEP EVIP programs cannot be combined for a single EV charging station.
e) Funding from MassDEP EVIP programs cannot be combined with grants from the Massachusetts Green Communities Division for a single EV charging station and installation.
f) MassEVIP grant combined with funding from other sources shall not exceed 100% of the cost paid for the EV charging station(s) and installation.

4. EV Charging Station(s) Parking Requirements
   a) For each port installed, one parking space shall be designated for grantee-owned plug-in EV use only and marked clearly through visible signage, examples of which are provided in Attachment B. Grantee shall actively enforce this requirement. Grantee is encouraged to paint the pavement of the parking area to indicate the parking space is designated for plug-in EVs.
   b) The parking space(s) and EV charging station(s) shall be located such that the connector from each EV charging station can easily reach a plug-in EV parked in the associated parking space.
   c) The EV charging station(s)' location shall be designed to protect the EV charging station(s) from physical damage. Such protective measures may include curbs, wheel stops, setbacks, bumper guards, and bollards.
   d) The EV charging station(s) parking space(s) and area around the EV charging station(s) shall be maintained, including snow removal and general cleaning.

5. Payment Requests

Grantee shall complete and submit Attachment A *Payment Request Form* no later than 90 days after the date the EV charging station(s) are operational in order to request the release of funding for the EV charging station(s) and installation, as applicable. The grant payment will be based on the final invoice for the EV charging station(s) and installation, as applicable, submitted

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

by Grantee. The grant payment may be less than the total grant amount listed on page 1 of this Agreement and will not exceed the per street address grant amount listed on page 1 of this Agreement. MassDEP reserves the right to refuse payment if Grantee fails to submit timely documentation. Grantee may submit multiple payment requests if receiving a grant for multiple EV charging stations and the EV charging stations become operational at different times. Once MassDEP has received all required documentation from Grantee for a payment request, MassDEP will submit a request that the trustee of the grant funds disburse the funds to Grantee. It can take up to 45 days for the funds to be released by the trustee. Information required by Attachment A includes, without limitation:

a) the amount of funds that are the subject of the payment request for the EV charging station(s), and date(s) when EV charging station(s) were operational;
b) detailed final cost invoices for the EV charging station(s) and installation, as applicable, that are the subject of the Payment Request;
c) pictures of the installed and operational EV charging station(s); and
d) the party and address to whom the funds shall be directed.

Grantee agrees to provide MassDEP with any additional information requested by MassDEP as may be necessary to support a funding request under the VW Trust.

If Grantee is subject to state public contracting laws, Grantee shall include with any payment request the following certification, "I hereby certify under the pains and penalties of perjury that Grantee has complied with all laws, regulations and other requirements applicable to the procurement and acquisition of the EV charging station(s) that are the subject of this Payment Request."

6. MassEVIP Workplace and Fleet Charging Program Funding Payee

Wilmington Trust N.A. is the Trustee under the VW Trust and is the entity that will be issuing payments under this Agreement. Grantee agrees and acknowledges that:

a) Wilmington Trust N.A. ("WT") is acting on behalf of MassDEP solely to assist it in making payments;
b) Grantee waives any and all claims whatsoever, in law and/or in equity, against WT and Grantee will not initiate a suit against WT;
c) WT will not be liable for any actions that WT takes or abstains from taking arising out of or in connection with the performance of its duties on behalf of and as directed by MassDEP;
d) WT will not be liable for indirect, special, incidental, punitive or consequential losses or damages of any kind whatsoever in connection with making payments on behalf of MassDEP; and
e) WT is a third party beneficiary of this acknowledgement.

7. Promotion of EV Charging Station(s)

a) Grantee agrees to promote the EV charging station(s) to employees, visitors and general public (if applicable) via various marketing strategies throughout the minimum period of 3 full consecutive years specified in Paragraph 1. Availability of Workplace Charging shall be made known to employees through signage and email messaging in the first month of the 3-year period. Other marketing strategies may include but are not limited to:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Ride and Drive events, education for interested employees on the proper operation of the EV charging station(s), flyers, internal/external newsletters and webpages, etc. Grantee shall provide proof of such promotion to MassDEP upon request.

b) If EV charging station(s) are available for public use, register each on the United States Department of Energy's (DOE) Alternative Fuels Data Center Station Locator http://www.afdc.energy.gov/fuels/electricity_locations.html. Grantees are also encouraged to submit the location to other EV charging websites such as www.PlugShare.com.

c) Grantee is encouraged to conduct an EV "Ride and Drive" event at their location. A Ride and Drive event provides a hands-on driving experience for consumers who are unfamiliar with EVs and also showcases how EVs are easy to drive, function like traditional vehicles, and can reduce oil consumption, pollution, and fuel and maintenance expenses. Grantee is encouraged to utilize the following on-line resource when conducting a Ride and Drive event: https://driveelectricweek.org/resources.php.

8. Insurance Coverage for EV Charging Station(s)

Adequate property and casualty insurance coverage for each EV charging station shall be provided by Grantee through third party coverage or self-insurance. Grantee shall provide proof of such coverage to MassDEP upon request.

9. Training on the Operation and Maintenance of EV Charging Station(s)

Upon installation of the EV charging station(s), Grantee agrees to require all pertinent personnel to attend a training session on the operation and maintenance of the equipment.

10. MassDEP Verification of EV Charging Station(s)

Grantee agrees to allow MassDEP access to the EV charging station(s) during normal business hours so that MassDEP can verify the installation, maintenance, and use of the EV charging station(s).

11. Data Reporting and Recordkeeping Requirements

For a minimum of 3 full consecutive years after the EV charging station(s) are operational, Grantee shall collect data on the operation, maintenance and usage, e.g., hours of use, number of sessions, number of unique users, kilowatt hours charged, downtime, and maintenance costs, if available. Upon request by MassDEP and within a reasonable time, Grantee shall prepare and submit such data or records to MassDEP, in a format specified by MassDEP.

12. EV Charging Station(s) and Electrical Infrastructure Maintenance Requirements

Grantee shall maintain the EV charging station(s) and land-based electrical infrastructure in order to provide proper electrical supply for the operation of the EV charging station(s) for the duration of the 3 full consecutive year in-service period. Grantee shall maintain such EV charging station(s) and infrastructure in accordance with the manufacturer's recommended procedures and specifications and agrees that it is responsible for any maintenance and repair work that is not covered under the scope of the manufacturer's warranty. If the electrical infrastructure fails such that proper electrical supply required for the operation of the EV charging station(s) is not provided, Grantee shall contact either the vendor that performed the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

installation of the EV charging station(s), if such vendor also performed work on the electrical infrastructure, or another vendor/electrician of Grantee's choice. Grantee shall ensure that all necessary repairs to EV charging station(s), electrical infrastructure and electrical supply are completed within 14 calendar days of Grantee having knowledge of failure. Grantee shall keep records of its maintenance efforts and will make those records available to MassDEP upon request.

13. Noncompliance

Grantee agrees that it is required to keep the EV charging station(s) in service for a minimum of 3 full consecutive years after the EV charging station(s) become operational. In the event Grantee fails to comply with this requirement, the Commonwealth of Massachusetts and MassDEP shall, without limitation, have the right to require Grantee to return all or a portion of the VW Funds, such portion to be calculated *pro rata* based on the remaining portion of the required 3 full consecutive year in-service period.

MassDEP reserves the right to recover any funding provided to Grantee and/or pursue any other legal actions deemed appropriate if MassDEP determines that Grantee did not provide complete and accurate information or fails to meet the requirements or intent of the program.

The provisions of this paragraph shall in no way be construed to limit or prohibit the Commonwealth of Massachusetts or MassDEP from pursuing any other legal or equitable right, remedy, action or claim available under applicable federal or state laws and regulations for the failure of Grantee to meet any of its obligations including, without limitation, requiring Grantee to return VW funds grants hereunder.

14. Notices, Submissions and Requests

Except as otherwise provided in this Agreement, all notices, submissions and requests by Grantee shall be sent to MassEVIP.MassDEP@mass.gov.

15. Effective Date

The "Effective Date" of this Agreement is the date MassDEP signs the *Commonwealth of Massachusetts - Standard Contract Form*. The sequence of signing will be Grantee followed by MassDEP.

16. Transfer

Grantee agrees that it may not transfer the EV charging station(s), except as follows. In the event of an unforeseen circumstance that requires Grantee to transfer ownership of one or more EV charging station(s), Grantee may request written pre-approval from MassDEP to transfer such ownership. The decision to approve such a request shall be in MassDEP's sole and exclusive discretion, and Grantee shall provide MassDEP with all requested information and comply with all conditions imposed by MassDEP in connection with such approval. The Commonwealth of Massachusetts and MassDEP reserve all of their rights, remedies, actions and claims available under state and federal laws and regulations in the event of any inaccurate, misleading or fraudulent information provided by Grantee in connection with a request hereunder.

Incentive Information

Total Number of EV Charging Stations:	Total Number of Ports:	Total Eligible EV Charging Station Costs:	Total Eligible Installation Costs (if applicable):
_____	_____	$_____	$_____

Only include costs eligible through the MassEVIP Workplace & Fleet Charging Program in the boxes above. See *MassEVIP Workplace & Fleet Charging (WPF) Program Requirements* for details on eligible costs.

Payment will be 60% of the eligible costs identified above and confirmed via the attached invoices or the amount awarded in the approval letter, whichever is less.

ATTACHMENTS

- ☐ Final invoice(s) for EV charging station(s) with line items for individual EV charging station costs.
- ☐ Final invoice(s) for EV charging station installation costs (even if not funded by MassEVIP).
- ☐ Photographs of installed EV charging station(s). Pictures should clearly show all parking spaces, including Accessible EV parking spaces and EV only signage. Accessible EV parking spaces should NOT be signed as handicapped only. (For additional guidance related to the accessibility requirements, please see the section titled "*Accessibility*" found within the *MassEVIP Workplace & Fleet Charging (WPF) Program Requirements*.)

Grantee agrees to provide MassDEP with any additional information requested as necessary to support a funding request under the VW Trust.

I hereby certify under the pains and penalties of perjury that: 1) I have personally examined and am familiar with the information submitted herein, including all attachments, and to the best of my knowledge, the information submitted to MassDEP in this Payment Request, is true, accurate, and complete; 2) Grantee has complied with all laws, regulations and other requirements applicable to the procurement, acquisition, and installation of the EV charging station(s) that are the subject of this Payment Request; and 3) I have authority to submit this Payment Request on behalf of Grantee. I am also aware that, in the event it is determined that any grant funding was awarded based on false information, Grantee will be required to return the grant money.

ESTIMATED NET PROJECT COST:	**$10,692.40**

Scope of Work

All labor and material required to install EV chargers:

- Install 100-amp 1 phase service including meter socket, 2" RSC riser conduit & conductors for overhead service from National Grid Utility Pole # 374, allowance of linear of 40 feet includes mast.
- Install 100 amp "main circuit breaker" single phase Load-center with 2 – 40-amp 2 pole circuit breakers.
- Furnish & Install 1" conduit from Load-center to proposed EV wall mounted station using # 8 AWG -30 linear ft.
- Installation & activation of a Qty of 1 – E20DWP-CR Wall Mounted PowerCharge Station.
- Assemble, mount and connect charging stations.

Complimentary Voltrek services (no charge):

- Activate, program, and test stations.
- Assist with grant applications and payment request submissions.
- Client onboarding and software training

Voltrek Preventative Service and Maintenance

Voltrek is pleased to offer its customers a Preventative Service & Maintenance Program. This program offers the following services:

- Quarterly visits to clean, inspect and test units using J1772 tools
- Active monitoring of stations functionality via ChargePoint software interface
- Provide support services, on site, within twenty-four (24) hours. Diagnostic included, all other labor charges on an hourly basis, at Voltrek's then current rates with travel time at half-rate
- Cancellable at any time

Single station, annual cost (billed quarterly): $900 (billed $225 per quarter)
Add additional stations at the same location: $300 per additional station, per year
Not available in some areas. Price applies to locations within 100 miles of Boston MA.
Contact Voltrek to request price and availability outside of that area

Warranty

PowerCharge stations come with a 3 year standard parts only warranty. 5 Years extended parts & Labor warranty included in the quoted pricing. Optional 3 year Parts & Labor Warranty available for $1,300 flat.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VOLTREK
POWERING YOUR JOURNEY℠

Communication Requirements

PowerCharge stations rely on a cellular connection to communicate with the Amp up network and send data. **A Verizon, T-Mobile, or AT&T 4G/LTE signal** is required at the site for the stations to function.

Voltrek

Is a small business enterprise specializing in planning, installing, and servicing commercial charging station projects. We have been in business for 11 years and offer a full scope of turnkey services to meet your EV Charger needs. Voltrek has installed more than 2500 charging stations to date and is DBE & WBE certified. Voltrek is on the Commonwealth of Massachusetts OSD contract VEH102.

Terms

Hardware will be billed net 30 from date of equipment shipping and labor billed Net 30 from date of completion. Quote is subject to change at any time due to global supply-chain issues.

Please contact me with any questions and thank you for considering Voltrek.

CITY OF MELROSE

PUBLIC WORKS DEPARTMENT
City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-0142

JAMES TROUP
Deputy Director Admin/Finance

To: Mayor Paul Brodeur
From: James Troup
Meeting Date: February 7, 2022
Subject: Amending Chapter 198 of the Revised Ordinances of the City of Melrose
Order #: ORDER-2022-65

As we prepare for practical implementation of the Solid Waste and Recycling ordinance amendments to Chapter 198, Order 2022-25, passed during the City Council Meeting on September 20, 2021, we hereby propose the following minor adjustments to the ordinance language:

1) Chapter 198, Article II, §198-2, and §198-3, Part B, and §198-4, Part B(2): Increase the allowable volume of trash and recycling receptacles from 45 gallons to 50 gallons, to allow purchase of current available market sizes. Language in the City's contract with JRM, which dates back to 2012, recommends the use of receptacles no larger than 45 gallons. In practice, current available sizes for purchase are generally 48 gallons, so we recommend increasing the limit slightly to accommodate current supply.
2) Chapter 198, Article II, §198-2: Remove the requirement for two handles on trash receptacles, as it may arbitrarily limit otherwise-compliant receptacles. A receptacle may have a tight-fitting lid without two handles. In particular, the toters that are presently very popular and practical do not have two handles but should be encouraged.
3) Chapter 198, Article II, §198-2, Part D: Add language to clarify that the allowance of one weekly bulk item per residence does not require a receptacle. We are not aware of any bulk items that would contain food, so rodents are not expected to be an issue with bulk items left out for pickup; placement of bulk items in a lidded receptacle is not practical.

Attachments to this Order include the proposed changes to the Solid Waste and Recycling Ordinance Chapter 198 (red line version), updates to barrel ordinance, and a summary memo.

RESULT: ASSIGNED TO COMMITTEE

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

§ 198-3. Ashes and rubbish; yard waste; metal goods; mattresses; collection fees. [Amended 9-24-1990 by Ord. No. 91-10; 11-1-1990 by Ord. No. 91-33; 1-21-1992 by Ord. No. 92-119; 3-16-1992 by Ord. No.92-241; 3-7-1994 by Ord. No. 94-176; 7-18-1994 by Ord. No. 94-343; 6-26-2002 by Ord. No. 02-367; 6-26-2002 by Ord. No.02-368; 6-26-2003 by Ord. No. 03-292; 6-7-2004 by Ord. No.04-264A; 6-7-2004 by Ord. No. 04-264B; 6-7-2004 by Ord. No.04-264C; 6-21-2004 by Ord. No. 04-264D; 6-23-2005 by Ord. No. 05-243; 6-5-2006 by Ord. No. 06-172; 2-2-2009 by Ord. No. 09-109; 5-21-2012 by Ord. No. 2012-158; 6-25-2015 by Ord. No. 2015-168; ~~DATE~~ 9-20-2021 by Ord. No. 2022-*16*]

The Director of Public Works shall, in addition to the duties prescribed by law and the Charter, have charge of the collection and disposal of ashes and other household rubbish, including garbage, under proper regulations approved by the Mayor and City Council.

A. The Director of Public Works shall maintain and publish a Waste and Recycling Services "Schedule of Fees" on the Department of Public Works website for curbside pickup services, City Yard drop-off items, and special City Yard events.

B. For Solid Waste Collection, residents shall use plastic or metal barrels under ~~45~~ 50 gallons and 45 pounds. No more than four (4) barrels or bags and one (1) bulky item per week will be picked up from each household.

C. The Director of Public Works shall, for a period beginning on or around April 15 and ending about December 15, collect at curbside, biweekly or monthly as defined in its annual collection calendar, all leaves and grass clippings, provided that such materials do not violate any regulation or rule authorized by this section. Leaves and grass clippings shall be placed at curbside for City pickup in plain brown paper bags or barrels, subject to such reasonable limits as may be set by the Director of Public Works. No loose materials will be collected. The Director of Public Works shall operate a drop-off yard waste collection program in conjunction with this subsection.

D. There shall be a collection of large metal goods by the Public Works Department either once or twice a week at the Director's discretion and under the following regulations:

(1) Metal goods include refrigerators, sinks, stoves, bathtubs, toilets, shower stalls, radiators, metal file cabinets, metal desks, dismantled play sets, metal pipes tied together in a bundle weighing not in excess of approximately 30 pounds and any other metal goods requiring special pickup.

(2) Each metal goods item as defined in Subsection D(1) will be picked up at curbside for a fee, listed in the "Schedule of Fees" as "Metal Goods Item Pickup" and payable to the City of Melrose. The homeowner/resident wishing to dispose of such items will obtain a receipt from the Department of Public Works after payment is made for each item. Any item that has no sticker will not be picked up by the City or its agents.

(3) The collection of these fees is to be in accordance with Chapter 56, Officers and Employees, § 56-21.

(4) Moneys collected under this Subsection C shall be set aside in a special fund suggested by the Auditor.

E. There shall be a collection of mattress(es) and/or box spring(s) made by a vendor at the discretion of the Director of Public Works. This collection shall be made pursuant to the following:

(1) Each mattress or box spring will be picked up curbside for a fee, as listed in the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"Schedule of Fees" as "Mattress Pickup" . This fee shall be paid to the City of Melrose in advance of any curbside pickup.

(2) The collection of these fees is to be in accordance with Chapter 56, Officers and Employees, § 56-21.

F. No person, except an authorized employee or agent of the Public Works Department, shall remove any article or material deposited or placed upon a street or sidewalk for the purpose of being collected by the Public Works Department.

G. No dumpster may be placed on City streets without first obtaining written permission from the Director of Public Works or their designee.

H. Trash tipping fee.

(1) Residential. A "trash fee," listed in the "Schedule of Fees" per dwelling unit is hereby established effective July 1, 2005, on all residential structures of six units or fewer.

(2) (Reserved)

(3) Discount.

(a) Effective January 1, 2016, any senior citizen (65 years or older) who owns and occupies a single-family home or condominium with an income of $65,870 or less for a single person, $75,280 or less for married couples, will be eligible for a 50% discount for this fee.

(b) Effective January 1, 2016 hardship cases. Any citizen who owns and occupies a single-family home or condominium with an income of $35,000 or less for a single person, $40,000 or less for married couples, will be eligible for a 100% discount for this fee.

(c) Proviso. Eligibility should be determined by using the adjusted gross income number found on the IRS 1040 form.

(4) (Reserved)

(5) Billing. The Collector shall issue bills quarterly.

(6) Exemption. Any person that can demonstrate an alternative lawful disposal method may apply for an exemption.

I. Billing period; place of placement; delinquent payments.

(1) All bills for solid waste and recycling shall be made out and rendered by the Public Works Department to consumers quarterly, and all such bills shall be payable within 30 days at the office of the City Collector.

(2) Bills not paid within 30 days shall be subject to the following:

(a) Demand charge of $5.

(b) Interest penalty of 14% from the due date.

(c) Lien fee of $10, to be applied only on those solid waste and recycling bills that become lien on real estate tax bills.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A. General provisions.

(1) The City of Melrose will provide for the curbside collection of acceptable recyclable waste from residences with six units or fewer in accordance with the provisions of § 198-3 and this section.

(2) "Acceptable recyclable waste" is defined by the Director of Public Works, in accordance with Waste Disposal Bans established by the Massachusetts Department of Environmental Protection (MassDEP) and the guidelines of the Materials Recovery Facility (MRF) to which the recyclable waste is hauled.

B. Recycling containers; usage, placement.

(1) The recycling containers must be placed at curbside in accordance with the schedule to be announced by the Department of Public Works and will be collected by a contractor as agent for the City of Melrose. If material placed in the recycling container is not acceptable recyclable waste as defined in Subsection A it will be left in the recycling container, and the resident shall remove the unacceptable recyclable waste before placing the recycling container at curbside for the next collection.

(2) Residents shall use plastic or metal barrels/bins under ~~45~~ 50 gallons and 45 pounds for their single stream recycling. Barrels/bins should be clearly labeled as recycling.

(3) Source separation of acceptable recyclable waste shall be performed by the residents according to the instructions given by the Department of Public Works.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

C. Authorized collection of acceptable recyclable waste. No person, except those individuals and companies authorized by the City of Melrose, shall collect or pick up or cause to be collected or picked up any acceptable recyclable waste which has been placed for collection pursuant to the provisions of this section. The individuals or companies so authorized shall supply the City of Melrose with receipts for collected accepted recyclable wastes, and all collections of accepted recyclable wastes shall take place according to the trash pickup schedule determined by the Department of Public Works but no earlier than 7:00 a.m. and no later than 6:00 p.m. of the same day, unless arranged in advance with the Director of Public Works to accommodate special circumstances.

D.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Article II
Collection and Disposal
[Adopted as Rev. Ords. 1976, §§ 13-3, 13-6, 20-5 and 20-6 (Rev. Ords. 1989, §§ 8-1, 15-26 and 15-27)]
§ 198-2

*** Dumping; obstructing sidewalks; placement of refuse containers. [Amended 6-§ 1984 by Ord. No. 785A; 6-18-1984 by Ord. No. 785B; 2-20-2007 by Ord. No. 7-107A; 9-20-2021 by Ord. No. 2022-25]**

§ No person shall put or place, or cause to be put or placed, in any street, lane, alley or any other place, public or private, where it may be offensive or objectionable, any ashes, dirt or refuse, nor shall any piece of metal or wood or any plastic in any form or other material injurious to feet or to tires of vehicles or any other rubbish be put, placed or thrown into or on any street, lane, alley or public place. No person shall throw or place on any vacant land, whether public or private, or in any brook, waterway, or pool rubbish, limbs, brush, barrels, boxes, or the likes.

§ No person shall place or cause to be placed on any sidewalk, footwalk or crosswalk any object whatsoever so as to interfere with the convenient use of the same by any person traveling thereon. This shall not apply to building materials placed by permission of the City Engineer. [Amended 5-21-2012 by Ord. No. 2012-158]

§ Residential refuse receptacles shall be watertight with tight-fitting covers of a durable rodent-proof material. A sufficient number of receptacles shall be provided by property owners or their agent(s) so as to adequately contain the amount of refuse produced at each property. Receptacles shall be no larger than ~~forty-five (45)~~ fifty (50) gallons ~~and have two intact handles~~.[Amended 9-202021 by Ord No. 2022-25, Amended (date) by Ord No. 2022-##]

D. Receptacles shall be tightly covered whenever refuse of any amount is contained therein, have it be on private property, a private way, or a public sidewalk. Refuse shall be stored in receptacles as described in this section except for material which may be placed at curbside under city-sponsored source reduction and/or source separation collection programs in accordance with the guidelines of such programs. Each residence is allowed to dispose of one bulky item per week in curbside trash pickup, which is not required to be contained in a receptacle.

E. Refuse receptacles shall be placed at the curb by 7:00 a.m. on the scheduled collection day, but not prior to 5 p.m. the preceding day, and shall be removed from the sidewalk within twelve (12) hours after collection.

F. The following shall apply to subsections (A) through (D) of this section:

I. Whoever violates any provision of the aforementioned sections shall be penalized in accordance with MGL c. 40, § 21D or MGL c. 270, § 16, not to exceed $100.00 for each violation, provided that each and every day of the violation shall constitute a distinct and separate offense.

II. Property owners or their agents shall be responsible for the retrieval and pickup of any and all scattered refuse stemming from a violation of this ordinance. Failure to

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

comply with this provision shall constitute a separate violation, which may be enforced as authorized above.

III. The Board of Health, the Department of Public Works, and the Police Department through their authorized agents and employees, are hereby empowered to enforce the provisions of this section pursuant to MGL c. 40, § 21D and MGL c. 270, § 16.

IV. No property owner shall be cited for a violation of this ordinance until a written warning is first served upon the party.

G. Any party fined hereunder shall have a right of appeal in accordance with General Laws Chapter 40, Section 21D.

*Enforcement set to begin March 1, 2022

Re: Chapter 198 Solid Waste and Recycling Ordinance Update

As we prepare for practical implementation of the Solid Waste and Recycling ordinance amendments to Chapter 198, Order 2022-25, passed during the City Council Meeting on September 20, 2021, we hereby propose the following minor adjustments to the ordinance language:

1) Chapter 198, Article II, §198-2, and §198-3, Part B, and §198-4, Part B(2): Increase the allowable volume of trash and recycling receptacles from 45 gallons to 50 gallons, to allow purchase of current available market sizes. Language in the City's contract with JRM, which dates back to 2012, recommends the use of receptacles no larger than 45 gallons. In practice, current available sizes for purchase are generally 48 gallons, so we recommend increasing the limit slightly to accommodate current supply.
2) Chapter 198, Article II, §198-2: Remove the requirement for two handles on trash receptacles, as it may arbitrarily limit otherwise-compliant receptacles. A receptacle may have a tight-fitting lid without two handles. In particular, the toters that are presently very popular and practical do not have two handles but should be encouraged.
3) Chapter 198, Article II, §198-2, Part D: Add language to clarify that the allowance of one weekly bulk item per residence does not require a receptacle. We are not aware of any bulk items that would contain food, so rodents are not expected to be an issue with bulk items left out for pickup; placement of bulk items in a lidded receptacle is not practical.

KATHY PIGOTT-BRODEUR
Executive Director

To: City Council
From: Kathy Pigott-Brodeur
Meeting Date: February 7, 2022
Subject: Acceptance of SHRAB Veterans' Heritage Grant
Order #: ORDER-2022-67

To the Honorable City Council:
Memorial Hall requests acceptance of the SHRAB grant in the amount of Fourteen Thousand Two Hundred Fifty Three Dollars and Zero Cents ($14,253). This grant will be used to hire a consultant to help execute the Melrose Civil War Veterans Heritage Project. This project will properly archive the ephemera at Memorial Hall; design and implement a plan to preserve that collection; perform additional research; properly interpret the information gathered and memorialize the honorable service of previously unrecognized veterans.
Said funds to be transferred into a dedicated fund account to be established by the Auditor's Office. There is a match requirement for this grant which will be taken from the Soldiers and Sailors Memorial Building Board of Trustees Memorial Hall Restoration Fund and the project will not have any impact to the FY22 budget.

FINANCIAL IMPACT: Match Required - Marching funds have been approved by the Soldiers and Sailors Memorial Building Board of Trustees from the Restoration Fund (Item # 9616)

RESULT: ASSIGNED TO COMMITTEE

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Dear Ms. Pigott-Brodeur: January 14, 2022

I want to offer you and the Soldiers and Sailors Memorial Building my congratulations on behalf of Secretary of State William F. Galvin, the Massachusetts State Historical Records Advisory Board and the Massachusetts General Court. The Board recently voted $14,253 to fund your application to the Veterans' Heritage Grant Program.

The Board requests a Project Status Report by the end of the calendar year. We will be in touch by electronic mail to walk you through the procurement process to access those funds.

Thank you for your interest in the Veterans' Heritage Grant Program and for your efforts in preserving the history of our Commonwealth's veterans.

Respectfully,

John D. Warner, Jr.
Archivist of the Commonwealth of Massachusetts

INFORMATION ITEM 2022-5

Multiple Member Appointive Body Information (Item # 9615)

WHEREAS, the City of Melrose has 21 multi-member bodies with advisory, regulatory, and/or ministerial authority over various municipal functions as described in Article 2 of the city's administrative code.

WHEREAS, many of these multi-member bodies serve in such a capacity to influence citywide policy, including but not limited to traffic mitigation, street safety, public parks, planning, permitting, liquor regulations, and public health.

WHEREAS, the membership composition term lengths of these bodies must be in compliance with Section A-201 B of the City Code.

WHEREAS, the City should provide accurate, transparent, and accessible information to all residents on the membership makeup of these public bodies, along with current vacancies.

WHEREAS, the City Council is the approving authority for mayoral appointments to all multiple member appointive bodies and should have a complete understanding of the membership of our multiple member appointive bodies when exercising its approval authority.

BE IT ORDERED, that the City Clerk, in concert with the administration, shall provide by March 1, 2022 a list of the following for any and all multiple member appointive bodies as outlined in Article 2 of the City Code:

- First and last name of all members
- Initial date of appointment; term length; and expiration date of current term appointment
- Number (if any) of unfilled positions per multiple member body
- If the body has additional membership requirements (e.g., a member is an attorney, a member is a business owner), the delineation of these requirements and the corresponding member filling this position

This list shall be initially furnished to the City Council, posted to the City website, and reviewed and updated regularly thereafter by the City Clerk's Office in conjunction with the administration.

Respectfully Submitted,
Councilor Leila Migliorelli, At-Large
Councilor Jen Grigoraitis, Ward 6

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Massachusetts Emergency Management Agency (MEMA) grant
Date: January 18, 2022

The City of Melrose has been awarded a grant from the Massachusetts Emergency Management Agency (MEMA): the Emergency Management Performance Grant (EMPG), which we apply for annually, has been awarded in the amount of $6,500 to support the City's emergency preparedness efforts.

The purpose of the EMPG program is to focus on all-hazards emergency preparedness and resilience, and to enhance the four phases of emergency management operations (Planning, Training/Exercising, Response, and Recovery). As has been our usual practice, the requirement for matching funds for this grant award is met through a portion of the Emergency Management Director's salary.

This year's grant will be used to complete the upgrade the Emergency Management Room in City Hall with technology, including wall mounted monitors, computers and accessories, and other furnishings necessary to perform the training center's function, and to support our Emergency Management planning activities.

The Emergency Management Room training center will be available to all City departments for both public safety and routine municipal trainings. During an emergency (for example, a severe weather event) the training center would be used to coordinate emergency operations and monitor Police, Fire, and DEP radios, as well as various public safety websites.

I respectfully request that the City Council accept this grant.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Municipal ADA Improvement Grant
Date: January 18, 2022

The City of Melrose has been awarded a grant in the amount of $54,918 from the Massachusetts Office on Disability's Municipal ADA Improvement Grant program. These grant funds must be expended by June 30, 2022, and there is no match required.

The purpose of this grant is to allow the City to hire a consultant to complete an ADA Self-Evaluation and Transition Plan. The goal is evaluate the City's services, policies, and practices, including physical access of City owned buildings. The scope of the evaluation will include the following physical structures:

- City Hall
- Memorial Hall
- Public Library
- Milano Center
- Beebe Estate
- Fire stations (3)
- City Yard
- Wyoming Cemetery
- McCarthy House (senior housing)
- Steele House (senior housing)
- Mt Hood Park Building
- School Buildings (9 total)

The Self-Evaluation will also include an examination of policies and procedures to determine whether they ensure an equal opportunity for people with disabilities to participate and benefit from the City's services, activities, and programs. This will include in part a review of the city's website accessibility.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The Self-Evaluation process will engage City personnel from various departments and the public schools to gather information and get input from the public. This will be done via outreach conducted by the City of Melrose Commission on Disability through public meetings, community surveys, and social media. In addition, targeted outreach will be conducted to community groups, such as the Council on Aging, Special Education Parents' Advisory Group, veteran's groups, Human Rights Commission, Chamber of Commerce, Biking and Pedestrian Committee, and others.

Upon completion of the Self-Evaluation, a Transition Plan will be developed that will include the following:

- A list of the physical barriers that limit accessibility of programs, activities, or services.
- Methods to remove the barriers and make the facilities accessible.
- Estimated costs and time schedule for work completion.

For each facility, the most substantial access issues and order of magnitude will be identified. The transition plan will also include a spreadsheet of priorities for corrective action.

In addition to facilities, the Transition Plan will include a review of policies, practices and procedures to determine compliance with the requirements of the ADA, with a goal of providing recommendations that result in a more usable, inclusive, and welcoming environment for the Melrose community. Examples of policies and procedures to be addressed are requesting reasonable accommodations and modifications for City meetings and events, and ensuring ease of making such requests, equally effective communication, etc.

The City last conducted a Self-Evaluation and developed a Transition Plan in 1996. This comprehensive plan focused primary on access of facilities and buildings, with limited examination of policies and procedures. Many of the issues identified were subsequently addressed. It is clearly time to develop an updated Self-Evaluation and Transition Plan, based on changes and developments over the past 25 years, including: a) changes to the ADA and other laws and codes; b) changes in best practices for accessibility; c) changes to buildings and facilities within the City, including aging of existing facilities, renovations, and new construction; d) the emergence of electronic information sharing and use of the internet as a primary information source.

I respectfully request that the City Council accept this grant in order to allow this important and timely work to move forward.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

COMMONWEALTH OF MASSACHUSETTS ~ STANDARD CONTRACT FORM

This form is jointly issued and published by the Office of the Comptroller (CTR), the Executive Office for Administration and Finance (ANF), and the Operational Services Division (OSD) as the default contract for all Commonwealth Departments when another form is not prescribed by regulation or policy. DENISE GAFFEY
City Planner

To: Mayor Paul Brodeur
From: Denise Gaffey
Meeting Date: February 7, 2022
Subject: Hoover and Horace Mann Roof Replacements
Order #: ORDER-2022-64

I respectfully request that the Honorable City Council enact the following order:

BE IT ORDERED by the Melrose City Council that the City of Melrose appropriate the amount of Seventy Five Thousand ($75,000) Dollars for the purpose of paying costs of the Feasibility Study and Schematic Design for Roof Replacement Projects at the Herbert Clark Hoover Elementary School at 37 Glendower Road, Melrose, Massachusetts, and the Horace Mann Elementary School at 40 Damon Avenue, Melrose, Massachusetts, including the payment of all costs incidental or related thereto, and for which the City of Melrose may be eligible for a grant from the Massachusetts School Building Authority ("MSBA"), said amount to be expended under the direction of the Mayor. To meet this appropriation the City Council, with the approval of the Mayor, is authorized to borrow said amount under and pursuant to M.G.L. Chapter 44, or pursuant to any other enabling authority. The City of Melrose acknowledges that the MSBA's grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and any costs the City of Melrose incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the City of Melrose, and that the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the City of Melrose and the MSBA.

Re: City of Melrose, Herbert Clark Hoover Elementary School, Horace Mann Elementary School

Dear Mayor Brodeur:

I am pleased to report that on October 27, 2021, the Board of Directors (the "Board") of the Massachusetts School Building Authority (the "MSBA") voted to invite the City of Melrose (the "City") into the Accelerated Repair Program (the "ARP") to partner with the MSBA in conducting a Schematic Design Study at the Herbert Clark Hoover Elementary School for a potential roof replacement project and at the Horace Mann Elementary School for a potential roof replacement project.

I do want to emphasize that this invitation to partner on a Schematic Design Study is ***not*** approval of a project but is strictly an invitation to the City to work with the MSBA to explore potential solutions to the building needs that have been identified. Moving forward in the MSBA's ARP process requires a partnership with the MSBA, and communities that "get ahead" of the MSBA without MSBA approval will not be eligible for grant funding. To qualify for any funding from the MSBA, local communities must follow the MSBA's statute, regulations, and policies, including the ARP requirements, which require MSBA partnership and approval at each step of the process.

The ARP will focus on the preservation of existing assets by performing energy-efficient and cost-saving upgrades, which will result in direct operational savings for school districts. Districts that are invited into the ARP will be required to use Owner's Project Managers and Designers who are pre-selected and randomly assigned by the MSBA and must also adhere to other requirements that are unique to this program, such as implementing an accelerated project schedule and complying with the MSBA's reimbursement dollar thresholds. Districts will be expected to complete a Schematic Design Study and receive authorization for a Project Funding Agreement by the Board of Directors no later than 12 months from Program invitation. Districts seeking reimbursement under the ARP will be allowed to submit requests for reimbursement monthly, but only if the total value of the invoices being submitted equals more than $50,000.

During the Schematic Design Study phase, the MSBA will partner with the City and its assigned Owner's Project Manager and Designer to find the most fiscally responsible, educationally appropriate and sustainable solution to the building needs identified at the Herbert Clark Hoover

Elementary School and the Horace Mann Elementary School. If during the Schematic Design Study phase, the City determines that the potential project does not meet the qualifying criteria of the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Board's invitation, the City will be required to remove its Statement of Interest and will not be authorized for a Project Funding Agreement for the project. For the 2021 ARP, the qualifying criteria included roofs of 29 years or more (installed in or before 1992), window and door systems of 30 years or more (installed in or before 1991) and boiler systems of 29 years or more (installed in or before 1992).

The City must complete several pre-requisites prior to beginning work with its consultants. Please submit the following information to the MSBA by no later than the date listed below in order to fulfill these pre-requisites:

- a current routine and capital maintenance plan for the City's school facilities, to be submitted electronically using the MSBA web-based tool (submit prior to February 25, 2022); and,
- an Initial Compliance Certification (attachment to this letter) executed by the City to ensure that the City understands and will comply with the MSBA's requirements and regulations (submit prior to February 25, 2022).

The City must approve funding for the Feasibility Study/Schematic Design portion of this potential project by January 28, 2022. Submission of the properly certified documentation that the City has appropriated its funding should be submitted to the MSBA prior to February 25, 2022. Future funding for the total project budget will be required within 90 days after the date of the MSBA's approval of the project scope and budget.

Once the City has completed the pre-requisites listed above according to the MSBA's standards, the MSBA will assign an Owner's Project Manager and Designer using the MSBA's list of pre-selected and randomly assigned consultants for the ARP. In the meantime, I wanted to share with you the Board's decision and provide a brief overview of what this means for the City of Melrose.

I look forward to continuing to work with you as part of the MSBA's Accelerated Repair Program. As always, feel free to contact me or my staff at (617) 720-4466 should you have any questions.

Sincerely,

John K. McCarthy

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Human Rights Commission Appointment
Date: February 22, 2022

To the Honorable Melrose City Council.

I respectfully request the Honorable City Council confirm the appointment of Jennifer Champagne, 11 Faxon Street, to the Human Rights Commission for a three-year term, said term to expire the last day of February 2025. Ms. Champagne will replace Human Rights Commission member Josh Robbins, whose term expires on the last day of February, 2022.

Jennifer has been a Melrose resident for the past four years. Having recognized how much the Melrose community has provided her and her family during this time, she now hopes to become involved and give back to the community through her service as a Human Rights Commissioner.

I am confident that Ms. Champagne's legal training, her experience as an attorney, and her passion for human rights and advocacy will make her an exceptional candidate whose service will benefit the Melrose community. In both professional and volunteer roles, Ms. Champagne has demonstrated herself to be a civically engaged and compassionate citizen. During her time as a litigator, she represented a diverse range of clients including low-income individuals, refugees, and immigrants from around the world. Ms. Champagne has also volunteered with children with disabilities.

Ms. Champagne is exactly the caliber of individual who belongs on the City of Melrose Human Rights Commission, and I am excited to offer her appointment to you for your consideration and approval.

Meeting Date: February 22, 2022
Subject: State Funding for Ell Pond Water Chestnut Removal
Order #: ORDER-2022-76

I respectfully request the Honorable City Council accept a grant in the amount of $50,000 from the Commonwealth of Massachusetts Executive Office of Energy and Environmental Affairs to address the water chestnut infestation at Ell Pond. This earmark will allow for a multi-year project to remove the plant material that produces the nuts responsible for reproduction of the water chestnut.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Acceptance of State Funding for Ell Pond Water Chestnut Removal Project
Date: February 22, 2022

As part of the Fiscal Year 2022 state budget, the City of Melrose will receive $50,000 from the Executive Office of Energy and Environmental Affairs to address the water chestnut infestation at Ell Pond. There is no match required, and the funds may be used over the next two years to complete the project. This will allow for the removal of unwanted vegetation to be repeated over multiple plant life cycles, which is necessary for the project's long-term success.

The project involves removing the plant material that produces the nuts responsible for reproduction. Together with the existing free-cash appropriation for Ell Pond, the City will use this earmark to fund the following contracted services:

- Aquatic weed harvester mobilization and demobilization
- Aquatic weed harvester service
- Hydro-rake mobilization and demobilization
- Hydro-rake removal of water chestnut growth in shallow areas not accessible to the aquatic weed harvester
- Manual hand removal and final sweep
- Fragment curtain setup at outlet and erosion control setup at designated material offload location
- Transportation of vegetation to a compost location
- A Notice of Intent (NOI) and Order of Conditions for the work within a wetland resource area

Addressing the water chestnut problem at Ell Pond will provide an immediate aesthetic return through the removal of the plant biomass that carpets the City's central water body. I respectfully request acceptance of these funds so that this project may move forward. Thank you for your consideration.

KRISTIN FOOTE
City Clerk

To: Mayor Paul Brodeur
From: Kristin Foote
Meeting Date: February 22, 2022
Subject: Amending Article I Chapter 152-10
Order #: ORDNC-2022-1

Be it Ordered, that the City of Melrose Code of Ordinances be amended by adding § 152-10 to Chapter 152, Licenses and Permits of Article I General Provisions to wit;

Sec. §152-10 Payment of taxes as a condition of licenses and permits.

Any board, officer or department who issues local licenses or permits for the city ("the licensing authority") may deny any application for, or revoke or suspend a building permit, or any local license or permit including renewals and transfers for any person, corporation, or business enterprise, who has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges, including amounts assessed under the provisions of G. L. c. 40, § 21D, or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate whose owner has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges, provided that

(1) The tax collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the tax collector, shall annually, and may periodically, furnish to each department, board, commission or division, hereinafter referred to as the licensing authority, that issues licenses or permits including renewals and transfers, a list of any person, corporation, or business enterprise, hereinafter referred to as the party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges, and that such party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(2) The licensing authority may deny, revoke or suspend any license or permit, including renewals and transfers of any party whose name appears on said list furnished to the licensing authority from the tax collector or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate owned by any party whose name appears on said list furnished to the licensing authority from the tax collector; provided, however, that written notice is given to the party and the tax collector, as required by applicable provisions of law, and the party is given a hearing, to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The tax collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the licensing authority with respect to such license denial, revocation or suspension shall be made only for the purposes of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the license authority receives a certificate issued by the tax collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as the date of issuance of said certificate.

(3) Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the licensing authority to issue a certificate indicating said limitations to the license or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

(4) The City Council may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight A of the Massachusetts General Laws in the business or activity conducted in or on said property.

This section shall not apply to the following licenses and permits: open burning (G. L. c. 48, § 13); bicycle permits; (G. L. c. 85, § 1lA); sales ofarticles for charitable purposes (G.L. c. 101, § 33); children work permits (G. L. c. 149, § 69); clubs, associations dispensing food or beverage licenses (G. L. c. 140, § 21E); dog licenses, (G. L. c. 140, § 137); fishing, hunting, trapping license, (G. L. c. 131, § 12);

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

marriage licenses, (G. L. c. 207, § 28); and theatrical events, public exhibition permits (G. L. c. 184, § 181).

State Law Reference-Authorized, M.G.L.A. c. 40, § 57 (Accepted by Aldermen November 7, 1996, Order No. 97-88).

Margot Fleischman
Chief of Staff & Director of Strategic Initiatives and Communications
Office of Mayor Paul Brodeur
562 Main Street
Melrose, MA 02176

Re: Payment of taxes as a condition of licenses and permits.

Dear Margot:

It has come to my attention that there is no record of M.G.L. c. 40 § 57 which was accepted by the Melrose Board of Aldermen on November 7, 1996, Order No. 97-88, ever having been formally implemented by way of City ordinance in the City of Melrose.

In short, M.G.L. c. 40 § 57 allows any city or town which accepts it to ***then*** adopt an ordinance which allows for denial of any application for, or revocation or suspension of a building permit, or any local license or permit for neglect or refusal to pay local taxes, fees, assessments, or other municipal charges. The language of this statute not only needs to have been accepted by City Council (which it was), but also requires there to be a separate ordinance passed in the City.

In looking through the history of the acceptance of this statute by the City of Melrose Board of Aldermen in 1996, it is clear this statute was intended to be fully implemented in the City of Melrose- as seen by the Aldermen having approved an Order entitled "Amending Revised Ordinances by the adoption of M.G.L. c. 40 § 57, "Local licenses and permits: denial, revocation or suspension for failure to pay municipal taxes and charges." [See attached Exhibit A, documentation relative to Order No. 97-88]. It is my understanding that the City has been and continues to deny, revoke, and suspend permits and licenses pursuant to authority under M.G.L. c. 40 § 57 since the Board of Aldermen's acceptance of it in 1996.

However, in order to be in clear keeping with the required language of the statute that requires the City to officially adopt its own ordinance for M.G.L. c. 40 § 57 to validly take

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

effect, I recommend the City amend the City of Melrose Code of Ordinances forthwith by adding Section 152-10 as proposed in attached Exhibit B. The proposed language reflects the current version of M.G.L. c. 40, § 57.

Please do not hesitate to reach out to me with any questions or concerns in this regard.

Best Regards,

Shannon T. Phillips, Esq.

Encls.

LICENSES AND PERMITS OF DELINQUENT TAXPAYERS

Caption editorially supplied

57. Local licenses and permits; denial, revocation or suspension for failure to pay municipal taxes or charges

ny city or town which accepts the provisions of this section, may by by-law or ordinance any application for, or revoke or suspend any local license or permit including renewals transfers issued by any board, officer, department for any person, corporation or ness enterprise, who has neglected or refused to pay any local taxes, fees, assessments, erments or any other municipal charges or with respect to any activity, event or other er which is the subject of such license or permit and which activity, event or matter is ed out or exercised or is to be carried out or exercised on or about real estate whose r has neglected or refused to pay any local taxes, fees, assessments, betterments or any municipal charges. Such by-law or ordinances shall provide that:

The tax collector or other municipal official responsible for records of all municipal , assessments, betterments and other municipal charges, hereinafter referred to as the collector, shall annually furnish to each department, board, commission or division, nafter referred to as the licensing authority, that issues licenses or permits including vals and transfers, a list of any person, corporation, or business enterprise, hereinafter red to as the party, that has neglected or refused to pay any local taxes, fees, sments, betterments or other municipal charges for not less than a twelve month period, hat such party has not filed in good faith a pending application for an abatement of such r a pending petition before the appellate tax board.

The licensing authority may deny, revoke or suspend any license or permit, including vals and transfers of any party whose name appears on said list furnished to the ing authority from the tax collector or with respect to any activity, event or other matter is the subject of such license or permit and which activity, event or matter is carried r exercised or is to be carried out or exercised on or about real estate owned by any whose name appears on said list furnished to the licensing authority from the tax tor; provided, however, that written notice is given to the party and the tax collector, as ed by applicable provisions of law, and the party is given a hearing, to be held not r than fourteen days after said notice. Said list shall be prima facie evidence for denial, ation or suspension of said license or permit to any party. The tax collector shall have ght to intervene in any hearing conducted with respect to such license denial, revocation spension. Any findings made by the licensing authority with respect to such license , revocation or suspension shall be made only for the purposes of such proceeding and not be relevant to or introduced in any other proceeding at law, except for any appeal such license denial, revocation or suspension. Any license or permit denied, suspended oked under this section shall not be reissued or renewed until the license authority es a certificate issued by the tax collector that the party is in good standing with

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

(d) The board of selectmen may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight A in the business or activity conducted in or on said property.

This section shall not apply to the following licenses and permits: open burning; section thirteen of chapter forty-eight; bicycle permits; section eleven A of chapter eighty-five; sales of articles for charitable purposes, section thirty-three of chapter one hundred and one; children work permits, section sixty-nine of chapter one hundred and forty-nine; clubs, associations dispensing food or beverage licenses, section twenty-one E of chapter one hundred and forty; dog licenses, section one hundred and thirty-seven of chapter one hundred and forty; fishing, hunting, trapping license, section twelve of chapter one hundred and thirty-one; marriage licenses, section twenty-eight of chapter two hundred and seven and theatrical events, public exhibition permits, section one hundred and eighty-one of chapter one hundred and forty.

A city or town may exclude any local license or permit from this section by by-law or ordinance.

Added by St.1985, c. 640. Amended by St.1992, c. 286, § 117; St.1993, c. 408, §§ 1, 2.

Historical and Statutory Notes

1985 Enactment. St.1985, c. 640, was approved Dec. 23, 1985.

1992 Legislation

St.1992, c. 286, § 117, an emergency act, approved Dec. 23, 1992, in the first paragraph, in par. (d), substituted "sixty-eight A" for "sixty-eight".

1993 Legislation

St.1993, c. 408, § 1, approved Jan. 10, 1994, in the first paragraph, in the first sentence, added "or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate whose owner has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges".

Section 2 of St.1993, c. 408, in the first paragraph, in par. (b), in the first sentence, inserted "or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate owned by any party whose name appears on said list furnished to the licensing authority from the tax collector".

CITY OF MELROSE

MAYOR

MARGOT FLEISCHMAN

City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-4441

To: Mayor Paul Brodeur
From: Margot Fleischman
Meeting Date: February 22, 2022
Subject: Small Wireless Facilities Installations
Order #: ORDNC-2022-2

AN ORDINANCE RELATIVE TO SMALL WIRELESS FACILITIES INSTALLATION IN THE PUBLIC RIGHTS- OF-WAY

Be it ordained by the City Council of the City of Melrose, that the Revised Code of Ordinances of the City of Melrose is hereby amended by adding a new Chapter 183, to read as follows:

Chapter 183. Small Wireless Facilities in the Public Rights-of-Way

Sec. 183-1. Purpose.
Public demand for consistent wireless communication service is being met by service providers in some locations by the use of small cell wireless antennas. Wireless service providers in some cases seek to place small cell wireless antennas on utility poles located in the public way. Therefore, in order to balance public interests between demand for reliable wireless service and public concerns regarding the installation of this technology, this Chapter is intended to provide a uniform and comprehensive set of standards and requirements for permitting, developing, siting, installing, designing, operating, and maintaining small wireless facilities in the public Rights-of-Way within the city's jurisdiction.

Sec. 183-2. Definitions.
As used in this article, the following terms shall be defined as follows:

Abandoned - The cessation of use of a small wireless facility.

Antenna - an apparatus designed for the purpose of emitting radio frequency signals from a fixed location pursuant to the Federal Communications Commission authorization, for the provision of wireless service. For purposes of this definition, the term antenna does not include an unintentional radiator, mobile station, antenna designed for amateur radio use, or satellite dish for residential or household purposes.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Antenna equipment - equipment, switches, wiring, cabling, power sources, shelters or cabinets associated with an antenna, located at the same fixed location as the antenna, and, when collocated on a structure, is mounted or installed in conjunction with the installation of such antenna.

Applicant - any person who submits an application under this ordinance and is, or is acting on behalf of, a wireless services provider or wireless infrastructure provider.

Collocate - mount or install an antenna on an existing structure containing other equipment, or modify a structure for the purpose of mounting or installing an antenna. "Collocation" has a corresponding meaning.

Design standards - standards promulgated for installation of a small wireless facility, in accordance with applicable Federal Communications Commission rules and regulations, that are reasonable, no more burdensome than those applied to other types of infrastructure deployments, and objective and published in advance.

Rights-of-Way or *ROW* - the area on, below, or above a public utility easement, roadway, highway, street, sidewalk, alley, or similar property, but not including a federal interstate highway.

Small Wireless Facility - a facility that meets each of the following conditions:

(a) The facility is mounted on a structure 50 feet or less in height including the antenna, or is mounted on a structure no more than 10 percent taller than other adjacent structures, or does not extend the existing structure on which it is located to a height of more than 50 feet or by more than 10 percent, whichever is greater;

(b) The antenna, excluding associated antenna equipment, is no more than three cubic feet in volume;

(c) All other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is cumulatively no more than 28 cubic feet in volume;

(d) The facility does not require antenna structure registration;

(e) The facility is not located on tribal lands; and

(f) The facility does not result in human exposure to radio frequency in excess of the applicable safety standards specified in 47 C.F.R. 1.1307(b).

Structure - a pole, tower, base station, or other building, whether not it has an existing antenna facility, that is used or to be used for the provision of wireless service.

Wireless Provider - any individual, corporation, limited liability company, partnership, association, trust, or other entity or organization, authorized to provide communications service in the state, that builds or installs wireless communication transmission

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

equipment and/or small wireless facilities, or that subcontracts the building of such facilities, or provides to the public wireless services using radio frequency signals.

Sec. 183-3. Permit Required.

No wireless provider shall place, construct, erect, modify, mount, attach, operate or maintain a small wireless facility in the Rights-of-Way in the city without first obtaining a permit from the City Engineer.

Sec. 183-4. Application and Approval Process.

(a) All applications for a small wireless facility shall be submitted to the City Clerk in accordance with policies and procedures set forth by the city on the webpage for the City Clerk.

(b) Applicants shall submit applications accompanied by a fee of $100 per application, payable to the "City of Melrose." Each application for more than 5 installations is subject to a separate fee of $100 per installation after the first 5 installations. The amounts due under this section may be revised by the Council from time to time, consistent with applicable law;

(c) Applicants shall provide notice by first class mail to all other wireless providers, within the Applicant's knowledge after reasonable inquiry to the City, who use or may request use of the public right of way for communications services within five hundred feet (500') of the proposed location(s). Such notice shall inform recipients of the Applicant's application, including specifying the pole(s) or other structures to be utilized, and any excavation(s) of the public way contemplated by the work. Proof of mailing of such notice shall be provided within three (3) business days of application submission, and may be provided by submission of an affidavit to the City Clerk. Note that any excavation beyond 3-feet from the original facility requires a separate Grant of Location from the City Council.

(d) Upon receipt, the City will make a determination as to the completeness of the application and notify the Applicant, in writing within 10 days, if the application is incomplete in accordance with the submission requirements as referenced herein below. If incomplete, the City will specify the information needs and the relevant policy or ordinance provisions or requirements.

(e) If the Applicant is notified the application is incomplete, the time periods set forth herein shall be tolled until such time as the City is in receipt of a complete application from the Applicant. In the event an application remains incomplete forty-five (45) days after any notice that the application is incomplete and the Applicant has not responded, such application shall be deemed denied without prejudice, and will need to be resubmitted in full.

(f) If the application is deemed complete, the application shall then be circulated to the Ward Councilor for the ward in which the proposed small wireless facility will be installed;

(g) Applicants shall notify all property owners within 500 feet of the proposed installation by certified mail within 5 days of determination of a complete application submission to the City. Proof of all certified mail receipts shall be provided to the City Engineer as they become readily available.

(h) Applicants shall post conspicuous signs of pending applications at proposed sites within 10 days of determination of a complete submission of any application to the City;

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(i) Written comments from the Ward Councilor, if any, shall be submitted to the City Engineer within 30 days of receipt of the application.

(j) Any material changes to an application that must be made to meet the City's design standards, as determined by the City Engineer in his/her sole discretion, shall constitute a new application for the purposes of the time standards. Where a changed or new application is submitted, the prior application shall be deemed withdrawn.

(k) Once the application is deemed complete, and all comments have been received, the City Engineer shall issue a determination. This will occur within 60 days of an application submission.

(l) The City Engineer may grant, grant with conditions, or deny the Application for a permit under this ordinance. Applications may be approved if they comply with all applicable City requirements as set forth herein, or if their approval is otherwise consistent with applicable law. A denial by the City may be based on criteria which include but are not limited to any of the following:

i. Failure to meet the requirements of the application process and the content of applications as specified in this Ordinance;

ii. Failure to meet the Design Standards and Installation Requirements set forth in this Ordinance, unless the Applicant can demonstrate that such design standards are not technically feasible for that particular installation or that there is no reasonable alternative;

iii. Failure of the applicant to comply with all applicable state and federal laws, rules, regulations, or other requirements;

iv. Any other legally valid reason to deny such application.

(m) Any approval granted to an Applicant shall be only for the specific Applicant and application submitted, including location of all proposed installations.

(n) The City is permitted to hire an RF engineer to conduct random, unannounced RF emission testing of any or all antenna installation(s) at the expense of the operator.

(o) No approval granted under this Chapter shall confer any exclusive right, privilege, license, or franchise to occupy or use the public right of way for delivery of telecommunications services or any other purpose.

Sec. 183-5. Content of Applications: Applications shall include the following information:

(a) Applicant's name, address, telephone number and email address.

(b) Names, addresses, telephone numbers, and email addresses of anyone acting on behalf of the Applicant with respect to the application.

(c) Detailed drawings and descriptions of the equipment to be installed including:

i. Type of equipment

ii. Specifications of equipment (including but not limited to dimensions and weight)

iii. Equipment mount type and material

iv. Power source or sources for equipment, including necessary wires, cables and conduit

v. Expected life of equipment

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

vi. Coverage area of equipment, including:
    a) Number of antennas
    b) Antenna model
    c) Antenna length
    d) Antenna height
    e) Typical coverage of area radius
vii. Rendering and elevation of equipment.
viii. If installation requires new equipment mounted on the ground or a new pole to be erected, a prior Grant of Location approval from Melrose City Council is required. Proof of such approval shall be submitted at the time the application is filed.
ix. Existing conditions photographs including at least one showing the pole where the small wireless facility will be installed and the nearest residential structure;
x. For all applications to locate small wireless facilities, the Applicant shall provide photo simulations from at least two reasonable line of-site locations near the proposed project site. The photo simulations must be taken from the viewpoints of the greatest pedestrian or vehicular traffic.

(d) Detailed map with locations of the poles or other facility on which equipment is to be located, including specific pole identification number, if applicable, and the areas it will service.
(e) Detailed map showing existing and proposed small cell installations within 500 feet of the Application site.
(f) Certification by a registered professional engineer that the pole/location will safely support the proposed equipment, including how it will affect the integrity of the pole for public safety concerns.
(g) Written consent of the pole or facility owner for the installation.
(h) Affidavit of a Radio Frequency Engineer or Radio Frequency Safety Officer with Massachusetts experience that demonstrates that the resulting radio frequency emission levels from equipment installation at the proposed location(s) comply with the Federal Communication Commission's radio frequency (RF) emissions regulations as well as any Commonwealth of Massachusetts health and safety standards at the street level and at the closest point of the nearest occupied building. RF Radiation emission limits apply to the aggregate emissions of all co-located equipment not just emissions of single antennas. Should emissions exceed FCC guidelines, all antennas must be turned off until the aggregate emissions are lowered to acceptable limits.
(i) Insurance Certificates with the following minimum coverages: General liability insurance in an amount not less than $1,000,000 per occurrence and $2,000,000 in the aggregate, worker's compensation insurance not less than the amount of $100,000 per accident and $500,000 per illness or the statutorily required amount, whichever is greater, and umbrella insurance in an amount not less than $5,000,000. The City must be an additionally named insured, and such policies shall indicate that the insurance company shall provide thirty (30) business days' prior written notice to the City of lapse or cancellation. All insurance carriers shall carry an A.M. Best rating of "A-" or better. Such insurance shall provide for the waiver by the insurance carrier of any subrogation rights against City, its agents, servants and employees
(j) Description as to why the desired location is superior to other similar locations from a community perspective, including:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

i. Visual aspects
ii. Proximity to residential dwellings, schools, parks or playgrounds.
iii. Documented effort to place antennas in non-residential areas, away from schools and daycare centers, and proof that such alternate sites will not result in adequate coverage

(k) Description of efforts to co-locate the equipment on existing structures, poles or towers which currently exist or are under construction. A good faith effort to co-locate is required and evidence of such efforts must be included within the application. Any installations that would require a new pole require a Grant of Location approval from the City Council prior to submitting a small cell application.

(l) An Affidavit from the applicant which certifies that it will maintain the installations in good repair and according to FCC standards, and remove any installation not in such good repair, or not in use, within 30 days of being no longer in good repair or 90 days of being no longer in use.

(m) A written analysis indicating that the installation and location of the equipment will not interfere with the operation of the existing pole or its primary uses, or with any public safety or public works radio transmissions. This analysis shall include certification that the proposed facilities will not cause interference to any lawfully operating emergency communication system, television, telephone, or radio in the surrounding area.

(n) A written plan indicating the protocol for turning off wireless facilities when utility workers are present on poles, in order to limit their exposure to radio frequency emissions. The plan should also include a description of any warning signs that will be posted to alert utility workers to radio frequency exposure.

(o) A written plan indicating the response protocol to be implemented in the event that the equipment is damaged by a weather related event or due to an accident.

(p) A statement indicating whether a waiver is being requested from any of the applicable Design Standards and Installation Requirements as set by the City. If so, the Applicant shall identify from what particular standard a waiver is being requested, and any request for a waiver must contain information detailing how the applicable standard is not technically feasible, why there is no reasonable alternative, and/or that requiring the Applicant to meet the standard would constitute an effective prohibition.

Sec. 183-6. Design Standards and Installation Requirements: All small wireless facilities must be constructed, installed, and operated in accordance with the plans and specifications included in the application and the following design standards and installation requirements:

(a) Cables, Wires, Connectors: All cables, wires and connectors related to the small wireless facility must be fully concealed on the wireless support structure and shall match the color of the wireless support structure. There shall be no external cables and wires related to the small wireless facility hanging off or otherwise exposed on the wireless support structure.

(b) Signage: The small cell wireless facility permittee shall post its name, location identifying information, and emergency telephone number in an area on the cabinet of the small wireless facility that is visible to the public. Signage required under this section shall not exceed 4 inches by 6 inches, unless otherwise required by law (e.g. radiofrequency (RF) ground notification signs) or the City.

(c) Lights: New small cell wireless facilities and wireless support structures shall not be illuminated, except in accord with state or federal regulations.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(d) Logos/Decals: The small wireless facility operator/permittee shall place the RF warning sticker required by government or electric utility regulations as close to the antenna as possible.

(e) Cooling Fans: The small cell wireless facility operator/permittee shall use a passive cooling system. In the event that a fan is needed, the small cell wireless facility operator/permittee shall use a cooling fan with a low noise profile. In any event, all small wireless facilities shall comply with current requirements of the City of Melrose Zoning and Noise ordinances.

(f) All small wireless facilities shall be installed in accordance with the applicable codes in force at the time of installation.

(g) Antenna shall be placed no less than 20 feet from a residence's window, door opening, porch or balcony unless a waiver is granted specific to this requirement.

(h) No installation shall be placed where, in the determination of the City, it would limit the city's ability to plant future street trees based upon any existing city standards or guidelines for planting of street trees.

(i) Pole-mounted equipment heights to the bottom of the antenna and all ancillary cabinets and equipment shall be no less than 12 feet above the sidewalk elevation.

(j) Where conditions do not permit a top mounted antenna, the antenna may be side mounted with a minimum height of 15 feet above the sidewalk elevation.

(k) The city reserves the right to reasonably require, in its sole discretion, a supplemental review by independent experts of any application for a small wireless facility under this section. All reasonable costs of such review shall be borne by the applicant, in addition to scheduled fees. Whether based on the results of the supplemental review or the city's own review, the city may require changes to or supplementation of the application.

(l) Unless construction has actually begun and is diligently pursued to completion at that point, no permit for construction issued under this Chapter shall be valid for more than 12 months unless the City Engineer and Applicant agree to an extension and all required fees are paid for the term regardless of construction.

(m) Routine maintenance shall not require submittal of a new application, although it shall require all necessary permits for work to be performed.

(n) A wireless provider shall repair, at its sole cost and expense, any damage to city streets, sidewalks, curbs, gutters, trees, parkways, city poles or other property, utility lines and systems, or sewer or water systems or lines resulting from the collocation of a small wireless facility in the ROW or the installation of a pole in the ROW. The wireless provider shall restore such areas, structures and systems to substantially the same condition in which they existed prior to the damage. If the wireless provider fails to make the repairs within 60 days of notice of the damage, the city may affect those repairs and recover the actual and reasonable expenses of doing so from the wireless provider, its successors or assigns.

Sec. 183-8. Annual Requirements.

(a) Each year on or before January 31st, the wireless provider shall submit an affidavit to the City Engineer listing, by location, all small wireless installations it owns within the city and certifying which installations remain in use and remain covered by the Applicant's insurance, which installations it has abandoned, and which installations are no longer in use.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(b) Accompanying the annual affidavit referenced in (a) above, the wireless provider shall submit a $270 annual fee per small wireless facility in the Rights-of-Way in the City of Melrose.

(c) If a wireless provider fails to make the payments required by the city at the time of the affidavit submission, the wireless provider's small wireless facilities shall be deemed abandoned and the city may, at its sole option, remove all or any portion of them, or take other action as authorized by law.

Sec. 183-9. Removal and Abandonment of Facilities.

(a) Removal. No less than 90 days following written notice from the city, the wireless provider shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any small wireless facilities within the Rights-of-Way whenever the city has determined that such removal, relocation, change or alteration is reasonably necessary for the construction, repair, maintenance, or installation of any city improvement in or upon, or the operations of the city in or upon, the Rights-of-Way. If the wireless provider fails to comply with the written notice, the city may perform the work and recover the actual and reasonable expenses of doing so from the wireless provider, its successors or assigns.

(b) Abandonment. The City may require a wireless provider to remove a small wireless facility permitted hereunder within 90 days after the date that the facility ceases to be used unless the wireless provider gives the City reasonable evidence that it is diligently working to place the facility or pole back in service. Should the wireless provider fail to timely remove the small wireless facility or pole, the City may remove such facility and recover the actual, reasonable cost of such removal from the wireless provider.

(c) The city retains the right to cut or move any small wireless facility located within the Rights-of-Way of the city in the event of an emergency, as the city may determine to be necessary, appropriate or useful in response to any imminent danger to public health, safety, or property. If circumstances permit, the city shall notify the wireless provider and provide the wireless provider an opportunity to move its own facilities prior to cutting or removing a facility and shall notify the wireless provider promptly after cutting or removing a small wireless facility. If the city performs work under this section, it may recover the actual and reasonable expenses of doing so from the wireless provider, its successor or assigns. The wireless provider shall repair all damage to city property caused by the activities of the wireless provider and shall return the city property to its functional equivalence before the damage pursuant to competitively neutral, reasonable requirements and specifications.

Sec. 183-10. Exception to Applicability.

Nothing in this Article shall authorize a wireless provider to locate small wireless facilities on property owned by a private party, property that is not located within the public right-of-way, or a privately owned utility pole or wireless support structure within a right-of-way without the consent of the property owner.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Sec. 183-12. Insurance and Indemnification.

(a) All wireless providers shall maintain at all times insurance with the following minimum coverages: General liability insurance in an amount not less than $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate, and umbrella insurance in an amount not less than $5,000,000.00. The city must be an additionally insured party. All insurance carriers shall carry an A.M. Best rating of "A-" or better. Such insurance shall provide for the waiver by the insurance carrier of any subrogation rights against the city, its agents, servants and employees.

(b) To the fullest extent allowed by law, any wireless provider constructing, installing, operating, repairing, maintaining and using a small wireless facility shall indemnify, defend and hold harmless the city, and its officials, agents, and employees from and against all suits, actions or claims of any character brought because of any injury or damage received or sustained by any person, persons or property arising out of, or resulting from, said wireless provider's breach of any provision of law, including but not limited to the requirements of this ordinance and applicable state and federal regulations, or any asserted negligent act, error or omission of the wireless provider, or its agents or employees, arising from or relating to its small wireless facility. The indemnifications required hereunder shall not be limited by reason of the specification of any particular insurance coverage for any permit. Each wireless provider's obligations under this provision shall not terminate with the expiration or termination of its permit, but shall survive it.

Sec. 183-11. Compliance with all applicable laws.

The wireless provider shall comply with all applicable local ordinances, state and federal laws, including but not limited to the noise and zoning ordinances, as well as the Massachusetts building, plumbing and electrical codes, uniform building, fire electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to those codes, and the National Electric Code, National Electric Safety Code, any applicable environmental codes (e.g., Wetlands Protection Act and local bylaw), local, state, and federal regulations pertaining to historic districts and structures, and the rules, regulations, and provisions of the Federal Communications Commission, the Occupational Safety and Health Administration, and any other state or federal agency regulating wireless communications.

CITY OF MELROSE

OFFICE OF THE MAYOR

PAUL BRODEUR
Mayor

City Hall, 562 Main Street
Melrose, Massachusetts 02176
Telephone - (781) 979-4440

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Small Wireless Facilities in Public Rights-of-Way
Date: February 22, 2022

I hereby request that the Honorable City Council adopt an ordinance setting out a formalized application process, conditions and standards for the review and approval of the installation of small wireless communications antennas (referred to by some providers as "small cell" or "5G" for the fifth generation of wireless antennas) within the City of Melrose.

Telecommunication companies install and maintain antennas across municipalities like the City of Melrose to provide cellular coverage and high speed internet services. Although the City cannot impose onerous fees, additional safety standards for radio frequency exposure, or set standards that would effectively prohibit the installation of this wireless technology within our jurisdiction, the City can regulate the placement, siting, design, and installation of these devices.

By establishing a formalized process by way of ordinance, we can balance the City's interests regarding these installations with each telecommunications company's legal rights under the FCC to install this equipment in our municipality.

When reviewing and considering this proposed Ordinance, please note that it has been crafted with careful consideration of the public's concerns over these installations, in conjunction with the Department of Public Works, Engineering Division and the City Solicitor's office, with the intention of setting out a process that will meet the needs of the City while also complying with the limits placed upon municipalities in review and denial of these installations as set by the current state of the law.

Of important note, for example, is that the Federal law (the Telecommunications Act of 1996) expressly preempts state and local governments from locally addressing health concerns over Radio Frequency (RF) emissions from these installations. The FCC has set current RF emissions standards that any wireless technologies deployed in the City are required to meet and we have addressed that within this Ordinance to ensure compliance of each installation with those standards to the extent allowable by Law.

Our goal is that in establishing this formalized process and ordinance, like many communities in the Commonwealth and the country have done to date, we can regulate these installations and set design and installation standards for these devices that will satisfy the City's needs and concerns to the greatest extent allowed for by law.

CITY OF MELROSE

PUBLIC WORKS DEPARTMENT
City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-0142

JAMES TROUP
Deputy Director Admin/Finance

To: Mayor Paul Brodeur
From: James Troup
Meeting Date: February 22, 2022
Subject: Amending Chapter 198 of the Revised Ordinances of the City of Melrose
Order #: ORDER-2022-65

As we prepare for practical implementation of the Solid Waste and Recycling ordinance amendments to Chapter 198, Order 2022-25, passed during the City Council Meeting on September 20, 2021, we hereby propose the following minor adjustments to the ordinance language:

1) Chapter 198, Article II, §198-2, and §198-3, Part B, and §198-4, Part B(2): Increase the allowable volume of trash and recycling receptacles from 45 gallons to 50 gallons, to allow purchase of current available market sizes. Language in the City's contract with JRM, which dates back to 2012, recommends the use of receptacles no larger than 45 gallons. In practice, current available sizes for purchase are generally 48 gallons, so we recommend increasing the limit slightly to accommodate current supply.
2) Chapter 198, Article II, §198-2: Remove the requirement for two handles on trash receptacles, as it may arbitrarily limit otherwise-compliant receptacles. A receptacle may have a tight-fitting lid without two handles. In particular, the toters that are presently very popular and practical do not have two handles but should be encouraged.
3) Chapter 198, Article II, §198-2, Part D: Add language to clarify that the allowance of one weekly bulk item per residence does not require a receptacle. We are not aware of any bulk items that would contain food, so rodents are not expected to be an issue with bulk items left out for pickup; placement of bulk items in a lidded receptacle is not practical.

Attachments to this Order include the proposed changes to the Solid Waste and Recycling Ordinance Chapter 198 (red line version), updates to barrel ordinance, and a summary memo.

The Director of Public Works shall, in addition to the duties prescribed by law and the Charter, have charge of the collection and disposal of ashes and other household rubbish, including garbage, under proper regulations approved by the Mayor and City Council.

A. The Director of Public Works shall maintain and publish a Waste and Recycling Services "Schedule of Fees" on the Department of Public Works website for curbside pickup services, City Yard drop-off items, and special City Yard events.

B. For Solid Waste Collection, residents shall use plastic or metal barrels under ~~45~~ 50 gallons and 45 pounds. No more than four (4) barrels or bags and one (1) bulky item per week will be picked up from each household.

C. The Director of Public Works shall, for a period beginning on or around April 15 and ending about December 15, collect at curbside, biweekly or monthly as defined in its annual collection calendar, all leaves and grass clippings, provided that such materials do not violate any regulation or rule authorized by this section. Leaves and grass clippings shall be placed at curbside for City pickup in plain brown paper bags or barrels, subject to such reasonable limits as may be set by the Director of Public Works. No loose materials will be collected. The Director of Public Works shall operate a drop-off yard waste collection program in conjunction with this subsection.

D. There shall be a collection of large metal goods by the Public Works Department either once or twice a week at the Director's discretion and under the following regulations:

(1) Metal goods include refrigerators, sinks, stoves, bathtubs, toilets, shower stalls, radiators, metal file cabinets, metal desks, dismantled play sets, metal pipes tied together in a bundle weighing not in excess of approximately 30 pounds and any other metal goods requiring special pickup.

(2) Each metal goods item as defined in Subsection D(1) will be picked up at curbside for a fee, listed in the "Schedule of Fees" as "Metal Goods Item Pickup" and payable to the City of Melrose. The homeowner/resident wishing to dispose of such items will obtain a receipt from the Department of Public Works after payment is made for each item. Any item that has no sticker will not be picked up by the City or its agents.

(3) The collection of these fees is to be in accordance with Chapter 56, Officers and Employees, § 56-21.

(4) Moneys collected under this Subsection C shall be set aside in a special fund suggested by the Auditor.

E. There shall be a collection of mattress(es) and/or box spring(s) made by a vendor at the discretion of the Director of Public Works. This collection shall be made pursuant to the following:

(1) Each mattress or box spring will be picked up curbside for a fee, as listed in the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"Schedule of Fees" as "Mattress Pickup" . This fee shall be paid to the City of Melrose in advance of any curbside pickup.

(2) The collection of these fees is to be in accordance with Chapter 56, Officers and Employees, § 56-21.

F. No person, except an authorized employee or agent of the Public Works Department, shall remove any article or material deposited or placed upon a street or sidewalk for the purpose of being collected by the Public Works Department.

G. No dumpster may be placed on City streets without first obtaining written permission from the Director of Public Works or their designee.

H. Trash tipping fee.

(1) Residential. A "trash fee," listed in the "Schedule of Fees" per dwelling unit is hereby established effective July 1, 2005, on all residential structures of six units or fewer.

(2) (Reserved)

(3) Discount.

(a) Effective January 1, 2016, any senior citizen (65 years or older) who owns and occupies a single-family home or condominium with an income of $65,870 or less for a single person, $75,280 or less for married couples, will be eligible for a 50% discount for this fee.

(b) Effective January 1, 2016 hardship cases. Any citizen who owns and occupies a single-family home or condominium with an income of $35,000 or less for a single person, $40,000 or less for married couples, will be eligible for a 100% discount for this fee.

(c) Proviso. Eligibility should be determined by using the adjusted gross income number found on the IRS 1040 form.

(4) (Reserved)

(5) Billing. The Collector shall issue bills quarterly.

(6) Exemption. Any person that can demonstrate an alternative lawful disposal method may apply for an exemption.

I. Billing period; place of placement; delinquent payments.

(1) All bills for solid waste and recycling shall be made out and rendered by the Public Works Department to consumers quarterly, and all such bills shall be payable within 30 days at the office of the City Collector.

(2) Bills not paid within 30 days shall be subject to the following:

(a) Demand charge of $5.

(b) Interest penalty of 14% from the due date.

(c) Lien fee of $10, to be applied only on those solid waste and recycling bills that become lien on real estate tax bills.

§ 198-4. Curbside recycling. [Added 1-22-1991 by Ord. No. 91-123; amended 8-15-1994 by Ord. No. 94-344; 2-20-2007 by Ord. No. 07-107B; ~~DATE~~ 9-20-2021 by Ord. No. 2022-~~###~~]-16]

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A. General provisions.

(1) The City of Melrose will provide for the curbside collection of acceptable recyclable waste from residences with six units or fewer in accordance with the provisions of § 198-3 and this section.

(2) "Acceptable recyclable waste" is defined by the Director of Public Works, in accordance with Waste Disposal Bans established by the Massachusetts Department of Environmental Protection (MassDEP) and the guidelines of the Materials Recovery Facility (MRF) to which the recyclable waste is hauled.

B. Recycling containers; usage, placement.

(1) The recycling containers must be placed at curbside in accordance with the schedule to be announced by the Department of Public Works and will be collected by a contractor as agent for the City of Melrose. If material placed in the recycling container is not acceptable recyclable waste as defined in Subsection A it will be left in the recycling container, and the resident shall remove the unacceptable recyclable waste before placing the recycling container at curbside for the next collection.

(2) Residents shall use plastic or metal barrels/bins under ~~45~~ 50 gallons and 45 pounds for their single stream recycling. Barrels/bins should be clearly labeled as recycling.

(3) Source separation of acceptable recyclable waste shall be performed by the residents according to the instructions given by the Department of Public Works.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

C. Authorized collection of acceptable recyclable waste. No person, except those individuals and companies authorized by the City of Melrose, shall collect or pick up or cause to be collected or picked up any acceptable recyclable waste which has been placed for collection pursuant to the provisions of this section. The individuals or companies so authorized shall supply the City of Melrose with receipts for collected accepted recyclable wastes, and all collections of accepted recyclable wastes shall take place according to the trash pickup schedule determined by the Department of Public Works but no earlier than 7:00 a.m. and no later than 6:00 p.m. of the same day, unless arranged in advance with the Director of Public Works to accommodate special circumstances.

Article II
Collection and Disposal
[Adopted as Rev. Ords. 1976, §§ 13-3, 13-6, 20-5 and 20-6 (Rev. Ords. 1989, §§ 8-1, 15-26 and 15-27)]
§ 198-2

*** Dumping; obstructing sidewalks; placement of refuse containers. [Amended 6-§ 1984 by Ord. No. 785A; 6-18-1984 by Ord. No. 785B; 2-20-2007 by Ord. No. 7-107A; 9-20-2021 by Ord. No. 2022-25]**

§ No person shall put or place, or cause to be put or placed, in any street, lane, alley or any other place, public or private, where it may be offensive or objectionable, any ashes, dirt or refuse, nor shall any piece of metal or wood or any plastic in any form or other material injurious to feet or to tires of vehicles or any other rubbish be put, placed or thrown into or on any street, lane, alley or public place. No person shall throw or place on any vacant land, whether public or private, or in any brook, waterway, or pool rubbish, limbs, brush, barrels, boxes, or the likes.

§ No person shall place or cause to be placed on any sidewalk, footwalk or crosswalk any object whatsoever so as to interfere with the convenient use of the same by any person traveling thereon. This shall not apply to building materials placed by permission of the City Engineer. [Amended 5-21-2012 by Ord. No. 2012-158]

§ Residential refuse receptacles shall be watertight with tight-fitting covers of a durable rodent-proof material. A sufficient number of receptacles shall be provided by property owners or their agent(s) so as to adequately contain the amount of refuse produced at each property. Receptacles shall be no larger than ~~forty-five (45)~~ fifty (50) gallons ~~and have two intact handles~~.[Amended 9-202021 by Ord No. 2022-25, Amended (date) by Ord No. 2022-##]

D. Receptacles shall be tightly covered whenever refuse of any amount is contained therein, have it be on private property, a private way, or a public sidewalk. Refuse shall be stored in receptacles as described in this section except for material which may be placed at curbside under city-sponsored source reduction and/or source separation collection programs in accordance with the guidelines of such programs. Each residence is allowed to dispose of one bulky item per week in curbside trash pickup, which is not required to be contained in a receptacle.

E. Refuse receptacles shall be placed at the curb by 7:00 a.m. on the scheduled collection day, but not prior to 5 p.m. the preceding day, and shall be removed from the sidewalk within twelve (12) hours after collection.

F. The following shall apply to subsections (A) through (D) of this section:

I. Whoever violates any provision of the aforementioned sections shall be penalized in accordance with MGL c. 40, § 21D or MGL c. 270, § 16, not to exceed $100.00 for each violation, provided that each and every day of the violation shall constitute a distinct and separate offense.

II. Property owners or their agents shall be responsible for the retrieval and pickup of any and all scattered refuse stemming from a violation of this ordinance. Failure to

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

comply with this provision shall constitute a separate violation, which may be enforced as authorized above.

III. The Board of Health, the Department of Public Works, and the Police Department through their authorized agents and employees, are hereby empowered to enforce the provisions of this section pursuant to MGL c. 40, § 21D and MGL c. 270, § 16.

IV. No property owner shall be cited for a violation of this ordinance until a written warning is first served upon the party.

G. Any party fined hereunder shall have a right of appeal in accordance with General Laws Chapter 40, Section 21D.

*Enforcement set to begin March 1, 2022

Re: Chapter 198 Solid Waste and Recycling Ordinance Update

As we prepare for practical implementation of the Solid Waste and Recycling ordinance amendments to Chapter 198, Order 2022-25, passed during the City Council Meeting on September 20, 2021, we hereby propose the following minor adjustments to the ordinance language:

1) Chapter 198, Article II, §198-2, and §198-3, Part B, and §198-4, Part B(2): Increase the allowable volume of trash and recycling receptacles from 45 gallons to 50 gallons, to allow purchase of current available market sizes. Language in the City's contract with JRM, which dates back to 2012, recommends the use of receptacles no larger than 45 gallons. In practice, current available sizes for purchase are generally 48 gallons, so we recommend increasing the limit slightly to accommodate current supply.
2) Chapter 198, Article II, §198-2: Remove the requirement for two handles on trash receptacles, as it may arbitrarily limit otherwise-compliant receptacles. A receptacle may have a tight-fitting lid without two handles. In particular, the toters that are presently very popular and practical do not have two handles but should be encouraged.
3) Chapter 198, Article II, §198-2, Part D: Add language to clarify that the allowance of one weekly bulk item per residence does not require a receptacle. We are not aware of any bulk items that would contain food, so rodents are not expected to be an issue with bulk items left out for pickup; placement of bulk items in a lidded receptacle is not practical.

KATHY PIGOTT-BRODEUR
Executive Director

To: City Council
From: Kathy Pigott-Brodeur
Meeting Date: February 22, 2022
Subject: Acceptance of SHRAB Veterans' Heritage Grant
Order #: ORDER-2022-67

To the Honorable City Council:
Memorial Hall requests acceptance of the SHRAB grant in the amount of Fourteen Thousand Two Hundred Fifty Three Dollars and Zero Cents ($14,253). This grant will be used to hire a consultant to help execute the Melrose Civil War Veterans Heritage Project. This project will properly archive the ephemera at Memorial Hall; design and implement a plan to preserve that collection; perform additional research; properly interpret the information gathered and memorialize the honorable service of previously unrecognized veterans.
Said funds to be transferred into a dedicated fund account to be established by the Auditor's Office. There is a match requirement for this grant which will be taken from the Soldiers and Sailors Memorial Building Board of Trustees Memorial Hall Restoration Fund and the project will not have any impact to the FY22 budget.

FINANCIAL IMPACT: Match Required - Marching funds have been approved by the Soldiers and Sailors Memorial Building Board of Trustees from the Restoration Fund (Item # 9616)

Ms. Kathy Pigott-Brodeur, Executive Director
Soldiers and Sailors Memorial Building
590 Main Street
Melrose, MA 02176

Dear Ms. Pigott-Brodeur: January 14, 2022

I want to offer you and the Soldiers and Sailors Memorial Building my congratulations on behalf of Secretary of State William F. Galvin, the Massachusetts State Historical Records Advisory Board and the Massachusetts General Court. The Board recently voted $14,253 to fund your application to the Veterans' Heritage Grant Program.

The Board requests a Project Status Report by the end of the calendar year. We will be in touch by electronic mail to walk you through the procurement process to access those funds.

Thank you for your interest in the Veterans' Heritage Grant Program and for your efforts in preserving the history of our Commonwealth's veterans.

Respectfully,

John D. Warner, Jr.

ED COLLINA
Fire Chief

To: Mayor Paul Brodeur
From: Ed Collina
Meeting Date: March 7, 2022
Subject: FY22 Firefighter Safety Equipment Grant
Order #: ORDER-2022-78

The City of Melrose Fire Department has been awarded $18,901.80 funding for the FY22 Firefighter Safety Equipment Grant Program by the Executive Office of Public Safety and Security and the Department of Fire Services. These funds will be used to replace three of our current, aged-out, XTS5000 Motorola portable radios, with three brand new APX6000 Motorola portable radios.

The Melrose Fire Department's current Motorola portable radios are past life expectancy, and Motorola no longer manufactures any part or pieces of these radios, causing Motorola to be unable to repair any problems with the radios.

Being past life expectancy, our current radios are aging severely, such as broken screens, missing parts/pieces, poor audio, and radio hang-ups; all of which are major safety issues in a fire scene. Investing in new Motorola portable radios will allow the department to restore communication reliability by providing clear voice transmission and reception. Replacing these un-repairable radios will allow the department to meet current NFPA/OSHA standards.

FINANCIAL IMPACT: Funds available for the safety of emergency communication between the fire fighters.

RESULT: ASSIGNED TO COMMITTEE

City of Melrose
576 Main Street
Melrose, MA 02176

Dear Chief Collina,

Congratulations! I am pleased to inform you that the Executive Office of Public Safety and Security and the Department of Fire Services (DFS) has awarded the City of Melrose $18,901.80 in State Fiscal Year 2022 funding for the Firefighter Safety Equipment Grant Program.

While the last two years have presented great challenges, the fire service in Massachusetts has shone brightly, overcoming every obstacle along the way. Please know that we are deeply appreciative for your continued dedication to the mission of public safety, and grateful to be able to provide your department with this important equipment.

The contract, terms and conditions, and other award documents for this program will be provided to you by DFS. Please contact Tim Moore at DFS with any questions about this award at 978-567-3721 or Timothy.Moore@mass.gov.

Sincerely,

Governor Charles D. Baker

Lt. Governor Karyn E. Polito

Department of Fire Services and the City of Melrose
FY22 Firefighter Equipment Grant Agreement Scope of Work and Budget

Authorization: This grant is awarded by the Executive Office of Public Safety through the Department of Fire Services' FY22 Firefighter Safety Equipment grant program for the purchase of firefighter safety equipment in accordance with the Acts of 2020 chapter 151 2D, the Department of Fire Services Earmark and Grants policy and procedures, and CMR 815, 2.00 State Grant Regulations.

Grant Project Description: Purchase of firefighter safety equipment as listed in the budget section of this Scope of Work.

Grant Manager: The MA Department of Fire Services and the grantee will each assign a grant manager with respect to this Scope of Work. It is anticipated that the grant manager will not change during the period the Scope of Work is in force. In the event that a change is necessary, the party requesting the change will provide prompt written notice to the other. In the event a change occurs because of a non-emergency, two-week written notice is required. For a change resulting from an emergency, prompt notice is required.

The MA Department of Fire Services grant manager will work closely with the grantee to ensure successful completion of the grant, will consult with the grantee to develop the Scope of Work, will coordinate input as needed, and will review and approve deliverables, progress reports and authorize acceptance and compensation of deliverables.

The grantee's grant manager will serve as the interface between the MA Department of Fire Services and all grantee personnel participating in this program, will maintain the Scope of Work and Budget in consultation with the MA of Fire Services grant manager, will facilitate regular communication with the MA Department of Fire Services grant manager including status reports/updates and review of performance against the Scope of Work, and will work closely with the MA Department of Fire Services to ensure successful completion of the grant.

The grantee's grant manager is Finance Administrator Rachel Jacobsmeyer who can be reached at: 576 Main Street, Melrose, MA 02176, tel 781-979-4404, email: rjacobsmeyer@cityofmelrose.org. The MA Department of Fire Services grant manager is David Clemons, Director of Operations, 1 State Road, Stow, MA 01775, tel 978-567-3179, email: David.Clemons@mass.gov.

Budget: The funds may not be used to serve as a match for a federal grant. The funds may not be used for construction and all applicable local and state procurement requirements must be adhered to in the use of the grant funds. The grant funds must be used to purchase the following approved firefighter safety equipment.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Grant Award:

Department	*Description of allowable Equipment*
City of Melrose	Portable Radio Support Equipment (including Battery Chargers, Battery Conditioners, Speaker Mics, and Headsets
Total Award	$18,901.80

Reimbursement Request Process: The MA Department of Fire Services agrees to disburse funds on a cost reimbursement basis. All costs requested for reimbursement must be listed on the DFS Grant/Earmark reimbursement form. Appropriate supporting documentation for all non-salary costs must also be attached, including:

1. copy of invoice
2. proof of payment – cancelled check or similar other proof of payment documentation such as a copy of the City/Town warrant or invoice that is marked paid and signed as paid by the City/Town fiscal officer.

Period of Performance: **Approved expenditures may not be made until a contract has been executed between DFS and the grant recipient.** Expenses incurred prior to execution of a contract **will not** be eligible for reimbursement through this program.

Grant recipients must take delivery of equipment no later than June 30, 2022. Equipment delivered to the recipient after that date **will not** be eligible for reimbursement through this program unless approval for an extension has been already been granted in writing by the DFS grant manager.

Reimbursement requests must be submitted no later than July 29, 2021. DFS will only reimburse for costs incurred through the grant performance period, June 30, 2022.

Grant Extensions: Grant recipients may request a single performance period extension if extenuating circumstances beyond the control of the recipient (backordered equipment, supply chain disruptions, vendor errors, etc.) will prevent equipment from being delivered on or before June 30, 2022. Extensions for these purposes must be submitted to DFS by email no later than June 1, 2022. Approval of extension requests is at the sole discretion of DFS.

Grant Monitoring: The Department of Fire Services may conduct grant monitoring through either a desk-based review or on-site monitoring visits, or both, in order to obtain additional

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

information or verify information related to grant spending, grant-funded activity, or grant award outcomes. Advance notice will be given prior to a site visit. Findings of non-compliance with any portion of the terms of the FY22 Firefighter Safety Equipment Application, the executed Standard Contract Form, and the DFS Grant Agreement Scope of Work and Budget may result in a demand for funds to be returned to DFS.

Changes in Scope of Work or Budget: The grant project description and budget are fixed and any change would be a "material" change in the contract. "Material" changes to the project description (adding, deleting or altering items) or budget lines (deletions, additions or changes to items) will require both parties to execute a *Standard Contract Amendment Form.* Contract amendments may not be done retroactively and must be done prior to the grant end date.

Records Management: The grantee shall maintain records in accordance with 815 CMR 2.08. This regulation includes but is not limited to "... maintain records, books, files and other data as specified in a contract and in such detail as shall properly substantiate claims for payment under a contract, for a minimum retention period of seven years beginning on the first day after the final payment under a contract, or such longer period as is necessary for the resolution, of any litigation, claim, negotiation, audit or other inquiry involving a contract..."

From: Chief Edward J. Collina
Date: February 4, 2022
RE: FY22 Firefighter Safety Equipment Grant Program

The City of Melrose Fire Department has been awarded $18,901.80 funding for the FY22 Firefighter Safety Equipment Grant Program by the Executive Office of Public Safety and Security and the Department of Fire Services. These funds will be used to replace three of our current, aged-out, XTS5000 Motorola portable radios, with three brand new APX6000 Motorola portable radios.

The Melrose Fire Department's current Motorola portable radios are past life expectancy, and Motorola no longer manufactures any part or pieces of these radios, causing Motorola to be unable to repair any problems with the radios.

Being past life expectancy, our current radios are aging severely, such as broken screens, missing parts/pieces, poor audio, and radio hang-ups; all of which are major safety issues in a fire scene. Investing in new Motorola portable radios will allow the department to restore communication reliability by providing clear voice transmission and reception. Replacing these unrepairable radios will allow the department to meet current NFPA/OSHA standards.

Respectfully,

Edward J. Collina
Chief of Dept.

Brigid Alverson
11 Garden St.
[redacted]

I am very interested in serving on the Board of Registrars of Voters. I am a strong believer in fair and impartial elections, and I would be honored to be considered for a position on the board. I have a little experience in this area. A quick timeline of my experiences:

- As a reporter for the Melrose Free Press, in 2001, I covered the election that Rob Dolan won by a single vote, as well as the recount that followed. This was a crash course in election law!

- After I left the newspaper, in 2004-2007, I was a poll worker.

- I was the Assistant to the Mayor from 2008 to 2020. During this time I worked closely with the Elections Office on a variety of different matters, including getting the word out about elections, and occasionally helping out with phones, etc., on election days.

- I retired from the Mayor's Office in 2020 and began working the polls again. I was also one of the workers who helped prepare for the 2020 election by processing and later counting absentee and early-voting ballots, as well as working as a poll warden for both the primary and the general election.

Although the fact that I previously worked for the Mayor's Office may present an apparent conflict of interest, I want to assure you that is not the case. I understand and will readily accept the responsibility of the Registrars to be fair and impartial, and if chosen, I will perform my duties with integrity.

I know there are probably many qualified candidates, but I hope you will consider my application!

Sincerely,
Brigid Alverson

RE: Melrose Housing Production Plan

I am pleased to present the Housing Production Plan to you for your review and approval.

As you know, a Housing Production Plan (HPP) is a specific type of plan that is defined under M.G.L. Chapter 40B. It can be used as a vehicle to achieve safe harbor under Chapter 40B, but perhaps more importantly, it provides an actionable roadmap of steps that the City can take to work towards addressing housing goals and needs in the coming years. The City of Melrose undertook this planning process in partnership with the Metropolitan Area Planning Council (MAPC), the regional planning agency for the Greater Boston region. The Plan requirements are dictated by MGL Chapter 40B regulation and include a housing needs and demand assessment, establishment of housing goals, analysis of factors affecting development, identification of opportunity sites, numeric production targets, and specific recommendations to achieve housing goals over the next five years.

This Plan is critical as the availability of all types of housing locally and regionally is low and the cost of housing that does become available is high and is steadily increasing. The vacancy rates are well below a healthy level, and they are declining meaning that people have fewer options for housing. Prices have been steadily increasing from an average home price of $266,000 in 2000 to $630,000 in 2018 and $750,000 in 2020. Asking rents are averaging more than $2,000 in 2019 for all bedroom counts except for studio units. Roughly 29% of households are housing cost-burdened, meaning that they pay more than 30% of their income on housing. More than one in three households in Melrose could qualify for the most common types of deed-restricted Affordable Housing. There is no sign of reprieve from the upward trends of housing cost and downward trend of availability.

Change is inevitable and it is best to plan for it to increase the opportunities for housing in a way that makes sense for Melrose and supports our goals as a community. Approval of the Housing Production Plan will not change any laws or regulations in the City. Approval of the Plan is an

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

acknowledgement that housing is a critical part of the community and we need to take action to make it more attainable.

The Plan is a culmination of the work that has been done to analyze data related to housing, determine best practices for Melrose, and create housing related goals, policies and actions with community input. It sets the framework for further work on each action identified. Once approved, the Planning Board and other parties identified will then take a deeper dive into crafting zoning amendments and regulations, and working on other initiatives, to accomplish the goals of the plan.

This plan has been underway for 15 months and the process has included extensive community involvement. An Advisory Committee, comprised of residents that have professional expertise in the housing industry, along with City Councilor Jack Eccles and Planning Board Chairman Greg Sampson, have spent many hours volunteering their time to offer substantive input on the public process and the content of the plan. In the fall of 2020 and spring of 2021 we held live webinars and asynchronous online open houses. We also held focus groups, targeted interviews, and met with city commissions and boards to discuss the plan and seek feedback. Residents were invited to participate via the City's website, social media, promotion in the local papers, and through flyers posted in the windows of local businesses and at other key locations such as City Hall, the Library, and the Commuter Rail Stations. Advisory Committee members were also instrumental in spreading the word about the process and engagement opportunities through their networks.

We shared the final draft of the plan with the community and asked for feedback. Approximately seventy people responded. The responses generally reflected some common themes around density, housing type and location, and tax implications, and the comments reflected a balance of opinions. We heard from people that do not want any new development and others that thought the plan does not go far enough to allow for more development in all areas of the City. Comments included making sure that specific groups have more housing options including those with housing insecurity, those with disabilities and seniors; and these groups were in mind when crafting many of the final actions in the plan. Responses were voiced on both sides for including passage of the Community Preservation Act (CPA) as an action item to explore and we determined that clarifications around how the CPA can be structured and adopted were needed. Edits and additional information were added to the plan to respond to the comments without negating all of the feedback received through the process.

The HPP was presented to the Planning Board at their meeting last night and was met with support and a unanimous vote to approve the Plan. Approval of the HPP by the City Council is the next step in the process. The Plan will then be submitted to the Department of Housing and Community Development (DHCD) for approval. We are confident that DHCD will find that the HPP meets all of the requirements defined in the Chapter 40B statute and that they will support our housing goals and objectives.

We look forward to your continued support and to starting the next phase of working towards implementation of the goals outlined in the Plan.

Executive Summary

Introduction

The Melrose Housing Production Plan (HPP) is based on a community-driven planning process to set the direction of housing policy and development in the city over the next five years. The City of Melrose undertook this planning process in partnership with the Metropolitan Area Planning Council (MAPC), the regional planning agency for the Greater Boston region. The plan is grounded in robust technical analysis and local expertise and insight, including active participation from a resident Advisory Committee and community feedback received through multiple forms of engagement. The plan meets the requirements for an HPP defined in M.G.L. Chapter 40B, but perhaps more importantly, it provides an actionable roadmap of steps the City can take to work towards addressing housing goals and needs in the coming years.

M.G.L. Chapter 40B

Massachusetts General Law Chapter 40B is a state statute encouraging cities and towns to maintain a supply of Affordable Housing that amounts to 10% of their total year-round housing stock. For these purposes, Affordable Housing is defined as housing that is deed-restricted to be affordable to eligible low-income residents without paying more than 30% of their annual household income. Affordable units that meet this criteria, as well as market-rate units in mixed-income rental housing developments where 20-25% of units are Affordable Housing, are eligible for inclusion on the Massachusetts Subsidized Housing Inventory (SHI).

Of Melrose's 11,714 housing units (2010 Census), 934 units—8% of the City's total housing stock—are included on the SHI. Because Melrose has not met the state's 10% Affordable Housing target, developers may override local zoning ordinances with a comprehensive permit if at least 20-25% of homes in a development are Affordable Housing. Once a community reaches the 10% threshold, it can claim "safe harbor" and thereby deny a developer a comprehensive permit.

Housing Production Plans

A Housing Production Plan (HPP) is a specific type of plan that is defined under M.G.L. Chapter 40B and approved by the Massachusetts Department of Housing and Community Development (DHCD). Plan requirements include a housing needs and demand assessment, five-year housing goals, analysis of factors affecting development, identification of opportunity sites, numeric production targets, and specific recommendations to achieve housing goals.

HPPs are important planning tools that can help a municipality better understand local housing needs and define where it wants future housing development. A Housing Production Plan can also be used as a vehicle to achieve safe harbor under Chapter 40B. Communities that adopt an HPP and produce sufficient Affordable Housing units over a certain period of time can apply to have their HPP certified by the Department of Housing

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

and Community Development, which offers temporary safe harbor from 40B projects lasting one to two years.

Planning Process

This plan is the result of a robust community process that included:

- **Advisory Committee.** A committee comprised of members of the Melrose community met eight times over the course of the planning process, during which they offered substantive input on the public process, the plan's goals, potential strategies and actions, and more.

- **Fall Engagement Campaign.** In late 2020, the project team held two events—a live webinar and an asynchronous online open house—to publicly launch the planning process. Hundreds of people participated in these events. Feedback illustrated that the majority of participants wanted Melrose's housing to promote an inclusive, affordable, and sustainable community.

- **Spring Engagement Campaign.** In June 2021, the project team again hosted a webinar and an online open house, in this case designed to share and collect input on the plan's potential content. City staff also conducted an in-person "tabling" event in Downtown Melrose. These events were attended by hundreds of people who collectively demonstrated a desire to take steps to address the City's housing goals, including zoning reforms and programs to address affordable and fair housing.

- **Focus Groups.** The planning team held two focus group meetings with government officials and members of the real estate industry (including local developers, land use lawyers, and brokers) in order to better understand barriers to housing production and potential opportunities in Melrose.

- **Targeted Interviews.** The planning team conducted one-on-one phone interviews to learn about residents' housing needs and challenges and engage members of the Melrose community that were underrepresented during the public engagement campaigns.

- **City Commissions.** MAPC and OPCD staff attended meetings of the City Council, Historical Commission, and the Human Rights Commission to discuss the plan, its potential recommendations, and how the plan and housing generally could interact with each commission's operations and priorities.

- **Public Comment Period.** At the end of the planning process, MAPC and OPCD held a public comment period and conducted outreach to gather feedback on the final draft plan.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Due to the COVID-19 pandemic, nearly all of the public process was virtual, conducted online or over the phone.

Housing Needs and Demand Assessment

The Housing Needs and Demand chapter of the HPP analyzes quantitative data about the demographics, housing stock, and housing affordability in Melrose. It also highlights qualitative findings about housing needs gleaned from the plan's public process. Taken together, these two sources provide a picture of housing need in Melrose and ultimately informed the City's housing goals.

Melrose is home to a range of household types, sometimes surprisingly so. Fully one-third of Melrose residents rent their home, a number that was much higher than many engagement participants expected. Additionally, 38% of households in Melrose are comprised of either a single person living alone or with unrelated roommates. Both renters and single-person or non-family households have unique housing needs that must be considered as the City plans for future housing.

Like communities throughout the region, Melrose's seniors comprise a substantial portion of its population. More than a quarter of Melrose householders are seniors over the age of 65. These residents are more likely to have changing physical and financial needs that require them to find new housing or make modifications to their existing home. Another 19% of Melrose householders are between 55 and 64 years old and could face similar challenges in the coming years.

Though Melrose has become more racially diverse in recent years, it remains less racially diverse than the region overall. Roughly 14% of Melrose residents today are people of color. This represents a substantial increase from roughly 5% people of color in 2000, though Melrose remains less racially diverse than many neighboring municipalities (this disparity is due at least in part to decades of discriminatory policies in the Boston region executed at all levels of government and within the private housing market). Participants in the HPP's engagement identified increased racial and ethnic integration as one of their top housing priorities.

Melrose has successfully added multifamily units to its housing stock in recent years, though over half its housing (55%) remains single-family homes. Between 2013 and the second quarter of 2019, Melrose added 567 net new housing units, roughly 97% of which were in large multifamily buildings. However, the city has added fewer units in small multifamily buildings such as duplexes or triplexes.

Housing costs in Melrose are high across all housing types, directly impacting many households' ability to find suitable housing. Consistent with trends across the region,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose's home prices have steadily increased since the Great Recession, with the median home value in 2018 reaching $630,000. Asking rents in Melrose are also expensive, averaging more than $2,000 in 2019 for all bedroom counts except studio units. Meanwhile, roughly 29% of Melrose households are housing cost-burdened, meaning that they pay more than 30% of their income towards housing.

Melrose is home to households earning a range of incomes, including a substantial number of low-income households. The median income in Melrose is $103,743. However, this does not tell a complete story. An estimated 36% (3,850) of Melrose households are considered low-income according to federal standards, including 24% of homeowners and 62% of renters. This means more than one in three households in Melrose today could qualify for the most common types of deed-restricted Affordable Housing, numbers which surprised many engagement participants.

Housing Goals

Based on public input received during the fall and spring engagement campaigns, the housing needs and demand assessment, and feedback from the HPP Advisory Committee and City staff, this plan proposes five goals for housing in Melrose:

1. **Housing Mix.** Encourage a range of housing options and types to serve households with a variety of incomes and meet the diverse needs of current and future Melrose residents.

2. **Racial Equity.** Advance racial equity, promote inclusion, encourage wealth creation through housing access for people of color, and enrich the Melrose community through increased diversity.

3. **Affordable Housing.** Expand and preserve deed-restricted and subsidized Affordable Housing opportunities for low- and moderate-income households, including family households.

4. **Enhanced Neighborhoods.** Utilize housing as a tool to enhance existing Melrose neighborhoods, balancing development with other community priorities like open space, historic preservation, economic development, walkability, sustainability, and resilience.

5. **Community Engagement.** Promote an understanding of the role that housing plays in Melrose and the region through ongoing public engagement and discussion.

This HPP also sets a development target of 237-294 new Affordable Housing units over the next five years to increase the City's share of Affordable Housing to 10% of its total year-round housing stock and achieve "safe harbor" under Chapter 40B. The range describes the required increase according to 2010 Census housing counts and

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

anticipated 2020 Census housing counts, respectively. Alternatively, after this HPP is adopted by DHCD, the City could seek temporary safe harbor if in one calendar year it produces 59-61 Affordable units (one-year safe harbor) or 117-122 Affordable units (two-year safe harbor).

Strategies and Actions

To advance the City's housing goals, the plan recommends an array of locally specific housing policies and practices. These were selected and refined through an interactive process involving MAPC, City staff, and the project Advisory Committee, and were shared with the public for feedback during the spring engagement campaign.

High Priority Strategies

The plan focuses on four high-priority strategies and supporting action items:

Strategy A: Use zoning and design guidelines to encourage "missing middle" housing that fits into Melrose's existing context.

Melrose has always featured a mix of housing types, including duplexes, townhomes, small multifamily buildings, and accessory apartments. However, detached single-family homes still comprise the majority of Melrose's housing. The actions in this section will encourage production of a more diverse range of housing types where appropriate.

- A1. Allow two-family homes and townhomes in more zoning districts.
- A2. Amend zoning to allow for more forms of accessory dwelling units.
- A3. Propose amendments to dimensional and parking requirements to allow for a range of smaller housing types that match historic development patterns.
- A4. Use density bonuses to incentivize conversion and/or expansion of historic structures to preserve architectural heritage while producing housing.
- A5. Craft design standards for mixed-use and multifamily housing near Downtown and along the rail corridor.
- A6. Craft design guidelines for infill and replacement development in older, mid-density neighborhoods.

Strategy B: Encourage the production of deed-restricted Affordable Housing units and create more deeply affordable options.

Deed restrictions are the only way to ensure some level of affordability in the long-term: a given housing unit may be inexpensive in the present, but market conditions could increase the cost of that housing in the future. The actions in this section will create, as well as guide utilization of, resources to produce deed-restricted units that will protect against rising housing costs and ensure housing stability for vulnerable residents.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- B1. Pass the Community Preservation Act, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.
- B2. Purchase property to develop as Affordable Housing.
- B3. Incentivize deeper levels of affordability in inclusionary zoning units through further density or dimensional relief.
- B4. Enhance the capacity of the Office of Planning and Community Development to conduct housing planning.
- B5. Support "friendly 40B" projects that use the Comprehensive Permit process to build housing, in particular Affordable Housing, where appropriate.

Strategy C: Encourage a fairer, more accessible private housing market.

The vast majority of the housing in Melrose is delivered through the private real estate market. Historically and today, this market has not provided access to housing equally for all; whether intentional or not, discrimination continues to occur. The strategies below will guide the City's efforts to counteract historic and contemporary housing discrimination in the private market.

- C1. Create a down payment assistance fund for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.
- C2. Encourage the adoption of Universal Design standards in new housing construction through the permitting process.
- C3. Explore local requirements for a Notice of Sale and Notice of Rent Increase to Melrose tenants to decrease housing instability.

Strategy D: Encourage sustainable development through the siting and design of new housing.

All communities have a duty to regulate development so that it minimally impacts the natural environment. The actions below will guide Melrose as it pursues better, more sustainable forms of housing development.

- D1. Create baseline requirements for sustainable development, as well as provisions for on-site green infrastructure.
- D2. Promote open space protection and ecologically sensitive development through zoning and subdivision regulations in areas outside of Downtown and the rail corridor.

Best Practices

In addition to the high priority strategies, the plan identifies additional actions that are either relatively easy to implement or are simply best practices for local government.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- BP1. Continue to monitor parking utilization in Downtown and the rail corridor, and "right-size" parking requirements in new developments.
- BP2. Study the need for emergency and transitional housing to address often-unseen homelessness within Melrose.
- BP3. Host regular information sessions on a variety of topics related to housing and equity to promote greater dialogue around and understanding of housing issues.
- BP4. Create an HPP Implementation Committee to oversee implementation and continue public discourse around housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Introduction

Overview

The Melrose Housing Production Plan (HPP) is based on a community-driven planning process to set the direction of housing policy and development over the next five years. An HPP helps communities understand their housing needs, set housing goals, and identify strategies to achieve those goals.

The City of Melrose undertook this planning process with the help of the Metropolitan Area Planning Council (MAPC), the regional planning agency for the Greater Boston region. A Housing Production Plan is a specific plan type that is defined under Massachusetts state law and regulated by the state's Department of Housing and Community Development (DHCD). This plan is funded through a Community Compact Grant and MAPC's District and Local Technical Assistance Program.

The plan must be adopted by the City Council and Planning Board and approved by DHCD to go into effect. After the plan is adopted, implementation of each individual recommendation will occur through subsequent planning processes that will entail further vetting, study, public engagement, and debate, in order to determine the specifics of each policy. The majority of strategies and actions put forth in this HPP, such as passing a zoning amendment or allocating municipal funding, will require a vote by the City Council while some recommendations, such passing the Community Preservation Act (CPA), are decided by a community-wide referendum.

What is a Housing Production Plan?

Housing Production Plans (HPPs) help municipalities better understand local housing need, identify development constraints and opportunities, and establish a vision for future housing development. HPPs are typically drafted in accordance with Massachusetts General Law Chapter 40B, a state statute encouraging cities and towns to maintain a supply of Affordable Housing that amounts to 10% of their total year-round housing stock. For this purpose, Affordable Housing is defined as housing that is deed restricted to be affordable to eligible low- and moderate-income residents without paying more than 30% of their annual household income. Affordable units that meet this criteria, as well as market-rate units in mixed-income rental housing developments where 20-25% of units are Affordable Housing, are eligible for inclusion on the Massachusetts Subsidized Housing Inventory (SHI).

In communities where less than 10% of housing units are included on the SHI, developers may petition the local Zoning Board of Appeals (ZBA) for a comprehensive permit for housing developments that do not fully comply with zoning and other local regulations (such as wetlands and historic districts), provided at least 20-25% of homes in the development are Affordable Housing. Under Chapter 40B, the ZBA has limited grounds

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

for refusal in these cases. Communities that are above 10% on the SHI may claim “safe harbor” and thereby deny a developer a comprehensive permit.

An HPP is a useful plan in itself, as it helps communities define what they want from their housing and creates a plan to pursue those goals. An HPP can also be used as a vehicle to achieve safe harbor under Chapter 40B. Communities that adopt an HPP and produce sufficient Affordable Housing units over a certain period of time can apply to have their HPP certified by the Department of Housing and Community Development, which offers temporary safe harbor lasting one to two years.

To meet the requirements of an HPP defined in state law (M.G.L. Chapter 40B), the Melrose Housing Production Plan contains the following elements:

- Housing needs and demand assessment
- Housing goals for the next five years
- Analysis of factors affecting development
- A development framework and identification of opportunity sites
- Numeric production targets
- Specific action recommendations for the city to achieve its housing goals

Melrose Forward

In June of 2017 the Melrose Planning Board adopted Melrose Forward: A Community Vision and Master Plan. The Plan identified our community’s needs and wishes for the coming decade. Melrose Forward serves as a guiding policy document for all future decisions on growth and preservation in the City. The plan includes goals, strategies and actions around many topics including housing. Since the adoption of the Plan the following actions related to housing have been accomplished:

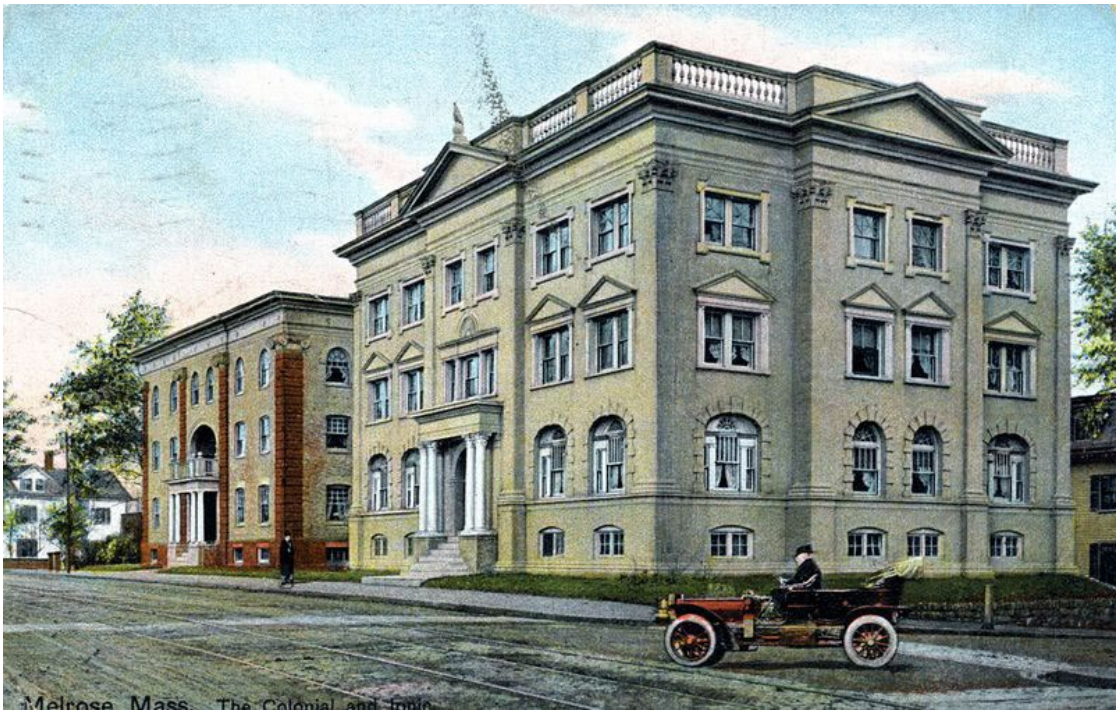
- Action 1.2.1: Revise the Affordable Housing Incentive Program Ordinance to increase the stock of deed restricted affordable housing in Melrose.
- Action 1.2.2: Prepare a Housing Production Plan to identify locations ideal for new housing development and include annual affordable housing production metrics for the City to target.
- Action 1.3.2: Establish an Affordable Housing Trust Fund.
- Although not specifically listed as an action in the Master Plan, in 2021 the City created incentive zoning in the BA districts to allow for increased density in projects that provide community benefits and green, efficient buildings. This zoning amendment meets several goals of the Plan.

Additionally, the following housing related actions that are in the Master Plan, have been further vetted through the creation of the HPP and are included within the strategies and actions of this Plan:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Action 1.1.1: Consider amending the Zoning Ordinance to decrease restrictions on in-law apartments.
- Action 1.1.2: Consider amending the Zoning Ordinance to regulate accessory dwelling units.
- Action 1.2.4: Adopt the Community Preservation Act.
- Action 1.2.5: Explore opportunities for a “friendly 40B” – a housing development project that meets MGL Chapter 40B Comprehensive Permit Law requirements for development with a maximum of 25% affordable units, built by a private developer in cooperation with the City of Melrose.
- Action 1.3.1: Continue to proactively participate as a member of the North Suburban Consortium to obtain funding for affordable housing initiatives.
- Action 1.4.1: Connect eligible first-time homebuyers with the First Time Homebuyer Program provided by the North Suburban Consortium.
- Action 1.4.2: Develop a process to make tax lien properties available for purchase by nonprofit developers and/or the Melrose Affordable Housing Corporation first, before market-driven developers
- Action 2.2.2: Continue to support the Melrose Housing Authority and the Melrose Affordable Housing Corporation in their efforts to develop and maintain low-income housing.
- Action 2.2.3: Continue strict adherence to State and Federal Fair Housing laws.

Finally, the remaining actions related to housing in the Master Plan did not emerge as top priorities in the HPP; however, they remain considerations in the City’s efforts to achieve our housing goals.



About Melrose

The land occupied by Melrose was once home to the Massachusett and Pawtucket peoples indigenous to the region. The first European colonial settlement at Melrose was established in 1628. The settlement was incorporated as a section of Charlestown, then a section of Malden, before incorporating as an independent town in 1850. The Boston and Maine Railroad was built through Melrose in the 1840s, and soon the community began to grow from a small farming settlement to an established city. Melrose re-incorporated as a city in 1900, and continued to see waves of development. Before World War II, housing development was focused on the areas nearest to Downtown and the rail corridor, often in ornate Victorian styles. After World War II and mass adoption of the automobile, suburban economic development brought more employment opportunities in the Route 128 technology corridor, and the eastern areas of Melrose saw increased residential development in midcentury ranch and Cape styles.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

As suburbs began to develop further away from Boston's inner core and household sizes began to shrink, Melrose's population declined, a trend that continued through 2010. In the late 1970s, the City began a concerted effort to revitalize Downtown Melrose and parts of Downtown became a local historic district in 1979 and a national historic district in 1982. By the early 2000s, the Melrose community began transforming previously-industrial areas along the rail corridor into a residential mixed-use area, taking advantage of the City's existing infrastructural, retail, and architectural amenities. During the 2010s, Melrose had its first decade of population growth since 1960.

Planning Process

This plan is the result of a robust community process to guide the future of housing in Melrose. The process was managed by MAPC and City of Melrose staff and guided by the input of the plan's Advisory Committee. The process kicked off in September 2020, with substantive public engagement beginning in November 2020. The public process continued through Fall 2021. Due to the COVID-19 pandemic, nearly all of the public process was virtual, conducted online or over the phone.

Advisory Committee

The Melrose Office of Planning and Community Development (OPCD), Mayor Brodeur's office, and MAPC assembled an Advisory Committee to guide the plan. The committee is comprised of members of the Melrose community who offer insights into local housing needs and well as housing tools that could be used to address those needs. The Advisory Committee met eight times over the course of the planning process. During these meetings, Advisory Committee members offered substantive input on the public process, the plan's goals, potential strategies and actions, and more. Members of the committee included:

- City Councilor Jack Eccles
- Gregory Sampson, Melrose Planning Board
- Ellen Connolly, Melrose Housing Authority and Melrose Affordable Housing Corporation
- Thais DeMarco, LGBT Chamber of Commerce, formerly of the Massachusetts Housing Partnership and Somerville Community Corporation
- Jaron Green, Melrose Human Rights Commission and Union Baptist Church of Cambridge
- Charlie Harak, Melrose Housing Authority
- Deepak Karamcheti, MassHousing
- Seamus Kelley, Massachusetts Health Connector, formerly of the Executive Office of Housing and Economic Development
- Dana LeWinter, Citizens Housing and Planning Association
- Gina Martinez, Beacon Communities

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Fall Engagement Campaign

In November and December 2020, the planning team held two public events to begin the community engagement process in earnest. The first event was a live webinar held via Zoom. During this event, MAPC and City staff outlined the planning process, shared data about demographics and housing in Melrose, and solicited feedback about the public's vision for Melrose's future, and discussed potential housing priorities. The second "event" was an asynchronous "online open house" that took place over four weeks. The open house content and questions were roughly the same as those covered in the webinar, but it allowed participants to access this content in different way.

Hundreds of people participated in the webinar and online open house. The Fall Engagement Campaign illustrated that the majority of participants want Melrose's housing to promote an inclusive, affordable, and sustainable community. This engagement helped to inform the rest of the planning process, especially the plan's overall goals.

Spring Engagement Campaign

In June 2021, the planning team again held two public events to collect public input—this time on the plan's potential content and recommendations. In a second webinar and online open house, the planning team presented draft goals and potential strategies and actions that could address those goals. Participants were also asked to share their opinions about the location and type of future housing development in Melrose. In addition to these virtual engagement opportunities, City staff conducted a live "tabling" event on June 12 in Downtown Melrose. During this event, participants were offered a pared down version of the online open house content and were asked their opinions via a live survey. Participants were also directed to the online resources.

As with the Fall Engagement Campaign, hundreds of people participated in these events. While opinions on the policy specifics were not monolithic, the Spring Engagement Campaign revealed a desire to take steps to address the City's housing goals, including zoning reforms and programs to proactively address affordable and fair housing.

For both the Fall and Spring Engagement Campaigns, residents were invited to participate via the City's website, social media, email blasts, promotion in the local papers, and by hanging flyers in the windows of local businesses and at other key locations such as City Hall, the Library, and the Commuter Rail Stations. Advisory Committee members were also instrumental in spreading the word about this process and engagement opportunities through their networks.

Focus Groups

The planning team held two focus group meetings, one with government officials and another with members of the real estate industry, including local developers, land use lawyers, and brokers. Both these groups have a strong understanding of the Melrose

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

community and its housing market, as well as the specifics of the local development review and permitting process, and they can speak directly to barriers limiting housing production. The discussions focused on constraints, including infrastructure, zoning, and permitting/approvals, along with opportunities for new development, including specific sites and policy changes that can lead to an expanded and more diverse housing stock.

Targeted Interviews

The format of urban planning engagement processes has historically favored input from people with relatively high resources and access to decisionmakers. People of color, renters, young people, and low-income people are among the most consistently underrepresented. During the COVID-19 crisis, throughout which engagement activities have been conducted primarily online, seniors (especially lower-income seniors) have also been relatively excluded. Despite efforts to advertise engagement opportunities to all members and potential members of the Melrose community, this planning process also saw gaps in participant demographics.

To correct these issues, the planning team conducted targeted phone interviews with people in underrepresented demographics. These interviews asked about participants' "housing stories," their housing needs, and the challenges they face finding appropriate housing in Melrose. Compared to the engagement campaigns, these interviews allowed for a more granular, qualitative understanding of housing needs. Insights from these interviews helped to inform the plan's goals and its strategies and actions. Interview excerpts are highlighted throughout this plan.

City Commissions

MAPC and OPCD staff attended meetings of the Historical Commission and the Human Rights Commission to discuss the plan, its potential recommendations, and how the plan and housing generally could interact with each commission's operations and priorities. These meetings materially framed the list of potential recommendations assessed by the public at large.

The project team also attended a meeting of the Melrose City Council at the end of the Fall Engagement Campaign to summarize the community engagement process, discuss next steps for the plan, and answer any questions they had.

Public Comment Period

Residents, Boards, and the City Council were invited to provide comments on the final draft of the Housing Production Plan via social media, the website, the local newspaper, and the Mayor's Blog. Approximately 70 people provided feedback during the public comment period.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Data Sources and Analysis

A number of quantitative data sources were used for this plan: the US Census, including Decennial Census, American Community Survey (ACS), Population Estimates Program, and Comprehensive Housing Affordability Strategy (CHAS) data; City data; and industry real estate property and transaction databases. The City of Melrose provided support in understanding data estimates from ACS, which can be less precise since they are estimates rather than counts but which are more recent than Decennial Census data. Unless otherwise stated, data appearing in text can be attributed to the 2014-2018 ACS. In some cases, data is pulled from other years due to data consistency or availability. Below is a brief explanation of the US Census data sources used for this plan.

- Census of Population and Housing (decennial census): Demographic and housing counts. This report uses data from the 2000 and 2010 Census.
- American Community Survey (ACS): 5-year demographic and housing estimates for large and small geographic areas based on monthly surveys. Estimates are based on a small population sample, but results of each monthly survey are aggregated to provide a larger dataset. This plan primarily uses data from the 2014-2018 ACS survey, the most recent available data at the beginning of the HPP planning process. Following best practice, percentages are used in lieu of numbers for most estimates to avoid sharing numbers that, as sample-based estimates, may not be as precise as the decennial census data.
- Population Estimates Program: Annual population estimates based on the 2010 Census. This plan uses the 2018 estimates.
- U.S. Department of Housing and Urban Development (HUD) Comprehensive Housing Affordability Strategy Data (CHAS): Custom tabulations of ACS data that demonstrate the extent of housing problems and housing need, particularly for low-income households. This plan uses the most recent available CHAS data from 2012-2016.

Context Communities

How can we understand Melrose's housing and demographic data in context? How does Melrose compare to other similar communities? How does it compare to communities facing even more acute symptoms of the housing crisis? To aid in this plan's understanding of Melrose within a broader context, the planning team created a list of "context communities."

First, the team pulled quantitative data on select housing and demographic metrics for Melrose and a large universe of nearby communities. Other communities were scored on their similarity to Melrose for each metric, and the list of potential context communities was narrowed to the most similar municipalities according to this data. Finally, the planning team selected communities from that narrowed list that would be *useful* comparisons to Melrose. This includes communities like Beverly that share many traits

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

with Melrose, as well as communities like Somerville, which are more dissimilar but illustrate the effects of even greater housing demand. Though the quantitative aspects of context community selection provide some framework for selection, the choices were necessarily subjective.

The final list of context communities used in this plan is:

- Arlington
- Beverly
- Malden
- Medford
- Norwood
- Somerville
- Wakefield
- Wilmington
- Winchester

A full accounting of the context community selection process can be found in Appendix A: Context Community Selection Methodology.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Needs and Demand Assessment

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

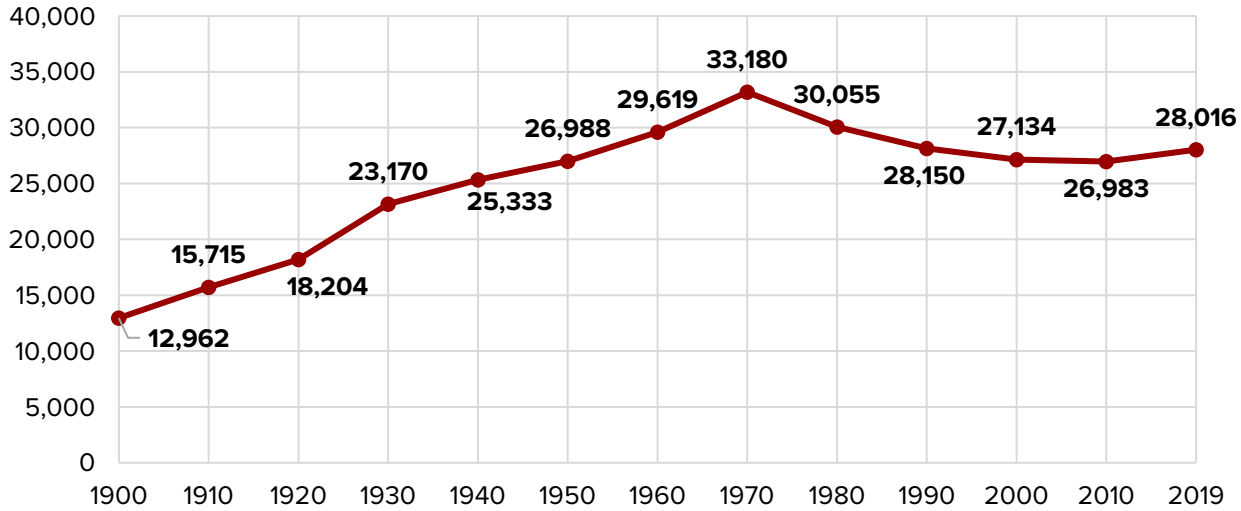
Overview

This chapter of the plan assesses housing needs and demand, which will inform the City's housing goals. The chapter will analyze quantitative data about the demographics, housing stock, and housing affordability in Melrose. The next chapter will summarize qualitative findings about housing needs gleaned from the plan's public process.



Direct quotes from Melrose residents are interspersed throughout the quantitative analysis to contextualize the data with real housing stories.

Demographics

Population Growth

Melrose's population has grown in recent years but is still much lower than its 1970 peak. In 1950, Melrose was home to roughly 27,000 people. Its population continued to grow toward a peak of more than 33,000 people in 1970, before declining to 27,000 in 2010. The 2010s saw the first decade of population growth in Melrose in 40 years when the City grew by roughly 1,000 people. Melrose's population growth between 2010 and 2018 (roughly 4.5%) was significant, but this rate of growth was consistent with similar communities. Six of those communities (Arlington, Beverly, Somerville, Wakefield, Wilmington, and Winchester) grew at faster rates than Melrose (all with growth rates more than 5%), while three (Malden, Medford, and Norwood) grew at slower rates.

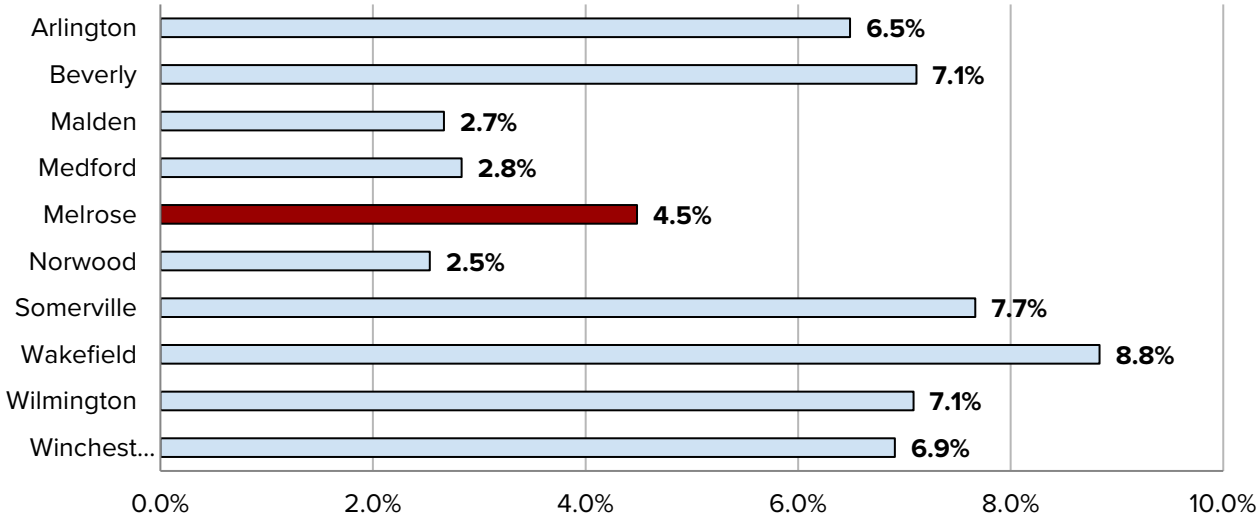


Figure 1: Population growth in Melrose, 1900-2019

Source: US Decennial Census, 1900–2010; Population Estimates Program, 2019

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

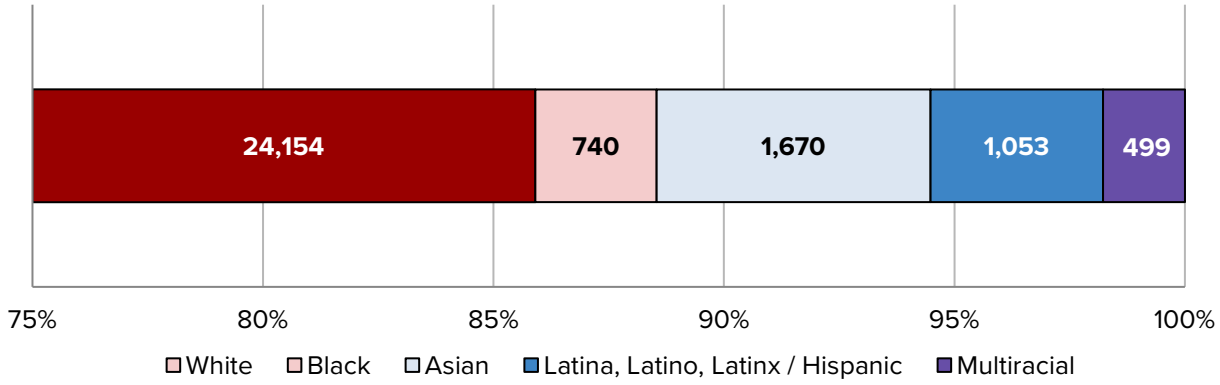
Figure 2: Population growth in context communities, 2010-2018

Source: US Decennial Census, 2010; ACS 5-year estimates, 2014-2018

Race and Ethnicity

The racial and ethnic composition of a community is determined in part by the historical and current characteristics of its housing market. Local, state, and federal housing policies have been used for more than 100 years to construct a system of racial segregation in neighborhoods across the country, which was perpetuated by actions of the private housing market. The federal Fair Housing Act in 1968 formally outlawed segregation and discriminatory housing practices, but regardless, the US is more segregated today than it was in the 1960s. This is explained in part by the deployment of exclusionary zoning practices that disproportionately impact people of color, such as large minimum lot sizes, as well as a lack of adequate fair housing law enforcement.



Melrose is roughly 86% White, 6% Asian, 4% Latinx, 3% Black, and 2% multiracial.[1] According to Census Bureau estimates, there are no Native American people, Native Hawaiian/Pacific Islander people, or people of other races. The proportion of Melrose residents of color has increased from roughly 5% in 2000 to 14% today. However, the city has a higher share of White residents than each of the context communities except Beverly, Wilmington, and Wakefield.

[1] This section of the plan uses racial and ethnic categories based on US Census Bureau data, though they are always controversial and are considered inadequate by some communities. In the Census Bureau's schema, people can identify as one or more race, as well as one or more ethnicities. Latina, Latino, Latinx, and Hispanic identity is considered an ethnicity, and people of Latin ethnicity can be of any race. This plan reports Latinx people as one racial/ethnic category regardless of race, and racial categories in this plan do not include people of Latin ethnicity. This plan also uses short-hand text descriptions for racial and ethnic categories, such as "White" instead of "non-Latinx White or Caucasian."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MELROSEHPP

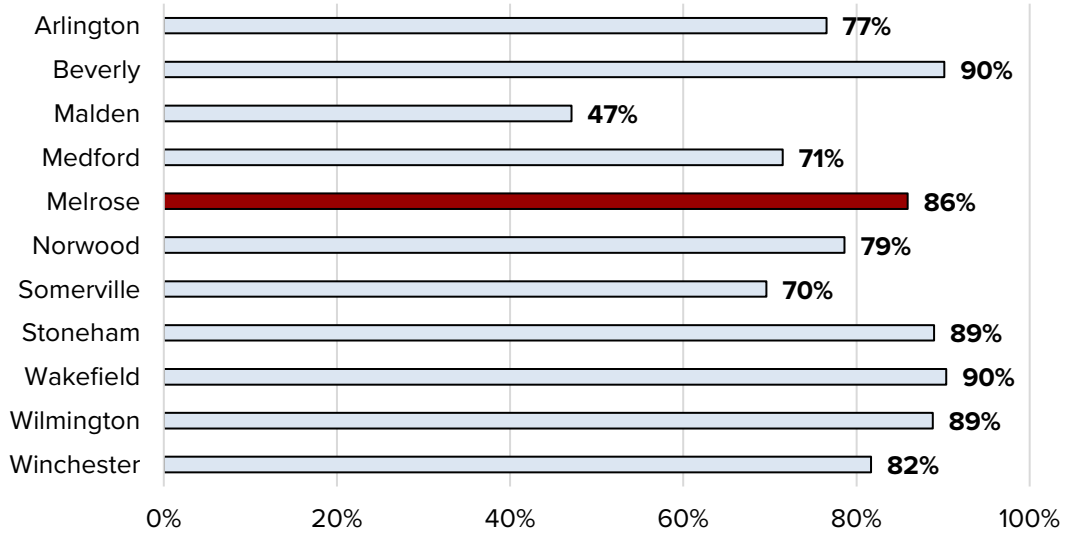

Figure 3: Melrose population by race and ethnicity, 2018

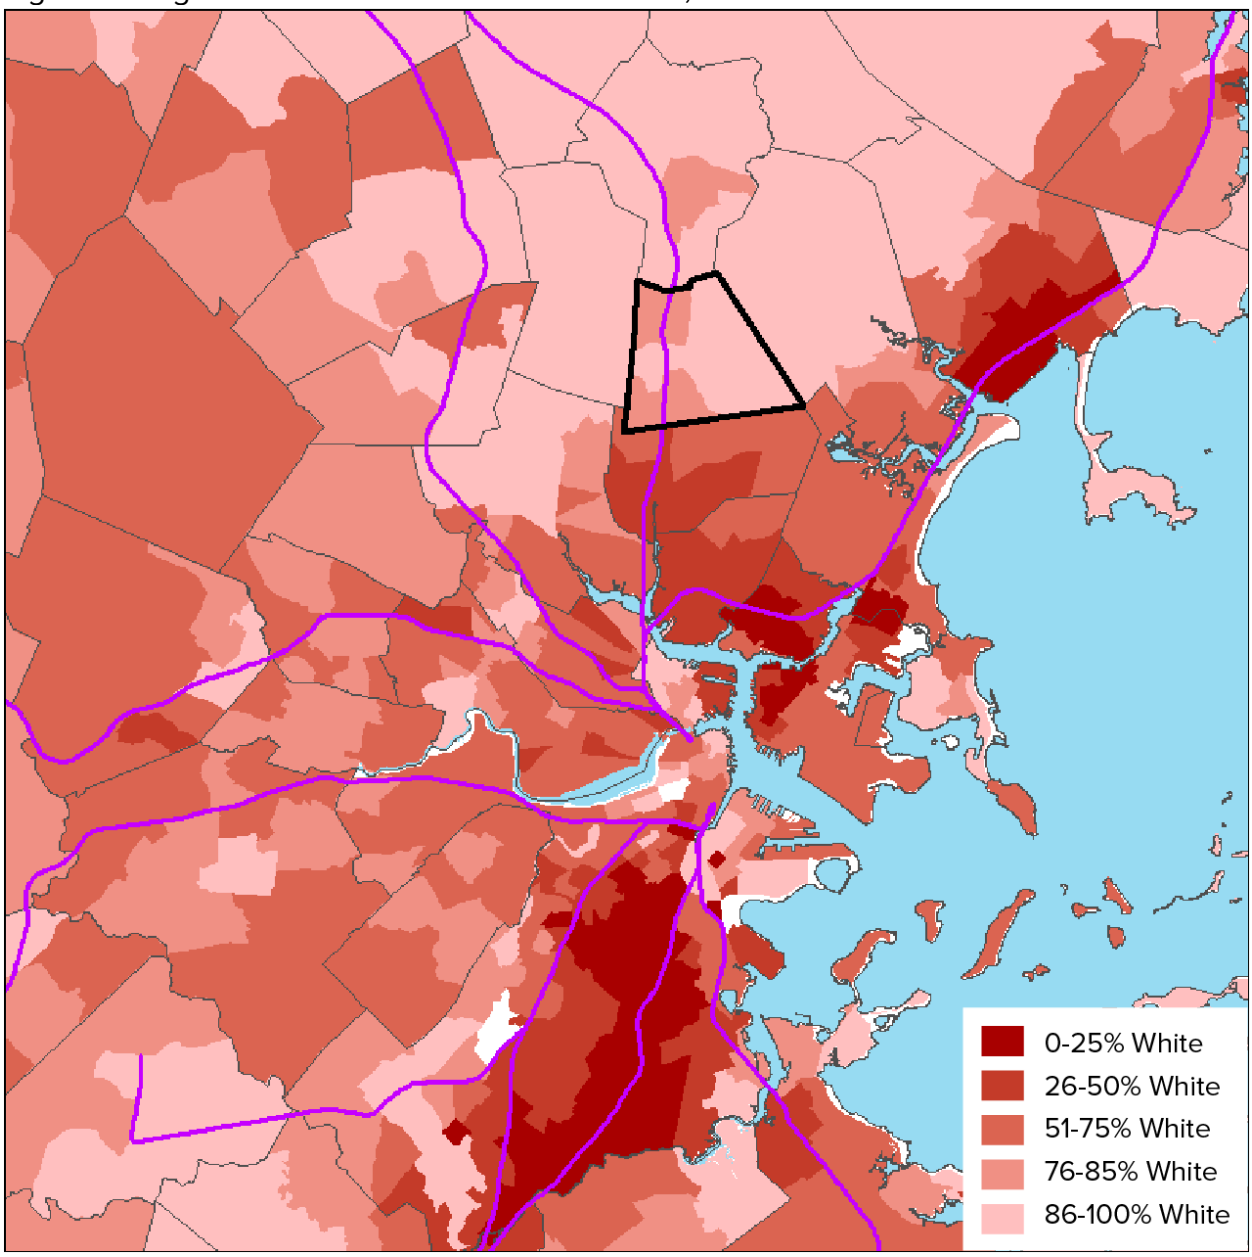
Source: ACS 5-year estimates, 2014-2018

"We need to be honest about having intentionally created a dominantly white space here in Melrose, through public policy. Home ownership was subsidized for white families, while Black families were divested of wealth and opportunity. I would like to see us acknowledge and correct those wrongs. I would like to see us prioritize home ownership for BIPOC [Black and Indigenous people of color], with a focus on Black families."

Figure 4: Percent White residents by context community, 2018



Source: ACS 5-year estimates, 2014-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose is more racially diverse than communities to the north but has a higher proportion of White people than communities to the south and east. The western portions of Melrose are proportionally less White than the eastern portions.

Figure 5: Regional distribution of White residents, 2016

Source: ACS 5-year estimates, 2012-2016

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

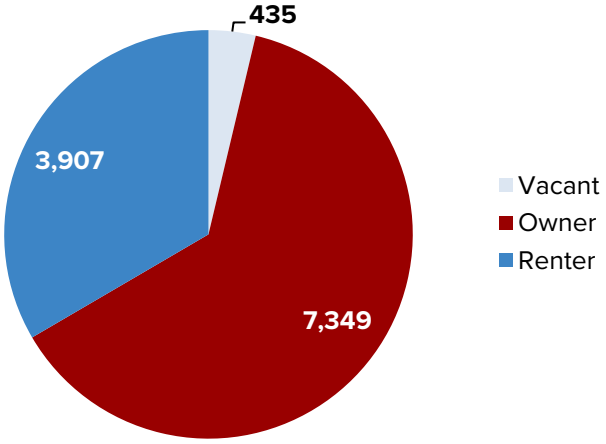
Age

Household age patterns impact the size, type, and accessibility of the housing stock needed in a community. Younger householders can often live in more compact housing, while middle-aged householders are more likely to need space for multigenerational households. Like their younger counterparts, senior householders may want to live in more compact households, but they are also more likely to need housing that is accessible to people with disabilities. Age also impacts the amount that a household can pay for housing. Younger adult and senior householders tend to have less income than middle-aged householders in their prime earning years.

More than a quarter of Melrose householders are seniors over the age of 65; these residents are more likely to have changing needs that require them to find new housing or make modifications to their existing home. Another 19% of Melrose householders are between 55 and 64 years old, meaning they may face similar challenges soon, and will be more likely to experience decreased incomes and ability to pay housing costs. Roughly 18% of Melrose householders are under the age of 35. These figures are generally consistent with context communities, with the main exception being Somerville, where a high proportion of householders are under the age of 35.

Figure 6: Age of householder by context community, 2018

Source: ACS 5-year estimates, 2014-2018



"I'd like to see it as a place where we can have a more diverse city. Where we can take advantage of transit. And that we don't leave behind seniors."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

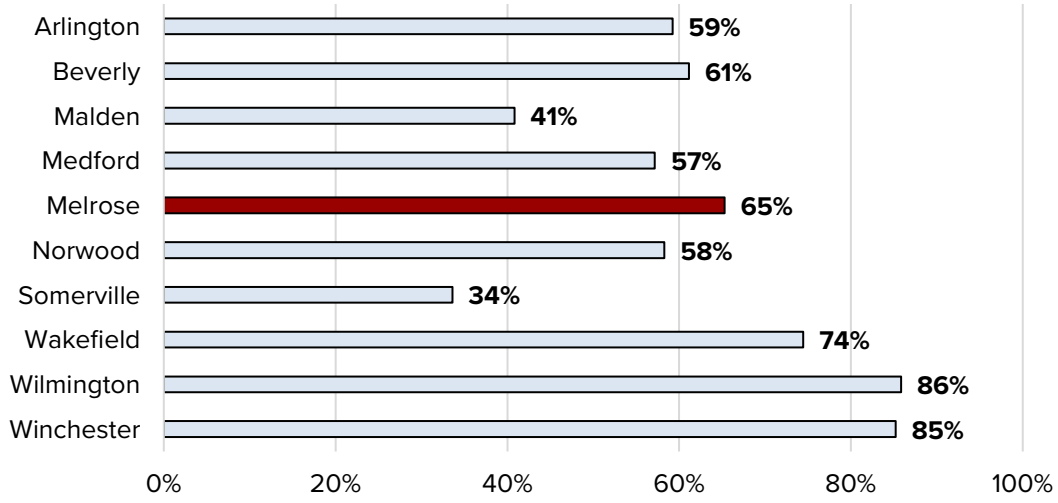
Housing Tenure

Roughly 63% of Melrose homes (7,349 homes) are occupied by their owner, while 33% (3,907) are renter-occupied. About 4% (435) of homes are vacant, a topic discussed later in this chapter. Some respondents in this plan's public engagement effort found the proportion of renters surprising, having assumed this figure to be lower. Across context communities, only Wakefield, Wilmington, and Winchester have higher rates of owner occupancy.

Figure 7: Melrose housing units by occupancy and tenure, 2018



Source: ACS 5-year estimates, 2014-2018

"I want to see more housing opportunities for a range of people. I would like to see more diversity of housing stock, including more rentals and multi-family units. I would like to see more resources put towards affordable housing, particularly for very low-income households and new opportunities for first-time homebuyers."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

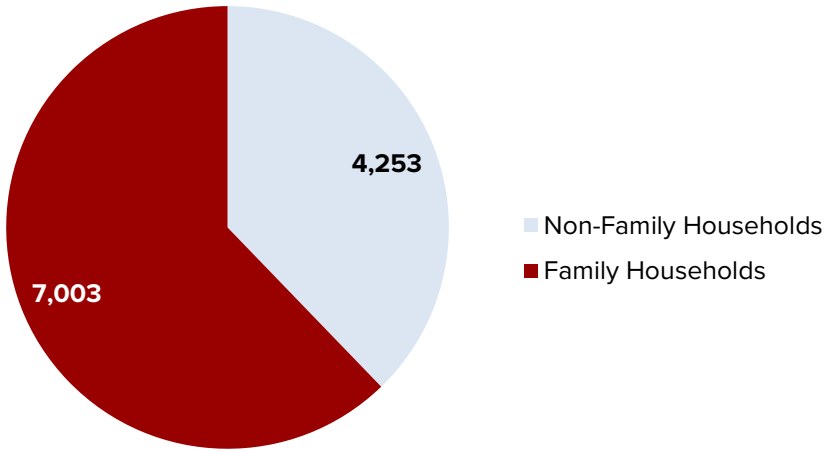
Figure 8: Percent of households that own their home by context community, 2018

Source: ACS 5-year estimates, 2014-2018



Household Type

Household composition is another important factor in determining what type of housing is needed in a community. An estimated 62% of Melrose households are family households, meaning there is more than one person in the household and at least two people are related by birth, adoption, or marriage. Roughly 87% of those families include a married couple, while 13% are other types of families. An estimated 38% of Melrose households are non-family households, meaning they are either a single person living alone or they are a household of unrelated people (i.e., roommates). Of those non-family households, 35% (1,469) are single seniors living alone, 44% (1,891) are non-seniors living alone, and 21% (893) are roommate households.

"There should be efforts to make neighborhoods in Melrose welcoming and appealing to a diverse and broad group of individuals and families. Housing, were there affordable opportunities, would be available to all ranges of income and to people from all racial backgrounds."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

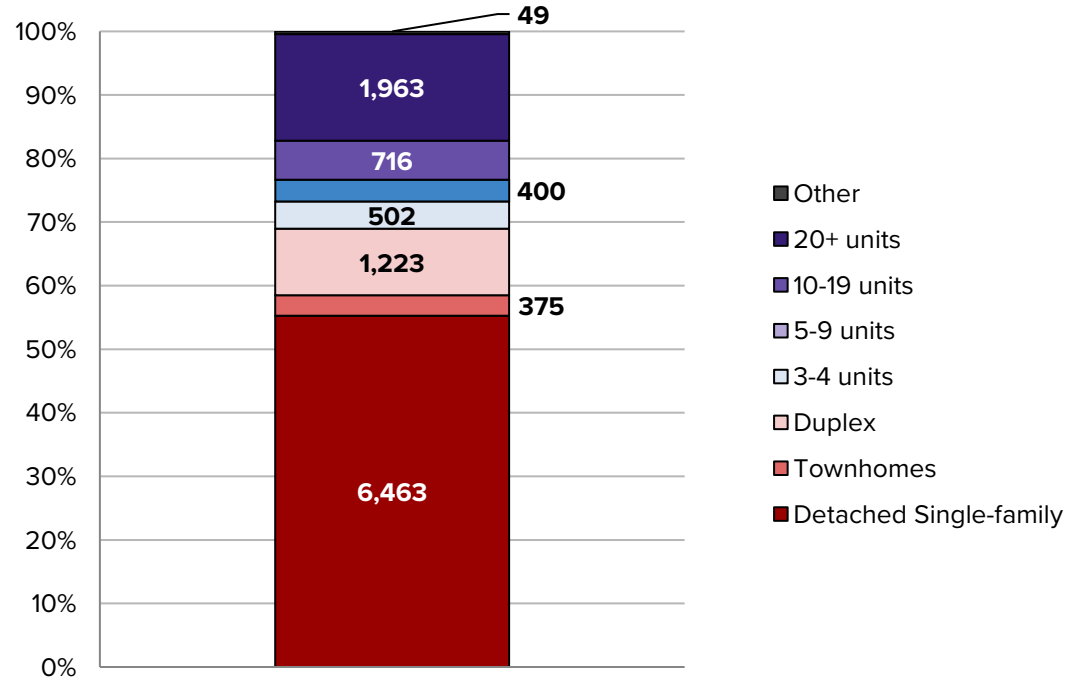
Figure 11: Melrose non-family households by non-family household type

Source: ACS 5-year estimates, 2014-2018

Housing Stock



Housing Type

The majority of Melrose's housing (55%) is detached single-family homes. The next most common housing type (16% of units) is within multifamily structures of 20 or more units. Duplexes or two-family homes make up 11% of housing units. Townhomes, buildings with three to four units, buildings with five to nine units, and buildings with 10 to 19 units each make up less than 10% of Melrose's housing stock. Of the context communities, only Wakefield, Winchester, and Wilmington have a higher proportion of single-family homes than Melrose.

In Melrose, land parcels with five or more housing units tend to be found in Downtown, along Main Street, or along the rail corridor. Parcels with two- to four-unit buildings are more widely distributed but are still primarily found in the parts of the city with older development located adjacent to Downtown and the rail corridor. Single-family parcels are located in virtually all parts of Melrose.

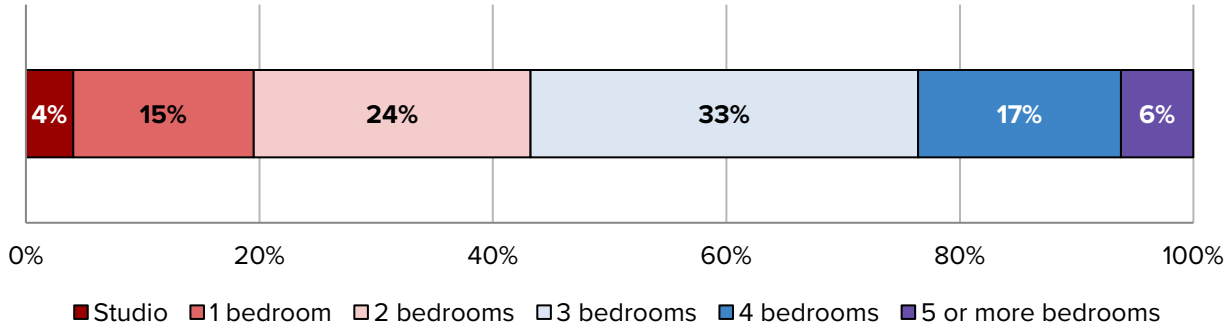
Housing Age

Over half of housing units in Melrose were built before the start of World War II. Another quarter of all housing was built from 1940-1969. This is consistent with the development of Melrose as a community that initially grew with the railroad and then experienced a wave of suburban-style development. The city's historic housing provides a diverse range of housing sizes and types as well as a shared architectural heritage. Nonetheless, older homes do carry certain liabilities. They can be expensive to maintain and retrofit for accessibility, and homes built before 1978 may contain lead-based paint, which is a powerful neurotoxin that can severely impair children's development.

Figure 17: Melrose housing units by year built, 2018[2]

Source: ACS 5-year estimates, 2014-2018 and Metro Mayors permit tracking data 2013-2019

"Honestly, they need to go into low-income housing, and really look. If they came into my apartment, I have a leak in my ceiling, I have mice, I can feel the wind blowing through my apartment right now. I am not asking for a luxury apartment at all. I am just asking for a safe space."



[2] ACS data often under counts the production of new housing units due to the way local building departments report their data to the Census. The ACS figure for units produced after 2010 (233) is an under count as Metro Mayors permit tracking data shows that Melrose added 567 net new housing units between 2013 and the second quarter of 2019 alone.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Number of Bedrooms

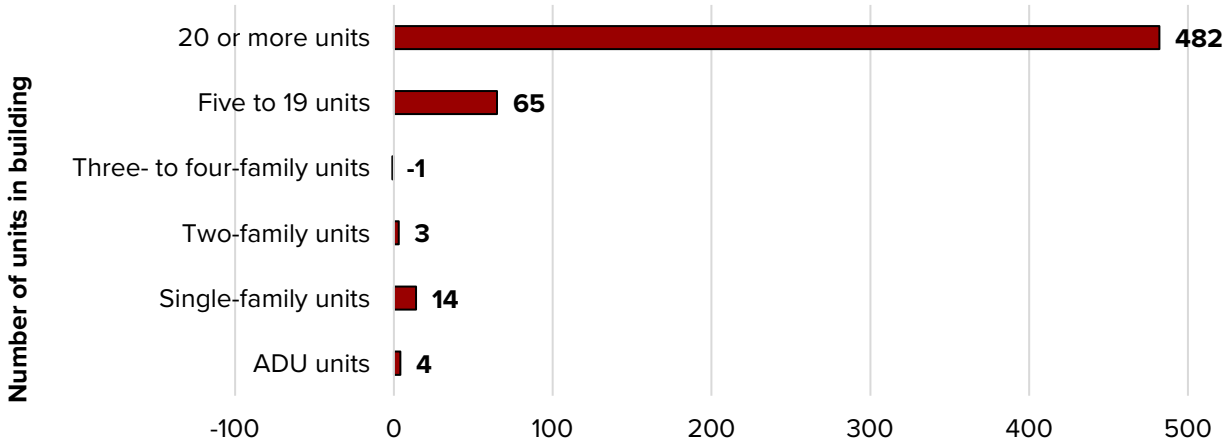
The majority of housing in Melrose is “family-sized” (three or more bedrooms), but there is a significant number of smaller units ranging from studios to two-bedroom units. Smaller units are well suited to single-person households, couples, roommates, young people, seniors, and others who may not need or desire large homes.

Figure 18: Melrose housing units by number of bedrooms

Source: ACS 5-year estimates, 2014-2018

“If there were certain tools that the City of Melrose could use, I think making more one- and two-bedroom units available would be huge. Maybe like making additions to existing multifamily units would be ideal.”

Vacancy



A certain level of housing vacancy is a normal part of any community and is necessary for a well-functioning housing market. Homes are most often vacant while they are awaiting new occupants during the selling or leasing process. A stable vacancy rate is considered to be around 3% in the homeownership market and around 6% in the rental market. Melrose’s vacancy rates are well below these levels, and they have been declining, inasmuch as rates this low can decline. From 2010 to 2018, the ownership vacancy rate declined from 1.2% to 1.1%. The rental vacancy rate declined from 3.0% to 2.7% in that period. These low vacancy rates mean that people have fewer options for homes when they need to find one. Further exacerbating the issue, when available housing supply is low, costs of housing increase. This problem is even more pronounced for people with physical disabilities who face fewer options to begin with.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Recent Development

In the last real estate cycle, Melrose successfully increased its supply of homes in large multifamily buildings, while seeing on only modest increases in other home types. Between 2013 and the second quarter of 2019, Melrose added 567 net new housing units. Roughly 97% of those new units were in multifamily buildings, including 85% in buildings with 20 or more units and 11% in buildings with 5 to 19 units. One percent of new units were accessory apartments and 1% were in two-family buildings. Roughly 2% of net new units (14 units total) were either detached or attached single-family homes. Approximately 12% of all new homes constructed were deed-restricted Affordable Housing units. In short, while Melrose has made strides in providing new multifamily housing, it should promote the construction of additional housing types in the next five years.

Figure 19: Net new housing units in Melrose, 2013-2019

Source: Metro Mayors Coalition permit tracking data

Housing Affordability

Housing affordability is determined by the cost of housing and the ability of its occupants to pay those costs. In this section, the plan considers the connection between housing costs and resident incomes.

Home Prices

Price growth poses benefits and difficulties for the Melrose community. For incumbent homeowners, higher prices could result in potential financial gains if they choose to sell their home. However, an immediate financial drawback for homeowners is the increased property taxes on their greater home value. These may pose a burden for homeowners with fixed incomes, who are often seniors. For people who don't yet own their home, higher prices can pose a significant barrier to becoming a homeowner. High prices

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

disproportionately impact communities facing structural barriers to higher incomes, including people of color and people with disabilities.

Average home prices in Melrose increased 136%—from $266,000 to $630,000—between 2000 and 2018. Prices had risen in the first part of the 2000s during the housing price boom of that era, reaching an initial peak of $404,000. Following the end of the bubble, subsequent financial crisis, and Great Recession, average Melrose home sale prices decreased to a low of $341,000 in 2009. Since then, prices have grown steadily upwards. Of the context communities, only Arlington, Somerville, and Winchester have higher average home prices. Though data comparable to the previously cited figures is not yet available from the COVID-19 era, another data source shows the median sale price in Melrose from July to September 2020 was $750,000.[3]

> "My own children have had difficulty finding homes here, due to affordability. I have taken one of my sons to check out affordable home options. He is trying to learn about affordable loan options. The prices have gone up, they are outrageous prices."

Figure 20: Average home sale price in Melrose, 2000-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Figure 21: Average home sale price (single-family homes and condominiums) by context community, 2018

Source: Warren Group sale data

Rents

Rental units are an important part of any housing market, serving the needs of people for whom long-term ownership of a specific property type is a poor fit. Asking rents in Melrose are also expensive, averaging more than $2,000 in 2019 for all bedroom counts except studio units. In the same year, the median listing rent for three-bedroom units (considered a “family-sized” unit) was more than $2,900. High rents can place a burden on existing and potential renters and disproportionately impact communities structurally excluded from homeownership. Additionally, the vast majority of rental listings were for one- and two-bedroom units, meaning larger households may have trouble finding rental options.

Figure 22: Average rental listing price, 2019

Bedrooms	Listing Count	Average Listing Price
Studio	100	$1,670
1-bed	697	$2,030
2-bed	660	$2,430
3-bed	162	$2,940
4-bed	30	$3,010
5-bed	9	$3,300

Source: MAPC rental listing database, 2019

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"Trying to rent is almost impossible because rentals go in just a second, and they're overpriced. I mean there's a real housing crisis in Melrose."

Households by Income

Whether a home is affordable depends on who lives there and what income they have at their disposal. The median income in Melrose is $103,743. Homeowners in Melrose tend to be much wealthier than renters. While 66% of owner households have incomes of more than $100,000, that figure is only 23% for renters. Conversely, 48% of renters have household incomes of less than $50,000, while the same is true for only 15% for homeowner households. Of the context communities, only Arlington, Wilmington, and Winchester have median household incomes greater than Melrose.

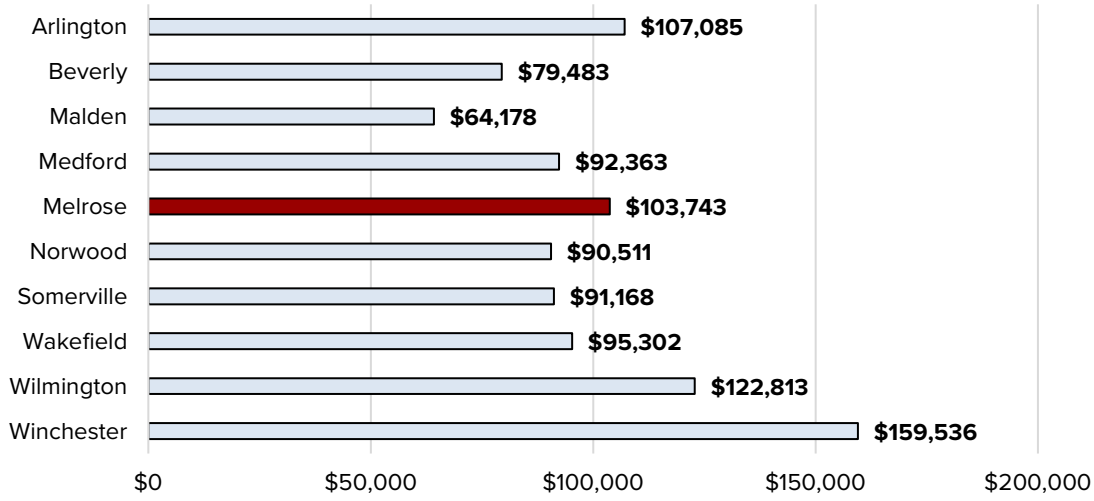

Figure 23: Melrose households by income, 2018

Source: ACS 5-year estimates, 2014-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

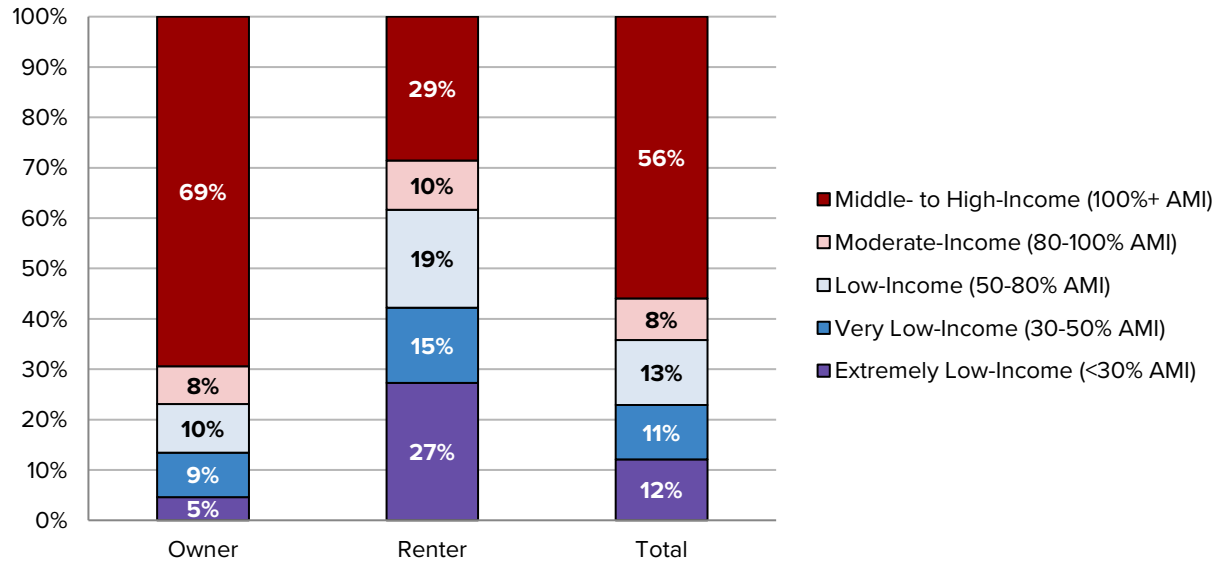
Figure 24: Median household income by context community, 2018

Source: ACS 5-year estimates, 2014-2018



Households by Income Status

"Income status" is a metric that compares a household's total income, adjusted for the number of people in that household, to the typical incomes of the region. A household is considered "low-income" when its total income is 80% or less than the median income for households of its size in the metropolitan region. This federally defined regional income figure is called the "Area Median Income" (AMI). Melrose is within the Boston-Cambridge-Newton Metropolitan Statistical Area, which stretches from New Hampshire to Plymouth and encompasses most of eastern Massachusetts. In 2021, Greater Boston's AMI for a four-person household is $120,800. Therefore, a four-person household earning $96,650 annually is considered low-income. AMI and income status differs by household size; for instance, a single-person household earning $67,700 is considered low-income. These definitions are important, because they impact who can receive housing assistance or be placed in deed-restricted Affordable Housing.

An estimated 36% (3,850) of Melrose households are low-income according to these federal standards, including 24% of homeowners and 62% of renters. This means more than one in three households in Melrose today could qualify for the most common types of deed-restricted Affordable Housing. In this plan's public engagement, these facts about Affordable Housing and who could qualify were surprising to many participants.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

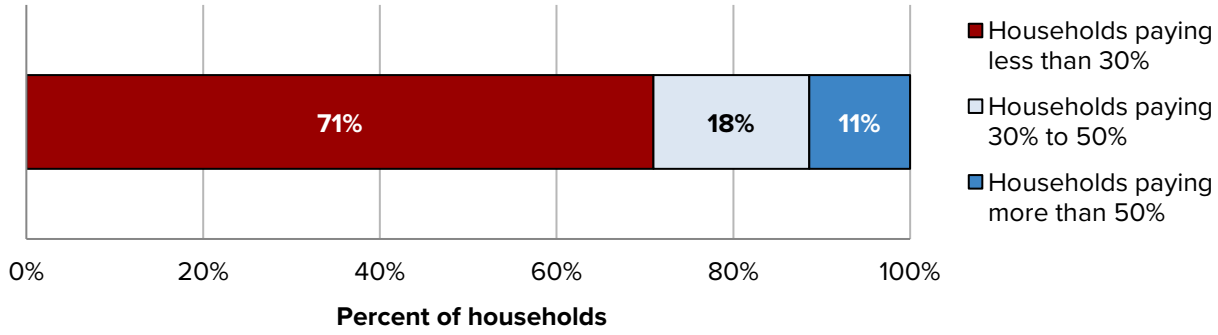
Figure 25: Melrose households by income status, 2018



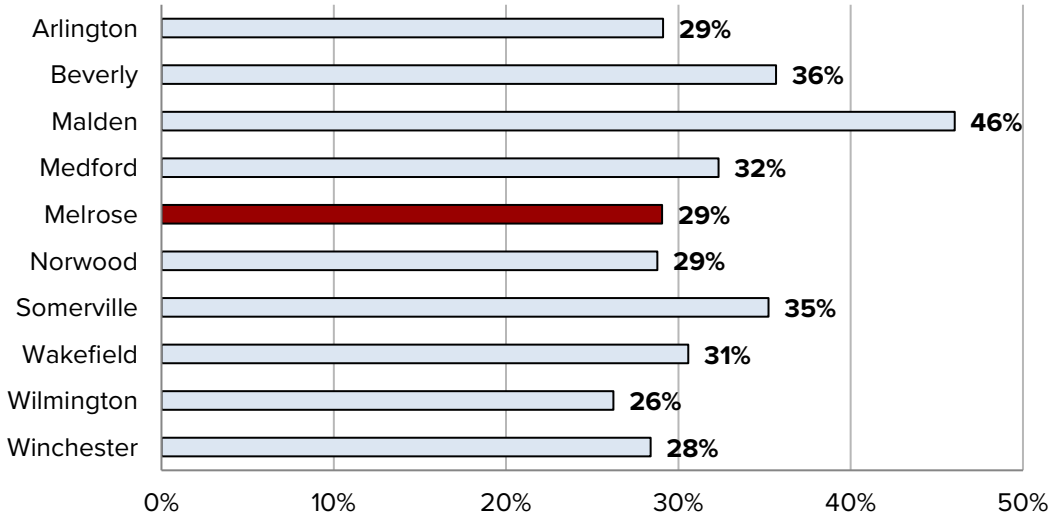
Source: ACS 5-year estimates, 2014-2018

Housing Cost Burden

A household is "housing cost-burdened" when it pays 30% or more of its annual income toward housing expenses. If a household is paying more than this amount for a particular housing unit, that unit is considered unaffordable for that household. When households are cost-burdened, they often must make sacrifices in other areas of their life, such as healthcare.

Roughly 29% of Melrose households are housing cost-burdened, with 18% paying between 30% and 50% of their income for housing and 11% paying more than 50% of their income for housing. In most context communities, a similar or larger proportion of households are housing cost-burdened.

Figure 26: Melrose households by housing cost burden, 2018



Source: ACS 5-year estimates, 2014-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

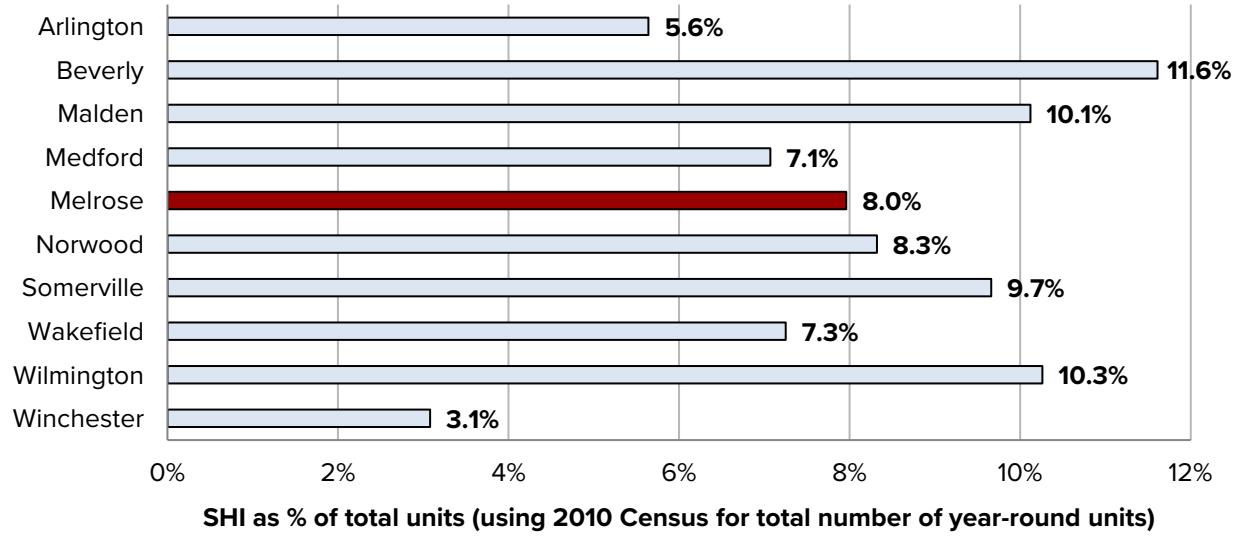
"I would like to see a focus on affordable housing so that living in this city, whose economic diversity that I saw when I moved here a decade ago was a factor in me moving here, does not become out of reach for many people."

Figure 27: Housing cost burden by context community, 2018

Source: ACS 5-year estimates, 2014-2018

Affordable Housing

Deed-restricted Affordable Housing is a type of housing that can only be rented or sold to income-eligible households at an affordable rate. This type of housing is virtually always subsidized, either by a government agency or by market-rate units in the same real estate development. While there are other types of affordable housing, such as inexpensive unsubsidized units or market-rate units subsidized with rental housing vouchers, deed-restricted Affordable Housing is the only type of housing that is not vulnerable to changes in the housing market, such as rising market rents. These units are also tracked by the Commonwealth on its Subsidized Housing Inventory (SHI).



If less than 10% of a municipality's housing stock is on the SHI, that municipality becomes vulnerable under Chapter 40B, a state statute that enables developers to bypass local development regulations in municipalities that have not reached this 10% threshold. To calculate the SHI percentage, the number of Affordable Housing units in a municipality are compared to its total number of units as counted in the last US Census. As of this writing, the latest available year-round housing counts are from the 2010 Census. Once the counts for year-round housing units from the 2020 Census are released, the SHI percentage will be recalculated.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

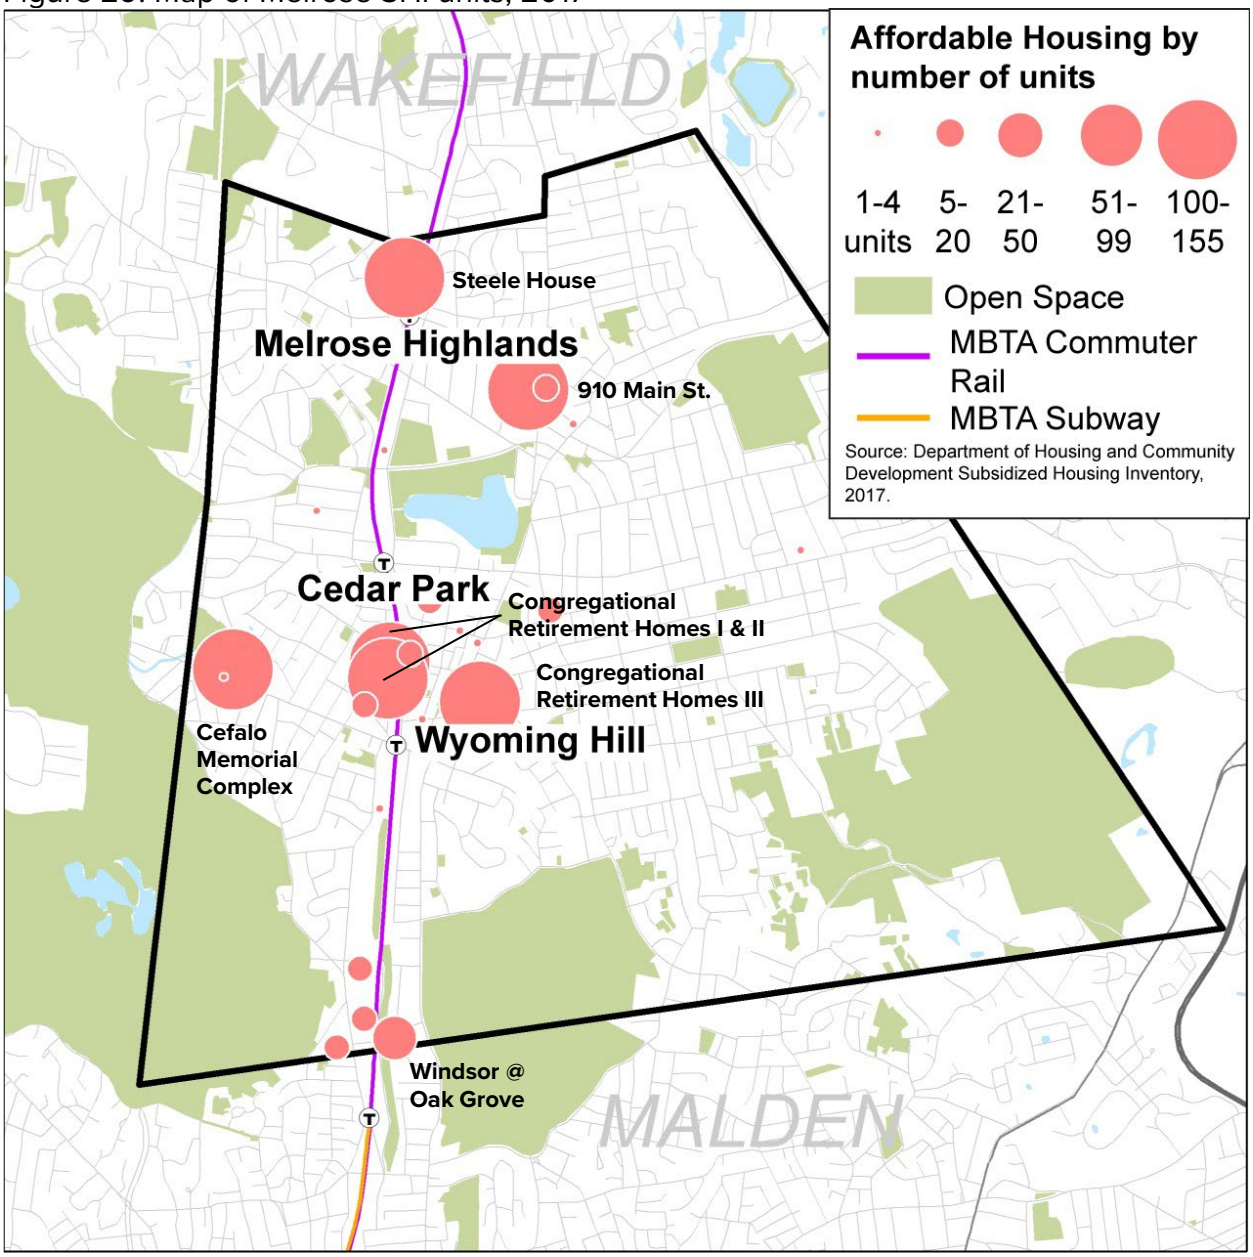
Melrose has 934 Affordable Housing units on the SHI, or 8.0% of its total housing.[4] Of the context communities, only Beverly, Malden, and Wilmington meet or exceed the 10% SHI threshold.[5] Most of Melrose's Affordable Housing units are located near Downtown and along the rail corridor, and most are Housing Authority units that serve low-income seniors and people with disabilities.

> "One [Affordable Housing units] is a one bedroom and it's almost $1600, and one's a studio and it's almost $1500. So neither of those actually seem affordable, to me, but they're listed as affordable rental opportunities on Main Street, and there's a lottery for them."

Figure 28: Subsidized Housing Inventory, 2019



Source: Department of Housing and Community Development Subsidized Housing Inventory, 2019

Melrose's Affordable Housing amounts to one unit for every four low-income households currently living in Melrose. Three in four low-income Melrose households have therefore found housing on the open market. These households have either found an unsubsidized housing unit that is naturally affordable, utilize a rental housing voucher to subsidize their market rent, or they simply cannot afford their home. Furthermore, "low-income" describes a wide range of incomes and includes many households that make far less than 80% of the Area Median Income. For those households, even deed-restricted Affordable Housing may not be affordable to them.

Community Housing Priorities

Fall Engagement Campaign

In November and December 2020, the City of Melrose and MAPC conducted two virtual events as part of the Fall Engagement Campaign. There was an "online open house" activity open from November 18 to December 16 and a webinar held via Zoom on December 2. Both events were held virtually due the COVID-19 pandemic and the risks of viral transmission at large in-person events.

The two activities offered different ways to engage the same content, including information on the planning process, data on existing conditions, a vision for Melrose's housing future, and potential priorities the plan could address.

- The online open house was "asynchronous," meaning participants could engage at any time while it was open, they could go at their own pace, and information was presented through text and images. Participants gave input through the web-based survey tool Qualtrics (either via multiple choice or text-based responses). Approximately 175 people participated in this activity, with 134 people responding to at least one question. A PDF version of the OOH "survey instrument" is included as an appendix to this memo.

- The webinar was "synchronous," meaning participants and the planning team all engaged at the same time, and information was given through a live presentation and discussion. Participants could directly interact with the planning team verbally or through the Zoom chat function, and they could answer live polling questions related to the content through PollEverywhere (via text or the web). Live polling results were also visible to participants as they came in. Approximately 60 people participated in this activity, with 44 people participating in the live poll. A video of the webinar was posted online for viewing afterwards, as well as the webinar's presentation.

The two events provided different formats to accommodate differing needs in the community. Survey/poll questions were substantively similar in each activity, but they were phrased differently, in order to meet the technical needs of the two activities.

First Online Open House

Members of the Melrose community had the opportunity to participate in a go-at-your-own-pace online open house (OOH). The OOH presented information and solicited feedback across several sections:

- About You: Participants could choose to give demographic and housing information about themselves.
- About the Plan: Participants were presented with information about Housing Production Plans, this process specifically, and the plan for public engagement moving forward.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Existing Conditions Data: Participants were presented with data points on Melrose's population, housing stock, and housing affordability. After each data point, participants could say whether that data was surprising or not and provide further feedback. Participants were also asked about additional information they think would be important for the plan.
- Vision and Priorities: Participants were asked for five words that describe their vision for the future of Melrose and were then asked how housing could play a role in achieving that vision. Participants then rated 20 potential housing priorities that the plan could address. (The list of potential priorities was based on common housing issues experienced across the Greater Boston region.)

Participant Profile

Participants could choose to answer questions about their demographics and housing situation. Their answers were roughly compared to Melrose's overall population, though these comparisons are not always direct and should be taken only as illustrative. Highlights of this data include the following data points:

- 90% of OOH participants owned their home, compared to approximately 66% of households that own their home in the city.
- 79% of participants lived in single-family homes, while only 55% of housing units in Melrose are single-family homes.
- 30% of participants were age 35-44 and 30% were age 45-54. 17% of participants were age 55-64 and 13% were 65-74. Only 9% were age 25-34 and only 1% were 75 or older. Overall, participants overrepresented middle age groups and underrepresented young adults and seniors.
- Participants were given a list of racial and ethnic categories they could identify with, and they could pick more than one category. 85% of participants identified as White alone. 6% of participants identified with more than one category. 5% identified as Asian alone. 2% (2 participants) identified as Latina, Latino, Latinx or Hispanic alone, with an additional 2% identifying as White and Latinx. 1% (1 participant) identified as Black. 6% identified with more than one racial or ethnic category. Because of the way the Census Bureau treats Latinx identity (and the statistically small number of participants of color in the online open house), it can be difficult to directly compare participants to the general population. Nonetheless, broadly speaking, we can say that the proportion of non-Latinx White participants mirrors that within the general population, but the breakdown of people of color among participants does not mirror that of the general population. Black people, in particular, were underrepresented among participants.
- 35% of participants lived in 4-person households, and 34% lived in 2-person households. Only 4% lived in 1-person households.
- 12% of participants have lived in Melrose for 0-2 years, 31% for 3-10 years, 21% for 11-20 years, and 37% for 21 or more years.
- Participation was split across Melrose neighborhoods, with the most participation from Melrose Highlands (22%), the East Side (20%), and Wyoming (13%).

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Overall, participation in the OOH exceeded the typical expectations of an in-person public forum in urban planning processes. The high level of participation is good for the plan, though the composition of participants points to a need for more targeted outreach to renters, specific populations of color, seniors, young people, and single-person households.

Responses to Existing Conditions Data

Participants were asked if each data point given was surprising or not surprising. The majority of participants found each data point not surprising. The most surprising data points were the breakdown of households by income status (low-income, moderate-income, etc.), the amount and location of Melrose's Affordable Housing, and the breakdown of households by housing cost burden.

Figure 30: Surprising data points, fall online open house

Participants could also suggest further research directions for the planning process. Examples included:

- Specific strategies that could advance affordability
- Development opportunities (including transit-oriented mixed-use development, accessory dwellings, and small infill development)
- Opportunities for seniors
- Opportunities for people with disabilities

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

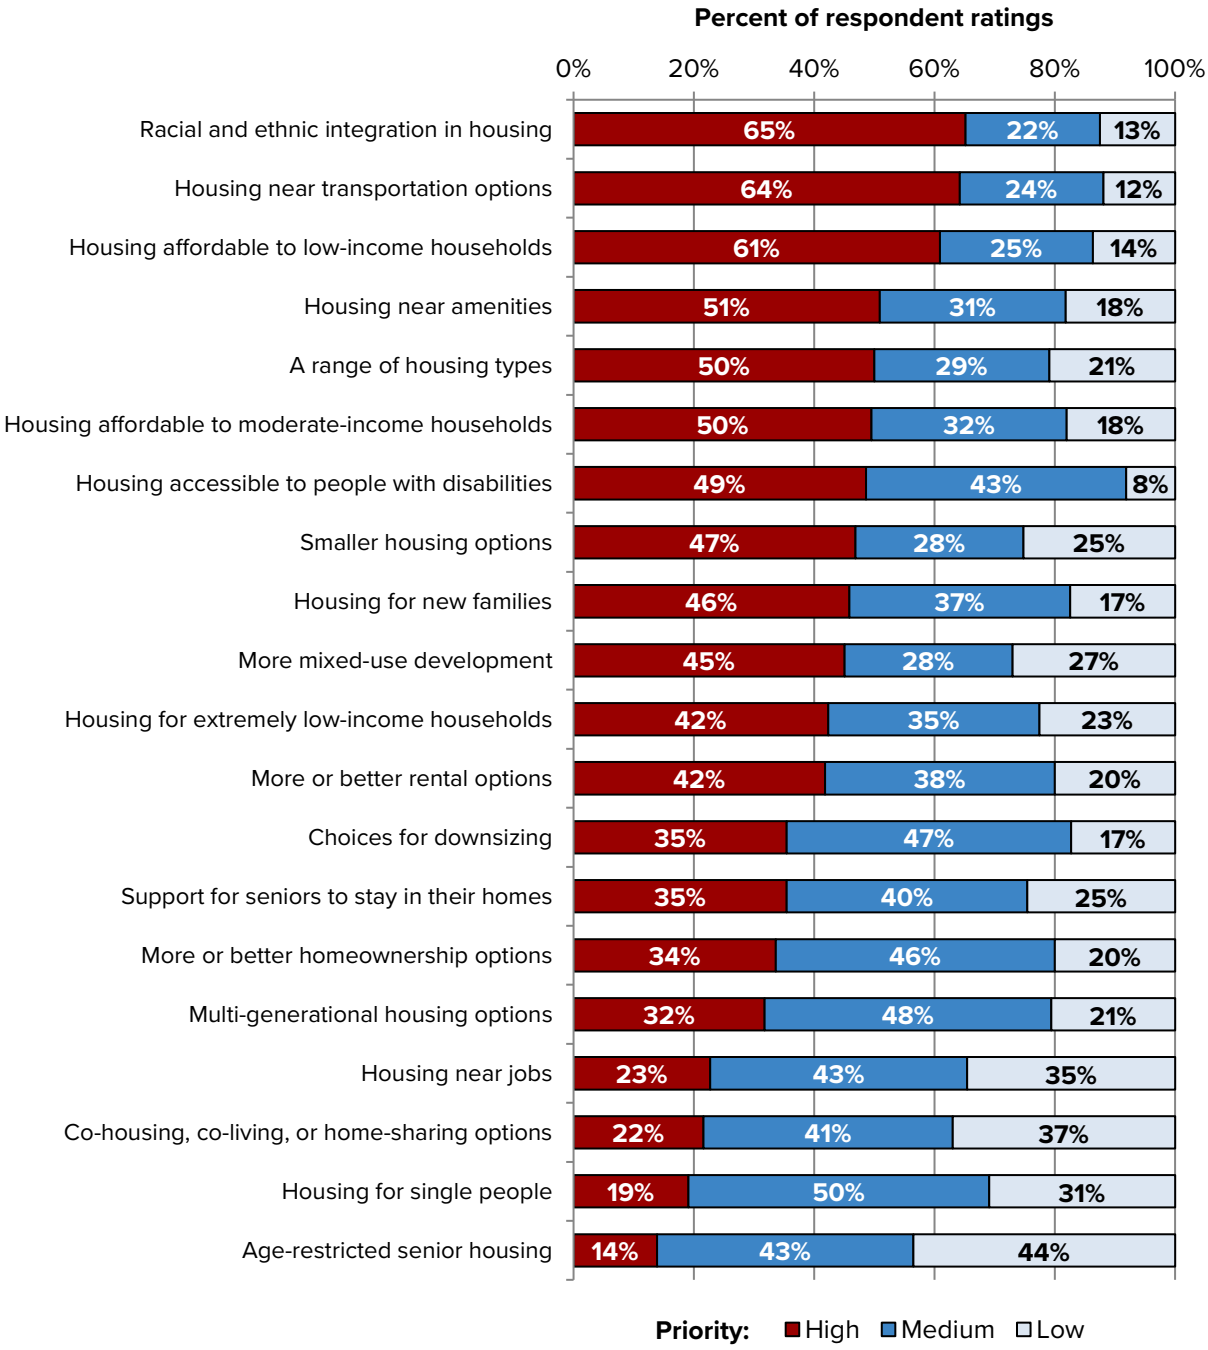
- The impact of short-term rentals
- How technology is changing development
- The reasons driving segregation (including the legacy of redlining)

Visioning

Participants were asked to write five words describing their vision for housing in Melrose. Words related to affordability were the most common, followed by words related to diversity and inclusion (often specifically relating to race) and words related to community. Words related to walkability, sustainability and the environment, vibrancy, and green spaces were also common.

Figure 31: Word cloud of vision exercise, fall online open house



Potential Priorities

Participants were given a list of 20 potential housing priorities based on common housing needs and desires in the Greater Boston region. Participants could then rate each item as a low-, medium-, or high-priority, and leave additional comments on each if necessary.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MELROSEHPP

Figure 32: Priority ratings, fall online open house

Over half the respondents rated each of the following as a high priority for the plan:

- Racial and ethnic integration in housing (65%)
- Housing near transportation options (64%)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Housing affordable to low-income households (up to about $67,000 for a single person or $97,500 for a family of four) (61%)
- Housing near amenities (local retail, parks, etc.) (51%)
- A range of housing types (such as single-family homes, duplexes, small multifamily buildings, and/or large multifamily buildings) (50%)
- Housing affordable to moderate-income households (up to about $83,000 for a single person or $119,000 for a family of four) (50%)

Participants also suggested numerous other priorities the plan could address. Common themes included:

- Homeownership
- Energy efficient housing
- Architectural and/or aesthetic priorities
- Funding issues
- Issues related to infrastructure impacted by housing

Input from this engagement campaign and other engagement activities were used to draft the plan's housing goals and to shape potential strategies and actions. Proposed recommendations were then reviewed by the public during the Spring Engagement Campaign and further prioritized.

Gaps in Participation

Participation in the Fall Engagement Campaign activities was different than that of typical urban planning processes. This is likely due to the high level of civic engagement within the Melrose community and the virtual nature of engagement during a pandemic. Some of the notable takeaways from engagement in both activities include:

- Across these activities, the proportion of non-Latinx White people was similar to that in the general population. This is encouraging, since typically this demographic is overrepresented in planning processes.
- Black and Latinx people were still underrepresented in the fall outreach. The project team acknowledged that the HPP process would need to address this gap with additional targeted outreach through existing networks of these communities.
- Seniors were underrepresented in the fall outreach, though they typically are overrepresented in urban planning engagement activities. While it was encouraging to see more participation from other age groups, it was important to still engage seniors given that many housing issues directly affect and are affected by the senior population. The change in senior participation was likely driven by the online format of engagement. The project team noted that filling this engagement gap during the pandemic would require targeted phone-based outreach through existing networks in the senior community and through organizations that serve seniors.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Young people, including young adults aged 18-34, were underrepresented in these activities. While this is typical for many urban planning processes, their lack of representation would need to be addressed through targeted outreach through networks of young residents and through organizations that serve young people.
- Renters were underrepresented in these activities. Like with young people, this is typical in urban planning processes, but especially problematic in Melrose, where the proportion of renter households is relatively high. Renters would best be reached through place-based outreach or through informal social networks.
- People living in single-family homes were overrepresented in these activities. Like with renters, place-based outreach and informal social networks would likely be the best ways to target people living in other types of housing.
- Single-person households were underrepresented in these activities. This gap is likely due (in part) to low participation of seniors, who are more likely to live in single-person households than other age groups. Outreach to seniors could resolve this issue.

Spring Engagement Campaign

In June 2021, the City of Melrose and MAPC conducted two virtual engagement events for the Spring Engagement Campaign. This included an online open house held from June 4 to June 25 and a webinar held on June 16. As with the Fall Engagement Campaign, these events were held virtually due the COVID-19 pandemic. The two activities offered different ways to engage the same content, including an update on the planning process, housing strategies and actions, and development types and locations.

- Approximately 375 people participated in the online open house activity, with 267 people responding to at least one question.

- Approximately 30 people participated in the webinar, with about half participating in the live poll.

Second Online Open House

The second OOH presented information and solicited feedback on several sections:

- About You: Participants could choose to give demographic and housing information about themselves.
- Review of the Plan and timeline: Participants were reminded of the HPP planning process, engagement opportunities, and timeline.
- Review Draft Goals: Participants were presented with six draft goals generated from public and key stakeholder engagement to date. Participants were then

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

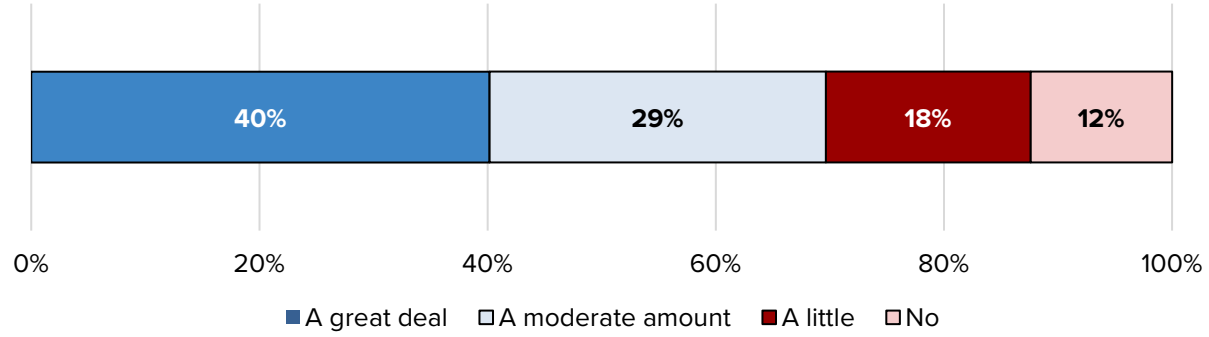
asked how closely they felt these goals aligned with their priorities for the future of housing in Melrose.

- Priority Strategies and Actions: Participants were presented with potential strategies and actions that the City could undertake to advance each of the draft goals. Participants were asked to rank the strategies and actions according to their priorities.
- Input on Housing Types/Locations: Participants were asked to identify which neighborhoods in the Melrose they would prioritize for any new housing and then rank the appropriateness of different housing types (detached single family, townhomes, mid-rise apartments, etc.) for each neighborhood. All housing types were presented as options for each neighborhood, to not limit or influence the range of potential responses.

Participant Profile

As with the first online open house, respondents could choose to answer questions about their demographics and housing situation. Their answers are shown in comparison to Melrose's overall population.

- 90% of OOH participants owned their home, compared to approximately 66% of households that own their home in the city.
- 81% of participants lived in single-family homes, while only 55% of housing units in Melrose are single-family homes.
- Participants overrepresented middle-age groups and underrepresented young adults and seniors. The largest share of participants (36%) was age 35-44. 24% were age 45-54, 21% were age 55-64, and 9% were age 25-34. Only 8% were age 65 or older, and 2% under age 25.
- Participants were given a list of racial and ethnic categories they could identify with, and they could pick more than one category. 88% of participants identified as White alone, very similar to the proportion of non-Latinx White people in Melrose overall (85%).
- Half of participants (50%) lived in 4+ person households. 25% live in 2-person households, 19% in 3-person households, and 7% in single-person households.
- Just over half (59%) over participants have lived in Melrose for 11 or more years, including 34% for 21 or more years. 31% of respondents have lived in Melrose for 3 to 10 years, and only 10% less than 3 years.
- Over three-quarters of respondents (77%) had not participated in the Fall Engagement Campaign.



Alignment of Draft Goals

The open house listed six goals for the HPP, generated based on feedback from the fall engagement campaign and targeted stakeholder outreach, and participants were asked if the goals aligned with their priorities for housing in Melrose. Most respondents (87%) indicated that these goals reflect their priorities at least a little bit; with 69% saying the goals reflect their priorities a moderate or great amount. 12% of respondents indicated

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

that the goals do not reflect their priorities. This large positive feedback validates the vision developed during the Fall Engagement Campaign, especially considering that three-quarters of open house participants had not participated in that previous campaign.

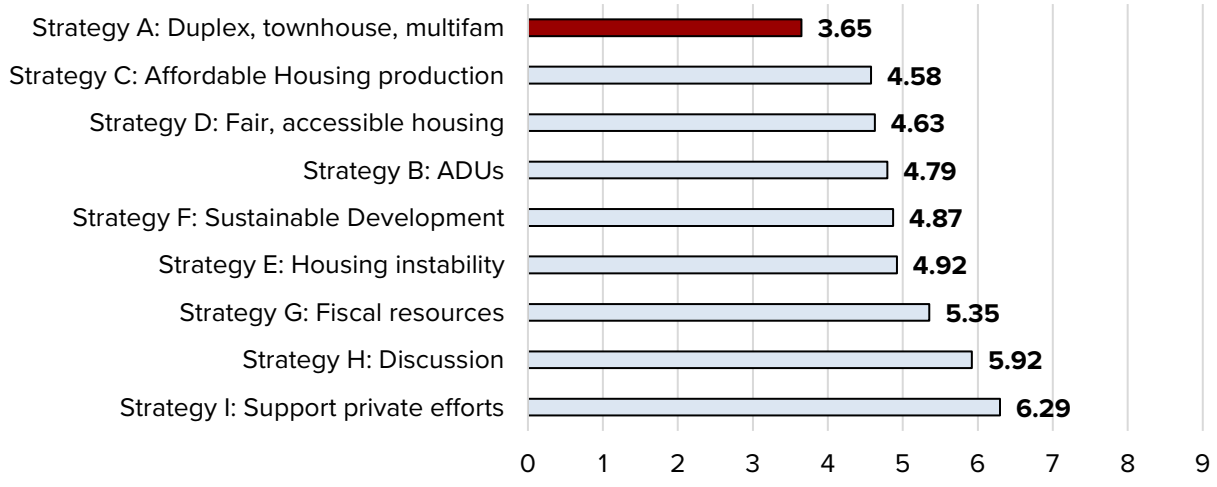


Figure 33: Alignment of draft goals with housing priorities, spring online open house

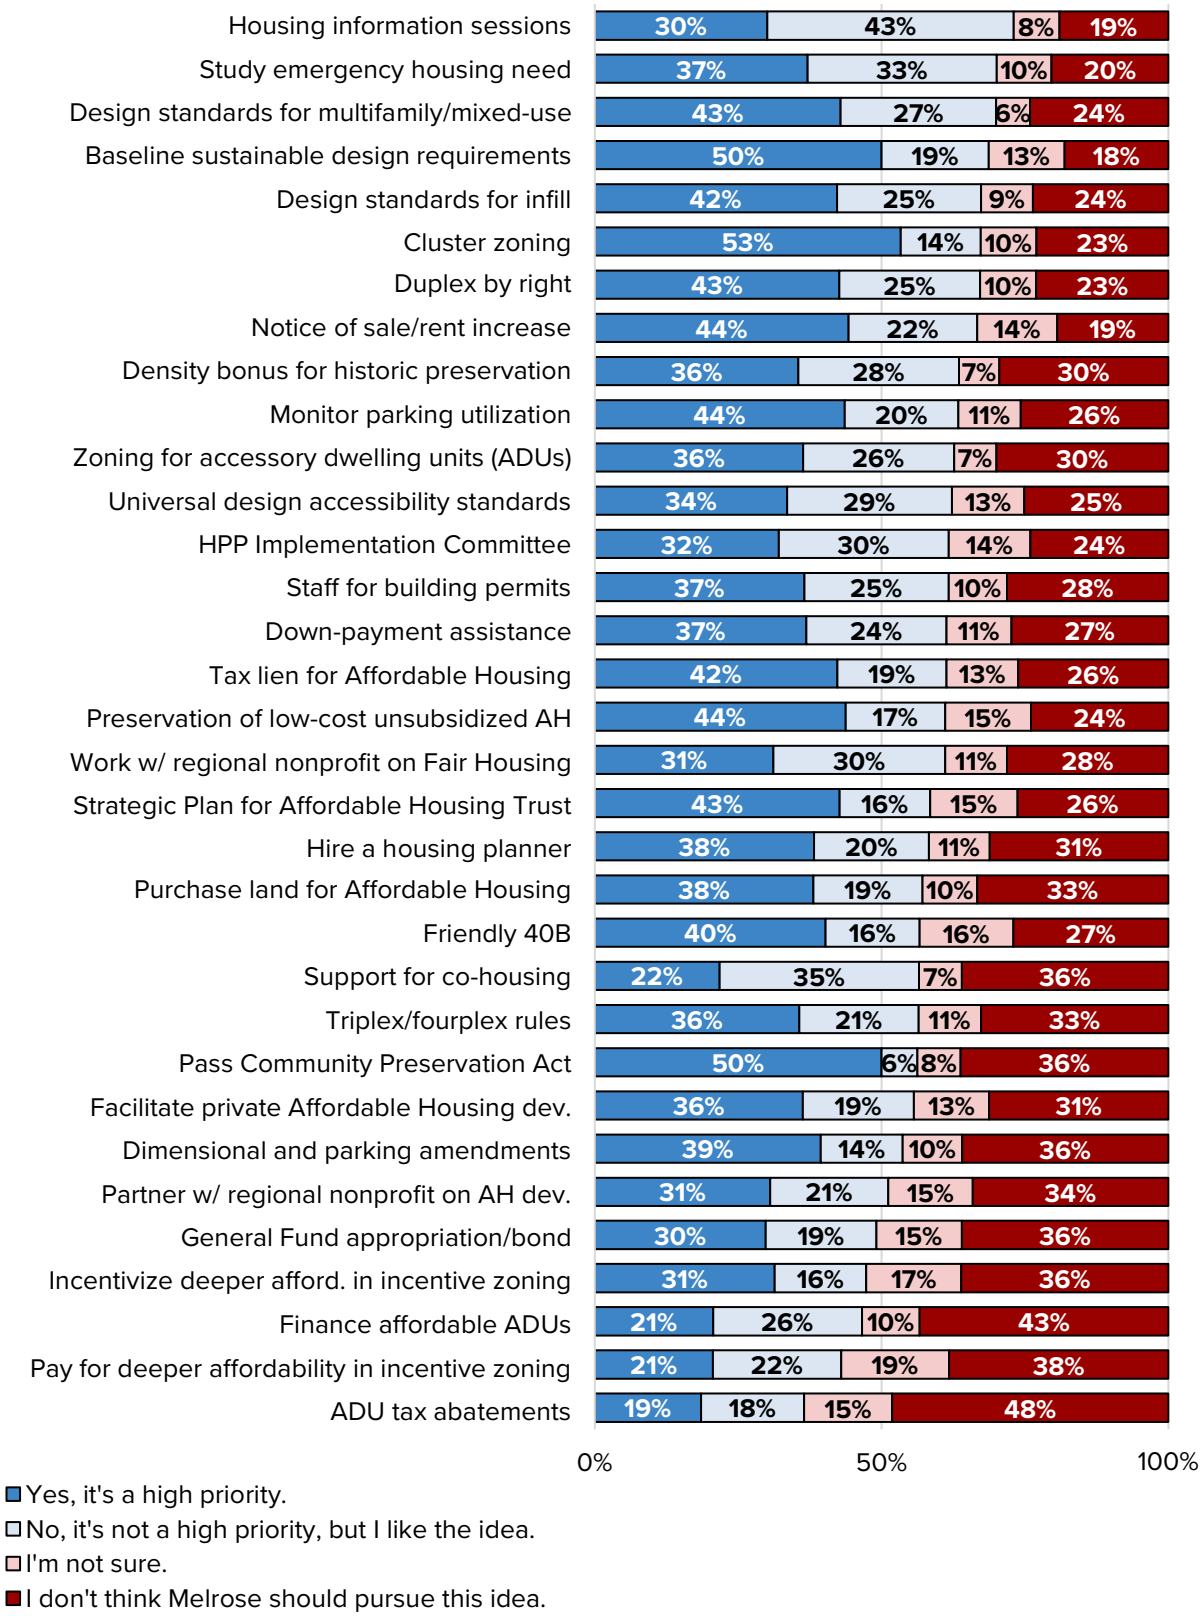
Responses to Strategies and Actions

Participants were presented with nine housing strategies, each consisting of 2 to 7 potential actions for advancing that strategy. Participants were first asked to rank the strategies from 1 to 9, with 1 being the highest priority and 9 being the lowest. Strategy A, "Encourage duplex, townhouse, and small multifamily development that fits into Melrose's existing context," received the highest overall ranking. Strategies H, "create formal opportunities to discussion housing's role in Melrose," and I, "Support private efforts to advance housing goals," received the lowest rankings.

Figure 34: Strategy rank, spring online open house



Participants were then asked whether each individual action was a high priority for Melrose to pursue. The chart below shows the aggregate of supporting (blue) and opposition responses (red) for each action. Actions are organized based on the most to least support.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MELROSEHPP

Figure 35: Support vs. opposition, spring online open house

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The actions that received the highest support and least opposition are:

1. Host regular housing information sessions (H)
2. Study the need for emergency and transitional housing (E)
3. Design standards for mixed-use/multifamily housing in downtown/rail corridor (A)
4. Baseline requirements for sustainable development (F)
5. Design guidelines for infill housing in older, mid-density neighborhoods (A)
6. Cluster zoning rules away from Downtown/rail corridor (F)
7. Allow two-family and townhomes by-right in Downtown/rail corridor (A)
8. Explore local requirements for a Notice of Sale and Notice (E)

These actions support different strategies (H, E, A and F) than those ranked most highly earlier in the open house (A and C). Strategies E, F and H are associated with some of the most highly prioritized actions but received moderate or low support when ranked as stand-alone strategies. These conflicting results indicate that actions may be more motivating than strategies, and/or that specific actions can tie to multiple strategies.

Priority Housing Types and Locations

Respondents were next asked to identify up to three geographic areas of Melrose in which new development should be located. The first phase of this question did not specify which *type* of development would go in these locations, so responses likely reflect respondents' interpretation or assumptions of new development in general. Respondents favored development in downtown and along the rail corridor, with many also advocating for development in currently low-density residential neighborhoods in East Melrose.

Respondents were then asked to rank the appropriateness of nine different housing types in different areas of Melrose. This question asked about 'appropriate' housing types, so respondents may have considered the existing housing context as much as future development.

The most popular responses are shown below in dark green. They include mixed-use housing in downtown and single-family homes, ADUs, and duplexes in low and medium-density residential neighborhoods. Across the city, the most popular housing type was duplex, and the most popular location was the Rail Corridor (shown in dark blue in final column and row).

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Figure 36: Priority housing types and locations, spring online open house

Type	Downtown	Hospital Area	Rail Corridor	Mid-Density Neighborhoods	Low-Density Neighborhoods	Commercial-Industrial	Total
SFR	19	31	34	90	108	20	**302**
ADU	30	41	50	78	80	21	**300**
Townhomes	57	62	80	59	48	45	**351**
Duplexes	58	70	82	90	82	38	**420**

3- to 4-story Multifam	68	62	72	32	36	47	**317**
Mixed Use	102	64	80	17	10	50	**323**
5- to 6-story Multifam	52	45	65	14	19	50	**245**
Total	**505**	**492**	**611**	**502**	**483**	**355**	

Gaps in Participation

Some notable takeaways from engagement in the spring compared to the fall:

- Across both campaigns the proportion of homeowners and length of residency remained consistent.
- The spring campaign saw higher participation from young people. This group is often underrepresented in planning processes, including in the fall campaign, and their participation is crucial for ensuring the HPP reflects the entire Melrose community, not just those most able to join planning efforts.
- However, the spring OOH saw a lower percent of non-white respondents, despite targeted outreach to reach racial minority residents.
- Renters have been consistently underrepresented in these activities: the highest rate of renters was 16%, in the fall webinar. Like with young people, this is typical in urban planning processes, but especially problematic in Melrose, where the proportion of renter households is relatively high (34%).
- People living in single-family homes were overrepresented in these activities, and the percent of respondents who live in single-family homes increased from the fall to the spring. Again, this is not ideal in a community where just over half of homes are detached single-family.
- Seniors were less well represented in these campaigns than is typically seen during in-person public engagement, likely due, at least in part, to the digital format of these activities.

Factors Affecting Development

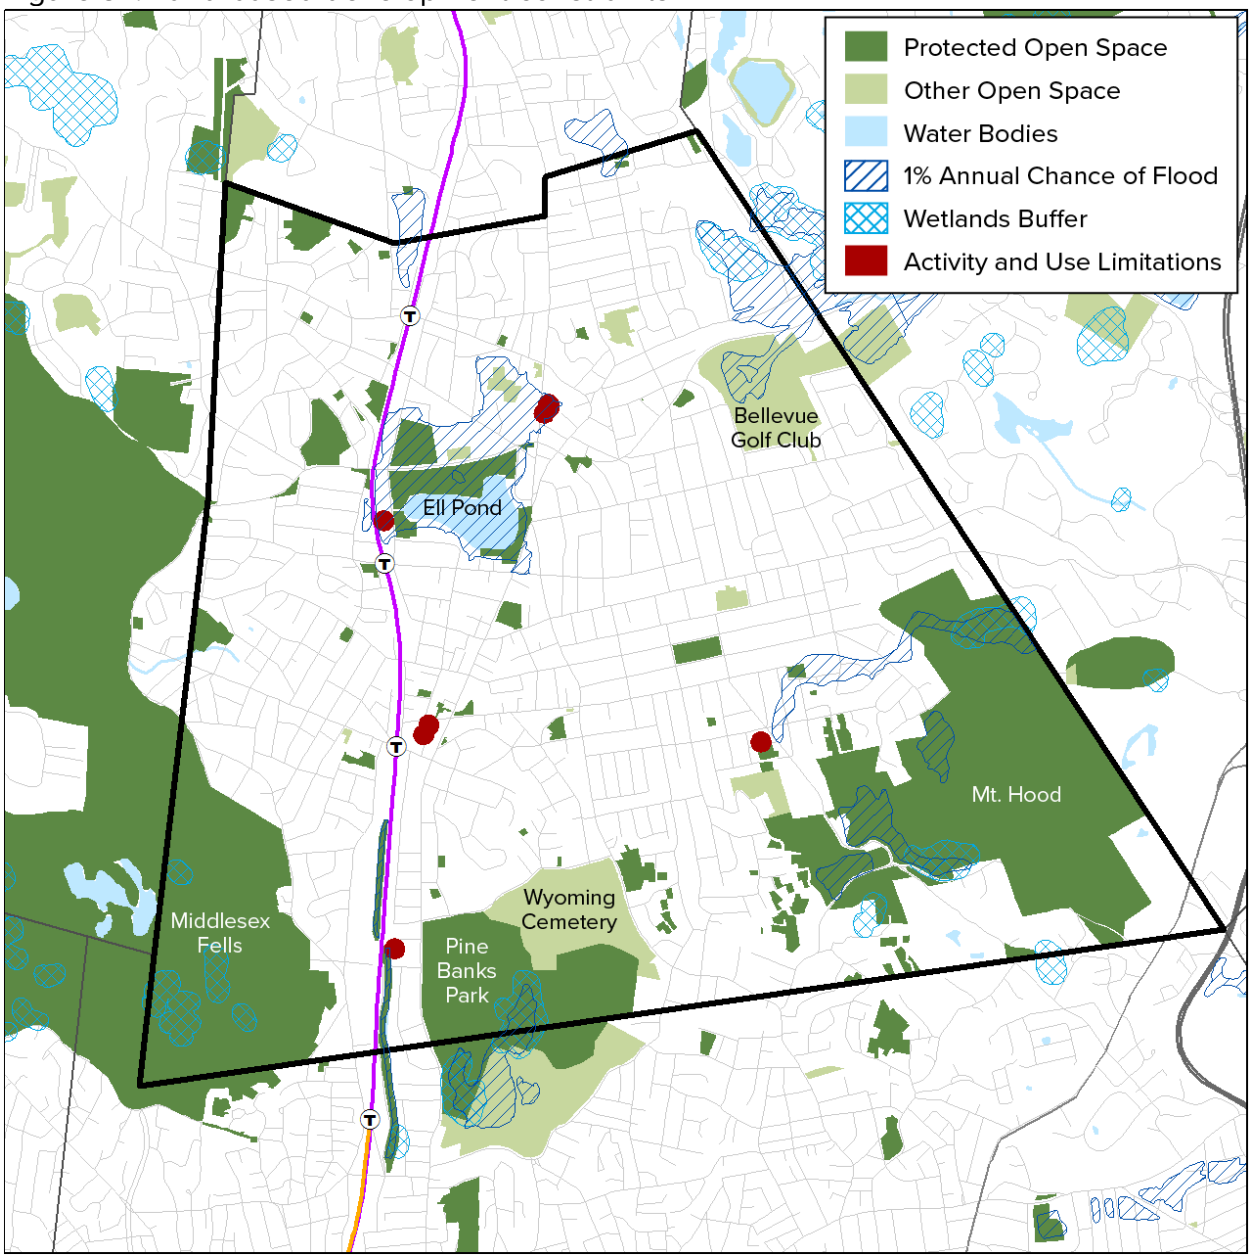
Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Overview

In the US, housing is largely provided through the private real estate market. Developers, contractors, financial institutions, brokers, and other specialists work together to deliver new housing at a variety of scales. The government regulates this market through rules and incentives built into local, state, and federal regulations. Whether housing is produced in any one location is influenced by those regulations, as well as numerous natural, social, economic, institutional, and infrastructural factors. This chapter of the HPP considers the Melrose-specific factors influencing housing development.

Land-Based Constraints

Some areas of Melrose are better suited for housing than others. Naturally constrained sites include water bodies, places that are likely to flood in the event of a major storm, areas within 100 feet of wetlands, and state-designated core habitats warranting protection. Many of these areas overlap with existing public and private open spaces, including the Middlesex Fells Reservation, Pine Banks Park, Mt. Hood Park, and the Ell Pond area. Significant portions of the Horace Mann area are also at risk of flooding or are near wetlands.



Flood zones may be generally inappropriate for housing, though in flood zones that have been previously developed, new housing development can introduce more green space and incorporate site improvements designed to combat overall flooding. Any housing built in these areas must meet design standards to minimize flood risk and ensure residents can stay safe in the event of a flood.

Similarly, sites contaminated with hazardous materials are generally unsuitable for residential development, but if the contamination is minor, development can serve as a vehicle to remove contamination and make the site safe for residential use. If the contamination is extensive, it may be cost-prohibitive to address through development alone, though state and federal funds are available for remediation of such sites. Sites with a regulatory Activity and Use Limitations, tracked under M.G.L. 21E, are likely to contaminated for residential use and were excluded from any analysis of development opportunities in this plan.

Lastly, some land is constrained due to existing public use of that land. These include public rights-of-way, permanently protected open spaces, cemeteries, parks, and some golf courses. The city's permanently protected open spaces include the Middlesex Fells Reservation, Pine Banks Park, Mt. Hood Park, the Ell Pond area, Sewall Woods, Ferdinand Woods, West Hill, and numerous smaller open spaces around the city.

Source: MassGIS, MAPC

Infrastructure

Infrastructure can create an upper limit on the amount of housing that can be built without new infrastructure investment. This is especially true in rural communities that lack extensive infrastructure. Melrose, however, is relatively well served by its infrastructure. Though large-scale developments will need to be assessed for

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

infrastructural impacts, infrastructure is not a major constraint on development, and in fact, new development can improve the city's infrastructure in many cases.

Utilities

Melrose is generally well served by water and sewer infrastructure due to its connections to the regional Massachusetts Water Resources Authority (MWRA) system. Sites with limited access to utilities may exist, but the city does not face systemic infrastructure constraints. New development must demonstrate that utilities have sufficient capacity to provide service, and some developments may be subject to additional inflow/infiltration fees to accommodate more intense use. At some sites, development can create opportunities to address existing backflow, drainage, and network connectivity issues.

Transit

Melrose is well served by the MBTA transit system in the region. There are three stations on the Haverhill Commuter Rail line within Melrose, and the Oak Grove terminus of the rapid transit Orange Line is just across the city's southern border with Malden. This rail corridor was historically key to Melrose's development, and it remains an important driver for the city's continued prosperity. Beyond rail, Melrose is served by the MBTA's 131, 132, and 137 buses, which provide more granular access to areas beyond the immediate rail corridor, including Downtown, Melrose Highlands, Wyoming Ave, and the East Side.

In theory, Melrose's relatively strong transit access should not be a constraint, but rather a catalyst, for ongoing housing production. However, there remain concerns about the viability of the system and its ability to serve Melrose residents, which were only exacerbated by the COVID-19 pandemic and cuts to the transit system. The MBTA system has faced real and perceived funding issues, uncertainties in governance, delays, maintenance concerns, and looming austerity measures over the past few years. Transit-oriented residential development—the kind that Melrose has largely pursued over the last two decades—is reliant on a functional transit system. If state-level government fails to rectify transit concerns, the system may become less attractive to residents and prompt greater use of private vehicles and increased traffic in Melrose and elsewhere.

Pedestrian and Bicycle Infrastructure

Most of Melrose is well served by pedestrian facilities, including sidewalks along roads and foot trails in open spaces. A small portion of roadways within one half-mile of Melrose's MBTA stations lack sidewalk facilities. Roadways lacking sidewalks are more common in the eastern sections of the city that have newer, more suburban-style developments. However, a lack of existing sidewalks is not necessarily a development constraint, especially for larger developments, which sometimes repair or install sidewalks as part of the development project. As a Complete Streets Community, a policy to enhance the safety and access of roads, specifically for pedestrians and cyclists, is applied to all decision-making for related infrastructure planning and construction.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The proprietary “Walkscore” system rates locations based on their walkability, taking into account pedestrian infrastructure as well as easy access to amenities like businesses and parks. Parts of Melrose near Downtown received the highest Walkscore ratings of “very walkable” or a “walkers paradise,” while areas near the rail corridor were rated as “somewhat walkable.”

In addition to pedestrian facilities, Melrose has some bicycle infrastructure, including bike lanes on Lynn Fells Parkway and Tremont Street, as well as limited bike lane segments on Essex Street, Berwick Street, and Main Street. In recent years, the City has been implementing elements of its North-South Bike Route Plan, consisting of roadway painting and signage to help cyclists travel more safely to various destinations in Melrose.

Automobile Infrastructure

Traffic and parking are perennially cited as concerns in discussion about new housing development. Melrose’s arterial streets include Main Street, Lebanon Street, Washington Street, Wyoming Avenue, Upham Street, Emerson Street, Melrose Street, Lynn Fells Parkway, Franklin Street, Howard Street, and Green Street. The city does not contain any federal or state routes or interstates, except a small stretch of Route 99 in its southeast corner.

In 2012, Melrose undertook a parking study in the Downtown that showed the area did not face parking constraints due to insufficient parking. In 2019, Melrose was part of MAPC’s Perfect Fit parking study of recent development, which showed that recent housing developments generally had excess parking capacity. Melrose does not allow overnight parking on city streets but does provide for a Residential Overnight Permit that allows residents who do not have off-street parking associated with their residence to use certain municipal and Commuter Rail lots when on-street parking is prohibited.

Municipal Capacity

Housing Staff

The City of Melrose has a five-person team in the Office of Planning and Community Development (OPCD) that oversees all planning functions, including long-term planning, program management, capital planning, project review, zoning amendments, GIS mapping, sustainability, and liaising with relevant boards and commissions. Other staff outside this office also interact with housing development, such the staff at the Inspectional Services Department (ISD) and Engineering Division.

Staff capacity represents a constraint on achieving housing goals, including market rate and affordable housing production. According to professionals in real estate who participated in this plan’s focus groups, ISD’s building permit review times can delay housing production, which increases costs. Focus group participants agreed ISD’s review

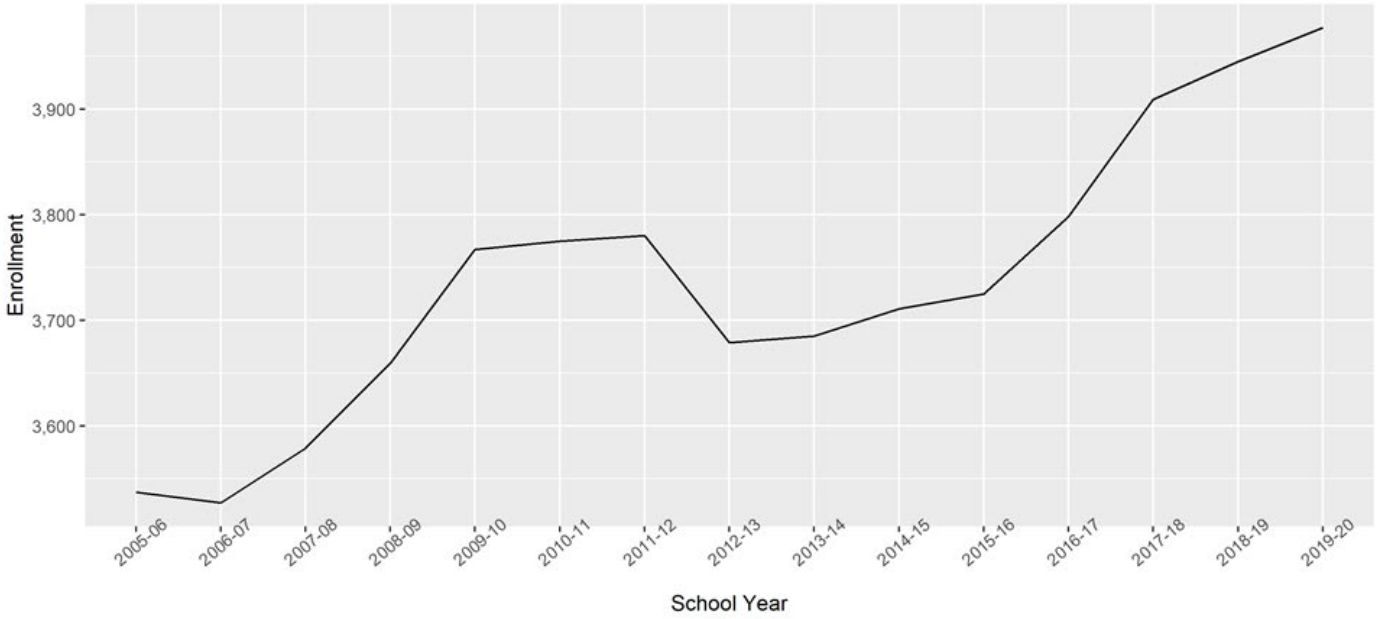
Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

was adequate and professional, but that the department simply had more work than it could handle. Additional capacity in ISD (either on staff or through contractors) could decrease those delays, and in theory, ultimately decrease housing costs.

With regards to Affordable Housing, the City does not have a designated staff position to oversee housing development or programs. Without dedicated staff, the City is less equipped to take a proactive role in Affordable Housing development, which is a complex undertaking that typically requires significant staff time. Similarly, without dedicated staff the City is less equipped to actively pursue the creation of housing programs or to support housing stability. OPCD staff assist individual constituents with housing issues as they arise but have limited capacity to undertake multiple or extensive housing efforts.

Schools

School capacity is a commonly cited constraint on housing development. Enrollment in Melrose's school system has indeed grown since 2005, from 3,537 students in academic year 2005/06 to 3,977 students in academic year 2019/20. Between academic years 2010/11 and 2018/19, enrollment in Melrose's school system increased by 5%. Only three context communities' school systems (Arlington, Beverly, and Winchester) saw larger enrollment increases during that period.



School enrollment generally tends to be cyclical. This was true in Melrose, with enrollment growth after 2005 followed by a plateau and dip between 2009/10 and 2012/13, followed again by another period of growth. However, Melrose's 2009 dip did not erase previous enrollment growth, and in general enrollment has been trending upwards since 2005. Enrollment growth has been most apparent in elementary school grades, with less dramatic growth (and some declines) in middle and high school grades.

It is important to note, however, that new multifamily and mixed-use development has not been the main contributor to increases in Melrose's school population. With mostly one- and two-bedroom units, these developments are not particularly suitable for families with school-age children. Instead, most of the growth in the school population has occurred as a result of families moving into the many single-family homes in Melrose. In fact, MAPC conducted research across the Commonwealth over a six-year period between 2010 and 2016 and found that, at the district level, there was no meaningful correlation between housing production rates and enrollment growth.[6]

Figure 40: Change in school enrollment by context community, 2010-2018

Source: DESE, 2010-2018

While increased enrollment may put stress on the school system, there is no strong connection between new housing production and school enrollment. New housing production, especially small housing types aimed at households not served by the existing stock, tends to provide housing for young people, seniors, new couples, and singles. According to the Collins Center for Public Management's 2018 analysis of Melrose school enrollment, new housing was not a driver of enrollment growth.[7]

Instead, new growth tends to be driven by turnover in the existing housing stock. This turnover is a natural process in which older homeowners age out of their family homes and new families with school-aged children purchase the home. Of course, new housing development will likely be home to some school children, though the effect of these students on the school system is likely to be relatively small. Inasmuch as school enrollment is an issue for Melrose, it is not strongly correlated with housing growth, and it will need to be addressed through education policy rather than housing policy. Limiting housing development to prevent families from living in Melrose would, in fact, be a violation of federal and state Fair Housing law, open the City to legal liability, and is directly counter to Melrose's slogan as "One Community, Open for All."

Zoning & Subdivision Laws

Melrose regulates land use, the size and shape of development, aspects of site and building design, and aspects of affordability through the Melrose Zoning Ordinance (MZO), Chapter 235 of the City's Administrative Code. Like all Massachusetts communities, the MZO is enabled under Massachusetts General Law Chapter 40A. In Melrose, as in the rest of the US, most real estate is bought and sold as a commodity in a regulated market. Zoning law regulates what can be built on a given piece of property, which influences how much money can be made from developing that property, ultimately influencing the sale price.

Melrose's zoning code divides the city into 15 base zoning districts. Seven are designated as residential districts, six are designated as business districts, and two are designated as industrial districts. Two overlay districts modify zoning rules in two of the city's base districts, one business and one industrial. Between the base and overlay zoning districts, residential uses are permitted in all but two small areas of Melrose, either by right or via a Special Permit from the Zoning Board of Appeals (ZBA).

Residential Base Districts

Suburban Residence Districts

Melrose has three Suburban Residence Districts: SR, SR-A, and SR-B. These districts are exclusively found on the eastern side of Melrose. Each district only allows detached single-family homes by right, with accessory "in-law" apartments allowed by a Special Permit issued by the ZBA (under a limited set of criteria everywhere in Melrose). The three districts vary principally in the minimum lot area allowed for an individual parcel.

The SR District, located south of Lynn Fells Parkway and encompassing Rivers Lane and Bellevue Golf Club, requires a minimum of 25,000 square feet (just over half an acre) for each residential parcel. The SR-A District, encompassing Mt. Hood Park and the surrounding residential areas, requires 15,000-square foot residential lots. The SR-B District, encompassing much of the remaining eastern edge of Melrose, requires 10,000-square foot lots. In addition to lot size requirements, these districts have relatively large setback and open space requirements. All buildings are capped at 2.5 stories and 35 feet in height. The housing in these districts tends to be newer than housing elsewhere in the city, with the majority of homes built between 1946 and 1980.

UR-A: Urban Residence A

The Urban Residence A (UR-A) District is the largest district in Melrose. It includes most of the land between the eastern suburban districts and Downtown, as well as most of the land west of the MBTA railway. Only detached single-family homes are allowed by right in UR-A, with accessory apartments, townhomes, and two-family homes allowed by Special Permit from the ZBA. Single family homes and townhomes require a minimum 7,500 square feet of land area for each unit. Two-family homes require 13,500 square feet in land area (i.e., 1,500 square feet less than the area required for two separate

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

homes). Setback requirements are relatively low compared to the suburban residence districts. Buildings are capped at 2.5 stories and 35 feet in height. Homes in this area are of mixed ages and include many historic structures built before World War II.

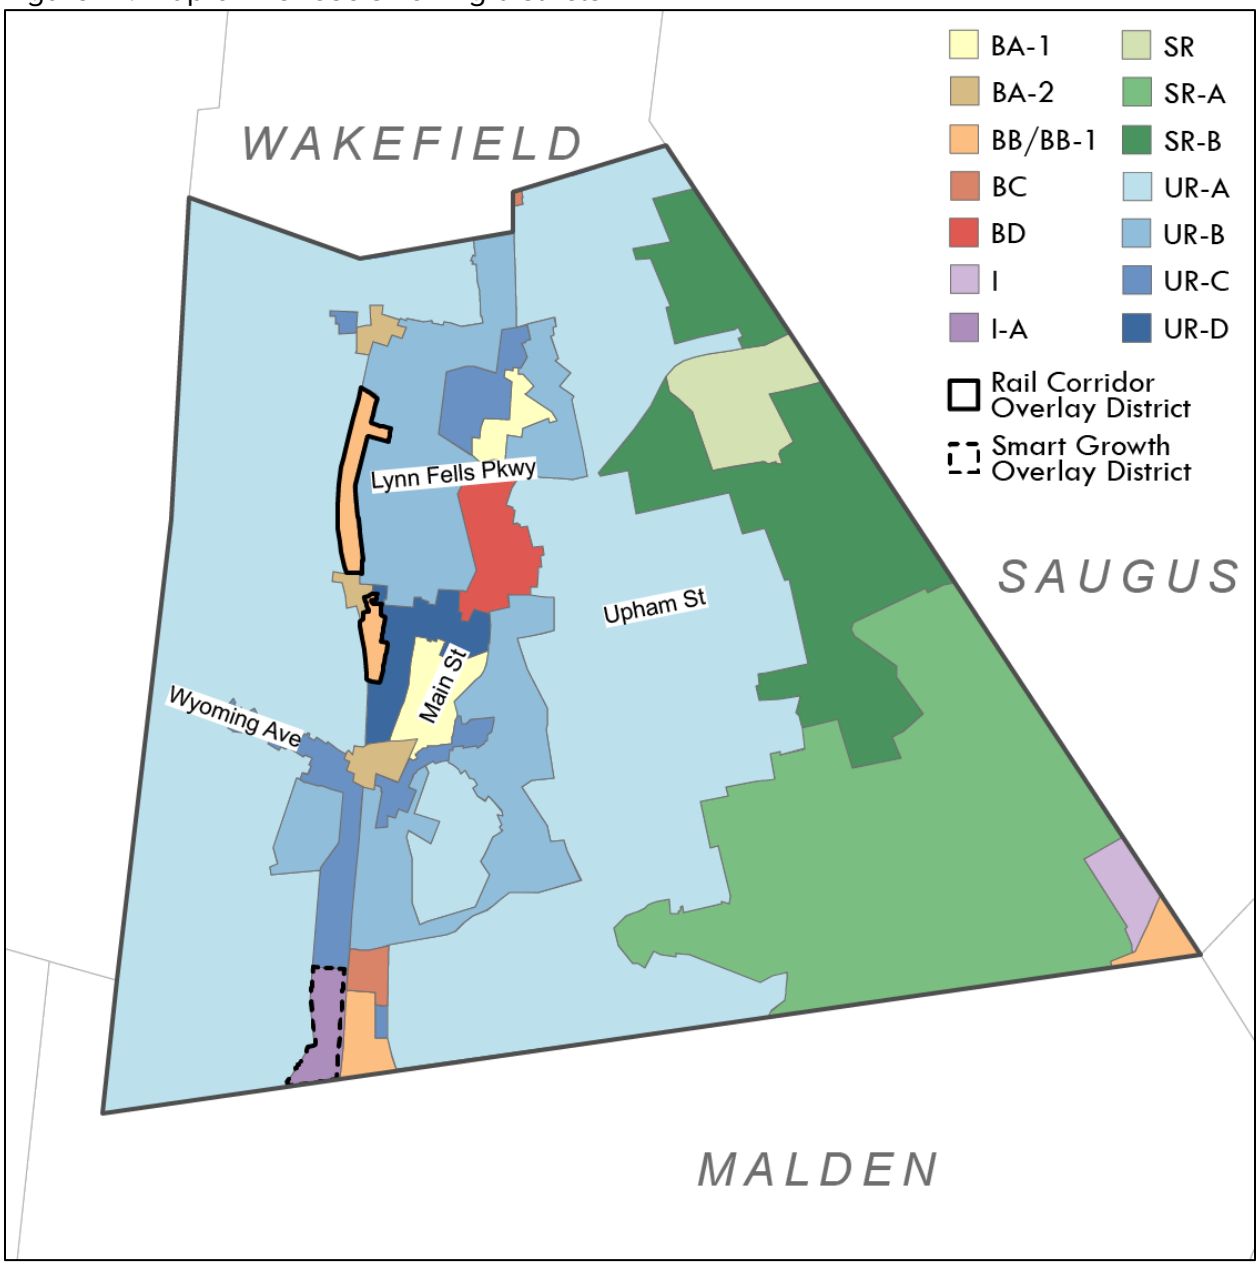
UR-B: Urban Residence B

The Urban Residence B (UR-B) District includes the area east of Downtown, the area east of Main Street and north of Lynn Fells Parkway, the area between Main Street and the MBTA rail corridor, and a small area west of the rail corridor and south of Lincoln Elementary. In UR-B, detached single-family homes and two-family homes are allowed by right, with accessory apartments, townhomes, multifamily homes, and mixed-use developments allowed by Special Permit from the ZBA. Single-family homes require a minimum of 7,500 square feet in land area. Two-family homes, townhomes, and multifamily homes require 7,500 square feet of land for the first housing unit and 3,000 square feet for each additional unit. Mixed-use developments require a minimum of 10,000 square feet in land area. Buildings are capped at 2.5 stories and 35 feet in height.

UR-C and UR-D: Urban Residence C and D

The Urban Residence C (UR-C) District encompasses several small areas: one area between the rail corridor and Pleasant Street and running along West Wyoming Avenue; one area in the vicinity of the Franklin School and Main Street between West Highland Avenue and Franklin Street; one area near Main Street around East Wyoming Avenue, Lynde Street, and Grove Street; and one area along Main Street south of Banks Place. Urban Residence D (UR-D) ais a single small area in Downtown Melrose, roughly between the rail corridor and Myrtle Street and just south of West Emerson Street. In UR-C and D, townhomes, two-family homes, and multifamily homes are allowed by right, with detached single-family homes, accessory apartments, and mixed-use developments allowed by Special Permit. Townhomes, two-family homes, and multifamily homes require 6,000 square feet of land area for the first unit, and 1,250 square feet for each additional unit. Buildings are capped at 4 stories and 50 feet in height, with a maximum floor area ratio of 1.0. Minimum setback and open space requirements are relatively low compared to other districts.

Business Base Districts



BA-1 and BA-2: General Business and Transit-Oriented Mixed Use

Melrose has a General Business (BA-1) District and a Transit-Oriented Mixed Use (BA-2) District. An additional General Business (BA) District remains in the zoning code but is not distinct from the BA-1 District and is not mapped onto any part of Melrose. BA-1 includes most of the core of Downtown Melrose from East Wyoming Street to Upham Street, as well as a portion of Main Street north of Lynn Fells Parkway. The BA-2 District includes the areas adjacent to each of Melrose's three MBTA Commuter Rail stations. In both districts, mixed-use developments with commercial (retail) uses on the ground floor and residential above are allowed by right. Multifamily developments with no retail component are allowed by Special Permit from the Planning Board for large redevelopment sites. All uses require only a 5,000-square foot lot, no minimum setbacks, and a maximum front setback of 5 feet. Buildings are capped at 4 stories and 50 feet,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

with a maximum floor area ratio of 2.0. The requirements of these base districts encourage wood-frame, mid-rise, mixed-use buildings.

Figure 41: Map of Melrose's zoning districts

BB and BB-1: Extensive Business

Melrose contains two Extensive Business Districts: BB and BB-1. The BB District is located in the city's southeasternmost corner along Broadway (Route 99) and no residential uses are permitted there. The BB-1 District is located in three areas directly east of the rail corridor: one district between Banks Place and Melrose's southern border, one district along Willow and Essex streets north of Foster Street, and one district between the rail

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

corridor and Tremont Street, south of Melrose Street. Like the BA Districts, multifamily developments are allowed in the BB-1 district by Special Permit from the Planning Board for large redevelopment sites. Two of the three areas within the BB-1 district are modified by the Rail Corridor Overlay District as discussed below.

BC: Local Business

There are two small areas covered by Melrose's Local Business (BC) District: one at Melrose's southern edge, along Main Street between Banks Place and Sylvan Street, and the other at Melrose's northern edge, along Main Street north of Bay State Road. The BC district allows mixed-use developments (residential above commercial) by right and multifamily developments without a commercial component by Special Permit from the ZBA. Buildings are capped at 2 stories, 30 feet in height, and a maximum floor area ratio of 0.75.

BD: Medical Business

A large portion of Downtown Melrose in the vicinity of Melrose-Wakefield Hospital is zoned Medical Business (BD). Despite its name, the area encompasses many types of homes and businesses and allows many types of residential development. Townhomes, two-family homes, multifamily homes, and mixed-use developments are all allowed by right. Single-family homes and accessory apartments are allowed by Special Permit from the ZBA. Buildings in this area are capped at 8 stories, 80 feet in height, and a maximum floor area ratio of 2.0.

Industrial Base Districts

Melrose contains two base Industrial Districts (I and I-A). The I District is located in the southeast corner of Melrose between Malden, Revere, and Saugus. The I-A District is located between the rail corridor and Washington and Pleasant streets. Neither of these base districts allow residential uses, however, the I-A District is significantly modified by the Smart Growth District as discussed below.

Overlay Districts

Smart Growth District

In the early 2000s, Melrose conducted a master planning process that showed the community's interest in promoting sustainable, mixed-use, transit-oriented development—a practice often called "smart growth"—in the city's industrial areas near the rail corridor. At the time, the Oak Grove Village development, located between the rail corridor and Main Street at the city's southern border with Malden, was already underway. While Oak Grove Village was successfully permitted via a Special Permit, the MZO lacked a viable zoning tool to accomplish the community's broader smart growth goals. In 2008, the City Council passed a new Smart Growth District developed by the Planning Board and OPCD staff as an overlay for the area opposite the rail corridor from Oak Grove Village.

The Smart Growth District (SGD) is a zoning overlay with boundaries that fully match the I-A District between the rail corridor and Washington and Pleasant Streets. The SGD

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

allows (but does not require) a mix of uses, including residential and consumer-facing commercial uses like retail and restaurants. SGD developments may have up to 35 housing units per acre and can include a range of housing types. Buildings are capped at 60 feet in height, with maximum floor area ratios ranging from 1.25 to 2.0, depending on the amount of commercial development in the project. SGD projects are assumed to occur on large lots, which are typical of former industrial areas. SGD rules require at least a half-acre of land and a maximum of 50% lot coverage. The amount of automobile parking required depends on the size of the housing units and amount of commercial space, but it may not be less than 1 space per residential unit. SGD developments are also subject to design standards meant to match the area's character, and some existing mill-style buildings are required to be preserved. Developers must demonstrate that water, sewer, and traffic infrastructure are adequate before a project is approved. All SGD projects must be approved by the Planning Board through Site Plan Review.

All but one parcel in the SGD has been redeveloped as of 2021 and all redevelopments have utilized the overlay zoning over the base I-A zoning. While the redevelopment is seen as positive, some in the community have said that the residential components of SGD projects are not matched by adequate retail components.

Rail Corridor Overlay District

The Rail Corridor Overlay District (RCOD) is a zoning overlay that shares the same boundaries as two of the three areas in the BB-1 District. One is just east of the rail corridor running along Willow and Essex streets, and the other runs along Tremont Street roughly between Emerson and Melrose Streets. The RCOD allows (but does not require) a mix of uses, including residential and consumer-facing commercial uses like retail and restaurants. RCOD developments may have up to 35 housing units per acre and can include a range of housing types. Buildings are capped at 4 stories and 50 feet in height, though the Planning Board may increase the allowable height to 5 stories and 62 feet provided that they meet certain criteria. RCOD developments have a maximum floor area ratio of 1.5. The developments must meet design standards, provide on-site open space, and pay into a Streetscape Improvement Fund. The RCOD requires one automobile parking space per unit plus additional guest spaces and commercial spaces if applicable. Developers must demonstrate that water, sewer, and traffic infrastructure are adequate before a project is approved. All RCOD projects must be approved by the Planning Board through the Site Plan review process.

Cluster Residential Development

Under its "cluster residential development" provision, Melrose's zoning code allows single-family developments in suburban residential areas to reduce their dimensional requirements and "cluster" single-family homes on one part of a site in order to preserve natural features elsewhere on the property. In practice, this zoning vehicle is not likely to be viable in Melrose since the size of a cluster development site must be at least 15 acres. No opportunities of that size exist today, and it is unlikely parcels would be aggregated for the purpose of creating such a development. Even if that land area requirement were removed, the zoning relief offered by Melrose's cluster provision is not enough that it would be viable for habitat protection on most smaller sites. Furthermore,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

single-family lots in these developments must conform to UR-A zoning rules. While UR-A developments consume less land than the suburban residential developments, they still consume considerable land per housing unit compared to newer models of cluster/open space zoning that will be discussed in the Development Framework section of the plan.

Inclusionary Zoning

Melrose passed its inclusionary zoning law (officially its "Affordable Housing Incentive Program Ordinance") in 2004, and most recently updated it in 2019. The ordinance requires that, for developments of five or more units, 15% of all units must be held as affordable for households earning 80% of the Area Median Income or less. To offset the costs of building and managing Affordable Housing units and minimize the risks of deterring development, the zoning code provides a density bonus of one market-rate unit for each Affordable Housing unit and decreases parking requirements. Developers are required to pay a fee to the City for any "fractional units" (i.e., when the 15% requirement results in a fraction of a unit) and those payments are directed into the City's Affordable Housing Trust Fund. Developments of 5, 6, and 7 units are able to provide a payment in lieu of providing the units onsite and this money also goes into the Affordable Housing Trust Fund.

Incentive Zoning

In 2021, the City adopted a new "incentive zoning" framework that offers developers increased allowable densities in exchange for community benefits. The new incentive zoning is focused on sustainability benefits, such as green infrastructure, sustainable building practices, increased open space, and support for alternative modes of transport such as bicycling or walking. The incentive zoning tool is available in the BA-1 and BA-2 Districts.

Subdivision Control Law

The Planning Board oversees subdivision of parcels in Melrose through the City's Subdivision Rules and Regulations. The regulation requires each individual lot within a subdivision have access to a public right-of-way, which either already exists or must be built, and controls the design of any new rights-of-way proposed in a subdivision. In general, the law reasonably controls conventional suburban style development, but it does not accommodate alternative housing and site types that may be desired by the community, such as cottage or cluster housing.

Site Plan Review

The Planning Board approves Site Plan Review application for all new industrial or commercial uses, new residential developments of four or more, extensions in excess of 2,500 sq. ft. of an existing industrial, commercial, or multi-family use, or the construction or expansion of a parking lots. The intent of the site plan review process is to regulate, rather than prohibit, uses through reasonable conditions concerning the design and

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

layout of buildings, signs, open space, landscaping, parking areas, access and egress, drainage, sewage, water supply, and public safety. It is important that all new development is consistent with the character of Melrose, regardless of its size and scale.

Local Housing Toolkit

Affordable Housing Trust Fund

In 2020, Melrose established a local Affordable Housing Trust Fund (AHTF) to collect and spend funds on Affordable Housing development and local housing programs. AHTFs are public bodies enabled under state law that can hold money and property independent of the City itself, and it can use its holdings for Affordable Housing purposes. Unlike the larger City government, an AHTF can act quickly and is better equipped to respond to housing development opportunities that arise outside of the City's normal annual budgeting process. AHTFs are governed by boards that are appointed by local leaders. Melrose's AHTF has not yet been fully set up, and one anticipated outcome of this planning process is to provide direction for the AHTF.

AHTFs are only effective if they are funded. In addition to payments collected through Melrose's inclusionary zoning law, funds could potentially be generated from other development fees if they occur. However, these sources are unlikely to be consistent. Many communities fund their trusts through the Community Preservation Act (CPA), a local surtax on real estate that must be spent on a variety of community benefits including Affordable Housing. However, Melrose has not locally adopted CPA at this time. Consistent funding—from CPA, a recurring general fund appropriation, or other stable source—will help Melrose's AHTF make effective and efficient investments in Melrose's housing.

Housing Choice

The state's Housing Choice program provides capital grants to municipalities that meet certain housing production goals, with larger grants given to communities that permit more housing. Melrose became a Housing Choice community in 2018 during the inaugural year of the program. It qualified by permitting more than 500 units over five years. The state awarded Melrose $168,000 in Housing Choice funds, which funded public realm improvements and accessibility upgrades along Cherry Street. Melrose was designated again as a Housing Choice community in 2020 by permitting more than 300 new units and meeting housing policy best practices. The designation will last for five years, until 2025.

North Suburban Consortium

Melrose is a member of the North Suburban Consortium (NSC), a membership group of nearby municipalities that collectively manages their federal HOME funds. HOME is one

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

of the few active federal direct funding sources for Affordable Housing development. In the past, the NSC has supported work in Melrose to "buy-down" affordability in projects by private developers,[8] fund nonprofit single-room occupancy units with supportive services for pregnant teens and new mothers, and it has collaborated with the Melrose Affordable Housing Corporation to acquire units for Affordable Housing.

Through the NSC, low-income Melrose residents who are first-time homebuyers can qualify for down payment assistance loans. However, these loans are capped at $7,500 per property and there is a purchase price limit of $466,000. Because of the small size of the loans and the high cost of housing in Melrose, this down payment assistance is rarely sought by residents.

Melrose Housing Authority

The Melrose Housing Authority (MHA) is the local public agency that administers many federal and state housing programs. Most visibly, the MHA owns and operates 322 public housing units, including 305 units for the elderly and people with disabilities, and 17 units for families. The elderly units are located in two high-rise developments, while the family units are interspersed across the city in small multifamily buildings acquired by Melrose's Affordable Housing Corporation. The MHA also manages federal and state rental vouchers, which assist low-income tenants in private rental properties, as well as project-based vouchers, which provide operating support for units in affordable housing developments. In Melrose, project-based vouchers are prioritized for Melrose residents and veterans. Lastly, the MHA manages the state's "Family Self Sufficiency" program and provides trainings for rental voucher holders.

Melrose Affordable Housing Corporation

The Melrose Affordable Housing Corporation is an independent nonprofit that acquires and rehabilitates residential properties into deed-restricted Affordable Housing units with federal funding through the NSC's HOME program. The corporation owns four properties with a total of 15 housing units. Though the MAHC has close ties to the City and the Housing Authority, MAHC is a separate, non-governmental organization. MAHC has no staff and is run by a volunteer board of directors. As such, MAHC lacks capacity to significantly grow its stock of Affordable Housing. Their existing units are managed by the Housing Authority, which is tasked with managing hundreds of other units.

[8] Housing buy-downs fill the gap between the price of an Affordable Housing unit and the price of that housing unit on the open market. By "buying-down" the market rate price to one that is Affordable, a city can add more Affordable Housing units beyond what is required by local inclusionary zoning rules while also ensuring that developers can finance their projects.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Framework and Opportunities

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

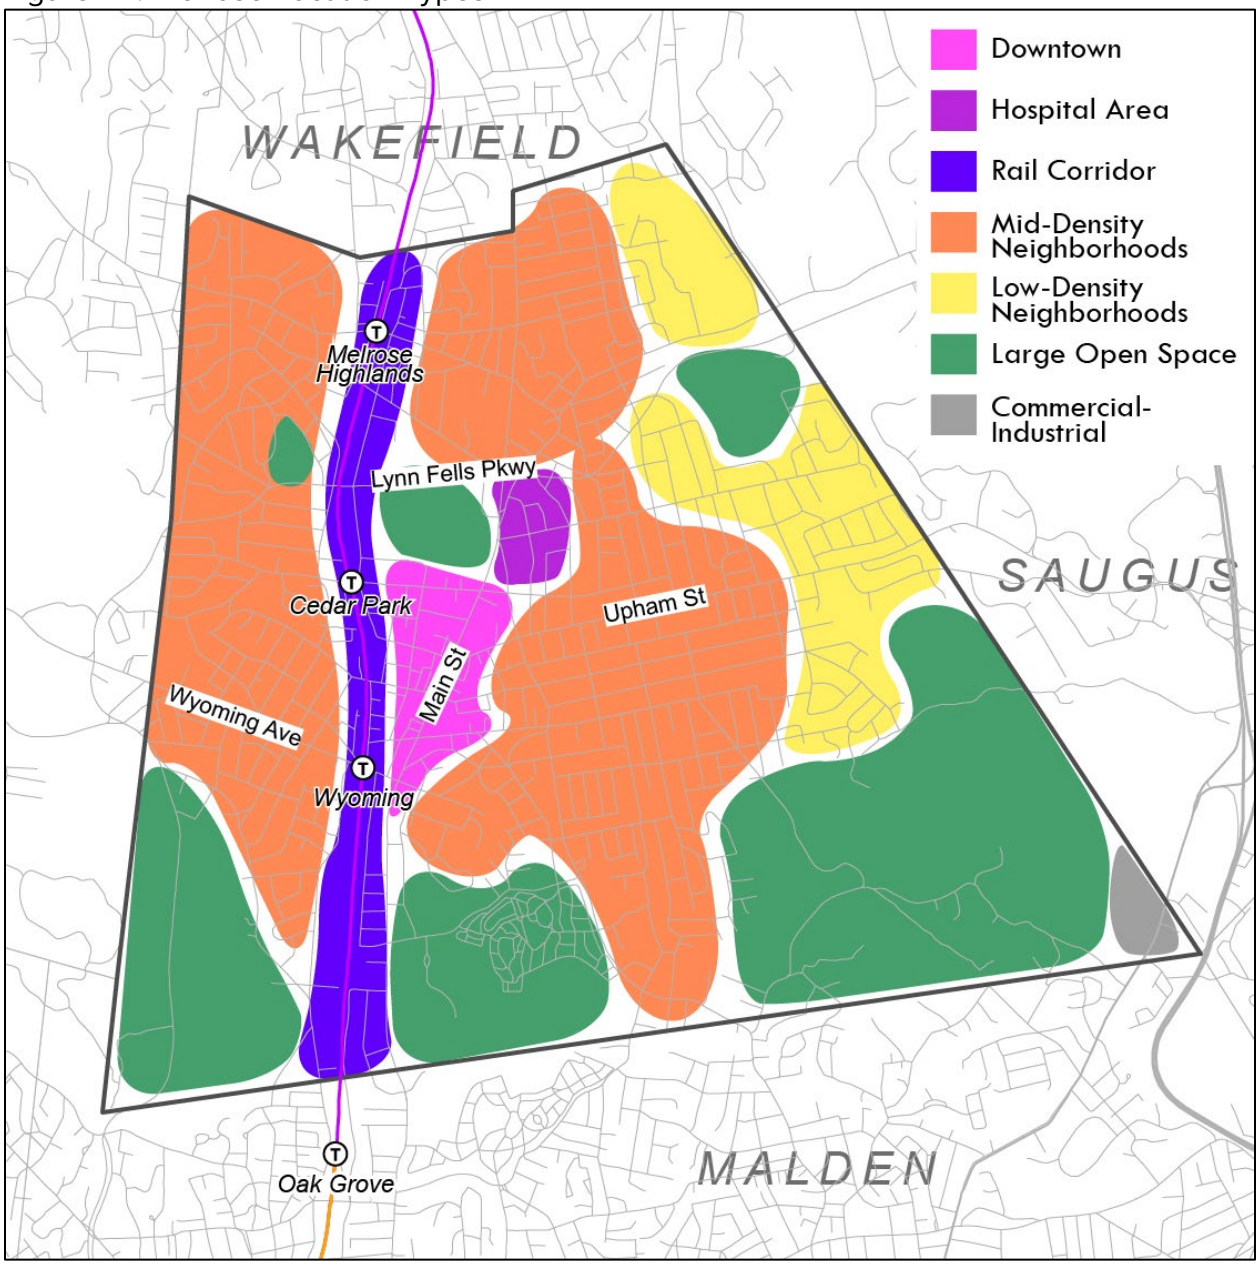
Development Framework

Different kinds of housing are appropriate in different parts of the city. Melrose is fortunate to have distinct neighborhoods, each with its own history, land use characteristics, and architectural heritage. New housing can complement the existing urban fabric of each area, playing to each area's strengths. By guiding new housing development in these areas, Melrose can proactively ensure that it meets the community's housing goals.

This plan introduces a loose "development framework" that can be used to think about new housing production in Melrose. It is meant as a guide for local decisionmakers, community members, and developers when approaching development projects. It is *not* meant to prescribe the type of new development appropriate for any individual site in the city. Overall, the framework seeks to guide development in an incremental manner and recognizes that new development can respect and coexist with Melrose's existing built environment.

Location Types

This development framework utilizes loosely-designated location types: Downtown, the Rail Corridor, the Hospital Area, Mid-Density Neighborhoods, Low-Density Neighborhoods, Large Open Spaces, and a Commercial-Industrial area. Each location type contains buildings and housing that share certain characteristics, such as age, density, mix of uses, and dimensions. The boundaries of these location types are not specific, and individual sites may not fit the overall pattern described here. Nonetheless, this breakdown provides a useful structure for considering future development in Melrose.



Downtown, Rail Corridor, and Hospital Area

Development in the Downtown, Rail Corridor, and Hospital Area should reflect these areas' historic character, existing retail base, and strong transit and pedestrian connections. Participants in this plan's engagement process tended to prefer that new housing be located in transit- and amenity-rich locations like these. New development in these locations should be mixed-use, with residential uses above retail. Small- and large-multifamily buildings without a retail component may also be appropriate in some places, as well as townhouses or two-and three-family buildings on smaller parcels. In general, these recommendations follow existing development patterns for each of these areas.

Current zoning tools are largely sufficient to accommodate these desired uses, but certain dimensional and parking rules may need to change in order to successfully promote the types of development envisioned for these areas. Based on data from MAPC's Perfect Fit parking study in 2019, it is likely that Melrose could reduce parking requirements in larger, transit-oriented developments in accordance with demonstrated demand for off-street parking spaces.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Figure 42: Melrose Location Types

Continuing to target development in these areas is in line with the Commonwealth's goals to prioritize housing production in smart growth areas. As a municipality served by the MBTA, Melrose will need to demonstrate to the Department of Housing & Community Development (DHCD) that it meets the new Multi-Family Zoning Requirement for MBTA Communities under MGL Chapter 40A, Section 3A. This will be necessary in order to remain eligible for state funding through the Housing Choice Initiative, Local Capital Projects Fund, and the MassWorks infrastructure program that the City relies on for capital and infrastructure improvements. To obtain a determination of compliance for a term of 10 years, Melrose will need to show that, within a half-mile of transit station, it has

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

at least one zoning district of 50 acres or more that allows multifamily or mixed-use development as of right at a density of 15 units per acre or more. Given the City's prioritization of transit-oriented development over the years, meeting this requirement should not be an issue.

Mid-Density Neighborhoods

The portions of Melrose adjacent to Downtown and the Rail Corridor are primarily comprised of older housing with a mix of densities, including many mid-density homes. These "Missing Middle" housing types, which fall between single-family homes and large apartment buildings in terms of scale, are intermixed with more prevalent single-family homes. These neighborhoods are ideal for renewed infill development such as two- and three-family developments, small multifamily buildings, and accessory apartments, which can provide alternative housing opportunities for households that either do not want or cannot afford a single-family home in Melrose.

The Melrose Zoning Ordinance facilitates this type of development to varying degrees. These smaller housing types are allowed in some zones (such as UR-B) but not others (such as UR-A). Dimensional requirements, especially minimum land area requirements, may prevent this kind of development altogether. These barriers could be address through relatively minor adjustments to Melrose's zoning. However, Melrose will also need to ensure that new development complements its overall neighborhood through smart design. The City will also need to ensure that development pressure does not disproportionately harm historically marginalized groups, such as people of color and renters, who are relatively well represented in these areas compared to other parts of the city and are more likely to experience housing insecurity.

Low-Density Neighborhoods

Housing development in the eastern portions of Melrose occurred later than in other, more historic areas of the city. Housing here tends to be newer and lower density, meaning each home tends to use more land than homes elsewhere. Opinions on new housing here are mixed. Some residents expressed a desire to limit new development in this area, due to the increased automobile traffic brought by housing here relative to other parts of Melrose. Others felt housing could be incorporated there where there are larger parcels and development should not be concentrated in certain parts of the city.

This framework takes a balanced approach to Melrose's low-density neighborhoods. For development that occurs in these areas, it should be sustainable and use resources efficiently while respecting the existing built context. To that end, Melrose should advance "cluster" style single-family or cottage style developments in these areas. These developments group smaller single-family homes in a single lot with shared green space, shared gathering areas, and (often) shared parking. In doing so, they use land more efficiently while offering a housing type that is more amenable to seniors, young families, and single adults compared to conventional suburban single-family development. Cluster and cottage-style developments tend to make use of historic design elements that

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

complement the existing context while cleverly creating more affordable, accessible, and sustainable housing options. Existing cottage developments in Massachusetts can be found in Concord, Weymouth, Dennis, and Brewster.

Melrose's zoning code already has a cluster zoning provision, but it is not designed to produce cottage developments with efficient uses of land. That provision could be overhauled to accommodate more contemporary development preferences. Revisions should reduce the minimum total lot size, reduce the land area required per unit, and create design requirements for shared open space, accessory use, and parking facilities. The City's subdivision law would also need to be reformed to allow for this type of development.

Concord Riverwalk, an example of contemporary cluster/cottage-style development.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Opportunities

Melrose has numerous sites that offer potential for new residential development. This section provides a list of sites currently under consideration for redevelopment as well as sites that could be considered in the future. These lists are limited to relatively large sites with mixed-use or multifamily redevelopment potential. Small infill sites that are suited for accessory apartments, two-family developments, townhouses, cottage houses, or other smaller housing types are not included here, but nonetheless represent an opportunity for small-scale, incremental infill development.

To provide context, sites already in the City's development pipeline are included in this list and noted separately. The property owners at these sites have already demonstrated development interest, and it is likely these sites will move forward with redevelopment. Other sites on this list are more speculative and development is contingent on their owners' interest.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

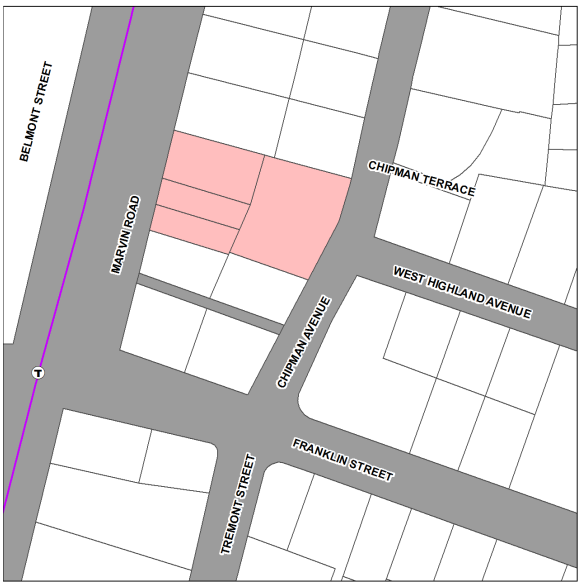
Sites in the Housing Pipeline

Some sites in Melrose are already "in the pipeline," meaning the property owner is actively considering redevelopment. Owners of sites in this section have filed some initial paperwork or reached out to OPCD staff stating their intention for redevelopment, including estimated number of future units.

Site 1: Franklin Market, 453-463 Franklin Street



Location notes: Near the Melrose Highland MBTA Station
Existing use: Single-story retail
Existing structures year built: 1967
Existing floor area ratio: 0.96
Parcel IDs: C12 0 16
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 18 residential units over commercial first floor
Land-based constraints: None

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

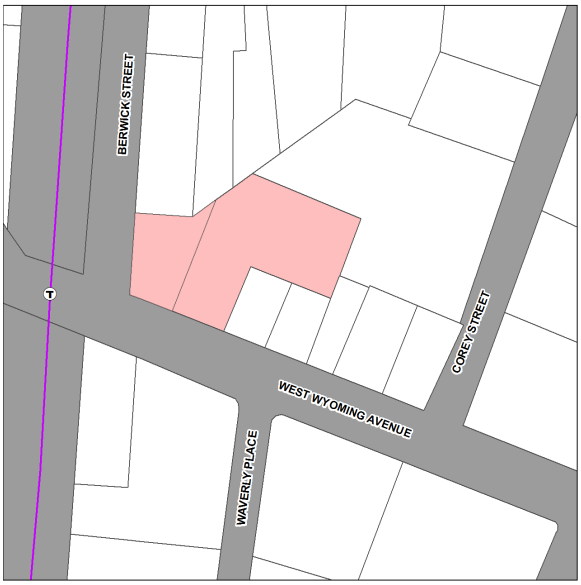
MELROSEHPP

Site 2: VFW Post 2394, 14 Chipman Ave / 21 Marvin Road



Location notes: Near the Melrose Highland MBTA Station
Existing use: Fraternal organization
Existing structures year built: 1958
Existing floor area ratio: 0.57
Parcel IDs: C12 0 23; C12 0 20; C12 0 19; C12 0 18
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 42 residential units over commercial first floor and VFW canteen
Land-based constraints: None

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

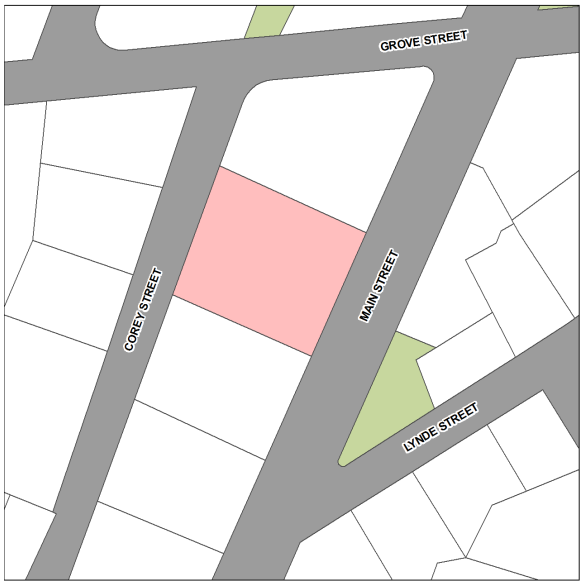
Site 3: 31-39 West Wyoming Avenue



Location notes: Near the Wyoming MBTA Station
Existing use: Single-story retail, garages, vacant lot
Existing structures year built: 1919
Existing floor area ratio: 0.04
Parcel IDs: C6 0 9; C6 0 8
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 27 residential units over parking and small commercial area
Land-based constraints: Underground culvert

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Site 4: MMTV Site, 360 Main Street

Location notes: Near Downtown and Wyoming MBTA Station
Existing use: Offices, studios
Existing structures year built: 1926
Existing floor area ratio: 0.90
Parcel IDs: C6 0 56
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 42 residential units over first-floor commercial and MMTV studio
Land-based constraints: None
Other notes: A mixed-use project at this site was previously approved by the Planning Board and Zoning Board of Appeals but was appealed by abutters

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Site 5: Caruso Property, 681-697 Main Street

Location notes: Near Downtown
Existing use: Single-story retail
Existing structures year built: 1911, 1924
Existing floor area ratio: 0.70
Parcel IDs: D8 0 12; D9 0 14
Zoning: BD (Medical District)
Land-based constraints: Flood zone, underground culvert
Target housing type: Mixed-use (residential over retail)
Other notes: Redevelopment of this property has been under consideration for some time. The site is constrained by a need to perform underground infrastructure work and may require flooding mitigation. Any new housing here will need to be designed with resiliency in mind. A future project will likely require Variances due to constraints in the BD District zoning. There is a City-owned surface parking lot next to this site that could potentially be redeveloped in concert with it.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

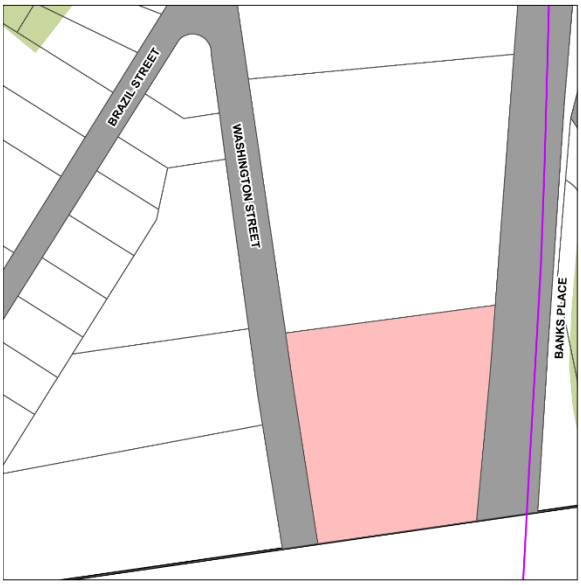
New Opportunity Sites

The following sites represent potential opportunities for residential or mixed-use development. They are not officially in the City's development pipeline and are not formally under consideration for redevelopment, although some property owners may be informally exploring redevelopment options. This list is intended to serve as a workable point of reference for future development possibilities in Melrose, but ultimately it is the individual property owner's choice whether to pursue redevelopment.

Site 6: Norman Prince Post VFW, 428-436 Main Street



Location notes: Downtown
Existing use: Fraternal organization
Existing structures year built: 1941
Existing floor area ratio: 0.94
Parcel IDs: C7 0 15
Zoning: BA-1, Eligible for Incentive Zoning
Land-based constraints: None
Target housing type: Mixed-use (residential over retail)
Other notes: This property is a well-used VFW hall. Any redevelopment effort should consider the inclusion of a canteen or function space for this organization.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

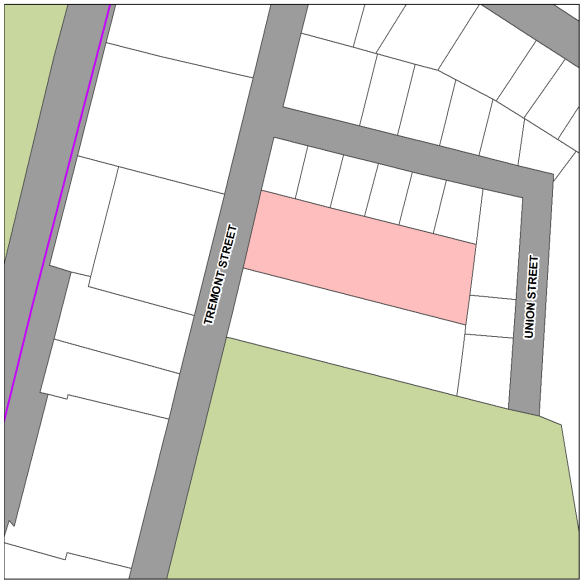
Site 7: Greenwood Property, 1 Washington Street



Location notes: Near Oak Grove MBTA Station
Existing use: Contractor's yard, offices, parking
Existing structures year built: 1954
Existing floor area ratio: 0.25
Parcel IDs: B2 0 21
Zoning: I-A, Smart Growth District
Land-based constraints: None
Target housing type: Mixed-use (residential over retail)
Other notes: This is the only remaining property in the Smart Growth zoning district that has not been redeveloped for residential/mixed-use development.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

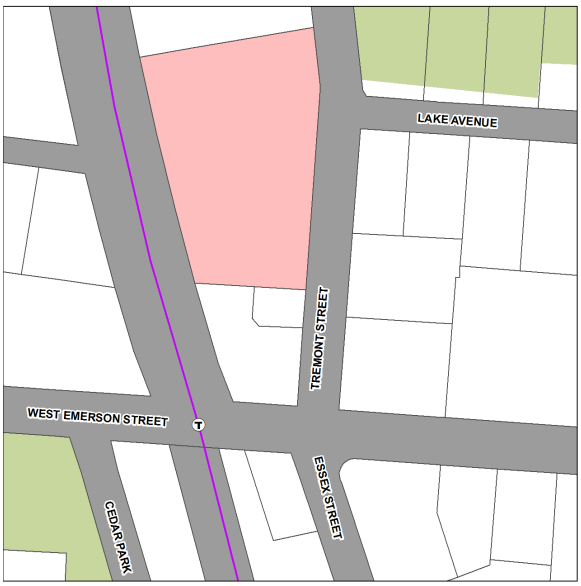
Site 8: 171 Tremont Street



Location notes: Along the rail corridor
Existing use: Offices and gym uses
Existing structures year built: 1914
Existing floor area ratio: 0.27
Parcel IDs: C11 0 126
Zoning: BB-1, Rail Corridor Overlay District
Land-based constraints: None
Target housing type: Mixed-use (residential over retail)
Other notes: The City previously approved plans to redevelop this property into a mixed-use building 23 housing units over first floor commercial, but the approvals expired after no development proceeded. Any new housing here will need to be designed with resiliency to flooding in mind, including the provision of green infrastructure and raised access points.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

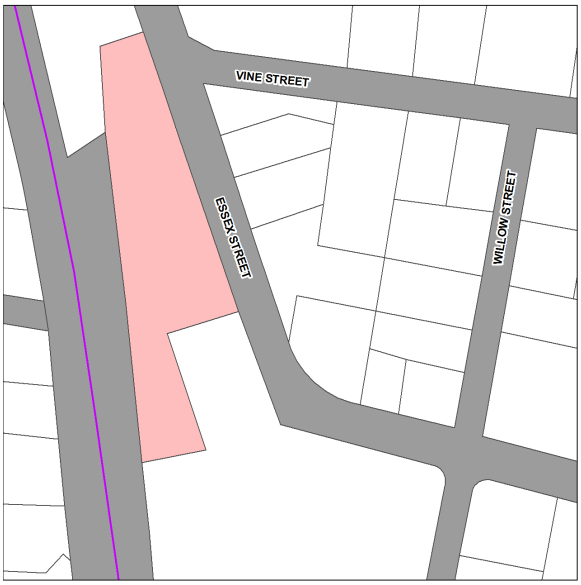
Site 9: 14-24 Tremont Street



Location notes: Near Cedar Park MBTA Station
Existing use: Dog daycare, rental housing, parking, and automobile storage
Existing structures year built: 1914
Existing floor area ratio: 0.11
Parcel IDs: B9 0 105
Zoning: BB-1, Rail Corridor Overlay District
Land-based constraints: Flood zone
Target housing type: 3- to 4-story multifamily
Other notes: Any new housing here will need to be designed with resiliency to flooding in mind, including the provision of green infrastructure and raised access points. Consideration should also be given to mitigating the potential displacement of existing rental tenants.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Site 10: Parking Lot, 164 Essex Street

Location notes: Near Cedar Park MBTA Station
Existing use: Parking
Existing structures year built: n/a
Existing floor area ratio: 0.00
Parcel IDs: C8-0-4
Zoning: BB-1, Rail Corridor Overlay District
Land-based constraints: None
Target housing type: 3- to 4-story multifamily

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Targets

Under M.G.L. Chapter 40B, a Housing Production Plan must set a development target for new housing, particularly new Affordable Housing. HPP development targets are typically calculated such that achieving the target would help achieve “safe harbor” from Chapter 40B Comprehensive Permit developments. To achieve safe harbor, a community must have 10% of its housing on the Subsidized Housing Inventory (SHI) or make incremental progress toward that goal. Units can be counted on the SHI when they are deed-restricted Affordable Housing or when they are market rate but are part of a development in which at least 25% of units are deed-restricted Affordable Housing rental units (typically built through the Chapter 40B Comprehensive Permit process).

Melrose presently has 934 SHI units, or 8.0% of its total housing stock (11,714 units) as counted in the 2010 US Census. Melrose would need a total of 1,171 SHI units to meet Chapter 40B’s 10% threshold, or 237 more SHI units than there are today. Furthermore, once 2020 Census figures are released, the state will recalculate the SHI percentage based on the new number of year-round housing units in Melrose. Based on the City’s permitting data, there have been approximately 567 net new housing units permitted in Melrose since 2010, bringing its total housing stock to 12,281 units. Once the state determines the new SHI percentages, Melrose will need roughly 294 additional SHI units to achieve safe harbor.

Melrose could also seek temporary safe harbor through adoption of this HPP and progress in Affordable Housing production. To do this, the City must permit Affordable Housing units at a rate of 0.5% or 1.0% of its total housing stock, which would result in one- or two-year safe harbor designation, respectively. This means Melrose would have to produce 59 new SHI units in one year to be eligible for one year of safe harbor when using the 2010 total unit count, or 61 SHI units using the estimated 2020 total unit count. SHI unit production would need to reach 117 or 122 units per year (for the 2010 and estimated 2020 total unit counts, respectively) to reach two-year safe harbor.

Realistically, this level of production would be very difficult to achieve for Melrose, especially with deed-restricted Affordable Housing alone. Affordable Housing must be subsidized and securing sufficient resources for Affordable Housing development requires substantial time and effort. Nonetheless, producing 237 new SHI units, ideally all deed-restricted Affordable Housing units, during the next five years is an appropriately ambitious target for Melrose to work toward.

Setting targets based on Chapter 40B requirements—while important for this regulated plan—will not satisfy the demand for Affordable Housing in the community. As demonstrated in the Housing Needs and Demand Assessment, Melrose has housing needs that exceed the regulatory requirements set forth in Chapter 40B. But because the Chapter 40B-based target is itself ambitious, it is an appropriate approach for this plan.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Goals, Strategies, and Actions

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Goals

Based on feedback received through engagement activities, this plan proposes five goals for the future of housing in Melrose:

1. Housing Mix

Encourage a range of housing options and types to serve households with a variety of incomes and meet the diverse needs of current and future Melrose residents.

A person's housing needs typically change many times over the course of their life as their household grows or shrinks in size, as their income increases or decreases, or as they pursue changes in employment. Different people also have different housing needs depending on their physical abilities, available income, and personal preferences. Often this diverse set of needs can be best satisfied by different types of housing development. Melrose already contains a mix of housing types, including single-family homes, townhouses, accessory apartments, two-family homes, three-family homes, small multifamily budlings, mixed-use developments, and larger multi-family buildings. (See Housing Stock on page 32 for more analysis of housing types.)

Until the mid-20th century, communities typically built housing to serve the diverse housing needs of their residents, and Melrose was no exception. However, cultural expectations of communities near larger cities began to shift following World War II, when new homes built in Melrose were increasingly detached single-family. The City's recent efforts to reverse the preference for single-family development have been successful in building a more diverse housing stock, especially larger multifamily buildings. But the City can do more to encourage the development of housing options that are neither detached single-family homes nor large multifamily buildings, ensuring Melrose's housing can meet the needs of the entire present and future Melrose community.

2. Racial Equity

Advance racial equity, promote inclusion, encourage wealth creation through housing access for people of color, and enrich the Melrose community through increased diversity.

For more than 100 years, housing policy has played a key role in constructing and perpetuating racial inequality in the US. Tools like federal redlining, steering by realtors and mortgage issuers, racially restrictive covenants, and local exclusionary zoning were used to build a racially segregated housing system that disproportionately benefited White people and reduced opportunities for people of color, especially Black people.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose's demographics are partly a result of that system. Other tools, like blockbusting, rent-to-own schemes, adjustable-rate mortgages, and subprime mortgage lending further limited wealth creation among Black people in particular and people of color generally. Though the latter set of practices have been used less often in Melrose because there were fewer Black people to target, they have contributed to inequality in the broader housing market. Congress recognized and addressed these facts in its 1968 Fair Housing Act. However, little has changed in the intervening decades, in part due to lack of enforcement or local implementation mechanisms.

While fully ameliorating the impacts of these policies will require investment at the federal level, Melrose can use local housing policy to make incremental progress towards reversing this history of housing-based exclusion and providing individual households with opportunity. The benefits of this approach would be broadly shared by existing and future members of the Melrose community, who could all enjoy the social and economic strengths of a more inclusive and diverse population.

3. Affordable Housing

Expand and preserve deed-restricted and subsidized Affordable Housing opportunities for low- and moderate-income households, including family households.

Housing affordability is a serious issue in Melrose, impacting a diverse set of households across a range of incomes. As housing costs continue to rise, deed-restricted Affordable Housing is one of the few types of housing that can ensure stability for existing residents or provide opportunity for those seeking a new home, current Melrose residents and newcomers alike. This deed-restricted Affordable Housing is crucial in maintaining an economically diverse community over time.

Deed-restricted homes can only be rented or sold to households with incomes below a certain threshold, typically less than 80% of the region's Area Median Income (AMI), which varies by household size. In 2021, 80% of the Area Median Income in Greater Boston is $67,700 for a single-person household and $96,650 for a four-person household. Units that meet these criteria are eligible to be included on the state's Subsidized Housing Inventory under Chapter 40B. (See Housing Affordability on page 39 for more information.)

4. Enhanced Neighborhoods

Utilize housing as a tool to enhance existing Melrose neighborhoods, balancing development with other community priorities such as open space, historic preservation, economic development, walkability, sustainability, and resilience.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing can be an opportunity for community and neighborhood enrichment in Melrose. Too often, new housing is discussed as a burden on existing communities. While housing's impact on existing systems should be considered, the framing of "housing as a burden" misses both the intrinsic benefits of meeting people's housing needs and the non-housing benefits new development can create.

If housing development is done well and in the right places, it can support local businesses through additional patrons, create new open spaces through pocket park development, preserve historic structures through their rehabilitation, create pedestrian connections through large sites, and improve stormwater issues through new green and grey infrastructure. Even small developments on infill sites can improve Melrose's quality of life. Of course, any new development will need guidance to produce these positive outcomes. That guidance can come in the form of smart zoning, design guidelines and standards, and (for larger projects) public review processes.

5. Community Engagement

Promote an understanding of the role that housing plays in Melrose and the region through ongoing public engagement and discussion.

This planning process has included a broad public conversation on the role housing has played in Melrose's past, present, and future. Both the planning team and the community have learned a great deal from the conversation, and that learning is reflected in the contents of this plan. However, this plan is just the beginning. To implement the plan's ideas, there will need to be considerable additional analysis and public engagement processes. Melrose should continue the public dialogue around housing to inform future planning work, to create a more grounded debate about housing matters generally, and to provide space for new ideas to emerge from players new to the planning process.

Strategies and Actions

This section recommends an array of locally specific housing policies and practices to advance housing goals. To determine these recommendations, the planning team assembled a list of common housing actions used by communities in Massachusetts and beyond to address housing goals similar to Melrose's. The initial list was limited to housing initiatives by local governments specifically, but still included more than 50 potential actions. Each action was rated according to its anticipated impact and potential fiscal cost to the City. Through conversations between MAPC, City staff, and the Advisory Committee, the initial list of actions was narrowed down to the ideas that were most appropriate for Melrose. The actions were then organized into broad strategies according to common themes.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

This group of actions were shared with the public in the Spring 2021 Engagement Campaign, during which community members responded to each action with a priority rating. Using that community input, the list of actions was further narrowed.

This section outlines a targeted list of strategy and action recommendations that the City can implement over the next five years to make material progress towards its housing goals, address unmet housing needs, and produce Affordable Housing in accordance with M.G.L. Chapter 40B.

Many policy tools could be deployed to achieve Melrose's housing goals, but the City cannot pursue all strategies at once. This planning process identified a universe of potential strategies and actions, and through analysis and public discussion, refined and narrowed the list of potential actions based on anticipated impact, relevance to plan goals, cost to implement, relationship to other strategies and actions, and interest from community members. This winnowing resulted in the "high priority" strategies described below.

In addition to these high priority strategies, this plan identifies a set of "best practices" the City should also pursue. These actions are widely recognized as good planning practice, will advance the City's housing goals, and are simple to implement compared to the actions in the high priority list.

High Priority Strategies

Strategy A: Use zoning and design guidelines to encourage "missing middle" housing that fits into Melrose's existing context.

Melrose has always featured a mix of housing types, including duplexes, townhomes, small multifamily buildings, and accessory apartments. However, detached single-family homes still comprise the majority of Melrose's housing, with large multifamily buildings the next most common type. The actions below would encourage production of duplexes, townhomes, accessory apartments, and small multifamily development in Melrose where appropriate.

> "I would like for there to be more housing types at a range of price points. Existing housing would be restored, and new housing built in all forms - accessory units, duplexes, townhouses, multi-family, and independent senior living communities..."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A1. Allow two-family homes and townhomes in more zoning districts.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Enhanced Neighborhoods

Two-family homes (duplexes) and townhomes typically cost less than single-family homes while retaining much of the experience of single-family housing and blending into single-family neighborhoods. Melrose already contains 915 two-family homes, which are especially common in areas near Downtown and along the rail corridor. Approximately 65% of those homes were built in or before 1900, 27% between 1901 and 1940, 5% between 1941 and 1970, and 3% since 1971. While two-family homes and townhomes are allowed in the Melrose Zoning Ordinance (MZO), they are not permitted in all areas and they require a Special Permit in some places. These requirements add cost to the homes that are eventually built and incentivize fewer homes to be built overall. Allowing two-family homes and townhomes with or without Special Permits in more areas could create new homes while encouraging contextually sensitive development.

A2. Amend zoning to allow for more forms of accessory dwelling units.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

The MZO allows accessory “in-law” apartments under certain conditions: a Special Permit is required, the primary dwelling must be owner-occupied, tenants must be close family (parents or children), and the apartment must be re-certified by the City every three years. Accessory apartments must also be carved out of existing space within a house or built as an addition that does not change the home’s outward appearance; accessory apartments in detached buildings, such as converted garages, are not allowed.

These restrictions are strong disincentives for homeowners considering an accessory apartment. For instance, Melrose could allow accessory apartments that are detached from the main house, such as above a detached garage or in a new building designed to match the built context. A number of single-family properties with more than 5,000 square feet of yard space could accommodate an accessory apartment of a few hundred square feet with little impact to that property or to neighbors.

Some restrictions, such as those that restrict occupancy to family members, limit a homeowner’s ability to seek a loan to build an accessory apartment. Because a family requirement means that the accessory apartment has no value if the property owner does not have family to occupy it, many banks will not approve a home improvement loan when a family requirement is in place. Loosening these restrictions on accessory apartments would encourage the creation of lower-cost forms of housing. Based on other Massachusetts communities, it is unlikely that any changes to accessory apartment

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

zoning would overwhelm Melrose with new units but would rather result in incremental increases.

Accessory dwelling units provide an important opportunity to create more affordable options for those in Melrose experiencing the most housing insecurity, such as seniors and people with disabilities. Beyond price, these units can allow these populations to live close to family while still maintaining a sense of independence.

A3. Propose amendments to dimensional and parking requirements to allow for a range of smaller housing types that match historic development patterns.

Impact: High
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing, Enhanced Neighborhoods

The MZO includes numerous dimensional requirements that regulate the physical aspects of housing, such as minimum lot size per housing unit, maximum height, maximum lot coverage, minimum open space, yard size, and more. Many of Melrose's historic homes and development patterns do not conform to these requirements and could not be built under current regulations. For instance, the minimum lot area required to build housing in the Urban Residential districts runs between 6,000 and 7,500 square feet for the first unit, with additional lot area needed for each additional unit. However, in the half-mile around MBTA stations, pre-World-War-II homes have a median lot area per unit of 5,400 square feet, and 58% of all homes have a lot area per unit of less than 6,000 square feet.

Dimensional regulations like these, which require more land and less density for new housing, tend to increase housing costs and prohibit smaller, less expensive housing types. These requirements can also make new housing impossible to build on many existing parcels. Melrose could study its dimensional rules in detail and propose amendments consistent with its historic development patterns that would create more housing opportunities and allow for smaller, potentially lower-cost housing types. In particular, Melrose should evaluate the SR Zoning Districts to determine if this area should be rezoned to be less restrictive.

A4. Use density bonuses to incentivize conversion and/or expansion of historic structures to preserve architectural heritage while producing housing.

Impact: High
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

Melrose has many historic homes that contribute to its cultural heritage but require complex or cost-prohibitive renovations to remain safe and habitable. Some property

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

owners may find greater financial value in tearing down older structures and replacing them with new ones. Melrose could change this financial calculation by amending its zoning to allow an increased number of housing units on a site if the original structure is preserved. New housing could be created by converting the existing house into multiple smaller units and/or constructing an addition that appropriately respects the original building's historic character.

A5. Craft design standards for mixed-use and multifamily housing near Downtown and along the rail corridor.

Impact: Medium
Cost: Medium
Goals Advanced: Housing Mix, Enhanced Neighborhoods, Community Engagement

Melrose currently allows residential mixed-use and multifamily buildings within the general vicinity of Downtown, along the rail corridor, and around MBTA stations. While the City's zoning laws create general standards for new buildings' bulk, height, and siting, developers have a wide latitude when determining other building elements. Though this flexibility can allow for creative and extraordinary building designs, the lack of clear design standards can also result in undesirable outcomes, especially when it comes to the relationship between the building and the public realm. In cases where buildings require Site Plan Review, a lack of clear design standards can also create confusion, prolong permitting decisions, and result in unpredictable or unequal conditions across development projects. Design standards within the zoning for mixed-use and multifamily housing in these areas would create more consistently high-quality designs, as well as more predictable processes.

> "I believe any large multi-household buildings must also be considered for aesthetics. It needs to fit into the context of a neighborhood."

A6. Craft design guidelines for infill and replacement development in older, mid-density neighborhoods.

Impact: Medium
Cost: Medium
Goals Advanced: Housing Mix, Enhanced Neighborhoods, Community Engagement

The City should ensure that when new housing is built in older neighborhoods, whether to replace older homes or as infill development, it enhances the character of the existing neighborhood. Design guidelines for infill or replacement buildings in historic areas will encourage new structures that complement the surrounding existing buildings and honor

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose's architectural heritage, while still allowing for new housing opportunities and innovative sustainable designs.

Strategy B: Encourage the production of deed-restricted Affordable Housing units and create more deeply affordable options.

Deed-restricted Affordable Housing must be rented or sold at rates affordable to households that earn less than a certain income threshold. Typically, residents of these units are low-income, meaning they earn less than 80% of the Greater Boston region's Area Median Income (AMI). A single-person household in Greater Boston is considered low-income when it earns $67,700 per year or less; a four-person household is considered low-income when it earns $96,650 or less. Some Affordable Housing units are only open to households with incomes much lower than these amounts; urban planners call those units more "deeply" affordable.

Deed-restricted Affordable Housing is not profitable, so it must be subsidized. This subsidy typically comes from government programs or profits from market-rate housing units in the same development. Developments comprised entirely of Affordable Housing are often developed and operated by nonprofit organizations. Deed-restricted Affordable Housing units are also created as part of a private, for-profit development, typically through Melrose's inclusionary zoning law.

Deed restrictions are the only way to ensure some level of affordability in the long-term. A given housing unit may be inexpensive in the present, but market conditions could increase the cost of that housing in the future. Indeed, this trend has played out in cities and towns across Greater Boston. Melrose should create more deed-restricted units to protect against rising housing costs and ensure housing stability for vulnerable residents.

> "I would like to have much more Affordable Housing than we do today and to have it quickly. I would like to see more POC [people of color] represented across city government employees and schools."

B1. Pass the Community Preservation Act, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.

Impact: High
Cost: Low
Goals Advanced: Affordable Housing, Enhanced Neighborhoods, Community Engagement

Lack of resources is the principal reason that most cities cannot produce more Affordable Housing or create housing programs that benefit residents. Without money, it

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

is difficult to take any substantive action aside from changing regulations such as zoning. Melrose has already taken some measures to effectively grow and steward its housing resources, such as amending the inclusionary zoning law to require additional units and encourage additional payments, and establishing an Affordable Housing Trust to manage any funds collected. However, the City can do more to increase revenues dedicated for housing, and the most commonly used fiscal resource in Massachusetts is the Community Preservation Act (CPA).

This initiative enables municipalities that have chosen to adopt CPA to levy a local fee of anywhere between 1% and 3% of property taxes. By not adopting CPA, Melrose is missing out on considerable sums of state funding because these locally-raised funds are partly matched by the Commonwealth. CPA funds must be spent on projects that relate to Affordable Housing, Historic Preservation, and Open Space and Recreation. As of May 2021, 187 cities and towns (53% of Massachusetts communities) have adopted CPA, including Medford, Malden, Arlington, Beverly, and many others. CPA adoption would allow substantial progress towards housing goals by generating resources to fund housing programs that the City could not otherwise afford, preserve existing Affordable Housing units, or close funding gaps in new Affordable Housing development. Because it is tied to property values, CPA is a relatively stable funding source over time.

For example, a home assessed at $500,000 in Melrose pays approximately $5,500 in property taxes per year (based on the FY2021 residential tax rate of $10.95). A 3% surcharge on these taxes to fund CPA would amount to $165 per year. If the City of Melrose chose to adopt a lower surcharge number like 1%, that household would contribute $56 annually.

When voting to adopt the provisions of CPA, a community may choose to adopt certain exemptions to the CPA surcharge in order to ensure that raising CPA revenue is not a burden to households, especially those with low-incomes. One possible exemption is for property owned and occupied by a low-income household who apply annually for the exemption. Another option is to exempt the first $100,000 of taxable value of residential real estate. For the above example, this would mean that a household would pay $132 a year with a 3% surcharge and only $44 with a 1% surcharge. In addition, any portion of a taxpayer's local property taxes that are exempt under MGL Chapter 59 are also exempt from the CPA surcharge.

Adoption of the Community Preservation Act can only be done through a ballot election. Either a vote by the City Council or a petition signed by 5% of Melrose's registered voters can put the adoption question on the ballot. In the ballot question, residents would be asked to vote on the surcharge amount and any exemptions to the surcharge. Should the City choose to embark on the process to pass the CPA, a robust community engagement process would occur to educate residents about the CPA and why it is a vital tool in Massachusetts for funding Affordable Housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

B2. Purchase property to develop as Affordable Housing.

Impact: High
Cost: High
Goals Advanced: Racial Equity, Affordable Housing, Enhanced Neighborhoods

Land for Affordable Housing is hard to come by, and property acquisition is often a major cost for Affordable Housing developers, who must compete with market-rate developers that often have greater access to liquid resources. The City, working through its Affordable Housing Trust, could purchase land directly for use in Affordable Housing development. Ultimately, any land purchased would likely be given (or sold at a nominal rate) to a nonprofit developer that would build new Affordable Housing consistent with the City's goals for the property. The City's involvement would be key to creating more Affordable Housing units, and the City would have more leverage to shape the resulting development.

B3. Incentivize deeper levels of affordability in inclusionary zoning units through further density or dimensional relief.

Impact: High
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing

Inclusionary zoning requires that a portion of units in new housing development be set aside for low-income households to affordably rent or buy. Affordable units created through inclusionary zoning are usually rented or sold at a loss, which is offset by income from the building's market-rate units. The required level of affordability varies by municipality; Melrose's ordinance requires that inclusionary units be affordable to households earning 80% of Greater Boston's Area Median Income ($96,650 for a family of four in 2021), which is a common affordability level in inclusionary policies. To achieve deeper affordability for households earning less income, property owners would need to further reduce the rents or sales prices of inclusionary units, making it less likely that the building's market-rate units could cover the losses from the affordable units. If a municipality's inclusionary requirements are too burdensome, a developer will simply opt to not build there, which over time would result in less housing overall and less Affordable Housing specifically.

While these dynamics are challenging, there are ways to encourage deeper levels of affordability in inclusionary zoning units without deterring development. For example, in exchange for lower income eligibility restrictions, the City could offer a greater density bonus or provide relief from dimensional or parking requirements. This would allow more units to be built or allow those units to be built with less cost, which could cover the losses associated with deeper affordability. Before a zoning amendment is drafted, the City would first need to study potential cost offsets and affordability requirements and conduct a public process to understand community priorities around tradeoffs.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

B4. Enhance the capacity of the Office of Planning and Community Development to conduct housing planning.

Impact: High
Cost: High
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing, Community Engagement

The City currently lacks the capacity to proactively facilitate Affordable Housing development or create and administer housing programs. Meanwhile, the City's primary housing partners, the Melrose Housing Authority and the Melrose Affordable Housing Corporation, also lack the capacity to undertake new work. To address this shortage in capacity, the City could fund an additional planner position within City Hall to pursue housing initiatives and liaise with the City's housing partners. This work will become increasingly necessary as the Affordable Housing Trust begins to undertake new projects, which will likely require staff support. In addition to development, this planner could tackle housing stability by working with residents at risk of eviction and foreclosure, residents experiencing homelessness, residents facing landlord harassment, and more.

B5. Support "friendly 40B" projects that use the Comprehensive Permit process to build housing where appropriate.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing

Chapter 40B is a state statute that requires local governments to permit mixed-income housing developments, regardless of conformity with zoning and other local rules, when a municipality’s share of Affordable Housing falls below a certain threshold. In some situations, these developments can become highly contentious if a community does not support a project but is required by state law to allow it to proceed.

However, development under Chapter 40B is not always controversial. When communities and developers share a vision for a site, Chapter 40B can be an effective tool to permit housing without making broader changes to local laws, all while requiring a relatively high number of affordable units. A project developed in this manner is known as a “friendly 40B.” Melrose should continue to support mixed-income developments by utilizing the 40B process when those projects align with community needs and developers are open to collaboration.

Strategy C: Encourage a fairer, more accessible private housing market.

The vast majority of the housing in Melrose is delivered through the private real estate market. Historically and today, this market has not provided access to housing equally for

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

all. Whether intentional or not, discrimination continues to occur, adversely impacting already vulnerable people, including people of color, people with disabilities, people utilizing public rental assistance, and others. Melrose, like most every community in the US, must actively push against historic and contemporary housing discrimination in the private market if it wishes to achieve its housing goals.

C1. Create a down payment assistance fund for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.

Impact: High
Cost: High
Goals Advanced: Racial Equity, Affordable Housing

For many prospective homeowners, a down payment—which in an area with high housing costs can be tens of thousands of dollars—is a considerable or even prohibitive obstacle to purchasing a home. Lack of savings for down payment is a reality for many homebuyers, but it is a particularly significant barrier in communities with little generational wealth. Access to generational wealth, such as an inheritance, financial assistance or no-cost loans from family members, or the ability to access equity accrued in a family member's home, is often an essential component of a first-time homebuyer's down payment. However, this advantage is not available to everyone, and the gap in generational wealth is especially acute in communities of color that were historically (and are presently) denied wealth-building opportunities that build in generational wealth.

The City could take a step toward addressing this inequity through a local down payment assistance program. The City could provide resources to expand an existing program administered by another organization or could create a new standalone program. While fair housing laws prohibit racial targeting in such programs, many down payment assistance programs benefit marginalized communities, such as first-generation homeowners, while ensuring equality of access. Residents looking to purchase a home in Melrose are eligible for a down payment assistance program through the North Suburban Consortium, but payment is capped at $7,500 and it requires a cumbersome application process since it has a federal funding source.

C2. Encourage the adoption of Universal Design standards in new housing construction through the permitting process.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

The Americans with Disabilities Act (ADA) and related laws set minimum standards for the design of housing development. While at the time of its passage the ADA represented real progress towards equal access in the build environment, its standards

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

can be inflexible and do not necessarily meet the needs of all people. It also does not apply to all buildings. On the other hand, the more recent concept of "universal design" encourages thinking beyond the one-size-fits-all ADA requirements by designing buildings that are comfortable for all users regardless of their physical abilities or disability status. Melrose should research more holistic approaches to accessibility such as universal design and encourage new developments to comply with those standards through the permitting process. Implementing the principals of universal design for new and renovated housing is necessary for serving seniors and those with disabilities in the community in an equitable and dignified way.

C3. Explore local requirements for a Notice of Sale and Notice of Rent Increase to Melrose tenants to decrease housing instability.

Impact: Medium
Cost: Low
Goals Advanced: Racial Equity, Affordable Housing

Renters, especially those with low or fixed incomes, can face housing instability and the risk of homelessness after unexpected rent increases. Most landlords must give notice of a rent increase according to the terms of the lease, typically 30 to 90 days before the increase goes into effect. However, some landlords strategically choose not to serve notice, intending to accelerate a tenant's departure so as to "reposition" the apartment for higher rents. Depending on the circumstances, some landlords may even increase rent in breach of contract.

In addition to rent increases, tenants can face housing instability when a building is sold to a new owner. Many purchasers of rental properties hope to increase the value of the property by removing existing tenants and then charging higher rents. Landlords are required to notify tenants when an apartment building is converted to a condominium, but not when it is otherwise sold.

Approximately a third of Melrose households rent their home. As the value of rental property grows in Melrose, these tenants are more likely to face housing instability due to rent increases and property sales. Requiring landlords to provide Notice of Rent Increases and Notice of Sale can help Melrose reduce housing instability that arises from unexpected changes in price or ownership, as well as decrease the risk that this instability will result in homelessness.

Strategy D: Encourage sustainable development through the siting and design of new housing.

All communities have a duty to regulate development so that it produces fewer greenhouse gas (GHG) emissions, preserves ecosystems and biodiversity, promotes public health, and does not incentivize environmentally destructive transportation

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

decisions. Melrose should continue to enact measures to pursue better, more sustainable forms of housing development.

D1. Create baseline requirements for sustainable development, as well as provisions for on-site green infrastructure.

Impact: High
Cost: Medium
Goals Advanced: Enhanced Neighborhoods

Melrose recently adopted incentive zoning that would offer a density bonus to developments that provide specified community benefits. These community benefits include sustainable building practices that reduce greenhouse gas emissions, green infrastructure, bicycle and pedestrian infrastructure, and more. To take this approach one step further, Melrose could craft baseline sustainability requirements that all developments must include regardless of whether they choose to utilize the incentive zoning. Any such requirements would need to be tailored to ensure they do not increase housing costs or limit the efficacy of the incentive zoning. Though providing sustainable design and energy efficiency measures may result in increased up-front costs for developers, they can also result in savings over time for renters or owners in the form of lower utility bills and the money saved from not needing to own a car.

D2. Promote open space protection and ecologically sensitive development through zoning and subdivision regulations in areas outside of Downtown and the rail corridor.

Impact: Medium
Cost: Medium
Goals Advanced: Housing Mix, Enhanced Neighborhoods

Melrose could alter its zoning and subdivision regulations to protect its ecologically sensitive areas while maintaining development potential. The regulations could limit new single-family development on large individual lots and promote compact development (either single-family or multifamily) on a smaller land footprint with protections for shared open spaces surrounding the development. This approach maintains current development capacity while reducing the overall ecological impact of new development.

"Work needs to be done to ensure that the entire Melrose community can thrive here. While personally I value a single-family home, I think that multifamily homes or small condos can be very helpful in allowing for more affordable housing, not taking up green space, and encouraging community."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Best Practices

The actions described below are either relatively easy to implement or are simply best practices for local government. This list of actions should be implemented by the City regardless of the status of other recommendations described in this plan.

BP1. Continue to monitor parking utilization in Downtown and the rail corridor, and "right-size" parking requirements in new developments.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

A 2012 study of parking in Downtown Melrose found that its existing supply of parking does not need to be expanded. Additionally, a 2019 study of parking at 20 multifamily residential developments in Melrose found that, on average, 21% of parking spaces in those developments were unutilized overnight. Parking garages and surface parking lots can significantly increase the cost of housing development; these costs are typically passed on to renters and homebuyers regardless of whether they utilize the available parking. Parking also takes up a substantial amount of space and can be a limiting factor for development, resulting in fewer housing units than could otherwise be built. Melrose should “right-size” its parking regulations for new development to avoid over-supply of parking at the expense of housing production.

BP2. Study the need for emergency and transitional housing to address often-unseen homelessness within Melrose.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Affordable Housing, Community Engagement

Emergency and transitional housing can effectively prevent homelessness for most at-risk individuals and families. However, the true scale of homelessness in Melrose is unknown because the relevant data does not track most forms of homelessness. Melrose should assess the experience of homelessness in the city to the greatest extent possible, utilizing both administrative data and qualitative research. When the assessment is complete and the issue is more fully understood, the City should recommend actions that would prevent homelessness, including the production of new emergency and transitional housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

BP3. Host regular information sessions on a variety of topics related to housing and equity to promote greater dialogue around and understanding of housing issues.

Impact: Medium
Cost: Low
Goals Advanced: Racial Equity, Affordable Housing, Enhanced Neighborhoods, Community Engagement

This HPP has helped to formalize an ongoing public conversation on housing in Melrose, focusing on who can access housing here and how to ensure the city's housing reflects the values of the community. The City should continue this dialogue by holding regular meetings and discussions around housing-related topics. These could include the history of housing in Melrose and the region, racial equity and housing, sustainable housing, the homebuying process, tenants' rights, and other housing topics.

BP4. Create an HPP implementation committee to oversee implementation and continue public discourse around housing.

Impact: Medium
Cost: Low
Goals Advanced: Community Engagement

The City should establish a formal HPP implementation committee to ensure that the plan's recommendations are implemented and that the public discourse around housing continues in the future. The committee would act as an oversight body for agencies tasked with implementing the plan, convene future community discussions, and serve as advocates for local housing initiatives.

Implementation

Implementation of this plan will involve multiple agencies within local government. Some actions cannot occur until other recommendations have first been implemented. The following pages outline the agencies that will be responsible for implementing each action as well as a rough order of operations for implementation. Most priority actions will require further analysis and public engagement. Depending on the community's will and the City's capacity, some actions, such as zoning amendments, could be bundled under a single implementation process.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Implementation Table

Strategy	Action	Lead Agency	Supporting Agencies
A1	Allow two-family homes and townhomes in more zoning districts.	OPCD	Planning Board, City Council
A2	Amend zoning to allow for more forms of accessory dwelling units.	OPCD	Planning Board, City Council
A3	Propose amendments to dimensional and parking requirements to allow for a range of smaller housing types and to match historic development patterns.	OPCD	Planning Board, City Council
A4	Use density bonuses to incentivize conversion and/or expansion of historic structures to preserve architectural heritage while producing housing.	OPCD	Historical Commission, Planning Board, City Council, Historic District Commission
A5	Craft design standards for mixed-use and multifamily housing near Downtown and along the rail corridor.	OPCD	Planning Board, Historical Commission
A6	Craft design guidelines for infill and replacement development in older, mid-density neighborhoods.	OPCD	Planning Board, Historical Commission
B1	Pass the Community Preservation Act, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.	OPCD	Mayor's Office, City Council, Planning Board, Historical Commission, Park Commission, Affordable Housing Trust
B2	Purchase property to develop as Affordable Housing.	OPCD	Affordable Housing Trust, Housing Authority, North Suburban Consortium
B3	Incentivize deeper levels of affordability in inclusionary zoning units through further density or dimensional relief.	OPCD	Planning Board, City Council

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Strategy	Action	Lead Agency	Supporting Agencies
B4	Enhance capacity of the Office of Planning and Community Development to conduct planning for housing.	OPCD	Mayor's Office
C1	Create a down payment assistance fund for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.	OPCD	Affordable Housing Trust, Human Rights Commission, North Suburban Consortium, Housing Authority
C2	Encourage the adoption of Universal Design standards in new housing construction through the permitting process.	OPCD	Planning Board, Human Rights Commission, Disability Commission
C3	Explore local requirements for a Notice of Sale and Notice of Rent Increase to Melrose tenants to decrease housing instability.	OPCD	City Solicitor
D1	Create baseline requirements for sustainable development, as well as provision for on-site green infrastructure.	OPCD	Planning Board, Melrose Energy Commission, Ped/Bike Committee
D2	Promote open space protection and ecologically sensitive development through zoning and subdivision rules in areas outside of Downtown and the rail corridor.	OPCD	Planning Board, City Council, Conservation Commission
BP1	Continue to monitor parking utilization in Downtown and the rail corridor, and "right-size" parking requirements in new developments.	OPCD	Planning Board, City Council
BP2	Study the need for emergency and transitional housing to address often-unseen homelessness within Melrose.	OPCD	Human Rights Commission, Health Department, Schools Department

Appendices

Appendix A: Context Community Selection Methodology

Introduction

The Melrose Housing Production Plan (HPP) compares the City of Melrose to peer communities across several key indicators to better understand its own demographics and housing. These "context communities" were utilized in the Housing Needs and Demand Assessment chapter of the HPP.

This memo outlines the method of selecting context communities in Melrose.

Method

To choose context communities for the HPP, MAPC takes the following steps:

1. Identify context communities from earlier City planning processes
2. Identify additional communities that may be similar, based on qualitative assessment (using MAPC community types and presence of commuter rail stations)
3. Pull key indicators, listed below, for communities identified in steps (1) and (2).
4. For each indicator, qualitatively establish a range of values that will be considered similar to Melrose's value for that indicator.
5. Rate whether a community is similar or dissimilar to Melrose for each indicator, based on the value's relation to the range established in step (4).
6. For each community, sum the number of indicators for which it is similar to Melrose to create a "similarity score."
7. Choose which communities will be context communities, based on their likeness score and other relevant qualitative and political factors.

Potential Context Communities

Communities from earlier planning processes

Melrose Forward, the City's latest master plan, utilized the following context communities:

- Arlington
- Cambridge

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Malden
- Medford
- Revere
- Saugus
- Somerville
- Wakefield

Boston was also included in *Melrose Forward*, but was not included in the list of potential context communities for this analysis due to its size and concentration of housing-related nonprofits.

Other Potential Communities

Using a qualitative assessment of other communities (based on MAPC community type and presence of commuter rail stations), MAPC added the following communities to the list:

- Belmont
- Beverly
- Needham
- Newton
- Norwood
- Stoneham
- Wilmington
- Winchester

Indicators and Similarity Scores

Key Indicators

- Total Population (Census Bureau Population Estimates Program, 2018)
- Percent Increase in Population, 2010–2018 (US Census, 2010; Population Estimates Program, 2018)
- Percent of homes that are owner-occupied (American Community Survey (ACS), 2014–2018 5-year estimates)
- Percent of households that are housing cost-burdened (ACS, 2014–2018 5-year estimates)
- Percent of households that are low-income (less than 80% of AMI) (Comprehensive Housing Affordability Strategy (CHAS) data, 2012–2016)
- Percent of low-income households that are housing cost-burdened (Comprehensive Housing Affordability Strategy (CHAS) data, 2012–2016)
- Percent of housing on the state Subsidized Housing Inventory (SHI) (DHCD, Sept. 2017)
- Median household income (ACS, 2014–2018 5-year estimates)
- Median single-family home sale price (Warren Group, 2019)
- Percent of population that is non-Latinx White (ACS, 2014–2018 5-year estimates)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Percent change in school enrollment, 2010–2019 (DESE, Academic Year 2010/11–2018/19
- Number of MBTA stations (Commuter Rail and Subway) (MBTA)

MAPC compiled this data for the potential context communities shown in Table 1 below.

Table 1: Indicators for all potential context communities

	Pop. 2018	% Pop. Change 2010-18	% Owner Occupied	Cost-burdened HHs	Low Income HHs (<80% AMI)	Low-income cost-burdened HHs	% of housing on the SHI	Median HH Income	Median Single-Family Home Price	% non-Latinx White	% Change School Enrollment 2010-2019	MBTA Stations
Arlington	45,624	6%	59%	29%	31%	69%	5.64%	107,085	795,000	77%	26%	0
Belmont	26,330	6%	64%	35%	27%	77%	3.61%	120,208	1,125,000	74%	20%	2
Beverly	42,312	7%	61%	36%	42%	64%	11.61%	79,483	484,950	90%	11%	5
Cambridge	118,977	13%	36%	38%	39%	67%	14.80%	95,404	1,485,000	61%	18%	6
Malden	61,036	3%	41%	46%	56%	67%	10.12%	64,178	490,000	47%	-1%	3
Medford	57,765	3%	57%	32%	41%	68%	7.07%	92,363	605,000	71%	-13%	2
Melrose	28,193	4%	65%	29%	34%	55%	7.96%	103,743	643,000	86%	5%	3
Needham	31,248	8%	83%	26%	20%	60%	12.65%	153,032	1,050,000	83%	6%	4
Newton	88,904	4%	72%	31%	26%	76%	7.50%	139,696	1,207,500	74%	7%	10
Norwood	29,327	3%	58%	29%	38%	58%	8.32%	90,511	463,750	79%	1%	3

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MAPC then determined a range of values for each indicator that would be considered similar to Melrose. This determination was qualitative. For each indicator, a community was given the score 1 if that indicator's value fell within the range determined to be similar to Melrose.

Table 2: Similarity range for each indicator

	Pop. 2018	% Pop. Change 2010-18	% Owner Occupied	% of HHs that are cost-burdened	% of HHs that are low-income (<80% AMI)	% of low-income HHs that are cost burdened	% of housing on the SHI	Median HH Income	Median Single-Family Home Price	% non-Latinx White	% Change School Enrollment 2010-2019	MBTA Stations

Wakefield	1	0	1	1	1	0	1	1	1	1	1	1
Wilmington	1	0	0	1	1	0	1	0	0	1	0	1
Winchester	1	1	0	1	0	0	0	0	0	1	1	1

The values in Table 3 were then summed to arrive at a “similarity score” relative to Melrose. The higher the similarity score, the more similar (in theory) that community is to Melrose.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Table 4: Communities by similarity score

Community	Similarity Score
Norwood	10
Wakefield	10
Medford	8
Stoneham	8
Saugus	7
Arlington	6
Beverly	6
Newton	6
Wilmington	6
Winchester	6
Belmont	5
Needham	5
Somerville	5
Malden	3
Revere	3
Cambridge	2

Choosing Context Communities

MAPC and City staff reviewed the potential context communities, the values for each indicator, and the similarity scores. Based on this information, qualitative assessment of how these context communities would be received, and consideration of how useful each community's comparison to Melrose would be in this planning process, MAPC and City staff narrowed the list to the following context communities:

- Arlington
- Beverly
- Malden
- Medford
- Norwood
- Somerville
- Stoneham
- Wakefield
- Wilmington
- Winchester

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Human Rights Commission Appointment
Date: February 22, 2022

To the Honorable Melrose City Council.

I respectfully request the Honorable City Council confirm the appointment of Jennifer Champagne, 11 Faxon Street, to the Human Rights Commission for a three-year term, said term to expire the last day of February 2025. Ms. Champagne will replace Human Rights Commission member Josh Robbins, whose term expires on the last day of February, 2022.

Jennifer has been a Melrose resident for the past four years. Having recognized how much the Melrose community has provided her and her family during this time, she now hopes to become involved and give back to the community through her service as a Human Rights Commissioner.

I am confident that Ms. Champagne's legal training, her experience as an attorney, and her passion for human rights and advocacy will make her an exceptional candidate whose service will benefit the Melrose community. In both professional and volunteer roles, Ms. Champagne has demonstrated herself to be a civically engaged and compassionate citizen. During her time as a litigator, she represented a diverse range of clients including low-income individuals, refugees, and immigrants from around the world. Ms. Champagne has also volunteered with children with disabilities.

Ms. Champagne is exactly the caliber of individual who belongs on the City of Melrose Human Rights Commission, and I am excited to offer her appointment to you for your consideration and approval.

CITY OF MELROSE

OFFICE OF THE MAYOR

PAUL BRODEUR
Mayor

City Hall, 562 Main Street
Melrose, Massachusetts
02176
Telephone - (781) 979-4440

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Acceptance of State Funding for Ell Pond Water Chestnut Removal Project
Date: February 22, 2022

As part of the Fiscal Year 2022 state budget, the City of Melrose will receive $50,000 from the Executive Office of Energy and Environmental Affairs to address the water chestnut infestation at Ell Pond. There is no match required, and the funds may be used over the next two years to complete the project. This will allow for the removal of unwanted vegetation to be repeated over multiple plant life cycles, which is necessary for the project's long-term success.

The project involves removing the plant material that produces the nuts responsible for reproduction. Together with the existing free-cash appropriation for Ell Pond, the City will use this earmark to fund the following contracted services:

- Aquatic weed harvester mobilization and demobilization
- Aquatic weed harvester service
- Hydro-rake mobilization and demobilization
- Hydro-rake removal of water chestnut growth in shallow areas not accessible to the aquatic weed harvester
- Manual hand removal and final sweep
- Fragment curtain setup at outlet and erosion control setup at designated material offload location
- Transportation of vegetation to a compost location
- A Notice of Intent (NOI) and Order of Conditions for the work within a wetland resource area

Addressing the water chestnut problem at Ell Pond will provide an immediate aesthetic return through the removal of the plant biomass that carpets the City's central water body. I respectfully request acceptance of these funds so that this project may move forward. Thank you for your consideration.

DENISE GAFFEY
City Planner

To: Mayor Paul Brodeur
From: Denise Gaffey
Meeting Date: March 7, 2022
Subject: An Appropriation from Free Cash for Memorial Hall Renovation Project
Order #: ORDER-2022-77

An Appropriation from Free Cash, account number 01-324001, in the amount of One Million Five Hundred Thousand ($1,500,000.00) Dollars to the Memorial Hall Renovation Project, account number 33864-490000.

FINANCIAL IMPACT:<<Enter Financial Impact Here>>

02/22/22	**33864-490000 · Memorial Hall Renovation, transfer in $1,500,000.00**	
02/22/22	**01-324001 · Available Free Cash**	**($1,500,000.00)**
	TOTAL:	**$0.00**

RESULT:	**PASSED [UNANIMOUS]**
MOVER:	Jen Grigoraitis, Ward 6
SECONDER:	Maya Jamaleddine, At-Large
AYES:	Eccles, Garipay, Grigoraitis, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Obremski, Stewart, Williams, Cinella

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

RE: Memorial Hall Building Envelope Project: Free Cash Request

DATE: February 17, 2022

Throughout the past year, the Engineering Division and the Planning Department have been working together, and in consultation with the Memorial Hall Facilities Director and the Board of Trustees, to oversee the work required to restore significant exterior features and create a weather tight condition at Memorial Hall. It is a complicated project affecting many building elements, including roofing, flashing, windows, doors, and masonry. Most of these building elements have not been addressed since the mid to late 1990s and deterioration over the years has allowed water to infiltrate and cause interior damage.

In recognition of this situation and to address the areas of water infiltration, the City Council approved a funding authorization in the amount of $2,311,205 (Order #2020-69). With the funding in place, we assembled a Designer Selection Committee and selected Gale Associates as our Building Envelope and Restorations Specialists for this Project. Gale proceeded to perform a comprehensive evaluation of all of the exterior building elements. They performed a leak audit of the exterior and interior of the building, which included visual observations, test cuts and a geotechnical evaluation. This work is described in detail in a report dated September 24, 2021.

The in-depth testing methodology identified more extensive deterioration than originally envisioned. Consequently, Gale advised that the construction budget available to us would allow for the areas of immediate concern to be addressed, and a subsequent phase of work in approximately five years would be required to continue to maintain weather tight conditions. The future phase (phase two) would include replacing the portions of the roof that are not being replaced during phase one, repointing the brick and granite mortar joints that are not repointed during phase one, and installing brass banding to restore the original ornamentation, among other miscellaneous related items.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

This "phase two" work is estimated to cost approximately $1,500,000 (including general conditions, contractor overhead and profit and construction contingency) and is identified in the memo from Gale dated October 22, 2021. The specific scope items that comprise this additional cost include most of the items indicated as Alternates in that memo and includes replacing the entire roof.[i]

Given the information now available to us and the availability of free cash which is ideally suited for one-time capital expenses, I recommend and respectfully request that the City authorize the additional $1,500,000 in funding to complete all of the building envelope work now. This is advantageous for a number of reasons, and is the most cost effective and expedient way to address the needs that have been identified and to protect this historic resource.

Waiting to do this work in a future phase will add significantly to the cost of the work. In addition to the construction escalation costs inherent in postponing this work, a subsequent project will require bringing on board a new design team, general contractor and construction manager at additional costs, along with the added disruption to the building and the commitment of a substantial amount of work by city staff, which could be spent on other important priorities.

The expanded scope will not materially affect the construction schedule for this project as indicated in the attached Milestone Schedule. Gale has indicated that they only require a few weeks to update the plans if the additional funding is approved and they are provided with an authorization to proceed. We will then be prepared to bid the project in anticipation of construction commencing in June.

Thank you for your continued support. I would be happy to discuss this with you further at your convenience.

Attachments:

- Memorial Hall Building Evaluation Report dated September 24, 2021
- Memo from Gale Associates dated October 22, 2021
- Milestone Schedule for the full scope of work

[i] The work involving the stairs is not included in the $1,500,000 estimate. That work involves a different construction trade, is not impacting the building envelope and can be done at a later time.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Background Information

The Melrose Soldiers' and Sailors' Memorial Building (Memorial Hall), first dedicated in 1912, symbolizes a period of growth for the City of Melrose (Melrose) in the late 19th and early 20th centuries. Located in the midst of equally ornate civic structures, which include the City Hall and Central Fire Station along the Main Street, it is an essential part of the City center. The importance of this historic core and development is solidified in its designation as a Historic District in the National Register of Historic Places since 1982. As part of this historic and civic core of the City, Memorial Hall building has a multi-purpose function organized around its use for the public and plays an essential role in the life of the community. From its initial conception, the building has been intended as a central hub for gatherings, events, the performing arts, among many other uses.

Image of the building around the time of completion in 1915

Image of the building today (2021)

The building was originally designed by the architect George F. Newton for Melrose to be a memorial for Civil War soldiers and sailors. It consists primarily of granite, originally quarried in Quincy and re-purposed from its original use as part of the Old Boston Courthouse constructed in downtown Boston in 1836 and demolished in 1909. As is the nature of historic structures, it has undergone multiple periods of modification and renovation. As early as 1925, an addition to accommodate a new organ was constructed onto the rear of the building consisting of brick masonry and concrete. In the late 1990s and early 2000s, the building underwent multiple renovation and rehabilitation projects, including roof replacement, window and door restoration and accessibility upgrades. In 2008, the building underwent HVAC upgrades, including the installation of an air conditioning system and more efficient heating system. Historic images of the building catalogue its changing appearance over time with various wood trim paint colors and entrance vestibules and canopies. As such, the building functions as a living architectural historical catalogue whose preservation over time is an essential aspect of preserving the history of the City.

The internal spatial layout of the building revolves around the use of two main spaces. The auditorium occupies the bulk of the building and features a 30' x 40' stage, seating capacity of 800, and grand high ceilings and clerestory natural lighting. The rear portion of the building houses the support functions for the auditorium, including dressing rooms, offices, storage areas, and a large organ behind the stage. At the front of building towards Main Street sits the Grand Army of the Republic (GAR) Hall, which acts as a smaller event space that can support up to 100 guests and features a commercial kitchen space immediately adjacent to it. The accessible public entrance to the building is located on the South side of the building facing the fire station and provides immediate access to these two large gathering spaces.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose has engaged Gale Associates, Inc. (Gale) to provide evaluation and design services to identify and address ongoing water infiltration at various locations in the building, improve daylight control within the auditorium clerestory windows, and general weathering and deterioration of various exterior building envelope components. As part of the evaluation, Gale has performed a leak audit, a visual observations of the building's exterior components and observed exploratory test cuts at roof, wall, and stair elements, performed by contractors, to better understand the general construction of the building. This evaluation report documents our observations, findings, and opinions on potential repair and replacement options.

The following documents have been utilized by Gale as part of the evaluation and research of the building:

- Portions of the original 1912 drawing set by architect George F. Newton
- Portions of the 1925 addition drawing set by engineers J.R. Worcester & Co., and architect George F. Newton
- National Register of Historic Places entry for the Melrose Town Center Historic District submitted in 1982
- Portions of the 1998 Roof Replacement drawing set by Jean Carroon Architects.
- The 1999 Façade and Window Restoration, Bathroom Buildout, and Miscellaneous Repairs by Jean Carroon Architects.
- The 2008 HVAC Renovations drawing set by Richard D. Kimball Company, Inc. engineers

Existing Conditions and Observations

Leak Audit/Interior Observations

As part of the building envelope evaluation, Gale performed a leak audit, or walkthrough of the interior of the building to observe any damages or defects that may possibly be related to water infiltration. For example, staining and cracking of interior finishes at ceilings and on inside surfaces of exterior walls may be indicators of active or historic moisture infiltration or other potential building movement. The building staff was also interviewed to better understand the history of leaks within the building and where repairs have been performed in the past.

Refer to the Leak Audit Plan for specific information and locations of defects found within the building. In general, the leak audit revealed the following defects within the interior of the building:

- Multiple locations of cracks within the plaster finishes, primarily in the ceilings, and at several wall locations.
- Peeling paint or blistering paint occurring on ceilings and below window locations.
- Peeling wallpaper within the GAR Hall extending from the ceiling and located below window sills. Significant deterioration was observed occurring at the wall between the kitchen and the GAR Hall (Image 1).
- Cracked, spalled, or missing plaster finishes at the trusswork above the auditorium in front of the clerestory windows. Missing plaster was reported to have been removed due to water damage.
- Reported and apparent observed locations of previous plaster ceiling repairs and patching.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Staining on suspended acoustical ceiling tiles around the perimeter of the kitchen space, as well as a deteriorated plaster ceiling with exposed lath observed above the suspended ceiling.
- Masonry cracks occurring along a building expansion joint where the 1925 addition meets the original building.
- Loose brick, step cracking, and deteriorated mortar joints above window and door openings in the unfinished brick interior in the rear storage room adjacent to the organ.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Exterior Walls

The main, building built in 1912, is constructed of granite veneer with brick masonry back-up wall construction measuring approximately 16" thick. The addition at the rear of building, built in 1925, has exterior walls constructed of five-wythe solid brick masonry and exposed concrete foundation. The following sections discuss Gale's observations of each major façade material (granite, brick, concrete, brass and ornamentation) in depth.

Granite

Granite is the primary façade material of the building and fulfills a variety of roles, acting as both a structural and decorative element for the building. The walls consist of rectangular cut blocks of various dimensions with decorative ledges, water tables, and banding built into the granite wall construction. The granite blocks are set in thin beds of mortar, with only an 1/8" to 3/16" joint between the granite. The joints widen at the face of the granite to about 1/4".

In general, the granite itself was found to be in good condition, though isolated instances of spalled and cracked stone elements could be observed at various locations. Additionally, a number of granite blocks appeared to be slightly displaced out of plane of the wall, potentially due to settlement of the building overtime.

The granite mortar joints generally vary from fair to poor condition. Previous mortar repair attempts appear to have been performed throughout the history of the building as a minimum of (3) different types of mortar joints were observed in various locations, and vary in their color, texture, and profile. The original mortar joint appears to have a raised, beaded profile that has been replicated with newer mortar in various locations giving a crisper joint appearance, however, the original mortar joints appear more eroded and smoother with a sandy texture. The variety of mortar joint appearances lend the building a patchwork aesthetic, as repointed joints of varying ages and mortar types and color appear in random locations throughout the building.

Granite ledges wrap the front of the building and extend onto the sides and the wings of the building. The ledges feature exposed horizontal granite surfaces that exhibit a high degree of weathering and deterioration. A variety of previous mortar and sealant repairs have been performed along the ledge joints. Dark mastic material was observed installed along the joint between the ledge and the wall and are generally in a failed state. Other locations exhibit debonded, cracked, and missing mortar joint installed between granite pieces.

Samples of the mortar were taken and sent to a laboratory for Petrographic and chemical analysis to determine the original mortar composition. Additional information will be provided.

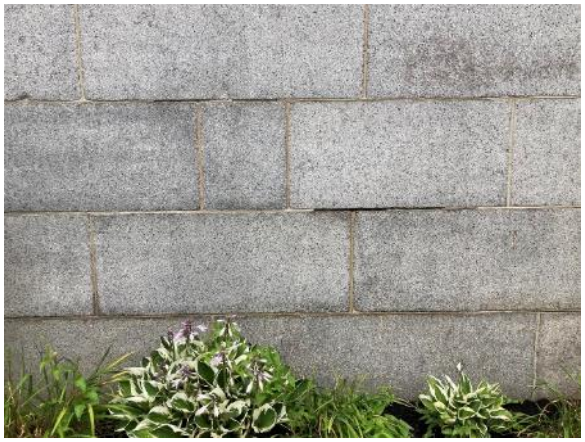

Image 15: *Typical mortar condition within the granite; patchwork of missing mortar and mortar repairs*

Image 16: *Typical staining and deteriorated mortar within the granite at the front elevation*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 17: *Crack within a granite block at the front elevation near the foundation*

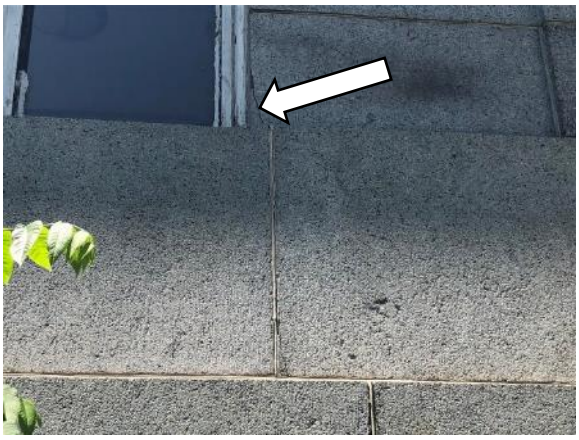

Image 18: *Step crack (arrow) originating from a window in the front elevation*

Image 19: *Failed sealant around the perimeter of a recess in the granite facade*

Image 20: *Sealant repairs at the granite ledge on the west side of the North Wing*

Image 21: *Typical deteriorated sealant at the termination of the ledge at the rising walls*

Image 22: *Spalled ledge stone (arrow), as well as staining on the ledges and previous sealant repairs at the mortar joints*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Brick

The use of brick masonry within the Memorial Hall façade is confined to the 1925 rear addition and panel infill areas on the original building on the North and South Elevations. In general, the brick and mortar were found to be in fair condition. The brick walls generally have a weathered appearance with dark staining and discoloration occurring in various locations. A number of cracked and spalled brick units were found throughout the addition portion of the building, and approximately 25% of brick mortar joints were found to be deteriorated with loose particles and exposed aggregate.

Similar to the granite walls, a number of previous repair attempts have been performed in the brick masonry. Approximately 20% to 30% of the brick walls having been previously repointed. A number of these repairs appear to be poor quality consisting of "buttered" joints, failed mortar bond, and delaminating repair mortar. The previous mortar repair areas lend the brick masonry areas a patchwork appearance, with the newer repair mortar not matching the color or texture of what appears to be the original mortar.

The addition also features a brick quoins which project from the surface of the wall about 1.5". The top surfaces of the quoins have been coated in a mortar wash that protects the top surface and is sloped to shed water away from the wall. A number of these mortar washes were found to be delaminated and were loose.

The original building features a series of rectangular brick infill areas on the North and South Elevations. While no cracked or spalled brick units were observed in these locations, the mortar joints appeared heavily deteriorated. In general, the mortar at these areas have been eroded approximately 3/8" from the face of the brick. Multiple head joints were found to be completely missing. Unlike the brick masonry at the Addition, no previous repointing efforts appear to have occurred in these areas.

Since the addition is constructed of solid brick masonry walls at the back storage room consist of unfinished brick masonry. The masonry openings for the windows and door in this room are constructed with brick segmented arches, as opposed to the granite and cast stone lintels found at other window locations. Two of these arches were observed to have delaminated with loose brick units and step cracks in the brick mortar emanating away from the loose brick locations. Refer to the images within the Leak Audit portion of this report above for more information.

Image 23: *Typical mortar condition within the brick masonry at the Addition*

Image 24: *Cracked brick and deteriorated mortar the brick parapet rising walls*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 25: *Typical brick inset area at the original building*

Image 26: *Typical deteriorated and missing mortar joints at the brick inset areas at the original building*

Image 27: *Deterioration of mortar wash above the brick quoins*

Image 28: *Staining on brick masonry appearing to originate from the roof flashing*

Concrete

At the 1925 Addition, the exposed concrete foundation forms part of the exterior wall at the basement level. Similar to the Addition's brick masonry, the concrete has a weathered appearance with areas of dark staining, discolorations, and vegetative growth appearing at various locations. The concrete was generally found to be in fair condition, but isolated areas of concrete cracks and concrete spalls were observed. A number of these cracks and spalls were found to be about 1" deep with large chunks becoming dislodged. The majority of the cracks appear to relate to openings in the concrete walls, such as at louver and door locations. A number of previous repairs and patches could be found at locations where ongoing cracking is still occurring, and some of the patches appear to be failing.

Additional concrete defects were noted at the rear stair structure at the basement door. Refer to the Basement Door (Door 001) Existing Conditions section for more information.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 29: *Spalling and cracking in the concrete at the Addition*

Image 30: *Large crack above a louver at the Addition*

Image 31: *Network of small cracks above the basement door at the Addition*

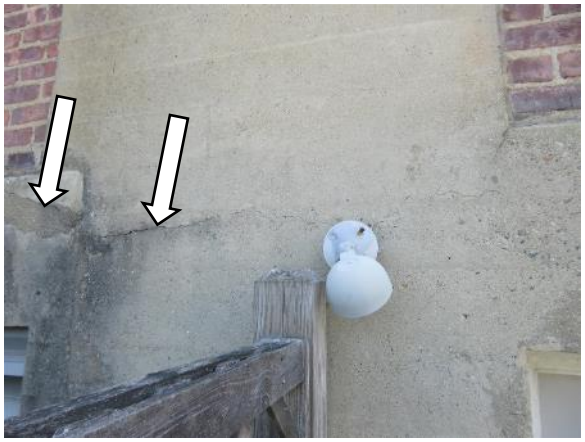

Image 32: *Patched spall and cracking (arrows) occurring between portions of brick*

Brass Ornamentation

At the front of the building and on portions of the North and South Elevations, the building features a number of brass elements that function as ornamental flourishes to the building, consisting of horizontal banding that runs on top of the upper granite ledges, wreath-like elements mounted to the walls at the center of the flagpole towers, and garlands that are inset into a recessed portion of the granite on the truncated tower walls. Historic photographs of the building and the original drawing set indicate that these garlands were also located on the front of the building and the North Elevation, but are now missing in their entirety at these locations. Brass is also utilized for decorative grilles that are set in the masonry openings at the two small windows found on either side of the front entrance.

The brass utilized for the ornamentation appears to be original to the building and has a heavy green patina. These elements appear to be in fair condition and intact, but with a darkened and discolored appearance related to the heavy patina. In addition, the horizontal banding features a series of rounded elements that extend up from the banding; a number of these rounded elements are folded forward away from the building. Rusting was also observed in the banding at fastener locations where brass panels are secured to each other. Melrose reported that several brass ornamental metal components have been salvaged and are in storage but is undetermined if the stored material is salvageable.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 33: *Horizontal brass banding at Roof Area A parapet ledge on the North Elevation.*

Image 34: *Typical horizontal banding attachment straps.*

Image 36: *Remaining brass garland ornament on the South Elevation. Similar ornament was installed on the Front (East) and North Elevations.*

Image 37: *Typical brass wreath on the Front (East) Elevation. Brass garlands were historically installed within the recess band around the wreath.*

Image 38: *Typical brass grille installed over small windows on the Front (East) Elevation.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 39: *Detail of a typical pendant in the horizontal banding. Rust was noted around fastener locations. Pitting and staining on the brass was observed throughout the banding.*

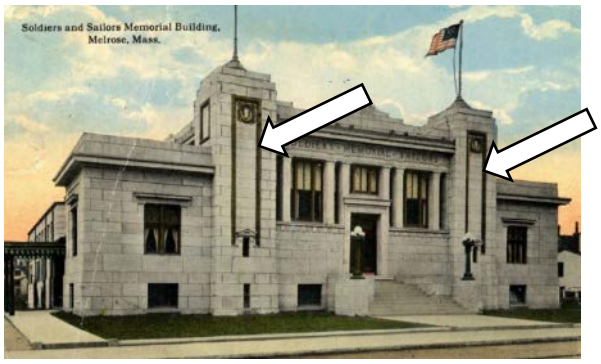

Image 40: *Image of the building around the time of its construction showing the original appearance and locations (arrows) of the brass garland ornamentation.*

Windows

All of the windows at the Memorial Building appear to be original to the building, consisting of wood sashes set into site-built wood frames. The wood sashes are constructed in true-divided light fashion with single-pane glass set with glazing putty between wood muntins. The windows are set into openings in the mass-masonry and stone openings. Lintels over the masonry or stone opening include long-span granite block, cast stone lintels or brick masonry segmented arches. At the addition, the windows are installed over a cast stone sill set into the brick masonry. Sealant has been installed around the perimeter of window opening where the wood window molding meets the masonry. Bulb style weatherstripping was observed to be installed on the bottom face and at the meeting rails of the window sashes and on the window sash track. Plastic strip weatherstripping has been installed onto the sash tracks.

Exterior Conditions

On the exterior, the windows feature varying degrees of elaborate ornamentation, with the larger windows near the front of the building featuring neo-classical wood trim elements. The windows typically have a painted exterior finish, with the sashes painted a dark charcoal gray/black, and the brick molding, surrounding wood trim, and wood sills painted white. Historic photos appear to show all trim elements were painted in charcoal grey.

In general, the exterior window components range from fair to poor condition, with isolated areas of deterioration and missing wood components. All windows feature some degree of paint failure on the sashes, molding, and sills, with flaking paint common. The glazing putty used to seal the glass panes to the window frame is also generally deteriorated with portions at certain locations entirely missing. Windows on the South Elevation of the building appear to have the greatest degree of deterioration of wood elements as compared to other locations. Severely weathered wood sills and sash components and deteriorated or missing glazing putty were observed at multiple locations on the South elevation with similar deterioration found more sporadically on the other elevations.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 41: *Detail of a column capital as part of the window framing for Window Type D. Flaking paint is typical for all windows.*

Image 42: *Typical deteriorated glazing putty between the glass and the sash frame.*

Image 43: *Heavily deteriorated sills were noted at the windows with the 2nd story changing room on the south side of the building.*

Image 44: *Heavily deteriorated sill and window components at a rear basement window.*

Interior Conditions

On the interior, the windows feature a wide variety of finishes depending on the public visibility and use of the interior space. In the GAR Hall and parlor, the large windows have translucent stained wood trim with visible wood grain. In most other locations, the windows have dark brown or white painted interior finish. Interior wall surfaces primarily consist of plaster at the original building and gypsum board at the Addition. The more elaborate auditorium space and GAR Hall also feature wood wainscoting and chair rails stained to match the windows.

Interior window components and trim were found to be good condition. Some minor paint wearing could be observed at a few locations, particularly on window sashes and stools. Interior wood components appeared sound and intact. Due to modification and renovation of spaces within the building over time, many of the windows, particularly those at the basement level at the front of the building, have become inaccessible from the interior. During the bathroom renovation project, it appears that black painted plywood was installed on the interior of the windows and abandoned behind interior finishes. The windows do not appear to be accessible from the interior and will require all repairs to be performed from the exterior. Within the kitchen, a metal vent hood assembly has been installed in front of the north-facing window reducing access to observe its condition on the interior.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The hood is visible from the exterior as the window was not framed in. The vent will need to be disconnected to access the windows for repairs.

Image 45: *Typical interior conditions for windows at the front of the building; this image taken at front entrance within the GAR Hall.*

Image 46: *View of the auditorium space with the bands of upper and lower clerestory windows.*

Image 47: *Degraded interior paint and finishes on the windows and sills were noted at some locations.*

Image 48: *The vent hood blocks access to a window within the kitchen; the hood is visible from the exterior.*

Image 49: *Typical installation of a plywood blank-off panel on the interior; this image taken within the basement storage room at the northeast corner of the building.*

Image 50: *Window concealed behind newer bathroom wall construction, also blanked-off on the interior with a plywood panel.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Glass

As mentioned above, all the windows feature single-pane glass; however, the glass comes in several varieties of shapes, sizes, colors, and textures. Aside from the clerestory window overlooking the auditorium space, the majority of windows feature clear, smooth, vision glass. The clerestory windows at the auditorium utilize a yellow/orange tinted, textured glass that produces a softer, more indirect light into the space. Windows within bathrooms and a few of the storage spaces feature a clear, similarly textured glass to obscure views from the exterior into the interior. The more clerestory windows at the auditorium and transom windows at the front elevation include sashes with diagonal muntins in an "X" shape that produce triangular glass.

The majority of the glazing throughout the building was found to be fair condition, but with three instances of cracked or broken glass observed at the time of the evaluation. Reports from the building staff indicated ongoing problems with broken glazing, particularly within the upper clerestory windows above the auditorium, where two of the broken panes were observed during this evaluation. The poor condition of the glazing compound and areas of missing glazing compound appears to contribute to the reported broken glass. Without proper glazing compound the glass is free to move and fall out of place onto the roof surface below. Other instance of broken glazing was observed at the front of the building on the North Elevation within a basement window, which had been sealed with tape at the time of the evaluation. Additionally, differences are the yellow/orange tint between different panes of glass suggest that glass replacement has occurred at different times in the past, with some panes appearing lighter orange and some with a green tint. Enough different hues and shades were observed that it is difficult to ascertain what the original color is, and the glass appears as a subtle mosaic of colors throughout.

Image 51: *Broken glazing covered with tape (arrow) at the basement window on the North Elevation*

Image 52: *Different coloration of tinted glass panes in the auditorium space*

Image 53: *Broken glass observed in the upper clerestory windows at the time of the evaluation.*

Image 54: *Typical obscured glazing within bathrooms and storage closets on the first floor.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Operability/Hardware

The windows at the Memorial Building have a variety of operating mechanisms and orientations. The majority of the windows have a double-hung orientation with separate upper and lower sashes installed along a track and slide up and down. The sashes are counterbalanced with weights hidden within the jambs of the windows, hung by a chain on a pulley.

Several windows appear to have had the upper sashes fixed in place with fasteners during previous renovation projects.

Casement windows are locked along the front of the building and operate on hinges at the jambs and swing in. Hopper or project-in windows are located at the basement level windows at the front of the building. Awning or project-out windows ae located at the upper clerestory windows. While most clerestory windows are fixed, four windows on each side of the hall are operated by a crank shaft located to the rear of the stage opening. Facility staff reported that the window hardware is in working condition but used infrequently depending on the events being hosted. While the North side hardware is easily accessible, the east side is only accessible from the stage catwalk.

The location of many of the windows high above the floor are difficult to reach to operate by hand. Some windows that are accessible have sashes that are difficult to raise including the Window Type D at the front of the building, which has sashes that are intended to slide up through a pocket at the transom window.

Window hardware such as locking mechanisms, hinges, pulleys, and handles consist of brass and generally appear to be in good condition, albeit weathered. Several double-hung windows were found to be missing their balance chain. At certain locations brass pulleys had been replaced with plastic covers. Multiple double-hung windows sashes do not have handle hardware to help raise the sash.

Image 55: *Typical brass handles installed at Window Type D.*

Image 56: *Typical brass lock hardware at hung windows.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 57: *Typical chain and pulley hardware at hung windows.*

Image 59: *Operating hardware for the awning windows at the upper clerestory windows, utilizing a crankshaft (arrow) operated from behind the stage*

Image 60: *Chain (arrow) for the operation of the basement hopper windows; arrow indicates a broken chain.*

Doors

The Memorial Hall includes six door locations. Three of locations include decorative wood doors and wood frames, the other three consist of hollow metal doors in wood frames. The observations related to the doors are as follows (refer to the Drawing Set for door numbering):

Front Entrance (Door 101)

The front entrance door consists of wood frame and (1) set of wood double doors with a fixed wood panel transom above. This entrance appears to be primarily ceremonial, as the doors can only be operated from the interior with push bar hardware. The door frame and door leaves feature more elaborate ornamentation than other door locations, with egg and dart moulding, inset paneling, and spiral patterned astragal. Interior surfaces of the frames have a stained finish while the exterior surfaces are painted dark charcoal gray. The door handles and hinges consist of brass and appear to be in good condition. In general, the door frame and leaves appear to be in good condition, however, the exterior bottom portion of the door leaves are weathered, and one door sweep is missing. Minor paint defects could also be observed the exterior finish, related to the deterioration of some of the wood components.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 61: *Exterior of the front entrance door*

Image 62: *Interior of the front entrance door*

Image 63: *Missing door sweep at one of the door leaves*

Image 64: *Deteriorated wood elements noted at the base of the door leaves*

North Lobby Entrance (Door 102)

The North Lobby entrance doors appear to be original. These doors function primarily as egress doors, as most of the doors are only operable from the interior with panic hardware. These doors consist of (3) 5'-0" wide double door openings with project-in (hopper) transom glazing above. The door leaves each contain square single pane vision lites with a cross and diagonal muntins creating (8) triangles. The door framing and trim exhibit crazing and flaking of paint, but otherwise appear sound. The door leaves were found to be in poor condition with multiple loose wood muntins, wood deterioration and decay of rails and stiles. Gale observed evidence of multiple failed repair attempts, including flaking paint. During the evaluation, ponding water was observed on the interior of the doorway on a morning after an overnight rain event, indicating the doors are allowing moisture infiltration.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

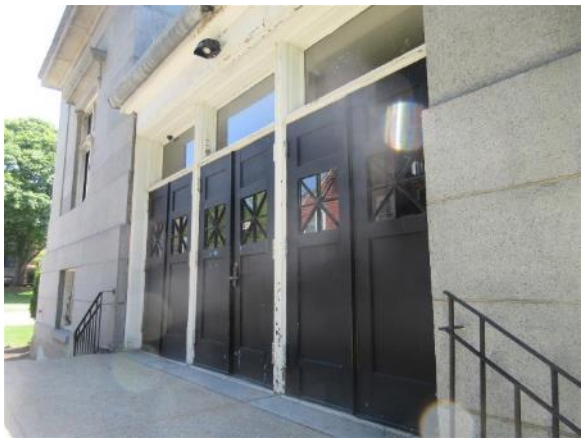

Image 65: *Exterior of the south lobby entrance doors*

Image 66: *Interior of the south lobby entrance doors*

Image 67: *Typical condition of the wood frame and trim with flaking and crazing paint observed throughout.*

Image 68: *Displaced and loose door handle was noted at one of the door leaves*

Image 69: *Loose muntins and deteriorated glazing putty was noted throughout all of the doors.*

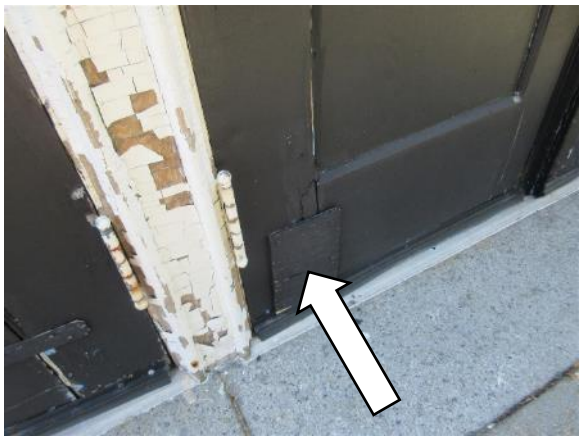

Image 70: *Previous repairs (arrow) to the door leaves have become loose, and gaps were observed at multiple door leaves.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Auditorium Side Doors (Doors 103 and 105)

The side egress doors each consist of a pair of double hollow metal doors set in wood frames and are located on either side of the stage. These doors function primarily as egress doors with panic hardware installed on the interior but can also be operated on the exterior. The doorway on the South Elevation is used as an entrance by the Memorial Hall staff. The hollow metal doors and wood frames appeared to be good condition. Weatherstripping and door sweeps were observed to be installed and in good condition. Rust was observed on the door hinges that are exposed on the exterior. Minor paint defects and scratches were observed on the interior of the door leaves.

Image 71: *Typical exterior of the auditorium side doors (Door 103)*

Image 72: *Typical interior of the auditorium side doors (Door 103)*

Image 73: *Hinges at the doors were exposed to the exterior and were found to be rusted.*

Image 74: *Scratches in the paint were observed on the door leaves.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Organ Access Door (Door 104)

The rear of the building features a tall access door, reportedly utilized for replacing pipes for the organ located behind the stage. The door consists of a wood frame and wood panels set into the frame with no apparent operating mechanism or hinges. The wood paneling appears to consist of two separate panels with a meeting rail installed between them. The paneling is heavily deteriorated with large gaps appearing in the woodwork with daylight observed through the door from the interior. Large chunks of wood have split off from various rails in the paneling on the exterior. The wood door moulding on the exterior appears to consist of fibrous wood material, possibly medium density fiberboard (MDF), that is also heavily deteriorated with fibrous material exposed.

Image 75: *Exterior of the organ access door.*

Image 76: *Interior of the organ access door.*

Image 77: *Large chunks of the wood in the panels were found to be loose; the exterior brick moulding was found to be fraying and opening up.*

Image 78: *Wood in the door panels was found to heavily deteriorated throughout, and gaps were observed in the door panels.*

Main Entrance Doors (South Lobby) (Door 106)

The main entrance doors were reported to have been replaced in a previous project reportedly in the late 1990s. These doors function as the primary public entrance to the building. They consist of (2) 6'-0" wide double door openings with wood paneling on either side and fixed transom glazing above. The doors and framing are in good condition and utilize insulated glazing units within vision lites in the door leaves and transom. Daylight could be observed coming through the interior beneath one of the door leaves, indicating the door sweep is not engaging with the floor.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 79: *Exterior of the main entrance doors.*

Image 80: *Interior of the main entrance doors; daylight was observed coming from beneath one of the doors (arrow).*

Basement Door (Door 001)

The rear of the building features a basement access door leading to the boiler room. The doorway consists of a hollow metal door set into a wood frame. The door leaf was found to be in good condition, similar to the hollow metal doors located at the sides of the auditorium. The wood trim around the door is exhibiting signs of minor deterioration and cracked and flaking paint throughout. The concrete door head appears to be slightly bowed, potentially related to the cracking occurring in the concrete above the door.

A small concrete stair with wing walls sits in front of the door also exhibiting signs of deterioration, with vegetative growth occurring at the landing in front of the door. The stair appears to be cracking and separating potentially due to erosion of the soil below the walkway and stair. In addition, the area drain at the bottom of the stair appears to be clogged and possibly non-functional.

Image 81: *Exterior of the basement door.*

Image 82: *Detail of the door trim and leaf exhibiting flaking and crazing paint and scratches in the paint on the door leaf.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 83: *Condition of the stair in front of the door; the concrete path leading to the stair is beginning to separate from the stair structure; erosion of the fill beneath stair was noted*

Image 84: *Vegetative growth was observed on the landing in front of the door; a pipe possibly serving as a drain appeared to be clogged and non-functional*

Roof

General Description

The existing roofing system consists of an adhered, single-ply, ethylene propylene diene monomer (EPDM) rubber roof membrane adhered over mechanically fastened 3" thick rigid insulation and a polyethylene (poly) sheet vapor retarder. The roof deck consists of 1" thick wood planks fastened to wood joists or rafters. A black, asphaltic coating that may have been part of the original roofing system was found on the inside surfaces of parapets, rising walls, and on the roof deck at roof edge conditions. Flashing at roof edge conditions consists of EPDM flashing membranes terminated under lead-coated or red copper sheet metal flashing. The sheet metal flashing terminates behind standing-seam vertical wall panels, parapet coping caps, or at brick masonry reglet flashings. The primary drainage system for the roof consists of lead-coated copper gutters and downspouts that drain into sub-grade leaders. Roof Areas D and E drain into through-wall scuppers through the parapet wall onto the Roof Areas F and G, respectively.

Image 85: *Overall image of Roof Area A*

Image 86: *Overall image of Roof Area B*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 87: *Overall image of Roof Area C*

Image 88: *Overall image of Roof Areas E, G, and H*

Visual Evaluation - Roofing

Based on a visual analysis, the roofing appears to be in fair to poor condition. The roof membrane appears to be intact, although deterioration of sealant at field seams was observed. Numerous patches were observed throughout the roof; the stripped-in seams at the patches were also observed to be moderately deteriorated. Rain diverters have been installed on Roof Area F, indicating possible drainage control issues. Defects related to gutters, downspouts, and sheet metal flashing are discussed in the following sections.

Image 89: *Deteriorated seams were noted throughout the roof membranes on all roofs*

Image 90: *Numerous patches were noted throughout the roof membranes on all roofs; this location on Roof Area E contained a particularly high number.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

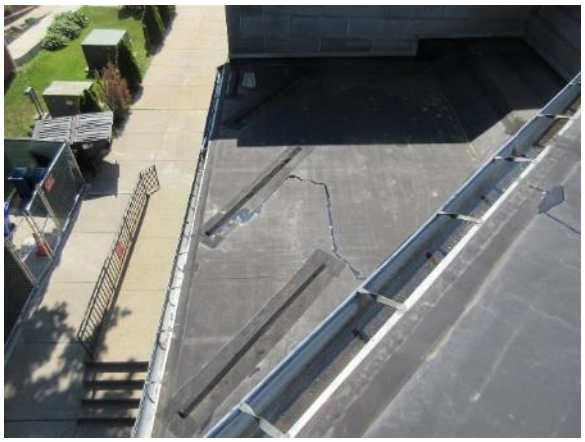

Image 91: *Rain diverters installed on Roof Area F*

Image 92: *Large patches with deteriorated seams were noted in numerous locations.*

Roof Test Cuts - Defects within the Roofing System

As part of the evaluation, Gale engaged Corconwood Roofing Services, roofing contractor, to perform exploratory test cuts, whereby a small portion of the roof is removed in order to better understand the underlying conditions. Refer to the Roof Plan within the Drawing Set for roof area designations and test cut locations. Test cut locations were limited to Roof Areas A, B, D, and F. Refer to the attached drawing set and roof plan for all test cut locations.

Many of the roof test cuts indicated the presence of moisture within the roofing system. Moisture presence ranged from dark staining on the upper portion of the rigid insulation, to staining found on the wood roof deck, to wet insulation and substrates. A summary of moisture conditions found within the roof are as follows:

Test Cut	Roof Area	Location	Staining on Insulation	Water staining on roof deck	Wet Insulation
1	A	Parapet	X		
2	A	Parapet	X		X
3	A	Chimney	X		
4	A	Gutter	Minor		
5	B	Gutter	X	X	
6	B	Below Clerestory windows			
7	B	Parapet	X		
8	F	Window Sill			
9	D	Rising Wall			
10	D	Parapet	X		
11	A	Field	X		
12	B	Field	X		
13	B	Corner			
14	D	Rising wall at Flagpole tower	X	X	X
15	D	Parapet Corner	N/A		N/A

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Aside from Test Cut 14, all test cuts revealed the presence of a vapor retarder. However, the vapor retarder was observed to be found to be unsealed and untaped, and in most instances the vapor retarder stopped short of the roof edge or did not extend up the full height of the roof thickness. In some cases, the vapor retarder was folded in on itself or crumpled at the test cut location.

Image 93: *The plastic vapor retarder was not terminated at all perimeter test cut locations.*

Image 94: *Wet insulation observed at Test Cut #2.*

Image 95: *Crumpled and unterminated vapor retarder at Test Cut #3.*

Image 96: *Water staining observed on the roof deck at Test Cut #5.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 97: *Test Cut #8 performed at the sill of Window Type H. The roof membrane was found to be terminated on the window sill with a termination bar.*

Image 98: *Staining was observed in the top portion of the insulation at most test cut locations*

Image 99: *A gap in the granite wall was observed at Test Cut #13.*

Image 100: *Very wet plywood decking and corroded steel observed at Test Cut #14; refer to the Structural observations for more information.*

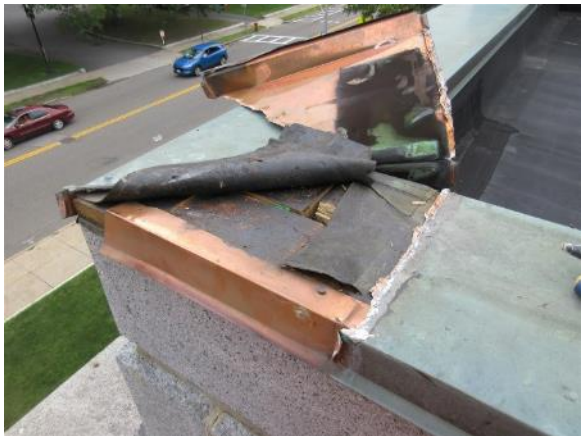

Image 101: *Test Cut #15 was performed at the corner of Roof Area D to open the parapet cap*

Image 102: *A portion of the sheet metal siding was lifted open to reveal a wood back-up wall, which appeared to be in good condition.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

While observing Test Cut #14, wet plywood decking as well as deteriorated steel members supporting the granite blocks above was identified at the base of the flagpole tower on Roof Area D. Further exploration revealed a steel member and a diagonal steel member exhibited significant rusting and scaling of the steel. Similar exploratory work was performed at the opposite (south) wing of the building on Roof Area E, revealing similar conditions though the steel appeared more intact on the south side. The steel appeared to have been originally cast in a cementitious material. The cementitious material was wet and deteriorating. In both instances the diagonal beam is enclosed by a raised curb. At the south wing the curb was found to be clad with copper sheet metal under the EPDM membrane roofing.

Image 11: *Location of steel exploration at Roof Area D at the base of the flagpole rising wall*

Image 12: *The steel immediately below the masonry wall exhibited heavy rusting and portions flaking away*

Image 11: *View underneath the raised curb looking down along the diagonal member towards its embedment.*

Image 12: *The steel member was observed to be embedded in the parapet wall at the front of the building.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 11: *Location of steel exploration at Roof Area E*

Image 12: *Detail of the test cut showing the copper cladding and cementitious material (arrow) that coats the steel at this location*

Image 11: *The steel exposed at this location was found to be heavily rusted.*

Image 12: *The steel member was found to be supported on a diagonal steel member similar to Roof Area D.*

Sheet Metal and Flashing Defects

While the sheet metal flashing itself appeared to be in good condition, many flashing configurations were found to be insufficient or deficient. The sheet metal flashings at the granite rising walls have exposed fasteners and are sealed at their upper limits with a sealant that has failed. At other flashing locations, such as at the ends of parapet walls or stone ledges, the roof is terminated with a termination bar. The termination bar sealant has failed.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 103: *Sealant-dependent flashing configurations at the upper clerestory rising wall to granite wall transitions.*

Image 104: *Membrane terminated with an exposed termination bar at the transition to the granite ledges on Roof Area A.*

Image 105: *Deficient termination of the parapet cap flashing on Roof Area C that is sealant-dependent*

Image 106: *Exposed ledge at inset area above Roof Area C without flashing or protection; roof-to-wall flashing detail utilizes a surface-mounted reglet flashing whose sealant was found to be deteriorated.*

Gutters and Downspouts

In general, gutters and downspouts were found to be in fair to poor condition. Many of the gutters feature open seams and failed gutter solder. Water was observed actively dripping from the gutter at joint locations. On the south side of Roof Area A, an existing roof access ladder mounted to the wood fascia has pulled away from the wall, displacing both the wood fascia and the attached gutter. Multiple downspouts have become detached from the gutter, and the gutter displacement prevents the water from draining properly towards the downspouts. Several downspouts at grade were observed to be dented or damaged resulting in misalignment of the downspout from their subgrade PVC leader, as well as detachment from their wall-mounted straps. Metal downspout strainers were generally found to be heavily deflected or displaced entirely from the downspout outlet.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 107: *Standing water observed in the gutter on the south side of Roof Area A at the time of the evaluation*

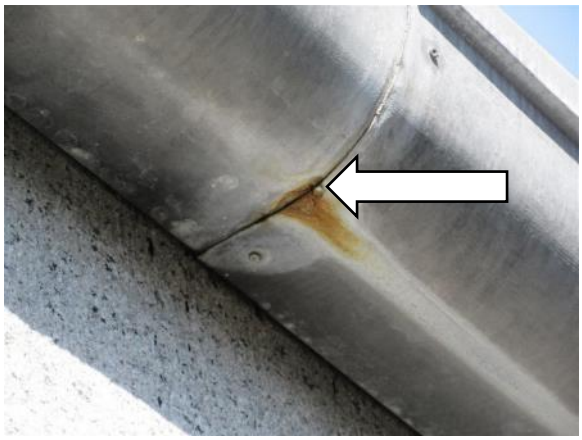

Image 108: *Open seams in the gutters with active dripping water (arrow) were observed at multiple locations*

Image 109: *Additional active gutter leak locations that have been attempted to be sealed with duct tape (arrows)*

Image 110: *The majority of the downspouts were found to be deflected at their lower portion near grade*

Image 111: *Downspout strainers were found to be deflected and, in some cases, displaced from the downspout opening.*

Image 112: *Drainage from Roof Areas D and E are provided by scuppers that drain onto Roof Areas F and G; no downspouts are installed at these locations*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Chimney

A brick masonry chimney is located at the rear center of the building. The chimney is capped with a wood deck cap supported by four brick piers. The wood decking is covered with flat-seam copper sheet metal roof paneling. The brick wall openings are capped with lead-coated copper coping caps. A cast iron stack extends up the middle of the chimney shaft and up through the copper-clad cover.

The condition of the chimney above the roof line is poor. While the wood deck itself appears to be sound, the brick masonry piers it rests on exhibit deteriorated mortar joints and a number of cracked brick masonry units throughout. Cracking of the mortar joints and brick units were also found in the chimney rising walls immediately above the roof. The copper cladding shows signs of heavy deterioration with deflection and pitting in the panels, exposed fastener holes, and failed sealant repairs at the seams on the top surface. The cast iron flue is rusted on all visible surfaces, with a large portion of the top section of the flue missing, appearing to originally extend up through the chimney cover. The lead-coated copper at the base of the chimney and capping the chimney walls appeared to be in good condition.

Image 113: *Overall view of the chimney*

Image 114: *Flat-seam copper panels were found to be pitted and deflected with seams repaired with sealant.*

Image 115: *The tops of brick walls below the cap are flashed with lead-coated copper flashing that appeared in fair condition.*

Image 116: *Opening in the wood deck for the cast iron stack; the stack was found to be heavily rusted with portions missing.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Front Entrance Stair

The front entrance is a prominent feature of the building and includes a large exterior grand staircase extending from the front entrance doorway down to the meet the entrance walkway. The staircase consists of a granite masonry construction, including granite stair treads and landings flanked by granite wing walls above grade, which rest on brick masonry infill and concrete foundation walls and piers below grade. According to original drawings, concrete beams rest on concrete piles and pile caps. At the front end of each wing wall sit decorative metal lampposts.

Image 117: *Overall view of the front entrance stairs*

Image 118: *Detail view of the front entrance stairs.*

As part of the evaluation Gale engage The Waterproofing Company (TWC), masonry contractor, to perform exploratory work at the entrance stairs to better understand its construction. Exploratory work included:

- One stair tread (4th from the bottom) was removed at the front left (facing the building) of the stairs.
- Excavated a 2'-0" deep hole dug at the north wing wall to determine foundation material.
- Portion of a grout patch was removed at the top landing joint where it meets the building.

The exploratory work revealed that the interior of the stairs consists of a hollow cavity over nine feet deep. The bottom of the cavity is filled with masonry rubble and debris. Ground water was visible within the cavity at about 9'-4" depth from the removed stair tread. The center stair treads of the bottom four stairs are supported on brick piers. Several bricks were found to be loose upon removal of the stair tread. The brick mortar joints within the piers appeared to be loose and delaminated and were easily removed by hand.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 119: *Location of stair removal*

Image 120: *Removal of the stair revealed an open cavity below that is filled with rubble and debris.*

Image 121: *View within the cavity looking towards the front of the stair. The foundation was found to be a combination of concrete stem walls, brick masonry, granite slabs, and rubble.*

Image 122: *View within the cavity looking towards a brick pier that supports the larger middle stair treads. Brick and mortar at this location was found to be loose and crumbled.*

Image 123: *A portion of grout was also removed at the large joint between the stair structure and the building.*

Image 124: *The grout material was found to crumble upon sounding. A wood element was observed at this location and appeared to be displaced from its original position.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The front entrance stair was generally found to be in poor condition. While the majority of granite elements of the stair appeared to be in good condition, the top stair tread was found to have a crack running down the middle, and a majority of mortar joints are open, delaminated, or failed. Vegetation can be observed growing at isolated mortar joints on the wing walls. Portions of mortar joints between the stair treads are entirely missing. The wing walls appear to be out-of-plumb and leaning away from the building towards the street, as well as rotating outwards and away from the stair itself. Refer to the attached geotechnical report for more information. A large grouted joint was observed between the entrance stair and building's main elevation. The grouted joint appears to a previous repair attempt to address the stair rotation and settlement. The grouted joint runs along the wing walls and where the stair meets the building. Rust staining emanating from the base of the lampposts is visible on the granite blocks below. Dark staining and discoloration are visible at various other locations on the stair.

Image 125: *Wing wall cap stones were found to be displaced with open mortar joints.*

Image 126: *Vegetative growth and open mortar joints were observed on the sides of the wing walls.*

Image 127: *The lamppost bases were stained and sit on a bed of deteriorated mortar.*

Image 128: *The sloping of the entire stair structure can be observed below the lampposts, as the lampposts appeared to be installed plum, but sit on wedge-shaped grout bed on the sloping granite surface.*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Image 129: *A crack was found in the top-most stair tread in front of the door.*

Image 130: *Gaps observed in the joints between the stair structure and building.*

Geotechnical Report

As part of the evaluation, Gale engaged Nobis Group (Nobis) to provide a geotechnical report to better understand potential settlement concerns at the Memorial Hall. The site appears to consist of three (3) feet of topsoil, eleven and a half (11.5) feet of sand and gravel fill underlain by approximately twenty-four (24) feet of organic peat deposit and glacial outwash deposits. Groundwater was encountered at an approximate depth of eight (8) feet below grade. Refer to the attached Geotechnical Report for more information.

Hazardous Materials

Testing at the site has indicated the presence of hazardous materials. Reportable concentrations of asbestos were found within repair cement used at granite mortar joint repairs, asphaltic black coating at the inside surfaces of the parapet walls at the roof and on the roof deck, and in the glazing putty and perimeter sealants and caulking at the windows. Lead was found in both exterior and interior paint finishes. Refer to the attached Hazardous Material Report for more information.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

RE: Melrose Soldiers' and Sailors' Memorial Building
Scope of Work Clarification and Cost Estimate

DATE: October 22, 2021

The following is a summary of the final scope of work and associated costs for the Building Envelope Improvement Project at the Soldiers' and Sailors' Memorial Building based upon our evaluation report dated September 24, 2021. Gale has compiled an itemized list of the scope of work items that will be included within the Base Bid, Alternates, as well as items that were initially considered but have been removed from the scope of this project and should be addressed within the next 5 to 10 years.

Base Bid

Roofing:

1. Flashing repair around the perimeter of the roofs and membrane seam repairs to EPDM Roof Areas A, B, and C.
2. Removal and replacement of Roof Areas D, E, F, G, and H with single-ply PVC roofing.
3. Removal and replacement of all gutters and downspouts.
4. Removal of the existing chimney cap and four (4) brick piers down to the sill of the existing opening, and the installation of a new cap at that height.

Masonry:

1. Repointing of failed granite and brick masonry joints, as well as all masonry joints located above roof areas.
2. Repair of crack and spalled granite masonry.
3. Replacement of cracked and spalled brick masonry units.
4. Installation of lead tees at sky-facing joints with the granite ledges.
5. Replacement of the expansion joints between the original building and the addition with pre-cured silicone and foam expansion joints.
6. Clean all exterior masonry surfaces.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Gale Associates, Inc.
163 Libbey Parkway | Weymouth MA 02189
P 781.335.6465 F 781.335.6467 www.galeassociates.com

Concrete:

1. Repair of exterior exposed cracks and spalls within the concrete foundation at the addition.

Windows:

1. Restoration and repair of all window frames and sashes. Window sashes are to be temporarily removed and repaired off-site to scrape and repaint, replace all glazing putty, and replace broken glazing. Window sills, frames, and trim are to be repaired and restored in place.
2. Installation of fixed interior storm windows at all window locations, aside from operable Type M windows at the upper clerestory.
3. Removal and replacement of the wood trim and sheet metal panels at the upper clerestory rising wall with PVC trim or fiber-cement board and batten siding.
4. Installation of exterior, remote-operated black-out roll shades at the upper clerestory Type M windows.
5. Replacement of all window perimeter sealants.

Doors:

1. Scraping, repairing, and painting the wood front entrance doors and metal side and rear doors in place.
2. Replacement of the wood North Lobby entrance doors with a pair of two (2) sets of wood-veneered, metal double doors, transom windows, and frame to match the configuration of the South Lobby entrance doors.
3. Replacement of the organ access door at the rear of the building with an operable fiber-reinforced plastic (FRP) door.

Sheet Metal/Brass Ornamentation:

1. Re-solder open seams within the existing copper cladding at the flagpole bases and parapet walls at the front of the building.

Structural Steel:

1. Replacement of deteriorated steel beams supporting masonry at the flagpole towers at the north and south wings.

Cost for Base Bid Scope of Work: $1,899,435

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Gale Associates, Inc.
163 Libbey Parkway | Weymouth MA 02189
P 781.335.6465 F 781.335.6467 www.galeassociates.com

Alternates

Alternate 1: Replace colored glazing to provide uniform glazing at Type M and J windows.

Cost for Alternate 1: $92,700

Alternate 2: Install new interior manual roll shades.

Cost for Alternate 2: $41,202

Alternate 3: Install new/replace horizontal brass banding at the front and sides of the building.

Cost for Alternate 3: $20,925

Alternate 4: Install new/replace brass wreath and garland ornamentation at the front and sides of the building to match the original ornamentation.

Cost for Alternate 4: $65,250

Alternate 5: Provide wood storm windows in lieu of aluminum storm windows.

Cost for Alternate 5: $44,180

Alternate 6: Repoint granite mortar joints 100% throughout the building.

Cost for Alternate 6: $317,700

Alternate 7: Repoint brick mortar joints 100% throughout the building.

Cost for Alternate 7: $201,140

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Gale Associates, Inc.
163 Libbey Parkway | Weymouth MA 02189
P 781.335.6465 F 781.335.6467 www.galeassociates.com

Scope of Work Not Included

1. Replacement in entirety of Roof Areas A, B, and C with single-ply thermoplastic roofing, particularly if roof-top solar panels are installed.

   Estimated cost: $459,712

2. Rebuilding of the granite front entrance stair with new piles and concrete foundation.

   Estimated cost: $332,874

3. Rebuilding of the concrete stair at the rear of the building. Regrade the area around the stair to improve drainage in the vicinity of the stair.

   Estimated cost: $40,335

4. Rebuilding of the granite step at the north egress door.

   Estimated cost: $11,920

We hope this information suits your needs at this time. If there are any further questions or concerns, please do not hesitate to ask.

Mortar Analysis

REPORT OF MORTAR ANALYSIS

PROJECT:
MELROSE SOLDIERS' AND SAILORS' MEMORIAL BUILDING
GALE PROJECT NO.: 018109
PHASE #02 TASK #01

REPORTED TO:
GALE ASSOCIATES
701 HERON AVENUE
GLASTONBURY, CT 06033

ATTN: MARC LORANGER

APS PROJECT NO: P-0014035

DATE: AUGUST 20, 2021

INTRODUCTION

This report presents the results of laboratory work performed by our firm on one mortar sample submitted by Mr. Marc Loranger of Gale Associates on July 23, 2021. We understand the mortar sample was obtained from the above-referenced project. The age of the mortar sample is unknown to us. The scope of our work was confined to performing petrographic and chemical analysis on the mortar sample, per ASTM C1324 "Examination and Analysis of Hardened Masonry Mortar" to document the condition, composition, and proportions of the mortar sample.

CONCLUSIONS

Based on our observations and analysis:

1. The following table outlines the volumetric proportions of ingredients documented in the submitted sample:

Sample ID	Portland Cement	Hydrated Lime	Sand
Melrose	1	0.35	4.8

2. The mortar was composed of a fairly well consolidated mixture of portland cement, hydrated lime, and a naturally-occurring sand. The mortar paste hardness was judged to be moderate (Mohs = 3) and very light gray to pale yellowish brown in coloration (Munsell® N8 to 10YR 8/2). The lime observed in the mortar consisted of very fine sand to silt-sized agglomerations which were bright white in hand sample. The portland cement in the mortar contained several coarsely-ground polycrystalline particles. The mortar was not air entrained and contained a visually estimated air void content of 2 to 4%. The binder was fully carbonated.

3. The fine aggregate in the mortar was a natural quartz, feldspar, and lithic sand. Lithic particles documented in the fine aggregate included (sorted) granite/gneiss, quartzite, sandstone, meta-volcanics, and some mica. The sand was fairly graded with individual grains being sub-angular to sub-round.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Proposed Scope of Work

Concrete:

- Repair concrete foundation cracks and spalls

Masonry:

- Pointing of granite and brick masonry joints
- Repair of cracked and spalled granite masonry
- Replacement of cracked and spalled brick masonry units
- Installation of lead tees at sky-facing joints within the granite cornice ledge
- Clean all exterior masonry surfaces

Windows:

- Restoration and repair of window frames and sashes
- Replacement of window perimeter sealants
- Installation of interior low-profile aluminum storm windows
- Replacement of the trim and sheet metal panels clerestory rising wall
- Installation of exterior, remote-operated, black-out roll shades at clerestory windows

Doors:

- Scraping, repairing, and painting the wood front entrance doors and metal doors
- Replacement of the wood North Lobby entrance doors
- Replacement of the organ access door at the rear of the building

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Proposed Scope of Work

Roofing:

- Replacement of low-slope roofs
- Replacement of coated copper gutters and downspouts
- Lower and cap chimney

Sheet Metal:

- Solder open seams within the existing bronze cladding/flashings
- Repair bent and damaged bronze ornamentation; select replacement as needed

Structural Steel:

- Replacement of deteriorated steel beams supporting masonry at the flagpole towers at the north and south wings

Additional Scope:

- Replace colored glazing to provide uniform glazing at auditorium
- Install new/replace horizontal copper banding at the front and sides of the building.
- Install new/replace copper wreath and garland ornamentation to match the original missing ornamentation
- Install new interior manual roll shades

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Concrete Repairs

Concrete:

- Repair concrete foundation cracks and spalls

Brick Masonry:

- Partial pointing of brick masonry joints
- Replacement of cracked and spalled brick masonry units.
- Clean all exterior masonry surfaces.

Typical deteriorated brick mortar

Example of spall at concrete foundat

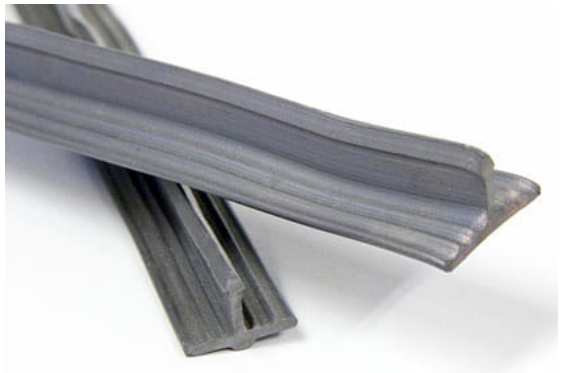
Deficient previous mortar rep s

8.4.e

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Masonry Repairs

Granite Masonry:



- Select pointing of granite masonry joints
- Repair of cracked and spalled granite masonry
- Installation of lead tees at sky-facing joints within the granite cornice ledges
- Clean all exterior masonry surfaces

Typical deteriorated granite mortar joints

Example of historically sensitive mortar pointing and marble rebuilding

Example of lead tees and installation

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Window Repairs

Windows:

- Restoration and repair of window frames and sashes.
- Replacement of all window perimeter sealants.
- Installation of interior low-profile aluminum storm windows
- Replacement of the trim and sheet metal panels clerestory rising wall
- Installation of exterior, remote-operated, black-out roll shades at clerestory windows

Typical condition of auditorium windows with failed glazing putty, flaking paint, and isolated deterioration of wood components

Typical condition of G.A.R. Hall windows with deficient g[illegible] putty repairs and sill deterioration

Example of off-site window restoration process

Example of restored sashes read for reinstallation

8.4.e

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Window Repairs

Windows:

- Replace off-tint color glazing for uniform glazing appearance.
- Add interior shades at all locations for room darkening and privacy.
  - Current shades are not room darkening
  - DAR Hall has missing/broken shades
  - Changing rooms have missing/broken shades

Irregular Glass tint at replacement glazing areas

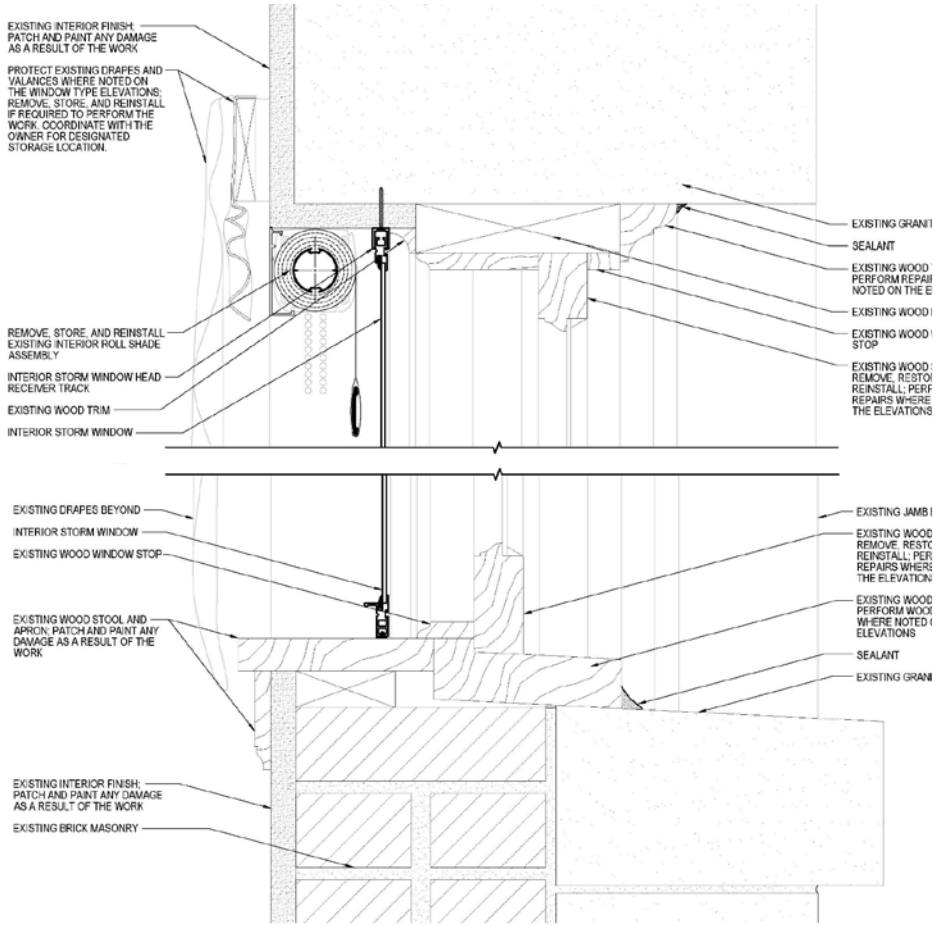
Irregular Glass tint at replacem glazing areas

Interior view of Main Hall

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Window Repairs

Interior Storm Windows:



- Install interior storm windows at all accessible window locations to improve window energy efficiency, while maintaining the historic exterior appearance
- Recommended by U.S. Department of the Interior Preservation Guidelines

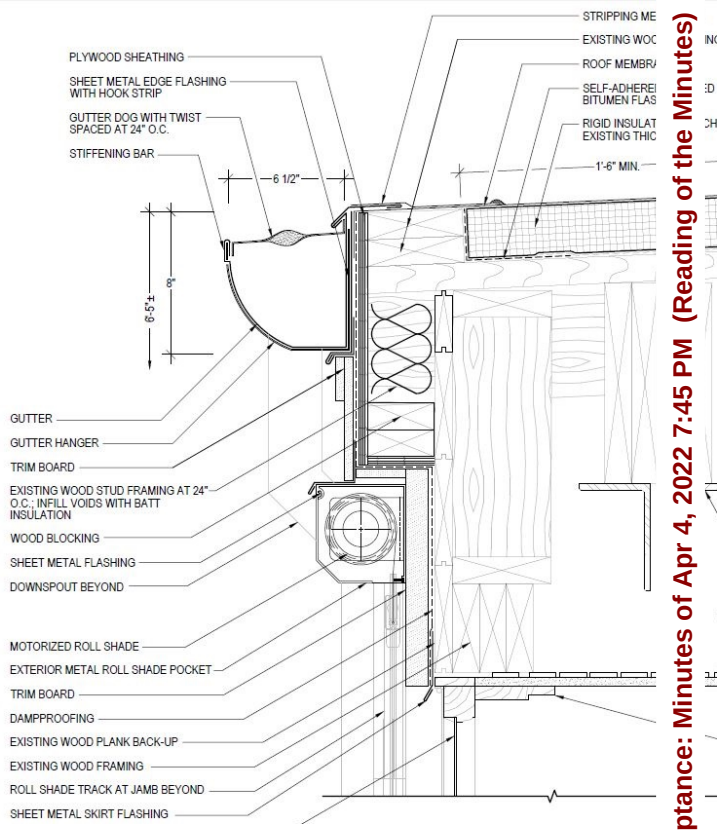
Example of interior storm window installation

Example of interior storm window installation

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Window Repairs

Exterior Black-out Roll Shades:



- Provide lighting control within auditorium space
- Motorized and remote operated for ease of use
- Interior trusswork and height of the clerestory windows makes interior installation difficult
- Exterior shades can be accessed from the roof for installation and maintenance

Black plastic sheeting installed over windows as current solution for lighting control

Example of exterior motorized black-out roll shades

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Siding Repairs

PVC Trim and Fiber-Cement Board Siding at Clerestory Rising Wall:

- Existing wood and sheet metal siding experiencing severe deterioration
- Existing wood trim appears to not be of quality for exterior use
- Replacement wood trim would require ongoing maintenance
- PVC and Fiber-Cement boards do not require painting and are less susceptible to moisture
- Limited visibility from grade

Typical condition of sheet metal siding and wood trim

Example of fiber-cement board and batten installa

Typical condition of wood trim at clerestory wind

8.4.e

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Door Repairs

Doors:

- Scraping, repairing, and painting the wood front entrance doors and metal doors.
- Replacement of the wood North Lobby entrance doors
- Replacement of the organ access door at the rear of the building

Overall image of front entrance doors

Isolated deterioration of wood components and missing weatherstripping

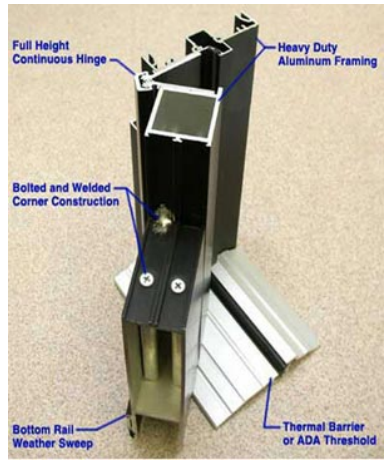
Typical condition of existing metal doors

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Door Repairs

North Lobby Replacement Doors:

- Existing wood doors at the North Lobby exhibiting severe deterioration
- Doorway primarily functions as a utility entrance/egress for events
- Not currently code compliant
- Replicate configuration of the South Lobby (Main) Entrance Doors utilizing commercial-grade metal doors with wood grain finish for higher durability and meet current code requirements



Overall image of South Lobby doors; configuration to be replicated

Example of metal replacement doors with a wood grain finish

Overall image of North Lobby doors to be replaced

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Door Repairs

Organ Access Replacement Door:

- Function is to provide access to the organ for replacing pipes and has limited usage
- Existing door appears to consist of laminate wood material exhibiting gaps and deterioration and does not appear to be original to the building
- Goal is to replace the door and frame with a fiberglass door that consists of either one flush door leaf or two separate door leafs with meeting rail to match the existing appearance
- Fiberglass is more cost effective, requires less maintenance, and resists moisture better than wood

Example of flush fiberglass door

Condition of current organ access d r

Example of fiberglass doors with inset paneling and wood grain finish

8.4.e

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Roof Replacement

Roofing:

- Roof Replacement at main roof and lower roofs
- Replacement of coated copper gutters and downspouts
- Lower and cap chimney

Vapor retarder was found to be improperly terminated around the perimeter of all roofs

Gutters with open seams and deflected downspouts at grade

Failed sealants and deficient flashing configurations

Multiple patches and failed membrane field seams

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Roof Replacement

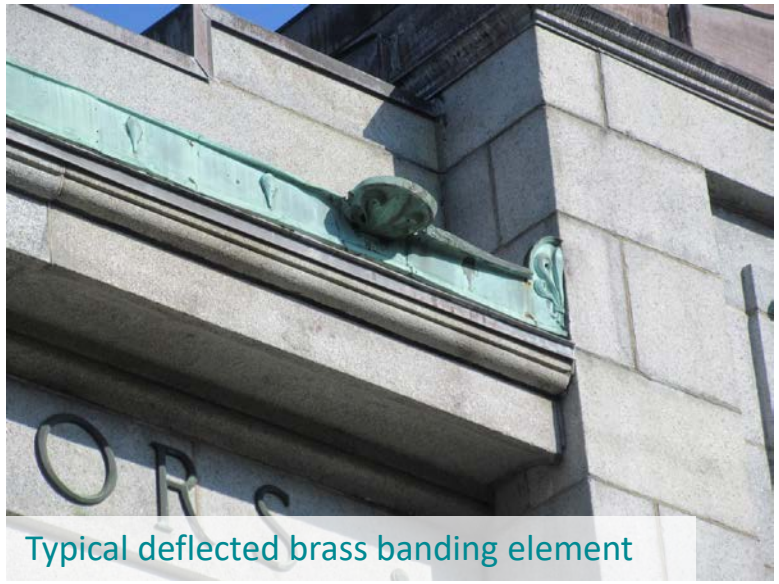
Chimney Cap Replacement:

- Existing chimney cap sits on four deteriorated brick piers with deflected copper-cladding with open seams
- Heavily corroded remnants of the cast iron flue are still in place
- Design intent is to remove the brick piers and install new cap at the chimney opening level

Overall image of the existing chimney

Brick pier with deteriorated mortar

Existing Chimney Cap



Lowered Chimney Cap

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Sheet Metal Repairs

Sheet Metal:

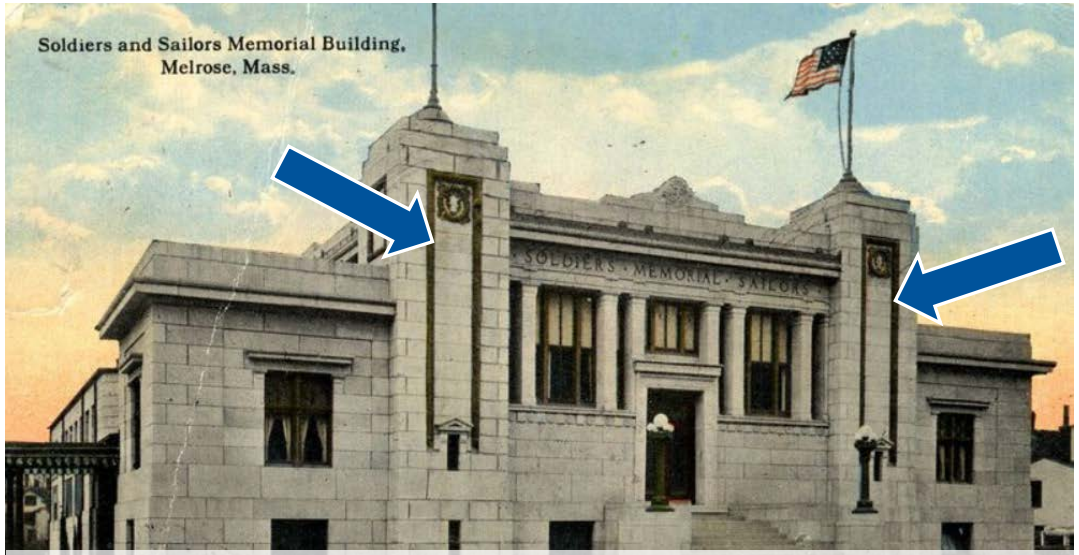
- Solder open seams within the existing copper cladding/flashings
- Replace of bent and damaged bronze ornamentation

Typical deflected brass banding element

Overall image of lead-coated copper sheet metal at flagpole bases

Isolated instances of open sheet metal solder joints

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)



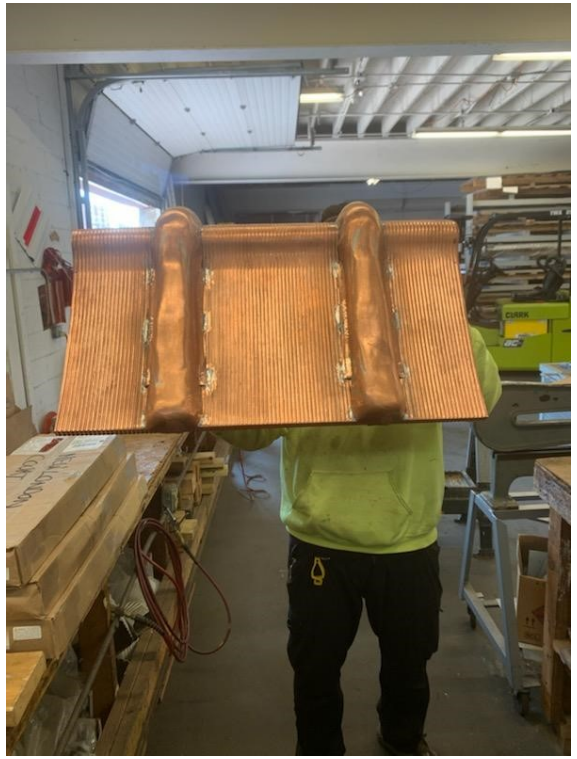
Sheet Metal Repairs

Sheet Metal:

- Replace horizontal bronze banding at the front and sides of the building.
- Install new/replace copper wreath and garland ornamentation to match the original missing ornamentation

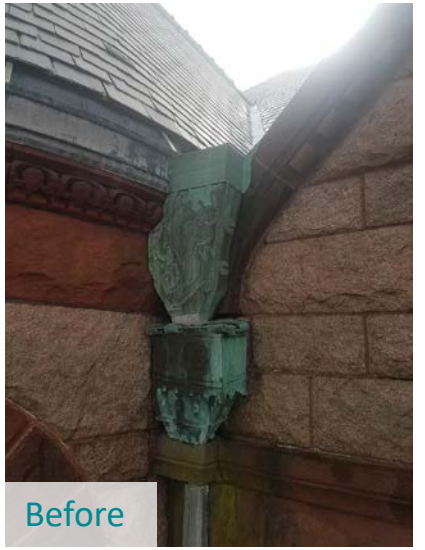
Existing bronze wreath and garland ornamentation

Early image of the building indicating original locations of garland ornamentation



Current image of the building indicating where garland ornamentation is now missing

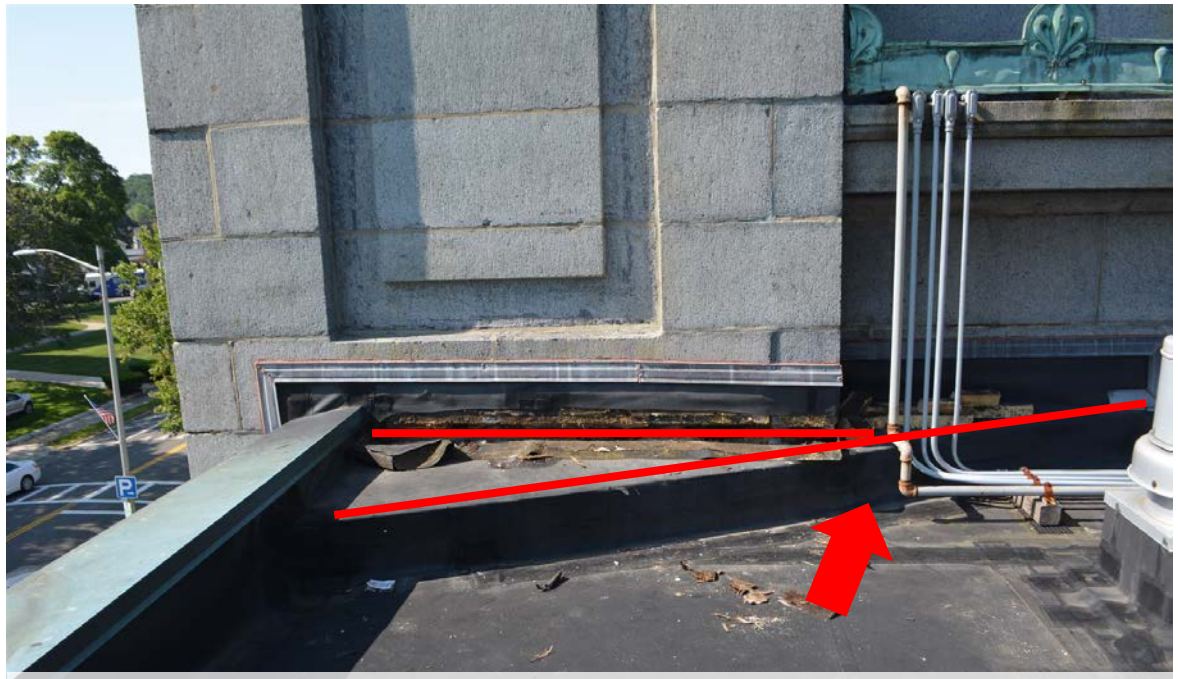
Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)



Sheet Metal Replacement

Example of ornamental copper replacement components

Examples of ornamental copper replacement components as installed:



Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Structural Steel Repairs

Structural Steel:

- Replacement of deteriorated steel beams supporting masonry at the flagpole towers at the north and south wings

Location of deteriorated steel beams at the base of the flagpole tower at roof level

Condition of the heavily deteriorated steel beams

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Expanded Scope Budget

Expanded Scope

- $317,700 Repoint all Granite
- $201,140 Repoint all Brick
- $459,712 Inclusion of all roofs for replacement
- $ 65,250 Inclusion of missing original copper detailing
- $ 20,925 Replacement of decorative existing copper banding at roof edge
- $ 41,202 Replacement/addition of shades at windows in occupies spaces
- $ 92,700 Replacement of Auditorium glazing

Soft Costs

- 299,657.25 general conditions, overhead and profit, and design/construction contingency

Total Additional Budget

- $1,498,286.25

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

From: James Bennett <[redacted]>
Sent: Monday, March 7, 2022 6:25 PM
To: City Council
Subject: Polling Locations

Dear Councilors,

I have just this afternoon read the Melrose Patch article regarding your meeting last Monday on consolidating polling locations, which you are expected to vote on as a full council tonight. Given time constraints, I do not have the opportunity to review the complete video of that earlier meeting before the beginning of tonight's meeting, so I do apologize if I am missing some context, but I would like to weigh in on one aspect of the discussion that the Patch highlighted in its article.

Some councilors expressed concern about the potential hazards to children in holding elections in elementary schools. I do not know when exactly elections began to be held in elementary schools in Melrose (although given more time, I could certainly find out!), but they have been used for that purpose for at least eight decades. In all that time, there has never been a criminal incident involving a voter endangering a child on election day. For that reason, I find the argument that adults may use election day as an opportunity to wander the corridors of schools to harm children to be without merit.

There was a second argument made which, if I understand it correctly, asserts that children are in danger of psychological harm from interactions with emotionally wrought voters. This is a more nuanced objection, to which I would offer as evidence a case study: myself. I attended the Beebe School from 1983 to 1989. At that time, lawn signs were considered socially unacceptable in Melrose, and I came from a non-political family, so my only opportunity to see politics explicitly at work as a young child was when candidates and political supporters would show up to hold signs and voters would come to cast their ballots on election day at my school. This was a very positive experience that helped to shape my curiosity about politics later in life. I would hate to see children in Melrose deprived of that chance.

In conclusion, I find the arguments that voters pose a physical or emotional threat to children to be spurious. More broadly, I am rather disheartened by the notion that voters are a class of people who should be shielded from the eyes of the youngest among us. Children should have every opportunity to see the workings of democracy from their earliest years, including (and perhaps especially) when participating in that process results in objectionable behavior among adults, as those observations can lead to eye-opening conversations among children, teachers, and parents that can make them better future civic stewards.

The question of where polling should take place involves many complicated questions, and given my present state of information I do not have a final opinion on where I would prefer to see polling locations. I am confident, however, that the question of potential harm to children should not be a factor in that decision.

Respectfully Yours,

Jim Bennett

From: Michelle Boucher
To: City Council
Subject: Please don"t consolidate voting
Date: Friday, March 4, 2022 6:49:44 PM

Dear Melrose City Councilors,

Thank you for your service to our city.

Thank you for voting not to permanently consolidate voting at the middle school. Our goal should be to make voting as accessible as possible so all citizens can participate in our democracy. Closing polling locations makes it less convenient and creates a barrier for voting. This makes us more like states I do not want to live in. If MA makes no excuse mail-in voting permanent, perhaps there could be some justification, but not until that is an option.

One benefit of having it at schools is that schools can do fund raising bake sales to pay for programs that benefit our children.

I agree that voters should not have access to the school buildings so it is a little shocking that we do not already have someone watching the gymnasium door to ensure no one can enter classroom areas. I would prefer you look into solutions for that than move everything to the middle school.

I also thought there were restrictions on electioneering near polling locations so campaigning can't be done within 150 feet. If that isn't respected, then police should be called to remove them. If 150 feet is too close, then perhaps look into options for the city to increase that distance. At Horace Mann anyway, the limit is beyond school property and seems reasonable.

I would also much prefer exploring options to improve accessibility issues for polling locations that are not in compliance rather than close them.

Thank you,
Michelle

Re: Permanent Centralized Voting

First and foremost, thank you for all you do for our city and its residents.

I would like to offer you the following facts (not opinions) in support of permanent centralized voting.

1. *It is VOTER FRIENDLY. This location could not be more centrally located for all residents—is handicapped accessible—ensures that no matter where you live you know your polling place. Why not make it easy for all our residents including our many new property owners? Our population has grown. This eliminates confusion with the redrawing of our precincts and wards. The argument that it isn't convenient for the elderly is an opinion. (Being born in 1948 allows me to state this as fact). Both seniors and younger residents who initially thought a centralized location was a bad idea changed their mind once they saw how smooth an operation it was.*

2. *It is CANDIDATE FRIENDLY. Unlike our recent municipal election, upcoming elections for State and Federal offices will be contested. Centralized voting allows candidates to send supporters/sign holders to one location. When the polls close, their representatives, as well as any media, need go to only one site to collect unofficial results.*

3. *It is STAFFING FRIENDLY. There are many reasons to remember 2020. One is that in a pandemic with no blueprint, the addition of early in-person voting, the addition of mail in voting, the presidential primary and general election were held in the middle school gym with excellent outcomes, thanks to the leadership of Joanne Perperian and the members of the Board of Registrars. As a precinct warden I can attest to how much better it was to have everyone in the same location—it was staffing efficient, budget efficient and security efficient. During the recent* municipal election, we were not fully staffed BUT because we were all in the same location, we were able to cross cover without issue. With the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

advent of mail in voting, at the end of day the ballot mail box outside City Hall must be checked at 8 P.M. for last minute ballots. We can't shut down our machines or begin end of night counts until those ballots have been documented at City Hall, divided by ward and precinct and delivered to be cast into the tabulators. Having one place to deliver these is far more efficient. As we saw in 2019 every vote counts!

4. As an aside: the idea that adding a ramp at the Winthrop School to address handicapped accessibility may solve one problem but would certainly create others. Having voted there for over 40 years and worked there for several years prior to 2020, I am comfortable in saying this suggestion does not work. It would take another letter to properly discuss.

It is with the greatest respect that I ask that you make centralized voting in Melrose permanent and put this issue to rest. If we do things the way we always have, we will never move forward.

**** **CAUTION:** This email originated outside the City of Melrose. Exercise caution. **DO NOT** open attachments or click links unless you recognize the sender and know the content is safe. ****

To; Melrose City Council,

My name is Joe Tully & I have been a Melrose Poll worker for the past several years. I have worked at the Horace Mann School, at the Lincoln School and most recently at the Middle School gym. I have worked as a check in Inspector, as a Clerk & most recently as a precinct Warden. So I think I have some reasonable experience working at the polls and would like to offer the following comments regarding a " Permanent Centralized Voting" location.

- The present set up at the Middle School is a wonderful One Stop Voting location. If you are unsure where to vote, on site staff will direct you to the correct precinct within one of the connected gyms. No longer will we have to send a voter to another location, driving & parking and taking more of their valuable time.

- With Centralized voting, we no longer have to struggle with poor phone connections from the Lincoln gym back to City Hall as we seek answers to questions about voter eligibility.

- Having on site City Clerk & Registrar of Voter staff with their tablets allows quick answers to voter issues especially with many of the new voters and new residents.

- The Middle School Gym area has a very accessible parking lot and no stairs for Seniors to have to navigate.

- With Centralized Voting, no longer will all the elementary schools have their routines disrupted, teacher parking taken, lunch space taken, along with pick up & drop off times being interrupted.

- Candidates for Office along with any Ballot questions can now have their supporters & opponents all centrally located vs being dispersed all around the City on election days.

- In this day & age where public opinions can become somewhat heated, I feel that a Centralized location offers better security both for the voting staff as well as the voters.

- A Centralized location definitely offers a better sense of community, as neighbors & friends see each other outside of their own corners of Melrose.

- As recent election experience has shown, having all the elections workers in one location allows for good cross training and assistance between wards & precincts as issue arise or staff becomes busy.

- There is probably an economy of scale in a Centralized location with the DPW & School staff doing the set up the day before & the take down right after the polls close in just one location vs working at all the elementary schools & City Hall for set up and take down of the polls.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

I am sure there are many additional good reasons to continue with the centralized Middle School voting that you have already thought of & considered. So please consider my comments as a YES to continue this very successful way for our residents to cast their votes going forward.

YES for Permanent Centralized Voting.

Joe Tully

INFORMATION ITEM 2022-4

Request for Information regarding ARPA funding (Item #9582)

BE IT ORDERED, that the Mayor and his designee appear before the City Council to provide an update on the ARPA funding received for the City of Melrose. In Particular, this order seeks information regarding the status and planning of anticipated initiatives for the City using this funding and the relevance to the impact that COVID has had and continues to have on the City.

Submitted By:
Councilor Robb Stewart, Ward 3,
Councilor Mark D. Garipay, Ward 4.

HISTORY:

01/18/22	**City Council**	**ASSIGN TO COMMITTEE**
02/28/22	**Appropriations and Oversight**	**RECOMMEND PLACE ON FILE**

Mayor Brodeur and Margot Fleischman, Chief of Staff, appear to update the Council on the ARPA (American Rescue Plan Act of 2021). As a maker of the order, Councilor Stewart provides an introduction regarding this order. He cites the changing dynamics and added flexibility that has been provided with the ARPA funding and accordingly requests that the Mayor and his Administration provide an update on appropriations of this funding.

Mayor Brodeur highlights his State of City Address saying that he provided a large overview on ARPA. He talks about a wide range of funding provided to different communities. For example, some towns received monies as low as one million. Arlington however received 35 million. Melrose received just shy of 8 million. Mayor Brodeur emphasizes that he wishes to use these funds across multiple projects and not just one major project.

Citing that these funds will run dry, Mayor Brodeur cautions about adding employment or programming. If the city does this, the city will either need to fund or discontinue the program. Furthermore, citing the possibility of another COVID curve ball, Mayor Brodeur indicates that some of this money will be reserved should it be needed for any COVID matters. The Mayor emphasizes that ARPA funds cannot be used to pay debt, lower taxes, or add to rainy day fund accounts. They city has already committed half a million for the library renovation HVAC project. Other projects will include infrastructure and recovery from the pandemic.

Chief of Staff Margot Fleischman summarizes her memo regarding the ARPA monies (attached to order). Margot highlights that the Mayor is looking to use funds to the greatest extent possible related to COVID recovery in the community. Margot emphasizes that the change in spending rules and protocol

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

allows Melrose to do other things that might not have been allowable just a few months before. Margot speaks about a new position to be funded via ARPA funds for a new Economic Recovery and Business Development Director. The city, through department heads, has received project proposals totaling seven million over the next three years.

Councilor Stewart asks about the community needs survey put out by the Mayor's Office. Over the three days 300 responses have come though. He also asks about the future funding of the social worker position added by the city. Mayor Brodeur speaks about the need for this position and suggests that other state grants can cover this position after 2025.

Councilor Williams asks about the deadline of the community survey posted to help determine what residents want and solicit community input. He also asks if the city is contemplating a meeting to highlight the findings of the survey. Councilor Eccles ask for clarification on the actual revenue lost due to the pandemic. Margot, citing the consultants, indicates the loss to be one million. Councilor Eccles asks if departmental budgets will be expanded for these new positions. Margot indicating that these positions are grant funded, the departmental budges will not be impacted.

Councilor Jamaleddine took the online survey and loved all the ideas seen on there. She asks how a decision will be reached regarding these projects. Mayor Brodeur indicates that projects will be weighed out and that projects that affect the entire community will be prioritized. Examples of projects that address the needs of the community include youth wellness, mental health, substance use prevention, investments for people of all ages, investments for our Council on Aging and programs that touch a broad swath of our community.

Vice Chair Migliorelli makes a clarifying point to the public that the spending of the ARPA funds is fully under the Mayor's control and not something that is approved by the City Council.

Vice Chair Migliorelli inquires about the ARPA money used for public safety training equipment with a $77,000 price tag. Margot responds saying that after a need and a grant were presented, the city purchased this equipment for use by both the police and fire departments to save on training costs down the road.

Councilor Garipay asks for specific clarification on the school revenue loss. Further, Councilor Garipay asks about the ARPA deadlines. Margot highlights December 31, 2024 as the deadline to encumber the money for a specific expense. The next two years (2025 and 2026) will be used to pay off and complete the projects. Councilor Garipay also inquires if the administration is still seeking out FEMA reimbursement.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Councilor Karamcheti asks for clarification on where these ARPA funds will be allocated. How do they fit into the big picture. How will these funds be used to represent the population that was most impacted by COVID? Particularly, what will we be doing for our youth who have lost countless hours of learning, and who have suffered socially and emotionally? Margot indicates that both the recreation and health departments are working closely to respond to the needs of kids and young adults. A new partnership has been formed and work is underway in this regard.

Councilor Karamchetei asks about the second pandemic that has been identified involving systematic racism and why no ARPA funds have been allocated to this cause. Mayor Bordeur responds saying that the community is working to have community conversations and soften these things. He further indicated that while the memo does not discuss such programs or even recreation, these ideas have not been ruled out or tossed aside. Margot elaborates about a report soon due from visions that will hopefully offer a road map in terms of specifics that may come out of that process. Councilor Karamcheti closes saying that where we spend our money shows our values. Mayor Bordeur highlights that seniors are dear to him and they too were not listed on the memo. He emphasizes that no final decisions have been made on these funds and that this memo does not represent an exclusive list.

CITY OF MELROSE

OFFICE OF THE MAYOR

PAUL BRODEUR
Mayor

City Hall, 562 Main Street
Melrose, Massachusetts 02176
Telephone - (781) 979-4440

MEMORANDUM

To: Melrose City Council
From: Margot Fleischman, Director of Strategic Initiatives and Communication
Re: Use of American Rescue Plan (ARPA) funds
Date: February 28, 2022

On behalf of Mayor Brodeur, I am pleased to present the Honorable City Council with this first interim update on the use of Melrose's ARPA funds, including funds that have been spent or committed to-date for specific projects, as well an overview on anticipated uses for ARPA funds during upcoming fiscal years.

Background

As the City Council will remember from our presentation last August, the City of Melrose is slated to receive a total of $8,374,174 in federal ARPA grant dollars. This money has been allocated by the federal government in two ways: a direct grant to municipalities and another grant to counties. The direct grant to Melrose is $2,932,394, and our reallocation through the Middlesex County Federal ARPA Assessment will be $5,441,780.

ARPA direct grant funds are being disbursed to municipalities in two equal tranches, with 50% provided at the end of FY 21 and the balance delivered approximately 12 months later. Melrose received the first half of our direct grant ($1,466,197) last June, and will receive the remainder by the end of FY22. We anticipate that the Middlesex County reallocation will also be released in two equal parts beginning in FY22. ARPA grant funds must be spent or encumbered by December 31, 2024.

Changes to Treasury Department Rules

On January 6, 2022, the U.S. Treasury Department released the Final Rule for the State and Local Coronavirus Fiscal Recovery Fund (SLFRF) which substantially expanded the parameters for use of ARPA funds. Rather than being required to calculate lost revenue against a pre-pandemic baseline, municipalities may now choose to take a "standard allowance" of $10 million. Under this option, Treasury presumes that up to $10 million in revenue has been lost due to the public health emergency and recipients are permitted to use their allocation to fund "government services" which is the most flexible eligibility use category under the SLFRF program.

For municipalities such as Melrose that are receiving an amount less than $10 million, this means that the uses for ARPA funds are no longer restricted to the prior categories provided in the Interim Final Rule (e.g., specific types of water/sewer projects, expanding access to broadband, and COVID-19 response). Prohibitions on the use of ARPA funds for payments for debt service and replenishments of rainy day funds remain unchanged in the Final Rule.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Project identification and evaluation

ARPA expenses are administered by the Mayor, and in assessing potential uses for ARPA funds, the priority of our administration has been and continues to be identifying the areas of greatest need and relevance to the City's recovery from the COVID-19 pandemic. We are also cognizant of the number of other funding sources, including grant programs funded through the Commonwealth's ARPA allocation, which are coming on line, and are to the greatest extent possible avoiding using our local ARPA dollars on projects that could be funded through another program.

Potential ARPA-funded projects are being identified by City departments and reviewed and evaluated by the Mayor in collaboration with the Chief Financial Officer/Auditor, department heads, Melrose Public Schools leadership including financial personnel, and our outside consultants from the accounting firm of Clifton Larson Allen, LLP ("CLA"). Since last August when the ARPA funds were accepted by the City Council, this group has been meeting regularly to determine eligibility and appropriateness of potential uses for these funds under the Interim Final Rule. Like many other Massachusetts municipalities, we have been deliberate and thoughtful about expending ARPA funds in advance of the issuance of the Final Rule. We also remain ever cognizant of the need to allocate these funds to projects that can be completed during the required timeframe.

The Mayor has received a wide range of project proposals from City departments which the Mayor and his team are still in the process of evaluating. These proposals address a wide variety of needs and total over $7 million.

Approved ARPA funds expenditures

To-date $1,073,202 in ARPA funds have been expended for the following projects or initiatives:

- Public Safety Training Equipment – $77,885
- Milano Center HVAC project – $218,729
- Schools Revenue Loss Replacement – $802,435
- Accounting consultant services - $6,888.00

Another approximately $105,000 in ARPA funds have been approved for FY22 but not yet expended. These include:

- Economic Development/Recovery position – $37,000
- Fire Headquarters HVAC – $35,000
- At-Home COVID-19 Tests – $30,000
- Accounting consultant services - $3,000

We anticipate that the Mayor will approve a significant number of other projects during the remainder of FY22.

Use of ARPA funds in future FYs

In FY23-25, we anticipate using or continuing to use ARPA funds to pay for a variety of City needs and priorities, including but not limited to:

- Economic Development/Recovery position
- Small business/non-profit recovery

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- FT Social Worker
- PT Youth Public Health Specialist
- Community Mental Health Initiatives
- Library Renovation Project
- New sidewalks
- Upgrades to parks and recreational facilities
- Lead water service line replacement project
- Cybersecurity

Community Needs Survey

We do not expect that all projects that have been identified will be funded at this time. As a best practice, ARPA funds will not be fully allocated in the first Fiscal Year, both to allow the City to respond to ongoing and changing public health needs from the COVID-19 pandemic, as well as to provide for the opportunity for input and feedback on community priorities. To this end, we have just launched a Community Needs Survey in order to help identify the most pressing issues for residents, small business owners, and community-based non-profit organizations. We welcome input from the Council on these priorities.

INFORMATION ITEM 2022-2

Order for an Update on the Status of Covid-19 in Melrose (ID # 9548)

BE IT ORDERED, pursuant to Section 2-7 of the Melrose City Charter, that the Health Director appear before the City Council to provide an update on the status of Covid-19 in the City of Melrose. In particular, this order seeks information regarding the City's efforts to monitor and mitigate the spread of Covid-19 in our community, including but not limited to the metrics that the city is following, the roll out of the citywide mask mandate, health protocols in place for all public-facing city staff, and/or plans for vaccine requirements.

This update will not include mitigation efforts at the Melrose Public Schools, as it is not under the jurisdiction of the Council.

Submitted by

Councilor Leila B. Migliorelli, At-Large
Councilor Maya Jamaleddine, At-Large
Councilor Jen Grigoraitis, Ward 6

HISTORY:

01/10/22 City Council HOLD

Health Director Anthony Chui appears to discuss the ongoing efforts to address the pandemic; there has been a surge with between 59-70% of active cases attributed to the Omicron variant. Delta is prevalent as well. Still seeing hospitalizations and folks struggling with the virus; this is still serious. We are in good shape in vaccinations with 80% vaccinated in Melrose. Room for improvement in administering boosters. Going to be promoting need to get vaccine and booster as well as provide additional clinics with the state. The indoor mask mandate was recently reinstalled to prevent spread. Messaging mask quality - cloth masks alone are not as useful in preventing transmission as 3 ply or N95's or KN95's. Positive rate is currently 13%, a number we haven't seen since beginning of Covid however hospitalizations have not increased. It is believed these numbers are undercounted as there is no state reporting mechanism for home positive test results.

Councilor Migliorelli ("LM") asks about the statewide procurement program for antigen test kits. Director Chui ("AC") is looking at different vendors as well as the state program so there will be procurement through a combination of both. LM -How many kits are anticipated and has there been a bulk purchase for staff? AC - minimum order number will be forthcoming; as well as a distribution plan. Some of the mask supply was distributed first to businesses. Employees may also get masks. LM - Do all departments have access to masks? AC - either from us or they may

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

place an order. LM - any other city-wide restrictions anticipated? AC - not at this time. LM - asks about booster rate. AC - to align with CDC and DPH guidelines we have to allow time for people to obtain the vaccine/booster. Reviews the guidelines.

Councilor Jamaleddine ("MJ") asks if the vaccination rate for employees is known. AC - not at this time but we're looking at data collection. MJ - Is a vaccination mandate on the table? AC- not at this moment. MJ - There is no certainty that the city employee I am dealing with is vaccinated like an responding officer. AC - Hypothetically if there were an emergency we could not guarantee the person was vaccinated. We mandate masks for all employee interactions. MJ - Is there consideration for supporting our elderly population in test education? AC - a plan is being developed for equitable distribution for those who do not have ready access, for example the senior population. Working with Mystic Valley Health, our social worker and the Council on Aging to be sure seniors have access and that they are using them correctly. MJ - Is our nurse assisting our older adults? AC - the public health nurse is doing lot of city wide education and she will be working with the new public health specialist. They should be able to help reach this group and help with education. MJ - is testing offered to city employees? AC - we don't have any community PCR sites but are ordering at-home tests. MJ - is Melrose/Wakefield hospital an option? AC - we are in discussion on collaborating.

Councilor Grigoraitis ("JG") asks about the City's three prong approach of masking, testing, vaccines -currently adults entering Melrose public schools (teachers, custodians, health staff, school resource officers) have to either show proof of vaccination or submit to weekly testing. Seeks to understand why this is in place at school but not for all municipal buildings like the library, senior center. From a public health perspective how are these different situations? AC - We were separating schools from the community and are discussing whether this is sustainable. Looking at different employee mandate options. JG - Is there a timeline? We're at 13% positive rate and it is probably too late for Omicron. As you hire the new public health nurse are asking vaccination status? AC - clarifies that the COVID nurse position is a school floater position. We are looking at vaccination status of new as well as current employees. We aren't looking to drag this out. JG - asks about mitigating community efforts are capacity limits on the table. AC - not at this time. JG- we ask students testing positive on an antigen test to self report. Are we also asking residents to do the same? AC - The school environment is much more controlled. For the general community it is a struggle to operationally collect the positive data via MAVEN. Cannot link close contact within this system and track positive at-home antigen tests. JG - Are negative antigen test results are being discussed for municipal staff similar to students? Right now city hall staff are able to return to work on day 6 following a positive test without a negative test? AC - symptoms are the indicator; if someone has symptoms they are asked to stay home

Councilor Stewart offers feedback regarding Health Department communication. Exercise caution and be crystal clear, particularly that directed to parents regarding change in school policy. When an email is unclear it can create more noise than necessary. Offers assistance.

Councilor Eccles ("JE") clarifies vaccination status of job applicants - is status required now? AC - no. JE - concerned with Melrose becoming a place where unvaccinated people apply to work. Wants all employees to feel safe.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Councilor Garipay ("MG") asks for details on how the vaccine clinics work, what is the process with the state? AC - trying to find balance with state. The vax bus can be brought to the community and has now come to Melrose congregant housing. We were able to provide 2, 000 boosters and are determining what group has the most need at this time. Looking at regional events with surrounding communities to share resources like staff.

Councilor Karamcheti ("MK") asks if deeper analytics are available regarding the positive cases to determine needed support? AC - some of the state data is detailed and they are examining it to see where the need is?

Councilor Williams ("RW") asks if a public testing program is being considered? AC - working with the state to provide a resource that will be Melrose region specific. Currently testing is being done by private companies - CVS, Walgreens, Square One.

COMMENTS - Current Meeting:

Councilor Migliorelli moves to hold the item as Health Director Choi (previously provided information to the Council) will be addressing the COVID related issues in the school tomorrow night and this would allow time for the any changes to take place before he reappears to discuss COVID.

To: Melrose City Council

From: Lauren Grymek, Director of Economic Development, on behalf of Mayor Paul Brodeur

Re: Acceptance of State Funding for Small Business Relief

Date: March 15, 2022

On behalf of Mayor Brodeur, I am pleased to present the Honorable City Council with a request to accept funding from the Commonwealth's bill H.4269: *An Act relative to immediate COVID-19 recovery needs*.

As part of this bill, the City of Melrose will receive $75,000 from the Executive Office of Housing and Economic Development (EOHED) for economic recovery efforts in small business and nonprofit sectors (appropriation # (1154-1155). There is no match required, and although the funds may be used over the next four years, the City of Melrose will use these funds in the current fiscal year.

Funds will be disbursed to the City of Melrose as follows: 50% of the earmark will be distributed upon receipt of the signed EOHED Standard Contract Form. A second allocation of the remaining 50% will be made on a reimbursement basis, following receipt of an official Cost Reimbursement Invoice and Final Report, both of which are due when all expenditures towards the project have been incurred. At the time of this memo, a budget, scope of services and standard contract form are being finalized with EOHED.

This funding will allow for initiatives and programs that strengthen the local economy including, but not limited to, the continuation of the successful Pop-Up program at 12-14 Essex Street, support for Melrose small businesses and non-profits in the form of one-time grants or special project reimbursements, programming that supports both the business and arts communities, and other economic recovery initiatives.

Background:

In December, Melrose state legislators Senator Jason Lewis and Representative Kate Lipper-Garabedian, along with their State House colleagues, passed a $3.998 billion spending plan that will make significant investments in the Massachusetts economy to further stimulate the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Commonwealth's recovery from the COVID-19 pandemic. The bill, *An Act relative to immediate COVID-19 recovery needs*, uses federal monies received from the American Rescue Plan Act (ARPA) as well as the Commonwealth's Fiscal Year 2021 (FY21) budget surplus to provide funding investments in housing, schools, environment and climate mitigation as well as workforce development throughout the Commonwealth.

I respectfully request acceptance of these funds so that this recovery work may move forward. Thank you for your consideration.

George J. Bibilos

Experienced and Innovative Human Resources and Government Leader

264 Grove Street, Melrose, MA 02176

Email: [redacted]

[redacted]

Over 30 years of government and human resources experience, with the Commonwealth of Massachusetts currently serving as the Human Resources Director for the Division of Capital Asset Management & Maintenance.

A leader in the Grand Lodge of Masons in Massachusetts (est. 30,000 members), having served as Deputy Grand Master in 2011 and served on the Grand Lodge Board of Directors from 2010 to the 2016. Also serves as Chairman of the Budget Committee.

In addition, a leader in the Greek Orthodox Community at Annunciation in Woburn serving on the Board of Directors (BOD) most recently since 2013. In January 2017, was elected President of the BOD.

Experience:

Human Resources Director, Division of Capital Asset Management & Maintenance
October 2017 - present

- Manage the human resources, training, labor relations and payroll functions for the department.

Director of Classification & Compensation and Civil Service at Commonwealth of Massachusetts, Human Resources Division
2010 – January 2018

- Manage the Executive Branch of the Commonwealth of Massachusetts classification and compensation plans, oversee Executive Branch hiring policies and procedures, talent management and position management (Oracle/PeopleSoft v. 9.2).
- Manage the development and administration of public safety civil service exams and its $2.5 million dollar budget. With the procurement of on-line technology (NeoGOV), Civil Service has streamlined interactions with their customers (both appointing authorities and test applicants) and dramatically reduced the use of paper by well over 50%.

Director of Classification & Compensation, Human Resources Division at Commonwealth of Massachusetts
2003 - 2010

- Manage the Executive Branch of the Commonwealth of Massachusetts classification and compensation plans and corresponding salary administration rules.
- Evaluate jobs using the Hay Point Factor System.
- Develop and update job specifications and corresponding job analysis.
- Conduct and participate in salary surveys.
- Manage Executive Branch hiring policies and procedures.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Manage a number of statewide programs including the Commonwealth of Massachusetts Performance Recognition Program (PRP), State Employees Responding as Volunteers (SERV) Program, the Commonwealth of Massachusetts Charitable Campaign (COMECC), and the Managers' Merit Pay Program.

Deputy Director of the Workforce Management Group at Commonwealth of Massachusetts, Human Resources Division
1999 - 2003
Manage the Executive Branch of the Commonwealth of Massachusetts classification and compensation plans, oversee Executive Branch hiring policies and procedures, as well as physical abilities exams for entry level police officers and firefighters ($1.5 million dollar budget).

Director of Human Resources at Commonwealth of Massachusetts, Executive Office of Public Safety
1998
Managed all of the human resources and payroll transactions for the Executive Office of Public Safety. Provided oversight for all human resources activities for public safety agencies.

Senior Classification & Compensation Analyst, Human Resources Division
1996-1997

Human Resources Generalist/Recruiter, **Massachusetts Department of Public Works**
(now the Massachusetts Department of Transportation – MassDOT)
1991-1996

Education:

Northeastern University, Bachelor's degree, *cum laude*, Political Science and Public Administration, 1985 - 1990
Franklin Covey, Leadership for the Public Sector, 2006
Bentley University, Human Resources Certificate Program, 1997
Melrose High School, Diploma, 1982 – 1985

Honors and Awards:

Commonwealth of Massachusetts Citation for Outstanding Performance (multiple years)
Commonwealth of Massachusetts Manual Carballo Governor's Award for Excellence in Public Service (2014)
Henry Price Medal for Distinguished Service to the Masonic Fraternity (2011)

Interests & Activities

Member, Board of Directors, Congregational Retirement Homes
Gen. Secretary (Past President), Annunciation Woburn Greek Orthodox Church Parish Council
Secretary, Golden Rule Lodge A.F.&A.M.
Member, Northeastern Loyalty Society
Friends of the Public Garden
Friends of the Melrose Public Library

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Historical Commission

Fleischman, Margot

From: George Bibilos
Sent: Monday, March 7, 2022 10:22 PM
To: Volunteer; historicalcommissionofmelrose@gmail.com
Subject: Melrose Historical Commission

To whom it may concern:

I saw on the Melrose Historical Commission Facebook page that they are looking for new members. While I'm not sure of all of the responsibilities of serving as a member, I am interested in possibly serving.

I have lived in Melrose since 1970 when my family moved here from Woburn. At that time, we lived on West Wyoming Avenue, across from Lincoln School. In 1978 we moved to the lower end of Linden Road where I would finish elementary school at the Franklin School. I attended Melrose Junior High School and graduated in 1985 from Melrose High School. I went on to attend Northeastern University, graduating with a degree in Political Science. I have worked in state government for the past 30+ years working in the field of human resources. I am currently the Director of Human Resources at the Division of Capital Asset Management and Maintenance, a position I have held for the last 4+ years.

I am married with 4 children. We started out in our first house on Irving Street in 1993, moving to our next house on Vinton Street, near Cedar Park, in 2000 and finally when our 4th child arrived we moved to our current home in 2006, a Victorian on upper Grove Street.

I have a lot of good memories of Melrose and it has changed a lot in the 50+ years I have lived here. The wonderful downtown and its Victorian lighting, the incredible housing stock, the distinctive neighborhoods, the investments in our schools, the upcoming library project, Memorial Hall, the incredibly talented people who live in our city and on and on make Melrose a great place to live.

Let me know what you might need from me and if you could provide any further details about the role it would be greatly appreciated.

Best regards,

George J. Bibilos

Charles Harak

Professional Experience

National Consumer Law Center
Boston, Mass.
Staff Attorney (March 2001 – Present)

- Specializes in energy, utilities, and telecommunications issues affecting low-income consumers. Writes extensively for NCLC manuals and publications. Provides legal and technical support to low-income advocates, legal services lawyers, and government officials. Represents consumers before regulatory agencies, legislative bodies, and other policy forums. Leads workshops, webinars and training sessions for lawyers, policymakers, advocates.
- Manager of the NCLC Energy Unit, 2011-early 2021. Supervising three attorneys and one analyst/professional. Responsible for unit budget management, assists with hiring.
- Strong focus on low-income energy efficiency programs and appliance efficiency standards, including through serving on advisory boards/councils for the Massachusetts Weatherization Assistance Program, Massachusetts Energy Efficiency Advisory Council, and Appliance Standards Awareness Project, and through reports covering the Weatherization Assistance Program and the Massachusetts network that delivers low-income energy efficiency services.
- Key litigation: co-counsel in *NRDC v. Bodman* (2006) – consent decree entered, requiring defendant DOE to adhere to a fixed schedule for updating energy efficiency standards for 22 residential and commercial appliances and products; co-counsel in *NRDC v. Abraham*, 355 F.3d 179 (2nd Cir. 2004) – Court of Appeals overturned defendant DOE's decision to roll back an increase in energy efficiency standard for air conditioners.
- Notable projects/advocacy: "Project Stay Connected," which has trained over 4,000 front-line Massachusetts human services staff in the basic rights of utility customers; led advocacy effort that resulted in over 60,000 low-income households being added to discount electric and gas rates (MA DTE 01-106); key advocate in passage of Ch. 139 of Acts of 2005 (MA), adopting appliance efficiency standards for several products; drafted portions of Ch. 140 of the Acts of 2005 (MA) which added $20 million to state's fuel assistance program and required utilities to adopt arrearage management programs.

Bernstein, Cushner & Kimmell, P.C.
Boston, Mass.
Senior Attorney (1998 – 2001)

- General practice of law with concentration in energy/utilities and contracts/business law. Practice included a broad range of individual, non-profit, municipal and business clients.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Office of the Massachusetts Attorney General
Boston, Mass.
Senior Attorney (1995 – 1998)

- Enforced, primarily through litigation, insurance and consumer protection laws on behalf of the public, in the areas of health, automobile, property and life insurance; intervention in administrative rate-setting and related hearings affecting gas, telephone, and auto insurance companies; mediation of consumer complaints; supervision of volunteer lawyers and law student interns.

Massachusetts Law Reform Institute
Boston, Mass.
Staff Attorney (1979 – 1995)

- Conducted litigation, administrative advocacy, and policy analysis for low income clients and non-profit organizations, in the areas of housing, energy, and utilities law. Responsibilities included: litigation; administrative hearings; office management (financial planning, budget analysis); training of lawyers and paralegals; legislative drafting and lobbying; writing and editing of legal treatises and newsletters; advice/support to attorneys, paralegals, agencies and individuals; counsel to association of public housing tenants.
- Sample Litigation: *Barrert v. Allison*, #80-1389-MA (Fed. D. Ct. Mass. 1980)(awarding $3 million in unspent fuel assistance funds to low-income households); *Walker v. Georgetown Housing Authority* #92-CV-226 (Northeast Ho. Ct. 1994)(upholding plaintiffs' First Amendment challenge to ban on door-to-door campaigning).
- Sample Appellate Work: *Skinner v. Boston Housing Authority*, #88-2027 (1st Cir. 1989)(successful appeal on attorneys' fees claim); *Felicetti v. Secretary of EOCD*, 386 Mass. 868 (1982)(affirming that release of fuel assistance funds was illegally delayed); *Lezberg v. Rogers*, 27 Mass. App. Ct. 1158 (1989)(affirming that landlord illegally failed to pay for utilities).

Massachusetts Public Interest Research Group
Boston, Mass.
Staff Attorney (1977 – 1979)

- Represented MassPIRG in hearings on utility power plant construction program.

Boston College School of Law
Boston, Mass.
Instructor of Law (1976 – 1977)

Current Boards and Advisory Councils

State-appointed member of the Massachusetts Energy Efficiency Advisory Council

Historical Commission

Fleischman, Margot

From: Kimberly Marolda om>
Sent: Thursday, March 10, 2022 9:41 AM
To: Volunteer
Subject: Fwd: Melrose Historical Commission Member Application

Good morning!

I recently viewed your post on the Melrose Historical Commission Facebook page regarding the solicitation of new members. I would love to be considered for membership!

I have lived in Melrose since 2016 in the Highlands, and currently work in HR for Mahoney's Garden Centers. I have always been intrigued by not only the history of our town's growth and development, but also of the cultural history of our community. Learning more about changes through the passage of time has been a long-time passion of mine.

I graduated from the University of Wisconsin with a triple BA in Anthropology, Classical History, and Ethnic Studies, and spent a decade immersed in historical museum studies within the city of Milwaukee's museum industry. As a result, I am one of those rare birds who actually enjoys researching, presenting, and archiving items and stories of cultural significance. I feel it is important to preserve the memories of where we came from, as it helps shape our future and builds character, especially at the local level.

Plus it's just downright fun.

I look forward to continuing this discussion and learning more about membership, if you would have me!

Thank you for your time,

Kimberly Marolda

EDUCATION

Bachelor of Arts, Multidisciplinary Studies in Marketing/Writing
Southeastern Massachusetts University, North Dartmouth, Massachusetts

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

March 14, 2022
Thomas Champoux
87 Crescent Avenue
Melrose, MA 02176

Dear Mayor Brodeur:

Please accept this letter and resume as an indication of my interest in serving on the Melrose Historical Commission. I have lived in Melrose for over twenty years, and am proud that my wife and I were able to raise our two children in such a wonderful city.

Professionally, I have more than twenty years of experience in nonprofit marketing and communications, including working at several Boston-area museums and libraries that had a strong focus on preserving and sharing history. While at the Mary Baker Eddy Library, I came to fully appreciate the way history and society intersect to create connection and understanding throughout a community. During my time at the New England Historic Genealogical Society, I engaged students and adults in better understanding the way family history and genealogical research can uncover incredible stories and bring people together through shared experiences. This work included researching homes and properties. I am currently also a host for the local online television program, "Let's Talk Melrose, Melrose," with weekly guests and discussions covering a wide range of local topics.

I am also an avid hiker in the Middlesex Fells and currently volunteer for the "Friends of the Fells," serving as a hiking leader. I have been using the Fells as a destination for nearly twenty years, and greatly appreciate this incredible, natural wonder within our city.

I see Melrose's incredibly rich history as part of the attraction for so many current and future residents. A history that touches every corner of the city with a power to inform and inspire. I welcome the opportunity to serve on the Historical Commission as it seeks to preserve, protect, and promote Melrose's heritage for the benefit of so many.

Kind regards,
Tom Champoux

City Council

Paul Brodeur, Mayor

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

March 14, 2022

Dear Mayor Brodeur,

I am writing to express my strong interest and excitement in becoming a member of the Melrose Human Rights Commission. I have lived in Melrose with my family for the past 21 years and been an active member of the community serving on boards and committees committed to making Melrose more inclusive. Additionally, I have more than twenty-five years of professional experience as a volunteer and community engagement leader with a deep commitment to diversity, equity, inclusion and access throughout my work.

In my professional life, I recently started working as the Associate Director of Volunteer Training and Engagement for the Harvard Alumni Association. My role includes creating diverse engagement opportunities for a wide variety of alumni working in partnership across the University. I previously held a leadership role at the Museum of Fine Arts, Boston for 20 years overseeing community engagement, as well as volunteer, intern, and teen programs. My work was rooted in creating access and inclusive opportunities for BIPOC audiences who felt unwelcome at the MFA. I had great success expanding and diversifying volunteerism, advocating for new public programs promoting diverse audience engagement, and launching college and teen programs with an emphasis on involving students of color. In addition, I was an active member of several Museum-wide task forces including; leadership of the staff Diversity Council, staff liaison to the Board of Trustees, and volunteer committees with a focus on multicultural audience development and board diversity.

In my Melrose life, I have been involved in myriad ways. I was on the board of Melrose Day Care Center and Pre-school, served on the Lincoln School Site Council, and as President and board member of Temple Beth Shalom. I am currently a founding member of *Melrose Together*, a volunteer group that connects neighbors in need with neighbors who want to help during the COVID-19 pandemic. Melrose Together shares community-driven volunteer opportunities and organizes grassroots, city-wide events in an effort to sustain community spirit and support local businesses. I am also a member of the Melrose Creative Arts Summit planning team.

I love Melrose. This community is amazing and I feel extremely fortunate to live here. I have seen many positive changes in my 21 years as a resident. The city has become much more reflective of the diversity in Massachusetts and the broader United States. This brings many new opportunities as well as challenges. I have witnessed racism and been subjected to anti-semitisim. I have read hateful comments on social media but also seen those in our community stand up to injustice. In Judaism, there is a concept called “Tikun Olam.” These Hebrew words roughly translate to “repair the world” or “heal the world.” The notion that the world, and in this case Melrose, is in need of healing and repairing is something I have always identified with. I am proud that the Jewish community in Melrose has been at the forefront of fighting for social justice and doing our part to prioritize inclusion and “heal the world”. I would very much like to continue this important work as a member of the Melrose Human Rights Commission.

Thank you for your consideration.

Kind regards,
Linda Apple

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Linda Apple • [redacted]

SUMMARY

Accomplished volunteer and community engagement leader with 25 years experience at major higher education and cultural institutions. Proven track record of creating strategic partnerships, innovative public programs promoting diverse audience engagement, and organizational shift in culture across all levels. Committed to inclusion, equity, and unity throughout planning and project management.

PROFESSIONAL EXPERIENCE

Harvard University, Alumni Affairs and Development

Associate Director, Volunteer Training and Engagement 2022-present

- Primary resource for Harvard Alumni Association volunteer training and engagement.
- Project manager responsible for university-wide alumni conferences, workshops and events.
- Collaborates with and develops relationships with faculty across the university.

Melrose Public Schools

Student Support Specialist 2020 - 2022

- Supported K-5 educators; facilitated both student in-person and remote learning

Museum of Fine Arts, Boston

Director, Volunteer and Community Engagement 2012 - July 2020

- Managed and organized essential unconscious bias and anti-discrimination training
- Conceived of and expanded flagship cultural celebration series working closely with key partners to create meaningful and inclusive community events.
- Oversaw planning and execution of eleven unique events serving over 75,000 Museum visitors per year.
- Identified, established, and maintained new beneficial partnerships with community, arts, and cultural organizations. Examples include: Korean Cultural Society of Boston, Jewish Arts Collaborative, The Urban Labs, Amplify Latinx, SubDrift Boston.
- Managed launch of MFA Citizens, a new initiative offering free one-year memberships to newly naturalized citizens.
- Planned and launched pilot Community College Access Program, creating free access for students, faculty, and staff of all 15 Massachusetts community colleges.

Director, Volunteer and Community Programs 2003 - 2012

- Promoted to a much larger role, leading community programs, museum-wide diversity initiatives, and volunteer programs.
- Expanded public access and visibility of museum's community programs. Increased profile and visitorship annually of long-standing free community open houses, serving upwards of 25,000 visitors each year.
- Conceived of and advocated for Teen Arts Council, the MFA's flagship teen program. Raised start-up funds and expanded support.
- Created first paid internships for college students, funded by 5 different foundations, supporting 15 undergraduates from underrepresented backgrounds.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Developed and led a multicultural audience development and engagement initiative to support opening of the new Art of the Americas Wing. Recruited over 20 young professionals from diverse backgrounds to form new advisory affinity group.

Director, Volunteer Programs 2000 - 2003

- Hired as first-ever Director to establish a professional corps of volunteers reflecting the diversity and richness of the Boston community.
- Built a comprehensive program offering opportunities and access to an entirely new constituency of volunteers by identifying needs across the museum.
- Increased total volunteers and interns by more than 80% within five years.
- Contributed to a fundamental internal cultural shift in which MFA staff collaborated with volunteers for the first time.
- Initiated new student intern program creating a pipeline between the MFA and dozens of colleges and universities.

MFA Committee Leadership and Participation

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: MRI/Police Chief Search Funding Request
Date: March 21, 2022

As the members of the Honorable City Council are aware, Police Chief Michael Lyle will reach mandatory retirement age this November. Chief Lyle has been with the MPD since 1986, and has served as Chief of Police for the past 15 years.

In anticipation of this leadership transition, and in order to provide the time necessary to recruit a replacement by next fall, I directed HR Director Latta to seek out proposals from qualified and experienced consultants to assist in recruiting and evaluating candidates for the position of Chief of Police. As a result of the process outlined in Ms. Latta's memo to the City Council, we have chosen a highly qualified firm: the City of Melrose will begin our search for a new police chief with the help of the municipal recruiting consultant Municipal Resources Inc. (MRI), an organization with over 30 years of experience with public sector executive recruitments.

MRI will work with my administration to design a comprehensive recruitment strategy, including recommending an appropriate and broad advertisement campaign in order to produce a diverse pool of highly qualified candidates. MRI will develop an "Ideal Candidate Profile and Challenge Statement" to identify critical organizational challenges, clarify roles, responsibilities, and expectations, and understand the qualities, strengths, and characteristics envisioned for Melrose's next police chief. In order to accomplish this, MRI will seek input from the Melrose community and key stakeholders, ensuring opportunities for members of the Melrose community to share their concerns and perspectives.

MRI's team of professional consultants will screen, review, and rank candidates based on their resumes, written responses to an essay questionnaire, and verbal communication. They will further design and administer a two-day assessment center for up to five candidates to measure the skills, knowledge, and abilities of each candidate within the most critical dimensions required by the position. Based on their comprehensive recruitment, MRI will provide a list of finalists, and upon successful completion of the selection process, they will also be responsible for conducting a comprehensive background investigation of the selected candidate.

The hiring of a new police chief for the City of Melrose is one of my most important responsibilities as Mayor. By engaging with an executive search firm, it is my intention to provide the Melrose community with a robust and thoughtful process to guide this critical selection.

I respectfully request that the funding for the contract with MRI be approved to allow this process to move forward expeditiously.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

To: City Council
Cc: Mayor Brodeur
From: Polina Latta
Re: Police Chief Executive Search Process
Date: March 14, 2022

The City of Melrose sought proposals from qualified and experienced consultants to assist in recruiting and evaluating candidates for the position of Chief of Police, due to Chief Michael Lyle's reaching mandatory retirement age this coming November.

In our Request for Proposals, the City required that the selected firm have a nationwide focus and presence, and that they provide a comprehensive recruitment and executive search process. It was important that the selected consultant engage City administration and community stakeholders to determine an ideal candidate profile, use broad recruiting sources and vigorous outreach activities to identify and recruit possible candidates, evaluate qualified candidates, and perform any necessary background investigations or other due diligence activities in order to provide a recommendation to the Mayor and City officials identifying the most suitable candidate or candidates for the position of Police Chief for the City of Melrose. Further, their work must comply with all applicable laws, rules, regulations, as well as with industry standards, and to the extent feasible, must be completed on or before September 1, 2022.

The Request for Proposals was solicited in accordance with M.G.L. Ch. 30B for consulting services to assist the City in the recruitment and selection of candidates for the position of Police Chief. The RFP was sent via e-mail on December 3, 2021 to the following seven (7) consultant firms:

1. Community Paradigm Associates LLC
2. Municipal Resources, Inc (MRI)
3. Police Executive Research Forum (PERF)
4. Public Sector Search and Consulting

5. Public Safety Consultants LLC
6. Ryan Strategies Group LLC
7. The International Association of Chiefs of Police (IACP)

These consultant firms were identified through research on executive search firms with state and national presence who specialize in Executive Police Chief Search, and through recommendations from other municipalities who have conducted similar recruitments in recent years. The initial deadline to submit proposals was December 20, 2021, which we later extended to January 10, 2022 to allow for lost time around the holidays.

The responses were as follow:

1. Community Paradigm Associates LLC- *not planning to submit a proposal*
2. Municipal Resources, Inc (MRI) - ***submitted a proposal***
3. Police Executive Research Forum (PERF) - *unable to assist due to other commitments*
4. Public Sector Search and Consulting – *unable to assist due to other commitments*
5. Public Safety Consultants LLC – ***submitted a proposal***
6. Ryan Strategies Group LLC- *agreed to submit a proposal but did not send one*
7. The International Association of Chiefs of Police (IACP) - *unable to assist due to other commitments*

During the proposal evaluation process, we relied on the grading system outlined in our RFP and took into consideration the following key comparative factors:

1. Quality of response: the consultant has a clear understanding of the scope of services.
2. Nationwide presence: the consultant addresses nationwide (international) search or is solely Massachusetts focused.
3. Public Engagement: the consultant successfully involves diverse stakeholders in the executive search process.
4. Resources: Number of staff the consultant is dedicating to the project.
5. Experience: Number of contracts that the consultant has provided similar services (Executive Search and Assessment Center for Police Chief).

Both proposals, from MRI and Public Safety Consultants, were well presented and met the minimum evaluative criteria of completeness, presentation and responsiveness to the requirements of the RFP. When using the comparative evaluative criteria MRI received a higher grade than Public Safety Consultants. MRI has been providing similar services for the past 30 years and specifically referred to their national and international recruiting presence in their proposal. They included 54 references across five states and are dedicating five staff to this search. MRI also provided tenure guarantee that if the employment relationship is terminated within 12 months, they will undertake

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

the same comprehensive recruitment process and hybrid assessment center at no cost (except for recruitment cost).

Our next step was reaching out to communities in and out of state who have used MRI's services to obtain references. The references spoke to their favorable and successful experiences with MRI, confirmed that MRI fully met the scope of services, and effectively recruited and helped hire their Chief of Police.

As a result, MRI was selected as the top choice to be awarded the Executive Police Search Contract.

PROFESSIONAL SERVICES AGREEMENT

I. PARTIES TO THE AGREEMENT

This Agreement, effective this _____ day of _____. is to retain professional consulting services for the **City of Melrose, Massachusetts (the Client**), to be provided by **Municipal Resources, Inc. (MRI),** and is lawfully entered into between the Client, by its authorized representative, Mayor Paul Brodeur, and MRI, by its authorized representative, Sean F. Kelly, Director of Police Services, In consideration of the mutual covenants contained herein, the parties agree as follows:

II. SCOPE OF WORK

MRI will work with the Mayor and/or his designee to actively source, recruit, evaluate suitability of, interview, and refer qualified candidates for the position of police chief. MRI will undertake the following specific activities in this comprehensive executive recruitment and evaluation process, in accordance with all applicable Massachusetts State Laws:

1. Work with the Mayor and /or his designee and other key city staff as needed to review the recruitment process and work toward developing an "**Ideal Candidate Profile and Challenge Statement**". The **Ideal Candidate Profile and Challenge Statement** helps to:

   a. Identify critical organizational issues and challenges;

   b. Clarify roles, responsibilities, and expectations for the position;

   c. Understand the qualities, strengths, and characteristics of candidates envisioned for the police chief;

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

d. Characterize the most desirable management strengths, behavioral styles, personal attributes, and motivating values needed in the ideal candidate to increase the probability of success in the role; and

e. Identify the likely issues and opportunities that the next police chief must be prepared to address.

f. Provide for potential candidates a profile of the community that encompasses the uniqueness of the community, demographics, economic stability and employment sectors, citizen involvement and form of government.

To gain input from the community and other stakeholders, MRI will **interview other key officials, as identified by the Mayor** to include but may not be limited to the City Administration, Police Chief, or other key stakeholders identified by the Mayor. If requested by the client, MRI will also open an e-mail address for this specific recruitment that will provide for electronic community input. Once approved by the client, the Ideal Candidate Profile and Challenge Statement will be posted on MRI's recruitment website for potential candidates to review.

2. We will **work with the City of Melrose Director of Human Resources to develop a timeline for the recruitment process** so that the Client and all candidates can plan accordingly. We will provide regular updates to the City of Melrose Director Human Resources which will provide an overview of relevant information about the candidate pool, answer questions, and review selection criteria at each decision point throughout the process.

3. We will **work with the City of Melrose Director of Human Resources to develop ad copy**, recommend advertising venues, and coordinate placement of the ads. Resumes are typically received for at least 30 days.

4. We will **research MRI's database and contact potential candidates** from other similar recruitments we have conducted in the past 12 months. It should be noted that MRI's advertising is targeted at venues that are most likely to engage candidates with the professional training and experience desired by the client. Since some advertising venues will be viewed nationally and even internationally, we expect to have many states represented in the candidate pool. MRI's recruitment efforts go well beyond the team identified in this proposal as we leverage our entire consulting group for the benefit of the client.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. We will **canvas MRI's professional network to identify and actively recruit promising potential candidates**.

6. We will **receive, acknowledge, and hold all resumes in confidence**, forwarding to the hiring authority as desired. We have found that assured confidentiality will increase the number and quality of applicants significantly. We acknowledge receipt of all resumes and keep candidates apprised of their status at each selection point throughout the process.

7. We will establish a team of **professional consultants who will screen and review all resumes** for minimum qualifications before ranking them against the Ideal Candidate Profile. We will receive, acknowledge, and hold all resumes in confidence, forwarding to the hiring authority as desired. We have found that assured confidentiality will increase the number and quality of applicants significantly.

8. In coordination with the Client, **we will develop a written essay questionnaire** for distribution to the top qualified candidates (generally, 12 to 15 candidates), focusing the questions on matters of special relevance to the client's needs or current situation. Candidates will have a specified amount of time to respond (typically 10 days), after which our team of consultants will review and rank the responses.

9. After essay responses have received, reviewed, and ranked, **we conduct a web search of the top remaining candidates (generally, 10 to 12) and canvas our consultants, to identify potential issues or controversies in other jurisdictions**. Then, two members of our team will conduct telephone interviews with these candidates, placing the focus on current position and reasons for leaving; career history of successes and failures; future personal and professional goals; and their understanding of best practices and contemporary professional thinking in the field. In addition to screening the candidates, this interview provides for follow-up to the essay responses and information found in the web searches. It also assists us in determining the verbal communication skills of the candidate and his/her ability to answer questions spontaneously.

10. MRI will **formulate, design, and administer a two-day assessment center** for up to five (5) candidates to include at least five (5) assessment exercises most appropriate for identifying the strengths and weaknesses of the candidates. The assessors are all MRI police management consultants that are experienced in administering the process and evaluating candidates. MRI will adhere to the "Guidelines for Ethical Considerations for Assessment Center Operations" by the International Task Force on Assessment Center Guidelines.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A typical assessment center consists of several exercises, each designed to measure the skills, knowledge, and abilities of each candidate within the most critical dimensions required of the position. The primary consideration in developing exercises is to determine those which best identify the potential of a candidate if appointed to the position. The Assessment Center Process is viewed as a much more inclusive process than oral interviews and/or written examinations for determining a candidate's suitability for a position because it combines elements of both with an assessment of written communication skills, performance under pressure, and critical thinking in a real time, relative real-world setting.

For Melrose, **MRI recommends our "hybrid" assessment center** which involves participation of key stakeholders identified by the Mayor and/or his designee who will sit on an interview panel and a structured role-playing Assessment Center exercise. This provides the stakeholders or another designated community group to engage the candidates directly, work with the MRI assessors, and observe the candidates throughout the day.

Each job-related exercise will measure critical skill dimensions, such as written and verbal communication, planning, work assignment and delegation, team building problem solving, administrative skills, leadership, and reaction to stress/poise.

While there are a variety of exercises, a typical assessment center consists of a combination of:

A. In-basket exercise
B. An impromptu presentation
C. Media unplanned interview
D. Exercises to evaluate written problem-solving
E. Tactical assessment/planning/operations
F. Group discussion with assigned, or unassigned, roles
G. Employee counseling skills
H. Staff meeting exercise
I. Community presentation
J. Labor relations/negotiation exercise
K. Budget preparation/control exercise
L. Program development exercise
M. Disciplinary meeting exercise
N. Structured oral interview

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

At the conclusion of the Assessment Center, the MRI team will meet with the Mayor and/or his designee, the City of Melrose Director of Human Resources, and any designated stakeholders to answer questions, fully discuss the performance of each candidate, and provide a scoring matrix. A follow-up written report can be provided at the request of the client.

11. **MRI will prepare the Mayor and/or other designees for interviews with the finalists** and facilitate those interviews.

12. Following interviews with the finalists, the Mayor and/or his designee in consultation with our lead consultant, will determine what, if any, additional steps are needed to arrive at a final selection, such as additional interviews or an onsite "meet-and-greet."

13. **We will assist with the development of terms and conditions of employment**, preparation of a conditional offer of employment, and creating a draft of an employment agreement. MRI will ensure that appropriate expectations are created with the candidates throughout the process to avoid issues during the negotiation process. MRI has never failed to facilitate successful negotiation of terms of employment.

14. **We will complete a comprehensive background investigation of the selected candidate** which shall include, but not limited to, previous employment, and criminal and motor vehicle records checks, finances, references, and interviews with previous employers. To protect the client, MRI will not complete a comprehensive background on a candidate before a conditional offer of employment is accepted by the candidate, unless the City provides a waiver. MRI is well known throughout New England for the thoroughness of its background investigations and completes dozens annually for various clients.

15. **MRI will provide an opportunity for brief follow-up interviews if requested** by any candidates to discuss how their individual performance in the various exercises that had been measured against the performance, responses and/or behavior deemed appropriate, satisfactory, and desirable, and to explain the rationale for assignment of their numerical grade for the exercises (if applicable).

III. TIMELINE

MRI understands that the City wishes to complete all work as set forth in Section II above entitled "Scope of Work" by September 1, 2022 which MRI feels is possible given the schedule as proposed in our response to the City's RFP.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A recruitment process as described above typically takes approximately **90-120 days** to complete. MRI is ready to begin work on the recruitment as soon as a contract has been executed. MRI will keep the City reasonably apprised of any anticipated delays or updates to the timeline of the process as things progress, and of any anticipated need to extend the timeline for completion past September 1, 2022.

IV. TENURE GUARANTEE:

MRI guarantees to undertake a recruitment and selection process at no expense to the Client should the employment relationship with the selected candidate for Police Chief, after it is negotiated and documented by an executed employment agreement, be terminated by either party to that employment agreement within 12 months. There shall be no cost for MRI's recruitment services; however Client shall cover costs associated with advertising and interviews.

V. FEES AND CHARGES

Our services for the Police Chief selection process will be provided on a lump sum fee basis that is intended to cover all professional time and expenses. The process will be completed for a lump sum fee of **$23,250.00**; payments to be made as follows:

1. **$10,000.00** will be invoiced upon placement of position advertisement;
2. **$10,000.00** will be invoiced after delivery and completion of Assessment Center;
3. **$3,250** will be invoiced at the conclusion of the background screening.

The fees shown here do not include the cost of advertising, reimbursement of candidate travel expenses, facility costs, and the cost of food for the assessors and candidates on the day of the assessment center. The City shall be responsible for providing a suitable venue for meetings, interviews, and the assessment center. The City shall be responsible for the cost of physical and psychological evaluations.

Payments must be made within thirty (30) days of receipt of the invoice unless otherwise agreed. Invoices not paid within thirty (30) days will accrue interest at the rate of 1.5% per month.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VI. INSURANCE

At all times through the completion of services under this Agreement, MRI shall maintain a valid and current certificate of liability insurance which includes all coverage amounts and categories as delineated in the Certificate of Liability Insurance provided to the Client upon execution of this Agreement.

VII. MRI PERSONNEL IN CHARGE

Sean F. Kelly, Director of Police Services, will serve as Principal-In-Charge of this engagement, coordinating activities, interfacing directly with the Client, and participating throughout the engagement as required.

VIII. TERM

This agreement shall remain in force and effect through completion of the assignment.

IX. CONTRACT DOCUMENTS

The following documents form the Contract and all are as fully a part of the Contract as if attached to this Agreement or repeated herein:

1. This Agreement.
2. Amendments, change orders, or other changes mutually agreed upon between the parties.
3. Contract proposals.
4. The Invitation to Bid/Request for Proposals.

In the event of conflicting provisions, those provisions most favorable to the City shall govern.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A. MUTUAL REPRESENTATIONS

MRI represents to the Client it is a duly constituted corporation under the laws of the State of New Hampshire and is authorized to do business in the Commonwealth of Massachusetts as a professional services corporation.

MRI has in force and effect general commercial liability and errors and omissions insurance coverage to protect the Client from accidents which MRI or its authorized representatives may cause to persons or property or from professional errors or omissions when performing under this agreement.

MRI has no liens or encumbrances which would adversely affect the ability of MRI to perform as stipulated under this agreement, its terms, and conditions.

The Client represents to MRI that sufficient funds have been appropriated so it may retain and compensate MRI for the services provided for herein.

The Client's representative is authorized to enter into this agreement on behalf of the Client.

The Client is aware of no action, contemplated action, liability, or other encumbrance which would limit or otherwise preclude the Client from freely entering into this agreement and compensating MRI for the services provided.

MRI shall not make any assignment of this agreement without the prior written approval of the Client.

B. NOTICE OF CHANGE OF PERSONNEL

Except as otherwise provided below, the MRI consultants assigned to any scope of work or project will remain throughout the duration of that specific scope of work or project. MRI retains the right, upon 30 days written notice, to remove from the project any of its consultants whom it believes can no longer suitably perform under its obligations to this agreement or any Supplement to it.

The Client, upon 30 days written notice, may request MRI to replace any of its consultants with another qualified representative.

C. ADMINISTRATION OF AGREEMENT MODIFICATIONS

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

In all cases where this agreement is modified or expanded, a written Supplemental Scope of Work (Supplement) must be prepared which clearly defines the services to be provided and details the billing rates or amounts to be charged by MRI and paid by the Client. Supplements must be executed by the authorized representatives of the respective parties prior to any billable work being undertaken. The Supplement(s) shall identify:

- The MRI officer or principal responsible for the successful delivery of services and/or project completion and the client's contracting official(s) or officer(s);
- The specific details of the work to be performed;
- The MRI personnel to be assigned;
- The basis upon which MRI services are being retained, including the normal hourly rate(s), cost reduction considerations or the agreed upon fee(s) for the personnel assigned and/or the services provided;
- The Client's contact person responsible for administering the Supplement, activities or project and the associated reporting requirements; and
- Any special or other conditions such as time deadlines, special reporting requirements, budget limitations, or other similar constraints.

All amendments, change orders and changes to this Agreement shall be in accordance with M.G.L. c.30B, if applicable.

D. **NON-SOLICITATION**

The Client agrees that, for a period of one-year following the completion of the terms of this Agreement, they shall not directly or indirectly, hire, solicit, or otherwise encourage any MRI personnel or affiliates assigned to this Agreement, to leave MRI's employment.

In the alternative, if the client should wish to hire any MRI personnel or affiliate assigned to this Agreement it agrees to compensate MRI with payment in the amount of 25% of that person's first year's total compensation package.

E. **TERMINATION OF AGREEMENT**

The City may suspend or terminate this agreement by providing MRI with ten (10) days written notice for reasons outlined as follows: 1. Failure of MRI, for any reason, to fulfill in a timely and proper manner its obligations under this agreement. 2. Violation or breach, material or otherwise, of any of the provisions of this agreement by MRI. 3. A determination by the City, acting through any of its

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

department heads, that MRI has engaged in fraud, waste, mismanagement, misuse of funds, or criminal activity with any funds provided by this Contract. 4. Lack of appropriation for funding.

F. **INDEMNIFICATION**

MRI shall defend, indemnify, and hold harmless the City's officers, agents, and all employees from and against any and all claims arising directly or indirectly from the contract. MRI shall be solely responsible for all local taxes or contributions imposed or required under the Social Security, Worker's Compensation, and income tax laws. Further, MRI shall defend, indemnify, and hold harmless the City, from and against any and all damages, expenses, losses, or claims arising from or in connection with any of the work performed, or to be performed, under this agreement whether such losses are incurred by parties to this contract, MRI's agents, and sub-contractors, or other third parties. This shall not be construed as a limitation of MRI's liability under the agreement or as otherwise provided by law.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed on the day and year first above written.

ACCEPTED AND AGREED

Subject: RE: 2022 City Clerk Bond

Hi Kristin,

Your surety bond is good for 3 years – May 1, 2021-2024, and you paid $255 for the 3 year term.

Please let me know if you need anything else.

Thank you,

Steve

§ 152-6. Renewals.

A. Generally. Pursuant to MGL c. 41, § 13B, and except as otherwise provided in this chapter, the City Clerk is hereby authorized to renew all licenses and permits with respect to which the City Council is designated as the licensing or issuing authority under the provisions of any general or special law, or of any ordinance of the City, and for which no public hearing is required. A report of each license renewed under this section shall be made by the City Clerk to the City Council at the regular meeting of the Council next following the granting of such renewal.

B. Departmental reports. The City Clerk shall forthwith, after receiving an application for the renewal of a license or permit which the Clerk is authorized to renew under Subsection A of this section, obtain from the Chief of the Police Department a report as to the character and fitness of the applicant to exercise the license or permit applied for. The Clerk shall also obtain reports from such other City departments as would be concerned with the operation of the business for which such license or permit is required. It shall be the duty of such Chief and of the heads of all other City departments to cause all necessary investigations to be made and, in the case of each report, to recommend whether the renewal of such license or permit shall be approved or disapproved.

C. Reference of certain applications to Council. Upon the request of an applicant who has been refused a renewal of a license or permit by the City Clerk, or whenever the Clerk shall receive an adverse report with respect to an applicant for renewal of a license or permit, the application, together with all reports relating thereto and, in the case of refusal by the City Clerk, a written statement of the reasons therefor, shall be referred to the City Council, which shall then determine whether the renewal of the license or permit applied for shall be granted or refused.

D. Retention of applications; notation of actions taken. The City Clerk shall keep all applications for renewals of licenses or permits granted by him/her under authority of Subsection A of this section in a file provided for the purpose and shall make a notation on each such application of his/her action in granting or refusing renewal thereof.

AN ORDER

INFO-2022-2

Order for an Update on the Status of Covid-19 in Melrose (ID # 9548)

Offered by

BE IT ORDERED

BE IT ORDERED, pursuant to Section 2-7 of the Melrose City Charter, that the Health Director appear before the City Council to provide an update on the status of Covid-19 in the City of Melrose. In particular, this order seeks information regarding the City's efforts to monitor and mitigate the spread of Covid-19 in our community, including but not limited to the metrics that the city is following, the roll out of the citywide mask mandate, health protocols in place for all public-facing city staff, and/or plans for vaccine requirements.

This update will not include mitigation efforts at the Melrose Public Schools, as it is not under the jurisdiction of the Council.

AN ORDER

ORDNC-2022-1

Amending Article I, Chapter 152-10, Licenses and Permits, General Provisions of the City of Melrose Code of Ordinances

Offered by

BE IT ORDERED

Be it Ordered, that the City of Melrose Code of Ordinances be amended by adding § 152-10 to Chapter 152, Licenses and Permits of Article I General Provisions to wit;

Sec. §152-10 Payment of taxes as a condition of licenses and permits.

Any board, officer or department who issues local licenses or permits for the city ("the licensing authority") may deny any application for, or revoke or suspend a building permit, or any local license or permit including renewals and transfers for any person, corporation, or business enterprise, who has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges, including amounts assessed under the provisions of G. L. c. 40, § 21D, or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate whose owner has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges, provided that

(1) The tax collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the tax collector, shall annually, and may periodically, furnish to each department, board, commission or division, hereinafter referred to as the licensing authority, that issues licenses or permits including renewals and transfers, a list of any person, corporation, or business enterprise, hereinafter referred to as the party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges, and that such party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board

(2) The licensing authority may deny, revoke or suspend any license or permit, including renewals and transfers of any party whose name appears on said list furnished to the licensing authority from the tax

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

collector or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate owned by any party whose name appears on said list furnished to the licensing authority from the tax collector; provided, however, that written notice is given to the party and the tax collector, as required by applicable provisions of law, and the party is given a hearing, to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The tax collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the licensing authority with respect to such license denial, revocation or suspension shall be made only for the purposes of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the license authority receives a certificate issued by the tax collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as the date of issuance of said certificate.

(3) Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the licensing authority to issue a certificate indicating said limitations to the license or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

(4) The City Council may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight A of the Massachusetts General Laws in the business or activity conducted in or on said property.

This section shall not apply to the following licenses and permits: open burning (G. L. c. 48, § 13); bicycle permits; (G. L. c. 85, § 11A); sales ofarticles for charitable purposes (G.L. c. 101, § 33); children work permits (G. L. c. 149, § 69); clubs, associations dispensing food or beverage licenses (G. L. c. 140, § 21E); dog licenses,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(G. L. c. 140, § 137); fishing, hunting, trapping license, (G. L. c. 131, § 12); marriage licenses, (G. L. c. 207, § 28); and theatrical events, public exhibition permits (G. L. c. 184, § 181).

State Law Reference-Authorized, M.G.L.A. c. 40, § 57 (Accepted by Aldermen November 7, 1996, Order No. 97-88).

Re: Payment of taxes as a condition of licenses and permits.

Dear Margot:

It has come to my attention that there is no record of M.G.L. c. 40 § 57 which was accepted by the Melrose Board of Aldermen on November 7, 1996, Order No. 97-88, ever having been formally implemented by way of City ordinance in the City of Melrose.

In short, M.G.L. c. 40 § 57 allows any city or town which accepts it to ***then*** adopt an ordinance which allows for denial of any application for, or revocation or suspension of a building permit, or any local license or permit for neglect or refusal to pay local taxes, fees, assessments, or other municipal charges. The language of this statute not only needs to have been accepted by City Council (which it was), but also requires there to be a separate ordinance passed in the City.

In looking through the history of the acceptance of this statute by the City of Melrose Board of Aldermen in 1996, it is clear this statute was intended to be fully implemented in the City of Melrose- as seen by the Aldermen having approved an Order entitled "Amending Revised Ordinances by the adoption of M.G.L. c. 40 § 57, "Local licenses and permits: denial, revocation or suspension for failure to pay municipal taxes and charges." [See attached Exhibit A, documentation relative to Order No. 97-88]. It is my understanding that the City has been and continues to deny, revoke, and suspend permits and licenses pursuant to authority under M.G.L. c. 40 § 57 since the Board of Aldermen's acceptance of it in 1996.

However, in order to be in clear keeping with the required language of the statute that requires the City to officially adopt its own ordinance for M.G.L. c. 40 § 57 to validly take

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

effect, I recommend the City amend the City of Melrose Code of Ordinances forthwith by adding Section 152-10 as proposed in attached Exhibit B. The proposed language reflects the current version of M.G.L. c. 40, § 57.

Please do not hesitate to reach out to me with any questions or concerns in this regard.

Best Regards,

Shannon T. Phillips, Esq.

Encls.

LICENSES AND PERMITS OF DELINQUENT TAXPAYERS

Caption editorially supplied

7. Local licenses and permits; denial, revocation or suspension for failure to pay municipal taxes or charges

ny city or town which accepts the provisions of this section, may by by-law or ordinance any application for, or revoke or suspend any local license or permit including renewals transfers issued by any board, officer, department for any person, corporation or ness enterprise, who has neglected or refused to pay any local taxes, fees, assessments, erments or any other municipal charges or with respect to any activity, event or other er which is the subject of such license or permit and which activity, event or matter is ed out or exercised or is to be carried out or exercised on or about real estate whose r has neglected or refused to pay any local taxes, fees, assessments, betterments or any municipal charges. Such by-law or ordinances shall provide that:

The tax collector or other municipal official responsible for records of all municipal , assessments, betterments and other municipal charges, hereinafter referred to as the collector, shall annually furnish to each department, board, commission or division, nafter referred to as the licensing authority, that issues licenses or permits including vals and transfers, a list of any person, corporation, or business enterprise, hereinafter red to as the party, that has neglected or refused to pay any local taxes, fees, sments, betterments or other municipal charges for not less than a twelve month period, hat such party has not filed in good faith a pending application for an abatement of such r a pending petition before the appellate tax board.

The licensing authority may deny, revoke or suspend any license or permit, including vals and transfers of any party whose name appears on said list furnished to the ing authority from the tax collector or with respect to any activity, event or other matter is the subject of such license or permit and which activity, event or matter is carried r exercised or is to be carried out or exercised on or about real estate owned by any whose name appears on said list furnished to the licensing authority from the tax tor; provided, however, that written notice is given to the party and the tax collector, as ed by applicable provisions of law, and the party is given a hearing, to be held not r than fourteen days after said notice. Said list shall be prima facie evidence for denial, ation or suspension of said license or permit to any party. The tax collector shall have ght to intervene in any hearing conducted with respect to such license denial, revocation spension. Any findings made by the licensing authority with respect to such license , revocation or suspension shall be made only for the purposes of such proceeding and not be relevant to or introduced in any other proceeding at law, except for any appeal such license denial, revocation or suspension. Any license or permit denied, suspended oked under this section shall not be reissued or renewed until the license authority es a certificate issued by the tax collector that the party is in good standing with

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

(d) The board of selectmen may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight A in the business or activity conducted in or on said property.

This section shall not apply to the following licenses and permits: open burning; section thirteen of chapter forty-eight; bicycle permits; section eleven A of chapter eighty-five; sales of articles for charitable purposes, section thirty-three of chapter one hundred and one; children work permits, section sixty-nine of chapter one hundred and forty-nine; clubs, associations dispensing food or beverage licenses, section twenty-one E of chapter one hundred and forty; dog licenses, section one hundred and thirty-seven of chapter one hundred and forty; fishing, hunting, trapping license, section twelve of chapter one hundred and thirty-one; marriage licenses, section twenty-eight of chapter two hundred and seven and theatrical events, public exhibition permits, section one hundred and eighty-one of chapter one hundred and forty.

A city or town may exclude any local license or permit from this section by by-law or ordinance.

Added by St.1985, c. 640. Amended by St.1992, c. 286, § 117; St.1993, c. 408, §§ 1, 2.

Historical and Statutory Notes

1985 Enactment. St.1985, c. 640, was approved Dec. 23, 1985.

1992 Legislation

St.1992, c. 286, § 117, an emergency act, approved Dec. 23, 1992, in the first paragraph, in par. (d), substituted "sixty-eight A" for "sixty-eight".

1993 Legislation

St.1993, c. 408, § 1, approved Jan. 10, 1994, in the first paragraph, in the first sentence, added "or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate whose owner has neglected or refused to pay any local taxes, fees, assessments, betterments or any other municipal charges".

Section 2 of St.1993, c. 408, in the first paragraph, in par. (b), in the first sentence, inserted "or with respect to any activity, event or other matter which is the subject of such license or permit and which activity, event or matter is carried out or exercised or is to be carried out or exercised on or about real estate owned by any party whose name appears on said list furnished to the licensing authority from the tax collector".

AN ORDER

ORDNC-2022-2

An Ordinance Relative to Small Wireless Facilities Installation in the Public Right Of Way

Offered by

BE IT ORDERED

AN ORDINANCE RELATIVE TO SMALL WIRELESS FACILITIES INSTALLATION IN THE PUBLIC RIGHTS- OF-WAY

Be it ordained by the City Council of the City of Melrose, that the Revised Code of Ordinances of the City of Melrose is hereby amended by adding a new Chapter 183, to read as follows:

Chapter 183. Small Wireless Facilities in the Public Rights-of-Way

Sec. 183-1. Purpose.

Public demand for consistent wireless communication service is being met by service providers in some locations by the use of small cell wireless antennas. Therefore, in order to balance public interests between demand for reliable wireless service and public concerns regarding the installation of this technology, this Chapter is intended to provide a uniform and comprehensive set of standards and requirements for permitting, developing, siting, installing, designing, operating, and maintaining small wireless facilities in the public Rights-of-Way within the city's jurisdiction. This section applies to the facility, mounting, placement, and operation of small wireless facilities within the public rights-of-way regardless of the type, owner, structure, strand, or wire to which they are affixed or attached.

Sec. 183-2. Definitions.

As used in this article, the following terms shall be defined as follows:

Abandoned - The cessation of use of a small wireless facility.

Antenna - an apparatus designed for the purpose of emitting radio frequency signals from a fixed location pursuant to the Federal Communications Commission authorization, for the provision of wireless service. For purposes of this definition, the term antenna does not include an unintentional radiator, mobile station, antenna designed for amateur radio use, or satellite dish for residential or household purposes.

Antenna equipment - equipment, switches, wiring, cabling, power sources, shelters or cabinets associated with an antenna, located at the same fixed location as the antenna,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

and, when collocated on a structure, is mounted or installed in conjunction with the installation of such antenna.

Applicant - any person who submits an application under this ordinance and is, or is acting on behalf of, a wireless services provider or wireless infrastructure provider.

Collocate - mount or install an antenna on an existing structure containing other equipment, or modify a structure for the purpose of mounting or installing an antenna. "Collocation" has a corresponding meaning.

Design standards - standards promulgated for installation of a small wireless facility, in accordance with applicable Federal Communications Commission rules and regulations, that are reasonable, no more burdensome than those applied to other types of infrastructure deployments, and objective and published in advance.

Rights-of-Way or *ROW* - the area on, below, or above a public utility easement, roadway, highway, street, sidewalk, alley, or similar property, but not including a federal interstate highway.

Small Wireless Facility - a facility that meets each of the following conditions:

(a) The facility is mounted on a structure 50 feet or less in height including the antenna, or is mounted on a structure no more than 10 percent taller than other adjacent structures, or does not extend the existing structure on which it is located to a height of more than 50 feet or by more than 10 percent, whichever is greater;

(b) The antenna, excluding associated antenna equipment, is no more than three cubic feet in volume;

(c) All other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is cumulatively no more than 28 cubic feet in volume;

(d) The facility does not require antenna structure registration;

(e) The facility is not located on tribal lands; and

(f) The facility does not result in human exposure to radio frequency in excess of the applicable safety standards specified in 47 C.F.R. 1.1307(b).

Structure - a pole, tower, base station, or other building, whether not it has an existing antenna facility, that is used or to be used for the provision of wireless service.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Wireless Provider - any individual, corporation, limited liability company, partnership, association, trust, or other entity or organization, authorized to provide communications service in the state, that builds or installs wireless communication transmission equipment and/or small wireless facilities, or that subcontracts the building of such facilities, or provides to the public wireless services using radio frequency signals.

Sec. 183-3. Permit Required.

No wireless provider shall place, construct, erect, modify, mount, attach, operate or maintain a small wireless facility in the Rights-of-Way in the city without first obtaining a permit from the City Engineer.

Sec. 183-4. Application and Approval Process.

(a) All applications for a small wireless facility shall be submitted to the City Clerk in accordance with policies and procedures set forth by the city on the webpage for the City Clerk.

(b) Applicants shall submit applications accompanied by a fee of $100 per application, payable to the "City of Melrose." Each application for more than 5 installations is subject to a separate fee of $100 per installation after the first 5 installations. The amounts due under this section may be revised by the Council from time to time, consistent with applicable law;

(c) Applicants shall provide notice by first class mail to all other wireless providers, within the Applicant's knowledge after reasonable inquiry to the City, who use or may request use of the public right of way for communications services within five hundred feet (500') of the proposed location(s). Such notice shall inform recipients of the Applicant's application, including specifying the intended placement of the small wireless facility, and any excavation(s) of the public way contemplated by the work. Proof of mailing of such notice shall be provided within three (3) business days of application submission, and may be provided by submission of an affidavit to the City Clerk. Note that any excavation beyond 3-feet from the original facility requires a separate Grant of Location from the City Council.

(d) Upon receipt, the City Engineer will make a determination as to the completeness of the application and notify the Applicant, in writing within 10 days, if the application is incomplete in accordance with the submission requirements as referenced herein below. If incomplete, the City Engineer will specify the information needs and the relevant policy or ordinance provisions or requirements.

(e) If the Applicant is notified the application is incomplete, the time periods set forth herein shall be tolled until such time as the City is in receipt of a complete application from the Applicant. In the event an application remains incomplete forty-five (45) days after any notice that the application is incomplete and the Applicant has not responded, such application shall be deemed denied without prejudice, and will need to be resubmitted in full.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(f) If the application is deemed complete, the application shall then be circulated by the City Clerk to the Ward Councilor for the ward in which the proposed small wireless facility will be installed;

(g) Applicants shall obtain a certified abutters list and notify all property owners within 500 feet of the proposed installation by certified mail within 5 days of determination of a complete application submission to the City. Proof of all certified mail receipts shall be provided to the City Engineer as they become readily available.

(h) Applicants shall post conspicuous signs of pending applications at proposed sites within 10 days of determination of a complete submission of any application to the City;

(i) Written comments from the Ward Councilor, if any, shall be submitted to the City Engineer within 30 days of receipt of the application.

(j) Any material changes to an application that must be made to meet the City's design standards, as determined by the City Engineer in his/her sole discretion, shall constitute a new application for the purposes of the time standards. Where a changed or new application is submitted, the prior application shall be deemed withdrawn.

(k) Once the application is deemed complete, and all comments have been received, the City Engineer shall issue a determination. This will occur within 60 days of an application submission.

(l) The City Engineer may grant, grant with conditions, or deny the Application for a permit under this ordinance. Applications may be approved if they comply with all applicable City requirements as set forth herein, or if their approval is otherwise consistent with applicable law. A denial by the City may be based on criteria which include but are not limited to any of the following:

i. Failure to meet the requirements of the application process and the content of applications as specified in this Ordinance;

ii. Failure to meet the Design Standards and Installation Requirements set forth in this Ordinance, unless the Applicant can demonstrate that such design standards are not technically feasible for that particular installation or that there is no reasonable alternative;

iii. Failure of the applicant to comply with all applicable state and federal laws, rules, regulations, or other requirements;

iv. Any other legally valid reason to deny such application.

(m) Any approval granted to an Applicant shall be only for the specific Applicant and application submitted, including location of all proposed installations.

(n) The City is permitted to hire an RF engineer to conduct random, unannounced RF emission testing of any or all antenna installation(s) at the expense of the operator.

(o) No approval granted under this Chapter shall confer any exclusive right, privilege, license, or franchise to occupy or use the public right of way for delivery of telecommunications services or any other purpose.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Sec. 183-5. Content of Applications: Applications shall include the following information:

(a) Applicant's name, address, telephone number and email address.
(b) Names, addresses, telephone numbers, and email addresses of anyone acting on behalf of the Applicant with respect to the application.

(c) Detailed drawings and descriptions of the equipment to be installed including:

i. Type of equipment
ii. Specifications of equipment (including but not limited to dimensions and weight)
iii. Equipment mount type and material
iv. Power source or sources for equipment, including necessary wires, cables and conduit
v. Expected life of equipment
vi. Coverage area of equipment, including:
    a) Number of antennas
    b) Antenna model
    c) Antenna length
    d) Antenna height
    e) Typical coverage of area radius
vii. Rendering and elevation of equipment.
viii. If installation requires new equipment mounted on the ground or a new pole to be erected, a prior Grant of Location approval from Melrose City Council is required. Proof of such approval shall be submitted at the time the application is filed.
ix. Existing conditions photographs including at least one showing the pole where the small wireless facility will be installed and the nearest residential structure;
x. For all applications to locate small wireless facilities, the Applicant shall provide photo simulations from at least two reasonable line of-site locations near the proposed project site. The photo simulations must be taken from the viewpoints of the greatest pedestrian or vehicular traffic.

(d) Detailed map with locations of the poles or other facility on which equipment is to be located, including specific pole identification number, if applicable, and the areas it will service.
(e) Detailed map showing existing and proposed small cell installations within 500 feet of the Application site.
(f) Certification by a registered professional engineer that the pole/location will safely support the proposed equipment, including how it will affect the integrity of the pole for public safety concerns.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(g) Written consent of the pole or facility owner for the installation.

(h) Affidavit of a Radio Frequency Engineer or Radio Frequency Safety Officer with Massachusetts experience that demonstrates that the resulting radio frequency emission levels from equipment installation at the proposed location(s) comply with the Federal Communication Commission's radio frequency (RF) emissions regulations as well as any Commonwealth of Massachusetts health and safety standards at the street level and at the closest point of the nearest occupied building. RF Radiation emission limits apply to the aggregate emissions of all collocated equipment not just emissions of single antennas. Should emissions exceed FCC guidelines, all antennas must be turned off until the aggregate emissions are lowered to acceptable limits.

(i) Insurance Certificates with the following minimum coverages: General liability insurance [without a pollution exclusion] in an amount not less than $1,000,000 per occurrence and $2,000,000 in the aggregate, worker's compensation insurance not less than the amount of $100,000 per accident and $500,000 per illness or the statutorily required amount, whichever is greater, and umbrella insurance in an amount not less than $5,000,000. The City must be an additionally named insured, and such policies shall indicate that the insurance company shall provide thirty (30) business days' prior written notice to the City of lapse or cancellation. All insurance carriers shall carry an A.M. Best rating of "A-" or better. Such insurance shall provide for the waiver by the insurance carrier of any subrogation rights against City, its agents, servants and employees

(j) Description as to why the desired location is superior to other similar locations from a community perspective, including:

    i. Visual aspects

    ii. Proximity to residential dwellings, schools, parks or playgrounds.

    iii. Documented effort to place antennas in non-residential areas, away from schools and daycare centers, and proof that such alternate sites will not result in adequate coverage

(k) Description of efforts to collocate the equipment on existing structures, poles or towers which currently exist or are under construction. A good faith effort to collocate is required and evidence of such efforts must be included within the application. Any installations that would require a new pole require a Grant of Location approval from the City Council prior to submitting a small cell application.

(l) An Affidavit from the applicant which certifies that it will maintain the installations in good repair and according to FCC standards, and remove any installation not in such good repair, or not in use, within 30 days of being no longer in good repair or 90 days of being no longer in use.

(m) A written analysis indicating that the installation and location of the equipment will not interfere with the operation of the existing pole or its primary uses, or with any public safety or public works radio transmissions. This analysis shall include certification that the proposed facilities will not cause interference to any lawfully operating emergency communication system, television, telephone, or radio in the surrounding area.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(n) A written plan indicating the protocol for turning off wireless facilities when utility workers are present on poles, in order to limit their exposure to radio frequency emissions. The plan should also include a description of any warning signs that will be posted to alert utility workers to radio frequency exposure.
(o) A written plan indicating the response protocol to be implemented in the event that the equipment is damaged by a weather related event or due to an accident.
(p) A statement indicating whether a waiver is being requested from any of the applicable Design Standards and Installation Requirements as set by the City. If so, the Applicant shall identify from what particular standard a waiver is being requested, and any request for a waiver must contain information detailing how the applicable standard is not technically feasible, why there is no reasonable alternative, and/or that requiring the Applicant to meet the standard would constitute an effective prohibition.

Sec. 183-6. Design Standards and Installation Requirements: All small wireless facilities must be constructed, installed, and operated in accordance with the plans and specifications included in the application and the following design standards and installation requirements:

(a) Cables, Wires, Connectors: All cables, wires and connectors related to the small wireless facility must be fully concealed on the wireless support structure and shall match the color of the wireless support structure. There shall be no external cables and wires related to the small wireless facility hanging off or otherwise exposed on the wireless support structure.
(b) Signage: The small cell wireless facility permittee shall post its name, location identifying information, and emergency telephone number in an area on the cabinet of the small wireless facility that is visible to the public. Signage required under this section shall not exceed 4 inches by 6 inches, unless otherwise required by law (e.g. radiofrequency (RF) ground notification signs) or the City.
(c) Lights: New small cell wireless facilities and wireless support structures shall not be illuminated, except in accord with state or federal regulations.
(d) Logos/Decals: The small wireless facility operator/permittee shall place the RF warning sticker required by government or electric utility regulations as close to the antenna as possible.
(e) Cooling Fans: The small cell wireless facility operator/permittee shall use a passive cooling system. In the event that a fan is needed, the small cell wireless facility operator/permittee shall use a cooling fan with a low noise profile. In any event, all small wireless facilities shall comply with current requirements of the City of Melrose Zoning and Noise ordinances.
(f) All small wireless facilities shall be installed in accordance with the applicable codes in force at the time of installation.
(g) Antenna shall be placed no less than 20 feet from a residence's window, door opening, porch or balcony unless a waiver is granted specific to this requirement.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(h) No installation shall be placed where, in the determination of the City, it would limit the city's ability to plant future street trees based upon any existing city standards or guidelines for planting of street trees.
(i) Pole-mounted equipment heights to the bottom of the antenna and all ancillary cabinets and equipment shall be no less than 12 feet above the sidewalk elevation.
(j) Where conditions do not permit a top mounted antenna, the antenna may be side mounted with a minimum height of 15 feet above the sidewalk elevation.
(k) The city reserves the right to reasonably require, in its sole discretion, a supplemental review by independent experts of any application for a small wireless facility under this section. All reasonable costs of such review shall be borne by the applicant, in addition to scheduled fees. Whether based on the results of the supplemental review or the city's own review, the city may require changes to or supplementation of the application.
(l) Unless construction has actually begun and is diligently pursued to completion at that point, no permit for construction issued under this Chapter shall be valid for more than 12 months unless the City Engineer and Applicant agree to an extension and all required fees are paid for the term regardless of construction.
(m) Routine maintenance shall not require submittal of a new application, although it shall require all necessary permits for work to be performed.
(n) A wireless provider shall repair, at its sole cost and expense, any damage to city streets, sidewalks, curbs, gutters, trees, parkways, city poles or other property, utility lines and systems, or sewer or water systems or lines resulting from the collocation of a small wireless facility in the ROW or the installation of a pole in the ROW. The wireless provider shall restore such areas, structures and systems to substantially the same condition in which they existed prior to the damage. If the wireless provider fails to make the repairs within 60 days of notice of the damage, the city may affect those repairs and recover the actual and reasonable expenses of doing so from the wireless provider, its successors or assigns.

Sec. 183-8. Annual Requirements.

(a) Each year on or before January 31st, the wireless provider shall submit an affidavit to the City Engineer listing, by location, all small wireless installations it owns within the city and certifying which installations remain in use and remain covered by the Applicant's insurance, which installations it has abandoned, and which installations are no longer in use.

(b) Accompanying the annual affidavit referenced in (a) above, the wireless provider shall submit a $270 annual fee per small wireless facility in the Rights-of-Way in the City of Melrose.

(c) If a wireless provider fails to make the payments required by the city at the time of the affidavit submission, the wireless provider's small wireless facilities shall be deemed

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

abandoned and the city may, at its sole option, remove all or any portion of them, or take other action as authorized by law.

Sec. 183-9. Removal and Abandonment of Facilities.

(a) Removal. No less than 90 days following written notice from the city, the wireless provider shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any small wireless facilities within the Rights-of-Way whenever the city has determined that such removal, relocation, change or alteration is reasonably necessary for the construction, repair, maintenance, or installation of any city improvement in or upon, or the operations of the city in or upon, the Rights-of-Way. If the wireless provider fails to comply with the written notice, the city may perform the work and recover the actual and reasonable expenses of doing so from the wireless provider, its successors or assigns.

(b) Abandonment. The City may require a wireless provider to remove a small wireless facility permitted hereunder within 90 days after the date that the facility ceases to be used unless the wireless provider gives the City reasonable evidence that it is diligently working to place the facility or pole back in service. Should the wireless provider fail to timely remove the small wireless facility or pole, the City may remove such facility and recover the actual, reasonable cost of such removal from the wireless provider.

(c) The city retains the right to cut or move any small wireless facility located within the Rights-of-Way of the city in the event of an emergency, as the city may determine to be necessary, appropriate or useful in response to any imminent danger to public health, safety, or property. If circumstances permit, the city shall notify the wireless provider and provide the wireless provider an opportunity to move its own facilities prior to cutting or removing a facility and shall notify the wireless provider promptly after cutting or removing a small wireless facility. If the city performs work under this section, it may recover the actual and reasonable expenses of doing so from the wireless provider, its successor or assigns. The wireless provider shall repair all damage to city property caused by the activities of the wireless provider and shall return the city property to its functional equivalence before the damage pursuant to competitively neutral, reasonable requirements and specifications.

Sec. 183-10. Exception to Applicability.

Nothing in this Article shall authorize a wireless provider to locate small wireless facilities on property owned by a private party, property that is not located within the public right-of-way, or a privately owned utility pole or wireless support structure within a right-of-way without the consent of the property owner.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Sec. 183-12. Insurance and Indemnification.

(a) All wireless providers shall maintain at all times insurance with the following minimum coverages: General liability insurance in an amount not less than $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate, and umbrella insurance in an amount not less than $5,000,000.00. The city must be an additionally insured party. All insurance carriers shall carry an A.M. Best rating of "A-" or better. Such insurance shall provide for the waiver by the insurance carrier of any subrogation rights against the city, its agents, servants and employees.

(b) To the fullest extent allowed by law, any wireless provider constructing, installing, operating, repairing, maintaining and using a small wireless facility shall indemnify, defend and hold harmless the city, and its officials, agents, and employees from and against all suits, actions or claims of any character brought because of any injury or damage received or sustained by any person, persons or property arising out of, or resulting from, said wireless provider's breach of any provision of law, including but not limited to the requirements of this ordinance and applicable state and federal regulations, or any asserted negligent act, error or omission of the wireless provider, or its agents or employees, arising from or relating to its small wireless facility. The indemnifications required hereunder shall not be limited by reason of the specification of any particular insurance coverage for any permit. Each wireless provider's obligations under this provision shall not terminate with the expiration or termination of its permit, but shall survive it.

(c) To the fullest extent allowed by law, any wireless provider issued a permit pursuant to this Ordinance shall indemnify, defend and hold harmless the City, and its officials, agents, and employees, attorneys and volunteers, from (i) any claim, action or proceeding brought against the City or its officers, employees, agents, or attorneys to attack, set aside, void, or annul any such approval of the City or (ii) a successful legal action brought against the City for loss of property value or other harm caused by the placement or operation of a small cell installation. Such indemnification shall include damages, judgments, settlements, penalties, fines, defensive costs or expenses, including, but not limited to, interest, attorneys' fees and expert witness fees, or liability of any kind related to or arising from such claim, action, or proceeding whether incurred by the Permittee, the City and/or the parties initiating or bringing such proceeding.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Sec. 183-11. Compliance with all applicable laws.

The wireless provider shall comply with all applicable local ordinances, state and federal laws, including but not limited to the noise and zoning ordinances, as well as the Massachusetts building, plumbing and electrical codes, uniform building, fire electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to those codes, and the National Electric Code, National Electric Safety Code, any applicable environmental codes (e.g., Wetlands Protection Act and local bylaw), local, state, and federal regulations pertaining to historic districts and structures, and the rules, regulations, and provisions of the Federal Communications Commission, the Occupational Safety and Health Administration, and any other state or federal agency regulating wireless communications.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Small Wireless Facilities in Public Rights-of-Way
Date: February 22, 2022

I hereby request that the Honorable City Council adopt an ordinance setting out a formalized application process, conditions and standards for the review and approval of the installation of small wireless communications antennas (referred to by some providers as "small cell" or "5G" for the fifth generation of wireless antennas) within the City of Melrose.

Telecommunication companies install and maintain antennas across municipalities like the City of Melrose to provide cellular coverage and high speed internet services. Although the City cannot impose onerous fees, additional safety standards for radio frequency exposure, or set standards that would effectively prohibit the installation of this wireless technology within our jurisdiction, the City can regulate the placement, siting, design, and installation of these devices.

By establishing a formalized process by way of ordinance, we can balance the City's interests regarding these installations with each telecommunications company's legal rights under the FCC to install this equipment in our municipality.

When reviewing and considering this proposed Ordinance, please note that it has been crafted with careful consideration of the public's concerns over these installations, in conjunction with the Department of Public Works, Engineering Division and the City Solicitor's office, with the intention of setting out a process that will meet the needs of the City while also complying with the limits placed upon municipalities in review and denial of these installations as set by the current state of the law.

Of important note, for example, is that the Federal law (the Telecommunications Act of 1996) expressly preempts state and local governments from locally addressing health concerns over Radio Frequency (RF) emissions from these installations. The FCC has set current RF emissions standards that any wireless technologies deployed in the City are required to meet and we have addressed that within this Ordinance to ensure compliance of each installation with those standards to the extent allowable by Law.

Our goal is that in establishing this formalized process and ordinance, like many communities in the Commonwealth and the country have done to date, we can regulate these installations and set design and installation standards for these devices that will satisfy the City's needs and concerns to the greatest extent allowed for by law.

Public Comment on Ordinance ORDNC-2022-2: An Ordinance Relative to Small Wireless Facilities Installation in the Public Right Of Way

Dear City Council of the City of Melrose,

Thank you for addressing this critically important matter. I was blindsided when Verizon recently located small cell equipment beside my house on Frances Street. In attempting to learn what was being installed, or what impact it might have on my family and property, I have been frustrated by Verizon's lack of transparency. Clearly guidance must come from the city. For-profit companies placing this new technology in public right-of-ways seem to currently lack incentives to disclose what it is, how it works and how the public may be affected. Additionally, there seems to be a concerning lack of oversight of such companies' compliance with safety regulations during installation and operations, which places residents abutting these facilities in an unfair relationship with a for-profit company whose installations did not have their input or consent. This legislation is critical to providing oversight and transparency for citizens of Melrose. A robust permitting process is a critical step in the right direction. I'm thrilled to see the City working to protect your citizens through this proposed ordinance. I would request the following additions:

1. This ordinance must clearly apply to ALL installations. Verizon is already making installations, which to the best of my knowledge began without permits or significant oversight. The residents nearby these new installations deserve to be protected with proper oversight by the city and their operations should not be allowed until they are reviewed under the proposed permitting process.
2. The permit application should document the facility's expected RF emissions such that it is clear what the RF engineer would inspect in the future. Random testing is great, periodic testing in addition would be even better.
3. The permitting process should consider the height of the structures near these installations. The proposed ordinance limits the minimum and maximum heights of the facilities, but the effect of the antennae's relative height on the exposure of surrounding buildings should also be reviewed for safety compliance.

My communication with Verizon has only resulted in dismissive responses to my reasonable questions, indicating a cavalier attitude toward the concerns and safety of the citizens of Melrose. I strongly believe City oversight is necessary to ensure they are actually meeting safety standards.

Thank you for your efforts to enable responsible implementation of this new technology, which hopefully can be done in a way that positively impacts the lives of the citizens of Melrose without unfairly burdening residents near these facilities.

Sincerely,

Beth Richtman of [redacted] St

Subject: 5G Ordinance

**** **CAUTION:** This email originated outside the City of Melrose. Exercise caution. **DO NOT** open attachments or click links unless you recognize the sender and know the content is safe. ****

Good Morning,

I am writing today to the City Council regarding the proposed 5G ordinance. There is a small but vocal contingent of anti-5G people around the country and locally. They will be pushing to stop or roll-back 5G in our area, but the 'evidence' they cite is from marginal fringe groups and is debunked by the vast majority of studies. The proposed ordinance is a good plan to ensure the city has control over the application and install of the towers/equipment. I do not believe that the individual resident should be able to stop the installation in a given location without overwhelming evidence of potential harm. Giving the ability to an individual resident to stop an installation will reduce equity in locations and prevent a smooth rollout of the technology.

Thank you,
-Brendan Bernard

Good evening,

We are in support of the ordinance and would like to note that the rigor of the review of the applicant's good faith effort to keep away from schools, residences, daycares and to co-locate on poles will be the important check on this process.

Thank you for your consideration.

Best,
Heather and Tom Mahoney

**** **CAUTION:** This email originated outside the City of Melrose. Exercise caution. **DO NOT** open attachments or click links unless you recognize the sender and know the content is safe. ****

Hello,

My name is Caitlin Mancuso at [redacted] St. in Melrose. Please stop the rollout of 5g towers. Our house is in between 2 towers, 1 at Nelson Rd and the other at Old Brook Cir. We don't need expanded 5g towers in Melrose, studies have shown adverse health affects for people who live in the areas of 5g towers. Within a 5 house radius, we have at least 10-15 kids under the age of 10, living near the tower on Old Brook Cir. Please think about the people living in the community and don't allow 5g towers here.

Thank You for your time,

Cait

**** CAUTION: This email originated outside the City of Melrose. Exercise caution. DO NOT open attachments or click links unless you recognize the sender and know the content is safe. ****

To Whom it Concerns,

I am writing to express our support for the proposed 5G ordinance. Unfortunately a 5G Verizon small cell site tower went up in very close proximity to our house on Baxter Street in the last couple weeks. This was despite bringing our concerns forward to the DPW, Board of Health, the Mayors Office, the City Solicitor, and our State Rep beginning back in July of 2021. I am hopeful that the new ordinance can be expanded to add language to ensure that these recently installed cell sites are not forgotten and are property monitored and regulated the same as any new site that is added in the city.

Thank you,
Alison

Public Comment on Ordinance ORDNC-2022-2: An Ordinance Relative to Small Wireless

Facilities Installation in the Public Right Of Way

Dear City Council of the City of Melrose,

My name is Claudio Frangini, and I live in Melrose on [redacted] Street, recently I noticed wireless equipment on a pole # 2471, that was installed in January 2021.

This pole is within 30 feet of my house, and just in front of my son's bedroom. I called the

City asking for an explanation on what kind of devices were actually installed, but was never

Called back.

I assume that these are small cells for 5G coverage. As you know 5G is a new technology and there are no real studies on the effect these devices would cause to people living really close to such installations.

I am a little concerned about how this would affect my family and the property where I live.

I am grateful that the city decided to take up this matter and hope to have some regulation and guidance plus information on what exactly are the risks of living so close to this cell towers.

Sincerely

Claudio Frangini

Ghobrial, Andrew

From: M. Cabello <[redacted]
Sent: Tuesday, February 22, 2022 9:44 AM
To: Ghobrial, Andrew
Subject: Tuesday, February 22, 7:45 pm - City Council. 5G

**** **CAUTION:** This email originated outside the City of Melrose. Exercise caution. **DO NOT** open attachments or click links unless you recognize the sender and know the content is safe. ****

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Subject: Tuesday, February 22, 7:45 pm - City Council. 5G

Upon review of the proposed ordinance, I would like to submit the following questions to the City Councilor's meeting scheduled for Tuesday, February 22nd;

1. Please walk us through the history of who/why/how Verizon was permitted to (i) construct and deploy new poles and (ii) receive approval for up to 50 antennas without any public hearings or meeting discussions by the City? and without City Council review for use of the right of way? Have any other companies applied for installations or received approvals to date?

2. How are we treating both current and future (incl. pending) installations at this time to ensure compliance with radio frequency? Did any departments permit the small cell installations to be activated for use?

3. Which departments were advised and approved of the DPW Capital Project for calendar to replace poles for non essential work in the middle of a pandemic and winter moratorium. Did the members of the city council consider its power to invoke a cease of non-essential work during this or at any time the past 2-3 years? (as a reminder, this has been used in Melrose's past with National Grid expansion of gas)

4. Re: 183-4. Application and Approval Process

Would you consider having applications submitted to a Committee through the Mayor's office for approval, instead of only be subjected to be reviewed and

approved by City Engineer? Also, including language requiring a public hearing and other city depts response prior to review?

Would you consider requiring that telecom companies do underground installations (fiber optics)? … and in the event that it is not feasible, the applicant would have to provide documented efforts and also allow the City to reserve the right to mandate In the future to service the needs of the community.

5. Re: Sec.183-5. Content of Application

(i) Insurance Certificates

Please consider that the applicant's insurance policy does not excluded coverage for health claims due to radiofrequency (RF) radiation exposure (a "pollution exclusion"). The insurance must be issued to the parent company (e.g., Verizon), not the contractor, agent or company subdivision.

Please confirm that self insurance is not accepted.

Why would an applicant have to provide " a documented effort to place antennas… away from schools and daycare centers" **when the proposed ordinance would permit the placement of antennas 20 ft away from a baby/child's bedroom window?**

My estimate is that children spend far more hours per year at home than at school.

Why are not all public buildings (police, fire, city hall, schools, library, etc) be given first priority status for installation sites over other locations in close proximity to private residences?

Many of these locations only operate at full capacity during the standard work day hours.

6. Re: 183-6. Design Standards and Installation Requirements

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(g) Antenna shall be placed no less than 20 feet from a residence's window, door opening, porch or balcony unless a waiver is granted specific to this requirement.

The proposed definition of Antenna indicates it is the apparatus only and a typical utility pole height is 30 to 60 ft.

- Is it the intention of the ordinance that there are no setback limitations to residents, businesses, schools, public buildings, hospitals, parks, recreational areas, etc

- Please advise how and why the proposed 20ft setback was determined? Did this take into consideration the FCC's commissions to ensure a maximum exposure of 10W/m2 RF? Please provide the calculations?

Should we increase the minimum setbacks and/ or remove and allow a Committee to approve **case by case** along with the right to reserve to make changes in the future?

Sample Language; the city reserves the right to implement and impose on an interim basis, reasonable aesthetic standards pertaining to the size of the antenna, the equipment box, and/or related cabling; placement of equipment on support structures; establishing flush-mounting requirements and spacing requirements; and aesthetic measures such as paint matching or design matching for small wireless facilities in specific areas, camouflage and other concealment methods; and for residential areas, guidelines on structure heights and lengths, and minimum setback rules from dwellings, parks, or playgrounds or similar recreational areas.

- Please consider limitations on decibels for Cooling Fans.

- Please advise why co-locating is permitted and preferred in proposed ordinance language?

-Please advise if a maximum number of antennas (across providers) has been determine or calculated.., or can we limit it through a committee approval process based upon aesthetics and reservations required for future needs of the city.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

7. If an independent professional engineer finds RF level are higher than FCC regulation, what are the consequences besides shutoff? What is the potential impact health wise to the residents?

To ensure ongoing compliance with RF emission levels, should we require a quarterly report by an independent professional engineer to test each installation at the expense of the applicant?

Are private antennas permitted on residential and/or commercial locations, what regulations would be followed?

Thanks

Manuel Cabello De Alba. PhD, P.Eng

Subject: Support of 5G small cell antenna ordinance

**** **CAUTION:** This email originated outside the City of Melrose. Exercise caution. **DO NOT** open attachments or click links unless you recognize the sender and know the content is safe. ****

Hello,

I am writing in support of the 5G small cell antenna ordinance. I am particularly concerned about antennas going up outside houses and bedroom windows. These antennas decrease property values--given a choice, who wants to live next to one? Most importantly, I urge you to please update the language to include strand-mounted antennas that can be placed on power lines without needing a telephone poll. The way the ordinance is written, this is a glaring loophole.

Thank you for your time and consideration.

Sincerely,
Heidi Laplante

February 22, 2022

Members of the Melrose City Council:

My name is Erica Gonzales and I live on Baxter Street with my husband Gregory and our 19-month-old daughter. We would like to address the proposed ordinance related to small cell wireless antennas within the City of Melrose.

In July of last year, we received notice from Verizon that they planned to install a small cell wireless antenna unit on a utility pole that is in very close proximity to our home. From the beginning, we were opposed to its location in our neighborhood, as 5G technology is relatively new and not well studied, and the long-term health implications for our neighbors and our family could be significant. In the weeks that followed, we communicated with City Councilor Stewart, Department of Public Works Director Proakis Ellis, City Solicitor Phillips, Mayor Brodeur, and a representative from Verizon in an effort to have the antenna relocated. Time and again, we were told that the City had no authority to approve such a request.

Last week, the 5G antenna was installed and is now nearly at eye-level when we look out of our second-floor bedroom windows. Neighboring homes with small children on Baxter, Tappan, and Whittier Streets, as well as a state-approved daycare program all now have clear views of this antenna. In the days that followed, we learned that with the support of Councilor Stewart, a neighbor on Conant Road successfully prevented the installation of the same technology near their home, and that this proposed ordinance was just now coming before the City Council for discussion.

We are disheartened by the lack of timeliness and consistency in both decision-making and advocacy that the City's officials have demonstrated. We remain incredibly concerned about the proximity of this technology to our home, and we would like it removed. While this ordinance is a step in the right direction, it is incomplete. For the residents of Baxter Street, it also comes too late, lacking a clear process for reviewing or removing any antenna that was installed before the ordinance is passed.

While we acknowledge the City's efforts on this matter, this ordinance should not be passed as written. To be acceptable, it should also factor in: consideration for the residential nature of each location; an analysis of nearby schools and other places where children live, learn, and play; and a reasonable opportunity for local property owners to approve, dispute, or request the removal of each antenna. It is the responsibility of our elected and appointed officials to protect the City's residents, including the youngest and most vulnerable.

Thank you.

Erica and Gregory Gonzales
[redacted] Street

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE

MAYOR

MARGOT FLEISCHMAN

City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-4441

To: Mayor Paul Brodeur
From: Margot Fleischman
Meeting Date: February 22, 2022
Subject: Small Wireless Facilities Installations
Order #: ORDNC-2022-2

AN ORDINANCE RELATIVE TO SMALL WIRELESS FACILITIES INSTALLATION IN THE PUBLIC RIGHTS- OF-WAY

Be it ordained by the City Council of the City of Melrose, that the Revised Code of Ordinances of the City of Melrose is hereby amended by adding a new Chapter 183, to read as follows:

Chapter 183. Small Wireless Facilities in the Public Rights-of-Way

Sec. 183-1. Purpose.
Public demand for consistent wireless communication service is being met by service providers in some locations by the use of small cell wireless antennas. ~~Wireless service providers in some cases seek to place small cell wireless antennas on utility poles located in the public way.~~ Therefore, in order to balance public interests between demand for reliable wireless service and public concerns regarding the installation of this technology, this Chapter is intended to provide a uniform and comprehensive set of standards and requirements for permitting, developing, siting, installing, designing, operating, and maintaining small wireless facilities in the public Rights-of-Way within the city's jurisdiction. This section applies to the facility, mounting, placement, and operation of small wireless facilities within the public rights-of-way regardless of the type, owner, structure, strand, or wire to which they are affixed or attached.

Sec. 183-2. Definitions.
As used in this article, the following terms shall be defined as follows:

Abandoned - The cessation of use of a small wireless facility.

Antenna - an apparatus designed for the purpose of emitting radio frequency signals from a fixed location pursuant to the Federal Communications Commission authorization, for the provision of wireless service. For purposes of this definition, the term antenna does not include an unintentional radiator, mobile station, antenna designed for amateur radio use, or satellite dish for residential or household purposes.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Antenna equipment - equipment, switches, wiring, cabling, power sources, shelters or cabinets associated with an antenna, located at the same fixed location as the antenna, and, when collocated on a structure, is mounted or installed in conjunction with the installation of such antenna.

Applicant - any person who submits an application under this ordinance and is, or is acting on behalf of, a wireless services provider or wireless infrastructure provider.

Collocate - mount or install an antenna on an existing structure containing other equipment, or modify a structure for the purpose of mounting or installing an antenna. "Collocation" has a corresponding meaning.

Design standards - standards promulgated for installation of a small wireless facility, in accordance with applicable Federal Communications Commission rules and regulations, that are reasonable, no more burdensome than those applied to other types of infrastructure deployments, and objective and published in advance.

Rights-of-Way or *ROW* - the area on, below, or above a public utility easement, roadway, highway, street, sidewalk, alley, or similar property, but not including a federal interstate highway.

Small Wireless Facility - a facility that meets each of the following conditions:

(a) The facility is mounted on a structure 50 feet or less in height including the antenna, or is mounted on a structure no more than 10 percent taller than other adjacent structures, or does not extend the existing structure on which it is located to a height of more than 50 feet or by more than 10 percent, whichever is greater;
(b) The antenna, excluding associated antenna equipment, is no more than three cubic feet in volume;
(c) All other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is cumulatively no more than 28 cubic feet in volume;
(d) The facility does not require antenna structure registration;
(e) The facility is not located on tribal lands; and
(f) The facility does not result in human exposure to radio frequency in excess of the applicable safety standards specified in 47 C.F.R. 1.1307(b).

Structure - a pole, tower, base station, or other building, whether not it has an existing antenna facility, that is used or to be used for the provision of wireless service.

Wireless Provider - any individual, corporation, limited liability company, partnership, association, trust, or other entity or organization, authorized to provide communications service in the state, that builds or installs wireless communication transmission

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

equipment and/or small wireless facilities, or that subcontracts the building of such facilities, or provides to the public wireless services using radio frequency signals.

Sec. 183-3. Permit Required.

No wireless provider shall place, construct, erect, modify, mount, attach, operate or maintain a small wireless facility in the Rights-of-Way in the city without first obtaining a permit from the City Engineer.

Sec. 183-4. Application and Approval Process.

(a) All applications for a small wireless facility shall be submitted to the City Clerk in accordance with policies and procedures set forth by the city on the webpage for the City Clerk.

(b) Applicants shall submit applications accompanied by a fee of $100 per application, payable to the "City of Melrose." Each application for more than 5 installations is subject to a separate fee of $100 per installation after the first 5 installations. The amounts due under this section may be revised by the Council from time to time, consistent with applicable law;

(c) Applicants shall provide notice by first class mail to all other wireless providers, within the Applicant's knowledge after reasonable inquiry to the City, who use or may request use of the public right of way for communications services within five hundred feet (500') of the proposed location(s). Such notice shall inform recipients of the Applicant's application, including specifying ~~the pole(s) or other structures to be utilized~~the intended placement of the small wireless facility, and any excavation(s) of the public way contemplated by the work. Proof of mailing of such notice shall be provided within three (3) business days of application submission, and may be provided by submission of an affidavit to the City Clerk. Note that any excavation beyond 3-feet from the original facility requires a separate Grant of Location from the City Council.

(d) Upon receipt, the City will make a determination as to the completeness of the application and notify the Applicant, in writing within 10 days, if the application is incomplete in accordance with the submission requirements as referenced herein below. If incomplete, the City will specify the information needs and the relevant policy or ordinance provisions or requirements.

(e) If the Applicant is notified the application is incomplete, the time periods set forth herein shall be tolled until such time as the City is in receipt of a complete application from the Applicant. In the event an application remains incomplete forty-five (45) days after any notice that the application is incomplete and the Applicant has not responded, such application shall be deemed denied without prejudice, and will need to be resubmitted in full.

(f) If the application is deemed complete, the application shall then be circulated to the Ward Councilor for the ward in which the proposed small wireless facility will be installed;

(g) Applicants shall notify all property owners within 500 feet of the proposed installation by certified mail within 5 days of determination of a complete application submission to the City. Proof of all certified mail receipts shall be provided to the City Engineer as they become readily available.

(h) Applicants shall post conspicuous signs of pending applications at proposed sites within 10 days of determination of a complete submission of any application to the City;

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(i) Written comments from the Ward Councilor, if any, shall be submitted to the City Engineer within 30 days of receipt of the application.

(j) Any material changes to an application that must be made to meet the City's design standards, as determined by the City Engineer in his/her sole discretion, shall constitute a new application for the purposes of the time standards. Where a changed or new application is submitted, the prior application shall be deemed withdrawn.

(k) Once the application is deemed complete, and all comments have been received, the City Engineer shall issue a determination. This will occur within 60 days of an application submission.

(l) The City Engineer may grant, grant with conditions, or deny the Application for a permit under this ordinance. Applications may be approved if they comply with all applicable City requirements as set forth herein, or if their approval is otherwise consistent with applicable law. A denial by the City may be based on criteria which include but are not limited to any of the following:

i. Failure to meet the requirements of the application process and the content of applications as specified in this Ordinance;

ii. Failure to meet the Design Standards and Installation Requirements set forth in this Ordinance, unless the Applicant can demonstrate that such design standards are not technically feasible for that particular installation or that there is no reasonable alternative;

iii. Failure of the applicant to comply with all applicable state and federal laws, rules, regulations, or other requirements;

iv. Any other legally valid reason to deny such application.

(m) Any approval granted to an Applicant shall be only for the specific Applicant and application submitted, including location of all proposed installations.

(n) The City is permitted to hire an RF engineer to conduct random, unannounced RF emission testing of any or all antenna installation(s) at the expense of the operator.

(o) No approval granted under this Chapter shall confer any exclusive right, privilege, license, or franchise to occupy or use the public right of way for delivery of telecommunications services or any other purpose.

Sec. 183-5. Content of Applications: Applications shall include the following information:

(a) Applicant's name, address, telephone number and email address.

(b) Names, addresses, telephone numbers, and email addresses of anyone acting on behalf of the Applicant with respect to the application.

(c) Detailed drawings and descriptions of the equipment to be installed including:

i. Type of equipment

ii. Specifications of equipment (including but not limited to dimensions and weight)

iii. Equipment mount type and material

iv. Power source or sources for equipment, including necessary wires, cables and conduit

v. Expected life of equipment

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

vi. Coverage area of equipment, including:
    a) Number of antennas
    b) Antenna model
    c) Antenna length
    d) Antenna height
    e) Typical coverage of area radius
vii. Rendering and elevation of equipment.
viii. If installation requires new equipment mounted on the ground or a new pole to be erected, a prior Grant of Location approval from Melrose City Council is required. Proof of such approval shall be submitted at the time the application is filed.
ix. Existing conditions photographs including at least one showing the pole where the small wireless facility will be installed and the nearest residential structure;
x. For all applications to locate small wireless facilities, the Applicant shall provide photo simulations from at least two reasonable line of-site locations near the proposed project site. The photo simulations must be taken from the viewpoints of the greatest pedestrian or vehicular traffic.

(d) Detailed map with locations of the poles or other facility on which equipment is to be located, including specific pole identification number, if applicable, and the areas it will service.
(e) Detailed map showing existing and proposed small cell installations within 500 feet of the Application site.
(f) Certification by a registered professional engineer that the pole/location will safely support the proposed equipment, including how it will affect the integrity of the pole for public safety concerns.
(g) Written consent of the pole or facility owner for the installation.
(h) Affidavit of a Radio Frequency Engineer or Radio Frequency Safety Officer with Massachusetts experience that demonstrates that the resulting radio frequency emission levels from equipment installation at the proposed location(s) comply with the Federal Communication Commission's radio frequency (RF) emissions regulations as well as any Commonwealth of Massachusetts health and safety standards at the street level and at the closest point of the nearest occupied building. RF Radiation emission limits apply to the aggregate emissions of all co-located equipment not just emissions of single antennas. Should emissions exceed FCC guidelines, all antennas must be turned off until the aggregate emissions are lowered to acceptable limits.
(i) Insurance Certificates with the following minimum coverages: General liability insurance in an amount not less than $1,000,000 per occurrence and $2,000,000 in the aggregate, worker's compensation insurance not less than the amount of $100,000 per accident and $500,000 per illness or the statutorily required amount, whichever is greater, and umbrella insurance in an amount not less than $5,000,000. The City must be an additionally named insured, and such policies shall indicate that the insurance company shall provide thirty (30) business days' prior written notice to the City of lapse or cancellation. All insurance carriers shall carry an A.M. Best rating of "A-" or better. Such insurance shall provide for the waiver by the insurance carrier of any subrogation rights against City, its agents, servants and employees
(j) Description as to why the desired location is superior to other similar locations from a community perspective, including:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

i. Visual aspects
ii. Proximity to residential dwellings, schools, parks or playgrounds.
iii. Documented effort to place antennas in non-residential areas, away from schools and daycare centers, and proof that such alternate sites will not result in adequate coverage

(k) Description of efforts to co-locate the equipment on existing structures, poles or towers which currently exist or are under construction. A good faith effort to co-locate is required and evidence of such efforts must be included within the application. Any installations that would require a new pole require a Grant of Location approval from the City Council prior to submitting a small cell application.

(l) An Affidavit from the applicant which certifies that it will maintain the installations in good repair and according to FCC standards, and remove any installation not in such good repair, or not in use, within 30 days of being no longer in good repair or 90 days of being no longer in use.

(m) A written analysis indicating that the installation and location of the equipment will not interfere with the operation of the existing pole or its primary uses, or with any public safety or public works radio transmissions. This analysis shall include certification that the proposed facilities will not cause interference to any lawfully operating emergency communication system, television, telephone, or radio in the surrounding area.

(n) A written plan indicating the protocol for turning off wireless facilities when utility workers are present on poles, in order to limit their exposure to radio frequency emissions. The plan should also include a description of any warning signs that will be posted to alert utility workers to radio frequency exposure.

(o) A written plan indicating the response protocol to be implemented in the event that the equipment is damaged by a weather related event or due to an accident.

(p) A statement indicating whether a waiver is being requested from any of the applicable Design Standards and Installation Requirements as set by the City. If so, the Applicant shall identify from what particular standard a waiver is being requested, and any request for a waiver must contain information detailing how the applicable standard is not technically feasible, why there is no reasonable alternative, and/or that requiring the Applicant to meet the standard would constitute an effective prohibition.

Sec. 183-6. Design Standards and Installation Requirements: All small wireless facilities must be constructed, installed, and operated in accordance with the plans and specifications included in the application and the following design standards and installation requirements:

(a) Cables, Wires, Connectors: All cables, wires and connectors related to the small wireless facility must be fully concealed on the wireless support structure and shall match the color of the wireless support structure. There shall be no external cables and wires related to the small wireless facility hanging off or otherwise exposed on the wireless support structure.

(b) Signage: The small cell wireless facility permittee shall post its name, location identifying information, and emergency telephone number in an area on the cabinet of the small wireless facility that is visible to the public. Signage required under this section shall not exceed 4 inches by 6 inches, unless otherwise required by law (e.g. radiofrequency (RF) ground notification signs) or the City.

(c) Lights: New small cell wireless facilities and wireless support structures shall not be illuminated, except in accord with state or federal regulations.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(d) Logos/Decals: The small wireless facility operator/permittee shall place the RF warning sticker required by government or electric utility regulations as close to the antenna as possible.

(e) Cooling Fans: The small cell wireless facility operator/permittee shall use a passive cooling system. In the event that a fan is needed, the small cell wireless facility operator/permittee shall use a cooling fan with a low noise profile. In any event, all small wireless facilities shall comply with current requirements of the City of Melrose Zoning and Noise ordinances.

(f) All small wireless facilities shall be installed in accordance with the applicable codes in force at the time of installation.

(g) Antenna shall be placed no less than 20 feet from a residence's window, door opening, porch or balcony unless a waiver is granted specific to this requirement.

(h) No installation shall be placed where, in the determination of the City, it would limit the city's ability to plant future street trees based upon any existing city standards or guidelines for planting of street trees.

(i) Pole-mounted equipment heights to the bottom of the antenna and all ancillary cabinets and equipment shall be no less than 12 feet above the sidewalk elevation.

(j) Where conditions do not permit a top mounted antenna, the antenna may be side mounted with a minimum height of 15 feet above the sidewalk elevation.

(k) The city reserves the right to reasonably require, in its sole discretion, a supplemental review by independent experts of any application for a small wireless facility under this section. All reasonable costs of such review shall be borne by the applicant, in addition to scheduled fees. Whether based on the results of the supplemental review or the city's own review, the city may require changes to or supplementation of the application.

(l) Unless construction has actually begun and is diligently pursued to completion at that point, no permit for construction issued under this Chapter shall be valid for more than 12 months unless the City Engineer and Applicant agree to an extension and all required fees are paid for the term regardless of construction.

(m) Routine maintenance shall not require submittal of a new application, although it shall require all necessary permits for work to be performed.

(n) A wireless provider shall repair, at its sole cost and expense, any damage to city streets, sidewalks, curbs, gutters, trees, parkways, city poles or other property, utility lines and systems, or sewer or water systems or lines resulting from the collocation of a small wireless facility in the ROW or the installation of a pole in the ROW. The wireless provider shall restore such areas, structures and systems to substantially the same condition in which they existed prior to the damage. If the wireless provider fails to make the repairs within 60 days of notice of the damage, the city may affect those repairs and recover the actual and reasonable expenses of doing so from the wireless provider, its successors or assigns.

Sec. 183-8. Annual Requirements.

(a) Each year on or before January 31st, the wireless provider shall submit an affidavit to the City Engineer listing, by location, all small wireless installations it owns within the city and certifying which installations remain in use and remain covered by the Applicant's insurance, which installations it has abandoned, and which installations are no longer in use.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

(b) Accompanying the annual affidavit referenced in (a) above, the wireless provider shall submit a $270 annual fee per small wireless facility in the Rights-of-Way in the City of Melrose.

(c) If a wireless provider fails to make the payments required by the city at the time of the affidavit submission, the wireless provider's small wireless facilities shall be deemed abandoned and the city may, at its sole option, remove all or any portion of them, or take other action as authorized by law.

Sec. 183-9. Removal and Abandonment of Facilities.

(a) Removal. No less than 90 days following written notice from the city, the wireless provider shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any small wireless facilities within the Rights-of-Way whenever the city has determined that such removal, relocation, change or alteration is reasonably necessary for the construction, repair, maintenance, or installation of any city improvement in or upon, or the operations of the city in or upon, the Rights-of-Way. If the wireless provider fails to comply with the written notice, the city may perform the work and recover the actual and reasonable expenses of doing so from the wireless provider, its successors or assigns.

(b) Abandonment. The City may require a wireless provider to remove a small wireless facility permitted hereunder within 90 days after the date that the facility ceases to be used unless the wireless provider gives the City reasonable evidence that it is diligently working to place the facility or pole back in service. Should the wireless provider fail to timely remove the small wireless facility or pole, the City may remove such facility and recover the actual, reasonable cost of such removal from the wireless provider.

(c) The city retains the right to cut or move any small wireless facility located within the Rights-of-Way of the city in the event of an emergency, as the city may determine to be necessary, appropriate or useful in response to any imminent danger to public health, safety, or property. If circumstances permit, the city shall notify the wireless provider and provide the wireless provider an opportunity to move its own facilities prior to cutting or removing a facility and shall notify the wireless provider promptly after cutting or removing a small wireless facility. If the city performs work under this section, it may recover the actual and reasonable expenses of doing so from the wireless provider, its successor or assigns. The wireless provider shall repair all damage to city property caused by the activities of the wireless provider and shall return the city property to its functional equivalence before the damage pursuant to competitively neutral, reasonable requirements and specifications.

Sec. 183-10. Exception to Applicability.

Nothing in this Article shall authorize a wireless provider to locate small wireless facilities on property owned by a private party, property that is not located within the public right-of-way, or a privately owned utility pole or wireless support structure within a right-of-way without the consent of the property owner.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Sec. 183-12. Insurance and Indemnification.

(a) All wireless providers shall maintain at all times insurance with the following minimum coverages: General liability insurance in an amount not less than $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate, and umbrella insurance in an amount not less than $5,000,000.00. The city must be an additionally insured party. All insurance carriers shall carry an A.M. Best rating of "A-" or better. Such insurance shall provide for the waiver by the insurance carrier of any subrogation rights against the city, its agents, servants and employees.

(b) To the fullest extent allowed by law, any wireless provider constructing, installing, operating, repairing, maintaining and using a small wireless facility shall indemnify, defend and hold harmless the city, and its officials, agents, and employees from and against all suits, actions or claims of any character brought because of any injury or damage received or sustained by any person, persons or property arising out of, or resulting from, said wireless provider's breach of any provision of law, including but not limited to the requirements of this ordinance and applicable state and federal regulations, or any asserted negligent act, error or omission of the wireless provider, or its agents or employees, arising from or relating to its small wireless facility. The indemnifications required hereunder shall not be limited by reason of the specification of any particular insurance coverage for any permit. Each wireless provider's obligations under this provision shall not terminate with the expiration or termination of its permit, but shall survive it.

Sec. 183-11. Compliance with all applicable laws.

The wireless provider shall comply with all applicable local ordinances, state and federal laws, including but not limited to the noise and zoning ordinances, as well as the Massachusetts building, plumbing and electrical codes, uniform building, fire electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to those codes, and the National Electric Code, National Electric Safety Code, any applicable environmental codes (e.g., Wetlands Protection Act and local bylaw), local, state, and federal regulations pertaining to historic districts and structures, and the rules, regulations, and provisions of the Federal Communications Commission, the Occupational Safety and Health Administration, and any other state or federal agency regulating wireless communications.

CITY OF MELROSE

In City Council

March 21, 2022

AN ORDER

INFO-2022-5

Multiple Member Appointive Body Information (Item # 9615)

Offered by

BE IT ORDERED

WHEREAS, the City of Melrose has 21 multi-member bodies with advisory, regulatory, and/or ministerial authority over various municipal functions as described in Article 2 of the city's administrative code.

WHEREAS, many of these multi-member bodies serve in such a capacity to influence citywide policy, including but not limited to traffic mitigation, street safety, public parks, planning, permitting, liquor regulations, and public health.

WHEREAS, the membership composition term lengths of these bodies must be in compliance with Section A-201 B of the City Code.

WHEREAS, the City should provide accurate, transparent, and accessible information to all residents on the membership makeup of these public bodies, along with current vacancies.

WHEREAS, the City Council is the approving authority for mayoral appointments to all multiple member appointive bodies and should have a complete understanding of the membership of our multiple member appointive bodies when exercising its approval authority.

BE IT ORDERED, that the City Clerk, in concert with the administration, shall provide by March 1, 2022 a list of the following for any and all multiple member appointive bodies as outlined in Article 2 of the City Code:

- First and last name of all members
- Initial date of appointment; term length; and expiration date of current term appointment
- Number (if any) of unfilled positions per multiple member body
- If the body has additional membership requirements (e.g., a member is an attorney, a member is a business owner), the delineation of these requirements and the corresponding member filling this position

This list shall be initially furnished to the City Council, posted to the City website, and reviewed and updated regularly thereafter by the City Clerk's Office in conjunction with the administration.

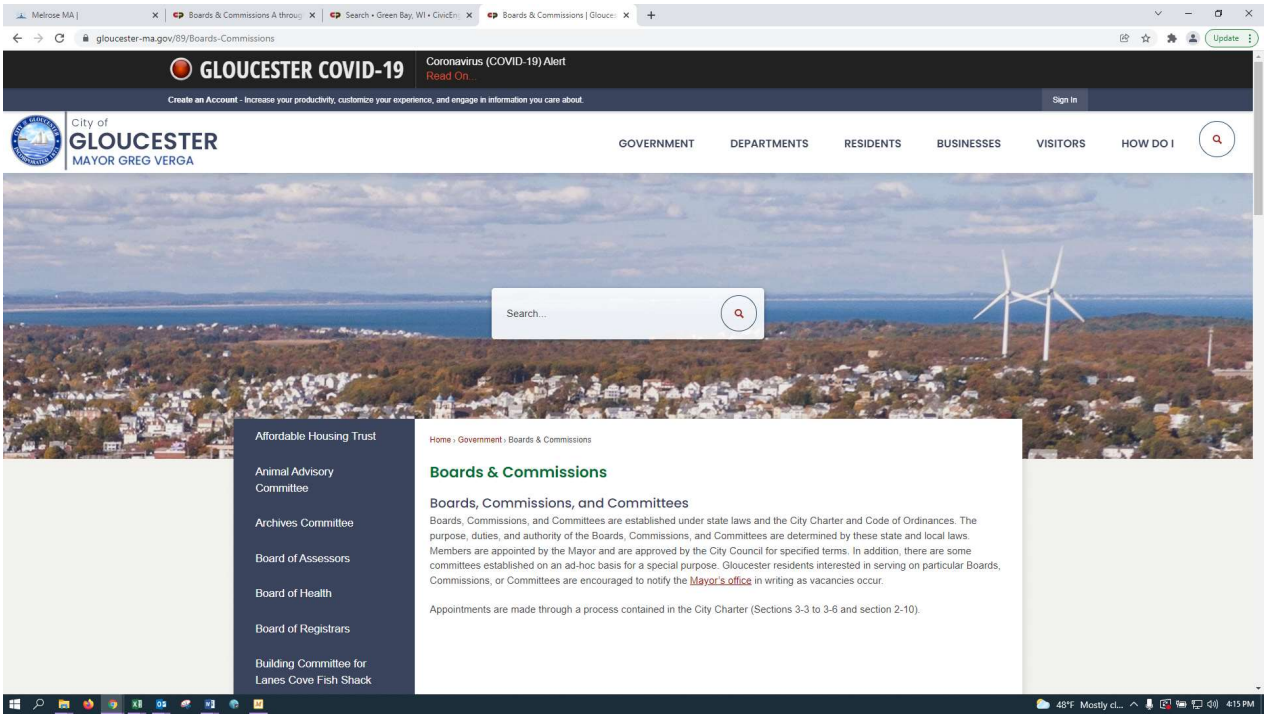
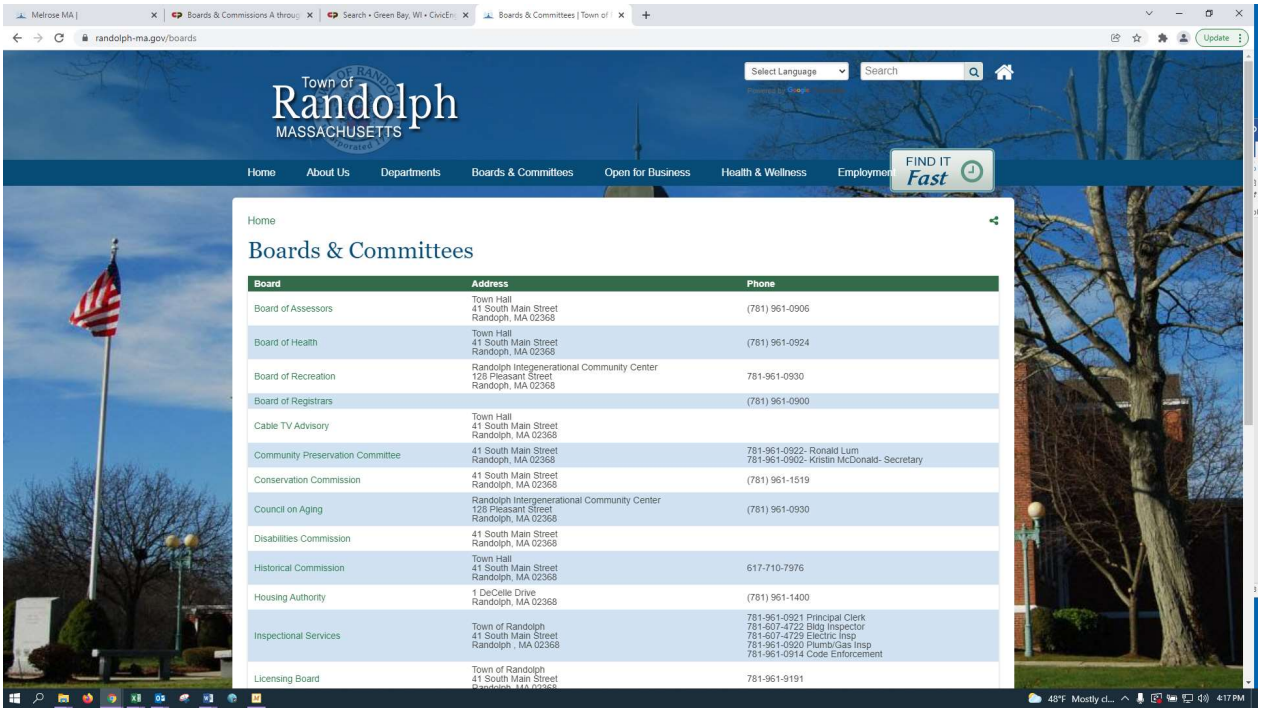
Re: Order 2022-5: Boards and Commissions Update



Date: February 10, 2022

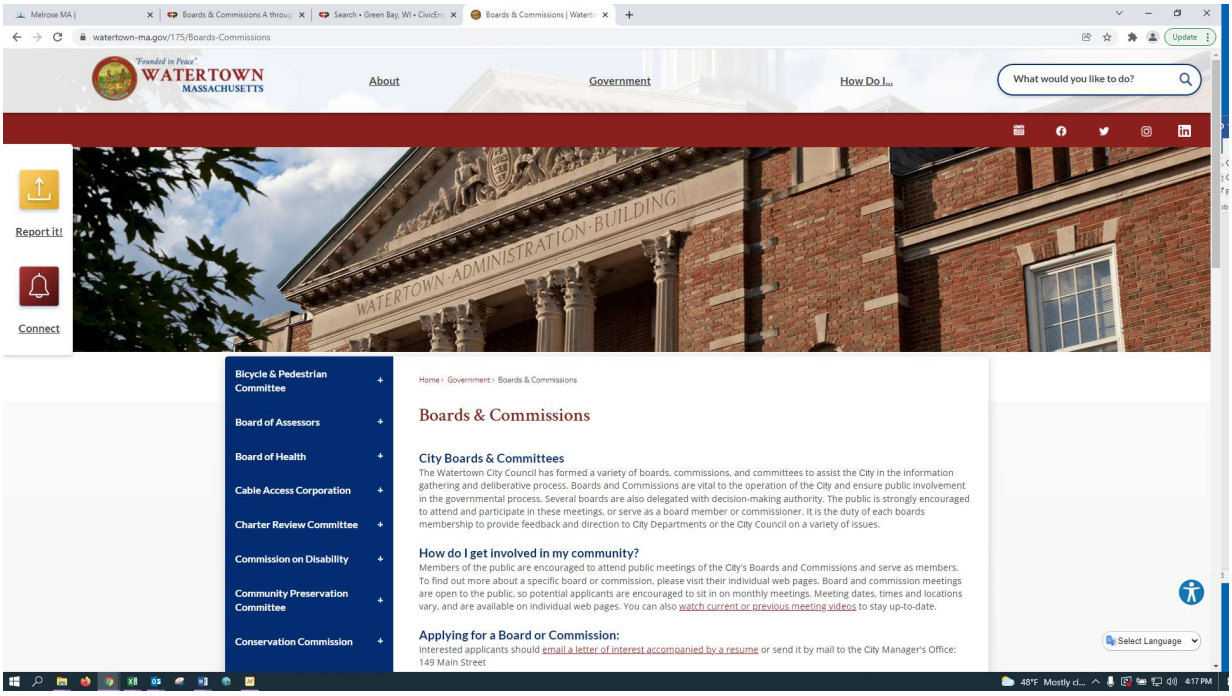
In an effort to ensure transparency and accuracy of information, the City Clerk and the Clerk of Committees, in conjunction with the Mayor's Office, are seeking to update our online gateway for boards and commissions. With your support, we are looking for an automated system that would allow citizens to apply online for a position with a board/commission. Ideally, this automated system would provide automatic updates concerning upcoming member term expirations.



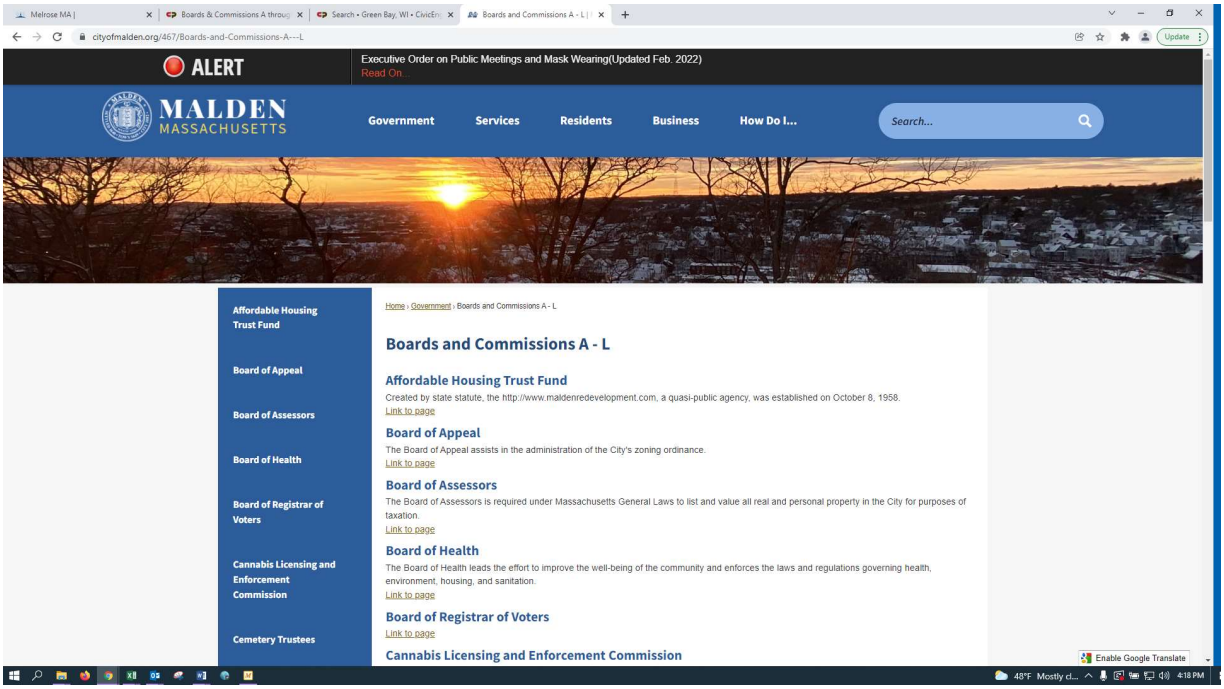
City Clerk Kristin Foote, Lily Wall of the Mayor's Office and I have reviewed several community websites to determine what would best suit the needs of the City of Melrose. I have contacted the Cities of Medford and Malden, and the Town of Brookline to further understand the systems used in these communities. Consequently, I reached out to a few vendors including Civic Plus. It is my understanding that Granicus/IQM2 has both the automation and online application process desired. We are in the process of scheduling a demonstration with Granicus in the next week.

We welcome your comments and suggestions as we map out a streamlined and transparent Board and Commission page.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)



On the Gloucester page, all Boards and Commissions are listed on the left sidebar. Once one is clicked, members and terms are depicted and all pertinent agendas and meeting minutes are liked therein.



On the Randolph page, all Boards and Commissions are listed on the left. Once board hyperlink is clicked, members and terms are shown.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

On the Watertown page, all Boards and Commissions are listed on the left sidebar. Once one is clicked, members and terms are shown.

On the Malden page, all Boards and Commissions are listed on both the left sidebar and the main page. Once one is clicked on either the left sidebar or using the “link to page,” all members are shown. Member terms are not listed.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Lastly, Medford posts all of its Board and Commission info on one page. As a screenshot would not fully capture the layout, I have attached a PDF printout of the entire page. As you will notice, members are listed along with their term dates and in some cases a stipend is also listed.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

BOARDS AND COMMISSIONS

Important Links

- Medford Open Meeting Law Emergency Remote Participation Policy
- City of Medford Social Media Policy for Board & Commission Members
- Medford Board & Commission Application Form

As part of our commitment to engaging the community and embracing a spirit of collective involvement, Mayor Breanna Lungo-Koehn is encouraging all residents over the age of 18 to consider serving on one of the City's many Boards and Commissions. These groups help define the direction of our community, play a vital role in our government, and provide a great way for residents to get involved.

There are various vacancies available that meet, discuss, and act on many of the issues we all care about. Everyone is encouraged to fill out this form (link below) to let us know what you are interested in. If you have a current resume/CV, please submit along with this form.

Please complete the board and commission interest form (download PDF).

There are a few ways to return a completed interest form:

Print, fill out, then email to: boardsandcommissions@medford-ma.gov to let us know how you'd like to serve

Download and complete the form electronically then click on "submit here" at the bottom of the form to send via email.

Print, fill out and send the form by mail or drop off at the Mayor's Office, Room 202, Medford City Hall, 85 George P. Hassett Drive, Medford, MA 02155.

Version II: Revised March 14, 2022

Water and Sewer Rate Review Committee

There is hereby created a Water and Sewer Rate Review Committee, to consist of the Director of Public Works, City Engineer, Auditor, Treasurer-Collector, a member of the City Council appointed by the President of the City Council, and two citizens of Melrose appointed by the President of the City Council. The Committee shall meet at least quarterly to review the water rate charges established pursuant to this section, the costs of operating and maintaining the water system, and any capital improvements to the system. The Committee shall hold at least one meeting per year after 7:00 p.m. It shall report its findings and any recommendations to the City Council in conjunction with submission of the annual operating budget. 1 Resident Representative *Vacancy*

Elena Proakis Ellis, Chair, Melrose Public Works Department

Patrick Dello Russo, Staff, Melrose City Hall

Kathryn Armata, Staff, Melrose City Hall

Vonnie Reis, Melrose Public Works Department

Ryan Williams, City Council Designee

Ken Truesdale, resident representative, Term expires 2/28/2021

MEMORANDUM

To: Appropriations and Oversight Committee
From: Margot Fleischman, Director of Strategic Initiatives and Communication
Re: Boards/Commissions Appointments/Reappointments Process
Date: March 14, 2022

The Mayor's Office has been working closely with the Clerk of Committees and City Clerk to collect the most accurate information we have regarding current board and commission members, terms, and vacancies. For boards and commissions that are staffed by a City department, we have also been coordinating with staff to ascertain this information.

Having now verified the terms with the Clerk of Committees, it is clear that there are numerous boards and commissions that have members whose terms have expired. Our office is in the process of reaching out to current members whose terms have expired to ascertain interest in reappointment. Given the size of the backlog, we anticipate it will take several weeks to complete this process.

Our office is also in the process of updating the City of Melrose webpage in order to make it clearer which boards and commissions have vacancies and easier to find this information. We will also be using social media and other communications channels including the City News and press releases to advertise vacancies to the community.

As we are able to do so, we will send down appointments and reappointments for boards and commissions, as we did recently with the Library Trustees. I anticipate that this will be a regular feature of City Council agendas for the next several months as we work to clear the backlog of appointments.

Looking ahead, we appreciate the Clerk of Committee's interest in finding a suitable data management software system to help the City track term expirations and streamline the process for applicants to submit letters of interest, resumes, and contact information through one centralized portal. The amount of information that needs to be tracked is considerable, and the appointment and reappointment process would benefit from a more formal approach to data management.

CITY OF MELROSE

In City Council

March 21, 2022

AN ORDER

ORDER-2022-78

Acceptance of the FY22 Firefighter Safety Equipment Grant awarded to the Melrose Fire Department by The Commonwealth of Massachusetts, Department of Fire Services, in the amount of $18,901.80.

Offered by Mayor Paul Brodeur

BE IT ORDERED

The City of Melrose Fire Department has been awarded $18,901.80 funding for the FY22 Firefighter Safety Equipment Grant Program by the Executive Office of Public Safety and Security and the Department of Fire Services. These funds will be used to replace three of our current, aged-out, XTS5000 Motorola portable radios, with three brand new APX6000 Motorola portable radios.

The Melrose Fire Department's current Motorola portable radios are past life expectancy, and Motorola no longer manufactures any part or pieces of these radios, causing Motorola to be unable to repair any problems with the radios.

Being past life expectancy, our current radios are aging severely, such as broken screens, missing parts/pieces, poor audio, and radio hang-ups; all of which are major safety issues in a fire scene. Investing in new Motorola portable radios will allow the department to restore communication reliability by providing clear voice transmission and reception. Replacing these un-repairable radios will allow the department to meet current NFPA/OSHA standards.

FINANCIAL IMPACT:

Funds available for the safety of emergency communication between the fire fighters.

Chief Edward Collina
City of Melrose
576 Main Street
Melrose, MA 02176

Dear Chief Collina,

Congratulations! I am pleased to inform you that the Executive Office of Public Safety and Security and the Department of Fire Services (DFS) has awarded the City of Melrose $18,901.80 in State Fiscal Year 2022 funding for the Firefighter Safety Equipment Grant Program.

While the last two years have presented great challenges, the fire service in Massachusetts has shone brightly, overcoming every obstacle along the way. Please know that we are deeply appreciative for your continued dedication to the mission of public safety, and grateful to be able to provide your department with this important equipment.

The contract, terms and conditions, and other award documents for this program will be provided to you by DFS. Please contact Tim Moore at DFS with any questions about this award at 978-567-3721 or Timothy.Moore@mass.gov.

Sincerely,

Governor Charles D. Baker

Lt. Governor Karyn E. Polito

Department of Fire Services and the City of Melrose
FY22 Firefighter Equipment Grant Agreement Scope of Work and Budget

Authorization: This grant is awarded by the Executive Office of Public Safety through the Department of Fire Services' FY22 Firefighter Safety Equipment grant program for the purchase of firefighter safety equipment in accordance with the Acts of 2020 chapter 151 2D, the Department of Fire Services Earmark and Grants policy and procedures, and CMR 815, 2.00 State Grant Regulations.

Grant Project Description: Purchase of firefighter safety equipment as listed in the budget section of this Scope of Work.

Grant Manager: The MA Department of Fire Services and the grantee will each assign a grant manager with respect to this Scope of Work. It is anticipated that the grant manager will not change during the period the Scope of Work is in force. In the event that a change is necessary, the party requesting the change will provide prompt written notice to the other. In the event a change occurs because of a non-emergency, two-week written notice is required. For a change resulting from an emergency, prompt notice is required.

The MA Department of Fire Services grant manager will work closely with the grantee to ensure successful completion of the grant, will consult with the grantee to develop the Scope of Work, will coordinate input as needed, and will review and approve deliverables, progress reports and authorize acceptance and compensation of deliverables.

The grantee's grant manager will serve as the interface between the MA Department of Fire Services and all grantee personnel participating in this program, will maintain the Scope of Work and Budget in consultation with the MA of Fire Services grant manager, will facilitate regular communication with the MA Department of Fire Services grant manager including status reports/updates and review of performance against the Scope of Work, and will work closely with the MA Department of Fire Services to ensure successful completion of the grant.

The grantee's grant manager is Finance Administrator Rachel Jacobsmeyer who can be reached at: 576 Main Street, Melrose, MA 02176, tel 781-979-4404, email: rjacobsmeyer@cityofmelrose.org. The MA Department of Fire Services grant manager is David Clemons, Director of Operations, 1 State Road, Stow, MA 01775, tel 978-567-3179, email: David.Clemons@mass.gov.

Budget: The funds may not be used to serve as a match for a federal grant. The funds may not be used for construction and all applicable local and state procurement requirements must be adhered to in the use of the grant funds. The grant funds must be used to purchase the following approved firefighter safety equipment.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Grant Award:

Department	*Description of allowable Equipment*
City of Melrose	Portable Radio Support Equipment (including Battery Chargers, Battery Conditioners, Speaker Mics, and Headsets
Total Award	$18,901.80

Reimbursement Request Process: The MA Department of Fire Services agrees to disburse funds on a cost reimbursement basis. All costs requested for reimbursement must be listed on the DFS Grant/Earmark reimbursement form. Appropriate supporting documentation for all non-salary costs must also be attached, including:

1. copy of invoice
2. proof of payment – cancelled check or similar other proof of payment documentation such as a copy of the City/Town warrant or invoice that is marked paid and signed as paid by the City/Town fiscal officer.

Period of Performance: **Approved expenditures may not be made until a contract has been executed between DFS and the grant recipient.** Expenses incurred prior to execution of a contract **will not** be eligible for reimbursement through this program.

Grant recipients must take delivery of equipment no later than June 30, 2022. Equipment delivered to the recipient after that date **will not** be eligible for reimbursement through this program unless approval for an extension has been already been granted in writing by the DFS grant manager.

Reimbursement requests must be submitted no later than July 29, 2021. DFS will only reimburse for costs incurred through the grant performance period, June 30, 2022.

Grant Extensions: Grant recipients may request a single performance period extension if extenuating circumstances beyond the control of the recipient (backordered equipment, supply chain disruptions, vendor errors, etc.) will prevent equipment from being delivered on or before June 30, 2022. Extensions for these purposes must be submitted to DFS by email no later than June 1, 2022. Approval of extension requests is at the sole discretion of DFS.

Grant Monitoring: The Department of Fire Services may conduct grant monitoring through either a desk-based review or on-site monitoring visits, or both, in order to obtain additional

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

information or verify information related to grant spending, grant-funded activity, or grant award outcomes. Advance notice will be given prior to a site visit. Findings of non-compliance with any portion of the terms of the FY22 Firefighter Safety Equipment Application, the executed Standard Contract Form, and the DFS Grant Agreement Scope of Work and Budget may result in a demand for funds to be returned to DFS.

Changes in Scope of Work or Budget: The grant project description and budget are fixed and any change would be a "material" change in the contract. "Material" changes to the project description (adding, deleting or altering items) or budget lines (deletions, additions or changes to items) will require both parties to execute a *Standard Contract Amendment Form.* Contract amendments may not be done retroactively and must be done prior to the grant end date.

Records Management: The grantee shall maintain records in accordance with 815 CMR 2.08. This regulation includes but is not limited to "... maintain records, books, files and other data as specified in a contract and in such detail as shall properly substantiate claims for payment under a contract, for a minimum retention period of seven years beginning on the first day after the final payment under a contract, or such longer period as is necessary for the resolution, of any litigation, claim, negotiation, audit or other inquiry involving a contract..."

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Library Trustees Appointments
Date: February 22, 2022

I respectfully request the Honorable City Council confirm the re-appointment of the following Library Trustees. To ensure that a majority of the Trustee's terms do not expire simultaneously, we are requesting staggered terms as follows:

- Edward Waystack, 50 Glen Street, to a one-year term; said term to expire the last day of February 2023
- Nancy Kukura, 79 Mt. Vernon Street, to a two-year term; said term to expire the last day of February 2024
- Carol Hoffman, 97 Cochrane Street, to a three-year term; said term to expire the last day of February 2025
- Mark S. Robinson, 116 Country Club Road, to a three-year term to expire the last day of February 2025

Thank you for your consideration of these appointments.

RE: Melrose Housing Production Plan

I am pleased to present the Housing Production Plan to you for your review and approval.

As you know, a Housing Production Plan (HPP) is a specific type of plan that is defined under M.G.L. Chapter 40B. It can be used as a vehicle to achieve safe harbor under Chapter 40B, but perhaps more importantly, it provides an actionable roadmap of steps that the City can take to work towards addressing housing goals and needs in the coming years. The City of Melrose undertook this planning process in partnership with the Metropolitan Area Planning Council (MAPC), the regional planning agency for the Greater Boston region. The Plan requirements are dictated by MGL Chapter 40B regulation and include a housing needs and demand assessment, establishment of housing goals, analysis of factors affecting development, identification of opportunity sites, numeric production targets, and specific recommendations to achieve housing goals over the next five years.

This Plan is critical as the availability of all types of housing locally and regionally is low and the cost of housing that does become available is high and is steadily increasing. The vacancy rates are well below a healthy level, and they are declining meaning that people have fewer options for housing. Prices have been steadily increasing from an average home price of $266,000 in 2000 to $630,000 in 2018 and $750,000 in 2020. Asking rents are averaging more than $2,000 in 2019 for all bedroom counts except for studio units. Roughly 29% of households are housing cost-burdened, meaning that they pay more than 30% of their income on housing. More than one in three households in Melrose could qualify for the most common types of deed-restricted Affordable Housing. There is no sign of reprieve from the upward trends of housing cost and downward trend of availability.

Change is inevitable and it is best to plan for it to increase the opportunities for housing in a way that makes sense for Melrose and supports our goals as a community. Approval of the Housing Production Plan will not change any laws or regulations in the City. Approval of the Plan is an

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

acknowledgement that housing is a critical part of the community and we need to take action to make it more attainable.

The Plan is a culmination of the work that has been done to analyze data related to housing, determine best practices for Melrose, and create housing related goals, policies and actions with community input. It sets the framework for further work on each action identified. Once approved, the Planning Board and other parties identified will then take a deeper dive into crafting zoning amendments and regulations, and working on other initiatives, to accomplish the goals of the plan.

This plan has been underway for 15 months and the process has included extensive community involvement. An Advisory Committee, comprised of residents that have professional expertise in the housing industry, along with City Councilor Jack Eccles and Planning Board Chairman Greg Sampson, have spent many hours volunteering their time to offer substantive input on the public process and the content of the plan. In the fall of 2020 and spring of 2021 we held live webinars and asynchronous online open houses. We also held focus groups, targeted interviews, and met with city commissions and boards to discuss the plan and seek feedback. Residents were invited to participate via the City's website, social media, promotion in the local papers, and through flyers posted in the windows of local businesses and at other key locations such as City Hall, the Library, and the Commuter Rail Stations. Advisory Committee members were also instrumental in spreading the word about the process and engagement opportunities through their networks.

We shared the final draft of the plan with the community and asked for feedback. Approximately seventy people responded. The responses generally reflected some common themes around density, housing type and location, and tax implications, and the comments reflected a balance of opinions. We heard from people that do not want any new development and others that thought the plan does not go far enough to allow for more development in all areas of the City. Comments included making sure that specific groups have more housing options including those with housing insecurity, those with disabilities and seniors; and these groups were in mind when crafting many of the final actions in the plan. Responses were voiced on both sides for including passage of the Community Preservation Act (CPA) as an action item to explore and we determined that clarifications around how the CPA can be structured and adopted were needed. Edits and additional information were added to the plan to respond to the comments without negating all of the feedback received through the process.

The HPP was presented to the Planning Board at their meeting last night and was met with support and a unanimous vote to approve the Plan. Approval of the HPP by the City Council is the next step in the process. The Plan will then be submitted to the Department of Housing and Community Development (DHCD) for approval. We are confident that DHCD will find that the HPP meets all of the requirements defined in the Chapter 40B statute and that they will support our housing goals and objectives.

We look forward to your continued support and to starting the next phase of working towards implementation of the goals outlined in the Plan.

Executive Summary

Introduction

The Melrose Housing Production Plan (HPP) is based on a community-driven planning process to set the direction of housing policy and development in the city over the next five years. The City of Melrose undertook this planning process in partnership with the Metropolitan Area Planning Council (MAPC), the regional planning agency for the Greater Boston region. The plan is grounded in robust technical analysis and local expertise and insight, including active participation from a resident Advisory Committee and community feedback received through multiple forms of engagement. The plan meets the requirements for an HPP defined in M.G.L. Chapter 40B, but perhaps more importantly, it provides an actionable roadmap of steps the City can take to work towards addressing housing goals and needs in the coming years.

M.G.L. Chapter 40B

Massachusetts General Law Chapter 40B is a state statute encouraging cities and towns to maintain a supply of Affordable Housing that amounts to 10% of their total year-round housing stock. For these purposes, Affordable Housing is defined as housing that is deed-restricted to be affordable to eligible low-income residents without paying more than 30% of their annual household income. Affordable units that meet this criteria, as well as market-rate units in mixed-income rental housing developments where 20-25% of units are Affordable Housing, are eligible for inclusion on the Massachusetts Subsidized Housing Inventory (SHI).

Of Melrose's 11,714 housing units (2010 Census), 934 units—8% of the City's total housing stock—are included on the SHI. Because Melrose has not met the state's 10% Affordable Housing target, developers may override local zoning ordinances with a comprehensive permit if at least 20-25% of homes in a development are Affordable Housing. Once a community reaches the 10% threshold, it can claim "safe harbor" and thereby deny a developer a comprehensive permit.

Housing Production Plans

A Housing Production Plan (HPP) is a specific type of plan that is defined under M.G.L. Chapter 40B and approved by the Massachusetts Department of Housing and Community Development (DHCD). Plan requirements include a housing needs and demand assessment, five-year housing goals, analysis of factors affecting development, identification of opportunity sites, numeric production targets, and specific recommendations to achieve housing goals.

HPPs are important planning tools that can help a municipality better understand local housing needs and define where it wants future housing development. A Housing Production Plan can also be used as a vehicle to achieve safe harbor under Chapter 40B. Communities that adopt an HPP and produce sufficient Affordable Housing units over a certain period of time can apply to have their HPP certified by the Department of Housing

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

and Community Development, which offers temporary safe harbor from 40B projects lasting one to two years.

Planning Process

This plan is the result of a robust community process that included:

- **Advisory Committee.** A committee comprised of members of the Melrose community met eight times over the course of the planning process, during which they offered substantive input on the public process, the plan's goals, potential strategies and actions, and more.

- **Fall Engagement Campaign.** In late 2020, the project team held two events—a live webinar and an asynchronous online open house—to publicly launch the planning process. Hundreds of people participated in these events. Feedback illustrated that the majority of participants wanted Melrose's housing to promote an inclusive, affordable, and sustainable community.

- **Spring Engagement Campaign.** In June 2021, the project team again hosted a webinar and an online open house, in this case designed to share and collect input on the plan's potential content. City staff also conducted an in-person "tabling" event in Downtown Melrose. These events were attended by hundreds of people who collectively demonstrated a desire to take steps to address the City's housing goals, including zoning reforms and programs to address affordable and fair housing.

- **Focus Groups.** The planning team held two focus group meetings with government officials and members of the real estate industry (including local developers, land use lawyers, and brokers) in order to better understand barriers to housing production and potential opportunities in Melrose.

- **Targeted Interviews.** The planning team conducted one-on-one phone interviews to learn about residents' housing needs and challenges and engage members of the Melrose community that were underrepresented during the public engagement campaigns.

- **City Commissions.** MAPC and OPCD staff attended meetings of the City Council, Historical Commission, and the Human Rights Commission to discuss the plan, its potential recommendations, and how the plan and housing generally could interact with each commission's operations and priorities.

- **Public Comment Period.** At the end of the planning process, MAPC and OPCD held a public comment period and conducted outreach to gather feedback on the final draft plan.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Due to the COVID-19 pandemic, nearly all of the public process was virtual, conducted online or over the phone.

Housing Needs and Demand Assessment

The Housing Needs and Demand chapter of the HPP analyzes quantitative data about the demographics, housing stock, and housing affordability in Melrose. It also highlights qualitative findings about housing needs gleaned from the plan's public process. Taken together, these two sources provide a picture of housing need in Melrose and ultimately informed the City's housing goals.

Melrose is home to a range of household types, sometimes surprisingly so. Fully one-third of Melrose residents rent their home, a number that was much higher than many engagement participants expected. Additionally, 38% of households in Melrose are comprised of either a single person living alone or with unrelated roommates. Both renters and single-person or non-family households have unique housing needs that must be considered as the City plans for future housing.

Like communities throughout the region, Melrose's seniors comprise a substantial portion of its population. More than a quarter of Melrose householders are seniors over the age of 65. These residents are more likely to have changing physical and financial needs that require them to find new housing or make modifications to their existing home. Another 19% of Melrose householders are between 55 and 64 years old and could face similar challenges in the coming years.

Though Melrose has become more racially diverse in recent years, it remains less racially diverse than the region overall. Roughly 14% of Melrose residents today are people of color. This represents a substantial increase from roughly 5% people of color in 2000, though Melrose remains less racially diverse than many neighboring municipalities (this disparity is due at least in part to decades of discriminatory policies in the Boston region executed at all levels of government and within the private housing market). Participants in the HPP's engagement identified increased racial and ethnic integration as one of their top housing priorities.

Melrose has successfully added multifamily units to its housing stock in recent years, though over half its housing (55%) remains single-family homes. Between 2013 and the second quarter of 2019, Melrose added 567 net new housing units, roughly 97% of which were in large multifamily buildings. However, the city has added fewer units in small multifamily buildings such as duplexes or triplexes.

Housing costs in Melrose are high across all housing types, directly impacting many households' ability to find suitable housing. Consistent with trends across the region,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose's home prices have steadily increased since the Great Recession, with the median home value in 2018 reaching $630,000. Asking rents in Melrose are also expensive, averaging more than $2,000 in 2019 for all bedroom counts except studio units. Meanwhile, roughly 29% of Melrose households are housing cost-burdened, meaning that they pay more than 30% of their income towards housing.

Melrose is home to households earning a range of incomes, including a substantial number of low-income households. The median income in Melrose is $103,743. However, this does not tell a complete story. An estimated 36% (3,850) of Melrose households are considered low-income according to federal standards, including 24% of homeowners and 62% of renters. This means more than one in three households in Melrose today could qualify for the most common types of deed-restricted Affordable Housing, numbers which surprised many engagement participants.

Housing Goals

Based on public input received during the fall and spring engagement campaigns, the housing needs and demand assessment, and feedback from the HPP Advisory Committee and City staff, this plan proposes five goals for housing in Melrose:

1. **Housing Mix.** Encourage a range of housing options and types to serve households with a variety of incomes and meet the diverse needs of current and future Melrose residents.

2. **Racial Equity.** Advance racial equity, promote inclusion, encourage wealth creation through housing access for people of color, and enrich the Melrose community through increased diversity.

3. **Affordable Housing.** Expand and preserve deed-restricted and subsidized Affordable Housing opportunities for low- and moderate-income households, including family households.

4. **Enhanced Neighborhoods.** Utilize housing as a tool to enhance existing Melrose neighborhoods, balancing development with other community priorities like open space, historic preservation, economic development, walkability, sustainability, and resilience.

5. **Community Engagement.** Promote an understanding of the role that housing plays in Melrose and the region through ongoing public engagement and discussion.

This HPP also sets a development target of 237-294 new Affordable Housing units over the next five years to increase the City's share of Affordable Housing to 10% of its total year-round housing stock and achieve "safe harbor" under Chapter 40B. The range describes the required increase according to 2010 Census housing counts and

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

anticipated 2020 Census housing counts, respectively. Alternatively, after this HPP is adopted by DHCD, the City could seek temporary safe harbor if in one calendar year it produces 59-61 Affordable units (one-year safe harbor) or 117-122 Affordable units (two-year safe harbor).

Strategies and Actions

To advance the City's housing goals, the plan recommends an array of locally specific housing policies and practices. These were selected and refined through an interactive process involving MAPC, City staff, and the project Advisory Committee, and were shared with the public for feedback during the spring engagement campaign.

High Priority Strategies

The plan focuses on four high-priority strategies and supporting action items:

Strategy A: Use zoning and design guidelines to encourage "missing middle" housing that fits into Melrose's existing context.

Melrose has always featured a mix of housing types, including duplexes, townhomes, small multifamily buildings, and accessory apartments. However, detached single-family homes still comprise the majority of Melrose's housing. The actions in this section will encourage production of a more diverse range of housing types where appropriate.

- A1. Allow two-family homes and townhomes in more zoning districts.
- A2. Amend zoning to allow for more forms of accessory dwelling units.
- A3. Propose amendments to dimensional and parking requirements to allow for a range of smaller housing types that match historic development patterns.
- A4. Use density bonuses to incentivize conversion and/or expansion of historic structures to preserve architectural heritage while producing housing.
- A5. Craft design standards for mixed-use and multifamily housing near Downtown and along the rail corridor.
- A6. Craft design guidelines for infill and replacement development in older, mid-density neighborhoods.

Strategy B: Encourage the production of deed-restricted Affordable Housing units and create more deeply affordable options.

Deed restrictions are the only way to ensure some level of affordability in the long-term: a given housing unit may be inexpensive in the present, but market conditions could increase the cost of that housing in the future. The actions in this section will create, as well as guide utilization of, resources to produce deed-restricted units that will protect against rising housing costs and ensure housing stability for vulnerable residents.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- B1. Pass the Community Preservation Act, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.
- B2. Purchase property to develop as Affordable Housing.
- B3. Incentivize deeper levels of affordability in inclusionary zoning units through further density or dimensional relief.
- B4. Enhance the capacity of the Office of Planning and Community Development to conduct housing planning.
- B5. Support "friendly 40B" projects that use the Comprehensive Permit process to build housing, in particular Affordable Housing, where appropriate.

Strategy C: Encourage a fairer, more accessible private housing market.
The vast majority of the housing in Melrose is delivered through the private real estate market. Historically and today, this market has not provided access to housing equally for all; whether intentional or not, discrimination continues to occur. The strategies below will guide the City's efforts to counteract historic and contemporary housing discrimination in the private market.

- C1. Create a down payment assistance fund for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.
- C2. Encourage the adoption of Universal Design standards in new housing construction through the permitting process.
- C3. Explore local requirements for a Notice of Sale and Notice of Rent Increase to Melrose tenants to decrease housing instability.

Strategy D: Encourage sustainable development through the siting and design of new housing.
All communities have a duty to regulate development so that it minimally impacts the natural environment. The actions below will guide Melrose as it pursues better, more sustainable forms of housing development.

- D1. Create baseline requirements for sustainable development, as well as provisions for on-site green infrastructure.
- D2. Promote open space protection and ecologically sensitive development through zoning and subdivision regulations in areas outside of Downtown and the rail corridor.

Best Practices

In addition to the high priority strategies, the plan identifies additional actions that are either relatively easy to implement or are simply best practices for local government.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- BP1. Continue to monitor parking utilization in Downtown and the rail corridor, and "right-size" parking requirements in new developments.
- BP2. Study the need for emergency and transitional housing to address often-unseen homelessness within Melrose.
- BP3. Host regular information sessions on a variety of topics related to housing and equity to promote greater dialogue around and understanding of housing issues.
- BP4. Create an HPP Implementation Committee to oversee implementation and continue public discourse around housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Introduction

Overview

The Melrose Housing Production Plan (HPP) is based on a community-driven planning process to set the direction of housing policy and development over the next five years. An HPP helps communities understand their housing needs, set housing goals, and identify strategies to achieve those goals.

The City of Melrose undertook this planning process with the help of the Metropolitan Area Planning Council (MAPC), the regional planning agency for the Greater Boston region. A Housing Production Plan is a specific plan type that is defined under Massachusetts state law and regulated by the state's Department of Housing and Community Development (DHCD). This plan is funded through a Community Compact Grant and MAPC's District and Local Technical Assistance Program.

The plan must be adopted by the City Council and Planning Board and approved by DHCD to go into effect. After the plan is adopted, implementation of each individual recommendation will occur through subsequent planning processes that will entail further vetting, study, public engagement, and debate, in order to determine the specifics of each policy. The majority of strategies and actions put forth in this HPP, such as passing a zoning amendment or allocating municipal funding, will require a vote by the City Council while some recommendations, such passing the Community Preservation Act (CPA), are decided by a community-wide referendum.

What is a Housing Production Plan?

Housing Production Plans (HPPs) help municipalities better understand local housing need, identify development constraints and opportunities, and establish a vision for future housing development. HPPs are typically drafted in accordance with Massachusetts General Law Chapter 40B, a state statute encouraging cities and towns to maintain a supply of Affordable Housing that amounts to 10% of their total year-round housing stock. For this purpose, Affordable Housing is defined as housing that is deed restricted to be affordable to eligible low- and moderate-income residents without paying more than 30% of their annual household income. Affordable units that meet this criteria, as well as market-rate units in mixed-income rental housing developments where 20-25% of units are Affordable Housing, are eligible for inclusion on the Massachusetts Subsidized Housing Inventory (SHI).

In communities where less than 10% of housing units are included on the SHI, developers may petition the local Zoning Board of Appeals (ZBA) for a comprehensive permit for housing developments that do not fully comply with zoning and other local regulations (such as wetlands and historic districts), provided at least 20-25% of homes in the development are Affordable Housing. Under Chapter 40B, the ZBA has limited grounds

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

for refusal in these cases. Communities that are above 10% on the SHI may claim “safe harbor” and thereby deny a developer a comprehensive permit.

An HPP is a useful plan in itself, as it helps communities define what they want from their housing and creates a plan to pursue those goals. An HPP can also be used as a vehicle to achieve safe harbor under Chapter 40B. Communities that adopt an HPP and produce sufficient Affordable Housing units over a certain period of time can apply to have their HPP certified by the Department of Housing and Community Development, which offers temporary safe harbor lasting one to two years.

To meet the requirements of an HPP defined in state law (M.G.L. Chapter 40B), the Melrose Housing Production Plan contains the following elements:

- Housing needs and demand assessment
- Housing goals for the next five years
- Analysis of factors affecting development
- A development framework and identification of opportunity sites
- Numeric production targets
- Specific action recommendations for the city to achieve its housing goals

Melrose Forward

In June of 2017 the Melrose Planning Board adopted Melrose Forward: A Community Vision and Master Plan. The Plan identified our community’s needs and wishes for the coming decade. Melrose Forward serves as a guiding policy document for all future decisions on growth and preservation in the City. The plan includes goals, strategies and actions around many topics including housing. Since the adoption of the Plan the following actions related to housing have been accomplished:

- Action 1.2.1: Revise the Affordable Housing Incentive Program Ordinance to increase the stock of deed restricted affordable housing in Melrose.
- Action 1.2.2: Prepare a Housing Production Plan to identify locations ideal for new housing development and include annual affordable housing production metrics for the City to target.
- Action 1.3.2: Establish an Affordable Housing Trust Fund.
- Although not specifically listed as an action in the Master Plan, in 2021 the City created incentive zoning in the BA districts to allow for increased density in projects that provide community benefits and green, efficient buildings. This zoning amendment meets several goals of the Plan.

Additionally, the following housing related actions that are in the Master Plan, have been further vetted through the creation of the HPP and are included within the strategies and actions of this Plan:

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

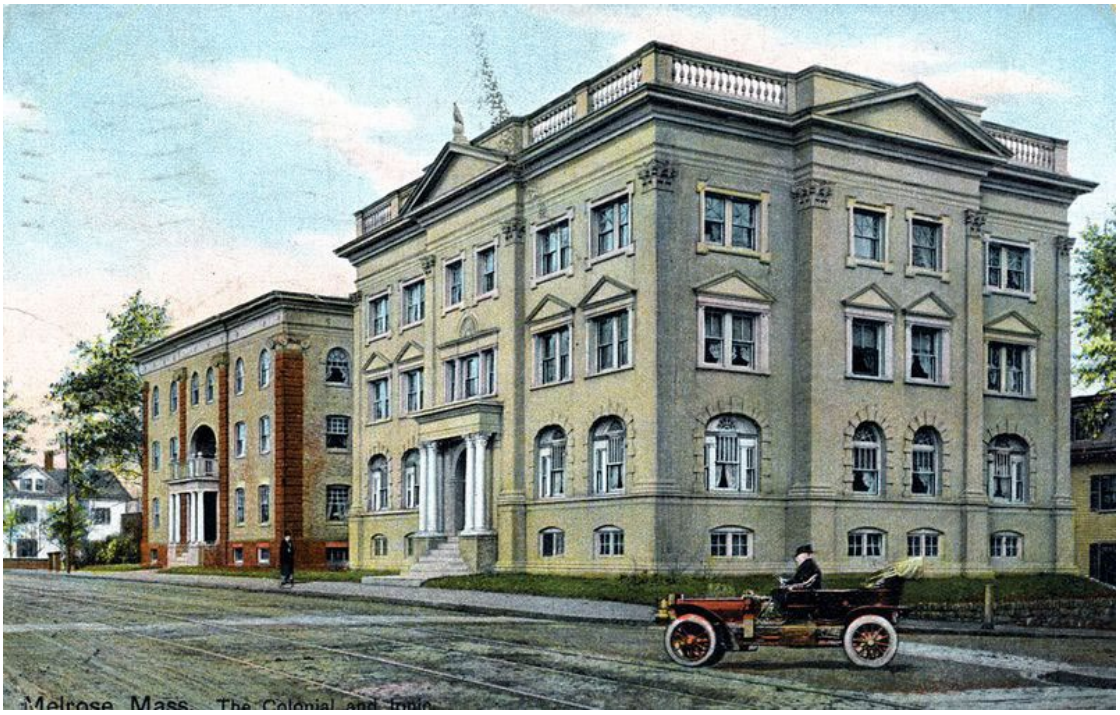
- Action 1.1.1: Consider amending the Zoning Ordinance to decrease restrictions on in-law apartments.
- Action 1.1.2: Consider amending the Zoning Ordinance to regulate accessory dwelling units.
- Action 1.2.4: Adopt the Community Preservation Act.
- Action 1.2.5: Explore opportunities for a “friendly 40B” – a housing development project that meets MGL Chapter 40B Comprehensive Permit Law requirements for development with a maximum of 25% affordable units, built by a private developer in cooperation with the City of Melrose.
- Action 1.3.1: Continue to proactively participate as a member of the North Suburban Consortium to obtain funding for affordable housing initiatives.
- Action 1.4.1: Connect eligible first-time homebuyers with the First Time Homebuyer Program provided by the North Suburban Consortium.
- Action 1.4.2: Develop a process to make tax lien properties available for purchase by nonprofit developers and/or the Melrose Affordable Housing Corporation first, before market-driven developers
- Action 2.2.2: Continue to support the Melrose Housing Authority and the Melrose Affordable Housing Corporation in their efforts to develop and maintain low-income housing.
- Action 2.2.3: Continue strict adherence to State and Federal Fair Housing laws.

Finally, the remaining actions related to housing in the Master Plan did not emerge as top priorities in the HPP; however, they remain considerations in the City’s efforts to achieve our housing goals.



About Melrose

The land occupied by Melrose was once home to the Massachusett and Pawtucket peoples indigenous to the region. The first European colonial settlement at Melrose was established in 1628. The settlement was incorporated as a section of Charlestown, then a section of Malden, before incorporating as an independent town in 1850. The Boston and Maine Railroad was built through Melrose in the 1840s, and soon the community began to grow from a small farming settlement to an established city. Melrose re-incorporated as a city in 1900, and continued to see waves of development. Before World War II, housing development was focused on the areas nearest to Downtown and the rail corridor, often in ornate Victorian styles. After World War II and mass adoption of the automobile, suburban economic development brought more employment opportunities in the Route 128 technology corridor, and the eastern areas of Melrose saw increased residential development in midcentury ranch and Cape styles.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

As suburbs began to develop further away from Boston's inner core and household sizes began to shrink, Melrose's population declined, a trend that continued through 2010. In the late 1970s, the City began a concerted effort to revitalize Downtown Melrose and parts of Downtown became a local historic district in 1979 and a national historic district in 1982. By the early 2000s, the Melrose community began transforming previously-industrial areas along the rail corridor into a residential mixed-use area, taking advantage of the City's existing infrastructural, retail, and architectural amenities. During the 2010s, Melrose had its first decade of population growth since 1960.

Planning Process

This plan is the result of a robust community process to guide the future of housing in Melrose. The process was managed by MAPC and City of Melrose staff and guided by the input of the plan's Advisory Committee. The process kicked off in September 2020, with substantive public engagement beginning in November 2020. The public process continued through Fall 2021. Due to the COVID-19 pandemic, nearly all of the public process was virtual, conducted online or over the phone.

Advisory Committee

The Melrose Office of Planning and Community Development (OPCD), Mayor Brodeur's office, and MAPC assembled an Advisory Committee to guide the plan. The committee is comprised of members of the Melrose community who offer insights into local housing needs and well as housing tools that could be used to address those needs. The Advisory Committee met eight times over the course of the planning process. During these meetings, Advisory Committee members offered substantive input on the public process, the plan's goals, potential strategies and actions, and more. Members of the committee included:

- City Councilor Jack Eccles
- Gregory Sampson, Melrose Planning Board
- Ellen Connolly, Melrose Housing Authority and Melrose Affordable Housing Corporation
- Thais DeMarco, LGBT Chamber of Commerce, formerly of the Massachusetts Housing Partnership and Somerville Community Corporation
- Jaron Green, Melrose Human Rights Commission and Union Baptist Church of Cambridge
- Charlie Harak, Melrose Housing Authority
- Deepak Karamcheti, MassHousing
- Seamus Kelley, Massachusetts Health Connector, formerly of the Executive Office of Housing and Economic Development
- Dana LeWinter, Citizens Housing and Planning Association
- Gina Martinez, Beacon Communities

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Fall Engagement Campaign

In November and December 2020, the planning team held two public events to begin the community engagement process in earnest. The first event was a live webinar held via Zoom. During this event, MAPC and City staff outlined the planning process, shared data about demographics and housing in Melrose, and solicited feedback about the public's vision for Melrose's future, and discussed potential housing priorities. The second "event" was an asynchronous "online open house" that took place over four weeks. The open house content and questions were roughly the same as those covered in the webinar, but it allowed participants to access this content in different way.

Hundreds of people participated in the webinar and online open house. The Fall Engagement Campaign illustrated that the majority of participants want Melrose's housing to promote an inclusive, affordable, and sustainable community. This engagement helped to inform the rest of the planning process, especially the plan's overall goals.

Spring Engagement Campaign

In June 2021, the planning team again held two public events to collect public input—this time on the plan's potential content and recommendations. In a second webinar and online open house, the planning team presented draft goals and potential strategies and actions that could address those goals. Participants were also asked to share their opinions about the location and type of future housing development in Melrose. In addition to these virtual engagement opportunities, City staff conducted a live "tabling" event on June 12 in Downtown Melrose. During this event, participants were offered a pared down version of the online open house content and were asked their opinions via a live survey. Participants were also directed to the online resources.

As with the Fall Engagement Campaign, hundreds of people participated in these events. While opinions on the policy specifics were not monolithic, the Spring Engagement Campaign revealed a desire to take steps to address the City's housing goals, including zoning reforms and programs to proactively address affordable and fair housing.

For both the Fall and Spring Engagement Campaigns, residents were invited to participate via the City's website, social media, email blasts, promotion in the local papers, and by hanging flyers in the windows of local businesses and at other key locations such as City Hall, the Library, and the Commuter Rail Stations. Advisory Committee members were also instrumental in spreading the word about this process and engagement opportunities through their networks.

Focus Groups

The planning team held two focus group meetings, one with government officials and another with members of the real estate industry, including local developers, land use lawyers, and brokers. Both these groups have a strong understanding of the Melrose

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

community and its housing market, as well as the specifics of the local development review and permitting process, and they can speak directly to barriers limiting housing production. The discussions focused on constraints, including infrastructure, zoning, and permitting/approvals, along with opportunities for new development, including specific sites and policy changes that can lead to an expanded and more diverse housing stock.

Targeted Interviews

The format of urban planning engagement processes has historically favored input from people with relatively high resources and access to decisionmakers. People of color, renters, young people, and low-income people are among the most consistently underrepresented. During the COVID-19 crisis, throughout which engagement activities have been conducted primarily online, seniors (especially lower-income seniors) have also been relatively excluded. Despite efforts to advertise engagement opportunities to all members and potential members of the Melrose community, this planning process also saw gaps in participant demographics.

To correct these issues, the planning team conducted targeted phone interviews with people in underrepresented demographics. These interviews asked about participants' "housing stories," their housing needs, and the challenges they face finding appropriate housing in Melrose. Compared to the engagement campaigns, these interviews allowed for a more granular, qualitative understanding of housing needs. Insights from these interviews helped to inform the plan's goals and its strategies and actions. Interview excerpts are highlighted throughout this plan.

City Commissions

MAPC and OPCD staff attended meetings of the Historical Commission and the Human Rights Commission to discuss the plan, its potential recommendations, and how the plan and housing generally could interact with each commission's operations and priorities. These meetings materially framed the list of potential recommendations assessed by the public at large.

The project team also attended a meeting of the Melrose City Council at the end of the Fall Engagement Campaign to summarize the community engagement process, discuss next steps for the plan, and answer any questions they had.

Public Comment Period

Residents, Boards, and the City Council were invited to provide comments on the final draft of the Housing Production Plan via social media, the website, the local newspaper, and the Mayor's Blog. Approximately 70 people provided feedback during the public comment period.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Data Sources and Analysis

A number of quantitative data sources were used for this plan: the US Census, including Decennial Census, American Community Survey (ACS), Population Estimates Program, and Comprehensive Housing Affordability Strategy (CHAS) data; City data; and industry real estate property and transaction databases. The City of Melrose provided support in understanding data estimates from ACS, which can be less precise since they are estimates rather than counts but which are more recent than Decennial Census data. Unless otherwise stated, data appearing in text can be attributed to the 2014-2018 ACS. In some cases, data is pulled from other years due to data consistency or availability. Below is a brief explanation of the US Census data sources used for this plan.

- Census of Population and Housing (decennial census): Demographic and housing counts. This report uses data from the 2000 and 2010 Census.
- American Community Survey (ACS): 5-year demographic and housing estimates for large and small geographic areas based on monthly surveys. Estimates are based on a small population sample, but results of each monthly survey are aggregated to provide a larger dataset. This plan primarily uses data from the 2014-2018 ACS survey, the most recent available data at the beginning of the HPP planning process. Following best practice, percentages are used in lieu of numbers for most estimates to avoid sharing numbers that, as sample-based estimates, may not be as precise as the decennial census data.
- Population Estimates Program: Annual population estimates based on the 2010 Census. This plan uses the 2018 estimates.
- U.S. Department of Housing and Urban Development (HUD) Comprehensive Housing Affordability Strategy Data (CHAS): Custom tabulations of ACS data that demonstrate the extent of housing problems and housing need, particularly for low-income households. This plan uses the most recent available CHAS data from 2012-2016.

Context Communities

How can we understand Melrose's housing and demographic data in context? How does Melrose compare to other similar communities? How does it compare to communities facing even more acute symptoms of the housing crisis? To aid in this plan's understanding of Melrose within a broader context, the planning team created a list of "context communities."

First, the team pulled quantitative data on select housing and demographic metrics for Melrose and a large universe of nearby communities. Other communities were scored on their similarity to Melrose for each metric, and the list of potential context communities was narrowed to the most similar municipalities according to this data. Finally, the planning team selected communities from that narrowed list that would be *useful* comparisons to Melrose. This includes communities like Beverly that share many traits

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

with Melrose, as well as communities like Somerville, which are more dissimilar but illustrate the effects of even greater housing demand. Though the quantitative aspects of context community selection provide some framework for selection, the choices were necessarily subjective.

The final list of context communities used in this plan is:

- Arlington
- Beverly
- Malden
- Medford
- Norwood
- Somerville
- Wakefield
- Wilmington
- Winchester

A full accounting of the context community selection process can be found in Appendix A: Context Community Selection Methodology.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Needs and Demand Assessment

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

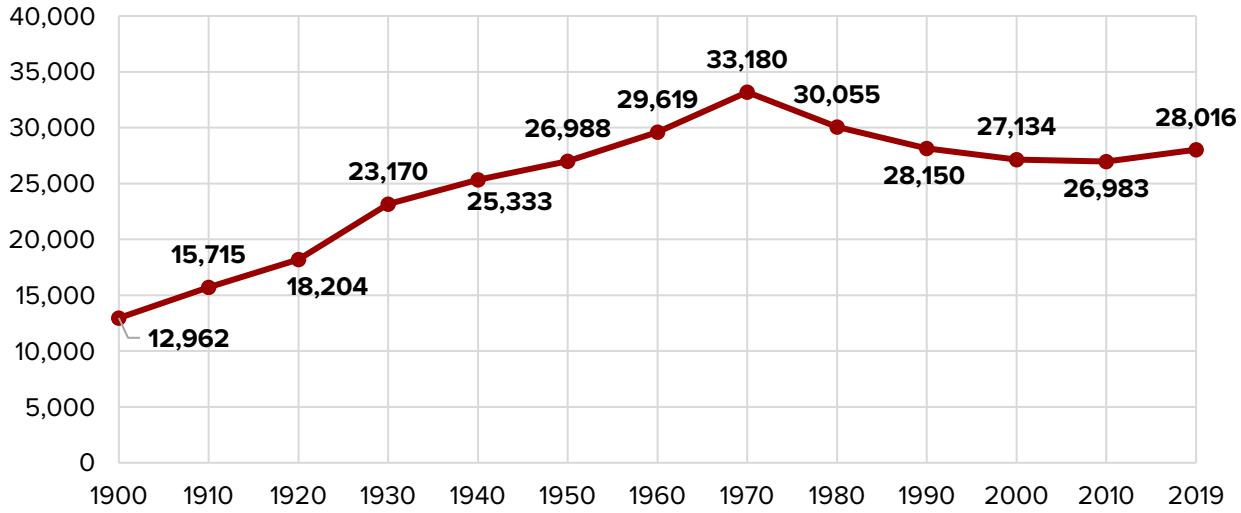
Overview

This chapter of the plan assesses housing needs and demand, which will inform the City's housing goals. The chapter will analyze quantitative data about the demographics, housing stock, and housing affordability in Melrose. The next chapter will summarize qualitative findings about housing needs gleaned from the plan's public process.



Direct quotes from Melrose residents are interspersed throughout the quantitative analysis to contextualize the data with real housing stories.

Demographics

Population Growth

Melrose's population has grown in recent years but is still much lower than its 1970 peak. In 1950, Melrose was home to roughly 27,000 people. Its population continued to grow toward a peak of more than 33,000 people in 1970, before declining to 27,000 in 2010. The 2010s saw the first decade of population growth in Melrose in 40 years when the City grew by roughly 1,000 people. Melrose's population growth between 2010 and 2018 (roughly 4.5%) was significant, but this rate of growth was consistent with similar communities. Six of those communities (Arlington, Beverly, Somerville, Wakefield, Wilmington, and Winchester) grew at faster rates than Melrose (all with growth rates more than 5%), while three (Malden, Medford, and Norwood) grew at slower rates.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

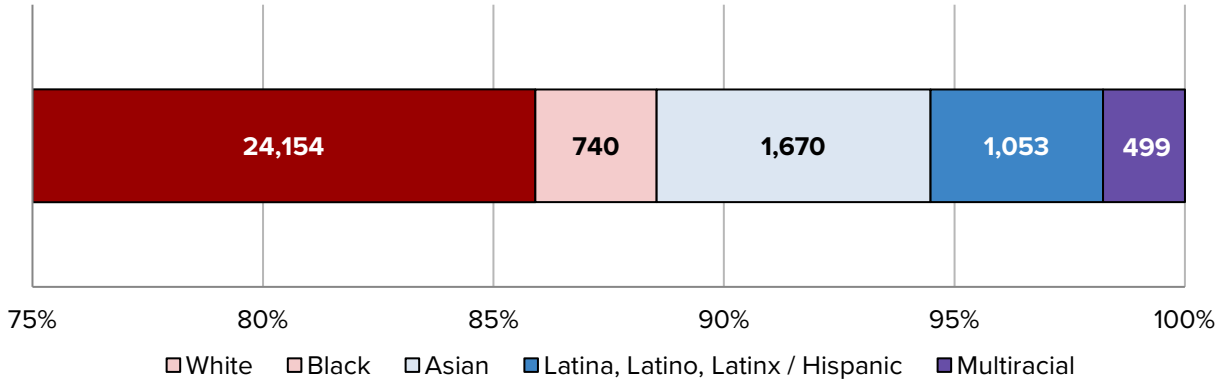
Figure 2: Population growth in context communities, 2010-2018

Source: US Decennial Census, 2010; ACS 5-year estimates, 2014-2018

Race and Ethnicity



The racial and ethnic composition of a community is determined in part by the historical and current characteristics of its housing market. Local, state, and federal housing policies have been used for more than 100 years to construct a system of racial segregation in neighborhoods across the country, which was perpetuated by actions of the private housing market. The federal Fair Housing Act in 1968 formally outlawed segregation and discriminatory housing practices, but regardless, the US is more segregated today than it was in the 1960s. This is explained in part by the deployment of exclusionary zoning practices that disproportionately impact people of color, such as large minimum lot sizes, as well as a lack of adequate fair housing law enforcement.

Melrose is roughly 86% White, 6% Asian, 4% Latinx, 3% Black, and 2% multiracial.[1] According to Census Bureau estimates, there are no Native American people, Native Hawaiian/Pacific Islander people, or people of other races. The proportion of Melrose residents of color has increased from roughly 5% in 2000 to 14% today. However, the city has a higher share of White residents than each of the context communities except Beverly, Wilmington, and Wakefield.

[1] This section of the plan uses racial and ethnic categories based on US Census Bureau data, though they are always controversial and are considered inadequate by some communities. In the Census Bureau's schema, people can identify as one or more race, as well as one or more ethnicities. Latina, Latino, Latinx, and Hispanic identity is considered an ethnicity, and people of Latin ethnicity can be of any race. This plan reports Latinx people as one racial/ethnic category regardless of race, and racial categories in this plan do not include people of Latin ethnicity. This plan also uses short-hand text descriptions for racial and ethnic categories, such as "White" instead of "non-Latinx White or Caucasian."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

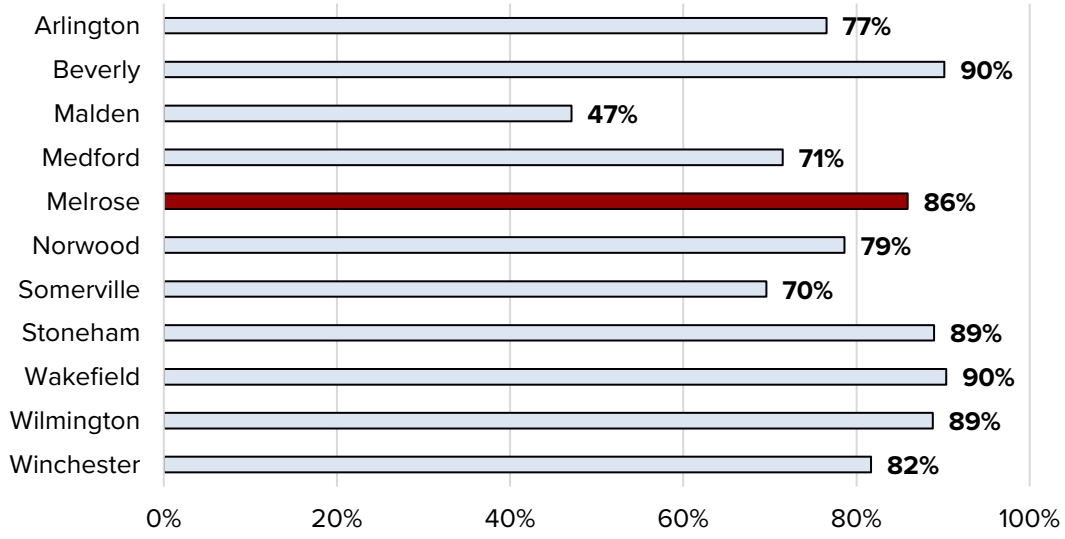

Figure 3: Melrose population by race and ethnicity, 2018

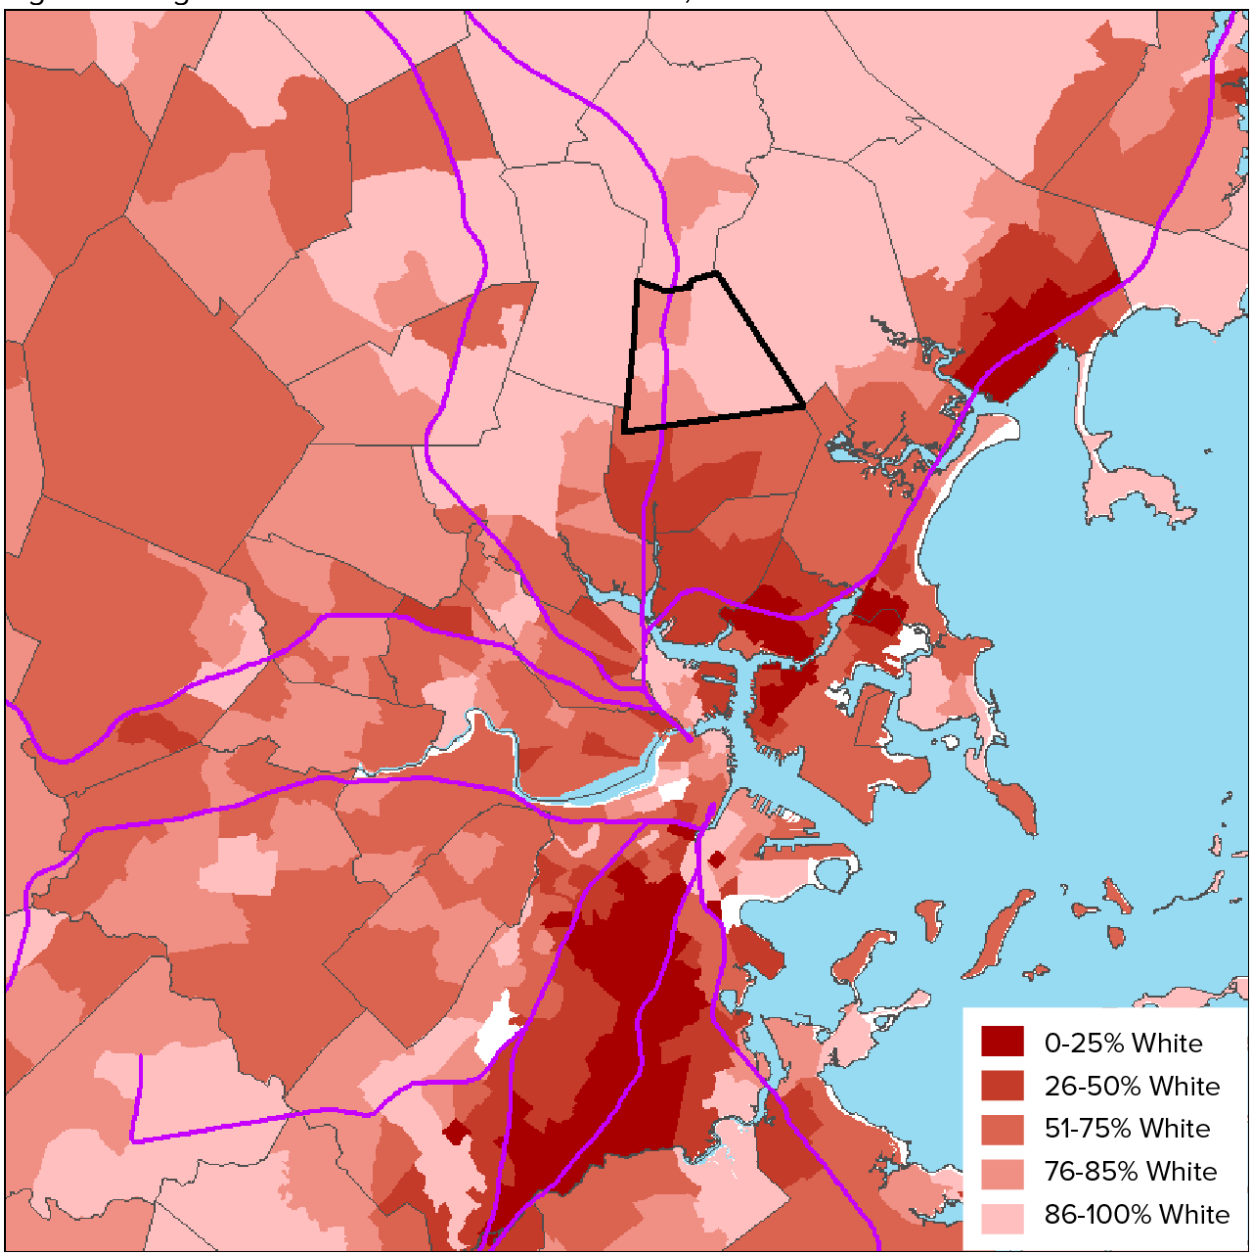
Source: ACS 5-year estimates, 2014-2018

"We need to be honest about having intentionally created a dominantly white space here in Melrose, through public policy. Home ownership was subsidized for white families, while Black families were divested of wealth and opportunity. I would like to see us acknowledge and correct those wrongs. I would like to see us prioritize home ownership for BIPOC [Black and Indigenous people of color], with a focus on Black families."

Figure 4: Percent White residents by context community, 2018



Source: ACS 5-year estimates, 2014-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose is more racially diverse than communities to the north but has a higher proportion of White people than communities to the south and east. The western portions of Melrose are proportionally less White than the eastern portions.

Figure 5: Regional distribution of White residents, 2016

Source: ACS 5-year estimates, 2012-2016

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

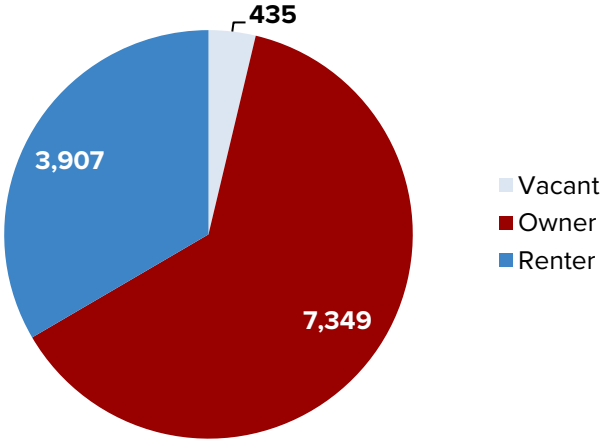
Age

Household age patterns impact the size, type, and accessibility of the housing stock needed in a community. Younger householders can often live in more compact housing, while middle-aged householders are more likely to need space for multigenerational households. Like their younger counterparts, senior householders may want to live in more compact households, but they are also more likely to need housing that is accessible to people with disabilities. Age also impacts the amount that a household can pay for housing. Younger adult and senior householders tend to have less income than middle-aged householders in their prime earning years.

More than a quarter of Melrose householders are seniors over the age of 65; these residents are more likely to have changing needs that require them to find new housing or make modifications to their existing home. Another 19% of Melrose householders are between 55 and 64 years old, meaning they may face similar challenges soon, and will be more likely to experience decreased incomes and ability to pay housing costs. Roughly 18% of Melrose householders are under the age of 35. These figures are generally consistent with context communities, with the main exception being Somerville, where a high proportion of householders are under the age of 35.

Figure 6: Age of householder by context community, 2018

Source: ACS 5-year estimates, 2014-2018



"I'd like to see it as a place where we can have a more diverse city. Where we can take advantage of transit. And that we don't leave behind seniors."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

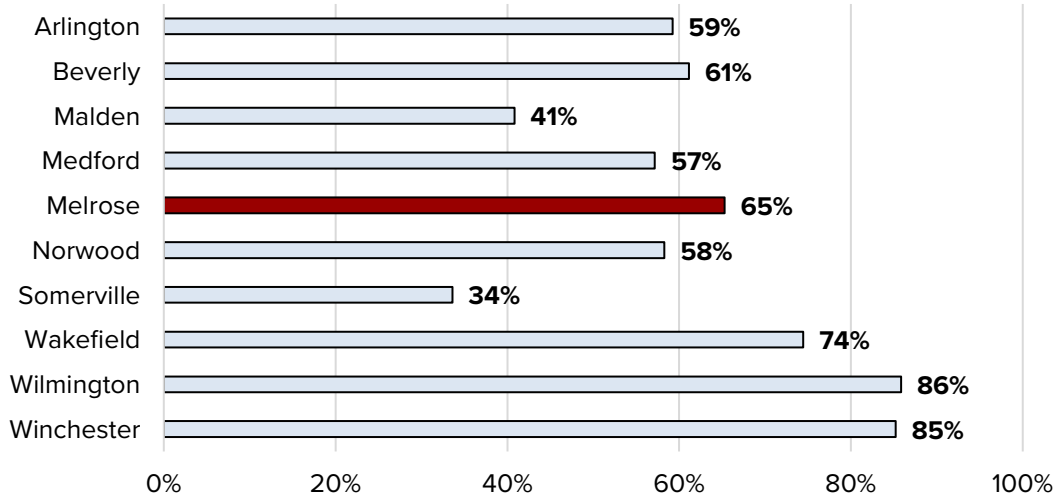
Housing Tenure

Roughly 63% of Melrose homes (7,349 homes) are occupied by their owner, while 33% (3,907) are renter-occupied. About 4% (435) of homes are vacant, a topic discussed later in this chapter. Some respondents in this plan's public engagement effort found the proportion of renters surprising, having assumed this figure to be lower. Across context communities, only Wakefield, Wilmington, and Winchester have higher rates of owner occupancy.

Figure 7: Melrose housing units by occupancy and tenure, 2018



Source: ACS 5-year estimates, 2014-2018

"I want to see more housing opportunities for a range of people. I would like to see more diversity of housing stock, including more rentals and multi-family units. I would like to see more resources put towards affordable housing, particularly for very low-income households and new opportunities for first-time homebuyers."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

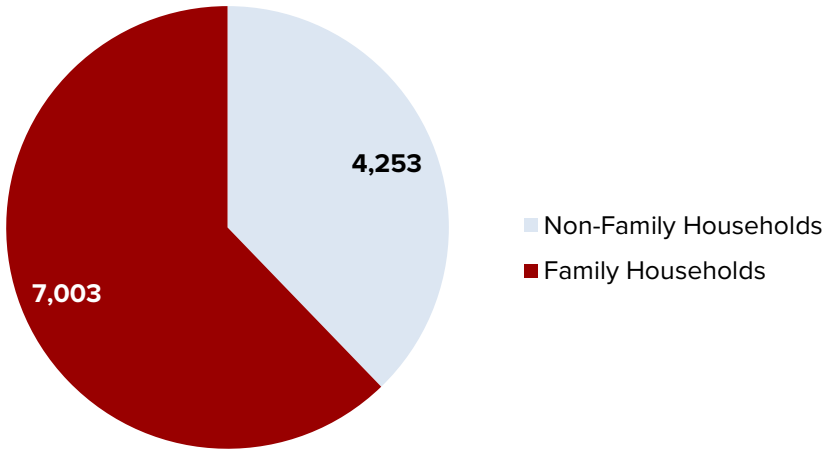
Figure 8: Percent of households that own their home by context community, 2018

Source: ACS 5-year estimates, 2014-2018



Household Type

Household composition is another important factor in determining what type of housing is needed in a community. An estimated 62% of Melrose households are family households, meaning there is more than one person in the household and at least two people are related by birth, adoption, or marriage. Roughly 87% of those families include a married couple, while 13% are other types of families. An estimated 38% of Melrose households are non-family households, meaning they are either a single person living alone or they are a household of unrelated people (i.e., roommates). Of those non-family households, 35% (1,469) are single seniors living alone, 44% (1,891) are non-seniors living alone, and 21% (893) are roommate households.

"There should be efforts to make neighborhoods in Melrose welcoming and appealing to a diverse and broad group of individuals and families. Housing, were there affordable opportunities, would be available to all ranges of income and to people from all racial backgrounds."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

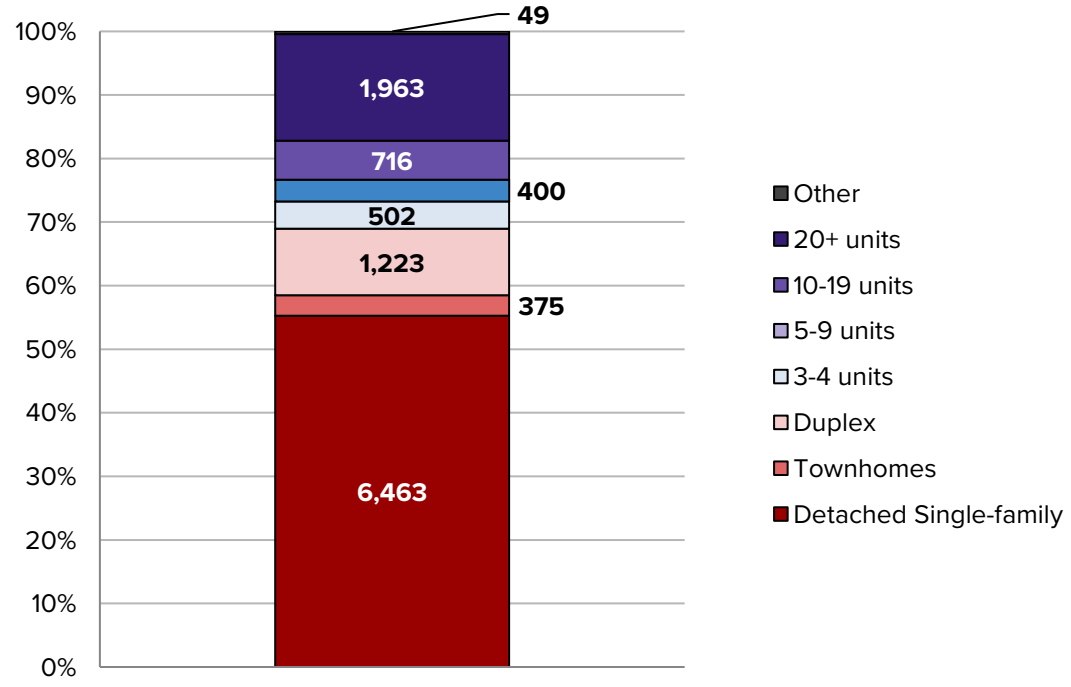
Figure 11: Melrose non-family households by non-family household type

Source: ACS 5-year estimates, 2014-2018

Housing Stock



Housing Type

The majority of Melrose's housing (55%) is detached single-family homes. The next most common housing type (16% of units) is within multifamily structures of 20 or more units. Duplexes or two-family homes make up 11% of housing units. Townhomes, buildings with three to four units, buildings with five to nine units, and buildings with 10 to 19 units each make up less than 10% of Melrose's housing stock. Of the context communities, only Wakefield, Winchester, and Wilmington have a higher proportion of single-family homes than Melrose.

In Melrose, land parcels with five or more housing units tend to be found in Downtown, along Main Street, or along the rail corridor. Parcels with two- to four-unit buildings are more widely distributed but are still primarily found in the parts of the city with older development located adjacent to Downtown and the rail corridor. Single-family parcels are located in virtually all parts of Melrose.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

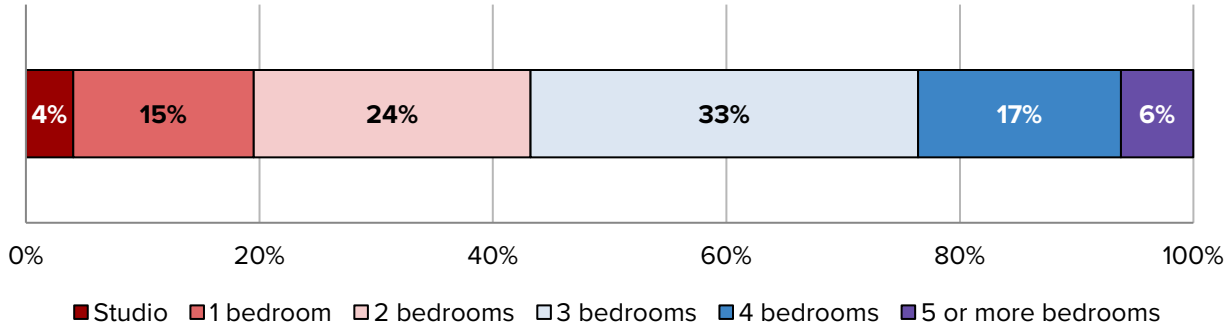
Housing Age

Over half of housing units in Melrose were built before the start of World War II. Another quarter of all housing was built from 1940-1969. This is consistent with the development of Melrose as a community that initially grew with the railroad and then experienced a wave of suburban-style development. The city's historic housing provides a diverse range of housing sizes and types as well as a shared architectural heritage. Nonetheless, older homes do carry certain liabilities. They can be expensive to maintain and retrofit for accessibility, and homes built before 1978 may contain lead-based paint, which is a powerful neurotoxin that can severely impair children's development.

Figure 17: Melrose housing units by year built, 2018[2]

Source: ACS 5-year estimates, 2014-2018 and Metro Mayors permit tracking data 2013-2019

"Honestly, they need to go into low-income housing, and really look. If they came into my apartment, I have a leak in my ceiling, I have mice, I can feel the wind blowing through my apartment right now. I am not asking for a luxury apartment at all. I am just asking for a safe space."



[2] ACS data often under counts the production of new housing units due to the way local building departments report their data to the Census. The ACS figure for units produced after 2010 (233) is an under count as Metro Mayors permit tracking data shows that Melrose added 567 net new housing units between 2013 and the second quarter of 2019 alone.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Number of Bedrooms

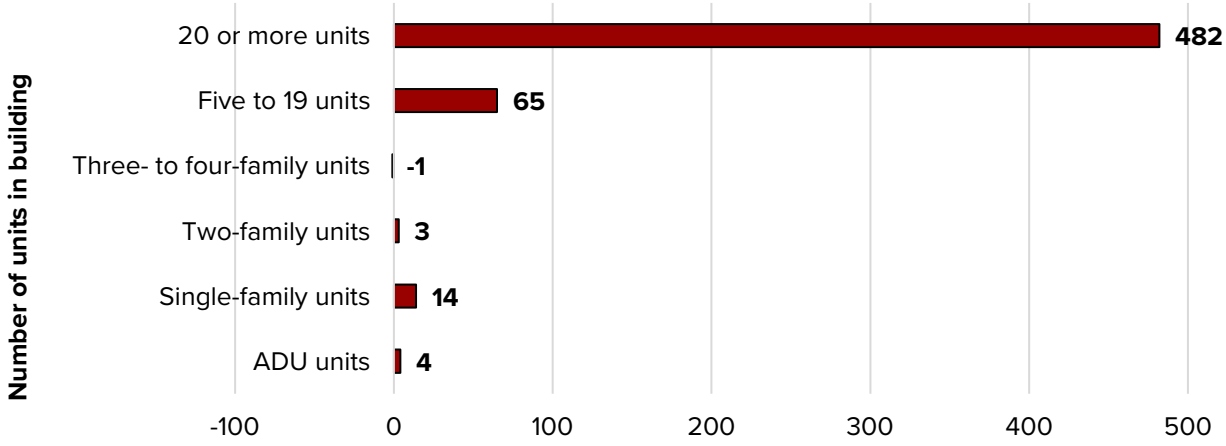
The majority of housing in Melrose is “family-sized” (three or more bedrooms), but there is a significant number of smaller units ranging from studios to two-bedroom units. Smaller units are well suited to single-person households, couples, roommates, young people, seniors, and others who may not need or desire large homes.

Figure 18: Melrose housing units by number of bedrooms

Source: ACS 5-year estimates, 2014-2018

“If there were certain tools that the City of Melrose could use, I think making more one- and two-bedroom units available would be huge. Maybe like making additions to existing multifamily units would be ideal.”

Vacancy



A certain level of housing vacancy is a normal part of any community and is necessary for a well-functioning housing market. Homes are most often vacant while they are awaiting new occupants during the selling or leasing process. A stable vacancy rate is considered to be around 3% in the homeownership market and around 6% in the rental market. Melrose’s vacancy rates are well below these levels, and they have been declining, inasmuch as rates this low can decline. From 2010 to 2018, the ownership vacancy rate declined from 1.2% to 1.1%. The rental vacancy rate declined from 3.0% to 2.7% in that period. These low vacancy rates mean that people have fewer options for homes when they need to find one. Further exacerbating the issue, when available housing supply is low, costs of housing increase. This problem is even more pronounced for people with physical disabilities who face fewer options to begin with.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Recent Development

In the last real estate cycle, Melrose successfully increased its supply of homes in large multifamily buildings, while seeing on only modest increases in other home types. Between 2013 and the second quarter of 2019, Melrose added 567 net new housing units. Roughly 97% of those new units were in multifamily buildings, including 85% in buildings with 20 or more units and 11% in buildings with 5 to 19 units. One percent of new units were accessory apartments and 1% were in two-family buildings. Roughly 2% of net new units (14 units total) were either detached or attached single-family homes. Approximately 12% of all new homes constructed were deed-restricted Affordable Housing units. In short, while Melrose has made strides in providing new multifamily housing, it should promote the construction of additional housing types in the next five years.

Source: Metro Mayors Coalition permit tracking data

Housing Affordability

Housing affordability is determined by the cost of housing and the ability of its occupants to pay those costs. In this section, the plan considers the connection between housing costs and resident incomes.

Home Prices

Price growth poses benefits and difficulties for the Melrose community. For incumbent homeowners, higher prices could result in potential financial gains if they choose to sell their home. However, an immediate financial drawback for homeowners is the increased property taxes on their greater home value. These may pose a burden for homeowners with fixed incomes, who are often seniors. For people who don't yet own their home, higher prices can pose a significant barrier to becoming a homeowner. High prices

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

disproportionately impact communities facing structural barriers to higher incomes, including people of color and people with disabilities.

Average home prices in Melrose increased 136%—from $266,000 to $630,000—between 2000 and 2018. Prices had risen in the first part of the 2000s during the housing price boom of that era, reaching an initial peak of $404,000. Following the end of the bubble, subsequent financial crisis, and Great Recession, average Melrose home sale prices decreased to a low of $341,000 in 2009. Since then, prices have grown steadily upwards. Of the context communities, only Arlington, Somerville, and Winchester have higher average home prices. Though data comparable to the previously cited figures is not yet available from the COVID-19 era, another data source shows the median sale price in Melrose from July to September 2020 was $750,000.[3]

> "My own children have had difficulty finding homes here, due to affordability. I have taken one of my sons to check out affordable home options. He is trying to learn about affordable loan options. The prices have gone up, they are outrageous prices."

Figure 20: Average home sale price in Melrose, 2000-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Figure 21: Average home sale price (single-family homes and condominiums) by context community, 2018

Source: Warren Group sale data

Rents

Rental units are an important part of any housing market, serving the needs of people for whom long-term ownership of a specific property type is a poor fit. Asking rents in Melrose are also expensive, averaging more than $2,000 in 2019 for all bedroom counts except studio units. In the same year, the median listing rent for three-bedroom units (considered a “family-sized” unit) was more than $2,900. High rents can place a burden on existing and potential renters and disproportionately impact communities structurally excluded from homeownership. Additionally, the vast majority of rental listings were for one- and two-bedroom units, meaning larger households may have trouble finding rental options.

Figure 22: Average rental listing price, 2019

Bedrooms	Listing Count	Average Listing Price
Studio	100	$1,670
1-bed	697	$2,030
2-bed	660	$2,430
3-bed	162	$2,940
4-bed	30	$3,010
5-bed	9	$3,300

Source: MAPC rental listing database, 2019

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"Trying to rent is almost impossible because rentals go in just a second, and they're overpriced. I mean there's a real housing crisis in Melrose."

Households by Income

Whether a home is affordable depends on who lives there and what income they have at their disposal. The median income in Melrose is $103,743. Homeowners in Melrose tend to be much wealthier than renters. While 66% of owner households have incomes of more than $100,000, that figure is only 23% for renters. Conversely, 48% of renters have household incomes of less than $50,000, while the same is true for only 15% for homeowner households. Of the context communities, only Arlington, Wilmington, and Winchester have median household incomes greater than Melrose.

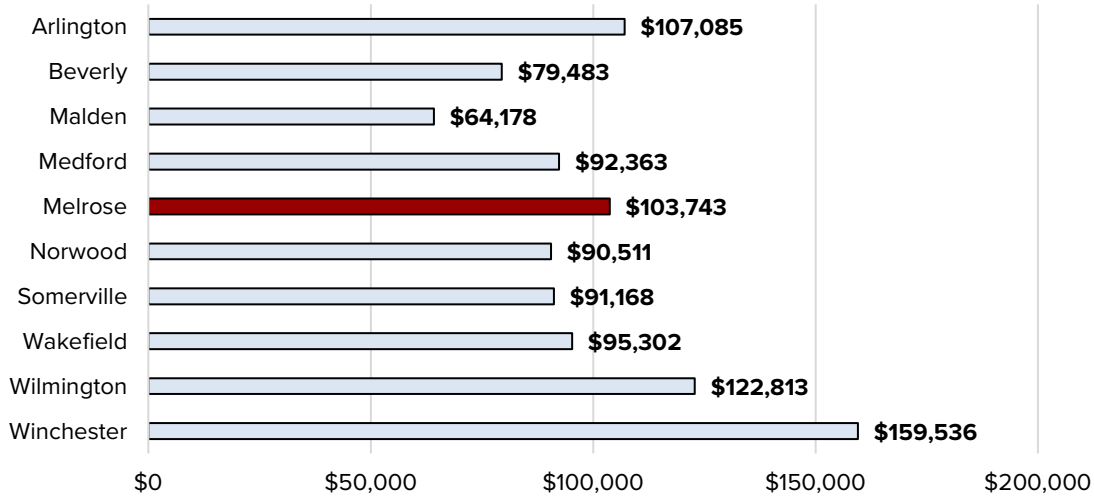

Figure 23: Melrose households by income, 2018

Source: ACS 5-year estimates, 2014-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

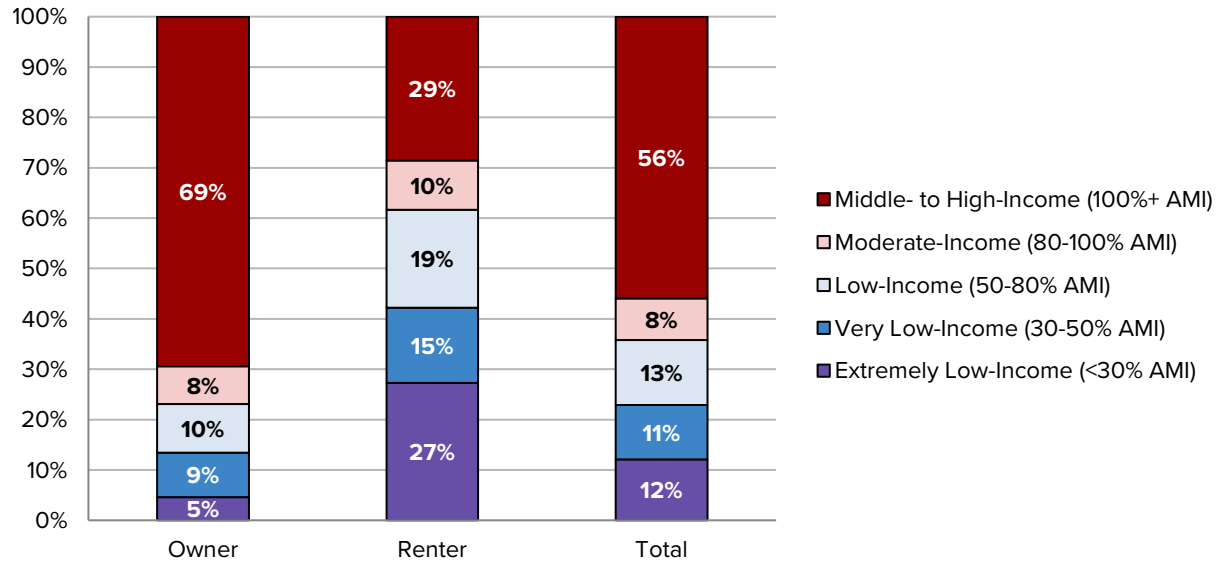
Figure 24: Median household income by context community, 2018

Source: ACS 5-year estimates, 2014-2018



Households by Income Status

"Income status" is a metric that compares a household's total income, adjusted for the number of people in that household, to the typical incomes of the region. A household is considered "low-income" when its total income is 80% or less than the median income for households of its size in the metropolitan region. This federally defined regional income figure is called the "Area Median Income" (AMI). Melrose is within the Boston-Cambridge-Newton Metropolitan Statistical Area, which stretches from New Hampshire to Plymouth and encompasses most of eastern Massachusetts. In 2021, Greater Boston's AMI for a four-person household is $120,800. Therefore, a four-person household earning $96,650 annually is considered low-income. AMI and income status differs by household size; for instance, a single-person household earning $67,700 is considered low-income. These definitions are important, because they impact who can receive housing assistance or be placed in deed-restricted Affordable Housing.

An estimated 36% (3,850) of Melrose households are low-income according to these federal standards, including 24% of homeowners and 62% of renters. This means more than one in three households in Melrose today could qualify for the most common types of deed-restricted Affordable Housing. In this plan's public engagement, these facts about Affordable Housing and who could qualify were surprising to many participants.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

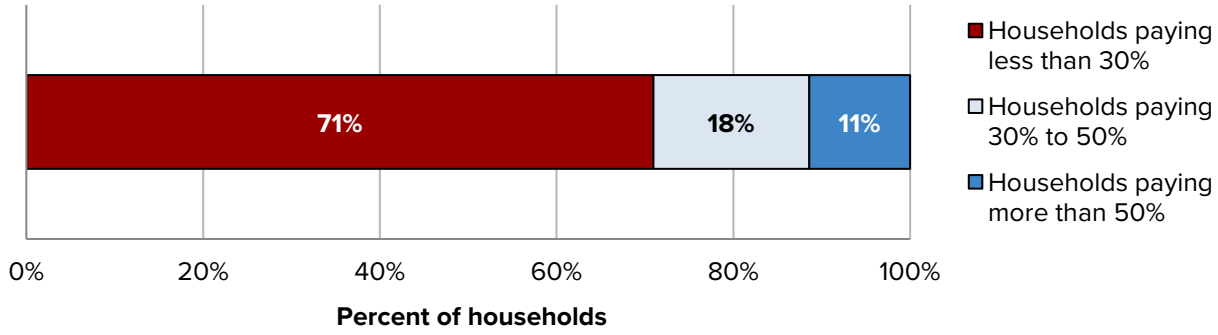
Figure 25: Melrose households by income status, 2018



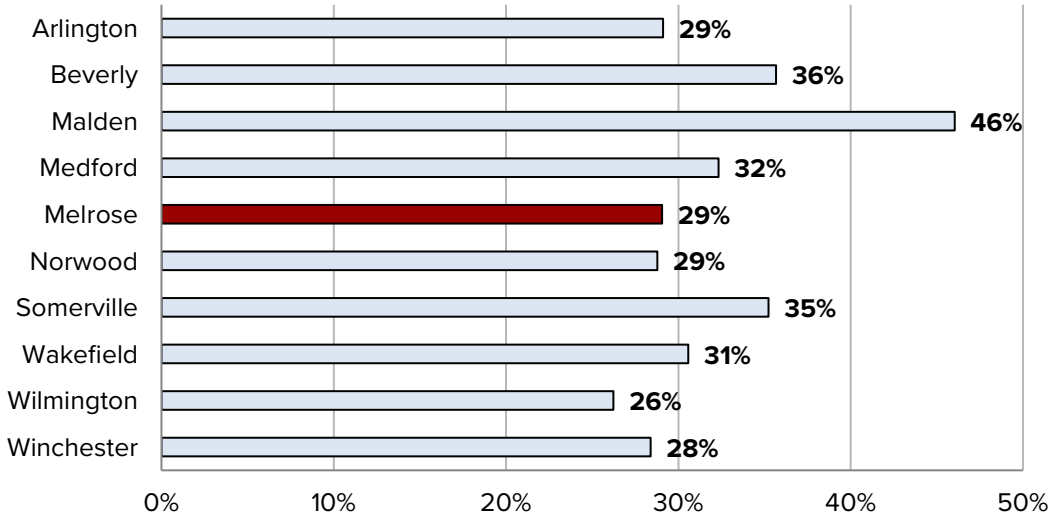
Source: ACS 5-year estimates, 2014-2018

Housing Cost Burden

A household is "housing cost-burdened" when it pays 30% or more of its annual income toward housing expenses. If a household is paying more than this amount for a particular housing unit, that unit is considered unaffordable for that household. When households are cost-burdened, they often must make sacrifices in other areas of their life, such as healthcare.

Roughly 29% of Melrose households are housing cost-burdened, with 18% paying between 30% and 50% of their income for housing and 11% paying more than 50% of their income for housing. In most context communities, a similar or larger proportion of households are housing cost-burdened.

Figure 26: Melrose households by housing cost burden, 2018



Source: ACS 5-year estimates, 2014-2018

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

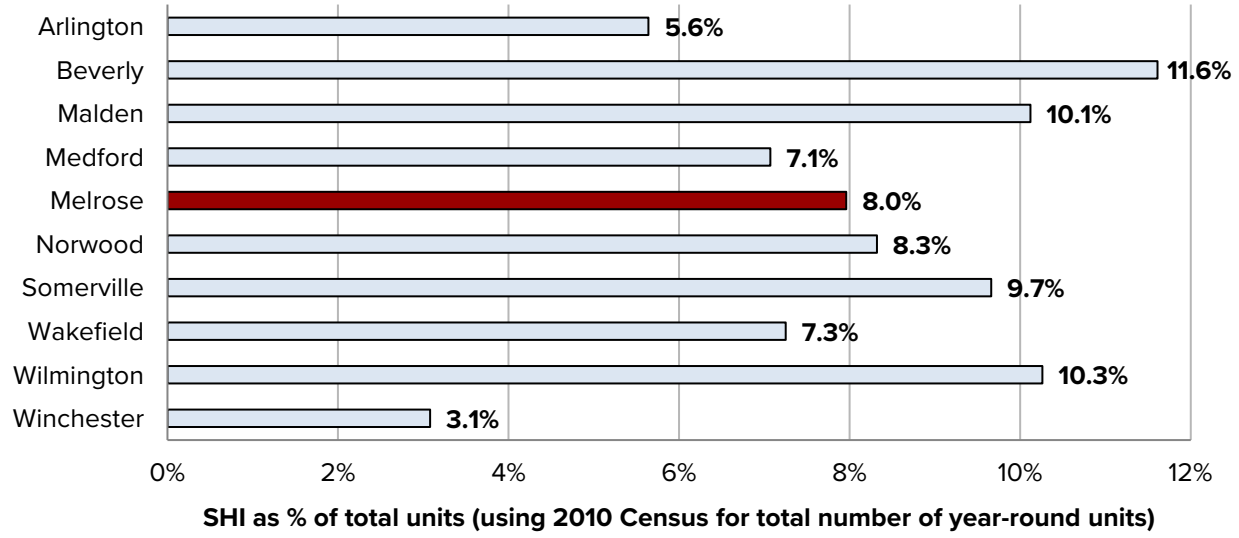
"I would like to see a focus on affordable housing so that living in this city, whose economic diversity that I saw when I moved here a decade ago was a factor in me moving here, does not become out of reach for many people."

Figure 27: Housing cost burden by context community, 2018

Source: ACS 5-year estimates, 2014-2018

Affordable Housing

Deed-restricted Affordable Housing is a type of housing that can only be rented or sold to income-eligible households at an affordable rate. This type of housing is virtually always subsidized, either by a government agency or by market-rate units in the same real estate development. While there are other types of affordable housing, such as inexpensive unsubsidized units or market-rate units subsidized with rental housing vouchers, deed-restricted Affordable Housing is the only type of housing that is not vulnerable to changes in the housing market, such as rising market rents. These units are also tracked by the Commonwealth on its Subsidized Housing Inventory (SHI).



If less than 10% of a municipality's housing stock is on the SHI, that municipality becomes vulnerable under Chapter 40B, a state statute that enables developers to bypass local development regulations in municipalities that have not reached this 10% threshold. To calculate the SHI percentage, the number of Affordable Housing units in a municipality are compared to its total number of units as counted in the last US Census. As of this writing, the latest available year-round housing counts are from the 2010 Census. Once the counts for year-round housing units from the 2020 Census are released, the SHI percentage will be recalculated.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

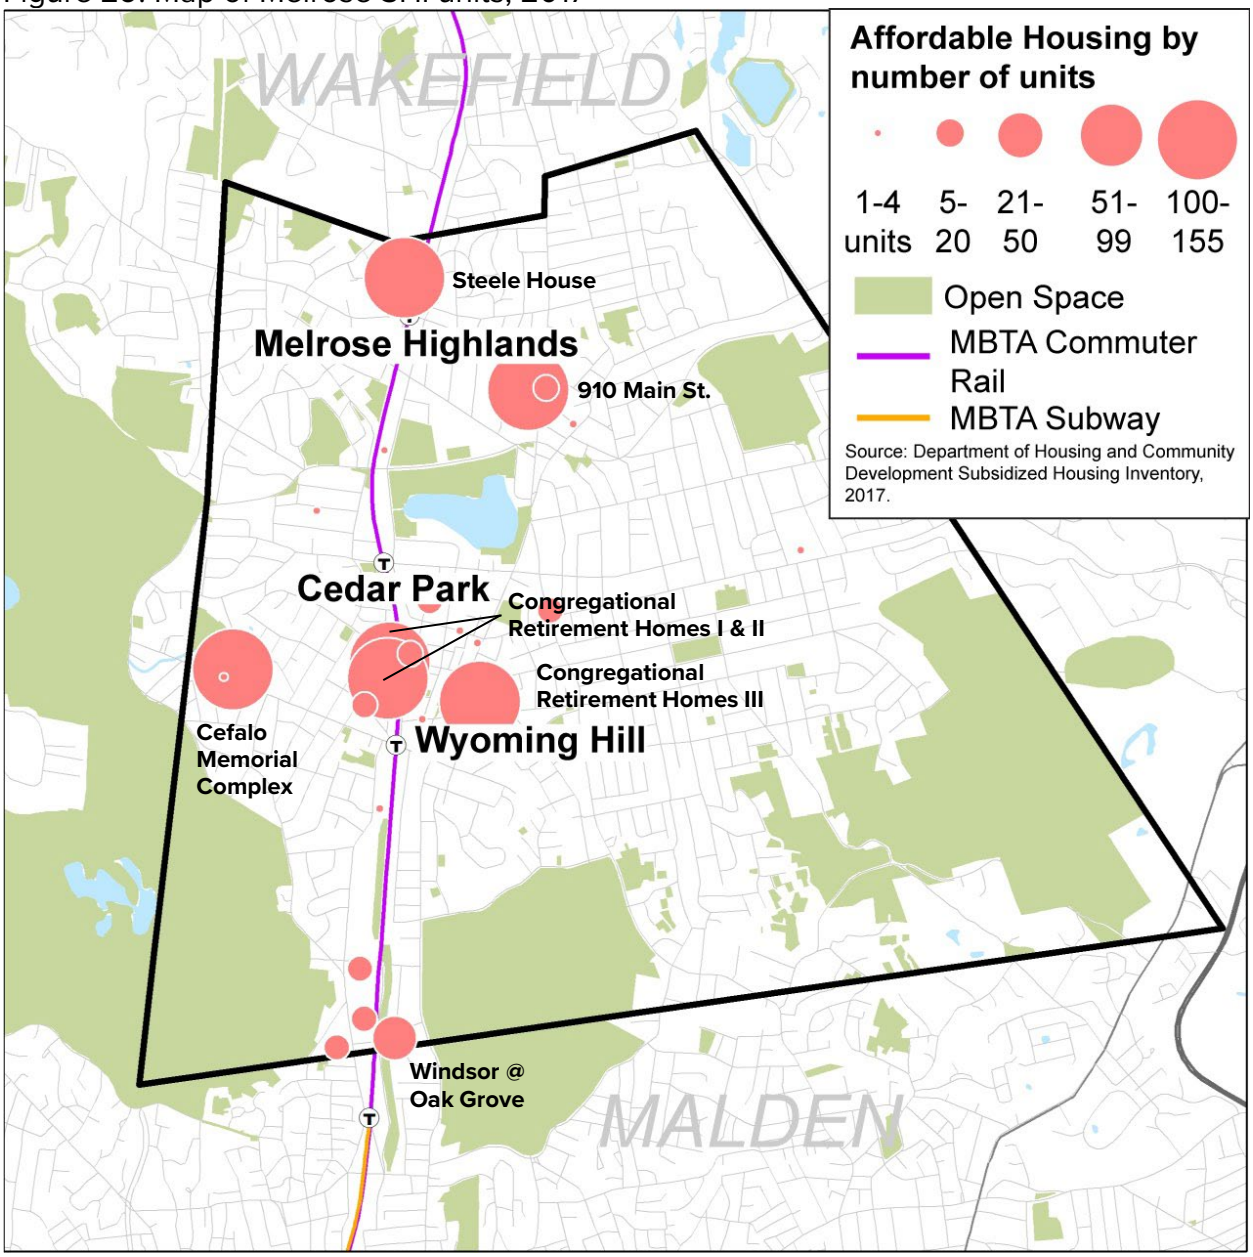
Melrose has 934 Affordable Housing units on the SHI, or 8.0% of its total housing.[4] Of the context communities, only Beverly, Malden, and Wilmington meet or exceed the 10% SHI threshold.[5] Most of Melrose's Affordable Housing units are located near Downtown and along the rail corridor, and most are Housing Authority units that serve low-income seniors and people with disabilities.

> "One [Affordable Housing units] is a one bedroom and it's almost $1600, and one's a studio and it's almost $1500. So neither of those actually seem affordable, to me, but they're listed as affordable rental opportunities on Main Street, and there's a lottery for them."

Figure 28: Subsidized Housing Inventory, 2019



Source: Department of Housing and Community Development Subsidized Housing Inventory, 2019

Melrose's Affordable Housing amounts to one unit for every four low-income households currently living in Melrose. Three in four low-income Melrose households have therefore found housing on the open market. These households have either found an unsubsidized housing unit that is naturally affordable, utilize a rental housing voucher to subsidize their market rent, or they simply cannot afford their home. Furthermore, "low-income" describes a wide range of incomes and includes many households that make far less than 80% of the Area Median Income. For those households, even deed-restricted Affordable Housing may not be affordable to them.

MELROSEHPP

Fall Engagement Campaign

In November and December 2020, the City of Melrose and MAPC conducted two virtual events as part of the Fall Engagement Campaign. There was an "online open house" activity open from November 18 to December 16 and a webinar held via Zoom on December 2. Both events were held virtually due the COVID-19 pandemic and the risks of viral transmission at large in-person events.

The two activities offered different ways to engage the same content, including information on the planning process, data on existing conditions, a vision for Melrose's housing future, and potential priorities the plan could address.

- The online open house was "asynchronous," meaning participants could engage at any time while it was open, they could go at their own pace, and information was presented through text and images. Participants gave input through the web-based survey tool Qualtrics (either via multiple choice or text-based responses). Approximately 175 people participated in this activity, with 134 people responding to at least one question. A PDF version of the OOH "survey instrument" is included as an appendix to this memo.

- The webinar was "synchronous," meaning participants and the planning team all engaged at the same time, and information was given through a live presentation and discussion. Participants could directly interact with the planning team verbally or through the Zoom chat function, and they could answer live polling questions related to the content through PollEverywhere (via text or the web). Live polling results were also visible to participants as they came in. Approximately 60 people participated in this activity, with 44 people participating in the live poll. A video of the webinar was posted online for viewing afterwards, as well as the webinar's presentation.

The two events provided different formats to accommodate differing needs in the community. Survey/poll questions were substantively similar in each activity, but they were phrased differently, in order to meet the technical needs of the two activities.

First Online Open House

Members of the Melrose community had the opportunity to participate in a go-at-your-own-pace online open house (OOH). The OOH presented information and solicited feedback across several sections:

- About You: Participants could choose to give demographic and housing information about themselves.
- About the Plan: Participants were presented with information about Housing Production Plans, this process specifically, and the plan for public engagement moving forward.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Existing Conditions Data: Participants were presented with data points on Melrose's population, housing stock, and housing affordability. After each data point, participants could say whether that data was surprising or not and provide further feedback. Participants were also asked about additional information they think would be important for the plan.
- Vision and Priorities: Participants were asked for five words that describe their vision for the future of Melrose and were then asked how housing could play a role in achieving that vision. Participants then rated 20 potential housing priorities that the plan could address. (The list of potential priorities was based on common housing issues experienced across the Greater Boston region.)

Participant Profile

Participants could choose to answer questions about their demographics and housing situation. Their answers were roughly compared to Melrose's overall population, though these comparisons are not always direct and should be taken only as illustrative. Highlights of this data include the following data points:

- 90% of OOH participants owned their home, compared to approximately 66% of households that own their home in the city.
- 79% of participants lived in single-family homes, while only 55% of housing units in Melrose are single-family homes.
- 30% of participants were age 35-44 and 30% were age 45-54. 17% of participants were age 55-64 and 13% were 65-74. Only 9% were age 25-34 and only 1% were 75 or older. Overall, participants overrepresented middle age groups and underrepresented young adults and seniors.
- Participants were given a list of racial and ethnic categories they could identify with, and they could pick more than one category. 85% of participants identified as White alone. 6% of participants identified with more than one category. 5% identified as Asian alone. 2% (2 participants) identified as Latina, Latino, Latinx or Hispanic alone, with an additional 2% identifying as White and Latinx. 1% (1 participant) identified as Black. 6% identified with more than one racial or ethnic category. Because of the way the Census Bureau treats Latinx identity (and the statistically small number of participants of color in the online open house), it can be difficult to directly compare participants to the general population. Nonetheless, broadly speaking, we can say that the proportion of non-Latinx White participants mirrors that within the general population, but the breakdown of people of color among participants does not mirror that of the general population. Black people, in particular, were underrepresented among participants.
- 35% of participants lived in 4-person households, and 34% lived in 2-person households. Only 4% lived in 1-person households.
- 12% of participants have lived in Melrose for 0-2 years, 31% for 3-10 years, 21% for 11-20 years, and 37% for 21 or more years.
- Participation was split across Melrose neighborhoods, with the most participation from Melrose Highlands (22%), the East Side (20%), and Wyoming (13%).

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Overall, participation in the OOH exceeded the typical expectations of an in-person public forum in urban planning processes. The high level of participation is good for the plan, though the composition of participants points to a need for more targeted outreach to renters, specific populations of color, seniors, young people, and single-person households.

Responses to Existing Conditions Data

Participants were asked if each data point given was surprising or not surprising. The majority of participants found each data point not surprising. The most surprising data points were the breakdown of households by income status (low-income, moderate-income, etc.), the amount and location of Melrose's Affordable Housing, and the breakdown of households by housing cost burden.

Figure 30: Surprising data points, fall online open house

Participants could also suggest further research directions for the planning process. Examples included:

- Specific strategies that could advance affordability
- Development opportunities (including transit-oriented mixed-use development, accessory dwellings, and small infill development)
- Opportunities for seniors
- Opportunities for people with disabilities

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

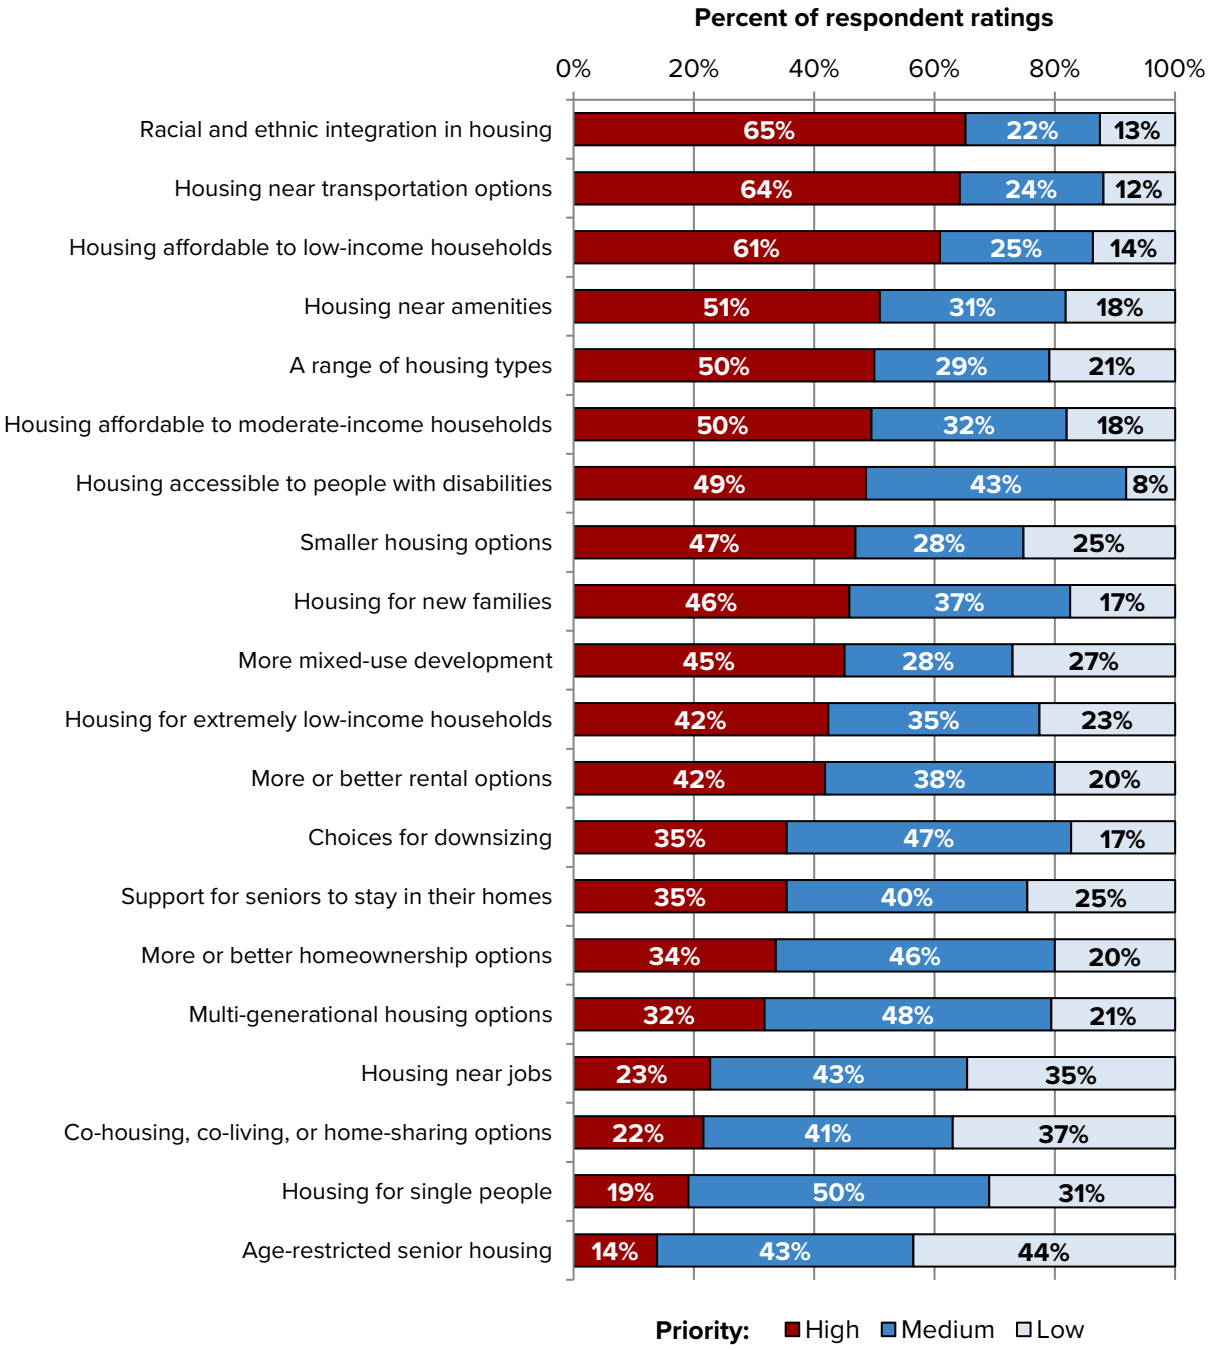
- The impact of short-term rentals
- How technology is changing development
- The reasons driving segregation (including the legacy of redlining)

Visioning



Participants were asked to write five words describing their vision for housing in Melrose. Words related to affordability were the most common, followed by words related to diversity and inclusion (often specifically relating to race) and words related to community. Words related to walkability, sustainability and the environment, vibrancy, and green spaces were also common.

MELROSEHPP

Figure 32: Priority ratings, fall online open house

Over half the respondents rated each of the following as a high priority for the plan:

- Racial and ethnic integration in housing (65%)
- Housing near transportation options (64%)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Housing affordable to low-income households (up to about $67,000 for a single person or $97,500 for a family of four) (61%)
- Housing near amenities (local retail, parks, etc.) (51%)
- A range of housing types (such as single-family homes, duplexes, small multifamily buildings, and/or large multifamily buildings) (50%)
- Housing affordable to moderate-income households (up to about $83,000 for a single person or $119,000 for a family of four) (50%)

Participants also suggested numerous other priorities the plan could address. Common themes included:

- Homeownership
- Energy efficient housing
- Architectural and/or aesthetic priorities
- Funding issues
- Issues related to infrastructure impacted by housing

Input from this engagement campaign and other engagement activities were used to draft the plan's housing goals and to shape potential strategies and actions. Proposed recommendations were then reviewed by the public during the Spring Engagement Campaign and further prioritized.

Gaps in Participation

Participation in the Fall Engagement Campaign activities was different than that of typical urban planning processes. This is likely due to the high level of civic engagement within the Melrose community and the virtual nature of engagement during a pandemic. Some of the notable takeaways from engagement in both activities include:

- Across these activities, the proportion of non-Latinx White people was similar to that in the general population. This is encouraging, since typically this demographic is overrepresented in planning processes.
- Black and Latinx people were still underrepresented in the fall outreach. The project team acknowledged that the HPP process would need to address this gap with additional targeted outreach through existing networks of these communities.
- Seniors were underrepresented in the fall outreach, though they typically are overrepresented in urban planning engagement activities. While it was encouraging to see more participation from other age groups, it was important to still engage seniors given that many housing issues directly affect and are affected by the senior population. The change in senior participation was likely driven by the online format of engagement. The project team noted that filling this engagement gap during the pandemic would require targeted phone-based outreach through existing networks in the senior community and through organizations that serve seniors.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Young people, including young adults aged 18-34, were underrepresented in these activities. While this is typical for many urban planning processes, their lack of representation would need to be addressed through targeted outreach through networks of young residents and through organizations that serve young people.
- Renters were underrepresented in these activities. Like with young people, this is typical in urban planning processes, but especially problematic in Melrose, where the proportion of renter households is relatively high. Renters would best be reached through place-based outreach or through informal social networks.
- People living in single-family homes were overrepresented in these activities. Like with renters, place-based outreach and informal social networks would likely be the best ways to target people living in other types of housing.
- Single-person households were underrepresented in these activities. This gap is likely due (in part) to low participation of seniors, who are more likely to live in single-person households than other age groups. Outreach to seniors could resolve this issue.

Spring Engagement Campaign

In June 2021, the City of Melrose and MAPC conducted two virtual engagement events for the Spring Engagement Campaign. This included an online open house held from June 4 to June 25 and a webinar held on June 16. As with the Fall Engagement Campaign, these events were held virtually due the COVID-19 pandemic. The two activities offered different ways to engage the same content, including an update on the planning process, housing strategies and actions, and development types and locations.

- Approximately 375 people participated in the online open house activity, with 267 people responding to at least one question.

- Approximately 30 people participated in the webinar, with about half participating in the live poll.

Second Online Open House

The second OOH presented information and solicited feedback on several sections:

- About You: Participants could choose to give demographic and housing information about themselves.
- Review of the Plan and timeline: Participants were reminded of the HPP planning process, engagement opportunities, and timeline.
- Review Draft Goals: Participants were presented with six draft goals generated from public and key stakeholder engagement to date. Participants were then

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

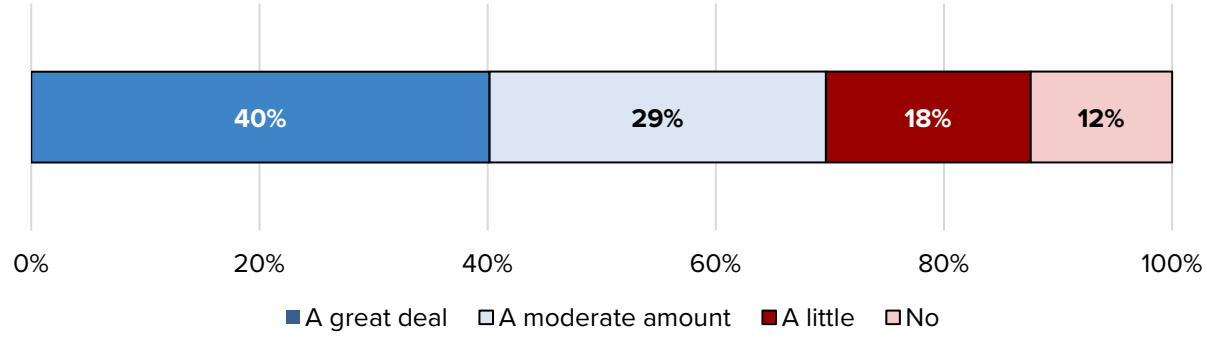
asked how closely they felt these goals aligned with their priorities for the future of housing in Melrose.

- Priority Strategies and Actions: Participants were presented with potential strategies and actions that the City could undertake to advance each of the draft goals. Participants were asked to rank the strategies and actions according to their priorities.
- Input on Housing Types/Locations: Participants were asked to identify which neighborhoods in the Melrose they would prioritize for any new housing and then rank the appropriateness of different housing types (detached single family, townhomes, mid-rise apartments, etc.) for each neighborhood. All housing types were presented as options for each neighborhood, to not limit or influence the range of potential responses.

Participant Profile

As with the first online open house, respondents could choose to answer questions about their demographics and housing situation. Their answers are shown in comparison to Melrose's overall population.

- 90% of OOH participants owned their home, compared to approximately 66% of households that own their home in the city.
- 81% of participants lived in single-family homes, while only 55% of housing units in Melrose are single-family homes.
- Participants overrepresented middle-age groups and underrepresented young adults and seniors. The largest share of participants (36%) was age 35-44. 24% were age 45-54, 21% were age 55-64, and 9% were age 25-34. Only 8% were age 65 or older, and 2% under age 25.
- Participants were given a list of racial and ethnic categories they could identify with, and they could pick more than one category. 88% of participants identified as White alone, very similar to the proportion of non-Latinx White people in Melrose overall (85%).
- Half of participants (50%) lived in 4+ person households. 25% live in 2-person households, 19% in 3-person households, and 7% in single-person households.
- Just over half (59%) over participants have lived in Melrose for 11 or more years, including 34% for 21 or more years. 31% of respondents have lived in Melrose for 3 to 10 years, and only 10% less than 3 years.
- Over three-quarters of respondents (77%) had not participated in the Fall Engagement Campaign.



Alignment of Draft Goals

The open house listed six goals for the HPP, generated based on feedback from the fall engagement campaign and targeted stakeholder outreach, and participants were asked if the goals aligned with their priorities for housing in Melrose. Most respondents (87%) indicated that these goals reflect their priorities at least a little bit; with 69% saying the goals reflect their priorities a moderate or great amount. 12% of respondents indicated

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

that the goals do not reflect their priorities. This large positive feedback validates the vision developed during the Fall Engagement Campaign, especially considering that three-quarters of open house participants had not participated in that previous campaign.

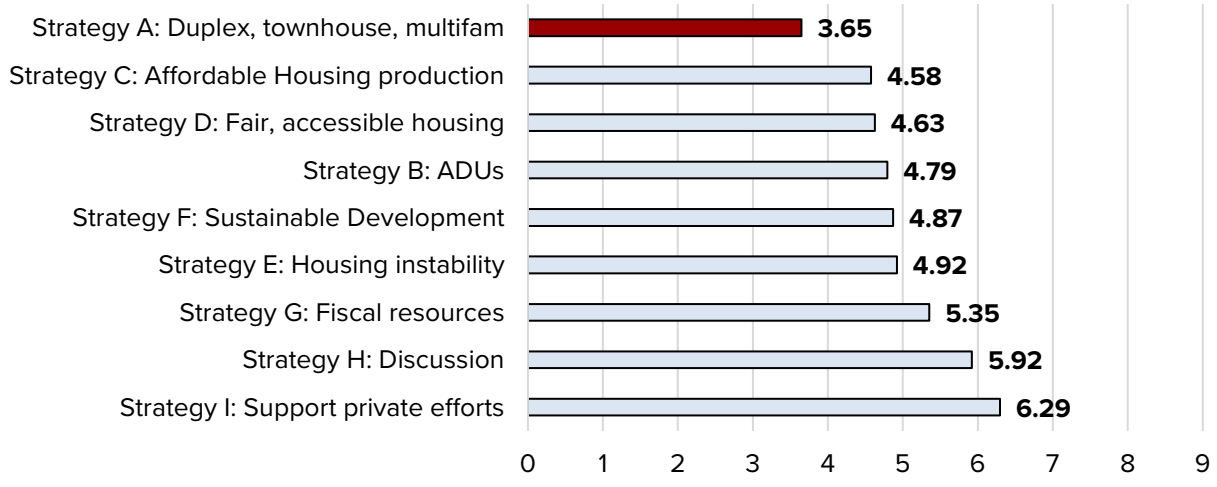

Figure 33: Alignment of draft goals with housing priorities, spring online open house

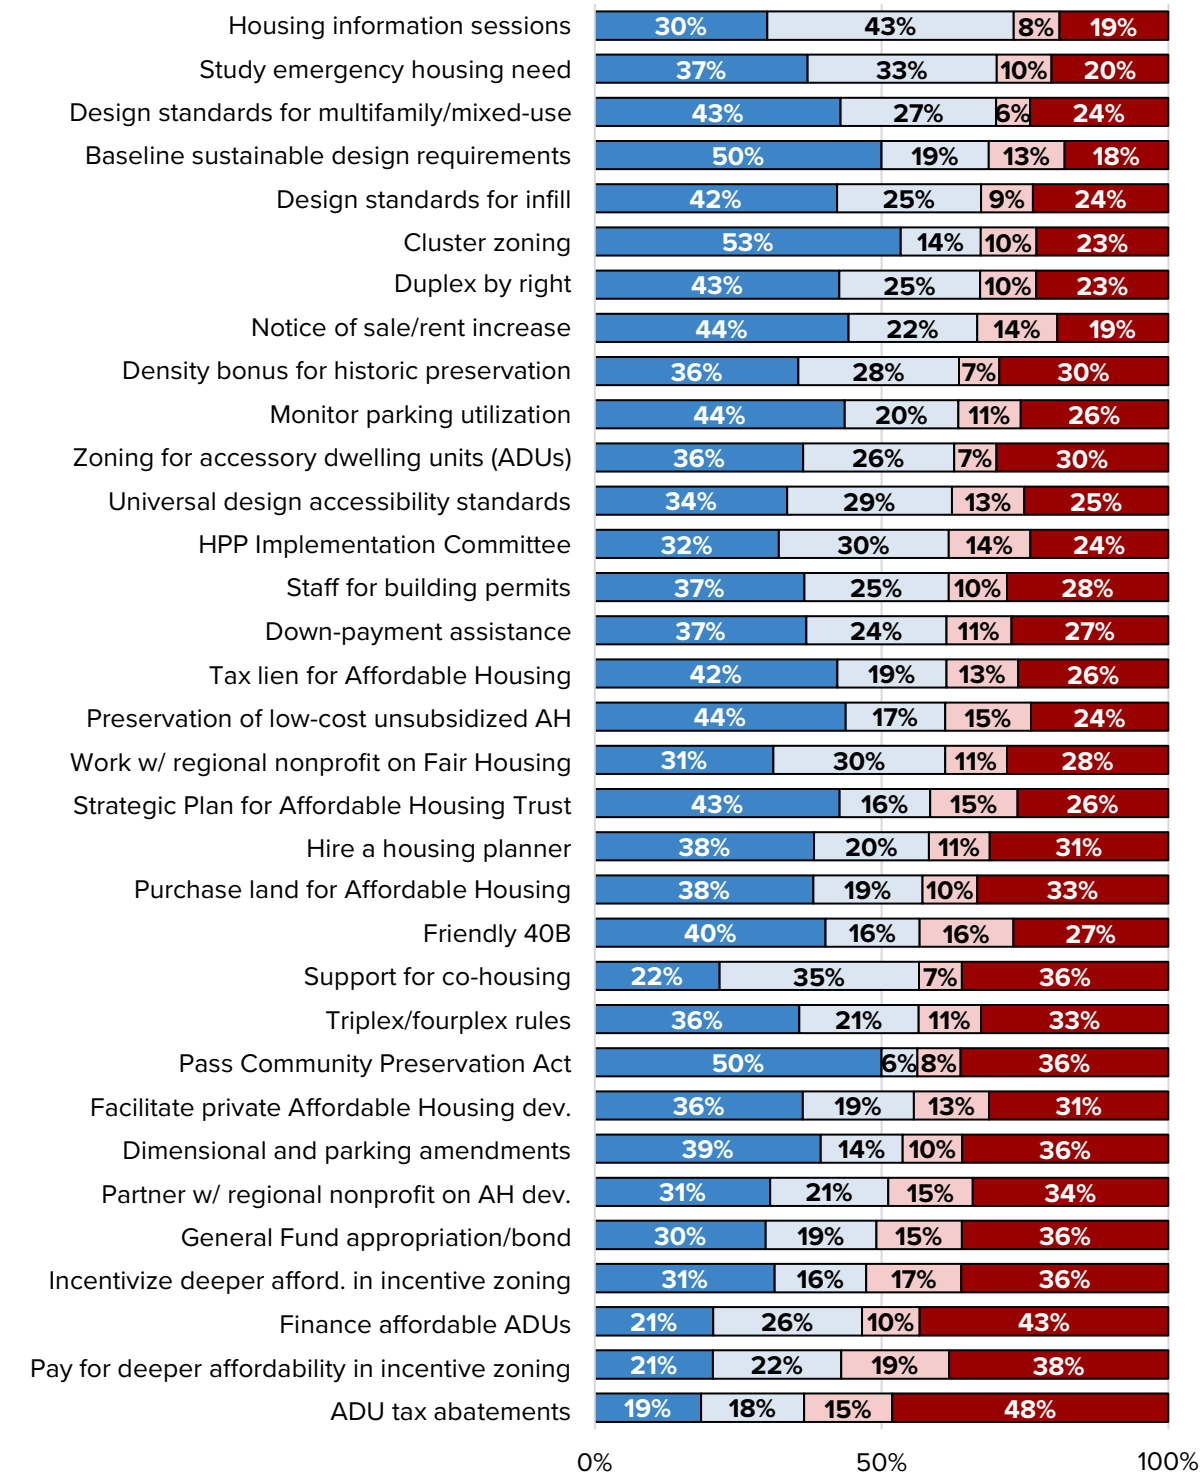
Responses to Strategies and Actions

Participants were presented with nine housing strategies, each consisting of 2 to 7 potential actions for advancing that strategy. Participants were first asked to rank the strategies from 1 to 9, with 1 being the highest priority and 9 being the lowest. Strategy A, "Encourage duplex, townhouse, and small multifamily development that fits into Melrose's existing context," received the highest overall ranking. Strategies H, "create formal opportunities to discussion housing's role in Melrose," and I, "Support private efforts to advance housing goals," received the lowest rankings.

Figure 34: Strategy rank, spring online open house



Participants were then asked whether each individual action was a high priority for Melrose to pursue. The chart below shows the aggregate of supporting (blue) and opposition responses (red) for each action. Actions are organized based on the most to least support.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MELROSEHPP

Figure 35: Support vs. opposition, spring online open house

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The actions that received the highest support and least opposition are:

1. Host regular housing information sessions (H)
2. Study the need for emergency and transitional housing (E)
3. Design standards for mixed-use/multifamily housing in downtown/rail corridor (A)
4. Baseline requirements for sustainable development (F)
5. Design guidelines for infill housing in older, mid-density neighborhoods (A)
6. Cluster zoning rules away from Downtown/rail corridor (F)
7. Allow two-family and townhomes by-right in Downtown/rail corridor (A)
8. Explore local requirements for a Notice of Sale and Notice (E)

These actions support different strategies (H, E, A and F) than those ranked most highly earlier in the open house (A and C). Strategies E, F and H are associated with some of the most highly prioritized actions but received moderate or low support when ranked as stand-alone strategies. These conflicting results indicate that actions may be more motivating than strategies, and/or that specific actions can tie to multiple strategies.

Priority Housing Types and Locations

Respondents were next asked to identify up to three geographic areas of Melrose in which new development should be located. The first phase of this question did not specify which *type* of development would go in these locations, so responses likely reflect respondents' interpretation or assumptions of new development in general. Respondents favored development in downtown and along the rail corridor, with many also advocating for development in currently low-density residential neighborhoods in East Melrose.

Respondents were then asked to rank the appropriateness of nine different housing types in different areas of Melrose. This question asked about 'appropriate' housing types, so respondents may have considered the existing housing context as much as future development.

The most popular responses are shown below in dark green. They include mixed-use housing in downtown and single-family homes, ADUs, and duplexes in low and medium-density residential neighborhoods. Across the city, the most popular housing type was duplex, and the most popular location was the Rail Corridor (shown in dark blue in final column and row).

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Figure 36: Priority housing types and locations, spring online open house

Type	Downtown	Hospital Area	Rail Corridor	Mid-Density Neighborhoods	Low-Density Neighborhoods	Commercial-Industrial	Total
SFR	19	31	34	90	108	20	**302**
ADU	30	41	50	78	80	21	**300**
Townhomes	57	62	80	59	48	45	**351**
Duplexes	58	70	82	90	82	38	**420**

3- to 4-story Multifam	68	62	72	32	36	47	**317**
Mixed Use	102	64	80	17	10	50	**323**
5- to 6-story Multifam	52	45	65	14	19	50	**245**
Total	**505**	**492**	**611**	**502**	**483**	**355**	

Gaps in Participation

Some notable takeaways from engagement in the spring compared to the fall:

- Across both campaigns the proportion of homeowners and length of residency remained consistent.
- The spring campaign saw higher participation from young people. This group is often underrepresented in planning processes, including in the fall campaign, and their participation is crucial for ensuring the HPP reflects the entire Melrose community, not just those most able to join planning efforts.
- However, the spring OOH saw a lower percent of non-white respondents, despite targeted outreach to reach racial minority residents.
- Renters have been consistently underrepresented in these activities: the highest rate of renters was 16%, in the fall webinar. Like with young people, this is typical in urban planning processes, but especially problematic in Melrose, where the proportion of renter households is relatively high (34%).
- People living in single-family homes were overrepresented in these activities, and the percent of respondents who live in single-family homes increased from the fall to the spring. Again, this is not ideal in a community where just over half of homes are detached single-family.
- Seniors were less well represented in these campaigns than is typically seen during in-person public engagement, likely due, at least in part, to the digital format of these activities.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

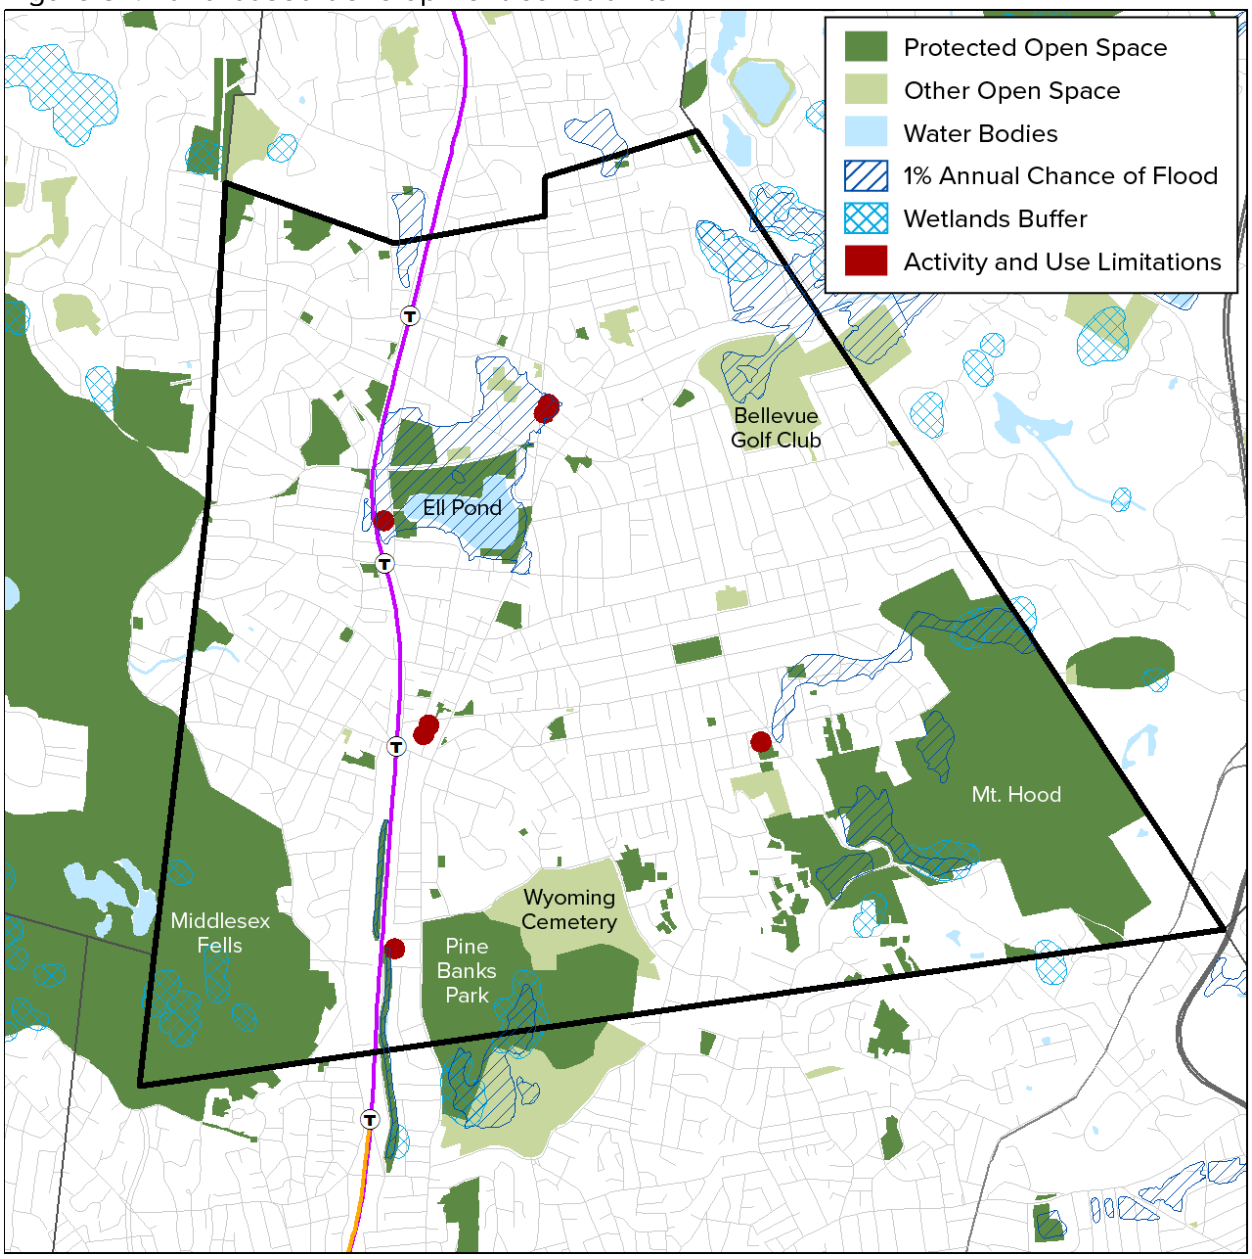
Factors Affecting Development

Overview

In the US, housing is largely provided through the private real estate market. Developers, contractors, financial institutions, brokers, and other specialists work together to deliver new housing at a variety of scales. The government regulates this market through rules and incentives built into local, state, and federal regulations. Whether housing is produced in any one location is influenced by those regulations, as well as numerous natural, social, economic, institutional, and infrastructural factors. This chapter of the HPP considers the Melrose-specific factors influencing housing development.

Land-Based Constraints

Some areas of Melrose are better suited for housing than others. Naturally constrained sites include water bodies, places that are likely to flood in the event of a major storm, areas within 100 feet of wetlands, and state-designated core habitats warranting protection. Many of these areas overlap with existing public and private open spaces, including the Middlesex Fells Reservation, Pine Banks Park, Mt. Hood Park, and the Ell Pond area. Significant portions of the Horace Mann area are also at risk of flooding or are near wetlands.



Flood zones may be generally inappropriate for housing, though in flood zones that have been previously developed, new housing development can introduce more green space and incorporate site improvements designed to combat overall flooding. Any housing built in these areas must meet design standards to minimize flood risk and ensure residents can stay safe in the event of a flood.

Similarly, sites contaminated with hazardous materials are generally unsuitable for residential development, but if the contamination is minor, development can serve as a vehicle to remove contamination and make the site safe for residential use. If the contamination is extensive, it may be cost-prohibitive to address through development alone, though state and federal funds are available for remediation of such sites. Sites with a regulatory Activity and Use Limitations, tracked under M.G.L. 21E, are likely to contaminated for residential use and were excluded from any analysis of development opportunities in this plan.

Lastly, some land is constrained due to existing public use of that land. These include public rights-of-way, permanently protected open spaces, cemeteries, parks, and some golf courses. The city's permanently protected open spaces include the Middlesex Fells Reservation, Pine Banks Park, Mt. Hood Park, the Ell Pond area, Sewall Woods, Ferdinand Woods, West Hill, and numerous smaller open spaces around the city.

Source: MassGIS, MAPC

Infrastructure

Infrastructure can create an upper limit on the amount of housing that can be built without new infrastructure investment. This is especially true in rural communities that lack extensive infrastructure. Melrose, however, is relatively well served by its infrastructure. Though large-scale developments will need to be assessed for

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

infrastructural impacts, infrastructure is not a major constraint on development, and in fact, new development can improve the city's infrastructure in many cases.

Utilities

Melrose is generally well served by water and sewer infrastructure due to its connections to the regional Massachusetts Water Resources Authority (MWRA) system. Sites with limited access to utilities may exist, but the city does not face systemic infrastructure constraints. New development must demonstrate that utilities have sufficient capacity to provide service, and some developments may be subject to additional inflow/infiltration fees to accommodate more intense use. At some sites, development can create opportunities to address existing backflow, drainage, and network connectivity issues.

Transit

Melrose is well served by the MBTA transit system in the region. There are three stations on the Haverhill Commuter Rail line within Melrose, and the Oak Grove terminus of the rapid transit Orange Line is just across the city's southern border with Malden. This rail corridor was historically key to Melrose's development, and it remains an important driver for the city's continued prosperity. Beyond rail, Melrose is served by the MBTA's 131, 132, and 137 buses, which provide more granular access to areas beyond the immediate rail corridor, including Downtown, Melrose Highlands, Wyoming Ave, and the East Side.

In theory, Melrose's relatively strong transit access should not be a constraint, but rather a catalyst, for ongoing housing production. However, there remain concerns about the viability of the system and its ability to serve Melrose residents, which were only exacerbated by the COVID-19 pandemic and cuts to the transit system. The MBTA system has faced real and perceived funding issues, uncertainties in governance, delays, maintenance concerns, and looming austerity measures over the past few years. Transit-oriented residential development—the kind that Melrose has largely pursued over the last two decades—is reliant on a functional transit system. If state-level government fails to rectify transit concerns, the system may become less attractive to residents and prompt greater use of private vehicles and increased traffic in Melrose and elsewhere.

Pedestrian and Bicycle Infrastructure

Most of Melrose is well served by pedestrian facilities, including sidewalks along roads and foot trails in open spaces. A small portion of roadways within one half-mile of Melrose's MBTA stations lack sidewalk facilities. Roadways lacking sidewalks are more common in the eastern sections of the city that have newer, more suburban-style developments. However, a lack of existing sidewalks is not necessarily a development constraint, especially for larger developments, which sometimes repair or install sidewalks as part of the development project. As a Complete Streets Community, a policy to enhance the safety and access of roads, specifically for pedestrians and cyclists, is applied to all decision-making for related infrastructure planning and construction.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

The proprietary “Walkscore” system rates locations based on their walkability, taking into account pedestrian infrastructure as well as easy access to amenities like businesses and parks. Parts of Melrose near Downtown received the highest Walkscore ratings of “very walkable” or a “walkers paradise,” while areas near the rail corridor were rated as “somewhat walkable.”

In addition to pedestrian facilities, Melrose has some bicycle infrastructure, including bike lanes on Lynn Fells Parkway and Tremont Street, as well as limited bike lane segments on Essex Street, Berwick Street, and Main Street. In recent years, the City has been implementing elements of its North-South Bike Route Plan, consisting of roadway painting and signage to help cyclists travel more safely to various destinations in Melrose.

Automobile Infrastructure

Traffic and parking are perennially cited as concerns in discussion about new housing development. Melrose’s arterial streets include Main Street, Lebanon Street, Washington Street, Wyoming Avenue, Upham Street, Emerson Street, Melrose Street, Lynn Fells Parkway, Franklin Street, Howard Street, and Green Street. The city does not contain any federal or state routes or interstates, except a small stretch of Route 99 in its southeast corner.

In 2012, Melrose undertook a parking study in the Downtown that showed the area did not face parking constraints due to insufficient parking. In 2019, Melrose was part of MAPC’s Perfect Fit parking study of recent development, which showed that recent housing developments generally had excess parking capacity. Melrose does not allow overnight parking on city streets but does provide for a Residential Overnight Permit that allows residents who do not have off-street parking associated with their residence to use certain municipal and Commuter Rail lots when on-street parking is prohibited.

Municipal Capacity

Housing Staff

The City of Melrose has a five-person team in the Office of Planning and Community Development (OPCD) that oversees all planning functions, including long-term planning, program management, capital planning, project review, zoning amendments, GIS mapping, sustainability, and liaising with relevant boards and commissions. Other staff outside this office also interact with housing development, such the staff at the Inspectional Services Department (ISD) and Engineering Division.

Staff capacity represents a constraint on achieving housing goals, including market rate and affordable housing production. According to professionals in real estate who participated in this plan’s focus groups, ISD’s building permit review times can delay housing production, which increases costs. Focus group participants agreed ISD’s review

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

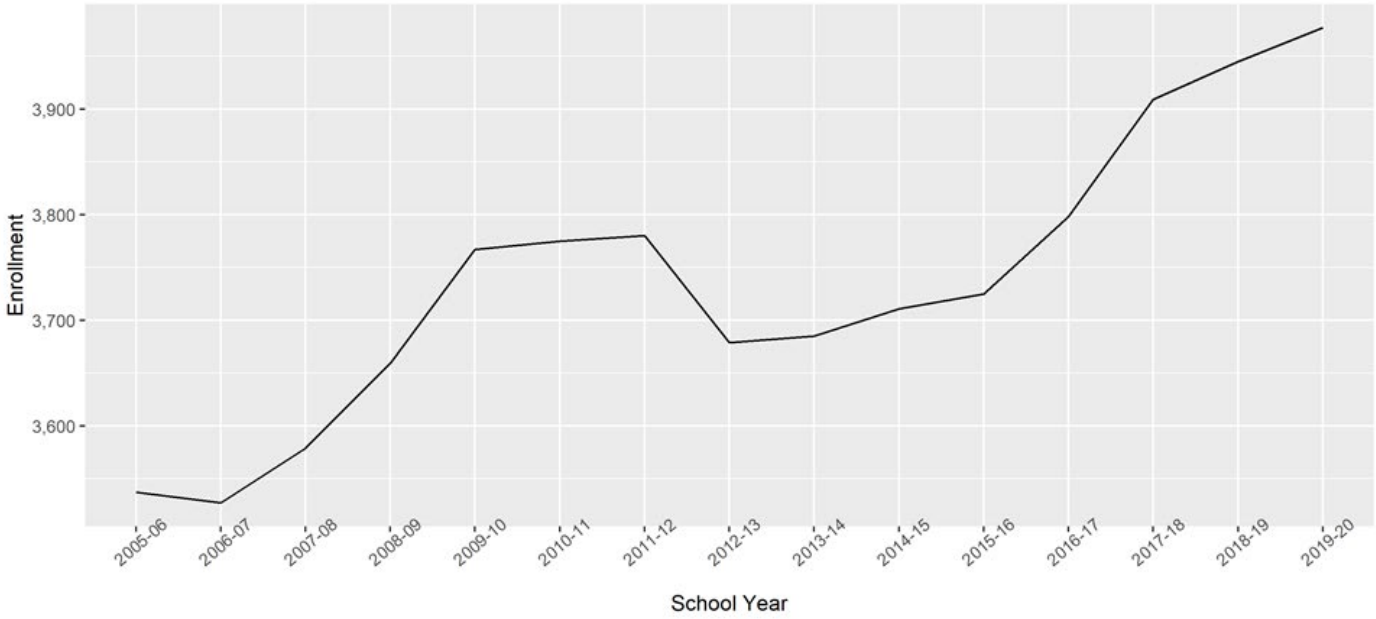
was adequate and professional, but that the department simply had more work than it could handle. Additional capacity in ISD (either on staff or through contractors) could decrease those delays, and in theory, ultimately decrease housing costs.

With regards to Affordable Housing, the City does not have a designated staff position to oversee housing development or programs. Without dedicated staff, the City is less equipped to take a proactive role in Affordable Housing development, which is a complex undertaking that typically requires significant staff time. Similarly, without dedicated staff the City is less equipped to actively pursue the creation of housing programs or to support housing stability. OPCD staff assist individual constituents with housing issues as they arise but have limited capacity to undertake multiple or extensive housing efforts.

Schools

School capacity is a commonly cited constraint on housing development. Enrollment in Melrose's school system has indeed grown since 2005, from 3,537 students in academic year 2005/06 to 3,977 students in academic year 2019/20. Between academic years 2010/11 and 2018/19, enrollment in Melrose's school system increased by 5%. Only three context communities' school systems (Arlington, Beverly, and Winchester) saw larger enrollment increases during that period.



School enrollment generally tends to be cyclical. This was true in Melrose, with enrollment growth after 2005 followed by a plateau and dip between 2009/10 and 2012/13, followed again by another period of growth. However, Melrose's 2009 dip did not erase previous enrollment growth, and in general enrollment has been trending upwards since 2005. Enrollment growth has been most apparent in elementary school grades, with less dramatic growth (and some declines) in middle and high school grades.

It is important to note, however, that new multifamily and mixed-use development has not been the main contributor to increases in Melrose's school population. With mostly one- and two-bedroom units, these developments are not particularly suitable for families with school-age children. Instead, most of the growth in the school population has occurred as a result of families moving into the many single-family homes in Melrose. In fact, MAPC conducted research across the Commonwealth over a six-year period between 2010 and 2016 and found that, at the district level, there was no meaningful correlation between housing production rates and enrollment growth.[6]

Figure 40: Change in school enrollment by context community, 2010-2018

Source: DESE, 2010-2018

While increased enrollment may put stress on the school system, there is no strong connection between new housing production and school enrollment. New housing production, especially small housing types aimed at households not served by the existing stock, tends to provide housing for young people, seniors, new couples, and singles. According to the Collins Center for Public Management's 2018 analysis of Melrose school enrollment, new housing was not a driver of enrollment growth.[7]

Instead, new growth tends to be driven by turnover in the existing housing stock. This turnover is a natural process in which older homeowners age out of their family homes and new families with school-aged children purchase the home. Of course, new housing development will likely be home to some school children, though the effect of these students on the school system is likely to be relatively small. Inasmuch as school enrollment is an issue for Melrose, it is not strongly correlated with housing growth, and it will need to be addressed through education policy rather than housing policy. Limiting housing development to prevent families from living in Melrose would, in fact, be a violation of federal and state Fair Housing law, open the City to legal liability, and is directly counter to Melrose's slogan as "One Community, Open for All."

Zoning & Subdivision Laws

Melrose regulates land use, the size and shape of development, aspects of site and building design, and aspects of affordability through the Melrose Zoning Ordinance (MZO), Chapter 235 of the City's Administrative Code. Like all Massachusetts communities, the MZO is enabled under Massachusetts General Law Chapter 40A. In Melrose, as in the rest of the US, most real estate is bought and sold as a commodity in a regulated market. Zoning law regulates what can be built on a given piece of property, which influences how much money can be made from developing that property, ultimately influencing the sale price.

Melrose's zoning code divides the city into 15 base zoning districts. Seven are designated as residential districts, six are designated as business districts, and two are designated as industrial districts. Two overlay districts modify zoning rules in two of the city's base districts, one business and one industrial. Between the base and overlay zoning districts, residential uses are permitted in all but two small areas of Melrose, either by right or via a Special Permit from the Zoning Board of Appeals (ZBA).

Residential Base Districts

Suburban Residence Districts

Melrose has three Suburban Residence Districts: SR, SR-A, and SR-B. These districts are exclusively found on the eastern side of Melrose. Each district only allows detached single-family homes by right, with accessory "in-law" apartments allowed by a Special Permit issued by the ZBA (under a limited set of criteria everywhere in Melrose). The three districts vary principally in the minimum lot area allowed for an individual parcel.

The SR District, located south of Lynn Fells Parkway and encompassing Rivers Lane and Bellevue Golf Club, requires a minimum of 25,000 square feet (just over half an acre) for each residential parcel. The SR-A District, encompassing Mt. Hood Park and the surrounding residential areas, requires 15,000-square foot residential lots. The SR-B District, encompassing much of the remaining eastern edge of Melrose, requires 10,000-square foot lots. In addition to lot size requirements, these districts have relatively large setback and open space requirements. All buildings are capped at 2.5 stories and 35 feet in height. The housing in these districts tends to be newer than housing elsewhere in the city, with the majority of homes built between 1946 and 1980.

UR-A: Urban Residence A

The Urban Residence A (UR-A) District is the largest district in Melrose. It includes most of the land between the eastern suburban districts and Downtown, as well as most of the land west of the MBTA railway. Only detached single-family homes are allowed by right in UR-A, with accessory apartments, townhomes, and two-family homes allowed by Special Permit from the ZBA. Single family homes and townhomes require a minimum 7,500 square feet of land area for each unit. Two-family homes require 13,500 square feet in land area (i.e., 1,500 square feet less than the area required for two separate

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

homes). Setback requirements are relatively low compared to the suburban residence districts. Buildings are capped at 2.5 stories and 35 feet in height. Homes in this area are of mixed ages and include many historic structures built before World War II.

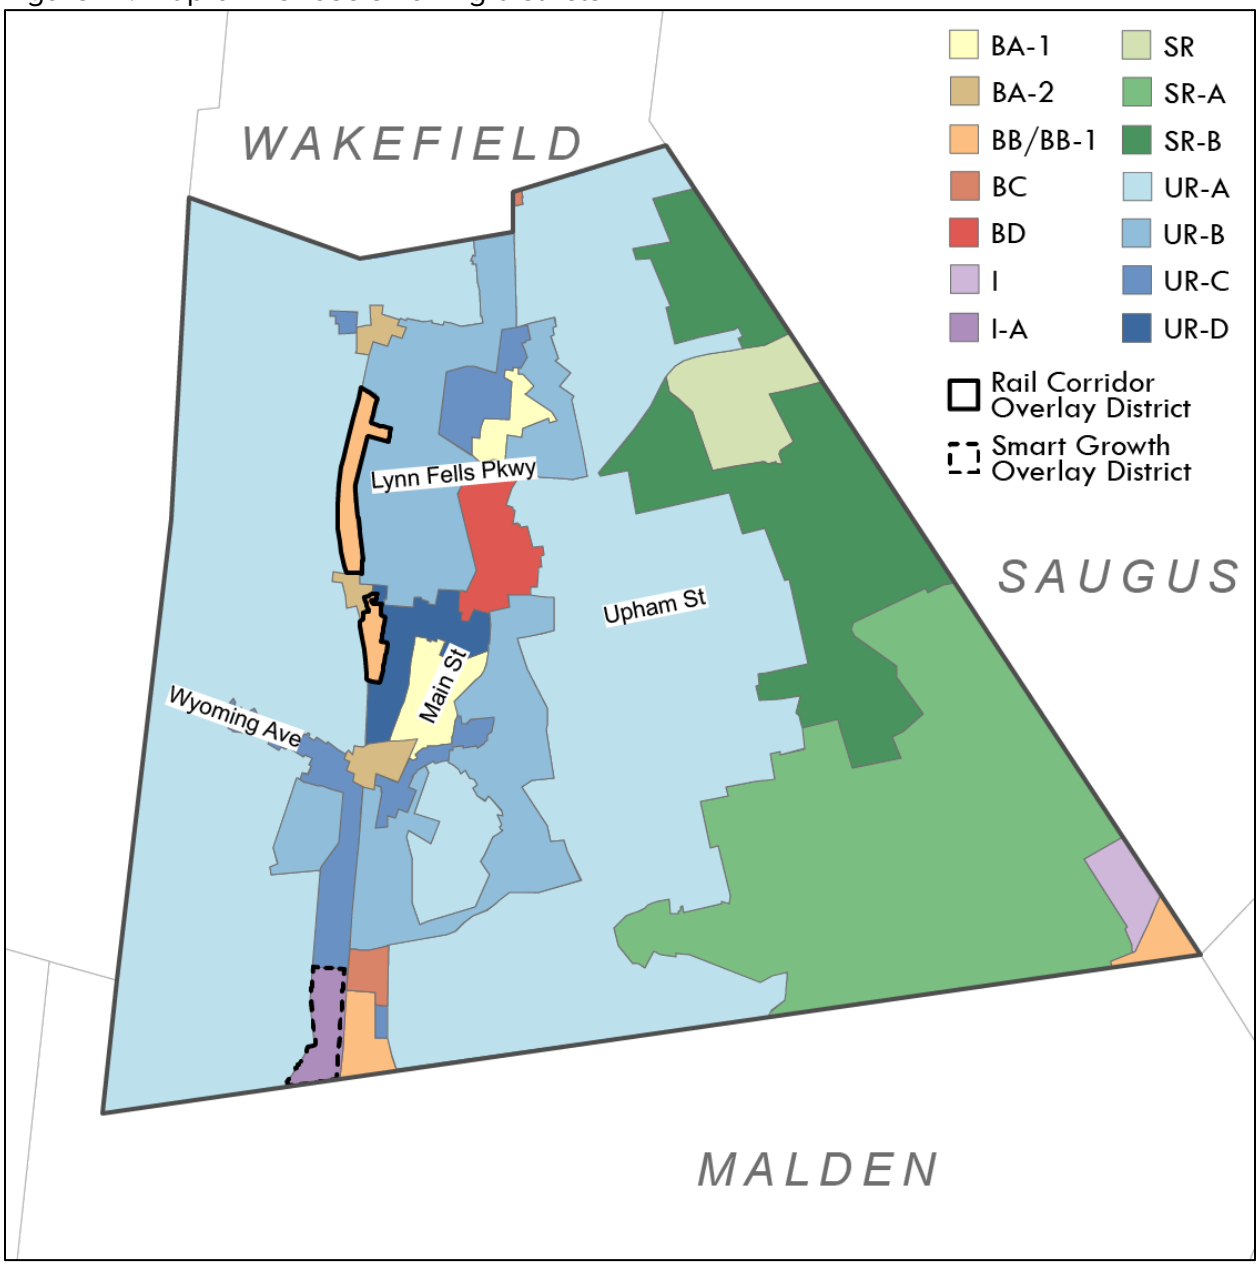
UR-B: Urban Residence B

The Urban Residence B (UR-B) District includes the area east of Downtown, the area east of Main Street and north of Lynn Fells Parkway, the area between Main Street and the MBTA rail corridor, and a small area west of the rail corridor and south of Lincoln Elementary. In UR-B, detached single-family homes and two-family homes are allowed by right, with accessory apartments, townhomes, multifamily homes, and mixed-use developments allowed by Special Permit from the ZBA. Single-family homes require a minimum of 7,500 square feet in land area. Two-family homes, townhomes, and multifamily homes require 7,500 square feet of land for the first housing unit and 3,000 square feet for each additional unit. Mixed-use developments require a minimum of 10,000 square feet in land area. Buildings are capped at 2.5 stories and 35 feet in height.

UR-C and UR-D: Urban Residence C and D

The Urban Residence C (UR-C) District encompasses several small areas: one area between the rail corridor and Pleasant Street and running along West Wyoming Avenue; one area in the vicinity of the Franklin School and Main Street between West Highland Avenue and Franklin Street; one area near Main Street around East Wyoming Avenue, Lynde Street, and Grove Street; and one area along Main Street south of Banks Place. Urban Residence D (UR-D) ais a single small area in Downtown Melrose, roughly between the rail corridor and Myrtle Street and just south of West Emerson Street. In UR-C and D, townhomes, two-family homes, and multifamily homes are allowed by right, with detached single-family homes, accessory apartments, and mixed-use developments allowed by Special Permit. Townhomes, two-family homes, and multifamily homes require 6,000 square feet of land area for the first unit, and 1,250 square feet for each additional unit. Buildings are capped at 4 stories and 50 feet in height, with a maximum floor area ratio of 1.0. Minimum setback and open space requirements are relatively low compared to other districts.

Business Base Districts



BA-1 and BA-2: General Business and Transit-Oriented Mixed Use

Melrose has a General Business (BA-1) District and a Transit-Oriented Mixed Use (BA-2) District. An additional General Business (BA) District remains in the zoning code but is not distinct from the BA-1 District and is not mapped onto any part of Melrose. BA-1 includes most of the core of Downtown Melrose from East Wyoming Street to Upham Street, as well as a portion of Main Street north of Lynn Fells Parkway. The BA-2 District includes the areas adjacent to each of Melrose's three MBTA Commuter Rail stations. In both districts, mixed-use developments with commercial (retail) uses on the ground floor and residential above are allowed by right. Multifamily developments with no retail component are allowed by Special Permit from the Planning Board for large redevelopment sites. All uses require only a 5,000-square foot lot, no minimum setbacks, and a maximum front setback of 5 feet. Buildings are capped at 4 stories and 50 feet,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

with a maximum floor area ratio of 2.0. The requirements of these base districts encourage wood-frame, mid-rise, mixed-use buildings.

Figure 41: Map of Melrose's zoning districts

BB and BB-1: Extensive Business

Melrose contains two Extensive Business Districts: BB and BB-1. The BB District is located in the city's southeasternmost corner along Broadway (Route 99) and no residential uses are permitted there. The BB-1 District is located in three areas directly east of the rail corridor: one district between Banks Place and Melrose's southern border, one district along Willow and Essex streets north of Foster Street, and one district between the rail

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

corridor and Tremont Street, south of Melrose Street. Like the BA Districts, multifamily developments are allowed in the BB-1 district by Special Permit from the Planning Board for large redevelopment sites. Two of the three areas within the BB-1 district are modified by the Rail Corridor Overlay District as discussed below.

BC: Local Business

There are two small areas covered by Melrose's Local Business (BC) District: one at Melrose's southern edge, along Main Street between Banks Place and Sylvan Street, and the other at Melrose's northern edge, along Main Street north of Bay State Road. The BC district allows mixed-use developments (residential above commercial) by right and multifamily developments without a commercial component by Special Permit from the ZBA. Buildings are capped at 2 stories, 30 feet in height, and a maximum floor area ratio of 0.75.

BD: Medical Business

A large portion of Downtown Melrose in the vicinity of Melrose-Wakefield Hospital is zoned Medical Business (BD). Despite its name, the area encompasses many types of homes and businesses and allows many types of residential development. Townhomes, two-family homes, multifamily homes, and mixed-use developments are all allowed by right. Single-family homes and accessory apartments are allowed by Special Permit from the ZBA. Buildings in this area are capped at 8 stories, 80 feet in height, and a maximum floor area ratio of 2.0.

Industrial Base Districts

Melrose contains two base Industrial Districts (I and I-A). The I District is located in the southeast corner of Melrose between Malden, Revere, and Saugus. The I-A District is located between the rail corridor and Washington and Pleasant streets. Neither of these base districts allow residential uses, however, the I-A District is significantly modified by the Smart Growth District as discussed below.

Overlay Districts

Smart Growth District

In the early 2000s, Melrose conducted a master planning process that showed the community's interest in promoting sustainable, mixed-use, transit-oriented development—a practice often called "smart growth"—in the city's industrial areas near the rail corridor. At the time, the Oak Grove Village development, located between the rail corridor and Main Street at the city's southern border with Malden, was already underway. While Oak Grove Village was successfully permitted via a Special Permit, the MZO lacked a viable zoning tool to accomplish the community's broader smart growth goals. In 2008, the City Council passed a new Smart Growth District developed by the Planning Board and OPCD staff as an overlay for the area opposite the rail corridor from Oak Grove Village.

The Smart Growth District (SGD) is a zoning overlay with boundaries that fully match the I-A District between the rail corridor and Washington and Pleasant Streets. The SGD

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

allows (but does not require) a mix of uses, including residential and consumer-facing commercial uses like retail and restaurants. SGD developments may have up to 35 housing units per acre and can include a range of housing types. Buildings are capped at 60 feet in height, with maximum floor area ratios ranging from 1.25 to 2.0, depending on the amount of commercial development in the project. SGD projects are assumed to occur on large lots, which are typical of former industrial areas. SGD rules require at least a half-acre of land and a maximum of 50% lot coverage. The amount of automobile parking required depends on the size of the housing units and amount of commercial space, but it may not be less than 1 space per residential unit. SGD developments are also subject to design standards meant to match the area's character, and some existing mill-style buildings are required to be preserved. Developers must demonstrate that water, sewer, and traffic infrastructure are adequate before a project is approved. All SGD projects must be approved by the Planning Board through Site Plan Review.

All but one parcel in the SGD has been redeveloped as of 2021 and all redevelopments have utilized the overlay zoning over the base I-A zoning. While the redevelopment is seen as positive, some in the community have said that the residential components of SGD projects are not matched by adequate retail components.

Rail Corridor Overlay District

The Rail Corridor Overlay District (RCOD) is a zoning overlay that shares the same boundaries as two of the three areas in the BB-1 District. One is just east of the rail corridor running along Willow and Essex streets, and the other runs along Tremont Street roughly between Emerson and Melrose Streets. The RCOD allows (but does not require) a mix of uses, including residential and consumer-facing commercial uses like retail and restaurants. RCOD developments may have up to 35 housing units per acre and can include a range of housing types. Buildings are capped at 4 stories and 50 feet in height, though the Planning Board may increase the allowable height to 5 stories and 62 feet provided that they meet certain criteria. RCOD developments have a maximum floor area ratio of 1.5. The developments must meet design standards, provide on-site open space, and pay into a Streetscape Improvement Fund. The RCOD requires one automobile parking space per unit plus additional guest spaces and commercial spaces if applicable. Developers must demonstrate that water, sewer, and traffic infrastructure are adequate before a project is approved. All RCOD projects must be approved by the Planning Board through the Site Plan review process.

Cluster Residential Development

Under its "cluster residential development" provision, Melrose's zoning code allows single-family developments in suburban residential areas to reduce their dimensional requirements and "cluster" single-family homes on one part of a site in order to preserve natural features elsewhere on the property. In practice, this zoning vehicle is not likely to be viable in Melrose since the size of a cluster development site must be at least 15 acres. No opportunities of that size exist today, and it is unlikely parcels would be aggregated for the purpose of creating such a development. Even if that land area requirement were removed, the zoning relief offered by Melrose's cluster provision is not enough that it would be viable for habitat protection on most smaller sites. Furthermore,

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

single-family lots in these developments must conform to UR-A zoning rules. While UR-A developments consume less land than the suburban residential developments, they still consume considerable land per housing unit compared to newer models of cluster/open space zoning that will be discussed in the Development Framework section of the plan.

Inclusionary Zoning

Melrose passed its inclusionary zoning law (officially its "Affordable Housing Incentive Program Ordinance") in 2004, and most recently updated it in 2019. The ordinance requires that, for developments of five or more units, 15% of all units must be held as affordable for households earning 80% of the Area Median Income or less. To offset the costs of building and managing Affordable Housing units and minimize the risks of deterring development, the zoning code provides a density bonus of one market-rate unit for each Affordable Housing unit and decreases parking requirements. Developers are required to pay a fee to the City for any "fractional units" (i.e., when the 15% requirement results in a fraction of a unit) and those payments are directed into the City's Affordable Housing Trust Fund. Developments of 5, 6, and 7 units are able to provide a payment in lieu of providing the units onsite and this money also goes into the Affordable Housing Trust Fund.

Incentive Zoning

In 2021, the City adopted a new "incentive zoning" framework that offers developers increased allowable densities in exchange for community benefits. The new incentive zoning is focused on sustainability benefits, such as green infrastructure, sustainable building practices, increased open space, and support for alternative modes of transport such as bicycling or walking. The incentive zoning tool is available in the BA-1 and BA-2 Districts.

Subdivision Control Law

The Planning Board oversees subdivision of parcels in Melrose through the City's Subdivision Rules and Regulations. The regulation requires each individual lot within a subdivision have access to a public right-of-way, which either already exists or must be built, and controls the design of any new rights-of-way proposed in a subdivision. In general, the law reasonably controls conventional suburban style development, but it does not accommodate alternative housing and site types that may be desired by the community, such as cottage or cluster housing.

Site Plan Review

The Planning Board approves Site Plan Review application for all new industrial or commercial uses, new residential developments of four or more, extensions in excess of 2,500 sq. ft. of an existing industrial, commercial, or multi-family use, or the construction or expansion of a parking lots. The intent of the site plan review process is to regulate, rather than prohibit, uses through reasonable conditions concerning the design and

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

layout of buildings, signs, open space, landscaping, parking areas, access and egress, drainage, sewage, water supply, and public safety. It is important that all new development is consistent with the character of Melrose, regardless of its size and scale.

Local Housing Toolkit

Affordable Housing Trust Fund

In 2020, Melrose established a local Affordable Housing Trust Fund (AHTF) to collect and spend funds on Affordable Housing development and local housing programs. AHTFs are public bodies enabled under state law that can hold money and property independent of the City itself, and it can use its holdings for Affordable Housing purposes. Unlike the larger City government, an AHTF can act quickly and is better equipped to respond to housing development opportunities that arise outside of the City's normal annual budgeting process. AHTFs are governed by boards that are appointed by local leaders. Melrose's AHTF has not yet been fully set up, and one anticipated outcome of this planning process is to provide direction for the AHTF.

AHTFs are only effective if they are funded. In addition to payments collected through Melrose's inclusionary zoning law, funds could potentially be generated from other development fees if they occur. However, these sources are unlikely to be consistent. Many communities fund their trusts through the Community Preservation Act (CPA), a local surtax on real estate that must be spent on a variety of community benefits including Affordable Housing. However, Melrose has not locally adopted CPA at this time. Consistent funding—from CPA, a recurring general fund appropriation, or other stable source—will help Melrose's AHTF make effective and efficient investments in Melrose's housing.

Housing Choice

The state's Housing Choice program provides capital grants to municipalities that meet certain housing production goals, with larger grants given to communities that permit more housing. Melrose became a Housing Choice community in 2018 during the inaugural year of the program. It qualified by permitting more than 500 units over five years. The state awarded Melrose $168,000 in Housing Choice funds, which funded public realm improvements and accessibility upgrades along Cherry Street. Melrose was designated again as a Housing Choice community in 2020 by permitting more than 300 new units and meeting housing policy best practices. The designation will last for five years, until 2025.

North Suburban Consortium

Melrose is a member of the North Suburban Consortium (NSC), a membership group of nearby municipalities that collectively manages their federal HOME funds. HOME is one

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

of the few active federal direct funding sources for Affordable Housing development. In the past, the NSC has supported work in Melrose to "buy-down" affordability in projects by private developers,[8] fund nonprofit single-room occupancy units with supportive services for pregnant teens and new mothers, and it has collaborated with the Melrose Affordable Housing Corporation to acquire units for Affordable Housing.

Through the NSC, low-income Melrose residents who are first-time homebuyers can qualify for down payment assistance loans. However, these loans are capped at $7,500 per property and there is a purchase price limit of $466,000. Because of the small size of the loans and the high cost of housing in Melrose, this down payment assistance is rarely sought by residents.

Melrose Housing Authority

The Melrose Housing Authority (MHA) is the local public agency that administers many federal and state housing programs. Most visibly, the MHA owns and operates 322 public housing units, including 305 units for the elderly and people with disabilities, and 17 units for families. The elderly units are located in two high-rise developments, while the family units are interspersed across the city in small multifamily buildings acquired by Melrose's Affordable Housing Corporation. The MHA also manages federal and state rental vouchers, which assist low-income tenants in private rental properties, as well as project-based vouchers, which provide operating support for units in affordable housing developments. In Melrose, project-based vouchers are prioritized for Melrose residents and veterans. Lastly, the MHA manages the state's "Family Self Sufficiency" program and provides trainings for rental voucher holders.

Melrose Affordable Housing Corporation

The Melrose Affordable Housing Corporation is an independent nonprofit that acquires and rehabilitates residential properties into deed-restricted Affordable Housing units with federal funding through the NSC's HOME program. The corporation owns four properties with a total of 15 housing units. Though the MAHC has close ties to the City and the Housing Authority, MAHC is a separate, non-governmental organization. MAHC has no staff and is run by a volunteer board of directors. As such, MAHC lacks capacity to significantly grow its stock of Affordable Housing. Their existing units are managed by the Housing Authority, which is tasked with managing hundreds of other units.

[8] Housing buy-downs fill the gap between the price of an Affordable Housing unit and the price of that housing unit on the open market. By "buying-down" the market rate price to one that is Affordable, a city can add more Affordable Housing units beyond what is required by local inclusionary zoning rules while also ensuring that developers can finance their projects.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Framework and Opportunities

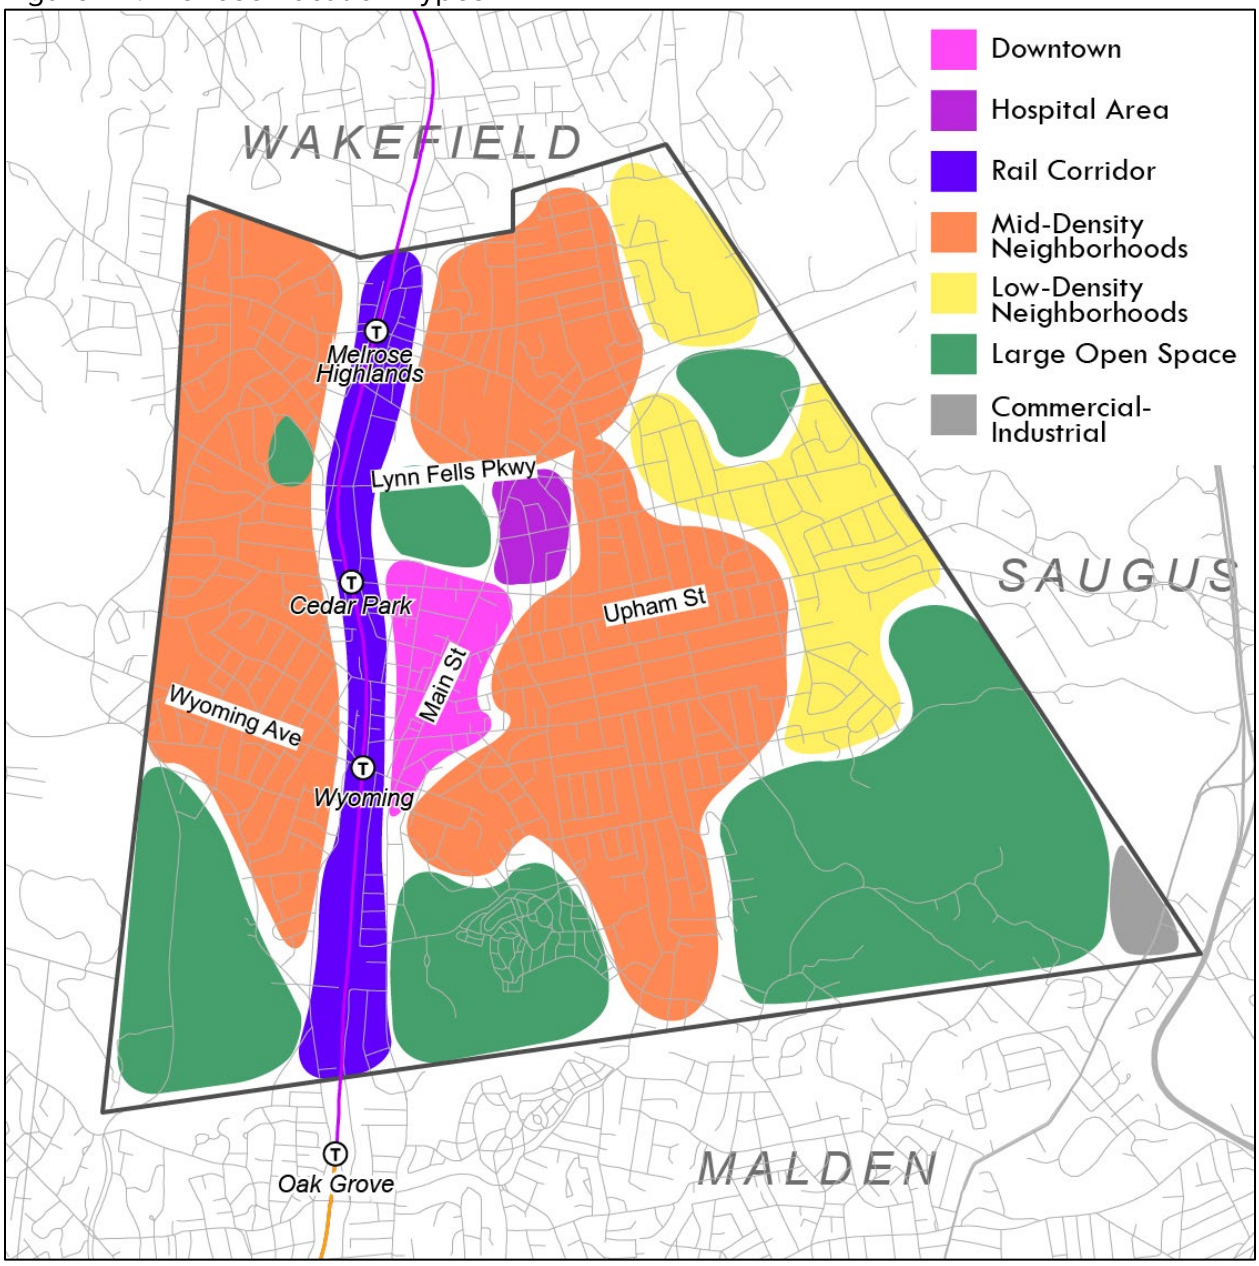
Development Framework

Different kinds of housing are appropriate in different parts of the city. Melrose is fortunate to have distinct neighborhoods, each with its own history, land use characteristics, and architectural heritage. New housing can complement the existing urban fabric of each area, playing to each area's strengths. By guiding new housing development in these areas, Melrose can proactively ensure that it meets the community's housing goals.

This plan introduces a loose "development framework" that can be used to think about new housing production in Melrose. It is meant as a guide for local decisionmakers, community members, and developers when approaching development projects. It is *not* meant to prescribe the type of new development appropriate for any individual site in the city. Overall, the framework seeks to guide development in an incremental manner and recognizes that new development can respect and coexist with Melrose's existing built environment.

Location Types

This development framework utilizes loosely-designated location types: Downtown, the Rail Corridor, the Hospital Area, Mid-Density Neighborhoods, Low-Density Neighborhoods, Large Open Spaces, and a Commercial-Industrial area. Each location type contains buildings and housing that share certain characteristics, such as age, density, mix of uses, and dimensions. The boundaries of these location types are not specific, and individual sites may not fit the overall pattern described here. Nonetheless, this breakdown provides a useful structure for considering future development in Melrose.



Downtown, Rail Corridor, and Hospital Area

Development in the Downtown, Rail Corridor, and Hospital Area should reflect these areas' historic character, existing retail base, and strong transit and pedestrian connections. Participants in this plan's engagement process tended to prefer that new housing be located in transit- and amenity-rich locations like these. New development in these locations should be mixed-use, with residential uses above retail. Small- and large-multifamily buildings without a retail component may also be appropriate in some places, as well as townhouses or two-and three-family buildings on smaller parcels. In general, these recommendations follow existing development patterns for each of these areas.

Current zoning tools are largely sufficient to accommodate these desired uses, but certain dimensional and parking rules may need to change in order to successfully promote the types of development envisioned for these areas. Based on data from MAPC's Perfect Fit parking study in 2019, it is likely that Melrose could reduce parking requirements in larger, transit-oriented developments in accordance with demonstrated demand for off-street parking spaces.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Figure 42: Melrose Location Types

Continuing to target development in these areas is in line with the Commonwealth's goals to prioritize housing production in smart growth areas. As a municipality served by the MBTA, Melrose will need to demonstrate to the Department of Housing & Community Development (DHCD) that it meets the new Multi-Family Zoning Requirement for MBTA Communities under MGL Chapter 40A, Section 3A. This will be necessary in order to remain eligible for state funding through the Housing Choice Initiative, Local Capital Projects Fund, and the MassWorks infrastructure program that the City relies on for capital and infrastructure improvements. To obtain a determination of compliance for a term of 10 years, Melrose will need to show that, within a half-mile of transit station, it has

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

at least one zoning district of 50 acres or more that allows multifamily or mixed-use development as of right at a density of 15 units per acre or more. Given the City's prioritization of transit-oriented development over the years, meeting this requirement should not be an issue.

Mid-Density Neighborhoods

The portions of Melrose adjacent to Downtown and the Rail Corridor are primarily comprised of older housing with a mix of densities, including many mid-density homes. These "Missing Middle" housing types, which fall between single-family homes and large apartment buildings in terms of scale, are intermixed with more prevalent single-family homes. These neighborhoods are ideal for renewed infill development such as two- and three-family developments, small multifamily buildings, and accessory apartments, which can provide alternative housing opportunities for households that either do not want or cannot afford a single-family home in Melrose.

The Melrose Zoning Ordinance facilitates this type of development to varying degrees. These smaller housing types are allowed in some zones (such as UR-B) but not others (such as UR-A). Dimensional requirements, especially minimum land area requirements, may prevent this kind of development altogether. These barriers could be address through relatively minor adjustments to Melrose's zoning. However, Melrose will also need to ensure that new development complements its overall neighborhood through smart design. The City will also need to ensure that development pressure does not disproportionately harm historically marginalized groups, such as people of color and renters, who are relatively well represented in these areas compared to other parts of the city and are more likely to experience housing insecurity.

Low-Density Neighborhoods

Housing development in the eastern portions of Melrose occurred later than in other, more historic areas of the city. Housing here tends to be newer and lower density, meaning each home tends to use more land than homes elsewhere. Opinions on new housing here are mixed. Some residents expressed a desire to limit new development in this area, due to the increased automobile traffic brought by housing here relative to other parts of Melrose. Others felt housing could be incorporated there where there are larger parcels and development should not be concentrated in certain parts of the city.

This framework takes a balanced approach to Melrose's low-density neighborhoods. For development that occurs in these areas, it should be sustainable and use resources efficiently while respecting the existing built context. To that end, Melrose should advance "cluster" style single-family or cottage style developments in these areas. These developments group smaller single-family homes in a single lot with shared green space, shared gathering areas, and (often) shared parking. In doing so, they use land more efficiently while offering a housing type that is more amenable to seniors, young families, and single adults compared to conventional suburban single-family development. Cluster and cottage-style developments tend to make use of historic design elements that

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

complement the existing context while cleverly creating more affordable, accessible, and sustainable housing options. Existing cottage developments in Massachusetts can be found in Concord, Weymouth, Dennis, and Brewster.

Melrose's zoning code already has a cluster zoning provision, but it is not designed to produce cottage developments with efficient uses of land. That provision could be overhauled to accommodate more contemporary development preferences. Revisions should reduce the minimum total lot size, reduce the land area required per unit, and create design requirements for shared open space, accessory use, and parking facilities. The City's subdivision law would also need to be reformed to allow for this type of development.

Concord Riverwalk, an example of contemporary cluster/cottage-style development.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Opportunities

Melrose has numerous sites that offer potential for new residential development. This section provides a list of sites currently under consideration for redevelopment as well as sites that could be considered in the future. These lists are limited to relatively large sites with mixed-use or multifamily redevelopment potential. Small infill sites that are suited for accessory apartments, two-family developments, townhouses, cottage houses, or other smaller housing types are not included here, but nonetheless represent an opportunity for small-scale, incremental infill development.

To provide context, sites already in the City's development pipeline are included in this list and noted separately. The property owners at these sites have already demonstrated development interest, and it is likely these sites will move forward with redevelopment. Other sites on this list are more speculative and development is contingent on their owners' interest.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

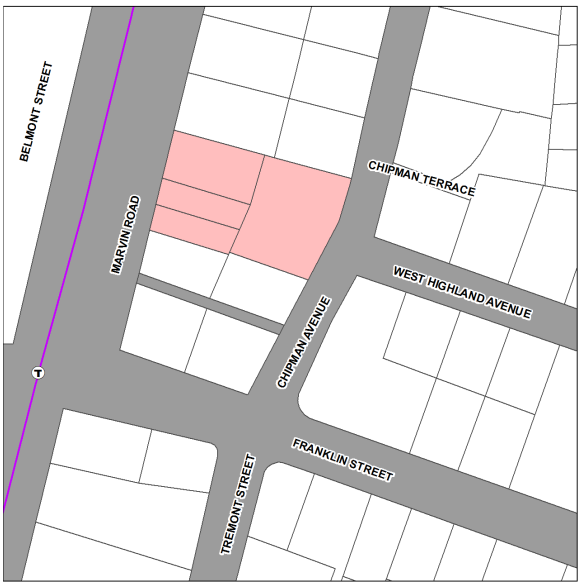
Sites in the Housing Pipeline

Some sites in Melrose are already "in the pipeline," meaning the property owner is actively considering redevelopment. Owners of sites in this section have filed some initial paperwork or reached out to OPCD staff stating their intention for redevelopment, including estimated number of future units.

Site 1: Franklin Market, 453-463 Franklin Street



Location notes: Near the Melrose Highland MBTA Station
Existing use: Single-story retail
Existing structures year built: 1967
Existing floor area ratio: 0.96
Parcel IDs: C12 0 16
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 18 residential units over commercial first floor
Land-based constraints: None

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

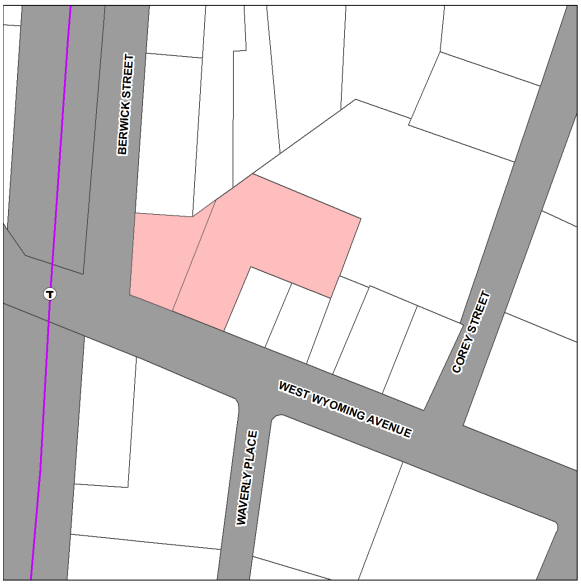
MELROSEHPP

Site 2: VFW Post 2394, 14 Chipman Ave / 21 Marvin Road



Location notes: Near the Melrose Highland MBTA Station
Existing use: Fraternal organization
Existing structures year built: 1958
Existing floor area ratio: 0.57
Parcel IDs: C12 0 23; C12 0 20; C12 0 19; C12 0 18
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 42 residential units over commercial first floor and VFW canteen
Land-based constraints: None

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

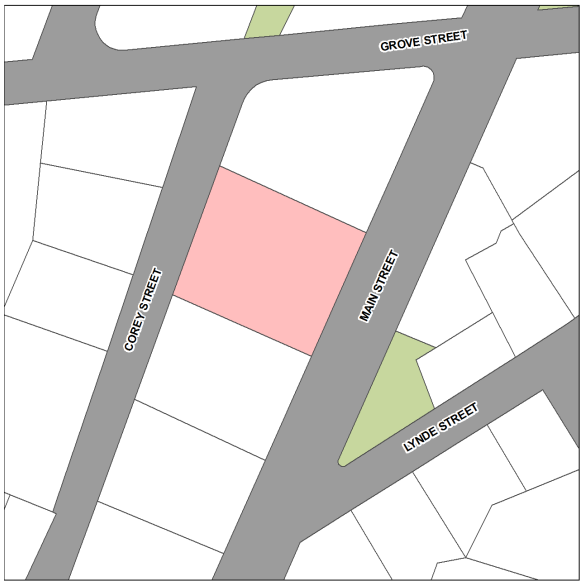
Site 3: 31-39 West Wyoming Avenue



Location notes: Near the Wyoming MBTA Station
Existing use: Single-story retail, garages, vacant lot
Existing structures year built: 1919
Existing floor area ratio: 0.04
Parcel IDs: C6 0 9; C6 0 8
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 27 residential units over parking and small commercial area
Land-based constraints: Underground culvert

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Site 4: MMTV Site, 360 Main Street

Location notes: Near Downtown and Wyoming MBTA Station
Existing use: Offices, studios
Existing structures year built: 1926
Existing floor area ratio: 0.90
Parcel IDs: C6 0 56
Zoning: BA-2, Eligible for Incentive Zoning
Anticipated units/use: Mixed-use with 42 residential units over first-floor commercial and MMTV studio
Land-based constraints: None
Other notes: A mixed-use project at this site was previously approved by the Planning Board and Zoning Board of Appeals but was appealed by abutters

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Site 5: Caruso Property, 681-697 Main Street

Location notes: Near Downtown
Existing use: Single-story retail
Existing structures year built: 1911, 1924
Existing floor area ratio: 0.70
Parcel IDs: D8 0 12; D9 0 14
Zoning: BD (Medical District)
Land-based constraints: Flood zone, underground culvert
Target housing type: Mixed-use (residential over retail)
Other notes: Redevelopment of this property has been under consideration for some time. The site is constrained by a need to perform underground infrastructure work and may require flooding mitigation. Any new housing here will need to be designed with resiliency in mind. A future project will likely require Variances due to constraints in the BD District zoning. There is a City-owned surface parking lot next to this site that could potentially be redeveloped in concert with it.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

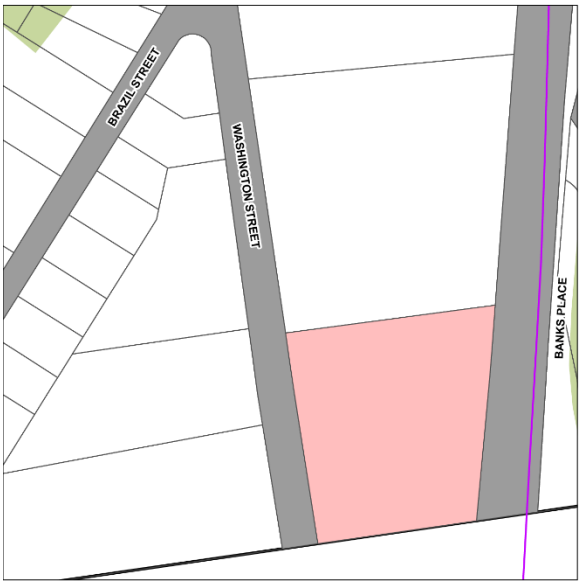
New Opportunity Sites

The following sites represent potential opportunities for residential or mixed-use development. They are not officially in the City's development pipeline and are not formally under consideration for redevelopment, although some property owners may be informally exploring redevelopment options. This list is intended to serve as a workable point of reference for future development possibilities in Melrose, but ultimately it is the individual property owner's choice whether to pursue redevelopment.

Site 6: Norman Prince Post VFW, 428-436 Main Street



Location notes: Downtown
Existing use: Fraternal organization
Existing structures year built: 1941
Existing floor area ratio: 0.94
Parcel IDs: C7 0 15
Zoning: BA-1, Eligible for Incentive Zoning
Land-based constraints: None
Target housing type: Mixed-use (residential over retail)
Other notes: This property is a well-used VFW hall. Any redevelopment effort should consider the inclusion of a canteen or function space for this organization.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

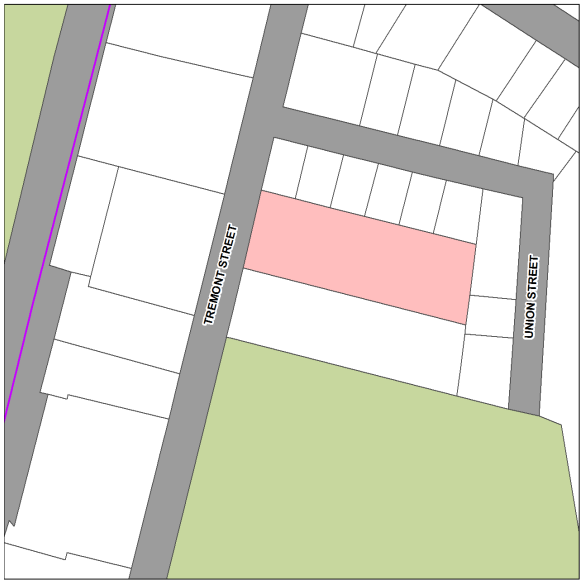
Site 7: Greenwood Property, 1 Washington Street



Location notes: Near Oak Grove MBTA Station
Existing use: Contractor's yard, offices, parking
Existing structures year built: 1954
Existing floor area ratio: 0.25
Parcel IDs: B2 0 21
Zoning: I-A, Smart Growth District
Land-based constraints: None
Target housing type: Mixed-use (residential over retail)
Other notes: This is the only remaining property in the Smart Growth zoning district that has not been redeveloped for residential/mixed-use development.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

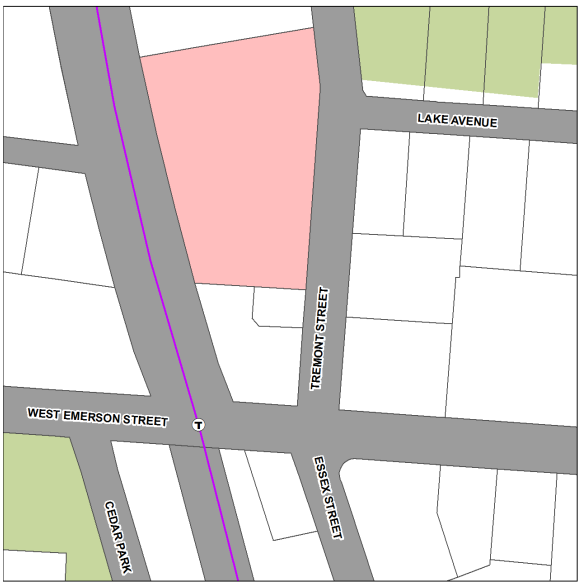
Site 8: 171 Tremont Street



Location notes: Along the rail corridor
Existing use: Offices and gym uses
Existing structures year built: 1914
Existing floor area ratio: 0.27
Parcel IDs: C11 0 126
Zoning: BB-1, Rail Corridor Overlay District
Land-based constraints: None
Target housing type: Mixed-use (residential over retail)
Other notes: The City previously approved plans to redevelop this property into a mixed-use building 23 housing units over first floor commercial, but the approvals expired after no development proceeded. Any new housing here will need to be designed with resiliency to flooding in mind, including the provision of green infrastructure and raised access points.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

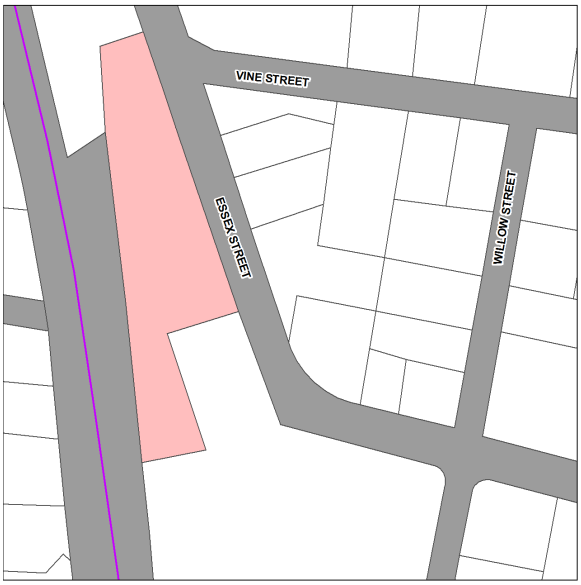
Site 9: 14-24 Tremont Street



Location notes: Near Cedar Park MBTA Station
Existing use: Dog daycare, rental housing, parking, and automobile storage
Existing structures year built: 1914
Existing floor area ratio: 0.11
Parcel IDs: B9 0 105
Zoning: BB-1, Rail Corridor Overlay District
Land-based constraints: Flood zone
Target housing type: 3- to 4-story multifamily
Other notes: Any new housing here will need to be designed with resiliency to flooding in mind, including the provision of green infrastructure and raised access points. Consideration should also be given to mitigating the potential displacement of existing rental tenants.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Site 10: Parking Lot, 164 Essex Street

Location notes: Near Cedar Park MBTA Station
Existing use: Parking
Existing structures year built: n/a
Existing floor area ratio: 0.00
Parcel IDs: C8-0-4
Zoning: BB-1, Rail Corridor Overlay District
Land-based constraints: None
Target housing type: 3- to 4-story multifamily

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Targets

Under M.G.L. Chapter 40B, a Housing Production Plan must set a development target for new housing, particularly new Affordable Housing. HPP development targets are typically calculated such that achieving the target would help achieve “safe harbor” from Chapter 40B Comprehensive Permit developments. To achieve safe harbor, a community must have 10% of its housing on the Subsidized Housing Inventory (SHI) or make incremental progress toward that goal. Units can be counted on the SHI when they are deed-restricted Affordable Housing or when they are market rate but are part of a development in which at least 25% of units are deed-restricted Affordable Housing rental units (typically built through the Chapter 40B Comprehensive Permit process).

Melrose presently has 934 SHI units, or 8.0% of its total housing stock (11,714 units) as counted in the 2010 US Census. Melrose would need a total of 1,171 SHI units to meet Chapter 40B’s 10% threshold, or 237 more SHI units than there are today. Furthermore, once 2020 Census figures are released, the state will recalculate the SHI percentage based on the new number of year-round housing units in Melrose. Based on the City’s permitting data, there have been approximately 567 net new housing units permitted in Melrose since 2010, bringing its total housing stock to 12,281 units. Once the state determines the new SHI percentages, Melrose will need roughly 294 additional SHI units to achieve safe harbor.

Melrose could also seek temporary safe harbor through adoption of this HPP and progress in Affordable Housing production. To do this, the City must permit Affordable Housing units at a rate of 0.5% or 1.0% of its total housing stock, which would result in one- or two-year safe harbor designation, respectively. This means Melrose would have to produce 59 new SHI units in one year to be eligible for one year of safe harbor when using the 2010 total unit count, or 61 SHI units using the estimated 2020 total unit count. SHI unit production would need to reach 117 or 122 units per year (for the 2010 and estimated 2020 total unit counts, respectively) to reach two-year safe harbor.

Realistically, this level of production would be very difficult to achieve for Melrose, especially with deed-restricted Affordable Housing alone. Affordable Housing must be subsidized and securing sufficient resources for Affordable Housing development requires substantial time and effort. Nonetheless, producing 237 new SHI units, ideally all deed-restricted Affordable Housing units, during the next five years is an appropriately ambitious target for Melrose to work toward.

Setting targets based on Chapter 40B requirements—while important for this regulated plan—will not satisfy the demand for Affordable Housing in the community. As demonstrated in the Housing Needs and Demand Assessment, Melrose has housing needs that exceed the regulatory requirements set forth in Chapter 40B. But because the Chapter 40B-based target is itself ambitious, it is an appropriate approach for this plan.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Goals, Strategies, and Actions

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Goals

Based on feedback received through engagement activities, this plan proposes five goals for the future of housing in Melrose:

1. Housing Mix

Encourage a range of housing options and types to serve households with a variety of incomes and meet the diverse needs of current and future Melrose residents.

A person's housing needs typically change many times over the course of their life as their household grows or shrinks in size, as their income increases or decreases, or as they pursue changes in employment. Different people also have different housing needs depending on their physical abilities, available income, and personal preferences. Often this diverse set of needs can be best satisfied by different types of housing development. Melrose already contains a mix of housing types, including single-family homes, townhouses, accessory apartments, two-family homes, three-family homes, small multifamily budlings, mixed-use developments, and larger multi-family buildings. (See Housing Stock on page 32 for more analysis of housing types.)

Until the mid-20th century, communities typically built housing to serve the diverse housing needs of their residents, and Melrose was no exception. However, cultural expectations of communities near larger cities began to shift following World War II, when new homes built in Melrose were increasingly detached single-family. The City's recent efforts to reverse the preference for single-family development have been successful in building a more diverse housing stock, especially larger multifamily buildings. But the City can do more to encourage the development of housing options that are neither detached single-family homes nor large multifamily buildings, ensuring Melrose's housing can meet the needs of the entire present and future Melrose community.

2. Racial Equity

Advance racial equity, promote inclusion, encourage wealth creation through housing access for people of color, and enrich the Melrose community through increased diversity.

For more than 100 years, housing policy has played a key role in constructing and perpetuating racial inequality in the US. Tools like federal redlining, steering by realtors and mortgage issuers, racially restrictive covenants, and local exclusionary zoning were used to build a racially segregated housing system that disproportionately benefited White people and reduced opportunities for people of color, especially Black people.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose's demographics are partly a result of that system. Other tools, like blockbusting, rent-to-own schemes, adjustable-rate mortgages, and subprime mortgage lending further limited wealth creation among Black people in particular and people of color generally. Though the latter set of practices have been used less often in Melrose because there were fewer Black people to target, they have contributed to inequality in the broader housing market. Congress recognized and addressed these facts in its 1968 Fair Housing Act. However, little has changed in the intervening decades, in part due to lack of enforcement or local implementation mechanisms.

While fully ameliorating the impacts of these policies will require investment at the federal level, Melrose can use local housing policy to make incremental progress towards reversing this history of housing-based exclusion and providing individual households with opportunity. The benefits of this approach would be broadly shared by existing and future members of the Melrose community, who could all enjoy the social and economic strengths of a more inclusive and diverse population.

3. Affordable Housing

Expand and preserve deed-restricted and subsidized Affordable Housing opportunities for low- and moderate-income households, including family households.

Housing affordability is a serious issue in Melrose, impacting a diverse set of households across a range of incomes. As housing costs continue to rise, deed-restricted Affordable Housing is one of the few types of housing that can ensure stability for existing residents or provide opportunity for those seeking a new home, current Melrose residents and newcomers alike. This deed-restricted Affordable Housing is crucial in maintaining an economically diverse community over time.

Deed-restricted homes can only be rented or sold to households with incomes below a certain threshold, typically less than 80% of the region's Area Median Income (AMI), which varies by household size. In 2021, 80% of the Area Median Income in Greater Boston is $67,700 for a single-person household and $96,650 for a four-person household. Units that meet these criteria are eligible to be included on the state's Subsidized Housing Inventory under Chapter 40B. (See Housing Affordability on page 39 for more information.)

4. Enhanced Neighborhoods

Utilize housing as a tool to enhance existing Melrose neighborhoods, balancing development with other community priorities such as open space, historic preservation, economic development, walkability, sustainability, and resilience.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing can be an opportunity for community and neighborhood enrichment in Melrose. Too often, new housing is discussed as a burden on existing communities. While housing's impact on existing systems should be considered, the framing of "housing as a burden" misses both the intrinsic benefits of meeting people's housing needs and the non-housing benefits new development can create.

If housing development is done well and in the right places, it can support local businesses through additional patrons, create new open spaces through pocket park development, preserve historic structures through their rehabilitation, create pedestrian connections through large sites, and improve stormwater issues through new green and grey infrastructure. Even small developments on infill sites can improve Melrose's quality of life. Of course, any new development will need guidance to produce these positive outcomes. That guidance can come in the form of smart zoning, design guidelines and standards, and (for larger projects) public review processes.

5. Community Engagement

Promote an understanding of the role that housing plays in Melrose and the region through ongoing public engagement and discussion.

This planning process has included a broad public conversation on the role housing has played in Melrose's past, present, and future. Both the planning team and the community have learned a great deal from the conversation, and that learning is reflected in the contents of this plan. However, this plan is just the beginning. To implement the plan's ideas, there will need to be considerable additional analysis and public engagement processes. Melrose should continue the public dialogue around housing to inform future planning work, to create a more grounded debate about housing matters generally, and to provide space for new ideas to emerge from players new to the planning process.

Strategies and Actions

This section recommends an array of locally specific housing policies and practices to advance housing goals. To determine these recommendations, the planning team assembled a list of common housing actions used by communities in Massachusetts and beyond to address housing goals similar to Melrose's. The initial list was limited to housing initiatives by local governments specifically, but still included more than 50 potential actions. Each action was rated according to its anticipated impact and potential fiscal cost to the City. Through conversations between MAPC, City staff, and the Advisory Committee, the initial list of actions was narrowed down to the ideas that were most appropriate for Melrose. The actions were then organized into broad strategies according to common themes.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

This group of actions were shared with the public in the Spring 2021 Engagement Campaign, during which community members responded to each action with a priority rating. Using that community input, the list of actions was further narrowed.

This section outlines a targeted list of strategy and action recommendations that the City can implement over the next five years to make material progress towards its housing goals, address unmet housing needs, and produce Affordable Housing in accordance with M.G.L. Chapter 40B.

Many policy tools could be deployed to achieve Melrose's housing goals, but the City cannot pursue all strategies at once. This planning process identified a universe of potential strategies and actions, and through analysis and public discussion, refined and narrowed the list of potential actions based on anticipated impact, relevance to plan goals, cost to implement, relationship to other strategies and actions, and interest from community members. This winnowing resulted in the "high priority" strategies described below.

In addition to these high priority strategies, this plan identifies a set of "best practices" the City should also pursue. These actions are widely recognized as good planning practice, will advance the City's housing goals, and are simple to implement compared to the actions in the high priority list.

High Priority Strategies

Strategy A: Use zoning and design guidelines to encourage "missing middle" housing that fits into Melrose's existing context.

Melrose has always featured a mix of housing types, including duplexes, townhomes, small multifamily buildings, and accessory apartments. However, detached single-family homes still comprise the majority of Melrose's housing, with large multifamily buildings the next most common type. The actions below would encourage production of duplexes, townhomes, accessory apartments, and small multifamily development in Melrose where appropriate.

> "I would like for there to be more housing types at a range of price points. Existing housing would be restored, and new housing built in all forms - accessory units, duplexes, townhouses, multi-family, and independent senior living communities..."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A1. Allow two-family homes and townhomes in more zoning districts.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Enhanced Neighborhoods

Two-family homes (duplexes) and townhomes typically cost less than single-family homes while retaining much of the experience of single-family housing and blending into single-family neighborhoods. Melrose already contains 915 two-family homes, which are especially common in areas near Downtown and along the rail corridor. Approximately 65% of those homes were built in or before 1900, 27% between 1901 and 1940, 5% between 1941 and 1970, and 3% since 1971. While two-family homes and townhomes are allowed in the Melrose Zoning Ordinance (MZO), they are not permitted in all areas and they require a Special Permit in some places. These requirements add cost to the homes that are eventually built and incentivize fewer homes to be built overall. Allowing two-family homes and townhomes with or without Special Permits in more areas could create new homes while encouraging contextually sensitive development.

A2. Amend zoning to allow for more forms of accessory dwelling units.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

The MZO allows accessory “in-law” apartments under certain conditions: a Special Permit is required, the primary dwelling must be owner-occupied, tenants must be close family (parents or children), and the apartment must be re-certified by the City every three years. Accessory apartments must also be carved out of existing space within a house or built as an addition that does not change the home’s outward appearance; accessory apartments in detached buildings, such as converted garages, are not allowed.

These restrictions are strong disincentives for homeowners considering an accessory apartment. For instance, Melrose could allow accessory apartments that are detached from the main house, such as above a detached garage or in a new building designed to match the built context. A number of single-family properties with more than 5,000 square feet of yard space could accommodate an accessory apartment of a few hundred square feet with little impact to that property or to neighbors.

Some restrictions, such as those that restrict occupancy to family members, limit a homeowner’s ability to seek a loan to build an accessory apartment. Because a family requirement means that the accessory apartment has no value if the property owner does not have family to occupy it, many banks will not approve a home improvement loan when a family requirement is in place. Loosening these restrictions on accessory apartments would encourage the creation of lower-cost forms of housing. Based on other Massachusetts communities, it is unlikely that any changes to accessory apartment

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

zoning would overwhelm Melrose with new units but would rather result in incremental increases.

Accessory dwelling units provide an important opportunity to create more affordable options for those in Melrose experiencing the most housing insecurity, such as seniors and people with disabilities. Beyond price, these units can allow these populations to live close to family while still maintaining a sense of independence.

A3. Propose amendments to dimensional and parking requirements to allow for a range of smaller housing types that match historic development patterns.

Impact: High
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing, Enhanced Neighborhoods

The MZO includes numerous dimensional requirements that regulate the physical aspects of housing, such as minimum lot size per housing unit, maximum height, maximum lot coverage, minimum open space, yard size, and more. Many of Melrose's historic homes and development patterns do not conform to these requirements and could not be built under current regulations. For instance, the minimum lot area required to build housing in the Urban Residential districts runs between 6,000 and 7,500 square feet for the first unit, with additional lot area needed for each additional unit. However, in the half-mile around MBTA stations, pre-World-War-II homes have a median lot area per unit of 5,400 square feet, and 58% of all homes have a lot area per unit of less than 6,000 square feet.

Dimensional regulations like these, which require more land and less density for new housing, tend to increase housing costs and prohibit smaller, less expensive housing types. These requirements can also make new housing impossible to build on many existing parcels. Melrose could study its dimensional rules in detail and propose amendments consistent with its historic development patterns that would create more housing opportunities and allow for smaller, potentially lower-cost housing types. In particular, Melrose should evaluate the SR Zoning Districts to determine if this area should be rezoned to be less restrictive.

A4. Use density bonuses to incentivize conversion and/or expansion of historic structures to preserve architectural heritage while producing housing.

Impact: High
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

Melrose has many historic homes that contribute to its cultural heritage but require complex or cost-prohibitive renovations to remain safe and habitable. Some property

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

owners may find greater financial value in tearing down older structures and replacing them with new ones. Melrose could change this financial calculation by amending its zoning to allow an increased number of housing units on a site if the original structure is preserved. New housing could be created by converting the existing house into multiple smaller units and/or constructing an addition that appropriately respects the original building's historic character.

A5. Craft design standards for mixed-use and multifamily housing near Downtown and along the rail corridor.

Impact: Medium
Cost: Medium
Goals Advanced: Housing Mix, Enhanced Neighborhoods, Community Engagement

Melrose currently allows residential mixed-use and multifamily buildings within the general vicinity of Downtown, along the rail corridor, and around MBTA stations. While the City's zoning laws create general standards for new buildings' bulk, height, and siting, developers have a wide latitude when determining other building elements. Though this flexibility can allow for creative and extraordinary building designs, the lack of clear design standards can also result in undesirable outcomes, especially when it comes to the relationship between the building and the public realm. In cases where buildings require Site Plan Review, a lack of clear design standards can also create confusion, prolong permitting decisions, and result in unpredictable or unequal conditions across development projects. Design standards within the zoning for mixed-use and multifamily housing in these areas would create more consistently high-quality designs, as well as more predictable processes.

> "I believe any large multi-household buildings must also be considered for aesthetics. It needs to fit into the context of a neighborhood."

A6. Craft design guidelines for infill and replacement development in older, mid-density neighborhoods.

Impact: Medium
Cost: Medium
Goals Advanced: Housing Mix, Enhanced Neighborhoods, Community Engagement

The City should ensure that when new housing is built in older neighborhoods, whether to replace older homes or as infill development, it enhances the character of the existing neighborhood. Design guidelines for infill or replacement buildings in historic areas will encourage new structures that complement the surrounding existing buildings and honor

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Melrose's architectural heritage, while still allowing for new housing opportunities and innovative sustainable designs.

Strategy B: Encourage the production of deed-restricted Affordable Housing units and create more deeply affordable options.

Deed-restricted Affordable Housing must be rented or sold at rates affordable to households that earn less than a certain income threshold. Typically, residents of these units are low-income, meaning they earn less than 80% of the Greater Boston region's Area Median Income (AMI). A single-person household in Greater Boston is considered low-income when it earns $67,700 per year or less; a four-person household is considered low-income when it earns $96,650 or less. Some Affordable Housing units are only open to households with incomes much lower than these amounts; urban planners call those units more "deeply" affordable.

Deed-restricted Affordable Housing is not profitable, so it must be subsidized. This subsidy typically comes from government programs or profits from market-rate housing units in the same development. Developments comprised entirely of Affordable Housing are often developed and operated by nonprofit organizations. Deed-restricted Affordable Housing units are also created as part of a private, for-profit development, typically through Melrose's inclusionary zoning law.

Deed restrictions are the only way to ensure some level of affordability in the long-term. A given housing unit may be inexpensive in the present, but market conditions could increase the cost of that housing in the future. Indeed, this trend has played out in cities and towns across Greater Boston. Melrose should create more deed-restricted units to protect against rising housing costs and ensure housing stability for vulnerable residents.

> "I would like to have much more Affordable Housing than we do today and to have it quickly. I would like to see more POC [people of color] represented across city government employees and schools."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

B1. Pass the Community Preservation Act, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.

Impact: High
Cost: Low
Goals Advanced: Affordable Housing, Enhanced Neighborhoods, Community Engagement
Lack of resources is the principal reason that most cities cannot produce more Affordable Housing or create housing programs that benefit residents. Without money, it

is difficult to take any substantive action aside from changing regulations such as zoning. Melrose has already taken some measures to effectively grow and steward its housing resources, such as amending the inclusionary zoning law to require additional units and encourage additional payments, and establishing an Affordable Housing Trust to manage any funds collected. However, the City can do more to increase revenues dedicated for housing, and the most commonly used fiscal resource in Massachusetts is the Community Preservation Act (CPA).

This initiative enables municipalities that have chosen to adopt CPA to levy a local fee of anywhere between 1% and 3% of property taxes. By not adopting CPA, Melrose is missing out on considerable sums of state funding because these locally-raised funds are partly matched by the Commonwealth. CPA funds must be spent on projects that relate to Affordable Housing, Historic Preservation, and Open Space and Recreation. As of May 2021, 187 cities and towns (53% of Massachusetts communities) have adopted CPA, including Medford, Malden, Arlington, Beverly, and many others. CPA adoption would allow substantial progress towards housing goals by generating resources to fund housing programs that the City could not otherwise afford, preserve existing Affordable Housing units, or close funding gaps in new Affordable Housing development. Because it is tied to property values, CPA is a relatively stable funding source over time.

For example, a home assessed at $500,000 in Melrose pays approximately $5,500 in property taxes per year (based on the FY2021 residential tax rate of $10.95). A 3% surcharge on these taxes to fund CPA would amount to $165 per year. If the City of Melrose chose to adopt a lower surcharge number like 1%, that household would contribute $56 annually.

When voting to adopt the provisions of CPA, a community may choose to adopt certain exemptions to the CPA surcharge in order to ensure that raising CPA revenue is not a burden to households, especially those with low-incomes. One possible exemption is for property owned and occupied by a low-income household who apply annually for the exemption. Another option is to exempt the first $100,000 of taxable value of residential real estate. For the above example, this would mean that a household would pay $132 a year with a 3% surcharge and only $44 with a 1% surcharge. In addition, any portion of a taxpayer's local property taxes that are exempt under MGL Chapter 59 are also exempt from the CPA surcharge.

Adoption of the Community Preservation Act can only be done through a ballot election. Either a vote by the City Council or a petition signed by 5% of Melrose's registered voters can put the adoption question on the ballot. In the ballot question, residents would be asked to vote on the surcharge amount and any exemptions to the surcharge. Should the City choose to embark on the process to pass the CPA, a robust community engagement process would occur to educate residents about the CPA and why it is a vital tool in Massachusetts for funding Affordable Housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

B2. Purchase property to develop as Affordable Housing.

Impact: High
Cost: High
Goals Advanced: Racial Equity, Affordable Housing, Enhanced Neighborhoods

Land for Affordable Housing is hard to come by, and property acquisition is often a major cost for Affordable Housing developers, who must compete with market-rate developers that often have greater access to liquid resources. The City, working through its Affordable Housing Trust, could purchase land directly for use in Affordable Housing development. Ultimately, any land purchased would likely be given (or sold at a nominal rate) to a nonprofit developer that would build new Affordable Housing consistent with the City's goals for the property. The City's involvement would be key to creating more Affordable Housing units, and the City would have more leverage to shape the resulting development.

B3. Incentivize deeper levels of affordability in inclusionary zoning units through further density or dimensional relief.

Impact: High
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing

Inclusionary zoning requires that a portion of units in new housing development be set aside for low-income households to affordably rent or buy. Affordable units created through inclusionary zoning are usually rented or sold at a loss, which is offset by income from the building's market-rate units. The required level of affordability varies by municipality; Melrose's ordinance requires that inclusionary units be affordable to households earning 80% of Greater Boston's Area Median Income ($96,650 for a family of four in 2021), which is a common affordability level in inclusionary policies. To achieve deeper affordability for households earning less income, property owners would need to further reduce the rents or sales prices of inclusionary units, making it less likely that the building's market-rate units could cover the losses from the affordable units. If a municipality's inclusionary requirements are too burdensome, a developer will simply opt to not build there, which over time would result in less housing overall and less Affordable Housing specifically.

While these dynamics are challenging, there are ways to encourage deeper levels of affordability in inclusionary zoning units without deterring development. For example, in exchange for lower income eligibility restrictions, the City could offer a greater density bonus or provide relief from dimensional or parking requirements. This would allow more units to be built or allow those units to be built with less cost, which could cover the losses associated with deeper affordability. Before a zoning amendment is drafted, the City would first need to study potential cost offsets and affordability requirements and conduct a public process to understand community priorities around tradeoffs.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

B4. Enhance the capacity of the Office of Planning and Community Development to conduct housing planning.

Impact: High
Cost: High
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing, Community Engagement

The City currently lacks the capacity to proactively facilitate Affordable Housing development or create and administer housing programs. Meanwhile, the City's primary housing partners, the Melrose Housing Authority and the Melrose Affordable Housing Corporation, also lack the capacity to undertake new work. To address this shortage in capacity, the City could fund an additional planner position within City Hall to pursue housing initiatives and liaise with the City's housing partners. This work will become increasingly necessary as the Affordable Housing Trust begins to undertake new projects, which will likely require staff support. In addition to development, this planner could tackle housing stability by working with residents at risk of eviction and foreclosure, residents experiencing homelessness, residents facing landlord harassment, and more.

B5. Support "friendly 40B" projects that use the Comprehensive Permit process to build housing where appropriate.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Racial Equity, Affordable Housing

Chapter 40B is a state statute that requires local governments to permit mixed-income housing developments, regardless of conformity with zoning and other local rules, when a municipality’s share of Affordable Housing falls below a certain threshold. In some situations, these developments can become highly contentious if a community does not support a project but is required by state law to allow it to proceed.

However, development under Chapter 40B is not always controversial. When communities and developers share a vision for a site, Chapter 40B can be an effective tool to permit housing without making broader changes to local laws, all while requiring a relatively high number of affordable units. A project developed in this manner is known as a “friendly 40B.” Melrose should continue to support mixed-income developments by utilizing the 40B process when those projects align with community needs and developers are open to collaboration.

Strategy C: Encourage a fairer, more accessible private housing market.

The vast majority of the housing in Melrose is delivered through the private real estate market. Historically and today, this market has not provided access to housing equally for

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

all. Whether intentional or not, discrimination continues to occur, adversely impacting already vulnerable people, including people of color, people with disabilities, people utilizing public rental assistance, and others. Melrose, like most every community in the US, must actively push against historic and contemporary housing discrimination in the private market if it wishes to achieve its housing goals.

C1. Create a down payment assistance fund for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.

Impact: High
Cost: High
Goals Advanced: Racial Equity, Affordable Housing

For many prospective homeowners, a down payment—which in an area with high housing costs can be tens of thousands of dollars—is a considerable or even prohibitive obstacle to purchasing a home. Lack of savings for down payment is a reality for many homebuyers, but it is a particularly significant barrier in communities with little generational wealth. Access to generational wealth, such as an inheritance, financial assistance or no-cost loans from family members, or the ability to access equity accrued in a family member's home, is often an essential component of a first-time homebuyer's down payment. However, this advantage is not available to everyone, and the gap in generational wealth is especially acute in communities of color that were historically (and are presently) denied wealth-building opportunities that build in generational wealth.

The City could take a step toward addressing this inequity through a local down payment assistance program. The City could provide resources to expand an existing program administered by another organization or could create a new standalone program. While fair housing laws prohibit racial targeting in such programs, many down payment assistance programs benefit marginalized communities, such as first-generation homeowners, while ensuring equality of access. Residents looking to purchase a home in Melrose are eligible for a down payment assistance program through the North Suburban Consortium, but payment is capped at $7,500 and it requires a cumbersome application process since it has a federal funding source.

C2. Encourage the adoption of Universal Design standards in new housing construction through the permitting process.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

The Americans with Disabilities Act (ADA) and related laws set minimum standards for the design of housing development. While at the time of its passage the ADA represented real progress towards equal access in the build environment, its standards

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

can be inflexible and do not necessarily meet the needs of all people. It also does not apply to all buildings. On the other hand, the more recent concept of "universal design" encourages thinking beyond the one-size-fits-all ADA requirements by designing buildings that are comfortable for all users regardless of their physical abilities or disability status. Melrose should research more holistic approaches to accessibility such as universal design and encourage new developments to comply with those standards through the permitting process. Implementing the principals of universal design for new and renovated housing is necessary for serving seniors and those with disabilities in the community in an equitable and dignified way.

C3. Explore local requirements for a Notice of Sale and Notice of Rent Increase to Melrose tenants to decrease housing instability.

Impact: Medium
Cost: Low
Goals Advanced: Racial Equity, Affordable Housing

Renters, especially those with low or fixed incomes, can face housing instability and the risk of homelessness after unexpected rent increases. Most landlords must give notice of a rent increase according to the terms of the lease, typically 30 to 90 days before the increase goes into effect. However, some landlords strategically choose not to serve notice, intending to accelerate a tenant's departure so as to "reposition" the apartment for higher rents. Depending on the circumstances, some landlords may even increase rent in breach of contract.

In addition to rent increases, tenants can face housing instability when a building is sold to a new owner. Many purchasers of rental properties hope to increase the value of the property by removing existing tenants and then charging higher rents. Landlords are required to notify tenants when an apartment building is converted to a condominium, but not when it is otherwise sold.

Approximately a third of Melrose households rent their home. As the value of rental property grows in Melrose, these tenants are more likely to face housing instability due to rent increases and property sales. Requiring landlords to provide Notice of Rent Increases and Notice of Sale can help Melrose reduce housing instability that arises from unexpected changes in price or ownership, as well as decrease the risk that this instability will result in homelessness.

Strategy D: Encourage sustainable development through the siting and design of new housing.

All communities have a duty to regulate development so that it produces fewer greenhouse gas (GHG) emissions, preserves ecosystems and biodiversity, promotes public health, and does not incentivize environmentally destructive transportation

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

decisions. Melrose should continue to enact measures to pursue better, more sustainable forms of housing development.

D1. Create baseline requirements for sustainable development, as well as provisions for on-site green infrastructure.

Impact: High
Cost: Medium
Goals Advanced: Enhanced Neighborhoods

Melrose recently adopted incentive zoning that would offer a density bonus to developments that provide specified community benefits. These community benefits include sustainable building practices that reduce greenhouse gas emissions, green infrastructure, bicycle and pedestrian infrastructure, and more. To take this approach one step further, Melrose could craft baseline sustainability requirements that all developments must include regardless of whether they choose to utilize the incentive zoning. Any such requirements would need to be tailored to ensure they do not increase housing costs or limit the efficacy of the incentive zoning. Though providing sustainable design and energy efficiency measures may result in increased up-front costs for developers, they can also result in savings over time for renters or owners in the form of lower utility bills and the money saved from not needing to own a car.

D2. Promote open space protection and ecologically sensitive development through zoning and subdivision regulations in areas outside of Downtown and the rail corridor.

Impact: Medium
Cost: Medium
Goals Advanced: Housing Mix, Enhanced Neighborhoods

Melrose could alter its zoning and subdivision regulations to protect its ecologically sensitive areas while maintaining development potential. The regulations could limit new single-family development on large individual lots and promote compact development (either single-family or multifamily) on a smaller land footprint with protections for shared open spaces surrounding the development. This approach maintains current development capacity while reducing the overall ecological impact of new development.

"Work needs to be done to ensure that the entire Melrose community can thrive here. While personally I value a single-family home, I think that multifamily homes or small condos can be very helpful in allowing for more affordable housing, not taking up green space, and encouraging community."

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Best Practices

The actions described below are either relatively easy to implement or are simply best practices for local government. This list of actions should be implemented by the City regardless of the status of other recommendations described in this plan.

BP1. Continue to monitor parking utilization in Downtown and the rail corridor, and "right-size" parking requirements in new developments.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Enhanced Neighborhoods

A 2012 study of parking in Downtown Melrose found that its existing supply of parking does not need to be expanded. Additionally, a 2019 study of parking at 20 multifamily residential developments in Melrose found that, on average, 21% of parking spaces in those developments were unutilized overnight. Parking garages and surface parking lots can significantly increase the cost of housing development; these costs are typically passed on to renters and homebuyers regardless of whether they utilize the available parking. Parking also takes up a substantial amount of space and can be a limiting factor for development, resulting in fewer housing units than could otherwise be built. Melrose should “right-size” its parking regulations for new development to avoid over-supply of parking at the expense of housing production.

BP2. Study the need for emergency and transitional housing to address often-unseen homelessness within Melrose.

Impact: Medium
Cost: Low
Goals Advanced: Housing Mix, Affordable Housing, Community Engagement

Emergency and transitional housing can effectively prevent homelessness for most at-risk individuals and families. However, the true scale of homelessness in Melrose is unknown because the relevant data does not track most forms of homelessness. Melrose should assess the experience of homelessness in the city to the greatest extent possible, utilizing both administrative data and qualitative research. When the assessment is complete and the issue is more fully understood, the City should recommend actions that would prevent homelessness, including the production of new emergency and transitional housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

BP3. Host regular information sessions on a variety of topics related to housing and equity to promote greater dialogue around and understanding of housing issues.

Impact: Medium
Cost: Low
Goals Advanced: Racial Equity, Affordable Housing, Enhanced Neighborhoods, Community Engagement

This HPP has helped to formalize an ongoing public conversation on housing in Melrose, focusing on who can access housing here and how to ensure the city's housing reflects the values of the community. The City should continue this dialogue by holding regular meetings and discussions around housing-related topics. These could include the history of housing in Melrose and the region, racial equity and housing, sustainable housing, the homebuying process, tenants' rights, and other housing topics.

BP4. Create an HPP implementation committee to oversee implementation and continue public discourse around housing.

Impact: Medium
Cost: Low
Goals Advanced: Community Engagement

The City should establish a formal HPP implementation committee to ensure that the plan's recommendations are implemented and that the public discourse around housing continues in the future. The committee would act as an oversight body for agencies tasked with implementing the plan, convene future community discussions, and serve as advocates for local housing initiatives.

Implementation

Implementation of this plan will involve multiple agencies within local government. Some actions cannot occur until other recommendations have first been implemented. The following pages outline the agencies that will be responsible for implementing each action as well as a rough order of operations for implementation. Most priority actions will require further analysis and public engagement. Depending on the community's will and the City's capacity, some actions, such as zoning amendments, could be bundled under a single implementation process.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Implementation Table

Strategy	Action	Lead Agency	Supporting Agencies
A1	Allow two-family homes and townhomes in more zoning districts.	OPCD	Planning Board, City Council
A2	Amend zoning to allow for more forms of accessory dwelling units.	OPCD	Planning Board, City Council
A3	Propose amendments to dimensional and parking requirements to allow for a range of smaller housing types and to match historic development patterns.	OPCD	Planning Board, City Council
A4	Use density bonuses to incentivize conversion and/or expansion of historic structures to preserve architectural heritage while producing housing.	OPCD	Historical Commission, Planning Board, City Council, Historic District Commission
A5	Craft design standards for mixed-use and multifamily housing near Downtown and along the rail corridor.	OPCD	Planning Board, Historical Commission
A6	Craft design guidelines for infill and replacement development in older, mid-density neighborhoods.	OPCD	Planning Board, Historical Commission
B1	Pass the Community Preservation Act, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.	OPCD	Mayor's Office, City Council, Planning Board, Historical Commission, Park Commission, Affordable Housing Trust
B2	Purchase property to develop as Affordable Housing.	OPCD	Affordable Housing Trust, Housing Authority, North Suburban Consortium
B3	Incentivize deeper levels of affordability in inclusionary zoning units through further density or dimensional relief.	OPCD	Planning Board, City Council

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Strategy	Action	Lead Agency	Supporting Agencies
B4	Enhance capacity of the Office of Planning and Community Development to conduct planning for housing.	OPCD	Mayor's Office
C1	Create a down payment assistance fund for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.	OPCD	Affordable Housing Trust, Human Rights Commission, North Suburban Consortium, Housing Authority
C2	Encourage the adoption of Universal Design standards in new housing construction through the permitting process.	OPCD	Planning Board, Human Rights Commission, Disability Commission
C3	Explore local requirements for a Notice of Sale and Notice of Rent Increase to Melrose tenants to decrease housing instability.	OPCD	City Solicitor
D1	Create baseline requirements for sustainable development, as well as provision for on-site green infrastructure.	OPCD	Planning Board, Melrose Energy Commission, Ped/Bike Committee
D2	Promote open space protection and ecologically sensitive development through zoning and subdivision rules in areas outside of Downtown and the rail corridor.	OPCD	Planning Board, City Council, Conservation Commission
BP1	Continue to monitor parking utilization in Downtown and the rail corridor, and "right-size" parking requirements in new developments.	OPCD	Planning Board, City Council
BP2	Study the need for emergency and transitional housing to address often-unseen homelessness within Melrose.	OPCD	Human Rights Commission, Health Department, Schools Department

Appendices

Appendix A: Context Community Selection Methodology

Introduction

The Melrose Housing Production Plan (HPP) compares the City of Melrose to peer communities across several key indicators to better understand its own demographics and housing. These "context communities" were utilized in the Housing Needs and Demand Assessment chapter of the HPP.

This memo outlines the method of selecting context communities in Melrose.

Method

To choose context communities for the HPP, MAPC takes the following steps:

1. Identify context communities from earlier City planning processes
2. Identify additional communities that may be similar, based on qualitative assessment (using MAPC community types and presence of commuter rail stations)
3. Pull key indicators, listed below, for communities identified in steps (1) and (2).
4. For each indicator, qualitatively establish a range of values that will be considered similar to Melrose's value for that indicator.
5. Rate whether a community is similar or dissimilar to Melrose for each indicator, based on the value's relation to the range established in step (4).
6. For each community, sum the number of indicators for which it is similar to Melrose to create a "similarity score."
7. Choose which communities will be context communities, based on their likeness score and other relevant qualitative and political factors.

Potential Context Communities

Communities from earlier planning processes

Melrose Forward, the City's latest master plan, utilized the following context communities:

- Arlington
- Cambridge

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Malden
- Medford
- Revere
- Saugus
- Somerville
- Wakefield

Boston was also included in *Melrose Forward*, but was not included in the list of potential context communities for this analysis due to its size and concentration of housing-related nonprofits.

Other Potential Communities

Using a qualitative assessment of other communities (based on MAPC community type and presence of commuter rail stations), MAPC added the following communities to the list:

- Belmont
- Beverly
- Needham
- Newton
- Norwood
- Stoneham
- Wilmington
- Winchester

Indicators and Similarity Scores

Key Indicators

- Total Population (Census Bureau Population Estimates Program, 2018)
- Percent Increase in Population, 2010–2018 (US Census, 2010; Population Estimates Program, 2018)
- Percent of homes that are owner-occupied (American Community Survey (ACS), 2014–2018 5-year estimates)
- Percent of households that are housing cost-burdened (ACS, 2014–2018 5-year estimates)
- Percent of households that are low-income (less than 80% of AMI) (Comprehensive Housing Affordability Strategy (CHAS) data, 2012–2016)
- Percent of low-income households that are housing cost-burdened (Comprehensive Housing Affordability Strategy (CHAS) data, 2012–2016)
- Percent of housing on the state Subsidized Housing Inventory (SHI) (DHCD, Sept. 2017)
- Median household income (ACS, 2014–2018 5-year estimates)
- Median single-family home sale price (Warren Group, 2019)
- Percent of population that is non-Latinx White (ACS, 2014–2018 5-year estimates)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Percent change in school enrollment, 2010–2019 (DESE, Academic Year 2010/11–2018/19
- Number of MBTA stations (Commuter Rail and Subway) (MBTA)

MAPC compiled this data for the potential context communities shown in Table 1 below.

Table 1: Indicators for all potential context communities

	Pop. 2018	% Pop. Change 2010-18	% Owner Occupied	Cost-burdened HHs	Low Income HHs (<80% AMI)	Low-income cost-burdened HHs	% of housing on the SHI	Median HH Income	Median Single-Family Home Price	% non-Latinx White	% Change School Enrollment 2010-2019	MBTA Stations
Arlington	45,624	6%	59%	29%	31%	69%	5.64%	107,085	795,000	77%	26%	0
Belmont	26,330	6%	64%	35%	27%	77%	3.61%	120,208	1,125,000	74%	20%	2
Beverly	42,312	7%	61%	36%	42%	64%	11.61%	79,483	484,950	90%	11%	5
Cambridge	118,977	13%	36%	38%	39%	67%	14.80%	95,404	1,485,000	61%	18%	6
Malden	61,036	3%	41%	46%	56%	67%	10.12%	64,178	490,000	47%	-1%	3
Medford	57,765	3%	57%	32%	41%	68%	7.07%	92,363	605,000	71%	-13%	2
Melrose	28,193	4%	65%	29%	34%	55%	7.96%	103,743	643,000	86%	5%	3
Needham	31,248	8%	83%	26%	20%	60%	12.65%	153,032	1,050,000	83%	6%	4
Newton	88,904	4%	72%	31%	26%	76%	7.50%	139,696	1,207,500	74%	7%	10
Norwood	29,327	3%	58%	29%	38%	58%	8.32%	90,511	463,750	79%	1%	3

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MAPC then determined a range of values for each indicator that would be considered similar to Melrose. This determination was qualitative. For each indicator, a community was given the score 1 if that indicator's value fell within the range determined to be similar to Melrose.

Table 2: Similarity range for each indicator

	Pop. 2018	% Pop. Change 2010-18	% Owner Occupied	% of HHs that are cost-burdened	% of HHs that are low-income (<80% AMI)	% of low-income HHs that are cost burdened	% of housing on the SHI	Median HH Income	Median Single-Family Home Price	% non-Latinx White	% Change School Enrollment 2010-2019	MBTA Stations
Melrose	28,193	4%	65%	29%	34%	55%	8%	103,743	643,000	86%	5%	3

Range Maximum	45,000	7%	75%	35%	45%	60%	12%	120,000	750,000	93%	10%	5

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

MELROSEHPP

Table 3: Similarity to Melrose
(0 = does not fall in similarity range, 1 = falls in similarity range)

	Pop. 2018	% Pop. Change 2010-18	% Owner Occupied	% of HHs that are cost-burdened	% of HHs that are low-income (<80% AMI)	% of low-income HHs that are cost burdened	% of housing on the SHI	Median HH Income	Median Single-Family Home Price	% non-Latinx White	% Change School Enrollment 2010-2019	MBTA Stations
Arlington	0	1	1	1	1	0	1	1	0	0	0	0
Belmont	1	1	1	0	1	0	0	0	0	0	0	1
Beverly	1	0	1	0	1	0	1	0	0	1	0	1
Cambridge	0	0	0	0	1	0	0	1	0	0	0	0
Malden	0	1	0	0	0	0	1	0	0	0	0	1
Medford	0	1	1	1	1	0	1	1	1	0	0	1
Needham	1	0	0	1	0	0	0	0	0	1	1	1
Newton	0	1	1	1	1	0	1	0	0	0	1	0
Norwood	1	1	1	1	1	1	1	1	0	0	1	1
Revere	0	1	0	0	0	0	1	0	0	0	0	1
Saugus	1	1	0	1	1	1	1	0	0	1	0	0
Somerville	0	0	0	0	1	0	1	1	0	0	1	1
Stoneham	1	1	1	1	1	0	1	1	0	1	0	0
Wakefield	1	0	1	1	1	0	1	1	1	1	1	1
Wilmington	1	0	0	1	1	0	1	0	0	1	0	1
Winchester	1	1	0	1	0	0	0	0	0	1	1	1

The values in Table 3 were then summed to arrive at a “similarity score” relative to Melrose. The higher the similarity score, the more similar (in theory) that community is to Melrose.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Table 4: Communities by similarity score

Community	Similarity Score
Norwood	10
Wakefield	10
Medford	8
Stoneham	8
Saugus	7
Arlington	6
Beverly	6
Newton	6
Wilmington	6
Winchester	6
Belmont	5
Needham	5
Somerville	5
Malden	3
Revere	3
Cambridge	2

Choosing Context Communities

MAPC and City staff reviewed the potential context communities, the values for each indicator, and the similarity scores. Based on this information, qualitative assessment of how these context communities would be received, and consideration of how useful each community's comparison to Melrose would be in this planning process, MAPC and City staff narrowed the list to the following context communities:

- Arlington
- Beverly
- Malden
- Medford
- Norwood
- Somerville
- Stoneham
- Wakefield
- Wilmington
- Winchester

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Subject: Ped/Bike Committee -- ORDER-2022-80 -- Letter of Support
Attachments: PBC - HPP Support Final.docx.pdf

Hello,

On behalf of the Melrose Pedestrian & Bicyclist Committee, I am submitting a letter of support for Order 2022-80, Request to Approve the Melrose Housing Production Plan.

Thank you

Finn McSweeney

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Date: March 14th, 2022
To: Melrose City Council
Subject: Support for Housing Production Plan

Melrose Pedestrian & Bicyclist Committee

We write to you as members of the Melrose Pedestrian and Bicyclist Committee (PBC) to endorse the passage of this Housing Production Plan (HPP). This plan is comprehensive and data-rich; it serves as a worthy guide for illuminating the many strategies we have before us for creating and protecting affordable units while also diversifying the city's housing stock. We urge you to pass it so that Melrose can accelerate its work on a subject which is clearly of great community interest.

Our committee cares about this subject because we believe our city's housing policies directly affect our built environment. Larger lot sizes, more parking lots, and greater distances between amenities create less-walkable communities. We should ensure that our zoning, and our policies and guidelines, discourage them. Further, walking and biking are simply the most affordable ways to get around Melrose. In a community where one in three households are housing cost-burdened, this matters deeply. We must provide safe, affordable housing for more lower-income residents, and we must ensure they have access to safe and affordable transportation as well.

We would like to call the Council's attention to two areas of the plan we feel are critical.

Place the Community Preservation Act (CPA) on the ballot. The legislation enabling the CPA was passed in Massachusetts over two decades ago. Melrose is in the minority of cities and towns which have not chosen to adopt it. To date, the state's trust fund has paid out over 800 million dollars for, amongst other things, the creation of affordable housing units. Almost ten thousand new affordable units have been created through this funding, with another fifteen thousand supported. Melrose has forgone over one million dollars in state matching funds which could have been used for these purposes. The CPA can be passed so as to exempt low-income individuals and households, including seniors, from having to pay a single cent more in taxes. 50% of respondents to the HPP survey call the CPA a high priority – and a clear majority of respondents support its passage. As the Plan makes clear, there is simply no better source of consistent funding available to us. We encourage the Council to put this question before the city's voters.

Proactively "Close the Gap" on two-family and multifamily zoning. In 2020, the state legislature passed an economic development package which made several changes to the state's Zoning Act. These changes were designed to make it easier to build new housing, and they allow for the City Council to pass certain zoning amendments by a simple majority rather than the two-thirds vote historically required. The Council could pass numerous Plan recommendations via simple majority – for example, allowance of Accessory Dwelling Units; allowance of more different types of housing in more areas of the city; and a reduction in required off-street parking spaces so as to allow for more housing units on a given lot.

These changes put special responsibilities on communities like Melrose which have access to MBTA service. So-called "MBTA Communities" must meet specific thresholds for multifamily zoning around transit stations. We urge you to work with the Planning Board to update the public on whether or not our current zoning is compliant and, if necessary, to use the Housing Production Plan as a tool to prioritize any zoning changes necessary to bring us into compliance.

We thank you for your time and consideration, and our members look forward to continuing to engage with the Council and Planning Board on these issues of critical importance.

Melrose Pedestrian and Bicycle Advisory Committee

Subject: Melrose Affordable Housing Corporation support of Housing Production Plan

Dear Melrose City Council Members,

We are writing as the Melrose Affordable Housing Corporation (MAHC) in support of your adoption of the Melrose Housing Production Plan.

MAHC provides affordable housing to low and moderate income families and individuals who desire to reside in the City of Melrose. We strive to increase the number of homes in Melrose that are safe and affordable and to assist the community in meeting its affordable housing needs.

We thank you for your recent efforts to increase affordable housing in Melrose, including an increase in the inclusionary zoning provisions and the creation of an Affordable Housing Trust Fund, thereby realizing some of the goals of the Melrose Forward Master Plan.

Despite these accomplishments, we know the need remains. The Housing Production Plan is a blueprint that can guide our efforts over the near and long term future to ensure opportunity for more Melrose residents. By focusing on broad goals to improve the mix of housing in Melrose, promote racial equity, prioritize affordable housing, enhance our neighborhoods, and increase community engagement and education, the HPP ensures that Melrose will be well situated to deliver on our promise of a thriving community for all.

While many of the strategies proposed and outlined in the HPP will require significant community engagement, study and implementation, this first crucial step of adoption will open up the opportunity for us to move beyond planning into action. We have shown through the HPP process that many residents care deeply about this issue and are ready to get to work and are excited to continue the dialogue.

As housing costs continue to rise and the value of a safe and affordable home becomes steeper in the wake of the pandemic, we believe that the most important investment we can make today is in the stability of our people and our homes.

We urge you to adopt the Melrose Housing Production Plan and look forward to working with the City Council, City Administration, residents and stakeholders on meeting our needs and creating a more affordable and equitable community in Melrose.

Sincerely,

Melrose Affordable Housing Corporation Board

Steve Anderson, Joan Cassidy, Ellen Connolly, Gail Infurna, Dana LeWinter and Gina Martinez

Emma Schnur Battaglia
Senior Housing & Land Use Planner
Metropolitan Area Planning Council

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Meeting Purpose

- Reintroduce the HPP
- Share the planning process
- Summarize the plan's recommendations
- Field questions
- Vote on adoption

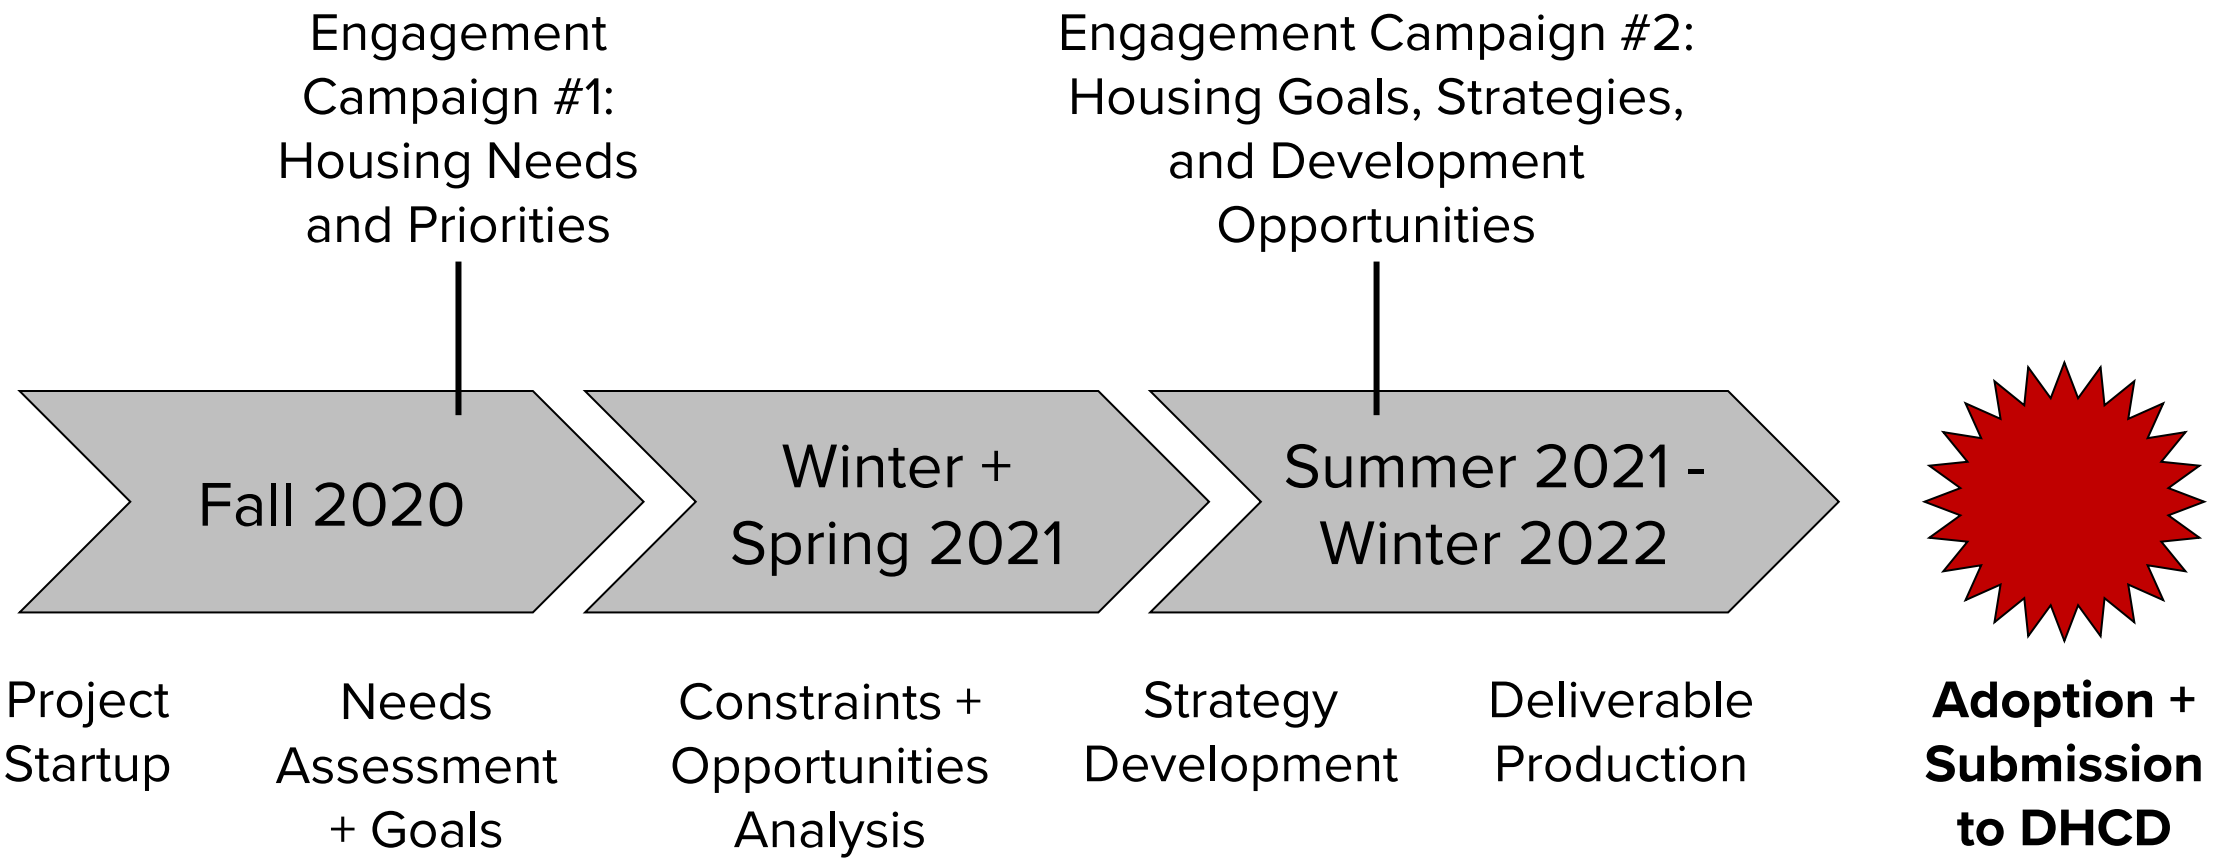
Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

What is an HPP?

A **Housing Production Plan (HPP)** is a proactive strategy for communities to plan for and guide development of housing, both market-rate and Affordable Housing.

An HPP helps a community understand its **housing needs**, set **housing goals**, and identify **strategies** to achieve them.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)



HPP Components

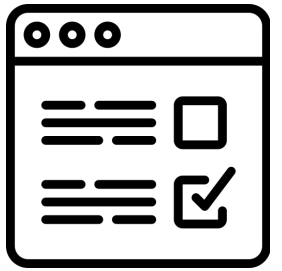
Defined by M.G.L. Chapter 40B:

- Housing needs and demand assessment
- Housing goals for the next 5 years
- Analysis of development constraints
- Identification of housing development opportunity sites
- Strategies (policies, programs, etc.) to achieve goals
- Affordable Housing production targets

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Timeline

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)



Analysis

Engagement

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Local Housing Needs Data

- Vacancy rates have been well below “healthy” rates for some time, and are continuing to decrease
- Housing prices more than doubled since 2000, rising 61% between 2010 and 2019
- Average listing prices for all unit sizes except studios exceed $2,000 per month
- Roughly 61% of renters and 36% of all households are low-income (making less than 80% AMI)
- Roughly 29% of Melrose residents pay more than 30% of their income on housing costs
- Melrose has 1 Affordable unit for every 4 low-income households

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Mass Engagement Opportunities

Fall 2020 Digital Engagement Campaign

- Webinar (60 participants)
- Online Open House (175 participants)

Spring 2021 Digital Engagement Campaign

- Webinar (30 participants)
- Online Open House (377 participants)
- Tabling in Downtown Melrose

Public Comment Period

- Over 70 responses

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Focused Engagement

- Targeted interviews consisting of one-on-one phone conversations with people from underrepresented groups in the Melrose community

- Meetings with City Council, Human Rights Commission, and Historical Commission

- Focus groups meetings with government officials as well as developers and real estate professionals

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Advisory Committee

Group met seven times over the course of the project

- City Councilor **Jack Eccles**
- **Gregory Sampson**, Melrose Planning Board
- **Ellen Connolly**, Melrose Housing Authority and Melrose Affordable Housing Corporation
- **Thais DeMarco**, LGBT Chamber of Commerce, formerly of the Massachusetts Housing Partnership and Somerville Community Corporation
- **Jaron Green**, Melrose Human Rights Commission and Union Baptist Church of Cambridge
- **Charlie Harak**, Melrose Housing Authority
- **Deepak Karamcheti**, MassHousing
- **Seamus Kelley**, Massachusetts Health Connector, formerly of the Executive Office of Housing and Economic Development
- **Dana LeWinter**, Citizens Housing and Planning Association
- **Gina Martinez**, Beacon Communities

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Framework

- **Downtown, Rail Corridor, and Hospital Area**: Encourage mixed-use and multifamily development, as well as townhomes
- **Mid-Density Neighborhoods**: Encourage “missing middle” housing types at new development locations, including two- and three-family homes, townhomes, small multifamily buildings, accessory apartments, and conversions of historic buildings.
- **Low-Density Neighborhoods**: Where development does occur, encourage cluster and “cottage” style homes instead of large-scale single-family homes, as well as accessory apartments

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Opportunities

- Plan identifies 5 sites in the pipeline and 5 opportunity sites for new housing production
- Limited to larger sites along Main Street and the rail corridor for mixed-use or multifamily development purposes (no neighborhood infill)
- While not guaranteed for future development, these sites have potential based on location, present condition, and landowner interest

Sites:

1. Franklin Market, 453-463 Franklin St*
2. VFW Post 2394, 14 Chipman Ave/21 Marvin Rd*
3. 31-39 West Wyoming Ave*
4. MMTV Site, 360 Main St*
5. Caruso Property, 681-697 Main St*
6. Norman Prince Post VFW, 428-436 Main St
7. Greenwood Property, 1 Washington St
8. 171 Tremont St
9. 14-24 Tremont St
10. Parking Lot, 164 Essex St

**Sites in housing pipeline*

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Development Targets

- Plan sets targets for new development based on what is needed to reach “safe harbor” under M.G.L. Chapter 40B
- Based on Census housing counts: we provide a range of targets based on the 2010 counts and the anticipated 2020 counts
- Melrose needs to 237-294 new Affordable Housing units over the next five years to reach safe harbor
- Temporary safe harbor could be achieved with annual production of 59-61 units (1-year safe harbor) or 117-122 units (2-year safe harbor)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing Goals

1. **Housing Mix**. Encourage a range of housing options and types to serve households with a variety of incomes and meet the diverse needs of current and future Melrose residents.
2. **Racial Equity.** Advance racial equity, promote inclusion, encourage wealth creation through housing access for people of color, and enrich the Melrose community through increased diversity.
3. **Affordable Housing.** Expand and preserve deed-restricted and subsidized Affordable Housing opportunities for low- and moderate-income households, including family households.
4. **Enhanced Neighborhoods.** Utilize housing as a tool to enhance existing Melrose neighborhoods, balancing development with other community priorities like open space, historic preservation, economic development, walkability, sustainability, and resilience.
5. **Community Engagement.** Through ongoing public engagement and discussion, promote an understanding of the role that housing plays in Melrose and the region.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Strategy A: Use zoning and design guidelines to encourage "missing middle" housing that fits into Melrose's existing context.

A1. Allow **two-family homes and townhomes** in more zoning districts

A2. Amend zoning to allow for more forms of **accessory dwelling units**.

A3. Propose amendments to **dimensional and parking requirements** to allow for a range of smaller housing types and to **match historic development patterns**.

A4. Use density bonuses to incentivize conversion and/or expansion of **historic structures to preserve architectural heritage** while producing housing.

A5. Craft **design standards for mixed-use and multifamily** housing near Downtown and along the rail corridor.

A6. Craft **design guidelines for infill and replacement development** in older, mid-density neighborhoods.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Strategy B: Encourage the production of deed-restricted Affordable Housing units and create more deeply affordable options.

B1. Pass the **Community Preservation Act**, a property surtax earmarked for Affordable Housing, Historic Preservation, and Open Space.

B2. **Purchase property** to develop as Affordable Housing.

B3. Incentivize **deeper levels of affordability in inclusionary zoning units** through further density or dimensional relief.

B4. **Enhance the capacity** of the Office of Planning and Community Development to conduct housing planning.

B5. Support **"friendly 40B" projects** that use the Comprehensive Permit process to build housing **where appropriate**.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Strategy C: Encourage a fairer, more accessible private housing market.

C1. Create a **down payment assistance fund** for low- and moderate-income households looking to purchase a home in Melrose, and target low homeownership rates among marginalized communities.

C2. Encourage the adoption of **Universal Design standards** in new housing construction through the permitting process.

C3. Explore local requirements for **a Notice of Sale and Notice of Rent Increase** to Melrose tenants to decrease housing instability.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Strategy D: Encourage sustainable development through the siting and design of new housing.

D1. Create **baseline requirements for sustainable development**, as well as provision for on-site green infrastructure.

D2. Promote open space protection and ecologically sensitive development through **cluster zoning** in areas outside of Downtown and the rail corridor.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Best Practices

BP1. Continue to **monitor parking utilization** in Downtown and the rail corridor, and "right-size" parking requirements in new developments.

BP2. Study the need for **emergency and transitional housing** to address often-unseen homelessness within Melrose.

BP3. Host **regular information sessions** on a variety of topics related to housing and equity to promote greater dialogue around and understanding of housing issues.

BP4. Create an **HPP implementation committee** to oversee implementation and continue public discourse around housing.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Adoption and DHCD Approval

- City Council and Planning Board must both adopt the plan to become eligible for approval by DHCD
- After adoption, the plan is submitted to and reviewed by DHCD
- If the HPP is approved and Melrose permits the target Affordable Housing units, Melrose can attempt to certify the HPP for “safe harbor” from Chapter 40B development

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Implementing the Plan

- Implementation of any recommendation requires its own process of analysis, community engagement, and policy/program development
- City Council and Planning Board will play a key role in determining what recommendations are advanced, when they move forward, and what their key features are
- Most recommendations require a vote of one or both bodies to adopt
- Establishing an Implementation Committee will be very helpful for making timely progress over the next 5 years and ensuring that the community remains engaged

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

AN ORDER

ORDER-2022-90

Briefing on Draft Compliance Guidelines for Multi-family Districts Under Section 3A of the Zoning Act

Offered by

BE IT ORDERED

To the Honorable City Council,

I respectfully request the opportunity to brief the City Council on the Draft Compliance Guidelines for Multi-family Districts under Section 3A of the Zoning Act. Said briefing is required prior to May 2, 2022 in order to maintain compliance with the new zoning requirements and eligibility for funding from certain grant programs. Please see attached Draft Guidelines.

Sincerely,

Denise Gaffey, Director of Planning & Community Development

DRAFT Compliance Guidelines for Multi-family Districts Under Section 3A of the Zoning Act

1. Overview of Section 3A of the Zoning Act

Section 18 of chapter 358 of the Acts of 2020 added a new section 3A to chapter 40A of the General Laws (the Zoning Act) applicable to MBTA communities (referred to herein as "Section 3A"). Subsection (a) of Section 3A provides:

> *An MBTA community shall have a zoning ordinance or by-law that provides for at least 1 district of reasonable size in which multi-family housing is permitted as of right; provided, however, that such multi-family housing shall be without age restrictions and shall be suitable for families with children. For the purposes of this section, a district of reasonable size shall: (i) have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A; and (ii) be located not more than 0.5 miles from a commuter rail station, subway station, ferry terminal or bus station, if applicable.*

The purpose of Section 3A is to encourage MBTA communities to adopt zoning districts where multi-family zoning is permitted as of right, and that meet other requirements set forth in the statute.

The Department of Housing and Community Development, in consultation with the Massachusetts Bay Transportation Authority and the Massachusetts Department of Transportation, is required to promulgate guidelines to determine if an MBTA community is in compliance with Section 3A. DHCD promulgated preliminary guidance on January 29, 2021. DHCD updated that preliminary guidance on December 15, 2021. These guidelines provide further information on how MBTA communities may achieve compliance with Section 3A.

2. Definitions

"Adjacent community" means an MBTA community with no transit station within its border or within 0.5 mile of its border.

"Age-restricted housing" means any housing unit encumbered by a title restriction requiring occupancy by at least one person age 55 or older.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

100 Cambridge Street, Suite 300
Boston, Massachusetts 02114
dhcd
www.mass.gov/dhcd
617.573.1100

"Bus service community" means an MBTA community with a bus station within its borders or within 0.5 miles of its border, or an MBTA bus stop within its borders, and no subway station or commuter rail station within its border, or within 0.5 mile of its border.

"Bus station" means a building located at the intersection of two or more public bus lines, within which services are available to bus passengers; provided that a bus station does not include a shelter or other structure without walls and a foundation.

"Chief executive officer" means the mayor in a city, and the board of selectmen in a town, unless some other municipal office is designated to be the chief executive officer under the provisions of a local charter.

"Commonwealth's sustainable development principles" means the principles set forth at https://www.mass.gov/files/documents/2017/11/01/sustainable%20development%20principles.pdf as such principles may be modified and updated from time to time.

"Commuter rail community" means an MBTA community with a commuter rail station within its borders, or within 0.5 mile of its border, and no subway station within its borders, or within 0.5 mile of its border.

"Developable land" means land on which multi-family housing units have been or can be permitted and constructed. Developable land shall not include land under water, wetland resource areas, areas lacking adequate water or wastewater infrastructure or capacity, publicly owned land that is dedicated to existing public uses, or privately owned land encumbered by any kind of use restriction that prohibits residential use.

"Gross density" means a units-per-acre density measurement that includes land occupied by public rights-of-way and any recreational, civic, commercial, and other nonresidential uses.

"Housing suitable for families" means housing comprised of residential dwelling units that are not age-restricted housing, and for which there are no legal restriction on the number of bedrooms, the size of bedrooms, or the number of occupants.

"MBTA community" means a city or town that is: (i) one of the 51 cities and towns as defined in section 1 of chapter 161A; (ii) one of the 14 cities and towns as defined in said section 1 of said chapter 161A; (iii) other served communities as defined in said section 1 of said chapter 161A; or (iv) a municipality that has been added to the Massachusetts Bay Transportation Authority under section 6 of chapter 161A or in accordance with any special law relative to the area constituting the authority." A list of MBTA communities is attached, including the designation of each MBTA community as a rapid transit community, a bus service community, a commuter rail community or an adjacent community for purposes of these compliance guidelines.

"Multi-family housing" means a building with 3 or more residential dwelling units or 2 or more buildings on the same lot with more than 1 residential dwelling unit in each building.

"Multi-family district" means a zoning district, including an overlay district, in which multi-family uses are allowed by right.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

"Rapid transit community" means an MBTA community with a subway station within its borders, or within 0.5 mile of its border. An MBTA community with a subway station within its borders, or within 0.5 mile of its border, shall be deemed to be a rapid transit community even if there is one or more commuter rail stations or MBTA bus lines located in that community.

"Reasonable size" means not less than 50 contiguous acres of land with a unit capacity equal to or greater than the unit capacity specified in section 5 below.

"Residential dwelling unit" means a dwelling unit equipped with a full kitchen and bathroom.

"Unit capacity" means an estimate of the total number of multi-family housing units that can be developed as of right within the multi-family district, made in accordance with the requirements of section 5.b below.

3. General Principles of Compliance

a. These compliance guidelines describe how an MBTA community can comply with the requirements of Section 3A. The guidelines specifically address:

- What it means to permit multi-family housing "as of right";
- The metrics that determine if a multi-family district is "of reasonable size";
- How to determine if a multi-family district has a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code;
- The meaning of Section 3A's mandate that "such multi-family housing shall be without age restrictions and shall be suitable for families with children"; and
- The extent to which MBTA communities have flexibility to choose the location of a multi-family district.

b. The following general principles have informed the more specific compliance criteria that follow:

- All MBTA communities should contribute to the production of new housing stock.
- MBTA communities with subway stations, commuter rail stations and other transit stations benefit from having these assets located within their boundaries and should provide opportunity for multi-family housing development around these assets. MBTA communities with no transit stations within their boundaries nonetheless benefit from being close to transit stations in nearby communities.
- MBTA communities should adopt multi-family districts that will lead to development of multi-family housing projects of a scale, density and character that are consistent with a community's long-term planning goals.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- "Reasonable size" is a relative rather than an absolute determination. Because of the diversity of MBTA communities, a multi-family district that is "reasonable" in one city or town may not be reasonable in another city or town. Objective differences in community characteristics must be considered in determining what is "reasonable" for each community.

- To the maximum extent possible, multi-family districts should be in areas that have safe and convenient access to transit stations for pedestrians and bicyclists.

4. Allowing Multi-Family Housing "As of Right"

To comply with Section 3A, a multi-family district must allow multi-family housing "as of right," meaning that the construction and occupancy of multi-family housing is allowed in that district without the need to obtain any discretionary permit or approval. Site plan review and approval may be required for multi-family uses allowed as of right. Site plan review is a process by which a local board reviews a project's site layout to ensure public safety and convenience. Site plan approval may regulate matters such as vehicular access and circulation on a site, architectural design of a building, and screening of adjacent properties. Site plan review may not be used to deny a project that is allowed as of right, nor may it impose conditions that make it infeasible or impractical to proceed with a multi-family use that is allowed as of right.

5. Determining "Reasonable Size"

In making determinations of "reasonable size," DHCD will take into consideration both the area of the district and the district's multi-family unit capacity (that is, the number of units of multi-family housing that can be developed as of right within the district).

a. *Minimum land area*

Section 3A's requirement that a multi-family district be a "reasonable size" indicates that the purpose of the statute is to encourage zoning that allows for the development of a reasonable amount of multi-family housing in each MBTA community. A zoning district is a specifically delineated land area with uniform regulations and requirements governing the use of land and the placement, spacing, and size of buildings. A district should not be a single development site on which the municipality is willing to permit a particular multi-family project. To comply with Section 3A's "reasonable size" requirement, multi-family districts must comprise at least 50 acres of land—or approximately one-tenth of the land area within 0.5 mile of a transit station.

An overlay district is an acceptable way to achieve compliance with Section 3A, provided that such an overlay district should not consist of a collection of small, non-contiguous parcels. At least one portion of the overlay district land areas must include at least 25 contiguous acres of land. No portion of the district that is less than 5 contiguous acres land will count toward the minimum size requirement.

b. *Minimum multi-family unit capacity*

A reasonably sized multi-family district must also be able to accommodate a reasonable number of multi-family housing units as of right. MBTA communities seeking a determination of compliance with Section 3A must provide to DHCD an accurate assessment of the number of multi-family housing units that can be developed as of right within the multi-family district, referred to as the district's unit capacity.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A compliant district's multi-family unit capacity must be equal to or greater than a specified percentage of the total number of housing units within the community. The required percentage will depend on the type of transit service in the community, as follows:

Category	Minimum multi-family units as a percentage of total housing stock
Rapid transit community	25%
Bus service community	20%
Commuter rail community	15%
Adjacent community	10%

The minimum unit capacity applicable to each MBTA community is determined by multiplying the number of housing units in that community by 0.25, 0.20, 0.15 or 0.10, depending on the type of service in that community. For example, a rapid transit community with 7,500 housing units is required to have a multi-family district with a multi-family unit capacity of 7,500 x 0.25 = 1,875 multi-family units. When calculating the minimum unit capacity, each MBTA community should use 2020 census data to determine the number of total housing units, unless another data source has been approved by DHCD.

When determining the unit capacity for a specific multi-family district, each MBTA community must estimate how many units of multi-family housing could be constructed on each parcel of developable land within the district. The estimate should take into account the amount of developable land in the district, as well as the height limitations, lot coverage limitations, maximum floor area ratio, set back requirements and parking space requirements applicable in that district under the zoning ordinance or bylaw. The estimate must also take into account the restrictions and limitations set forth in any other municipal bylaws or ordinances; limitations on development resulting from inadequate water or wastewater infrastructure, and, in areas not served by public sewer, any applicable limitations under Title 5 of the state environmental code or local septic regulations; known title restrictions on use of the land within the district; and known limitations, if any, on the development of new multi-family housing within the district based on physical conditions such the presence of waterbodies, and wetlands.

If the estimate of the number of multi-family units that can be constructed in the multi-family district is less than the minimum unit capacity, then the MBTA community must change the boundaries of the multi-family district or make changes to dimensional regulations applicable to that district (or to other local ordinances or bylaws) to allow for the development of a greater number of multi-family units as of right.

It is important to understand that a multi-family district's unit capacity is not a mandate to construct a specified number of housing units, nor is it a housing production target. Section 3A requires only that each MBTA community has a multi-family zoning district of reasonable size. The law does not require the production of new multi-family housing units within that district. There is no requirement nor expectation that a multi-family district will be built out to its full unit capacity.

In some communities, there may be a significant number of multi-family units already existing in the multi-family district; those communities should generally expect fewer new units to be produced in the district, because it is more fully built out. Conversely, there may be some communities with relatively little multi-family housing in its multi-family district; there generally will be more opportunity for new

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

housing production in those districts in which there is a large gap between unit capacity and the number of existing multi-family units.

6. Minimum Gross Density

Section 3A states that a compliant multi-family district must have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A. DHCD will deem a zoning district to be compliant with Section 3A's minimum gross density requirement if the following criteria are met.

a. *District-wide gross density*

Section 3A expressly requires that a multi-family district—not just the individual parcels of land within the district—must have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A. To comply with this requirement, the zoning must legally and practically allow for a district-wide gross density of 15 units per acre. The Zoning Act defines "gross density" as "a units-per-acre density measurement that includes land occupied by public rights-of-way and any recreational, civic, commercial and other nonresidential uses."

To meet the district-wide gross density the municipality must demonstrate that the zoning for the district permits a gross density of 15 units per acre of land within the district, "include[ing] land occupied by public rights-of-way and any recreational, civic, commercial and other nonresidential uses." By way of example, to meet that requirement for a 50-acre multi-family district, the municipality must show at least 15 existing or potential new multi-family units per acre, or a total of at least 750 existing or potential new multi-family units.

b. *Achieving district-wide gross density by sub-districts*

Zoning ordinances and bylaws typically limit the unit density on individual parcels of land. To comply with the statute's density requirement, an MBTA community may establish sub-districts within a multi-family district, with different density requirements and limitations for each sub-district, provided that the gross density for the district as a whole meets the statutory requirement of not less than 15 multi-family units per acre.

7. Determining Suitability for Families with Children

Section 3A states that a compliant multi-family district must be without age restrictions and must be suitable for families with children. DHCD will deem a multi-family district to comply with these requirements as long as the zoning does not require multi-family uses to include units with age restrictions and does not place any limits or restrictions on the size of the units, the number of bedrooms, the size of bedrooms, or the number of occupants.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

8. Location of Districts

Section 3A states that a compliant multi-family district shall "be located not more than 0.5 miles from a commuter rail station, subway station, ferry terminal or bus station, if applicable." DHCD will interpret that requirement consistent with the following guidelines.

a. General rule for measuring distance from a transit station.

To maximize flexibility for all MBTA communities, the distance from a transit station may be measured from the boundary of any parcel of land owned by a public entity and used for purposes related to the transit station, such as an access roadway or parking lot.

b. *MBTA communities with some land area within 0.5 miles of a transit station*

An MBTA community that has a transit station within its boundaries, or some land area within 0.5 mile of a transit station located in another MBTA community, shall comply with the statutory location requirement if a substantial portion of the multi-family district is located within the prescribed distance. Absent compelling circumstances, at least [one half] of the land area of the multi-family district should be located within 0.5 mile of the transit station. The multi-family district may include land areas that are further than 0.5 mile from the transit station, provided that such areas are easily accessible to the transit station based on existing street patterns and pedestrian connections.

In unusual cases, the most appropriate location for a multi-family district may be in a land area that is further than 0.5 miles of a transit station. Where none of the land area within 0.5 mile of transit station is appropriate for development of multi-family housing—for example, because it comprises wetlands or land publicly owned for recreation or conservation purposes—the MBTA community may propose a multi-family use district that has less than one-half of its land area within 0.5 miles of a transit station. To the maximum extent feasible, the land areas within such a district should be easily accessible to the transit station based on existing street patterns, pedestrian connections, and bicycle lanes.

c. *MBTA communities with no land area within 0.5 miles of a transit station*

When an MBTA community has no land area within 0.5 mile of a transit station, the multi-family district should, if feasible, be located in an area with reasonable access to a transit station based on existing street patterns, pedestrian connections, and bicycle lanes, or in an area that otherwise is consistent with the Commonwealth's sustainable development principles—for example, near an existing downtown or village center, near an RTA bus stop or line, or in a location with existing under-utilized facilities that can be redeveloped into new multi-family housing.

9. Determinations of Compliance

DHCD will make determinations of compliance with Section 3A upon request from an MBTA community, in accordance with the following criteria and schedule. An MBTA community may receive a determination of full compliance when it has a multi-family district that meets all of the requirements of Section 3A. An MBTA community may receive a determination of interim compliance for a limited duration to allow time to enact a new multi-family district or amend an existing zoning district in order to achieve full compliance with Section 3A.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

a. Requests for determination of compliance

When an MBTA community believes it has a multi-family district that complies with the requirements for Section 3A, as set forth in these guidelines, it may request a determination of compliance from DHCD. Such a request may be made for a multi-family district that was in existence on the date that Section 3A became law, or for a multi-family district that was created or amended after the enactment of Section 3A. In either case, such request shall be made on a form required by DHCD and shall include, at a minimum, the following information, which shall be provided in a format or on a template prescribed by DHCD:

General district information

i. A map showing the municipal boundaries and the boundaries of the multi-family district;
ii. A copy of those provisions in the municipal zoning code necessary to determine the uses permitted as of right in the multi-family district and the dimensional limitation and requirements applicable in the multi-family district;
iii. A plan showing the boundaries of each parcel of land located within the district, and the area and ownership of each parcel as indicated on current assessor records;

Location of districts

iv. A map showing the location of the nearest transit station and how much of the multi-family district is within 0.5 miles of that transit station;
v. In cases where no portion of the multi-family district is located within 0.5 miles of a transit station, a statement describing how the development of new multi-family housing within the district would be consistent with the Commonwealth's sustainable development principles;

Reasonable size metrics

vi. A calculation of the total land area within the multi-family district;
vii. A calculation of the multi-family district's unit capacity, along with a statement describing the methodology by which unit capacity was determined, together with;
    a. A description of the water and wastewater infrastructure serving the district, and whether that infrastructure is sufficient to serve any new multi-family units included in the unit capacity;
    b. A description of any known physical conditions, legal restrictions or regulatory requirements that would restrict or limit the development of multi-family housing within the district;
    c. The number and age of multi-family housing units already existing within the multi-family district, if any.

District gross density

viii. The gross density for the multi-family district, calculated in accordance with section 6 of these guidelines.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Housing suitable for families

ix. An attestation that the zoning bylaw or ordinance does not place any limits or restrictions on the size of the units, the number of bedrooms, the size of bedrooms, or the number of occupants in multi-family housing units within the multi-family district.

Attestation

x. An attestation that the application is accurate and complete, signed by the MBTA community's chief executive officer.

As soon as practical after receipt of a request for determination of compliance, DHCD will either send the requesting MBTA community a notice that it has provided all of the required information, or identify the additional information that is required to process the request. Upon reviewing a complete application, DHCD will provide the MBTA community a written determination either stating that the existing multi-family use district complies with Section 3A, or identifying the reasons why the multi-family use district fails to comply with Section 3A and the steps that must be taken to achieve compliance.

An MBTA community shall be deemed to be in compliance with Section 3A for the period of time during which a request for determination of compliance, with all required information, is pending at DHCD.

b. Action plans and interim compliance—New or amended district

Many MBTA communities do not currently have a multi-family district of reasonable size that complies with all of the requirements set out in Section 3A and these guidelines. These MBTA communities must take affirmative steps towards the creation of a compliant multi-family district within a reasonable time. To achieve interim compliance, the MBTA community must, by no later than the dates specified in section 9.c, send to DHCD written notice that a new multi-family district, or amendment of an existing multi-family district, must be adopted to come into compliance with Section 3A. The MBTA community must then take the following actions to maintain interim compliance:

i. *Creation of an action plan.* Each MBTA community must provide DHCD with a proposed action plan and timeline for any planning studies or community outreach activities it intends to undertake in order to adopt a multi-family district that complies with Section 3A. DHCD may approve or require changes to the proposed action plan and timeline by sending the MBTA community written notice of such approval or changes. Rapid transit communities and bus service communities must obtain DHCD approval of an action plan by no later than March 31, 2023. Commuter rail communities and adjacent communities must obtain DHCD approval of a timeline and action plan by no later than July 1, 2023.

ii. *Implementation of the action plan*. The MBTA community must timely achieve each of the milestones set forth in the DHCD-approved action plan, including but not limited to the drafting of the proposed zoning amendment and the commencement of public hearings on the proposed zoning amendment.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

iii. *Adoption of zoning amendment*. An MBTA community must adopt the zoning amendment by the date specified in the action plan and timeline approved by DHCD. For rapid transit communities and bus service communities, DHCD will not approve an action plan with an adoption date later than December 31, 2023. For commuter rail communities and adjacent communities, DHCD will not approve an action plan with an adoption date later than December 31, 2024.

iv. *Determination of full compliance*. Within [90] days after adoption of the zoning amendment, the MBTA community must submit to DHCD a complete application requesting a determination of full compliance. The application must include data and analysis demonstrating that a district complies with all of the compliance criteria set forth in these guidelines, including without limitation the district's land area, unit capacity, gross density and location.

During the period that an MBTA community is creating and implementing its action plan, DHCD will endeavor to respond to inquiries about whether a proposed zoning amendment will create a multi-family district that complies with Section 3A. However, DHCD will issue a determination of full compliance only after final adoption of the proposed zoning amendment and receipt of a complete application demonstrating the unit capacity.

c. Timeframes for submissions by MBTA communities

To remain in interim compliance with Section 3A, an MBTA community must take one of the following actions by no later than December 31, 2022:

i. Submit a complete request for a determination of compliance as set forth in section 9.a above; or
ii. Notify DHCD that there is no existing multi-family district that fully complies with these guidelines, and submit a proposed action plan as described in section 9.b above.

10. Renewals and Rescission of a Determination of Compliance

a. *Term and renewal of a determination of compliance*

A determination of compliance shall have a term of 10 years. Each MBTA community shall apply to renew its certificate of compliance at least 6 months prior to its expiration. DHCD may require, as a condition of renewal, that the MBTA community report on the production of new housing within MBTA community, and in the multi-family district that was the basis for compliance. Applications for renewal shall be made on a form proscribed by DHCD.

b. *Rescission of a determination of compliance*

DHCD reserves the right to rescind a determination of compliance if DHCD determines that (i) the MBTA community submitted inaccurate information in its application for a determination of compliance, (ii) the MBTA community amended its zoning or enacted a general bylaw or other rule or regulation that materially alters the Unit capacity in the applicable multi-family use district.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

11. Effect of Noncompliance

If at any point DHCD determines that an MBTA community is not in compliance with Section 3A, that MBTA community will not be eligible for funds from the following grant programs: (i) the Housing Choice Initiative as described by the governor in a message to the general court dated December 11, 2017; (ii) the Local Capital Projects Fund established in section 2EEEE of chapter 29; or (iii) the MassWorks infrastructure program established in section 63 of chapter 23A. DHCD may, in its discretion, take non-compliance into consideration when making other discretionary grant awards.

Leskiw-Beebe resume.pdf

Ms. Wall,

Attached please find my resume for your use in facilitating my reappointment to the Beebe Estate Board of Trustees.

As noted in the attached PDF, I have been serving as a trustee for the Beebe Estate since 2008. My education and professional training as an architect with experience in historic buildings has uniquely prepared me for this role, and I enjoy having the ability to serve my community in this manner. As a Melrose resident for over 17 years, I value the City's desire to have the Beebe Estate be a community resource, available for use by its citizens for private functions and as a host for city-wide events and office space for our community's non-profit.

Please let me know if you need anything else.

Thanks,
Tarica Leskiw

Office of Mayor Paul Brodeur
Melrose City Hall
562 Main Street
Melrose, MA 02176

Dear Ms. Wall:

I am writing to express my strong interest in reappointment to the Beebe Estate Board of Trustees. The Beebe Estate is an invaluable part of the fabric of our city, available to everyone in the city of Melrose and beyond. As a recently retired historic preservation professional, I am committed to working to ensure that it continues to play a significant role in our community as an historic landmark and as a significant cultural center for all. I would greatly appreciate the opportunity to continue to serve as a member of the Board.

Thank you.

A copy of my resume is attached.

Sincerely,
Betsy Friedberg

Subject: Reappointment - Beebe Estate Trustee
Date: Monday, March 21, 2022 11:12:31 PM
Attachments: Resume-Bill-Butler.pdf

Hello Lily,

I'm writing to confirm my interest in continuing my service to the city via the board of trustees for the Beebe Estate.

Living and working in Melrose for over twelve years, I'm honored to work with my fellow Melrosian trustees in maintaining, preserving and sharing one of many of Melose's community landmarks. It's a privilege to provide the Beebe estate to families, non-profits and organizations to host their own events and celebrations. It's one of the many ways Melrose shines amongst local Metro Boston communities.

I ask the city to reappoint myself to the Board for an additional term. Kindly find my resume attached.

Sincerely,

Bill

Summary

Bill's contagious good energy, critical thinking and dramatic flair combine to make him the premier Productivity Coach in Greater Boston. Bill is our not-so-secret weapon of why Leading Edge agents have the highest per agent transaction rate in the state.

Bill mentors coaching programs that include Tom Ferry's Breakthrough, Chris Voss's FBI Hostage Negotiation techniques for real estate, and his proprietary weekly Masterminds. Bill has an uncanny ability to keep agents engaged while he shares marketing strategies, creates optimum mindset and maximizes sales skills and dialogues.

A graduate of Indiana University, Bill honed his real estate career in Redondo Beach, California. He also worked in business development and media sales for 10 years. Bill brings unique opportunities to our agents as a master of the art of real estate.

As a featured speaker for NAR and other local and regional real estate events, he continues to act as an ambassador for Leading Edge. Bill is empowered to share and collaborate with the best agents in the business! Originally from the Midwest, he has been known to say he LOVES being a New Englander even if he did gloat about his beloved Cardinals 2013 World Series victory over the Red Sox. Bill is the lead singer in his band and is a party-trick juggler.

Experience

Licensed Realtor, Productivity Coach

Leading Edge Real Estate

Jul 2018 - Present (3 years 9 months +)

-Increasing incremental revenue for brokerage and regional RE/MAX brokerage network by training agents in lead generation practices and business management strategies.

-Featured speaker and panelist at regional RE/MAX meetings discussing techniques in lead generation and prospecting.

-Created and lead bi-weekly sales training meetings for agents and recruits focusing on maintaining proper mindset, skill building and goal setting accountability.

-Official mentor for Tom Ferry coaching programs, Sales Power and Breakthrough. Mentor two groups of agents each year on a ten week sales and marketing coaching program created by industry-leading real estate coach, Tom Ferry.

-Generated $14,450,000 in closed sales for brokerage by initiating and directing SWAT (Sellers Without A Taker) sales program designed to help agents market and sell languishing listing inventory.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

-Sold 89 residential listing agreement contracts in 41 cities/towns throughout Boston and northern suburbs.

-85% of income generated by cold calling, pre-qualifying, troubleshooting and closing expired listings and ‘for sale by owner’ home sellers.

-Prospecting a minimum of 15 hours per week, generating an average of 10 sales leads and 3 listing appointments per week via telemarketing and in-person sales calls.

Realtor, CDPE, OICP, Productivity Coach

2008 - Jul 2018 (10 years 7 months)

-Increasing incremental revenue for brokerage and regional RE/MAX brokerage network by training agents in lead generation practices and business management strategies.

-Featured speaker and panelist at regional RE/MAX meetings discussing techniques in lead generation and prospecting.

-Created and lead bi-weekly sales training meetings for agents and recruits focusing on maintaining proper mindset, skill building and goal setting accountability.

-Official mentor for Tom Ferry coaching programs, Sales Power and Breakthrough. Mentor two groups of agents each year on a ten week sales and marketing coaching program created by industry-leading real estate coach, Tom Ferry.

-Generated $14,450,000 in closed sales for brokerage by initiating and directing SWAT (Sellers Without A Taker) sales program designed to help agents market and sell languishing listing inventory.

Subject: Beebe Estate Trustees reappointment - Sean Heneghan
Date: Monday, March 21, 2022 11:20:15 AM
Attachments: SFHresume12.22.15.docx

Good morning Ms. Wall.

Per your request, attached please my resume, as well as links below to both my professional LinkedIn page and my business website:

https://www.linkedin.com/in/sean-heneghan-0bb516a/

http://heneghanlaw.com/

I've been a Trustee with the Beebe Estate for some 12 years now and would enjoy extending my appointment primarily because the Beebe Estate is an important part of Melrose history as well as an ongoing participant in the city's services.

If you require any additional information from me, please do not hesitate to contact me.

Very truly yours,

Seán F. Heneghan

31 Reading Hill Ave.

Office of Mayor Brodeur
Melrose City Hall
562 Main Street
Melrose, MA 02176

Dear Ms. Wall:

I am interested in serving another term on the Board of Assessors. As noted here, I have substantial experience in the area of real estate valuation and my consulting work in Concord adds "hands on" knowledge regarding the operation of the assessing function.

Please let me know if you require more information or clarification regarding my work experiences.

Lee Phalen

Related Work Experience

I had been employed by the Boston Five Cents Savings Bank and BayBank / Bank Boston from 1980 through 1997. I was hired at BayBank to start up a Commercial Appraisal Department that eventually consisted of six appraisers and three support staff prior to the merging of the two lending institutions.

As the banking industry continued to re-align and merge, I decided to embark on self-employment as a real estate appraiser completing collateral valuation assignments for a number of banks and private clients.

During the past five years, I have been consulting for the Town of Concord, MA in the Assessing Department.

Licensing

Massachusetts Certified General Real Estate Appraiser.

Rev. Jaron S. Green
279 Lebanon Street
Melrose, MA 02176

Mayor Paul Brodeur
City Hall
562 Main Street
Melrose, MA 02176

Dear Mr. Brodeur:

Firstly, allow me to extend gratitude for the ongoing work of your mayoral administration. The daily needs of people of Melrose shift with the times, however, the relevance of life-giving organizations remains intact, and perhaps gets amplified. Advocacy and service never go out of style. I've been honored to serve on the city's Human Rights Commission, and it is my intent to continue to serve as a part of your administration.

In much of the work I enjoy, transformative projects pique my interest the most. As a pastor and educator, I get an up-close and eyewitness view of both life change and organizational development. As a human rights advocate, serving as a Commissioner and Vice Chair of the Melrose Human Rights Commission, I have gained greater understanding of the challenges being faced in areas of housing, employment, education, public accommodation, city services, insurance, banking, credit, and health care. This type of advocacy, as a mechanism for resolving matters of racial, religious, or ethnic prejudice, and developing programs for promoting a spirit of diversity and respect for others regardless of their differences, is the work of reconciliation that all community members are called to. It is the work that Human Rights Commission embraces, even as the commission looks ahead toward its post-pandemic existence. It is why I seek to continue serve on the commission.

Thank you for your consideration and invitation to the table. Please feel free to contact me for any further conversation. I'd be more than happy to speak with you.

Sincerely,

The Rev. Jaron S. Green

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Summary

A talented and driven developer with excellent communication skills and experience in Linux security, Mandatory Access Control (MAC), Multi-Level Security (MLS), SELinux, labeled networking, and audit.

Experience

Cisco, Technical Leader
Application Centric Infrastructure, September 2018 to Present

- Developed a new Linux based software platform for Cisco ACI appliances

Red Hat, Principal Software Engineer
Platform Security, August 2011 to September 2018

- Drove business critical initiatives such as the SELinux Modularity and audit container efforts
- Provided engineering support to pre-sales and customer consulting engagements

Hewlett-Packard, Expert Member of Technical Staff
Cloud Services, August 2010 to August 2011

- Performed security reviews of several internal components
- Developed security policies and packaging for several internal management applications

Hewlett-Packard, Expert Member of Technical Staff
Telecommunications Projects, March 2010 to August 2010

- Evaluated the performance of low-latency, high-throughput network adapters

Hewlett-Packard, System Software Specialist
Open Source and Linux Organization, May 2004 to March 2010

- Achieved Common Criteria certifications of several Linux distributions on HP hardware, including the first EAL4+/LSPP certification of a mainstream Linux distribution
- Delivered presentations on HP's Linux security efforts to partners, customers, and internal audiences

Compaq Computer, System Software Specialist
Tru64 UNIX Base OS, May 2000 to May 2004

- Collaborated on an IPsec design for Tru64's clustered IP alias technology
- Served as the engineering lead for Tru64's network security projects starting in 2002

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Open Source

Linux Kernel, SELinux Maintainer
https://github.com/SELinuxProject
October 2013 to Present

- Guided the development of the SELinux kernel subsystem in the upstream Linux Kernel
- Numerous contributions to the SELinux kernel subsystem, including all of the current SELinux per-packet network access controls
- Reintroduced the SELinux test suite, established an automated regression testing process, enforced testing requirements for new functionality, and launched upstream issue tracking on GitHub
- Presented the annual “State of SELinux” updates at the Linux Security Summit

Linux Kernel, Audit Maintainer
https://github.com/linux-audit
October 2014 to Present

- Guided the development of the audit kernel subsystem in the upstream Linux Kernel
- Multiple contributions to the audit kernel subsystem, including reworking the event queue and userspace connection tracking for better performance and robustness
- Created a kernel audit test suite, established an automated regression testing process, enforced testing and documentation requirements for new functionality, and launched upstream issue tracking on GitHub

Libseccomp, Project Creator
https://github.com/seccomp
June 2012 to Present

- Created the libseccomp library to provide a high level API to the Linux Kernel’s syscall filtering functionality
- Presented on syscall filtering and libseccomp at the Linux Security Summit and DevConf.cz

Linux Kernel, Labeled Networking Maintainer
August 2007 to Present

- Guided the development of the NetLabel, Labeled IPsec, and secmark subsystems in the upstream Linux Kernel
- Developed the NetLabel labeled networking framework and the current Linux CIPSO/FIPS-188 implementation to enable interoperable labeled networking on Linux
- Presented on labeled networking in Linux at multiple conferences including Netdev and LinuxCon Japan

Linux Security Summit, Program Committee
https://kernsec.org/wiki/index.php/Events
2009 to Present

- Founding member of the Linux Security Summit, a conference dedicated to Linux security development

Melrose Conservation Commission
Melrose City Hall
526 Main Street
Melrose, MA 02176

Dear Conservation Commission:

I am writing to express my interest in the open board member position on the Melrose Conservation Commission. The relevant experience I have gained through both my professional and personal pursuits provide the foundation I feel is needed to help the committee further its mission and execute its projects as they arise.

Prior to moving to Melrose in March 2015, my wife and I were residents of New York City. During that time, I became actively involved in several conservation-centric organizations in the Catskills. I spent time working as a volunteer fire tower interpreter for the Catskills Center spending weekends on the summit of Balsam Lake Mountain greeting hikers and sharing information about the surrounding trails and the fire tower's history. I was also an active Hike Leader for the Catskill 3500 Club which eventually led me to pursue my Guide License from the New York State Department of Environmental Conservation which required various underlying certifications and passing a written exam. These endeavors taught me the positive effect a group can have on local resources when they band together to preserve them.

During the same time in New York City, I completed my Master's Degree in Business Administration with a Concentration in Management and Business Strategy. As part of the coursework I took an elective in Public Administration and it helped me identify that after my career in Finance I would like to invest my time in conservation through more active involvement in administrative leadership. When I contacted the commission about the Trail Steward Program and heard there was also a current opening on the Conservation Commission an opportunity presented itself that feels impossible to pass up. The ability to develop the requisite administrative skills and conservation experience through a town committee is not only exciting but ideal – my initial excitement was only further validated by attending the April 5, 2018 meeting and briefly speaking with the committee.

I hope that you find my interests aligned with the committee's mission to protect our open-spaces and ensure our community's wetlands are preserved for the enjoyment of future generations.

As part of your consideration I would be happy to make myself available for an in-person interview and am at your disposal for any follow up questions.

Thank you in advance for your consideration.

Kind regards,

J. Ryan Sloan

- Effectively manage subcustodian bank relationships through the monitoring of market developments and service level changes
- Leverage our bank network to enhance the value of our service to our clients.

Brown Brothers Harriman & Co.: New York, New York
Treasury – Associate, Treasury Counterparty Relationship Manager, March 2011 – September 2014

- Oversee and grow BBH's principal relationships with global correspondent banks and trading counterparties
- Analyze and structure service level agreements, including fee schedules, with new and existing counterparties providing cash management products

Brown Brothers Harriman & Co.: London, England
Investor Services - Senior Client Service Representative Secondment, September 2010 – March 2011

- Managed multiple FIT and FAM relationships with predominately global assets under custody
- Identified opportunities and shared knowledge between U.S and European offices to improve client service
- Won the third quarter London office G.E.M award for going the extra mile in client service

Brown Brothers Harriman & Co.: New York, New York
Investor Services - Senior Client Service Representative, September 2008 – September 2010

- Managed $13 billion in assets for multiple Financial Institution, Insurance and FIG relationships
- Liaised with Treasury, Foreign Exchange, and Brokerage groups to ensure timely resolution of client inquiries
- Introduced clients to technology solutions, automation tools and products to manage and reduce inquiries
- Ensured client KYC & tax documentation is compliant and assisted RMs in obtaining new documentation

Brown Brothers Harriman & Co.: Jersey City, New Jersey
Brokerage Settlement - Operations Specialist II, November 2006 – September 2008

- Integral in the implementation of ACATS Fund/Serv deliveries; reducing BBH's exposure while shortening the settlement of ACATS mutual funds
- Assisted in the transition to the reduced ACATS cycle; resulting in more timely transfers
- Processed ACATS, ETF, Non-US, PB trades and provided general support to the trade settlement division

INTERNATIONAL & MULTI-DAY HIKING TRIPS – SNAP SHOT

Maine 100 Mile Wilderness – Completed a three-day backcountry Nordic ski route with my dad staying in AMC huts along the way.

Northern Tongariro Circuit, New Zealand – After a business trip in Australia and New Zealand I stayed on for a few days to hike one of the Great Walks in New Zealand. The highlight was being able to visit a destination by brother had been almost 15 years prior.

Cinque Terra, Italy – My wife Kathryn and I hiked from Levanto to Portovenere over the course of a week stopping at various town, eating our way down the coast, soaking in the culture as we went.

Snowdon National Park, Wales - Climbed Mt. Snowdon the highest point in England and Wales two days before Prince William piloted a helicopter on a rescue mission to save a distressed hiker on the very same mountain. He ended up saving the guy's life.

The Laugavegur, Iceland - I took my brother and our friend on a 4 day, 56km trek across the heart of Iceland - like walking on the moon. We stayed in geothermal heated huts along the way.

The Black Forrest, Germany - I saw the largest rhododendrons of my life in the Black Forest. They covered the entire mountainsides with these amazing waterfalls running between them.

The Inca trail, Peru - This was my first paid vacation (a joy in its own). Magical is probably the best descriptive word for this experience. Completely life changing - the world grew on that trip.

PROJECT EXPERIENCE

Cape Cod Canal Transportation Study | MassDOT | Cape Cod, Massachusetts | 2019 | Project Manager

This comprehensive transportation planning study evaluated a wide variety of multimodal transportation improvements in the Cape Cod Canal area in the Towns of Bourne, Plymouth, and Sandwich, Massachusetts. This study evaluated alternatives for improving travel in the Canal area, including the replacement of both the Bourne and Sagamore Bridges, in manner consistent with the character of Cape Cod. As project manager, Michael was the lead author of the planning study and led a series of 18 meetings with the study Working Group, municipalities, state and federal agencies, Army Corps of Engineers, and MassDOT.

I-95/I-93/University Avenue Interchange EA/EIR | MassDOT | Massachusetts | 2015 | Deputy Project Manager

Michael served as the deputy project manager for the preparation of the Environmental Assessment/Environmental Impact Report (EA/EIR) for the reconstruction of a major highway interchange. Michael's role in this project was as the primary author and client contact for the FEIR and the EA FONSI/Response to Comments document, and NEPA Re-evaluation.

Route 24/Route 140 Interchange Project | Massachusetts Department of Transportation | Taunton, Massachusetts | USD 150M | 2018-2020 | Environmental Project Manager

Michael served as the environmental project manager for the MassDOT's $150M Route 24 / Route 140 Interchange Project. The proposed improvements to this state highway interchange will improve capacity and safety in this rapidly-growing section of southeastern Massachusetts. Michael managed and serves as the primary author of the NEPA – CE Checklist and MEPA - Notice of Project Change. These federal and state environmental planning report documents the existing and future transportation conditions in the study area. Measures to avoid and minimize impact to environmental resources are described as well as required federal and state permits.

Middleborough Rotary Transportation Improvements (Environmental Notification Form [ENF], Section 4(f) Evaluation) | 2018 | Project Manager

Served as the Environmental Project Manager evaluating major transportation improvements at a severely congested rotary. Michael was lead author of the MEPA ENF and NEPA Class of Action Determination, CE Checklist, and Individual Section 4(F) Evaluation.

New Bedford Riverwalk Feasibility Planning Study | Executive Office of Energy and Environmental Affairs | 2020 | Project Manager

Michael served as the project manager of the Feasibility Planning Study for the construction of a Riverwalk along the Acushnet River in New Bedford. Within the limits of a major PCB clean up by the US EPA, this complex study balanced the input of multiple local, state, and federal stakeholders and incorporated future sea-level rise and storm surge elevations to establish a desired trail alignment and elevation.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

** denotes projects completed with other firms*

Route 24 Interchange EA/EIR/Section 4(f) Evaluation* | MassDOT | Massachusetts | 2013 | Environmental Project Manager

Michael served as the environmental project manager for the preparation EA/EIR/Section 4(f) Evaluation for a new interchange along Route 24 in support of the development of a new 300-acre corporate office park in Fall River and Freetown. Project required extensive coordination with FHWA, MassDOT, Mass. Dept. of Conservation & Recreation and other stakeholders which culminated in the signing of a Memorandum of Understanding (MOU) for the creation of the Southeastern Massachusetts Bioreserve.

Aroostook County Transportation Study – Presque Isle and Caribou Bypass Project* EIS (Deputy Project Manager)

Michael served as the Deputy Project manager and primary author of a Tier I EIS/Section 4(f) Evaluation and USACE Section 404 Permit Application and two Tier II EIS for new location highway projects to bypass the largest two cities in Aroostook County. Study involved coordination with federal and state agencies to develop the Purpose and Need Statement, public engagement, environmental resources impact analysis.

Environmental Permitting Services On-Call Services* | MassDOT | 2010-present | Project Manager

Project Manager for series of on-call environmental permitting support contracts. Perform services such as preparation of a wide variety environmental permits and environmental mitigation design including MEPA and NEPA documents, Section 4(f) Evaluations, and Section 401/404 permits. Led several environmental streamlining initiatives for MassDOT, including complete revision of their programmatic agreements for the NEPA Categorical Exclusion Checklist, the Section 106 historic review process, USACE Bridge Permit for MassDOT Bridges, and the MassDOT Highway Type I and Type II Noise Abatement Policy.

Improving the Quality of Environmental Documentation| 2016| Project Manager

Lead author of guidance document for MassDOT describing best practices for the preparation of concise and effective environmental permitting planning and permitting documents. Topics included developing clear and concise text, use of active voice, defining purpose and need, effectively contrasting alternatives, and legal sufficiency.

Stormwater Analysis and BMP Design, MassDOT Impaired Waters Program

Project Manager for Stantec's $3.25 million stormwater analysis and BMP design contract with MassDOT's Highway Division. In support of MassDOT's Impaired Waters Program, Michael leads Stantec's engineering/design, permitting, and pollutant load modeling services to achieve stormwater regulatory compliance. The assessments identified the MassDOT contribution to impaired waters, quantified the pollutants in the stormwater discharge and identified locations where stormwater BMPs could be constructed. Successful completion of these assignments allows MassDOT to remain in compliance with its US EPA National Pollution Discharge Elimination System (NPDES) MS 4 General Permit and impaired waters /TMDL water quality requirements.

Noise Barrier Projects* | MassDOT | 2010-present | Project Manager

Managed the preparation of the acoustical analysis, civil engineering, and environmental permitting process for noise barrier projects in Wakefield, Lynnfield, Medford, Westwood, and Dedham. Participated in the multiple public meeting held for each project.

COMMUNITY PLANNING

Union Square Redevelopment | Epsilon Associates, Somerville Redevelopment Authority | Somerville, Massachusetts | USD 1.5M | 2018-2019 | Manager - Transportatation Impact Study

Managed the production of the Transportation Impact Study (TIS) for the Union Square Redevelopment Project which includes the redevelopment of approximately 15.1 acres of land in the Union Square neighborhood of Somerville, MA. The Project is the product of a decade of community-based planning processes. The TIS supports the Environmental Impact Report and documents the existing and proposed transportation conditions in the study areas related to pedestrian, bicycle, transit, and vehiclular transportation modes. Ultimately, the Project will transform lower-density primarily vacant sites, with automotive and industrial uses into a vibrant transit-oriented mixed-use employment center organized around Smart Growth principles and achieving the City's and community's long-term vision for the neighborhood.

Exchange South End Redevelopment | Boston, Massachusetts | | 2019| Environmental Project Manager

This highly anticipated project in the former Flower Exchange building will transform an isolated industrial development into a life science and technology office campus, complemented by local retail, restaurants, bike trails and open space. Michael led the development of the MEPA Environmental Impact Report for this major redevelopment project.

Arsenal on the Charles Environmental Impact Report (ENF/EIR) | Watertown, Massachusetts | 2017 | Environmental Project Manager

Michael served as the environmental project manager for Athenahealth's Arsenal on the Charles project. A privately-funded project, Athenahealth sought to revitalize its corporate headquarters through the construction of a new parking structure and up to seven new buildings. Michael was the lead author of the MEPA ENF and Single EIR describing the projects natural and social environmental resource and traffic impact and proposed mitigation.

Communications & Community Outreach Coordinator
Office of Mayor Brodeur
Melrose City Hall
562 Main Street
Melrose, MA, 02176

3/23/2022

Dear Lily and Mayor Brodeur,

It has been an honor to serve as a trustee of the Sailors and Soldiers Memorial Building (Memorial Hall) for approximately 15 years now. Memorial Hall is a special place that helps bring our community together in so many ways. Over the years I have been fortunate to perform there with Polymnia Chorus and with Blue of A Kind Acapella group. I've been there for MSO performances, inaugurations, recitals and any number of other functions. Memorial Hall has always been a favorite place for me and I was greatly honored when former Mayor Rob Dolan asked me to join the board.

Memorial Hall has a special significance to me since it is a memorial, built to honor those who served and lost their lives in defense of our country. I am a veteran of the U.S. Army and served in Vietnam with many who never came home to continue serving the country we love. I've been blessed to do so. As trustee, I've always tried to make decisions that enhance and support the efforts of the building manager and staff to help create a welcoming space for all who attend events at Memorial Hall. I would hope to be re-appointed for another term as a Trustee to continue these efforts.

Lily asked me for a resume. I do not maintain one. I worked in the insurance industry for over forty years as an underwriter and agent. I was fortunate to maintain those positions and when I moved from the underwriting to agency side, I went with people who knew me and didn't need to see a resume. I retired in 2017 for not quite a year. Then, I started working part time for a former client. I continue working 15-20 hours a week for this company.

I hope this is sufficient information for you to contemplate my reappointment and look forward to hearing back from you at your convenience. Thank you for your consideration.

Sincerely,

Mike

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Soldiers & Sailors Memorial Building Trustees
Date: April 4, 2022

I respectfully request the Honorable City Council confirm the re-appointment of the following Soldiers & Sailors Memorial Building Trustees.

- Michael Margolis, 22 Stowecroft Road, to a one-year term; said term to expire the last day of February 2023
- Louis Izzi, 45 Damon Avenue, to a two-year term; said term to expire the last day of February 2024
- Mary Sexton, 19 Sears Avenue, to a three-year term; said term to expire the last day of February 2025
- Jason Webb, 92 Morgan Street, to a three-year term; said term to expire the last day of February 2025

For several years, the above trustees have been dedicated to preserving and honoring the Soldiers and Sailor's Memorial Building. I'm grateful for their commitment to the City of Melrose and its historic building, and honored to request that they be re-appointed for additional terms.

Thank you for your consideration.

Dear Mayor Brodeur
It would be an honor to continue to serve on the Soldiers and Sailors Memorial Building Board of Trustees. As a member of the Melrose Community for over 40 years, I have raised my family here, owner of Sexton & Donahue Realtors for over 30 years, served on the Melrose YMCA Board for 20 years including serving as Chair for 8 years, and served on the Mystic Valley Elder Services Board for over 20 years.

I was appointed by Mayor Milano to the Soldiers and Sailors Board of Trustees in May 2000, and I have served as Chair since May 2015. I was on the board when we oversaw the large renovations of Memorial Hal and installation of the HVAC system. It is now time for additional repairs to the building and I am grateful to you and the city to allocate the additional funding needed so we may complete the Memorial Building Envelope Project.

Thank you for this allowing me to serve on this Board.

Sincerely,

Mary Sexton

Good morning, Lily,
Sorry for the delay in getting this to you. I've attached my resume for your review.

I'd like to continue to serve as a Memorial Hall Trustee for the next term. It's been an honor and a privilege the last year to participate in the decisions that effect how the hall is used, preserved, and improved moving forward.

Please let me know if you need anything else from me.

Best,

Jay Webb

Summary

Software sales search for high-growth, venture-backed start-ups in Software, e-Commerce, Media, Security, Consumer Web, and Data Companies partner with me to recruit sales people at all levels to fu their growth.
Strong expertise at developing and implementing strategies to identify talent by building long-term and genuine relationships. Through the use of technology, social media, and a proprietary database, I'm able to quickly develop short lists of qualified candidates with, what I call, “strategic velocity”.

Each assignment has its own unique set of challenges, but the following set of skills and experiences are necessary to identify a short-list of talent:

Culture—Passion for selling on high performance teams in an uncertain, performance-based environment. Inspiring and high energy with an ability to overcome new obstacles on a daily basis.

Proven—track record of achieving and exceeding quota through prospecting, qualifying, and quickly identifying their needs to align them with the best solution.

Leadership—An ability to lead before given the title.

Experience

j.David Group

Host
January 2020 - Present (2 years 3 months)

Over Quota features exclusive interviews with CEO's, Founders, Sales Leaders, and other members of the business leaders from software/technolo companies who share their experience and what takes to differentiate yourse and exceed expectations.

American Personnel/Recruiter
Software Sales Recruiting & Professional Services Sales Recruiting
October 2006 - December 2010 (4 years 3 months)

Developed a proven strategy that enables me to source and recruit more passive candidates than other traditional recruiters. My candidates are very rarely on the job boards, so if my clients see a candidate from me, they have seen them anywhere else first. I personally evaluate all of my candidates before submitting them to a client. Therefore, as a trusted adviser to the companies I represent, my candidates do not meet with my clients if I don't fe there is a fit based on their needs, ensuring an efficient process that respects the time of both sides.

Typical searches include:
Vice President of Sales
Director of Sales
Inside Sales Manager
Regional Sales Manager
National Accounts Manager
Strategic Accounts Manager
Account Executive
Account Manager
Business & Sales Development Reps

If you're a company looking to hire the top 5% of talent, or you're an individua looking for a better opportunity, we should speak.

Enterprise
Area Car Sales Manager
July 1998 - December 2005 (7 years 6 months)

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Enterprise Rent-a-Car is the number one recruiter of recent college grads, and I was fortunate to be one of them. They have a great management program in which I learned, very quickly, how to operate my own business. Through the ups and downs and all of the growing pains that come with running a business,I held management positions five of the seven years in various capacities and relalized a great degree of success along the way.

CITY OF MELROSE

OFFICE OF THE MAYOR

PAUL BRODEUR
Mayor

City Hall, 562 Main Street
Melrose, Massachusetts 02176
Telephone - (781) 979-4440

To: Melrose City Council

From: Lauren Grymek, Director of Economic Development, on behalf of Mayor Paul Brodeur

Re: Acceptance of State Funding for Small Business Relief

Date: March 15, 2022

On behalf of Mayor Brodeur, I am pleased to present the Honorable City Council with a request to accept funding from the Commonwealth's bill H.4269: *An Act relative to immediate COVID-19 recovery needs*.

As part of this bill, the City of Melrose will receive $75,000 from the Executive Office of Housing and Economic Development (EOHED) for economic recovery efforts in small business and nonprofit sectors (appropriation # (1154-1155). There is no match required, and although the funds may be used over the next four years, the City of Melrose will use these funds in the current fiscal year.

Funds will be disbursed to the City of Melrose as follows: 50% of the earmark will be distributed upon receipt of the signed EOHED Standard Contract Form. A second allocation of the remaining 50% will be made on a reimbursement basis, following receipt of an official Cost Reimbursement Invoice and Final Report, both of which are due when all expenditures towards the project have been incurred. At the time of this memo, a budget, scope of services and standard contract form are being finalized with EOHED.

This funding will allow for initiatives and programs that strengthen the local economy including, but not limited to, the continuation of the successful Pop-Up program at 12-14 Essex Street, support for Melrose small businesses and non-profits in the form of one-time grants or special project reimbursements, programming that supports both the business and arts communities, and other economic recovery initiatives.

Background:

In December, Melrose state legislators Senator Jason Lewis and Representative Kate Lipper-Garabedian, along with their State House colleagues, passed a $3.998 billion spending plan that will make significant investments in the Massachusetts economy to further stimulate the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Commonwealth's recovery from the COVID-19 pandemic. The bill, *An Act relative to immediate COVID-19 recovery needs*, uses federal monies received from the American Rescue Plan Act (ARPA) as well as the Commonwealth's Fiscal Year 2021 (FY21) budget surplus to provide funding investments in housing, schools, environment and climate mitigation as well as workforce development throughout the Commonwealth.

I respectfully request acceptance of these funds so that this recovery work may move forward. Thank you for your consideration.

George J. Bibilos

Experienced and Innovative Human Resources and Government Leader

264 Grove Street, Melrose, MA 02176

Email: [redacted]

[redacted]

Over 30 years of government and human resources experience, with the Commonwealth of Massachusetts currently serving as the Human Resources Director for the Division of Capital Asset Management & Maintenance.

A leader in the Grand Lodge of Masons in Massachusetts (est. 30,000 members), having served as Deputy Grand Master in 2011 and served on the Grand Lodge Board of Directors from 2010 to the 2016. Also serves as Chairman of the Budget Committee.

In addition, a leader in the Greek Orthodox Community at Annunciation in Woburn serving on the Board of Directors (BOD) most recently since 2013. In January 2017, was elected President of the BOD.

Experience:

Human Resources Director, Division of Capital Asset Management & Maintenance
October 2017 - present

- Manage the human resources, training, labor relations and payroll functions for the department.

Director of Classification & Compensation and Civil Service at Commonwealth of Massachusetts, Human Resources Division
2010 – January 2018

- Manage the Executive Branch of the Commonwealth of Massachusetts classification and compensation plans, oversee Executive Branch hiring policies and procedures, talent management and position management (Oracle/PeopleSoft v. 9.2).
- Manage the development and administration of public safety civil service exams and its $2.5 million dollar budget. With the procurement of on-line technology (NeoGOV), Civil Service has streamlined interactions with their customers (both appointing authorities and test applicants) and dramatically reduced the use of paper by well over 50%.

Director of Classification & Compensation, Human Resources Division at Commonwealth of Massachusetts
2003 - 2010

- Manage the Executive Branch of the Commonwealth of Massachusetts classification and compensation plans and corresponding salary administration rules.
- Evaluate jobs using the Hay Point Factor System.
- Develop and update job specifications and corresponding job analysis.
- Conduct and participate in salary surveys.
- Manage Executive Branch hiring policies and procedures.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Manage a number of statewide programs including the Commonwealth of Massachusetts Performance Recognition Program (PRP), State Employees Responding as Volunteers (SERV) Program, the Commonwealth of Massachusetts Charitable Campaign (COMECC), and the Managers' Merit Pay Program.

Deputy Director of the Workforce Management Group at Commonwealth of Massachusetts, Human Resources Division
1999 - 2003
Manage the Executive Branch of the Commonwealth of Massachusetts classification and compensation plans, oversee Executive Branch hiring policies and procedures, as well as physical abilities exams for entry level police officers and firefighters ($1.5 million dollar budget).

Director of Human Resources at Commonwealth of Massachusetts, Executive Office of Public Safety
1998
Managed all of the human resources and payroll transactions for the Executive Office of Public Safety. Provided oversight for all human resources activities for public safety agencies.

Senior Classification & Compensation Analyst, Human Resources Division
1996-1997

Human Resources Generalist/Recruiter, **Massachusetts Department of Public Works**
(now the Massachusetts Department of Transportation – MassDOT)
1991-1996

Education:

Northeastern University, Bachelor's degree, *cum laude*, Political Science and Public Administration, 1985 - 1990
Franklin Covey, Leadership for the Public Sector, 2006
Bentley University, Human Resources Certificate Program, 1997
Melrose High School, Diploma, 1982 – 1985

Honors and Awards:

Commonwealth of Massachusetts Citation for Outstanding Performance (multiple years)
Commonwealth of Massachusetts Manual Carballo Governor's Award for Excellence in Public Service (2014)
Henry Price Medal for Distinguished Service to the Masonic Fraternity (2011)

Interests & Activities

Member, Board of Directors, Congregational Retirement Homes
Gen. Secretary (Past President), Annunciation Woburn Greek Orthodox Church Parish Council
Secretary, Golden Rule Lodge A.F.&A.M.
Member, Northeastern Loyalty Society
Friends of the Public Garden
Friends of the Melrose Public Library

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Historical Commission

Fleischman, Margot

From: George Bibilos
Sent: Monday, March 7, 2022 10:22 PM
To: Volunteer; historicalcommissionofmelrose@gmail.com
Subject: Melrose Historical Commission

To whom it may concern:

I saw on the Melrose Historical Commission Facebook page that they are looking for new members. While I'm not sure of all of the responsibilities of serving as a member, I am interested in possibly serving.

I have lived in Melrose since 1970 when my family moved here from Woburn. At that time, we lived on West Wyoming Avenue, across from Lincoln School. In 1978 we moved to the lower end of Linden Road where I would finish elementary school at the Franklin School. I attended Melrose Junior High School and graduated in 1985 from Melrose High School. I went on to attend Northeastern University, graduating with a degree in Political Science. I have worked in state government for the past 30+ years working in the field of human resources. I am currently the Director of Human Resources at the Division of Capital Asset Management and Maintenance, a position I have held for the last 4+ years.

I am married with 4 children. We started out in our first house on Irving Street in 1993, moving to our next house on Vinton Street, near Cedar Park, in 2000 and finally when our 4th child arrived we moved to our current home in 2006, a Victorian on upper Grove Street.

I have a lot of good memories of Melrose and it has changed a lot in the 50+ years I have lived here. The wonderful downtown and its Victorian lighting, the incredible housing stock, the distinctive neighborhoods, the investments in our schools, the upcoming library project, Memorial Hall, the incredibly talented people who live in our city and on and on make Melrose a great place to live.

Let me know what you might need from me and if you could provide any further details about the role it would be greatly appreciated.

Best regards,

George J. Bibilos
264 Grove Street

Professional Experience

National Consumer Law Center
Boston, Mass.
Staff Attorney (March 2001 – Present)

- Specializes in energy, utilities, and telecommunications issues affecting low-income consumers. Writes extensively for NCLC manuals and publications. Provides legal and technical support to low-income advocates, legal services lawyers, and government officials. Represents consumers before regulatory agencies, legislative bodies, and other policy forums. Leads workshops, webinars and training sessions for lawyers, policymakers, advocates.
- Manager of the NCLC Energy Unit, 2011-early 2021. Supervising three attorneys and one analyst/professional. Responsible for unit budget management, assists with hiring.
- Strong focus on low-income energy efficiency programs and appliance efficiency standards, including through serving on advisory boards/councils for the Massachusetts Weatherization Assistance Program, Massachusetts Energy Efficiency Advisory Council, and Appliance Standards Awareness Project, and through reports covering the Weatherization Assistance Program and the Massachusetts network that delivers low-income energy efficiency services.
- Key litigation: co-counsel in *NRDC v. Bodman* (2006) – consent decree entered, requiring defendant DOE to adhere to a fixed schedule for updating energy efficiency standards for 22 residential and commercial appliances and products; co-counsel in *NRDC v. Abraham*, 355 F.3d 179 (2nd Cir. 2004) – Court of Appeals overturned defendant DOE's decision to roll back an increase in energy efficiency standard for air conditioners.
- Notable projects/advocacy: "Project Stay Connected," which has trained over 4,000 front-line Massachusetts human services staff in the basic rights of utility customers; led advocacy effort that resulted in over 60,000 low-income households being added to discount electric and gas rates (MA DTE 01-106); key advocate in passage of Ch. 139 of Acts of 2005 (MA), adopting appliance efficiency standards for several products; drafted portions of Ch. 140 of the Acts of 2005 (MA) which added $20 million to state's fuel assistance program and required utilities to adopt arrearage management programs.

Bernstein, Cushner & Kimmell, P.C.
Boston, Mass.
Senior Attorney (1998 – 2001)

- General practice of law with concentration in energy/utilities and contracts/business law. Practice included a broad range of individual, non-profit, municipal and business clients.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Office of the Massachusetts Attorney General
Boston, Mass.
Senior Attorney (1995 – 1998)

- Enforced, primarily through litigation, insurance and consumer protection laws on behalf of the public, in the areas of health, automobile, property and life insurance; intervention in administrative rate-setting and related hearings affecting gas, telephone, and auto insurance companies; mediation of consumer complaints; supervision of volunteer lawyers and law student interns.

Massachusetts Law Reform Institute
Boston, Mass.
Staff Attorney (1979 – 1995)

- Conducted litigation, administrative advocacy, and policy analysis for low income clients and non-profit organizations, in the areas of housing, energy, and utilities law. Responsibilities included: litigation; administrative hearings; office management (financial planning, budget analysis); training of lawyers and paralegals; legislative drafting and lobbying; writing and editing of legal treatises and newsletters; advice/support to attorneys, paralegals, agencies and individuals; counsel to association of public housing tenants.
- Sample Litigation: *Barrert v. Allison*, #80-1389-MA (Fed. D. Ct. Mass. 1980)(awarding $3 million in unspent fuel assistance funds to low-income households); *Walker v. Georgetown Housing Authority* #92-CV-226 (Northeast Ho. Ct. 1994)(upholding plaintiffs' First Amendment challenge to ban on door-to-door campaigning).
- Sample Appellate Work: *Skinner v. Boston Housing Authority*, #88-2027 (1st Cir. 1989)(successful appeal on attorneys' fees claim); *Felicetti v. Secretary of EOCD*, 386 Mass. 868 (1982)(affirming that release of fuel assistance funds was illegally delayed); *Lezberg v. Rogers*, 27 Mass. App. Ct. 1158 (1989)(affirming that landlord illegally failed to pay for utilities).

Massachusetts Public Interest Research Group
Boston, Mass.
Staff Attorney (1977 – 1979)

PROFESSIONAL SUMMARY

Skilled Human Resources professional offering 13 years of progressive experience, dedicated to providing impressive human resource operational acumen for both small and large corporations. Proven success in building high-performing teams, improving company effectiveness, and expertly administrating strategic plans. Dedicated to partnering with management and executive teams to build cultures that value employees and promote productivity.

SKILLS

- Leadership Development and Management Training
- Performance Management and Succession Planning
- Communications and Interpersonal Expertise
- Human Resources Management Experience
- Cross-Department Strategic Planning and Business Management
- Employee Relations and Conflict Resolution
- Compliance and Employment Law
- Recruitment / Retention Strategies and Onboarding Management (ATS)
- People Flow Management Systems (HRIS)
- Payroll, TAA, Benefits, and Compensation Management
- Project Management and Execution

EXPERIENCE

MAHONEY'S GARDEN CENTERS Woburn, MA
Director of Human Resources (9/2019 to Present)

- Reports to and serves as trusted advisor to CEO, directs all HR activities with $53M in revenue, 9 locations (including retail, growing facilities, and corporate office), and 650 employees
- Guided executive team through organizational restructurings, workforce planning, and business realignments which created a more efficient, streamlined workforce and a $13M increase in revenue over the span of almost three years
- Instituted an overhaul of all recruiting and payroll practices, in addition to a formal performance management process that built accountability into all levels of the process
- Built strong relationships with senior management, hiring managers, and company executives to enable systematic decision-making and strategic planning across the company
- Selected benefit programs for medical, dental, disability, life insurance, 401(K), and worker's comp; saved company $200K through brokerage renewals and vetting of plans / services
- Fostered employee and organizational development, encouraging strengths and identifying potential areas of growth; built and administered company's first-ever Business Leadership Program, which is currently presented annually and has identified multiple hi-po performers who have since been elevated to management roles
- Served as Project Manager for $1M retrofitting of company-owned warehouse into corporate headquarters space

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

KIMBERLY MAROLDA

Melrose, MA 02176 ♦ [redacted]

OPTIMA Woburn, MA
Human Resources Manager (10/2016 to 9/2019)

- Ensure appraisal of performance results by working with supervisors to coach / discipline employees; hear / resolve employee grievances; counsel employees, supervisors
- Manage employee benefits programs / inform employees of benefits; obtaining / evaluating benefit renewal bids
- Process, audit all Worker's Comp / Unemployment claims; compile annual EECO / 1095-C reports
- Collect data, calculate, enter, process payroll on a weekly / bi-weekly basis for approximately 200 employees and Independent Contractors; track, administer all PTO balances
- Screen candidates for multi-level positions (Executive, IT, Sales, Customer Service, Dispatch, Warehousing, Delivery Services); decreased hourly turnover by 28% in first year of employment through improved onboarding techniques
- Maintain job flow on employment boards; process new hire / termination paperwork, payroll changes

Historical Commission

Fleischman, Margot

From: Kimberly Marolda om>
Sent: Thursday, March 10, 2022 9:41 AM
To: Volunteer
Subject: Fwd: Melrose Historical Commission Member Application

Good morning!

I recently viewed your post on the Melrose Historical Commission Facebook page regarding the solicitation of new members. I would love to be considered for membership!

I have lived in Melrose since 2016 in the Highlands, and currently work in HR for Mahoney's Garden Centers. I have always been intrigued by not only the history of our town's growth and development, but also of the cultural history of our community. Learning more about changes through the passage of time has been a long-time passion of mine.

I graduated from the University of Wisconsin with a triple BA in Anthropology, Classical History, and Ethnic Studies, and spent a decade immersed in historical museum studies within the city of Milwaukee's museum industry. As a result, I am one of those rare birds who actually enjoys researching, presenting, and archiving items and stories of cultural significance. I feel it is important to preserve the memories of where we came from, as it helps shape our future and builds character, especially at the local level.

Plus it's just downright fun.

I look forward to continuing this discussion and learning more about membership, if you would have me!

Thank you for your time,

Kimberly Marolda

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

March 14, 2022
Thomas Champoux
87 Crescent Avenue
Melrose, MA 02176

Dear Mayor Brodeur:

Please accept this letter and resume as an indication of my interest in serving on the Melrose Historical Commission. I have lived in Melrose for over twenty years, and am proud that my wife and I were able to raise our two children in such a wonderful city.

Professionally, I have more than twenty years of experience in nonprofit marketing and communications, including working at several Boston-area museums and libraries that had a strong focus on preserving and sharing history. While at the Mary Baker Eddy Library, I came to fully appreciate the way history and society intersect to create connection and understanding throughout a community. During my time at the New England Historic Genealogical Society, I engaged students and adults in better understanding the way family history and genealogical research can uncover incredible stories and bring people together through shared experiences. This work included researching homes and properties. I am currently also a host for the local online television program, "Let's Talk Melrose, Melrose," with weekly guests and discussions covering a wide range of local topics.

I am also an avid hiker in the Middlesex Fells and currently volunteer for the "Friends of the Fells," serving as a hiking leader. I have been using the Fells as a destination for nearly twenty years, and greatly appreciate this incredible, natural wonder within our city.

I see Melrose's incredibly rich history as part of the attraction for so many current and future residents. A history that touches every corner of the city with a power to inform and inspire. I welcome the opportunity to serve on the Historical Commission as it seeks to preserve, protect, and promote Melrose's heritage for the benefit of so many.

Kind regards,
Tom Champoux

March 14, 2022

Dear Mayor Brodeur,

I am writing to express my strong interest and excitement in becoming a member of the Melrose Human Rights Commission. I have lived in Melrose with my family for the past 21 years and been an active member of the community serving on boards and committees committed to making Melrose more inclusive. Additionally, I have more than twenty-five years of professional experience as a volunteer and community engagement leader with a deep commitment to diversity, equity, inclusion and access throughout my work.

In my professional life, I recently started working as the Associate Director of Volunteer Training and Engagement for the Harvard Alumni Association. My role includes creating diverse engagement opportunities for a wide variety of alumni working in partnership across the University. I previously held a leadership role at the Museum of Fine Arts, Boston for 20 years overseeing community engagement, as well as volunteer, intern, and teen programs. My work was rooted in creating access and inclusive opportunities for BIPOC audiences who felt unwelcome at the MFA. I had great success expanding and diversifying volunteerism, advocating for new public programs promoting diverse audience engagement, and launching college and teen programs with an emphasis on involving students of color. In addition, I was an active member of several Museum-wide task forces including; leadership of the staff Diversity Council, staff liaison to the Board of Trustees, and volunteer committees with a focus on multicultural audience development and board diversity.

In my Melrose life, I have been involved in myriad ways. I was on the board of Melrose Day Care Center and Pre-school, served on the Lincoln School Site Council, and as President and board member of Temple Beth Shalom. I am currently a founding member of *Melrose Together*, a volunteer group that connects neighbors in need with neighbors who want to help during the COVID-19 pandemic. Melrose Together shares community-driven volunteer opportunities and organizes grassroots, city-wide events in an effort to sustain community spirit and support local businesses. I am also a member of the Melrose Creative Arts Summit planning team.

I love Melrose. This community is amazing and I feel extremely fortunate to live here. I have seen many positive changes in my 21 years as a resident. The city has become much more reflective of the diversity in Massachusetts and the broader United States. This brings many new opportunities as well as challenges. I have witnessed racism and been subjected to anti-semitisim. I have read hateful comments on social media but also seen those in our community stand up to injustice. In Judaism, there is a concept called “Tikun Olam.” These Hebrew words roughly translate to “repair the world” or “heal the world.” The notion that the world, and in this case Melrose, is in need of healing and repairing is something I have always identified with. I am proud that the Jewish community in Melrose has been at the forefront of fighting for social justice and doing our part to prioritize inclusion and “heal the world”. I would very much like to continue this important work as a member of the Melrose Human Rights Commission.

Thank you for your consideration.

Kind regards,
Linda Apple

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Linda Apple

[redacted]

SUMMARY

Accomplished volunteer and community engagement leader with 25 years experience at major higher education and cultural institutions. Proven track record of creating strategic partnerships, innovative public programs promoting diverse audience engagement, and organizational shift in culture across all levels. Committed to inclusion, equity, and unity throughout planning and project management.

PROFESSIONAL EXPERIENCE

Harvard University, Alumni Affairs and Development

Associate Director, Volunteer Training and Engagement 2022-present

- Primary resource for Harvard Alumni Association volunteer training and engagement.
- Project manager responsible for university-wide alumni conferences, workshops and events.
- Collaborates with and develops relationships with faculty across the university.

Melrose Public Schools

Student Support Specialist 2020 - 2022

- Supported K-5 educators; facilitated both student in-person and remote learning

Museum of Fine Arts, Boston

Director, Volunteer and Community Engagement 2012 - July 2020

- Managed and organized essential unconscious bias and anti-discrimination training
- Conceived of and expanded flagship cultural celebration series working closely with key partners to create meaningful and inclusive community events.
- Oversaw planning and execution of eleven unique events serving over 75,000 Museum visitors per year.
- Identified, established, and maintained new beneficial partnerships with community, arts, and cultural organizations. Examples include: Korean Cultural Society of Boston, Jewish Arts Collaborative, The Urban Labs, Amplify Latinx, SubDrift Boston.
- Managed launch of MFA Citizens, a new initiative offering free one-year memberships to newly naturalized citizens.
- Planned and launched pilot Community College Access Program, creating free access for students, faculty, and staff of all 15 Massachusetts community colleges.

Director, Volunteer and Community Programs 2003 - 2012

- Promoted to a much larger role, leading community programs, museum-wide diversity initiatives, and volunteer programs.
- Expanded public access and visibility of museum's community programs. Increased profile and visitorship annually of long-standing free community open houses, serving upwards of 25,000 visitors each year.
- Conceived of and advocated for Teen Arts Council, the MFA's flagship teen program. Raised start-up funds and expanded support.
- Created first paid internships for college students, funded by 5 different foundations, supporting 15 undergraduates from underrepresented backgrounds.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Developed and led a multicultural audience development and engagement initiative to support opening of the new Art of the Americas Wing. Recruited over 20 young professionals from diverse backgrounds to form new advisory affinity group.

Director, Volunteer Programs 2000 - 2003

- Hired as first-ever Director to establish a professional corps of volunteers reflecting the diversity and richness of the Boston community.
- Built a comprehensive program offering opportunities and access to an entirely new constituency of volunteers by identifying needs across the museum.
- Increased total volunteers and interns by more than 80% within five years.
- Contributed to a fundamental internal cultural shift in which MFA staff collaborated with volunteers for the first time.
- Initiated new student intern program creating a pipeline between the MFA and dozens of colleges and universities.

MFA Committee Leadership and Participation

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: MRI/Police Chief Search Funding Request
Date: March 21, 2022

As the members of the Honorable City Council are aware, Police Chief Michael Lyle will reach mandatory retirement age this November. Chief Lyle has been with the MPD since 1986, and has served as Chief of Police for the past 15 years.

In anticipation of this leadership transition, and in order to provide the time necessary to recruit a replacement by next fall, I directed HR Director Latta to seek out proposals from qualified and experienced consultants to assist in recruiting and evaluating candidates for the position of Chief of Police. As a result of the process outlined in Ms. Latta's memo to the City Council, we have chosen a highly qualified firm: the City of Melrose will begin our search for a new police chief with the help of the municipal recruiting consultant Municipal Resources Inc. (MRI), an organization with over 30 years of experience with public sector executive recruitments.

MRI will work with my administration to design a comprehensive recruitment strategy, including recommending an appropriate and broad advertisement campaign in order to produce a diverse pool of highly qualified candidates. MRI will develop an "Ideal Candidate Profile and Challenge Statement" to identify critical organizational challenges, clarify roles, responsibilities, and expectations, and understand the qualities, strengths, and characteristics envisioned for Melrose's next police chief. In order to accomplish this, MRI will seek input from the Melrose community and key stakeholders, ensuring opportunities for members of the Melrose community to share their concerns and perspectives.

MRI's team of professional consultants will screen, review, and rank candidates based on their resumes, written responses to an essay questionnaire, and verbal communication. They will further design and administer a two-day assessment center for up to five candidates to measure the skills, knowledge, and abilities of each candidate within the most critical dimensions required by the position. Based on their comprehensive recruitment, MRI will provide a list of finalists, and upon successful completion of the selection process, they will also be responsible for conducting a comprehensive background investigation of the selected candidate.

The hiring of a new police chief for the City of Melrose is one of my most important responsibilities as Mayor. By engaging with an executive search firm, it is my intention to provide the Melrose community with a robust and thoughtful process to guide this critical selection.

I respectfully request that the funding for the contract with MRI be approved to allow this process to move forward expeditiously.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

To: City Council
Cc: Mayor Brodeur
From: Polina Latta
Re: Police Chief Executive Search Process
Date: March 14, 2022

The City of Melrose sought proposals from qualified and experienced consultants to assist in recruiting and evaluating candidates for the position of Chief of Police, due to Chief Michael Lyle's reaching mandatory retirement age this coming November.

In our Request for Proposals, the City required that the selected firm have a nationwide focus and presence, and that they provide a comprehensive recruitment and executive search process. It was important that the selected consultant engage City administration and community stakeholders to determine an ideal candidate profile, use broad recruiting sources and vigorous outreach activities to identify and recruit possible candidates, evaluate qualified candidates, and perform any necessary background investigations or other due diligence activities in order to provide a recommendation to the Mayor and City officials identifying the most suitable candidate or candidates for the position of Police Chief for the City of Melrose. Further, their work must comply with all applicable laws, rules, regulations, as well as with industry standards, and to the extent feasible, must be completed on or before September 1, 2022.

The Request for Proposals was solicited in accordance with M.G.L. Ch. 30B for consulting services to assist the City in the recruitment and selection of candidates for the position of Police Chief. The RFP was sent via e-mail on December 3, 2021 to the following seven (7) consultant firms:

1. Community Paradigm Associates LLC
2. Municipal Resources, Inc (MRI)
3. Police Executive Research Forum (PERF)
4. Public Sector Search and Consulting

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. Public Safety Consultants LLC
6. Ryan Strategies Group LLC
7. The International Association of Chiefs of Police (IACP)

These consultant firms were identified through research on executive search firms with state and national presence who specialize in Executive Police Chief Search, and through recommendations from other municipalities who have conducted similar recruitments in recent years. The initial deadline to submit proposals was December 20, 2021, which we later extended to January 10, 2022 to allow for lost time around the holidays.

The responses were as follow:

1. Community Paradigm Associates LLC- *not planning to submit a proposal*
2. Municipal Resources, Inc (MRI) - ***submitted a proposal***
3. Police Executive Research Forum (PERF) - *unable to assist due to other commitments*
4. Public Sector Search and Consulting – *unable to assist due to other commitments*
5. Public Safety Consultants LLC – ***submitted a proposal***
6. Ryan Strategies Group LLC- *agreed to submit a proposal but did not send one*
7. The International Association of Chiefs of Police (IACP) - *unable to assist due to other commitments*

During the proposal evaluation process, we relied on the grading system outlined in our RFP and took into consideration the following key comparative factors:

1. Quality of response: the consultant has a clear understanding of the scope of services.
2. Nationwide presence: the consultant addresses nationwide (international) search or is solely Massachusetts focused.
3. Public Engagement: the consultant successfully involves diverse stakeholders in the executive search process.
4. Resources: Number of staff the consultant is dedicating to the project.
5. Experience: Number of contracts that the consultant has provided similar services (Executive Search and Assessment Center for Police Chief).

Both proposals, from MRI and Public Safety Consultants, were well presented and met the minimum evaluative criteria of completeness, presentation and responsiveness to the requirements of the RFP. When using the comparative evaluative criteria MRI received a higher grade than Public Safety Consultants. MRI has been providing similar services for the past 30 years and specifically referred to their national and international recruiting presence in their proposal. They included 54 references across five states and are dedicating five staff to this search. MRI also provided tenure guarantee that if the employment relationship is terminated within 12 months, they will undertake

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

the same comprehensive recruitment process and hybrid assessment center at no cost (except for recruitment cost).

Our next step was reaching out to communities in and out of state who have used MRI's services to obtain references. The references spoke to their favorable and successful experiences with MRI, confirmed that MRI fully met the scope of services, and effectively recruited and helped hire their Chief of Police.

As a result, MRI was selected as the top choice to be awarded the Executive Police Search Contract.

PROFESSIONAL SERVICES AGREEMENT

I. PARTIES TO THE AGREEMENT

This Agreement, effective this _____ day of _____. is to retain professional consulting services for the **City of Melrose, Massachusetts (the Client**), to be provided by **Municipal Resources, Inc. (MRI),** and is lawfully entered into between the Client, by its authorized representative, Mayor Paul Brodeur, and MRI, by its authorized representative, Sean F. Kelly, Director of Police Services, In consideration of the mutual covenants contained herein, the parties agree as follows:

II. SCOPE OF WORK

MRI will work with the Mayor and/or his designee to actively source, recruit, evaluate suitability of, interview, and refer qualified candidates for the position of police chief. MRI will undertake the following specific activities in this comprehensive executive recruitment and evaluation process, in accordance with all applicable Massachusetts State Laws:

1. Work with the Mayor and /or his designee and other key city staff as needed to review the recruitment process and work toward developing an "**Ideal Candidate Profile and Challenge Statement**". The **Ideal Candidate Profile and Challenge Statement** helps to:

   a. Identify critical organizational issues and challenges;

   b. Clarify roles, responsibilities, and expectations for the position;

   c. Understand the qualities, strengths, and characteristics of candidates envisioned for the police chief;

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

d. Characterize the most desirable management strengths, behavioral styles, personal attributes, and motivating values needed in the ideal candidate to increase the probability of success in the role; and

e. Identify the likely issues and opportunities that the next police chief must be prepared to address.

f. Provide for potential candidates a profile of the community that encompasses the uniqueness of the community, demographics, economic stability and employment sectors, citizen involvement and form of government.

To gain input from the community and other stakeholders, MRI will **interview other key officials, as identified by the Mayor** to include but may not be limited to the City Administration, Police Chief, or other key stakeholders identified by the Mayor. If requested by the client, MRI will also open an e-mail address for this specific recruitment that will provide for electronic community input. Once approved by the client, the Ideal Candidate Profile and Challenge Statement will be posted on MRI's recruitment website for potential candidates to review.

2. We will **work with the City of Melrose Director of Human Resources to develop a timeline for the recruitment process** so that the Client and all candidates can plan accordingly. We will provide regular updates to the City of Melrose Director Human Resources which will provide an overview of relevant information about the candidate pool, answer questions, and review selection criteria at each decision point throughout the process.

3. We will **work with the City of Melrose Director of Human Resources to develop ad copy**, recommend advertising venues, and coordinate placement of the ads. Resumes are typically received for at least 30 days.

4. We will **research MRI's database and contact potential candidates** from other similar recruitments we have conducted in the past 12 months. It should be noted that MRI's advertising is targeted at venues that are most likely to engage candidates with the professional training and experience desired by the client. Since some advertising venues will be viewed nationally and even internationally, we expect to have many states represented in the candidate pool. MRI's recruitment efforts go well beyond the team identified in this proposal as we leverage our entire consulting group for the benefit of the client.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. We will **canvas MRI's professional network to identify and actively recruit promising potential candidates**.

6. We will **receive, acknowledge, and hold all resumes in confidence**, forwarding to the hiring authority as desired. We have found that assured confidentiality will increase the number and quality of applicants significantly. We acknowledge receipt of all resumes and keep candidates apprised of their status at each selection point throughout the process.

7. We will establish a team of **professional consultants who will screen and review all resumes** for minimum qualifications before ranking them against the Ideal Candidate Profile. We will receive, acknowledge, and hold all resumes in confidence, forwarding to the hiring authority as desired. We have found that assured confidentiality will increase the number and quality of applicants significantly.

8. In coordination with the Client, **we will develop a written essay questionnaire** for distribution to the top qualified candidates (generally, 12 to 15 candidates), focusing the questions on matters of special relevance to the client's needs or current situation. Candidates will have a specified amount of time to respond (typically 10 days), after which our team of consultants will review and rank the responses.

9. After essay responses have received, reviewed, and ranked, **we conduct a web search of the top remaining candidates (generally, 10 to 12) and canvas our consultants, to identify potential issues or controversies in other jurisdictions**. Then, two members of our team will conduct telephone interviews with these candidates, placing the focus on current position and reasons for leaving; career history of successes and failures; future personal and professional goals; and their understanding of best practices and contemporary professional thinking in the field. In addition to screening the candidates, this interview provides for follow-up to the essay responses and information found in the web searches. It also assists us in determining the verbal communication skills of the candidate and his/her ability to answer questions spontaneously.

10. MRI will **formulate, design, and administer a two-day assessment center** for up to five (5) candidates to include at least five (5) assessment exercises most appropriate for identifying the strengths and weaknesses of the candidates. The assessors are all MRI police management consultants that are experienced in administering the process and evaluating candidates. MRI will adhere to the "Guidelines for Ethical Considerations for Assessment Center Operations" by the International Task Force on Assessment Center Guidelines.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A typical assessment center consists of several exercises, each designed to measure the skills, knowledge, and abilities of each candidate within the most critical dimensions required of the position. The primary consideration in developing exercises is to determine those which best identify the potential of a candidate if appointed to the position. The Assessment Center Process is viewed as a much more inclusive process than oral interviews and/or written examinations for determining a candidate's suitability for a position because it combines elements of both with an assessment of written communication skills, performance under pressure, and critical thinking in a real time, relative real-world setting.

For Melrose, **MRI recommends our "hybrid" assessment center** which involves participation of key stakeholders identified by the Mayor and/or his designee who will sit on an interview panel and a structured role-playing Assessment Center exercise. This provides the stakeholders or another designated community group to engage the candidates directly, work with the MRI assessors, and observe the candidates throughout the day.

Each job-related exercise will measure critical skill dimensions, such as written and verbal communication, planning, work assignment and delegation, team building problem solving, administrative skills, leadership, and reaction to stress/poise.

While there are a variety of exercises, a typical assessment center consists of a combination of:

A. In-basket exercise
B. An impromptu presentation
C. Media unplanned interview
D. Exercises to evaluate written problem-solving
E. Tactical assessment/planning/operations
F. Group discussion with assigned, or unassigned, roles
G. Employee counseling skills
H. Staff meeting exercise
I. Community presentation
J. Labor relations/negotiation exercise
K. Budget preparation/control exercise
L. Program development exercise
M. Disciplinary meeting exercise
N. Structured oral interview

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

At the conclusion of the Assessment Center, the MRI team will meet with the Mayor and/or his designee, the City of Melrose Director of Human Resources, and any designated stakeholders to answer questions, fully discuss the performance of each candidate, and provide a scoring matrix. A follow-up written report can be provided at the request of the client.

11. **MRI will prepare the Mayor and/or other designees for interviews with the finalists** and facilitate those interviews.

12. Following interviews with the finalists, the Mayor and/or his designee in consultation with our lead consultant, will determine what, if any, additional steps are needed to arrive at a final selection, such as additional interviews or an onsite "meet-and-greet."

13. **We will assist with the development of terms and conditions of employment**, preparation of a conditional offer of employment, and creating a draft of an employment agreement. MRI will ensure that appropriate expectations are created with the candidates throughout the process to avoid issues during the negotiation process. MRI has never failed to facilitate successful negotiation of terms of employment.

14. **We will complete a comprehensive background investigation of the selected candidate** which shall include, but not limited to, previous employment, and criminal and motor vehicle records checks, finances, references, and interviews with previous employers. To protect the client, MRI will not complete a comprehensive background on a candidate before a conditional offer of employment is accepted by the candidate, unless the City provides a waiver. MRI is well known throughout New England for the thoroughness of its background investigations and completes dozens annually for various clients.

15. **MRI will provide an opportunity for brief follow-up interviews if requested** by any candidates to discuss how their individual performance in the various exercises that had been measured against the performance, responses and/or behavior deemed appropriate, satisfactory, and desirable, and to explain the rationale for assignment of their numerical grade for the exercises (if applicable).

III. TIMELINE

MRI understands that the City wishes to complete all work as set forth in Section II above entitled "Scope of Work" by September 1, 2022 which MRI feels is possible given the schedule as proposed in our response to the City's RFP.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A recruitment process as described above typically takes approximately **90-120 days** to complete. MRI is ready to begin work on the recruitment as soon as a contract has been executed. MRI will keep the City reasonably apprised of any anticipated delays or updates to the timeline of the process as things progress, and of any anticipated need to extend the timeline for completion past September 1, 2022.

IV. TENURE GUARANTEE:

MRI guarantees to undertake a recruitment and selection process at no expense to the Client should the employment relationship with the selected candidate for Police Chief, after it is negotiated and documented by an executed employment agreement, be terminated by either party to that employment agreement within 12 months. There shall be no cost for MRI's recruitment services; however Client shall cover costs associated with advertising and interviews.

V. FEES AND CHARGES

Our services for the Police Chief selection process will be provided on a lump sum fee basis that is intended to cover all professional time and expenses. The process will be completed for a lump sum fee of **$23,250.00**; payments to be made as follows:

1. **$10,000.00** will be invoiced upon placement of position advertisement;
2. **$10,000.00** will be invoiced after delivery and completion of Assessment Center;
3. **$3,250** will be invoiced at the conclusion of the background screening.

The fees shown here do not include the cost of advertising, reimbursement of candidate travel expenses, facility costs, and the cost of food for the assessors and candidates on the day of the assessment center. The City shall be responsible for providing a suitable venue for meetings, interviews, and the assessment center. The City shall be responsible for the cost of physical and psychological evaluations.

Payments must be made within thirty (30) days of receipt of the invoice unless otherwise agreed. Invoices not paid within thirty (30) days will accrue interest at the rate of 1.5% per month.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

VI. INSURANCE

At all times through the completion of services under this Agreement, MRI shall maintain a valid and current certificate of liability insurance which includes all coverage amounts and categories as delineated in the Certificate of Liability Insurance provided to the Client upon execution of this Agreement.

VII. MRI PERSONNEL IN CHARGE

Sean F. Kelly, Director of Police Services, will serve as Principal-In-Charge of this engagement, coordinating activities, interfacing directly with the Client, and participating throughout the engagement as required.

VIII. TERM

This agreement shall remain in force and effect through completion of the assignment.

IX. CONTRACT DOCUMENTS

The following documents form the Contract and all are as fully a part of the Contract as if attached to this Agreement or repeated herein:

1. This Agreement.
2. Amendments, change orders, or other changes mutually agreed upon between the parties.
3. Contract proposals.
4. The Invitation to Bid/Request for Proposals.

In the event of conflicting provisions, those provisions most favorable to the City shall govern.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

A. MUTUAL REPRESENTATIONS

MRI represents to the Client it is a duly constituted corporation under the laws of the State of New Hampshire and is authorized to do business in the Commonwealth of Massachusetts as a professional services corporation.

MRI has in force and effect general commercial liability and errors and omissions insurance coverage to protect the Client from accidents which MRI or its authorized representatives may cause to persons or property or from professional errors or omissions when performing under this agreement.

MRI has no liens or encumbrances which would adversely affect the ability of MRI to perform as stipulated under this agreement, its terms, and conditions.

The Client represents to MRI that sufficient funds have been appropriated so it may retain and compensate MRI for the services provided for herein.

The Client's representative is authorized to enter into this agreement on behalf of the Client.

The Client is aware of no action, contemplated action, liability, or other encumbrance which would limit or otherwise preclude the Client from freely entering into this agreement and compensating MRI for the services provided.

MRI shall not make any assignment of this agreement without the prior written approval of the Client.

B. NOTICE OF CHANGE OF PERSONNEL

Except as otherwise provided below, the MRI consultants assigned to any scope of work or project will remain throughout the duration of that specific scope of work or project. MRI retains the right, upon 30 days written notice, to remove from the project any of its consultants whom it believes can no longer suitably perform under its obligations to this agreement or any Supplement to it.

The Client, upon 30 days written notice, may request MRI to replace any of its consultants with another qualified representative.

C. ADMINISTRATION OF AGREEMENT MODIFICATIONS

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

In all cases where this agreement is modified or expanded, a written Supplemental Scope of Work (Supplement) must be prepared which clearly defines the services to be provided and details the billing rates or amounts to be charged by MRI and paid by the Client. Supplements must be executed by the authorized representatives of the respective parties prior to any billable work being undertaken. The Supplement(s) shall identify:

- The MRI officer or principal responsible for the successful delivery of services and/or project completion and the client's contracting official(s) or officer(s);
- The specific details of the work to be performed;
- The MRI personnel to be assigned;
- The basis upon which MRI services are being retained, including the normal hourly rate(s), cost reduction considerations or the agreed upon fee(s) for the personnel assigned and/or the services provided;
- The Client's contact person responsible for administering the Supplement, activities or project and the associated reporting requirements; and
- Any special or other conditions such as time deadlines, special reporting requirements, budget limitations, or other similar constraints.

All amendments, change orders and changes to this Agreement shall be in accordance with M.G.L. c.30B, if applicable.

D. **NON-SOLICITATION**

The Client agrees that, for a period of one-year following the completion of the terms of this Agreement, they shall not directly or indirectly, hire, solicit, or otherwise encourage any MRI personnel or affiliates assigned to this Agreement, to leave MRI's employment.

In the alternative, if the client should wish to hire any MRI personnel or affiliate assigned to this Agreement it agrees to compensate MRI with payment in the amount of 25% of that person's first year's total compensation package.

E. **TERMINATION OF AGREEMENT**

The City may suspend or terminate this agreement by providing MRI with ten (10) days written notice for reasons outlined as follows: 1. Failure of MRI, for any reason, to fulfill in a timely and proper manner its obligations under this agreement. 2. Violation or breach, material or otherwise, of any of the provisions of this agreement by MRI. 3. A determination by the City, acting through any of its

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

department heads, that MRI has engaged in fraud, waste, mismanagement, misuse of funds, or criminal activity with any funds provided by this Contract. 4. Lack of appropriation for funding.

F. **INDEMNIFICATION**

MRI shall defend, indemnify, and hold harmless the City's officers, agents, and all employees from and against any and all claims arising directly or indirectly from the contract. MRI shall be solely responsible for all local taxes or contributions imposed or required under the Social Security, Worker's Compensation, and income tax laws. Further, MRI shall defend, indemnify, and hold harmless the City, from and against any and all damages, expenses, losses, or claims arising from or in connection with any of the work performed, or to be performed, under this agreement whether such losses are incurred by parties to this contract, MRI's agents, and sub-contractors, or other third parties. This shall not be construed as a limitation of MRI's liability under the agreement or as otherwise provided by law.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed on the day and year first above written.

ACCEPTED AND AGREED

Melrose, Massachusetts 02176
Telephone – (781) 979-4116

MEMORANDUM

TO: Hon. City Council

From: Kristin Foote, City Clerk

Date: March 25, 2022

Re: **Order 2022-88** Transfer for General Code Services

Please find below details regarding the above referenced request scheduled before the Finance committee on Monday evening.

Charter/Code

In accordance with the Article I § 1:4-7 the Office of the City Clerk is responsible for maintaining the city charter/code. As a living document that evolves with our municipality keeping this clear, current, and enforceable is essential. When new law or regulation is passed, they are integrated into the code so that it remains a reliable resource. All new ordinances, zoning regulation or administrative legislation, as well as changes, amendments, or administrative revisions are codified within the respective section. This ensures there is a comprehensive, unified document that contains all our organized laws.

General Code located in Rochester, NY provides the following services to the city for each requested change to the Code:

1. Analysis of the new legislation and proper placement in the Code
2. Removal of repealed or superseded provisions
3. Updates to the Officials Page, Table of Contents, Disposition List, Appendixes, Index, Histories, Tables, Charts, and other items as necessary
4. Review of statutory citations regarding the new legislation
5. Bring any conflicts, inconsistencies, issues or questions identified at this point to our attention for resolution prior to publication
6. Insertion of cross reference and editor's notes, as appropriate
7. Creation of instruction page for removing and inserting revised Code pages
8. Printing 2 sets of supplemental pages
9. Update eCode360 online.

Following my appointment in May of 2021 these legislative matters have been submitted for codification:

- Order 2021-79 Act authorizing means tested senior citizen property tax exemption
- Order 2021-81 Act authorizing Melrose to regulate property tax exemption eligibility
- Order 2021-96 Incentive Zoning and Related Zoning Amendments
- Order 2021-104 Amending Chapter 173 rules and regulations of Park Department

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Order 2021-111 Construction site Noise during the pandemic
- Order 2021-123 Fiscal 2022 Ambulance Rates
- Order 2021-124 Fiscal 2022 Ambulance Operating Budget
- Order 2021-146 Adopting MGL Chapter 40 Section 22G, Disable Parking Fines
- Order 2021-147 Stormwater Ordinance
- Order 2022-16 Amending Chapter 198 of revised ordinances
- Order 2022-21 Amending Chapter 228 of revised ordinances
- Order 2022-25 Amending Chapter 198, Article II section 198-2
- Order 2022-55 Amending Chapter 4 section 4-1 Wards/Precincts boundaries
- Order 2022-56 Amending 152-12 common victualer fee waiver for 2022
- Order 2022-65 Amending Chapter 198 solid waste amendment
- Ordnc 2022-1 Amending Chapter 152-10
- Ordnc 2022-2 Ordinance Chapter 183 Small Wireless Facilities Installation in the public right of way
- Order 08-054 Planning Board Members as Special Municipal Employees
- Order 2016-103 Historic District Commission Board Members as Special Municipal Employees
- Chapter 220 Traffic Code update - Vehicles and Traffic

Forthcoming

- *Order 2022-66 An Order relative to Property Tax Relief for Active Duty*

General Code charges are billed on a supplement-by-supplement basis. Costs vary year to year depending on the legislation adopted and the depth of code analysis and changes to composition. Additionally, the online version of the code (eCode360) has an annual maintenance fee of $1,195/year. There has not been an increase to the maintenance from 2020-2022.

I respectfully request a transfer to the City Clerk recodification account to fund existing and anticipated changes to the City of Melrose Code.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Subject: Polling Locations

Dear Councilors,

I have just this afternoon read the Melrose Patch article regarding your meeting last Monday on consolidating polling locations, which you are expected to vote on as a full council tonight. Given time constraints, I do not have the opportunity to review the complete video of that earlier meeting before the beginning of tonight's meeting, so I do apologize if I am missing some context, but I would like to weigh in on one aspect of the discussion that the Patch highlighted in its article.

Some councilors expressed concern about the potential hazards to children in holding elections in elementary schools. I do not know when exactly elections began to be held in elementary schools in Melrose (although given more time, I could certainly find out!), but they have been used for that purpose for at least eight decades. In all that time, there has never been a criminal incident involving a voter endangering a child on election day. For that reason, I find the argument that adults may use election day as an opportunity to wander the corridors of schools to harm children to be without merit.

There was a second argument made which, if I understand it correctly, asserts that children are in danger of psychological harm from interactions with emotionally wrought voters. This is a more nuanced objection, to which I would offer as evidence a case study: myself. I attended the Beebe School from 1983 to 1989. At that time, lawn signs were considered socially unacceptable in Melrose, and I came from a non-political family, so my only opportunity to see politics explicitly at work as a young child was when candidates and political supporters would show up to hold signs and voters would come to cast their ballots on election day at my school. This was a very positive experience that helped to shape my curiosity about politics later in life. I would hate to see children in Melrose deprived of that chance.

In conclusion, I find the arguments that voters pose a physical or emotional threat to children to be spurious. More broadly, I am rather disheartened by the notion that voters are a class of people who should be shielded from the eyes of the youngest among us. Children should have every opportunity to see the workings of democracy from their earliest years, including (and perhaps especially) when participating in that process results in objectionable behavior among adults, as those observations can lead to eye-opening conversations among children, teachers, and parents that can make them better future civic stewards.

The question of where polling should take place involves many complicated questions, and given my present state of information I do not have a final opinion on where I would prefer to see polling locations. I am confident, however, that the question of potential harm to children should not be a factor in that decision.

Respectfully Yours,

Jim Bennett

To: City Council
Subject: Please don"t consolidate voting
Date: Friday, March 4, 2022 6:49:44 PM

Dear Melrose City Councilors,

Thank you for your service to our city.

Thank you for voting not to permanently consolidate voting at the middle school. Our goal should be to make voting as accessible as possible so all citizens can participate in our democracy. Closing polling locations makes it less convenient and creates a barrier for voting. This makes us more like states I do not want to live in. If MA makes no excuse mail-in voting permanent, perhaps there could be some justification, but not until that is an option.

One benefit of having it at schools is that schools can do fund raising bake sales to pay for programs that benefit our children.

I agree that voters should not have access to the school buildings so it is a little shocking that we do not already have someone watching the gymnasium door to ensure no one can enter classroom areas. I would prefer you look into solutions for that than move everything to the middle school.

I also thought there were restrictions on electioneering near polling locations so campaigning can't be done within 150 feet. If that isn't respected, then police should be called to remove them. If 150 feet is too close, then perhaps look into options for the city to increase that distance. At Horace Mann anyway, the limit is beyond school property and seems reasonable.

I would also much prefer exploring options to improve accessibility issues for polling locations that are not in compliance rather than close them.

Thank you,
Michelle

Re: Permanent Centralized Voting

First and foremost, thank you for all you do for our city and its residents.

I would like to offer you the following facts (not opinions) in support of permanent centralized voting.

1. *It is VOTER FRIENDLY. This location could not be more centrally located for all residents—is handicapped accessible—ensures that no matter where you live you know your polling place. Why not make it easy for all our residents including our many new property owners? Our population has grown. This eliminates confusion with the redrawing of our precincts and wards. The argument that it isn't convenient for the elderly is an opinion. (Being born in 1948 allows me to state this as fact). Both seniors and younger residents who initially thought a centralized location was a bad idea changed their mind once they saw how smooth an operation it was.*

2. *It is CANDIDATE FRIENDLY. Unlike our recent municipal election, upcoming elections for State and Federal offices will be contested. Centralized voting allows candidates to send supporters/sign holders to one location. When the polls close, their representatives, as well as any media, need go to only one site to collect unofficial results.*

3. *It is STAFFING FRIENDLY. There are many reasons to remember 2020. One is that in a pandemic with no blueprint, the addition of early in-person voting, the addition of mail in voting, the presidential primary and general election were held in the middle school gym with excellent outcomes, thanks to the leadership of Joanne Perperian and the members of the Board of Registrars. As a precinct warden I can attest to how much better it was to have everyone in the same location—it was staffing efficient, budget efficient and security efficient. During the recent* municipal election, we were not fully staffed BUT because we were all in the same location, we were able to cross cover without issue. With the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

advent of mail in voting, at the end of day the ballot mail box outside City Hall must be checked at 8 P.M. for last minute ballots. We can't shut down our machines or begin end of night counts until those ballots have been documented at City Hall, divided by ward and precinct and delivered to be cast into the tabulators. Having one place to deliver these is far more efficient. As we saw in 2019 every vote counts!

4. As an aside: the idea that adding a ramp at the Winthrop School to address handicapped accessibility may solve one problem but would certainly create others. Having voted there for over 40 years and worked there for several years prior to 2020, I am comfortable in saying this suggestion does not work. It would take another letter to properly discuss.

It is with the greatest respect that I ask that you make centralized voting in Melrose permanent and put this issue to rest. If we do things the way we always have, we will never move forward.

**** **CAUTION:** This email originated outside the City of Melrose. Exercise caution. **DO NOT** open attachments or click links unless you recognize the sender and know the content is safe. ****

To; Melrose City Council,

My name is Joe Tully & I have been a Melrose Poll worker for the past several years. I have worked at the Horace Mann School, at the Lincoln School and most recently at the Middle School gym. I have worked as a check in Inspector, as a Clerk & most recently as a precinct Warden. So I think I have some reasonable experience working at the polls and would like to offer the following comments regarding a " Permanent Centralized Voting" location.

- The present set up at the Middle School is a wonderful One Stop Voting location. If you are unsure where to vote, on site staff will direct you to the correct precinct within one of the connected gyms. No longer will we have to send a voter to another location, driving & parking and taking more of their valuable time.

- With Centralized voting, we no longer have to struggle with poor phone connections from the Lincoln gym back to City Hall as we seek answers to questions about voter eligibility.

- Having on site City Clerk & Registrar of Voter staff with their tablets allows quick answers to voter issues especially with many of the new voters and new residents.

- The Middle School Gym area has a very accessible parking lot and no stairs for Seniors to have to navigate.

- With Centralized Voting, no longer will all the elementary schools have their routines disrupted, teacher parking taken, lunch space taken, along with pick up & drop off times being interrupted.

- Candidates for Office along with any Ballot questions can now have their supporters & opponents all centrally located vs being dispersed all around the City on election days.

- In this day & age where public opinions can become somewhat heated, I feel that a Centralized location offers better security both for the voting staff as well as the voters.

- A Centralized location definitely offers a better sense of community, as neighbors & friends see each other outside of their own corners of Melrose.

- As recent election experience has shown, having all the elections workers in one location allows for good cross training and assistance between wards & precincts as issue arise or staff becomes busy.

- There is probably an economy of scale in a Centralized location with the DPW & School staff doing the set up the day before & the take down right after the polls close in just one location vs working at all the elementary schools & City Hall for set up and take down of the polls.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

I am sure there are many additional good reasons to continue with the centralized Middle School voting that you have already thought of & considered. So please consider my comments as a YES to continue this very successful way for our residents to cast their votes going forward.

YES for Permanent Centralized Voting.

Joe Tully

Ghobrial, Andrew

From: Foote, Kristin
Sent: Friday, March 18, 2022 1:09 PM
To: City Council
Cc: Board of Registrars of Voters
Subject: Election Polls
Attachments: Laws.Regulations.Elections.pdf; Order 2020-135.pdf; Chronologic correspondence 2009-2022.pdf

Good afternoon Council,

President Cinella asked that I provide information and data to assist in deliberations on **Order 2022-69** *Request for Permanent Consolidation of Polling to the Melrose Veterans Memorial Middle School gymnasium complex*.

Prior to 2020 Melrose registered voters voted at polling locations in Ward specific elementary schools – Hoover, Lincoln, Beebe, Roosevelt, Horace Mann, Winthrop - as well as several municipal buildings including the City Council Chamber in City Hall and the Julian Steel House operated by Melrose Housing Authority. Due to COVID-19 concerns for the safety and health of voters, residents, students and elections staff, a consolidation of all locations to the middle school gym complex occurred in June of 2020 (disparate impact report attached: note updated with 2020 Census statistics). At that time the legislature also expanded voter options including an historic *no-excuse* vote-by-mail option. To accommodate ballot receipt by mail a secure ballot box was purchased and installed next to City Hall. Early in-person, UOCAVA and absentee voting continued to be additional options. An unprecedented 87% or 18,338 registered voters cast ballots in 2020. The vote-by-mail provision is currently lapsed but lawmakers hope to restore mail-in alternatives and stand up a version of no-excuse this year.

In April of 2021, the former City Clerk notified the Secretary of the Commonwealth Elections Division ("SOC") of concerns surrounding accessibility issues at several municipal buildings including City Hall (4-1, 6-1), Hoover School (7:1,2), Roosevelt School (1:1), Winthrop School (4:2, 6:2), the Julian Steele House (1:2) and the MVMMS gym (all). An SOC representative conducted a site visit and provided an accessibility report. The city reviewed the findings and was able to remediate items for the City Council Chambers, Hoover School and the MVMMS gym and brought these locations into compliance.

The following locations presently meet polling location standards without additional modification: Beebe, Horace Mann, Hoover, Lincoln, MVMMS gym complex, Roosevelt, City Council Chambers. As you know running an election necessitates support and coordination between multiple city partners. I reached out to the following subject matter stakeholders should you have specific questions, and they stand ready to respond:

- **Public Safety**
  Chief Lyle
  Chief Collina

- **Emergency Management**
  Alan Alpert

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- **DPW**
  Jim Troup

- **Melrose Public Schools**
  Superintendent Kukenburger

For reference attached to this email are state and federal election laws, the original consolidation information, and a chronological list of historical documents

Timing Considerations
Polling locations are subject to the SOC's review and approval and once confirmed the Elections office will inform the SOC of poll location(s). Later this spring/early summer, registered voters will be mailed polling location postcards. The details are due to the print vendor by mid-May to replenish our bulk postage permit and print and mail the postcards the first week of June. The State Primary has been set for Tuesday, September 6, 2022, and as noted Melrose Public Schools will be in session.

Financial Considerations
Generally election costs run between $30-35,000 including poll workers, DPW set up, police details, supplies, ballots, postage, envelopes, print services, professional staffing and equipment maintenance/programming. Variables include location set up and police presence (Mass Gen Law requires one officer per polling location).

I hope you find this information helpful.
Best,

Kristin Foote

PART I. ADMINISTRATION OF THE GOVERNMENT

TITLE VIII. ELECTIONS

CHAPTER 54. ELECTIONS

VOTING PLACES

Chapter 54: Section 24. Designation of polling places

Section 24. The aldermen in cities, except where city charters provide otherwise, and the selectmen of towns divided into voting precincts, shall, twenty days at least before the biennial state or annual or biennial city election and ten days at least before any special election of a state or city officer therein, designate the polling place for each voting precinct and cause it to be suitably fitted up and prepared therefor. In a city or town which has provided voting booths such booths may be placed in the public ways of such city or town, provided said ways are left reasonably safe and convenient for public travel. It shall be in a public, orderly, and convenient portion of the precinct; provided, however that if the aldermen or selectmen determine that the public convenience would be better served, the aldermen may designate a polling place in an adjacent precinct of a city, and the selectmen may designate a polling place in another precinct of a town or may house all polling places in a single building within the town. In any city or town, if the polling places for two or more precincts are located in the same building and the total number of registered voters in any such two or more precincts does not exceed three thousand, only one set of election officers need be appointed for such precincts, but separate ballot boxes and voting lists for each precinct shall be used. If, in a town of five precincts or less, all of which are located in one building, the selectmen so vote, only one warden need be appointed to supervise all such precincts, and the number of inspectors shall be determined by the selectmen, without disturbing the balance between the political parties. There shall, however, be one clerk appointed for each such precinct. Alcoholic beverages shall not be sold in any portion of a building which is designated as a polling place, during voting hours or while ballots are being counted therein. When the polling places have been designated in the city of Boston, the board of election commissioners of said city may post in such places as it may determine a printed description of the polling places designated and may give further notice thereof; and when the polling places have been designated in any other city or in any town, the aldermen of such city in at least five public places in each precinct thereof, and the selectmen of such town in at least three public places in each precinct thereof, shall forthwith post a printed description of the polling places designated and may give further notice thereof. When a polling place in a voting precinct is changed from one location to another, the board of election commissioners in the city of Boston, the aldermen in any other city or the selectmen In any town shall cause printed descriptions of such polling place to be posted in such public places in such precinct as they determine and shall give notice by mail to each residence of one or more registered voters therein.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Changes to Regulations: Chapter 51.00: Polling Place Accessibility for Elderly and Handicapped Voters

In 950 CMR § 51.01, replace the entire section with the following:
950 CMR § 51.00 implements the federal Voting Accessibility for the Elderly and Handicapped Act, 42 USC §§ 1973ee to 1973ee-6 (the "Act"), and Amended Article 114 of the Massachusetts Constitution and applies to all Massachusetts elections. The purpose of 42 USC 42 USC §§ 1973ee to 1973ee-6, Amended Article 114 of the Massachusetts Constitution and 950 CMR § 51.00 is to promote the fundamental right to vote by improving access for handicapped and elderly individuals to polling places and the voting process.

In 950 CMR 51.02(6), add the following new section as (a) and re-designate the remaining sections accordingly:
(a) For every state, federal, municipal election, preliminary or primary, either regular or special, each polling place shall have at least one accessible voting unit that is usable by people with disabilities. Any accessible voting unit must first be approved for use by the state secretary. Accessible voting units shall be located within a polling place so as to be readily available for use by voters during the voting hours.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

950 CMR 51.00: POLLING PLACE ACCESSIBILITY FOR ELDERLY AND HANDICAPPED VOTERS

Section

51.01: Purpose
51.02: Accessibility Defined
51.03: Exemptions

51.01: Purpose

950 CMR 51.00 implements the federal Voting Accessibility for the Elderly and Handicapped Act, 42 U.S.C. §§ 1973ee to 1973ee-6 (the "Act"), and applies to all Massachusetts elections in which a federal office appears on the ballot. The purpose of 42 U.S.C. §§ 1973ee to 1973ee-6 and of 950 CMR 51.00 is to promote the fundamental right to vote by improving access for handicapped and elderly individuals to polling places for federal elections.

51.02: Accessibility Defined

Section 3(a) of the Act, 42 U.S.C. § 1973ee-1(a), requires every city and town to assure that all polling places for federal elections are accessible to handicapped and elderly voters, unless the Secretary exempts them. A polling place is "accessible" to handicapped and elderly voters, for the purpose of sections 3(a) and 8(1) of the Act, 42 U.S.C. §§ 1973ee-1(a), 1973ee-6(1), only if all of the following requirements are met:

(1) Site Access. A clear, reasonably lit, unobstructed path of travel must be provided from the designated spaces in the parking lot, and from the street, to the accessible entrance to the building where the polling place is located. Such path of travel shall have a continuous common surface, not interrupted by steps or abrupt changes in level greater than ½ inch.

(2) Parking. If a parking lot is available on the premises of the polling place, then the following requirements apply:

(a) Pursuant to the Americans With Disabilities Act (ADA) Accessibility Guidelines (4.1.2 (5)), the number of required handicapped parking spaces is:

Total no. of parking spaces	No. of handicapped required
1 - 25	1
26 - 50	2
51 - 75	3
76 - 100	4
101 - 150	5
151 - 200	6
201 - 300	7
301 - 400	8
401 - 500	9
510 - 1,000	2% of total
1,001 and over	20 plus 1 for each 100 over 1,000

(b) For parking lots striped prior to September 1, 1996:

1. The handicapped parking spaces shall be eight feet wide and have an adjacent four foot access aisle which is painted or striped yellow. The lot shall be reasonably lit.
2. Identification of handicapped spaces shall be by a sign at each space or pair of spaces. The signs shall be at a height of not less than five feet nor more than eight feet to the top of the sign. The sign shall also contain the International Symbol of Accessibility and may include wording identifying its use.

(c) For parking lots striped after September 1, 1996:

1. The handicapped parking spaces shall be eight feet wide and have an adjacent five foot access aisle which is marked by high contrast painted lines or other high contrast delineation. The lot shall be reasonably lit.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

51.02: continued

2. There shall be at least one "van accessible" space, but not less than one, per eight accessible spaces. The van accessible space shall be eight feet wide and have an adjacent 8 foot wide access aisle which is marked by high contrast painted lines or other high contrast delineation. The lot shall be reasonably lit.

3. Identification of handicapped spaces shall be by a sign at each space or pair of spaces. The signs shall be at a height of not less than five feet nor more than eight feet to the top of the sign. The sign shall also contain the International Symbol of Accessibility and may include wording identifying its use. Van accessible spaces shall include the words "Van Accessible."

(d) If a sidewalk is provided at such parking spaces, a curb cut (sidewalk ramp) shall be installed at each space or pair of spaces. The slope of the curb cut shall not exceed 1:12.

(e) If no parking lot is available on the premises of the polling place, at least one on-street parking place in front of the polling place must be at least temporarily designated as a handicapped parking space. Identification of the handicapped space shall be by the sign provided in 950 CMR 51.02(2)(c)3..

(3) Entrance.

(a) At least one entrance to the building must be accessible to physically disabled persons. If the main entrance to the building is not accessible, signs must be posted directing persons from the ordinary path of travel to the accessible entrance.

1. If the main entrance to the building is not accessible, the path of travel to the accessible entrance shall be the same or a substantially similar distance as the path of travel to the main entrance.

2. If the main entrance is not the accessible entrance, the door to the accessible entrance shall be unlocked and capable of being operated without assistance during the hours the polling place is open and at the same hours as the main entrance.

(b) The approach to the accessible entrance shall be a paved walk or ramp with a non-slip surface, uninterrupted by steps or abrupt changes in level greater than ½ inch. Such entrance shall have a level space 60 inches from the door on the interior and exterior of the doors.

(c) Doors to such entrances shall be a minimum of 32 inches clear, measured at 90°. No door threshold shall be higher than ½ inch above the floor on either side. Lever handles or other accessible hardware must be provided on doors, so that they may be operated with a closed fist.

(4) Ramps:

(a) If the entrance has stairs, a ramp must be provided. A permanent ramp must comply with the following:

1. The slope of the ramp must be no steeper than 1:12.
2. The width of the ramp shall not be less than 48 inches.
3. Two pairs of handrails must be set on both sides of the ramp. Such handrails must be round or oval in shape and set in pairs, one at a height between 34 and 38 inches and a lower rail set at a height between 18 and 20 inches.

(b) If it is impractical to install a permanent ramp, portable ramps shall be provided. Portable ramps shall have a slope as close to 1:12 as possible, and if a portable ramp has no handrails or side walls, it must have wheel guards at least two inches high on both sides. Portable ramps may be used to gain access from the parking lot or street to the sidewalk as well as at the entrance to a building. Portable ramps shall be securely anchored.

(5) Building Interior.

(a) All interior doors, approaches, and ramps necessary within the building to obtain access to the polling place must comply with 950 CMR 51.02(3) and (4).

(b) An accessible route which provides a continuous unobstructed path at least 36 inches wide shall be maintained inside the polling place and shall coincide with the route for the general public.

(6) Voting Equipment.

(a) In every polling place, a specimen ballot must be posted at a height no greater than 48 inches.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

51.02: continued

(b) Where paper or punch-card ballots are used, at least one marking shelf at each polling place (at a primary where punch-card booklets are used, one for each party) must provide clear space under the shelf not less than 30 inches wide, at least 27 inches clear to the underside of the shelf, and not more than 32 inches in height to the top of the shelf, and must contain privacy barriers on both sides of the shelf. For this special marking shelf, the handle of any stylus used for punching punch-card ballots shall be at least one inch thick and at least three inches long.

(c) Where voting machines are used, a specimen ballot must be placed in at least one machine at each polling place, at a height no greater than 48 inches. For voting machines which have any levers higher than 48 inches above the floor, a "reacher" must be made available to assist disabled persons in reaching the upper levers.

(7) Variances. A city or town may apply to the Architectural Access Board, under 521 CMR 3.00(4.1.1), for a variance from the accessibility requirements of 950 CMR 51.02 or, to the extent that they apply to any polling place, from the requirements of the Architectural Access Board's regulations in 521 CMR 3.00. Notice of an application for any such variance shall be given in the manner required by 950 CMR 51.03(4)(b), and shall also be given to the Director of Elections. No such variance shall be allowed which substantially impairs the accessibility of a polling place to handicapped and elderly voters.

(8) Time Accessibility Required. All non-exempt polling places must be accessible no later than three weeks before the first federal election of an even-numbered year.

51.03: Exemptions

(1) Delegation to Director of Elections. The Secretary delegates to the Director of Elections (the "Director") the authority to determine whether a polling place is exempt from the accessibility requirements under section 3(b) of the Act, 42 U.S.C. § 1973ee-1(b), and under 950 CMR 51.03.

(2) Emergency exemptions. In an emergency under section 3(b)(1) of the Act, 42 U.S.C. § 1973ee-1(b)(1), an exemption may be applied for and determined by telephone, but both the city or town and the Director shall confirm their communications in writing. Mere failure of the city or town to make adequate and timely plans and arrangements does not constitute an emergency. If an exemption is allowed, it applies only to one election, and the city or town must exercise its best efforts to find another accessible polling place, and if none is available, to provide whatever assistance is possible to handicapped and elderly voters. If an emergency exemption is allowed, handicapped or elderly voters assigned to such an emergency exempt polling place may vote by absentee ballot in the office of the city or town clerk or election commission without applying in advance. The procedures set forth in the second paragraph of M.G.L. c. 51. § 59 shall apply to such voters, except that the absentee ballot envelope shall be marked "Emergency Polling Place Exemption".

(3) Non-availability Exemptions: Standards. In determining under section 3(b)(2)(A) of the Act, 42 U.S.C. § 1973ee-1(b)(2)(A), that all potential places have been surveyed and that no accessible place is available, nor is the city or town able to make one temporarily accessible in the area involved, the Director shall consider the following factors:

(a) Whether each location has been studied by a trained person to determine whether or not it is accessible.

1. Polling places should not be presumed to be accessible simply because there are no obvious barriers, but 950 CMR 51.02 must be applied.
2. A trained person is one with knowledge of what constitute structural barriers to handicapped individuals.
3. Handicapped persons, representatives of handicap groups or professionals who work with handicapped individuals should be consulted.
4. If a location is inaccessible, then the city or town should either seek an alternative accessible location or seek to have the barriers removed.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

51.03: continued

(b) Whether the owners or proprietors of the building have been consulted regarding the modifications. If the owners or proprietors are unwilling to make the modifications, then an alternative location should be sought. Possible locations include those which are currently accessible and those where the owners or proprietors are willing to make necessary modifications.

(c) Whether an estimate of the cost to make the modifications has been obtained from a qualified person (construction contractor, carpenter), and whether different options for removing the barriers have been explored (*e.g.*, temporary ramps).

(d) With respect to polling places in inaccessible government buildings, whether the city or town has urged government officials to make the modifications necessary for the buildings to be accessible.

(e) The record of the city or town's percentage of polling places in compliance in the past.

(f) The city or town's expressed plans for providing an accessible polling place in the future.

(4) Non-availability Exemptions: Procedure.

(a) The city or town body responsible for selecting polling places under M.G.L. c. 54, § 24 (city council, board of selectmen, or election commission) must apply in writing for any exemption under section 3(b)(2) of the Act, 42 U.S.C. § 1973ee-1(b)(2). The application must be filed with the Director of Elections, under the penalties of perjury and in a form prescribed by him, not later than 180 days before the first federal election of an even-numbered year.

(b) Not later than the application deadline, the city or town must give notice that it has applied for the exemption, by posting notice on the principal bulletin board, sending copies to all local news media, and mailing copies to the local council on aging, to any municipal handicapped office or commission, to the state Office of Handicapped Affairs (One Ashburton Place, Room 1305, Boston, MA 02108), and to any additional organizations which the Director may prescribe. The notice shall state the designation and address of the polling place or places for which exemption is sought, the reasons for the application, the location at which a copy of the application may be inspected, and the fact that any person may file a written response within 30 days with the state Director of Elections, One Ashburton Place, Room 1705, Boston, MA 02108, telephone (617) 727-2828 or (800) 462-8683.

(c) Any person may file with the Director a written response to an exemption application within 30 days after it is filed.

(d) The Director may, in his discretion, seek further information from the city or town or hold an informal hearing before himself or his designee.

(e) Not later than 90 days before the first federal election of an even-numbered year, the Director shall notify the city or town in writing whether an exemption is allowed and of the reasons for the decision. The period of an exemption shall be two calendar years, beginning with an even-numbered year. Renewal of the exemption requires a new application.

(5) Alternative Voting Methods. As required by section 3(b)(2)(B) of the Act, 42 U.S.C. § 1973ee-1(b)(2)(B), handicapped or elderly voters assigned to an exempt polling place may vote by absentee ballot, either by mail or in the office of the city or town clerk or election commission, if they previously apply in writing, under M.G.L. c. 54, §§ 86 through 103Q. Current state law prevents assigning such voters to another polling place, as well as "curbside voting" outside the polling place on election day.

REGULATORY AUTHORITY

950 CMR 51.00: 42 U.S.C. §§ 1973ee to 1973ee-6; c. 54, § 37.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE

CITY CLERK
City Hall, 562 Main Street
Melrose, MA 02176
Telephone - 781-979-4116

AMY KAMOSA
City Clerk

To: Mayor Paul Brodeur
From: Amy Kamosa
Meeting Date: July 9, 2020
Subject: A request for city council approval of the temporary consolidation of polling locations to the MVMMS
Order #: ORDER-2020-135

The Board of Registrars of Voters and the City Clerk's office formally request that the city council approve the temporary consolidation of polling locations to the MVMMS Gymnasium for the upcoming elections in September and November of 2020. These changes are being made in an effort to support the health and safety of residents, voters, and elections staff during the Covid-19 pandemic. For these two elections, all seven voting wards of the city will vote in the MVMMS gymnasium on election day. This election day voting location change will be done in conjunction with the expansion of in-person early voting opportunities for both elections and expanded opportunities for no-excuse mail-in voting options for all registered voters in the city. We ask that this request is approved as soon as possible so that extensive communication and education campaigns to all city residents regarding their many voting options can begin. Unlike current polling locations, the MVMMS gym provides a separate entrance and parking, enough space to allow for social distancing, and the ability to close off the polling location from the rest of the school building.

FINANCIAL IMPACT: N/A

RESULT:	**PASSED [8 TO 3]**
MOVER:	Christopher Cinella, President
SECONDER:	Robb Stewart, Ward 3
AYES:	Grigoraitis, Tramontozzi, McNaught, Stewart, Eccles, Cinella, Migliorelli, Jamaleddine

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

City of Melrose
Proposal for Covid-19-Related Consolidation of Polling Locations

Background

Covid-19 has forced governments and the public to rapidly adapt and adjust behaviors to support the health and safety of the community. Two critical elections are scheduled during a predicted increase (covid19.healthdata.org) in infection rates -- a State Primary on Sept. 1, and the Presidential Election on November 3. The elections office and Board of Registrars have spent multiple weeks evaluating how best to preserve both election integrity and the health and safety of all Melrosians. Despite the trade-offs associated with the potential disruption and accessibility challenges of shifting polling locations, we respectfully request that the City Council approve this temporary consolidation to a single site (with 14 separated precincts), for the September and November 2020 elections.

It is important to understand that voting in-person on election day is just one option for registered voters to cast ballots, and any decision on polling location changes should take all voting options into consideration. Voters will have three choices -- mail-in, in-person early voting (two weeks including weekend days in November; one week including a Saturday in September), or voting on election day at the polling location. Data from June 23, 2020 primaries in New York and Kentucky, combined with multi-year data from states that conduct all elections using vote-by-mail systems, indicate that Melrose should expect 70-80% of voters to take advantage of vote-by-mail and/or early voting. In Kentucky, 800,000 of a total of approximately 1 million voters submitted mail-in ballots. In New York, 1.7 million voters requested absentee ballots compared to 160,000 in the 2016 primary. If these trends hold true for Melrose, assuming record 90% turnout, we can expect between 12,500 - 14,500 mail-in/early voting ballots cast, and between 3,500 - 5,500 in-person voters on election day over 13 hours.

State Legislation is in the final stages of passage to allow for: no-excuse absentee voting with ballot applications mailed directly to voters; city council approval of voting location changes; and relaxed requirements for the number of poll workers per precinct. The purpose of this request now is to provide the city council with all the information possible to make this decision now, so that we can begin the process of educating voters about their complete array of options as soon as legislation is finalized. The Melrose elections office would like to formalize a complete voting plan for the city by July 1 to allow time to execute a comprehensive communication strategy to ensure all voters are made aware of their voting choices before absentee ballots are available in mid-July.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Existing Conditions of Current Polling Locations

- The City of Melrose currently has eight designated polling locations
    - **Hoover, Lincoln, Winthrop, Horace Mann, & Roosevelt elementary school All Purpose Rooms/ cafeterias**
    - **The Beebe School All Purpose Room --**Beebe school is currently leased by SEEM collaborative to serve high-needs students
    - **City Hall Council Chamber**
    - **Melrose Housing Authority's Steele House Common Room** -- This residential high rise is home to both seniors and disabled residents

Physical Challenges of Current Polling Locations Related to Covid-19

- Locations such as Steele House and Beebe School pose an obvious serious exposure risk to the building populations
- Locations such as City Hall and the Horace Mann School are not suited to meet current best-practices and guidelines related to social distancing
- Remaining sites are elementary school all purpose rooms and cafeterias in already crowded buildings -- most serve as cafeterias, gyms, reading libraries, after school care headquarters, and may be used as additional teaching space in the fall . Students will need to be in the space the morning immediately following the election. Given the amount of supplies and materials present in those spaces, thorough disinfection and cleaning will be time consuming and challenging.
- Traditional voting booths do not provide six-foot buffers; small tables will be rented and will need to be spread throughout polling precinct locations
- Many of the elementary school locations have limited cell phone service in the buildings as they were built to meet cold-war bomb shelter specifications, which consistently hampers communications making same-day procedural changes difficult.

Current Poll Worker Staffing Information & Potential Covid-19-related challenges

- In a typical election, the city employs more than 90 poll workers in full or part-time roles.
    - full- time day is ~15 hours long-- nearly 90% of our workers are full-time
- Average poll worker in Melrose is approx. 75 years of age
- Current state law mandates the number of poll worker positions we must fill (6 per precinct, two

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

check-in, two check-out, a clerk and a warden; 84 poll workers in all.) A waiver can be applied for, and pending legislation related to Covid-19 may provide some flexibility.

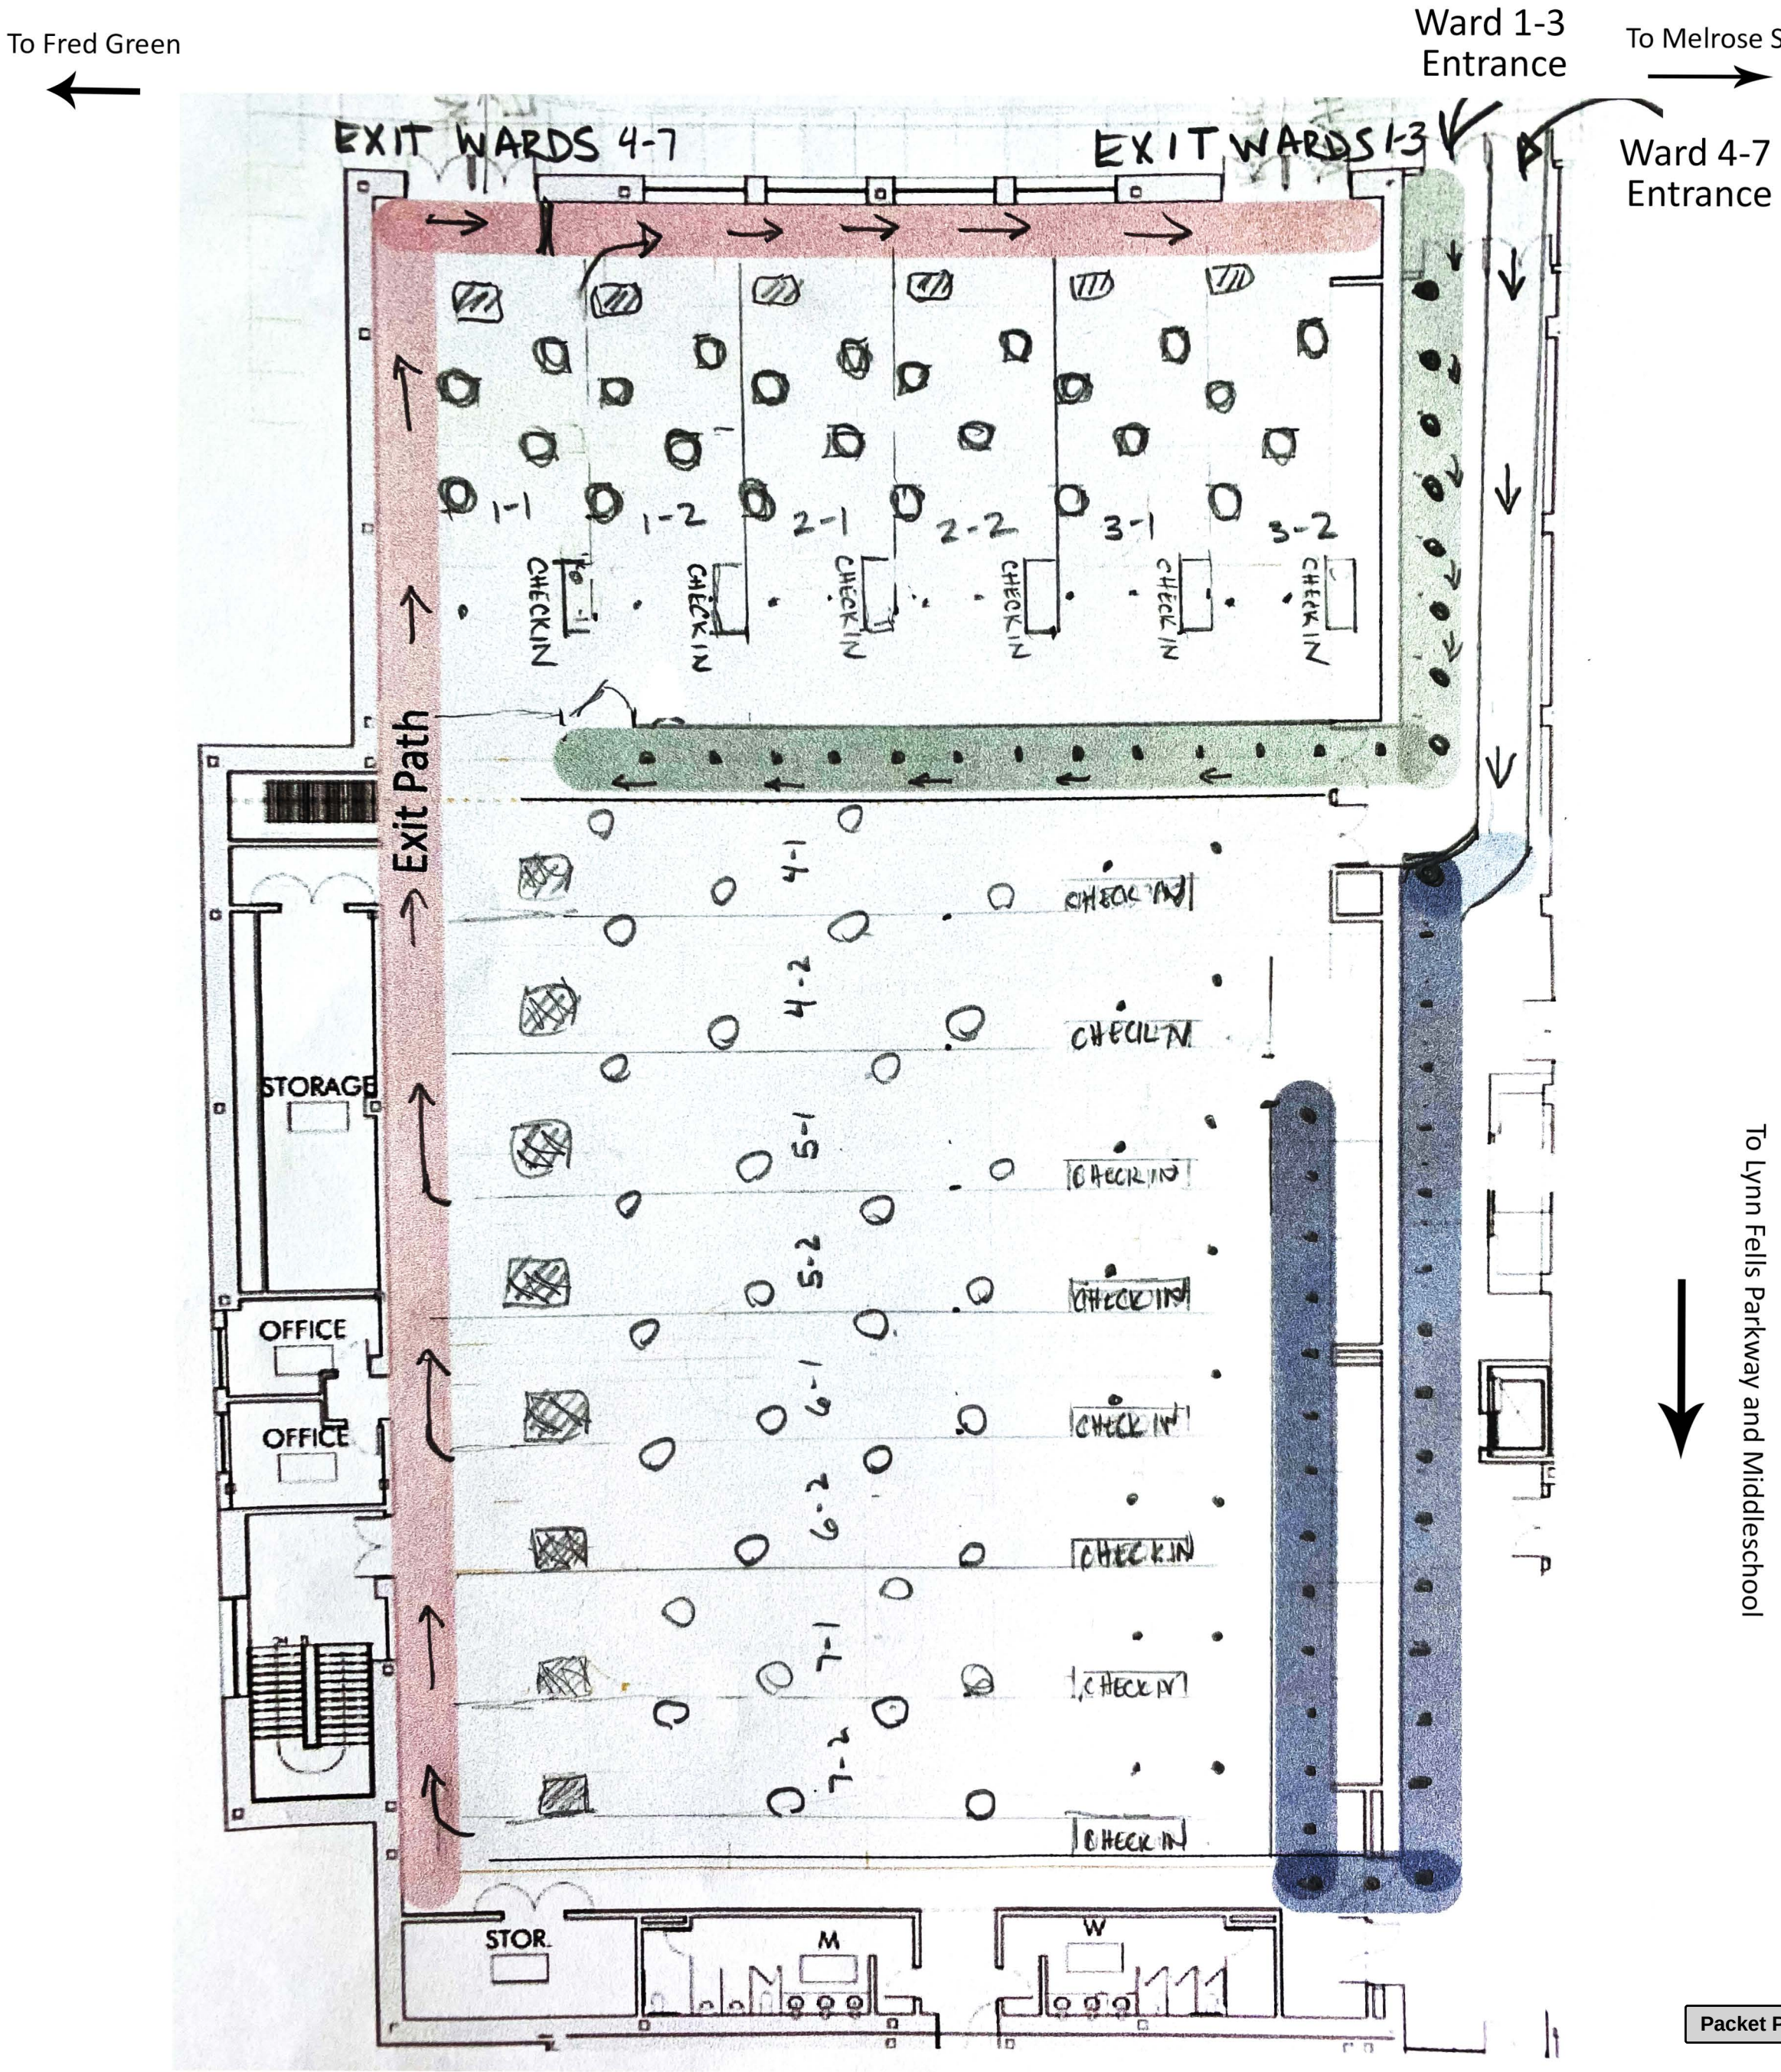
- To date, approx. 50% of Melrose poll workers have indicated that they are not comfortable working the polls in September-- including a large number of experienced wardens and clerks.
- In a typical election, up to ten poll workers opt-out of working within the final week before election day.
    - This results in challenges filling these slots -- challenges are exacerbated by the distributed locations. Poll workers can not easily be "pulled" from another polling location to fill a gap.
    - The Elections Office must plan for a larger number of poll workers opting out of working at the last minute or being forced out by illness, depending on possible spikes in local infection rates. With several sets of spouses working in the same precinct, there is a possibility that quarantining requirements could eliminate a number of workers all at once.
- Additional staffing and police details will be required for crowd and line management at each location
- Staff will be needed to process all mail-in and early voting ballots through their respective precinct tabulators as well. (The maximum rate that tabulation machines can process ballots is between 7-9 per minute.)

Why the middle school gymnasium complex?

- Previously identified as a general contingency location during emergency preparedness planning
    - large size; central location; generator; meets ADA requirements
- Separate entrance off Melrose St.
- Can be closed off from the rest of MVMMS
- Nearly 17,000 square feet of space
- Overflow potential in the adjacent Marcoux Gym
- Multiple exits and entrances for flexible traffic flow to ensure social distancing
- Open, clear space allows for efficient and effective disinfection before school resumes the following day.
- Single location allows for increased procedural consistency and control across all wards and precincts.
    - Allows elections staff and Board of Registrars to be on-site to address questions and concerns, and to effectively communicate to poll workers in real-time--this is particularly important due to expectation that we will have many first-time poll workers and an overall decreased number of workers.
- Decision-making included consultation with school committee, health director, mayor's office and school superintendent

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Back parking lot provides a turn-around (Council on Aging bus) and voter drop-off zone.



General On-Site Procedures and Logistics:

- Voting will still take place by ward and precinct.
  - Socially distanced lines for each precinct will distribute voters throughout the space
  - A combination of cones, stanchions, staff, and signage will ensure voters check-in and cast their ballot in the correct precinct tabulators
  - Separate doors for entrance and exit.
  - Poll pads (modified iPads, with voter registration database) will allow staff to search for a voter's ward and precinct in real-time.
  - Police details will be able to support crowd control in addition to guarding ballot boxes-- one police officer will have line of sight to multiple boxes and tabulators.
  - Parking available in multiple lots surrounding the school complex as well as Melrose Street; MBTA bus stop is 0.3 mile away.

Evaluation of Potential Disparate Adverse Impact on Access to the Polls

Evaluation of potential disparate adverse impact on access to the polls on the basis of race, national origin, disability, income or age related to consolidation of Polling Locations to the Melrose Veteran's Memorial Middle School Gymnasium Complex—Melrose Massachusetts

The Melrose Veteran's Memorial Middle School has been chosen as an alternate polling location for the September and November 2020 elections in an effort to provide the most efficient, fair, and accurate election possible for the registered voters of Melrose, within the challenges and constraints associated with the current global Pandemic of Covid-19.

Location and Accessibility:

- The Veteran's Memorial Middle School Gymnasium is in the rear of the Middle and High School complex located at 360 Lynn Fells Parkway.
    - This location is centrally located within 2 miles of nearly every household in the city—this metric is used by DESE to determine if a school district is required to provide bussing to students.
    - It is 0.3 miles from an MBTA bus stop
    - Built in 2007, the gym meets all current ADA requirements for handicapped accessibility.
    - There are 60 parking spaces in the upper lot near the gymnasium with an additional 200+ parking spaces in the main front lots and adjacent side streets.
    - There is a turn-around/ drop off zone for voters receiving rides to the polls

Evaluation of Voters by Age

- The City of Melrose has a voting population of 20,212. Average voting age across the city is 51 years old, with precinct breakdown as follows:
    - 1-1 51
    - 1-2 52
    - 2-1 50
    - 2-2 55
    - 3-1 52
    - 3-2 53
    - 4-1 50
    - 4-2 51
    - 5-1 47
    - 5-2 48
    - 6-1 52
    - 6-2 51
    - 7-1 48
    - 7-2 50
- No single ward or precinct indicates a higher than average vulnerable senior population

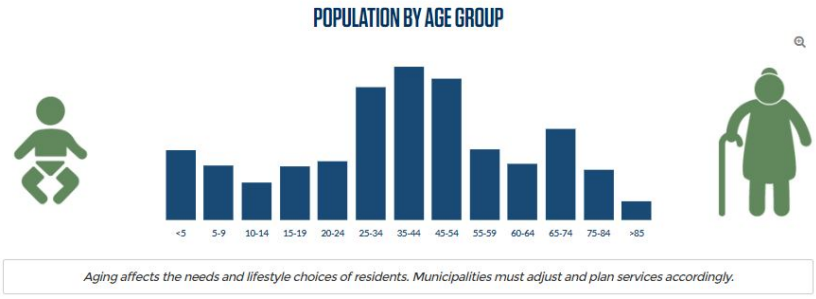

Figure 1 Source: ClearGov

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Rides will be provided via the Council on Aging to the polls throughout the early voting period, and on Election Day. The Council on Aging also plans to offer support for absentee voting instructions to seniors.

Race and Nationality and Socioeconomic status

US Census American Community Survey data from 2018 indicates that 89% of Melrose residents (not necessarily registered voters) identify as white, 2.6% African American, 5.9% Asian, and 3.7% Hispanic or Latino. Less than 5% (4.1%) of residents are considered to be persons living in poverty according to the U.S. Census.

Comparing other similar towns that have permanently designated single consolidated polling locations: Wakefield; Stoneham; Reading; North Andover; Burlington – Melrose is similar in population and socioeconomic status—its small geographic size makes it an even more suitable candidate for a single polling location as it allows for more residents to walk to the polls compared to other towns. (See attachment)

Language

As determined by the The Language Minority Provisions of the Voting Rights Act, Section 203 Coverage Formula—Melrose does not have any minority population that would fall under this jurisdictional requirement to provide additional language supports in communicating polling location changes

The number of United States citizens of voting age is a single language group within the jurisdiction:

- Is more than 10,000, or
- Is more than five percent of all voting age citizens, or
- On an Indian reservation, exceeds five percent of all reservation residents; and
- The illiteracy rate of the group is higher than the national illiteracy rate

However, to reach all voters in the city, city website offers direct Google translation of all pages. The city also has translation services through University of Massachusetts if needed to provide information to voters about polling location changes.

Access to City Communications and Information

95% of Melrose residents over the age of 25 are high school graduates, 92% of households have a computer in the home, and 89% of households have internet access. A free weekly newspaper is available by subscription to all households in the city. The city will post a banner over Main St., and in the kiosk in front of city hall to indicate polling location changes. Additional outreach will include public access television announcements and DPW LED signage rotating various intersections.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

City of Melrose -- Communications Plan
Temporary Consolidation of Polling Locations

Week of July 12: Communication Phase 1
Public Awareness regarding all voting options

- Direct Mail postcard to all households with message that voters have three options to cast their ballot on September 1 and November 3
    - Absentee by returning the application they receive from the state and subsequently returning their ballot
    - Early voting at Memorial Hall August 22-28 for September Primary and Oct 17-30 for November Presidential Election
    - Vote on Election Day --- NEW POLLING LOCATION – MVMMS gym (Include map)
        - § Include social media information for elections office for resident to follow regular updates
- Press Release sent to Free Press, Weekly News, and Melrose Patch same info as post card + additional details
- Mayor's video address
- City Website News Posting (note: all web postings are fully functional with google translate so every communication will be posted on the city's website for translation for non-english speakers)
- Everbridge call with same info to all

July 15-20: Communication Phase 2
Notify residents of State mailed absentee ballot application

- City News and Election web posting and social media posting regarding the absentee ballot application sent by the state—includes instructions and details (eg. Don't forget to select a party for the primary!)
- Work with Council on Aging to further communicate about absentee ballots—how seniors can

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

return ballots to city hall or via the mail, etc.
(*all news postings and outreach will include a reminder regarding single polling location)

Mid August - Election day (September 1): Communication Phase 3 Consolidated Polling location direct notice to voters

- Ward and Precinct-specific postcards mailed to all households with registered voters indicating their ward and precinct and their new voting location at the gym.
- Mayor's video address
- Website
- Newspaper Advertisement
- Banner across Main St
- Kiosk
- Light up DPW signs distributed throughout city
- Social Media
- Everbridge call reminding voters of new location and providing a number to the council on aging for transportation arrangements (include early and absentee voting information)

Aug 18-20:Communication Phase 4 Provide Residents with Early Voting information

- Signage in kiosk
- Website posting
- Press Release to all media outlets
- Social Media daily updates
- Coordination with Council on Aging and Senior Housing to work out transportation to early voting location.
  (*all news postings will include a reminder regarding single polling location)

Election Day – Posters and signage at all former polling locations indicating new location

- **Website, phone number will be referenced**
- **Will work with school department to determine which if any alternate languages should be included**

Repeat similar outreach (adjusted as needed) throughout September and October for Nov. Election

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

CITY OF MELROSE

Elections/Registrars of

Linda-Lee Angiolillo
Election Administrator

City Hall, 562 Main Street
Melrose, Massachusetts 02176
Telephone – (781) 979-4125
Fax – (781) 979-4149

DATE: July 8, 2009

TO: Robert Van Campen, City Solicitor

FROM: Linda-Lee Angiolillo

CC: M. O'Shea, S. Trulli, T. Hunt, E. Wright, Mayor Dolan

As Election Administrator for the City of Melrose, I have begun to look into relocating a few of our polling places.

The first is relocating Ward 4-2 and Ward 6-2 from the Winthrop School along with W 4-1 and Ward 6-1 to one centrally located location (Memorial Hall or Incarnation Church). I don't know the reason that Wards 4-1/6-1 and 4-2/6-2 are separate to begin with - it's confusing to voters. But the main reason being that the Winthrop School has become more and more difficult for voters, handicap parking and accessibility is nearly impossible. We had a gentlemen report us to the Commission on Disability during last November's Election because he was unable to get into the school. There is also the issue of children running around in and around the voting booths and outside and the safety of the children is now an issue. Parking is literally non-existent and we are constantly being called with complaints.

The second would be moving the Steele House Ward 1-2 to the Roosevelt School where W 1-1 is currently. The Steele House does not have the room for a voting area. The voting machines are literally set up in the hall way in a corner (approx. 10x10 area). There are residents sitting around watching people vote. All other precincts are located in the same Ward and building and I'm not sure why the Steele House was chosen to begin with. There are only 100 registered voters living in the Steele house out of approximately 1300 voters in Ward 1 Prec. 2. There are 100 registered voters at 80 Grove St. and they have to get to City Hall to vote. Handicap voters can always request an absentee ballot if they can not get to the polls.

The final reason for consolidating these wards is cost effective. With budget cuts and increased cost, we could save money by eliminating detail cost, school custodian fees, set-up and shut-down fees.

My main reason for this memo is to ask your legal advice as to the legality of moving polling locations. I have attached Mass General Laws Chapter 54, Section 24 (Designation of polling places). I'm under the impression that I can change polling places as long as they are in the same precinct or an adjacent precinct (e-mail from M. Tassinari attached).

Other questions: Who has to approve this move? Is this a decision my Board of Registrars can make? Does the Mayor make the decision? Does this have to go before the Board of Aldermen?

Thank you for assistance in this matter. I look forward to hearing from you.

From: Amy Kamosa, City Clerk
Re.: Use of Memorial Hall as an Early Voting Location for the Fall 2020 Elections

Dear Memorial Hall Board of Trustees:

I am writing to request that the City of Melrose be granted the use of Memorial Hall for the purposes of holding In-Person Early Voting for the September Primary and November Presidential Election. As defined by the recently passed House Bill 4820, early voting will take place Aug. 22- 28 and Oct. 17-30. Early voting will be held during normal city hall business hours during the week, with one later evening, and for at least a five hour period on weekends. We ask that there not be fee levied to the city for this use of the building.

The Elections office understands that there are some events that have been booked in Memorial Hall during these early voting periods and we will work with Memorial Hall staff to accommodate those events as necessary.

In consultation with the Commonwealth's elections division, we have determined that the one modification necessary to make Memorial Hall compliant with current ADA election accessibility requirements is to add a temporary handicapped ramp to the north side of the building. Memorial Hall's existing ramp does not meet the standards as defined by federal election law. We have been in contact with AmRamp, a company recommended by the state elections compliance officer. I have attached a copy of the plans for the temporary ramp, and the price quote.

Thank you for your consideration.

Best Regards,

Amy L. Kamosa
City Clerk

cc. Kathy Pigott-Brodeur

POLLING PLACE AND REGISTRATION SITE ACCESS

LOCATION: City of Melrose Middle School Gym **DATE:** 7/28/20

WARD: 1-7 **PRECINCT:** (complex) all precincts

SURVEYOR: Amy Kamosa **SURVEYOR:** Peter Pietrantonio

TITLE: City Clerk **TITLE:** DPW operations manager

This checklist is based on the Secretary of the Commonwealth's regulations for polling place accessibility 950 CMR 51:00. To complete this survey, you will need a level and a tape measure. Please specify in the "Comments" section, below, any issues that need further clarification.

1. Site access (Path of Travel):

✓ (a) The paths of travel to the polling place from the parking lot and from the street are clear, reasonably lit, and unobstructed.

✓ (b) The paths have continuous common surfaces, not interrupted by steps or abrupt changes in level greater than 1/2 inch.

✓ (c) The path of travel is the same or a substantially similar distance for all persons entering the polling place.

Comments (City/Town Representative):	Comments (Monitor):
This location is a public school gymnasium constructed in 2007. It meets all ADA standards.	

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

2. Parking:

✓ (a) The required number of handicapped parking spaces is provided as follows:

total no. of parking spaces	no. of handicapped spaces required
1 - 25	1
26 - 50	2
51 - 75	3
76 - 100	4
101 - 150	5
151 - 200	6
201 - 300	7
301 - 400	8
401 - 500	9
501 -1,000	2% of total
1,001 and over	20 plus 1 for each 100 over 1,000

(b) **for parking lots striped prior to 9/1/96:**

✓ (1) The handicapped parking spaces are 8 feet wide and have an adjacent 4 foot access aisle which is painted or striped yellow. The parking lot is reasonably lit.

✓ (2) The handicapped parking spaces are identified by a sign at each space or pair of spaces containing the International Symbol of Accessibility, with the top of the sign between 5 and 8 feet high above the ground.

(c) **for parking lots striped after 9/1/96:**

✓ (1) The handicapped parking spaces are 8 feet wide and have an adjacent 5 foot access aisle which is marked by high contrast painted lines or other high contrast delineation. The parking lot is reasonably lit.

✓ (2) Is there at least one "van accessible" space. (one in every eight accessible spaces must be van accessible, but no less than one) This space is 8 feet wide and has an adjacent 8-foot wide access aisle which is marked by high contrast painted lines or other high contrast delineation. The parking lot is reasonable lit.

✓ (3) Each handicapped parking space is identified by a sign containing the International Symbol of Accessibility, with the top of the sign between 5 and 8 feet high above the ground. Van accessible spaces shall include the words "Van Accessible."

✓ (d) Any sidewalk provided at the handicapped parking spaces has a curb cut (sidewalk ramp), with a slope no greater than 1:12, at each space or pair of spaces.

N/A (e) If no parking lot is available, there is at least one on-street parking space which is at least temporarily designated as a handicapped parking space during the election in front of the polling place.

Comments (City/Town Representative):	Comments (Monitor):

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

3. Entrance

✓ (a) At least one entrance to the building is accessible.

✓ (b) The approach to the accessible entrance is a paved walk or ramp with a non-slip surface uninterrupted by steps or changes in level greater than 1/2 inch. There is a level space 60 inches from the door on both the exterior and interior sides.

✓ (c) Lever handles or other accessible hardware are provided on doors, so that they may be operated with a closed fist.* auto matic doors

✓ (d) Doorways are at least 32 inches clear width. Door thresholds are no higher than 1/2 inch above the floor.

N/A (e) If the main entrance is not accessible, signs direct people to the accessible entrance. main entrance is accessible

N/A (f) If the accessible entrance is not the main entrance, it is unlocked and able to be used without assistance during the same hours as the main entrance.

Comments (City/Town Representative):	Comments (Monitor):

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

4. Ramps

N/A (a) If the entrance has stairs, there is either a permanent or portable ramp. If permanent, the ramp has a slope no steeper than 1:12.

N/A (b) The ramp is at least 48 inches wide.

N/A (c) The ramp has two pairs of handrails along both sides that are round or oval in shape and are set in pairs, one at a height between 34 and 38 inches and a lower one at a height between 18 and 20 inches.

N/A (d) If the ramp is portable, it is a as close to 1:12 as possible, and either handrails or wheel guards at least two inches high on both sides are provided.

(e) Please describe the portable ramp (if applicable):

Comments (City /Town Representative):	Comments (Monitor):

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

5. Building Interior

✓ (a) All interior doors, approaches, and ramps necessary to obtain access to the polling place comply with 3 and 4 above.

✓ (b) An accessible route which provides a continuous unobstructed path at least ~~36 inches~~ 6ft wide is maintained inside the polling place and shall coincide with the route for the general public.

Comments (City/Town Representative):	Comments (Monitor):

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

6. Voting Equipment

✓ (a) All Polls - A sample ballot will be posted on the wall no higher than 48 inches above the floor.

✓ (b) Paper or Datavote ballots - At least one marking shelf (one for each party in a primary for Datavote) provides a clear space under it at least 30 inches wide, at least 27 inches clear to the underside, and no more than 32 inches high to the top. Any Datavote stylus handle is at least 1 ¼ inches thick and at least 3 inches long.

N/A (c) Voting machines - At least one machine has a sample ballot posted inside, not higher than 48 inches.

N/A Voting levers are no higher than 48 inches above the floor, or a "reacher" is available for the upper levels.

Comments (City/Town Representative):	Comments (Monitor):

Hi Kristin,

In follow up to Amy Kamosa's email below to Bridget Simmons Murphy from State Elections, I will be reaching out to her and Michelle Tassinari next week to schedule a site visit to each of the polling locations mentioned in the email. Also, I just noticed the Melrose Commission on Disability has listed "accessibility at polling locations" as an agenda item to be discussed during their meeting on Monday, April 12th.

I am including the Board of Registrars members on this email for *informational purposes only*, should they want to attend Monday night's meeting. The meeting should be posted by the City Clerk's Office shortly to obtain the Zoom ID and password.

Thanks,
Joanne

Subject: City of Melrose polling location review

Hi Bridget,

Hope you're well. I'm sure you and the entire office are busy with town elections. I'm writing to let you know that I am leaving the City of Melrose at the end of the month, but before I leave, I wanted to check in to talk to you about a few concerns I have regarding some of the designated polling locations in the city – in particular, the Winthrop school, Hoover School, and City Hall. In particular, I don't believe the Winthrop School meets handicapped accessibility requirements for a polling location. Handicapped parking is an issue at Hoover. With the emergency orders for elections in 2020 we consolidated polling locations, but I'm not sure that these accommodations will be extended for this coming November.

I had already met with the City Council president about this, but it was purely an informational meeting. I'm not sure what the next steps should be. Is it possible for you to do a site visit at some point later this spring to let the city know whether they can continue to use the Winthrop as a

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

polling location?

I'm ccing Joanne on this email—she's your best point of contact moving forward.

Good Afternoon,

Thank you again for attending last week's polling location survey. I wanted to loop you all in on Bridget's report which indicates whether or not the sites comply with the Polling Place Accessibility for Elderly and Handicapped Voters regulations. As we learned, some polling locations had very minor corrections to bring us into compliance, while other sites' violations need to be addressed well in advance of the November election.

Please let me know if anyone has any follow up questions or concerns after reading the survey results and I will reach out to Bridget.

Best,
Joanne

Subject: RE: City of Melrose Site Surveys

Dear Joanne,

I am writing to follow-up on the polling location survey we conducted with Mayor Paul Brodeur, City Clerk Kristin Foote, Chair of the Board of Registrars Theodore Hunt, Board of Registrars Member Cynthia Silveira, Board of Registrars Member Eric Wildman, City Council President Christopher Cinella, and City Councilor Jennifer Grigoraitis, on Friday, May 14, 2020. Specifically, we surveyed City Council Chambers in City Hall, the Hoover Elementary School, the Winthrop Elementary School, the Steele House, the Roosevelt School, and the Melrose Veterans Memorial School Gymnasiums, to ensure compliance with the Polling Place Accessibility for Elderly and Handicapped Voters regulations. 950 C.M.R. § 51.00, et seq.

During the survey, we reviewed a number of issues, including site access, parking, entrance, and building interior at each location. After a thorough review of these proposed polling locations, it appears at the time of our survey some of these locations require changes to be fully compliant with the

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

regulations governing accessibility of polling places.

Please see the attached report indicating whether or not the location complies with 950 CMR § 51.00. The non-compliant specific deficiencies are identified. To help you understand the enclosed report, the following explains the column titles.

Municipality: The city/town of the polling locations.
Polling Location: The actual location of the polling place.
Ward: The ward of the polling location.
Precinct(s): The precinct(s) of the polling location.
Location Complies: If yes, the polling location meets the requirements of 950 CMR § 51.00. If no, the polling location does not meet the requirements of 950 CMR § 51.00.
Violation Category: Of this column has data, then the notes include information regarding the reason the polling location does not meet the requirements of 950 CMR § 51.00.

As we discussed, please provide this office with an action plan of how the city of Melrose intends to make these polling places accessible in accordance with 950 CMR § 51.00 et seq. Photos of updates to ensure accessibility are helpful and can be emailed to me at bridget.murphy@sec.state.ma.us. If you would like, I am also happy to schedule a time to come back to survey these locations with you at a future date.

I hope you find this report helpful. If you have any questions, please let me know. I look forward to hearing back from you.

Thank you for all that you do to ensure voting is fully accessible in Melrose!

-Bridget

RE: Polling Location Accessibility Response

The Department of Public Works has reviewed the results of the survey conducted on the various polling locations throughout the City. Please see our response and action plan for all locations that were found out of compliance and in need of remediation. Items in italics reflect the notes provided in the survey results.

City Council Chambers (562 Main Street Wards 4-1 and 6-1):

Path of Travel: There is damage to the pavement near the accessible entrance causing change in level greater than ½ inch which needs to be addressed with patching to ensure a continuous common surface.

- DPW is able to address pavement damage near the accessible entrance, to remove changes in level greater than ½ inch. As part of our normal work order process, this will be added to one of our daily schedules and will result in the repair to ensure a continuous common surface.

Elevator: Due to the fact that the elevator is necessary to ensure accessibility to the voting area in the City Council Chambers, we strongly recommend having an elevator service contract in place to ensure timely service in case there are any issues with the elevator during voting hours.

- The City has an active service contract with BBE Corporation (Buckley Elevator). There are minimum response times as part of the term of the contract to ensure timely service in case there are any issues with the elevator.

Hoover Elementary School (37 Glendower Street Wards 7-1 and 7-2):

Parking: Continued use of temporary parking spaces on Election Day are needed at this location due to the distance and the topography of the existing accessible spaces to the voting entrance.

- As recommended, use of temporary parking will continue.

Entrance: Inside doorways are only 28 inches clear width therefore both sets of doors must remain open during the hours of voting.

- As recommended, both sets of doors will remain open during voting hours.

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

Winthrop Elementary School (162 1st Street Wards 4-2 and 6-2):

Path of Travel: The path of travel from the accessible entrance to the voting area is substantially longer than the path of travel from the main entrance to the voting area.

- There are significant challenges to addressing the accessibility of the main entrance to the voting area. All proposed remedies would compromise emergency access to the building. The Melrose Fire Department has indicated that they would have significant concerns with their ability to deliver services in the event of an emergency. At present time, we deem the construction of a ramp to allow accessible entry from the Ashcroft Street side to be infeasible. We will examine other opportunities to attempt to arrive at better equity in the length of the path of travel.

Steele House (910 Main Street):

Parking: The parking lot is set up for resident parking only. There is no accessible parking in the resident lot. The nearest accessible parking is in the commuter rail parking lot which is a substantial distance from the polling place entrance.

- The City can designate temporary accessible parking spaces on the roadway nearest the building entrance being used for polling during elections (either Ashburton Place or Nason Drive).

Melrose Veterans Memorial School Gymnasiums (90 Melrose Street):

Parking: The van accessible parking space is missing "Van Accessible" signage. The existing teachers' parking lot can be used for voters on Election Day allowing the creation of more temporary accessible parking spaces with signage if needed.

- The DPW can create or purchase and install appropriate "Van Accessible" signage as part of the election setup. Accommodations will also be made to use the existing teachers' parking lot to create more temporary accessible parking.

Thank you very much for your consideration. Please feel welcome to contact the Melrose DPW with any questions you may have.

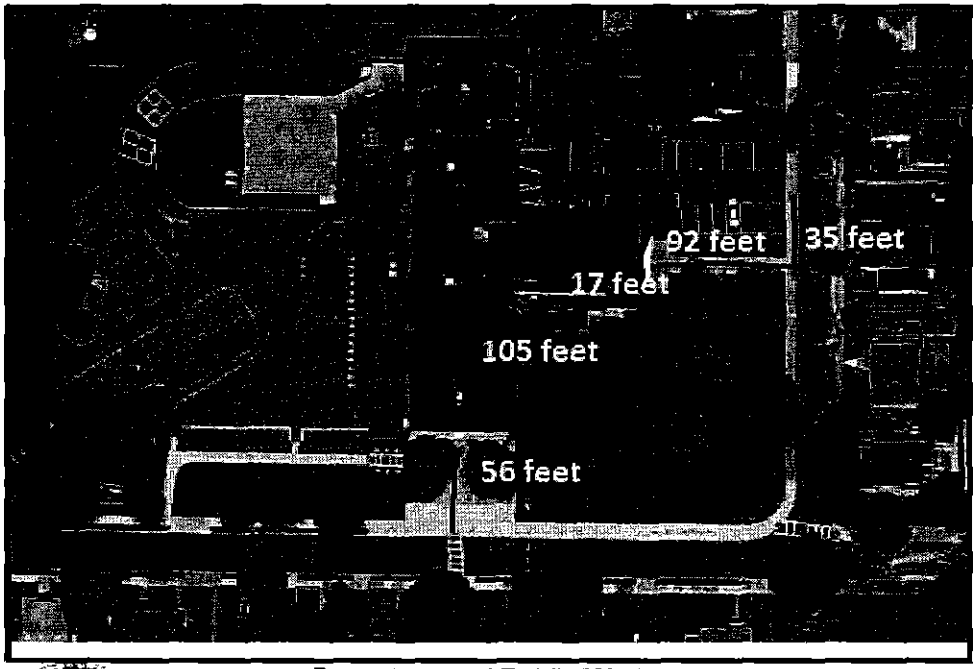
From: Troup, James
To: Foote, Kristin
Cc: Proakis Ellis, Elena; McNeil, Jay; Gibson, James
Subject: Emergency Access Winthop School
Date: Wednesday, August 11, 2021 2:55:51 PM

Kristin,
I spoke to Captain Gibson to confirm the information in the memo and there has been a misunderstanding that I hope can be cleared up by updating the order.



The location of a handicap ramp at the Ashcroft Road entrance would not affect emergency access to the building. However, due to the length of the ramp, it may restrict access to the courtyard from the walkway. In the previous conversation where the determination that emergency access would be compromised, the location of the ramp was assumed to be in a different part of the property and may have limited space in the parking lot.

Feasibility issues still remain with any updates to this property.

What is the process to make this correction to the memo?

City of Melrose

*Evaluation of Potential Disparate Adverse Impact on Access to the Polls

Evaluation of potential disparate adverse impact on access to the polls on the basis of race, national origin, disability, income or age related to consolidation of Polling Locations to the Melrose Veteran's Memorial Middle School Gymnasium Complex—Melrose Massachusetts

The Melrose Veteran's Memorial Middle School has been chosen as an alternate polling location for the September and November 2020 elections in an effort to provide the most efficient, fair, and accurate election possible for the registered voters of Melrose, within the challenges and constraints associated with the current global Pandemic of Covid-19.

Location and Accessibility:

- The Veteran's Memorial Middle School Gymnasium is in the rear of the Middle and High School complex located at 360 Lynn Fells Parkway.
    - This location is centrally located within 2 miles of nearly every household in the city—this metric is used by DESE to determine if a school district is required to provide bussing to students.
    - It is 0.3 miles from an MBTA bus stop
    - Built in 2007, the gym meets all current ADA requirements for handicapped accessibility.
    - There are 60 parking spaces in the upper lot near the gymnasium with an additional 200+ parking spaces in the main front lots and adjacent side streets.
    - There is a turn-around/ drop off zone for voters receiving rides to the polls

Evaluation of Voters by Age

- The City of Melrose has a voting population of 20,877. Average voting age across the city is 50 years old, with precinct breakdown as follows:
    - 1-1 50
    - 1-2 52
    - 2-1 50
    - 2-2 55
    - 3-1 51
    - 3-2 51
    - 4-1 49
    - 4-2 67
    - 5-1 46
    - 5-2 46
    - 6-1 52
    - 6-2 50
    - 7-1 47
    - 7-2 50

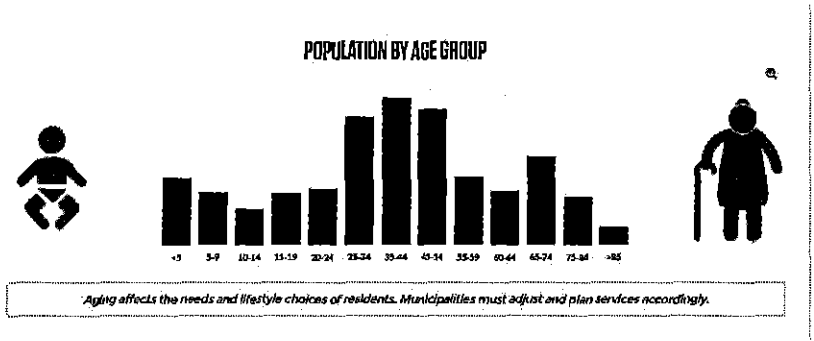

Figure 1 Source: ClearGov

- No single ward or precinct indicates a higher than average vulnerable senior population

*figures updated to reflect 2020 Federal Census data

Minutes Acceptance: Minutes of Apr 4, 2022 7:45 PM (Reading of the Minutes)

- Rides will be provided via the Council on Aging to the polls throughout the early voting period, and on Election Day. The Council on Aging also plans to offer support for absentee voting instructions to seniors.

***Race and Nationality and Socioeconomic status**

US Census data from 2020 indicates that 88.2% of Melrose residents (not necessarily registered voters) identify as white, 2.9% as African American, 6.2% as Asian, and 3.2% as Hispanic or Latino. According to the U.S. Census, less than 5% (4.1%) of residents are considered to be persons living in poverty. Senior population, age 65 and over, is 17.2%

Comparing other similar towns that have permanently designated single consolidated polling locations: Wakefield; Stoneham; Reading; North Andover; Burlington – Melrose is similar in population and socioeconomic status—its small geographic size (4.68 square miles) makes it an even more suitable candidate for a single polling location as it allows for more residents to walk to the polls compared to other towns.

Language

As determined by the The Language Minority Provisions of the Voting Rights Act, Section 203 Coverage Formula—Melrose does not have a minority population that would fall under this jurisdictional requirement to provide additional language supports in communicating polling location changes

The number of United States citizens of voting age is a single language group within the jurisdiction:

- Is more than 10,000, or
- Is more than five percent of all voting age citizens, or
- On an Indian reservation, exceeds five percent of all reservation residents; and
- The illiteracy rate of the group is higher than the national illiteracy rate

However, to reach all voters in the city, city website offers direct Google translation of all pages. The city also has translation services through University of Massachusetts if needed to provide information to voters about polling location changes.

Access to City Communications and Information

96% of Melrose residents over the age of 25 are high school graduates, 92% of households have a computer in the home, and 89% of households have internet access. A free weekly newspaper is available by subscription to all households in the city. The city will post a banner over Main St., and in the kiosk in front of city hall to indicate polling location changes. Additional outreach will include public access television announcements and DPW LED signage rotating various intersections.

Re: Authorization to Borrow MWRA LWSAP Funds for Water System Improvements

The Department of Public Works requests the Authorization to borrow funds to continue Water System Improvements. Construction of said improvements would begin in the Spring of 2022 and continue throughout the 2022 construction season. Projects proposed include the replacement and upgrade of over one mile of water infrastructure at the following locations:

1. Appleton Street
2. Irving Street
3. Elliott Street
4. Frost Avenue

REQUEST FOR AUTHORIZATION OF BOND (WATER)
The Department of Public Works respectfully requests that the City Council authorize the City Treasurer, with approval from the Mayor, to issue bonds or notes of the City to the aggregate principal amount of **Six Hundred Eighty Five Thousand Dollars ($685,000)** under the Water Enterprise System through MWRA LWSAP bonds for FY2022. In general, the borrowing will fund design, engineering and construction of programs that will continue to address water system improvement projects aimed at addressing leak history, fire flow capacity and water quality in the above mentioned corridors and other areas throughout the system as required. This is a zero percent (0%) interest loan with a ten (10) year pay-back period commencing in FY 2023 (FY23).

*The City Council of the City of Melrose, appropriates the sum of Six Hundred Eighty Five Thousand Dollars and No Cents **($685,000.00)** to*

-pay costs of designing and constructing water system improvement projects aimed at addressing leak history, fire flow capacity and water quality in the Appleton Street, Irving Street, Elliott Street, and Frost Avenue corridors and throughout the City's water system, which projects shall be undertaken in conjunction with loan funding to be received by the City through the MWRA's Local Water System

Attachment: Council Memo MWRA Loan Acceptance (ORDER-2022-106 : MWRA LWSAP Bond Authorization - FY 2022)

Assistance Program,

and that to meet the aforesaid appropriation, the Treasurer with the approval of the Mayor is hereby authorized to borrow said amount, under and pursuant to Chapter 44, Section 8 of the General Laws, or pursuant to any other enabling authority, and to issue bonds or notes of the City therefor.

Any premium received upon the sale of any bonds or notes approved by this vote, less any such premium applied to the payment of the costs of issuance of such bonds or notes, may be applied to the payment of costs approved by this vote in accordance with Chapter 44, Section 20 of the General Laws, thereby reducing the amount authorized to be borrowed to pay such costs by a like amount.

The funds borrowed pursuant to this Order will be deposited into Fund 6149.

The MWRA's Local Water System Assistance Program provides interest-free loans to member water communities for local water system improvement projects. Loan funds have been approved for distribution from fiscal year 2011 through fiscal year 2022. MWRA's goal in providing financial assistance to member communities is to improve local water systems to help maintain high quality water as it passes from MWRA's facilities through local pipelines to customers' taps. As of May 2022, Melrose has $685,000 in eligible funding available to borrow within the parameters of this program. It is requesting the authorization to borrow said amount.

April 11, 2022

Melrose City Council
Melrose City Hall
Melrose, MA 02176

Dear Honorable Councilors,

Please accept this letter of interest in serving as a Trustee for the Melrose Affordable Housing Trust.

I spent my career pursuing affordable housing for families, persons with disabilities and elders. At the time I joined the US Department of Housing and Urban Development, I focused on fair housing, especially as it relates to large-scale housing development and public housing. Within five years, however, I was reassigned to the development team. I did not anticipate the passion I would find developing affordable housing.

I always understood the need for affordable housing. I also intuitively understood the challenge developing affordable housing. But I did not know how enjoyable resolving the challenges could be. The challenges might include land acquisition, zoning, neighborhood resistance, sustainability, and, of course, funding.

I am proud to live in a city that has prioritized inclusive and affordable housing. I would be honored to accept new challenges as a Trustee to the Melrose Affordable Housing Trust.

Please find a simple resume below. If you have questions or would like to talk with me, I may be contacted at [redacted]

Sincerely,

Carolyn Federoff

Experience

1986-2016 Attorney, U.S. Department of Housing and Urban Development
- primarily responsible for the development and preservation of affordable housing for low income families, people with disabilities, and elders in Massachusetts.

Residency

2001-present Homeowner at 108 Ashland Street, Melrose, Massachusetts.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Affordable Housing Trust Appointment
Date: April 19, 2022

I respectfully request the Honorable City Council confirm the appointment of Carolyn Federoff, 108 Ashland Street, to the City of Melrose Affordable Housing Trust for a three-year term, said term to expire the last day of February 2025.

Carolyn Federoff has spent the bulk of her career dedicated to pursuing affordable housing for persons with disabilities, elders, and families an attorney for the United States Department of Housing and Urban Development.

Ms. Federoff understands the challenges that come with the development of affordable housing - funding, zoning, land acquisition, neighborhood resistance, sustainability, challenges - and in turn understands how to navigate them. I am confident that she will serve the Melrose community well in her role as a member of the Affordable Housing Trust.

Thank you for your consideration.

CITY OF MELROSE

DPW-PARKS DEPARTMEN

TO: Mayor Paul Brodeur, Patrick Dello Russo, CFO/Auditor

FROM: Joan Bell, Superintendent of Mt. Hood & Public Open Space
Elena Proakis Ellis, Director of Public Works

SUBJECT: Fred Green Field - Fabric Replacement

DATE: April 15, 2022

DPW/ Parks is respectfully requesting $600,000.00 dollars to replace the athletic fabric on Fred Green Football Field and the replacement of the surrounding fence.

The field was installed in 2011 with a 10-year life expectancy. There are some tell-tale signs of its age: it is frequently losing inlays that pose tripping hazards, splitting, and shedding turf fibers and worn inlays and lines are significantly more worn than the turf in the body of the field. Over time infill migrates, displaces, compacts, and breaks down. Because of these issues the City is paying more for repairs each year as the fabric ages. This is our primary field for high school sports and our only field for high school football. Our youth and recreation programs benefit from it as well. It is also used for many community events throughout the year.

The fence that encloses the field is in need of replacement. There are many top and bottom rail pipes missing, and in some areas the fence is bowed from impact and stretched beyond repair. We are looking to add additional gates for entrance onto the field where we can spread the wear patterns to other areas than just one.

We recently had the field tested, and the drainage and crumb rubber were determined to still be in great condition, with an anticipated 30-year total lifespan on those elements of the field. Thus the proposed replacement will include replenishing of a minimum amount of rubber, followed by replacement of the “carpet” that comprises the playing surface. This means that the City will not have to remove and dispose of any of the existing rubber pellets, which is environmentally preferable.

We have received a vendor quote for approximately $525,000 to perform the replacement. We are required by state procurement laws to publicly bid the labor component of this estimate, at a minimum, which will entail the assistance of a design engineer/landscape architect to develop plans and specifications suitable for a public bid. With the combined costs of the design, implementation, construction oversight, and desired fencing improvements, we have estimated the total cost of the project to be $600,000. We anticipate a project schedule of design in spring/summer 2022, bidding in fall 2022, and construction in summer 2023. This will allow us to plan and coordinate with the various users of the field and ensure its availability during the desired construction period. It is also anticipated to be the most realistic schedule given current employee and materials shortages.

We respectfully request your consideration of an appropriation from retained earnings in the amount of $600,000 to implement this project.

Re: Acceptance of Massachusetts Cultural Council Grant for Healthy Melrose

Date: April 12, 2022

On behalf of Mayor Brodeur, I am pleased to present the Honorable City Council with a request to accept funding from the Massachusetts Cultural Council (MCC) in the amount of $1,500.

The grant is being awarded for the City of Melrose's annual Healthy Melrose Family Wellness and Fitness Fair scheduled for May 7, 2022. The grant comes from the MCC's FY22 Festivals Program. 100% of the funds will be disbursed to the City upon receipt of the signed MCC Standard Contract Form. There is no match required, and funds are required to be spent by June 30, 2022.

This funding will allow for additional marketing and promotion of Healthy Melrose to encourage attendance, production or technical costs related to photography and videography of the event and added programming for attendees to participate in.

About Healthy Melrose:
Since 2009, the Healthy Melrose Wellness and Fitness Fair has been led by a local team of educators, City leaders, and health and fitness professionals. The mission of Healthy Melrose is to create enthusiasm around adopting and nurturing a healthy and physically active lifestyle in the Melrose community. The event aims to improve the quality of life of attendees by helping them find new ways to make health and fitness a priority in accessible and meaningful ways with a focus on the science of exercise, nutrition and mental health.

With over 40 vendors exhibiting, this year's Healthy Melrose fair will showcase local fitness, wellness and mental health options through demos, fitness activities, displays, information and samples from local service providers and health/wellness experts across all ages.

The in-person event returns to Fred Green Field at the Melrose Athletic Complex after being cancelled in 2021 and held virtually in 2020 due to the COVID-19 pandemic.

I respectfully request acceptance of these funds so that this recovery work may move forward. Thank you for your consideration.

FROM: Martha Grover, Sustainability Manager

RE: MassSave Community First Partnership Award

DATE: April 14, 2022

I'm pleased to inform you that the City of Melrose is one of 30 Massachusetts communities selected to participate in the MassSave Community First Partnership (CFP) Program. The City will receive a grant of $25,000 to support efforts to maximize uptake of energy efficiency measures in homes and businesses consistent with the strategies articulated in Melrose's recently completed Net Zero Action Plan. Attached is the CFP Memorandum of Understanding for your review, as well as the Net Zero Action Plan for reference. No additional matching or other funding is required other than in-kind staff time.

The CFP program is an updated version of the 2016 MassSave Community Initiative that supported the Melrose Energy Challenge. Under the current program, MassSave, through National Grid, will provide funding up to $25,000 annually over three years to the City to conduct outreach and energy coaching to Melrose residents and small businesses on efficiency measures, weatherization, and heating system upgrades.

The updated program focus is on low to moderate income households, renters and landlords, and small businesses who have historically not taken part in similar programs. The city has lined up a number of internal and community partners to help in this outreach effort including Melrose Energy Commission volunteers, fuel assistance program managers, the Council on Aging, Veterans Services, and the Health and Human Services Department, among many others.

The CFP Program aligns perfectly with our Net Zero Action Plan goal to reduce greenhouse gas emissions in our community and beyond and is supported by recently approved statewide MassSave incentives which also focus on electrification and emissions reductions.

I look forward to sharing more about our program goals and objectives for the next three years of the CFP Program. Please don't hesitate to contact me if you have any questions. Thank you for your consideration.

nationalgrid

February 16, 2022

Mass Save Community First Partnership Agreement
By and Between
National Grid USA Service Company, Inc. d/b/a National Grid ("National Grid" or "Program Administrator" or "PA") and The City of Melrose

OVERVIEW

This agreement memorializes the understanding of the National Grid USA Service Company, Inc. d/b/a National Grid ("National Grid" or "Program Administrator" or "PA") and The City of Melrose. The City of Melrose The City of Melrose As part of the Energy Efficiency Program Administrators' (PAs) 2022-2024 Three Year Energy Efficiency Plan, the PAs are committed to working with environmental justice (EJ) communities as designated by the Commonwealth of Massachusetts to reach residents and businesses with energy efficiency services. The PAs have made equity one of the key strategic priorities of the 2022-2024 Plan. Equity, defined as the process of establishing more equal access to and participation in energy efficiency, particularly among those priority groups who have historically participated at lower rates, including renters/landlords, moderate-income customers, English-isolated families,[1] and microbusinesses.

The PAs strive to leverage such relationships with Communities to contribute to achievement of these critical priorities. As part of PAs Plan, the PAs are committed to working with a wide range of community-based organizations, municipalities, and business organizations with demonstrated experience in reaching and serving customers who have not participated in energy efficiency programs and who are in need of targeted approaches to increase access and participation in energy efficiency programs through our Mass Save Community First Partnership (CFP).

The objective of the Community First Partnership is to leverage the local knowledge and trusted relationships of trusted members within identified communities to prioritize these partnerships to, increase engagement with EJ communities, and reach low to moderate-income customers, renters, landlords, English-isolated customers, and microbusinesses to provide access to and ensure participation in PA Energy Efficiency Programs. The PAs focus includes a flexible design to encourage innovative proposals, and align goals, data, and outcomes shared between the PAs and community partners.

[1] In Massachusetts, the EEAC and the PAs refer to customers where 25 percent or more of their household has *no one* over the age of 14 who speaks "English only" or "very well" as "English-isolated families." Being classified as an English-isolated family is one of the Commonwealth's three criteria for a geographic area/community to be designated as an Environmental Justice community. The Environmental Protection Agency (EPA) defines the same population of customers as "linguistically-isolated customers." For the 2022-2024 Plan document, the Massachusetts PAs will use the term "English-isolated families" to remain consistent with the Commonwealth's and EEAC's policies.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

As a Community First Partner, the The City of Melrose must plan and execute 36 months of activity including public education and outreach, such as marketing and/or participation in local events to drive measurable uptake in residential weatherization, residential heating system upgrades, and Small Business Turnkey program participation through the following PA initiatives:

Residential Coordinated Delivery (RCD) Initiative
The Mass Save RCD Initiative is designed to promote and facilitate the implementation of energy efficiency upgrades in existing homes to help customers reduce their overall, whole-home energy usage. Through the RCD Initiative customers access home insulation and air sealing services (referred to collectively as "weatherization"). The Initiative provides customers with information and technical assistance, primarily through home energy and facility level assessments, to help them understand their specific energy efficiency opportunities, and which financial incentives can help defray the costs of their investments. Customers are served in a fuel-blind manner, with PAs coordinating a streamlined experience for customers, even if they are served by two different PAs. The Initiative strives to provide flexibility in delivery of services to best match each customer's unique needs and preferences and align with the technical opportunities for the home and the customer's authority to implement recommended improvements.
The RCD Initiative includes incentives for some measures installed directly by program contractors, such as water savings devices, and for air sealing and insulation. Additionally, the RCD Initiative promotes a wide array of energy-efficient technologies which are incentivized through the PAs other initiatives such as Retail (energy-efficient products, HVAC and DHW systems) and the HEAT Loan (zero percent financing). The PAs work with Lead Vendors selected through competitive solicitations, to administer the Initiative. The Lead Vendors work with trade ally partners, including Independent Installation Contractors (IICs) and Home Performance Contractors (HPCs), along with other contractors such as electricians and HVAC companies to deliver the RCD Initiative. Within RCD, customers are eligible for a variety of assessment types to determine opportunity for efficiency upgrades, which include the Online Home Energy Assessment (OHEA), the virtual Home Energy Assessment and the in-Home Energy Assessment.

Online Home Energy Assessment: An online tool to help customers see how they're currently using energy, review efficiency recommendations and rebates, and receive an estimate of potential cost savings. Customers also learn if their home is a good candidate for an in-home or virtual energy assessment. The online assessment asks a series of questions to determine opportunities and make recommendations.

https://www.masssave.com/en/saving/energy-assessments/online-home-energy-assessment.

Home Energy Assessment (delivered either in-home or virtually): Mass Save Energy Specialists will visit the customer's home to identify opportunities for energy savings including reviewing the base load (evaluating opportunities for more efficient products), thermal boundary (identifying opportunities for additional insulation and air sealing) and mechanical equipment (assessing the HVAC equipment for efficiency). Efficient products such as advanced power strips and water-saving measures are provided at the visit to help customers start saving immediately. Additionally, customers receive a personalized report with recommendations on other savings opportunities and are provided information on available rebates and incentives.

https://www.masssave.com/en/saving/energy-assessments/homeowners

https://www.masssave.com/saving/energy-assessments/renters

https://www.masssave.com/saving/income-based-offers

Residential Retail
The Residential Retail Initiative provides a broader integrated marketplace where energy-efficient products and equipment are positioned as attractive, primary choices for customers making purchasing decisions, whether online, in-store, or through independent contractors and distributors. The Residential Retail Initiative offers education to help customers make informed decisions, incentives to make efficient choices more financially attractive, and training and support for the market actors, to help shift contractors toward more efficient, correctly installed equipment. The Residential Retail Initiative ensures that all residential customers can access high-efficiency heating, ventilation, and air conditioning (HVAC) and domestic hot water (DHW) equipment, smart thermostats, appliances, and other energy-efficient products. The Initiative works to place the most energy-efficient options in front of customers and assists customers in transitioning from traditional electric resistance or fossil fuel systems for home heating and domestic hot water to energy efficient heat pump systems. Customers have the flexibility of selecting their own HVAC technician or plumber to access this initiative.
https://www.masssave.com/en/saving/residential-rebates

Small Business Turnkey
The Small Business Turnkey initiative offers a no-cost on-site energy assessment. Small business customers receive a site-specific proposal with recommended energy efficiency measures that may include lighting upgrades and controls, gas measures (for natural gas customers), walk-in cooler efficiency measures, and site-specific custom projects. PAs also provide removal of fluorescent lights and ballasts if necessary. Massachusetts PA will cover up to 70% of the installation and equipment costs. Note that houses of worship and small 501c3 non-profits are eligible for the Small Business Turnkey initiative.
https://www.masssave.com/en/saving/business-rebates/energy-saving-solutions-for-small-businesses

GOALS AND FINANCIAL AWARD

The City of Melrose's PARTICIPATION GOALS
Customer participation is defined as scheduled to complete work or work completed within a calendar year.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Year	Residential Weatherization (including income eligible, moderate income, and market rate) Goal	Residential heating and hot water heating (including income eligible, moderate income, and market rate) Goal	Small Business Turnkey Goal	Total
2022	125	100	25	250
2023	125	100	25	250
2024	125	100	25	250

The City of Melrose'S FINANCIAL AWARD

Based on the application submitted by The City of Melrose and included as Appendix A, The City of Melrose will be eligible for an annual award from National Grid which will total up to $25,000 pending goal achievement for each of the three years of the program.

The City of Melrose is independently responsible for reaching the above goals. Each year, The City of Melrose will be eligible to receive 50% of the financial award at the start of the year, 25% at the end of Q2 (June to early July), and the remaining 25% at the end of Q3 (September to early October). A bonus award may be provided in January of the following year for surpassing all goals. There will be an annual re-assessment of awards based on goals reached. National Grid reserves the right to adjust the award for the following year upward or downward based on previous year's goal achievement.

Q1: $12,500
Q2: $6,250
Q3: $6,250

As the lead applicant for their team, The City of Melrose will be solely responsible for all further disbursement of funding to them provided through the Community First Partnership to the other members of their team.

SUPPORT RESOURCES FROM NATIONAL GRID

In addition to the financial support listed above, The City of Melrose will receive support from National Grid including, but not limited to:

- Designated point of contact with a utility company account manager from both gas and electric PAs for the communities the applicant team will focus on.
- Additional point of contact who specializes in energy saving opportunities within municipal buildings.
- An orientation session including an introductory training on energy efficiency programs.
- Periodic training sessions by content experts to orient CFPs on energy efficiency offerings, best practices, and coordination with the local network providers to better serve eligible residents.
- Training sessions to orient CFP on energy efficiency offerings, best practices and coordination with the local Community Action Program (CAP) or Low-Income Energy Affordability Network (LEAN) including incentives available to income eligible customers and how to best ensure that income-eligible customers connect to energy efficiency programs.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

- Daily support from Lead Vendor to include technical support with reaching CFP goals.
- Mass Save and PA specific marketing collateral created and printed. Materials may be co-branded with Mass Save, sponsoring Program Administrators, municipal seal, or organizational logo. These materials will be translated in up to three languages in addition to English.
- Regularly scheduled meetings with Lead Vendor to provide guidance and deliberate on CFP performance and opportunities for growth.
- Monthly progress report on progress to goals, including monthly conference calls to discuss outreach, successes, challenges and best practices to address barriers to greater program participation.
- Assistance planning local events.

National Grid will work with The City of Melrose on the requested marketing materials to help support the City's outreach efforts. All marketing should be approved by National Grid prior to use.

THE CITY OF MELROSE'S RESPONSIBILITIES/PARTICIPATION REQUIREMENTS

Participation Requirements:

- Must be a municipality, registered nonprofit or have a fiscal agent. Applicants representing multiple municipalities and/or nonprofits must designate a lead municipality/nonprofit that will receive disbursements of funds.
- Must have a track record of work in, and proposal to focus partnership activities in, designated Environmental Justice communities in Massachusetts.
- Must commit to a three-year partnership.
- Must submit outreach, marketing and communication plan for first year and then annually each following year.
- Must submit budgets for all three CFP years. Greater detail for year one budget will be expected; broader budget breakdown for years two and three is acceptable. Cost to compensate an Energy Advocate for 5-10 hours a week for at least $17/hour must be included as a component of the budget.
- Must be open to building partnerships with additional community organizations.
- Must be open to completing local community organizing.
- Must be open to creating innovative strategies and initiatives to engage residents.

Participation Responsibilities:

- Must attend mandatory three-hour orientation on targeted Massachusetts PA offerings and best practices in marketing and community outreach.
- Must participate in monthly calls and submit monthly outreach reports.
- Must complete at least one marketing activity per month. The marketing activity could include any of the following categories: social media posts, ads, direct mail, articles, video, informational flyers dispersed in schools, workshops/webinars, etc.
- Must track and report progress – see additional detail in the "Tracking & Reporting" section.
- Must have a primary contact who will dedicate at least one hour per week to this initiative, as well as a designated "Energy Advocate" who will dedicate at least 5-10 hours per week to this initiative. It is acceptable for the primary contact and the Energy Advocate to be the same person. Energy advocate roles and responsibilities:
    - Participate in all trainings held by National Grid or its designee for Energy Advocates to familiarize them with energy efficiency offerings, community based social marketing, and community based participatory research.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

  - Serve as an advocate for customers who need support and guidance to enroll in the Mass Save programs.
  - Work with PAs to track and record participation barriers.
  - Work to increase customers' program participation rates by supporting coordination between program vendors and customers.
  - Actively communicate with customers to guide them through the application process and broker communication with stakeholders to reduce program participation barriers.
  - Manage administration of a community-based social marketing campaign to promote communitywide behavioral change by collaborating across a diverse group of partners.
  - Submit reports to Lead Vendor to support tracking and exploring solutions to program participation barriers.
- Must submit all marketing materials for review and approval to National Grid or their designee before they are finalized and used in the community.
- Must coordinate with the local Community Action Program/Low Income Energy Affordability Network (LEAN Network) agency to ensure clear process and support for income-eligible residents to access energy efficiency programs, including establishing an effective process for identifying income-eligible customers, explaining to them the increased benefits of participating in the low-income programs and referring all low-income customers to the local low-income program agency.
- Must submit a final report (one to three pages) on progress at the end of the year and hold a year-end review meeting with Program Administrators at the end of each year. National Grid reserve the right to work with The City of Melrose to adjust their goals and budget, if necessary, through a partnership reengagement plan.
- Must complete a survey annually on how the CFP has/will spend its award funding and how they would like to stay engaged with their PA(s) after their participation period.
- Must select at least one or more subset of customers to engage: small businesses, renters, bi-lingual customers or moderate-income customers. Must participate in creating and implementing a community-based social marketing campaign.
- Must actively participate in CFP research and evaluation.
- Must inform National Grid or their designee of planned door to door outreach on behalf of the CFP and ensure that all paid and unpaid staff participating in door-to-door outreach have complied with National Grid's criminal background check process.
- The City of Melrose will be responsible for providing National Grid the necessary documentation for payment, including invoices with the required information.
- Submission of monthly updates to National Grid on progress of marketing activities including specific outreach to identified hard to reach segments.
- As indicated in the Mass Save Three-Year Energy Efficiency Plan- the PAs will draft and implement a Rental Unit Strategic Plan in 2022. All CFP partners will engage in information sharing and ongoing research to support outreach and engagement to renters and landlords that may include the CFP partner's tactics, as well as additional activities. This engagement could include, but is not limited to, outreach to community stakeholders, local organizations, city departments, private businesses, renters, and landlords, to promote events, surveys, and research organized by PAs in support of enhancing efforts to increase program participation among renters and landlords. This additional partnership engagement serves to increase understanding of each partner's community and reduce program participation barriers for residents in their community.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

PAs will provide additional support and logistical coordination for all program partners to minimize the impact on current CFP goals.

PARTNERSHIP DETAILS

- **Partnership path options**
  - Hub Team: Consisting of municipal staff, and community-based organization members representative of the municipality(ies) on the Community Partner team, a representative of the PAs lead vendor for this initiative, and PA representatives. The hub will be led by the Community Partner's "Energy Advocate" who coordinates quarterly meetings with municipal departments. PAs provide marketing templates for the Community Partner.
  - Flex Format: Highly targeted approach; applicant proposes innovative outreach strategies; Energy Advocate is on the team; team creates their own marketing materials (materials must be approved by PAs prior to use) and team partners with contractors, landlords and employers.
  - For either path, Community Partners will convene monthly meetings with their team and include the PAs lead vendor and representative(s) from PA(s). Energy Advocates track primary metrics listed below and PAs track additional metrics listed in "support resources from PA" section of this MOU.

- **Community-based participatory research**
  - PAs will create tracking tools to support Energy Advocates with tracking and recording participation barriers. PAs will utilize this data to build on the strengths and resources of the community by promoting co-learning among PAs and the The City of Melrose to inform program development and goals.

- **Community-based social marketing**
  - As part of the participation in the Community First Partnership, the PAs require that, in certain instances, marketing materials developed by any collaborating community-based organizations direct customers to the vendors directly contracted with them for those customers to participate in a Mass Save program offering. These instances include, but are not limited to, the following:
    - All small business customers.
    - Any residential customer that is on the discount rate code and is to be served by the local CAP agency.
    - Any residential customer who has had an energy assessment in the last two years.
    - All customers who reside in a multi-unit building that a Home Performance Contractor is not able to serve (criteria of this building classification is dependent on when/if the PAs move away from the 5+ unit requirement).
  - This campaign will require accepted applicants to build a coalition of diverse stakeholders who actively work with the hard-to-reach population. The City of Melrose will allocate three to six months toward a planning process to reach the following benchmarks:
    - Select behaviors to promote.
    - Host focus groups to identify program barriers and benefits.
    - Develop strategy.
    - Identify target audience.
    - Develop compelling messages.
    - Obtain clear commitments from local stakeholders/groups.
    - Create an inclusive call to action.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

- Strategies on how to build community norms through this campaign.
- Craft simple, clear messages for marketing and advertising. Materials must be approved by the PAs prior to use.
- Draft a list of PA approved prizes, awards and or raffles to engage the larger community.
- Implement and evaluate strategy.

- Any external funding or resources procured to do outreach, advertise and/or market to program participants must be marketed solely as Mass Save Community First Partnership. Program Administrators do not authorize the duplication of conflicting marketing campaigns to Mass Save customers.

• Implementation support - Lead Vendor

- PAs will hire a vendor to support coordinated implementation, such as supporting data tracking for Community Partners, and training and supporting the Energy Advocates.
  - All CFP participants are required to work with the selected Lead Vendor to reach goals.

TRACKING & REPORTING

National Grid will provide a baseline of 2019-2021 achievement in residential weatherization, residential HVAC, and Small Business Turnkey for each municipality listed on The City of Melrose's application, as well as monthly municipal-level progress on the same metrics and track use of campaign codes where possible. PAs will also use the Statewide Marketing annual awareness survey to track awareness of Mass Save programs in Community Partner municipalities. The City of Melrose will receive support from an implementation vendor who will be helping to coordinate a tracking system to simplify and streamline the system for all. The Vendor will also help The City of Melrose be able to track more accurately how many people/businesses participate in energy efficiency (EE) programs from their efforts.

The City of Melrose will be responsible for reporting the following data monthly to the PAs or designee:

- Outreach progress summary including data collection on number of residents in each target group being reached.
- Identification of barriers to participation in each municipality and progress made toward breaking those barriers over multiple years.
- Number of customer leads – The City of Melrose will be expected to track names and contact information for customers they are working with.
- Number of events organized and number of event attendees.
- Number of social media, mail and other outreach and number of customers reached, number of languages used and number of pieces of collateral created in multiple languages.
- Number of community members trained with an overview of energy efficiency programs.
- Number of other organizations the CFP is engaging and how often.
- Number of property owners of rental buildings generated as leads.
- Optional: Community Partners who want to track race/ethnicity and other demographic data of customer leads they generate will be expected to propose their own tracking system in their application and share that data with PAs.
- If applicants do not meet the goals established by year one, PAs will review their performance and identify if there is a need for an enhanced activity plan (EAP). This will focus on increasing program enrollment and requires review of the budget to assess best use of funds for the remainder of the initiative.

Attachment: CFP MOU Melrose.docx (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

5. INVOICING

The City of Melrose should coordinate with National Grid point of contact to provide the necessary information to proceed with payment. Required documents/information could include a W-9 (demonstrating that the municipality or organization is tax-exempt), mailing address, made payable to, etc. PAs will use this information to set up an Authorization for Payment (AFP) with The City of Melrose to issue payment.

Invoices should be submitted on the Municipal or Organizational Letterhead and include the following:

- Invoice Number
- Prepared By
- Date
- Project: Mass Save Community First Partnership
- Description of Award
- Total Amount
- Information on Payment Remittance

DISCLAIMER
PAs may terminate The City of Melrose participation in the Community First Partnership if the PA determines The City of Melrose is not demonstrating a good faith effort to reach the participation requirements as outlined throughout the document.

The PAs may, in their sole discretion, at any time and without notice, terminate the The City of Melrose participation in the Community First Partnership or modify the Community First Partnership and the terms outlined herein. Community First Partnership expenditures, requirements and eligibility may be terminated, canceled, or modified by Massachusetts PAs at any time without notice.

Addendum: PAs hold the right to make changes to the MOU as long as it does not add any barriers to communities doing the work agreed upon and is thought to add efficiency to the program outcomes overall.

Letter from THE FUTURE

Dear Melrose Residents of 2022,

We know that the last few years have been tough in so many ways but please be reassured that you will soon emerge to a brighter future. You may ask yourself, how do we know this? Because we are here, decades in the future, already.

Chastened by the unmitigated disaster of Covid-19, and the imminent existential threat of climate change, America signaled a new era of possibilities had arrived. Eventually, legislation at the local, state and national levels was enacted to revitalize and drive economic and social equality, together with programs for substantially greater environmental quality.

With new momentum spreading across the globe by the 2030's, the dawning of the Sustainable Age arrived as an era of regenerative economic growth driven by the benefits of emerging new technologies and fostering prosperity even as fossil fuel use dramatically declined.

The technological innovations of developing both industrial scale and decentralized sustainable energy sources using wind, waves, tides, solar, biological, terrestrial and hydraulic forces led to vast changes in standards of living across the globe. Self-sustaining redevelopment alleviated many local and global climate threats.

On the local level, communities across the metropolitan Boston area implemented climate action plans in the 2020s to meet the 2050 net zero emissions goal adopted by Boston, Melrose and 12 other surrounding community leaders back in 2016. By 2022, all of the original 14 had begun implementation of the plans and their early success at laying the groundwork began to pay off in the mid '20's as the Sustainable Age gained widespread momentum across New England and other areas of the country.

Energy-efficient heat pump technology to condition our homes and buildings and demand for electric vehicles (EVs) became widespread. Even automobile manufacturers pivoted rapidly away from fossil fuels with most switching to all EVs by 2035. Electric utilities accelerated procurement of renewable energy to meet consumer demand. These and other societal changes led to dramatic improvements in air and water quality.

We extend our heartfelt thanks to the many Melrose citizens whose shoulders we stand on. For it was all of you, who turned your concern for the environment to action, nourished by the small successes, in order to make meaningful change to our community and the larger world. We wish for you all the good fortitude, strength, and continuing love for our Earth needed to make the promise real.

Sincerely,
The 2050 Melrose Energy Commission

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Getting to Net Zero

Melrose has committed to reaching net zero greenhouse gas (GHG) pollution by 2050. What exactly does this mean for our community? Why does our local goal matter? How will we get there and what do we need to do to reach that goal? This Net Zero Action Plan aims to answer these questions and to create a roadmap for our city to reach net zero by 2050.

IN 2017, OUR CITY WAS RESPONSIBLE FOR EMITTING

187,642

METRIC TONS OF CO2e

in MELROSE

THAT WORKS OUT TO

7

METRIC TONS OF CO2e

per resident

OUR EMISSIONS BREAKDOWN

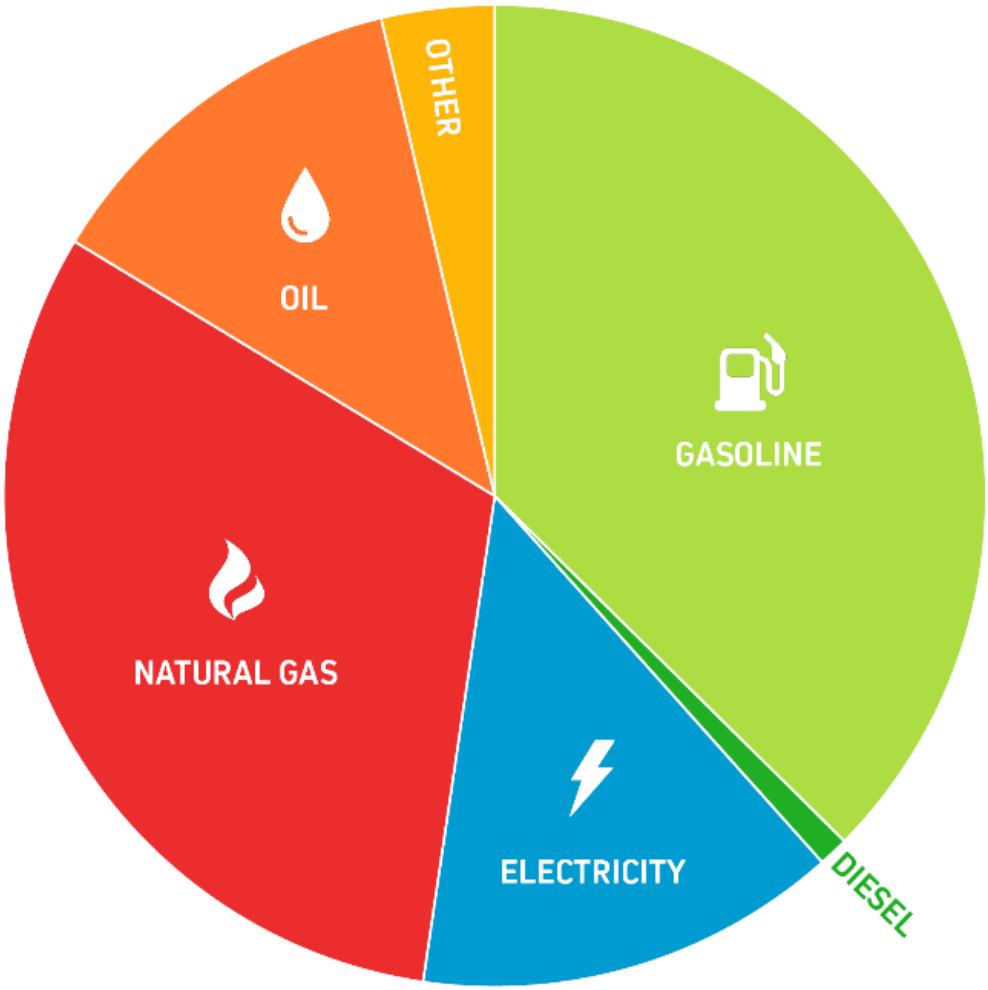
61%

0.4%

38%

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Where are we starting?



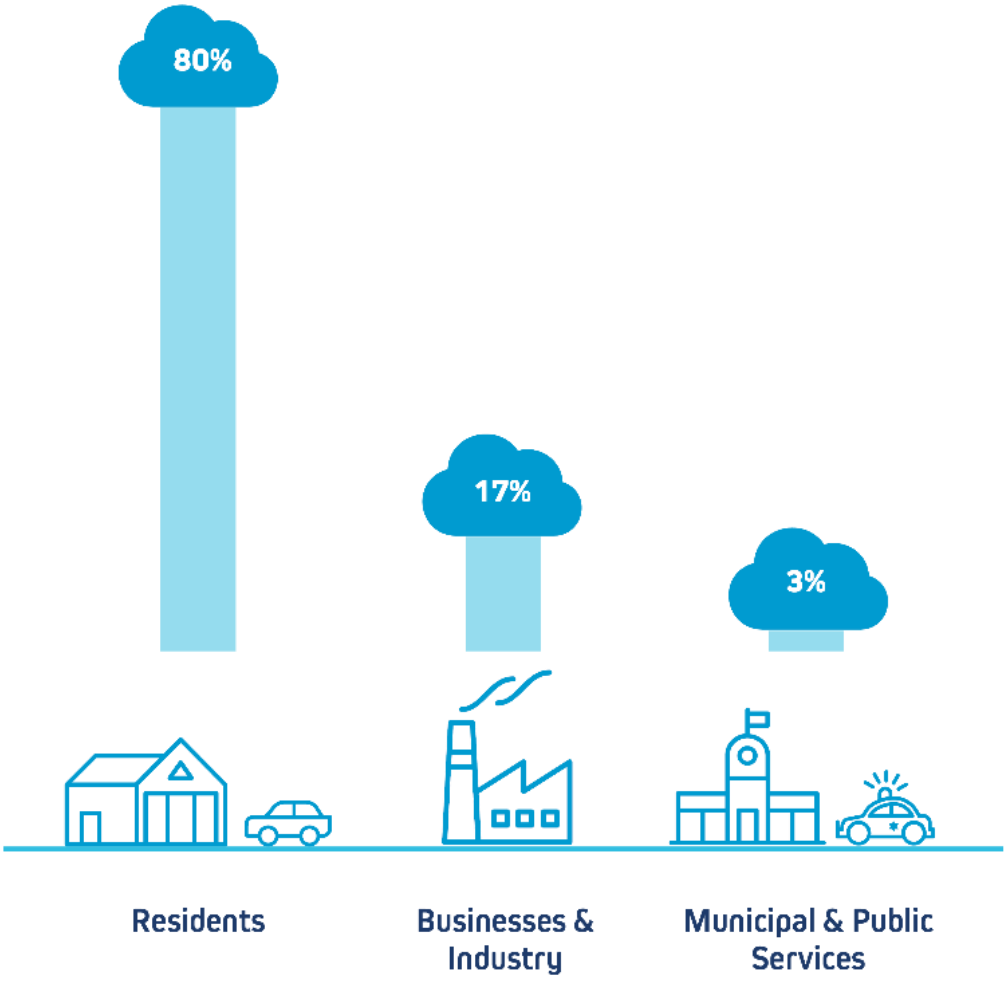
Every day, Melrose residents and businesses rely on fossil fuels to heat and cool our homes, keep the lights on, power our electronics and drive our cars. In doing so, we release **greenhouse gas emissions**.

In 2020, City staff and volunteers worked with MAPC to identify the primary sources of emissions across our community for 2017, the most recent year for which complete data were available, to calculate a baseline for future emission reductions (see Appendix A for the methodology).

In Melrose, buildings are the largest source of emissions (61%). On-road transportation is another major source of emissions, more than 38%.

Which fuels generated the most emissions in Melrose?

The types of fuel sources our homes, businesses, and vehicles rely on every day generate different amounts of emissions in our community. Our 2017 inventory of greenhouse gas emissions shows that the combustion of fossil fuels, such as oil, natural gas, diesel, and gasoline, was responsible for over 82 percent of our community-wide emissions.



SOURCE: MELROSE'S 2017 GREENHOUSE GAS INVENTORY

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Who is responsible for emissions in Melrose?

As a community, the actions and choices we make each day contribute to the amount of emissions we are responsible for. In Melrose, over 80 percent of emissions come from residents' homes and vehicles and another 17 percent comes from businesses and industry in Melrose.

SOURCE: MELROSE'S 2017 GREENHOUSE GAS INVENTORY

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Why net zero?

Climate scientists have made it clear that we need to reduce global GHG emissions to net zero by 2050, or sooner, to avoid catastrophic climate change.

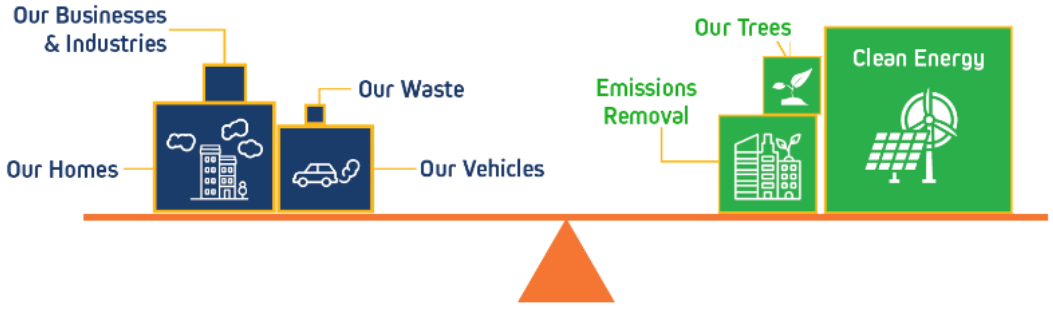
We know that the planet has already warmed by about 1° Celsius since we started burning fossil fuels like coal, oil, and gas in the mid-1800s.[i] We also know that if we can keep warming below 1.5° Celsius we can avoid the worst impacts of climate change like extreme floods, wildfires, and droughts.[ii] The Intergovernmental Panel on Climate Change's 2019 special report, ***Global Warming of 1.5°C***, says that in order to give ourselves a chance to limit global warming to 1.5° Celsius we will need to reduce GHG pollution 45% by 2030 and to net zero by 2050. This means that we have a limited "carbon budget," or amount of GHG pollution that we can afford to put into the air without exceeding 1.5° Celsius of warming.

The longer we wait to start reducing our GHG pollution, the faster we use up our carbon budget and the less time we give ourselves to meet our goal. That is why getting to net zero matters and why we have chosen 2050 as our target date.

We recognize climate change is a global problem and that many of the solutions are beyond our control. To reach our net zero goal, we will need help from global, federal, state, and regional policies that support our transition to clean energy, but we can lead at the local level. During the spring of 2021, the Commonwealth enacted Senate Bill 9, An Act Creating a Next Generation Roadmap for Massachusetts Climate Policy, which set the interim GHG reduction targets of no less than 50% by 2030 and 75% by 2040.[iii] Our net zero roadmap highlights the strategies that we can deploy locally to accelerate this transition over the next several years.

Source: Architecture2030.org

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)



What does "net zero" mean?

Reaching "net zero" means that our community will reduce its GHG emissions as much as possible and remove or offset any remaining emissions by 2050 and ideally sooner. This will require a major shift in the way we heat and cool our homes, how we get around, and where our energy comes from. It also presents a huge opportunity to change our community for the better. By achieving net zero GHG emissions, we can also have cleaner air, healthier people, and a more equitable and prosperous community for everyone. **Sounds pretty good, doesn't it?**

From this...

...to this!

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Getting there equitably

Climate change is an existential challenge, but it is also an opportunity to re-imagine Melrose's future, and to make that future safe, affordable, and equitable for all who live and work in our community. Massachusetts municipalities are increasingly undertaking climate mitigation and adaptation strategies and are starting to seek out ways to advance equity within those measures. By centering equity in this plan, we can build a future that not only is safer and affordable for all, but also allows each individual in Melrose to thrive. An equitable net zero carbon future must be our goal.

In equitable planning, we must be conscientious of the history of our region, the differences in how populations are able to respond to a changing climate, and the needs of residents. We recognize that the effects of climate change systemically impact Environmental Justice communities and other vulnerable populations inequitably. The comparatively negative health outcomes that people of color experience are one example. The inequities we see today will persist in the future if we do not act.

In addition, as more households switch from natural gas to electricity for heating, it is expected that gas rates will rise for those still dependent on gas heating systems. Careful planning at the state level is needed in order to avoid the cost burden falling disproportionately on low-income households.

The state of Massachusetts considers income, race, and English language proficiency within its definition of an Environmental Justice neighborhood.[iv] The Environmental Justice neighborhoods in Melrose meet either the state's income or minority population Environmental Justice criteria, or both.

Accordingly, it is essential to assess the potential social equity impacts of climate mitigation strategies. For our plan to be actionable and for our vision of the future to be equitable, we must prioritize equity throughout the planning and implementation of our net zero strategies. An equitable Net Zero Plan investigates the anticipated outcomes of its proposed actions on environmental justice communities and other vulnerable populations.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

How do we get there?

A lot can change in 30 years and this plan is a starting point on our path to net zero that we will revisit and adjust as we continue to move forward in the coming years. We know that we need to make our buildings and vehicles, the two major sources of emissions in our community, much cleaner and more efficient. To reach our net zero goal, our community will need to work towards five core transitions.

Make our homes and businesses super-efficient.

Making existing buildings super-efficient and constructing new buildings to high efficiency standards will reduce emissions and make energy bills more affordable for everyone because the cheapest energy is the energy you don't use.

Electrify heating and cooking equipment.

Switching to electric heating and cooking appliances like air-source heat pumps and induction cooktops immediately reduces carbon emissions and improves indoor air quality, and these benefits only get better as our electric grid gets cleaner.

Electrify cars, trucks, buses, trains, and other ways we get around.

Electric vehicles are cleaner, cheaper to run over time, and require less maintenance. Providing access to charging stations and creating electric transportation options for those who do not own vehicles are essential to this transition.

Make walking, biking, and public transit the best way to get around.

By designing greener and people-centered streets and sidewalks, we can reduce emissions and air pollution while also making residents healthier and more connected to their community.

Green the grid and produce more renewable energy locally.

Renewable energy comes from endlessly sustainable sources such as wind, the sun's heat or light, or the earth beneath our feet. Our electricity is getting greener all the time thanks to state and local policies, but natural gas still provides most of our electricity in Massachusetts and it has to be imported from out of state. Locally produced renewable energy makes the air we breathe cleaner and benefits the local economy in multiple ways.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

What have we already done?

As a member of the Metropolitan Mayors Coalition, the City of Melrose signed a commitment in 2016 to achieve net zero emissions as a region by 2050. The Melrose Sustainability Manager and the Melrose Energy Commission have worked together on behalf of the City over the last decade to reduce greenhouse gas emissions.

LEADING BY EXAMPLE

Green Community since 2010. Designated a Green Community in 2010, Melrose has since received more than $2 million in grants and utility incentives for dozens of energy efficiency projects in city and school buildings and LED streetlight upgrades. Melrose currently hosts 11 public EV charging stations and includes three battery EVs in its municipal fleet as well as a water meter van with a hybrid retrofit system. The roofs of the high school, middle school, and DPW Operations Facility are covered with solar arrays.

BUILDINGS

Melrose Energy Challenge. Two community outreach efforts in 2011 and 2016 incentivized homeowners to take advantage of MassSave home energy assessments and weatherization projects. Continued outreach results in about 600 energy assessments and more than 200 insulation projects annually which save homeowners energy and reduces community emissions.

Melrose Heat Smart Campaign. In 2020 Melrose launched a clean heating and cooling outreach program called HeatSmart Melrose with the support of the Massachusetts Clean Energy Center. Heat pumps and solar hot water systems were promoted with much success and over 138 new installations completed. The program laid the groundwork for continued education and awareness efforts to encourage property owners to consider non-fossil fuel options for heating and cooling.

MOBILITY PROGRESS

The Melrose Pedestrian and Bicyclist Committee has worked with the City over the years to increase access and safety for pedestrians and bicycles via Complete Streets projects and infrastructure improvements. Improving public transit and fighting to maintain service levels continue to be top priorities for elected officials and commuters who depend on it daily.

Smart Growth in Melrose. Long before the terms "transit-oriented development" and "smart growth" became commonplace, the City of Melrose created opportunities for dense development near transit through progressive zoning and cooperative relationships with developers. The City has had progressive, growth-oriented zoning in place since the early 1980s and, in recent years, has seized opportunities to promote high-density housing in our transit-rich locations. Two overlay districts established in 2008 and 2014 incentivize dense, mixed-use

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

PHOTO CREDIT: CITY OF MELROSE

development near public transit on Washington Street and Rail Corridor. In 2021, the Planning Board also approved an incentive program for the zoning districts around the Commuter Rail Stations that is meant to incentivize higher densities in exchange for providing community benefits like green building practices.

EV Charging Infrastructure

In an effort to make electric vehicle charging accessible and easy, Melrose has taken advantage of state grants and utility incentives to install 11 public electric vehicle charging stations (19 total ports) over the last seven years. The most recent chargers are utility pole-mounted chargers – the first of this type of equipment to be installed on the east coast – as a demonstration project with National Grid. Public EV charging is convenient to shopping areas, parks and recreation, as well as to renters and condo owners who may not have the ability to install chargers at home.

CLEAN ENERGY PROGRESS

Solarize Mass Melrose. This 2012 outreach project resulted in 79 homeowners signing up to participate, 425 kW of solar installed, and $48,000 annual energy savings. The number of rooftop solar installations has grown from nine in 2011 to 526 by the close of 2021 with more permits in process.

PHOTO CREDIT: RESONANT ENERGY

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Melrose Community Power Program. The primary goals of the program are to provide competitive choice, longer-term price stability and more renewable energy options to participating consumers. About 90% of Melrose households participate in Melrose Community Power (MCP). Under the new contract that began In November 2021 the program allows residents to choose to support local renewable energy by purchasing 10% more renewable energy than is required by the state. The Massachusetts Renewable Portfolio Standard (RPS) mandates levels increase annually so that in 2022 when the state requirement is at 20% the additional 10% in the MCP program will result in 30% of the supply coming from local Class 1 sources such as wind, solar, and low-impact hydro energy. There is also an option called Melrose 100% Local Green that more than 200 residents have chosen to purchase.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

What have we heard from the community?

Melrose's Net Zero Action Plan was developed by the City of Melrose, in a collaborative effort between municipal staff, committee members, residents, and businesses, with support from the Metropolitan Area Planning Council (MAPC).

The Melrose Energy Commission, with key input from the Melrose Pedestrian and Bicyclist Committee, served as the primary advising body in developing the Plan. The committee received training from MAPC on developing a greenhouse gas inventory to inform the plan development and leading focus groups to expand current and future engagement of key stakeholders.

The strategies and actions identified in the Plan were primarily informed by research MAPC completed on other communities' climate action plans and align with MAPC's Municipal Net Zero Playbook, a regional guide for municipalities seeking to reduce emissions. The final priority actions included reflect Melrose's net zero journey, community feedback, and the major sources of GHG emissions in Melrose.

VICTORIAN FAIR KICK-OFF

In 2019, the volunteers engaged residents at the City's annual Victorian Fair and shared information about the net zero planning process commencing in Melrose.

PHOTO ABOVE: SUSTAINABE MELROSE BOOTHS AT MELROSE'S SEPTEMBER 2019 VICTORIAN FAIR

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

COMMUNITY SURVEY AND ONLINE OPEN HOUSE

In September 2020, Melrose residents were invited to participate in an online survey and provide input on the planning process. Participants were asked to share what their concerns were related to climate change and what strategies they believed the City should prioritize in the Plan. More than 500 people completed the survey. It was followed by an Online Open House in December 2020 that solicited still more feedback on the draft.

How can you be a Net Zero Hero?

Getting to net zero is a journey that will require Melrose to assemble its own A-Team. There is a place and a way for everyone in our community to contribute to, and benefit from, achieving our net zero goal. While this Net Zero Action Plan highlights the strategies and actions our municipal government will take to support our community-wide goal, we also want all members of our community to envision themselves as Net Zero Heroes on Melrose's A-Team.

Community members of all types – from residents to large employers and everyone in between – are invited to be Net Zero Heroes. Below are some ways you are encouraged to participate in Melrose's net zero journey:

Melrose Resident: Share your voice, get involved, and take action on choices in your control (e.g., complete an energy audit, insulate and air seal your home, go solar, switch to clean heating, make your next car electric) and participate in the local and state programs available to support you.

Melrose Small Business: Share your commitments with customers and staff. For those in a climate-adjacent field – such as electricians, HVAC specialists, plumbers – participate in the green economy and support "green growth" locally.

Larger Employer or Local Institution: Provide programs that assist employees in decarbonizing their homes and commute, and work with other large businesses to share experiences and support community-wide GHG emissions reductions.

Elected and Appointed Officials: Consider how the decisions your Board, Committee, or legislative body will impact Melrose's net zero goal. Advocate and vote to support policy or regulations that advance actions identified in the Net Zero Plan.

Municipal and School Staff: Lead by example with new public facility construction and renovation projects and when possible, purchase zero emission fleet vehicles. Continue to make municipal buildings and school as energy efficient as possible and add solar to new roofs as they are replaced.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Net Zero Action Roadmap

The City of Melrose developed this Net Zero Action Roadmap to inform our next five years of action to reduce greenhouse gas emissions across all sectors of the City's economy.

Informed by engagement with Melrose's Climate Action Committee members, municipal staff, and the public, the following actions have been prioritized to identify immediate next steps for the City to implement based on potential for impact.

For the five core transitions we know we need to make to achieve net zero, the City has identified **milestones** to work toward by 2030 and 2050. The **strategies** and **actions** identified in the City's Net Zero Action Roadmap all contribute to our efforts to achieve progress towards the key milestones listed below.

	TODAY	2030	2050
Make our homes and businesses super-efficient.	**All new buildings built to the state stretch energy code.** **24% of residents participate in the MassSave Program[v]**	**All new buildings built to net zero standards.** **20% of homes and businesses have undergone deep energy retrofits.**	**Nearly all existing homes and businesses in Melrose have had deep energy retrofits.**
Electrify heating and cooking equipment.	**Approximately 12% of homes rely on electric heating, primarily low efficiency electric baseboard heating.[vi]**	**80% of homes previously on fuel oil, propane, or electric baseboard heat have converted to high efficiency electric heat (heat pumps).** **10% of homes currently on gas heat have converted to high efficiency electric heat.**	**Nearly all homes and businesses rely on high efficiency electric heating.**
Make walking, biking, and public transit the best way to get around.	**Approximately 27% of residents walk, bike, or take public transit to work.[vii]** **Average number of cars per household is 1.55.**	**All new developments are accessible by biking, walking, or connected to public transit.** **Average number of cars per household is below 1.47 (e.g., vehicle miles traveled are reduced by 5%)**	**All key destinations in Melrose are accessible by biking, walking, or connected to public transit.**

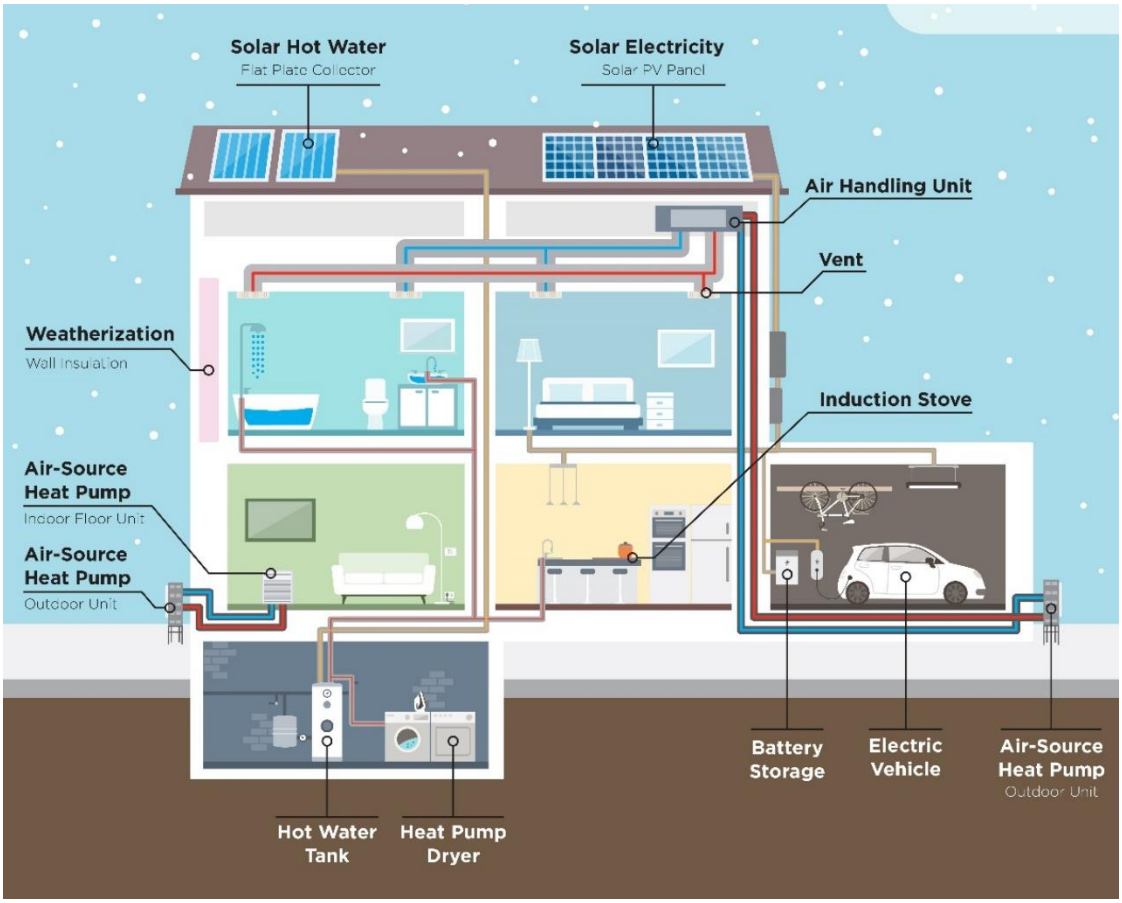
Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Electrify cars, trucks, buses, trains, and other ways we get around. 	**Less than 0.1% of vehicles registered in Melrose are zero emissions.**[viii]	**60% of new vehicle purchases are zero emissions.** **37% of registered vehicles are zero emissions.**	**Nearly all passenger and commercial vehicles registered in Melrose are zero emissions.**
Green the grid and produce more renewable energy locally. 	**Our electricity supply comes from 21% carbon-free sources.**[ix]	**Our electricity supply comes from 100% carbon-free sources.**	

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Our Homes and Businesses

Making our homes and buildings super-efficient and electrifying our space and water heating and cooking are core to Melrose's Net Zero Action Plan. The City of Melrose commits to implementing actions that advance the following strategies:



Strategy 1. Electrify fossil-fuel end uses.

Strategy 2. Maximize uptake of residential energy efficiency and deep energy retrofits in existing buildings.

Strategy 3. Target energy efficiency retrofits of large multi-family buildings.

Strategy 4. Adopt policies to Incentivize energy efficiency and renewable energy in new construction and major renovations.

Strategy 5. Lead by example with municipal buildings and advocate for net zero building policies.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

GROUND SOURCE HEAT PUMPS

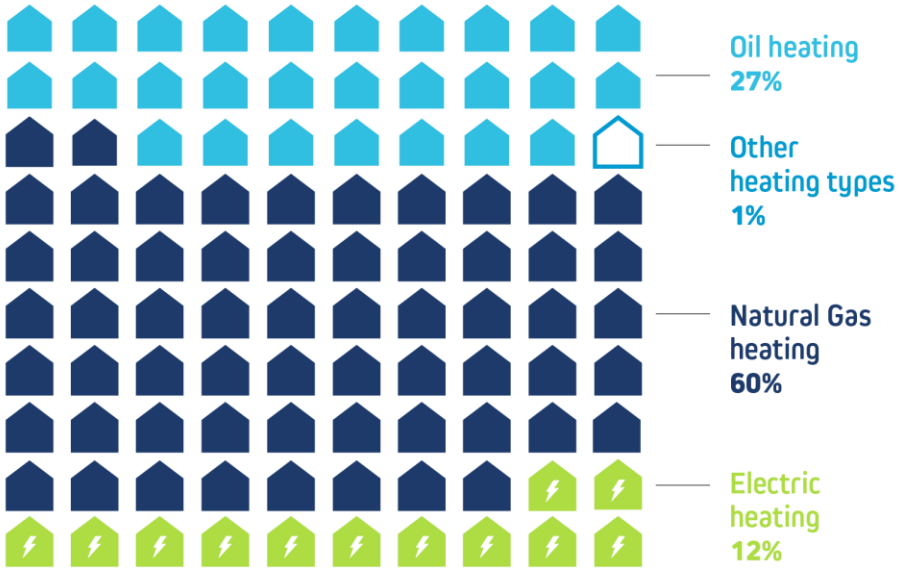
An energy-efficient heating system which uses energy from the earth to efficiently heat or cool a building.

AIR SOURCE HEAT PUMPS

An energy-efficient heating system which uses electricity to transfer heat from outside to inside a building, or vice versa. The technology can also be used to heat domestic hot water.

SOLAR HOT WATER

A type of domestic hot water heating system that use sunlight to heat water using a thermal collector.



INDUCTION COOKTOPS

A type of electric cooktop with electromagnetic coils beneath a ceramic glass surface that transfers energy

In Melrose, **60 percent of building-related emissions** result from the use of home heating fuels like natural gas and fuel oil. Businesses and industry in Melrose rely less heavily on fuel oil, but the use of natural gas and fuel oil still contribute another 14 percent of building-related emissions. Melrose's older housing stock means the vast majority of homes were built before modern insulation and air sealing practices and can benefit from weatherization and energy retrofits.

Burning oil and natural gas to heat our homes and cook our food creates **66,421 metric tons** of emissions every year in Melrose. It also creates pollution both inside and outdoors. In fact, recent studies have shown that methane leaks from gas-burning stoves is far worse than previously thought.

How are homes heated in Melrose?

SOURCE: AMERICAN COMMUNITY SURVEY 2013-2017 ESTIMATES

Switching to highly efficient electric heating and cooking appliances like **ground-source** and **air-source heat pumps, solar hot water, heat pump hot water,** and **induction cooktops** immediately reduces carbon emissions and improves indoor air quality, and these benefits only get better as our electric grid gets cleaner. The long life of home heating systems and other appliances means it is important to electrify these systems as they are replaced, to avoid locking new fossil fuel systems that may last for ten, twenty or thirty years.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 1: Electrify fossil-fuel end uses.

ACTION 1. Create an ongoing "Electrify Melrose" program and campaign.

The City of Melrose will create an on-going "Electrify Melrose" program to help home and business owners transition from fossil fuels to lower emissions alternatives. Melrose's previous successful Solarize, HeatSmart and Energy Challenge campaigns have shown the potential for community-based outreach campaigns to increase uptake and leverage state funding and incentives.

The new "Electrify Melrose" program would combine the following into a sustained ongoing campaign:

- Support for a range of technologies (see sidebar on previous page);
- Community "electrification coach" advisory services relying on a combination of city staff and volunteer coaches;
- Community-based marketing (outreach using local channels, website, certification program, assisting access to financial incentives);
- Partnerships with installers/manufacturers with discounted and transparent prices;
- Target high-cost oil, propane and electric baseboard heat and systems at the end of their useful life;
- Promote decarbonization planning for future electrification for homes with newer systems.

"Electrify Melrose" should operate in conjunction with home energy efficiency coaching (see Action 3) to provide one-stop shopping for energy saving measures.

Equity Considerations: Target outreach to renters, landlords, residents who speak languages other than English, and low- and moderate-income residents with electrification subsidy programs and income-based MassSave incentives.

ACTION 2. Develop and implement a mechanism for tracking home heating type in Melrose.

The City of Melrose will assess opportunities within existing City reporting mechanisms, such as the Annual City Census form, to reliably and simply collect information on residents' home heating fuel type. Current local, state, and national datasets on home heating fuel type are limited in the level of granularity and frequency of updates. This provides a challenge to the City's climate efforts to target and track rapid electrification of homes in Melrose.

Equity Considerations: Provide educational materials regarding different types of home heating systems and how to identify them for both homeowners and renters.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 2: Maximize uptake of residential energy efficiency and deep energy retrofits in existing buildings.

ACTION 3. Create home efficiency coaching program to assist residents with energy efficiency and deep energy retrofits.

Melrose's historic housing stock presents ample opportunities for weatherization, energy efficiency and deep energy retrofits to reduce both energy costs and greenhouse gas emissions. Home energy efficiency is in many cases the most cost-effective means to reduce emissions from the building sector and residents have indicated the need for better information and guidance in implementing energy efficiency improvements, particularly those that may go beyond MassSave's standard recommendations. Melrose's previous successful Solarize, HeatSmart and Energy Challenge programs have shown the potential for community-based programs to overcome information and cost barriers and increase uptake of energy saving and clean energy improvements.

The Melrose home efficiency coaching program will rely on a City staffperson with residential construction and energy efficiency experience as an initial point of contact to answer resident's questions, direct residents to appropriate resources and provide information on incentives and funding. A combination of City staff and volunteers can provide more in-depth coaching, working in conjunction with MassSave's evolving home energy assessments and incentives as well as the Electrify Melrose program (see Action 1).

Equity Considerations: Target outreach to renters, landlords, residents who speak languages other than English, and low- and moderate-income residents with electrification subsidy programs and income-based MassSave incentives.

ACTION 4. Opt into the state's Commercial Property Assessed Clean Energy (CPACE) law.

Melrose will explore opting into Commercial Property Assessed Clean Energy (CPACE), a financing structure that allows businesses to borrow money for clean energy projects and make repayments through an assessment on their property tax bill. CPACE allows commercial property owners to make more comprehensive clean energy upgrades and finance them with longer payback periods. CPACE financing is available in Massachusetts as of July 2020. Melrose will also advocate with state legislators to sponsor or support legislation that increases funding for incentives and financing that encourage deep energy retrofits, renewable energy, energy storage, and clean heating and cooling for businesses and residents of all income levels that prioritize expanding access to historically underserved populations (e.g., low- and moderate-income, renters, low-English-proficiency households) such as Residential PACE (RPACE) or a Green Bank similar to that of Connecticut.

Equity Considerations: Conduct outreach and education to small businesses that own commercial property in Melrose.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 3: Target energy efficiency retrofits of large multi-family buildings.

ACTION 5. Consider requiring licensing for rental units to include energy efficiency requirements for ongoing compliance.

One of the largest barriers to implementation of energy efficiency in rental units is that it requires those who own and manage the property, such as landlords and building managers, to invest in efficiency upgrades while those occupying the building units – assuming they are responsible for the utility payments – experience the benefits, including economic, quality of life, resilience, and health benefits. This is known as a "split incentive." Rental licensing helps to address this challenge and promote energy efficiency in existing buildings by requiring that certain actions, such as energy audits and weatherization, be implemented in rental properties and pass a regular inspection during the point of leasing.

For the 30% of residents who are renters, the City will explore options to establish requirements within the rental licensing process for landlords and building managers to improve their health, safety, and welfare. This could include requirements to provide a minimum level of energy efficiency upgrades to their units. Formalize the timeline of energy efficiency measures so that landlords and building managers can implement appropriate measures strategically. Consider starting with a voluntary program with recognition for joining the program, and ramping up to required rental licensing over time.

The program should provide landlords with flexibility in how to comply, such as the ability to choose which technology, from among a prioritized list or degree of efficiency, is most appropriate. Inspections of rental unit should happen at minimum when the leaser changes, however, more regular inspections could be enforced at a standard interval of time. Results of the inspection should be publicly available for renters.

Equity Considerations: Pair implementation with protection for renters so that they are not displaced by resulting improvements to the property. Enact complementary policies and programs, such as renter protections, free renter legal aid, and renter support phone-lines.

ACTION 6. Target existing multi-family dwellings with electric baseboard or oil heat for conversion to heat pumps.

Melrose's previous outreach campaigns have demonstrated the need for targeted programs to reach residents of multi-family buildings. Many of the largest multi-family properties in the City rely on high-cost, high-emissions heating systems such as electric baseboard (Melrose Towers and Melrose Housing Authority properties) and oil (Towne Estates, Levi-Gould and Fuller House). Targeted outreach to the management of these properties can be incorporated into the Electrify Melrose program (see Action 1) but will require a specialized approach.

Equity Considerations: This action item supports equity, as many of the targeted property residents include lower- and middle-income or fixed income households.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 4: Adopt policies to mandate energy efficiency and renewable energy in new construction and major renovations.

ACTION 7. Adopt net zero stretch building energy code.

Following state action to establish a net zero stretch building energy code in 2022, as mandated under the March 2021 Next Generation Roadmap legislation, the City of Melrose will adopt a net zero stretch building energy code. Melrose will pair adoption of a net zero stretch energy code with outreach and education for developers, builders, and residents (see Action 10). The building code presents an opportunity to make buildings healthier and safer, and to transition away from onsite combustion. Today, the upfront cost differentials of building to a net zero standard are minimal, and will continue to reduce over time. It is far more cost-effective to build to a net zero standard than to retroactively retrofit the same building. Subsequently, the annual energy costs can be reduced when buildings are built to a highly efficient standard and renewables are leveraged. A net zero stretch code allows communities to ensure that new construction and major renovations will be built to net zero standards and helps ensure that buildings are not locked into high emissions for years into the future.

Equity Considerations: Engage in discussions with Environmental Justice populations in Melrose and empower community organizations to weigh-in on the code development process.

ACTION 8. Incentivize energy efficiency, electrification, and renewable energy within special permit processes.

The City of Melrose will seek to adopt and gradually strengthen requirements over time for special permits that incentivize and facilitate the implementation of net zero measures in buildings undergoing significant renovation and new construction. Over the next 30 years, a subset of buildings will undergo a significant renovation or be replaced with a new building. For these buildings, it is important to ensure that they will be both allowed and encouraged to achieve the highest possible energy and emissions reductions because those buildings may not undergo significant rebuilding for another 50 to 100 years.

Until a net zero stretch building code is adopted (Action 7), the best zoning tools for Melrose to enact are special permits that incentivize these net zero measures. Special permit processes will also be important in establishing standards beyond what may be included in the net zero stretch code (under development by the Department of Energy Resources).[x]

In June 2021, the City of Melrose adopted an incentive zoning special permit that allows for appropriate increases in density in the downtown and Commuter Rail station areas for projects that provide community benefits, such as green building practices that result in energy efficiency levels exceeding building code and/or clean energy generation, which go beyond what is otherwise required in the Zoning Ordinance. This special permit can be updated as necessary over time to gradually strengthen requirements around energy efficiency, electrification, and

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

renewable energy in a way that does not impede the creation of new housing units in smart growth locations.

Melrose also has a special permit review process for multi-family residential uses in non-residentially zoned areas that could be updated to include standards for energy efficiency, electrification, and renewable energy to support the City's net zero goals.

Equity Considerations: Develop requirements in consultation with developers and building owners to avoid unintended impacts on energy bills.

ACTION 9. Require energy reporting for all new commercial construction one year after certificate of occupancy, or on an ongoing basis.

To support implementation of Action 8, the City of Melrose will explore options for implementing energy reporting for all new commercial, mixed use, and multifamily construction one year after certificate of occupancy. The reporting requirements for new construction in Action 8 will require Melrose to establish a structure for processing reporting as well as increased staff capacity, but it is the best way to analyze whether permitting and zoning measures are working. This policy is an important enabling action that many communities are already using to drive emissions reductions in the building sector across New England and throughout the United States.

Equity Considerations: Work with affordable housing owners and developers to ensure that the reporting requirements are structured in a way that allows them to participate.

ACTION 10. Provide training opportunities for City departments, boards and committees, realtors, and developers on Net Zero.

Since the development of a Net Zero building utilizes different building standards, calculations, and codes than are typically used in construction, building inspectors and plan reviewers may not have a familiarity with best practices. The goals of these trainings would be to familiarize inspectional services and other staff and members of boards and committees with high-performance building practices, to empower them to conduct relevant energy and performance calculations during plan review, and to enable inspectors to identify common construction mistakes and code violations in order to conduct efficient and effective inspections. A thorough curriculum will cover topics such as: LEED, Net Zero, Passive House and other high-performance standards, HERS ratings, life safety benefits of Net Zero buildings, and energy modeling. Additionally, Melrose will provide guidance to developers on permitting for Net Zero buildings.

Equity Considerations: Include focused training on net zero and net positive practices for multi-family buildings to increase the likelihood that benefits are realized by renters.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 5: Lead by example within municipal buildings and advocate for net zero building policies.

ACTION 11. Adopt net zero standards for new public buildings and major renovations.

The City of Melrose will lead by example by constructing, retrofitting and maintaining City-owned buildings to reduce energy use and maximize clean energy technology as much as feasible. Municipal buildings are the largest source of GHG emissions from municipal operations (municipal emissions overall only represents 3% of total community-wide emissions), and they also present a highly visible opportunity for the City to demonstrate the feasibility and appeal of net zero buildings.

In existing City-owned buildings (including school and municipal buildings), Melrose will complete energy audits and retro-commissioning projects that ensure that existing energy systems are operating efficiently, perform deep energy retrofits that maximize energy efficiency, and deploy renewable energy projects that provide as much on-site energy as possible. We will use the audits to identify buildings with high energy consumption and plan for deep energy efficiency retrofits. We will also evaluate buildings for on-site renewable energy suitability and build renewable energy projects at municipal properties with sufficient resource potential.

Equity Considerations: Prioritize improvements to public buildings that are utilized by residents in the community such as schools, library, and the senior center.

ACTION 12. Implement a suite of strategies to protect and plant trees.

The City of Melrose will implement a variety of strategies to protect the health of existing trees, reduce the removal of viable trees and increase the planting of new trees. Increasing the tree canopy in Melrose reduces heat islands and hot spots in the city and sequesters carbon that would otherwise go into the atmosphere. Require that every tree removed is replaced on site with a dedicated number of trees (2x or 3x). If the trees cannot be planted on site, they must be planted off-site at a location designated by the Department of Public Works with priority given to neighborhoods and streets with little tree canopy and heat islands.

In addition, adopting enhanced sustainable landscape plans for new construction in its zoning ordinances should be encouraged (see, e.g., Somerville's Green Score, which replaces inflexible "minimum landscaped areas" requirements with a point-based system that encourages higher value landscaping elements such as large trees).

Equity Considerations: Engage residents from vulnerable communities in the planning and development of the Green Score to improve the likelihood for a more equitable and impactful outcome.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Getting Around Melrose

Electrifying our transportation system and giving people choices about how they get around are core to Melrose's Net Zero Action Plan. The City of Melrose commits to implementing actions that advance the following strategies:

Strategy 1. Encourage low-carbon modes of transportation.

Strategy 2. Encourage uses of zero emission vehicles.

Strategy 3. Develop zero emission vehicle infrastructure for residents, workers, and visitors.

Strategy 4. Adopt zero emission mobility zoning measures.

Strategy 5. Lead by example through municipal fleet electrification and advocate for community transit needs.

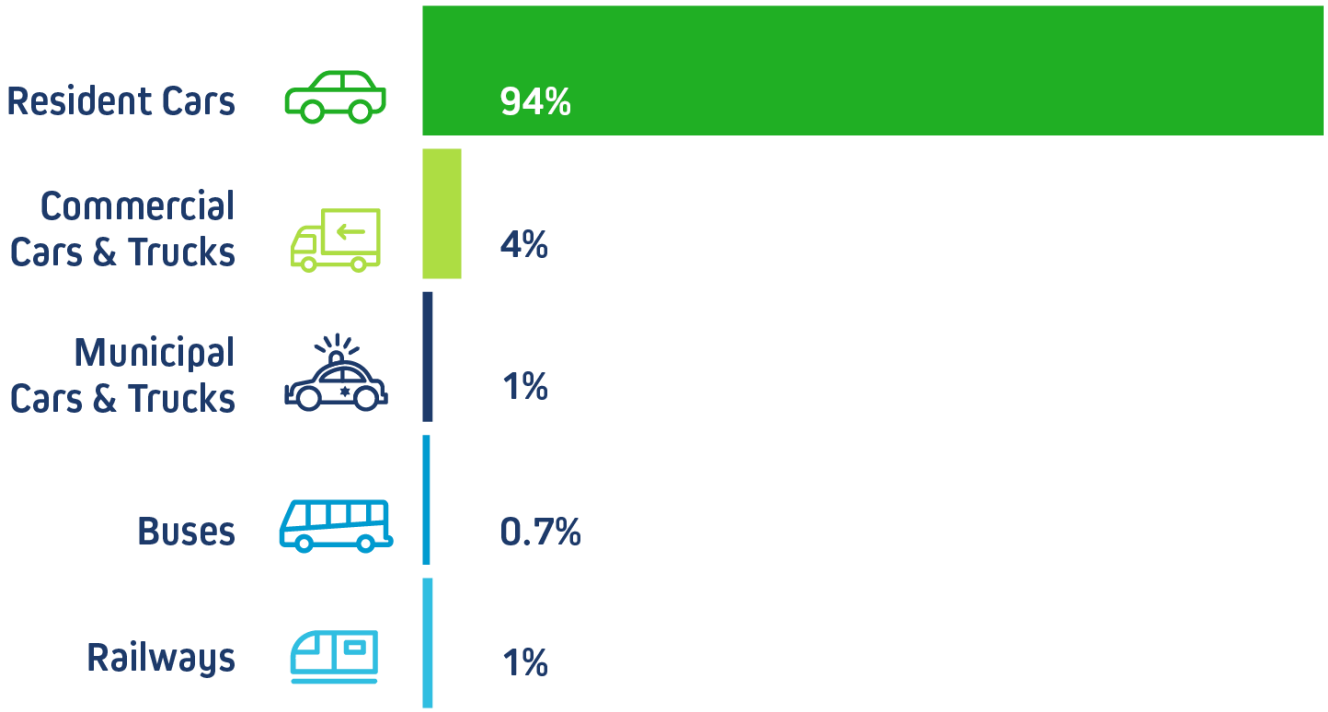


PHOTO ABOVE: MELROSE ELECTRIC VEHICLE SHOWCASE

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Gasoline- and diesel-powered cars, trucks, buses, trains, and other forms of transportation accounted for **more than a third** of our community's emissions in 2017.

Electric cars and buses are cleaner, cheaper to run over time, and require less maintenance. Electric vehicles are becoming more common and more affordable every year, and the range of makes and models available at comparable price points to gasoline- and diesel-powered vehicles is set to increase immensely in the next five years.

Expanding low-carbon mobility options like walking, biking, and transit are some of the best ways to reduce transportation emissions. By designing greener and people-centered streets and sidewalks, we can make walking, biking, and public transit as easy as taking a solo trip in a personal vehicle – and reduce traffic too! These alternatives to driving will help reduce emissions and air pollution while also making residents healthier and more connected to their community.

SOURCE: MELROSE'S 2017 GREENHOUSE GAS INVENTORY

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 1: Encourage low-carbon modes of transportation

ACTION 13. Develop and implement a Safe Streets Plan and pilot projects.

The City of Melrose will develop a Safe Streets Plan to identify gaps in the transportation network and inform how best to prioritize near- and longer-term projects. This effort will build on the work of the Pedestrian and Bicycle Advisory Committee and prioritize the needs of children, older adults, and people with disabilities.

The Safe Streets Plan should analyze mode share patterns, evaluate bicycle and pedestrian infrastructure needs, and make recommendations on best practices to improve bicycle and pedestrian safety and connectivity on major regional corridors and local routes with high access to important destinations (workplaces, retail, recreation, public services, etc.). This plan will also aim to connect Melrose to existing and proposed regional trails and paths, such as the Northern Strand Trail in Malden, Malden River Greenway, Tri-Community Greenway in Stoneham and the Wakefield-Lynnfield Rail Trail.

Melrose will also explore options for off-road community paths. Off-road paths that prohibit motorized vehicles are an important option to encourage residents and commuters to leave their cars. One potential area to explore is the use of the Orange Line MBTA/DCR right of way, which was first recommended in MAPC's Main Street Corridor report published in 2013.

Equity Considerations: Ensure robust engagement of vulnerable populations in the planning processes. Plan for the provision of equitable access to infrastructure investments.

ACTION 14. Expand Safe Routes to School programming.

Safe Routes to School (SRTS) a federally funded initiative of MassDOT, works with schools, communities, students, and families to increase walking and biking among elementary and middle school students in the Commonwealth. SRTS works with a variety of stakeholders to advocate for better bicycling and pedestrian infrastructure, educate students and their families about walking and biking to school safely, and provides other related technical assistance to schools. The City should adopt recommendations made by SRTS studies to make known hot spots safer.

Equity Considerations: Ensure robust engagement of vulnerable populations in the planning processes. Advocate for the provision of equitable access to infrastructure investments

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

ACTION 15. Support expansion of the Landline Trail and Greenway Network.

As a part of the safe streets plan in Action 13, the City will support expansion of the Landline Trail and Greenway Network and Safe Routes to School (SRTS) programming.

MAPC's Landline Trail and Greenway Plan envisions a 1,400 mile regional network of trails and greenways across the region. These trails and greenways will provide critical infrastructure and connectivity to facilitate more walking and biking throughout the region. The City will help implement the Landline vision by working with local trail groups to identify priority trail construction areas and advocating for funds at the state level for trail construction and maintenance.

Equity Considerations: Ensure robust engagement of vulnerable populations in the planning processes. Advocate for the provision of equitable access to infrastructure investments.

Strategy 2: Encourages uses of zero emission vehicles.

ACTION 16. Create an education and community engagement program to promote electric vehicle adoption

The City of Melrose will provide a suite of education and outreach services, EV ride and drives, and incentives to promote electric vehicle adoption with a focus on financing and purchase opportunities to make zero emission vehicles more affordable.

At first glance, the transition to zero emission vehicles may seem to rest squarely on consumer choices and behavioral changes of a community's residents. However, there is an important role for larger market forces, federal and state incentives, and local education and awareness building to nudge residents toward the choice that aligns with getting to net zero. The City will develop a suite of municipal outreach services that may include partnerships with nonprofits such as the Green Energy Consumers Alliance Drive Green discount program, utility EV charging and program offerings, and national programs such as National Drive Electric Week to educate Melrose residents about the benefits of EVs.

Local EV showcases at Healthy Melrose and the Victorian Fair have proven to be very effective at increasing EV purchases by residents and those should continue and expand to provide ride and drive opportunities. Giving people direct and extended experience driving an electric vehicle can reduce perceived barriers individuals may have about switching to an electric vehicle. The Portland Greater Council of Governments took this a step further with their Electric Vehicle Lending Program, which provides individuals with the opportunity to borrow an EV for up to a week. This extended exposure allows individuals to see how an EV fits into their day-to-day lifestyle.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Equity Considerations: Identify opportunities to increase the subsidies and incentives for low-income drivers and provide opportunities to access electrified transportation for people who do not own a car. Incorporate translation and accessibility into the program planning.

Strategy 3: Develop zero emission vehicle infrastructure for residents, workers, and visitors.

ACTION 17. Support awareness of on-street EV charging to provide access to infrastructure for renters and homeowners that lack access to off-street parking.

In 2021, the City partnered with National Grid on a demonstration project to test the concept of pole-mounted EV chargers. Nine locations near multifamily housing, recreation areas, and in business districts with limited off-street parking were selected in order to make EV charging more accessible to more people. Other benefits include lower installation costs and easier installation at the power source. Following the installation of 15 new utility pole-mounted EV chargers through the National Grid demonstration project in July 2021, the City will promote them widely through signage, lighting, outreach and other awareness efforts.

Equity Considerations: Perform regular and ongoing outreach to neighborhoods with high concentrations of renters where resident turnover will be more frequent.

ACTION 18. Conduct outreach and education efforts targeting businesses to encourage charging infrastructure deployment.

To support the expansion of charging stations beyond publicly owned lots and right of ways, the City will approach large employers, institutions, and retailers to connect them with funding opportunities (e.g. Volkswagen Settlement, MassDEP Electric Vehicle Incentive Program - EVIP, and National Grid's Make Ready Program) to install electric vehicle charging stations on their sites. The City will leverage connections through the Chamber of Commerce and National Grid to work with large private sector actors interested in installing electric vehicle charging stations. The City will coordinate with National Grid to ensure there is a plan for increased electric demand from the charging stations installed.

Equity Considerations: Ensure robust engagement of vulnerable populations in the planning processes to ensure equitable distribution of charging infrastructure.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

ACTION 19. Expand public charging and more municipal parking lots near municipal services and facilities such as the library, schools, and additional business districts.

The City of Melrose will expand public charging at more municipal parking lots near municipal services and facilities such as the library, schools, and additional business districts.

Melrose installed an EV charger in the City Hall parking lot in 2014 and a second one at the Cedar Park commuter lot in 2017 which serve a variety of users and needs. The City will invest in additional electric vehicle charging stations in more locations to help provide the infrastructure needed to support continued EV adoption for residents, workers, and visitors. As a part of this action, the City will assess options and put in place sustainable pricing and parking policies to support management of the charging stations as utilization increases over time. Consider allowing renters and those without at-home access to charging to use the public chargers overnight with special parking permits.

Equity Considerations: Plan for equitable geographic distribution of charging stations across the community and pair with programs to reduce economic barriers to EV adoption (Action 13).

ACTION 20. Specify or adopt design guidelines for EV and PEV charging stations, signage, and wayfinding for both on- and off-street parking. Adopt regulations and enforcement policies for EV and PEV parking spaces.

Consistent wayfinding and visible signage provides the needed support for existing EV drivers to locate charging infrastructure and sends a signal to other drivers that an EV may be viable alternative by reducing range anxiety. The City will pair signage with EV specific parking regulations and incorporate these regulations into existing parking enforcement structures. The City's signage guidelines will adhere to the standards published by the Federal Highway Administration in the Manual on Uniform Traffic Control Devices. Signage requirements will include consistent guidance on parking space stencils and signage that communicates any restrictions to the use of the EV parking space. Regulations will limit use of the spot to EV drivers and impose a time limitation to increase utilization of the charging station.

Equity Considerations: Plans for and requirements around EV charging station installation should include provisions for ADA compliant spaces with access to charging stations.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 4: Adopt zero emissions mobility zoning measures.

ACTION 21. Continue to support transit-oriented development in existing overlay districts.

Recognizing its strong transportation assets, the City is committed to advancing smart growth and transit-oriented development. That is, high-density, mixed-used development near the Oak Grove Rapid Transit Station, as well as around our three MBTA Commuter Rail Stations and in our downtown. As the City of Melrose has increased its housing supply over the years, it has also remained dedicated to increasing the supply of affordable housing. While Melrose has not yet met the 10% threshold set by the Commonwealth for the percentage of housing units designated as affordable, it has reached 8% by making steady progress over the years. Melrose will continue to make progress and increase redevelopment near public transit through progressive zoning and the flexibility of the Planning Board to ease or waive parking requirements.

Equity Considerations: Include requirements for affordability and community amenities within existing overlays. This recommendation should also be paired with strategies that preserve affordable housing and protect against displacement.

ACTION 22. Adopt comprehensive parking policies to maximize efficient use of spaces, reduce use of single occupancy vehicles, and incentivize electric vehicle charging infrastructure.

Parking plays an integral role in influencing vehicle congestion, determining travel behavior, and shaping land use patterns. Not only is parking very expensive to construct, but also in many circumstances, more parking actually contributes to increased vehicular congestion. Under this policy, the City will consider the elimination of minimum parking requirements for all new residential units, establishment of parking maximums within half a mile of high-quality transit stops, creation and expansion of parking benefit districts, and incentives for developers to provide less than maximum allowable parking. There are a wide range of data-driven strategies that cities and towns can employ to encourage more efficient allocation of parking resources. Parking studies provide valuable insight as to how parking is currently utilized and can help inform how parking policies can best meet demand, often reducing the perceived need for more parking.

As a part of the incentive zoning special permit in Action 2, the City will also aim to incentivize electric vehicle charging infrastructure and on or off-site bicycle and pedestrian infrastructure in exchange for allowing increases in density.

Equity Considerations: Incorporate considerations that prioritize creation of housing units and other community amenities within parking policies.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 5: Lead by example in the municipal fleet and advocate for community transit needs.

ACTION 23. Adopt zero emission standards for the municipal fleet.

The City of Melrose will adopt a zero emission municipal fleet policy that commits to complete transition to zero emission vehicles and equipment by no later than 2035 for all vehicles with viable zero emission makes and models. This policy should also address how the vehicle purchase approval process will be managed within the municipality to ensure that all departments are adhering to the new emissions standards. The policy should include maintenance equipment such as landscaping tools and machines.

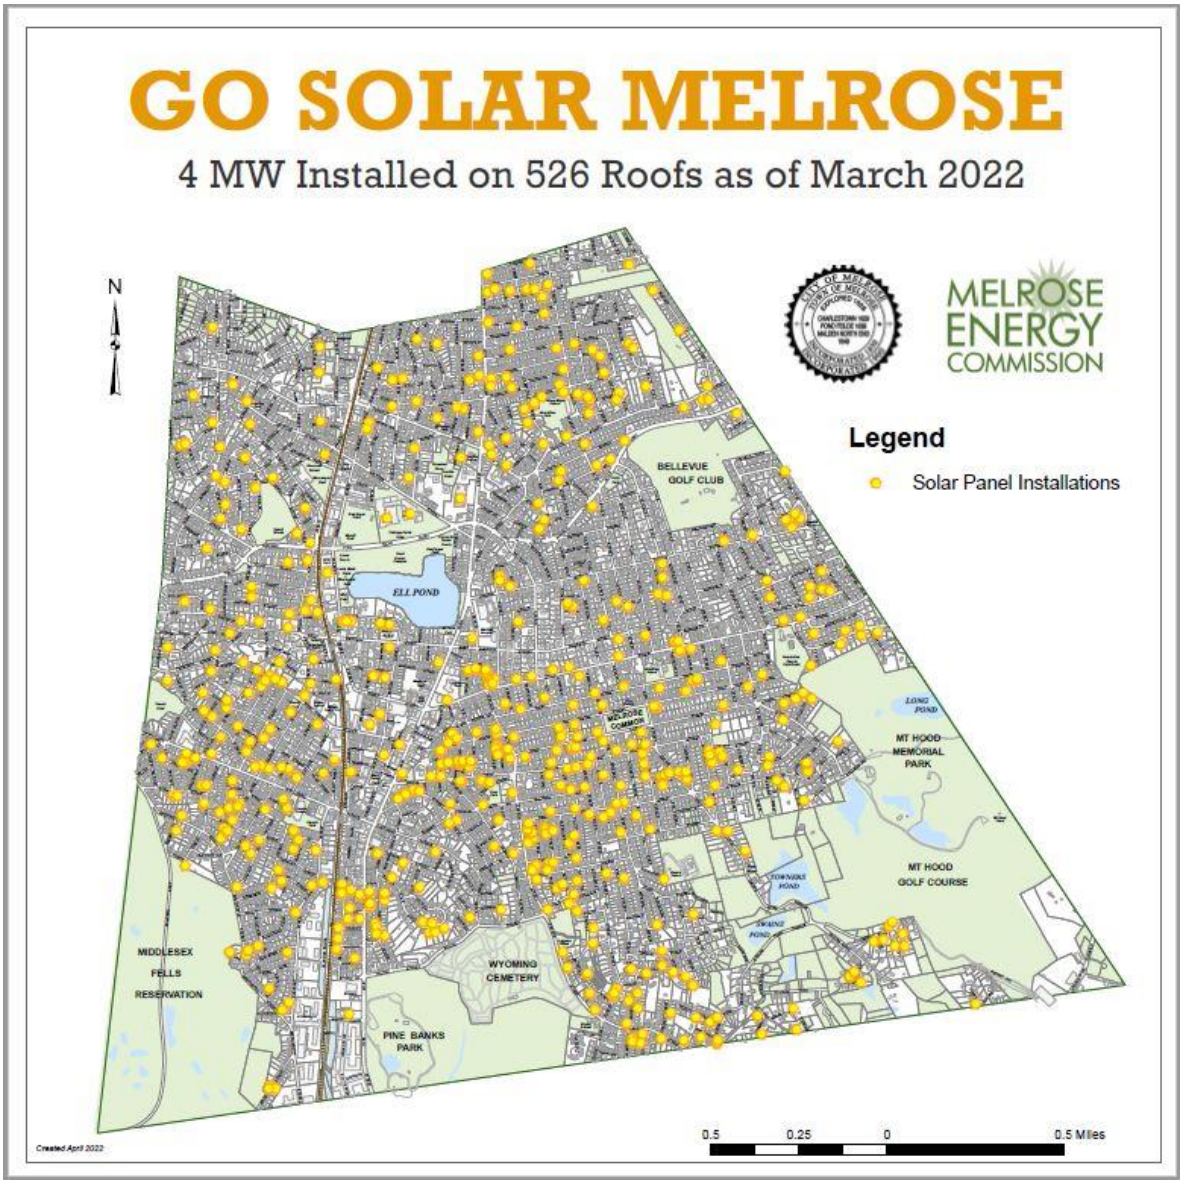
Building on the City's participation in National Grid's Fleet Advisory Services Program (FASP) begun in June 2021, municipal staff involved in fleet purchase decisions will be actively involved in the ongoing analysis. The FASP assessment will provide recommendations on electric fleet replacements, idle reduction technologies, fleet right sizing (i.e., consolidating vehicles with similar use cases and low rates of utilization), and placement of charging stations to support fleet electrification. The FASP process commits the City to revisiting and regularly updating it to account for rapid improvements in vehicle technology.

Equity Considerations: Provide opportunities for community feedback on the policy to promote greater transparency and community involvement in lead by example efforts.

ACTION 24. Advocate for community transit service needs, bus stop upgrades, and increased efficiency and electrification of the regional transit system.

The City of Melrose will continue to advocate for measures within transit planning processes at the MBTA and MassDOT that align with the City's net zero goals. Recent examples include successfully fighting MBTA service reductions on the Reading/Haverhill line with elimination of the Cedar Park station stop and the 136/137 bus routes in 2020.

Melrose will work with the community to identify priority areas to increase access and community transit ridership. The City will also advocate during upcoming planning processes with the MBTA and MassDOT and push for improved energy efficiency and reduced carbon intensity of mass transit vehicles.



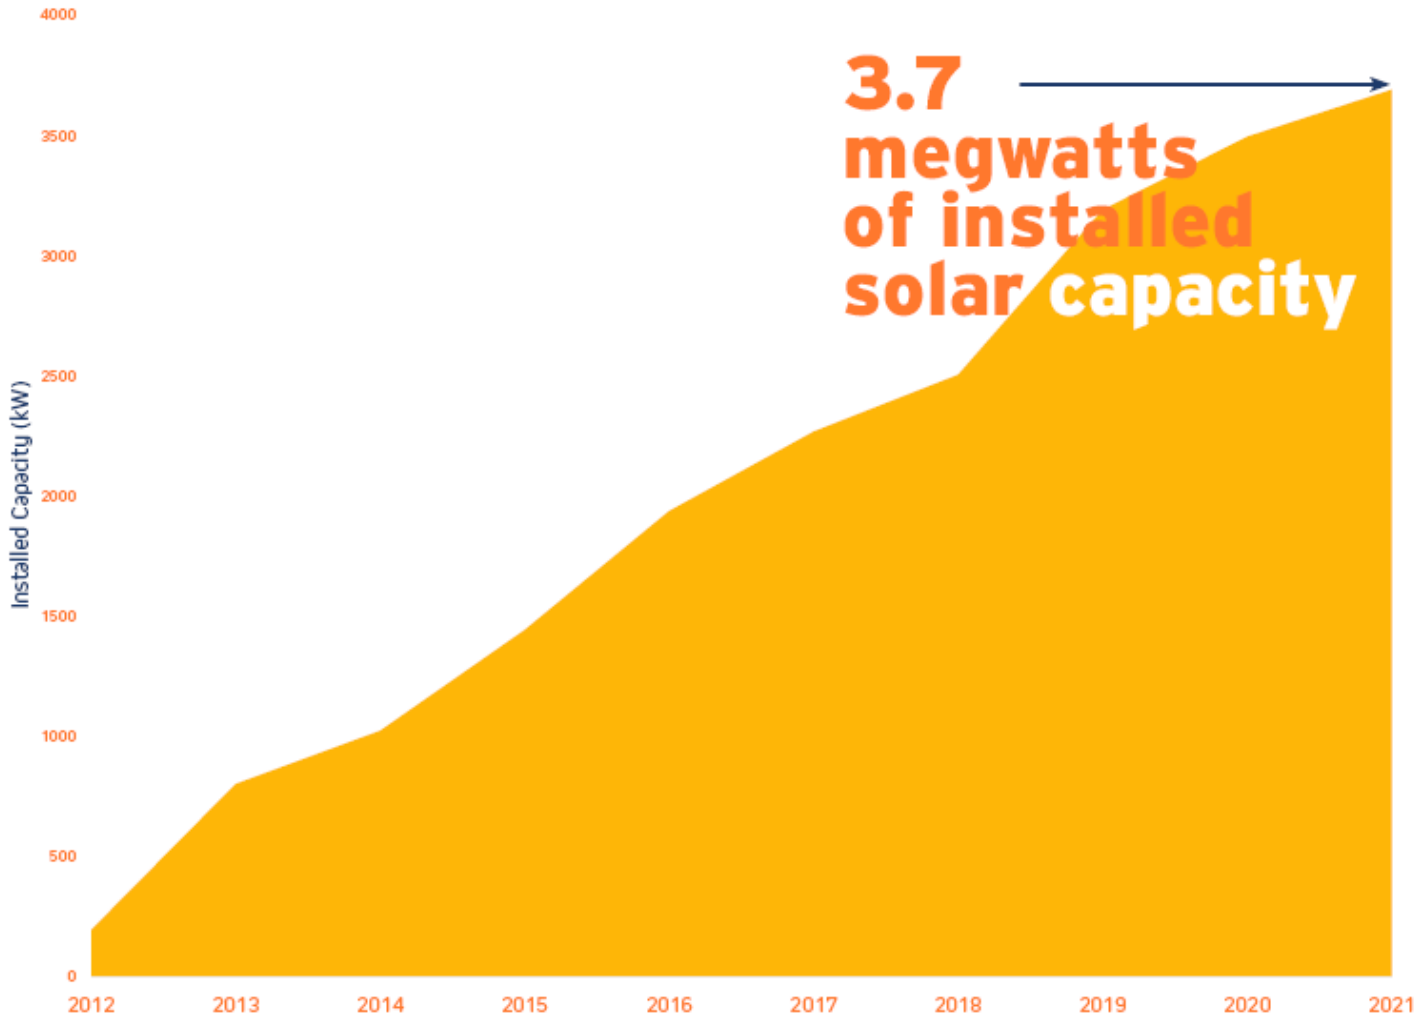
Equity Considerations: Ensure robust engagement of vulnerable populations in the planning processes. Plan for the provision of equitable access to infrastructure investments.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Where Our Energy Comes From

The City of Melrose commits to implementing actions that advance the following clean energy supply strategies:

Strategy 1. Maximize on-site renewables for property owners.
Strategy 2. Maximize off-site community shared solar
Strategy 3. Procure renewable energy for all remaining energy needs
Strategy 4. Lead by example and advocate for smart electricity use.



GRAPHIC ABOVE: MELROSE ROOFTOP SOLAR INSTALLATIONS THROUGH MARCH 2022. SOURCE: PERMITS

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Electrification of systems that currently rely on fossil fuels (like our home heating systems, our cars, etc.) is essential to achieving our net zero goal in Melrose. However, the success of this strategy depends on fully transitioning our electric grid to renewable sources of energy.

Renewable energy comes from endlessly sustainable sources such as wind, the sun's heat or light (i.e., solar), or the earth beneath our feet (i.e., geothermal). Our electricity is getting cleaner and greener all the time thanks to state and local policies, like Melrose's electricity aggregation, but natural gas still provides most of our electricity in New England. Developing local renewable energy projects and supporting renewable energy projects through electricity aggregation and policy advocacy will help our community speed up the process of switching to clean energy.

In Melrose, more than 526 properties already have solar on their rooftops, and the production of local, renewable energy sources is growing. As of the end of 2021, Melrose's installed solar capacity was more than **3.7 megawatts**.

SOURCE: MASSACHUSETTS DEPARTMENT OF ENERGY RESOURCES, SREC I, SREC II, AND SMART QUALIFIED PROJECT DATA IN MELROSE

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Strategy 1: Maximize on-site renewables for property owners.

ACTION 25. Continue to promote the EnergySage.com platform for residents who want to install solar and for renters who want to participate in community solar.

The City of Melrose will continue to promote the EnergySage.com platform for residents who want to install solar and for renters who want to participate in community solar. The City will also explore mechanisms to support access to community solar for low-income residents.

Building on the success and lessons learned from the City's implementation of Solarize Melrose in 2012 and the partnership with EnergySage that began in 2014, Melrose will continue to promote the EnergySage.com online platform for property owners who want to go solar as a shopping and education tool. The City will also promote EnergySage's community solar platform for renters and other homeowners who are unable to install rooftop solar. The City will consider the potential for additional partnerships with specific installers chosen through a competitive procurement process (see Action 1).

Equity Considerations: Identify and mitigate potential barriers to participation in community solar including long term contracts and credit score requirements.

Strategy 2: Maximize off-site community shared solar.

ACTION 26. Develop a low-income community shared solar program under the state's SMART incentives.

Melrose will explore options available to develop a low-income community shared solar program through the municipal aggregation program Melrose Community Power as authorized in the updated SMART incentives. This will include a review of near-term opportunities under the state's SMART program incentives. The City will work to ensure through project outreach and incentives that low-income residents are involved in the development of the program.

Equity Considerations: Identify and mitigate potential barriers to participation in community solar including long term contracts and credit score requirements.

Strategy 3: Procure renewable energy for all remaining needs.

ACTION 27. Pursue 100% carbon-free electricity in the Melrose Community Power by 2030.

The City of Melrose will gradually increase the amount of renewable energy in the Melrose Community Power program so the default level is 100% carbon-free by 2030, and then maintain that outcome permanently.

Melrose launched what is now called Melrose Community Power in 2015. The 2019-2021 contract set the baseline for electricity supply at 5% more local

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

renewables than the state's Renewable Portfolio Standard (RPS) The new 2021 – 2024 contract will increase the amount to 10%. There is also an option for 100% renewable energy. The program ensures that all additional renewables are from MA Class I RECs (Renewable Energy Credits). MA Class I RECs help to support local renewable energy since projects meeting the criteria for these credits are required by the state RPS.

The City will continue to implement this program into the future with the goal of increasing the percent of Class I RECs in the default rate to 100% renewables by 2030 as well as exploring direct off-taker opportunities in renewable energy developments. This effort will involve active monitoring of rates and the local impact on low-income ratepayers. The City will also continue the successful outreach campaign to encourage residents and businesses to opt-up to 100% Local Green.

Equity Considerations: Pay particular attention to the costs of participating compared to utility electricity costs and provide a default rate that is competitive with these prices.

Strategy 4: Lead by example and advocate for smart electricity use.

ACTION 28. Maximize the installation of clean energy resources on municipal property and purchase 100% renewable municipal electricity supply by 2030.

The City will seek to maximize the installation of clean energy resources on municipal property, including exploration of opportunities to pair solar with storage and retrofit buildings with clean heating and cooling systems.

The City has already installed rooftop solar on every available municipal building roof where there is space and the roof condition makes it feasible including on the high school, middle school and the Public Works Operations Facility. Melrose will demonstrate leadership in this sector by maximizing the installation of solar PV on municipal buildings as more roofs are replaced, such as Memorial Hall and several elementary schools. Solar canopies should be considered again for parking lots such as at the high school and the City Hall parking lot among others. After assessing the feasibility of municipal sites for renewable energy, the City will consider a plan for installation and procure these systems where they are feasible.

In addition, Melrose should progressively increase the amount of renewable electricity in its municipal supply contracts until reaching 100% for municipal operations by 2030. Melrose has already started this transition by contracting for an additional 10% MA Class 1 RECs in the last year of the current contract for 2023. At all points of implementing this action, the City will consider cost impacts to taxpayers in Melrose.

Equity Considerations: Provide opportunities for community feedback on the policy to promote greater transparency and community involvement in lead by example efforts.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

ACTION 29. Support state legislation and policies to de-carbonize the region's energy supply.

The City of Melrose will advocate for state policies that increase the Renewable Portfolio Standard (RPS) and promote incentives specifically for low to moderate income (LMI) residents such as LMI solar incentives, and programs and procurements that further decarbonize the region's energy supply, such as offshore wind development.

The current RPS puts the state on track to reach 67% renewable energy by 2030. The Next Generation Roadmap for Massachusetts Climate Policy, enacted in 2021, raised the rate of increase to 3% from 2025 through 2029 at which point the rate of increase returns to 2% and puts the state on a pathway to achieve approximately 80% renewable generation by 2050.[xi]

An increase in the renewable portfolio standard helps to advance the installation of new renewable energy systems across the state. Since many utility programs are driven by the requirements of the RPS, an increase in renewables also improves the financial incentives for renewables and helps to lower soft costs for renewable energy by the increase in competition.

Equity Considerations: Ensure that policies include measures to directly benefit Environmental Justice communities across Massachusetts and increase access to clean energy for all.

ACTION 30. Advocate for expansion of demand response programs and creation of distinct time of use rates.

The City of Melrose has participated in a variety of demand response programs since 2012 with much success. The City should continue these initiatives and also advocate for expansion of demand management programs and the creation of distinct time of use rates for different types of buildings and electric vehicle charging. This will include support for smart metering infrastructure, demand response programs, energy storage infrastructure and advocacy for additional incentives for energy storage.

Equity Considerations: Ensure that policies include measures to directly benefit Environmental Justice communities across Massachusetts with a focus on affordability.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

ACTION 31. Advocate to regulators and utilities to greatly accelerate the repair of gas leaks and support the phase-out of the natural gas distribution supply network.

Melrose will advocate for the repair of super-emitter gas leaks and coordinate information and data sharing with National Grid. Repairing gas leaks improves residents' health, makes the gas network more efficient and helps to eliminate difficult to account for GHG emissions. The City will advocate for additional efforts for detection and mitigation of gas leaks and work to expedite the repair of local leaks.

Melrose will also advocate for regulatory changes that help accelerate the phasing-out of the gas distribution network as is being investigated by the MA Department of Public Utilities at the request of the MA Attorney General's Office. We await the outcome of the investigation that was launched in October 2020.

Since the repair of gas leaks and replacement of pipes involves digging up and repairing streets, they can be costly and require multiple permits. Melrose will continue to work with National Grid to see where priorities for gas leak repair and street repair overlap and explore opportunities to develop a shared schedule to complete multiple repairs in the same street opening and re-pavement. This action could also include consideration of ways to expedite permitting for these repairs, including an online permitting system such as Roadworks. Melrose will continue its participation in the Multi-Town Gas Leaks Initiative, working with communities throughout the region to accelerate leak repair by improving data sharing, communication, and coordination between municipalities and National Grid.

Equity Considerations: Ensure equity in setting street repair and gas leak repair priorities throughout Melrose.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Implementation: What's Next?

This Net Zero Action Plan is just the beginning for the City of Melrose. The transitions required to achieve net zero in Melrose necessitates an all-hands-on-deck approach – both internally, with City staff and elected bodies, and externally, with local community partners and municipal peers. The following initiatives will be spearheaded by the City's Sustainability Manager which will facilitate implementation of the actions prioritized in this plan.

Governance

Develop internal practices and structures for multi-departmental coordination on climate action.

The Mayor will appoint key members of City boards, commissions, and departments to join a Net Zero Action Task Force. Task Force members will support the Sustainability Manager in implementing and reporting on the progress of priority actions identified in the plan. The Task Force will also be structured to be a two-way exchange of information – providing opportunities to increase climate literacy and technical capacity across city government.

One of the first objectives of the Net Zero Action Task Force will be to align municipal department responsibilities with the goals of the Net Zero Action Plan and identify any areas where municipal activities may be acting in opposition to the goals of the plan.

This process will result in the incorporation of a climate framework into the goals of every municipal department.

Report on metrics of success and update greenhouse gas inventory on a semi-annual basis.

The City's GHG inventory will be the core tool for benchmarking progress toward its net zero goal. The City will update its GHG inventory as new data sets are made available, using MAPC's Community Greenhouse Gas Inventory Tool. The expectation is that this will occur every two years. The 2017 GHG inventory will be used as the baseline to measure progress against.

Revisit and update the plan every five years.

The Net Zero Action Plan is intended to serve as a living document that will be revisited and revised regularly by the Sustainability Manager and the Net Zero Action Task Force to ensure our community is always pushing ahead and successfully working toward its goals.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Public Engagement and Education

Building community capacity to make the electrification transition

A core component of the community engagement plans to convene focus groups during the planning process had to be put on hold due to the COVID-19 pandemic. As such, the City will prioritize building and strengthening relationships with vulnerable populations that are not currently reached by the City's communication and engagement channels. In addition, broad and continued outreach to stakeholders both in city government and in the wider community is necessary in order to increase understanding of what the transition to net zero entrails. There is a role for everyone in this challenge and more education on how to get there is needed.

Partnership and Collaboration

Coordinate climate action regionally with the Metro Mayors Coalition municipalities

Coordinated action with surrounding municipalities will be a component to the success of Melrose's Plan. The City will continue to connect and share best practices with staff in nearby Metro Boston municipalities, utilizing existing regional networks like the Metropolitan Mayors Coalition Climate Preparedness Task Force to identify regional priorities and programs for implementation.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Net Zero Action Roadmap Summary

NAVIGATING THE ROADMAP

Timeframe

Specifies the anticipated timeframe needed for full implementation of the action.

IN PROCESS Currently underway by City staff

SHORT TERM Less than one year (<1 yr)

INTERMEDIATE TERM Two to three years (2-3 yrs)

LONG TERM Four to five years (4-5 yrs)

Potential Co-Benefits

This section identifies the high-level potential for the types of benefits, in addition to greenhouse gas emissions reductions, the City may experience through effective implementation of the action.

PUBLIC HEALTH BENEFITS

ECONOMIC BENEFITS

ENERGY SYSTEM BENEFITS

ENVIRONMENTAL BENEFITS

Internal Partners

Although the Sustainability Manager is primarily responsible for spearheading implementation, Internal Partners are identified to assist with implementation. Acronyms used refer to Office of Planning and Community Development (OPCD) and Department of Public Works (DPW).

Other Partners

Other partners are identified within municipal operations and the broader community-at-large that will be critical to successful implementation of the action. Acronyms used refer to Melrose Energy Commission (MEC), Massachusetts Clean Energy Center (MassCEC), Massachusetts Department of Energy Resources (DOER).

Funding Needs

This category specifies whether the type of funding need is capital, operations, staff or volunteer time. Particularly intensive actions call out where the City may need additional dedicated staff for successful implementation.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First

Our Homes and Businesses:

2030 MILESTONES

- All new buildings built to net zero standards.
- 20% of homes and businesses have undergone deep energy retrofits.
- 80% of homes previously on fuel oil, propane, or electric baseboard heat have converted to high efficiency electric heat (heat pumps).
- 10% of homes currently on gas heat have converted to high efficiency electric heat.

2050 MILESTONES

- Nearly all existing homes and businesses in Melrose have had deep energy retrofits.
- Nearly all homes and businesses rely on high efficiency electric heating.

STRATEGY 1: Electrify fossil-fuel end uses

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First

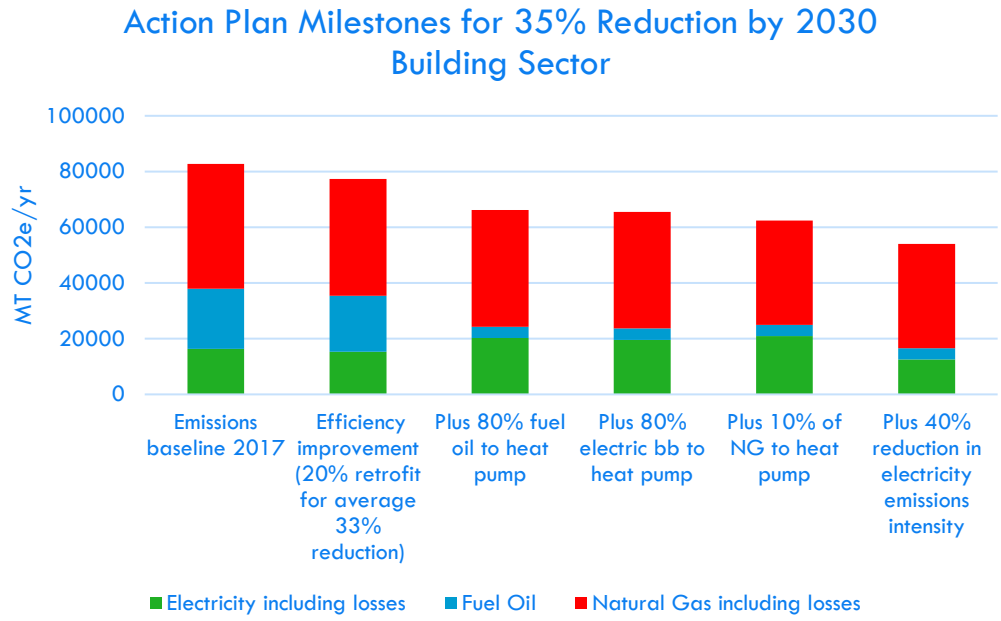
Appendix A: Net Zero Roadmap Milestone Supporting Documentation

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

The targets set forth in the Net Zero Roadmap for the year 2030 are designed to provide concrete, measurable milestones that will allow the City to assess whether it is on track to meet the Net Zero by 2050 goal. These targets are calculated to be consistent with Massachusetts' climate goals as set forth in "An Act Creating a Next Generation Roadmap for Massachusetts Climate Policy" adopted in 2021, which establishes an emissions limit of not less than 50% reduction from 1990 levels by 2030 (and 75% reduction by 2040), and are tailored to Massachusetts' specific challenges as a largely residential community with an older historic housing stock.

Baseline

The Massachusetts statewide target is assessed based on a 1990 emissions baseline; due to progress made since 1990 (primarily due to reductions in emissions intensity of the electric grid) the state has achieved approximately a 23 % reduction in statewide emissions since 1990, so the target equates to a 35% reduction from current emissions levels.



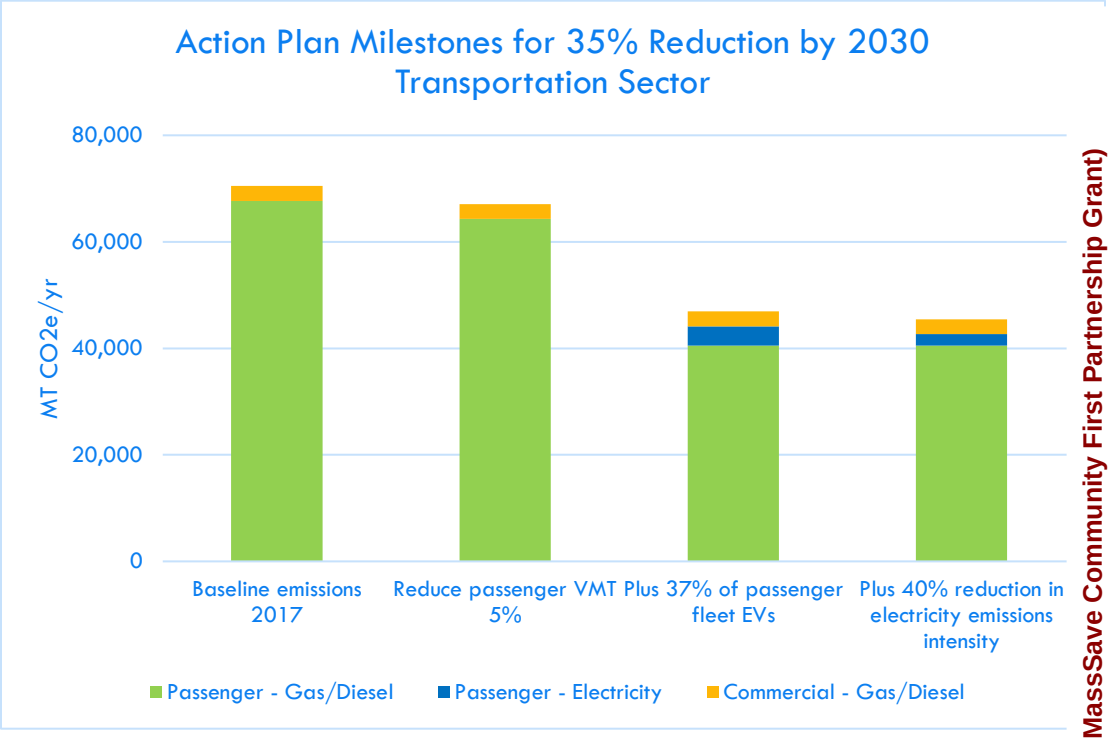
Melrose does not have data on city emissions from 1990 and is using its 2017 Greenhouse Gas Inventory as the baseline for assessing progress on mitigation goals. For the purpose of setting 2030 targets this plan assumes that Melrose is in a similar position to the state as a whole in terms of the progress made between 1990 and 2017, so the targets are calculated to achieve a 35% reduction from the 2017 baseline. This seems to be a reasonable assumption since Melrose's population in 2017 (28,367)is very similar to that in 1990 (28,112); note Melrose's population declined significantly and then rebounded during that time, so the pattern of emissions trends between 1990 and 2017 may be quite different from that of the state as a whole.

Building sector targets

Reducing emissions from the building sector involves a combination of reducing energy usage through improving building envelopes, improving the energy efficiency of building heating and cooling systems, and electrifying those systems so that they can be run on clean renewable electricity. These changes build on one another; for example, switching from oil heat to electric heat pump reduces emissions through the greater efficiency of the heat pump system and also due to the lower emissions intensity of electricity as a power source, and there will be further emissions reductions from those systems over time as the electric grid becomes cleaner.

The chart below illustrates the cumulative impact of the energy efficiency, heat pump conversion and electric grid clean energy targets to achieve the 2030

emissions reduction target. Note that these targets represent one pathway to achieving the goal; shortfalls in one area can be made up by improved progress in other areas, and it is important to keep track of all of the measures to ensure that overall progress is on track.



Transportation

Reducing emissions from the transportation sector involves a combination of reducing vehicle miles, improving the energy efficiency of vehicles, and electrifying vehicles so that they can be run on clean renewable electricity. These changes build on one another; for example, modern electric vehicles use less energy to run and also reduce emissions due to the lower emissions intensity of electricity as a power source, and there will be further emissions reductions from those systems over time as the electric grid becomes cleaner.

The chart below illustrates the cumulative impact of reducing vehicle miles and transitioning to electric vehicles to achieve the 2030 emissions reduction target. Currently approximately 12% of passenger vehicles in Melrose are replaced by new vehicles each year; assuming linear progress towards a goal of 60% of new cars electric in 2030, the percent of registered vehicles that would be EV in 2030 should be about 37%.

Attachment: Melrose Net Zero Action Plan (ORDER-2022-110 : Acceptance of MassSave Community First Partnership Grant)

Clean electricity

The transition to clean renewable sources of electricity is essential to achieving Melrose's net zero goals, and reduction in the emissions intensity of the electric grid in incorporated into the target calculations for the building and transportation sector. The overall intensity of the electric grid is largely dependent on state policy, but Melrose has committed to targeting 100% of electricity from renewable resources through increasing local renewable generation and through power purchasing programs.

CITY OF MELROSE

BOARD OF ASSESSORS

Sarah MacLellan
Chief Assessor
smaclellan@cityofmelrose.org

City Hall, 562 Main Street
Melrose, Massachusetts 02176
Telephone - (781) 979-4104

To: Margot Fleischman
Chief of Staff & Director of Strategic Initiatives & Communications
From: Sarah MacLellan
Meeting Date: April 25, 2022
Subject: Amendment of Revised Local Options for Property Tax Exemptions

Dear Margot:

It has come to my attention that Order No. 2021-83, (an Order to Amend Property Exemptions as Stated in M.G.L. Chapter 59, Clause 41C, 41A and 17D per local option) which was passed by the Melrose City Council on March 1, 2021, referenced clauses of M.G.L. Chapter 59, Section 5 that do not reflect the full intention and impact as described within the body of the Order. [See attached Exhibit A, documentation relative to Order No. 2021-83] In order to correct these administrative errors and to properly update the City of Melrose Code, I recommend that the City adopts the following clauses:

1. M.G.L Chapter 59, Section 5, **Clause 17E**, which automatically increases each year the amount of assets (whole estate) certain senior citizens and surviving spouses and minors may have in order to qualify for an exemption under M.G.L. c. 59, § 5, Clause 17D by the COLA determined by the Commissioner of Revenue. The asset limit increases resulting from adoption of this provision operate cumulatively.
2. M.G.L Chapter 59, Section 5, **Clause 41D**, which automatically increases each year the amount of the income (gross receipts) and assets (whole estate) certain senior citizens may have to qualify for an exemption under G.L. c. 59, § 5, Clause 41C by the COLA determined by the Commissioner of Revenue. The income and asset limit increases resulting from adoption of this provision operate cumulatively.

Best Regards,

Sarah MacLellan

Encls.

Sarah MacLellan

Attachment: MEMO - AMEND REVISED LOCAL OPTIONS FOR EXEMPTIONS (ORDNC-2022-3 : Amendment of Real Estate Exemption Local

EXHIBIT A

CITY OF MELROSE

In City Council

March 1, 2021

AN ORDER

ORDER-2021-83

Clause 41C Senior Real Estate Exemption Local Options

Offered by Mayor Paul Brodeur

BE IT ORDERED

Amend Property Exemptions as stated in MGL Chapter 59 Clause 41C, 41A, and 17D. Per Local option.

1. Clause 41C Single - Age 65 or older-single
    a. Income: from $20,000 to $20,000 + COLA annually
    b. Assets: from $40,000 to $40,000 + COLA annually
2. Clause 41C Married - Age 65 or older-single
    a. Income: from $30,000 to $30,000 + COLA annually
    b. Assets: from $55,000 to $55,000 + COLA annually
3. 17D Surviving Spouse- 70 or older
    a. Assets: $40,000 + COLA
4. Clause 41A- Senior Deferral
    a. Increase Max Income from $40,000 to $60,000

Ms. Wall,

Attached please find my resume for your use in facilitating my reappointment to the Beebe Estate Board of Trustees.

As noted in the attached PDF, I have been serving as a trustee for the Beebe Estate since 2008. My education and professional training as an architect with experience in historic buildings has uniquely prepared me for this role, and I enjoy having the ability to serve my community in this manner. As a Melrose resident for over 17 years, I value the City's desire to have the Beebe Estate be a community resource, available for use by its citizens for private functions and as a host for city-wide events and office space for our community's non-profit.

Please let me know if you need anything else.

Thanks,
Tarica Leskiw

Dear Ms. Wall:

I am writing to express my strong interest in reappointment to the Beebe Estate Board of Trustees. The Beebe Estate is an invaluable part of the fabric of our city, available to everyone in the city of Melrose and beyond. As a recently retired historic preservation professional, I am committed to working to ensure that it continues to play a significant role in our community as an historic landmark and as a significant cultural center for all. I would greatly appreciate the opportunity to continue to serve as a member of the Board.

Thank you.

A copy of my resume is attached.

Sincerely,

From: Bill Butler
To: Wall, Lily
Subject: Reappointment - Beebe Estate Trustee
Date: Monday, March 21, 2022 11:12:31 PM
Attachments: Resume-Bill-Butler.pdf

Hello Lily,

I'm writing to confirm my interest in continuing my service to the city via the board of trustees for the Beebe Estate.

Living and working in Melrose for over twelve years, I'm honored to work with my fellow Melrosian trustees in maintaining, preserving and sharing one of many of Melose's community landmarks. It's a privilege to provide the Beebe estate to families, non-profits and organizations to host their own events and celebrations. It's one of the many ways Melrose shines amongst local Metro Boston communities.

I ask the city to reappoint myself to the Board for an additional term. Kindly find my resume attached.

Sincerely,

Bill

Summary

Bill's contagious good energy, critical thinking and dramatic flair combine to make him the premier Productivity Coach in Greater Boston. Bill is our not-so-secret weapon of why Leading Edge agents have the highest per agent transaction rate in the state.

Bill mentors coaching programs that include Tom Ferry's Breakthrough, Chris Voss's FBI Hostage Negotiation techniques for real estate, and his proprietary weekly Masterminds. Bill has an uncanny ability to keep agents engaged while he shares marketing strategies, creates optimum mindset and maximizes sales skills and dialogues.

A graduate of Indiana University, Bill honed his real estate career in Redondo Beach, California. He also worked in business development and media sales for 10 years. Bill brings unique opportunities to our agents as a master of the art of real estate.

As a featured speaker for NAR and other local and regional real estate events, he continues to act as an ambassador for Leading Edge. Bill is empowered to share and collaborate with the best agents in the business! Originally from the Midwest, he has been known to say he LOVES being a New Englander even if he did gloat about his beloved Cardinals 2013 World Series victory over the Red Sox. Bill is the lead singer in his band and is a party-trick juggler.

Experience

Licensed Realtor, Productivity Coach

Leading Edge Real Estate

Jul 2018 - Present (3 years 9 months +)

-Increasing incremental revenue for brokerage and regional RE/MAX brokerage network by training agents in lead generation practices and business management strategies.

-Featured speaker and panelist at regional RE/MAX meetings discussing techniques in lead generation and prospecting.

-Created and lead bi-weekly sales training meetings for agents and recruits focusing on maintaining proper mindset, skill building and goal setting accountability.

-Official mentor for Tom Ferry coaching programs, Sales Power and Breakthrough. Mentor two groups of agents each year on a ten week sales and marketing coaching program created by industry-leading real estate coach, Tom Ferry.

-Generated $14,450,000 in closed sales for brokerage by initiating and directing SWAT (Sellers Without A Taker) sales program designed to help agents market and sell languishing listing inventory.

Attachment: Resume-Bill-Butler_REDACTED (ORDER-2022-94 : Re-Appointment of William Butler to the Beebe Estate Board of Trustees)

-Sold 89 residential listing agreement contracts in 41 cities/towns throughout Boston and northern suburbs.

-85% of income generated by cold calling, pre-qualifying, troubleshooting and closing expired listings and ‘for sale by owner’ home sellers.

-Prospecting a minimum of 15 hours per week, generating an average of 10 sales leads and 3 listing appointments per week via telemarketing and in-person sales calls.

Good morning Ms. Wall.

Per your request, attached please my resume, as well as links below to both my professional LinkedIn page and my business website:

https://www.linkedin.com/in/sean-heneghan-0bb516a/

http://heneghanlaw.com/

I've been a Trustee with the Beebe Estate for some 12 years now and would enjoy extending my appointment primarily because the Beebe Estate is an important part of Melrose history as well as an ongoing participant in the city's services.

If you require any additional information from me, please do not hesitate to contact me.

Very truly yours,

Seán F. Heneghan

31 Reading Hill Ave.

Date: Tuesday, March 29, 2022 11:07:37 AM

Hi,
Thank you for the opportunity to be reappointed to the Melrose Board of Health.

It has been a privilege and an honor to have served these past years, and to serve as its current chairman, as we navigate a pandemic and other health challenges. After living in Melrose for twenty years, my family and I have fallen in love with this terrific city and I can't imagine living anywhere else.
I am more than happy and willing to do what I can to keep Melrose vibrant and healthy, and heartily welcome the opportunity to be reappointed and continue to serve.

Thank you.
Francisco Brincheiro, MD

Paul Moore

35 Laurel St
Melrose, MA 02176

Summary

A talented and driven developer with excellent communication skills and experience in Linux security, Mandatory Access Control (MAC), Multi-Level Security (MLS), SELinux, labeled networking, and audit.

Experience

Cisco, Technical Leader
Application Centric Infrastructure, September 2018 to Present

- Developed a new Linux based software platform for Cisco ACI appliances

Red Hat, Principal Software Engineer
Platform Security, August 2011 to September 2018

- Drove business critical initiatives such as the SELinux Modularity and audit container efforts
- Provided engineering support to pre-sales and customer consulting engagements

Hewlett-Packard, Expert Member of Technical Staff
Cloud Services, August 2010 to August 2011

- Performed security reviews of several internal components
- Developed security policies and packaging for several internal management applications

Hewlett-Packard, Expert Member of Technical Staff
Telecommunications Projects, March 2010 to August 2010

- Evaluated the performance of low-latency, high-throughput network adapters

Hewlett-Packard, System Software Specialist
Open Source and Linux Organization, May 2004 to March 2010

- Achieved Common Criteria certifications of several Linux distributions on HP hardware, including the first EAL4+/LSPP certification of a mainstream Linux distribution
- Delivered presentations on HP's Linux security efforts to partners, customers, and internal audiences

Compaq Computer, System Software Specialist
Tru64 UNIX Base OS, May 2000 to May 2004

- Collaborated on an IPsec design for Tru64's clustered IP alias technology
- Served as the engineering lead for Tru64's network security projects starting in 2002

Attachment: paul_moore-resume (ORDER-2022-98 : Re-Appointment of Paul Moore, to the Conservation Commission)

Open Source

Linux Kernel, SELinux Maintainer
https://github.com/SELinuxProject
October 2013 to Present

- Guided the development of the SELinux kernel subsystem in the upstream Linux Kernel
- Numerous contributions to the SELinux kernel subsystem, including all of the current SELinux per-packet network access controls
- Reintroduced the SELinux test suite, established an automated regression testing process, enforced testing requirements for new functionality, and launched upstream issue tracking on GitHub
- Presented the annual “State of SELinux” updates at the Linux Security Summit

Linux Kernel, Audit Maintainer
https://github.com/linux-audit
October 2014 to Present

- Guided the development of the audit kernel subsystem in the upstream Linux Kernel
- Multiple contributions to the audit kernel subsystem, including reworking the event queue and userspace connection tracking for better performance and robustness
- Created a kernel audit test suite, established an automated regression testing process, enforced testing and documentation requirements for new functionality, and launched upstream issue tracking on GitHub

Libseccomp, Project Creator
https://github.com/seccomp
June 2012 to Present

- Created the libseccomp library to provide a high level API to the Linux Kernel’s syscall filtering functionality
- Presented on syscall filtering and libseccomp at the Linux Security Summit and DevConf.cz

Linux Kernel, Labeled Networking Maintainer
August 2007 to Present

- Guided the development of the NetLabel, Labeled IPsec, and secmark subsystems in the upstream Linux Kernel
- Developed the NetLabel labeled networking framework and the current Linux CIPSO/FIPS-188 implementation to enable interoperable labeled networking on Linux
- Presented on labeled networking in Linux at multiple conferences including Netdev and LinuxCon Japan

Linux Security Summit, Program Committee
https://kernsec.org/wiki/index.php/Events
2009 to Present

- Founding member of the Linux Security Summit, a conference dedicated to Linux security development

J. Ryan Sloan
421 E. Foster St.
Melrose, MA 02176

Melrose Conservation Commission
Melrose City Hall
526 Main Street
Melrose, MA 02176

Dear Conservation Commission:

I am writing to express my interest in the open board member position on the Melrose Conservation Commission. The relevant experience I have gained through both my professional and personal pursuits provide the foundation I feel is needed to help the committee further its mission and execute its projects as they arise.

Prior to moving to Melrose in March 2015, my wife and I were residents of New York City. During that time, I became actively involved in several conservation-centric organizations in the Catskills. I spent time working as a volunteer fire tower interpreter for the Catskills Center spending weekends on the summit of Balsam Lake Mountain greeting hikers and sharing information about the surrounding trails and the fire tower's history. I was also an active Hike Leader for the Catskill 3500 Club which eventually led me to pursue my Guide License from the New York State Department of Environmental Conservation which required various underlying certifications and passing a written exam. These endeavors taught me the positive effect a group can have on local resources when they band together to preserve them.

During the same time in New York City, I completed my Master's Degree in Business Administration with a Concentration in Management and Business Strategy. As part of the coursework I took an elective in Public Administration and it helped me identify that after my career in Finance I would like to invest my time in conservation through more active involvement in administrative leadership. When I contacted the commission about the Trail Steward Program and heard there was also a current opening on the Conservation Commission an opportunity presented itself that feels impossible to pass up. The ability to develop the requisite administrative skills and conservation experience through a town committee is not only exciting but ideal – my initial excitement was only further validated by attending the April 5, 2018 meeting and briefly speaking with the committee.

I hope that you find my interests aligned with the committee's mission to protect our open-spaces and ensure our community's wetlands are preserved for the enjoyment of future generations.

As part of your consideration I would be happy to make myself available for an in-person interview and am at your disposal for any follow up questions.

Thank you in advance for your consideration.

Kind regards,

J. Ryan Sloan

INTERNATIONAL & MULTI-DAY HIKING TRIPS – SNAP SHOT

Maine 100 Mile Wilderness – Completed a three-day backcountry Nordic ski route with my dad staying in AMC huts along the way.

Northern Tongariro Circuit, New Zealand – After a business trip in Australia and New Zealand I stayed on for a few days to hike one of the Great Walks in New Zealand. The highlight was being able to visit a destination by brother had been almost 15 years prior.

Cinque Terra, Italy – My wife Kathryn and I hiked from Levanto to Portovenere over the course of a week stopping at various town, eating our way down the coast, soaking in the culture as we went.

Snowdon National Park, Wales - Climbed Mt. Snowdon the highest point in England and Wales two days before Prince William piloted a helicopter on a rescue mission to save a distressed hiker on the very same mountain. He ended up saving the guy's life.

The Laugavegur, Iceland - I took my brother and our friend on a 4 day, 56km trek across the heart of Iceland - like walking on the moon. We stayed in geothermal heated huts along the way.

The Black Forrest, Germany - I saw the largest rhododendrons of my life in the Black Forest. They covered the entire mountainsides with these amazing waterfalls running between them.

The Inca trail, Peru - This was my first paid vacation (a joy in its own). Magical is probably the best descriptive word for this experience. Completely life changing - the world grew on that trip.

Michael Paiewonsky AICP

Senior Associate
26 years of experience · Boston, Massachusetts

Michael Paiewonsky is an AICP certified planner with over 26 years of experience managing transportation and environmental planning and permitting process for a wide variety of projects for public and private clients throughout New England. Michael specializes in the preparation and management of federal and state environmental planning documents in compliance with the National Environmental Policy Act (NEPA), the Massachusetts Environmental Policy Act (MEPA), Massachusetts Wetlands Protection Act, US Coast Guard regulations, and the Clean Water Act. He has successfully managed over $15 million in MassDOT environmental service contracts since 2007.

EDUCATION

B.A., Legal Studies, University of Massachusetts, Amherst, Massachusetts, 1989

CERTIFICATIONS & TRAINING

ACEC Odyssey Leadership Program, Boston, Massachusetts, 2011

REGISTRATIONS

Certified Planner #302144, American Institute of Certified Planners, expires 6/30/2022

MEMBERSHIPS

Melrose Conservation Commission - Chairman

PROJECT EXPERIENCE

Cape Cod Canal Transportation Study | MassDOT | Cape Cod, Massachusetts | 2019 | Project Manager

This comprehensive transportation planning study evaluated a wide variety of multimodal transportation improvements in the Cape Cod Canal area in the Towns of Bourne, Plymouth, and Sandwich, Massachusetts. This study evaluated alternatives for improving travel in the Canal area, including the replacement of both the Bourne and Sagamore Bridges, in manner consistent with the character of Cape Cod. As project manager, Michael was the lead author of the planning study and led a series of 18 meetings with the study Working Group, municipalities, state and federal agencies, Army Corps of Engineers, and MassDOT.

I-95/I-93/University Avenue Interchange EA/EIR | MassDOT | Massachusetts | 2015 | Deputy Project Manager

Michael served as the deputy project manager for the preparation of the Environmental Assessment/Environmental Impact Report (EA/EIR) for the reconstruction of a major highway interchange. Michael's role in this project was as the primary author and client contact for the FEIR and the EA FONSI/Response to Comments document, and NEPA Re-evaluation.

Route 24/Route 140 Interchange Project | Massachusetts Department of Transportation | Taunton, Massachusetts | USD 150M | 2018-2020 | Environmental Project Manager

Michael served as the environmental project manager for the MassDOT's $150M Route 24 / Route 140 Interchange Project. The proposed improvements to this state highway interchange will improve capacity and safety in this rapidly-growing section of southeastern Massachusetts. Michael managed and serves as the primary author of the NEPA – CE Checklist and MEPA - Notice of Project Change. These federal and state environmental planning report documents the existing and future transportation conditions in the study area. Measures to avoid and minimize impact to environmental resources are described as well as required federal and state permits.

Middleborough Rotary Transportation Improvements (Environmental Notification Form [ENF], Section 4(f) Evaluation) | 2018 | Project Manager

Served as the Environmental Project Manager evaluating major transportation improvements at a severely congested rotary. Michael was lead author of the MEPA ENF and NEPA Class of Action Determination, CE Checklist, and Individual Section 4(F) Evaluation.

New Bedford Riverwalk Feasibility Planning Study | Executive Office of Energy and Environmental Affairs | 2020 | Project Manager

Michael served as the project manager of the Feasibility Planning Study for the construction of a Riverwalk along the Acushnet River in New Bedford. Within the limits of a major PCB clean up by the US EPA, this complex study balanced the input of multiple local, state, and federal stakeholders and incorporated future sea-level rise and storm surge elevations to establish a desired trail alignment and elevation.

** denotes projects completed with other firms*

Attachment: michael_paiewonsky_resume_1_25_2022_Conservation_Commission (ORDER-2022-100 : Re-Appointment of Michael Paiewonsky

Route 24 Interchange EA/EIR/Section 4(f) Evaluation* | MassDOT | Massachusetts | 2013 | Environmental Project Manager

Michael served as the environmental project manager for the preparation EA/EIR/Section 4(f) Evaluation for a new interchange along Route 24 in support of the development of a new 300-acre corporate office park in Fall River and Freetown. Project required extensive coordination with FHWA, MassDOT, Mass. Dept. of Conservation & Recreation and other stakeholders which culminated in the signing of a Memorandum of Understanding (MOU) for the creation of the Southeastern Massachusetts Bioreserve.

Aroostook County Transportation Study – Presque Isle and Caribou Bypass Project* EIS (Deputy Project Manager)

Michael served as the Deputy Project manager and primary author of a Tier I EIS/Section 4(f) Evaluation and USACE Section 404 Permit Application and two Tier II EIS for new location highway projects to bypass the largest two cities in Aroostook County. Study involved coordination with federal and state agencies to develop the Purpose and Need Statement, public engagement, environmental resources impact analysis.

Environmental Permitting Services On-Call Services* | MassDOT | 2010-present | Project Manager

Project Manager for series of on-call environmental permitting support contracts. Perform services such as preparation of a wide variety environmental permits and environmental mitigation design including MEPA and NEPA documents, Section 4(f) Evaluations, and Section 401/404 permits. Led several environmental streamlining initiatives for MassDOT, including complete revision of their programmatic agreements for the NEPA Categorical Exclusion Checklist, the Section 106 historic review process, USACE Bridge Permit for MassDOT Bridges, and the MassDOT Highway Type I and Type II Noise Abatement Policy.

Improving the Quality of Environmental Documentation| 2016| Project Manager

Lead author of guidance document for MassDOT describing best practices for the preparation of concise and effective environmental permitting planning and permitting documents. Topics included developing clear and concise text, use of active voice, defining purpose and need, effectively contrasting alternatives, and legal sufficiency.

Stormwater Analysis and BMP Design, MassDOT Impaired Waters Program

Project Manager for Stantec's $3.25 million stormwater analysis and BMP design contract with MassDOT's Highway Division. In support of MassDOT's Impaired Waters Program, Michael leads Stantec's engineering/design, permitting, and pollutant load modeling services to achieve stormwater regulatory compliance. The assessments identified the MassDOT contribution to impaired waters, quantified the pollutants in the stormwater discharge and identified locations where stormwater BMPs could be constructed. Successful completion of these assignments allows MassDOT to remain in compliance with its US EPA National Pollution Discharge Elimination System (NPDES) MS 4 General Permit and impaired waters /TMDL water quality requirements.

Noise Barrier Projects* | MassDOT | 2010-present | Project Manager

Managed the preparation of the acoustical analysis, civil engineering, and environmental permitting process for noise barrier projects in Wakefield, Lynnfield, Medford, Westwood, and Dedham. Participated in the multiple public meeting held for each project.

COMMUNITY PLANNING

Union Square Redevelopment | Epsilon Associates, Somerville Redevelopment Authority | Somerville, Massachusetts | USD 1.5M | 2018-2019 | Manager - Transportatation Impact Study

Managed the production of the Transportation Impact Study (TIS) for the Union Square Redevelopment Project which includes the redevelopment of approximately 15.1 acres of land in the Union Square neighborhood of Somerville, MA. The Project is the product of a decade of community-based planning processes. The TIS supports the Environmental Impact Report and documents the existing and proposed transportation conditions in the study areas related to pedestrian, bicycle, transit, and vehiclular transportation modes. Ultimately, the Project will transform lower-density primarily vacant sites, with automotive and industrial uses into a vibrant transit-oriented mixed-use employment center organized around Smart Growth principles and achieving the City's and community's long-term vision for the neighborhood.

Exchange South End Redevelopment | Boston, Massachusetts | | 2019| Environmental Project Manager

This highly anticipated project in the former Flower Exchange building will transform an isolated industrial development into a life science and technology office campus, complemented by local retail, restaurants, bike trails and open space. Michael led the development of the MEPA Environmental Impact Report for this major redevelopment project.

Arsenal on the Charles Environmental Impact Report (ENF/EIR) | Watertown, Massachusetts | 2017 | Environmental Project Manager

Michael served as the environmental project manager for Athenahealth's Arsenal on the Charles project. A privately-funded project, Athenahealth sought to revitalize its corporate headquarters through the construction of a new parking structure and up to seven new buildings. Michael was the lead author of the MEPA ENF and Single EIR describing the projects natural and social environmental resource and traffic impact and proposed mitigation.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Conservation Commission Re-Appointments
Date: April 4, 2022

I respectfully request the Honorable City Council confirm the re-appointment of the following Conservation Commission members.

- Paul Moore, 35 Laurel Street, to a two-year term, said term to expire the last day of February 2024
- J. Ryan Sloan, 421 East Foster Street, to a three-year term; said term to expire the last day of February 2025
- Michael Paiewonsky, 71 Warwick Road, to a three-year term; said term to expire the last day of February 2025

The aforementioned Conservation Commission members has served for numerous years with honor and dedication, and it is my pleasure to put forth their names for additional terms.

Thank you for your consideration.

Lily Wall
Communications & Community Outreach Coordinator
Office of Mayor Brodeur
Melrose City Hall
562 Main Street
Melrose, MA, 02176

3/23/2022

Dear Lily and Mayor Brodeur,

It has been an honor to serve as a trustee of the Sailors and Soldiers Memorial Building (Memorial Hall) for approximately 15 years now. Memorial Hall is a special place that helps bring our community together in so many ways. Over the years I have been fortunate to perform there with Polymnia Chorus and with Blue of A Kind Acapella group. I've been there for MSO performances, inaugurations, recitals and any number of other functions. Memorial Hall has always been a favorite place for me and I was greatly honored when former Mayor Rob Dolan asked me to join the board.

Memorial Hall has a special significance to me since it is a memorial, built to honor those who served and lost their lives in defense of our country. I am a veteran of the U.S. Army and served in Vietnam with many who never came home to continue serving the country we love. I've been blessed to do so. As trustee, I've always tried to make decisions that enhance and support the efforts of the building manager and staff to help create a welcoming space for all who attend events at Memorial Hall. I would hope to be re-appointed for another term as a Trustee to continue these efforts.

Lily asked me for a resume. I do not maintain one. I worked in the insurance industry for over forty years as an underwriter and agent. I was fortunate to maintain those positions and when I moved from the underwriting to agency side, I went with people who knew me and didn't need to see a resume. I retired in 2017 for not quite a year. Then, I started working part time for a former client. I continue working 15-20 hours a week for this company.

I hope this is sufficient information for you to contemplate my reappointment and look forward to hearing back from you at your convenience. Thank you for your consideration.

Sincerely,

Mike

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Soldiers & Sailors Memorial Building Trustees
Date: April 4, 2022

I respectfully request the Honorable City Council confirm the re-appointment of the following Soldiers & Sailors Memorial Building Trustees.

- Michael Margolis, 22 Stowecroft Road, to a one-year term; said term to expire the last day of February 2023
- Louis Izzi, 45 Damon Avenue, to a two-year term; said term to expire the last day of February 2024
- Mary Sexton, 19 Sears Avenue, to a three-year term; said term to expire the last day of February 2025
- Jason Webb, 92 Morgan Street, to a three-year term; said term to expire the last day of February 2025

For several years, the above trustees have been dedicated to preserving and honoring the Soldiers and Sailor's Memorial Building. I'm grateful for their commitment to the City of Melrose and its historic building, and honored to request that they be re-appointed for additional terms.

Thank you for your consideration.

RE: Soldiers and Sailors Memorial Building Board of Trustees

Dear Mayor Brodeur:

Thank you very much for notifying me of your intention to seek approval from the Melrose City Council for my appointment, once again, to the Soldiers and Sailors Memorial Building Board of Trustees.

It has been my distinct honor to serve on this Board along with my fellow Trustees and I am honored and excited to continue to do so.

Thank you very much.

Very truly yours,

Louis P. Izzi

March 29, 2022

Honorable Mayor Paul Brodeur
Melrose City Hall
562 Main Street
Melrose, Ma 02176

Dear Mayor Brodeur
It would be an honor to continue to serve on the Soldiers and Sailors Memorial Building Board of Trustees. As a member of the Melrose Community for over 40 years, I have raised my family here, owner of Sexton & Donahue Realtors for over 30 years, served on the Melrose YMCA Board for 20 years including serving as Chair for 8 years, and served on the Mystic Valley Elder Services Board for over 20 years.

I was appointed by Mayor Milano to the Soldiers and Sailors Board of Trustees in May 2000, and I have served as Chair since May 2015. I was on the board when we oversaw the large renovations of Memorial Hal and installation of the HVAC system. It is now time for additional repairs to the building and I am grateful to you and the city to allocate the additional funding needed so we may complete the Memorial Building Envelope Project.

Thank you for this allowing me to serve on this Board.

Sincerely,

Mary Sexton

Jay Webb Profile.pdf

Good morning, Lily,
Sorry for the delay in getting this to you. I've attached my resume for your review.

I'd like to continue to serve as a Memorial Hall Trustee for the next term. It's been an honor and a privilege the last year to participate in the decisions that effect how the hall is used, preserved, and improved moving forward.

Please let me know if you need anything else from me.

Best,

Jay Webb

Summary

Software sales search for high-growth, venture-backed start-ups in Software, e-Commerce, Media, Security, Consumer Web, and Data Companies partner with me to recruit sales people at all levels to fu their growth.
Strong expertise at developing and implementing strategies to identify talent by building long-term and genuine relationships. Through the use of technology, social media, and a proprietary database, I'm able to quickly develop short lists of qualified candidates with, what I call, “strategic velocity”.

Each assignment has its own unique set of challenges, but the following set of skills and experiences are necessary to identify a short-list of talent:

Culture—Passion for selling on high performance teams in an uncertain, performance-based environment. Inspiring and high energy with an ability to overcome new obstacles on a daily basis.

Proven—track record of achieving and exceeding quota through prospecting, qualifying, and quickly identifying their needs to align them with the best solution.

Leadership—An ability to lead before given the title.

Rev. Jaron S. Green
279 Lebanon Street
Melrose, MA 02176

Mayor Paul Brodeur
City Hall
562 Main Street
Melrose, MA 02176

Dear Mr. Brodeur:

Firstly, allow me to extend gratitude for the ongoing work of your mayoral administration. The daily needs of people of Melrose shift with the times, however, the relevance of life-giving organizations remains intact, and perhaps gets amplified. Advocacy and service never go out of style. I've been honored to serve on the city's Human Rights Commission, and it is my intent to continue to serve as a part of your administration.

In much of the work I enjoy, transformative projects pique my interest the most. As a pastor and educator, I get an up-close and eyewitness view of both life change and organizational development. As a human rights advocate, serving as a Commissioner and Vice Chair of the Melrose Human Rights Commission, I have gained greater understanding of the challenges being faced in areas of housing, employment, education, public accommodation, city services, insurance, banking, credit, and health care. This type of advocacy, as a mechanism for resolving matters of racial, religious, or ethnic prejudice, and developing programs for promoting a spirit of diversity and respect for others regardless of their differences, is the work of reconciliation that all community members are called to. It is the work that Human Rights Commission embraces, even as the commission looks ahead toward its post-pandemic existence. It is why I seek to continue serve on the commission.

Thank you for your consideration and invitation to the table. Please feel free to contact me for any further conversation. I'd be more than happy to speak with you.

Sincerely,

The Rev. Jaron S. Green

Commonwealth of Massachusetts
DEPARTMENT OF HOUSING & COMMUNITY DEVELOPMENT
Charles D. Baker, Governor ◆ Karyn E. Polito, Lt. Governor ◆ Jennifer D. Maddox, Undersecretary

Attachment: Compliance Guidelines (ORDER-2022-90 : Zoning Requirements for MBTA Communities)

DRAFT Compliance Guidelines for Multi-family Districts Under Section 3A of the Zoning Act

1. Overview of Section 3A of the Zoning Act

Section 18 of chapter 358 of the Acts of 2020 added a new section 3A to chapter 40A of the General Laws (the Zoning Act) applicable to MBTA communities (referred to herein as "Section 3A"). Subsection (a) of Section 3A provides:

> *An MBTA community shall have a zoning ordinance or by-law that provides for at least 1 district of reasonable size in which multi-family housing is permitted as of right; provided, however, that such multi-family housing shall be without age restrictions and shall be suitable for families with children. For the purposes of this section, a district of reasonable size shall: (i) have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A; and (ii) be located not more than 0.5 miles from a commuter rail station, subway station, ferry terminal or bus station, if applicable.*

The purpose of Section 3A is to encourage MBTA communities to adopt zoning districts where multi-family zoning is permitted as of right, and that meet other requirements set forth in the statute.

The Department of Housing and Community Development, in consultation with the Massachusetts Bay Transportation Authority and the Massachusetts Department of Transportation, is required to promulgate guidelines to determine if an MBTA community is in compliance with Section 3A. DHCD promulgated preliminary guidance on January 29, 2021. DHCD updated that preliminary guidance on December 15, 2021. These guidelines provide further information on how MBTA communities may achieve compliance with Section 3A.

2. Definitions

"Adjacent community" means an MBTA community with no transit station within its border or within 0.5 mile of its border.

"Age-restricted housing" means any housing unit encumbered by a title restriction requiring occupancy by at least one person age 55 or older.

100 Cambridge Street, Suite 300
Boston, Massachusetts 02114
www.mass.gov/dhcd
617.573.1100

"Bus service community" means an MBTA community with a bus station within its borders or within 0.5 miles of its border, or an MBTA bus stop within its borders, and no subway station or commuter rail station within its border, or within 0.5 mile of its border.

"Bus station" means a building located at the intersection of two or more public bus lines, within which services are available to bus passengers; provided that a bus station does not include a shelter or other structure without walls and a foundation.

"Chief executive officer" means the mayor in a city, and the board of selectmen in a town, unless some other municipal office is designated to be the chief executive officer under the provisions of a local charter.

"Commonwealth's sustainable development principles" means the principles set forth at https://www.mass.gov/files/documents/2017/11/01/sustainable%20development%20principles.pdf as such principles may be modified and updated from time to time.

"Commuter rail community" means an MBTA community with a commuter rail station within its borders, or within 0.5 mile of its border, and no subway station within its borders, or within 0.5 mile of its border.

"Developable land" means land on which multi-family housing units have been or can be permitted and constructed. Developable land shall not include land under water, wetland resource areas, areas lacking adequate water or wastewater infrastructure or capacity, publicly owned land that is dedicated to existing public uses, or privately owned land encumbered by any kind of use restriction that prohibits residential use.

"Gross density" means a units-per-acre density measurement that includes land occupied by public rights-of-way and any recreational, civic, commercial, and other nonresidential uses.

"Housing suitable for families" means housing comprised of residential dwelling units that are not age-restricted housing, and for which there are no legal restriction on the number of bedrooms, the size of bedrooms, or the number of occupants.

"MBTA community" means a city or town that is: (i) one of the 51 cities and towns as defined in section 1 of chapter 161A; (ii) one of the 14 cities and towns as defined in said section 1 of said chapter 161A; (iii) other served communities as defined in said section 1 of said chapter 161A; or (iv) a municipality that has been added to the Massachusetts Bay Transportation Authority under section 6 of chapter 161A or in accordance with any special law relative to the area constituting the authority." A list of MBTA communities is attached, including the designation of each MBTA community as a rapid transit community, a bus service community, a commuter rail community or an adjacent community for purposes of these compliance guidelines.

"Multi-family housing" means a building with 3 or more residential dwelling units or 2 or more buildings on the same lot with more than 1 residential dwelling unit in each building.

"Multi-family district" means a zoning district, including an overlay district, in which multi-family uses are allowed by right.

"Rapid transit community" means an MBTA community with a subway station within its borders, or within 0.5 mile of its border. An MBTA community with a subway station within its borders, or within 0.5 mile of its border, shall be deemed to be a rapid transit community even if there is one or more commuter rail stations or MBTA bus lines located in that community.

"Reasonable size" means not less than 50 contiguous acres of land with a unit capacity equal to or greater than the unit capacity specified in section 5 below.

"Residential dwelling unit" means a dwelling unit equipped with a full kitchen and bathroom.

"Unit capacity" means an estimate of the total number of multi-family housing units that can be developed as of right within the multi-family district, made in accordance with the requirements of section 5.b below.

3. General Principles of Compliance

a. These compliance guidelines describe how an MBTA community can comply with the requirements of Section 3A. The guidelines specifically address:

- What it means to permit multi-family housing "as of right";
- The metrics that determine if a multi-family district is "of reasonable size";
- How to determine if a multi-family district has a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code;
- The meaning of Section 3A's mandate that "such multi-family housing shall be without age restrictions and shall be suitable for families with children"; and
- The extent to which MBTA communities have flexibility to choose the location of a multi-family district.

b. The following general principles have informed the more specific compliance criteria that follow:

- All MBTA communities should contribute to the production of new housing stock.
- MBTA communities with subway stations, commuter rail stations and other transit stations benefit from having these assets located within their boundaries and should provide opportunity for multi-family housing development around these assets. MBTA communities with no transit stations within their boundaries nonetheless benefit from being close to transit stations in nearby communities.
- MBTA communities should adopt multi-family districts that will lead to development of multi-family housing projects of a scale, density and character that are consistent with a community's long-term planning goals.

- "Reasonable size" is a relative rather than an absolute determination. Because of the diversity of MBTA communities, a multi-family district that is "reasonable" in one city or town may not be reasonable in another city or town. Objective differences in community characteristics must be considered in determining what is "reasonable" for each community.

- To the maximum extent possible, multi-family districts should be in areas that have safe and convenient access to transit stations for pedestrians and bicyclists.

4. Allowing Multi-Family Housing "As of Right"

To comply with Section 3A, a multi-family district must allow multi-family housing "as of right," meaning that the construction and occupancy of multi-family housing is allowed in that district without the need to obtain any discretionary permit or approval. Site plan review and approval may be required for multi-family uses allowed as of right. Site plan review is a process by which a local board reviews a project's site layout to ensure public safety and convenience. Site plan approval may regulate matters such as vehicular access and circulation on a site, architectural design of a building, and screening of adjacent properties. Site plan review may not be used to deny a project that is allowed as of right, nor may it impose conditions that make it infeasible or impractical to proceed with a multi-family use that is allowed as of right.

5. Determining "Reasonable Size"

In making determinations of "reasonable size," DHCD will take into consideration both the area of the district and the district's multi-family unit capacity (that is, the number of units of multi-family housing that can be developed as of right within the district).

a. *Minimum land area*

Section 3A's requirement that a multi-family district be a "reasonable size" indicates that the purpose of the statute is to encourage zoning that allows for the development of a reasonable amount of multi-family housing in each MBTA community. A zoning district is a specifically delineated land area with uniform regulations and requirements governing the use of land and the placement, spacing, and size of buildings. A district should not be a single development site on which the municipality is willing to permit a particular multi-family project. To comply with Section 3A's "reasonable size" requirement, multi-family districts must comprise at least 50 acres of land—or approximately one-tenth of the land area within 0.5 mile of a transit station.

An overlay district is an acceptable way to achieve compliance with Section 3A, provided that such an overlay district should not consist of a collection of small, non-contiguous parcels. At least one portion of the overlay district land areas must include at least 25 contiguous acres of land. No portion of the district that is less than 5 contiguous acres land will count toward the minimum size requirement.

b. *Minimum multi-family unit capacity*

A reasonably sized multi-family district must also be able to accommodate a reasonable number of multi-family housing units as of right. MBTA communities seeking a determination of compliance with Section 3A must provide to DHCD an accurate assessment of the number of multi-family housing units that can be developed as of right within the multi-family district, referred to as the district's unit capacity.

A compliant district's multi-family unit capacity must be equal to or greater than a specified percentage of the total number of housing units within the community. The required percentage will depend on the type of transit service in the community, as follows:

Category	Minimum multi-family units as a percentage of total housing stock
Rapid transit community	25%
Bus service community	20%
Commuter rail community	15%
Adjacent community	10%

The minimum unit capacity applicable to each MBTA community is determined by multiplying the number of housing units in that community by 0.25, 0.20, 0.15 or 0.10, depending on the type of service in that community. For example, a rapid transit community with 7,500 housing units is required to have a multi-family district with a multi-family unit capacity of 7,500 x 0.25 = 1,875 multi-family units. When calculating the minimum unit capacity, each MBTA community should use 2020 census data to determine the number of total housing units, unless another data source has been approved by DHCD.

When determining the unit capacity for a specific multi-family district, each MBTA community must estimate how many units of multi-family housing could be constructed on each parcel of developable land within the district. The estimate should take into account the amount of developable land in the district, as well as the height limitations, lot coverage limitations, maximum floor area ratio, set back requirements and parking space requirements applicable in that district under the zoning ordinance or bylaw. The estimate must also take into account the restrictions and limitations set forth in any other municipal bylaws or ordinances; limitations on development resulting from inadequate water or wastewater infrastructure, and, in areas not served by public sewer, any applicable limitations under Title 5 of the state environmental code or local septic regulations; known title restrictions on use of the land within the district; and known limitations, if any, on the development of new multi-family housing within the district based on physical conditions such the presence of waterbodies, and wetlands.

If the estimate of the number of multi-family units that can be constructed in the multi-family district is less than the minimum unit capacity, then the MBTA community must change the boundaries of the multi-family district or make changes to dimensional regulations applicable to that district (or to other local ordinances or bylaws) to allow for the development of a greater number of multi-family units as of right.

It is important to understand that a multi-family district's unit capacity is not a mandate to construct a specified number of housing units, nor is it a housing production target. Section 3A requires only that each MBTA community has a multi-family zoning district of reasonable size. The law does not require the production of new multi-family housing units within that district. There is no requirement nor expectation that a multi-family district will be built out to its full unit capacity.

In some communities, there may be a significant number of multi-family units already existing in the multi-family district; those communities should generally expect fewer new units to be produced in the district, because it is more fully built out. Conversely, there may be some communities with relatively little multi-family housing in its multi-family district; there generally will be more opportunity for new

Attachment: Compliance Guidelines (ORDER-2022-90 : Zoning Requirements for MBTA Communities)

housing production in those districts in which there is a large gap between unit capacity and the number of existing multi-family units.

6. Minimum Gross Density

Section 3A states that a compliant multi-family district must have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A. DHCD will deem a zoning district to be compliant with Section 3A's minimum gross density requirement if the following criteria are met.

a. *District-wide gross density*

Section 3A expressly requires that a multi-family district—not just the individual parcels of land within the district—must have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A. To comply with this requirement, the zoning must legally and practically allow for a district-wide gross density of 15 units per acre. The Zoning Act defines "gross density" as "a units-per-acre density measurement that includes land occupied by public rights-of-way and any recreational, civic, commercial and other nonresidential uses."

To meet the district-wide gross density the municipality must demonstrate that the zoning for the district permits a gross density of 15 units per acre of land within the district, "include[ing] land occupied by public rights-of-way and any recreational, civic, commercial and other nonresidential uses." By way of example, to meet that requirement for a 50-acre multi-family district, the municipality must show at least 15 existing or potential new multi-family units per acre, or a total of at least 750 existing or potential new multi-family units.

b. *Achieving district-wide gross density by sub-districts*

Zoning ordinances and bylaws typically limit the unit density on individual parcels of land. To comply with the statute's density requirement, an MBTA community may establish sub-districts within a multi-family district, with different density requirements and limitations for each sub-district, provided that the gross density for the district as a whole meets the statutory requirement of not less than 15 multi-family units per acre.

7. Determining Suitability for Families with Children

Section 3A states that a compliant multi-family district must be without age restrictions and must be suitable for families with children. DHCD will deem a multi-family district to comply with these requirements as long as the zoning does not require multi-family uses to include units with age restrictions and does not place any limits or restrictions on the size of the units, the number of bedrooms, the size of bedrooms, or the number of occupants.

8. Location of Districts

Section 3A states that a compliant multi-family district shall "be located not more than 0.5 miles from a commuter rail station, subway station, ferry terminal or bus station, if applicable." DHCD will interpret that requirement consistent with the following guidelines.

a. General rule for measuring distance from a transit station.

To maximize flexibility for all MBTA communities, the distance from a transit station may be measured from the boundary of any parcel of land owned by a public entity and used for purposes related to the transit station, such as an access roadway or parking lot.

b. *MBTA communities with some land area within 0.5 miles of a transit station*

An MBTA community that has a transit station within its boundaries, or some land area within 0.5 mile of a transit station located in another MBTA community, shall comply with the statutory location requirement if a substantial portion of the multi-family district is located within the prescribed distance. Absent compelling circumstances, at least [one half] of the land area of the multi-family district should be located within 0.5 mile of the transit station. The multi-family district may include land areas that are further than 0.5 mile from the transit station, provided that such areas are easily accessible to the transit station based on existing street patterns and pedestrian connections.

In unusual cases, the most appropriate location for a multi-family district may be in a land area that is further than 0.5 miles of a transit station. Where none of the land area within 0.5 mile of transit station is appropriate for development of multi-family housing—for example, because it comprises wetlands or land publicly owned for recreation or conservation purposes—the MBTA community may propose a multi-family use district that has less than one-half of its land area within 0.5 miles of a transit station. To the maximum extent feasible, the land areas within such a district should be easily accessible to the transit station based on existing street patterns, pedestrian connections, and bicycle lanes.

c. *MBTA communities with no land area within 0.5 miles of a transit station*

When an MBTA community has no land area within 0.5 mile of a transit station, the multi-family district should, if feasible, be located in an area with reasonable access to a transit station based on existing street patterns, pedestrian connections, and bicycle lanes, or in an area that otherwise is consistent with the Commonwealth's sustainable development principles—for example, near an existing downtown or village center, near an RTA bus stop or line, or in a location with existing under-utilized facilities that can be redeveloped into new multi-family housing.

9. Determinations of Compliance

DHCD will make determinations of compliance with Section 3A upon request from an MBTA community, in accordance with the following criteria and schedule. An MBTA community may receive a determination of full compliance when it has a multi-family district that meets all of the requirements of Section 3A. An MBTA community may receive a determination of interim compliance for a limited duration to allow time to enact a new multi-family district or amend an existing zoning district in order to achieve full compliance with Section 3A.

a. Requests for determination of compliance

When an MBTA community believes it has a multi-family district that complies with the requirements for Section 3A, as set forth in these guidelines, it may request a determination of compliance from DHCD. Such a request may be made for a multi-family district that was in existence on the date that Section 3A became law, or for a multi-family district that was created or amended after the enactment of Section 3A. In either case, such request shall be made on a form required by DHCD and shall include, at a minimum, the following information, which shall be provided in a format or on a template prescribed by DHCD:

General district information

i. A map showing the municipal boundaries and the boundaries of the multi-family district;
ii. A copy of those provisions in the municipal zoning code necessary to determine the uses permitted as of right in the multi-family district and the dimensional limitation and requirements applicable in the multi-family district;
iii. A plan showing the boundaries of each parcel of land located within the district, and the area and ownership of each parcel as indicated on current assessor records;

Location of districts

iv. A map showing the location of the nearest transit station and how much of the multi-family district is within 0.5 miles of that transit station;
v. In cases where no portion of the multi-family district is located within 0.5 miles of a transit station, a statement describing how the development of new multi-family housing within the district would be consistent with the Commonwealth's sustainable development principles;

Reasonable size metrics

vi. A calculation of the total land area within the multi-family district;
vii. A calculation of the multi-family district's unit capacity, along with a statement describing the methodology by which unit capacity was determined, together with;
    a. A description of the water and wastewater infrastructure serving the district, and whether that infrastructure is sufficient to serve any new multi-family units included in the unit capacity;
    b. A description of any known physical conditions, legal restrictions or regulatory requirements that would restrict or limit the development of multi-family housing within the district;
    c. The number and age of multi-family housing units already existing within the multi-family district, if any.

District gross density

viii. The gross density for the multi-family district, calculated in accordance with section 6 of these guidelines.

Attachment: Compliance Guidelines (ORDER-2022-90 : Zoning Requirements for MBTA Communities)

Housing suitable for families

ix. An attestation that the zoning bylaw or ordinance does not place any limits or restrictions on the size of the units, the number of bedrooms, the size of bedrooms, or the number of occupants in multi-family housing units within the multi-family district.

Attestation

x. An attestation that the application is accurate and complete, signed by the MBTA community's chief executive officer.

As soon as practical after receipt of a request for determination of compliance, DHCD will either send the requesting MBTA community a notice that it has provided all of the required information, or identify the additional information that is required to process the request. Upon reviewing a complete application, DHCD will provide the MBTA community a written determination either stating that the existing multi-family use district complies with Section 3A, or identifying the reasons why the multi-family use district fails to comply with Section 3A and the steps that must be taken to achieve compliance.

An MBTA community shall be deemed to be in compliance with Section 3A for the period of time during which a request for determination of compliance, with all required information, is pending at DHCD.

b. Action plans and interim compliance—New or amended district

Many MBTA communities do not currently have a multi-family district of reasonable size that complies with all of the requirements set out in Section 3A and these guidelines. These MBTA communities must take affirmative steps towards the creation of a compliant multi-family district within a reasonable time. To achieve interim compliance, the MBTA community must, by no later than the dates specified in section 9.c, send to DHCD written notice that a new multi-family district, or amendment of an existing multi-family district, must be adopted to come into compliance with Section 3A. The MBTA community must then take the following actions to maintain interim compliance:

i. *Creation of an action plan.* Each MBTA community must provide DHCD with a proposed action plan and timeline for any planning studies or community outreach activities it intends to undertake in order to adopt a multi-family district that complies with Section 3A. DHCD may approve or require changes to the proposed action plan and timeline by sending the MBTA community written notice of such approval or changes. Rapid transit communities and bus service communities must obtain DHCD approval of an action plan by no later than March 31, 2023. Commuter rail communities and adjacent communities must obtain DHCD approval of a timeline and action plan by no later than July 1, 2023.

ii. *Implementation of the action plan*. The MBTA community must timely achieve each of the milestones set forth in the DHCD-approved action plan, including but not limited to the drafting of the proposed zoning amendment and the commencement of public hearings on the proposed zoning amendment.

Attachment: Compliance Guidelines (ORDER-2022-90 : Zoning Requirements for MBTA Communities)

iii. *Adoption of zoning amendment*. An MBTA community must adopt the zoning amendment by the date specified in the action plan and timeline approved by DHCD. For rapid transit communities and bus service communities, DHCD will not approve an action plan with an adoption date later than December 31, 2023. For commuter rail communities and adjacent communities, DHCD will not approve an action plan with an adoption date later than December 31, 2024.

iv. *Determination of full compliance*. Within [90] days after adoption of the zoning amendment, the MBTA community must submit to DHCD a complete application requesting a determination of full compliance. The application must include data and analysis demonstrating that a district complies with all of the compliance criteria set forth in these guidelines, including without limitation the district's land area, unit capacity, gross density and location.

During the period that an MBTA community is creating and implementing its action plan, DHCD will endeavor to respond to inquiries about whether a proposed zoning amendment will create a multi-family district that complies with Section 3A. However, DHCD will issue a determination of full compliance only after final adoption of the proposed zoning amendment and receipt of a complete application demonstrating the unit capacity.

c. Timeframes for submissions by MBTA communities

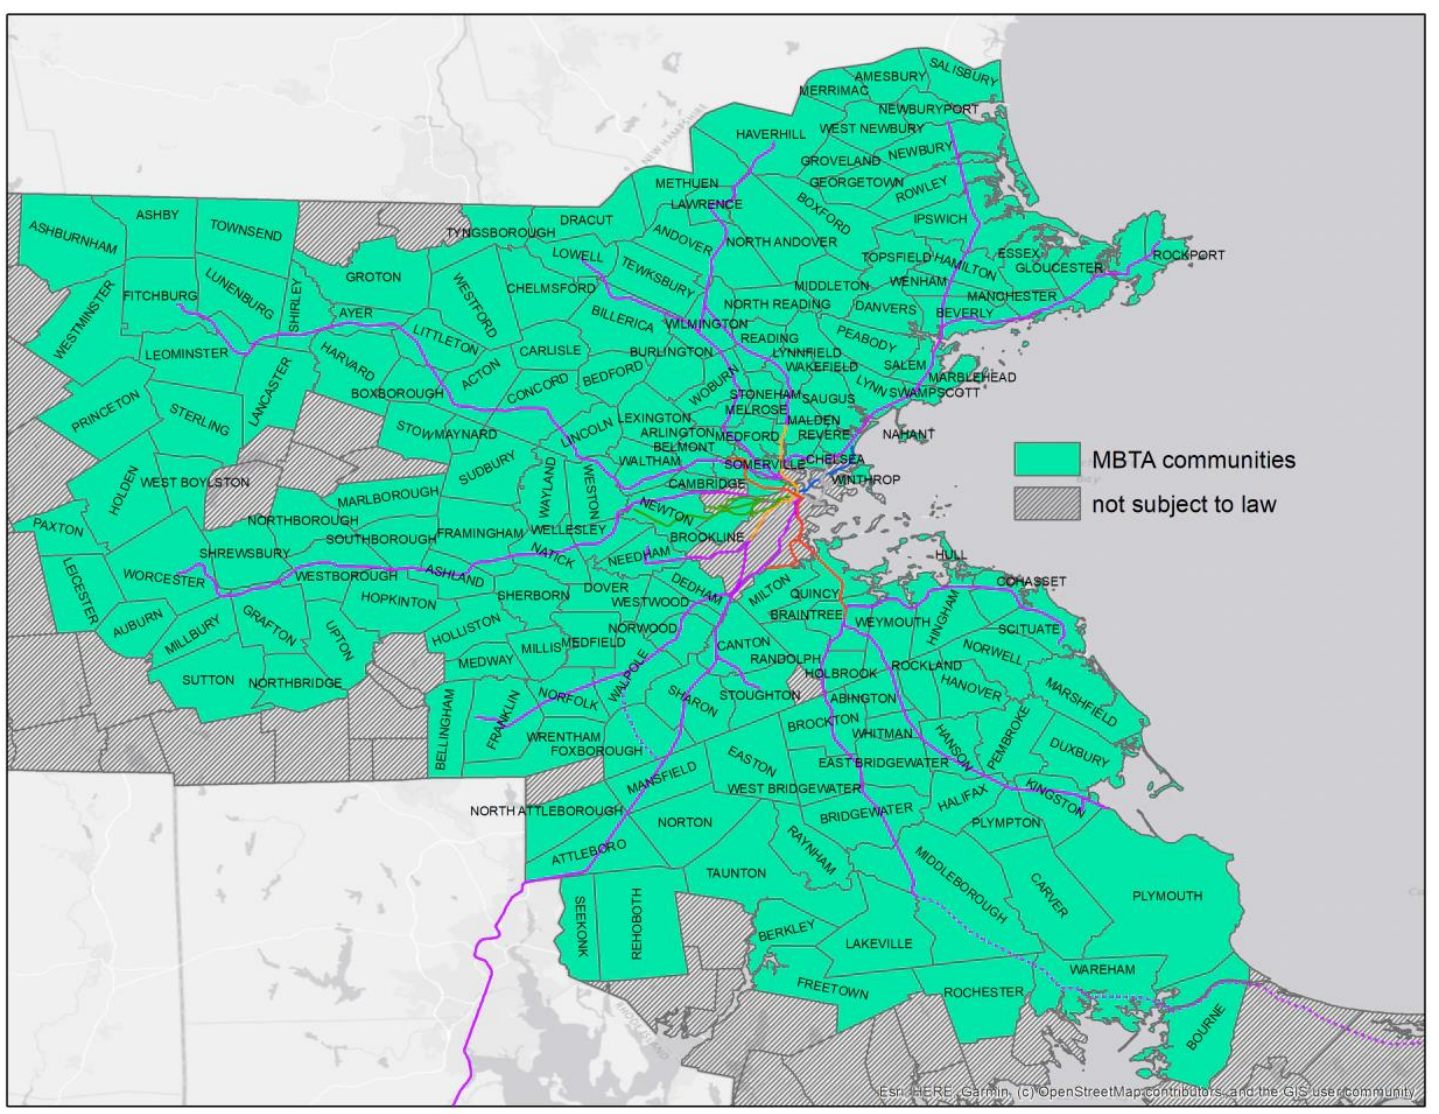
To remain in interim compliance with Section 3A, an MBTA community must take one of the following actions by no later than December 31, 2022:

i. Submit a complete request for a determination of compliance as set forth in section 9.a above; or
ii. Notify DHCD that there is no existing multi-family district that fully complies with these guidelines, and submit a proposed action plan as described in section 9.b above.

10. Renewals and Rescission of a Determination of Compliance

a. *Term and renewal of a determination of compliance*

A determination of compliance shall have a term of 10 years. Each MBTA community shall apply to renew its certificate of compliance at least 6 months prior to its expiration. DHCD may require, as a condition of renewal, that the MBTA community report on the production of new housing within MBTA community, and in the multi-family district that was the basis for compliance. Applications for renewal shall be made on a form proscribed by DHCD.



b. *Rescission of a determination of compliance*

DHCD reserves the right to rescind a determination of compliance if DHCD determines that (i) the MBTA community submitted inaccurate information in its application for a determination of compliance, (ii) the MBTA community amended its zoning or enacted a general bylaw or other rule or regulation that materially alters the Unit capacity in the applicable multi-family use district.

11. Effect of Noncompliance

If at any point DHCD determines that an MBTA community is not in compliance with Section 3A, that MBTA community will not be eligible for funds from the following grant programs: (i) the Housing Choice Initiative as described by the governor in a message to the general court dated December 11, 2017; (ii) the Local Capital Projects Fund established in section 2EEEE of chapter 29; or (iii) the MassWorks infrastructure program established in section 63 of chapter 23A. DHCD may, in its discretion, take non-compliance into consideration when making other discretionary grant awards.

Section 3A. (a)(1) An MBTA community shall have a zoning ordinance or by-law that provides for at least 1 district of reasonable size in which multi-family housing is permitted as of right; provided, however, that such multi-family housing shall be without age restrictions and shall be suitable for families with children. For the purposes of this section, a district of reasonable size shall: (i) have a minimum gross density of 15 units per acre, subject to any further limitations imposed by section 40 of chapter 131 and title 5 of the state environmental code established pursuant to section 13 of chapter 21A; and (ii) be located not more than 0.5 miles from a commuter rail station, subway station, ferry terminal or bus station, if applicable.

(b) An MBTA community that fails to comply with this section shall not be eligible for funds from: (i) the Housing Choice Initiative as described by the governor in a message to the general court dated December 11, 2017; (ii) the Local Capital Projects Fund established in section 2EEEE of chapter 29; or (iii) the MassWorks infrastructure program established in section 63 of chapter 23A.

(c) The department, in consultation with the Massachusetts Bay Transportation Authority and the Massachusetts Department of Transportation, shall promulgate guidelines to determine if an MBTA community is in compliance with this section.

RE: Police New Recruit Funding Request

Due to multiple separations in 2021 and 2 transfers, I am requesting additional funding for six new recruits. The funding will cover their Police Academy Training tuition, initial uniforms and equipment, firearms and ammunition for range training, and Police Salary for the remainder of this fiscal year 22.

The breakdown of the requested funding is:

Category	Amount	Timing
012111-511000 Police Salary and Wages	$63,000.00	4/4/2022
012112-535700 Police Firearms and Ammunition	$3,600.00	4/4/2022
012112-535500 Police Uniforms	$65,000.00	4/4/2022
012112-540702 Police Academy Tuition and Training	$19,600.00	4/4/2022
TOTAL	**$151, 200.00**	

Respectfully,

Chief Michael L. Lyle

Attachment: 2022-89 (ORDER-2022-89 : An Appropriation from Free Cash to the Police Department for new recruits.)

An Order Relative to Property Tax Relief for Active Duty Members of the National Guard

Be it Ordered that the City of Melrose accept Chapter 59, Section 5, Clause 56 ~~and 57,~~ as amended by Chapter 188 Sec. 42 of the Acts of 2010, *An Act Relative to Municipal Relief:*

Fifty-sixth: Upon the acceptance of this section by a city or town, the board of assessors may grant, real and personal property tax abatement up to 100 per cent of the total tax assessed to members of the Massachusetts National Guard and to reservists on active duty in foreign countries for the fiscal year they performed such service subject to eligibility criteria to be established by the board of assessors.

The authority to grant abatements under this section shall expire after 2 years of acceptance unless extended by a vote of the city or town.

~~Fifty-seventh: Upon the acceptance of this section by a city or town, the board of assessors may appropriate monies for and grant property tax rebates in an amount not to exceed annually the amount of the income tax credit set forth under subsection (k) of section 6 of chapter 62.~~

Offered by Councilor Shawn M. MacMaster, Ward 5

Subject: RE: 2022 City Clerk Bond

Hi Kristin,

Your surety bond is good for 3 years – May 1, 2021-2024, and you paid $255 for the 3 year term.

Please let me know if you need anything else.

Thank you,

Steve

Steven G. Rich

Attachment: Common vic 2022 (LIC-2022-2 : License: Common Victualler renewals for 2022)

§ 152-6. Renewals.

A. Generally. Pursuant to MGL c. 41, § 13B, and except as otherwise provided in this chapter, the City Clerk is hereby authorized to renew all licenses and permits with respect to which the City Council is designated as the licensing or issuing authority under the provisions of any general or special law, or of any ordinance of the City, and for which no public hearing is required. A report of each license renewed under this section shall be made by the City Clerk to the City Council at the regular meeting of the Council next following the granting of such renewal.

B. Departmental reports. The City Clerk shall forthwith, after receiving an application for the renewal of a license or permit which the Clerk is authorized to renew under Subsection A of this section, obtain from the Chief of the Police Department a report as to the character and fitness of the applicant to exercise the license or permit applied for. The Clerk shall also obtain reports from such other City departments as would be concerned with the operation of the business for which such license or permit is required. It shall be the duty of such Chief and of the heads of all other City departments to cause all necessary investigations to be made and, in the case of each report, to recommend whether the renewal of such license or permit shall be approved or disapproved.

C. Reference of certain applications to Council. Upon the request of an applicant who has been refused a renewal of a license or permit by the City Clerk, or whenever the Clerk shall receive an adverse report with respect to an applicant for renewal of a license or permit, the application, together with all reports relating thereto and, in the case of refusal by the City Clerk, a written statement of the reasons therefor, shall be referred to the City Council, which shall then determine whether the renewal of the license or permit applied for shall be granted or refused.

D. Retention of applications; notation of actions taken. The City Clerk shall keep all applications for renewals of licenses or permits granted by him/her under authority of Subsection A of this section in a file provided for the purpose and shall make a notation on each such application of his/her action in granting or refusing renewal thereof.

Attachment: 2022 Class II Renewals (LIC-2022-4 : License: Class II Motor Vehicle for 2022)

§ 152-6. Renewals.

A. Generally. Pursuant to MGL c. 41, § 13B, and except as otherwise provided in this chapter, the City Clerk is hereby authorized to renew all licenses and permits with respect to which the City Council is designated as the licensing or issuing authority under the provisions of any general or special law, or of any ordinance of the City, and for which no public hearing is required. A report of each license renewed under this section shall be made by the City Clerk to the City Council at the regular meeting of the Council next following the granting of such renewal.

B. Departmental reports. The City Clerk shall forthwith, after receiving an application for the renewal of a license or permit which the Clerk is authorized to renew under Subsection A of this section, obtain from the Chief of the Police Department a report as to the character and fitness of the applicant to exercise the license or permit applied for. The Clerk shall also obtain reports from such other City departments as would be concerned with the operation of the business for which such license or permit is required. It shall be the duty of such Chief and of the heads of all other City departments to cause all necessary investigations to be made and, in the case of each report, to recommend whether the renewal of such license or permit shall be approved or disapproved.

C. Reference of certain applications to Council. Upon the request of an applicant who has been refused a renewal of a license or permit by the City Clerk, or whenever the Clerk shall receive an adverse report with respect to an applicant for renewal of a license or permit, the application, together with all reports relating thereto and, in the case of refusal by the City Clerk, a written statement of the reasons therefor, shall be referred to the City Council, which shall then determine whether the renewal of the license or permit applied for shall be granted or refused.

D. Retention of applications; notation of actions taken. The City Clerk shall keep all applications for renewals of licenses or permits granted by him/her under authority of Subsection A of this section in a file provided for the purpose and shall make a notation on each such application of his/her action in granting or refusing renewal thereof.
