MGL chapter 152, §25C(6) also states that **"every state or local licensing agency shall withhold the issuance or renewal of a license or permit to operate a business or to construct buildings in the commonwealth for any applicant who has not produced acceptable evidence of compliance with the insurance coverage required."**

Additionally, MGL chapter 152, §25C(7) states "Neither the commonwealth nor any of its political subdivisions shall enter into any contract for the performance of public work until acceptable evidence of compliance with the insurance requirements of this chapter have been presented to the contracting authority."

Applicants

Please fill out the workers' compensation affidavit completely, by checking the boxes that apply to your situation and, if necessary, supply your insurance company's name, address, and phone number along with a certificate of insurance.

Limited Liability Companies (LLC) or Limited Liability Partnerships (LLP) with no employees other than the members or partners, are not required to carry workers' compensation insurance. If an LLC or LLP does have employees, a policy is required. Be advised that this affidavit may be submitted to the Department of Industrial Accidents for confirmation of insurance coverage.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

CITY OF MELROSE
OFFICE OF THE CITY CLERK

Kristin Foote
City Clerk

562 Main Street
Melrose, Massachusetts 02176
Telephone - (781) 979-4113

Sign and date the affidavit

The affidavit should be returned to the city or town that the application for the permit or license is being requested, not the Department of Industrial Accidents. Should you have any questions regarding the law of if you are required to obtain a workers' compensation policy, please call the Department at the number listed below. Self-insured companies should enter their self-insurance license number on the appropriate line.

City or Town Officials

Please be sure that the affidavit is complete and printed legibly. The Department has provided a space at the bottom of the affidavit for you to fill out in the event the Office of Investigation has to contact you regarding the applicant. Please be sure to fill in the permit/license number which will be used as a reference number. In addition, an applicant that must submit multiple permit/license applications in any given year, need only submit one affidavit indicating current policy information (if necessary). A copy of the affidavit that has been officially stamped or marked by the city or town may be provided to the applicant as proof that a valid affidavit is on file for future permits or licenses. A new affidavit must be filled out each year. Where a homeowner or citizen is obtaining a license or permit not related to any business or commercial venture (i.e. a dog license or permit to burn leaves etc.) said person is NOT required to complete this affidavit.

The Office of Investigation would like to thank you in advance for your cooperation and should you have any questions please do not hesitate to give us a call. The Department's address, telephone and fax number:

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Conservation Commission Appointment
Date: December 13, 2022

I respectfully request the Honorable City Council confirm the following Conservation Commission appointment:

- Charles McCabe, 14 Orient Ave, to a three-year term, said term to expire on the last day of February 2026. Mr. McCabe's appointment replaces the term of Eugenia Gibbons, whose term is set to expire on the last day of February 2023.

In addition to holding a master's degree in urban placemaking, highlights of Mr. McCabe's candidacy include serving as executive director of a national research collaborative where he focuses on urban parks, urban public spaces, trails, programming, events, and community outreach, and advises public and non-profit parks and open spaces agencies on a range of planning, advocacy, and more.

Mr. McCabe intends to use his vast experience noted above and throughout his resume to assist the current members of the Conservation Commission in promoting and developing the natural resources in Melrose as well as advocating for the protection of our watershed resources.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Hello,

My name is Charlie McCabe, I live at 14 Orient Avenue and I'm interested in applying for one of advertised openings on the Conservation Commission. I am interested in either the full or associate member positions and have familiarity with conservation, watershed protection and water quality regulations in both professional as well as volunteer roles. I'd be honored to serve the city.

By day, I'm a parks, open space and placemaking consultant, I have a sole-proprietor LLC based here in Melrose. Prior to becoming a full-time consultant in the summer of 2019, I worked for a number of parks nonprofit organizations in Austin, TX, Boston, MA and New York City in a wide variety of roles. I volunteer regularly with the Rose Kennedy Greenway in Boston, the Mystic River Watershed Association, and Friends of the Fells/Middlesex Fells Reservation. I've attached my current resume, you can also review my work at www.charliemccabe.co (I also earned a Masters Degree in Urban Placemaking and Management from Pratt Institute in February 2017.)

I moved to Melrose in late February 2021, having lived in Arlington, MA for a half dozen years. I was pleased to serve for a term on the Community Preservation Act (CPA) committee there, working with a group of volunteers to review and recommend CPA projects to the Town via the annual town meeting for approval from 2018 through 2021. I have been volunteering with the Melrose Bike/Pedestrian Committee (since I moved here) and have been walking/checking some of the smaller Conservation holdings in the northern edge of the city as well (since late last year).

I would love to apply my skills and knowledge in serving on the Conservation commission in Melrose. IThank you for your consideration and please let me know if I can answer any questions.

Yours truly,

Charlie McCabe
14 Orient Avenue
Melrose, MA 02176

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Charlie McCabe
14 Orient Avenue, Melrose, MA 02176

Parks, open space, and placemaking consultant with extensive experience in public-private partnerships, programming, fundraising, project management, and community outreach. Master's degree in urban placemaking. Former parks non-profit executive director and director of a national research collaborative, with a focus on urban parks, urban public spaces, trails, programming, events, and community outreach. Extensive experience in a Fortune 100 company as a director, project leader, and technical support specialist.

Work Experience

Parks, Open Space, and Placemaking Consultant, **Charlie McCabe Consulting LLC,** Melrose, MA
July 2019 – present

- Advise public and non-profit parks and open space agencies on a range of planning, advocacy, analysis, programming, placemaking, funding, and operations efforts. Services include benchmarking, research, and analysis of park resources across the country. Clients include Central Park Conservancy (Institute for Urban Parks – multiple grantees through Partnerships Lab program), Google/LendLease, Bloomberg Associates (multiple grantees), Public Workshop/The City of Austin, and Salt Lake City Corporation. Past clients include The Trust for Public Land (July 2019-February 2021) Pro-bono clients include Bike to the Sea, Inc., the Emerald Necklace Conservancy, and the Dennis Conservation Land Trust.
  (Prior to 2/28/21, I was based in Arlington, MA)

Director, Center for City Park Excellence, **The Trust for Public Land**, Boston, MA
January 2017 – June 2019 (non-profit organization)

- Managed the research and publishing of annual report (*City Park Facts – tpl.org/2020-city-park-facts*) and annual ranking of public park systems (parkscore.tpl.org) in the 100 largest US Cities, as well as special reports and research for TPL staff and client organizations.

Research and Planning Fellow, **New Yorkers for Parks,** New York NY
May – July 2016 (non-profit foundation)

- Assisted in research and reviews of the 2016 Report Card on Parks: www.ny4p.org
- Developed physical activity park survey for six parks in the Bronx, using the SOPARC method developed by the RAND Corporation and trained three interns on the methods, working in the parks. Analyzed and reported on data for Bronx Community Health Network client.

Jane Jacobs at 100 Fellow, **Municipal Art Society,** New York, NY
February – May 2016 (non-profit foundation)

- Managed outreach and collaboration efforts to recruit programs, events, exhibitions and tours to celebrate the 100th Anniversary of Jane Jacobs's birthday, curating a custom website: www.jj100.org.
- Assisted colleague with outreach, training, website content, and logistics/coordination efforts for the annual Jane's Walk Weekend, with over 250 walks/tours through New York City.

Director of Public Programs, **Rose Kennedy Greenway Conservancy**, Boston, MA
February 2012 – July 2015 (non-profit foundation)

- Managed 4-person team organizing public events, markets, exercise classes, entertainment, and more than 30 food trucks and other vendors. Oversaw Greenway Carousel operation, as well as public relations, communications and IT support. Grew attendance (food vending, Wi-Fi, events/programs, and carousel visitation) from 372,000 in 2011 to 1,194,000 in 2015, with revenue increase from $250,000 in 2012 to over $650,000 in 2015.
- Worked with consultants to provide earned media and PR coverage. Directed web site, social media, and traditional communications coverage, as well as photography and video creation, with part-time communications coordinator.

(Over, please)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Executive Director, **Austin Parks Foundation**, Austin TX.
June 2005 – February 2012 (non-profit foundation)

- Managed three-person team providing accounting, membership, communications, marketing, and program management for projects ranging from programming to park improvements.
- Negotiated groundbreaking partnership with the Austin City Limits Music Festival and the City of Austin Parks and Recreation Department, resulting in annual donation of 8.25% of festival tickets sales. Funds of $3.5 M were allocated to improvements at the Zilker Park festival as well as neighborhood park grants and park improvements citywide. The partnership has continued and grown to present day and been a model for other cities.
- Led all social media efforts, including the Foundation blog and Twitter and Facebook updates.
- Promoted the organization through frequent print, television, and radio appearances.
- Grew Foundation budget and revenues from $174,000 in 2005 to $812,000 in 2011, including park grants, volunteer events, and fundraising efforts.
- Expanded Adopt-a-Park services from 18 community groups to more than 95 community groups providing administrative support and hands-on project management.

Senior Manager, Service & Support Web Sites **Apple, Inc.**, Austin, TX
1996 – 2004 (consumer electronics)

- Managed team ranging from 10 to 22 people providing customer technical support and service web sites. Duties included web site design, management, technical content, and interactive (discussion, email) support with staff working in multiple locations in the USA, Europe, and Asia.
- Worked collaboratively with Apple staff across the globe to provide technical support content in seven languages.
- Received #1 rating from Consumer *Reports* for web-based support in 2003 and 2004.

Various Technical Specialist Roles **Apple, Inc.,** Cupertino, CA, and Austin, TX
1988 – 1996 (consumer electronics)

- Additional roles in technical support and software and hardware sales 1986 – 1988

Education

Master of Science, Urban Placemaking and Management, February 2017. Pratt Institute, Brooklyn, NY.
Bachelor of Arts, History and Political Science, May 1986, Colby College, Waterville, ME.

Community Service

Horticultural and Programs Volunteer, Rose Kennedy Greenway, Boston, MA	2016 – present

Commonwealth of Massachusetts

DEPARTMENT OF HOUSING & COMMUNITY DEVELOPMENT

Charles D. Baker, Governor ◆ Karyn E. Polito Lt. Governor ◆ Jennifer D. Maddox, Undersecretary

October 17, 2022

The HonorablePaul Brodeur
Mayor, City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur: **RE: Melrose 0922 Application**

Thank you for submitting this application to the FY2023 Community One Stop for Growth. The Executive Office of Housing and Economic Development (EOHED), Department of Housing and Community Development (DHCD), and Massachusetts Development Finance Agency (MassDevelopment) worked together to evaluate all eligible applications and recommended the most ready and highest-impact projects for a grant. This application from City of Melrose was reviewed by the program(s) that could best serve the project's funding needs.

On behalf of the Baker-Polito Administration, I am pleased to inform you that a grant in the amount of **$75,000** from the **Housing Choice Grant Program** has been approved to support your project.

This award is contingent the execution of a grant contract between the City of Melrose and the Department of Housing and Community Development (DHCD) and the satisfaction of its special conditions and requirements. We will send the grant contract to the contact person identified in your application, as well as an invitation to an online training on October 25, 2022 at 11:00 a.m. related to grant administration and contract guidance to highlight contractual obligations. Please do not proceed with grant activities until the contract is fully executed. If you have any questions, please contact Chris Kluchman, FAICP, Deputy Director at Chris.Kluchman@mass.gov, and Filipe Zamborlini, Community Grants Coordinator at Filipe.Zamborlini@mass.gov.

Finally, please note that public announcement of this award is embargoed until the Administration has had the opportunity to formally announce it through a local event and/or media release. Please refrain from sharing or publicizing news about this award outside of your organization until it is officially announced.

Congratulations once again. We look forward to working with you to address the City of Melrose's housing and community development needs.

Sincerely,

Jennifer D. Maddox
Undersecretary, DHCD

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The Standard Contract Form Instructions and Contractor Certifications and the following Commonwealth Terms and Conditions document are incorporated by reference into this Contract and are legally binding: (Check ONE option): _x_ Commonwealth Terms and Conditions __ Commonwealth Terms and Conditions For Human and Social Services __ Commonwealth IT Terms and Conditions

COMPENSATION: (Check ONE option): The Department certifies that payments for authorized performance accepted in accordance with the terms of this Contract will be supported in the state accounting system by sufficient appropriations or other non-appropriated funds, subject to intercept for Commonwealth owed debts under 815 CMR 9.00.
__ **Rate Contract.** (No Maximum Obligation) Attach details of all rates, units, calculations, conditions or terms and any changes if rates or terms are being amended.)
_x_ **Maximum Obligation Contract.** Enter total maximum obligation for total duration of this contract (or ***new*** total if Contract is being amended). **$ 75,000 .**

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting **accelerated** payments must identify a PPD as follows: Payment issued within 10 days __% PPD; Payment issued within 15 days __ % PPD; Payment issued within 20 days __ % PPD; Payment issued within 30 days __% PPD. If PPD percentages are left blank, identify reason: _x agree to standard 45 day cycle __ statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); __ only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT: (Enter the Contract title, purpose, fiscal year(s) and a detailed description of the scope of performance or what is being amended for a Contract Amendment. Attach all supporting documentation and justifications. The City of Melrose will re-write its zoning ordinance to be user-friendly as well as make changes that are identified in the recently approved Housing Production Plan.

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

_x_ 1. may be incurred as of the Effective Date (latest signature date below) and **no** obligations have been incurred **prior** to the Effective Date.
__ 2. may be incurred as of ___, **20__**, a date **LATER** than the Effective Date below and **no** obligations have been incurred **prior** to the Effective Date.
__ 3. were incurred as of **__, 20___** , a date **PRIOR** to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of **_6/30_ , 2024 ,** with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, the applicable Commonwealth Terms and Conditions, this Standard Contract Form, the Standard Contract Form Instructions and Contractor Certifications, the Request for Response (RFR) or other solicitation, the Contractor's Response (excluding any language stricken by a Department as unacceptable, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

ATTACHMENT A SCOPE OF SERVICES AND ADDITIONAL TERMS & CONDITIONS

FY 2023 Housing Choice Initiative Program Contract

Housing Choice (HC) Grant Program

I. CONTRACT

The Contractor is responsible for accessing and reviewing the contents of the documents referenced below, as compliance with each is a binding component of this Contract:

A. This Attachment A is attached to and made a part of the COMMONWEALTH OF MASSACHUSETTS STANDARD CONTRACT FORM. THE COMMONWEALTH TERMS AND CONDITIONS and the Contractor's Budget, as approved by the Department, are attached hereto as Exhibits.

B. This Attachment A incorporates by reference the Housing Choice Community Grant Program Application as applicable.

C. This Attachment A, all attached Exhibits and other Attachments, and all documents incorporated by reference herein, are referred to, collectively, as the Contract.

D. This Contract represents the entire agreement between the Contractor and the Department, and any prior or contemporaneous representations, promises, or statements by the parties, that are not incorporated herein, shall not serve to vary or contradict the terms set forth in this Contract.

E. If any term or condition of this Contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law, the validity of the remaining terms and conditions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if this Contract did not contain the particular provision held to be invalid.

II. SCOPE OF SERVICES AND COMPLIANCE WITH LAWS

The Housing Choice Initiative encourages local governments to expand housing production by providing new grants, coordinating technical assistance across various housing agencies, and promoting regulatory innovation. The Housing Choice Initiative rewards municipalities that are producing new housing and have adopted best practices to promote sustainable housing development.

A crucial part of the Housing Choice Initiative is the Housing Choice designation and grant program. Communities that achieve the Housing Choice designation have exclusive access to apply for the Housing Choice Grant Program and receive bonus points or other considerations for certain state grant programs.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The Contractor shall use the FY 2023 contract funding to provide services in accordance with the terms of the attached Budget, the terms of this Contract, and any subsequent Contract amendments. **ALL EXPENSES MUST BE INCURRED ON OR BEFORE JUNE 30TH OF THE FISCAL YEAR IN WHICH THEY OCCUR (FY 2023 – YEAR 1; FY 2024 – YEAR 2).** Any later change in services and activities to be provided by Contractor shall be made only with the prior approval of the Department, in accordance with Section III.C. below.

The Contractor shall carry out these activities in conformance with all applicable federal and state laws and requirements, including without limitation, statutes, rules, regulations, administrative and executive orders, ordinances, and codes, as they may be issued and amended.

The Department reserves the right to issue future administrative guidance. The Contractor shall comply with all applicable guidelines, information memoranda, list serves, or other guidance the Department may issue, amend, or supplement from time to time.

III. ADDITIONAL TERMS AND CONDITIONS

A. Reporting Responsibilities of the Contractor

1. The Contractor, and any entity under subcontract, having costs chargeable to Contract funds shall maintain Contract records in accordance with Section 7 of the Commonwealth Terms and Conditions including without limitation, a record of planned activities, a record of activities carried out, and an explanation of any changes in program activities.

2. The Contractor shall comply with all records and reporting requirements set forth in this Contract.

3. The Contractor shall submit written quarterly progress reports to the Department in compliance with the following deadlines and requirements using a form provided by the Department. Progress reports shall be submitted on or before the 15th day of the month following the last month of the quarter, except in instances when the due date shall fall on a weekend or holiday where reports would be due the following full business day after the deadline. **The Department may delay reimbursement to the Contractor if the Contractor consistently fails to submit timely progress reports or other documents required under this Contract.** Any such action by the Department shall be preceded by written notification of the intent to delay such reimbursement, which may be done electronically, and allow for the Contractor to make reasonable written explanation regarding the occurrence, and the remedy of the issue. Failure by the Contractor to reply to the Department's written notification or to comply with specific instructions from the Department shall be treated as a breach herein and under Section 4 of the Commonwealth Terms and Conditions. The Department further reserves the right to consider past performance under the Housing Choice Grant Program when evaluating an applicant's initial submission. Consistent failure to submit

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

progress reports or to comply with the provisions of this Contract may negatively impact future awards of this grant.

Progress report deadlines are as follows:

FY23		
Q3	Period: 1/1/2023 *to* 3/31/2023	Due: 4/17/2023*
Q4	Period: 4/1/2023 *to* 6/30/2023	Due: 7/17/2023*
FY24		
Q1	Period: 7/1/2023 *to* 9/30/2023	Due: 10/16/2023*
Q2	Period: 10/1/2023 *to* 12/31/2023	Due: 1/15/2024
Q3	Period: 1/1/2024 *to* 3/31/2024	Due: 4/15/2024
Q4	Period: 4/1/2024 *to* 6/30/2024	Due: 7/15/2024

*Denotes due date following a weekend or holiday.

4. A Contractor whose grant funds a Planning or Zoning project shall submit a copy of the planning or zoning document(s) produced with grant funding. Document(s) should be delivered by July 31, 2024. Documents that cannot be delivered by July 31, 2024 must submit written notification to the program representative by July 31, 2024 outlining when a report will be submitted. In accordance with Section III.A.3, failure to submit document(s) required under this Contract may (i) result in delayed reimbursement; (ii) may be treated as a breach of the Contract; and (iii) will be considered when evaluating applications for future grant awards.

5. The Contractor shall continually assess its performance of the Contract-supported activities to ensure that the performance objectives outlined in the Contract are achieved. This includes, but is not limited to, the Contractor's monitoring that applicable schedules are met and performance objectives are achieved in accordance with the activities delineated in the Contract. The Contractor shall promptly inform the Department in writing, which may be done electronically, of the following conditions which may affect its deliverable objectives and performance as soon as they become known:

    a. Problems, delays, or adverse conditions which will materially affect the Contractor's ability to attain deliverable objectives. This disclosure shall be accompanied by a statement of any actions taken or contemplated by the Contractor, and any assistance needed from the Department to resolve the situation. Failure by the Contractor to communicate promptly or to respond promptly to communications from the Department may result in the denial by DHCD of any budget or schedule change requests by the Contractor, as provided in Section III.C.

    b. Favorable developments or events which will enable the Contractor to meet the deliverable Contract objectives sooner than anticipated or at less cost than originally projected.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

6. The Contractor shall submit all progress reports electronically to the Department's assigned program representative at the following address:

   Filipe Zamborlini
   Community Grants Coordinator
   filipe.zamborlini@mass.gov

7. The Department shall advise the Contractor within thirty (30) days of receiving any report if it is not acceptable to the Department. The Contractor shall submit an acceptable report upon receipt of such advice from the Department.

8. The Contractor, and any entity under subcontract having costs chargeable to Contract funds, shall maintain Contract records in accordance with Section 7 of the Commonwealth Terms and Conditions, including, without limitation, a record of planned activities, a record of activities carried out, and an explanation of any changes in program activities.

9. Within five business days of receipt, the Contractor shall provide the Department with copies of any and all exception reports and written communications of an audit or review of the Contractor and any written final reports of such audits or reviews that the Contractor receives during the Contract term from the state Office of the Inspector General (OIG) and/or the Office of the State Auditor. Such reports or communications may be provided electronically.

10. Within five business days of being served with any pleading in a legal action filed with a court or administrative agency related to this Contract or which may affect the Contractor's ability to perform its obligations hereunder, the Contractor shall notify the Department of such action and deliver copies of such pleadings to the Department. Such reports or communications may be provided electronically.

11. The Contractor will submit any other reports or information requested by the Department by the due date specified in the Department's request. The Contractor shall promptly make available to the Department or to an auditor or contractor approved by the Department such material information regarding the Contractor's activities as may be requested by the Department.

B. Payment Mechanism and Fiscal Obligations

The Department agrees to provide payment for the services described under this Contract, pursuant to the following payment mechanism:

1. Cost Reimbursement. The Contractor shall submit to the Department written requests for cost reimbursement on the Department's Housing

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Choice Community Grant Invoice form (Housing Choice Invoice), or other such form as the Department may specify.

Only requests for cost reimbursement for authorized capital expenses, pursuant to the capital funds from the state's capital budget, that are completed within the dates of service of an invoice, and that take place within the length of the contract, are authorized for reimbursement.

2. Housing Choice Invoices should be submitted **no more than** once a month and should include the range of the dates of service being submitted for reimbursement.

3. All payments are contingent upon receipt of the availability of funds, authorization by the Executive Office of Administration and Finance and the Massachusetts Comptroller, and the provisions of the Commonwealth Terms and Conditions. In accordance with 815 CMR 2.00 and state finance law, the Department is under no legal obligation to compensate the Contractor, or to obtain additional funding, for any costs or other commitments which are outside the scope of the executed Contract and which have not been approved by the Department.

4. In no event shall the sum of any and all payment by reimbursement exceed the maximum amount payable to the Contractor hereunder. Requests for payment by cost reimbursement will be honored and funds will be released based on submission by the Contractor, with review and acceptance by the Department, of required data and reports as detailed in this Contract, the availability of funds, and the Contractor's satisfactory compliance with the terms of this Contract.

   Each request for payment by cost reimbursement must be made on the Housing Choice Invoice. By submitting the Housing Choice Invoice, the Contractor represents that in accordance with the Contract, including the Contractor's Budget as approved by the Department, articles have been furnished, services have been rendered, or obligations have been incurred by a person authorized to incur such obligations.

   The Department's fiscal representative will provide additional billing instructions, if necessary, to the Contractor via email.

   When submitted electronically, the Housing Choice Invoice should be attached to the email submission in one email attachment. Any other documents, such as vendor invoices, should be submitted as separate attachments.

   In addition to the Housing Choice Invoice, requests for payment by cost reimbursement shall also contain sufficient detail, supporting records, and documentation to support payment. Records to substantiate the Contractor's claims hereunder may include, without limitation, payroll

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

records, accounting records, and purchase orders that are sufficient to document the Contractor's program and financial activities under this Contract.

The request for cost reimbursement shall be submitted electronically to the attention of:

Brett Morton
Fiscal Representative
brett.morton2@mass.gov

with a copy to:

Filipe Zamborlini
Community Grants Coordinator
filipe.zamborlini@mass.gov

5. All requests for cost reimbursement must be submitted on or before July 17, 2023, if expenses were incurred in FY 2023 – Year 1; and on or before July 15, 2024, if expenses were incurred in FY 2024 – Year 2. Failure to do so may result in delayed reimbursement or denial of the request.

6. The Contractor shall submit the final Housing Choice Invoice on or before July 15, 2024. With the submission of the final Housing Choice Invoice, the Contractor shall return to the Department any unexpended funds that are reflected in the final reconciliation, subject to Section III.C below.

C. Budget or Schedule Changes

1. Any subsequent change in the services and activities to be provided by the Contractor in accordance with the attached Budget, including, but not limited to, extensions of time, requires prior written approval from the Department's assigned program representative listed in Section III.A.6. **Requests for any amendments or extensions shall be reviewed on a case-by-case basis by the Department, and may be approved or denied by the Department at its discretion. Consideration shall only be extended to grantees who are in adherence with Section III.A.5 and other requirements of this Contract. Requests to amend or extend the end date of the Contract must be received by the Department on or before January 31, 2024.**

2. Budget Amendments. The Contractor may transfer funds among the line items in the Budget, only with the written permission of the Department. No amendment to the Contract shall be required for such change. The Contractor shall submit a request for such change electronically to the Department's representatives, listed in Section III.B.4, at least 30 days prior to requesting reimbursement funds under such change. If the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Department does not respond within 30 days of receipt of the requested change, it will be deemed to have approved of the change.

D. Signage, Acknowledgment, Publicity, and Logos

1. Signage. The Contractor may erect or post a sign at a location where Contract funds have been used indicating that financing is being or has been provided in part by the Department as part of the Housing Choice Initiative, subject to compliance with the zoning by-laws or ordinances of the municipality in which the sign is to be erected or posted. The sign shall include the following statement: "Funds for this Project have been provided by a Housing Choice Community Grant provided by the Massachusetts Department of Housing and Community Development."

2. Acknowledgment. If Contract funds are expended by the Contractor on the preparation or production of a brochure or other publication, the brochure or publication shall include the following statement: "This publication was funded by a Housing Choice Grant provided by the Massachusetts Department of Housing and Community Development."

3. Publicity; Other Materials. The Contractor may disseminate, publish, or reproduce documents produced in whole or in part pursuant to this Contract, provided that the Contractor furnishes to the Department copies of any such documents thirty (30) days prior to publication, and provided that such documents include the acknowledgment required under Section III.D.2. The Contractor may copyright any books, publications, or other copyrightable materials produced under this Contract, provided that the Contractor shall provide to the Commonwealth as appropriate an irrevocable, nonexclusive royalty-free right to reproduce, publish, or otherwise use or authorize others to use the copyrighted material.

4. Logos. If the Contractor wishes to include a Department logo on any signage or other materials produced in accordance with this section, it may contact the Department's assigned program representative, listed in Section III.A.6, for the appropriate copy of a logo.

5. Submission to DHCD. Any sign, publication, or other material produced in accordance with this section must be submitted in advance to the Department's assigned program representative, listed in Section III.A.6, no later than thirty (30) days before posting or distribution. If the Department does not respond within thirty (30) days of receipt of the material, it will be deemed to have approved of the material.

   The Department reserves the right to require that the Contractor provide to the Department photographs, video, or other media and/or documentation, if applicable, or copies of such materials, of any project financed in part by the Department under the Housing Choice Initiative.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

E. Audit or Financial Review

The Department reserves the right under this Contract to secure its own independent audit or financial review of the Contractor's (or Subcontractor, if applicable) records if, in its sole discretion, the Department determines that it is necessary for any reason.

F. Monitoring

The Department may monitor the Contractor's (or Subcontractor, if applicable) compliance with the Contract. The Contractor shall allow the Department and its representatives access to all of its books and records pertaining to this Contract.

G. Conflict of Interest, Licensure, and Debarment

1. The Contractor shall not engage in any business or personal activities or practices or maintain any relationships which conflict in any way with the full performance of the Contractor's obligations hereunder.

2. The Contractor shall not knowingly employ or compensate any employee of the Commonwealth during the term of this Contract, unless such arrangement is permitted under the provisions of M.G.L. c. 268A. Employment of former Commonwealth employees shall also be in compliance with the provisions of M.G.L. c. 268A.

3. The Contractor represents and warrants that as of the effective date, it has, and that at all times during the term hereof it shall have, at its sole expense, all licenses, certifications, approvals, insurance, permits, and other authorizations required by law to perform its obligations hereunder. The Contractor shall maintain all necessary licenses, certifications, approvals, insurance, permits, and other authorizations required to properly perform activities under this Contract, without reimbursement by the Commonwealth or other adjustment in Contract funds. Further, the Contractor warrants that all employees, agents, and subcontractors performing services under this Contract shall hold all required licenses or certifications, if any, to perform their responsibilities.

4. The Contractor certifies that the Contractor and its principals are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal or state department or agency. The Contractor agrees to immediately notify the Department if the Contractor becomes suspended or debarred, or if any licenses, certifications, approvals, insurance, permits, or any such similar requirement necessary for the Contractor to properly perform become revoked, withdrawn, or non-renewed during the Contract period.

H. Enforcement, Suspension, and Termination

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

1. Enforcement of this Contract and all rights and obligations hereunder are reserved solely to the Contractor and the Department, and not to any third party.

2. The Department may use increased or additional monitoring and reporting as part of its enforcement actions.

3. This Contract may be terminated pursuant to Sections 4 and 5 of the Commonwealth Terms and Conditions.

4. The Department may provide the Contractor with written notice to decrease or cease Contract activity. Effective upon receipt of notice from the Department, or a later date specified therein, the Contractor agrees to decrease, suspend, and/or terminate Contract activity in conformance with the terms of such notice.

5. Upon the termination or expiration of this Contract, the Contractor shall continue to cooperate with all audit, records, and monitoring requirements.

6. Within a maximum of 90 days following the date of expiration or termination of this Contract, the Contractor shall submit all reports and data required by this Contract.

I. Non-Discrimination In The Provision of Services

The Contractor shall not deny services or otherwise discriminate in the delivery of services because of race, color, religion, disability, sex, sexual orientation, gender identity, familial status or children, marital status, age, national origin, ancestry, genetic information, receipt of federal, state, or local public assistance or housing subsidies, veteran/military status, or because of any other basis prohibited by law. The Contractor agrees to comply with all applicable federal and state statutes, rules and regulations and administrative and Executive Orders prohibiting discrimination, including without limitation, the Americans with Disabilities Act, as amended (42 U.S.C. §§ 12101 et seq.), Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. §§ 2000d et seq.), the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101 et seq.), M.G.L. c. 151B, M.G.L. c. 272 §§ 92A, 98, and 98A, M.G.L. c. 111 § 199A, 42 U.S.C. 9918 (c) and 45 C.F.R. 80.

J. Confidentiality

1. The Contractor certifies that it has established sufficient internal policies to carry out its obligations hereunder.

2. The Contractor shall keep all state records and information, wherever obtained, confidential at all times and comply with all state and federal laws concerning the confidentiality of information. The Contractor shall

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

hold all personal data relating to Contract-supported personnel and applicants or recipients of Contract-supported programs and activities in accordance with Section 6 of the Commonwealth Terms and Conditions, the Standard Contract Form and its Instructions and Contractor Certifications, and all applicable Federal and state privacy and confidentiality laws and regulations, including M.G.L. c. 66A,"Massachusetts Fair Information Practices Act;" M.G.L. c. 93H, Security Breaches; 801 CMR 3.00: Privacy and Confidentiality, and 201 CMR 17.00: Standards for the Protection of Personal Information of Residents of the Commonwealth.

3. Pursuant to the Standard Contract Form and its Instructions and Contractor Certifications and the Commonwealth Terms and Conditions, the Contractor certifies that the Contractor has reviewed and shall comply with all information security programs, plans, guidelines, standards and policies that apply to the work to be performed under this Contract, that the Contractor shall communicate these provisions to and enforce them against its subcontractors, and that the Contractor shall implement and maintain any other reasonable and appropriate security procedures and practices necessary to protect personal information to which the Contractor is given access as part of this Contract, from unauthorized access, destruction, use, modification, disclosure, or loss.

4. The Contractor shall notify its agents, employees, subgrantees, and assignees who may come into contact with state records and confidential information that each is subject to the confidentiality requirements set forth herein.

5. The Contractor shall deliver to the Department, within 14 days of a written request by the Department following termination of this Contract, such personal data relating to this Contract as the Department may request; provided, that the Contractor may keep copies of any personal data delivered to the Department; and provided further, that for the purposes of this sentence, the term, "personal data", shall not include the Contractor's personnel records.

K. Fraud, Waste, and Abuse

The Contractor shall maintain and use systems and procedures to prevent, detect, and correct fraud, waste, and abuse in activities funded under this Contract.

RE: Community One Stop for Growth Request for Melrose, Massachusetts

Dear Secretary Kennealy,

Thank you for the opportunity to provide support for the City's application for the FY23 Community One Stop for Growth request for the Zoning Ordinance Re-write project. Recodifying the City's Zoning Ordinance and addressing the zoning goals in the City's recently approved Housing Production Plan will enable the city to provide a user-friendly, progressive blueprint for future development.

As with many other cities and towns in the Commonwealth, the City of Melrose is facing a critical housing shortage. Many of the zoning amendments that the city would like to put forth will directly address increasing the housing supply and diversifying the housing stock. A comprehensive review and reorganization of the Zoning Code will allow the City to effectively address the structure and known issues with the Code and incorporate publicly supported and community driven changes.

Melrose has been a leader in promoting smart growth and transit-oriented development and we have amended our zoning regulations many times over the past two decades to promote these principles and support best planning practices. We have dedicated planning staff and committed volunteers comprising our Zoning Subcommittee who are poised to continue this work, and they recognize the value that a clear and comprehensive zoning ordinance will provide. This grant will enable the city to build on our past success while promoting new opportunities for housing production, providing deeper levels of affordability, and integrating community input wherever we can to shape future redevelopment throughout our city. We are excited to take on this project and we look forward to your support.

Sincerely,

Paul Brodeur
Mayor

DEPARTMENT OF HOUSING & COMMUNITY DEVELOPMENT

Charles D. Baker, Governor ◆ Karyn E. Polito Lt. Governor ◆ Jennifer D. Maddox, Undersecretary

October 17, 2022

The HonorablePaul Brodeur
Mayor, City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur: **RE: Melrose 0922 Application**

Thank you for submitting this application to the FY2023 Community One Stop for Growth. The Executive Office of Housing and Economic Development (EOHED), Department of Housing and Community Development (DHCD), and Massachusetts Development Finance Agency (MassDevelopment) worked together to evaluate all eligible applications and recommended the most ready and highest-impact projects for a grant. This application from City of Melrose was reviewed by the program(s) that could best serve the project's funding needs.

On behalf of the Baker-Polito Administration, I am pleased to inform you that a grant in the amount of **$75,000** from the **Housing Choice Grant Program** has been approved to support your project.

This award is contingent the execution of a grant contract between the City of Melrose and the Department of Housing and Community Development (DHCD) and the satisfaction of its special conditions and requirements. We will send the grant contract to the contact person identified in your application, as well as an invitation to an online training on October 25, 2022 at 11:00 a.m. related to grant administration and contract guidance to highlight contractual obligations. Please do not proceed with grant activities until the contract is fully executed. If you have any questions, please contact Chris Kluchman, FAICP, Deputy Director at Chris.Kluchman@mass.gov, and Filipe Zamborlini, Community Grants Coordinator at Filipe.Zamborlini@mass.gov.

Finally, please note that public announcement of this award is embargoed until the Administration has had the opportunity to formally announce it through a local event and/or media release. Please refrain from sharing or publicizing news about this award outside of your organization until it is officially announced.

Congratulations once again. We look forward to working with you to address the City of Melrose's housing and community development needs.

Sincerely,

Jennifer D. Maddox
Undersecretary, DHCD

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

§ 56-10. Assistant City Clerk.

A. The City Clerk shall, on or before the first Monday in February in each year, appoint an Assistant City Clerk, subject to confirmation by the City Council.

B. The Assistant City Clerk may be removed by the vote of a majority of all the members of the City Council taken by roll call.

C. In the absence of the City Clerk, the Assistant City Clerk shall perform all the duties of the office and shall perform such other duties as he/she may be called upon to perform by the City Clerk.

State law reference — Authority to appoint assistant city clerk, MGL c. 41, § 18.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
RE: Commission on Disability Reappointment
Date: January 3, 20223

I respectfully request the Honorable City Council confirm the reappointment of Margaret Sheets, 53 Melrose St., Apt. 3D, to the Commission on Disability for a three-year term, said term to expire on the last day of February 2026.

Ms. Sheets possesses approximately 10 years of experience working for the Disability Policy Consortium of Massachusetts, and during her time with the Commission, has proven herself to be an invaluable member. I am confident that her reappointment will help the commission continue to drive forward its mission of ensuring Melrose is fully inclusive of people with disabilities and assist the commission in meeting one of its core objectives: reviewing and making recommendations about policies, procedures, services, activities, and facilities of departments, boards, and agencies of the City of Melrose as they affect people with disabilities.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Margaret Sheets

53 Melrose St. Apt. 3D Melrose, MA 02176

Relevant Experience

Disability Policy Consortium Massachusetts, My Ombudsman Program Boston, MA
Operations Coordinator, 6/2018-Present

- Conduct research and write articles for the Disability Policy Consortium's weekly newsletter
- Edit reports regarding information on MassHealth members' cases to ensure readability
- Conduct satisfaction surveys to assess MassHealth members' thoughts on the My Ombudsman program
- Analyze satisfaction survey results and present survey data to staff to help with assessing staff performance
- Arrange logistics and work with transit authorities statewide to post My Ombudsman ads on public buses
- Transcribe interviews and analyze results to assess MassHealth members experiences with LTS Coordinators
- Orient newly hired staff to policies and best practices for working as part of the My Ombudsman team
- Work with My Ombudsman staff to design items to be distributed at outreach events
- Interview candidates as part of an interview committee for positions within the My Ombudsman team
- Interview and supervise summer interns
- Represent the My Ombudsman Program at statewide events
- Respond to staff inquiries about office policies, procedures, locations of supplies and other documents
- Organize and facilitate staff wellness activities and ensure staff members' life events are recognized
- Respond to phone inquiries from the public and connect them with appropriate resources
- Work with three staff members to develop strategies to organize their tasks to increase their productivity

Disability Policy Consortium Massachusetts, Malden, MA
Health Care Advocate and Research Assistant, 7/2014-6/2018

- Researched and wrote issue briefs to distribute to disability advocates on topics impacting people with disabilities
- Supervised an intern in compiling information for a database regarding scholarships for students with disabilities
- Lead a discussion group for women with disabilities in Second Life to further empower women with disabilities
- Researched disability topics to respond to consumer requests for information
- Worked with a team to organize a symposium on transportation access for young adults with disabilities sponsored by Easter Seals Massachusetts
- Conducted customer satisfaction surveys to analyze the quality of services delivered by One Care Ombudsman staff
- Presented on barriers to sexual healthcare faced by people with disabilities, as part of a UMass Medical School webinar
- Designed and wrote content for a resource guide to assist people with disabilities who may be experiencing violence
- Transcribed phone interviews for researchers at the Mongan Institute to assess patients' experiences with EMT care
- Organized logistics analyzed results and wrote a report of discussion groups on healthcare-seeking habits of people with disabilities to inform the work of disability-related organizations.
- Called over 100 people with disabilities to urge them to attend meetings regarding changes to MassHealth
- Created online surveys and analyzed results via SurveyMonkey to gather data on various topics of interest to the DPC
- Gave presentations to educate 10-20 students at Lesley College about disability history and advocacy

Community Catalyst, Boston, MA
Program Associate, 7/2013-11/2014

- Organized all logistics and guest list for an off-site Community Catalyst meeting with 20 medical leaders
- Conducted internet research on conflict-of-interest issues in medical education to provide information for publication
- Analyzed medical schools' conflict of interest policies to edit toolkits to help improve schools' policies
- Recruited 20-30 participants and managed logistics for conference calls and webinars

Easter Seals Massachusetts, Boston, MA
Public Affairs Intern, 9/2012-7/2013

- Testified before health and human service committees at the Massachusetts State House on employment issues
- Researched disability topics and wrote reports summarizing the information for use by Easter Seals staff

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Dana-Farber Cancer Institute Center for Community-Based Research, Boston, MA
Research Assistant II, 10/2011-5/2012

- Reviewed articles for use in manuscripts
- Edited and wrote content for articles subsequently published in academic journals
- Analyzed focus group results concerning women's opinions of changes in mammography guidelines
- Designed format and wrote content for PowerPoint presentations and newsletters

Janet M. Nevin
415 East Foster Street, Melrose, MA 02176

Objective: Seeking a position in a dynamic and collaborative environment, where my experience and talents will contribute to the growth and success of the organization.

Skills: Flexible, resourceful, detail oriented, with exceptional communication skills. Focused, dependable, a solid team player and consensus-builder. Proven expertise in writing, editing and proofreading, as well as experience with grant administration support.

Education:
University of Vermont
Mass Communications & Theater Major

Professional:

SDM Foundation
Associate
Worked as a team member to provide administrative and marketing support for a non-profit focused on teaching people to use technology to enrich their lives. Our services were tailored to individual needs and were available free of charge. Responsibilities included the overall customer experience and community outreach. Also set-up the monthly Shop Talks Speaker Series with local experts on a variety of technical topics. Assisted with scheduling and publishing monthly newsletters.

City of Melrose | Health Department
Grant Administrator
Provided administrative support to Melrose Substance Abuse Prevention Coalition. Assisted with production and dissemination of all Coalition materials, including Annual Report, meeting minutes and press releases. Coordinated staffing for off-site events. Worked from grant inception to build relationships with community groups, schools, police and local businesses in support of Coalition mission.

Continental Cablevision, Inc.
Office Manager and Executive Assistant to the Chairman & CEO
Hired, trained and managed office staff, maintained office systems and acted as liaison to corporate vendors through office relocation process; represented company at corporate sponsored events.

Volunteer / Community Development:

The Bridge | A School/Community Partnership
Former Board Member and Bee Committee Member
Developed policies and goals for organization and represented Board at community and school district events; assisted with planning yearly fundraiser as member of raffle committee.

Melrose Alliance Against Violence
Supporter and Current Walk Committee Member
Assist in planning annual walk for an organization whose mission is to raise community awareness of domestic and teen dating violence and to promote programs to reduce violence and encourage healthy relationships.

Community Coalition of Melrose
Former Member
Served as community representative for group comprised of local businesses and organizations, which was formed to promote quality of life within Melrose.

Common Ground Teen Center
Founding Member & Former Volunteer
In response to community need, helped to establish drop-in center for community youth. Assisted with strategic planning, staffing and fundraising.

Volunteer:
Melrose Schools – Former volunteer at a variety of levels, most recently in the community reading program
Meals on Wheels Program – Former delivery team member
Melrose Parent Workshop – Former member – developed and co-chaired parent & community speaker series.
The Food Drive, Melrose – Current volunteer

Award: **City of Melrose** – Volunteer of the Year - 2007

8410 Education, Public Safety and Substance Abuse Stabilization Fund Proposal

City of Melrose Health and Human Services

Prevention and Wellness

The City of Melrose Health and Human Services (HHS) Department proposes to utilize the revenue in the stabilization fund for citywide public health prevention and wellness initiatives, including cannabis education, public safety, and recovery coaching.

The staff person who will lead this work and is proposed to be paid out of this fund beginning January 2023, is a 15-year HHS employee, Kara Showers. Kara is a Certified Health Education Specialist with a Masters Degree in Public Health. As the Prevention and Wellness Coordinator in HHS, Kara is responsible for:

- Leading and managing chronic disease prevention and community health initiatives, using a public health lens.
- Coordinating prevention grants.
- Assessing the public health needs of the Melrose community.
- Supporting prevention service programs related to substance use and mental health.

In Massachusetts, cannabis & marijuana use are on the rise from youth to senior citizen populations. *(The word "cannabis" refers to all products derived from the plant*

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Cannabis sativa. The cannabis plant contains about 540 chemical substances. The word "marijuana" refers to parts of, or products from, the plant Cannabis sativa that contain substantial amounts of tetrahydrocannabinol (THC). CBD, or cannabidiol, is the second most prevalent active ingredient in cannabis. While CBD is an essential component of medical marijuana, it is derived directly from the hemp plant, a cousin of marijuana, or manufactured in a laboratory. Cannabidiol (CBD) is a compound found in marijuana. CBD is not impairing, meaning it does not cause a "high."[1,2]).

According to the most recent administration of the Youth Risk Behavior Survey (YRBS), Melrose high school youth report the following:

- 25% have tried marijuana at least 1 time in their life
- 10% reported using marijuana at home and 16% reported using at a friend's house
- 28% thought that their friends feel marijuana is *not wrong at all*, 23% thought their friends thought it was a *little bit wrong*
- 50% of youth reported getting marijuana from a friend

Research shows that heavy cannabis users are more likely to report thoughts of suicide than non-users and regular cannabis use is likely to increase the risk of developing a social anxiety disorder[3]. Increased awareness of the health effects of marijuana and how THC impacts the brain and mental health is imperative for Melrose youth. Collaborating with the Melrose Health and Wellness Coalition (*formerly the Melrose Substance Abuse Prevention Coalition*), and the Melrose Public Schools administration, faculty and staff, this information, as well as refusal skills and social norming campaigns, can be presented using available evidence-based marijuana toolkits[4]. Secondly, this funding could support the development and implementation of healthy coping mechanisms for students, which are an essential outlet in a young person's life. Finally, partnering with local organizations (i.e., PTO's) and parents to host events like "In Plain Sight" show family members how and where to look for early cannabis use signs.

[4] Cannabis Awareness & Prevention Toolkit | Cannabis Awareness and Prevention Toolkit | Stanford Medicine

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

It is not only important to educate our youth about marijuana but support our adult and elderly populations. Thirteen percent of Melrose adult respondents from the COVID Community Impact Survey (CCIS) data[5] said they have used marijuana in the past 30 days. Since recreational use is legal among adults, an assumption can be made that use is even higher than that. Further, both Melrose adults and senior citizens could benefit from more dialogue and education on this topic. With this funding, HHS, in partnership with COA, can host meetings and other events to provide information on cannabis/marijuana/CBD, identify resources and present subject matter experts.

For those residents struggling with substance use, this funding can also bring recovery coaching services to the City. A peer recovery coach or community health worker can assist individuals by finding the necessary recovery resources, establishing accountability as well as another level of support. Recovery coaching services are expanding in surrounding communities as its importance is being recognized across all ages.

According to the 2019 MelroseWakefield Healthcare Community Needs Assessment, 8.2% of Melrose residents died of chronic ischemic heart disease, making it one of the top 3 causes of death in the City [6]. A large study led by researchers at Stanford Medicine stated that p[7]. Of course, these heart disease cases cannot all be attributed to marijuana use. However, all residents young and old could benefit from healthy heart prevention initiatives—from more opportunities for the community to connect to ways to increase daily physical activity.

To make Melrose an even healthier community, and to support overall resident wellness, this funding will provide increased services community-wide. It will provide supplies, staffing, facilities, etc. to offer projects such as:

- Councilor-led community health forums in wards across the City 1-2x year. *Health topics could include CBD/cannabis/marijuana, heart disease, lung cancer, COVID, and/or others.*
- Yoga, Tai Chi, Mindfulness, Art Classes, StoryBook Walks etc. in our passive City parks and other designated City spaces.
- Healthy aging and dementia risk reduction initiatives.

Melrose City Council

From: Polina Latta, Human Resources Director

Re: Compensation and Classification Study

Date: October 12, 2022

In FY22 the City of Melrose hired a Human Resources Services, Inc. (HRS) to perform a comprehensive classification and compensation study of approximately 70 non-union positions including department heads and staff, which has not been done since 1988. The goal of this initiative was to invest in the City's role as an employer, and modernize and standardize our pay practices for non-union Managers and staff to provide for meaningful progression and promotion while ensuring compliance with the Fair Labor Standards Act and the Mass Pay Equity Act.

The study involved updating the job descriptions, classifying positions according to a uniform point analysis standard, surveying the market of comparable municipalities as needed to determine representative rates of compensation, and developing and recommending a new compensation and classification system for the non-union group of positions.

Based on internal and external equity, the study recommended replacing the current multiple non-union plans with one consolidated compensation and classification plan for the non-union positions. The proposed pay plan supports pay equity and hierarchy based on skill and job requirements. It consists of 23 pay grades and ten steps in each grade with minimum and maximum salary and 2% between steps. HRS recommended continuing the policy on pay steps for easier maintenance and consistency of the plan. The pay ranges targeted the 75th percentile of market, which was necessary in order to remain competitive as compared to other municipalities in Massachusetts.

This is a base salary plan and does not include compensation for stipends, cost-of living, benefits, or other compensation. For initial placement of employees within the plan, the City used the approach of placing at the step closest to but just above their current wage in order to not

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

reduce the pay of any current employee. For employees whose salary was below the minimum of the pay range efforts were made to bring it into the range. To maintain fairness, it was recommended that should an employee salary fall above the upper limit of the range the City should maintain that salary and not reduce it.

The proposed pay structure is designed to provide appropriate compensation through the next three fiscal years. As position duties and responsibilities change over time or as new positions emerge, the consultant has furnished a tool to evaluate and measure the position against a common set of criteria in a systematic and objective manner to rank the job in the appropriate grade of the compensation structure.

In order to ensure that pay levels remain equitable and competitive the City was advised to maintain the current plan by applying cost-of-living increase across the entire compensation structure periodically, as determined by the administration, or the new compensation structure will become outdated, and the City will have difficulty recruiting talent, as we have witnessed in the past.

Therefore, we are requesting an appropriation in the amount of $167,310 (One Hundred Sixty-Seven thousand, three hundred and ten dollars) to fund the HRS compensation study. The requested appropriation is from the following accounts $159,784 from the Contract Stabilization fund (84042-590000), $3,763 from Sewer, Reserve for Retained Earnings (84152-590000) and $3,763 from Water, Reserve for Retained Earnings (84162-590000) to various salary and wage lines as set forth herein.

Attachments: 8404ContractStabilizationHistory.pdf; 2006-221 Creation of Contractual Obligations S&W Stabilization Fund.pdf

Good Morning Councilor Grigoraitis,

Patrick and I are providing the information for the questions below that are relevant to our piece. Attached please find a 10 year history of the Contract Stabilization Fund. This fund was established by the Council Order attached 06-221.

-Contract Stabilization was established by Council Vote 06-221 and in accordance with MGL Chapter 40, Section 5B.
-Water Retained Earnings and Sewer retained earnings were established under MGL Chapter 44, Section 53F ½ for Enterprise Funds.

There are no CBAs that are restricted from using the Contractual Obligations and Salary & Wages Stabilization Fund.

For orders 2023-30 and 2023-31- Yes, these raises will be retro to the start of Fiscal Year 2023. For the FY 2023 budget, Steps and longevity changes were budgeted. Appropriation Orders 2023-30 and 2023-31 represent the COLA negotiated with both Local 272 Clerical and Local 272 Laborers.

Thanks
Kerri

Subject: Request for additional documentation for orders 2023-29, 2023-30, 2023-31

Good morning,

My understanding is that some combination of the three of you will be before the Appropriations & Oversight Comm to speak to these three orders. In advance of that meeting (which I know Andrew is working to get scheduled), I would like to receive the following additional information:

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

- ten-year history of all approved withdrawals from the contract stabilization account and indication of what was approved (e.g., in X year the council approved Y amount to go toward funding retro raises for Z collective bargaining agreement)
- Copy of the compensation study completed by the consultant any any related documents
- A list of any identified non-union positions that are currently identified for a compensation adjustment under order 2023-29 to maintain compliance with the MA Equal Pay Act
- List of all positions by job title and department slated to be adjusted under the 2023-29 funding request
    - For these positions, total current annual compensation, inclusive of stipends, COLAs ,and any other monetary compensation paid out of all City funds (operating and enterprise)

Additional questions (that I am happy to discuss beforehand and also anticipate asking in the meeting):

- What is the stated purpose for the contract stabilization, water retained earnings, and sewer retained earnings funds? Is this stated purpose set by: state statute/charter/city admin/all of the above?
- Are there any collective bargaining units within the City (including those under MPS) that are not eligible to access the contract stabilization fund? If so, why?
- Orders 2023-30 and 2023-31 reference that the funding request is for FY 23 funding for a union contract. When was this contract settled? Are these raises retro to the start of the fiscal year? Were any of these raises budgeted for in the current FY 23 budget, or is the totality of the increases being absorbed through the stabilization and retained earnings fund?

Thank you.

Best,

Jen

Jen Grigoraitis, *she/her/hers*

May 11, 2006

To the Honorable Board of Aldermen:

I respectfully request the creation of a new stabilization fund entitled "Contractual Obligations and Salary & Wages Stabilization Fund" in accordance with Massachusetts General Laws Chapter 40, Section 5B

Robert J. Dolan
MAYOR

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

GUIDELINES:

I. MULTIPLE STABILIZATION FUNDS

A. Creation of Funds

Stabilization funds may be created for one or more different purposes. G.L. Ch. 40 §5B. A fund may be created for a broad category of spending purposes, *e.g.*, any lawful purpose, capital budget purposes or purposes for which the community may borrow money. It may also be created for a specific purpose or project, *e.g.*, acquire a new fire truck or undertake a particular school construction project.

Creation of a fund requires a two-thirds vote of the legislative body of the city, town or district. The vote must clearly define the purpose(s) of the fund.

B. Pre-existing Fund

Any pre-existing stabilization fund balance should continue to be treated as a reserve for any lawful purpose, *i.e.* a "general" stabilization fund. The city, town or district can reallocate or earmark all or part of that balance to any new stabilization funds it creates by a vote to transfer monies from that "general" stabilization fund to the newly created fund. See Section I-D below.

C. Changing Fund Purpose

The purpose of a stabilization fund may be changed at any later time by a two-thirds vote of the legislative body. For example, if a community had established a fund in order to reserve monies to acquire a new fire truck and a balance remains after the purchase, the legislative body could vote to change the purpose to meet some new savings objective.

If a Proposition 2½ levy limit override was approved for the purpose of funding the particular stabilization fund, however, the city or town must also follow the referendum procedure explained in Section II-C below to be able to change the fund purpose and then continue using the additional levy capacity resulting from that override in future years.

D. Appropriations and Transfers

Appropriations into and from any stabilization fund require a two-thirds vote of the legislative body.

April, 2022

Mayor Paul Brodeur
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur,

Human Resources Services, Inc. (HRS) is pleased to present this ***Compensation and Classification Study for Non-Union employees*** to the City of Melrose, MA. This report represents the culmination of a detailed position classification and compensation review for all non-union employees engaged in a variety of municipal work activities. This report, along with the Organizational Needs Assessment Report submitted separately provides the City of Melrose with the totality of the analysis as it was conducted for the City. The City had made the decision that the two elements (comp/class and organization review) of the consulting engagement should be developed for better efficiency and implementation.

In particular, we wish to thank the Human Resources and Labor Relations Director, the Chief Financial Officer/Auditor, Mayor's staff, and non-union employees and managers who have contributed significantly to this effort. Employee input through forms and on-site interviews, as well as comments and suggestions received, made a valuable contribution to the study. We greatly appreciate everyone's ability to meet with us and provide information in a timely manner. HRS will remain available

to answer any procedural questions the City may have in the implementation of the study's recommendations. While this is a final report, we will remain available to make any modifications needed to make this a useful tool for the City.

Very truly yours,

Sandy

Aleksandra E. Stapczynski
President

CITY OF MELROSE, MASSACHUSETTS COMPENSATION AND CLASSIFICATION STUDY FOR NON-UNION

I. Introduction

A. Scope of Services

The City of Melrose, MA retained Human Resources Services, Inc. to conduct a comprehensive compensation and classification study of Non-Union Positions. This study was commissioned to examine the responsibilities, work performed, and market pay rates for each position included in the study. In general, the study involved developing new job descriptions, classifying those positions according to a uniform point analysis standard, surveying the market of comparable municipalities and other organizations as needed to determine representative rates of compensation, and developing and *recommending* a new compensation and classification plan and system for the non-union group of positions.

The objectives of the study were to:

- Develop a job evaluation system that would encompass all non-union positions and ensure that compensation levels were both internally equitable and externally competitive.
- Develop for the City the necessary guidelines for administering compensation on an ongoing basis to ensure that pay levels remain equitable and competitive.

In scope, the study included all non-union positions (approximately 70 in number). Another approximate dozen positions were evaluated for

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

compensation only for the organizational review and staffing needs.

HRS' approach to the study was comprehensive. The study began by collecting job content information for those positions to be evaluated. Job content evaluation factors and appropriate factor weightings were prepared and analyzed. The evaluation process involved a comparative approach where each position was compared to all others on each evaluation factor, one factor at a time.

A grade structure was developed by tabulating competitive data for the benchmark positions and studying trends in the market. A tentative pay structure and classification listings were presented to the City for their consideration. Employee listings comparing each individual's salary to the proposed structure and associated implementation costs were prepared for Finance.

This report is prepared for the City to document in detail the procedures for position evaluations and gradings and development of the salary structure. It also sets forth the recommendations for the implementation and ongoing administration of the system.

Through the consultant teams evaluation comparing both market data and job ratings point totals, it was determined the appropriate number of salary levels needed to clearly differentiate varying levels of job value. Twenty-three salary levels emerged as a suitable number for the City to develop a new consolidated non-union compensation and classification plan. Positions were assigned to a salary grade level on both the basis of its total point scores, and the external job market.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

A position compensation and classification plan is an essential component of a total personnel administration program. The perception that the compensation plan is objective and fair in its assignment of pay to individual positions lends credibility to the organization's entire personnel system. This study and its recommended plan is derived from a systematic, formalized and objective method for developing equitable job groupings and compensation levels for all positions covered. An underlying assumption is that all positions and individuals should receive "equal pay for equal work." However, the initial implementations of the recommended plans are not the final steps in achieving job equity. Rather it establishes a uniform point of beginning from which to regularly review and ensure that decisions regarding position requirements and compensation accurately reflect the organization's current service needs and the performance of employees. Each new position established and adjustments to the plan need to be done in a consistent manner to maintain the plan's integrity and relevance.

According to the Massachusetts Employment Pay Act, (MEPA), employees doing equal work should be paid equally. Our methodology and system addresses the major components required of MEPA. For work to be equal or comparable, it must involve substantially similar skill, effort, and responsibility, and be performed under *similar* working conditions, but are not necessarily identical or alike in all respects. The requisite requirements or skill includes an employee's experience, training, education, and ability to perform the jobs. An employee's skill must be measured in terms of the performance requirements of a job, that is why it is important to always ensure that the job descriptions are up to date and accurate so employees know what is expected of them in their jobs. Effort refers to the amount of physical or mental exertion needed to perform a job. Finally, responsibility encompasses the degree of discretion or accountability involved in performing the essential functions of a job.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

For maximum effectiveness, the relationship between consultant and client must be a cooperative effort. While Human Resources Services assumes responsibility for all final recommendations, client input has been actively sought, carefully weighed and incorporated into the report whenever possible and appropriate.

B. Specific Study Process

This project included the following steps:

- *Organizational Meeting* with Mayor, HR Director, and Finance to discuss the goals and objectives of the study; and to orient top executives on the process and methodology that would be used.

- Several *Orientation Meetings* with employees and managers to explain project activities, objectives, methodology. Position Analysis Questionnaires were distributed to employees at these orientation sessions. The meetings also gave everyone an opportunity to meet HRS consultants and to ask questions.

- A thorough *Job Analysis Process* which involved reviewing position duties and responsibilities (essential functions) and requisite requirements of the job, utilizing position analysis questionnaires and on-site interviews with all employees.

- Preparation of updated *Job Descriptions* with review and comment from employees, managers and HR staff. The client had an opportunity to

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

thoroughly review the draft job descriptions.

- A thorough *Job Evaluation Process*. Position rating and ranking utilizing HRS' rating manual.

- Development of a *Classification Plan*. Position assignment to grades based on a system of objective evaluation.

- Thorough *Market Analysis* using primarily comparable municipal organizations jointly selected by the City of Melrose and HRS.

- Establishment of *Compensation Schedule* using comparative wage data as a general guide.

- Several *meetings in person and through telephone conference* with the *Chief Financial Officer and Human Resources Director* to discuss pay policies and review draft work products (i.e. job descriptions, classification plan, salary schedule, comparative data, ratings, and other related project documents).

- General guidance on *Implementation*.

- Final *Presentations* to the City and employees shall be given upon request of the City. Based on any additional information received, HRS shall make adjustments as appropriate and amended the Final recommendations.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

- Final preparation of *Report* to the City of Melrose with explanation of recommendations and methodology.

The following documents have been prepared for the City of Melrose:

- Proposed Position Titles
- Proposed Classification Plan
- Proposed Compensation Plan
- Compensation Comparisons Chart
- Market Data Analysis
- Placement and Costing out of Compensation Plan
- Position Analysis Question (PAQ)
- Updated Job Descriptions for each Position
- Evaluation Materials and Documents
- HRS Position Rating Manual

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

II. Job Descriptions

A. Preparing the Job Descriptions

One major aspect of this study involved the development of updated job descriptions. Through the job analysis process, HRS discovered that many of the current job descriptions were outdated and there was no consistent format for descriptions. HRS' proposed job descriptions are submitted to the City of Melrose as part of this final report; they are provided in electronic Word format only. They also provide the necessary language to aid in recruiting minority employees, as the City has made diversity and inclusion a major emphasis in all recruitment efforts.

In addition to assisting with the development of job analysis and classifications, good descriptions produce many other important benefits. These job descriptions emphasize the purposes of each position and the types of results which each incumbent is expected to produce. Representative examples of the work performed and minimum qualification requirements are listed. These job descriptions are small but important components of more comprehensive personnel, organizational and administrative systems or plans. They can and should be used not only for recruitment and promotion, but as tools to assist in the administration of the City. They help define initial expectations, provide fundamental building blocks for administering compensation systems, and give additional definition to organizational charts. Because they focus on purposes and results, they can and should be used when developing employee objectives, performance plans and performance appraisals.

The job descriptions presented to the City are up-to-date, clear, and identify the duties of each position, as well as the education, experience, training, knowledge, ability, and skills, and competency levels required.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

B. The Significance of Job Descriptions.

Today, job descriptions have become more important than ever. Although employers are not required by law to have written job descriptions, there are many laws that impact the employer-employee relationship and having job descriptions can help the organization comply with those regulations. There are federal laws such as the Fair Labor Standards Act (FLSA) that impact employees. Other laws, such as federal discrimination statutes, prohibit discrimination against various protected classes. Because job descriptions document the duties and qualifications of a job, they can help support why one applicant was qualified and another was not, why one position pays more than another, or why an employee is terminated for poor performance.

Under the ADA, job descriptions, particularly the lists of duties and responsibilities, take on new significance. The purpose of the ADA is to ensure that individuals *with* disabilities be given the same consideration for employment that individuals *without* disabilities are given. Essential functions are the primary or fundamental job duties intrinsic to a position, that is, the duties that are essential to achieving the objectives of the job. Related to the essential functions or duties are the tools and equipment used to perform the essential job functions, the physical demands of the job duties, and the work environment in which the duties are performed.

The new job descriptions include: (1) prerequisites for each position, including the physical needs, knowledge, ability, and skill, education, training and experience; (2) essential job functions; and (3) work environment. All job descriptions should be reviewed and updated periodically to ensure accuracy. Positions can change for many reasons: (1) an incumbent starts assuming more responsibilities in addition to the duties in the job descriptions, (2) staff changes, (3) changes in procedures and

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

processes, (4) new technology, tools, or machines, (5) external regulations or legislation, (6) reorganizations, (7) new supervisor or manager.

In short, the process of developing accurate and uniform job descriptions forces the employer to analyze each position and to identify the position's necessary qualifications (the "requisite skill, experience, education, and other job-related requirements"), as well as to determine the position's "essential functions."

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

III. Classifying and Compensating Positions

A. The Classification Plan

It is important to consider the objectives of (1) **Job Analysis** and (2) **Job Evaluation** when reviewing the proposed classification plan. Building the classification plan involved both job analysis and job evaluation.

Of critical importance in the process of reviewing jobs are the inherent job factors and the particular skills or quality of work required of the position. A thorough **Job Analysis** produces, in general, five kinds of basic information to aid in this process:

1. *nature of the work* (e.g., essential functions and purpose/objective of the position)

2. *level of the work* (e.g., degree of complexity and accountability)

3. *job requirements* (e.g., the knowledge, skills, abilities and other special requirements/characteristics needed to perform the job)

4. *job qualifications* (e.g., minimum education, training and experience needed to qualify)

5. *working conditions* (e.g., the psychological, emotional and physical demands placed on employees by the work environment).

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Information about each position studied was obtained through detailed position analysis questionnaires (PAQ) and employee interviews. Employees were asked to describe their positions in detail on the PAQ form. Examples of information requested from the PAQ included: job summary, essential functions, education, training and certifications, knowledge, ability, skill, experience, physical requirements, supervisory responsibilities, and technologies and equipment used. Finally, interviews were conducted to clarify and augment the employees' questionnaire responses.

Job Evaluation is a process that establishes the relative value of jobs within an organization. There may be several reasons for carrying out this process; the main ones are: (1) to establish the correct rank order or groupings of jobs, (2) to establish the relative distance between jobs within the ranking, (3) to provide an objective measurement of job size for comparison with other jobs and enable salary comparisons to be made.

Job evaluation is the process whereby positions are analyzed, measured and compared against a common set of criteria in a systematic and objective manner. Job evaluation does not produce a rate of pay. Rather, it produces a ranking of jobs in terms of "job content" around which a salary structure can be established. Similarly, the evaluation process does not measure an individual's performance. The evaluation looks at the job, not the job holder; it assumes that the job is being performed to a fully acceptable standard and that all the identified requirements of a job are being met.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Using a point-factor evaluation system, positions were rated by the consultants and then ranked and assigned a grade. Fourteen rating factors were used to rate all of the positions. These factors, detailed in HRS' Municipal Position Classification and Rating Manual, measured the requirements of each position in various areas. The following are a listing of each rating factor. The manual describes each factor in great detail and by degree.

1. Physical Environment
2. Basic Knowledge, Training and Education
3. Problem Solving Skills and Effort
4. Physical Skills and Effort
5. Experience
6. Interactions with Others/Customer Service
7. Confidentiality
8. Occupational Risks
9. Complexity
10. Supervision Received
11. Supervision Given
12. Supervision Scope
13. Judgment and Initiative
14. Accountability

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

As mentioned previously, job rating is not synonymous with performance evaluation. The position, not the incumbent, is evaluated, assigned points and a grade derived. One of the best information sources for rating a position is a current and relevant job description and/or a recently completed PAQ which is why these should always be completed early in the process. The process described in HRS' Municipal Position Classification and Rating Manual increases the uniformity and objectivity in the application of judgments about positions and the groupings of positions. This process can be used to update the proposed classification plan, to determine how to place new positions on the plan, and to re-grade a current position with adjusted duties to a different grade. Samples of the *Position Rating Summary Sheet* are included in the Manual along with the *Points Assigned to Factor Degrees*. A custom *Grade Determination Scale* was developed for the City of Melrose.

B. Market Survey and Developing the Compensation Plan

Human Resources Services, Inc. conducted a thorough salary survey and market analysis to determine the market competitiveness for positions included in this study. To measure the pay rates among competitors for these positions, HRS distributed custom survey documents to comparable municipal organizations jointly identified by the City and HRS. For this study, HRS received survey responses from the following Massachusetts municipalities for compensation, benefits and other related information:

1. Arlington
2. Newburyport
3. North Andover
4. Peabody
5. Reading
6. Salem

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

7. Saugus
8. Stoneham
9. Wakefield
10. Winchester; and
11. ERI and MMHR Data

The City of Melrose is a well-managed forward-thinking community with a history of a creative and complex organization. The consultant team met with city management/finance and human resources staff to review a draft pay/class plan and to review the market data collected and discuss its meaning. An initial analysis of the market data involved reviewing the average, median, range, 75th percentile and 90th percentile. A comparison was then made to current Melrose salaries for this non-union group of positions.

All of the comparative data is current information and presented on the following pages. Most of the data was collected during the fall of 2021. HRS collected minimum and maximum salary ranges from the comparable organizations. Certain data may have been pro-rated to hourly for comparison purposes only. In each cell, the top number indicates the minimum salary range for each position and the bottom number indicates the maximum salary range for each position. Virtually every organization had some type of a pay/class structure.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

For each position analyzed, data points were collected from the labor market. The data points indicate the amount of salary information for each position surveyed. In some instances: (1) the organization did not have a comparable position; or (2) the consultants determined that the position was not comparable to the position in Melrose. HRS used professional discretionary judgment when comparing positions to the comparable data. If there was less than two data points of salary information for a position, HRS placed more emphasis on the position rating when placing the position on the compensation/classification plan. While this market analysis and information provides the City of Melrose with benchmark salary data to set the parameters for compensation decisions, the client must also consider the "uniqueness" of certain positions in the organization as well as the organization's compensation policies. The compensation and classification plans are attached to this report for your review.

C. Description of Compensation and Classification Plan

Setting the rates of pay for jobs on the position hierarchy results in what is called a "pay structure". When reviewing or developing pay rates, a number of major policy decisions are typically made. For example: How should the City's pay rates compare to the market? How competitive does the City want to be? What type of structure is best for the City; steps, ranges, quartiles, etc. For what does the City want to pay? (i.e. job content, seniority, performance, cost of living, etc.) How does the organization currently pay its employees? The resulting compensation plan must reflect the City's pay policies, the market place, internal job values, and the financial desire of the City to pay at a given level to attract needed talent. It should also ensure internal and external fairness. "Internal" being comparable worth within

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

the organization of the classification plan; and "external" being the market to ensure a competitive pay structure.

The proposed compensation and classification plan is presented on the following pages. Pay ranges were set for groups of positions which the consultants determined should be paid equally. There are twenty-three grades for this group and ten steps for each grade. There is 2 percent between each step. The City's current pay structure for the non-union positions includes a variety of pay scales. These were consolidated into one uniform compensation plan, thus making it less complex. This will allow for more equity, especially when hiring new employees. Also the entire pay structure in its entirety has been updated to reflect the market. Comparative data was considered to set the grade parameters, while the classification process controlled the internal assignment of positions to progressive compensation levels. Currently, the City operates within a context of "pay steps" for this group of non-union positions. HRS recommends continuing the policy on pay steps for easier maintenance and consistency of the plan. In general the pay ranges were developed utilizing the salary market data and targeting approximately the 75th of market. It was necessary to target the 75th of market in order to remain competitive as compared to other advanced municipalities in Massachusetts. HRS provided the City with additional benchmark salary data too from its ERI (Economic Research Institute) database of salaries and wages.

The proposed compensation plan is based on current compensation data. This is a base salary plan and does not include compensation for stipends, cost-of-living, benefits, or other compensation. It is up to the City to determine its ability to pay with regards to implementation of this proposed pay plan.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Those employees falling below the grade range should be brought into the entry level of the grade ranges as soon as possible. The salary schedule should be updated with a cost-of-living for each succeeding fiscal year. The consultants costed the plans in a variety of ways for the finance department, but it is up to the City to determine the policy for implementation. HRS will of course remain available to provide the necessary guidance.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

IV. Implementation and Other Recommendations

The following sections are intended to assist and guide the City of Melrose in implementing the proposed compensation and classification plan for non-union positions. Successful implementation will require a concerted effort by management, employees and city officials.

1. Compensation Structure and Maintenance

   The recommended pay structure contained in this report is designed to provide appropriate compensation through the next three fiscal years. An initial review of the structure would be appropriate by fiscal year 2026, and then subsequent reviews annually. Review of the structures should take into consideration both internal and external conditions.

   The distribution of individual salaries, both by salary level and position within salary level, should be regularly examined to determine whether there is sufficient opportunity for continued salary growth.

   Since organizational arrangements and position duties and responsibilities may change from time to time, it will be necessary periodically to reevaluate existing positions and evaluate new positions.

   It is most important that Melrose regularly audit and review their compensation system to ensure its validity. We believe that Melrose did not do this for some time, and therefore their plans were outdated.

2. Initial Placements for Current Employees

   The placement of two or more positions on a certain grade represents a judgment that those positions should be compensated comparably within the grade range provided. The range is like a scale providing the City with

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

the opportunity to make distinctions between employees (not positions) based upon established criteria, applied consistently. These criteria might include job performance, special abilities, experience, longevity, gender-equity, and/or any other factors determined by the City.

For initial placement of incumbents within the plan, the City should assign employees to be placed at the step closest to but just above their current wage/salary in order to not reduce the pay of any current employee. The City should also realize that this minimum approach may not recognize certain distinguishing factors among employees.

3. Salaries Below Pay Range

   If the salary of an employee is below the minimum of the grade range at the time of implementation, every effort should be made to bring it into the range.

4. Salaries Above Pay Range

   To maintain morale and a sense of fairness, HRS recommends the City not reduce the compensation level of any current employee. If an employee's current salary falls above the upper limit of the recommended grade range, then the City should maintain the employee's salary above the maximum for the grade until the employee retires or separates from the City. This is called "red-circling" a position. New employees can be hired at the appropriate lower pay rate. HRS recommends a single administrative policy be adopted and subsequently applied in all cases.

5. Consolidate Classification Plan

   HRS recommends that the City develop one consolidate classification plan as we have proposed in this report for the non-union positions, the multiple

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

salary schedules approach based on hire date should be eliminated. One consolidated plan will ensure better internal equity for positions; so the rating point values of grades are the same and consistently applied; and so the pay equity of positions match the requirements of MEPA; and finally the entry pay is similar for those falling on a similar grade. (Currently the City has multiple plans for the non-union.)

6. Vacancies

When a vacancy develops, it is a good time to automatically review the position. This may involve a job analysis and updating the job description and reviewing the market for the particular position. Positions should also be evaluated according to the appropriate rating factors. Point totals should be calculated for each position by adding the point scores from the degree levels achieved under each factor. On the basis of total points, position generally should be assigned to the appropriate salary levels, according to the established salary level point ranges; and also taking into consideration the external market.

7. Salary Plan

HRS has proposed the following:

- Creation of a salary schedule with each grade having a salary range consisting of a minimum and maximum; and series of steps.
- Positioning of the salary structure at the 75th of market.
- Establishment of a competitive salary schedule, particularly for those fields of study that are considered to be in high demand and that may command high salaries in the market (i.e. Finance, Health, Technology, Facilities, etc.).

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

8. Update and Maintain the Classification and Compensation Plan

   The human resource department should maintain and update the compensation and classification plan. This would include the following tasks:

   - Conduct regular position reviews to assure positions have current functional job descriptions that are based on job content.
   - Conduct job analysis of new positions to assure these positions are properly assigned to a grade.
   - Review positions to ensure internal equity in relationship to other City of Melrose classifications.
   - Conduct periodic salary surveys to ensure market competitiveness.
   - Review MEPA requirements.

9. FLSA Status

   HRS also determined the FLSA Status (exempt/non-exempt status) of the positions included in the study. HRS recommends that City of Melrose regularly evaluate the FLSA status with its labor counsel, as case law may cause changes. HRS utilizes the ERI Occupational Assessor to determine FLSA status of positions. The results of the FLSA audit information was provided to Human Resources.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

10. Cost-of-Living Increases vs. Step/Range Movement

Here, it is important to distinguish between (1) a cost-of-living increase and (2) a step increase. A cost-of-living increase is intended to recognize and respond to a general rise in the cost of goods and services experienced by the general population. Each year, the City should determine an appropriate cost-of-living adjustment and apply that increase across the entire compensation schedule. A range movement (step increase) addresses the issue of how employees move along the levels within a grade from minimum to maximum, based on performance, longevity, special skill, certification, etc. The compensation plan should consist of two components: (1) the range adjustment factor (RAF); and (2) the movement-increase factor (MIF), which is based on merit step increase. The RAF is the movement of the total salary range, while the MIF is the movement *through* the salary range steps. A salary-range increase consists of the sum of these two components, plus their interaction or compounding result; thus a salary/wage adjustment. It is very important to regularly update the entire compensation structure with a COLA, or it will quickly become outdated, and the City will have difficulty recruiting talent.

11. Performance Appraisal and Merit-Increase.

It was not within the scope of services for HRS to develop a performance appraisal "tool" for the City of Melrose, MA. HRS has a few suggestions, should the town decide to implement a new updated performance system. A *Management by Objectives System* would be an appropriate methodology for employees engaged in high-level managerial, supervisory or professional positions. A *Uniform Performance Criteria System* is the most commonly used methodology and is best suited to positions where employees

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

consistently perform the same type of work on a fairly regular basis. This format works well for administrative, clerical, laborers, and other non-exempt positions. The City should consider updating its performance appraisal systems and provided the necessary training for employees, supervisory personnel, and department heads.

12. Determination of Individual Wages/Salaries.

What follows are some general implementation and maintenance guidelines.

a) New Employees

Applicants with qualifying experience are normally hired close to the normal starting rate of the new range. Applicants with outstanding qualifications; education, training and experience may be hired at the wage/salary within the range for the position, but normally no higher than the midpoint of the range. In rare cases, for positions that are very difficult to recruit, it may be necessary to hire beyond the mid-point of the pay range.

b) Transfers

Employees transferred to a position at the same level as their present position will normally receive the same salary paid at the time of the transfer.

c) Transfer to a Lower Salary Grade

Employees transferred by necessity (such as reduction in staff), rather than for inadequate performance, should receive their present salary, although this may exceed the maximum for the lower classification.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

d) Promotional Increases

If employees are promoted on a “trial” or “acting” basis, the promotional increase may be deferred until they have demonstrated their ability to handle the duties of the higher classification.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

In closing, this HRS methodology will be of assistance in furnishing improved tools and guidance to management and human resources. Ensuring that job descriptions, salary and classification plans are regularly reviewed and have valid methodologies will ultimately improve the management of compensation for all positions. The HRS System will provide a framework within which most salary matters can be handled going forward. While both job evaluation and salary surveys attempt to achieve consistency in the pay structure, they use different criteria to evaluate consistency (i.e. internal vs. external comparison). This methodology works at striking a balance between internal and external pay equity.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

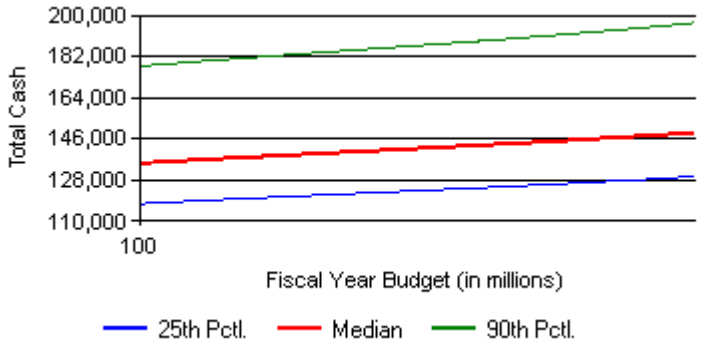
SALARY ASSESSOR®
Individual Job Report



Police Chief

Specifications

Prepared For:	City of Melrose, MA
Area:	Massachusetts - Commonwealth Average
Industry:	Government - City Support Services
Industry Codes:	eSIC: 9104, NAICS: 921100, usSEC: 9721
Organization Size:	400,000,000
Education Adjustment:	
Skill Adjustment:	
Certification Adjustment:	
Annualized Salary Trend:	2.6% (Adjustment: 0.21%)
Planning Date:	2/6/2022
Database as of:	1/1/2022
eDot:	N/A
SOC:	N/A
Printout Date:	2/6/2022

(Items in bold affect salary estimates)

Annual Total Cash Graph

Estimated Survey Median Annual Total Cash — All Incumbent Median: $148,695

Fiscal Year Budget	25th Percentile	45th Percentile	Median	75th Percentile	90th Percentile
400,000,000	129,379	145,333	148,695	173,738	196,680
200,000,000	123,194	138,462	141,757	165,331	186,740
100,000,000	117,513	132,114	135,290	157,868	177,787

The Police Chief in Melrose is a contract position; therefore HRS has not placed this position on the compensation and classification plan, as the contract would prevail. Instead, HRS has provided pay range data for police chiefs in the custom market survey. However, we determined it was necessary to look at statewide composite actual rates data from municipal communities in order to discern better what police chiefs are making in 2022. The range is $157,868 to $173,738 at the 75th percentile. The all incumbent average is $148,695. This is hybrid data through ERI.

							-								
							Total Adjustment		**217,034.75**						

1. Fiscal 2023 is based on a 53 week Payroll Budget.

2. Please note this chart was prepared to demonstrate total compensation for employees **inclusive of** longevity, potential SLBB and Stipends and to show the proposed monetary change by position.

3.The funding request of $167,309.63 Council Order 2023-29 represents the budgetary impact of these adjustments **and takes into consideration any departmental changes since the budget was approved in June 2022.**

(such changes are due to regionalization pending Council approval, staffing changes, vacancies, temporary out of grade assignments to cover for leaves)

4. The funding order doesn't reflect the total adjustment since certain positions are funded through ARPA, grants, regional budgets and other sources and they has absorbed a portion of the adjustment.

5. The Health Director proposed grade is representative of the proposed salary prior to the regionalization with Stoneham, which is pending approval of Council.

6. 21 of the positions have outgrown the current salary schedule and receive only COLA, without any steps.

7. Few positions have a base salary that is higher than the proposed hourly maximum, their salary will not be reduced, and will only be eligible for COLA going forward.

8. A negative percent adjustment reflects a slower salart progression than the currrent plan.

9. Report produced 11/3/22 by the Auditor and HR depts.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Questions Received from Councilors regarding Compensation Study and CBA Orders

1. Provide a 10-year history of all approved withdrawals from the contract stabilization account and indication of what was approved (e.g., in X year the council approved Y amount to go toward funding retro raises for Z collective bargaining agreement).
Please see attached Stabilization History.

2. Provide a copy of the compensation study completed by the consultant any related documents-Please see attached Compensation and Classification plan documents.

3. Provide a list of any identified non-union positions that are currently identified for a compensation adjustment under order 2023-29 to maintain compliance with the MA Equal Pay Act.
The Mass Equal Pay Act requires that employees performing equal or comparable work are compensated equally. "Equal work" involves similar skill and responsibilities and is performed in similar working conditions. The methodology HRS used involves the components required by MEPA and by creating one consolidated compensation plan and a classification plan it ensures that the pay equity matches the MEPA requirements. It is hard to isolate which positions require adjustments solely related to MEPA compliance. The Comp and Class study HRS conducted is different from a pay equity study, disparity study or gender analysis, all of which involve a deeper analysis of compliance with the Mass Equal Pay Act. The Comp and Class study focuses on the positions themselves not the employees in the positions, which is what a pay equity study does, as it takes into consideration the individual longevity, personal qualifications, the education/ training and the performance of the individual employees. The Comp and Class study has built the elements of MEPA into its methodology, job analysis, job evaluation, along with external market analysis, which sets the foundation of a system that is externally and internally equitable.

4. List of all positions by job title and department slated to be adjusted under the 2023-29 funding request. For these positions, total current annual compensation, inclusive of stipends, COLAs ,and any other monetary compensation paid out of all City funds (operating and enterprise).
See attached spreadsheet/PDF "CompClassOrderDocument11-3-22".

5. Orders 2023-30 and 2023-31 reference that the funding request is for FY 23 funding for a union contract.

- When was this contract settled?

The MOUs were executed September 23, 2022 (Clerical) and October 4, 2022 (Laborers).

- Are these raises retro to the start of the fiscal year?

The previous contracts expired at the end of FY22. The new contracts are effective with the start of FY23, therefore the budgeted raises are retro to the start of the fiscal year.

- Were any of these raises budgeted for in the current FY 23 budget, or is the totality of the increases being absorbed through the stabilization and retained earnings fund?

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

As is the customary budgeted practice, any FY23 step increases were budgeted based on the old contract, which was the known amount when FY23 budget was set. The stabilization fund absorbs only partially increases.

6. What is the stated purpose for the contract stabilization, water retained earnings, and sewer retained earnings funds? Is this stated purpose set by: state statute/charter/city admin/all of the above? The "Contractual Obligations and Salary & Wages Stabilization Fund" was established in 2006 by Council Vote 06-221 and in accordance with MGL Chapter 40, Section 5B. Water Retained Earnings and Sewer retained earnings were established under MGL Chapter 44, Section 53F ½ for Enterprise Funds.

7. What is the City relying on to justify paying non-union comp adjustments from the contract stabilization fund?
The stabilization fund was created for the purposes of contractual obligations as well as salary and wages. The adjustments resulting from the Comp and Class study are one-time non-budgeted salary adjustments, therefore the stabilization fund is used to fund part of these adjustments.

8. Did the classification review the compensation for both full time and part time employees?
Among the positions reviewed we have both full time and part time employees.

9. Can you provide what positions have other compensation and what are the "Other" items?
Under "other compensation" we consider stipends, longevity, sick leave incentives.

Below are the positions receiving a stipend (see list below, amount of stipend and reason for it).

Position	Stipend Position	Stipend Amount
Exec. Legal Assistant	Liquor Commission	$6,500.00
Exec. Legal Assistant	Retirement Board	$3,000.00
CFO/Auditor	Retirement Board	$3,000.00
City Clerk	Clerk/City Council	$4,000.00
City Clerk	Board of Registrars	$1,500.00
Police Chief	Retirement Board	$3,000.00
Assessor	Board of Assessor	$4,347.00
Treasurer	Retirement Board (working with)	$1,000.00
DPW Director	job specific licenses	$1,000.00
Deputy City Engineer	job specific licenses	$1,000.00
City Engineer	job specific licenses	$1,000.00

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Longevity is an annual bonus that benefit eligible non-union employees receive based on continuous years of service with the City, following the schedule below:

Years of Continuous Service	Annual Lump Sum Compensation
5 years, but less than ten 10 years	$ 775.00
10 years, but less than 15 years	$ 975.00
15 years, but less than 20 years	$ 1,175.00
20 years, but less than 25 years	$1,530.00
25 years, but less than 29 years	$1,950.00
29 years or more	$2,500.00

Non-union benefit eligible employees are reimbursed earned unused sick time in accordance with the schedule below. The maximum reimbursement they are eligible for per year is $650.

If employee uses:	Less than 24.9% of available sick days (0 to 2.9 days/0 to 20.9 hours)	Receives $50.00/day for remaining unused days
	between 25% - 49.9% of available sick days (3 to 5.9 days/21 to 41.9 hours)	Receives $40.00/day for remaining unused days
	between 50% -74.9% of available sick days (6 to 8.9 days/42 to 62.9 hours)	Receives $30.00/day for remaining unused days.
	75% or more (9 to 12 days/63 to 84 hours)	Zero reimbursement
In all instances, the applicable percentages shall be rounded down.		

10. Please provide by position side by side the old min and max salary and the new min and max salary.
See attached spreadsheet/PDF “CompClassOrderDocument11-3-22

11. Please provide by position the dollar increase along with the percentage.
See attached spreadsheet/PDF “CompClassOrderDocument11-3-22”

12. You state in your memo that periodically we should do a cost of living increase in the compensation structure. How do you define periodically?
This is a discretionary decision of the Mayor and the CFO. Depending on the economy, employers are advised to apply COLA to their compensation plan to ensure that the pay is still appropriate, competitive with the changing economy and not stagnant. Union employees have COLA applied to the comp plans every year.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

13. If an employee is above the range how will their annually compensation work every year? They will only receive COLA going forward.

14. Are there any collective bargaining units within the City (including those under MPS) that are not eligible to access the contract stabilization fund? If so, why? There are no CBAs that are restricted from using the Contractual Obligations and Salary & Wages Stabilization Fund.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

To: City Council
Subject: Tonights meeting

Good Morning All,
What a beautiful day!
I am not sure if I can attend tonight.
On these orders

2023-29 funding for HRS compensation study. I thought that this study was completed already. Why is a total of $ 7534.00 coming out of W & S retained earnings to pay for this?

2023-30 Funding for the clerical union contractual This time W & S retained earnings is being tapped for $ 8792.00. Why would'nt this line be covered entirely by the contract stabilization account?

2023-31 Funding for the labor's union contract. This time the W & S retained earning is being tapped for $ 18,294.00. Again why is'nt the contract stabilization account covering all of this?

Total $ 34,620.00 is a lot of money.
How did the city come to these percentage totals for each of these items?

It would seem to me that when the budget was approved, each of these line lines were accounted for,and funded, and now more money needs to be allocated?

With all of our water bills through the ceiling, How is that there $34,620.00 in these retained earning accounts? Are we being charged to much for W & S?
What are retained earning accounts?

Thanks for all you do for the City of Melrose.

Joe

To: City Council; School Committee
Subject: Teacher contract

Good evening elected officials,
I apologize for the lateness of this email. I understand the scope of both of your roles, but as our representatives, I ask that you consider this as both leaders and neighbors. I ask that you figure out a way to settle the MPS teacher and para contract. I understand that we don't know all of the updated MPS FY23 budget projections, but I feel like we can all agree that we will likely have a significant shortfall. We don't have to wait. We will need to be creative and we need to solve the problem now. This district cannot afford a strike. Essential workers in general and educators, specifically, have found their voices. I used to think that you might be able to try to "be creative" and bargain for things that don't cost money, but the reality is, we can't stand to lose anything. Money settles contracts. Settled contracts in our area give an indication that it's going to take a significant investment. Even if it's not "best financial practice," find money to settle this contract so that relationships can be repaired and there can be a partnership to lead this district forward through what is likely going to be a difficult few years.

There is an order before the Council tonight to adjust non-union salaries based on the results of the HR study. While I question the timing of this proposal, I don't disagree with its merit. Melrose should pay its employees at a competitive rate. The request states that, "The pay ranges targeted the 75th percentile of market, which was necessary in order to remain competitive as compared to other municipalities in Massachusetts." This is great. Pay our teachers and paras enough so that we're not in the bottom 10%. It's embarrassing. Also, I would ask that the School Committee and Superintendent rethink its language around the settlement of the contract. The word, "fair," is being used a lot. There really isn't a number that Melrose will get to this year that is "fair." We can do our best. It won't be fair. And words matter.

Council members, please don't sit back and say, "well, no one has asked us." School committee, please don't say "we just don't know how much money we are working with." Choose to work together to solve this problem. We desperately need leadership in this city. Please come up with a plan to articulate what it is that Melrose needs and how we are going to get there, or implore the Mayor to. Hundreds of Melrose residents came together in 2019 to volunteer their time to be a part of a vision for this city. Many are waiting for a clear articulation of what we need and how we will get there. Please tell us.
Sincerely,
Alison Sarnoski

Comp and Class Study Results

Funding Request for Non-Union Salary Adjustments

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

HRS Introductions

- **Aleksandra (Sandy) E. Stapczynski-** President HRS Inc; 35+ Years Consulting Experience
- **Buzz Stapczynski** – Served as CEO of large Municipality for many years
- **Tony Torrisi** – 40+ Years in Municipal Finance
- **Barbara Wooten** – Served as Assistant CHRO for the entire Commonwealth

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Why did the City need to do a Comp and Class Study?

- Maintaining and regularly updating a Compensation and Classification Plan is a STANDARD BEST PRACTICE for municipalities
- Study usually done every 3-5 years
- The City of Melrose last did a comprehensive study of our salary plan over 30 years ago
- Our existing salary plan is obsolete and inequitable

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Investing in our classification and compensation infrastructure is investing in the City of Melrose as an employer and investing in our career workforce.

Comp and Class Study Goal

Developing, supporting, and maintaining a **fair and equitable** classification and compensation system, including updated job descriptions, for City of Melrose non-union positions.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Study Timeline

City Council voted to authorize appropriation to hire HRS

HRS reviewed and analyzed all positions

HRS submitted draft Comp and Class Plan

HRS trained Workforce Development Committee to administer plan

Appeals process was completed and plan finalized

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

OUR SYSTEM TODAY	PROPOSED SYSTEM
Static compensation system, not updated regularly.	**Updated compensation plan reflective of marketplace, internal job values and City's desire to attract and retain talent**
2 Tiers; 6 schedules; 100+ grades	**1 salary schedule with 23 grades**
Inconsistent step increases ranging from 1.25% - 3.5%	**2% between steps**
One third of non-union workforce not on a salary schedule, receiving COLA only	**Places workforce on a salary plan, allowing for a meaningful career progression and retention**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

OUR SYSTEM TODAY	PROPOSED SYSTEM
No established minimum and maximum salary ranges that apply to current job market.	**Provides established minimum and maximum salary ranges.**
No formal job classification plan.	**One classification plan built on tested methodology, provides pay equity and cle hierarchy based on skill and job requirements.**
No system of classifying new positions.	**Offers modern blueprint based on transparent and objective standards when evaluating new positions.**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

OUR SYSTEM TODAY	PROPOSED SYSTEM
Pay decisions are made in a vacuum.	**Provides fair and equitable approach to pa decisions and reduces subjectivity.**
Non-compliant with MEPA (various tiers based on hire dates, lack of consistency).	**Ensures internal equity and compliance wi MEPA.**
Formal FLSA review has not been conducted to ensure FLSA compliance.	**FLSA status evaluation ensure properly classifying positions as Exempt/ Non-exempt.**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

OUR SYSTEM TODAY	PROPOSED SYSTEM
Job descriptions have **not** been formally tested for compliance with state and federal laws.	**Thorough analysis of the job description establishes legal compliance with state an federal laws.**
Salary is stated as primary reason for leaving employment with the City.	**Competitive salary schedule based on 75% of market averages to attract and retain talented diverse workforce.**
Doesn't align with the City's goals and values of Diversity, Equity and Inclusion.	**Supports the City's values and efforts towards Diversity, Equity and Inclusion.**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Risks v. Rewards

There are **RISKS** if the plan is <u>not</u> implemented:

- Current plan is not consistent or fair
- Legal exposure
- Harder to recruit and retain talented employees

There are **REWARDS** if the plan is implemented:

- ✓ Ongoing compliance & strategic compensation planning
- ✓ Would support a hybrid performance-based appraisal system
- ✓ Improves morale ☺

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Objectives Met

Classification and Compensation Plan development and maintenance provides the City with internal and external equity based on these criteria:

- ✓ Knowledge, ability, skills
- ✓ Education, training, and experience required
- ✓ Market data analysis
- ✓ Job duties and responsibilities

HRS provided necessary training to allow the City to maintain the plans going forward.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

HRS Study Outcomes

- Compensation and Classification Study results in adjustments to 58 positions
- Not every adjustment exceeds existing departmental budget
- Some salaries are paid through other sources, including regionalized and grant-funded positions

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Why are We Here Now?

- The study results are complete and ready to implement
- Request for $167,310 from the Contractual Obligations and Salary & Wages Stabilization Fund to fund the study results for current FY
- City Council approved free cash appropriation of $460,000 to fund in part non-union salary adjustments (May 2022)
- CFO and department heads preparing to build the FY24 budget

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: White Ribbon Day Proclamation
Date: February 14, 2023

I respectfully request the Honorable City Council join me in recognizing Wednesday, March 1, 2023, as White Ribbon Day in Melrose, by issuing the attached "Proclamation of March 1, 2023, as White Ribbon Day".

According to data from a United Nations report, one in three women worldwide experiences physical or sexual violence, and since 2020, all types of violence against women and girls, particularly domestic violence, have intensified.

The City of Melrose is proud to continue to support the Melrose Alliance Against Violence—an organization committed to raising awareness, supporting our survivors, and promoting safety, gender equity, and non-violence in our community—through this proclamation and White Ribbon Day flag-raising event on Wednesday, March 1, 2023, in front of City Hall's Essex Street entrance. I invite you all to join me for this meaningful event.

Given the timeliness of the resolution, I respectfully request the City Council give immediate consideration to this request. Thank you for your consideration and support.

PAUL BRODEUR
Mayor

Proclamation of March 1, 2023 as White Ribbon Day

WHEREAS, Our community, the City of Melrose, is deeply concerned about the public health and public safety issues of violence against women and all gender-based violence, including sexual assault, rape, domestic violence, stalking, and sexual harassment;

WHEREAS, The many cultures represented in our community are all affected, including heterosexual, gay, bisexual, and transgender individuals, communities of color, immigrants, the youth, the aged, the infirmed, and the differently-abled;

WHEREAS, The White Ribbon Day Campaign believes that the majority of men wish to make a positive contribution towards ending this violence and that by reimagining manhood we can break down the rigid gender roles and power dynamics that contribute to and foster gender-based violence;

WHEREAS, The City of Melrose, along with other municipalities across the Commonwealth, is committed to taking tangible steps to raise awareness, support survivors, hold offenders accountable, and promote safety, equity, and non-violence in our community;

WHEREAS, The City of Melrose recognizes the important work of the Men4MAAV Initiative of the Melrose Alliance Against Violence, Melrose Police Department, Melrose Public Schools, and other partnering agencies;

WHEREAS, The City of Melrose recognizes the important work of the Men4MAAV Initiative of the Melrose Alliance Against Violence, Melrose Police Department, Melrose Public Schools, and other partnering agencies;

WHEREAS, The White Ribbon Day Pledge states: “I pledge never to commit, excuse or stay silent about men’s violence against women. From this day forward, I promise to be part of the solution in ending all gender-based violence.”

THEREFORE, *I, Paul Brodeur, Mayor of the City of Melrose, Massachusetts, do hereby declare the first day of March 2023 to be White Ribbon Day in the City of Melrose, and that a brief ceremony and White Ribbon Day Event flag-raising will be held on March 1 at 1 p.m. in front of City Hall.*

Dated this 1st Day of March 2023.

Re: Mass DEP GAP III Grant for Municipal Water and/or Wastewater Facilities

The City of Melrose has applied for and received a GAP Energy Grant from the Massachusetts Department of Environmental Protection. GAP Energy Grants provide opportunities for energy cost savings through energy efficiency upgrades, installation of clean energy, and energy storage systems and have primarily focused on the water/wastewater sector. Our application was to retrofit the pumps at our two largest sewer pump stations (Upham Street and Fellsway) with variable frequency drives (VFDs). Our pump stations are currently equipped with soft start motors which operate only in 'on' or 'off' modes. Thus, when a pump is triggered to turn on, it runs at full capacity. The new VFDs will allow the pumps to operate over a range of flow rates, allowing us to optimize their efficiency. The grant award is $19,833 of a total project cost of $32,850. The DPW proposes to fund the remainder with Sewer Enterprise Funds through our operating budget. The grant will cover the final design and installation of the VFDs.

We formally request acceptance of this grant award of $19,833 from the Mass DEP Clean Energy Results Program for our Water/Wastewater pump stations. Funds will be deposited into the relevant account as directed by the CFO/Auditor's Office. There is no cost or encumbrance required to enter into this agreement and additional project costs have already been identified to be funded from normal Operating Budgets in our Enterprise Accounts.

January 3, 2023

Dear Martha Grover,

Congratulations! I am pleased to notify you that the Melrose water utility has been awarded a Gap III Grant for Municipal Drinking Water and/or Wastewater Facilities in the amount of $19,833 through MassDEP's Clean Energy Results Program (CERP) with the support of the Department of Energy Resources (DOER). Your grant award may be further adjusted based on the availability of utility incentives. I want to thank you for your commitment to installing energy efficiency and/or renewable energy measures at your facility that will reduce energy use, costs, and emissions of greenhouse gases to the benefit of all our communities and the environment.

The CERP Team will be following up with you on the grant contracting phase. If you have any questions before then, please feel free to contact either Danah Tench (danah.tench@mass.gov or 617-733-3998) or Michael DiBara (michael.dibara@state.ma.us or 508-767-2885). Again, congratulations on your leadership and on making this investment that will help the Commonwealth meet its greenhouse gas emissions reduction goals!

MEMORANDUM

Date: February 13, 2023

To: City of Melrose City Council

From: Elena Proakis Ellis, Director of Public Works

cc: Paul Brodeur, Mayor
Patrick Dello Russo, CFO/Auditor
Kerriann Golden, Assistant City Auditor
Jim Troup, Asst. DPW Director – Admin. & Finance

Subject: Request to Appropriate 2021 Rideshare Funds

Each year, the City of Melrose receives a disbursement from the Department of Public Utilities associated with the services provided by rideshare companies. The payment is based on 10 cents per ride initiated in Melrose. We are hereby requesting an appropriation of funds in the amount of $10,274.50 to be used on projects that address infrastructure impacted by rideshare services. The amount of $10,274.50 represents the municipal portion of 10 cents per ride for 102,745 rides that originated in Melrose in 2021.

These funds are required to be used "to address the impact of transportation network services on municipal roads, bridges or other transportation infrastructure or any other public purpose substantially related to the operation of transportation network services in the city or town…." As in recent years, the 2021 funds are proposed to be used for pedestrian improvements, including accessible curb ramps and associated signage and line painting. The Traffic Commission approves new crosswalks but does not have a funding source for their implementation. The Commission recently approved a request for a crosswalk at Grove Street and Walnut Street. The petitioner noted that there is an MBTA bus stop for the 131 bus in this immediate vicinity, as well as a nearby bus stop for the Charter School where she frequently sees students trying to cross Grove Street. This crosswalk will add to pedestrian safety in this neighborhood.

There is no City match component to this funding source. We would be happy to answer any questions about this requested appropriation of funds.

From: Mayor Paul Brodeur
Re: Affordable Housing Trust Appointment
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the appointment of Helena Widtfeldt, 44 Briggs Street, to the Melrose Affordable Housing Trust for a one-year term, said term to expire on the last day of January 2024. Ms. Widtfelt's term fills the unexpired term of resigned Affordable Housing Trust member Carolyn Federoff.

For over a decade, Ms. Widtfelt has worked for affordable housing industry organizations such as Quaddel, a national leader in providing program management, consulting, and training solutions to the affordable housing industry. I'm confident that her collected experience, in addition to her knowledge of planning and development via her master's degree in community development and planning, will drive forward the City of Melrose's mission to promote greater diversity and racial equity in the community and for the benefit of low- to moderate-income households in accordance with the provisions of MGL c. 44, § 55C.

Thank you for your consideration.

Re: Library Board of Trustees Reappointment
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the reappointment of Cathryn Mercier, 466 Pleasant Street, to the City of Melrose Library Board of Trustees for a three-year term, said term to expire the last day of February 2026.

My recommendation to reappoint Ms. Mercier, a staunch advocate for our public library who has supported the building, its services, and patrons through a pandemic and now a phase of transition and renovation, comes with the support of Melrose Public Library Director Linda Gardener. I look forward to Ms. Mercier's and our other Library Board of Trustees' continued fulfillment of the trustee's mission and their collaborative dedication to the library.

Thank you for your consideration.

Melrose, MA 02176

Dear Mayor Brodeur,

I write to express my interest in continuing to serve on the Melrose Public Library Board of Trustees. My current appointment expires on the last day of February 2023.

Not only do I find this work on behalf of the city and its people to be valuable in supporting the library's extensive public services to our community, but also I consider it my duty to support the library as a fundamental place for beginning, enhancing, and continuing the development the engaged citizenry essential to democracy.

I have been honored to serve on the library's last strategic planning efforts and to have been part of the collaborative efforts to bring to our city a new library, a gorgeous building that preserves the historic – as the best of Melrose does – even as it anticipates the future needs of our city.

It been my pleasure to serve Melrose in this way and I would welcome reappointment to this position.

My best,

Cathryn M. Mercier

Re: Melrose Human Rights Commission
Date: February 14, 2023

I respectfully request the Honorable City Council confirm the reappointment of Joseph Phillips, 1 Hillside Ave, to the Melrose Human Rights Commission (HRC) for a three-year term set to expire on the last day of February 2026.

Mr. Phillips has a proven track record of dedicated commitment to the Melrose community, as evident in his passionate participation and service to the HRC and the Diversity, Equity, and Inclusion Advisory Task Force, in addition to community groups. Mr. Phillips, along with my office, co-organized and hosted the City's October 8, 2022, Melrose Dance for Community event, which brought together residents of all ages, abilities, genders, ethnicities, and backgrounds, building a stronger sense of community. I look forward to his continued efforts to ensure the City of Melrose and our community work together to grow into "One community, open to all."

Thank you for your consideration and support for Mr. Phillips' reappointment to the Historical Commission.

ELIZABETH A. REIDY

[redacted]

EXPERIENCE

Counsel, Robins Kaplan LLP **May 2021 to the Present**

Represent national and global primary and excess insurers in first-party and third-party liability and property disputes with their insureds and third-party claimants, including in litigation, mediation and appraisal proceedings.

- Obtained dismissals on behalf of first-party property insurers in business interruption matters arising from the COVID-19 pandemic.
- Negotiated a successful resolution on behalf of a Lloyd's Syndicate of a claim arising out of two water losses and addressed novel questions as to the applicability of M.G.L. ch. 175, s. 99 to surplus lines insurers.
- Successfully represented insurer against homeowner's claim for coverage for a fire loss, resulting in favorable resolution after filing a motion to dismiss.
- Obtained successful award for insurer in Massachusetts Reference proceeding arising out of a water loss under a builder's risk policy.

Partner, Nystrom, Beckman & Paris, LLP **September 2012 to April 2021**

Extensive civil litigation experience in a wide range of cases, including insurance coverage, complex contract disputes, fiduciary duty claims and other business torts, financial fraud and employment matters.

- Reviewed, analyzed and advised clients with respect to first- and third-party insurance claims under D&O, E&O, fidelity bond and general liability policies.
- Represented over one hundred dairy farmers in antitrust action alleging violations of the Sherman Act in federal court against national dairy cooperative and marketing agency.
- Obtained favorable result in five-day jury trial in breach of fiduciary duty and breach of contract action on behalf of member of limited liability company.
- Granted summary judgment on behalf of trustee in declaratory judgment action, thereby obtaining insurance coverage for tort committed by trustee acting within the scope of his duties.
- Drafted appellate briefs for the Massachusetts Appeals Court in insurance coverage matter against company's excess insurer after underlying settlement, which concerned a matter of first impression.
- Successfully resolved dispute on behalf of medical device company in professional malpractice action against accounting firm, arising from firm's negligent audits.
- Resolved dispute for company and majority shareholder during mediation in matter alleging breaches of fiduciary duty against both the majority and minority shareholders.
- Obtained savings of approximately $4 million on behalf of property management company in dispute with state housing authority.
- Recovered significant unpaid sales commissions on behalf of sales representative on the eve of trial.

Senior Associate, Reed Smith, LLP, Washington, D.C. **September 2006 to September 2012**

Litigation associate with significant expertise in insurance coverage matters and experience with the retention and management of expert witnesses, the taking and defending of fact and expert depositions, arguing motions and jury instructions, drafting of pre- and post-trial motions, managing all aspects of discovery and client management.

- Represented lenders in coverage disputes with mortgage insurers, arising out of the lenders' alleged fraud, misrepresentation and negligence.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

ELIZABETH A. REIDY
[redacted]

- Lead associate during eight-week jury trial in Florida representing hotel owner against primary insurer arising out of hurricane damage resulting in a $28 million verdict.
- Part of a trial team in six-week bench trial in Louisiana and obtained award supporting a claim adjustment of over $60 million against multiple first-party property insurers.
- Pro Bono Matters
    - Successfully represented individual in a family law matter, from initial case investigation through trial.
    - Successfully represented inmate against prison facility and other defendants.

AWARDS

- Named a "Rising Star" by Massachusetts Super Lawyers in 2015 and 2016.
- Received Wiley E. Branton award from the Washington Lawyers' Committee for Civil Rights and Urban Affairs for pro bono matter.

EDUCATION

American University, Washington College of Law, Washington, D.C., Juris Doctor, May 2006

- *Magna cum laude*, Order of the Coif, Cumulative GPA: 3.72
- *Journal of Gender, Social Policy & the Law*, Publications Editor, 2005-2006
    - *Gonzalez v. United States Air Force: Should Courts Consider Rape to be Incident to Military Service?*, 13 Am. U.J. Gender Soc. Pol'y & L. 635 (2005)

Wake Forest University, Winston-Salem, N.C., Bachelor of Arts in English, Minor in Political Science, May 2003

- Dean's List, Spring 2000-Spring 2003
- Member of *Sigma Tau Delta* (English Honor Society)

Which Boards would you like to apply for?

Commission on Women: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I am very interested in joining the Melrose Commission on Women because I believe in: - The importance of advocating for and on behalf of women and girls in the community to obtain equality in all matters, including pay, health care, and education; - The need to ensure women are given the support they need at work and home, after giving birth or adopting (i.e., parental leave, child sick leave, breastfeeding policies); - The mental health crises facing working mothers who are overburdened at work and with primary caregiving responsibilities at home; - The mental health crises facing women postpartum due to the lack of medical care and support from the community; - Teaching young members of the community the importance of the role of women in society and demonstrating that we are equal members who deserve and equal voice; - Educating the community on the difficulties surrounding childcare for working parents and working mothers in particular, particular as we emerge from the Covid 19 pandemic where there are still significant childcare gaps. As an attorney in Boston (and previously Washington DC), in an industry and at companies that are male dominated, I've seen the importance of advocacy and having a voice. I believe that the status quo will not change unless women step up to advocate for themselves. I would love the opportunity to use my training and experience as an attorney to advocate for younger generations in Melrose to help younger women get one step closer to equality in all facets of life.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Commission on Women
Date: February 14, 2023

I respectfully request the Honorable City Council confirm the appointment of Elizabeth Reidy, 346 West Emerson Street, to the Commission on Women for a three-year term set to expire on the last day of February 2026. Ms. Reidy's appointment replaces that of Emily Minton, whose term will expire on the last day of February 2023, and who is not seeking reappointment.

Ms. Reidy has expressed deep concern and interest in the welfare of women and girls in Melrose. As an attorney with practice advocating for others, she is eager to translate her experience, skills, and passion for equality into tangible efforts to improve the quality of life for women and girls here in Melrose. I believe Ms. Reidy will be an adamant supporter of the Commission on Women's mission to represent the interests of women and girls in the community and promote and facilitate equality in all areas of life and more.

Thank you for your consideration and support for Ms. Reidy's appointment to the Melrose Commission on Women.

Re: Melrose Conservation Commission
Date: February 14, 2023

I respectfully request the Honorable City Council confirm the appointment of Sydney Hy, 118 Waverly Avenue, to the Conservation Commission as an associate member for a one-year term set to expire on the last day of February 2024.

Ms. Hy's education and research in public health and environmental justice have provided her with a special interest in conservation, both generally and within our community. I am eager for Ms. Hy, who has been awarded an EPA Watershed Academy Training Certificate, to join the Conservation Commission in support of the City's efforts to protect, promote and enhance the quality of the natural resources within the City, especially wetlands and water resources and more.

Thank you for your consideration and support for Ms. Hy's appointment to the Conservation Commission as an associate member.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Sydney Hy

118 Waverly Avenue, Melrose, MA • [redacted] • [redacted]

January 20, 2023

Dear Melrose Conservation Commission,

I am writing to express my interest in joining as a member of the commission. I was born and raised in Melrose, and it is with great pride that I seek the opportunity to serve the community through efforts to conserve and protect the local environment.

I recently earned my master's in biology at Umass Lowell, where I spent the last year working on a research project in Kwapich Lab. Throughout my academic career, public health has been a major focus for me in my coursework and experience working in hospitals and ambulances. I have found environmental justice to be an extension of health systems through my combined experience in field work and healthcare. My research focused a rare urban ant species that I found here in Melrose, which highlighted the significance of conservation as I explored the impacts of human activity on biodiversity. This work emphasized the inherent value of nature outside of a human-centered lens and motivated me to become active in environmental justice. I have also had additional volunteer experience with the Melrose Youth Orchestra, Melrose Symphony Orchestra, and other organizations throughout the years, which has instilled community values in me. It would be an honor for me to join the Melrose Conservation Commission to protect natural resources in Melrose.

I have attached along with this letter of interest my resume and EPA Watershed Academy Training Certificate. I can be contacted by the email or phone number listed above to further discuss the position or my qualifications for the role. Thank you for taking the time to review my statement and resume, and I look forward to hearing back.

Sincerely,
Sydney Hy

Re: Melrose Historical Commission
Date: February 7, 2023

I respectfully request the Honorable City Council confirm the reappointment of Joseph Hunt, 132 Mount Vernon Avenue, to the Melrose Historical Commission for a three-year term set to expire on the last day of February 2026.

Thank you for your consideration and support for Mr. Hunt's reappointment to the Historical Commission.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

23 January 2023

Hon. Paul Brodeur
Mayor Melrose
City Hall
562 Main Street Melrose,
MA 02176

Mayor Brodeur:

My name is Joseph Hunt and I have been a member of the Melrose Historical Commission for 10 years. As my present commission is about to expire (February this year), I request that you consider a renewal of my commission for another three years.

As a longtime resident of Melrose (since 1947) I've provided the Commission with a lived and mature perspective of an historic period of Melrose development. I have observed both beneficial historical preservation efforts (e.g., the current Library expansion project) as well as some regrettable ones (e.g., the destruction of the Ensign Thomas Lynde house once at Pine Banks Park). However, these lived experiences coupled with my practical engineering background makes me envision a bright Melrose future. A future enhanced by inclusionary and balanced historical preservation efforts that safeguard what is historically valuable without turning our city into a sterile time capsule.

With my Commission renewed, I'm excited and looking forward to continuing my contributions to this Commission's important work as a valuable advisory resource.

Sincerely,

C. Joseph Hunt

MELROSE, MA

January 23, 2023

The Honorable Paul Brodeur
Mayor of Melrose
Melrose City Hall – 2nd Floor
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur,

I am writing to you to let you know that I have enjoyed my brief time on the Melrose Historical Commission. It is a wonderful group of people that I serve with. Preliminary plans are underway to commemorate the 50th anniversary of the Commission later this year.

My term is coming to a close (it was a 1-year remainder to a term) and I would like to be considered for re-appointed for a full term to the Melrose Historical Commission. Having lived in the city over 50 years I find the work we do very interesting.

I hope you look positively upon this request and will forward my name to the City Council for their approval. Thank you for your consideration.

Very truly yours,

George J. Bibilos

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Zoning Board of Appeals
Date: February 7, 2023

I respectfully request the Honorable City Council confirm the reappointment of Benjamin Rosenberg, 76 Ardsmoor Road, as a Full Member of the Zoning Board of Appeals (ZBA) for a five-year term set to expire on the last day of February 2028. Mr. Rosenberg's appointment satisfies the Engineering role on the board.

With nearly 20 years of structural engineering experience, Rosenberg has shown a commitment to being a sensible leader in his field. He has a proven track record of managing teams on large-scale projects for esteemed universities, museums, and other notable structures, all the while cultivating positive relations with both employees and the public — often serving as a mediator during difficult conversations. Since his initial appointment, Mr. Rosenberg's practical leadership and strong qualifications have added immense value to the Melrose ZBA.

Thank you for your consideration and support for Mr. Rosenberg's reappointment to the ZBA.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Benjamin Rosenberg, PE, LEED AP
76 Ardsmoor Road
Melrose, MA 02176
[redacted]

6/27/2022

To Whom It May Concern:

I write to express my interest in serving as a Full Member on the City of Melrose Zoning Board of Appeals. As a licensed and practicing structural engineer, a teacher, and a Melrose resident, I look forward to bringing my professional experience to bear in support of the ZBA's mission. I would also consider the position of Associate Member should the Full Member position be otherwise filled.

During my seventeen years at Silman, I have worked as both the lead technical designer and the project manager on a wide variety of project types and sizes, ranging from single- and multi-family residential to commercial to institutional work. Leading teams of up to six people internally and being the primary coordinator with the architect and broader project teams, I enjoy the creativity and communication necessary throughout the design and construction process. On projects ranging from the ongoing repairs at Harvard Stadium to the MIT Met Warehouse development for the School of Architecture + Planning to commercial fit-outs in Cambridge and Malden, I have supported each stage of the project's structural, architectural, and owner-driven requirements. As a Principal and Sector Manager, I am engaged on aspects of firm-wide management that require the ability to ask critical questions in our initiatives and decision-making process and then to message to a broad swath of employees. This sometimes involves difficult conversations and I have worked hard to cultivate the ability to bridge disparate views in search of resolution. Our firm's founder, Bob Silman, imbued our firm with a deep sense of the importance of serving society through our contributions to the built environment. Serving on the ZBA will allow me to engage with the City of Melrose in support of this mission.

As a lecturer in the Architecture Department at the Rhode Island School of Design (RISD) for the past five semesters, I have been able to engage architecture students in the field of structures by building on my own experience, including through the use of numerous case studies. Developing the curriculum allows me to present structural material as integral to the broader design industry, as indeed structures must be considered with architecture, zoning, code, and other disciplines in order to properly support a project.

My family and I have developed a wonderful sense of belonging since moving to Melrose last July, and I look forward to engaging with the City to deepen our community roots. I am happy to provide additional information as needed.

Sincerely,

Benjamin Rosenberg, PE, LEED AP

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Benjamin Rosenberg, PE, LEED AP

76 Ardsmoor Road, Melrose, MA 02176
[redacted]

Structural engineer with 17 years of experience designing and leading projects of various types and sizes. Experienced in managing staff and clients, business development and marketing, and representing the firm in the industry. Leader in office- and firm-wide staffing, financial, and technical processes. Seeking a position as a Full Member of the Melrose ZBA.

PROFESSIONAL EXPERIENCE

SILMAN **Boston, MA**
Principal and Sector Manager *June 2006–Presen*

- Design and manage new construction and renovation projects, including single- and multi-family residential, higher education, historic preservation, commercial, and government work.
- Coordinate with clients throughout the design and construction process.
- Oversee technical and financial performance of Buildings staff in the Northeast.
- Support Boston office and firm-wide staffing, recruiting, mentoring, and technical development.
- Lead liaison between finance/accounting department and technical engineering staff, responsible for development and implementation of firm-wide financial project management processes.
- **Selected projects: The Restoration of the Robert Gould Shaw and 54th Regiment Memorial, Boston, MA:** Comprehensive restoration and seismic retrofit of existing Memorial. **King Boston Memorial, Boston, MA:** Foundation and landscape structural design. **Granoff Center, Brown University, Providence, RI:** Four-story performing and creative arts building. **National Museum of African American History and Culture, Washington DC:** 665,000 square foot Smithsonian Museum, including structural design and exhibit support. **200 Exchange Street, Malden, MA:** Renovation and tenant fit out of existing four-story office building converting to life science use. **2Life Communities PACE Center, Lynn, MA:** New 150-unit residence and living community for adults 62+. **Various Private Residences, Northeast:** Single-family residences including standalone structures and townhouses, including homes in Boston, Cambridge, Barnstable, Milton, Kennebunk (ME), Amagansett (NY), Water Mill (NY), etc.

RHODE ISLAND SCHOOL OF DESIGN (RISD) **Providence, R**
Lecturer *February 2020–Presen*

- Teach one Structures course per semester in the Architecture Department, including curriculum development: Steel Structures in the fall and Concrete Structures in the spring.
- Work closely with 90-100 students to provide academic support and ensure comprehension of structural material in support of students' pursuit of degrees in architecture.
- Co-lead structural workshops throughout the semester to practice and demonstrate class material in hands-on experiments, including a concrete casting project each spring.

EDUCATION

PRINCETON UNIVERSITY **Princeton, N**
Bachelor of Science in Engineering, Civil and Environmental Engineering, Structures Focus *May 200*

PROFESSIONAL REGISTRATION

- Professional Engineer: MA, RI, NY, RI, WA, NE
- LEED Accredited Professional

MEMORANDUM

TO: Melrose City Council

FROM: Martha Grover, Sustainability Manager

RE: Hoover and Horace Mann Solar PPA/Lease Authorization

DATE: February 13, 2023

Attached for your review are the Solar Power Purchase and Lease agreements with Solect Energy Development to install a 67.3 kW AC and 50 kW AC system on the Hoover and Horace Mann Elementary School roofs respectively. We seek authorization from the City Council for Mayor Brodeur to execute these agreements.

The city has worked with Solect for over a year to develop these projects and take advantage of the new roofs scheduled to be installed this summer, favorable federal tax credits, Block 10 utility SMART incentives, and fantastic solar access at these two schools. Action 28 in the Melrose Net Zero Action seeks to "Maximize the installation of clean energy sources on municipal property" and these projects are in line with and support the city's effort to lead by example.

I look forward to answering your questions at a future meeting but don't hesitate to reach out in advance at mgrover@cityofmelrose.org or 781.979.4195 as well.

POWER PURCHASE AGREEMENT

This Power Purchase Agreement ("**Agreement**" or "**PPA**") is entered into as of _____, (the "**Effective Date**"), by and between City of Melrose, a municipality with an address of 562 Main St Melrose, MA 02176 ("**Host**"), and Solect Energy Development LLC, ("**Solect**" or "**Provider**") a Limited Liability Company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement dated June 30th, 2020, as amended, governing the terms and conditions of Provider's participation in the PowerOptions Solar and Storage Program;

WHEREAS, Host is the owner of the properties located and described in Exhibit C and desires to make a portion of such properties available to Provider for the construction, operation and maintenance of a solar powered electric generating Project, and to purchase from Provider the electric energy produced by the Project;

WHEREAS, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended; and

WHEREAS, Provider desires to develop, design, construct, own and operate the Project located at and described in Exhibit D, and sell to Host the electric energy produced by the Project; and

WHEREAS, Provider and Host have entered into that certain Lease dated on or about the date hereof (as amended or modified from time to time, the "**Lease**") pursuant to which Host has granted Provider a leasehold interest and certain use and access rights to the Premises.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Agreement have the meanings set forth in the attached GLOSSARY OF TERMS or as defined in the body of this Agreement.

2. TERM.

(a) Term. This Agreement shall consist of an Initial Period and an Operations Period. As used herein, "**Term**" shall mean all of the Initial Period and the Operations Period, unless the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider or Host terminates the Agreement prior to the end of the Initial Period pursuant to the terms of this Agreement, but any such termination shall not terminate any provisions hereof that expressly survive such termination.

(b) Initial Period. The Initial Period will begin on the Effective Date and will terminate on the earlier of (i) the Commercial Operation Date or (ii) the date the Agreement is terminated pursuant to the provisions of Section 4(b) or 4(d).

(c) Operations Period. The Operations Period will commence on the Commercial Operation Date and will terminate at 11:59 p.m. on the last day of the month in which the twentieth (20^{th}) anniversary of the SMART Incentive Payment Effective Date.

(d) Extensions. Provider shall have one option to extend the Operations Period for five (5) years (an "**Extension Term**") upon mutual agreement between Provider and Host. Provider shall delivering a written request to extend to Host at least six months prior to the end of the Operations Period, or Extension Term, as the case may be. Any extension shall be reflected in a written amendment to this Agreement signed by the Parties.

(e) Early Termination by Host. If Host terminates the Agreement prior to the Expiration Date, except as otherwise provided in this subsection (e), Section 9 (Purchase Option), Section 17 (Force Majeure), or Section 19 (Provider Event of Default and Host Remedies), Host shall pay, as liquidated damages, the Early Termination Amount set forth on Exhibit B, and Provider shall cause the Project to be disconnected and removed from the Premises in accordance with the Lease. Upon Host's payment to Provider of the Early Termination Amount, this Agreement and the Lease, in accordance with its terms, shall terminate automatically. Notwithstanding the foregoing, Host may (i) terminate this Agreement with no liability whatsoever pursuant to Section 4(d) or (ii) in lieu of termination, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date, be entitled (as its sole and exclusive remedy) to (x) the payment by Provider to Host of Delay Liquidated Damages not to exceed $15/kW in the aggregate, plus (y) (if Installation Work had commenced at the Premises as of the date of termination) all direct costs reasonably incurred by Host to return its Premises to its condition prior to commencement of the Installation Work if Provider fails to do so within a reasonable time, as required pursuant to the Lease. Alternatively, Host may terminate this Agreement with no liability whatsoever if Provider fails to commence the Operations Period by the date that is 60 days after the Guaranteed Commercial Operation Date.

The Construction Start Date and Guaranteed Commercial Operation Date shall be extended on a day-for-day basis due to (a) Force Majeure or (b) acts, omissions or delays of a Governmental Authority or Local Electric Utility. Provided, however that clause (b) shall be beyond the reasonable control of the Provider and not caused by the Provider's fault or negligence. Provided, further that the day-to-day extension of the Construction Start Date shall not exceed one hundred eighty (180) days, unless otherwise mutually agreed by the Parties in writing.

3. ACCESS RIGHTS.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(a) Access Specifications. Pursuant to the Lease, Provider has access to and use of the Premises for the Term for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and for any other purpose set forth in this Agreement or in the Lease, and otherwise in accordance with the provisions of the Lease. Access Rights with respect to the Site are more fully described in the Lease and include, without limitation, vehicular and pedestrian access, and other rights to install electrical lines and communications cables.

(b) Remote Monitoring. Host will provide an internet portal or equivalent access by means of which Provider will communicate data from the revenue grade performance monitoring system. Provider will be responsible for connecting monitoring equipment for the Project to the internet enabling remote monitoring of the Project.

4. PLANNING, INSTALLATION AND OPERATION OF PROJECT.

(a) Site Assessment and Planning. During the Initial Period, Provider shall have the right, at its own expense, to assess the suitability of the Premises for the Project and shall act diligently in conducting such assessment. The assessment shall include the right to inspect the physical condition of the structures on which the Project will be located; to apply for any building permits or other governmental authorizations necessary for the construction of the Project; to arrange interconnections with the Local Electric Utility; to make any applications to the appropriate Public Utilities Commission or other agencies for receipt of payments for the Project under the Applicable Solar Program; to apply to any other governmental agencies or other persons for grants or other determinations necessary for the construction of or receipt of revenues from the Project; or to make any other investigation or determination necessary for the financing, construction, operation or maintenance of the Project. The Provider shall, in accordance with Section 5(l) of the Lease, at its own cost, engage an engineer licensed and qualified in the state where the Project is located, to certify that any objects brought, installed or kept on the Premises will not exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof as required by local building code. Provider shall provide a copy of any structural engineering analysis to Host at Host's request.

(b) Termination of Development Activities by Provider. At any time during the Initial Period, Provider shall have the right to cease development of the Project and terminate this Agreement upon written notice to Host if:

(i) Provider determines that the Premises, as is, are insufficient to accommodate the Project; or

(ii) there exist site conditions or construction or interconnection requirements that were not known as of the effective date of this Agreement and that could reasonably be expected to materially increase the cost of Installation Work or would adversely affect the electricity production from the Project as designed;

(iii) there has been a material adverse change in the rights of Host to occupy the Premises or Provider to construct the Project on the Premises;

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) an interconnection agreement with the Local Electric Utility, in form and substance satisfactory to Provider, is not executed by Provider and the Local Electric Utility within two hundred seventy (270) days after the date of this Agreement;

(v) Provider has not obtained financing within twelve months after the date of this Agreement to construct, install, own and operate and maintain the Project;

(vi) the Project does not qualify under the Applicable Solar Program;

(vii) despite its diligent efforts, Provider does not obtain all permits and approvals, on terms and conditions satisfactory to Provider, which are necessary for the construction, operation and maintenance of the Project; or

(viii) the Project is not exempt from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45 (Acts of 2021, Chapter 8, §61, as amended and the Massachusetts Department of Revenue regulations adopted in connection therewith) and a Payment In Lieu of Taxes Agreement with the municipality where the Project is located is not executed and approved by the municipality to establish fixed payments in the amount(s) set forth on Exhibit A-1.

If Provider gives Host notice of such termination, this Agreement shall terminate effective as of the date specified in delivery of such notice without any further liability of the Parties to each other, provided that (i) Provider shall remove any equipment or materials which Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to its pre-existing condition; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(c) Commencement of Construction, Modification of Design. Provider shall conduct a construction kick off meeting with Host. Upon prior notice to Host, Provider shall have the right to commence installing the Project on the Premises in accordance with the agreed-upon schedule as determined during the construction kick off meeting.

(i) As of the date hereof, Provider anticipates that the Project shall consist of the components and shall have the designs set forth in Exhibit E attached hereto.

(ii) Notwithstanding subsection (i) above, Provider has the right to modify the design of the Project, including the selection of the components in the Project, as Provider, in its sole discretion, may determine, provided, however, that such changes shall not result in the Project exceeding the nameplate capacity, building footprint (if project is on the roof), location and height set forth in Exhibits D and E, without Host's approval.

(d) Construction Commencement Deadline. If Provider has not commenced the Installation Work before the Construction Start Date, Host may terminate this Agreement and the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease by delivering notice to Provider of its intention to terminate this Agreement, and the Agreement shall terminate twenty-one (21) days after Provider's receipt of such notice; provided, that if Provider commences the Installation Work within such twenty-one (21) day period, this Agreement shall not terminate. Upon any termination in accordance with this Section 4(d) neither Party shall have any further liability to the other with respect to this Agreement, provided that (i) Provider shall remove any equipment or materials that Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to their condition prior to the commencement of construction; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15 and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(e) Contractors. Provider shall use licensed and insured contractors to perform the work of installing, operating, and maintaining the Project. Provider intends to use Installer to perform such work, but may use other contractors, for all or a portion of such work, in Provider's sole discretion. Provider shall advise Host of the Installer prior to commencement of the work on the Site. Provider shall be responsible for the conduct of Installer and its subcontractors, and Host shall have no contractual relationship with Installer or its subcontractors in connection with the work on the Project. Provider shall ensure that Installer maintains insurance applicable to the Installer's activities that satisfy the requirements in Exhibit G.

(f) Status Reports, Project Testing, Commercial Operation. Provider shall give Host regular updates, on a reasonable schedule requested by Host, on the progress of installation of the Project and shall notify Host of when Provider will commence testing of the Project. Testing shall be conducted in accordance with guidelines, standards and criteria reasonably accepted or followed by photovoltaic solar system integrators in the United States. Host shall have the right to have its representatives present during the testing process, but subject to reasonable written safety rules and procedures as may be established by Provider and Installer. After Provider has determined, in its reasonable judgment, that the Project meets the requirements of and has been approved for interconnection by the Local Electric Utility, has been installed in accordance with all Applicable Laws, and is capable of producing electricity on a continuous basis for at least four (4) continuous hours, Provider shall notify Host that the Installation Work is complete. Provider shall provide Host with written notice of the Commercial Operation Date for the Project, which may be immediately upon delivery of such notice to Host.

(g) Standard of Operation. Provider shall design, obtain permits, install, operate, and maintain the Project so as to keep it in good condition and repair, in compliance with all Applicable Laws and the requirements of the interconnection agreement, and in accordance with the generally accepted practices of the electric industry, in general, and the solar generation industry, in particular, and all instructions of any original equipment manufacturers' warranties for equipment included in the Project. Such work shall be at Provider's sole expense. Except for emergency situations or unplanned outages, Provider shall cause the work to be performed between the hours of 7:00 am and 7:00 pm, Monday through Saturday, in a manner that minimizes interference with Host and Host's employees, visitors, tenants and licensees and their customers to the extent commercially practical. Provider shall, and shall cause its contractors to,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

keep the Site reasonably clear of debris, waste material and rubbish, and to comply with reasonable safety procedures established by Host for conduct of business on the Site. In the event of an emergency or unplanned outage, Provider shall have unimpeded access to the Project, subject to any site-specific security requirements of Host.

(h) Provider Project Shut Down. Provider may shut down the Project at any time in order to perform required emergency repairs to the Project Provider shall give Host notice of such shutdown soon as reasonably practicable. At other times, Provider shall give Host advance notice of the shutdown as may be reasonable in the circumstances. Provider shall not have any obligation to reimburse Host for costs of purchasing electricity that would have been produced by the Project but for such shutdown unless the performance guarantee in Section 5(b) is not met. Provider and Host will agree upon a reasonable shut down duration. Provider shall use reasonable efforts not to schedule shutdowns during peak periods of electric generation and periods when peak energy and demand prices are charged by the Electric Service Provider, except as may be required in accordance with prudent electric industry safety practices in the event of equipment malfunction.

(i) Metering. Provider shall install and maintain a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy provided by the Project and may, at its election, install a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy delivered by the Local Electric Utility and consumed by Host at the Premises.

Subject to any applicable requirements of the Local Electric Utility:

(i) Installation. Provider shall maintain and test the meter in accordance with but not limited to Applicable Law and as provided herein. Provider shall ensure that the meter is installed and calibrated correctly to manufacturer and utility specifications during commissioning of the Project.

(ii) Measurements. Readings of the meter shall be conclusive as to the amount of electric energy delivered to Host; provided that if the meter is out of service, is discovered to be inaccurate pursuant to Section 4(iii) below, or registers inaccurately, measurement of energy shall be determined by estimating by reference to quantities measured during periods of similar conditions when meter was registering accurately.

(iii) Testing and Correction.

A. Standard of Meter Accuracy; Resolution of Disputes as to Accuracy. The following steps shall be taken to resolve any disputes regarding the accuracy of the meter:

(1) If either Party disputes the accuracy or condition of the meter, such Party shall so advise the other Party in writing.

(2) Provider shall, within thirty (30) days after receiving such notice from Host, or Host shall, within such time after having received such notice from

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider, advise the other Party in writing as to its position concerning the accuracy of such meter and state reasons for taking such position.

(3) If the Parties are unable to resolve the dispute through reasonable negotiations, then either Party may cause the meter to be tested by an agreed upon and disinterested third party.

(4) If the meter is found to be inaccurate by not more than two percent (2%), any previous recordings of the meter shall be deemed accurate, and the Party disputing the accuracy or condition of the meter shall bear the cost of inspection and testing of the meter.

(5) If the meter is found to be inaccurate by more than 2% or if such meter is for any reason out of service or fails to register, then (1) Provider shall promptly cause any meter found to be inaccurate to be replaced or adjusted to correct, to the extent practicable, such inaccuracy, (2) the Parties shall estimate the correct amounts of energy delivered during the periods affected by such inaccuracy, service outage or failure to register as provided in Section 4 (i) (ii) or (iii), and (3) Provider shall bear the cost of inspection and testing of the meter and reimburse or credit Host if Host was the disputing Party. If as a result of such adjustment the quantity of energy for any period is decreased (such quantity, the "Electricity Deficiency Quantity"), Provider shall reimburse or credit Host for the amount paid by Host in consideration for the Electricity Deficiency Quantity, and shall bear the cost of inspection and testing of the meter. If as a result of such adjustment the quantity of energy for any period is increased (such quantity, the "Electricity Surplus Quantity"), Host shall pay for the Electricity Surplus Quantity at the price applicable during the applicable period.

B. Host's Right to Witness Tests. Host shall have the right to witness each test or any calibration of meters or monitoring equipment conducted by or under the supervision of Provider to verify the accuracy of the measurements and recordings of the meter or the monitoring equipment. Provider shall provide at least five (5) Business Days prior written notice to Host of the date upon which any such test or calibration is to occur. Provider shall prepare a written report setting forth the results of each such test, and shall provide Host with copies of such written report and the underlying supporting documentation not later than thirty (30) days after completion of such test. Host shall have the right to access all meters at reasonable times and with reasonable prior notice for the purpose of verifying readings and calibrations, but Host shall not have the right to open or undertake any other physical actions on the meters and access rights shall be subject to any requirements or limitations of the Local Electric Utility. If the metering equipment is found to be inaccurate, it shall be corrected and past readings shall be promptly adjusted in accordance with Section 4(i)(A)(5).

(iv) No Duty on Host. Notwithstanding the foregoing, the Parties acknowledge and agree that Host is under no responsibility or duty to ascertain, to inspect or to otherwise

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

determine whether the meter or any other part of the Project is out of service, is discovered to be inaccurate or registers inaccurate readings; is malfunctioning or is otherwise defective, it being agreed that at all times such responsibility or duty shall remain with the Provider.

5. SALE OF ELECTRIC ENERGY.

(a) Sale of Electricity. Throughout the Operations Period, subject to the terms and conditions of this Agreement and the Lease, Provider shall sell to Host and Host shall buy from Provider all electric energy produced by the Project, whether or not Host is able to use all such electric energy. The Point of Delivery of the electric energy shall be as indicated in Exhibit E. Title to and risk of loss with respect to the energy shall transfer from Provider to Host at the Point of Delivery. Provider shall own the Capacity Value of the Project. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host. The interconnection point of the Project with the Local Electric Utility shall be as indicated in Exhibit E.

(b) Performance Guarantee. Beginning on the Commercial Operation Date and as of each anniversary thereof, if the Project produces less than eighty-five percent (85%) of the applicable Estimated Annual Production specified in Exhibit F, unless, and then only to the extent that, the failure to meet the Estimated Annual Production is due to (i) failure, damage or downtime attributable to third parties or Host, (ii) equipment failure or delayed repair of equipment due to the claims process with the equipment manufacturer which are beyond the reasonable control of Provider, (iii) a Force Majeure Event, (iv) variability due to weather, (v) acts or omissions of Host of any of its obligations hereunder, (vi) any Host Requested Shutdown, Provider Safety Shutdown or Project Relocation under Section 10(a), (b), or (c); or (vi) any reduction in output attributable to interference with solar access of the Project by adjoining landowners; in its next invoice Provider shall credit Host an amount equal to the product of (i) the positive difference, if any, of the Avoided Energy Price during such period minus the applicable kWh Rate specified in Exhibit A, multiplied by (ii) the difference between the actual Project Output during such 12-month period and eighty-five percent (85%) of the Estimated Annual Production for such period. Such credit shall be Host's sole and exclusive remedy for Provider's failure to meet the Estimated Annual Production for such period.

6. PAYMENT AND BILLING.

(a) Rates. Host shall pay Provider for electricity produced by the Project at the rates set forth in Exhibit A attached hereto. The rate during any Extension Term shall be mutually agreed upon by Host and Provider.

(b) Billing. Host shall pay for the electricity produced by the Project monthly in arrears. Promptly after the end of each calendar month, Provider shall provide Host with an invoice setting forth the quantity of electricity produced by the Project in such month, the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

applicable rates for such electricity, and the total amount due, which shall be the product of the quantities and the applicable rates.

(c) Invoice Delivery. Invoices shall be in writing and shall be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; or (iv) transmitted by email (such transmission to be effective on the day of receipt if transmitted prior to 5:00 pm local time on a Business Day or in any other case as of the next Business Day following the day of transmittal)addressed as follows:

To Host: City of Melrose
562 Main St
Melrose,MA 02176
Attention: Jim Troup
Email: jtroup@cityofmelrose.org

(d) Payment. Subject to the subparagraph (e) below regarding disputed invoices, Host shall pay each invoice within thirty (30) days of receipt of the invoice. Payments shall be made by check or electronic funds transfer to an account designated by Provider in the invoice or in a written notice delivered to Host. Any amounts not paid when due, including any amounts properly disputed and later determined to be owing, shall accrue interest on the unpaid amount at the rate equal to the lesser of (i) 1% per month, compounded monthly or (ii) the highest rate allowed by applicable law.

(e) Disputed Invoices. If Host objects to all or a portion of an invoice, Host shall, on or before the date payment of the invoice is due, (i) pay the undisputed portion of the invoice, and (ii) provide an itemized statement of its objections setting forth in reasonable detail the basis for its objections. If Host does not object prior to the date payment of any invoice is due, Host shall be obligated to pay the full amount of such invoices but Host may subsequently object to such invoice and, if such objection proves to be correct, receive a refund of the disputed amount; provided, however, that Host may not object to any invoice more than eighteen (18) months after the date on which such invoice is rendered. The right to dispute or object to an invoice, shall, subject to the time limitation provided in this Section 6(e), survive the expiration or termination of this Agreement.

7. SUPPLEMENTAL POWER

(a) Back-up and Supplemental Electricity. Except as otherwise provided herein, throughout the Term, Host shall be responsible for obtaining all of its requirements for electric energy in excess of the amounts produced by the Project and pay for such service pursuant to contracts with or applicable tariffs of the Local Electric Utility or other Electric Service Provider. Provider shall have no obligation to obtain or pay for such supplemental or back-up electricity.

(b) Interconnection and Interconnection Fees. Provider shall be responsible for arranging the interconnection of the Project with Host's Local Electric Utility in a manner which

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

includes bi-directional or "net metering". Host shall be responsible for maintaining the interconnection of the Site with the Local Electric Utility through to the Host's side of the Point of Delivery. Provider shall be responsible for maintaining the interconnection of the Project to the Provider's side of the Point of Delivery with the Local Electric Utility. Host shall enter into any retail agreement required by the Local Electric Utility pursuant to its tariffs. Provider shall be responsible for all costs, fees, charges and obligations required to connect the Project to the Local Electric Utility distribution system, including but not limited to fees associated with system upgrades and operation and maintenance carrying charges ("Interconnection Obligations"), however, if system upgrades in addition to any upgrades contemplated and budgeted for as of Effective Date are required, Provider shall be entitled to adjust the Energy Purchase Prices in Exhibit A to compensate Provider for such increased costs, and if the Parties are unable to agree on such adjustments, Provider may exercise its right to terminate under Section 4(b).

(c) Production Excess. Provider shall, with the cooperation of Host, work to qualify the Project for the highest available compensation for any solar production which is not used at the time of generation and is transmitted to the Local Electric Utility (the "**Production Excess**"). The Parties will work cooperatively and in good faith to meet all requirements regarding such Production Excess under Applicable Law, the Applicable Solar Program, and Local Electric Utility tariffs, including applicable interconnection and metering requirements (e.g., Massachusetts tariff Schedule Z). In the event that the Project produces Production Excess, then the Parties agree that (a) Host shall be entitled to the associated compensation and/or bill credits (including but not limited to Net Metering Credits, Alternative On-Bill Credits, or Qualifying Facility compensation), and (b) Provider shall transmit such Production Excess into the Local Electric Utility system on behalf of and for the account of Host.

(d) Applicable Solar Program Incentives. Provider shall receive all payments available under any Applicable Solar Program. Host shall provide reasonable assistance to Provider in preparing all applications and other documents necessary for Provider to receive such payments, including designating Provider as the customer for purposes of the Applicable Solar Program or assigning payments from the Applicable Solar Program to Provider. If Host receives any payments under the Applicable Solar Program or other programs in respect of the Project, it shall promptly pay them over to Provider. Host's obligation to make any payments to Provider under this Section 7(d) is limited to any payments actually received by Host.

(e) Ownership of Tax Attributes. Provider (and/or Financing Party) shall be the owner of any Tax Attributes that may arise as a result of the ownership and operation of the Project and shall be entitled to transfer such Tax Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Tax Attributes, and if Host is deemed to be the owner of any such Tax Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Tax Attributes, it shall promptly pay them over to Provider.

(f) Environmental Attributes. Except as otherwise provided for under Applicable Law, or Applicable Solar Program rules, or the applicable tariff of the Local Electric Utility, Provider (and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Financing Party) shall be the owner of any Environmental Attributes that may arise as a result of the operation of the Project and shall be entitled to transfer such Environmental Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Environmental Attributes, and if Host is deemed to be the owner of any such Environmental Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Environmental Attributes, it shall promptly pay them over to Provider.

(g) Capacity & Ancillary Services. Provider shall be entitled to receive any payments for electric capacity or ancillary services that may become available as a result of the construction or operation of the Project. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such payments, and if Host is deemed to be the owner or provider of such capacity or services, Host shall assign the same to Provider If Host receives any payments in respect of capacity or such services it shall promptly pay them over to Provider.

(h) Neither Party is A Utility. Neither Party is, and neither Party shall assert that the other Party is, (i) an electric utility or public service company or similar entity that has a duty to provide service, (ii) subject to electric rate regulation, or (iii) otherwise subject to regulation by any governmental authority as a result of its obligations or performance under this Agreement.

(i) Project Alterations. Host agrees to negotiate in good faith with respect to any alterations to the Project proposed by the Provider that may increase payments available under the Applicable Solar Program, Tax Attributes, Environmental Attributes, or increased capacity or ancillary services. Proposed alterations may include, but are not limited to, the addition of an energy storage system to the Project. Upon mutual agreement, this Agreement and the Lease shall be amended to include any agreed upon Project alteration.

8. OWNERSHIP OF PROJECT; SERVICE CONTRACT.

(a) Ownership of Project. As between the Parties, Provider shall retain title to (i) the Project and the Environmental Attributes produced or associated with the Project or the energy produced by the Project, and (ii) all compensation associated with such Environmental Attributes under the Applicable Solar Program or under any other successor program.

(b) Service Contract. Since this Agreement provides for the sale of electric energy from the Project which is an alternative energy facility under Section 7701(e)(3)(D) of the Internal Revenue Code of 1986 as amended, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended.

9. PURCHASE OPTIONS; REMOVAL AT END OF TERM.

(a) Early Purchase Option. On the seventh (7^{th}), tenth (10^{th}), and fifteenth (15^{th}) anniversary of the Commercial Operation Date, provided no Host Event of Default has occurred and is continuing, the Host shall have the option to purchase the Project from Provider at a price

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

which will be the greater of (i) the applicable value identified in Exhibit B or (ii) the Fair Market Value of the Project as determined by mutual agreement of Host and Provider as of such anniversary date; provided, however, if Host and Provider cannot agree to a Fair Market Value within twenty (20) days after Host has exercised its option, the Parties shall select and share equally the costs of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project, provided that Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal. If Host desires to exercise this option, it shall no later than ninety (90) days prior to the applicable anniversary date notify Provider of its election to exercise the option, and, unless it has rescinded the exercise of the option as aforesaid, on or before such anniversary date shall pay the purchase price to Provider by electronic transfer in immediately available funds to an account designated by Provider.

(b) End of Term Purchase Option. Host shall have the right to purchase the Project from Provider at the expiration of the Operations Period at the then Fair Market Value of the Project. No earlier than twelve months prior to the expiration of such Operations Period and no later than nine (9) months prior to the expiration of the Operations Period, Host shall notify Provider of its intent to exercise the option. Within ninety-one (91) days of its receipt of such notice, Provider shall give Host its appraisal of the Fair Market Value of the Project at the end of the Term. Host may, but is not obligated to, accept such appraisal. If Host does not accept such appraisal within ten (10) Business Days of receiving the appraisal from Provider, the Parties shall meet to discuss the appraisal. If they are unable to reach agreement within twenty (20) days of the Host's receipt of the appraisal from Provider, the Parties will engage and share the costs equally of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project consistent with the terms of the transaction. Notwithstanding the foregoing, in the event that Provider enters into a sale/leaseback transaction in connection with funding the installation of the Project, the process of determining the Fair Market Value of the Project in this Agreement shall be undertaken by a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project and shall be undertaken consistently with the terms of such transaction so that the process for determining Fair Market Value under this Agreement shall be the same as provided in the agreements for such sale/leaseback transaction. Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal.

(c) Transfer of Ownership. Upon Host's notice that it elects to exercise the option set forth in either Section 9(a) or 9(b) above, Provider shall prepare and deliver to Host a set of records on the operation and maintenance history of the Project, including a summary of known defects. Upon payment of the purchase price, Provider shall deliver, or cause to be delivered, to Host a bill of sale conveying the Project to Host free and clear of Liens on Provider's interest in the Project. Such bill of sale shall not contain any warranties, other than a warranty against any defects in title arising through Provider. Provider shall use all reasonable efforts to transfer any remaining manufacturer's warranties on the Project, or portions thereof, to Host. Upon the transfer of ownership of the Project to Host, this Agreement shall terminate.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(d) Operation & Maintenance After Sale. Prior to the effective date of Host's purchase of the Project under Section 9(a) or 9(b), Host and Provider shall discuss entering into an operation and maintenance agreement under which Provider shall perform all or a portion of the operation and maintenance requirements of the Project following Host's purchase of the Project. However, neither Party shall be under an obligation to enter into such an agreement.

(e) No Survival of Purchase Option. The options for Host to purchase the Project under Sections 9(a) and 9(b) shall not survive the termination of this Agreement.

(f) Removal of Project at Expiration. Provider shall decommission the Project in accordance with Section 9 of the Lease or Easement.

10. SHUTDOWNS, RELOCATION; CLOSURE OR SALE OF SITE.

(a) Host Requested Shutdown. Host from time to time may request Provider to temporarily stop operation of the Project for a period no longer than thirty (30) days or a predetermined date mutually agreed upon by both the Host and Provider, such request to be reasonably related to Host's activities in maintaining and improving the Site. During any such shutdown period (but not including periods of Force Majeure or Allowed Disruption Time as defined below, nor where the maintenance activities were made necessary by a Provider Event of Default), Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project during the period of the shutdown; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced during the period of the shutdown; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project during the period of the shutdown. Determination of the amount of energy that would have been produced during the period of the shutdown shall be based, during the first Operations Year, on reasonably estimated levels of production and, after the first Operations Year, based on actual operation of the Project during the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

Notwithstanding the foregoing, the Parties agree that after year six (6) (but not during years one (1) through six (6)) of the Operations Period of the Agreement, Host shall be afforded a total of fifteen (15) days which may be used consecutively or in periods of at least twenty-four hours each ("Allowed Disruption Time") during which the Host may request that the Project be shut down if, and only if, Host is performing maintenance or repairs to the Premises which require the Project to be offline. Host shall not be obligated to make payments to Provider for electricity not received during the Allowed Disruption Time; nor shall Host be required to reimburse Provider for any other lost revenue during the Allowed Disruption Time, including any lost revenue associated with any reduced sales of Environmental Attributes and Tax Attributes.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider Safety Shutdown. In addition to the right of Provider to shut down the Project for maintenance as provided in Section 4(j), Provider may shutdown the Project if Provider, in the exercise of reasonable judgment, believes Site conditions or activities of persons on a Site, which are not under the control of Provider, whether or not under the control of Host, may interfere with the safe operation of the Project. Provider shall give Host written notice of a shutdown immediately upon becoming aware of the potential for such conditions or activities. Provider and Host shall cooperate and coordinate their respective efforts to restore Site conditions so as to not interfere with the safe operation of the Project and to reduce, to the greatest extent practicable, the duration of the shutdown; provided that Provider shall not be responsible for any costs or expenses in connection with restoration of conditions at the Site required due to conditions or activities of persons on the Site not under the control of Provider. If a shutdown pursuant to this Section 10(b) continues for 180 days or longer, Provider may terminate this Agreement and Host shall pay the Early Termination Amount.

(c) Project Relocation. Host may request to move the Project to another location on the Site or to another site owned by Host, but any such relocation shall be subject to the approval of Provider and Financing Party in each of their sole discretion. In connection with such relocation, Host shall execute an amendment to this Agreement reflecting the new location of the Project but otherwise continuing all the terms and conditions of this Agreement for the remaining term of this Agreement. Host shall also provide any consents or releases required by Provider in connection with the new location. Host shall pay all reasonable costs associated with the removal and relocation of the Project, including installation and testing costs and interconnection costs. In addition, during the Relocation Event, Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project following the Relocation Event; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced following the Relocation Event; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project following the Relocation Event. Determination of the amount of energy that would have been produced following the Relocation Event shall be based, during the first Operations Year, on the estimated levels of production and, after the first Operations Year, based on actual operation of the Project in the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

(d) Premises Shutdown; Interconnection Deactivated. In the event the facilities where the Premises are located are closed or the interconnection becomes deactivated, Host shall not be excused for the period of closure or deactivation from paying Provider for all electricity produced by the Project on the Premises and delivered to the Point of Delivery unless such closure or deactivation is caused by (i) a Force Majeure Event or (ii) any unexcused action or inaction of Provider or persons for whom Provider is responsible.

(e) Sale of Site. In the event Host transfers (by sale, lease or otherwise) all or a portion of its interest in the Site, except as otherwise provided in this subsection (e), Host shall remain primarily liable to Provider for the performance of the obligations of Host hereunder

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

notwithstanding such transfer. However, if no Host Event of Default has occurred and is continuing at the time of the transfer, and the transferee is acceptable to Provider and Financing Party in their sole discretion and executes agreements assuming this Agreement in form and substance satisfactory to Provider and Financing Party in their sole discretion, Host shall be released from further obligations under this Agreement. For avoidance of doubt, if Host is a municipality or governmental entity, the sale, lease or transfer of all or a portion of Host's interest in the Site to a transferee that is a municipality or governmental entity with a credit rating assigned by Moody's Investor Service at least equal to or better than Host's shall be deemed an acceptable transferee, provided the other requirements set forth in this Section 10(e) are satisfied.

11. TAXES.

(a) Income Taxes. Provider shall be responsible for any and all income taxes associated with payments from Host to Provider for electric energy from the Project. Provider (and/or Financing Party), as owner of the Project, shall be entitled to all Tax Attributes with respect to the Project.

(b) Sales Taxes. Host shall provide Provider with any certificates or other documents required or appropriate to evidence Host's exemption from any applicable taxes, fees, and charges, including sales, use, and gross receipts taxes, imposed or authorized by any Governmental Authority on the sale of electric energy by Provider to Host. Host shall timely report, make filings for, and pay any and all such taxes assessed directly against it by any Governmental Authority. To the extent Provider pays such amounts, Provider shall notify Host in writing with a detailed statement of such amounts, which shall be invoiced by Provider and Host shall reimburse Provider for any and all such taxes assessed against and paid by Provider.

(c) Property Taxes. If project will produce not more than 125% of the annual load of the Property Provider will apply to the City of Melrose for exemption of the Project from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45, and will employ commercially reasonable efforts to secure such exemption. If the project will produce more than 125% of the annual load of the Property or if the exemption is not granted, Provider will seek to enter into a Payment In Lieu of Taxes (PILOT) Agreement with the City of Melrose to establish fixed payments in lieu of personal property tax. Upon execution of a PILOT Agreement, if the PILOT amounts differ from the Assumptions Around Pricing Elements as set forth in Exhibit A, Provider will prepare and the Parties shall execute an amendment to this Agreement , in accordance with the provisions of Exhibit A, to reflect the new rate effective as of the date the PILOT payments begin.

If Provider is assessed any real property taxes related to the existence of the Project on the Premises or if Provider is unable to obtain exemption of the Project from personal property tax and is not able to enter into a PILOT Agreement with the City of Melrose, then Host acknowledges and agrees that Provider shall have the right once per year to invoice Host for the exact amount of the such property taxes. Such invoice shall include documentation demonstrating the tax liability from the taxing authority for the current tax year and proof of payment from Provider to the taxing authority. Such invoice shall be submitted to the Host separately from any monthly invoice for solar energy generation.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

If Provider seeks to obtain exemption of the Project from personal property tax, and/or seeks to enter into a PILOT Agreement with the City of Melrose, and is ultimately unsuccessful, within thirty (30) days of such determination being made Provider will inform Host of such determination and, (1) if Host or the owner of the Site is a municipality, Host will provide Provider, or (2) if Host or the owner of the Site is not a municipality, Provider will provide Host with a good faith estimate of the annual amount of the expected personal property taxes.

Each Party has the right to contest taxes in accordance with Applicable Law and the terms of encumbrances against the Site. Each Party shall use all reasonable efforts to cooperate with the other party in any such contest of tax assessments or payments. In no event shall either Party postpone during the pendency of an appeal of a tax assessment the payment of taxes otherwise due except to the extent such postponement in payment has been abated, bonded or otherwise secured in accordance with Applicable Law.

(d) Reimbursement Deadline. Any reimbursement of taxes owing pursuant to this Section 11 shall be paid within twenty (20) Business Days of receiving an invoice from the Party who paid the taxes.

12. INSURANCE.

(a) Coverage. Host and Provider shall each maintain the insurance coverage set forth in Exhibit G in full force and effect throughout the Term. Host and Provider shall also provide any additional insurance which may be required from time to time by the Local Electric Utility or any legal or regulatory authority affecting the Premises or operation of the Project. If Host has established and maintains a program of self-insurance, Host shall maintain self-insurance for the coverages and in the amounts set forth on Exhibit G.

(b) Insurance Certificates. Each Party shall furnish current certificates indicating that the insurance required under this Section 12 is being maintained. Each Party's insurance policy provided hereunder shall contain a provision whereby the insurer agrees to give the other Party written notice before the insurance is cancelled or materially altered.

(c) Certain Insurance Provisions. Each Party's insurance policy shall be written on an occurrence basis and shall include the other Party as an additional insured as its interest may appear. Each Party's insurer shall waive all rights of subrogation against the other Party except in the case of such Party's negligence or willful misconduct.

(d) Insurance Providers. All insurance maintained hereunder shall be maintained with companies approved to do business in Massachusetts, and rated no less than A- as to Policy Holder's Rating in the current edition of Best's Insurance Guide (or with an association of companies each of the members of which are so rated), provided such requirement shall not apply if a Party maintains an active self-insurance program and provides required insurance pursuant to such self-insurance program.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(e) Flood Insurance. If required under Applicable Law, Host shall maintain FEMA-approved flood insurance for the Premises.

13. COOPERATION.

The Parties acknowledge that the performance of each Party's obligations under this Agreement will frequently require the assistance and cooperation of the other Party. Each Party therefore agrees, in addition to those provisions in this Agreement specifically providing for assistance from one Party to the other, that it will at all times during the Term cooperate with the other Party and provide all reasonable assistance to the other Party to help the other Party perform its obligations hereunder.

14. PRESS RELEASES AND CONFIDENTIALITY.

(a) Goodwill and Publicity. Neither Party shall use the name, trade name, service mark, or trademark of the other Party in any promotional or advertising material without the prior written consent of such other Party. The Parties shall coordinate and cooperate with each other when making public announcements related to the execution and existence of the Agreement, and each Party shall have the right to promptly review, comment upon, and approve any publicity materials, press releases, or other public statements by the other Party that refer to, or that describe any aspect of, the Agreement; provided that no such publicity releases or other public statements (except for filings or other statements or releases as may be required by Applicable Law) shall be made by either Party without the prior written consent of the other Party. At no time will either Party acquire any rights whatsoever to any trademark, trade name, service mark, logo or other intellectual property right belonging to the other Party. Notwithstanding the foregoing, Host agrees that Provider may, at its sole discretion, take photographs of the installation process of the Project and/or the completed Project, and Provider shall be permitted to use such images (regardless of media) in its marketing efforts, including but not limited to use in brochures, advertisements, websites and news outlet or press release articles. The images shall not include any identifying information without Host permission and the installation site shall not be disclosed beyond the type of establishment (such as "Retail Store," "Distribution Center," or such other general terms), the city and state. Only Provider has the exclusive right to claim that (i) electric energy provided to Host was generated by the Project, (ii) Provider is responsible for the reductions in emissions of pollution and greenhouse gases resulting from the generation of such electric energy and (iii) Provider is entitled to all credits, certificates, registrations, etc., evidencing or representing any of the foregoing except as otherwise expressly provided in this Agreement. However, the terms of this Agreement and information about the Project other than that described above constitutes Confidential Information, as defined below, and is subject to the remaining provisions of this Section 14.

(b) Limits on Disclosure of Confidential Information. Subject to the exceptions set forth below in Section 14(c), each Party agrees that, (i) without the consent of the other Party, it shall not disclose any Confidential Information received from the other Party to any other person and (ii) it shall use any Confidential Information received from the other Party only for the purpose of fulfilling its obligations under this Agreement. Notwithstanding the foregoing, subject to the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

requirements of Section 14(c) below, the Parties may, and shall, disclose any information required to be disclosed under rules, regulations and contracts implementing the Applicable Solar Program or Tax Attributes required to be disclosed by any Governmental Authority under Applicable Law or pursuant to a validly issued subpoena or required filing.

(c) Permissible Disclosures. Provider may provide this Agreement, and any correspondence, notices and other information related to this Agreement to any person who has provided or who is interested in providing construction or permanent financing, or any refinancing thereof, to Provider in connection with the Project. In addition, if a receiving Party is required by Applicable Law, validly issued subpoena or required filing to disclose any Confidential Information provided by the disclosing Party, the receiving Party may make disclosure as required by law, but the receiving Party shall prior to making any disclosure, if lawfully permitted to do so, notify the disclosing Party of the requested disclosure and shall use its reasonable efforts to cooperate with the disclosing Party, but at the expense of the disclosing Party, in any efforts by the disclosing Party to minimize the extent of the Confidential Information disclosed and the persons to whom disclosed. If Host is a public entity subject to the requirements of M.G.L. c. 66, § 10 ("MA Public Records Law") the provisions of the MA Public Records Law will govern Host's obligations under Section 14(b) and this Section 14(c), including Provider's right to raise applicability of the exemptions included in the MA Public Records Law. Notwithstanding any term herein to the contrary, the failure to notify the disclosing Party pursuant to this Section 14(c) shall not be deemed an Event of Default.

(d) Enforcement of Confidentiality Provisions. Each Party acknowledges that it may be impossible to measure the damages which may result from a breach of this Section 14 and agrees that the provisions of this Section 14 may be required to be specifically performed and each Party shall have the right to obtain preliminary and permanent injunctive relief to secure specific performance of the terms of this Section 14. The provisions of this Section 14 shall survive until three years after the effective date of any termination of this Agreement.

15. INDEMNIFICATION.

(a) Provider Indemnification. Provider shall indemnify, defend and hold harmless Host and its directors, officers, employees, agents, volunteers, and invitees ("Host's Indemnified Parties"), from and against all Losses incurred by the Host Indemnified Parties to the extent arising from or out of the following: (i) any third party claim for injury to or death of any Person or loss or damage to property to the extent caused by Provider's or Provider's Indemnified Parties (defined below) negligence or willful misconduct; (ii)) third party claims for penalties or fines arising from a Provider's or Provider's Indemnified Parties violation of Applicable Law; (iii) any failure to properly interconnect or comply with the procedures of the Local Electric Utility or Applicable Law; or (iv) any failure to properly handle or dispose of any Hazardous Materials brought onto the Site by Provider or by any of Provider's employees, agents, volunteers, and invitees and released as a result of the negligence of Provider or Installer or any of Provider's or Installer's employees, agents, volunteers, and invitees. Such duty to indemnify with respect to any injuries to persons or damage to property arising from the generation of electricity from the Project shall not extend to incidents occurring on Host's side of the Point of Delivery except to the extent

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

caused by incidents on Provider's side of the Point of Delivery. Such duty to indemnify shall not apply to any action or claim, whether in tort (including negligence and strict liability), contract or otherwise for any loss, injury, or costs resulting from interruptions in service. Provider shall not be obligated to indemnify Host or any Host Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Host or any Host Indemnified Party.

(b) Host Indemnification. To the extent permitted by law, Host shall indemnify, defend and hold Provider, its contractors, subcontractors, shareholders, directors, officers, employees, agents, and invitees, and Financing Party ("**Provider's Indemnified Parties**"), harmless from and against all Losses incurred by the Provider's Indemnified Parties to the extent arising from or out of (i) any third-party claim for injury to or death of any Person or loss or damage to property to the extent caused by the negligence or willful misconduct of any of Host's Indemnified Parties; (ii) Host's violation of Applicable Law; or (iii) the presence, removal or remediation of any Hazardous Materials on the Site (other than any Hazardous Materials brought on to the Site by Provider's Indemnified Parties and improperly stored, disposed of or negligently released by Provider or Installer). Host shall not be obligated to indemnify Provider or any Provider Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Provider or any Provider Indemnified Party.

(c) Notice of Claims. Whenever any claim arises for indemnification under this Agreement, the Indemnified Person shall notify the Indemnifying Party in writing as soon as possible (but in any event prior to the time by which the interest of the Indemnifying Party will be materially prejudiced as a result of its failure to have received such notice) after the Indemnified Person has knowledge of the facts constituting the basis for such claim (the "Notice of Claim"). Such Notice of Claim shall specify all facts known to the Indemnified Person giving rise to the indemnification right and the amount or an assessment of the amount of the liability arising therefrom.

(d) Defense of Claims. The Indemnifying Party has the right, but not the obligation to assume the defense for the matter for which indemnification is sought hereunder. If the Indemnifying Party does not assume the defense, it shall timely pay all costs of legal counsel and case expenses incurred by Indemnified Person in connection with the defense, when and as incurred. If the Indemnifying Party assumes the defense, the Indemnified Person has the right to hire its own, separate counsel to defend it, but the Indemnified Person shall be responsible for the reasonable costs of such separate counsel. The Indemnifying Party shall not consent to the entry of any judgment or enter into any settlement with respect to the matter for which indemnification is sought without the prior written consent of the Indemnified Person (which consent shall not be unreasonably withheld) unless the judgment or settlement involves the payment of money damages only and does not require the acknowledgement of the validity of any claim or admission of any liability by or on behalf of any Indemnified Person.

(e) Payments. At the time that the Indemnifying Party makes any indemnity payments under this Agreement, the indemnification payment shall be adjusted such that the payment will result in the Indemnified Person receiving an indemnity payment equal to the Loss after taking into account (i) all federal, state, and local income taxes that are actually payable to the Indemnified Person with respect to the receipt of such payment and (ii) all national, state, and local tax

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

deductions allowable to the Indemnified Person for any items of loss and deduction for which the Indemnified Party is being indemnified.

(f) Survival of Indemnification. The obligations of indemnification hereunder shall survive termination of this Agreement.

16. REPRESENTATIONS AND WARRANTIES.

(a) Mutual Representations. Each Party hereby represents and warrants to the other, as of date hereof, that:

(i) Organization. It is duly organized, validly existing and in good standing under the laws of its state of incorporation and of the state in which the Premises are located, respectively, and has the power and authority to enter into this Agreement and to perform its obligations hereunder.

(ii) No Conflict. The execution and delivery of this Agreement and the performance of and compliance with the provisions of this Agreement will not conflict with or constitute a breach of or a default under (1) its organizational documents; (2) any agreement or other obligation by which it is bound; (3) any law or regulation.

(iii) Enforceability. (1) All actions required to be taken by or on the part of such Party necessary to make this Agreement effective have been duly and validly taken; (2) this Agreement has been duly and validly authorized, executed and delivered on behalf of such Party; and (3) this Agreement constitutes a legal, valid and binding obligation of such Party, enforceable in accordance with its terms, subject to laws of bankruptcy, insolvency, reorganization, moratorium or other similar laws.

(iv) No Material Litigation. There are no court orders, actions, suits or proceedings at law or in equity by or before any governmental authority, arbitral tribunal or other body, or threatened against or affecting it or brought or asserted by it in any court or before any arbitrator of any kind or before or by any governmental authority that could reasonably be expected to have a material adverse effect on it or its ability to perform its obligations under this Agreement, or the validity or enforceability of this Agreement.

(b) Host Representations. In addition to the representations and warranties in Section 16(a), Host hereby represents and warrants to Provider, as of date hereof, that:

(i) Condition of Premises. Host has provided to Provider Host's complete and correct records of the physical condition of the Premises. If, during the Development Period, Provider deems such records inadequate for its intended purposes hereunder, it shall so notify Host in writing before commencing installation of the Project, in which event the Host shall reasonably cooperate in Provider's efforts to procure such information as Provider may reasonably require regarding the condition of the Premises. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project are to be installed, are materially different from the information

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

presented by Host and from conditions reasonably visible to Provider during site visits prior to entering this Agreement, then if practicable the rates payable by Host hereunder shall be adjusted to compensate Provider for the cost of design and construction changes and delays actually incurred by Provider in order to adapt the Project to the unknown conditions. If such adjustment is not practicable, Provider shall have other rights under this Agreement.

(ii) Title to Premises. Host is the fee owner of and has good and valid title to [has a valid and enforceable leasehold interest in] the Premises and to Host's knowledge there are no mortgagees, lienholders or other third party claimants to the Premises. There are no encumbrances on the Premises that would interfere with or prevent the development, construction, operation or maintenance of the Project or any portion thereof.

(iii) Host Organization. Host is a municipality organized and existing under the laws of the Commonwealth of Massachusetts.

(c) Provider Representations. In addition to the representations and warranties in Section 16(a), Provider hereby represents and warrants to Host, as of date hereof, that:

(i) Interconnection Agreement and Permits. Provider shall use commercially reasonable efforts to obtain an executed interconnection agreement and all permits for the Project in a timely and efficient manner.

17. FORCE MAJEURE; CASUALTY.

(a) Excuse for Force Majeure Event. Except as provided in Section 17(b) or otherwise specifically provided in this Agreement, neither Party shall be considered in breach of this Agreement or liable for any delay or failure to comply with this Agreement, if and to the extent that such delay or failure is attributable to the occurrence of a Force Majeure Event; provided that the Party claiming relief as a result of the Force Majeure Event shall promptly (i) notify the other Party in writing of the existence and details of the Force Majeure Event; (ii) exercise all reasonable efforts to minimize delay caused by such Force Majeure Event; (iii) notify the other Party in writing of the cessation of such Force Majeure Event; and (iv) resume performance of its obligations hereunder as soon as practicable thereafter.

(b) No Excuse for Payment for Prior Services. Excepting a Force Majeure Event which impacts business or banking transactions nationally or globally, in which case such obligations shall be suspended but not excused, obligations to make payments for services provided prior to the Force Majeure Event shall not be excused by a Force Majeure Event.

(c) Casualty; Restoration. In the event of a casualty event, to the extent that such casualty event is attributable to the occurrence of a Force Majeure Event, which destroys all or a substantial portion of the Premises, Host shall elect, within ninety (90) days of such event, whether it will restore the Premises, which restoration will be at the sole expense of Host. If Host does not elect to restore the Premises, then Provider shall not restore the Project and this

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Agreement will terminate without penalty to either Party. If Host does elect to restore the Premises, Host shall provide notice of such election to Provider and Provider shall then elect, within ninety (90) days of receipt of such notice, whether or not to restore the Project, subject to the Parties agreeing on a schedule for the restoration of the Premises and an equitable extension to the Term of this Agreement. If the Parties are not able to so agree or if Provider does not elect to restore the Project, Provider shall promptly remove any portions of the Project remaining on the Premises, and this Agreement shall terminate without penalty to either Party. If Provider does elect to restore the Project, it shall do so at its sole expense. In the event of termination of this Agreement pursuant to this Section 17(c), (i) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the casualty event; and (ii) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

If any damage to the Project is caused by the negligence or willful misconduct of Host or Host's employees, agents, or invitees, Provider shall send written notice to Host specifying (i) the reasonable and documented expenses for repair and replacement of the Project, and (ii) documented lost revenue for sales of electricity and solar incentives (including, but not limited to, Applicable Solar Program, Tax Attributes, Environmental Attributes) that would have been received based on the estimated energy production of the Project. Host shall have thirty (30) days from the receipt of such notice to review the information contained within such notice. Any undisputed amounts shall be due and payable within thirty (30) days after Provider's notice. If Host disagrees with any information contained in such notice, Host shall provide written notice to Provider within the Host's thirty (30) day review period. In the event of a dispute, Host and Provider shall use good faith to resolve such dispute and agree upon a reimbursement amount. Once Host and Provider have agreed upon the reimbursement amount, Host shall pay such agreed amount within thirty (30) days after agreement and in the event there is no dispute, then within thirty (30) days after receipt of the notice.

(d) Termination for Force Majeure Event. Notwithstanding anything to the contrary in this Section 17, if nonperformance on account of a Force Majeure Event continues beyond a continuous period of three hundred and sixty-five (365) days, then either Party shall have the right to terminate this Agreement upon thirty (30) days' notice to the other. Upon such termination, Provider shall be required to decommission and remove the Project from the applicable Site in accordance with the Lease (unless there has been a casualty event, in which case the provisions of clause (c) above shall apply to the removal of the Project). In the event of such a termination of this Agreement with respect to the Project, the Parties shall not be released from any payment or other obligation arising under this Agreement which accrued prior to the shutdown of the Project or the Premises and the indemnity, confidentiality and dispute resolution provisions of this Agreement shall survive the termination of this Agreement.

18. CHANGE IN LAW.

In the event there is a Change in Law that is applicable to the operation of the Project, the sale of electric energy produced by the Project, or any other obligation of the Provider hereunder, and compliance with the Change in Law results in an increase in Provider's costs to operate and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintain the Project, Provider will submit to Host and PowerOptions within 60 days a written notice setting forth, in reasonable detail, the following: (i) the applicable Change in Law; (ii) the manner in which such Change in Law increases Provider's costs; and (iii) Provider's proposed adjustment to the then applicable and future rates for electric energy in this Agreement to reflect such increases in costs. Host agrees to an adjustment in the then applicable and future prices such that the new prices compensate Provider for the total cost increase arising from the Change in Law and said adjustment will remain in effect for as long as the costs arising from the Change in Law continue to be incurred by the Provider; provided, however any such increase shall be no greater than ten percent (10%) of the prices set forth in Exhibit A for the Term of this Agreement.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Provider Events of Default. Provider shall be in default of this Agreement if any of the following ("Provider Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Provider under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within thirty (30) days after receipt of written notice from Host identifying the defect.

(ii) Abandonment During Installation. After commencement of installation of the Project, Provider abandons installation of the Project for thirty (30) days and fails to resume installation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has abandoned installation of the Project.

(iii) Failure to Operate. After the Commercial Operation Date, Provider fails to operate the Project for a period of 90 days which failure is not due to equipment failure, or damage to the Project, act of governmental authority, or exercise of Provider's rights under this Agreement, or otherwise excused by the provisions of Section 17(b) (relating to Force Majeure Events), and Provider fails to resume operation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has ceased operation of the Project for a period of ninety (90) consecutive days, provided, however, that such thirty (30) day cure period shall be extended by the number of calendar days during which Provider is prevented, through no fault of its own, from taking curative action if Provider had begun curative action and was proceeding diligently, using commercially reasonable efforts, to complete such curative action.

(iv) Obligation Failure. Provider fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) days if the failure involves a failure to make payment when due or maintain required insurance; or (B) sixty (60) days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Host identifying the failure.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(v) Insolvency. Provider (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or is generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Provider in an involuntary case under bankruptcy law or seeking to dissolve Provider under other Applicable Law and such petition is not dismissed within 90 days; or (G) takes any action authorizing its dissolution.

(vi) Provider has an Event of Default which results in termination under the Lease.

(b) Financing Party Opportunity to Cure; Host Remedies. Subject to the right of the Financing Party to cure a Provider Event of Default, as set forth in Section 21, upon a Provider Event of Default, if Provider or Financing Party does not cure such Provider Event of Default in accordance with the terms hereof, Host may terminate this Agreement, seek to recover damages for costs of replacement electricity and pursue any and all other remedies available at law or equity.

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Host Events of Default. Host shall be in default of this Agreement if any of the following ("Host Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Host under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within 30 calendar days after receipt of written notice from Provider identifying the defect.

(ii) Obstruction. Host (i) obstructs commencement of installation of the Project; (ii) fails to take any reasonable actions required by this Agreement or requested by Provider or necessary for the interconnection of the Project; or (iii) fails to take electric energy produced by the Project; and, in any of these circumstances, fails to correct such action or inaction, as the case may be, within fifteen (15) Business Days after receipt of written notice from Provider with respect to such act or omission.

(iii) Payment Failure. Host fails to make any payment due under the terms of this Agreement, and fails to make such payment within ten (10) Business Days after receipt of notice thereof from Provider.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) Obligation Failure. Host fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) Business Days if the failure involves a failure to maintain required insurance; or (B) sixty (60) calendar days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Provider identifying the failure.

(v) Insolvency. Host (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or be generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Host in an involuntary case under bankruptcy law or seeking to dissolve Host under other Applicable Law; or (G) takes any action authorizing its dissolution.

(vi) Host has an Event of Default which results in termination under the Lease.

(b) Default Damages. Upon a Host Event of Default, Provider may require Host to pay to Provider the Early Termination Amount, whereupon this Agreement shall terminate immediately. Alternatively, Provider may elect to sell electricity produced by the Project to persons other than Host, and recover from Host any loss in revenues resulting from such sales; and/or pursue other remedies available at law or in equity. If necessary to sell electricity to persons other than Host, Host shall allow Provider to add a new meter dedicated to the solar Project, change the point of interconnection, and/or will support Provider with necessary approvals to change the Schedule Z. After Provider's receipt of such Early Termination Amount pursuant to this Section 20(b), Provider shall collect no additional damages resulting from lost revenues from sales of electricity from the Project.

(c) Survival of Lease, Access Rights and Easement. Upon a Host Event of Default, unless Host pays the Early Termination Amount to Provider in full thus terminating this PPA, Provider may, in its exercise of remedies pursuant to Section 20(b), make continued use of, and Host may not terminate the Lease. Provider shall not be obligated to pay any rent or other consideration for the use of such rights or interests.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

(a) Financing Arrangements. Provider shall not sell, transfer or assign (collectively, an "**Assignment**") this Agreement or any interest therein, without the prior written consent of Host, which shall not be unreasonably withheld, conditioned or delayed, provided, however that Provider may mortgage, pledge, grant security interests, assign, or otherwise encumber its interests in this Agreement to any persons providing debt or equity financing for the Project. Further, Host acknowledges that Provider may obtain construction financing for the Project from a third party

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

and that Provider may either obtain term financing secured by the Project or sell or assign the Project to a Financing Party or may arrange other financing accommodations from one or more financial institutions and may from time to time refinance, or exercise purchase options under, such transactions. Host acknowledges that in connection with such transactions Provider may secure Provider's obligations by, among other collateral, an assignment of this Agreement and a first security interest in the Project. In order to facilitate such necessary sale, conveyance, or financing, and with respect to any lender or lessor, as applicable, Host agrees as follows:

(i) Consent to Sale and to Collateral Assignment. Host hereby consents to both the sale of the Project to a Financing Party and the collateral assignment to the Financing Party of the Provider's right, title and interest in and to this Agreement.

(ii) Rights of Financing Party. Notwithstanding any contrary term of this Agreement:

(A) Step-In Rights. The Financing Party, as owner of the Project, or as collateral assignee of this Agreement, shall be entitled to exercise, in the place and stead of Provider, any and all rights and remedies of Provider under this Agreement in accordance with the terms of this Agreement. The Financing Party shall also be entitled to exercise all rights and remedies of owners or secured parties, respectively, generally with respect to this Agreement and the Project;

(B) Opportunity to Cure Default. The Financing Party shall have the right, but not the obligation, to pay all sums due under this Agreement and to perform any other act, duty or obligation required of Provider hereunder or cause to be cured any default of Provider hereunder in the time and manner provided by the terms of this Agreement. Nothing herein requires the Financing Party to cure any default of Provider under this Agreement or (unless the Financing Party has succeeded to Provider's interests under this Agreement or has otherwise assumed Provider's obligations) to perform any act, duty or obligation of Provider under this Agreement, but Host hereby gives it the option to do so;

(C) Exercise of Remedies. Upon the exercise of remedies, including any sale of the Project by the Financing Party, whether by judicial proceeding or under any power of sale contained therein, or any conveyance from Provider to the Financing Party (or any assignee of the Financing Party as defined below) in lieu thereof, the Financing Party shall give written notice to Host of the transferee or assignee of this Agreement. Any such exercise of remedies shall not constitute a default under this Agreement;

(D) Cure of Bankruptcy Rejection. Upon any rejection or other termination of this Agreement pursuant to any process undertaken with respect to Provider under the United States Bankruptcy Code, at the request of Financing Party made within ninety (90) days of such termination or rejection, Host shall enter into a new agreement with Financing Party or its assignee having substantially the same terms and conditions as this Agreement.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iii) Right to Cure.

(A) Cure Period. Host will not exercise any right to terminate or suspend this Agreement unless it shall have given the Financing Party a copy of Host's prior written notice to Provider of its intent to terminate or suspend this Agreement, as required by this Agreement, specifying the condition giving rise to such right, and the Financing Party shall not have caused to be cured the condition giving rise to the right of termination or suspension within sixty (60) days after such notice or (if longer) the periods provided for in this Agreement; provided that if such Provider default reasonably cannot be cured by the Financing Party within such period and the Financing Party commences and diligently and continuously pursues cure of such default within such period, such period for cure will be extended for a reasonable period of time under the circumstances, such period not to exceed an additional sixty (60) days. The Parties' respective obligations will otherwise remain in effect during any cure period.

(B) Continuation of Agreement. If the Financing Party or its assignee (including any purchaser or transferee), pursuant to an exercise of remedies by the Financing Party, shall acquire title to or control of Provider's assets and shall, within the applicable time periods described in Section 21(a)(iii)(A) above, cure all defaults under this Agreement existing as of the date of such change in title or control in the manner required by this Agreement and which are capable of cure by a third person or entity then such Person shall no longer be in default under this Agreement, and this Agreement shall continue in full force and effect. If the Financing Party notified Host in writing within such sixty (60) day period that it must foreclose on Provider's Interest or otherwise take possession of Provider's interest under this Agreement in order to cure the default (the "**Foreclosure Notice**"), the Host shall not terminate this Agreement and shall permit the Financing Party a reasonable period of time, which shall be outlined in the Foreclosure Notice, as may be necessary for such Financing Party, with the exercise of due diligence, to foreclose or acquire Provider's interest under this Agreement and to perform or cause to be performed all of the covenants and agreements of Provider under this Agreement and the Lease.

(b) Financing Party a Third Party Beneficiary. Host agrees and acknowledges that Financing Party is a third party beneficiary of the provisions of this Section 21.

(c) Entry to Consent to Assignment. Host agrees to (i) execute any reasonable consents to assignment or acknowledgements and (ii) provide such opinions of counsel as may be reasonably requested by Provider and/or Financing Party in connection with such financing or sale of the Project.

22. LIMITATIONS ON DAMAGES.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT OR THE LEASE, AND EXCEPT AS PROVIDED IN THIS AGREEMENT IN SECTIONS 10, 19(B) AND 20(B), NEITHER PARTY NOR ANY OF ITS INDEMNIFIED PERSONS SHALL BE LIABLE TO THE OTHER PARTY OR ITS INDEMNIFIED PERSONS FOR ANY SPECIAL, PUNITIVE, EXEMPLARY, INDIRECT, OR CONSEQUENTIAL DAMAGES, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT. FOR GREATER CLARITY, IT IS AGREED BY THE PARTIES THAT THE EARLY TERMINATION PAYMENT AND ANY PAYMENT BY HOST SPECIFICALLY ADDRESSED HEREIN, INCLUDING WITHOUT LIMITATION, UNDER SECTION 10, ARE CONSIDERED DIRECT DAMAGES. FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS PROVIDED IN THIS AGREEMENT, THE LIABILITY OF THE DEFAULTYING PARTY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION AND ALL OTHER DAMAGES ARE HEREBY WAIVED.

Notwithstanding anything to the contrary, Provider's total combined liability to Host under this Agreement and the Lease (whether due to breach of contract, negligence, strict liability or any other cause) shall not exceed, for all claims, a total amount of Provider's commercial general liability policy limit (combined single limit); provided that claims by Host for indemnity related to third-party claims as provided under Section 15(a) shall not be subject to such limit.

23. DISPUTE RESOLUTION.

(a) Negotiation Period. The Parties shall negotiate in good faith and attempt to resolve any dispute, controversy or claim arising out of or relating to this Agreement (a "**Dispute**") within 30 days after the date that a Party gives written notice of such Dispute to the other Party, except that a Party may seek injunctive relief to prevent irreparable harm without first proceeding or completing any dispute resolution proceedings.

(b) Jurisdiction, Venue, and Jury Trials. If despite the efforts, if any, to negotiate, the Parties do not resolve the Dispute within the negotiation period described above, then each Party irrevocably consents to the exclusive jurisdiction of the state and federal courts sitting in Massachusetts, in connection with any action related to the Dispute. Each Party agrees that process may be served upon it in any manner authorized by such courts and that it waives all objections which it might otherwise have to such jurisdiction and process. Further, each Party irrevocably waives all of its rights to a trial by jury with respect to any such action.

(c) Survival of Dispute Provisions. The provisions of this Section 23 and Section 25 shall survive any termination of this Agreement and shall apply (except as provided herein) to any disputes arising out of this Agreement.

24. NOTICES.

Delivery of Notices. All notices or other communications which may be or are required to be given by any Party to any other Party pursuant to this Agreement shall be in writing and shall

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; transmitted by email if receipt of such transmission by email is specifically acknowledged by the recipient (automatic responses not being sufficient for acknowledgement), addressed as follows:

If to Host:

City of Melrose
562 Main St
Melrose, MA 02176
Attention: City Solicitor Shannon Phillips
Email: sphillips@cityofmelrose.org

If to Provider:

Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, Massachusetts 01748
Attention: Legal Notices
Email: legal@solect.com

Notices shall be effective when delivered (or in the case of email, when acknowledged by the recipient) in accordance with the foregoing provisions, whether or not (except in the case of email transmission) accepted by, or on behalf of, the Party to whom the notice is sent.

Each Party may designate by Notice in accordance with this section to the other Party a new address to which any notice may thereafter be given.

25. MISCELLANEOUS.

(a) Governing Law. This Agreement shall be governed by the laws of the Commonwealth of Massachusetts, without regard to principles of conflicts of law, and including principles of good faith and fair dealing that will apply to all dealings under this Agreement.

(b) Rules of Interpretation. Section headings are for convenience only and shall not affect the interpretation of this Agreement. References to sections are, unless the context otherwise requires, references to sections of this Agreement. The words "hereto", "hereof" and "hereunder" shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The word "person" shall include individuals; partnerships; corporate bodies (including but not limited to corporations, limited partnerships and limited liability companies); non-profit corporations or associations; governmental bodies and agencies; and regulated utilities. The word "including" shall be deemed to be followed by the words "without limitation". In the event of any conflict between the text of this Agreement and the contents of an exhibit hereto, the text of this Agreement shall govern.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(c) Severability. If any non-material part of this Agreement is held to be unenforceable, the rest of the Agreement will continue in effect. If a material provision is determined to be unenforceable and the Party which would have been benefited by the provision does not waive its unenforceability, then the Parties shall negotiate in good faith to amend the Agreement to restore to the Party that was the beneficiary of such unenforceable provision the benefits of such provision. If the Parties are unable to agree upon an amendment that restores the Party's benefits, the matter shall be resolved under Section 23, and the court will modify the unenforceable provision in order to restore to the Party that was the beneficiary of the unenforceable provision the economic benefits of such provision.

(d) Amendment and Waiver. This Agreement may only be amended by a writing signed by both Parties. Any waiver of any of the terms hereof shall be enforceable only to the extent it is waived in a writing signed by the Party against whom the waiver is sought to be enforced. Any waiver shall be effective only for the particular event for which it is issued and shall not constitute a waiver of a subsequent occurrence of the waived event nor constitute a waiver of any other provision hereof, at the same time or subsequently.

(e) Assignment. Except as provided in Section 21(a), neither Party may assign, sell, transfer or in any other way convey its rights, duties or obligations under this Agreement, either in whole or in part, without the prior written consent of the other Party which consent shall not be unreasonably withheld or delayed, except that without consent of Host, Provider (i) may assign its rights and obligations hereunder to an Affiliate of Provider and (ii) may sell or collaterally assign this Agreement in accordance with Section 21. For purposes of this Section 25(e), transfer does not include any sale of all or substantially all of the assets of Provider or Host or any merger of Provider or Host with another person, whether or not Provider or Host is the surviving entity from such merger, or any other change in control of Provider or Host, provided any such surviving entity assumes all obligations of Provider or Host, as appropriate, under this Agreement.

(f) No Joint Venture. This Agreement does not create a joint venture, partnership or other form of business association between the Parties.

(g) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of signature by fax, or scan delivered by email, receipt acknowledged, or electronic signature are effective to bind a Party hereto.

(h) Relation of the Parties. The relationship between Provider and Host shall not be that of partners, agents, or joint ventures for one another, and nothing contained in the Agreement shall be deemed to constitute a partnership or agency agreement between them for any purposes, including federal income tax purposes. Provider and Host, in performing any of their obligations hereunder, shall be independent contractors or independent parties and shall discharge their contractual obligations at their own risk.

(i(i) CORI. With respect to Projects to be installed at Massachusetts public schools, the Host shall have the right to conduct a check of the Criminal Offender Record Information (CORI)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintained by the Massachusetts Criminal History Board, and the Massachusetts Sex Offender Record Information (SORI) maintained by the Massachusetts Sex Offender Registry Board, for any officer or employee of the Provider or of a subcontractor of the Provider who will work at the Premises. Notwithstanding any other provision of the Agreement, the Host may refuse to allow any such employee to work on the project if the Host, in its sole discretion, determines that such employee is not suitable for work on the project based on the results of such CORI or SORI. The Host shall keep such information in a confidential file. With respect to Projects to be installed at public schools in other states, similar criminal offender and sex offender information maintained by the state shall apply, and Host shall have discretion regarding employment of such registered offenders.

(j) Notwithstanding anything in this Agreement to the contrary, Host shall have no obligation to assign to Provider any right or interest which gives the Provider greater rights or interests in the Premises or any other property owned or controlled by the Host than the rights and interests contemplated in this Agreement.

(rest of page left blank intentionally – signatures appear on next page)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

IN WITNESS WHEREOF, intending to be legally bound hereby, Provider and Host have executed this Power Purchase Agreement as of the date first set forth above.

GLOSSARY OF TERMS

"Access Rights" means the rights more fully described in the Lease for Provider and its designees, including Installer, to enter upon and cross the Site to install, operate, maintain, repair and remove the Project, and to interconnect the Project with the Local Electric Utility and to provide water, electric and other services to the Project.

"Affiliate" means, as to any Person, any other Person which, directly or indirectly, is in control of, is controlled by, or is under common control with, such Person. For purposes of this definition, "control" of a Person means the power, directly or indirectly, to direct or cause the direction of the management and policies of such Person whether by contract or otherwise.

"Agreement" means this Power Purchase Agreement, including all exhibits attached hereto, as the same may be amended from time to time in accordance with the provisions hereof.

"Applicable Law" means any constitutional provision, law, statute, rule, regulation, ordinance, treaty, order, decree, judgment, decision, certificate, holding, injunction, registration, license, franchise, permit, authorization, or guideline issued by a Governmental Authority that is applicable to a Party to this Agreement or the transaction described herein. Applicable Law also includes an approval, consent or requirement of any Governmental Authority having jurisdiction over such Party or its property, enforceable at law or in equity.

"Applicable Solar Program" means the state laws, rules, and regulations that govern the solar incentives, rights and obligations (e.g., SMART), as may be amended from time to time, by the authorities having legal jurisdiction where the Project will be installed and where the benefits will be realized.

"Avoided Energy Price" means the rate, expressed in $/kWh, set forth in Exhibit A for purposes of calculating any credits owed to Host pursuant to Section 5(b). The Year 1 Avoided Energy Price shall be the average applicable tariff rate per kWh, at the time of execution of the Power Purchase Agreement, that Host would have paid for full requirements delivered electric service (which shall include energy-related charges such as delivery, service, distribution, or taxes, but excluding demand and other related charges) from its Local Electric Utility, with a 3% annual escalation rate applied to each subsequent Guarantee Year.

"Business Day" means a day other than Saturday, Sunday, or other day on which commercial banks in Massachusetts are authorized or required by law to be closed.

"Capacity Value" means such capacity value as determined by market rules established by ISO-NE. Provider is the owner of the capacity value of the Project and shall have the right to participate in ISO-NE's Forward Capacity market at their discretion through an aggregator or as an ISO-NE Market Participant. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Change in Law" means that after the date of this Agreement, an Applicable Law is amended, modified, nullified, suspended, repealed, found unconstitutional or unlawful, or changed or affected in any material respect by any Applicable Law. Change in Law does not include changes in federal or state income tax laws. Change in Law does include material changes in the interpretation of an Applicable Law.

"Commercial Operation Date" means the date, which shall be specified by Provider to Host pursuant to Section 4(d), when the Project is physically complete and has successfully completed all performance tests and satisfies the interconnection requirements of the Local Electric Utility.

"Confidential Information" means information of a confidential or proprietary nature, whether or not specifically marked as confidential. Such information shall include, but not be limited to, any documentation, records, listing, notes, data, computer disks, files or records, memoranda, designs, financial models, accounts, reference materials, trade-secrets, prices, strategic partners, marketing plans, strategic or other plans, financial analyses, customer names or lists, Project opportunities and the like, provided however that Confidential Information does not include information which (i) was in the possession of the receiving Party before receipt from the disclosing Party; (ii) is or becomes publicly available other than as a result of unauthorized disclosure by the receiving Party; (iii) is received by the receiving Party from a third party not known by the receiving Party with the exercise of reasonable diligence to be under an obligation of confidentiality respecting the information; or (iv) is independently developed by the receiving Party without reference to information provided by the disclosing Party; or, if applicable (v) is the subject of a lawful disclosure request under the Public Records Law, M.G.L. c.66, §10 or any other applicable public disclosure laws governing Host.

"Construction Start Date" means sixty (60) days after receipt of (i) executed interconnection agreement for the Project and (ii) all permits, which shall be extended day-by-day for Force Majeure Events.

"Delay Liquidated Damages" means the daily payment of (i) $0.250/day/kW, not to exceed $15/kW in the aggregate, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date in accordance with and subject to Section 2(e).

"Dispute" means a controversy or claim arising out of or relating to this Agreement.

"Early Termination Amount" (a) for terminations occurring after the first to occur of transfer of the Project to a Financing Party or the Commercial Operation Date, means an amount determined in accordance with Exhibit B, as of the applicable anniversary date set forth thereon, which includes all lost revenues from the sale or utilization of electrical energy, Environmental Attributes, or Tax Attributes, provided however, (b) in the event Host becomes liable for payment of the Early Termination Amount prior to the first to occur of the events listed in (a), Host shall instead pay to Provider a termination payment equal to the sum of the following, not to exceed the Early Termination Amount for Year 1 set forth in Exhibit B: (1) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to third parties for permits, interconnection application fees and studies,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

SMART incentives and other Governmental Authority and Utility approvals; and (2) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to subcontractors and suppliers as of the termination date for design, engineering and procurement of equipment and other materials included in the Project, including any battery energy storage system and including the expenses and cancellation charges reasonably incurred and paid by Provider in termination of contracts and purchase orders pertaining to the System and the Installation Work; and (3) charges for Provider's internal engineering manpower and materials reasonably expended developing the Project up to the termination date based on Provider's labor rate sheet attached hereto as Exhibit H, which may be reasonably adjusted for inflation (in writing) on an annual basis, and, in the case of the costs described in sub-clauses (1) and (2) only, plus an amount equal to eighteen percent (18%) of such costs.

"Effective Date" shall have the meaning assigned to such term in the recitals.

"Electric Service Provider" means any person, including the Local Electric Utility, authorized by the Commonwealth of Massachusetts to provide electric energy and related services to retail users of electricity in the area in which the Site is located.

"Environmental Attributes" means Renewable Energy Certificates, carbon trading credits, emissions reductions credits, emissions allowances, green tags, Green-e certifications, or other entitlements, certificates, products, or valuations attributed to the Project and its displacement of conventional energy generation, or any other entitlement pursuant to any federal, state, or local program applicable to renewable energy sources, whether legislative or regulatory in origin, as amended from time to time, and excluding, for the avoidance of doubt, any Tax Attributes and the Applicable Solar Program.

"Estimated Annual Production" means the annual estimate of electricity generated by the Project for any given year. The Estimated Annual Production for each year of the Term is set forth in Exhibit F.

"Expiration Date" means the date on which the Agreement terminates by reason of expiration of the Term.

"Fair Market Value" means the price that would be paid in an arm's length, free market transaction, in cash, between an informed, willing seller and an informed, willing buyer (who is neither a lessee in possession nor a used equipment or scrap dealer), neither of whom is under compulsion to complete the transaction, taking into account, among other things, the age and performance of the Project and advances in solar technology, provided that installed equipment shall be valued on an installed basis and costs of removal from a current location shall not be a deduction from the valuation.

"Financing Party" means a Project Lessor or Lender.

"Force Majeure Event" means any act or event that prevents the affected Party from performing it obligations in accordance with this Agreement, if such act or event is beyond the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

reasonable control, and not the result of the fault or negligence, of the affected Party and such Party had been unable to overcome such act or event with the exercise of due diligence (including the expenditure of reasonable sums). Subject to the foregoing, Force Majeure Event may include but are not limited to the following acts or events: (i) natural phenomena, such as storms, hurricanes, floods, lightning and earthquakes; (ii) explosions or fires arising from lightning or other causes unrelated to the acts or omissions of the Party seeking to be excused from performance; (iii) acts of war or public disorders, civil disturbances, riots, insurrection, sabotage, declared state of emergency or public health emergency, pandemic, government mandated quarantine or travel ban, epidemic, terrorist acts, or rebellion; (iv) acts or omissions of Governmental Authorities, including the Local Electric Utility to the extent not caused by the action or inaction of Provider; and (v) strikes or labor disputes (except involving employees of the affected Party). Force Majeure Events shall not include equipment failures or acts or omissions of agents, suppliers or subcontractors, except to the extent such acts or omissions arise from a Force Majeure Event. Changes in prices for electricity shall not constitute Force Majeure Events.

"Governmental Authority" means any international, national, federal, provincial, state, municipal, county, regional or local government, administrative, judicial or regulatory entity operating under any Applicable Laws and includes any department, commission, bureau, board, administrative agency or regulatory body of any government.

"Guaranteed Commercial Operation Date" means 270 days from the Construction Start Date, which shall be extended day-by-day for Force Majeure Events and for other events outside of Provider's reasonable control.

"Hazardous Materials" means all hazardous or toxic substances, wastes or other pollutants, including petroleum, petroleum hydrocarbons or petroleum products, petroleum by-products, radioactive materials, asbestos or asbestos-containing materials, gasoline, diesel fuel, pesticides, radon, urea formaldehyde, lead or lead-containing materials, polychlorinated biphenyls; and any other chemicals, materials, substances or wastes in any amount or concentration which are now included in the definition of "hazardous substances," "hazardous materials," "hazardous wastes," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutants," "regulated substances," "solid wastes," or "contaminants" or words of similar import, under any Applicable Law.

"Host" means the entity identified as Host in the recitals, and all successors and assigns.

"Indemnified Person" means the person who asserts a right to indemnification under Section 15.

"Indemnifying Party" means the Party who has the indemnification obligation under Section 15 to the Indemnified Person.

"Initial Period" has the meaning provided in Section 2.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Installation Work" means the construction and installation of the Project and the start-up, testing and acceptance (but not the operations and maintenance) thereof, all performed by or for Provider at the Premises.

"Installer" means Solect Energy Development, LLC, the person designated by Provider to install the Project on the Premises.

"Land Registry" means the office where real estate records for the Site are customarily filed.

"Lease" has the meaning provided in the Recitals hereof.

"Lender" means persons providing construction or permanent financing to Provider in connection with installation of the Project.

"Liens" has the meaning provided in Section 8(c).

"Local Electric Utility" means the entity authorized and required under Applicable Law to provide electric distribution service to Host at the Site.

"Losses" means any and all losses, liabilities, claims, demands, suits, causes of action, judgments, awards, damages, cleanup and remedial obligations, interest, fines, fees, penalties, costs, and expenses (including all attorney's fees and other costs and expenses incurred in defending any such claims or matters or in asserting or enforcing any indemnity obligation).

"Net Metering" means the process of measuring the difference between electricity delivered by a Local Electric Utility to a customer and electricity generated by a solar system and fed back to the Local Electric Utility, as set forth in Applicable Law.

"Net Metering Credit" shall mean the monetary value of the excess electricity generated by a Project, and credited to the Host by the Local Electric Utility, as set forth in Applicable Law.

"Operations Period" has the meaning provided in Section 2.

"Operations Year" means a twelve month period beginning at 12:00 am on an anniversary of the Commercial Operations Date and ending at 11:59 pm on the day immediately preceding the next anniversary of the Commercial Operations Date, provided that the first Operations Year shall begin on the Commercial Operations Date.

"Party" means either Host or Provider, as the context shall indicate, and "Parties" means both Host and Provider, collectively.

"Point of Delivery" has the meaning set forth in Section 5(a) and Exhibit E.

"Premises" means the portions of the Site described on Exhibit D.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Production Excess" has the meaning set forth in Section 7(b)(i).

"Project" means an integrated system for the generation of electricity from solar energy consisting of the photovoltaic panels and associated equipment to be installed on each of the Premises in accordance with this Agreement.

"Project Lessor" means, if applicable, any Person to whom Provider transferred the ownership interest in the Project, subject to a leaseback of the Project from such Person.

"Provider" means Solect Energy Development LLC.

"Relocation Event" means the relocation of the Project, starting at the shutdown of the Project pursuant to such relocation, and ending at the commercial operation of the Project when such relocated Project is reinstalled at a new location, as determined by the Provider in its reasonable discretion.

"Renewable Energy Certificate" or "REC" means a certificate, credit, allowance, green tag, or other transferable indicia, howsoever entitled, created by an applicable program or certification authority indicating generation of a particular quantity of energy, or product associated with the generation of a megawatt-hour (MWh) from a renewable energy source by a renewable energy Project.

"SMART Incentive Payment Effective Date" means the date on which the SMART incentive payment becomes effective as determined by the Local Electric Utility.

"Site" means the real property described on Exhibit C attached hereto.

"Tax Attributes" means the investment tax credits (including any grants or payments in lieu thereof) and any tax deductions or other benefits under the Internal Revenue Code or applicable federal, state, or local law available as a result of the ownership and operation of the Project or the output generated by the Project (including, without limitation, tax credits (including any grants or payments in lieu thereof) and accelerated and/or bonus depreciation.)

"Term" shall have the meaning provided in Section 2 hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A

ENERGY PURCHASE PRICES

The PPA $/kWh rates set forth in this Exhibit A are dependent on Provider's good faith assumptions around the Pricing Elements set forth below, and are in accordance with the rules of the PowerOptions Solar and Storage Program. The actual SMART Incentive Payment Rate will be established upon receipt of the SMART Statement of Qualification from Massachusetts Department of Energy Resources. Upon receipt of the Statement of Qualifications, Provider shall forward a copy to Host.

Block 10

SMART Incentive Amount	$0.05819
PPA Rate ($/kWh)	$0.1590

Assumptions around Pricing Elements:

- Additional utility interconnection costs. Prices shown include budgeted interconnection costs and exclude costs (if any) for utility engineering studies or system upgrades.
- PPA Rate assumes Project is exempt from personal property tax.
- Prices shown do not include costs required to comply with additional site work, stormwater management infrastructure, environmental compliance or remediation, or Orders of Conditions, as required by local AHJ (i.e. Planning Board, Conservation Commissions).
- Federal investment tax credit amount will reflect the calendar year in which installation begins.
- Steel pricing for ground mounted or canopy structures. A change in price shall be considered material when the price of the applicable steel product or products changes by 5% percent or more between the Effective Date and the Construction Commencement Date based on the benchmark prices published by CME group U.S. Midwest Hot-Rolled Coil Index (CRU), https://www.cmegroup.com/markets/metals/ferrous/hrc-steel.contractSpecs.html or such other steel index as is agreed with PowerOptions.

Variations:

Should the actual values of the Pricing Elements materially differ from the assumed values, Provider will prepare a Final PPA Rate in accordance with the rules of the PowerOptions Solar plus Storage program. Such Final PPA Rate will be provided to Host no later than 20 days prior to the Construction Start Date, and shall automatically take effect provided such Final PPA Rate does not exceed a Maximum PPA Rate of: $0.180 unless the parties have reached agreement on

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

a Final PPA Rate that exceeds the Maximum PPA Rate as determined pursuant to the process described below.

If, upon receipt of all documentation necessary to establish a Final PPA Rate, the Provider determines that the Final PPA Rate exceeds the Maximum PPA Rate, the parties will cooperate in good faith to negotiate a PPA Rate acceptable to both parties. If, after fifteen (15) days, the Parties are not able to agree on an acceptable PPA Rate, Provider may, in its sole discretion, elect to (i) continue performance under this Agreement with the PPA Rate equal to the Maximum PPA Rate, or (ii) terminate this Agreement upon ten (10) days' written notice to Host. Upon a termination hereunder, Host shall reimburse Provider for Provider's direct costs incurred in performing under this Agreement between the Effective Date and the date of such termination.

AVOIDED ENERGY PRICE

The following table sets forth the "Avoided Energy Price" for purposes of calculating the amount on any credit due to the Host under the Performance Guarantee in Section 5(b), with a 2% annual escalation rate.

Guarantee Year	**Avoided Energy Price per kWh**
1	$0.20570
2	$0.20981
3	$0.21401
4	$0.21829
5	$0.22266
6	$0.22711
7	$0.23165
8	$0.23628
9	$0.24101
10	$0.24583
11	$0.25075
12	$0.25576
13	$0.26088
14	$0.26609
15	$0.27142
16	$0.27685
17	$0.28238
18	$0.28803
19	$0.29379
20	$0.29967

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A-1

PILOT AMOUNTS

For purposes of this PPA, the PILOT Amount assumed for each year of the Term is equal to zero dollars ($0.00).

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT B

Early Termination Amounts are calculated to achieve the same net present value for the investor as if early termination had not happened and the project went to full term.

Subject to final PPA Prices in Exhibit A
EARLY TERMINATION AMOUNTS

Year	Early Termination Amount	Early Purchase
1	$328,808	**N/A**
2	$303,048	**N/A**
3	$276,978	**N/A**
4	$267,263	**N/A**
5	$240,520	**N/A**
6	$213,412	**N/A**
7	$185,920	$146,717
8	$174,706	**N/A**
9	$163,064	**N/A**
10	$150,971	$108,133
11	$141,134	**N/A**

Morrill to Cole Discharge

Know all Men by these Presents

That I. Luther W. Morrill the mortgagee named in a certain mortgage given by Barna L Cole to me the said Morrill dated November 16. A.D. 1888 and recorded in Middlesex So Dist Registry of Deeds. libro 1826 folio 342 do hereby acknowledge that I have received from Barna L Cole the mortgagor named in said mortgage full payment and satisfaction of the same and in consideration thereof I do hereby cancel and discharge said mortgage. and release and quitclaim unto the said Barna L Cole and his heirs and assigns forever the premises thereby conveyed. In Witness Whereof I hereunto set my hand and seal this tenth day of July A.D 1888. Luther W. Morrill (seal). Signed and sealed in the presence of } Commonwealth of Massachusetts. Suffolk ss. July 10. 1888. Then personally appeared the above named Luther W. Morrill and acknowledged the foregoing instrument to be his free act and deed before me Henry W. Bragg Justice of the Peace. Middlesex ss. July 12. 1888. Recd & Recorded.

Attest Chas B Stevens Reg

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)
Packet Pg. 1437

EXHIBIT D

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT E

DESCRIPTION OF PROJECT

Point of Delivery is the Local Electric Utility's meter.

The Project will be comprised of a series of solar photovoltaic equipment and parts integrated to the main electric service at the building, behind the utility meter, and interconnected to the Local Electric Utility's electricity distribution system. Main equipment components of the Project include:

- Roughly 190 x 480W Tier 1 Solar modules or equivalent
- Roughly 2 x solar inverters or equivalent
- Ballasted roof racking systems or equivalent
- Rapid shutdown system
- Solar kWh meter and monitoring system, connected to Host-provided internet service
- Combiners, Disconnects, Conduit, Switches, Pipe and Wire, and Balance of System materials.

Equipment list may change during the course of the Project

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT F

ESTIMATED ANNUAL PRODUCTION

Estimated Annual Production commencing on the Commercial Operation Date with respect to Project under the Agreement shall be as follows:

Year	Estimated Production (kWh)	Year	Estimated Production (kWh)
1	105,744	11	100,070
2	105,163	12	99,520
3	104,584	13	98,973
4	104,009	14	98,428
5	103,437	15	97,887
6	102,868	16	97,348
7	102,302	17	96,813
8	101,740	18	96,281
9	101,180	19	95,751
10	100,624	20	95,224

The values set forth in the table above are estimates (and not guarantees), of approximately how many kWhs are expected to be generated annually by the Project.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT G

INSURANCE REQUIREMENTS

1. General Liability

(a) Both Host and Provider will have a minimum level of commercial general liability insurance for the term of the Power Purchase Agreement of one million dollars ($1,000,000) for each occurrence, and two million dollars ($2,000,000) in the aggregate. Insurance coverage shall be at least as broad as the Insurance Services Office (ISO) Commercial General Liability Coverage "occurrence" form, with no coverage deletions.

(b) Both the Host and Provider general liability insurance coverage shall:

(i) Be endorsed to specify that the Provider's and Host's insurance is primary and that any insurance or self-insurance maintained by the Local Electric Utility shall not contribute with it.

2. Workers' Compensation

Host will have Workers' Compensation insurance indicating compliance with any applicable labor codes, acts, laws or statutes, state or federal, at the Site where the work is performed. Employers' Liability insurance shall not be less than $1,000,000 for injury or death each accident.

3. Property Loss

Provider shall carry adequate property loss insurance on the Project which need not be covered by the Host's property coverage. The amount and terms of insurance coverage will be determined at Provider's sole discretion.

4. Additional Insurance Provisions

Host shall furnish Provider with certificates of insurance and endorsements of all required insurance, as may be reasonably requested, including for purposes of compliance with any legal or regulatory authority or Local Electric Utility affecting the Premises or operation of the Project. Insurance required by the Local Electric Utility shall not be canceled except after (30) days prior written notice has been given to the Local Electric Utility.

5. Additional Installation Contractor Requirements

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Installation contractors will have valid commercial general liability, workers compensation, and business auto insurance as follows:

- Commercial general liability insurance will be in the following amounts: $1,000,000 for each occurrence and $2,000,000 aggregate.

- Workers compensation insurance or self-insurance indicating compliance with any applicable labor codes, laws or statutes, state or federal, where Installer performs work.

- Auto coverage not less than one million dollars ($1,000,000) each accident for bodily injury and property damage, and x million dollars ($1,000,000) in the aggregate.

- Excess liability insurance on an occurrence basis covering claims (on at least a following form basis) in excess of the underlying insurance for Commercial General Liability, Auto Liability and Employers' Liability with a minimum limit per occurrence of one million dollars ($1,000,000) and two million dollars ($2,000,000) in the aggregate. The amounts of insurance required for Commercial General Liability, Auto Liability, Employers' Liability and Excess Liability may be satisfied by Installer purchasing coverage in the amounts specified or by any combination of primary and excess insurance, so long as the total amount of insurance meets the requirements specified above.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

LEASE AGREEMENT

This Lease Agreement (this "**Lease**") is entered into as of _____, 20__, (the "**Effective Date**") by and between City of Melrose ("**Host**"), and Solect Energy Development LLC ("**Provider**") a limited liability company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement governing the terms and conditions of Provider's participation in the PowerOptions Solar Programs;

WHEREAS, Host is the owner of the properties located and described in Exhibit A (the "**Site**" or the "**Property**") and desires to make a portion of the Site (said portion of the Site as more fully described in Exhibit B, the "**Premises**") available to Provider for the construction, operation and maintenance of a solar powered electric generating project (the "**Project"**); and

WHEREAS, Host and Provider have entered into a Power Purchase Agreement dated on or about the date hereof (as amended, modified and supplemented from time to time, the "**PPA**") describing the power sales arrangement between the Parties.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Lease not defined herein shall have the meanings set forth in the GLOSSARY OF TERMS attached to the PPA.

2. TERM.

The Term of the Lease shall begin as of the Effective Date and shall continue until 11:59 p.m. on the last day of the month in which the twentieth (20th) anniversary of the SMART Incentive Payment Effective Date occurs. Notwithstanding, in the event that the PPA is terminated prior to the otherwise applicable end of term, this Lease shall also terminate; provided, however, that in the event that the PPA terminates early pursuant to Section 20(c) of the PPA (due to Host Event of Default), and Host does not pay the Early Termination Amount to the Provider, and Provider desires to continue use of the Premises under this Lease, then the Term of this Lease shall continue until the end of the term as set forth above. This Lease may be extended in accordance with the provisions for an extension of the PPA (as more specifically set forth in Section 2 of the PPA). For greater clarity, the parties hereby confirm that Provider shall also have access rights as described in Section 3 hereof, for removal of the Project pursuant to Section 9 (Removal at End of Term) hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

3. LEASE RIGHTS.

(a) Lease Access Specifications; Easement Rights. Host hereby grants Provider and its designees (including Installer) access to the Premises, for the Term and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, at reasonable times and upon reasonable notice (except in situations where there is imminent risk of damage to persons or property), for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and any other purpose set forth in this Lease (the "**Permitted Uses**"), and otherwise in accordance with the provisions of this Lease. The Premises are leased together with the following Access Rights with respect to the Site:

(i) Vehicular & Pedestrian Access. A non-exclusive easement for reasonable vehicular and pedestrian access across the Site to the Premises for the Permitted Uses. In exercising such access Provider shall reasonably attempt to minimize any disruption to activities occurring on the Site.

(ii) Utilities & Communication Cables. The right and easement to locate distribution utility and/or electrical lines, electrical equipment cables, and other related facilities, equipment and improvements across the Site. The location of any such lines and cables shall be subject to Host's approval and shall be at locations that minimize any disruption to Host's activities occurring on the Site. Access will also be provided for telephone and internet connections on the Premises for use by Provider in installing, operating and maintaining the Project.

(iii) Solar Easement. An easement to receive direct sunlight and solar energy, pursuant to which Host shall not construct new buildings or structures or install rooftop equipment, or plant new trees or vegetation of any type which now or hereafter, in Provider's reasonable opinion, may be a hazard to the Project, overshadow or otherwise block or interfere with sunlight access to the Project at all hours of the day. The solar easement granted herein includes rights of unobstructed sunlight, and in furtherance thereof, the Parties have included provisions regarding trimming of vegetation and removal of obstructions which could impair insolation of the Project.

(iv) Interconnection Easement. An exclusive right to construct, operate, maintain, reconstruct, relocate, remove, and/or repair the electric utility service infrastructure and associated wires, lines and poles and other infrastructure necessary and convenient to interconnect the Project to the Local Electric Utility electrical distribution system, across portions of the Property to be determined by the Local Electric Utility, subject to the consent of Host and Provider, such consent not to be unreasonably withheld, conditioned or delayed. Provider shall bear all costs associated with interconnection, including fees, permits, taxes and charges.

(b) Quiet Enjoyment of Premises. Host hereby leases the Premises to Provider and Provider leases the Premises from Host for the Permitted Uses for the Term. Provided that Provider remains in compliance with its obligations under this Lease, Provider shall lawfully and

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

quietly have, hold, occupy and enjoy the Premises, use of the Easements and Access Rights, and any other rights granted by this Lease twenty-four hours a day, seven days a week, for the entire Term free of any claim of any person of superior title thereto without hindrance, interruption, suit, or interference of any kind by Host or any other person or entity claiming (whether at law or in equity) by, through, or under Host.

(c) Access to Premises. For the Term of this Lease, Host hereby grants to Provider the rights necessary for Provider to use and occupy portions of the Premises for the installation, operation, maintenance, repair, and removal of the Project pursuant to the terms of this Lease, including ingress and egress rights to the Premises for Provider and its employees, contractors and subcontractors and access to electrical panels and conduits to interconnect or disconnect the Project with the Premises' electrical wiring. Host hereby covenants that (i) Provider shall have access to the Premises and Project during the Term of this Lease and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, and (ii) Host shall not interfere or handle any Provider equipment or the Project without written authorization from Provider; provided, however, that Host shall at all times have access to and the right to observe the Installation Work or Project removal.

(d) No Interference. Host agrees not to conduct activities on, in or about the Property that have a reasonable likelihood of causing damage or impairment to, or otherwise adversely affecting, the Project. Host shall take reasonable steps to limit access to the Project to prevent theft, damage, vandalism and injury. Host and Provider agree to cooperate to determine if any commercially reasonable security measures are required at the Property. Provider shall have the right to provide and install such reasonable security measures, as Host and Provider deem in their reasonable discretion, are or may be necessary for the protection of the Project or to prevent injury or damage to persons or property, subject in all cases to Host's normal security procedures and Provider's Access Rights.

(e) Storage Space. Host shall provide temporary space at the Property for the storage and staging of tools, materials and equipment and for the parking of construction crew vehicles and temporary construction trailers and facilities reasonably necessary during the Installation Work, service events during the Term, or Project removal, and access for rigging and material handling. Provider shall be responsible for providing shelter and security for stored items during construction and installation.

(f) Recording. Provider may record a Notice of this Lease in substantially the same form attached hereto as Exhibit C in the land records regarding its Access Rights under this Lease.

4. HAZARDOUS MATERIALS; SITE SECURITY; SITE CONDITIONS.

(a) Hazardous Materials. Provider and Installer are not responsible for any Hazardous Materials encountered at the Site except to the extent introduced and negligently released by Provider or Installer. Upon encountering any Hazardous Materials, Provider and Installer will stop work in the affected area and duly notify Host and, if required by Applicable Law, any Governmental Authority with jurisdiction over the Site. Upon receiving notice of the presence of suspected Hazardous Materials at the Site, Host shall take all measures required by Applicable

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Law to address the Hazardous Materials discovered at the Site. Host may opt to remediate the Site so that the Project may be installed on the Site, or determine that it is not economically justifiable or is otherwise impractical to remediate the Site, in which case Host and Provider may agree upon a different location for the Project whereupon such replacement location shall be the Site for purposes of this Lease. Provider and Installer shall be obligated to resume work at the affected area(s) of the Site only after Host notifies Provider and Installer that Host has complied with all Applicable Laws, and causes to be delivered to Provider from an authorized Governmental Authority or a qualified independent expert a written certification that (i) remediation has been accomplished as required by Applicable Law and (ii) all necessary approvals have been obtained from any Governmental Authority having jurisdiction over the Project or the Site. Host shall reimburse Provider for all additional costs incurred by Provider or Installer in the installation of the Project resulting from the presence of and/or the remediation of Hazardous Materials, including demobilization and remobilization expenses. Notwithstanding the preceding provisions, Host is not responsible for any Hazardous Materials introduced to the Site by Provider or Installer and released as a result of the negligence of Provider or Installer, nor is Host required to remediate an affected area if such remediation is deemed to be economically unjustifiable or otherwise impractical.

(b) Site Security. Host will provide security for the Project to the extent of its normal security procedures, practices, and policies that apply to the Property. Host will advise Provider immediately upon observing any damage to the Project. Upon request by Provider, such as Provider receiving data indicating irregularities or interruptions in the operation of the Project, Host shall, as quickly as reasonably practicable, send a person to observe the condition of the Project and report back to Provider on such observations. Notwithstanding anything to the contrary, except in the case of gross negligence or willful action/inaction on the part of Host's security, Provider shall bring no claim against Host based upon performance of Host's security personnel.

(c) Host shall not be required to make any repairs or alterations in or to the Site, except as follows: Complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) The Parties agree that Provider shall not be liable for any conditions on the Site arising from or related to acts or omissions occurring prior to the Effective Date, except to the extent arising from or related to Provider's negligence or willful misconduct or to the extent that such conditions on the Site are exacerbated by the Provider or Installer.

5. CONSTRUCTION; OPERATION OF PERMITTED USES; ROOF.

(a) Provider and its contractors, agents, consultants, and representatives shall have reasonable access at all reasonable times to the Site for the Permitted Uses, and to any documents, materials and records of Host relating to the Site that Provider reasonably requests in conjunction with these activities. Provider, and its contractors, agents, consultants and representatives shall comply with Host's reasonable safety and security and operational procedures (as may be promulgated from time to time), and Provider and its contractors, agents, consultants and representatives shall conduct such activities in such a manner and at such a time and day as to cause minimum interference with Host's activities at the Site.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider shall operate, maintain, and repair the Project in a manner that will not obstruct or interfere with Host's use of the Site or the rights of any other occupants of the Site, to the extent such rights are disclosed to Provider.

(c) For rooftop projects only:

(i) Provider shall install the Project in a manner that will not void the roof warranty, provided Host has provided such warranty, in writing

(ii) The Parties agree to the following with respect to repairs to the roof to be made prior to the commencement of construction: Host shall perform complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) Host has provided to Provider Host's available records of the physical condition of the Premises which, to the best of Host's knowledge, are complete and correct. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project is to be installed, are materially different from the information provided by Host, then the Parties shall negotiate in good faith to adjust the rates payable by Host in order to compensate Provider for the cost of design and construction changes and delays incurred to adapt the Project to the unknown conditions and, if the parties cannot agree to a good faith rate adjustment after thirty (30) days, Provider shall have the right to terminate this Lease and the PPA.

(e) Except with the prior express written consent of Host, Provider shall not use the Premises for any use other than the Permitted Uses.

(f) During the course of construction and completion of the Project and any substantial alteration thereto, Provider shall maintain all plans, shop drawings, and specifications relating to such construction which Host, its agents or representatives may examine at reasonable times upon reasonable prior notice for the purpose of determining whether the work conforms to the PPA and this Lease.

(g) Host has been informed by Provider and acknowledges that the presence of and construction and operation of the Project and other activities related to the development, operation and decommissioning of the Project may potentially result in some nuisance to Host, such as visual impact. Host hereby accepts such nuisance and waives any right that Host may have to object to such nuisance and Host releases Provider from any claims Host may have with respect to any such nuisance, provided the Project as built is consistent with the site plan and specifications attached hereto, as amended from time to time, or otherwise approved by Host, which approval shall not be unreasonably withheld, conditioned or delayed.

(h) For rooftop projects only, Host shall, at its sole cost and expense, throughout the Term, maintain, repair and replace in a good and workmanlike manner as and when necessary, the building on which the Project is installed, including all building structural portions, and portions of the Property subject to Access Rights. Host shall perform all maintenance, repairs and replacements required under this subsection (h) (collectively, the "**Maintenance**") promptly after

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Host learns of the need for such Maintenance, but in any event within thirty (30) days after Provider gives written notice to Host of the need for such Maintenance, and shall coordinate any Maintenance with Provider if such Maintenance requires access to the Premises; provided, however, that in cases of emergency, Host shall perform Maintenance as soon as reasonably practicable after it learns of the need for such Maintenance. Host shall reimburse Provider for any damage to the Project caused by Host's Maintenance activities.

(i) Provider covenants and agrees to perform all work, including the construction, alteration (if permitted), repair and maintenance of the Project in a good and workmanlike manner and in such a way as to minimize noise, dust and interference with the operation, use and enjoyment of the Property by Host, or by other tenants, visitors or users of the Property.

(j) Provider shall, at Provider's expense, comply with all laws and regulations applicable to Provider's installation and operation of the Project at the Property, and shall be responsible for obtaining all permits or approvals required by any applicable authority in order to construct and operate the Project, and to comply, at all times during the term of this Lease, with all such permits and approvals.

(k) Provider covenants and agrees to keep the Project in good order, repair and condition throughout the Term, and to promptly and adequately repair all damage to the Premises and the Property caused by Provider or the Project. During the Term, any and all installation and construction work performed on the Property by Provider shall be conducted in a manner to comply with any requirements of any roof warranty delivered to Provider by Host (provided, however, in the event of a roof warranty that is not existing as of the Effective Date, Provider shall comply with such requirements to the extent that they do not interfere with Provider's use of the Project).

(l) Provider shall not bring into or install or keep on the Premises, any objects, including the Project, the weight of which, singularly or in the aggregate, would exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof, as required by local building code. Provider shall engage an engineer licensed and qualified where the Project is located to certify the same to Host before Provider shall install, affix or place any part of the Project upon the Premises, with a copy of such certification to be provided to the Host.

(m) The Provider shall not make any alterations, improvements and/or additions to the Site, except as shown on the plans approved by Host as of the Effective Date, without first obtaining, in each instance, the written consent of the Host, which consent shall not be unreasonably withheld, delayed or conditioned.

(n) Provider acknowledges and agrees that the Premises are being leased by Provider in their condition as of the delivery date, "As Is," without representation or warranty except for the express representations and warranties made by Host in this Lease and in the PPA, and Provider hereby waives any implied warranty that the Site is habitable or suitable for Provider's intended purposes or any other particular purpose. Provider acknowledges that Provider has inspected the Premises, and that by commencing construction of the Project, Provider will be deemed to have

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

found the same satisfactory. Provider agrees that Host is under no obligation to perform any work or provide any materials to prepare the Premises for Provider, except as set forth in Section 4(c) of this Lease.

6. RENT. In lieu of monetary rent, the consideration for this Lease is the terms of the PPA.

7. INTENTIONALLY OMITTED.

8. PERMITS, OWNERSHIP OF PROJECT, LIENS, MORTGAGES.

(a) Permits. Provider shall pay for and obtain all approvals from governmental entities necessary for the construction and operation of the Project, including land use permits, building permits, demolition and waste disposal permits and approval. Host shall cooperate in good faith with Provider and shall execute any such applications promptly upon request by Provider, and shall not unreasonably oppose or interfere with Provider in such regard. Provider shall provide Host with copies of all permits obtained in the approval process of the Project.

In furtherance of the above, Host hereby authorizes Provider to file with such federal, state and local authorities as Provider deems appropriate, and in the name of Host, Provider or both, as Provider deems appropriate (i) one or more applications to obtain any zoning relief regarding the Property or portions thereof as may be necessary and/or desirable to develop, construct and operate the Project on the Premises; and (ii) one or more applications to obtain construction, use or occupancy permits for the Project or any portion thereof.

(b) Project Ownership. Provider or Financing Party shall be the legal and beneficial owner of the Project at all times. The Project is personal property and shall not attach to or be deemed a part of, or fixture to, the Site. The Project shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. Host covenants that it will place all persons having an interest in or lien upon the real property comprising the Premises, on notice of the ownership of the Project and the legal status or classification of the Project as personal property. Host and/or Provider shall make any necessary filings to disclaim the Project as a fixture of its respective Premises and Site in the appropriate Land Registry to place all interested parties on notice of the ownership of the Project by Provider.

(c) Liens. To the extent permitted by Applicable Law, each Party shall not directly or indirectly cause, create, incur, assume or suffer to exist any mortgage, pledge, lien, (including mechanics', labor or materialman's lien), charge, security interest, encumbrance or claim of any nature, including claims by governmental authorities for taxes (collectively referred to as "Liens" and each, individually, a "Lien") on or with respect to the interests of the other in the Site, the Premises, and the Project, and in the Access Rights granted hereunder. Provider shall, to the extent allowed under Applicable Law, have Installer execute lien waivers with respect to any mechanic's or materialman's lien against Host's interest in the Site. If permitted under Applicable Law, Host will post notices of non-responsibility to notify Installer and others that Host is not responsible for work performed on the Project. Each Party shall promptly notify the other of the imposition of a Lien on the property interests of the other Party, and shall promptly discharge such lien, provided however, that a Party may seek to contest the amount or validity of any Lien affecting the property

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

of the other Party, provided it timely complies with all procedures for contesting such Lien, posts any bond or other security necessary under such procedures, and if such procedures do not require the posting of security, the Party establishes for the benefit of the other Party a deposit, letter of credit, or other security acceptable to the other Party to indemnify the other Party against any Loss which could reasonably be expected to arise if such Lien is not removed or discharged.

(d) Non Disturbance Agreements. Host shall pay for and obtain all consents required for it to enter into and perform its obligations under this Lease from its lenders, landlord, tenants, and any other persons with interests in the Site. If there is any mortgage, deed of trust, fixture filing or ground lease or similar encumbrance (a "**Mortgage**," and the holder thereof from time to time the "**Holder**") encumbering the Property, whether executed and delivered prior to or subsequent to the date of this Lease, Host shall, promptly upon request of Provider, use commercially reasonable efforts to cause the Holder of any such Mortgage to enter into a mutually agreeable nondisturbance agreement, which provides that (i) this Lease is subordinate to the Mortgage (unless the Holder shall elect otherwise); (ii) in the event that the Holder or any other party shall succeed to the interest of Host (such Holder or other party, a "Successor"), at the election of the Holder or Successor, Provider shall attorn to the Holder or Successor and this Lease shall continue in full force and effect between the Holder or Successor and Lessee; (iii) in the event of foreclosure of the Mortgage, so long as the Provider is not in default with the Lease after any applicable cure period, Holder agrees to recognize the rights of the Provider under this Lease, including Provider's Access Rights and the priority of Provider's (and/or Financing Party's rights) in the Project; and (iv) Holder or Successor recognizes that the ownership of the Project remains in Provider and acknowledges that the Project is personal property of Provider. Such nondisturbance agreement shall be substantially in the form attached hereto as Exhibit D or in the form customarily used by Holder, and it shall be recorded, at Host's expense, in the appropriate Land Registry. If Host is the fee owner of the Premises, Host consents to the filing of a disclaimer of the Project as a fixture of the Premises in the Land Registry. If Host is not the fee owner, Host will obtain such consent from such owner of the Premises.

9. REMOVAL AT END OF TERM.

Subject to Host's exercise of its purchase option under Section 9(a) or 9(b) of the PPA, upon the expiration or earlier termination of the Lease, Provider shall, at Provider's expense, remove all of its tangible property comprising the Project from the Premises on a mutually convenient date but in no case later than one hundred eighty (180) days after the Expiration Date, which may be extended on a day to day basis if the circumstances warrant and are agreeable to the Parties. The Premises shall be returned to its original condition except for ordinary wear and tear. If the Project is to be located on a roof, then in no case shall Provider's removal of the Project affect the integrity of Host's roof, which shall be as leak proof as it was prior to installation of Project (other than ordinary wear and tear). For purposes of Provider's removal of the Project, Host's covenants pursuant to Section 3 (Lease Rights) and Section 16 (Representations and Warranties) shall remain in effect until the date of actual removal of the Project. Provider shall leave the Premises in neat and clean order. If Provider fails to remove or commence substantial efforts to remove the Project by such agreed upon date, Host shall have the right, at its option, to remove the Project to a public warehouse and restore the Premises to its original condition (other than ordinary wear and tear) at Provider's reasonable cost.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

10. RELOCATION; CLOSURE OR SALE OF SITE.

Sections 10(c) (Relocation) and 10(e) (Sale of Site) of the PPA are incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

11. TAXES.

Section 11 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease.

12. INSURANCE.

Section 12 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

13. COOPERATION; SOLAR ACCESS; FUTURE IMPROVEMENTS; RIGHT TO INSPECT AND ENTER.

(a) Cooperation. Section 13(a) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein. Additionally, Host shall execute and deliver to Provider and/or the Local Electric Utility any agreements required by Local Electric Utility for the interconnection of the Project with the Local Electric Utility's distribution system.

(b) Host to Not Restrict Solar Access. Host, or any lessee, grantee, invitee or licensee of Host, shall not erect any structures on, or make other modifications to, or plantings on, or engage in any activities on, the Site which will interfere with the construction, operation or maintenance of, or solar access of, the Project. Further, Host shall maintain the Premises in a manner which allows for full unobstructed passage of sunlight to the Project, including removing or trimming vegetation or other objects causing shading of the Premises. Provided, however, for rooftop projects, Host may construct, reconstruct, modify, or alter the Premises so long as such activities do not interfere (including shading) with the operation of the Project. Host's failure to comply with its obligations in this section 13(b) shall be a material breach. Provided, however, Host shall have thirty (30) days to cure such breach.

(c) Provider's Right to Remove. The parties hereby acknowledge that Provider shall have the right (but shall not be obligated) to trim or remove, at Host's reasonable cost, any trees or other vegetation now or hereafter on the Site which now or hereafter in the reasonable opinion of Provider may overshadow or otherwise block or interfere with access of sunlight to the Project.

(d) Adjoining Properties. If Applicable Law and existing easements do not ensure that structures or plantings on adjoining property will not interfere with the solar access for the Project, then Host and Provider shall use commercially reasonable efforts to obtain from owners of adjoining properties any easements reasonably necessary to protect the solar access of the Project. Such easements shall run for the benefit of both Host and Provider. Provider shall pay for the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

expense of obtaining such easements, including payments to property owners and legal costs, but the rates payable by Host for electric energy from the Project shall be increased by an amount sufficient for Provider to fully amortize such costs, over a period equal to the lesser of (i) five years or (ii) the remaining term of this Lease without regard to Host's option to purchase the Project.

(e) Right to Inspect and Enter. Host and its agents, consultants, and representatives shall have reasonable access to the Premises at all reasonable times, subject to Provider's reasonable safety, security, and operational rules and, except for emergency situations, subject to Provider's consent which shall be obtained at least 5 business days prior and such consent not to be unreasonably withheld, conditioned or delayed, to inspect the Premises for the purpose of ascertaining its condition and to carry out such maintenance and repairs to Host's property and equipment as may be required; provided, however, that such access shall not interfere with Provider's performance of its obligations hereunder; and provided, further, that neither Host nor any of its agents, employees, consultants, contractors or representatives shall operate, touch or perform any repair or maintenance to the Project.

14. PRESS RELEASES AND CONFIDENTIALITY.

Section 14 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

15. INDEMNIFICATION.

EXHIBIT B to Lease Agreement

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT C to Lease Agreement
Form of Notice of Lease
[On following Page]

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Record and return to:
Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

[insert address]

NOTICE OF LEASE

In accordance with the provisions of Massachusetts General Laws, Chapter 183, section 4, as amended, notice is hereby given of the following described lease and easements:

Parties to the [insert name of lease agreement] (the "Lease"):

Host/Landlord:

Provider/Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
(and its successors and/or assigns)

Property Description: The real property located at [Street], [Town, State Zip] described on the attached Exhibit A (the "Property"). For Landlord's title see Deed recorded with the [__Insert County___] [Registry of Deeds/Land Records] in [Book _____, Page _____] [Certificate of Title No_____].

Description of Leased Premises: A portion of the Property as described on the attached Exhibit B where solar equipment will be installed and accessed for the term of the agreement, including the roofs, exterior and interior walls, through to the main electric room, and exterior areas of the Property. (the "Lease Area")

Date of Execution of the Lease: _____ (the "Effective Date").

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Term of Lease:

The Term of the Lease includes a Development Period, Operations Period and Decommissioning Period. The Lease shall commence on the Effective Date and, unless terminated earlier pursuant to the provisions of the Lease, the Operations Period shall continue until 11:59 p.m. on the last day of the calendar month in which the twentieth (20th) anniversary of the Commercial Operation Date, as defined in the Lease, unless the Tenant exercises the Options to Extend, in which case the Term of Lease shall include the Development Period, the Operations Period, the [Extension Terms] and the Decommissioning Period.

Options to Extend:

Tenant shall have the right to extend the Term of the Lease for [_____] year terms.

Decommissioning Period

Tenant shall remove the System within 180 days of the termination of the Lease, (provided that if such 180 day term ends within the months of December, January, February, March, or April, the Decommissioning Period shall extend to July 31) whereupon the Lease shall expire and shall be of no further force and effect

Easements.

(a) Under the Lease, Landlord granted the easements (the "Easements") to Tenant described in Exhibit C across and burdening the Property.

(b) Landlord's grant of Easements in the Lease shall commence on the Effective Date and end upon termination of the Decommissioning Period.

Ownership of the Facility.

Landlord shall have no right, title or interest in the solar energy facility (as defined in the Lease) ("Project") or any component thereof and Tenant shall be the exclusive owner thereof.

Miscellaneous

1. This Notice of Lease may be executed in multiple counterparts, each of which shall be deemed an original and all of which, together, shall constitute one and the same instrument.

2. This Notice of Lease does not describe or refer to all of the terms or conditions contained in the actual Lease and nothing contained herein shall serve to modify or amend the terms of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

actual Lease. In the event of any inconsistency between the provisions of the Lease and the provisions of this Notice, the provisions of the Lease shall control.

3. Any capitalized term not defined herein shall have the definition ascribed to it in the Lease.

EXECUTED as a sealed instrument on as of _____ __, 202_.

FORM OF SNDA

SUBORDINATION, NON-DISTURBANCE AND ATTORNMENT AGREEMENT

THIS AGREEMENT (this "Agreement") is made as of this _____ day of _____, 20__, by and among _____, a duly organized banking association, with a principal office at _____("Lender"), _____("Landlord"), and Solect Energy Development LLC, ("Tenant").

W I T N E S S E T H

WHEREAS, Tenant and Landlord have entered into a Lease Agreement dated _____, 20__, (the "Lease") covering the premises located at _____ (the "Premises"), notice of which is recorded with [Name of Registry] (the "Registry") in Book _____, Page _____, (being the property more particularly described in Exhibit A attached hereto and incorporated herein) pursuant to which Tenant has installed or will install on the Premises a photovoltaic facility for the generation of electricity from solar energy (the "Solar Facility"); and

WHEREAS, Lender is the mortgagee pursuant to a [Mortgage and Security Agreement dated _____] (the "Mortgage") and a [Conditional Assignment of Rents and Leases dated _____] (the "Assignment") encumbering, the Premises which are both recorded with the _____ Registry in Book _____page _____ and Book _____ page _____ respectively; and

WHEREAS, Lender, Tenant, and Landlord wish to set forth respective rights of each party;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter contained and other valuable consideration, the parties hereto covenant and agree as follows:

1. The Lease and any extensions, renewals, replacements or modifications thereof, and all of the right, title and interest of Tenant thereunder in and to the Premises are and shall be subject and subordinate to the Mortgage and to all of the terms and conditions contained therein, and to any advances, renewals, modifications, replacements, consolidations, amendments and extensions thereof.

2. Lender consents to the Lease and in the event Lender comes into possession of or acquires title to the Premises as a result of the foreclosure, or other enforcement of the Mortgage, or as a result of any other means, Lender agrees that Lender will recognize Tenant and will not disturb Tenant or Tenant's financing parties in their possession of the Premises or their rights in the Lease for any reason other than one which would entitle Landlord to terminate the Lease under its terms or would cause, without any further action by Landlord, the termination of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease, and the Lease will continue in full force and effect as a direct agreement between Lender and Tenant.

3. The Solar Facility shall not be, or be deemed to be, a part of or an accession or addition to or a fixture on the Premises even though the Solar Facility is installed on the Premises; nor shall the Solar Facility be moved from the Premises by the Lender unless Tenant's prior written consent to such move has been obtained.

4. Lender waives any and all right, title and interest in the Solar Facility and shall not acquire any such right title or interest by virtue of the installation of the Solar Facility on the Premises. The undersigned Lender further waives any right to seize, or to claim any interest, whatsoever in the Solar Facility on account of any claim or right the undersigned may have against any person, including, without limitation, any claim or right the undersigned may have or assert against the Landlord, by foreclosure or otherwise.

5. Tenant may at any time, at its option, enter upon the Premises and inspect, maintain, remove or repair the Solar Facility to the extent provided in the Lease.

6. When sending to Landlord any notice of impending or actual foreclosure of the Premises, the undersigned Lender shall concurrently provide Tenant a copy of the same.

7. Tenant agrees with Lender that if the interests of Landlord in the Premises shall be transferred to and owned by Lender by reason of foreclosure or other proceedings brought by it, or any other manner, or shall be conveyed thereafter by Lender or shall be conveyed pursuant to a foreclosure sale of the Premises, Tenant shall be bound to Lender under all of the terms, covenants and conditions of the Lease for the balance of the time thereof remaining and any extensions or renewals thereof which may be effected in accordance with any option therefor in the Lease, with the same force and effect as if Lender were the landlord under the Lease and Tenant does hereby attorn to Lender as its landlord, said attornment to be effective and self-operative without the execution of any further instruments on the part of any of the parties hereto immediately upon Lender succeeding to the interest of Landlord in the Premises. Notwithstanding the foregoing, Lender shall not be: (i) liable for any act or omission of Landlord, or for any fact, circumstance or condition existing or arising prior to Lender's succession in interest to Landlord unless such fact, circumstance or condition shall continue after such succession; or (ii) subject to any offsets, claims or defenses which Tenant might have against Landlord, except as set forth in the Lease.

8. This Agreement shall bind and inure to the benefit of the parties hereto, their successors and assigns. As used herein the term "Tenant" shall include Tenant, its successors and assigns; the words "foreclosure" and "foreclosure sale" as used herein shall be deemed to include the acquisition of Landlord's estate in the Premises by voluntary deed (or assignment) in lieu of foreclosure; and the word "Lender" shall include the Lender herein specifically named and any of its successors, participants and assigns, including anyone who shall have succeeded to Landlord's interest in the Premises by, or through, Lender foreclosure of the Mortgage.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

9. All notices, consents and other communications pursuant to the provisions of this Agreement shall be in writing and shall be sent by registered or certified mail, return receipt requested, or by a reputable commercial overnight carrier that provides a receipt, or by facsimile with confirmation of transmission, and shall be deemed given when postmarked and addressed as follows:

If to Lender:

If to Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

If to Landlord:

or to such other address as shall from time to time have been designated by written notice by such party to the other parties as herein provided.

10. This Agreement may not be modified orally or in any manner other than by agreement, in writing, signed by the parties hereto. This Agreement may be executed in counterparts, each of which shall be deemed an original, and such counterparts taken together shall constitute but one agreement. This Agreement shall be governed by the laws of the state or commonwealth where the Premises are located.

MEMORANDUM

TO: Melrose City Council

FROM: Martha Grover, Sustainability Manager

RE: Hoover and Horace Mann Solar PPA/Lease Authorization

DATE: February 13, 2023

Attached for your review are the Solar Power Purchase and Lease agreements with Solect Energy Development to install a 67.3 kW AC and 50 kW AC system on the Hoover and Horace Mann Elementary School roofs respectively. We seek authorization from the City Council for Mayor Brodeur to execute these agreements.

The city has worked with Solect for over a year to develop these projects and take advantage of the new roofs scheduled to be installed this summer, favorable federal tax credits, Block 10 utility SMART incentives, and fantastic solar access at these two schools. Action 28 in the Melrose Net Zero Action seeks to "Maximize the installation of clean energy sources on municipal property" and these projects are in line with and support the city's effort to lead by example.

I look forward to answering your questions at a future meeting but don't hesitate to reach out in advance at mgrover@cityofmelrose.org or 781.979.4195 as well.

POWER PURCHASE AGREEMENT

This Power Purchase Agreement ("**Agreement**" or "**PPA**") is entered into as of _____, (the "**Effective Date**"), by and between City of Melrose, a municipality with an address of 562 Main St Melrose, MA 02176 ("**Host**"), and Solect Energy Development LLC, ("**Solect**" or "**Provider**") a Limited Liability Company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement dated June 30th, 2020, as amended, governing the terms and conditions of Provider's participation in the PowerOptions Solar and Storage Program;

WHEREAS, Host is the owner of the properties located and described in Exhibit C and desires to make a portion of such properties available to Provider for the construction, operation and maintenance of a solar powered electric generating Project, and to purchase from Provider the electric energy produced by the Project;

WHEREAS, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended; and

WHEREAS, Provider desires to develop, design, construct, own and operate the Project located at and described in Exhibit D, and sell to Host the electric energy produced by the Project; and

WHEREAS, Provider and Host have entered into that certain Lease dated on or about the date hereof (as amended or modified from time to time, the "**Lease**") pursuant to which Host has granted Provider a leasehold interest and certain use and access rights to the Premises.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Agreement have the meanings set forth in the attached GLOSSARY OF TERMS or as defined in the body of this Agreement.

2. TERM.

(a) Term. This Agreement shall consist of an Initial Period and an Operations Period. As used herein, "**Term**" shall mean all of the Initial Period and the Operations Period, unless the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider or Host terminates the Agreement prior to the end of the Initial Period pursuant to the terms of this Agreement, but any such termination shall not terminate any provisions hereof that expressly survive such termination.

(b) Initial Period. The Initial Period will begin on the Effective Date and will terminate on the earlier of (i) the Commercial Operation Date or (ii) the date the Agreement is terminated pursuant to the provisions of Section 4(b) or 4(d).

(c) Operations Period. The Operations Period will commence on the Commercial Operation Date and will terminate at 11:59 p.m. on the last day of the month in which the twentieth (20^{th}) anniversary of the SMART Incentive Payment Effective Date.

(d) Extensions. Provider shall have one option to extend the Operations Period for five (5) years (an "**Extension Term**") upon mutual agreement between Provider and Host. Provider shall delivering a written request to extend to Host at least six months prior to the end of the Operations Period, or Extension Term, as the case may be. Any extension shall be reflected in a written amendment to this Agreement signed by the Parties.

(e) Early Termination by Host. If Host terminates the Agreement prior to the Expiration Date, except as otherwise provided in this subsection (e), Section 9 (Purchase Option), Section 17 (Force Majeure), or Section 19 (Provider Event of Default and Host Remedies), Host shall pay, as liquidated damages, the Early Termination Amount set forth on Exhibit B, and Provider shall cause the Project to be disconnected and removed from the Premises in accordance with the Lease. Upon Host's payment to Provider of the Early Termination Amount, this Agreement and the Lease, in accordance with its terms, shall terminate automatically. Notwithstanding the foregoing, Host may (i) terminate this Agreement with no liability whatsoever pursuant to Section 4(d) or (ii) in lieu of termination, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date, be entitled (as its sole and exclusive remedy) to (x) the payment by Provider to Host of Delay Liquidated Damages not to exceed $15/kW in the aggregate, plus (y) (if Installation Work had commenced at the Premises as of the date of termination) all direct costs reasonably incurred by Host to return its Premises to its condition prior to commencement of the Installation Work if Provider fails to do so within a reasonable time, as required pursuant to the Lease. Alternatively, Host may terminate this Agreement with no liability whatsoever if Provider fails to commence the Operations Period by the date that is 60 days after the Guaranteed Commercial Operation Date.

The Construction Start Date and Guaranteed Commercial Operation Date shall be extended on a day-for-day basis due to (a) Force Majeure or (b) acts, omissions or delays of a Governmental Authority or Local Electric Utility. Provided, however that clause (b) shall be beyond the reasonable control of the Provider and not caused by the Provider's fault or negligence. Provided, further that the day-to-day extension of the Construction Start Date shall not exceed one hundred eighty (180) days, unless otherwise mutually agreed by the Parties in writing.

3. ACCESS RIGHTS.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(a) Access Specifications. Pursuant to the Lease, Provider has access to and use of the Premises for the Term for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and for any other purpose set forth in this Agreement or in the Lease, and otherwise in accordance with the provisions of the Lease. Access Rights with respect to the Site are more fully described in the Lease and include, without limitation, vehicular and pedestrian access, and other rights to install electrical lines and communications cables.

(b) Remote Monitoring. Host will provide an internet portal or equivalent access by means of which Provider will communicate data from the revenue grade performance monitoring system. Provider will be responsible for connecting monitoring equipment for the Project to the internet enabling remote monitoring of the Project.

4. PLANNING, INSTALLATION AND OPERATION OF PROJECT.

(a) Site Assessment and Planning. During the Initial Period, Provider shall have the right, at its own expense, to assess the suitability of the Premises for the Project and shall act diligently in conducting such assessment. The assessment shall include the right to inspect the physical condition of the structures on which the Project will be located; to apply for any building permits or other governmental authorizations necessary for the construction of the Project; to arrange interconnections with the Local Electric Utility; to make any applications to the appropriate Public Utilities Commission or other agencies for receipt of payments for the Project under the Applicable Solar Program; to apply to any other governmental agencies or other persons for grants or other determinations necessary for the construction of or receipt of revenues from the Project; or to make any other investigation or determination necessary for the financing, construction, operation or maintenance of the Project. The Provider shall, in accordance with Section 5(l) of the Lease, at its own cost, engage an engineer licensed and qualified in the state where the Project is located, to certify that any objects brought, installed or kept on the Premises will not exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof as required by local building code. Provider shall provide a copy of any structural engineering analysis to Host at Host's request.

(b) Termination of Development Activities by Provider. At any time during the Initial Period, Provider shall have the right to cease development of the Project and terminate this Agreement upon written notice to Host if:

(i) Provider determines that the Premises, as is, are insufficient to accommodate the Project; or

(ii) there exist site conditions or construction or interconnection requirements that were not known as of the effective date of this Agreement and that could reasonably be expected to materially increase the cost of Installation Work or would adversely affect the electricity production from the Project as designed;

(iii) there has been a material adverse change in the rights of Host to occupy the Premises or Provider to construct the Project on the Premises;

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) an interconnection agreement with the Local Electric Utility, in form and substance satisfactory to Provider, is not executed by Provider and the Local Electric Utility within two hundred seventy (270) days after the date of this Agreement;

(v) Provider has not obtained financing within twelve months after the date of this Agreement to construct, install, own and operate and maintain the Project;

(vi) the Project does not qualify under the Applicable Solar Program;

(vii) despite its diligent efforts, Provider does not obtain all permits and approvals, on terms and conditions satisfactory to Provider, which are necessary for the construction, operation and maintenance of the Project; or

(viii) the Project is not exempt from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45 (Acts of 2021, Chapter 8, §61, as amended and the Massachusetts Department of Revenue regulations adopted in connection therewith) and a Payment In Lieu of Taxes Agreement with the municipality where the Project is located is not executed and approved by the municipality to establish fixed payments in the amount(s) set forth on Exhibit A-1.

If Provider gives Host notice of such termination, this Agreement shall terminate effective as of the date specified in delivery of such notice without any further liability of the Parties to each other, provided that (i) Provider shall remove any equipment or materials which Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to its pre-existing condition; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(c) Commencement of Construction, Modification of Design. Provider shall conduct a construction kick off meeting with Host. Upon prior notice to Host, Provider shall have the right to commence installing the Project on the Premises in accordance with the agreed-upon schedule as determined during the construction kick off meeting.

(i) As of the date hereof, Provider anticipates that the Project shall consist of the components and shall have the designs set forth in Exhibit E attached hereto.

(ii) Notwithstanding subsection (i) above, Provider has the right to modify the design of the Project, including the selection of the components in the Project, as Provider, in its sole discretion, may determine, provided, however, that such changes shall not result in the Project exceeding the nameplate capacity, building footprint (if project is on the roof), location and height set forth in Exhibits D and E, without Host's approval.

(d) Construction Commencement Deadline. If Provider has not commenced the Installation Work before the Construction Start Date, Host may terminate this Agreement and the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease by delivering notice to Provider of its intention to terminate this Agreement, and the Agreement shall terminate twenty-one (21) days after Provider's receipt of such notice; provided, that if Provider commences the Installation Work within such twenty-one (21) day period, this Agreement shall not terminate. Upon any termination in accordance with this Section 4(d) neither Party shall have any further liability to the other with respect to this Agreement, provided that (i) Provider shall remove any equipment or materials that Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to their condition prior to the commencement of construction; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15 and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(e) Contractors. Provider shall use licensed and insured contractors to perform the work of installing, operating, and maintaining the Project. Provider intends to use Installer to perform such work, but may use other contractors, for all or a portion of such work, in Provider's sole discretion. Provider shall advise Host of the Installer prior to commencement of the work on the Site. Provider shall be responsible for the conduct of Installer and its subcontractors, and Host shall have no contractual relationship with Installer or its subcontractors in connection with the work on the Project. Provider shall ensure that Installer maintains insurance applicable to the Installer's activities that satisfy the requirements in Exhibit G.

(f) Status Reports, Project Testing, Commercial Operation. Provider shall give Host regular updates, on a reasonable schedule requested by Host, on the progress of installation of the Project and shall notify Host of when Provider will commence testing of the Project. Testing shall be conducted in accordance with guidelines, standards and criteria reasonably accepted or followed by photovoltaic solar system integrators in the United States. Host shall have the right to have its representatives present during the testing process, but subject to reasonable written safety rules and procedures as may be established by Provider and Installer. After Provider has determined, in its reasonable judgment, that the Project meets the requirements of and has been approved for interconnection by the Local Electric Utility, has been installed in accordance with all Applicable Laws, and is capable of producing electricity on a continuous basis for at least four (4) continuous hours, Provider shall notify Host that the Installation Work is complete. Provider shall provide Host with written notice of the Commercial Operation Date for the Project, which may be immediately upon delivery of such notice to Host.

(g) Standard of Operation. Provider shall design, obtain permits, install, operate, and maintain the Project so as to keep it in good condition and repair, in compliance with all Applicable Laws and the requirements of the interconnection agreement, and in accordance with the generally accepted practices of the electric industry, in general, and the solar generation industry, in particular, and all instructions of any original equipment manufacturers' warranties for equipment included in the Project. Such work shall be at Provider's sole expense. Except for emergency situations or unplanned outages, Provider shall cause the work to be performed between the hours of 7:00 am and 7:00 pm, Monday through Saturday, in a manner that minimizes interference with Host and Host's employees, visitors, tenants and licensees and their customers to the extent commercially practical. Provider shall, and shall cause its contractors to,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

keep the Site reasonably clear of debris, waste material and rubbish, and to comply with reasonable safety procedures established by Host for conduct of business on the Site. In the event of an emergency or unplanned outage, Provider shall have unimpeded access to the Project, subject to any site-specific security requirements of Host.

(h) Provider Project Shut Down. Provider may shut down the Project at any time in order to perform required emergency repairs to the Project Provider shall give Host notice of such shutdown soon as reasonably practicable. At other times, Provider shall give Host advance notice of the shutdown as may be reasonable in the circumstances. Provider shall not have any obligation to reimburse Host for costs of purchasing electricity that would have been produced by the Project but for such shutdown unless the performance guarantee in Section 5(b) is not met. Provider and Host will agree upon a reasonable shut down duration. Provider shall use reasonable efforts not to schedule shutdowns during peak periods of electric generation and periods when peak energy and demand prices are charged by the Electric Service Provider, except as may be required in accordance with prudent electric industry safety practices in the event of equipment malfunction.

(i) Metering. Provider shall install and maintain a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy provided by the Project and may, at its election, install a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy delivered by the Local Electric Utility and consumed by Host at the Premises.

Subject to any applicable requirements of the Local Electric Utility:

(i) Installation. Provider shall maintain and test the meter in accordance with but not limited to Applicable Law and as provided herein. Provider shall ensure that the meter is installed and calibrated correctly to manufacturer and utility specifications during commissioning of the Project.

(ii) Measurements. Readings of the meter shall be conclusive as to the amount of electric energy delivered to Host; provided that if the meter is out of service, is discovered to be inaccurate pursuant to Section 4(iii) below, or registers inaccurately, measurement of energy shall be determined by estimating by reference to quantities measured during periods of similar conditions when meter was registering accurately.

(iii) Testing and Correction.

A. Standard of Meter Accuracy; Resolution of Disputes as to Accuracy. The following steps shall be taken to resolve any disputes regarding the accuracy of the meter:

(1) If either Party disputes the accuracy or condition of the meter, such Party shall so advise the other Party in writing.

(2) Provider shall, within thirty (30) days after receiving such notice from Host, or Host shall, within such time after having received such notice from

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider, advise the other Party in writing as to its position concerning the accuracy of such meter and state reasons for taking such position.

(3) If the Parties are unable to resolve the dispute through reasonable negotiations, then either Party may cause the meter to be tested by an agreed upon and disinterested third party.

(4) If the meter is found to be inaccurate by not more than two percent (2%), any previous recordings of the meter shall be deemed accurate, and the Party disputing the accuracy or condition of the meter shall bear the cost of inspection and testing of the meter.

(5) If the meter is found to be inaccurate by more than 2% or if such meter is for any reason out of service or fails to register, then (1) Provider shall promptly cause any meter found to be inaccurate to be replaced or adjusted to correct, to the extent practicable, such inaccuracy, (2) the Parties shall estimate the correct amounts of energy delivered during the periods affected by such inaccuracy, service outage or failure to register as provided in Section 4 (i) (ii) or (iii), and (3) Provider shall bear the cost of inspection and testing of the meter and reimburse or credit Host if Host was the disputing Party. If as a result of such adjustment the quantity of energy for any period is decreased (such quantity, the "Electricity Deficiency Quantity"), Provider shall reimburse or credit Host for the amount paid by Host in consideration for the Electricity Deficiency Quantity, and shall bear the cost of inspection and testing of the meter. If as a result of such adjustment the quantity of energy for any period is increased (such quantity, the "Electricity Surplus Quantity"), Host shall pay for the Electricity Surplus Quantity at the price applicable during the applicable period.

B. Host's Right to Witness Tests. Host shall have the right to witness each test or any calibration of meters or monitoring equipment conducted by or under the supervision of Provider to verify the accuracy of the measurements and recordings of the meter or the monitoring equipment. Provider shall provide at least five (5) Business Days prior written notice to Host of the date upon which any such test or calibration is to occur. Provider shall prepare a written report setting forth the results of each such test, and shall provide Host with copies of such written report and the underlying supporting documentation not later than thirty (30) days after completion of such test. Host shall have the right to access all meters at reasonable times and with reasonable prior notice for the purpose of verifying readings and calibrations, but Host shall not have the right to open or undertake any other physical actions on the meters and access rights shall be subject to any requirements or limitations of the Local Electric Utility. If the metering equipment is found to be inaccurate, it shall be corrected and past readings shall be promptly adjusted in accordance with Section 4(i)(A)(5).

(iv) No Duty on Host. Notwithstanding the foregoing, the Parties acknowledge and agree that Host is under no responsibility or duty to ascertain, to inspect or to otherwise

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

determine whether the meter or any other part of the Project is out of service, is discovered to be inaccurate or registers inaccurate readings; is malfunctioning or is otherwise defective, it being agreed that at all times such responsibility or duty shall remain with the Provider.

5. SALE OF ELECTRIC ENERGY.

(a) Sale of Electricity. Throughout the Operations Period, subject to the terms and conditions of this Agreement and the Lease, Provider shall sell to Host and Host shall buy from Provider all electric energy produced by the Project, whether or not Host is able to use all such electric energy. The Point of Delivery of the electric energy shall be as indicated in Exhibit E. Title to and risk of loss with respect to the energy shall transfer from Provider to Host at the Point of Delivery. Provider shall own the Capacity Value of the Project. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host. The interconnection point of the Project with the Local Electric Utility shall be as indicated in Exhibit E.

(b) Performance Guarantee. Beginning on the Commercial Operation Date and as of each anniversary thereof, if the Project produces less than eighty-five percent (85%) of the applicable Estimated Annual Production specified in Exhibit F, unless, and then only to the extent that, the failure to meet the Estimated Annual Production is due to (i) failure, damage or downtime attributable to third parties or Host, (ii) equipment failure or delayed repair of equipment due to the claims process with the equipment manufacturer which are beyond the reasonable control of Provider, (iii) a Force Majeure Event, (iv) variability due to weather, (v) acts or omissions of Host of any of its obligations hereunder, (vi) any Host Requested Shutdown, Provider Safety Shutdown or Project Relocation under Section 10(a), (b), or (c); or (vi) any reduction in output attributable to interference with solar access of the Project by adjoining landowners; in its next invoice Provider shall credit Host an amount equal to the product of (i) the positive difference, if any, of the Avoided Energy Price during such period minus the applicable kWh Rate specified in Exhibit A, multiplied by (ii) the difference between the actual Project Output during such 12-month period and eighty-five percent (85%) of the Estimated Annual Production for such period. Such credit shall be Host's sole and exclusive remedy for Provider's failure to meet the Estimated Annual Production for such period.

6. PAYMENT AND BILLING.

(a) Rates. Host shall pay Provider for electricity produced by the Project at the rates set forth in Exhibit A attached hereto. The rate during any Extension Term shall be mutually agreed upon by Host and Provider.

(b) Billing. Host shall pay for the electricity produced by the Project monthly in arrears. Promptly after the end of each calendar month, Provider shall provide Host with an invoice setting forth the quantity of electricity produced by the Project in such month, the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

applicable rates for such electricity, and the total amount due, which shall be the product of the quantities and the applicable rates.

(c) Invoice Delivery. Invoices shall be in writing and shall be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; or (iv) transmitted by email (such transmission to be effective on the day of receipt if transmitted prior to 5:00 pm local time on a Business Day or in any other case as of the next Business Day following the day of transmittal)addressed as follows:

To Host: City of Melrose
562 Main St
Melrose, MA 02176
Attention: Jim Troup
Email: jtroup@cityofmelrose.org

(d) Payment. Subject to the subparagraph (e) below regarding disputed invoices, Host shall pay each invoice within thirty (30) days of receipt of the invoice. Payments shall be made by check or electronic funds transfer to an account designated by Provider in the invoice or in a written notice delivered to Host. Any amounts not paid when due, including any amounts properly disputed and later determined to be owing, shall accrue interest on the unpaid amount at the rate equal to the lesser of (i) 1% per month, compounded monthly or (ii) the highest rate allowed by applicable law.

(e) Disputed Invoices. If Host objects to all or a portion of an invoice, Host shall, on or before the date payment of the invoice is due, (i) pay the undisputed portion of the invoice, and (ii) provide an itemized statement of its objections setting forth in reasonable detail the basis for its objections. If Host does not object prior to the date payment of any invoice is due, Host shall be obligated to pay the full amount of such invoices but Host may subsequently object to such invoice and, if such objection proves to be correct, receive a refund of the disputed amount; provided, however, that Host may not object to any invoice more than eighteen (18) months after the date on which such invoice is rendered. The right to dispute or object to an invoice, shall, subject to the time limitation provided in this Section 6(e), survive the expiration or termination of this Agreement.

7. SUPPLEMENTAL POWER

(a) Back-up and Supplemental Electricity. Except as otherwise provided herein, throughout the Term, Host shall be responsible for obtaining all of its requirements for electric energy in excess of the amounts produced by the Project and pay for such service pursuant to contracts with or applicable tariffs of the Local Electric Utility or other Electric Service Provider. Provider shall have no obligation to obtain or pay for such supplemental or back-up electricity.

(b) Interconnection and Interconnection Fees. Provider shall be responsible for arranging the interconnection of the Project with Host's Local Electric Utility in a manner which

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

includes bi-directional or "net metering". Host shall be responsible for maintaining the interconnection of the Site with the Local Electric Utility through to the Host's side of the Point of Delivery. Provider shall be responsible for maintaining the interconnection of the Project to the Provider's side of the Point of Delivery with the Local Electric Utility. Host shall enter into any retail agreement required by the Local Electric Utility pursuant to its tariffs. Provider shall be responsible for all costs, fees, charges and obligations required to connect the Project to the Local Electric Utility distribution system, including but not limited to fees associated with system upgrades and operation and maintenance carrying charges ("Interconnection Obligations"), however, if system upgrades in addition to any upgrades contemplated and budgeted for as of Effective Date are required, Provider shall be entitled to adjust the Energy Purchase Prices in Exhibit A to compensate Provider for such increased costs, and if the Parties are unable to agree on such adjustments, Provider may exercise its right to terminate under Section 4(b).

(c) Production Excess. Provider shall, with the cooperation of Host, work to qualify the Project for the highest available compensation for any solar production which is not used at the time of generation and is transmitted to the Local Electric Utility (the "**Production Excess**"). The Parties will work cooperatively and in good faith to meet all requirements regarding such Production Excess under Applicable Law, the Applicable Solar Program, and Local Electric Utility tariffs, including applicable interconnection and metering requirements (e.g., Massachusetts tariff Schedule Z). In the event that the Project produces Production Excess, then the Parties agree that (a) Host shall be entitled to the associated compensation and/or bill credits (including but not limited to Net Metering Credits, Alternative On-Bill Credits, or Qualifying Facility compensation), and (b) Provider shall transmit such Production Excess into the Local Electric Utility system on behalf of and for the account of Host.

(d) Applicable Solar Program Incentives. Provider shall receive all payments available under any Applicable Solar Program. Host shall provide reasonable assistance to Provider in preparing all applications and other documents necessary for Provider to receive such payments, including designating Provider as the customer for purposes of the Applicable Solar Program or assigning payments from the Applicable Solar Program to Provider. If Host receives any payments under the Applicable Solar Program or other programs in respect of the Project, it shall promptly pay them over to Provider. Host's obligation to make any payments to Provider under this Section 7(d) is limited to any payments actually received by Host.

(e) Ownership of Tax Attributes. Provider (and/or Financing Party) shall be the owner of any Tax Attributes that may arise as a result of the ownership and operation of the Project and shall be entitled to transfer such Tax Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Tax Attributes, and if Host is deemed to be the owner of any such Tax Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Tax Attributes, it shall promptly pay them over to Provider.

(f) Environmental Attributes. Except as otherwise provided for under Applicable Law, or Applicable Solar Program rules, or the applicable tariff of the Local Electric Utility, Provider (and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Financing Party) shall be the owner of any Environmental Attributes that may arise as a result of the operation of the Project and shall be entitled to transfer such Environmental Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Environmental Attributes, and if Host is deemed to be the owner of any such Environmental Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Environmental Attributes, it shall promptly pay them over to Provider.

(g) Capacity & Ancillary Services. Provider shall be entitled to receive any payments for electric capacity or ancillary services that may become available as a result of the construction or operation of the Project. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such payments, and if Host is deemed to be the owner or provider of such capacity or services, Host shall assign the same to Provider If Host receives any payments in respect of capacity or such services it shall promptly pay them over to Provider.

(h) Neither Party is A Utility. Neither Party is, and neither Party shall assert that the other Party is, (i) an electric utility or public service company or similar entity that has a duty to provide service, (ii) subject to electric rate regulation, or (iii) otherwise subject to regulation by any governmental authority as a result of its obligations or performance under this Agreement.

(i) Project Alterations. Host agrees to negotiate in good faith with respect to any alterations to the Project proposed by the Provider that may increase payments available under the Applicable Solar Program, Tax Attributes, Environmental Attributes, or increased capacity or ancillary services. Proposed alterations may include, but are not limited to, the addition of an energy storage system to the Project. Upon mutual agreement, this Agreement and the Lease shall be amended to include any agreed upon Project alteration.

8. OWNERSHIP OF PROJECT; SERVICE CONTRACT.

(a) Ownership of Project. As between the Parties, Provider shall retain title to (i) the Project and the Environmental Attributes produced or associated with the Project or the energy produced by the Project, and (ii) all compensation associated with such Environmental Attributes under the Applicable Solar Program or under any other successor program.

(b) Service Contract. Since this Agreement provides for the sale of electric energy from the Project which is an alternative energy facility under Section 7701(e)(3)(D) of the Internal Revenue Code of 1986 as amended, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended.

9. PURCHASE OPTIONS; REMOVAL AT END OF TERM.

(a) Early Purchase Option. On the seventh (7^{th}), tenth (10^{th}), and fifteenth (15^{th}) anniversary of the Commercial Operation Date, provided no Host Event of Default has occurred and is continuing, the Host shall have the option to purchase the Project from Provider at a price

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

which will be the greater of (i) the applicable value identified in Exhibit B or (ii) the Fair Market Value of the Project as determined by mutual agreement of Host and Provider as of such anniversary date; provided, however, if Host and Provider cannot agree to a Fair Market Value within twenty (20) days after Host has exercised its option, the Parties shall select and share equally the costs of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project, provided that Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal. If Host desires to exercise this option, it shall no later than ninety (90) days prior to the applicable anniversary date notify Provider of its election to exercise the option, and, unless it has rescinded the exercise of the option as aforesaid, on or before such anniversary date shall pay the purchase price to Provider by electronic transfer in immediately available funds to an account designated by Provider.

(b) End of Term Purchase Option. Host shall have the right to purchase the Project from Provider at the expiration of the Operations Period at the then Fair Market Value of the Project. No earlier than twelve months prior to the expiration of such Operations Period and no later than nine (9) months prior to the expiration of the Operations Period, Host shall notify Provider of its intent to exercise the option. Within ninety-one (91) days of its receipt of such notice, Provider shall give Host its appraisal of the Fair Market Value of the Project at the end of the Term. Host may, but is not obligated to, accept such appraisal. If Host does not accept such appraisal within ten (10) Business Days of receiving the appraisal from Provider, the Parties shall meet to discuss the appraisal. If they are unable to reach agreement within twenty (20) days of the Host's receipt of the appraisal from Provider, the Parties will engage and share the costs equally of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project consistent with the terms of the transaction. Notwithstanding the foregoing, in the event that Provider enters into a sale/leaseback transaction in connection with funding the installation of the Project, the process of determining the Fair Market Value of the Project in this Agreement shall be undertaken by a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project and shall be undertaken consistently with the terms of such transaction so that the process for determining Fair Market Value under this Agreement shall be the same as provided in the agreements for such sale/leaseback transaction. Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal.

(c) Transfer of Ownership. Upon Host's notice that it elects to exercise the option set forth in either Section 9(a) or 9(b) above, Provider shall prepare and deliver to Host a set of records on the operation and maintenance history of the Project, including a summary of known defects. Upon payment of the purchase price, Provider shall deliver, or cause to be delivered, to Host a bill of sale conveying the Project to Host free and clear of Liens on Provider's interest in the Project. Such bill of sale shall not contain any warranties, other than a warranty against any defects in title arising through Provider. Provider shall use all reasonable efforts to transfer any remaining manufacturer's warranties on the Project, or portions thereof, to Host. Upon the transfer of ownership of the Project to Host, this Agreement shall terminate.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(d) Operation & Maintenance After Sale. Prior to the effective date of Host's purchase of the Project under Section 9(a) or 9(b), Host and Provider shall discuss entering into an operation and maintenance agreement under which Provider shall perform all or a portion of the operation and maintenance requirements of the Project following Host's purchase of the Project. However, neither Party shall be under an obligation to enter into such an agreement.

(e) No Survival of Purchase Option. The options for Host to purchase the Project under Sections 9(a) and 9(b) shall not survive the termination of this Agreement.

(f) Removal of Project at Expiration. Provider shall decommission the Project in accordance with Section 9 of the Lease or Easement.

10. SHUTDOWNS, RELOCATION; CLOSURE OR SALE OF SITE.

(a) Host Requested Shutdown. Host from time to time may request Provider to temporarily stop operation of the Project for a period no longer than thirty (30) days or a predetermined date mutually agreed upon by both the Host and Provider, such request to be reasonably related to Host's activities in maintaining and improving the Site. During any such shutdown period (but not including periods of Force Majeure or Allowed Disruption Time as defined below, nor where the maintenance activities were made necessary by a Provider Event of Default), Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project during the period of the shutdown; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced during the period of the shutdown; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project during the period of the shutdown. Determination of the amount of energy that would have been produced during the period of the shutdown shall be based, during the first Operations Year, on reasonably estimated levels of production and, after the first Operations Year, based on actual operation of the Project during the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

Notwithstanding the foregoing, the Parties agree that after year six (6) (but not during years one (1) through six (6)) of the Operations Period of the Agreement, Host shall be afforded a total of fifteen (15) days which may be used consecutively or in periods of at least twenty-four hours each ("Allowed Disruption Time") during which the Host may request that the Project be shut down if, and only if, Host is performing maintenance or repairs to the Premises which require the Project to be offline. Host shall not be obligated to make payments to Provider for electricity not received during the Allowed Disruption Time; nor shall Host be required to reimburse Provider for any other lost revenue during the Allowed Disruption Time, including any lost revenue associated with any reduced sales of Environmental Attributes and Tax Attributes.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider Safety Shutdown. In addition to the right of Provider to shut down the Project for maintenance as provided in Section 4(j), Provider may shutdown the Project if Provider, in the exercise of reasonable judgment, believes Site conditions or activities of persons on a Site, which are not under the control of Provider, whether or not under the control of Host, may interfere with the safe operation of the Project. Provider shall give Host written notice of a shutdown immediately upon becoming aware of the potential for such conditions or activities. Provider and Host shall cooperate and coordinate their respective efforts to restore Site conditions so as to not interfere with the safe operation of the Project and to reduce, to the greatest extent practicable, the duration of the shutdown; provided that Provider shall not be responsible for any costs or expenses in connection with restoration of conditions at the Site required due to conditions or activities of persons on the Site not under the control of Provider. If a shutdown pursuant to this Section 10(b) continues for 180 days or longer, Provider may terminate this Agreement and Host shall pay the Early Termination Amount.

(c) Project Relocation. Host may request to move the Project to another location on the Site or to another site owned by Host, but any such relocation shall be subject to the approval of Provider and Financing Party in each of their sole discretion. In connection with such relocation, Host shall execute an amendment to this Agreement reflecting the new location of the Project but otherwise continuing all the terms and conditions of this Agreement for the remaining term of this Agreement. Host shall also provide any consents or releases required by Provider in connection with the new location. Host shall pay all reasonable costs associated with the removal and relocation of the Project, including installation and testing costs and interconnection costs. In addition, during the Relocation Event, Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project following the Relocation Event; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced following the Relocation Event; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project following the Relocation Event. Determination of the amount of energy that would have been produced following the Relocation Event shall be based, during the first Operations Year, on the estimated levels of production and, after the first Operations Year, based on actual operation of the Project in the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

(d) Premises Shutdown; Interconnection Deactivated. In the event the facilities where the Premises are located are closed or the interconnection becomes deactivated, Host shall not be excused for the period of closure or deactivation from paying Provider for all electricity produced by the Project on the Premises and delivered to the Point of Delivery unless such closure or deactivation is caused by (i) a Force Majeure Event or (ii) any unexcused action or inaction of Provider or persons for whom Provider is responsible.

(e) Sale of Site. In the event Host transfers (by sale, lease or otherwise) all or a portion of its interest in the Site, except as otherwise provided in this subsection (e), Host shall remain primarily liable to Provider for the performance of the obligations of Host hereunder

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

notwithstanding such transfer. However, if no Host Event of Default has occurred and is continuing at the time of the transfer, and the transferee is acceptable to Provider and Financing Party in their sole discretion and executes agreements assuming this Agreement in form and substance satisfactory to Provider and Financing Party in their sole discretion, Host shall be released from further obligations under this Agreement. For avoidance of doubt, if Host is a municipality or governmental entity, the sale, lease or transfer of all or a portion of Host's interest in the Site to a transferee that is a municipality or governmental entity with a credit rating assigned by Moody's Investor Service at least equal to or better than Host's shall be deemed an acceptable transferee, provided the other requirements set forth in this Section 10(e) are satisfied.

11. TAXES.

(a) Income Taxes. Provider shall be responsible for any and all income taxes associated with payments from Host to Provider for electric energy from the Project. Provider (and/or Financing Party), as owner of the Project, shall be entitled to all Tax Attributes with respect to the Project.

(b) Sales Taxes. Host shall provide Provider with any certificates or other documents required or appropriate to evidence Host's exemption from any applicable taxes, fees, and charges, including sales, use, and gross receipts taxes, imposed or authorized by any Governmental Authority on the sale of electric energy by Provider to Host. Host shall timely report, make filings for, and pay any and all such taxes assessed directly against it by any Governmental Authority. To the extent Provider pays such amounts, Provider shall notify Host in writing with a detailed statement of such amounts, which shall be invoiced by Provider and Host shall reimburse Provider for any and all such taxes assessed against and paid by Provider.

(c) Property Taxes. If project will produce not more than 125% of the annual load of the Property Provider will apply to the City of Melrose for exemption of the Project from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45, and will employ commercially reasonable efforts to secure such exemption. If the project will produce more than 125% of the annual load of the Property or if the exemption is not granted, Provider will seek to enter into a Payment In Lieu of Taxes (PILOT) Agreement with the City of Melrose to establish fixed payments in lieu of personal property tax. Upon execution of a PILOT Agreement, if the PILOT amounts differ from the Assumptions Around Pricing Elements as set forth in Exhibit A, Provider will prepare and the Parties shall execute an amendment to this Agreement , in accordance with the provisions of Exhibit A, to reflect the new rate effective as of the date the PILOT payments begin.

If Provider is assessed any real property taxes related to the existence of the Project on the Premises or if Provider is unable to obtain exemption of the Project from personal property tax and is not able to enter into a PILOT Agreement with the City of Melrose, then Host acknowledges and agrees that Provider shall have the right once per year to invoice Host for the exact amount of the such property taxes. Such invoice shall include documentation demonstrating the tax liability from the taxing authority for the current tax year and proof of payment from Provider to the taxing authority. Such invoice shall be submitted to the Host separately from any monthly invoice for solar energy generation.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

If Provider seeks to obtain exemption of the Project from personal property tax, and/or seeks to enter into a PILOT Agreement with the City of Melrose, and is ultimately unsuccessful, within thirty (30) days of such determination being made Provider will inform Host of such determination and, (1) if Host or the owner of the Site is a municipality, Host will provide Provider, or (2) if Host or the owner of the Site is not a municipality, Provider will provide Host with a good faith estimate of the annual amount of the expected personal property taxes.

Each Party has the right to contest taxes in accordance with Applicable Law and the terms of encumbrances against the Site. Each Party shall use all reasonable efforts to cooperate with the other party in any such contest of tax assessments or payments. In no event shall either Party postpone during the pendency of an appeal of a tax assessment the payment of taxes otherwise due except to the extent such postponement in payment has been abated, bonded or otherwise secured in accordance with Applicable Law.

(d) Reimbursement Deadline. Any reimbursement of taxes owing pursuant to this Section 11 shall be paid within twenty (20) Business Days of receiving an invoice from the Party who paid the taxes.

12. INSURANCE.

(a) Coverage. Host and Provider shall each maintain the insurance coverage set forth in Exhibit G in full force and effect throughout the Term. Host and Provider shall also provide any additional insurance which may be required from time to time by the Local Electric Utility or any legal or regulatory authority affecting the Premises or operation of the Project. If Host has established and maintains a program of self-insurance, Host shall maintain self-insurance for the coverages and in the amounts set forth on Exhibit G.

(b) Insurance Certificates. Each Party shall furnish current certificates indicating that the insurance required under this Section 12 is being maintained. Each Party's insurance policy provided hereunder shall contain a provision whereby the insurer agrees to give the other Party written notice before the insurance is cancelled or materially altered.

(c) Certain Insurance Provisions. Each Party's insurance policy shall be written on an occurrence basis and shall include the other Party as an additional insured as its interest may appear. Each Party's insurer shall waive all rights of subrogation against the other Party except in the case of such Party's negligence or willful misconduct.

(d) Insurance Providers. All insurance maintained hereunder shall be maintained with companies approved to do business in Massachusetts, and rated no less than A- as to Policy Holder's Rating in the current edition of Best's Insurance Guide (or with an association of companies each of the members of which are so rated), provided such requirement shall not apply if a Party maintains an active self-insurance program and provides required insurance pursuant to such self-insurance program.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(e) Flood Insurance. If required under Applicable Law, Host shall maintain FEMA-approved flood insurance for the Premises.

13. COOPERATION.

The Parties acknowledge that the performance of each Party's obligations under this Agreement will frequently require the assistance and cooperation of the other Party. Each Party therefore agrees, in addition to those provisions in this Agreement specifically providing for assistance from one Party to the other, that it will at all times during the Term cooperate with the other Party and provide all reasonable assistance to the other Party to help the other Party perform its obligations hereunder.

14. PRESS RELEASES AND CONFIDENTIALITY.

(a) Goodwill and Publicity. Neither Party shall use the name, trade name, service mark, or trademark of the other Party in any promotional or advertising material without the prior written consent of such other Party. The Parties shall coordinate and cooperate with each other when making public announcements related to the execution and existence of the Agreement, and each Party shall have the right to promptly review, comment upon, and approve any publicity materials, press releases, or other public statements by the other Party that refer to, or that describe any aspect of, the Agreement; provided that no such publicity releases or other public statements (except for filings or other statements or releases as may be required by Applicable Law) shall be made by either Party without the prior written consent of the other Party. At no time will either Party acquire any rights whatsoever to any trademark, trade name, service mark, logo or other intellectual property right belonging to the other Party. Notwithstanding the foregoing, Host agrees that Provider may, at its sole discretion, take photographs of the installation process of the Project and/or the completed Project, and Provider shall be permitted to use such images (regardless of media) in its marketing efforts, including but not limited to use in brochures, advertisements, websites and news outlet or press release articles. The images shall not include any identifying information without Host permission and the installation site shall not be disclosed beyond the type of establishment (such as "Retail Store," "Distribution Center," or such other general terms), the city and state. Only Provider has the exclusive right to claim that (i) electric energy provided to Host was generated by the Project, (ii) Provider is responsible for the reductions in emissions of pollution and greenhouse gases resulting from the generation of such electric energy and (iii) Provider is entitled to all credits, certificates, registrations, etc., evidencing or representing any of the foregoing except as otherwise expressly provided in this Agreement. However, the terms of this Agreement and information about the Project other than that described above constitutes Confidential Information, as defined below, and is subject to the remaining provisions of this Section 14.

(b) Limits on Disclosure of Confidential Information. Subject to the exceptions set forth below in Section 14(c), each Party agrees that, (i) without the consent of the other Party, it shall not disclose any Confidential Information received from the other Party to any other person and (ii) it shall use any Confidential Information received from the other Party only for the purpose of fulfilling its obligations under this Agreement. Notwithstanding the foregoing, subject to the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

requirements of Section 14(c) below, the Parties may, and shall, disclose any information required to be disclosed under rules, regulations and contracts implementing the Applicable Solar Program or Tax Attributes required to be disclosed by any Governmental Authority under Applicable Law or pursuant to a validly issued subpoena or required filing.

(c) Permissible Disclosures. Provider may provide this Agreement, and any correspondence, notices and other information related to this Agreement to any person who has provided or who is interested in providing construction or permanent financing, or any refinancing thereof, to Provider in connection with the Project. In addition, if a receiving Party is required by Applicable Law, validly issued subpoena or required filing to disclose any Confidential Information provided by the disclosing Party, the receiving Party may make disclosure as required by law, but the receiving Party shall prior to making any disclosure, if lawfully permitted to do so, notify the disclosing Party of the requested disclosure and shall use its reasonable efforts to cooperate with the disclosing Party, but at the expense of the disclosing Party, in any efforts by the disclosing Party to minimize the extent of the Confidential Information disclosed and the persons to whom disclosed. If Host is a public entity subject to the requirements of M.G.L. c. 66, § 10 ("MA Public Records Law") the provisions of the MA Public Records Law will govern Host's obligations under Section 14(b) and this Section 14(c), including Provider's right to raise applicability of the exemptions included in the MA Public Records Law. Notwithstanding any term herein to the contrary, the failure to notify the disclosing Party pursuant to this Section 14(c) shall not be deemed an Event of Default.

(d) Enforcement of Confidentiality Provisions. Each Party acknowledges that it may be impossible to measure the damages which may result from a breach of this Section 14 and agrees that the provisions of this Section 14 may be required to be specifically performed and each Party shall have the right to obtain preliminary and permanent injunctive relief to secure specific performance of the terms of this Section 14. The provisions of this Section 14 shall survive until three years after the effective date of any termination of this Agreement.

15. INDEMNIFICATION.

(a) Provider Indemnification. Provider shall indemnify, defend and hold harmless Host and its directors, officers, employees, agents, volunteers, and invitees ("Host's Indemnified Parties"), from and against all Losses incurred by the Host Indemnified Parties to the extent arising from or out of the following: (i) any third party claim for injury to or death of any Person or loss or damage to property to the extent caused by Provider's or Provider's Indemnified Parties (defined below) negligence or willful misconduct; (ii)) third party claims for penalties or fines arising from a Provider's or Provider's Indemnified Parties violation of Applicable Law; (iii) any failure to properly interconnect or comply with the procedures of the Local Electric Utility or Applicable Law; or (iv) any failure to properly handle or dispose of any Hazardous Materials brought onto the Site by Provider or by any of Provider's employees, agents, volunteers, and invitees and released as a result of the negligence of Provider or Installer or any of Provider's or Installer's employees, agents, volunteers, and invitees. Such duty to indemnify with respect to any injuries to persons or damage to property arising from the generation of electricity from the Project shall not extend to incidents occurring on Host's side of the Point of Delivery except to the extent

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

caused by incidents on Provider's side of the Point of Delivery. Such duty to indemnify shall not apply to any action or claim, whether in tort (including negligence and strict liability), contract or otherwise for any loss, injury, or costs resulting from interruptions in service. Provider shall not be obligated to indemnify Host or any Host Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Host or any Host Indemnified Party.

(b) Host Indemnification. To the extent permitted by law, Host shall indemnify, defend and hold Provider, its contractors, subcontractors, shareholders, directors, officers, employees, agents, and invitees, and Financing Party ("**Provider's Indemnified Parties**"), harmless from and against all Losses incurred by the Provider's Indemnified Parties to the extent arising from or out of (i) any third-party claim for injury to or death of any Person or loss or damage to property to the extent caused by the negligence or willful misconduct of any of Host's Indemnified Parties; (ii) Host's violation of Applicable Law; or (iii) the presence, removal or remediation of any Hazardous Materials on the Site (other than any Hazardous Materials brought on to the Site by Provider's Indemnified Parties and improperly stored, disposed of or negligently released by Provider or Installer). Host shall not be obligated to indemnify Provider or any Provider Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Provider or any Provider Indemnified Party.

(c) Notice of Claims. Whenever any claim arises for indemnification under this Agreement, the Indemnified Person shall notify the Indemnifying Party in writing as soon as possible (but in any event prior to the time by which the interest of the Indemnifying Party will be materially prejudiced as a result of its failure to have received such notice) after the Indemnified Person has knowledge of the facts constituting the basis for such claim (the "Notice of Claim"). Such Notice of Claim shall specify all facts known to the Indemnified Person giving rise to the indemnification right and the amount or an assessment of the amount of the liability arising therefrom.

(d) Defense of Claims. The Indemnifying Party has the right, but not the obligation to assume the defense for the matter for which indemnification is sought hereunder. If the Indemnifying Party does not assume the defense, it shall timely pay all costs of legal counsel and case expenses incurred by Indemnified Person in connection with the defense, when and as incurred. If the Indemnifying Party assumes the defense, the Indemnified Person has the right to hire its own, separate counsel to defend it, but the Indemnified Person shall be responsible for the reasonable costs of such separate counsel. The Indemnifying Party shall not consent to the entry of any judgment or enter into any settlement with respect to the matter for which indemnification is sought without the prior written consent of the Indemnified Person (which consent shall not be unreasonably withheld) unless the judgment or settlement involves the payment of money damages only and does not require the acknowledgement of the validity of any claim or admission of any liability by or on behalf of any Indemnified Person.

(e) Payments. At the time that the Indemnifying Party makes any indemnity payments under this Agreement, the indemnification payment shall be adjusted such that the payment will result in the Indemnified Person receiving an indemnity payment equal to the Loss after taking into account (i) all federal, state, and local income taxes that are actually payable to the Indemnified Person with respect to the receipt of such payment and (ii) all national, state, and local tax

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

deductions allowable to the Indemnified Person for any items of loss and deduction for which the Indemnified Party is being indemnified.

(f) Survival of Indemnification. The obligations of indemnification hereunder shall survive termination of this Agreement.

16. REPRESENTATIONS AND WARRANTIES.

(a) Mutual Representations. Each Party hereby represents and warrants to the other, as of date hereof, that:

(i) Organization. It is duly organized, validly existing and in good standing under the laws of its state of incorporation and of the state in which the Premises are located, respectively, and has the power and authority to enter into this Agreement and to perform its obligations hereunder.

(ii) No Conflict. The execution and delivery of this Agreement and the performance of and compliance with the provisions of this Agreement will not conflict with or constitute a breach of or a default under (1) its organizational documents; (2) any agreement or other obligation by which it is bound; (3) any law or regulation.

(iii) Enforceability. (1) All actions required to be taken by or on the part of such Party necessary to make this Agreement effective have been duly and validly taken; (2) this Agreement has been duly and validly authorized, executed and delivered on behalf of such Party; and (3) this Agreement constitutes a legal, valid and binding obligation of such Party, enforceable in accordance with its terms, subject to laws of bankruptcy, insolvency, reorganization, moratorium or other similar laws.

(iv) No Material Litigation. There are no court orders, actions, suits or proceedings at law or in equity by or before any governmental authority, arbitral tribunal or other body, or threatened against or affecting it or brought or asserted by it in any court or before any arbitrator of any kind or before or by any governmental authority that could reasonably be expected to have a material adverse effect on it or its ability to perform its obligations under this Agreement, or the validity or enforceability of this Agreement.

(b) Host Representations. In addition to the representations and warranties in Section 16(a), Host hereby represents and warrants to Provider, as of date hereof, that:

(i) Condition of Premises. Host has provided to Provider Host's complete and correct records of the physical condition of the Premises. If, during the Development Period, Provider deems such records inadequate for its intended purposes hereunder, it shall so notify Host in writing before commencing installation of the Project, in which event the Host shall reasonably cooperate in Provider's efforts to procure such information as Provider may reasonably require regarding the condition of the Premises. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project are to be installed, are materially different from the information

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

presented by Host and from conditions reasonably visible to Provider during site visits prior to entering this Agreement, then if practicable the rates payable by Host hereunder shall be adjusted to compensate Provider for the cost of design and construction changes and delays actually incurred by Provider in order to adapt the Project to the unknown conditions. If such adjustment is not practicable, Provider shall have other rights under this Agreement.

(ii) Title to Premises. Host is the fee owner of and has good and valid title to [has a valid and enforceable leasehold interest in] the Premises and to Host's knowledge there are no mortgagees, lienholders or other third party claimants to the Premises. There are no encumbrances on the Premises that would interfere with or prevent the development, construction, operation or maintenance of the Project or any portion thereof.

(iii) Host Organization. Host is a municipality organized and existing under the laws of the Commonwealth of Massachusetts.

(c) Provider Representations. In addition to the representations and warranties in Section 16(a), Provider hereby represents and warrants to Host, as of date hereof, that:

(i) Interconnection Agreement and Permits. Provider shall use commercially reasonable efforts to obtain an executed interconnection agreement and all permits for the Project in a timely and efficient manner.

17. FORCE MAJEURE; CASUALTY.

(a) Excuse for Force Majeure Event. Except as provided in Section 17(b) or otherwise specifically provided in this Agreement, neither Party shall be considered in breach of this Agreement or liable for any delay or failure to comply with this Agreement, if and to the extent that such delay or failure is attributable to the occurrence of a Force Majeure Event; provided that the Party claiming relief as a result of the Force Majeure Event shall promptly (i) notify the other Party in writing of the existence and details of the Force Majeure Event; (ii) exercise all reasonable efforts to minimize delay caused by such Force Majeure Event; (iii) notify the other Party in writing of the cessation of such Force Majeure Event; and (iv) resume performance of its obligations hereunder as soon as practicable thereafter.

(b) No Excuse for Payment for Prior Services. Excepting a Force Majeure Event which impacts business or banking transactions nationally or globally, in which case such obligations shall be suspended but not excused, obligations to make payments for services provided prior to the Force Majeure Event shall not be excused by a Force Majeure Event.

(c) Casualty; Restoration. In the event of a casualty event, to the extent that such casualty event is attributable to the occurrence of a Force Majeure Event, which destroys all or a substantial portion of the Premises, Host shall elect, within ninety (90) days of such event, whether it will restore the Premises, which restoration will be at the sole expense of Host. If Host does not elect to restore the Premises, then Provider shall not restore the Project and this

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Agreement will terminate without penalty to either Party. If Host does elect to restore the Premises, Host shall provide notice of such election to Provider and Provider shall then elect, within ninety (90) days of receipt of such notice, whether or not to restore the Project, subject to the Parties agreeing on a schedule for the restoration of the Premises and an equitable extension to the Term of this Agreement. If the Parties are not able to so agree or if Provider does not elect to restore the Project, Provider shall promptly remove any portions of the Project remaining on the Premises, and this Agreement shall terminate without penalty to either Party. If Provider does elect to restore the Project, it shall do so at its sole expense. In the event of termination of this Agreement pursuant to this Section 17(c), (i) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the casualty event; and (ii) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

If any damage to the Project is caused by the negligence or willful misconduct of Host or Host's employees, agents, or invitees, Provider shall send written notice to Host specifying (i) the reasonable and documented expenses for repair and replacement of the Project, and (ii) documented lost revenue for sales of electricity and solar incentives (including, but not limited to, Applicable Solar Program, Tax Attributes, Environmental Attributes) that would have been received based on the estimated energy production of the Project. Host shall have thirty (30) days from the receipt of such notice to review the information contained within such notice. Any undisputed amounts shall be due and payable within thirty (30) days after Provider's notice. If Host disagrees with any information contained in such notice, Host shall provide written notice to Provider within the Host's thirty (30) day review period. In the event of a dispute, Host and Provider shall use good faith to resolve such dispute and agree upon a reimbursement amount. Once Host and Provider have agreed upon the reimbursement amount, Host shall pay such agreed amount within thirty (30) days after agreement and in the event there is no dispute, then within thirty (30) days after receipt of the notice.

(d) Termination for Force Majeure Event. Notwithstanding anything to the contrary in this Section 17, if nonperformance on account of a Force Majeure Event continues beyond a continuous period of three hundred and sixty-five (365) days, then either Party shall have the right to terminate this Agreement upon thirty (30) days' notice to the other. Upon such termination, Provider shall be required to decommission and remove the Project from the applicable Site in accordance with the Lease (unless there has been a casualty event, in which case the provisions of clause (c) above shall apply to the removal of the Project). In the event of such a termination of this Agreement with respect to the Project, the Parties shall not be released from any payment or other obligation arising under this Agreement which accrued prior to the shutdown of the Project or the Premises and the indemnity, confidentiality and dispute resolution provisions of this Agreement shall survive the termination of this Agreement.

18. CHANGE IN LAW.

In the event there is a Change in Law that is applicable to the operation of the Project, the sale of electric energy produced by the Project, or any other obligation of the Provider hereunder, and compliance with the Change in Law results in an increase in Provider's costs to operate and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintain the Project, Provider will submit to Host and PowerOptions within 60 days a written notice setting forth, in reasonable detail, the following: (i) the applicable Change in Law; (ii) the manner in which such Change in Law increases Provider's costs; and (iii) Provider's proposed adjustment to the then applicable and future rates for electric energy in this Agreement to reflect such increases in costs. Host agrees to an adjustment in the then applicable and future prices such that the new prices compensate Provider for the total cost increase arising from the Change in Law and said adjustment will remain in effect for as long as the costs arising from the Change in Law continue to be incurred by the Provider; provided, however any such increase shall be no greater than ten percent (10%) of the prices set forth in Exhibit A for the Term of this Agreement.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Provider Events of Default. Provider shall be in default of this Agreement if any of the following ("Provider Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Provider under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within thirty (30) days after receipt of written notice from Host identifying the defect.

(ii) Abandonment During Installation. After commencement of installation of the Project, Provider abandons installation of the Project for thirty (30) days and fails to resume installation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has abandoned installation of the Project.

(iii) Failure to Operate. After the Commercial Operation Date, Provider fails to operate the Project for a period of 90 days which failure is not due to equipment failure, or damage to the Project, act of governmental authority, or exercise of Provider's rights under this Agreement, or otherwise excused by the provisions of Section 17(b) (relating to Force Majeure Events), and Provider fails to resume operation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has ceased operation of the Project for a period of ninety (90) consecutive days, provided, however, that such thirty (30) day cure period shall be extended by the number of calendar days during which Provider is prevented, through no fault of its own, from taking curative action if Provider had begun curative action and was proceeding diligently, using commercially reasonable efforts, to complete such curative action.

(iv) Obligation Failure. Provider fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) days if the failure involves a failure to make payment when due or maintain required insurance; or (B) sixty (60) days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Host identifying the failure.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(v) Insolvency. Provider (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or is generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Provider in an involuntary case under bankruptcy law or seeking to dissolve Provider under other Applicable Law and such petition is not dismissed within 90 days; or (G) takes any action authorizing its dissolution.

(vi) Provider has an Event of Default which results in termination under the Lease.

(b) Financing Party Opportunity to Cure; Host Remedies. Subject to the right of the Financing Party to cure a Provider Event of Default, as set forth in Section 21, upon a Provider Event of Default, if Provider or Financing Party does not cure such Provider Event of Default in accordance with the terms hereof, Host may terminate this Agreement, seek to recover damages for costs of replacement electricity and pursue any and all other remedies available at law or equity.

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Host Events of Default. Host shall be in default of this Agreement if any of the following ("Host Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Host under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within 30 calendar days after receipt of written notice from Provider identifying the defect.

(ii) Obstruction. Host (i) obstructs commencement of installation of the Project; (ii) fails to take any reasonable actions required by this Agreement or requested by Provider or necessary for the interconnection of the Project; or (iii) fails to take electric energy produced by the Project; and, in any of these circumstances, fails to correct such action or inaction, as the case may be, within fifteen (15) Business Days after receipt of written notice from Provider with respect to such act or omission.

(iii) Payment Failure. Host fails to make any payment due under the terms of this Agreement, and fails to make such payment within ten (10) Business Days after receipt of notice thereof from Provider.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) Obligation Failure. Host fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) Business Days if the failure involves a failure to maintain required insurance; or (B) sixty (60) calendar days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Provider identifying the failure.

(v) Insolvency. Host (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or be generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Host in an involuntary case under bankruptcy law or seeking to dissolve Host under other Applicable Law; or (G) takes any action authorizing its dissolution.

(vi) Host has an Event of Default which results in termination under the Lease.

(b) Default Damages. Upon a Host Event of Default, Provider may require Host to pay to Provider the Early Termination Amount, whereupon this Agreement shall terminate immediately. Alternatively, Provider may elect to sell electricity produced by the Project to persons other than Host, and recover from Host any loss in revenues resulting from such sales; and/or pursue other remedies available at law or in equity. If necessary to sell electricity to persons other than Host, Host shall allow Provider to add a new meter dedicated to the solar Project, change the point of interconnection, and/or will support Provider with necessary approvals to change the Schedule Z. After Provider's receipt of such Early Termination Amount pursuant to this Section 20(b), Provider shall collect no additional damages resulting from lost revenues from sales of electricity from the Project.

(c) Survival of Lease, Access Rights and Easement. Upon a Host Event of Default, unless Host pays the Early Termination Amount to Provider in full thus terminating this PPA, Provider may, in its exercise of remedies pursuant to Section 20(b), make continued use of, and Host may not terminate the Lease. Provider shall not be obligated to pay any rent or other consideration for the use of such rights or interests.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

(a) Financing Arrangements. Provider shall not sell, transfer or assign (collectively, an "**Assignment**") this Agreement or any interest therein, without the prior written consent of Host, which shall not be unreasonably withheld, conditioned or delayed, provided, however that Provider may mortgage, pledge, grant security interests, assign, or otherwise encumber its interests in this Agreement to any persons providing debt or equity financing for the Project. Further, Host acknowledges that Provider may obtain construction financing for the Project from a third party

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

and that Provider may either obtain term financing secured by the Project or sell or assign the Project to a Financing Party or may arrange other financing accommodations from one or more financial institutions and may from time to time refinance, or exercise purchase options under, such transactions. Host acknowledges that in connection with such transactions Provider may secure Provider's obligations by, among other collateral, an assignment of this Agreement and a first security interest in the Project. In order to facilitate such necessary sale, conveyance, or financing, and with respect to any lender or lessor, as applicable, Host agrees as follows:

(i) Consent to Sale and to Collateral Assignment. Host hereby consents to both the sale of the Project to a Financing Party and the collateral assignment to the Financing Party of the Provider's right, title and interest in and to this Agreement.

(ii) Rights of Financing Party. Notwithstanding any contrary term of this Agreement:

(A) Step-In Rights. The Financing Party, as owner of the Project, or as collateral assignee of this Agreement, shall be entitled to exercise, in the place and stead of Provider, any and all rights and remedies of Provider under this Agreement in accordance with the terms of this Agreement. The Financing Party shall also be entitled to exercise all rights and remedies of owners or secured parties, respectively, generally with respect to this Agreement and the Project;

(B) Opportunity to Cure Default. The Financing Party shall have the right, but not the obligation, to pay all sums due under this Agreement and to perform any other act, duty or obligation required of Provider hereunder or cause to be cured any default of Provider hereunder in the time and manner provided by the terms of this Agreement. Nothing herein requires the Financing Party to cure any default of Provider under this Agreement or (unless the Financing Party has succeeded to Provider's interests under this Agreement or has otherwise assumed Provider's obligations) to perform any act, duty or obligation of Provider under this Agreement, but Host hereby gives it the option to do so;

(C) Exercise of Remedies. Upon the exercise of remedies, including any sale of the Project by the Financing Party, whether by judicial proceeding or under any power of sale contained therein, or any conveyance from Provider to the Financing Party (or any assignee of the Financing Party as defined below) in lieu thereof, the Financing Party shall give written notice to Host of the transferee or assignee of this Agreement. Any such exercise of remedies shall not constitute a default under this Agreement;

(D) Cure of Bankruptcy Rejection. Upon any rejection or other termination of this Agreement pursuant to any process undertaken with respect to Provider under the United States Bankruptcy Code, at the request of Financing Party made within ninety (90) days of such termination or rejection, Host shall enter into a new agreement with Financing Party or its assignee having substantially the same terms and conditions as this Agreement.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iii) Right to Cure.

(A) Cure Period. Host will not exercise any right to terminate or suspend this Agreement unless it shall have given the Financing Party a copy of Host's prior written notice to Provider of its intent to terminate or suspend this Agreement, as required by this Agreement, specifying the condition giving rise to such right, and the Financing Party shall not have caused to be cured the condition giving rise to the right of termination or suspension within sixty (60) days after such notice or (if longer) the periods provided for in this Agreement; provided that if such Provider default reasonably cannot be cured by the Financing Party within such period and the Financing Party commences and diligently and continuously pursues cure of such default within such period, such period for cure will be extended for a reasonable period of time under the circumstances, such period not to exceed an additional sixty (60) days. The Parties' respective obligations will otherwise remain in effect during any cure period.

(B) Continuation of Agreement. If the Financing Party or its assignee (including any purchaser or transferee), pursuant to an exercise of remedies by the Financing Party, shall acquire title to or control of Provider's assets and shall, within the applicable time periods described in Section 21(a)(iii)(A) above, cure all defaults under this Agreement existing as of the date of such change in title or control in the manner required by this Agreement and which are capable of cure by a third person or entity then such Person shall no longer be in default under this Agreement, and this Agreement shall continue in full force and effect. If the Financing Party notified Host in writing within such sixty (60) day period that it must foreclose on Provider's Interest or otherwise take possession of Provider's interest under this Agreement in order to cure the default (the "**Foreclosure Notice**"), the Host shall not terminate this Agreement and shall permit the Financing Party a reasonable period of time, which shall be outlined in the Foreclosure Notice, as may be necessary for such Financing Party, with the exercise of due diligence, to foreclose or acquire Provider's interest under this Agreement and to perform or cause to be performed all of the covenants and agreements of Provider under this Agreement and the Lease.

(b) Financing Party a Third Party Beneficiary. Host agrees and acknowledges that Financing Party is a third party beneficiary of the provisions of this Section 21.

(c) Entry to Consent to Assignment. Host agrees to (i) execute any reasonable consents to assignment or acknowledgements and (ii) provide such opinions of counsel as may be reasonably requested by Provider and/or Financing Party in connection with such financing or sale of the Project.

22. LIMITATIONS ON DAMAGES.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT OR THE LEASE, AND EXCEPT AS PROVIDED IN THIS AGREEMENT IN SECTIONS 10, 19(B) AND 20(B), NEITHER PARTY NOR ANY OF ITS INDEMNIFIED PERSONS SHALL BE LIABLE TO THE OTHER PARTY OR ITS INDEMNIFIED PERSONS FOR ANY SPECIAL, PUNITIVE, EXEMPLARY, INDIRECT, OR CONSEQUENTIAL DAMAGES, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT. FOR GREATER CLARITY, IT IS AGREED BY THE PARTIES THAT THE EARLY TERMINATION PAYMENT AND ANY PAYMENT BY HOST SPECIFICALLY ADDRESSED HEREIN, INCLUDING WITHOUT LIMITATION, UNDER SECTION 10, ARE CONSIDERED DIRECT DAMAGES. FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS PROVIDED IN THIS AGREEMENT, THE LIABILITY OF THE DEFAULTYING PARTY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION AND ALL OTHER DAMAGES ARE HEREBY WAIVED.

Notwithstanding anything to the contrary, Provider's total combined liability to Host under this Agreement and the Lease (whether due to breach of contract, negligence, strict liability or any other cause) shall not exceed, for all claims, a total amount of Provider's commercial general liability policy limit (combined single limit); provided that claims by Host for indemnity related to third-party claims as provided under Section 15(a) shall not be subject to such limit.

23. DISPUTE RESOLUTION.

(a) Negotiation Period. The Parties shall negotiate in good faith and attempt to resolve any dispute, controversy or claim arising out of or relating to this Agreement (a "**Dispute**") within 30 days after the date that a Party gives written notice of such Dispute to the other Party, except that a Party may seek injunctive relief to prevent irreparable harm without first proceeding or completing any dispute resolution proceedings.

(b) Jurisdiction, Venue, and Jury Trials. If despite the efforts, if any, to negotiate, the Parties do not resolve the Dispute within the negotiation period described above, then each Party irrevocably consents to the exclusive jurisdiction of the state and federal courts sitting in Massachusetts, in connection with any action related to the Dispute. Each Party agrees that process may be served upon it in any manner authorized by such courts and that it waives all objections which it might otherwise have to such jurisdiction and process. Further, each Party irrevocably waives all of its rights to a trial by jury with respect to any such action.

(c) Survival of Dispute Provisions. The provisions of this Section 23 and Section 25 shall survive any termination of this Agreement and shall apply (except as provided herein) to any disputes arising out of this Agreement.

24. NOTICES.

Delivery of Notices. All notices or other communications which may be or are required to be given by any Party to any other Party pursuant to this Agreement shall be in writing and shall

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; transmitted by email if receipt of such transmission by email is specifically acknowledged by the recipient (automatic responses not being sufficient for acknowledgement), addressed as follows:

If to Host:

City of Melrose
562 Main St
Melrose, MA 02176
Attention: City Solicitor Shannon Phillips
Email: sphillips@cityofmelrose.org

If to Provider:

Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, Massachusetts 01748
Attention: Legal Notices
Email: legal@solect.com

Notices shall be effective when delivered (or in the case of email, when acknowledged by the recipient) in accordance with the foregoing provisions, whether or not (except in the case of email transmission) accepted by, or on behalf of, the Party to whom the notice is sent.

Each Party may designate by Notice in accordance with this section to the other Party a new address to which any notice may thereafter be given.

25. MISCELLANEOUS.

(a) Governing Law. This Agreement shall be governed by the laws of the Commonwealth of Massachusetts, without regard to principles of conflicts of law, and including principles of good faith and fair dealing that will apply to all dealings under this Agreement.

(b) Rules of Interpretation. Section headings are for convenience only and shall not affect the interpretation of this Agreement. References to sections are, unless the context otherwise requires, references to sections of this Agreement. The words "hereto", "hereof" and "hereunder" shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The word "person" shall include individuals; partnerships; corporate bodies (including but not limited to corporations, limited partnerships and limited liability companies); non-profit corporations or associations; governmental bodies and agencies; and regulated utilities. The word "including" shall be deemed to be followed by the words "without limitation". In the event of any conflict between the text of this Agreement and the contents of an exhibit hereto, the text of this Agreement shall govern.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(c) Severability. If any non-material part of this Agreement is held to be unenforceable, the rest of the Agreement will continue in effect. If a material provision is determined to be unenforceable and the Party which would have been benefited by the provision does not waive its unenforceability, then the Parties shall negotiate in good faith to amend the Agreement to restore to the Party that was the beneficiary of such unenforceable provision the benefits of such provision. If the Parties are unable to agree upon an amendment that restores the Party's benefits, the matter shall be resolved under Section 23, and the court will modify the unenforceable provision in order to restore to the Party that was the beneficiary of the unenforceable provision the economic benefits of such provision.

(d) Amendment and Waiver. This Agreement may only be amended by a writing signed by both Parties. Any waiver of any of the terms hereof shall be enforceable only to the extent it is waived in a writing signed by the Party against whom the waiver is sought to be enforced. Any waiver shall be effective only for the particular event for which it is issued and shall not constitute a waiver of a subsequent occurrence of the waived event nor constitute a waiver of any other provision hereof, at the same time or subsequently.

(e) Assignment. Except as provided in Section 21(a), neither Party may assign, sell, transfer or in any other way convey its rights, duties or obligations under this Agreement, either in whole or in part, without the prior written consent of the other Party which consent shall not be unreasonably withheld or delayed, except that without consent of Host, Provider (i) may assign its rights and obligations hereunder to an Affiliate of Provider and (ii) may sell or collaterally assign this Agreement in accordance with Section 21. For purposes of this Section 25(e), transfer does not include any sale of all or substantially all of the assets of Provider or Host or any merger of Provider or Host with another person, whether or not Provider or Host is the surviving entity from such merger, or any other change in control of Provider or Host, provided any such surviving entity assumes all obligations of Provider or Host, as appropriate, under this Agreement.

(f) No Joint Venture. This Agreement does not create a joint venture, partnership or other form of business association between the Parties.

(g) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of signature by fax, or scan delivered by email, receipt acknowledged, or electronic signature are effective to bind a Party hereto.

(h) Relation of the Parties. The relationship between Provider and Host shall not be that of partners, agents, or joint ventures for one another, and nothing contained in the Agreement shall be deemed to constitute a partnership or agency agreement between them for any purposes, including federal income tax purposes. Provider and Host, in performing any of their obligations hereunder, shall be independent contractors or independent parties and shall discharge their contractual obligations at their own risk.

(i(i) CORI. With respect to Projects to be installed at Massachusetts public schools, the Host shall have the right to conduct a check of the Criminal Offender Record Information (CORI)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintained by the Massachusetts Criminal History Board, and the Massachusetts Sex Offender Record Information (SORI) maintained by the Massachusetts Sex Offender Registry Board, for any officer or employee of the Provider or of a subcontractor of the Provider who will work at the Premises. Notwithstanding any other provision of the Agreement, the Host may refuse to allow any such employee to work on the project if the Host, in its sole discretion, determines that such employee is not suitable for work on the project based on the results of such CORI or SORI. The Host shall keep such information in a confidential file. With respect to Projects to be installed at public schools in other states, similar criminal offender and sex offender information maintained by the state shall apply, and Host shall have discretion regarding employment of such registered offenders.

(j) Notwithstanding anything in this Agreement to the contrary, Host shall have no obligation to assign to Provider any right or interest which gives the Provider greater rights or interests in the Premises or any other property owned or controlled by the Host than the rights and interests contemplated in this Agreement.

(rest of page left blank intentionally – signatures appear on next page)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

IN WITNESS WHEREOF, intending to be legally bound hereby, Provider and Host have executed this Power Purchase Agreement as of the date first set forth above.

GLOSSARY OF TERMS

"Access Rights" means the rights more fully described in the Lease for Provider and its designees, including Installer, to enter upon and cross the Site to install, operate, maintain, repair and remove the Project, and to interconnect the Project with the Local Electric Utility and to provide water, electric and other services to the Project.

"Affiliate" means, as to any Person, any other Person which, directly or indirectly, is in control of, is controlled by, or is under common control with, such Person. For purposes of this definition, "control" of a Person means the power, directly or indirectly, to direct or cause the direction of the management and policies of such Person whether by contract or otherwise.

"Agreement" means this Power Purchase Agreement, including all exhibits attached hereto, as the same may be amended from time to time in accordance with the provisions hereof.

"Applicable Law" means any constitutional provision, law, statute, rule, regulation, ordinance, treaty, order, decree, judgment, decision, certificate, holding, injunction, registration, license, franchise, permit, authorization, or guideline issued by a Governmental Authority that is applicable to a Party to this Agreement or the transaction described herein. Applicable Law also includes an approval, consent or requirement of any Governmental Authority having jurisdiction over such Party or its property, enforceable at law or in equity.

"Applicable Solar Program" means the state laws, rules, and regulations that govern the solar incentives, rights and obligations (e.g., SMART), as may be amended from time to time, by the authorities having legal jurisdiction where the Project will be installed and where the benefits will be realized.

"Avoided Energy Price" means the rate, expressed in $/kWh, set forth in Exhibit A for purposes of calculating any credits owed to Host pursuant to Section 5(b). The Year 1 Avoided Energy Price shall be the average applicable tariff rate per kWh, at the time of execution of the Power Purchase Agreement, that Host would have paid for full requirements delivered electric service (which shall include energy-related charges such as delivery, service, distribution, or taxes, but excluding demand and other related charges) from its Local Electric Utility, with a 3% annual escalation rate applied to each subsequent Guarantee Year.

"Business Day" means a day other than Saturday, Sunday, or other day on which commercial banks in Massachusetts are authorized or required by law to be closed.

"Capacity Value" means such capacity value as determined by market rules established by ISO-NE. Provider is the owner of the capacity value of the Project and shall have the right to participate in ISO-NE's Forward Capacity market at their discretion through an aggregator or as an ISO-NE Market Participant. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Change in Law" means that after the date of this Agreement, an Applicable Law is amended, modified, nullified, suspended, repealed, found unconstitutional or unlawful, or changed or affected in any material respect by any Applicable Law. Change in Law does not include changes in federal or state income tax laws. Change in Law does include material changes in the interpretation of an Applicable Law.

"Commercial Operation Date" means the date, which shall be specified by Provider to Host pursuant to Section 4(d), when the Project is physically complete and has successfully completed all performance tests and satisfies the interconnection requirements of the Local Electric Utility.

"Confidential Information" means information of a confidential or proprietary nature, whether or not specifically marked as confidential. Such information shall include, but not be limited to, any documentation, records, listing, notes, data, computer disks, files or records, memoranda, designs, financial models, accounts, reference materials, trade-secrets, prices, strategic partners, marketing plans, strategic or other plans, financial analyses, customer names or lists, Project opportunities and the like, provided however that Confidential Information does not include information which (i) was in the possession of the receiving Party before receipt from the disclosing Party; (ii) is or becomes publicly available other than as a result of unauthorized disclosure by the receiving Party; (iii) is received by the receiving Party from a third party not known by the receiving Party with the exercise of reasonable diligence to be under an obligation of confidentiality respecting the information; or (iv) is independently developed by the receiving Party without reference to information provided by the disclosing Party; or, if applicable (v) is the subject of a lawful disclosure request under the Public Records Law, M.G.L. c.66, §10 or any other applicable public disclosure laws governing Host.

"Construction Start Date" means sixty (60) days after receipt of (i) executed interconnection agreement for the Project and (ii) all permits, which shall be extended day-by-day for Force Majeure Events.

"Delay Liquidated Damages" means the daily payment of (i) $0.250/day/kW, not to exceed $15/kW in the aggregate, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date in accordance with and subject to Section 2(e).

"Dispute" means a controversy or claim arising out of or relating to this Agreement.

"Early Termination Amount" (a) for terminations occurring after the first to occur of transfer of the Project to a Financing Party or the Commercial Operation Date, means an amount determined in accordance with Exhibit B, as of the applicable anniversary date set forth thereon, which includes all lost revenues from the sale or utilization of electrical energy, Environmental Attributes, or Tax Attributes, provided however, (b) in the event Host becomes liable for payment of the Early Termination Amount prior to the first to occur of the events listed in (a), Host shall instead pay to Provider a termination payment equal to the sum of the following, not to exceed the Early Termination Amount for Year 1 set forth in Exhibit B: (1) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to third parties for permits, interconnection application fees and studies,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

SMART incentives and other Governmental Authority and Utility approvals; and (2) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to subcontractors and suppliers as of the termination date for design, engineering and procurement of equipment and other materials included in the Project, including any battery energy storage system and including the expenses and cancellation charges reasonably incurred and paid by Provider in termination of contracts and purchase orders pertaining to the System and the Installation Work; and (3) charges for Provider's internal engineering manpower and materials reasonably expended developing the Project up to the termination date based on Provider's labor rate sheet attached hereto as Exhibit H, which may be reasonably adjusted for inflation (in writing) on an annual basis, and, in the case of the costs described in sub-clauses (1) and (2) only, plus an amount equal to eighteen percent (18%) of such costs.

"Effective Date" shall have the meaning assigned to such term in the recitals.

"Electric Service Provider" means any person, including the Local Electric Utility, authorized by the Commonwealth of Massachusetts to provide electric energy and related services to retail users of electricity in the area in which the Site is located.

"Environmental Attributes" means Renewable Energy Certificates, carbon trading credits, emissions reductions credits, emissions allowances, green tags, Green-e certifications, or other entitlements, certificates, products, or valuations attributed to the Project and its displacement of conventional energy generation, or any other entitlement pursuant to any federal, state, or local program applicable to renewable energy sources, whether legislative or regulatory in origin, as amended from time to time, and excluding, for the avoidance of doubt, any Tax Attributes and the Applicable Solar Program.

"Estimated Annual Production" means the annual estimate of electricity generated by the Project for any given year. The Estimated Annual Production for each year of the Term is set forth in Exhibit F.

"Expiration Date" means the date on which the Agreement terminates by reason of expiration of the Term.

"Fair Market Value" means the price that would be paid in an arm's length, free market transaction, in cash, between an informed, willing seller and an informed, willing buyer (who is neither a lessee in possession nor a used equipment or scrap dealer), neither of whom is under compulsion to complete the transaction, taking into account, among other things, the age and performance of the Project and advances in solar technology, provided that installed equipment shall be valued on an installed basis and costs of removal from a current location shall not be a deduction from the valuation.

"Financing Party" means a Project Lessor or Lender.

"Force Majeure Event" means any act or event that prevents the affected Party from performing it obligations in accordance with this Agreement, if such act or event is beyond the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

reasonable control, and not the result of the fault or negligence, of the affected Party and such Party had been unable to overcome such act or event with the exercise of due diligence (including the expenditure of reasonable sums). Subject to the foregoing, Force Majeure Event may include but are not limited to the following acts or events: (i) natural phenomena, such as storms, hurricanes, floods, lightning and earthquakes; (ii) explosions or fires arising from lightning or other causes unrelated to the acts or omissions of the Party seeking to be excused from performance; (iii) acts of war or public disorders, civil disturbances, riots, insurrection, sabotage, declared state of emergency or public health emergency, pandemic, government mandated quarantine or travel ban, epidemic, terrorist acts, or rebellion; (iv) acts or omissions of Governmental Authorities, including the Local Electric Utility to the extent not caused by the action or inaction of Provider; and (v) strikes or labor disputes (except involving employees of the affected Party). Force Majeure Events shall not include equipment failures or acts or omissions of agents, suppliers or subcontractors, except to the extent such acts or omissions arise from a Force Majeure Event. Changes in prices for electricity shall not constitute Force Majeure Events.

"Governmental Authority" means any international, national, federal, provincial, state, municipal, county, regional or local government, administrative, judicial or regulatory entity operating under any Applicable Laws and includes any department, commission, bureau, board, administrative agency or regulatory body of any government.

"Guaranteed Commercial Operation Date" means 270 days from the Construction Start Date, which shall be extended day-by-day for Force Majeure Events and for other events outside of Provider's reasonable control.

"Hazardous Materials" means all hazardous or toxic substances, wastes or other pollutants, including petroleum, petroleum hydrocarbons or petroleum products, petroleum by-products, radioactive materials, asbestos or asbestos-containing materials, gasoline, diesel fuel, pesticides, radon, urea formaldehyde, lead or lead-containing materials, polychlorinated biphenyls; and any other chemicals, materials, substances or wastes in any amount or concentration which are now included in the definition of "hazardous substances," "hazardous materials," "hazardous wastes," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutants," "regulated substances," "solid wastes," or "contaminants" or words of similar import, under any Applicable Law.

"Host" means the entity identified as Host in the recitals, and all successors and assigns.

"Indemnified Person" means the person who asserts a right to indemnification under Section 15.

"Indemnifying Party" means the Party who has the indemnification obligation under Section 15 to the Indemnified Person.

"Initial Period" has the meaning provided in Section 2.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Installation Work" means the construction and installation of the Project and the start-up, testing and acceptance (but not the operations and maintenance) thereof, all performed by or for Provider at the Premises.

"Installer" means Solect Energy Development, LLC, the person designated by Provider to install the Project on the Premises.

"Land Registry" means the office where real estate records for the Site are customarily filed.

"Lease" has the meaning provided in the Recitals hereof.

"Lender" means persons providing construction or permanent financing to Provider in connection with installation of the Project.

"Liens" has the meaning provided in Section 8(c).

"Local Electric Utility" means the entity authorized and required under Applicable Law to provide electric distribution service to Host at the Site.

"Losses" means any and all losses, liabilities, claims, demands, suits, causes of action, judgments, awards, damages, cleanup and remedial obligations, interest, fines, fees, penalties, costs, and expenses (including all attorney's fees and other costs and expenses incurred in defending any such claims or matters or in asserting or enforcing any indemnity obligation).

"Net Metering" means the process of measuring the difference between electricity delivered by a Local Electric Utility to a customer and electricity generated by a solar system and fed back to the Local Electric Utility, as set forth in Applicable Law.

"Net Metering Credit" shall mean the monetary value of the excess electricity generated by a Project, and credited to the Host by the Local Electric Utility, as set forth in Applicable Law.

"Operations Period" has the meaning provided in Section 2.

"Operations Year" means a twelve month period beginning at 12:00 am on an anniversary of the Commercial Operations Date and ending at 11:59 pm on the day immediately preceding the next anniversary of the Commercial Operations Date, provided that the first Operations Year shall begin on the Commercial Operations Date.

"Party" means either Host or Provider, as the context shall indicate, and "Parties" means both Host and Provider, collectively.

"Point of Delivery" has the meaning set forth in Section 5(a) and Exhibit E.

"Premises" means the portions of the Site described on Exhibit D.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Production Excess" has the meaning set forth in Section 7(b)(i).

"Project" means an integrated system for the generation of electricity from solar energy consisting of the photovoltaic panels and associated equipment to be installed on each of the Premises in accordance with this Agreement.

"Project Lessor" means, if applicable, any Person to whom Provider transferred the ownership interest in the Project, subject to a leaseback of the Project from such Person.

"Provider" means Solect Energy Development LLC.

"Relocation Event" means the relocation of the Project, starting at the shutdown of the Project pursuant to such relocation, and ending at the commercial operation of the Project when such relocated Project is reinstalled at a new location, as determined by the Provider in its reasonable discretion.

"Renewable Energy Certificate" or "REC" means a certificate, credit, allowance, green tag, or other transferable indicia, howsoever entitled, created by an applicable program or certification authority indicating generation of a particular quantity of energy, or product associated with the generation of a megawatt-hour (MWh) from a renewable energy source by a renewable energy Project.

"SMART Incentive Payment Effective Date" means the date on which the SMART incentive payment becomes effective as determined by the Local Electric Utility.

"Site" means the real property described on Exhibit C attached hereto.

"Tax Attributes" means the investment tax credits (including any grants or payments in lieu thereof) and any tax deductions or other benefits under the Internal Revenue Code or applicable federal, state, or local law available as a result of the ownership and operation of the Project or the output generated by the Project (including, without limitation, tax credits (including any grants or payments in lieu thereof) and accelerated and/or bonus depreciation.)

"Term" shall have the meaning provided in Section 2 hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A

ENERGY PURCHASE PRICES

The PPA $/kWh rates set forth in this Exhibit A are dependent on Provider's good faith assumptions around the Pricing Elements set forth below, and are in accordance with the rules of the PowerOptions Solar and Storage Program. The actual SMART Incentive Payment Rate will be established upon receipt of the SMART Statement of Qualification from Massachusetts Department of Energy Resources. Upon receipt of the Statement of Qualifications, Provider shall forward a copy to Host.

Block 10

SMART Incentive Amount	$0.05819
PPA Rate ($/kWh)	$0.182

Assumptions around Pricing Elements:

- Additional utility interconnection costs. Prices shown include budgeted interconnection costs and exclude costs (if any) for utility engineering studies or system upgrades.
- PPA Rate assumes Project is exempt from personal property tax.
- Prices shown do not include costs required to comply with additional site work, stormwater management infrastructure, environmental compliance or remediation, or Orders of Conditions, as required by local AHJ (i.e. Planning Board, Conservation Commissions).
- Federal investment tax credit amount will reflect the calendar year in which installation begins.
- Steel pricing for ground mounted or canopy structures. A change in price shall be considered material when the price of the applicable steel product or products changes by 5% percent or more between the Effective Date and the Construction Commencement Date based on the benchmark prices published by CME group U.S. Midwest Hot-Rolled Coil Index (CRU), https://www.cmegroup.com/markets/metals/ferrous/hrc-steel.contractSpecs.html or such other steel index as is agreed with PowerOptions.

Variations:

Should the actual values of the Pricing Elements materially differ from the assumed values, Provider will prepare a Final PPA Rate in accordance with the rules of the PowerOptions Solar plus Storage program. Such Final PPA Rate will be provided to Host no later than 20 days prior to the Construction Start Date, and shall automatically take effect provided such Final PPA Rate does not exceed a Maximum PPA Rate of: $0.200 unless the parties have reached agreement on

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

a Final PPA Rate that exceeds the Maximum PPA Rate as determined pursuant to the process described below.

If, upon receipt of all documentation necessary to establish a Final PPA Rate, the Provider determines that the Final PPA Rate exceeds the Maximum PPA Rate, the parties will cooperate in good faith to negotiate a PPA Rate acceptable to both parties. If, after fifteen (15) days, the Parties are not able to agree on an acceptable PPA Rate, Provider may, in its sole discretion, elect to (i) continue performance under this Agreement with the PPA Rate equal to the Maximum PPA Rate, or (ii) terminate this Agreement upon ten (10) days' written notice to Host. Upon a termination hereunder, Host shall reimburse Provider for Provider's direct costs incurred in performing under this Agreement between the Effective Date and the date of such termination.

AVOIDED ENERGY PRICE

The following table sets forth the "Avoided Energy Price" for purposes of calculating the amount on any credit due to the Host under the Performance Guarantee in Section 5(b), with a 2% annual escalation rate.

Guarantee Year	**Avoided Energy Price per kWh**
1	$0.20333
2	$0.20740
3	$0.21154
4	$0.21578
5	$0.22009
6	$0.22449
7	$0.22898
8	$0.23356
9	$0.23823
10	$0.24300
11	$0.24786

the same becomes due notwithstanding any license or waiver of any prior breach of condition shall make the whole of the balance of said principal sum immediately due and payable at the option of the holder hereof. For any breach of the statutory condition or for any breach of any condition of this mortgage the Mortgagee shall have the statutory power of sale. In the event the ownership of the mortgaged premises, or any part thereof, becomes vested in a person other than the Mortgagor, the Mortgagee may, without notice to the Mortgagor, deal with such successor or successors in interest with reference to the mortgage and the debt hereby secured, in the same manner as with the Mortgagor, without in any way vitiating or discharging the Mortgagor's liability hereunder or upon the debt hereby secured. No sale of the premises hereby mortgaged and no forbearance on the part of the Mortgagee and no extension of the time for the payment of the debt hereby secured given by the Mortgagee shall operate to release, discharge, modify, change or affect the original liability of the Mortgagor herein, either in whole or part. Wherever the words Mortgagor and Mortgagee are used herein they shall include their several heirs, executors, administrators, successors, grantees and assigns subject to the limitations of law and of this instrument, and if the context requires, the words Mortgagor and Mortgagee and the pronouns referring to them shall be construed as plural, neuter or feminine. In case this loan is paid in full within one year from the date hereof, the Bank reserves the right to charge interest thereon for sixty days beyond the date of repayment. WITNESS my hand and seal this 27th day of January 1942 John L. Donovan . THE COMMONWEALTH OF MASSACHUSETTS Middlesex,ss. Arlington, January 27, 1942. Then personally appeared the above-named John L. Donovan and acknowledged the foregoing instrument to be his free act and deed, before me, John G. Brackett Justice of the Peace My commission expires October 5, 1945. -

fee for school purposes a certain parcel of land, now or formerly owned by Clarence Cochrane et al, and bounded and described as follows: Beginning at a point on the westerly line of Damon Avenue, said point being the P. C. of a curve and being one hundred thirty-three and sixty-eight one-hundredths (133.68) feet northerly from the P. C. at Ruggles Street; thence by said curve, radius five hundred twenty-eight and eighty-six one-hundredths (528.86) feet, bearing northerly and to the left one hundred five and forty-three one-hundredths (105.43) feet to a point on the westerly line of said Damon Avenue; thence northerly by said westerly line of Damon Avenue ten and eighty-three one-hundredths (10.83) feet to land now or formerly of Dawson; thence westerly by said land of Dawson twelve and seventy-seven one-hundredths (12.77) feet to land of the City of Melrose; thence southerly by land of said City of Melrose one hundred seventeen and twenty-nine one-hundredths (117.29) feet to the P. C. of a curve and point of beginning. The above description is of a parcel of land of Damon Avenue, known as Lot (A) and shown on plan entitled, "Plan of Damon Avenue in Melrose, Mass., dated January 26, 1929, John F. Rand C.E.", and recorded in the Middlesex South Registry of Deeds, Book 6285 Page 382. All structures and trees upon said parcel of land are included in this taking. No betterments are to be assessed for this improvement. The question of damages sustained by the owner or owners of the land taken in accordance with the foregoing having been duly considered, it is hereby determined that no damages have, or will be, sustained by reason of said taking and, therefore, none are awarded.

CITY OF MELROSE

In Board of Aldermen June 19, 1967

AN ORDER Taking premises numbered 23 Hesseltine Avenue, Lots A^3 and B, adjacent to Horace Mann School, for school purposes

Offered by Alderman V. Edward Perkins for the Committee on Education, Health and Public Welfare

The duly elected and qualified Board of Aldermen of the City of Melrose, in the County of Middlesex, having complied with all the preliminary requirements prescribed for the purpose hereinafter set forth, and having made an appropriation of money for the purpose; and, it being necessary and desirable to acquire said land for said purpose, adopts the following order of taking:-

BE IT ORDERED

that, in accordance with the provisions of Chapter 79 of the General Laws, as amended, there be, and there hereby is, taken, on behalf of said city for school purposes, a certain parcel of land, being the premises numbered 23 Hesseltine Avenue, adjacent to the Horace Mann School, owned now, or formerly, by Charles A. Kane, and more particularly bounded and described as follows:-

Lot A^3 - Bk 131 Pg 89

Beginning at a point on the easterly line of Hesseltine Avenue, said point being thirty-six and twelve one hundredths (36.12) feet from an angle in said street, and being on the dividing line between land of Andrew C. and Mary A. Williams and land of Charles A. Kane; thence easterly along land of Andrew C. and Mary A. Williams one hundred twenty-one and twenty-one one hundredths (121.21) feet to land of Leonore H. Simonds; thence northwesterly along land of Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to land of Frank D. Rydant; thence westerly along land of said Frank D. Rydant forty-two and seventy one hundredths (42.70) feet to the easterly line of Hesseltine Avenue; thence southerly by said easterly line of Hesseltine Avenue one hundred and eight (108.00) feet to point of beginning and containing eleven thousand and eighty-eight (11,088) square feet and being Lot A^3 shown on Land Court Plan 4842 F, filed with Land Court, Certificate ~~525h~~ in Book ~~139~~, Page ~~89~~ cancelled

" 60979 " 407 " 33

Lot B

Beginning at a point on the southerly dividing line of land belonging to Frank D. Rydant, said point being forty-two and seventy one hundredths (42.70) feet easterly from the easterly line of Hesseltine Avenue; thence easterly along said dividing line fifty-eight (58.00) feet to an angle; thence northerly by land of said Frank D. Rydant sixty (60.00) feet to land of Arnold C. and Barbara J. Wilson; thence easterly along land of said Arnold C. and Barbara J. Wilson fourteen and fifty one hundredths (14.50) feet to an angle; thence northerly along land of said Arnold C. and Barbara J. Wilson sixty (60.00) feet to land of City of Melrose; thence easterly along land of City of Melrose three hundred eighty-one and sixty-nine one hundredths (381.69) feet to the westerly line of Ruggles Street; thence southerly along said westerly line of Ruggles Street five (5.00) feet to land of Ellen E. Fogg; thence westerly by land of said Ellen E. Fogg

BK 11349 PG436

one hundred (100.00) feet to an angle; thence southerly along land of said Ellen E. Fogg and land of Dorothy L. Lightbown, land of Raymond F. and Lucie F. Risser and land of Max Solomon, one hundred and ninety (190.00) feet to land of Irving W. and Mildred N. Bray; thence westerly along land of said Irving W. and Mildred N. Bray forty-four (44.00) feet to land of Joseph S. and Mary Nutter; thence northerly along land of said Joseph S. and Mary Nutter forty (40.00) feet to an angle; thence westerly along land of said Joseph S. and Mary Nutter fifty and twenty-five one hundredths (50.25) feet to land of Leonore H. Simonds; thence northerly along land of said Leonore H. Simonds sixty-five (65.00) feet to an angle; thence westerly along land of said Leonore H. Simonds one hundred and two (102.00) feet to land of Charles A. Kane; thence northwesterly along land of said Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to point of beginning and containing fifty-nine thousand and forty (59,040) plus or minus square feet.

The foregoing descriptions are of two parcels of land in the City of Melrose shown on plan of same entitled, "Plan of Land in Melrose, Mass., showing land to be taken for school purposes, dated March 8, 1967, George R. Winters, Engineer and Superintendent, Melrose Public Works Department", to be recorded herewith.

The description given in this order of taking conforms to the deed of the parcel taken and the plan to be recorded herewith is a true survey of said parcel.

All trees and structures in said parcel of land are included in this taking. Interest in said land is taken in fee simple thereof.

We estimate and determine the damages sustained by the said Charles A. Kane, or his successors, in his, or their, property by reason of said taking to be in the amount of twenty-five thousand three hundred forty-two dollars and fifteen cents ($25,342.15) said amount including the sum of three hundred forty-two dollars and fifteen cents ($342.15) estimated to be equal to that portion of the tax, which it is estimated will be assessed upon said parcel in the year 1967, apportioned pro rata according to the number of days in said year after such taking. It being understood that if said Charles A. Kane is not such owner and entitled to such damages, the said award to be made to the true owner or owners.

The owner, or owners, of said land, or of any interest therein may request an offer pursuant to Section 8 A of Chapter 79 of the General Laws, of settlement of all damages for such taking within six months from the date when the right to damages vests; and may petition the Superior Court to determine their damages within two years from the date of the recording of this order of taking.

EXHIBIT D

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT E

DESCRIPTION OF PROJECT

Point of Delivery is the Local Electric Utility's meter.

The Project will be comprised of a series of solar photovoltaic equipment and parts integrated to the main electric service at the building, behind the utility meter, and interconnected to the Local Electric Utility's electricity distribution system. Main equipment components of the Project include:

- Roughly 141 x 480W Tier 1 Solar modules or equivalent
- Roughly 1 x solar inverters or equivalent
- Ballasted roof racking systems or equivalent
- Rapid shutdown system
- Solar kWh meter and monitoring system, connected to Host-provided internet service
- Combiners, Disconnects, Conduit, Switches, Pipe and Wire, and Balance of System materials.

Equipment list may change during the course of the Project

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT F

ESTIMATED ANNUAL PRODUCTION

Estimated Annual Production commencing on the Commercial Operation Date with respect to Project under the Agreement shall be as follows:

Year	Estimated Production (kWh)	Year	Estimated Production (kWh)
1	78,451	11	74,241
2	78,019	12	73,833
3	77,590	13	73,427
4	77,163	14	73,023
5	76,739	15	72,621
6	76,317	16	72,222
7	75,897	17	71,825
8	75,480	18	71,430
9	75,064	19	71,037
10	74,652	20	70,646

The values set forth in the table above are estimates (and not guarantees), of approximately how many kWhs are expected to be generated annually by the Project.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT G

INSURANCE REQUIREMENTS

1. General Liability

(a) Both Host and Provider will have a minimum level of commercial general liability insurance for the term of the Power Purchase Agreement of one million dollars ($1,000,000) for each occurrence, and two million dollars ($2,000,000) in the aggregate. Insurance coverage shall be at least as broad as the Insurance Services Office (ISO) Commercial General Liability Coverage "occurrence" form, with no coverage deletions.

(b) Both the Host and Provider general liability insurance coverage shall:

(i) Be endorsed to specify that the Provider's and Host's insurance is primary and that any insurance or self-insurance maintained by the Local Electric Utility shall not contribute with it.

2. Workers' Compensation

Host will have Workers' Compensation insurance indicating compliance with any applicable labor codes, acts, laws or statutes, state or federal, at the Site where the work is performed. Employers' Liability insurance shall not be less than $1,000,000 for injury or death each accident.

3. Property Loss

Provider shall carry adequate property loss insurance on the Project which need not be covered by the Host's property coverage. The amount and terms of insurance coverage will be determined at Provider's sole discretion.

4. Additional Insurance Provisions

Host shall furnish Provider with certificates of insurance and endorsements of all required insurance, as may be reasonably requested, including for purposes of compliance with any legal or regulatory authority or Local Electric Utility affecting the Premises or operation of the Project. Insurance required by the Local Electric Utility shall not be canceled except after (30) days prior written notice has been given to the Local Electric Utility.

5. Additional Installation Contractor Requirements

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Installation contractors will have valid commercial general liability, workers compensation, and business auto insurance as follows:

- Commercial general liability insurance will be in the following amounts: $1,000,000 for each occurrence and $2,000,000 aggregate.

- Workers compensation insurance or self-insurance indicating compliance with any applicable labor codes, laws or statutes, state or federal, where Installer performs work.

- Auto coverage not less than one million dollars ($1,000,000) each accident for bodily injury and property damage, and x million dollars ($1,000,000) in the aggregate.

- Excess liability insurance on an occurrence basis covering claims (on at least a following form basis) in excess of the underlying insurance for Commercial General Liability, Auto Liability and Employers' Liability with a minimum limit per occurrence of one million dollars ($1,000,000) and two million dollars ($2,000,000) in the aggregate. The amounts of insurance required for Commercial General Liability, Auto Liability, Employers' Liability and Excess Liability may be satisfied by Installer purchasing coverage in the amounts specified or by any combination of primary and excess insurance, so long as the total amount of insurance meets the requirements specified above.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

LEASE AGREEMENT

This Lease Agreement (this "**Lease**") is entered into as of _____, 20__, (the "**Effective Date**") by and between City of Melrose ("**Host**"), and Solect Energy Development LLC ("**Provider**") a limited liability company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement governing the terms and conditions of Provider's participation in the PowerOptions Solar Programs;

WHEREAS, Host is the owner of the properties located and described in Exhibit A (the "**Site**" or the "**Property**") and desires to make a portion of the Site (said portion of the Site as more fully described in Exhibit B, the "**Premises**") available to Provider for the construction, operation and maintenance of a solar powered electric generating project (the "**Project"**); and

WHEREAS, Host and Provider have entered into a Power Purchase Agreement dated on or about the date hereof (as amended, modified and supplemented from time to time, the "**PPA**") describing the power sales arrangement between the Parties.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Lease not defined herein shall have the meanings set forth in the GLOSSARY OF TERMS attached to the PPA.

2. TERM.

The Term of the Lease shall begin as of the Effective Date and shall continue until 11:59 p.m. on the last day of the month in which the twentieth (20th) anniversary of the SMART Incentive Payment Effective Date occurs. Notwithstanding, in the event that the PPA is terminated prior to the otherwise applicable end of term, this Lease shall also terminate; provided, however, that in the event that the PPA terminates early pursuant to Section 20(c) of the PPA (due to Host Event of Default), and Host does not pay the Early Termination Amount to the Provider, and Provider desires to continue use of the Premises under this Lease, then the Term of this Lease shall continue until the end of the term as set forth above. This Lease may be extended in accordance with the provisions for an extension of the PPA (as more specifically set forth in Section 2 of the PPA). For greater clarity, the parties hereby confirm that Provider shall also have access rights as described in Section 3 hereof, for removal of the Project pursuant to Section 9 (Removal at End of Term) hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

3. LEASE RIGHTS.

(a) Lease Access Specifications; Easement Rights. Host hereby grants Provider and its designees (including Installer) access to the Premises, for the Term and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, at reasonable times and upon reasonable notice (except in situations where there is imminent risk of damage to persons or property), for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and any other purpose set forth in this Lease (the "**Permitted Uses**"), and otherwise in accordance with the provisions of this Lease. The Premises are leased together with the following Access Rights with respect to the Site:

(i) Vehicular & Pedestrian Access. A non-exclusive easement for reasonable vehicular and pedestrian access across the Site to the Premises for the Permitted Uses. In exercising such access Provider shall reasonably attempt to minimize any disruption to activities occurring on the Site.

(ii) Utilities & Communication Cables. The right and easement to locate distribution utility and/or electrical lines, electrical equipment cables, and other related facilities, equipment and improvements across the Site. The location of any such lines and cables shall be subject to Host's approval and shall be at locations that minimize any disruption to Host's activities occurring on the Site. Access will also be provided for telephone and internet connections on the Premises for use by Provider in installing, operating and maintaining the Project.

(iii) Solar Easement. An easement to receive direct sunlight and solar energy, pursuant to which Host shall not construct new buildings or structures or install rooftop equipment, or plant new trees or vegetation of any type which now or hereafter, in Provider's reasonable opinion, may be a hazard to the Project, overshadow or otherwise block or interfere with sunlight access to the Project at all hours of the day. The solar easement granted herein includes rights of unobstructed sunlight, and in furtherance thereof, the Parties have included provisions regarding trimming of vegetation and removal of obstructions which could impair insolation of the Project.

(iv) Interconnection Easement. An exclusive right to construct, operate, maintain, reconstruct, relocate, remove, and/or repair the electric utility service infrastructure and associated wires, lines and poles and other infrastructure necessary and convenient to interconnect the Project to the Local Electric Utility electrical distribution system, across portions of the Property to be determined by the Local Electric Utility, subject to the consent of Host and Provider, such consent not to be unreasonably withheld, conditioned or delayed. Provider shall bear all costs associated with interconnection, including fees, permits, taxes and charges.

(b) Quiet Enjoyment of Premises. Host hereby leases the Premises to Provider and Provider leases the Premises from Host for the Permitted Uses for the Term. Provided that Provider remains in compliance with its obligations under this Lease, Provider shall lawfully and

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

quietly have, hold, occupy and enjoy the Premises, use of the Easements and Access Rights, and any other rights granted by this Lease twenty-four hours a day, seven days a week, for the entire Term free of any claim of any person of superior title thereto without hindrance, interruption, suit, or interference of any kind by Host or any other person or entity claiming (whether at law or in equity) by, through, or under Host.

(c) Access to Premises. For the Term of this Lease, Host hereby grants to Provider the rights necessary for Provider to use and occupy portions of the Premises for the installation, operation, maintenance, repair, and removal of the Project pursuant to the terms of this Lease, including ingress and egress rights to the Premises for Provider and its employees, contractors and subcontractors and access to electrical panels and conduits to interconnect or disconnect the Project with the Premises' electrical wiring. Host hereby covenants that (i) Provider shall have access to the Premises and Project during the Term of this Lease and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, and (ii) Host shall not interfere or handle any Provider equipment or the Project without written authorization from Provider; provided, however, that Host shall at all times have access to and the right to observe the Installation Work or Project removal.

(d) No Interference. Host agrees not to conduct activities on, in or about the Property that have a reasonable likelihood of causing damage or impairment to, or otherwise adversely affecting, the Project. Host shall take reasonable steps to limit access to the Project to prevent theft, damage, vandalism and injury. Host and Provider agree to cooperate to determine if any commercially reasonable security measures are required at the Property. Provider shall have the right to provide and install such reasonable security measures, as Host and Provider deem in their reasonable discretion, are or may be necessary for the protection of the Project or to prevent injury or damage to persons or property, subject in all cases to Host's normal security procedures and Provider's Access Rights.

(e) Storage Space. Host shall provide temporary space at the Property for the storage and staging of tools, materials and equipment and for the parking of construction crew vehicles and temporary construction trailers and facilities reasonably necessary during the Installation Work, service events during the Term, or Project removal, and access for rigging and material handling. Provider shall be responsible for providing shelter and security for stored items during construction and installation.

(f) Recording. Provider may record a Notice of this Lease in substantially the same form attached hereto as Exhibit C in the land records regarding its Access Rights under this Lease.

4. HAZARDOUS MATERIALS; SITE SECURITY; SITE CONDITIONS.

(a) Hazardous Materials. Provider and Installer are not responsible for any Hazardous Materials encountered at the Site except to the extent introduced and negligently released by Provider or Installer. Upon encountering any Hazardous Materials, Provider and Installer will stop work in the affected area and duly notify Host and, if required by Applicable Law, any Governmental Authority with jurisdiction over the Site. Upon receiving notice of the presence of suspected Hazardous Materials at the Site, Host shall take all measures required by Applicable

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Law to address the Hazardous Materials discovered at the Site. Host may opt to remediate the Site so that the Project may be installed on the Site, or determine that it is not economically justifiable or is otherwise impractical to remediate the Site, in which case Host and Provider may agree upon a different location for the Project whereupon such replacement location shall be the Site for purposes of this Lease. Provider and Installer shall be obligated to resume work at the affected area(s) of the Site only after Host notifies Provider and Installer that Host has complied with all Applicable Laws, and causes to be delivered to Provider from an authorized Governmental Authority or a qualified independent expert a written certification that (i) remediation has been accomplished as required by Applicable Law and (ii) all necessary approvals have been obtained from any Governmental Authority having jurisdiction over the Project or the Site. Host shall reimburse Provider for all additional costs incurred by Provider or Installer in the installation of the Project resulting from the presence of and/or the remediation of Hazardous Materials, including demobilization and remobilization expenses. Notwithstanding the preceding provisions, Host is not responsible for any Hazardous Materials introduced to the Site by Provider or Installer and released as a result of the negligence of Provider or Installer, nor is Host required to remediate an affected area if such remediation is deemed to be economically unjustifiable or otherwise impractical.

(b) Site Security. Host will provide security for the Project to the extent of its normal security procedures, practices, and policies that apply to the Property. Host will advise Provider immediately upon observing any damage to the Project. Upon request by Provider, such as Provider receiving data indicating irregularities or interruptions in the operation of the Project, Host shall, as quickly as reasonably practicable, send a person to observe the condition of the Project and report back to Provider on such observations. Notwithstanding anything to the contrary, except in the case of gross negligence or willful action/inaction on the part of Host's security, Provider shall bring no claim against Host based upon performance of Host's security personnel.

(c) Host shall not be required to make any repairs or alterations in or to the Site, except as follows: Complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) The Parties agree that Provider shall not be liable for any conditions on the Site arising from or related to acts or omissions occurring prior to the Effective Date, except to the extent arising from or related to Provider's negligence or willful misconduct or to the extent that such conditions on the Site are exacerbated by the Provider or Installer.

5. CONSTRUCTION; OPERATION OF PERMITTED USES; ROOF.

(a) Provider and its contractors, agents, consultants, and representatives shall have reasonable access at all reasonable times to the Site for the Permitted Uses, and to any documents, materials and records of Host relating to the Site that Provider reasonably requests in conjunction with these activities. Provider, and its contractors, agents, consultants and representatives shall comply with Host's reasonable safety and security and operational procedures (as may be promulgated from time to time), and Provider and its contractors, agents, consultants and representatives shall conduct such activities in such a manner and at such a time and day as to cause minimum interference with Host's activities at the Site.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider shall operate, maintain, and repair the Project in a manner that will not obstruct or interfere with Host's use of the Site or the rights of any other occupants of the Site, to the extent such rights are disclosed to Provider.

(c) For rooftop projects only:

(i) Provider shall install the Project in a manner that will not void the roof warranty, provided Host has provided such warranty, in writing

(ii) The Parties agree to the following with respect to repairs to the roof to be made prior to the commencement of construction: Host shall perform complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) Host has provided to Provider Host's available records of the physical condition of the Premises which, to the best of Host's knowledge, are complete and correct. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project is to be installed, are materially different from the information provided by Host, then the Parties shall negotiate in good faith to adjust the rates payable by Host in order to compensate Provider for the cost of design and construction changes and delays incurred to adapt the Project to the unknown conditions and, if the parties cannot agree to a good faith rate adjustment after thirty (30) days, Provider shall have the right to terminate this Lease and the PPA.

(e) Except with the prior express written consent of Host, Provider shall not use the Premises for any use other than the Permitted Uses.

(f) During the course of construction and completion of the Project and any substantial alteration thereto, Provider shall maintain all plans, shop drawings, and specifications relating to such construction which Host, its agents or representatives may examine at reasonable times upon reasonable prior notice for the purpose of determining whether the work conforms to the PPA and this Lease.

(g) Host has been informed by Provider and acknowledges that the presence of and construction and operation of the Project and other activities related to the development, operation and decommissioning of the Project may potentially result in some nuisance to Host, such as visual impact. Host hereby accepts such nuisance and waives any right that Host may have to object to such nuisance and Host releases Provider from any claims Host may have with respect to any such nuisance, provided the Project as built is consistent with the site plan and specifications attached hereto, as amended from time to time, or otherwise approved by Host, which approval shall not be unreasonably withheld, conditioned or delayed.

(h) For rooftop projects only, Host shall, at its sole cost and expense, throughout the Term, maintain, repair and replace in a good and workmanlike manner as and when necessary, the building on which the Project is installed, including all building structural portions, and portions of the Property subject to Access Rights. Host shall perform all maintenance, repairs and replacements required under this subsection (h) (collectively, the "**Maintenance**") promptly after

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Host learns of the need for such Maintenance, but in any event within thirty (30) days after Provider gives written notice to Host of the need for such Maintenance, and shall coordinate any Maintenance with Provider if such Maintenance requires access to the Premises; provided, however, that in cases of emergency, Host shall perform Maintenance as soon as reasonably practicable after it learns of the need for such Maintenance. Host shall reimburse Provider for any damage to the Project caused by Host's Maintenance activities.

(i) Provider covenants and agrees to perform all work, including the construction, alteration (if permitted), repair and maintenance of the Project in a good and workmanlike manner and in such a way as to minimize noise, dust and interference with the operation, use and enjoyment of the Property by Host, or by other tenants, visitors or users of the Property.

(j) Provider shall, at Provider's expense, comply with all laws and regulations applicable to Provider's installation and operation of the Project at the Property, and shall be responsible for obtaining all permits or approvals required by any applicable authority in order to construct and operate the Project, and to comply, at all times during the term of this Lease, with all such permits and approvals.

(k) Provider covenants and agrees to keep the Project in good order, repair and condition throughout the Term, and to promptly and adequately repair all damage to the Premises and the Property caused by Provider or the Project. During the Term, any and all installation and construction work performed on the Property by Provider shall be conducted in a manner to comply with any requirements of any roof warranty delivered to Provider by Host (provided, however, in the event of a roof warranty that is not existing as of the Effective Date, Provider shall comply with such requirements to the extent that they do not interfere with Provider's use of the Project).

(l) Provider shall not bring into or install or keep on the Premises, any objects, including the Project, the weight of which, singularly or in the aggregate, would exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof, as required by local building code. Provider shall engage an engineer licensed and qualified where the Project is located to certify the same to Host before Provider shall install, affix or place any part of the Project upon the Premises, with a copy of such certification to be provided to the Host.

(m) The Provider shall not make any alterations, improvements and/or additions to the Site, except as shown on the plans approved by Host as of the Effective Date, without first obtaining, in each instance, the written consent of the Host, which consent shall not be unreasonably withheld, delayed or conditioned.

(n) Provider acknowledges and agrees that the Premises are being leased by Provider in their condition as of the delivery date, "As Is," without representation or warranty except for the express representations and warranties made by Host in this Lease and in the PPA, and Provider hereby waives any implied warranty that the Site is habitable or suitable for Provider's intended purposes or any other particular purpose. Provider acknowledges that Provider has inspected the Premises, and that by commencing construction of the Project, Provider will be deemed to have

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

found the same satisfactory. Provider agrees that Host is under no obligation to perform any work or provide any materials to prepare the Premises for Provider, except as set forth in Section 4(c) of this Lease.

6. RENT. In lieu of monetary rent, the consideration for this Lease is the terms of the PPA.

7. INTENTIONALLY OMITTED.

8. PERMITS, OWNERSHIP OF PROJECT, LIENS, MORTGAGES.

(a) Permits. Provider shall pay for and obtain all approvals from governmental entities necessary for the construction and operation of the Project, including land use permits, building permits, demolition and waste disposal permits and approval. Host shall cooperate in good faith with Provider and shall execute any such applications promptly upon request by Provider, and shall not unreasonably oppose or interfere with Provider in such regard. Provider shall provide Host with copies of all permits obtained in the approval process of the Project.

In furtherance of the above, Host hereby authorizes Provider to file with such federal, state and local authorities as Provider deems appropriate, and in the name of Host, Provider or both, as Provider deems appropriate (i) one or more applications to obtain any zoning relief regarding the Property or portions thereof as may be necessary and/or desirable to develop, construct and operate the Project on the Premises; and (ii) one or more applications to obtain construction, use or occupancy permits for the Project or any portion thereof.

(b) Project Ownership. Provider or Financing Party shall be the legal and beneficial owner of the Project at all times. The Project is personal property and shall not attach to or be deemed a part of, or fixture to, the Site. The Project shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. Host covenants that it will place all persons having an interest in or lien upon the real property comprising the Premises, on notice of the ownership of the Project and the legal status or classification of the Project as personal property. Host and/or Provider shall make any necessary filings to disclaim the Project as a fixture of its respective Premises and Site in the appropriate Land Registry to place all interested parties on notice of the ownership of the Project by Provider.

(c) Liens. To the extent permitted by Applicable Law, each Party shall not directly or indirectly cause, create, incur, assume or suffer to exist any mortgage, pledge, lien, (including mechanics', labor or materialman's lien), charge, security interest, encumbrance or claim of any nature, including claims by governmental authorities for taxes (collectively referred to as "Liens" and each, individually, a "Lien") on or with respect to the interests of the other in the Site, the Premises, and the Project, and in the Access Rights granted hereunder. Provider shall, to the extent allowed under Applicable Law, have Installer execute lien waivers with respect to any mechanic's or materialman's lien against Host's interest in the Site. If permitted under Applicable Law, Host will post notices of non-responsibility to notify Installer and others that Host is not responsible for work performed on the Project. Each Party shall promptly notify the other of the imposition of a Lien on the property interests of the other Party, and shall promptly discharge such lien, provided however, that a Party may seek to contest the amount or validity of any Lien affecting the property

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

of the other Party, provided it timely complies with all procedures for contesting such Lien, posts any bond or other security necessary under such procedures, and if such procedures do not require the posting of security, the Party establishes for the benefit of the other Party a deposit, letter of credit, or other security acceptable to the other Party to indemnify the other Party against any Loss which could reasonably be expected to arise if such Lien is not removed or discharged.

(d) Non Disturbance Agreements. Host shall pay for and obtain all consents required for it to enter into and perform its obligations under this Lease from its lenders, landlord, tenants, and any other persons with interests in the Site. If there is any mortgage, deed of trust, fixture filing or ground lease or similar encumbrance (a "**Mortgage**," and the holder thereof from time to time the "**Holder**") encumbering the Property, whether executed and delivered prior to or subsequent to the date of this Lease, Host shall, promptly upon request of Provider, use commercially reasonable efforts to cause the Holder of any such Mortgage to enter into a mutually agreeable nondisturbance agreement, which provides that (i) this Lease is subordinate to the Mortgage (unless the Holder shall elect otherwise); (ii) in the event that the Holder or any other party shall succeed to the interest of Host (such Holder or other party, a "Successor"), at the election of the Holder or Successor, Provider shall attorn to the Holder or Successor and this Lease shall continue in full force and effect between the Holder or Successor and Lessee; (iii) in the event of foreclosure of the Mortgage, so long as the Provider is not in default with the Lease after any applicable cure period, Holder agrees to recognize the rights of the Provider under this Lease, including Provider's Access Rights and the priority of Provider's (and/or Financing Party's rights) in the Project; and (iv) Holder or Successor recognizes that the ownership of the Project remains in Provider and acknowledges that the Project is personal property of Provider. Such nondisturbance agreement shall be substantially in the form attached hereto as Exhibit D or in the form customarily used by Holder, and it shall be recorded, at Host's expense, in the appropriate Land Registry. If Host is the fee owner of the Premises, Host consents to the filing of a disclaimer of the Project as a fixture of the Premises in the Land Registry. If Host is not the fee owner, Host will obtain such consent from such owner of the Premises.

9. REMOVAL AT END OF TERM.

Subject to Host's exercise of its purchase option under Section 9(a) or 9(b) of the PPA, upon the expiration or earlier termination of the Lease, Provider shall, at Provider's expense, remove all of its tangible property comprising the Project from the Premises on a mutually convenient date but in no case later than one hundred eighty (180) days after the Expiration Date, which may be extended on a day to day basis if the circumstances warrant and are agreeable to the Parties. The Premises shall be returned to its original condition except for ordinary wear and tear. If the Project is to be located on a roof, then in no case shall Provider's removal of the Project affect the integrity of Host's roof, which shall be as leak proof as it was prior to installation of Project (other than ordinary wear and tear). For purposes of Provider's removal of the Project, Host's covenants pursuant to Section 3 (Lease Rights) and Section 16 (Representations and Warranties) shall remain in effect until the date of actual removal of the Project. Provider shall leave the Premises in neat and clean order. If Provider fails to remove or commence substantial efforts to remove the Project by such agreed upon date, Host shall have the right, at its option, to remove the Project to a public warehouse and restore the Premises to its original condition (other than ordinary wear and tear) at Provider's reasonable cost.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

10. RELOCATION; CLOSURE OR SALE OF SITE.

Sections 10(c) (Relocation) and 10(e) (Sale of Site) of the PPA are incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

11. TAXES.

Section 11 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease.

12. INSURANCE.

Section 12 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

13. COOPERATION; SOLAR ACCESS; FUTURE IMPROVEMENTS; RIGHT TO INSPECT AND ENTER.

(a) Cooperation. Section 13(a) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein. Additionally, Host shall execute and deliver to Provider and/or the Local Electric Utility any agreements required by Local Electric Utility for the interconnection of the Project with the Local Electric Utility's distribution system.

(b) Host to Not Restrict Solar Access. Host, or any lessee, grantee, invitee or licensee of Host, shall not erect any structures on, or make other modifications to, or plantings on, or engage in any activities on, the Site which will interfere with the construction, operation or maintenance of, or solar access of, the Project. Further, Host shall maintain the Premises in a manner which allows for full unobstructed passage of sunlight to the Project, including removing or trimming vegetation or other objects causing shading of the Premises. Provided, however, for rooftop projects, Host may construct, reconstruct, modify, or alter the Premises so long as such activities do not interfere (including shading) with the operation of the Project. Host's failure to comply with its obligations in this section 13(b) shall be a material breach. Provided, however, Host shall have thirty (30) days to cure such breach.

(c) Provider's Right to Remove. The parties hereby acknowledge that Provider shall have the right (but shall not be obligated) to trim or remove, at Host's reasonable cost, any trees or other vegetation now or hereafter on the Site which now or hereafter in the reasonable opinion of Provider may overshadow or otherwise block or interfere with access of sunlight to the Project.

(d) Adjoining Properties. If Applicable Law and existing easements do not ensure that structures or plantings on adjoining property will not interfere with the solar access for the Project, then Host and Provider shall use commercially reasonable efforts to obtain from owners of adjoining properties any easements reasonably necessary to protect the solar access of the Project. Such easements shall run for the benefit of both Host and Provider. Provider shall pay for the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

expense of obtaining such easements, including payments to property owners and legal costs, but the rates payable by Host for electric energy from the Project shall be increased by an amount sufficient for Provider to fully amortize such costs, over a period equal to the lesser of (i) five years or (ii) the remaining term of this Lease without regard to Host's option to purchase the Project.

(e) Right to Inspect and Enter. Host and its agents, consultants, and representatives shall have reasonable access to the Premises at all reasonable times, subject to Provider's reasonable safety, security, and operational rules and, except for emergency situations, subject to Provider's consent which shall be obtained at least 5 business days prior and such consent not to be unreasonably withheld, conditioned or delayed, to inspect the Premises for the purpose of ascertaining its condition and to carry out such maintenance and repairs to Host's property and equipment as may be required; provided, however, that such access shall not interfere with Provider's performance of its obligations hereunder; and provided, further, that neither Host nor any of its agents, employees, consultants, contractors or representatives shall operate, touch or perform any repair or maintenance to the Project.

14. PRESS RELEASES AND CONFIDENTIALITY.

Section 14 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

15. INDEMNIFICATION.

Section 15 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

16. REPRESENTATIONS AND WARRANTIES.

Section 16 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

17. FORCE MAJEURE; CASUALTY.

Section 17 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

18. INTENTIONALLY OMITTED.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Section 19(a) (Provider Events of Default) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

(b) Remedies. Upon the occurrence of a Provider Event of Default, Host may, at its option, terminate this Lease, and shall be entitled to exercise any and all rights and remedies available under this Lease, at law or in equity.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Section 20(a) (Host Events of Default) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

(b) Remedies. Upon the occurrence of a Host Event of Default, Provider may, at its option, terminate this Lease, and shall be entitled to exercise any and all rights and remedies available under this Lease, at law or in equity.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

Section 21 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

22. LIMITATIONS ON DAMAGES.

Section 22 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

23. DISPUTE RESOLUTION.

Section 23 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

24. NOTICES.

Section 24 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

25. MISCELLANEOUS.

Section 25 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

SEE PLAN NO. 72 OF 1929

CITY OF MELROSE TAKING

CITY OF MELROSE. In Board of Aldermen, December 28, 1928. Offered by Alderman Mary L. Barrows. BE IT ORDERED WHEREAS, public necessity and convenience require that the parcel of land hereinafter described be taken for school purposes, and a proper appropriation therefor has been made; and WHEREAS all parties interested have been notified and a hearing had in accordance with the law; NOW, THEREFORE, the City of Melrose hereby takes in fee for school purposes the following parcel of land situated in said MELROSE and bounded and described as follows: Beginning at a point on the easterly line of Hesseltine Avenue, said point being a cedar stake eighty-eight and twenty-four one-hundredths (88.24) feet north from an angle in said Hesseltine Avenue; thence turning, including an angle of 106° 57', and running easterly over land of Ruggles six hundred and fifty-seven one-hundredths (600.57) feet to land of Watkins; thence easterly, including an angle of 159° 43' 30", by said land of Watkins sixty-three and twenty-eight one-hundredths(63.28) feet to land now or late of Cochrane; thence northerly by said land of Cochrane three hundred seventy-two and ninety-six one-hundredths(372.96) feet to a drill hole; thence turning, including an angle of 97° 56' 57" and running westerly by land now or late of said Cochrane four hundred eighty-five and sixty-two one-hundredths (485.62) feet to land of O'Connell; thence southerly by lands of O'Connell and of MacKeil one hundred ten (110) feet; thence westerly by land of said MacKeil one hundred (100) feet to said easterly line of Hesseltine Avenue; thence southerly along said easterly line of Hesseltine Avenue eighty-seven and twenty-four one-hundredths (87.24) feet to said stake, and point of beginning, containing one hundred twenty-eight thousand two hundred and twelve

See plan opposite

222

(128,212) square feet more or less. The above description is of a parcel of land situated east of Hesseltine Avenue, and is intended to conform with a plan of the same made by Frank Emerson, Engr. & Supt. Public Works of the City of Melrose, dated December 1, 1928, to be recorded herewith. No betterments are to be assessed in respect to this taking. No trees upon the said land nor any structures affixed thereto are included in this taking, and if there be any trees or structures upon said land, the owner thereof is hereby allowed ten days in which to remove the same. So far as known to this Board, Charles E. Ruggles is the owner of land hereby taken, and damages are hereby awarded to said owner in the sum of $8000.00. Passed Dec. 28, 1928. Alfred C. Malm, President of the Board of Aldermen. Dec. 28/1928. In Board of Aldermen. Ordained R. C. 9-0. Dec.31.'28. Victor C. Kirmes, Clerk. Order 18566-B. Approved. Albert M. Tibbetts, Mayor. -

the same becomes due notwithstanding any license or waiver of any prior breach of condition shall make the whole of the balance of said principal sum immediately due and payable at the option of the holder hereof. For any breach of the statutory condition or for any breach of any condition of this mortgage the Mortgagee shall have the statutory power of sale. In the event the ownership of the mortgaged premises, or any part thereof, becomes vested in a person other than the Mortgagor, the Mortgagee may, without notice to the Mortgagor, deal with such successor or successors in interest with reference to the mortgage and the debt hereby secured, in the same manner as with the Mortgagor, without in any way vitiating or discharging the Mortgagor's liability hereunder or upon the debt hereby secured. No sale of the premises hereby mortgaged and no forbearance on the part of the Mortgagee and no extension of the time for the payment of the debt hereby secured given by the Mortgagee shall operate to release, discharge, modify, change or affect the original liability of the Mortgagor herein, either in whole or part. Wherever the words Mortgagor and Mortgagee are used herein they shall include their several heirs, executors, administrators, successors, grantees and assigns subject to the limitations of law and of this instrument, and if the context requires, the words Mortgagor and Mortgagee and the pronouns referring to them shall be construed as plural, neuter or feminine. In case this loan is paid in full within one year from the date hereof, the Bank reserves the right to charge interest thereon for sixty days beyond the date of repayment. WITNESS my hand and seal this 27th day of January 1942 John L. Donovan . THE COMMONWEALTH OF MASSACHUSETTS Middlesex,ss. Arlington, January 27, 1942. Then personally appeared the above-named John L. Donovan and acknowledged the foregoing instrument to be his free act and deed, before me, John G. Brackett Justice of the Peace My commission expires October 5, 1945. -

fee for school purposes a certain parcel of land, now or formerly owned by Clarence Cochrane et al, and bounded and described as follows: Beginning at a point on the westerly line of Damon Avenue, said point being the P. C. of a curve and being one hundred thirty-three and sixty-eight one-hundredths (133.68) feet northerly from the P. C. at Ruggles Street; thence by said curve, radius five hundred twenty-eight and eighty-six one-hundredths (528.86) feet, bearing northerly and to the left one hundred five and forty-three one-hundredths (105.43) feet to a point on the westerly line of said Damon Avenue; thence northerly by said westerly line of Damon Avenue ten and eighty-three one-hundredths (10.83) feet to land now or formerly of Dawson; thence westerly by said land of Dawson twelve and seventy-seven one-hundredths (12.77) feet to land of the City of Melrose; thence southerly by land of said City of Melrose one hundred seventeen and twenty-nine one-hundredths (117.29) feet to the P. C. of a curve and point of beginning. The above description is of a parcel of land of Damon Avenue, known as Lot (A) and shown on plan entitled, "Plan of Damon Avenue in Melrose, Mass., dated January 26, 1929, John F. Rand C.E.", and recorded in the Middlesex South Registry of Deeds, Book 6285 Page 382. All structures and trees upon said parcel of land are included in this taking. No betterments are to be assessed for this improvement. The question of damages sustained by the owner or owners of the land taken in accordance with the foregoing having been duly considered, it is hereby determined that no damages have, or will be, sustained by reason of said taking and, therefore, none are awarded.

CITY OF MELROSE

In Board of Aldermen June 19, 1967

AN ORDER Taking premises numbered 23 Hesseltine Avenue, Lots A^3 and B, adjacent to Horace Mann School, for school purposes

Offered by Alderman V. Edward Perkins for the Committee on Education, Health and Public Welfare

The duly elected and qualified Board of Aldermen of the City of Melrose, in the County of Middlesex, having complied with all the preliminary requirements prescribed for the purpose hereinafter set forth, and having made an appropriation of money for the purpose; and, it being necessary and desirable to acquire said land for said purpose, adopts the following order of taking:-

BE IT ORDERED

that, in accordance with the provisions of Chapter 79 of the General Laws, as amended, there be, and there hereby is, taken, on behalf of said city for school purposes, a certain parcel of land, being the premises numbered 23 Hesseltine Avenue, adjacent to the Horace Mann School, owned now, or formerly, by Charles A. Kane, and more particularly bounded and described as follows:-

Lot A^3 - Plan 131 of 60

Beginning at a point on the easterly line of Hesseltine Avenue, said point being thirty-six and twelve one hundredths (36.12) feet from an angle in said street, and being on the dividing line between land of Andrew C. and Mary A. Williams and land of Charles A. Kane; thence easterly along land of Andrew C. and Mary A. Williams one hundred twenty-one and twenty-one one hundredths (121.21) feet to land of Leonore H. Simonds; thence northwesterly along land of Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to land of Frank D. Rydant; thence westerly along land of said Frank D. Rydant forty-two and seventy one hundredths (42.70) feet to the easterly line of Hesseltine Avenue; thence southerly by said easterly line of Hesseltine Avenue one hundred and eight (108.00) feet to point of beginning and containing eleven thousand and eighty-eight (11,088) square feet and being Lot A^3 shown on Land Court Plan 4842 F, filed with Land Court, Certificate ~~525h~~ in Book ~~139~~, Page ~~89~~ amended

" 60979 " 407 " 33

Lot B

Beginning at a point on the southerly dividing line of land belonging to Frank D. Rydant, said point being forty-two and seventy one hundredths (42.70) feet easterly from the easterly line of Hesseltine Avenue; thence easterly along said dividing line fifty-eight (58.00) feet to an angle; thence northerly by land of said Frank D. Rydant sixty (60.00) feet to land of Arnold C. and Barbara J. Wilson; thence easterly along land of said Arnold C. and Barbara J. Wilson fourteen and fifty one hundredths (14.50) feet to an angle; thence northerly along land of said Arnold C. and Barbara J. Wilson sixty (60.00) feet to land of City of Melrose; thence easterly along land of City of Melrose three hundred eighty-one and sixty-nine one hundredths (381.69) feet to the westerly line of Ruggles Street; thence southerly along said westerly line of Ruggles Street five (5.00) feet to land of Ellen E. Fogg; thence westerly by land of said Ellen E. Fogg

(continued)

MAY 30-67 AM 11:18 20SR * 13.00

SEE PLAN IN RECORD BOOK 11349 PAGE 435

BK 11349 PG436

one hundred (100.00) feet to an angle; thence southerly along land of said Ellen E. Fogg and land of Dorothy L. Lightbown, land of Raymond F. and Lucie F. Risser and land of Max Solomon, one hundred and ninety (190.00) feet to land of Irving W. and Mildred N. Bray; thence westerly along land of said Irving W. and Mildred N. Bray forty-four (44.00) feet to land of Joseph S. and Mary Nutter; thence northerly along land of said Joseph S. and Mary Nutter forty (40.00) feet to an angle; thence westerly along land of said Joseph S. and Mary Nutter fifty and twenty-five one hundredths (50.25) feet to land of Leonore H. Simonds; thence northerly along land of said Leonore H. Simonds sixty-five (65.00) feet to an angle; thence westerly along land of said Leonore H. Simonds one hundred and two (102.00) feet to land of Charles A. Kane; thence northwesterly along land of said Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to point of beginning and containing fifty-nine thousand and forty (59,040) plus or minus square feet.

The foregoing descriptions are of two parcels of land in the City of Melrose shown on plan of same entitled, "Plan of Land in Melrose, Mass., showing land to be taken for school purposes, dated March 8, 1967, George R. Winters, Engineer and Superintendent, Melrose Public Works Department", to be recorded herewith.

The description given in this order of taking conforms to the deed of the parcel taken and the plan to be recorded herewith is a true survey of said parcel.

All trees and structures in said parcel of land are included in this taking. Interest in said land is taken in fee simple thereof.

We estimate and determine the damages sustained by the said Charles A. Kane, or his successors, in his, or their, property by reason of said taking to be in the amount of twenty-five thousand three hundred forty-two dollars and fifteen cents ($25,342.15) said amount including the sum of three hundred forty-two dollars and fifteen cents ($342.15) estimated to be equal to that portion of the tax, which it is estimated will be assessed upon said parcel in the year 1967, apportioned pro rata according to the number of days in said year after such taking. It being understood that if said Charles A. Kane is not such owner and entitled to such damages, the said award to be made to the true owner or owners.

The owner, or owners, of said land, or of any interest therein may request an offer pursuant to Section 8 A of Chapter 79 of the General Laws, of settlement of all damages for such taking within six months from the date when the right to damages vests; and may petition the Superior Court to determine their damages within two years from the date of the recording of this order of taking.

EXHIBIT C to Lease Agreement
Form of Notice of Lease
[On following Page]

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Record and return to:
Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

[insert address]

NOTICE OF LEASE

In accordance with the provisions of Massachusetts General Laws, Chapter 183, section 4, as amended, notice is hereby given of the following described lease and easements:

Parties to the [insert name of lease agreement] (the "Lease"):

Host/Landlord:

Provider/Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
(and its successors and/or assigns)

Property Description: The real property located at [Street], [Town, State Zip] described on the attached Exhibit A (the "Property"). For Landlord's title see Deed recorded with the [__Insert County___] [Registry of Deeds/Land Records] in [Book _____, Page _____] [Certificate of Title No_____].

Description of Leased Premises: A portion of the Property as described on the attached Exhibit B where solar equipment will be installed and accessed for the term of the agreement, including the roofs, exterior and interior walls, through to the main electric room, and exterior areas of the Property. (the "Lease Area")

Date of Execution of the Lease: _____ (the "Effective Date").

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Term of Lease:

The Term of the Lease includes a Development Period, Operations Period and Decommissioning Period. The Lease shall commence on the Effective Date and, unless terminated earlier pursuant to the provisions of the Lease, the Operations Period shall continue until 11:59 p.m. on the last day of the calendar month in which the twentieth (20th) anniversary of the Commercial Operation Date, as defined in the Lease, unless the Tenant exercises the Options to Extend, in which case the Term of Lease shall include the Development Period, the Operations Period, the [Extension Terms] and the Decommissioning Period.

Options to Extend:

Tenant shall have the right to extend the Term of the Lease for [_____] year terms.

Decommissioning Period

Tenant shall remove the System within 180 days of the termination of the Lease, (provided that if such 180 day term ends within the months of December, January, February, March, or April, the Decommissioning Period shall extend to July 31) whereupon the Lease shall expire and shall be of no further force and effect

Easements.

(a) Under the Lease, Landlord granted the easements (the "Easements") to Tenant described in Exhibit C across and burdening the Property.

(b) Landlord's grant of Easements in the Lease shall commence on the Effective Date and end upon termination of the Decommissioning Period.

Ownership of the Facility.

Landlord shall have no right, title or interest in the solar energy facility (as defined in the Lease) ("Project") or any component thereof and Tenant shall be the exclusive owner thereof.

Miscellaneous

1. This Notice of Lease may be executed in multiple counterparts, each of which shall be deemed an original and all of which, together, shall constitute one and the same instrument.

2. This Notice of Lease does not describe or refer to all of the terms or conditions contained in the actual Lease and nothing contained herein shall serve to modify or amend the terms of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

actual Lease. In the event of any inconsistency between the provisions of the Lease and the provisions of this Notice, the provisions of the Lease shall control.

3. Any capitalized term not defined herein shall have the definition ascribed to it in the Lease.

EXECUTED as a sealed instrument on as of _____ __, 202_.

FORM OF SNDA

SUBORDINATION, NON-DISTURBANCE AND ATTORNMENT AGREEMENT

THIS AGREEMENT (this "Agreement") is made as of this _____ day of _____, 20__, by and among _____, a duly organized banking association, with a principal office at _____("Lender"), _____("Landlord"), and Solect Energy Development LLC, ("Tenant").

W I T N E S S E T H

WHEREAS, Tenant and Landlord have entered into a Lease Agreement dated _____, 20__, (the "Lease") covering the premises located at _____ (the "Premises"), notice of which is recorded with [Name of Registry] (the "Registry") in Book _____, Page _____, (being the property more particularly described in Exhibit A attached hereto and incorporated herein) pursuant to which Tenant has installed or will install on the Premises a photovoltaic facility for the generation of electricity from solar energy (the "Solar Facility"); and

WHEREAS, Lender is the mortgagee pursuant to a [Mortgage and Security Agreement dated _____] (the "Mortgage") and a [Conditional Assignment of Rents and Leases dated _____] (the "Assignment") encumbering, the Premises which are both recorded with the _____ Registry in Book _____page _____ and Book _____ page _____ respectively; and

WHEREAS, Lender, Tenant, and Landlord wish to set forth respective rights of each party;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter contained and other valuable consideration, the parties hereto covenant and agree as follows:

1. The Lease and any extensions, renewals, replacements or modifications thereof, and all of the right, title and interest of Tenant thereunder in and to the Premises are and shall be subject and subordinate to the Mortgage and to all of the terms and conditions contained therein, and to any advances, renewals, modifications, replacements, consolidations, amendments and extensions thereof.

2. Lender consents to the Lease and in the event Lender comes into possession of or acquires title to the Premises as a result of the foreclosure, or other enforcement of the Mortgage, or as a result of any other means, Lender agrees that Lender will recognize Tenant and will not disturb Tenant or Tenant's financing parties in their possession of the Premises or their rights in the Lease for any reason other than one which would entitle Landlord to terminate the Lease under its terms or would cause, without any further action by Landlord, the termination of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease, and the Lease will continue in full force and effect as a direct agreement between Lender and Tenant.

3. The Solar Facility shall not be, or be deemed to be, a part of or an accession or addition to or a fixture on the Premises even though the Solar Facility is installed on the Premises; nor shall the Solar Facility be moved from the Premises by the Lender unless Tenant's prior written consent to such move has been obtained.

4. Lender waives any and all right, title and interest in the Solar Facility and shall not acquire any such right title or interest by virtue of the installation of the Solar Facility on the Premises. The undersigned Lender further waives any right to seize, or to claim any interest, whatsoever in the Solar Facility on account of any claim or right the undersigned may have against any person, including, without limitation, any claim or right the undersigned may have or assert against the Landlord, by foreclosure or otherwise.

5. Tenant may at any time, at its option, enter upon the Premises and inspect, maintain, remove or repair the Solar Facility to the extent provided in the Lease.

6. When sending to Landlord any notice of impending or actual foreclosure of the Premises, the undersigned Lender shall concurrently provide Tenant a copy of the same.

7. Tenant agrees with Lender that if the interests of Landlord in the Premises shall be transferred to and owned by Lender by reason of foreclosure or other proceedings brought by it, or any other manner, or shall be conveyed thereafter by Lender or shall be conveyed pursuant to a foreclosure sale of the Premises, Tenant shall be bound to Lender under all of the terms, covenants and conditions of the Lease for the balance of the time thereof remaining and any extensions or renewals thereof which may be effected in accordance with any option therefor in the Lease, with the same force and effect as if Lender were the landlord under the Lease and Tenant does hereby attorn to Lender as its landlord, said attornment to be effective and self-operative without the execution of any further instruments on the part of any of the parties hereto immediately upon Lender succeeding to the interest of Landlord in the Premises. Notwithstanding the foregoing, Lender shall not be: (i) liable for any act or omission of Landlord, or for any fact, circumstance or condition existing or arising prior to Lender's succession in interest to Landlord unless such fact, circumstance or condition shall continue after such succession; or (ii) subject to any offsets, claims or defenses which Tenant might have against Landlord, except as set forth in the Lease.

8. This Agreement shall bind and inure to the benefit of the parties hereto, their successors and assigns. As used herein the term "Tenant" shall include Tenant, its successors and assigns; the words "foreclosure" and "foreclosure sale" as used herein shall be deemed to include the acquisition of Landlord's estate in the Premises by voluntary deed (or assignment) in lieu of foreclosure; and the word "Lender" shall include the Lender herein specifically named and any of its successors, participants and assigns, including anyone who shall have succeeded to Landlord's interest in the Premises by, or through, Lender foreclosure of the Mortgage.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

9. All notices, consents and other communications pursuant to the provisions of this Agreement shall be in writing and shall be sent by registered or certified mail, return receipt requested, or by a reputable commercial overnight carrier that provides a receipt, or by facsimile with confirmation of transmission, and shall be deemed given when postmarked and addressed as follows:

If to Lender:

If to Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

If to Landlord:

or to such other address as shall from time to time have been designated by written notice by such party to the other parties as herein provided.

10. This Agreement may not be modified orally or in any manner other than by agreement, in writing, signed by the parties hereto. This Agreement may be executed in counterparts, each of which shall be deemed an original, and such counterparts taken together shall constitute but one agreement. This Agreement shall be governed by the laws of the state or commonwealth where the Premises are located.

8410 Education, Public Safety and Substance Abuse Stabilization Fund Proposal

City of Melrose Health and Human Services

Prevention and Wellness

The City of Melrose Health and Human Services (HHS) Department proposes to utilize the revenue in the stabilization fund for citywide public health prevention and wellness initiatives, including cannabis education, public safety, and recovery coaching.

The staff person who will lead this work and is proposed to be paid out of this fund beginning January 2023, is a 15-year HHS employee, Kara Showers. Kara is a Certified Health Education Specialist with a Masters Degree in Public Health. As the Prevention and Wellness Coordinator in HHS, Kara is responsible for:

- Leading and managing chronic disease prevention and community health initiatives, using a public health lens.
- Coordinating prevention grants.
- Assessing the public health needs of the Melrose community.
- Supporting prevention service programs related to substance use and mental health.

In Massachusetts, cannabis & marijuana use are on the rise from youth to senior citizen populations. *(The word "cannabis" refers to all products derived from the plant*

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Cannabis sativa. The cannabis plant contains about 540 chemical substances. The word "marijuana" refers to parts of, or products from, the plant Cannabis sativa that contain substantial amounts of tetrahydrocannabinol (THC). CBD, or cannabidiol, is the second most prevalent active ingredient in cannabis. While CBD is an essential component of medical marijuana, it is derived directly from the hemp plant, a cousin of marijuana, or manufactured in a laboratory. Cannabidiol (CBD) is a compound found in marijuana. CBD is not impairing, meaning it does not cause a "high."[1],[2]).

According to the most recent administration of the Youth Risk Behavior Survey (YRBS), Melrose high school youth report the following:

- 25% have tried marijuana at least 1 time in their life
- 10% reported using marijuana at home and 16% reported using at a friend's house
- 28% thought that their friends feel marijuana is *not wrong at all*, 23% thought their friends thought it was a *little bit wrong*
- 50% of youth reported getting marijuana from a friend

Research shows that heavy cannabis users are more likely to report thoughts of suicide than non-users and regular cannabis use is likely to increase the risk of developing a social anxiety disorder[3]. Increased awareness of the health effects of marijuana and how THC impacts the brain and mental health is imperative for Melrose youth. Collaborating with the Melrose Health and Wellness Coalition (*formerly the Melrose Substance Abuse Prevention Coalition*), and the Melrose Public Schools administration, faculty and staff, this information, as well as refusal skills and social norming campaigns, can be presented using available evidence-based marijuana toolkits[4]. Secondly, this funding could support the development and implementation of healthy coping mechanisms for students, which are an essential outlet in a young person's life. Finally, partnering with local organizations (i.e., PTO's) and parents to host events like "In Plain Sight" show family members how and where to look for early cannabis use signs.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

It is not only important to educate our youth about marijuana but support our adult and elderly populations. Thirteen percent of Melrose adult respondents from the COVID Community Impact Survey (CCIS) data[5] said they have used marijuana in the past 30 days. Since recreational use is legal among adults, an assumption can be made that use is even higher than that. Further, both Melrose adults and senior citizens could benefit from more dialogue and education on this topic. With this funding, HHS, in partnership with COA, can host meetings and other events to provide information on cannabis/marijuana/CBD, identify resources and present subject matter experts.

For those residents struggling with substance use, this funding can also bring recovery coaching services to the City. A peer recovery coach or community health worker can assist individuals by finding the necessary recovery resources, establishing accountability as well as another level of support. Recovery coaching services are expanding in surrounding communities as its importance is being recognized across all ages.

According to the 2019 MelroseWakefield Healthcare Community Needs Assessment, 8.2% of Melrose residents died of chronic ischemic heart disease, making it one of the top 3 causes of death in the City [6]. A large study led by researchers at Stanford Medicine stated that p[7]. Of course, these heart disease cases cannot all be attributed to marijuana use. However, all residents young and old could benefit from healthy heart prevention initiatives—from more opportunities for the community to connect to ways to increase daily physical activity.

To make Melrose an even healthier community, and to support overall resident wellness, this funding will provide increased services community-wide. It will provide supplies, staffing, facilities, etc. to offer projects such as:

- Councilor-led community health forums in wards across the City 1-2x year. *Health topics could include CBD/cannabis/marijuana, heart disease, lung cancer, COVID, and/or others.*
- Yoga, Tai Chi, Mindfulness, Art Classes, StoryBook Walks etc. in our passive City parks and other designated City spaces.
- Healthy aging and dementia risk reduction initiatives.

MEMORANDUM

To: Mayor Paul Brodeur
Melrose City Council

From: Elena Proakis Ellis, P.E., Director of Public Works

cc: Patrick Dello Russo, CFO/Auditor
Kathryn Armata, Treasurer Collector
Shannon Phillips, City Solicitor
James Troup, Assistant DPW Director – Administration & Finance

Date: January 13, 2023

Re: Authorization to Borrow MWRA LWSAP Funds for Water System Improvements

The Department of Public Works requests the Authorization to borrow funds to continue water distribution system improvements. Construction of said improvements would begin in the spring of 2023 and continue throughout the 2023 construction season. Projects proposed include the replacement and upgrade of over 1,600 linear feet of water infrastructure at the following locations:

1. Nowell Road
2. Henry Avenue
3. Trenton Street
4. Reading Hill Ave (to be bid as an add alternate and contingent on available funds)

REQUEST FOR AUTHORIZATION OF BOND (WATER)
The Department of Public Works respectfully requests that the City Council authorize the City Treasurer, with approval from the Mayor, to issue bonds or notes of the City to the aggregate principal amount of **Six Hundred Eighty Eight Thousand Dollars ($688,000)** under the Water Enterprise System through MWRA LWSAP bonds for FY2023. In general, the borrowing will fund design, engineering and construction of programs that will continue to address water system improvement projects aimed at addressing leak history, fire flow capacity and water quality in the above-mentioned corridors and other areas throughout the system as required. This is a zero percent (0%) interest loan with a ten (10) year pay-back period commencing in FY 2024 (FY24).

The financial model shows that the Tier 1 water rates may be impacted by approximately $0.07 per 100 cubic feet for FY24. However, in FY25, other loans are rolling off so that impact will become a net positive.

The funds borrowed pursuant to this Order will be deposited into Fund 6150.

The MWRA's Local Water System Assistance Program provides interest-free loans to member water communities for local water system improvement projects. Loan funds have been approved for distribution

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

from fiscal year 2011 through fiscal year 2022. MWRA's goal in providing financial assistance to member communities is to improve local water systems to help maintain high quality water as it passes from MWRA's facilities through local pipelines to customers' taps. As of September 2022, Melrose has $688,000 in eligible funding available to borrow within the parameters of this program. It is requesting the authorization to borrow said amount.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Melrose City Council
Mayor Brodeur

From: Kathryn Armata

Date: January 13, 2023

Re: **Loan Order – Water Main bond**

ORDERED: That the City appropriates $688,000 to pay costs of water main improvements, including designing and constructing water main improvements that will address leaks, fire flow capacity and water quality in the Norwell Road, Henry Avenue, Trenton Street and Reading Hill Avenue corridors and throughout the City's water system, including all costs incidental and related thereto; that to meet this appropriation, the Treasurer, with the approval of the Mayor, is authorized to borrow said amount pursuant to Chapter 44, Section 8(5) of the General Laws, or pursuant to any other enabling authority, and to issue bonds or notes of the City therefor; that the Treasurer, with the approval of the Mayor, is authorized to borrow all or a portion of such amount from the Massachusetts Water Resources Authority (the "MWRA") and, in connection therewith, to enter into a loan agreement and/or financial assistance agreement with the MWRA and otherwise to contract with the MWRA with respect to such loan; and that the Mayor is authorized to take any other action necessary to carry out this project.

Pursuant to Section 56-14 of the City Ordinances, attached is a projection of the principal and interest costs on the bonds proposed to be authorized by the following loan order under consideration by the City Council. The payment schedule attached assumes a 10-year borrowing term, an interest rate assumption of 0% over the life of the borrowing, and a level debt service payment schedule. The debt service on these bonds will be paid from the Water Enterprise Fund. The borrowing may potentially impact water rates in the first year of repayment by seven cents or less than 1%, depending on other factors in the calculation. In the second year of repayment, higher levels of maturing debt will more than offset the issuance of the bond.

FINANCIAL IMPACT: See attached

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

December 21, 2022

Kara M. Showers
City of Melrose Health and Human Services
562 Main Street
Melrose, MA 02176
kshowers@cityofmelrose.org

Dear Ms. Showers:

Thank you for applying for the 2023 Community Health Inclusion Index (CHII), Massachusetts Department of Public Health (MDPH), Office of Local and Regional Health (OLRH), Mass in Motion Municipal Wellness and Leadership Program (MiM), and Office of Health Equity (OHE) mini-grant. We are pleased to announce that the CHII Assessment (the "Project") has been selected for funding from January 1, 2023 to June 30, 2023. The grant review committee has approved a grant in the amount of Twelve Thousand Dollars ($12,000).

The review team asks that by **January 5, 2023**, you submit a revised work plan to Kimberley Warsett (Kimberley.Warsett@mass.gov) and Nassira Nicola (Nassira.D.Nicola@mass.gov) addressing the following:

1. Provide additional details on community engagement, including translation needs;
2. Discussion of Stoneham and Lynnfield's capacity;
3. Explanation of how the CHII results will be used in all four communities, benefitting people with mobility limitations, especially people of color;
4. Training/education on structural ableism; and
5. Alternative plans for Lunch & Learns in the event of rising COVID-19 rates.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Further, our offer of this grant is subject to your agreement to the following:

1. Use the grant funds only as specified in the approved grant proposal;
2. All grant funds must be spent between January 1, 2023 and June 30, 2023;
3. Maintain your records to show and account for the uses of grant funds;
4. Participate in periodic check-ins with MDPH to discuss Project progress, identify potential barriers and opportunities, and accept technical assistance and data support where applicable; and
5. If requested, present on the Project at a future MiM or OLRH stakeholders meeting.

By March 31, 2023, please have an authorized representative (1) sign and return one copy of this letter to Massachusetts Health Officers Association (MHOA) and (2) provide an invoice to MHOA for the first half of payment. Please send these documents by email to Teresa Wood Kett, incoming MHOA executive director at tkett@mhoa.com.

Please be advised that a mandatory CHII training will take place on January 20, 2023 from 11:00am – 12:00pm. MiM, OLRH, and OHE are available for technical assistance support to ensure your success (contact information below). We are happy to answer any questions you may have.

Congratulations!

MA Department of Public Health Community Health Inclusion Index (CHII) mini-grant

The City of Melrose Health and Human Services (HHS), in partnership with the Town of Wakefield HHS, Town of Stoneham Health Department and Town of Lynnfield Health Department, propose to *use the Community Health Inclusion Index (CHII) to assess disability access for people with mobility limitations in the communities and develop an action plan*.

The purpose of the CHII is to collect information about healthy living resources in Melrose, Wakefield, Stoneham & Lynnfield and the degree to which they are inclusive. This will help us plan and develop strategies that will impact the health and well-being of community members, including persons with disabilities, specifically mobility limitations. The CHII assessment is not an ADA compliance checklist; it is intended to be a tool to measure a broad level of health inclusion in our communities.

With this funding, Melrose, Wakefield, Lynnfield and Stoneham will: 1) assess the community using CHII survey tools for the first time, and 2) bring stakeholders together (i.e., Disability Commissions, Housing Authority staff, municipal American Disability Act Coordinators, senior housing complex facility managers and residents, etc.) to determine how we can best support those with disabilities to encourage increased participate in our community health initiatives.

Housing accessibility and municipal infrastructure were common challenges among the four communities. In order to delve into next steps toward improvement in those arenas, we will use the On-Site CHII assessment at pre-determined priority locations. The results we gather from this assessment will allow us to further conversations and implement a realistic plan for change.

Proposed activities:

- Bring stakeholders and partners together to determine how we can support residents with disabilities to more fully participate in our community health initiatives. Host 3 lunch and learn meeting for the four municipalities' stakeholders. Engage partners monthly (via emails and meetings).
- Conduct on-site CHII assessments at pre-determined priority locations in the 4 communities. Discuss findings with stakeholders & partners and determine plan of action using assessment results.

Using the CHII survey tools will allow us to: 1) better understand existing issues that are affecting residents with mobility limitations so that we can implement appropriate solutions, and 2) bring stakeholders and partners together. Our municipalities will incorporate a "leading with race and racism" framework by putting people with lived experience of inequities at the forefront and share decision-making power with them. We will meaningfully engage people with disabilities, including people of color, in the project by working with our partners (i.e., Human Rights Commissions and Councils on Aging).

January 19, 2023

Dear Kara Showers,

Thank you for your grant submission to the Determination of Need Community Health Initiative Funding Opportunity.

We are delighted to inform you that your grant proposal has been approved in the amount of $12,000 to fund the Supporting Community Providers Who are Serving our Most Vulnerable citizens in Wakefield & Melrose Program.

We will be sending you a contract listing the grant's terms and conditions in the next few weeks. If you accept the award offer, terms and conditions, we will ask you to sign and return the contract. Upon the contract's receipt we will distribute payment and expect work to begin on March 1, 2023.

The funds must be used specifically for the designated purpose by February 28, 2024. You must submit a written request to us in advance if you wish to change the purpose of the grant or if the funds are not expended within the next 12 months. In addition, we will request a report on the expenditure of our grant after six months and a final report after one year. Any publications produced referencing the funded project must acknowledge the funds were provided by MelroseWakefield Hospital, Lawrence Memorial Hospital and Shields Surgery Center.

Congratulations on this recognition of your important efforts. We look forward to working with you during the coming year.

Sincerely,

The Community Health Initiative Allocation Committee
On behalf of the Medford Surgery Center, LLC

MelroseWakefield Healthcare/Tufts Medicine
Community Health Initiative Funding

Building Community Awareness and Reducing Behavioral Health Stigma in High-Risk Populations

Supporting Community Providers who are serving our most vulnerable citizens in Wakefield & Melrose

The Town of Wakefield and City of Melrose Health and Human Services Department's mission is to promote the personal and environmental health of the community, focusing on prevention, intervention, remediation, and maintenance. The expansion to a comprehensive Health & Human Services Department acknowledges that without basic needs such as housing, food, economic stability, education, healthcare, and a feeling of connection to the community, it becomes significantly more challenging to live a healthy & well life. The primary opportunity that led us to request this grant funding is our intent to build upon our first two years work.

Year 3's three-pronged plan is to:

1) support new immigrant residents by connecting them to local, inclusive services that directly impact social determinants of health, including but not limited to: housing, education, food, clothing, legal services, employment and primary & behavioral health needs
2) improve community connections for English Learning new residents, and
3) provide trainings and networking luncheons for providers.

To ensure success, we will engage with new residents early on, gathering information about what services they value. This will be done by bringing on one Spanish & one Portuguese-speaking Community Champions. Utilizing the expertise of these Community Champions, our Social Services Coordinators will enroll new residents in benefit programs that will directly impact their health and well-being, providing them with basic needs (i.e., SNAP benefits, Fuel Assistance, etc.). Our Champions will utilize networking events to educate service providers with specific culturally competent needs of new immigrants, especially English Language Learners. School Department, City/Town Employees, Social Service providers and volunteers will participate in Diversity, Equity, and Inclusion training so that they may better support new youth and residents.

Program Expenses

- ESL supplies**:** Pocket talk hand-held translators, Translation Services
- Community Champions: One Spanish & one Portuguese-speaking champion to share between Melrose & Wakefield
- Networking meetings: food & supplies for 3 meetings for 30+ local social service providers
- In-depth lunch-and-learn training sessions
- ESL Family Nights: In partnership with school districts
- Social Service Coordinator support: IntakeQ data intake system for clients

Slane, Denise

From: NEHA-FDA RFFM Grant Program <do-not-reply.grants07-us-east-1@fluxx.io>
Sent: Wednesday, December 21, 2022 5:53 PM
To: Health
Subject: NEHA-FDA RFFM Grant Program: CONGRATULATIONS

Dear Erin:

Congratulations! The National Environmental Health Association (NEHA) and US Food & Drug Administration (FDA) are happy to inform you that your NEHA-FDA Retail Flexible Funding Model (RFFM) grant submission for the following project has been approved:

ID Number: G-BDEV1-202210-03047
Project Title: Completion of SA9 and a CSIP for Melrose and Wakefield
Grant Type: 2023 Track 1 Development Base
Amount Requested: $11,250.00
Amount Awarded: $5,000.00
Project Summary: Many of our resources were devoted primarily to the COVID-19 pandemic from March 2020 until early 2022. Prior to that time, our Department was largely focused on food safety and had completed a lot of work towards the Standards. Completing an SA9 and a CSIP will help us assess our current food safety program and re-establish the Standards into our food safety program.

Please use your previously assigned username and password to return to the NEHA-FDA RFFM Grant Program Portal for details of this award, including the official grant award letter. Additionally, review the comments below relating to your specific request:

==========

The "Required Outcomes" portion of your CY 2023 Track 1 Development Base Grant is approved, and fully funded at $5,000. However, due to insufficient Mentor participation, we were unable to fund the Mentee portion of your application. We encourage you to reapply for a Mentee grant in the 2024 RFFM grant program. The full requested amount for your CY 2023 Track 1 Development Base Grant is approved. However, we will be reaching out for clarification and a likely update for your Budget, as it does not directly support the proposed project (completion of an SA9 and a CSIP). Any changes to your project plans and/or budget changes in excess of 10% of the Total Award Amount must be approved in writing by NEHA, in advance. Please refer to the neha.org/retail-grants website for the full RFFM Grant Guidance, which includes a description of non-allowable costs that will not be reimbursed. We look forward to supporting you as you work to complete your important Retail Flexible Funding Model project. Please reach out to the NEHA-FDA RFFM Grant Program Support Team if you have any questions or concerns.

==========

Note: The Catalog of Federal Domestic Assistance (CFDA) number for this United States Food & Drug Administration grant, awarded to the National Environmental Health Association on 05/03/2021, is 93.103. Your grant is considered a subaward under this NEHA grant. Please refer to our homepage at https://neha.org/retail-grants for additional program information or to access the NEHA-FDA RFFM Grant Program Portal.

If you have any questions or need additional information, please contact us at: 1-833-575-2404 or retailgrants@neha.org.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Re: Property: 0 Swains Pond Avenue, Melrose, MA 02176
"Modified Definitive Plan Hillside Park, Melrose, MA", dated 12/4/2019, as amended, prepared by Williams & Sparages, Engineers-Planners-Surveyors", recorded at MSDR June 9, 2021, as Plan 429 of 2021
Owner: Laura Szekely, Trustee of 0 Swains Pond Avenue Realty Trust u/d/t/d 5/21/2018

Dear Attorney Phillips:

Pursuant to our conversations, I am enclosing final signed originals of the following documents for submittal to the City Counsel in connection with the above development as follows:

1. Quitclaim Deed, Conditions and Easements (Lot 10 & Lots 5, 6, HOA);

2. Deed Easement and Restriction (Lot 1); and

3. Declaration of Easements, Covenants, Conditions and Restrictions (Lot 10 and portion of Lot 1).

Thank you.

Very truly yours,

James P. Mitchell

Property: **Lot 10** & Lots 5,6 on Plan 429 of 2021, & Patricik's Place HOA, 0 Swains Pond Ave, Melrose, MA 02176

QUITCLAIM DEED,
CONDITIONS
and
EASEMENTS

LAURA SZEKELY, TRUSTEE of 0 SWAINS POND AVENUE REALTY TRUST, a Massachusetts Nominee Realty Trust, u/d/t dated May 21, 2018 and filed with Land Registration Division of the Middlesex South Registry of Deeds on June 8, 2018 as Document 1789504 on Certificate 267856, Book 1528, Page 22, of 142 Haggett's Pond Road, Andover, MA 01810, with a mailing address of P.O. Box 27, Andover, MA 01810 (the "Grantor"),

for consideration of One and 00/100 ($1.00) Dollar, and other consideration paid,

grant to the City of Melrose, a municipal corporation in Middlesex County, Commonwealth of Massachusetts (the "Grantee"), with its office in City Hall, 562 Main Street, Melrose, Massachusetts, 02176,

with **Quitclaim Covenants**, the following:

> **Lot 10** containing 90,573 sf± as shown on a plan of land entitled: "Modified Definitive Plan Hillside Park, Melrose, MA", a Subdivision Plan of Land in Melrose, Massachusetts, dated December 4, 2019, as amended, prepared by Williams & Sparages, Engineers-Planners-Surveyors, recorded at the Middlesex South District Registry of Deeds on June 9, 2021, as Plan 429 of 2021 (herein, "Lot 10" and/or the "Property").

The land conveyed is dedicated to conservation purposes in accordance with M.G.L. Chapter 40, Section 8C, and shall be held in the care, custody and administrative control of the Melrose Conservation Commission, a duly organized branch of said municipality having the same address for preservation in perpetuity; pursuant to valid majority votes of the Melrose City Council taken on _____, 2022,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Said conveyance subject to a Proposed Drain Easement as shown on said Plan 429 of 2021 and to a Proposed 15' wide Drainage Easement for the benefit of the Owners of Lots 5 and 6, Patrick Place, and to the Patrick's Place Homeowner's Association as shown on a Sketch Plan in Melrose, prepared by Williams & Sparages, dated March 31, 2022 attached hereto and incorporated herein.

Lot 10 shall be owned by the City of Melrose, and shall be maintained by the Patrick Place Homeowners Association under the guidance of the Melrose Conservation Commission.

The total acreage of the above noted parcel is 90,573 square feet of land, more or less according to said Plan 429 of 2021

THE GRANTOR AND GRANTEES HAVE AFFIRMED, CONFIRMED AND ADOPTED THE FOLLOWING PURPOSES FOR THIS DEED:

A. The property provides significant scenic, and aesthetic value in its present state as a natural area and open space;

B. The property contains both wetlands and upland habitat.

C. The Property abuts property known as "Hillside Park"; "Modified Definitive Plan Hillside Park, Melrose, MA", a Subdivision Plan of Land in Melrose, Massachusetts, dated December 4, 2019, prepared by Williams & Sparages, Engineers-Planners-Surveyors;

D. The City of Melrose has promulgated that the "preservation and protection of open space and natural resources is a high priority for Melrose residents";

The terms of this Deed for Lot 10 are as follows:

1. **Prohibited Activities.** Except as otherwise herein provided, neither the Grantor nor the Grantee shall perform nor permit others to perform any of the following acts or uses on, over or under the Property:

   a. Construction or placing of any building, tennis court, landing strip, mobile home, swimming pool, septic system, road, sign, fence, billboard or other advertising display, utilities, conduits, poles, antennas, towers, windmills, solar panels or other temporary or permanent structures or facilities on, over or under the ground;

   b. Dumping or placing of soil, grass clippings, compost, yard debris or other substances on the ground as landfill or dumping or placing of vehicle bodies or parts, junk, trash, refuse, solid or chemical waste or unsightly or offensive materials or the installation of underground storage tanks;

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

c. Cutting, removal or destruction of trees, grasses, shrubs, or other vegetation;

d. Use of the Property except for passive outdoor recreational purposes or other purposes that permit the Property to remain predominantly in its open condition;

e. Activities detrimental to drainage, flood control, water or soil conservation, wildlife or plant habitat, water quality, erosion control or scenic values;

f. Any other use of the Property or activity which would impair the conservation values of the Property as set forth herein unless such use or activity is necessary and desirable for the protection of those conservation values.

2. **Reserved Rights.** Notwithstanding anything contained in paragraph 1, the following activities shall be allowed or permitted on the property:

a. Any activities designed to enhance the ecological and natural historical value of the Property or to enhance the awareness of such values, including but not limited to the creation of open space, all in accordance with the plan prepared by the Grantor and approved by the Grantee;

b. Activities designed to enhance the ecological or natural historic value of the Property, including wildlife habitat improvement;

c. Hiking, wildlife observation and other passive outdoor recreational and educational activities consistent with conservation purposes;

d. **Easement**. A perpetual easement is reserved to the Grantor, its heirs, successors or assigns, to be maintained by the Homeowner's Association at its sole costs and expense, an easement over the Easement Area being a portion of Lot 10 on a "Modified Definitive Plan Hillside Park, Melrose, MA", a Subdivision Plan of Land in Melrose, Massachusetts, dated December 4, 2019, prepared by Williams & Sparages, Engineers-Planners-Surveyors, and recorded as Plan 429 of 2021 as follows: The perpetual restriction, right and easement to construct and maintain, a drainage easement over Lots 5 and 6 as shown on the Modified Plan with the right to extend any ancillary items as needed, including the right and obligations of the Homeowner's Association or its successors in title to maintain and repair the Drainage System located within the Easement Area. The full consideration for the within easement is One and 00/100 ($1.00) Dollar.

e. Such other activities as are consistent with conservation purposes.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

3. The exercise of any reserved right shall be in compliance with the then-current Zoning By-law applicable to the Property, the Wetlands Protection Act (General Laws Chapter 131, Section 40) and all other applicable provisions of federal, state and local law.

4. **Access by the Public**. It is hereby agreed that the general public may pass and repass over the Property by foot, to and from adjacent land of said City of Melrose for purposes of quiet outdoor recreational and educational activities, provided

   a. that any such activity shall be limited to daylight hours;

   b. that dogs shall be leashed at all times;

   c. that no motor vehicles of any kind shall be permitted;

   d. that no dumping, waste disposal or littering of any kind be allowed.

   To the extent permitted by law, the Grantor and the Grantee hereby expressly disclaim any duty to maintain the property or warn persons who may enter upon the same. Pursuant to M.G.L. c. 21, s.17c, neither the Grantor or the Grantee is liable to any member of the public who uses the Property in the absence of willful, wanton or reckless conduct by the Grantor or Grantee.

5. **Representations of the Grantee.** The Grantee represents that it is a municipality established, pursuant to Massachusetts General Laws, that it is organized and operated as a municipal entity with an intent and purpose of preserving and conserving natural resources, natural habitats, environmentally sensitive areas and for other scientific and educational purposes, that it has both the necessary funds and commitment to hold this land exclusively for conservation and to enforce its terms and that it is a "Qualified Organization" as that term is defined in Section 170 (h)(3) of the Internal Revenue Code of 1986, as amended.

6. **Binding Effect: Interpretation.** The burdens of these restrictions shall be deemed to run with the Property, shall be enforceable against the Grantor, the Grantor's successors in title to the Property and any person holding any interest therein by the Grantee, its successors and assigns and its duly designated officers, members, employees or agents, and by the Hillside Park Homeowner's Association.

7. **Effective Date.** The Grantor and the Grantee intend that the restrictions arising hereunder take effect when all the requisite signatures have been obtained and this document has been recorded in the Registry of Deeds.

8. **Termination of Rights and Obligations.** Notwithstanding anything to the contrary contained herein, the rights and obligations under this deed restriction of any party holding any interest, except that liability for acts or omissions occurring prior to

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

transfer and liability for the transfer itself if the transfer is in violation of this deed restriction shall survive the transfer.

9. **No Merger.** No future assignment of Grantor's or Grantee's interest in the Property or future acquisition of any additional interest in the Property by Grantor or Grantee shall cause this deed to merge with the fee or have the effect of causing any of the terms thereof to be rendered unenforceable by reason of the so-called "doctrine of merger".

For Grantor's title, see deed filed on June 8, 2018 at the Land Registration Division of Middlesex South Registry of Deeds as Document Number 1789503 on Certificate 267856. See also, Notice of Voluntary Withdrawal from Registration System filed with said Land Registration Division on June 9, 2021 as Document No. 01882591 on Certificate 267856, and recorded in Recorded Land at Book 77976, Page 232.

DEED EASEMENT AND RESTRICTION

Property: **Lot 1** on Plan 429 of 2021, 0 Swains Pond Avenue, Melrose, MA 02176

WHEREAS, LAURA SZEKELY, TRUSTEE of 0 SWAINS POND AVENUE REALTY TRUST, a Massachusetts Nominee Realty Trust, u/d/t dated May 21, 2018 and filed with Land Registration Division of the Middlesex South Registry of Deeds on June 8, 2018 as Document 1789504 on Certificate 267856, Book 1528, Page 22, of 142 Haggett's Pond Road, Andover, MA 01810, with a mailing address of P.O. Box 27, Andover, MA 01810, and its successors and/or assigns (hereinafter, "0 Swains Pond Avenue Realty Trust" and/or "Grantor"),

is the Owner of land located in Melrose, Middlesex County, Commonwealth of Massachusetts, 02176, and known as **Lot 1** as shown on Plan entitled "Modified Definitive Plan Hillside Park, Melrose, MA", a Subdivision Plan of Land in Melrose, Massachusetts, dated December 4, 2019, as Amended, prepared by Williams & Sparages, Engineers-Planners-Surveyors, recorded at Middlesex South Registry of Deeds on June 9, 2021 as Plan 429 of 2021 (hereinafter referred to as "Modified Plan"), and being shown on Assessor's Map as Map G3, Parcel 36, and 36A.

RESTRICTION

The Grantor, as the owner of said **Lot 1 on the Modified Plan,** has agreed with the City of Melrose Planning Board as follows:

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

1. To restrict use of a portion of Lot 1 consisting of 18,850 square feet depicted on the Modified Plan in the nature of a grant of "Open Space Easement" and "Sight Distance Easement" (*hereinafter, the "Restricted Area*"), requiring that the Restricted Area be maintained in its current state to be used only as a grassy area, and further, that no plantings be made which, in any way, would inhibit the existing sight distance, for use by the public on Patrick's Place, a private way within the City of Melrose.

and

2. 0 Swains Pond Avenue Realty Trust, and its successors and/or assigns, as the Owner of Record of Lot 1 on Modified Plan, has agreed with the Planning Board, City of Melrose, to maintain the Restricted Area as set forth above, and upon the sale of Lot 1 on the Modified Plan by said Trust, the maintenance of the Restricted Area shall be by the Patrick's Place Home Owner's Association.

4. The open space easement and sight distance easement shall run with the land and be undevelopable open space in perpetuity, and shall be binding upon all heirs, successors and/or assigns in title:

For title of 0 Swains Pond Avenue Realty Trust, see Deed filed on June 8, 2018 at the Land Registration Division of Middlesex South Registry of Deeds as Document Number 1789503 on Certificate 267856. See also, Notice of Voluntary Withdrawal from Registration System filed with said Land Registration Division on June 9, 2021 as Document No. 01882591 on Certificate 267856, and recorded in Recorded Land at Book 77976, Page 232.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXECUTED as a sealed instrument this 13th day of JUNE, 2022.

DECLARATION OF EASEMENTS, COVENANTS, CONDITIONS, AND RESTRICTIONS

Property: **Lot 10 & portion of Lot 1** on Plan 429 of 2021, 0 Swains Pond Avenue, Melrose, MA 02176

Whereas, the Grantor, LAURA SZEKELY, TRUSTEE of 0 SWAINS POND AVENUE REALTY TRUST, a Massachusetts Nominee Realty Trust, u/d/t dated May 21, 2018 and filed with Land Registration Division of the Middlesex South Registry of Deeds on June 8, 2018 as Document 1789504 on Certificate 267856, Book 1528, Page 22, of 142 Haggett's Pond Road, Andover, MA 01810, with a mailing address of P.O. Box 27, Andover, MA 01810, for itself and its heirs, successors and/or assigns (hereafter referred to as the "Declarant") will construct or cause to be constructed on the Property shown on the "Modified Definitive Plan Hillside Park, Melrose, MA", a Subdivision Plan of Land in Melrose, Massachusetts, dated December 4, 2019, as amended, prepared by Williams & Sparages, Engineers-Planners-Surveyors, recorded at Middlesex South Registry of Deeds as Plan 429 of 2021, single-family houses as well as certain facilities for the common use and enjoyment of certain owners of record from time to time of title to the Lots depicted on the Modified Plan (hereinafter collectively "the Owners" and singularly as "Owner"), in order to create Open Space on all of Lot 10 and a portion of Lot 1.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Now, therefore, the Grantor, for itself and its heirs, successors and/or assigns, declare herein certain rights and restrictions on ALL OF Lot 10, and a portion of Lot 1, as follows:

1. The Property will be constructed, maintained and operated subject to the terms and provisions of the Permits and Approvals granted by the City of Melrose Planning Board as such approval may be amended from time to time.
2. Open Space Lots are designated as Lot 10 and THAT portion of Lot 1, DESIGNATED "PROPOSED OPEN SPACE EASEMENT AREA = 18,851 SF and shall remain undeveloped conservation land.
3. The Declarant does hereby establish and create for the benefit of the Trust and the LOT Owners and does give, grant, and convey to each such Trust and Owners the following non-exclusive easements, rights, obligations and privileges relative to the Open Space Lots shown on the Modified Plan, subject to the obligations of each of the Owners to pay a proportionate share of the cost of the maintenance, repairs, real estate taxes and insurance, if any, as hereinafter set forth:
   (a) the right and easement to use and sole obligation to maintain the Open Space Lots, in common with the other Owners of the Lots, for passive recreational uses, no buildings or structures shall be constructed thereon, the Open Space Lots will remain in their natural state with no cutting or vegetation, trees or plant life allowed, other than that as depicted on the Modified Plan, approved by that which is prudent using current forestry

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

techniques, and subject to the obligations and together with the benefits of the provisions of the Homeowner's Association which shall control, operate and maintain the Open Space Lots and any Rules and Regulations promulgated by the Homeowner's Association, or their successors and assigns, and in compliance with any and all applicable wetlands regulations including any Order of Conditions issued by the City of Melrose Conservation Commission.

4. The Open Space Lots are subject to the Plan and the Permits and Approvals as issued by the City of Melrose Planning Board, as such Plan, Permits, and/or Approvals may be modified or amended.

5. Each Owner shall be further subject to the following:

(a) Expenses for the maintenance, repair and improvement relative to the Open Space Lots and ways shall be charged to the Owners and shall be assessed and collected by the Homeowner's Association in accordance with the terms and provisions set forth in the Homeowner's Association.

(b) Each Owner of a Lot shall be personally liable for all sums assessed as his or her share of such expenses.

(c) An Owner's share of such expenses shall constitute a lien upon his or her Lot. Such lien shall have priority over all other liens, except municipal lenience and first mortgages of record, subject to the terms and provisions of the Homeowner's Association.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(d) A Certificate from the Declarant or Homeowners Association indicating that such common expenses have been fully paid shall discharge such lien upon recording in the Middlesex South Registry of Deeds.

6. Provisions of this Declaration of Easements, Covenants and Restrictions may be abrogated, modified, restated, rescinded or amended as aforesaid in whole or in part only by the Declarant, or by declaration in writing, executed and acknowledged by all Owners and first mortgagee's duly recorded with Middlesex South Registry of Deeds with the written assent of the Declarant and the City of Melrose Planning Board, and this Declaration may not otherwise be abrogated, restated, modified, rescinded or amended in whole or in part.

7. No Declarant shall ever be personally liable for any default or obligation under any covenant or agreement hereunder.

LIST OF WAIVERS REQUESTED

1. SECTION V.A.1.f WHICH REQUIRES CENTER LINE RADII OF CURVED STREETS NOT TO BE LESS THAN ONE HUNDRED (100) FEET, AND IN PLACE THEREOF, PERMIT CENTER LINE RADIII OF NINETY (90) FEET AND NINETY FIVE (95) FEET ALONG PORTIONS OF PATRICK'S PLACE.
2. SECTION V.A.1.g WHICH REQUIRES THAT NO STREET INTERSECTS ANY OTHER STREET AT LESS THAN SIXTY (60) DEGREES, AND IN PLACE THEREOF, PERMIT AN INTERSECTION ANGLE AS SHOWN ON PLAN BETWEEN PATRICK'S PLACE AND MAPLE TERRACE.
3. SECTION V.A.1.h WHICH REQUIRES THAT STREET LINES AT INTERSECTIONS BE CUT BACK AND CONNECTED WITH A RADIUS OF NOT LESS THAN TWENTY (20) FEET, AND IN PLACE THEREOF, PERMIT A RADIUS OF 10.81 FEET AT THE INTERSECTION OF PATRICK'S PLACE AND MAPLE TERRACE.
4. SECTION V.A.2.a WHICH REQUIRES THE MINIMUM WIDTH OF STREET RIGHT–OF–WAY TO BE FIFTY (50) FEET, AND IN PLACE THEREOF, PERMIT A RIGHT–OF–WAY WIDTH OF FORTY (40) FEET FOR PATRICK'S PLACE AND A PORTION OF HILLSIDE PARK AS SHOWN ON PLAN.
5. SECTION V.A.3.a WHICH REQUIRES THAT GRADES OF NON–PRINCIPAL STREETS BE NO GREATER THAN TEN (10) PERCENT AND THAT WHERE THE GRADE OF A STREET EXCEEDS SIX (6) PERCENT AT AN INTERSECTION, ESPECIALLY WITH A PRINCIPAL STREET, THE SUBDIVIDER SHALL REDUCE THE GRADE FOR A REASONABLE DISTANCE FROM SUCH INTERSECTION, AND IN PLACE THEREOF, PERMIT A GRADE OF TWELVE (12) PERCENT FOR PORTIONS OF PATRICK'S PLACE AND FOURTEEN AND A HALF (14.5) PERCENT FOR HILLSIDE PARK AS SHOWN ON PLAN.
6. SECTION V.A.4.a WHICH REQUIRES CUL–DE–SAC STREETS NOT TO EXCEED 500 FEET IN LENGTH, AND IN PLACE THEREOF, PERMIT A LENGTH OF 651.84 FEET TO THE CENTER OF THE CUL DE SAC.
7. SECTION VI.B.3 WHICH REQUIRES A MINIMUM WIDTH OF ROADWAYS BETWEEN CURB LINES OF 32 FEET, AND IN PLACE THEREOF, PERMIT A WIDTH OF 24 FEET FOR PATRICK'S PLACE AND HILLSIDE PARK AS SHOWN ON PLAN.
8. A WAIVER FROM THE REQUIREMENT TO CONSTRUCT SIDEWALKS ON BOTH SIDES OF THE NEW SUBDIVISION ROADWAY. SIDEWALKS WILL BE CONSTRUCTED ON THE WESTERLY SIDE OF PATRICK'S PLACE.

DECISION OF THE MELROSE PLANNING BOARD
June 8, 2020

Modified Definitive Subdivision Plan for Swains Pond Avenue, Melrose, MA

Plans dated December 4, 2019 and revised February 20, 2020, March 11, 2020, May 13, 2020 and May 27, 2020

Prepared by Williams & Sparages

Application of 0 Swains Pond Avenue Realty Trust

PROCEDURAL HISTORY

On December 30, 2019, 0 Swains Pond Avenue Realty Trust submitted a Modified Definitive Subdivision Plan pursuant to Massachusetts General Laws, Chapter 41, Section 81T and 81W, in order to modify the previously approved subdivision on Swains Pond Avenue. The original Definitive Subdivision Plan for the property was approved by the Planning Board on October 26, 1998, and endorsed on January 25, 1999. The original subdivision (referred to as the "Colucci Estates Subdivision") was also for nine single-family house lots but the Applicant has proposed to modify the lot lines and roadway design that were previously approved.

The subject property is 7.6 acres and is located off of Swains Pond Avenue and accessed via Maple Terrace and Hillside Park. The property is located within the SR-A District where single-family homes predominate and the minimum lot size is 15,000 square feet. In the immediate vicinity of the subject property are primarily single-family homes and City-owned conservation land. The Ripley School is approximately a half-mile from the site.

Though the Definitive Plan for the Colucci Estates Subdivision was approved in 1998, abutters on Maple Terrace legally challenged aspects of the Plan and the project was held up in Land Court until 2017. At dispute was whether the Colucci Estates property owner had claim over the entire segment of Maple Terrace that cuts through their property or if they only had claim up to the center line of the street. As a part of the settlement order, the Land Court found that the property owner had claims to that entire portion of Maple Terrace but the abutters were entitled to easements that allow them to pass and repass over the street in front of their homes. Those easements have been recorded at the Middlesex South Registry of Deeds.

After the Land Court matters were concluded in 2017, the property was purchased by the current Applicant and he appeared before the Planning Board with a new subdivision proposal, this time

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

for one with six lots. The Planning Board accepted the Preliminary Subdivision Plan at their meeting on December 18, 2017. On February 14, 2018, the Applicant withdrew the Preliminary Plan from consideration. A process to permit a dense multifamily development in accordance with MGL Chapter 40B was then initiated, which the City vehemently opposed. After nine months of meetings and correspondence between the City, the Applicant and the affordable housing financing agency MassHousing, MassHousing issued a Project Eligibility Letter to the Applicant on September 20, 2019, which enables them to construct 36 townhouse-style homeownership units on the property. The Applicant later decided to abandon the 40B proposal if they were able to successfully permit a modification of the nine-lot Colucci Estates Subdivision originally approved by the Planning Board.

The original project did not receive Site Plan Approval, an Affordable Housing Incentive Program Special Permit, or a Slope Protection Special Permit since those regulations were not yet in place when the Planning Board approved the project in 1998. The City Solicitor has accepted the Applicant's position that the eight-year zoning freeze commenced at the time that the legal matter was settled in 2017 and that the zoning in place during 1998 should be applied. Therefore, this subdivision modification does not require a Slope Protection Special Permit, an Affordable Housing Incentive Program Special Permit, or Site Plan Approval. In addition, no relief from the Zoning Board of Appeals is required as all nine lots conform to the dimensional regulations of the SR-A District.

PUBLIC HEARING

The Planning Board held public hearings on the Modified Definitive Subdivision Plan on January 27, 2020, when it was opened, May 4, 2020, May 18, 2020, and June 8, 2020, when it was closed. The first public hearing took place in the Cassidy Conference Room, 2nd Floor, City Hall, 562 Main Street while the other three meetings took place remotely through a video conference platform due to the COVID-19 pandemic. All minutes from the public hearing and meetings related to this Application and all documents and comments from the Department Heads, and the public are part of the record and are incorporated herein by reference.

Many abutters and others who attended the public hearings expressed considerable concern about this project, chief being the impact to the environment and potential damage to their homes from the excessive blasting. Concerns were exacerbated by the COVID-19 pandemic because abutters fear they will be home all day listening to the blasting and construction activity. There was also frustration regarding the inability to have in-person public hearings. While they were disappointed with the disruption to the ecosystem and construction impacts, abutters generally felt that the nine-lot subdivision would be preferable to the 36-unit 40B project. The Applicant communicated extensively with all the direct abutters and identified ways to improve the development and provide concessions to make the project more palatable for them.

The Planning Board asked many questions of the Applicant and his team and the documents and plans underwent many changes through the course of the review. Issues around blasting in particular were discussed at great length and the Applicant provided additional information regarding the blasting. A representative from Rock Splitters, the company that will be hired to

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

perform the blasting, said that his company has a niche in blasting near existing structures. With the house on the ledge they would work with the relief lines to mitigate disturbance and vibrations behind the blasted area.

The blasting contractor will inspect houses within 500 feet of the blast area while wearing full personal protective gear. Regulations require abutters within 200 feet be notified for pre-blast surveys but the Applicant has offered to pay for additional surveys at his expense. Neighbors will be notified by email or phone to schedule a convenient time. The pre-blast inspectors will be at each house for one to two hours depending on the conditions and about half of that time will be spent outside. Crack monitors will be utilized if needed. There are no registered wells within this area but any wells on abutting properties will be documented during the pre-blast inspection. Should any damage occur as a result of the blasting, affected homeowners will be covered by the blasting company's insurance. All homes in the new development will have radon detection systems in the event that radon is released from the blasting.

The Stormwater Management Plans were also reviewed extensively. The Applicant agreed to pay for a third party review of the Stormwater Plans and the impacts on the wetlands. These items were reviewed extensively by the Engineering Division as well. The plans underwent many changes as a result of these reviews and numerous conditions are included in this Decision which will ensure that drainage impacts are minimized. The Project was also subject to approval by the Conservation Commission for certain waivers of wetlands standards. The Conservation Commission approved the waivers and will issue an Order of Conditions to which this project will have to comply. All of the reports, plans and correspondence pertaining to stormwater review and wetlands protection are part of the record in this case.

There was considerable discussion about the work proposed for the Maple Terrace right-of-way and some concern that work would encroach on private property. The Applicant's engineer explained that all of the work will be within the right-of-way which is 24 feet wide at its narrowest point. He submitted the originating documents that show the width, which are old recorded plans from Land Court and they all mark the width as variable. They surveyed four of the surrounding properties based on their deeds to determine the property lines and are confident that the roadway with sidewalk will not encroach on private property. The proposed widening is consistent with the original subdivision plan approved by the Planning Board and it will allow for a four-foot-wide sidewalk, which will connect with the sidewalk proposed for the new subdivision road and the existing sidewalk on Swains Pond Road. The existing right-of-way is between 16 and 18 feet and the roadway is in very poor condition.

Direct abutters to this portion of Maple Terrace were generally supportive of the road widening and improvements and appreciated the mitigation measures that the Applicant offered to alleviate concerns. Among other concessions, the Applicant agreed to install granite curbing throughout the development including along Maple Terrace where it transitions to Swains Pond Ave; a bituminous curb treatment has originally been planned at that location. All mitigation measures and concessions discussed with abutters and documented by the Applicant to the Planning staff are part of the record in this case and will be implemented by the Applicant.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The Board also carefully considered the plan to modify the intersection of Swains Pond Avenue and Maple Terrace to ensure that it will provide adequate safety. The plan involves extending the sidewalk, striping a stop bar and adding a crosswalk at the end of Maple Terrace. There will be two stop signs added onto the final plans, including one on Maple Terrace at the intersection with Swains Pond Avenue and one on Maple Terrace at the junction with Patrick's Place. The Engineering Division supports the Applicant's plans and concurs that the changes should enhance safety and slow vehicular speeds. A condition is included in this Decision that requires the Applicant to evaluate the effectiveness of the roadway changes at the intersection after installation of the binder course on the new subdivision roadway. Should any issues arise, the City may require the Applicant to install a raised crosswalk at this intersection or make other modifications to improve safety.

The Planning Board felt strongly that pedestrian access to and from Hillside Park and Maple Terrace be maintained throughout the project and asked for a stated commitment that this will be the case. The Applicant confirmed his commitment to provide safe pedestrian and vehicular access to the existing homes on Hillside Park and Maple Terrace throughout construction. The development includes a plan showing details of the temporary access road which will be made out of gravel. This plan was considered satisfactory to the Board.

There were numerous additional revisions made to the plans to address feedback from the Board and concerns from participants in the public hearing. The surface detention area planned for the corner of Maple Terrace and Patrick's Place was redesigned as an underground retention area; additional catch basins were added on Maple Terrace to alleviate concern about water runoff; safety fencing was added to the top of the ledge cut on the border of lot 9 and the adjoining lots and giant arborvitae were added to the plan between the fence and the ledge cut to screen the view; a stockade fence was added to screen lots 1 and 2 and the existing homes on Swains Pond Ave and large trees were added along the lot line of lot 1; 18 street trees were included along Patrick's Place, the proposed homes on lots 2 & 3 were shifted toward the subdivision roadway and away from the existing homes on Swains Pond Ave and the Applicant described how the various retaining walls would be constructed with sensitivity to existing conditions and required ledge cuts and confirmed that rip rap walls will not be constructed.

There was discussion about the Home Owners Association (HOA) and how maintenance is expected to be performed, specifically for the stormwater management system. According to the Applicant, the HOA will commit two times the yearly maintenance cost into an operating fund and homeowners will be personally liable for damages. The City will have the right to perform maintenance at the HOA's expense if they are not performing it. Regular maintenance will be particularly important due to concerns about flooding in the neighborhood. Similarly, regular maintenance of the open space on Lot 1 will be required to provide the needed sight distance on Patrick's Place. These maintenance requirements are conditions of this Decision.

The Planning Board probed into the number of truckloads of stone that will be removed to give the neighbors a sense of the level of activity. The Applicant's engineer estimates that the quantity of rock blasted will be roughly 65,000 cubic yards. Some of the rock will be used for fill and some for retaining walls so not all of this rock will be removed from the site. It is estimated that

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

approximately 1,100 -1,200 truckloads will be removed over the course of the six-month duration anticipated for the blasting work. The Applicant also clarified that stone will not be crushed onsite.

There was considerable discussion around construction sequencing, construction oversight, hours of construction, and communication to abutters during construction. Construction will generally occur between the hours of 7AM and 3PM on Monday through Friday and not start before 8AM on Saturdays. No construction will be allowed on Sundays or holidays. The clerk of the works hired by the Applicant to oversee construction of the roadway and installation of the utilities will be subject to the approval of the City Engineer. Communication with the abutters will take place on a regular basis and the Applicant will personally make himself available to abutters by providing his cell phone and email for direct communication. Police details will be hired by the Applicant as needed to maintain safe conditions. A pre-construction meeting will occur prior to any activity related to this development with all of the relevant city officials to review these procedures, among others, and all of these items are conditions of this Decision.

WAIVERS

According to *The Rules and Regulations Governing the Subdivision of Land in Melrose, Massachusetts*, the Planning Board may waive its rules when "such action is in the public interest and is not inconsistent with the Subdivision Control Law." The Modified Definitive Plan for Swains Pond Avenue required eight waivers from the Rules and Regulations Governing the Subdivision of Land in Melrose, Massachusetts, including:

1. A waiver from the minimum allowable centerline radii of 100 feet to allow the proposed centerline radii of 90 feet and 95 feet along portions of Patricks' Place.

2. A waiver from the minimum allowable intersection angle of 60 degrees to allow the proposed intersection angle of 58 degrees between Patrick's Place and Maple Terrace.

3. A waiver from the requirement that street lines at intersections be cut back and connected with a radius of not less than 20 feet to allow the proposed side line radius at the intersection of Patrick's Place and Maple Terrace of 10.81 feet.

4. A waiver from the minimum allowable width of street right-of-way of 50 feet to allow the proposed width of 40 feet for Patrick's Place and the improved portion of Hillside Park.

5. A waiver from the maximum allowable roadway grade of 10% to allow the proposed roadway grades of 12% for Patrick's Place and 14.5% for the improved portion of Hillside Park.

6. A waiver from the maximum dead end length of 500 feet to allow the proposed roadway length of 651.84 feet for Patrick's Place.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

7. A waiver from the minimum width of roadways between curblines of 32 feet to allow the proposed width of 24 feet between curblines for Patrick's Place and the improved portion of Hillside Park.

8. A waiver from the requirement to construct sidewalks on both sides of the new subdivision roadway. Sidewalks will be constructed on the westerly side of Patrick's Place.

Several of these waivers are consistent with those granted by the Planning Board for the Colucci Estate Subdivision Plan. Others are new and will improve the layout and reduce the amount of blasting required to build the subdivision.

FINDINGS

The Planning Board found that the modifications made to the Definitive Plan for Swains Pond Avenue would result in an improvement over the previously approved Colucci Plan in terms of the subdivision design and impact to the land. Further, the nine-lot subdivision is vastly preferred over the 36-unit 40B proposal approved by MassHousing. By reviewing the project through the Modified Definitive Subdivision Plan process, the Planning Board is able to provide input into what ultimately happens on this site. If this site was instead the subject of a 40B proposal, it would only go before the Zoning Board of Appeals as a part of the Comprehensive Permit process.

The Planning Board noted that the nine lot subdivision was previously approved by the Board and that the conditions related to that approval are still valid. The major change from the original Definitive Plan to the Modified Definitive Plan involves moving Patrick's Place approximately 60 feet to the west. The road in the Colucci Estates plan would have crossed the wetland at an elevation approximately 10 feet lower than the wetland itself, which would have created a waterfall effect. Now, the crossing will happen at a lower section of the wetland and the road will be located about 10 feet higher than the wetland, causing less of a disturbance and allowing the crossing to comply with regulatory standards. Moving the roadway will also decrease the proposed grade for the improved portions of Hillside Park, allowing for a more gradual approach to the existing roadway, which is quite steep, and allow for a more uniform and consistent neighborhood within the subdivision. All nine house lots will be off the new road and have a similar appearance. The subdivision from 1998 would have included one house accessed directly from Swains Pond Avenue and built into the side of a cliff.

Other changes include the reduction in the width of the right-of-way from 50 feet to 40 feet and the extension of the length of the road from approximately 582 to 652 feet. All physical aspects of the road in terms of pavement, curbing, and sidewalks are identical to those in the Colucci Estates Subdivision. The road will continue to have a 12% grade, which is not ideal but is consistent with the Colucci Plan and done to minimize blasting. A four-foot wide sidewalk will be built along one side of the roadway. The Applicant will pay into the City's sidewalk fund for unbuilt portion of the sidewalk. A narrower right-of-way will improve the uniformity of the neighborhood, minimize blasting and land alteration and decrease the amount of impervious

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

surface area associated with the road. To help realize the benefits of moving the roadway and reducing the right-of-way, the Applicant proposes to decrease the center line turning radius in the cul-de-sac from 100 to 90 and 95 feet. The lot lines for the nine lots were also altered slightly to better work with the site's terrain and avoid unnecessary blasting. The result is lot sizes that are generally the same size as those in the Colucci Estates Subdivision.

The modified subdivision still includes a substantial contribution of land as open space. On the Colucci Plan, three lots totaling 66,723 square feet were to be conveyed to the city. The modified plan identifies lot 10 to be conveyed to the City for conservation purposes, which totals 90,573 square feet. The Applicant shall also place an open space and sight distance easement on lot 1 which will represent an additional 18,850 square feet. This mechanism is being used because the open space on lot 1 will provide necessary sight lines for the new road. It will be planted with a natural wildflower mix and maintained by the lot 1 homeowner. Lot 10, which will be conveyed to the City as conservation land for protection in perpetuity, will include an easement for maintenance of the stormwater management system. In total there is 109,423 square feet of land being deeded for open space protection which represents a 64% increase from what was outlined the Colucci Estates Plan.

The Planning Board found that granting the eight waivers to support the Modified Definitive Plan is consistent with *The Rules and Regulations Governing the Subdivision of Land in Melrose, Massachusetts*, is in the public interest, and is consistent with the Subdivision Control Law. The reduced centerline radius is sufficient to accommodate large public safety vehicles and solid waste removal trucks while minimizing the amount of impervious surfaces. The intersection angle at Patrick's Place and Maple Terrace is only two degrees less than the required minimum angle of 60 degrees. At 10.81 feet, the proposed side line radius at the intersection of Patrick's Place and Maple Terrace is three feet shorter than the 13.81-foot radius that the Planning Board initially approved for the Colucci Estates Subdivision. The reduction in the width of the roadway from 50 to 40 feet is consistent with other subdivision roads approved by the Planning Board and it helps reduce impervious surface area. The roadway grade of 12% for Patrick's Place is unchanged from the approved Colucci Estates Subdivision and the proposed grade for Hillside Park has been reduced from 15.5% to 14.5%. The length of the dead end road is 70 feet longer than the roadway in the Colucci Estates Subdivision, but the Board found that the length of the road would have little impact on the surrounding neighborhood and the greater length helps enable the improved wetland crossing. The width between curblines of 24 feet is consistent with other subdivision roads approved by the Planning Board. Finally, while the Applicant will only be providing sidewalks on one side of Patrick's Place, he will make a payment into the City's sidewalk fund and is also constructing a new sidewalk on Maple Terrace.

Based upon the aforementioned, and in consideration of the input received at the public hearing, the Planning Board voted to approve the Modified Definitive Subdivision Plan with the waivers cited above and subject to the following conditions:

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

CONDITIONS

#	Condition	Timeframe for Compliance	Verification Department (Initial)	Completed (Date)
1	Approval is for a Modified Definitive Subdivision Plan under the Rules and Regulations Governing the Subdivision of Land in Melrose, Massachusetts. All new construction and changes to the site shall be consistent with the information delineated on the plans dated December 4, 2019 and revised through May 27, 2020. Any deviation from the final approved plans and materials submitted as part of the application must be approved by the Planning Board in advance of construction, except as otherwise noted herein. This approval is based upon the following application materials and the plans submitted by the Applicant:			

Date / (Stamp Date)	Submission
(1/6/20)	Initial Application submitted to the City Clerk's Office
(1/16/20)	Narrative Describing Plan Changes
1/16/20 / (1/16/20)	Memo from Attorney James P. Mitchell
1/27/20 / (5/8/20)	Color Site Plans
1/27/20 / (5/15/20)	Open Space Planting Rendering

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

2	Before endorsement of the plan, the construction of ways and installation of municipal services shall be secured by a covenant, in form and substance satisfactory to the City of Melrose, approval of which shall not be unreasonably withheld, whereby such ways and services shall be provided to serve any lot before that lot may be built upon or conveyed, as provided in General laws, Chapter 41, section 81-U, or by deposit of a satisfactory surety in form and amount acceptable to the City as provided in Chapter 41, section 81-U.	BP	OPCD	
3	The final plans presented to the Planning Board for Endorsement shall contain all of the plan elements discussed and agreed upon by the Applicant during the public hearing. Among other revisions, the final plans shall illustrate granite curbing extending the entire length of Maple Terrace to Swains Pond Road and stop signs on Maple Terrace.	Endorsement	PB	
4	The Applicant/Owner, its successors and/or assigns, shall be required to submit a schedule of values for the site and utility work so that a tripartite agreement can be developed commensurate with the estimated costs of the individual unit items.	BP	OPCD/ Engineering	
5	Prior to commencing construction, the Applicant/ Owner, its successors and/or assigns, shall be required to hold a pre-construction meeting with City officials to review procedures and conditions that must be maintained during construction.	BP	Engineering / Fire / Police / OPCD / Building Commissioner	
6	Prior to commencing construction, the Applicant/ Owner, its successors and/or assigns, shall be required to provide detailed information pertaining to the quantity of blasting and rock/earth removal, and details for blasting and rock/earth removal to be implemented prior to and during construction for review and approval.	BP	Engineering / Fire / Police / OPCD / Building Commissioner	
7	The Applicant/Owner, its successors and/or assigns, will be required to pay a one-time infiltration/inflow (I/I) fund contribution for any increase in proposed sewer flows compared to existing conditions. The current cost for this fee is $6.89 per gallon per day (gpd), calculated using Title 5 flows to determine the pre and post-construction conditions. The Applicant shall contact Scott Dixon in the Engineering Division at 781-979-4172 to initiate this review.	BP	Engineering	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

8	The Applicant/Owner, its successors and/or assigns, shall submit for Fire Department review and approval a written blasting plan including without limitation specific procedures and plans for drilling and blasting, safety, and protection, and documentation of pre-blasting conditions of bordering properties. The Plan will provide the option for abutters who are within 500 feet of the blasting locations to request a pre-blast survey at the Applicant's expense.	BP	Fire Department	
9	Construction of ways and installation of services shall be subject to the requirements of and inspection of the Department of Public Works and approved by the City Engineer. Given the extent of infrastructure work required to install this development, the Applicant/ Owner, its successors and/or assigns, is required to provide a full-time construction inspector during utility and roadway installation, to provide oversight, daily reporting, and recordkeeping to be provided to the City. The Engineering Division must approve the resume of the proposed Clerk-Of-The-Works.	BP	Engineering	
10	Street opening and utility permits will be required through the Engineering Division and can be obtained by bonded and insured contractors by contacting Rick Cantone, Staff Engineer, at 781-979-4172. The Engineering Division shall be notified at least 48 hours prior to any work in the public way or utility work. All work within or impacting the roadway must be performed in coordination with the Engineering Division and the Melrose Police Department, and any police and fire details required as part of the project are the responsibility of the Applicant.	BP	Engineering	
11	Utility permits for the individual lots shall not be granted without detailed design information for each home showing how appropriate water and sewer service connections can be accommodated.	BP	Engineering	
12	The Applicant/Owner, its successors and/or assigns, shall be required to perform confirmatory soil test pits to establish the vertical separation from the estimated season high groundwater table to the bottom of the system for the roof recharge systems.	BP	Engineering	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

13	The Applicant/Owner, its successors and/or assigns, shall conduct flow and pressure calculations to determine if individual water booster pumps will be needed for the units in the proposed development. If booster pumps are warranted, they shall be provided by the Applicant.	BP	Engineering	
14	The Applicant/Owner, its successors and/or assigns, shall submit a detailed construction plan for the culvert replacement construction work at Maple Terrace for review by the Engineering Department prior to the commencement of this construction activity, and this plan should include additional sedimentation and erosion control provisions for this work. The construction work shall be done during low flow conditions.	BP	Engineering	
15	The Applicant/Owner, its successors and/or assigns, shall submit a final Landscape Plan prepared by a Registered Landscape Architect to the Engineering Division that shows specifics of the vegetated buffers along the abutting properties. In addition, all street tress shall be located at least 10 feet from utilities and driveways. If this cannot be achieved, the maximum separation possible from utilities should be maintained. All plantings should be guaranteed for a minimum of two years.	BP	Engineering	
16	The Applicant/Owner, its successors and/or assigns, shall submit two (2) paper copies of the Definitive Plan to the City Engineer upon final approval of the project and prior to commencement of construction.	BP	Engineering	
17	Safe pedestrian and vehicular access to Maple Terrace and Hillside Park shall be required to be maintained throughout construction. The Applicant/Owner, its successors and/or assigns shall provide the City Engineer and affected abutters with regular updates on the access conditions and roadway relocations.	During Construction	Engineering	
18	Construction vehicles shall access the site using main roads whenever feasible and avoid highly residential areas. No parking of construction vehicles shall be allowed within the City's right-of-way. There shall be no idling or disruptive queuing of construction vehicles.	During Construction	Engineering	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

19	The Applicant/Owner, its successors and/or assigns, shall coordinate the schedule of trucking to the site associated with the ledge removal operation with the Police Department to determine if police details will be needed to mitigate impacts of the trucking.	During Construction	Police Department	
20	The Applicant/Owner, its successors and/or assigns, shall be required to maintain communication with City officials and abutters throughout construction	During Construction	Engineering	
21	Construction activities shall occur in accordance with the City of Melrose Noise Ordinance. The Applicant/ Owner, its successors and/or assigns, shall employ accepted dust management standards and shall limit noise impacts to the extent practical. Construction hours shall generally be limited to between 7AM and 5PM daily, except for construction activity related to blasting and rock removal which shall be limited to between 7AM and 3PM daily. No construction activity shall begin before 8AM on Saturdays. There shall be no construction activity on Sundays or Holidays.	During Construction	Building Commissioner	
22	The Applicant/Owner, its successors and/or assigns shall make every effort to ensure that rock removal vehicles and equipment shall be outfitted with Broadband Noise (White Noise) backup alarm devices or backup alarms with proximity sensors rather than the conventional audible backup alarm to reduce excessive noise.	During Construction	Engineering	
23	All construction plans and procedures shall adhere to the Building Codes of the Commonwealth and City, including but not limited to safety measures required in regard to fencing on or near deep ledge cuts.	During Construction	Building Commissioner	
24	The Applicant/Owner, its successors and/or assigns, shall provide a mock-up of a typical retaining wall on site for review and approval by the Planning Board in the field. The Applicant/Owner shall also provide an example of the sloped placed stone wall. No rip rapc shall be allowed.	During Construction	OPCD	
25	The Applicant/Owner, its successors and/or assigns, shall be responsible for solid waste removal from the property during construction. Trash and recycling curbside pickup, as well as snow removal, will be provided by the City's contractor once roadway paving is complete to the satisfaction of the Engineering Division. The City reserves the right to change this policy at any time.	During Construction	Engineering	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

26	Any required backflow prevention devices must be registered for routine inspections with the City's subcontractor, Water Safety Services Inc., in Woburn, MA. The Applicant/Owner, its successors and/or assigns, must contact Water Safety Services at 781-932-8787 to add this address to the inspection list should cross connection controls be required. All initial inspections shall be completed prior to occupancy.	CO	Engineering	
27	The Applicant/Owner, its successors and/or assigns, shall be responsible for purchase and installation of standard City street signs in consultation with the City Engineer.	CO	Engineering	
28	The existing natural features, including trees and shrubs located outside the area of construction shall be protected and remain in a natural state during construction.	CO	Engineering	
29	The Applicant/Owner, its successors and/or assigns, shall be required to complete the subdivision roadway within two (2) years of approval of the Modified Definitive Subdivision Plan.	CO	Engineering	
30	Whereas sidewalks are only shown on one side of the proposed "Patrick's Place" road, the Applicant/ Owner, its successors and/or assigns, shall be required to provide a contribution to the sidewalk fund in lieu of the second sidewalk. The sidewalk fund contribution shall be equivalent to the square footage of the sidewalk that is not being provided, times the cost at the time of project approval of installing cement concrete sidewalks under the City's applicable services contract.	CO	Engineering	
31	Telephone, electric/street lighting, CATV, and fire alarm feeds through the development shall be located underground.	CO	Engineering	
32	A Street Lighting Plan shall be submitted to the Engineering Department that depicts the final locations and design once determined by the utility provider.	CO	Engineering	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

33	The Applicant/Owner, its successors and/or assigns, shall add short service connection liners at each service connection along the portion of sewer main on Maple Terrace downstream of the proposed connection for the project in order to allow this main to remain in service and serve the proposed development. Alternatively, the Applicant may replace the main and sections of the services on Maple Terrace at their expense.	CO	Engineering	
34	The Applicant/Owner, its successors and/or assigns, shall replace the water main on Maple Terrace from Swains Pond Avenue to the new "Patrick's Place" road, beginning at the sideline of Swains Pond Avenue with a new 8-inch gate valve.	CO	Engineering	
35	Should the Applicant/Owner, its successors and/or assigns, wish to extend gas service to the new development, it shall be the Applicant's responsibility to coordinate this work with National Grid and all costs shall be borne by the Applicant or National Grid. This work would also require a grant of location from the Melrose City Council.	CO	Engineering	
36	The Applicant/Owner, its successors and/or assigns, shall at his/her expense restore sidewalks, driveway aprons, curbing, roadway, street lights, pavement markings, and all other appurtenances on Swains Pond Avenue, Maple Terrace, and Hillside Park to their pre-construction condition or better. Roadway restoration will require curb-to-curb paving of any disturbed areas, including milling and inlaying to repair those areas. All curbing shall be made of granite.	CO	Engineering	
37	Following placement of the binder course on the new subdivision road, the Engineering Division shall evaluate the effectiveness of the roadway changes at Swains Pond Avenue and Maple Terrace in terms of safety and vehicular speed. The City Engineer shall require the Applicant/Owner, its successors and/or assigns, to install a raised crosswalk at the intersection or take other measures as reasonably necessary to improve safety.	CO	Engineering	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

38	The Applicant/Owner, its successors and/or assigns, shall submit a checklist for monitoring and reporting requirements for items such as the stormwater management systems, wetland protection, landscaping, etc. during both the construction phase and the long term. The long-term checklist shall be provided to the homeowner's association to assist in their ability to follow through with the many tasks required of them once the Applicant's work is completed.	CO	Engineering	
39	The Applicant/Owner, its successors and/or assigns, is required to meet all components of the City's Stormwater Management Plan, including construction site monitoring that will take place to ensure erosion and sedimentation controls are accurate.	CO	Engineering	
40	The Applicant/Owner, its successors and/or assigns, shall submit a homeowner's association document that outlines the responsibilities of the Home Owners Association as it relates to the long-term maintenance of the stormwater management system, wetland protection, landscaping, etc. to the Engineering Division and the Office of Planning and Community Development.	CO	Engineering / OPCD	
41	The Applicant/Owner, its successors and/or assigns, shall convey the land on Lot 10 to the City of Melrose's Conservation Commission for preservation in perpetuity. The Applicant/Owner, its successors and/or assigns, shall reserve an easement over lot 10 to install and maintain an underground detention area.	CO	Conservation Commission	
42	The Applicant/Owner, its successors and/or assigns, shall submit a copy of the recorded easement and deed restriction to the Office of Planning and Community Development that designates the "Open Space Easement" and "Sight Distance Easement" just west of the intersection of Patrick's Place and Hillside on Lot 1 as undevelopable open space in perpetuity.	CO	OPCD	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

43	The Applicant/Owner, its successors and/or assigns, shall submit final as-built plans to the Building Commissioner, the Engineering Division, and OPCD when construction of the project is completed. These plans must show all utilities, both above and below ground, including sizes, materials, and slopes, along with roadway grades, locations of structures, curb cuts, sidewalks, landscaping, etc. The Applicant shall resubmit revised plans pursuant to any comments provided by the Engineering Division. Final occupancy will not be issued without approved as-built plans.	CO	Engineering / Building Commissioner / OPCD	
44	The Home Owners Association shall be responsible for all maintenance requirements for each of the elements of the stormwater management system, with the exception of the individual roof drain systems, which are the responsibility of the individual homeowner. The requirement for maintenance must be incorporated into any homeowners' agreement.	Perpetual	Engineering	
45	The Home Owners Association shall be required to submit documentation to the City Engineer showing that the required long-term maintenance is being performed pursuant to the required schedules. Furthermore, the City shall have the right to enter and maintain all stormwater systems if adequate maintenance of the systems is not being performed, with costs assumed by the Home Owners Association. Similarly, the City shall have the right to enter and maintain the "sight distance easement" on Lot 1 if adequate maintenance is not being performed by the homeowner, with costs assumed by the Home Owners Association.	Perpetual	Engineering	

RECORD OF VOTE

The following members of the Planning Board voted to approve the Modified Definitive Plan for Swains Pond Avenue with the requested waivers from the *Rules and Regulations Governing the Subdivision of Land in Melrose, Massachusetts*, subject to the above-stated terms and conditions:

Michael Cassavoy	Carla Morelli	Gregory Sampson
Anne DeSouza-Ward	Sharon Petrillo	Jack Welch
Paul King	John Sadowski	

No members of the Planning Board voted against the Modified Definitive Plan for Swains Pond Avenue. Robert Mercado abstained from the vote.

WILLIAM I. THOMPSON IV

Sales & Marketing, Leadership

I have spent the past 30 years representing growth organizations in diverse roles including sales & marketing, accounting & finance, and strategic alliances & program development. My background consists of commercial representation for IBM Maximo Asset Management, HxGN Enterprise Asset Management (EAM), and other condition monitoring facilities intelligence software applications, services, and platforms.

I have been successful selling, marketing, and establishing long-standing business relationships by aligning with strategic partners to help fuel my company's growth.

My track record is represented by profitability and success. I am an independent thinker who surrounds himself with a strong, efficient, and effective network. I work diligently to instill a confidence in the organization and work to support that with daily execution as my core work ethic and principle.

I am interested in the Board of Registrars of Voters appointment as an opportunity to continue my interest in the civic process. I am a long-time volunteer for Melrose Little League, Babe Ruth, Melrose Youth Soccer, the City of Melrose Recreation, and Junior Achievement. I currently serve on the Board of Directors for Melrose Little League as acting treasurer. I have four sons active in youth sports and activities in Melrose and take great pride in our fantastic community.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Board of Registrars of Voters
Date: January 24, 2023

I respectfully request the Honorable City Council confirm the appointment of registered Republican William I. Thompson, IV of 73 Beacon Street, to the Melrose Board of Registrars of Voters for a one-year term, said term to fill the appointment of Cynthia Silveria, who has resigned from the Board and whose term would expire on the last day of March 2024.

Mr. Thompson is a long-time volunteer for Melrose Little League, Babe Ruth, Melrose Youth Soccer, the City's Recreation Department, and Junior Achievement. Mr. Thompson has spent the past 30 years of his professional career in diverse roles including sales & marketing, accounting & finance, and strategic alliances & program development.

Mr. Thompson is eager to continue his service to Melrose by serving on the Board of Registrars of Voters and to continue his interest in the civic process.

Thank you for your consideration.

RE: Commission on Disability Reappointments
Date: January 24, 20223

I respectfully request the Honorable City Council confirm the reappointments of the following Melrose Commission on Disability members:

- David Hoff, 46 Warwick Road, for a three-year term, said term to expire on the last day of February 2026.
- Garin Boyd, 12 Mt. Vernon St., Unit 31, for a three-year term; said term to expire on the last day of February 2026.

Under the leadership of Chair David Hoff and the membership Garin Boyd, the Commission on Disability, in partnership with the Mayor's Office, has played a pivotal role in moving forward the City's ongoing efforts to assess the current level of ADA compliance in City programs, services, activities, and City-owned facilities by initiating, and receiving grant funding for, our City's ADA Self-Assessment that has been completed by the Institute of Human Centered Design.

I look forward to their continued work in this area, as well as helping drive forward the City's slogan, "One Community, Open to All," through their collaboration with other community organizations such as Follow Your Art Studios, the Racial Justice Community Coalition, and Friends of METCO Melrose, to name a few.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

January 3, 2023

Mayor Paul Brodeur
Melrose City Hall
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur:

I am writing to request reappointment for another 3-year term to the City of Melrose Disability Commission.

As an original member of the commission since 2020, I have played an integral role in the establishment and ongoing evolution of the commission. Since becoming chair in May 2021, I have worked to ensure that the commission functions in an effective manner operationally, while fulfilling its mission for Melrose to be a community that is fully accessible and welcoming to people with disabilities. Since the commission was established, we have worked to be responsive to city officials and departments in terms of disability issues, while also serving as a forum for city residents to raise issues and concerns. I am extremely proud to have led the development of the grant application to the Massachusetts Office on Disability to fund the accessibility Self-Evaluation and Transition Plan, which will serve as a long-term blueprint for the city to ensure an accessible and welcoming environment for people with disabilities. In addition to the completion and release of this plan, over the next year, the commission's priorities include continuing to increase its public presence and connections in the community, and working on an education program for community organizations on promoting access for people with disabilities.

My work on the commission is complemented by my professional role as an advocate for disability rights and inclusion, as a staff person at the Institute for Community Inclusion at UMass Boston. The knowledge and expertise from my 30+ years as a professional in the disability field, will continue to be a major asset in my role on the commission.

Attached is a professional CV with additional details on my background.

It would be an honor to continue to serve on this commission. Please let me know if you need any additional information.

Sincerely,

David Hoff

Mayor Paul Brodeur
Melrose City Hall
Melrose, MA 02176

Dear Mayor Brodeur:

Happy New Year! I hope this letter finds you well. I am submitting this letter of interest to ask for reinstatement onto to the Melrose Commission on Disability for a new term beginning February 2023.

During my first term, I have been very proud to have served on the Melrose Commission on Disability. I am emboldened by the work that has been done through this Commission. I feel like heading into 2023 that the Melrose Commission on Disability is situated in a strong place to continue its service to the community. I feel as though our meetings are productive, inclusive and mindfully managed by both our chair David Hoff and all the commissioners that attend. I am very excited that we received grant funding for our city's ADA assessment. After reading the report and providing feedback: it is evident that we have a lot of work yet to do. This report is a major step towards creating inclusive space and I am proud to be a part of what I believe to be an overwhelmingly positive move for Melrose.

I am still very committed to working for social justice in many previous positions I have held within the city of Melrose as well as surrounding areas. I continue to work actively with the Melrose Human Rights Commission on the Martin Luther King Jr. Day of Service. I am also a member of the steering committee for the Friends of METCO Melrose. I have recently started attending in-person meetings with the Racial Justice Community Coalition and I have been involved with EPIC (Engaging Parents in Conversation).

In the year ahead, I am working on getting a collaborative effort together the Melrose Commission on Disability and Follow Your Art Community Studios around storytelling. Follow Your Art has had a few very successful story-telling events in Melrose and they have been very successful. I have spoken to Kris Rodolico and we are hoping to get an event, focused on the stories of people with disabilities, together this summer. The pandemic has made it very difficult for us to reach out to the larger disability community with many people having concerns about getting sick. It is my hope that we can better identify members of our community with disabilities with a community event.

Thank you once again for consideration. I look forward to continuing to serve Melrose.

Sincerely,
Garin Boyd

Re: Library Board of Trustees Reappointment
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the reappointment of Peter Bowman, 24 Arlington Road, to the City of Melrose Library Board of Trustees for a three-year term, said term to expire the last day of February 2026. Mr. Bowman was recently appointed to the Library Board of Trustees in November 2022, as he replaced the appointment of Edward Waystack, who has resigned from the Board.

Melrose Public Library Director Linda Gardener supports my recommendation to reappoint Mr. Bowman, who as you know has previously served our City on the Melrose Traffic Commission, the Board of Chamber of Commerce, the Capital Improvement Plan Committee, and the Master Plan Committee. His experience will no doubt further the mission of the Board of Trustees, which sets policy for the library; administers funds appropriated by the City and such bequests as designated; approves the library's strategic plan; and advocates for the library in the community.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Peter T. Bowman
24 Arlington Road
Melrose, Massachusetts

Dear Mayor Paul Brodeur,

I am writing to express my continued interest in serving on the Melrose Library Board of Trustees and being appointed to serve a full term. As we discussed last year when you asked me to serve out the term of a retiring Trustee, I think this is an exciting opportunity to serve the city and I feel my experience both professionally and being part of the community for many years will help me add value to the Board. I have had the opportunity to attend my first Board of Trustee meeting and work with Linda Gardener and my fellow Trustees while learning about the role and the exciting things currently occurring at the library as well as the new building.

As I communicated to you in previously and as you know, I have served on the Master Plan Committee, Traffic Commission, Board of the Chamber of Commerce and recently on the CIP committee and I think continuing in this new role will allow me to give back to the city. As we emerge from the pandemic libraries play a critical role in the community for all residents and I look forward to being involved with this effort. I will continue to be an active member of the Board providing guidance and support to the library staff and my fellow Trustees.

I want to thank you and the City Council for my consideration. If you need any additional information please don’t hesitate to contact me. I look forward to the next steps in the process.

Sincerely,

Peter T. Bowman

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Cemetery Commission Reappointment
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the reappointment of Daniel O'Neill, 340 Main St., #703, to the Cemetery Commission for a three-year term; said term to expire on the last day of February 2026.

During Mr. O'Neill's most recent term, the Commission has embarked on several projects to improve the services provided by the Melrose Wyoming Cemetery, including the digitization of cemetery records. I am eager to see Mr. O'Neill's service on the Commission continue, ensuring the projects continue without interruption.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

January 24, 2023

Dear Mayor Brodeur,

I have requested reappointment to the Wyoming Cemetery Commission for the following reasons.

There are currently several capital improvement projects underway namely:

1. Digitization of the cemetery records.
2. The paving of roads surrounding the new Vesper Avenue gravesite section.
3. Future gravesite expansions.

I would like to be given the opportunity to see these projects come to fruition.

Respectfully submitted,

Daniel O'Neill

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Soldiers & Sailors Memorial Building Trustees
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the reappointment of Soldiers & Sailors Memorial Building Trustee Michael Margolis, 22 Stowecroft Road, to a three-year term; said term to expire on the last day of February 2026.

Now more than ever, as the historic building recently entered a stage of preservation, Mr. Margolis has proven his dedication to preserving and honoring the Soldiers and Sailor's Memorial Building. I'm grateful for the stewardship of Mr. Margolis' and our other Soldiers and Sailors Memorial Building Trustees as Memorial Hall's exterior receives the repairs and maintenance it needs to be restored for future generations to come.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lily Wall
Communications & Community Outreach Coordinator
Office of Mayor Brodeur
Melrose City Hall
562 Main Street
Melrose, MA, 02176

3/23/2022

Dear Lily and Mayor Brodeur,

It has been an honor to serve as a trustee of the Sailors and Soldiers Memorial Building (Memorial Hall) for approximately 15 years now. Memorial Hall is a special place that helps bring our community together in so many ways. Over the years I have been fortunate to perform there with Polymnia Chorus and with Blue of A Kind Acapella group. I've been there for MSO performances, inaugurations, recitals and any number of other functions. Memorial Hall has always been a favorite place for me and I was greatly honored when former Mayor Rob Dolan asked me to join the board.

Memorial Hall has a special significance to me since it is a memorial, built to honor those who served and lost their lives in defense of our country. I am a veteran of the U.S. Army and served in Vietnam with many who never came home to continue serving the country we love. I've been blessed to do so. As trustee, I've always tried to make decisions that enhance and support the efforts of the building manager and staff to help create a welcoming space for all who attend events at Memorial Hall. I would hope to be re-appointed for another term as a Trustee to continue these efforts.

Lily asked me for a resume. I do not maintain one. I worked in the insurance industry for over forty years as an underwriter and agent. I was fortunate to maintain those positions and when I moved from the underwriting to agency side, I went with people who knew me and didn't need to see a resume. I retired in 2017 for not quite a year. Then, I started working part time for a former client. I continue working 15-20 hours a week for this company.

I hope this is sufficient information for you to contemplate my reappointment and look forward to hearing back from you at your convenience. Thank you for your consideration.

Sincerely,

Mike

Michael D. Margolis

Re: Free Cash Request Essex Agricultural

Please be advised that enrollment for Essex North Shore Agricultural & Technical School District is nine students for Fiscal Year 2023. The adopted Fiscal 2023 budget was based on Chapter 74 Non-Resident tuition and transportation costs for an estimated seven students. The supplemental appropriation requested for tuition and transportation for the two additional students is $35,311. This additional appropriation will bring the total Chapter 74 tuition and transportation funding for Essex North Shore Agricultural & Technical School District for Fiscal Year 2023 to $179,296.

Re: **Free Cash – School Department Supplemental Appropriation ($2.5M)**

As the Chief Financial Officer and City Auditor, I am pleased to have this opportunity to provide you with the position of the Office of the Auditor in funding this request for the use of Certified Free Cash for the School Department (see memorandum dated 02/21/2023). The School Department has requested $2.5 million dollars of funding to cover Special Education and Transportation related costs as provided for in the School Department request to your office. It is my recommendation that the funding source should be from Free Cash to close the Fiscal FY23 School Department Budget. This was and has been my position, and I represented such at the City Council meeting previously.

(A.) Overview:

Free Cash is for many communities, the only supplemental funding source available to them to address funding matters pertaining to the Operating Budget during a fiscal year. For this reason alone, it is critically important that communities strive to have Free Cash in the amount of 5 to 7 percent of their Operating Budget as recommended by the Department of Revenue, Division of Local Services (see November 17th, 2022 DOR publication on "Highly Recommended Financial Reserves). Historically, the city has used Free Cash to supplement both City and School Operating Budgets. I have attached some additional supplemental information on the nature and origin of what makes up "Free Cash" and some previous examples of the uses, for your review.

In addition, we must be mindful, that according to the School Department in a memorandum dated February 9th, 2023 on page 9, "Given the timing of these decisions and the fact that the majority of the school year has occurred, the scale of the impact to teaching and learning within MPS would be catastrophic". As the two key strategies this City has adopted, and held to historically, are the **"Safeguard of the Assets"** and the **"Continuity of Stable Service Levels",** such a change, in my opinion, would deviate from our core obligations and therefore not be prudent.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(B.) Bond Rating:

In addition to being good fiscal practice, maintaining conservative budgeting strategies provides assurance to the Bond Rating Agencies that we are being consistent in our fiscal methodologies. The City has an excellent bond rating from Standard and Poor's' Bond Rating Agency of AA+ and has held this rating for a decade. No small task given what had transpired on the national and local economies during that timeframe. A bond rating is instrumental in the determination of interest expense the City will pay when it goes to market and takes out a bond. The lower the interest rate we receive, the more revenues can be allocated to direct community services. Having solid Free Cash balances is one key component.

(C.) Material Funding Components:

The City realized a number of "one-time" funding components, in addition to increased receipts in other categories, worth highlighting, and that provided for the final Free Cash determination which is the highest General Fund amount Certified in the City's history. These receipts contributed to the increase we realized from last fiscal year's certified balances. They include:

1. Host Community Cannabis receipts of $955,505 which exceeded last year's revenues by $499,986. We do not anticipate this to be the case next fiscal year.
2. Tax Liens redeemed (one-time) greater than last year by $349,484.
3. Deferred Taxes CH41 greater than last year by $41,228.19.
4. Unencumbered/Unexpended (one-time) greater than last year by $820,102.65.

Please advise if you have any questions.

Thank you.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Supplemental Information

Subject: Free Cash

The first question that generally surfaces is "What is Free Cash" (otherwise known as "available funds").

Q: What is Free Cash?

A: In short, Free Cash is the fund surplus that accumulates from previous fiscal years. Once all expected revenues have been received and all bills have been paid for the fiscal year (July 1st through June 30th), we send our final financial reports to the Department of Revenue Division of Local Services (DLS). They will Certify the amount of remaining funds that will go toward the determination of the community's "Free Cash" amount for the ensuing fiscal year's use. The money then becomes available for the City to use.

On February 16, 2003, the City of Melrose received notification from the Massachusetts Department of Revenue that our City's Free Cash has been Certified at $7,159,906 dollars. This is very good news for the community, the largest amount in its history.

Q: Why do we have Free Cash?

A: There are a number of reasons why the City has Free Cash. The main reason is that the City Budget approved by the City Council each year is a good faith estimate of revenue and expenses. We are conservative in our revenue estimates, because we don't want to put the City at risk of running short, but there are other factors at play as well. If the economy is strong, we may very well see additional revenues from new development or re-development, both taxes and permit fees. If a senior employee retires or leaves and we replace that person, it will often times be at a lower salary, if we have less utility costs than we budgeted for, or for any reason we don't spend the full amount allocated in the budget, that money goes toward the determination of our Free Cash amount.

When you add it all up, Free Cash can be anywhere from zero (or even negative), to a substantial amount. The Division of Local Services recommends that communities strive to have a Free Cash balance each fiscal year of 5% to 7% of their Operating Budget. Melrose strives to reach that target consistently. If we simply apply this amount to the most recent budget approved, the percentage comes in at 7.5%. The five-year average for the City is $5,227,175 dollars.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Q: What can it be used for?

A: It is important to note, however, that Free Cash is considered "one-time" money and should not be used as if it were a recurring revenue. For one thing, we only see it after the fiscal year is over, and it is not certified until the fall. More importantly, it is not dependable, because the amount changes in unanticipated ways from year to year. Therefore, it should be used principally for one-time expenses, such as Capital Improvements, or matching funds for a grant or replenishing reserves. There are times we may need such funds during the year to pay for unanticipated or higher than expected operating expenses (such as snow and ice), at the time the budget was developed as well, and that is to be expected.

Some projects and uses in the past year included the following:

1. Stabilization Funds/Trust Funds: $1,225,000
2. Snow and Ice Expenditures: $341,621
3. School Bathroom Design Study: $150,000
4. DPW Trees: $70,000
5. New DPW Equipment: $482,000

In closing, any Free Cash use requires an appropriation by the City Council on the Mayor's recommendation, but only after the DLS has Certified the Free Cash total. The same rules apply to the DLS's certification of Retained Earnings, which is the Enterprise Fund (Water, Sewer, Ambulance and Mt. Hood) equivalent of Free Cash.

FROM: Ken Kelley, *Director of Finance and Administrative Affairs,* and Dr. Julie Kukenberger, *Superintendent of Schools*

RE: FY23 MPS Free Cash requests - updated 2/21/23

In conjunction with the memo sent to the Melrose City Council, dated February 17, 2023, the Melrose Public Schools respectfully requests Mayor Brodeur consider the following request as well. The School Department recognizes and appreciates the investment of operating and capital monies allocated by the City every year in the interest of teaching and learning. The District is respectfully requesting that the City Council and Mayor consider the following funding appropriation requests for the FY23 Melrose Public Schools (MPS) budget.

As discussed at the February 14, 2023 Melrose School Committee meeting, the District approved FY23 budget is impacted by several factors that have resulted in a revenue gap. The impacts are detailed in a February 9, 2023 memo to the MPS School Committee. The below request will greatly assist the district in maintaining the current level of teaching and learning within the district. As the February 9, 2023 memo indicates, if approved, the additional revenue will be used to fund mandated special education costs for tuition, transportation, and services at the Franklin ECC. Additionally, the District is respectfully requesting the Medicaid reimbursement transfer at this time as well. The Medicaid funds are used as part of the District's budget offset funds.

Thank you for your consideration.

Transfer In Account: 0111 491003
Special Education tuition and transportation in the amount of: $2,500,000.00

Transfer In Account: 16204 49000
Medicaid reimbursement in the amount of: $262,674.93

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

RE: FY23 MPS Rebuild Budget Update

This memo outlines and summarizes the Melrose Public Schools rebuilding of the FY23 approved budget. This was an extensive and time consuming process that is an opportunity to account for legacy budgeting practices as well as to reassign costs to more accurate centers and budget categories. The following is an overview of the work, action steps, and next steps as we move forward to FY24. As we work collaboratively and transparently, please see below for more information.

FY23 Budget Rebuild Update

The FY23 budget has been impacted by the legacy grant practice of duplication as well as continued increases in special education tuition and transportation costs. Through the ongoing collaboration with the City and an outside consultant, Clifton, Larson, and Allen (CLA), the FY23 budget was rebuilt with the following priorities:

- Correct the double counting of the three grants (METCO, Title I, and IDEA 94-124).
- Assign existing broad system wide (SW) spending lines to specific schools and cost centers. This included assigning shared staff by Full Time Equivalent (FTE) to the buildings where instruction and position(s) are located. Additionally, ECC special education costs are the mandated responsibility of the District to provide. Significant amounts of these costs were historically charged to the tuition revolving offset fund. These costs have been moved to the operating budget.
- The district has requested $2,500,000 in additional revenue from the Mayor and City Council (see Memo here) to help close an identified gap in special education obligations for tuition and transportation.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Correcting the double counting of the three grants - Background

Several legacy accounting issues contributed to an FY22 budget deficit. This gap was closed utilizing school and City COVID-19 relief funds. None of the City's stabilization funds were impacted. However; given the time of the discovery, we knew the FY23 approved budget would also be impacted in a similar manner.:

Once the double counting of these specific grant funds (METCO, Title I, and IDEA 94-124) was corrected the FY23 approved budget was reduced by $1,260,000. The table below outlines the School Committee approved budget of $40,253,740, and the City Council approved budget of $35,511,659 which includes $115,081 less in City appropriations than approved by the School Committee and the full Chapter 70 allocation of $9,680,222. The FY23 Reduced budget listed in the table below decreases the FY23 budget by $1,260,000 for the removal of the grant amounts and $115,081 for the variance between SC approved and City Council approved budgets. The FY23 Adjusted budget adds back $115,081 in offsets from higher than projected Medicaid reimbursement.

FY23 MPS Budget
Impact of Grant Removal

Budget Category	Amount Approved April 12, 2022	City Council Approved June 21, 2022	FY23 Reduced	FY23 Adjusted
Ch70	$ 9,680,222	$ 9,680,222	$ 9,680,222	$ 9,680,222
City Appropriation	$ 25,946,518	$ 25,831,437	$ 25,831,437	$ 25,831,437
Offsets	$ 4,627,000		$ 3,367,000	$ 3,482,081
	$ 40,253,740	**$ 35,511,659**	**$ 38,878,659**	**$ 38,993,740**

The table below illustrates the impact of the grant removal by School Committee Voter categories. The FY23 Rebuild Proposal removes the grants and calculates forecasted FY23 expenses based on known student needs. The variance by category calculates the need for additional funding to meet the current level of student services.

SC Budget Category	FY23 Adjusted SC Approved	FY23 Rebuild Proposal	Variance by Category
Elementary Budget	$ 14,028,381	$ 15,884,214	$ 1,855,833
Secondary Budget	$ 15,524,213	$ 15,816,269	$ 292,056
Special Education	$ 4,585,597	$ 6,330,685	$ 1,745,088
Administration & Other	$ 4,855,549	$ 3,810,241	($ 1,045,308)
District Totals	**$ 38,993,740**	**$ 41,841,409**	**($ 2,847,669)**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Assign existing broad system wide (SW) spending lines to specific schools and cost centers - Background

Past budgeting practice included grouping any shared staff in broad SW budget lines. This created challenges tracking full-time equivalent (FTE) personnel costs per building and cost center. Administration spent significant time reviewing staffing and FTE status by building and assigning FTEs to the facility or cost center where instruction or service delivery occurs.

The Franklin Early Childhood Center (ECC) special education costs are mandated and the responsibility of the District to provide for students when needed. Significant amounts of these costs were historically charged to the tuition revolving offset fund rather than the operating budget. Additionally, in FY20 all ECC preschool educators joined the MEA and became salary and benefits eligible at rates per the Collective Bargaining Agreement. Special Education teachers, certified service providers, and special education paraprofessionals' salaries were also moved to the FY23 rebuild operating budget.

These changes better align with DESE's chart of accounts and end of year reporting (EOYR) requirements. The table below captures the FY23 budget rebuild adjustments by school building and department budgets.

Building/Dept.	Orig Budget	Revised	Change	Text Description of changes	Impact

Total General Fund	**$ 38,993,740**	**$ 41,841,409**	**$ 2,847,669**		

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Notable Expense Increases - Background

Removing the special education grant increased the existing gap between budgeted amounts for tuition and transportation funding. It has been past practice to under budget in both of these categories. For example, in FY20, tuition costs increased by more than $1,000,000; however, FY21 budgeting was increased by $100,000. As well, in FY19 transportation costs increased by $242,000; however, the FY20 transportation budget was decreased by 8%. MPS has respectfully requested $2,500,000 of additional funding from the City to help close that gap this year(see Memo here). As special education tuition and transportation costs continue to increase at unpredictable rates, it is possible that the district will need to request use of the special education stabilization funds this school year.

Notable Expense Increases for FY23		
Special Education tuition	$ 1,600,000	Grant removal and unbudgeted new tuitions
Special Education transportation	$ 710,440	Under budgeted and unpredictable
Special Education - adding ECC	$ 569,989	Costs should be charged to operating
Misc	$ (32,760)	Misc. costs and savings
District Totals	**$ 2,847,669**	

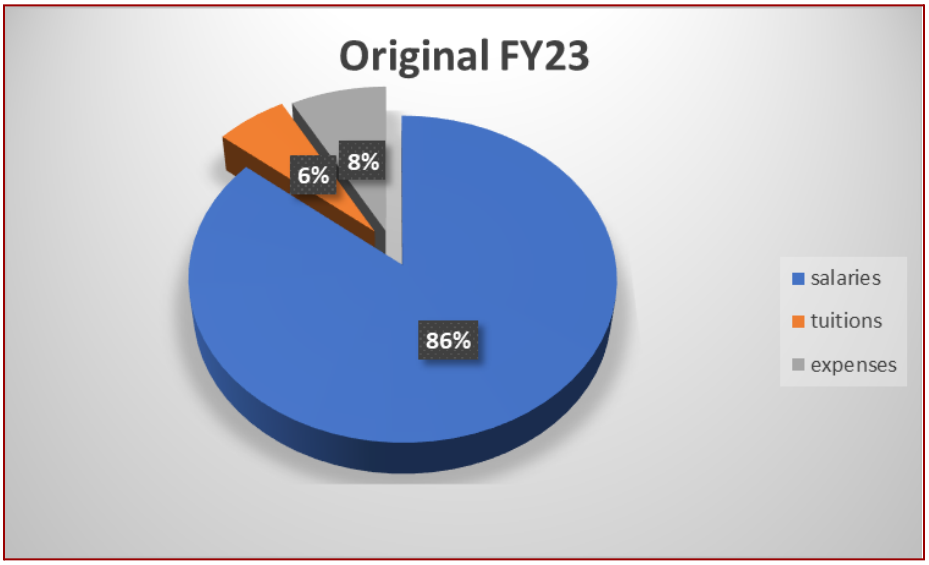
The table below outlines the additional revenue request from the City along with other internal offset projection adjustments.

Additional Revenue Requests and Adjustments		
To Mayor and City Council	$ 2,500,000	January 24, 2023, Memo requesting additional revenue (City Council vote would be required)
Increase Ed Stations/ECC offset projections	$ 200,000	Increased offset after moving Special Education costs to Franklin operating (SC vote would be required)
Increase Circuit Breaker/Medicaid offset projections	$ 147,669	Decreases incremental build up of expenses (SC vote would be required)
Total	**$ 2,847,669**	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The district has worked to reallocate and utilize existing resources when possible to mitigate the impact of the request to the City. The budget rebuild includes potential increases in offset revenue based on projections and breakage due to vacancies. Any open positions are first reviewed for internal solutions (aside from obligated direct service providers). On January 18, 2023, the operating budget was frozen to conserve resources for the spring and requiring additional approval for essential expenses and purchases.

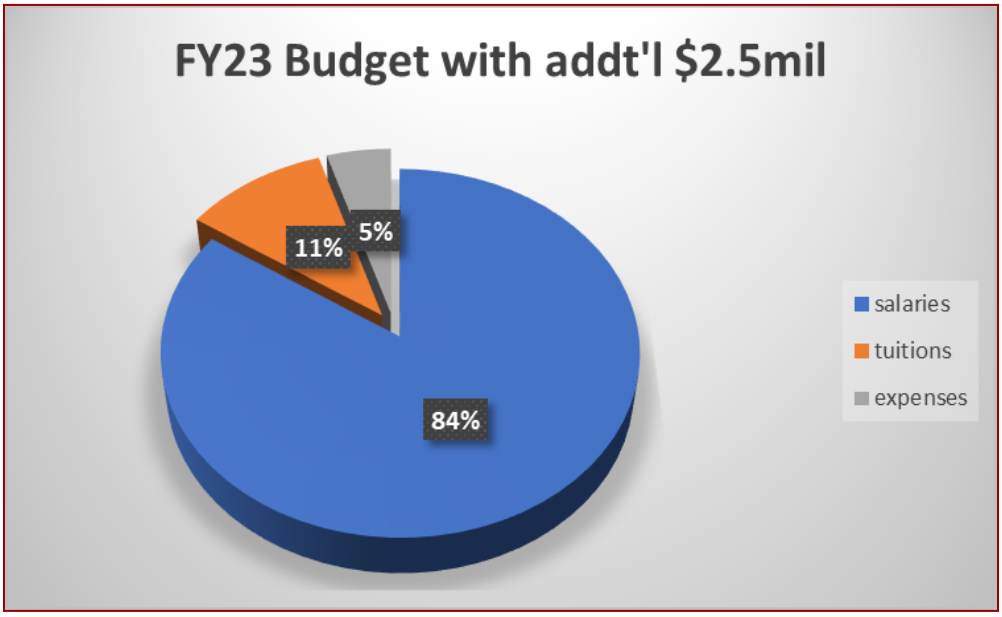
Next Steps



The changes to the FY23 rebuilt operating budget are impacted by several factors including the ratification of the new Unit A teachers and Unit B Paraprofessionals contracts. Further refinements may be needed when the new contracts' salaries and retro payment compensations are completed, all salaries are encumbered, and MUNIS updates are finalized. Special education tuition and transportation will be monitored and adjusted if necessary.

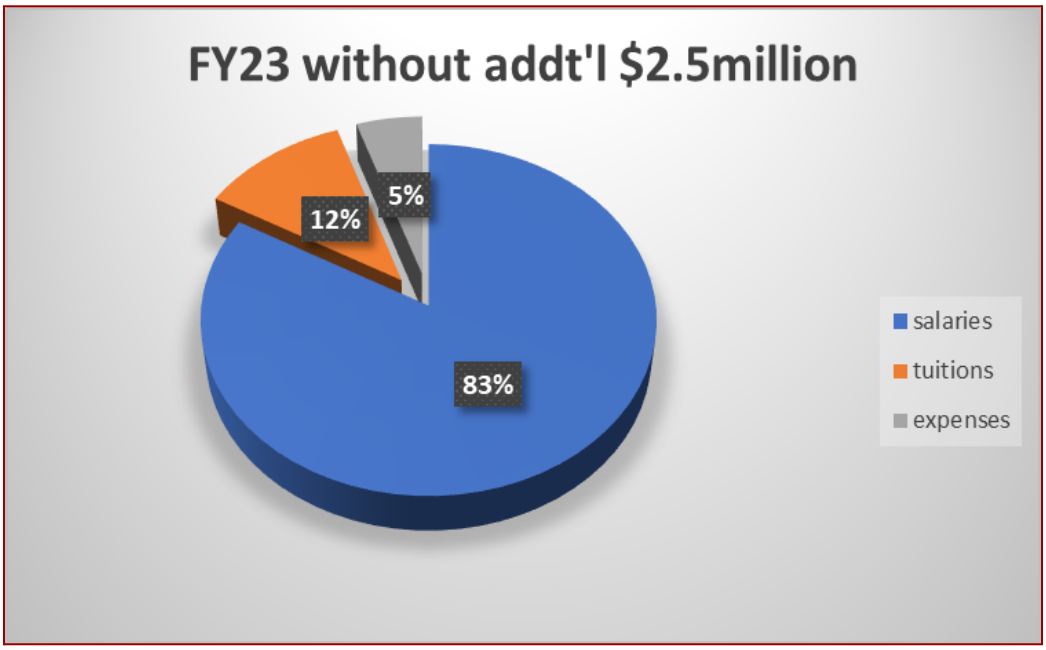
If the additional revenue is approved by the City, the MPS School Committee will need to vote on adjustments to the four budget categories as outlined below (pending any additional changes)

.



SC Budget Category	FY23 Adjusted SC Approved	FY23 Rebuild Proposal	Variance by Category
Elementary Budget	$ 14,028,381	$ 15,884,214	$ 1,855,833
Secondary Budget	$ 15,524,213	$ 15,816,269	$ 292,056
Special Education	$ 4,585,597	$ 6,330,685	$ 1,745,088
Administration & Other	$ 4,855,549	$ 3,810,241	($ 1,045,308)
District Totals	**$ 38,993,740**	**$ 41,841,409**	**($ 2,847,669)**

The pie chart below shows total operating budget percentages by three categories: salaries, tuitions, and expenses based on the original FY23 City Council approved budget in June 2023.



Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The pie chart below shows the FY23 rebuild budget if an additional $2.5 M is approved by the City Council to address the budget gap.

If the additional revenue is not approved by the City, the only way the district and MPS School Committee can reduce the budget is through salary reduction which means laying off employees to generate the cost savings. Given the timing of these decisions and the fact that the majority of the school year has occurred, the scale of the impact to teaching and learning within MPS would be catastrophic. Reducing special education tuition or transportation costs is not an option as these are mandated services. The pie chart illustrates how a lack of additional funds shifts category proportion relative to the operation budget.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The table below shows average salaries and number of hypothetical FTE reductions that would need to be considered in order to generate a cost savings of $2.5M this late in the school year. Clearly this would be devastating to service delivery if this course of action was decided at the beginning of the school year. It simply would decimate our ability to safely and properly run the district if decided in the spring.

	Non-union Administration	Directors/ Administrators	Teacher	Paras
Average Salary	$131,184	$107,314	$ 79,448	$22,807
# of FTEs to Reach $2.5M	2	7	17	6
# of FTEs @80% Expended to Reach $2.5M	5	16	106	75

We understand the magnitude of this request and are very grateful for our City partners who continue to understand the importance of high-quality education. We further appreciate their commitment to ongoing collaboration as we work to solve this budgetary problem together. The FY23 rebuild budget as presented enables the District to maintain existing levels of teaching and learning and essential service delivery for all learners. We believe that the new budget development practices and the FY23 MPS Rebuilt School Budget will **continue** to support high quality educational experiences, and allow for more accurate and effective cost tracking, clear communication, responsible fiscal oversight, and strategic budget planning both in the short and long term.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Free Cash Request for Melrose Police & Fire Radio System Upgrade
Date: March 6, 2023

I am hereby requesting that the Honorable City Council appropriate $903,000 to fund the replacement of the City's Police and Fire safety radio equipment.

As you are aware, in addition to adequately funding our schools, our public safety infrastructure is our highest priority. The outdated radio system currently used by the Melrose Police and Fire Departments is several decades old, with replacement parts increasingly hard to find. This is especially the case for the portable radios that our first responders use on a daily basis to provide services to the Melrose community. Effective, clear, uninterrupted communication between first responders, dispatch, and any outside agencies is critical, and broken equipment poses a significant challenge to effective operations and safety.

The radio system upgrade proposed will provide modern equipment that can be supported by the manufacturers. It will provide redundancy in the case of a failure of the primary system. It also meets interoperability requirements set forth by the Commonwealth of Massachusetts' Executive Office of Public Safety and Security. Most importantly, it will continue to meet the needs of the MPD and MFD even if we ultimately replace the current public safety buildings.

I want to thank Chief Ed Collina and Chief Kevin Faller for their tireless efforts in seeking outside funding for this critical need, including applying for a public safety grant through the Mass Gaming Commission's Community Mitigation Fund. However, our application through this program is by no means guaranteed to be successful and at best would only provide a portion of the cost of this complete system upgrade. Therefore, we are requesting the full cost be appropriated by the City Council at this time.

CFO Dello Russo and I are in complete agreement that this important public safety project merits funding through Free Cash and we respectfully ask your prompt consideration and approval of this request.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Mayor Paul Brodeur
From: Chief Kevin M. Faller (MPD) / Chief Edward Collina (MFD)
Date: February 27, 2023
Re: Free Cash Request – Melrose Police & Fire Radio System Upgrade
Cc: CFO Patrick Dello Russo / Margot Fleischman (Chief of Staff)

Mr. Mayor:

Please take this communication as an official request to allocate free cash in the amount of **$903,000 (nine hundred and three thousand dollars)** for the purchase and completion of a ***radio system upgrade*** for the Melrose Police and Fire Departments. Cyber Communications, Inc provided a detailed quote and breakdown of the project in July of 2022, and it is enclosed with this request.

The current public safety radio system and equipment that is being used is outdated and major components of the system are no longer supported. Our portable radios and radio system is our most used piece of equipment. Portable radios are used by our Fire and Police personnel on every call for service. Communication is an important part of every emergency response. To ensure the safety of our first responders and the residents of our community who rely on our public safety personnel to respond effectively and efficiently, this upgrade is imperative. Failure of our radio system and/or portable radios will result in a poor outcome for us and our customers who we provide services to on a daily basis.

The project consists of an upgrade for both the radio frequency (RF) infrastructure and dispatch console equipment, upgrade antenna systems as needed (20-30 years old), as well as upgrading portable radios that are outdated and are no longer supported. Currently, the Melrose Police and Fire radio system uses telecommunication circuits to all RF sites except Mount Hood repeaters. Verizon is no longer supporting FDDA or RNTA circuits. This project will upgrade all sites to fiber or microwave for both Melrose Police and Fire. This will allow the new Motorola repeaters and receivers the IP connection they need.

We have also been assured by Cybercomm, Inc. that this needed upgrade to the system will not be obsolete if a new police or fire station are constructed in the future.

The radio upgrade will provide redundancy as well. This is important in the case of a failure of the primary system, there will be an immediate backup system to ensure radio communications stay online,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

thus maintaining public safety. Effective, clear, uninterrupted communication between first responders, dispatch, and any outside agencies is critical.

The radio equipment and upgrade proposal has also been reviewed and meets interoperability requirements set forth by the Commonwealth of Massachusetts' Executive Office of Public Safety and Security.

Thank you for your prompt attention to this matter and please feel free to contact us with any questions.

Chief Kevin M. Faller (MPD)

Chief Edward Collina (MFD)

TO: Honorable Mayor Paul Brodeur

DATE: February 28, 2023

FROM: Kristin Foote
City Clerk | Interim Elections Administrator

RE: Request for Free Cash

The City Clerk, Elections Office and Board of Registrars of Voters respectfully request an appropriation from free cash in the amount of $35,449 to purchase essential voting equipment and necessary supplies to continue the City's commitment to secure, straightforward and efficient elections.

Casting History

In 2020, vote-by-mail ("VBM") was first allowed due to Covid-19 health restrictions and in the presidential election approximately 16,000 ballots were mailed and 2,000 cast in person. The recently passed Votes Act of 2022 has increased accessibility and participation by providing registered voters with the permanent option of VBM. A byproduct of this accessibility has been quadrupled tasks around ballot preparation and processing as well as increased demand on poll workers during election day. VBM casting occurs concurrent with in-person casting and this has added pressure to election workers as they process the resultant increased VBM volume.

Of the approximately 14,000 ballots cast in the recent 2022 state election, they were cast almost equally: 50% in person on election day and 50% via VBM. We seek to purchase one high-speed tabulator to alleviate volume stressors as we continue our efficient and accurate elections. The unit currently in use by Somerville, Cambridge and Boston provide a speed of 85-100 pre-folded/mailed ballots per minute and will significantly reduce processing time as well as poll worker fatigue. To provide a sense of perspective, the tabulators currently used in Melrose scan in-person and VBM ballots approximately 8 ballots per minute. Ballots processed by the new equipment will occur on election day, by precinct, in full view of the public. Currently the Secretary of State's Elections Division has approved this high efficiency unit for use in the Commonwealth and there is a sole source supplier.

Office Equipment

Additionally, free cash is being sought to replace irreparable broken desks, purchased circa 2005, and to purchase modular workstations to provide functional workspace, tools, and processing stations for the staff who supplement the Elections Administrator in handling the added processing. Part of this request will be used to purchase secure storage to comply with state regulations that election materials (ballots, envelopes, tabulation, and tally sheets) be secured and stored for 22 months.

Thank you for your consideration.

From: Mayor Paul Brodeur
Re: Beebe Estate Board of Trustees
Date: February 28, 2023

I respectfully request the Honorable City Council confirm the reappointment of William Butler, 102 Crescent Road, to the Beebe Estate Board of Trustees for a three-year term set to expire on the last day of February 2026.

Mr. Butler is dedicated to working collaboratively with his fellow trustees to maintain and preserve a beloved community landmark—the Beebee Estate. I am proud to request his reappointment.

Thank you for your consideration and support.

From: Mayor Paul Brodeur
Re: Melrose Commission on Women
Date: March 1, 2023

I respectfully request the Honorable City Council confirm the appointment of Allison Goldberg, 24 Cottage Street, to the Commission on Women (MCW) for a two-year term set to expire on the last day of February 2025. Ms. Goldberg's appointment replaces the membership of Kristyn Bunce DeFilipp, whose term is expired and who is not seeking reappointment.

In Ms. Goldberg's professional capacity as a Program Director for the Barbara Lee Political Office/Barbara Lee Family Foundation, and previously at the State House, she has been an unwavering advocate for women. Currently, she serves as a coach for women who want to run for office, guaranteeing women have a seat at the table and ensuring their voices are heard, and previously she promoted public policies that bolster women and their communities.

For these reasons and more, I am confident that Ms. Goldberg will be an excellent addition to the MCW and support the Commission's mission to represent the interests of women and girls in the community.

Thank you for considering Ms. Goldberg's appointment to the Melrose Commission on Women.

Which Boards would you like to apply for?

Commission on Women: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I recently heard about the openings on the Melrose Commission on Women and am very interested in serving in this capacity. I've been devoted to women's empowerment throughout much of my life, and am a fierce advocate in promoting policies that bolster not just women but their communities as well. I have been active in government and public policy for over a decade, and for the past several years, I have brought together my two passions of politics and feminism by working for the Barbara Lee Political Office/Barbara Lee Family Foundation. There, I work daily to help position women to run for and win elected office, in order to "have a seat at the table" and ensure that women's voices are heard where we need them most. I would very much value the opportunity to serve on the Melrose Commission on Women and help advance the interests of women and girls here in Melrose. I feel that now is a great time for me to get more involved with the City - I have lived in Melrose for almost 6 years, and have 3-year-old and 1-year-old sons. I want to be able to show them what it means to stand up for women and how they can grow up to be allies, even from a young age. I appreciate the consideration of my application and look forward to further discussions about this opportunity!

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Re: Melrose Board of Health
Date: February 28, 2023

I respectfully request the Honorable City Council confirm the reappointment of Carol Ann Licitra, 308 E Foster St, to the Melrose Board of Health for a three-year term set to expire on the last day of February 2026.

Ms. Licitra, whose initial term on the BOH began during the peak of COVID-19, has proven herself a sensible decision-maker who is equipped to handle the challenges presented to a community during a public health crisis, as well as during the recovery phase of such a crisis. As the Health & Human Service Department and BOH continue to partner in 2023 to improve our community's health and well-being, Ms. Licitra's experience is an asset to the BOH.

Thank you for your consideration and support for Ms. Licitra's reappointment to the Melrose Board of Health.

From: Mayor Paul Brodeur
Re: Melrose Commission on Women
Date: February 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Emily Paisner, 71 E Emerson St, to the Melrose Commission on Women (MCW), for a one-year term set to expire on the last day of February 2024. Ms. Paisner's appointment replaces the term of Rilda Kissel, who has resigned from the Commission.

Ms. Paisner's genuine interest in serving on the MCW stems from her passion for advocating for equality for women and girls, which she has previously expressed through her podcast *Equal Parts*, which brought to the forefront the challenges around women, work, and motherhood. She also serves in a girls' leadership role in our community as a girls' lacrosse coach.

I believe the MCW would be an excellent outlet for Ms. Paisner's dedication to advocating for equality for women and girls and I look forward to her partnership to help the City promote constructive action in areas of interest and concern to women and girls in the community.

Thank you for your consideration and support for Ms. Paisner's appointment to the Melrose Commission on Women.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I have lived in Melrose for ~4 years and am looking for additional ways to get involved in the community. Advocating for women's issues is extremely important to me. I previously hosted a podcast called Equal Parts, bringing issues and challenges around women, work, and motherhood to the forefront. I coach girls lacrosse in Melrose and am raising both a son and daughter in our community.

MEMORANDUM

TO: Melrose City Council

FROM: Martha Grover, Sustainability Manager

RE: Hoover and Horace Mann Solar PPA/Lease Authorization

DATE: February 13, 2023

Attached for your review are the Solar Power Purchase and Lease agreements with Solect Energy Development to install a 67.3 kW AC and 50 kW AC system on the Hoover and Horace Mann Elementary School roofs respectively. We seek authorization from the City Council for Mayor Brodeur to execute these agreements.

The city has worked with Solect for over a year to develop these projects and take advantage of the new roofs scheduled to be installed this summer, favorable federal tax credits, Block 10 utility SMART incentives, and fantastic solar access at these two schools. Action 28 in the Melrose Net Zero Action seeks to "Maximize the installation of clean energy sources on municipal property" and these projects are in line with and support the city's effort to lead by example.

I look forward to answering your questions at a future meeting but don't hesitate to reach out in advance at mgrover@cityofmelrose.org or 781.979.4195 as well.

POWER PURCHASE AGREEMENT

This Power Purchase Agreement ("**Agreement**" or "**PPA**") is entered into as of _____, (the "**Effective Date**"), by and between City of Melrose, a municipality with an address of 562 Main St Melrose, MA 02176 ("**Host**"), and Solect Energy Development LLC, ("**Solect**" or "**Provider**") a Limited Liability Company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement dated June 30th, 2020, as amended, governing the terms and conditions of Provider's participation in the PowerOptions Solar and Storage Program;

WHEREAS, Host is the owner of the properties located and described in Exhibit C and desires to make a portion of such properties available to Provider for the construction, operation and maintenance of a solar powered electric generating Project, and to purchase from Provider the electric energy produced by the Project;

WHEREAS, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended; and

WHEREAS, Provider desires to develop, design, construct, own and operate the Project located at and described in Exhibit D, and sell to Host the electric energy produced by the Project; and

WHEREAS, Provider and Host have entered into that certain Lease dated on or about the date hereof (as amended or modified from time to time, the "**Lease**") pursuant to which Host has granted Provider a leasehold interest and certain use and access rights to the Premises.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Agreement have the meanings set forth in the attached GLOSSARY OF TERMS or as defined in the body of this Agreement.

2. TERM.

(a) Term. This Agreement shall consist of an Initial Period and an Operations Period. As used herein, "**Term**" shall mean all of the Initial Period and the Operations Period, unless the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider or Host terminates the Agreement prior to the end of the Initial Period pursuant to the terms of this Agreement, but any such termination shall not terminate any provisions hereof that expressly survive such termination.

(b) Initial Period. The Initial Period will begin on the Effective Date and will terminate on the earlier of (i) the Commercial Operation Date or (ii) the date the Agreement is terminated pursuant to the provisions of Section 4(b) or 4(d).

(c) Operations Period. The Operations Period will commence on the Commercial Operation Date and will terminate at 11:59 p.m. on the last day of the month in which the twentieth (20^{th}) anniversary of the SMART Incentive Payment Effective Date.

(d) Extensions. Provider shall have one option to extend the Operations Period for five (5) years (an "**Extension Term**") upon mutual agreement between Provider and Host. Provider shall delivering a written request to extend to Host at least six months prior to the end of the Operations Period, or Extension Term, as the case may be. Any extension shall be reflected in a written amendment to this Agreement signed by the Parties.

(e) Early Termination by Host. If Host terminates the Agreement prior to the Expiration Date, except as otherwise provided in this subsection (e), Section 9 (Purchase Option), Section 17 (Force Majeure), or Section 19 (Provider Event of Default and Host Remedies), Host shall pay, as liquidated damages, the Early Termination Amount set forth on Exhibit B, and Provider shall cause the Project to be disconnected and removed from the Premises in accordance with the Lease. Upon Host's payment to Provider of the Early Termination Amount, this Agreement and the Lease, in accordance with its terms, shall terminate automatically. Notwithstanding the foregoing, Host may (i) terminate this Agreement with no liability whatsoever pursuant to Section 4(d) or (ii) in lieu of termination, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date, be entitled (as its sole and exclusive remedy) to (x) the payment by Provider to Host of Delay Liquidated Damages not to exceed $15/kW in the aggregate, plus (y) (if Installation Work had commenced at the Premises as of the date of termination) all direct costs reasonably incurred by Host to return its Premises to its condition prior to commencement of the Installation Work if Provider fails to do so within a reasonable time, as required pursuant to the Lease. Alternatively, Host may terminate this Agreement with no liability whatsoever if Provider fails to commence the Operations Period by the date that is 60 days after the Guaranteed Commercial Operation Date.

The Construction Start Date and Guaranteed Commercial Operation Date shall be extended on a day-for-day basis due to (a) Force Majeure or (b) acts, omissions or delays of a Governmental Authority or Local Electric Utility. Provided, however that clause (b) shall be beyond the reasonable control of the Provider and not caused by the Provider's fault or negligence. Provided, further that the day-to-day extension of the Construction Start Date shall not exceed one hundred eighty (180) days, unless otherwise mutually agreed by the Parties in writing.

3. ACCESS RIGHTS.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(a) Access Specifications. Pursuant to the Lease, Provider has access to and use of the Premises for the Term for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and for any other purpose set forth in this Agreement or in the Lease, and otherwise in accordance with the provisions of the Lease. Access Rights with respect to the Site are more fully described in the Lease and include, without limitation, vehicular and pedestrian access, and other rights to install electrical lines and communications cables.

(b) Remote Monitoring. Host will provide an internet portal or equivalent access by means of which Provider will communicate data from the revenue grade performance monitoring system. Provider will be responsible for connecting monitoring equipment for the Project to the internet enabling remote monitoring of the Project.

4. PLANNING, INSTALLATION AND OPERATION OF PROJECT.

(a) Site Assessment and Planning. During the Initial Period, Provider shall have the right, at its own expense, to assess the suitability of the Premises for the Project and shall act diligently in conducting such assessment. The assessment shall include the right to inspect the physical condition of the structures on which the Project will be located; to apply for any building permits or other governmental authorizations necessary for the construction of the Project; to arrange interconnections with the Local Electric Utility; to make any applications to the appropriate Public Utilities Commission or other agencies for receipt of payments for the Project under the Applicable Solar Program; to apply to any other governmental agencies or other persons for grants or other determinations necessary for the construction of or receipt of revenues from the Project; or to make any other investigation or determination necessary for the financing, construction, operation or maintenance of the Project. The Provider shall, in accordance with Section 5(l) of the Lease, at its own cost, engage an engineer licensed and qualified in the state where the Project is located, to certify that any objects brought, installed or kept on the Premises will not exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof as required by local building code. Provider shall provide a copy of any structural engineering analysis to Host at Host's request.

(b) Termination of Development Activities by Provider. At any time during the Initial Period, Provider shall have the right to cease development of the Project and terminate this Agreement upon written notice to Host if:

(i) Provider determines that the Premises, as is, are insufficient to accommodate the Project; or

(ii) there exist site conditions or construction or interconnection requirements that were not known as of the effective date of this Agreement and that could reasonably be expected to materially increase the cost of Installation Work or would adversely affect the electricity production from the Project as designed;

(iii) there has been a material adverse change in the rights of Host to occupy the Premises or Provider to construct the Project on the Premises;

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) an interconnection agreement with the Local Electric Utility, in form and substance satisfactory to Provider, is not executed by Provider and the Local Electric Utility within two hundred seventy (270) days after the date of this Agreement;

(v) Provider has not obtained financing within twelve months after the date of this Agreement to construct, install, own and operate and maintain the Project;

(vi) the Project does not qualify under the Applicable Solar Program;

(vii) despite its diligent efforts, Provider does not obtain all permits and approvals, on terms and conditions satisfactory to Provider, which are necessary for the construction, operation and maintenance of the Project; or

(viii) the Project is not exempt from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45 (Acts of 2021, Chapter 8, §61, as amended and the Massachusetts Department of Revenue regulations adopted in connection therewith) and a Payment In Lieu of Taxes Agreement with the municipality where the Project is located is not executed and approved by the municipality to establish fixed payments in the amount(s) set forth on Exhibit A-1.

If Provider gives Host notice of such termination, this Agreement shall terminate effective as of the date specified in delivery of such notice without any further liability of the Parties to each other, provided that (i) Provider shall remove any equipment or materials which Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to its pre-existing condition; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(c) Commencement of Construction, Modification of Design. Provider shall conduct a construction kick off meeting with Host. Upon prior notice to Host, Provider shall have the right to commence installing the Project on the Premises in accordance with the agreed-upon schedule as determined during the construction kick off meeting.

(i) As of the date hereof, Provider anticipates that the Project shall consist of the components and shall have the designs set forth in Exhibit E attached hereto.

(ii) Notwithstanding subsection (i) above, Provider has the right to modify the design of the Project, including the selection of the components in the Project, as Provider, in its sole discretion, may determine, provided, however, that such changes shall not result in the Project exceeding the nameplate capacity, building footprint (if project is on the roof), location and height set forth in Exhibits D and E, without Host's approval.

(d) Construction Commencement Deadline. If Provider has not commenced the Installation Work before the Construction Start Date, Host may terminate this Agreement and the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease by delivering notice to Provider of its intention to terminate this Agreement, and the Agreement shall terminate twenty-one (21) days after Provider's receipt of such notice; provided, that if Provider commences the Installation Work within such twenty-one (21) day period, this Agreement shall not terminate. Upon any termination in accordance with this Section 4(d) neither Party shall have any further liability to the other with respect to this Agreement, provided that (i) Provider shall remove any equipment or materials that Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to their condition prior to the commencement of construction; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15 and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(e) Contractors. Provider shall use licensed and insured contractors to perform the work of installing, operating, and maintaining the Project. Provider intends to use Installer to perform such work, but may use other contractors, for all or a portion of such work, in Provider's sole discretion. Provider shall advise Host of the Installer prior to commencement of the work on the Site. Provider shall be responsible for the conduct of Installer and its subcontractors, and Host shall have no contractual relationship with Installer or its subcontractors in connection with the work on the Project. Provider shall ensure that Installer maintains insurance applicable to the Installer's activities that satisfy the requirements in Exhibit G.

(f) Status Reports, Project Testing, Commercial Operation. Provider shall give Host regular updates, on a reasonable schedule requested by Host, on the progress of installation of the Project and shall notify Host of when Provider will commence testing of the Project. Testing shall be conducted in accordance with guidelines, standards and criteria reasonably accepted or followed by photovoltaic solar system integrators in the United States. Host shall have the right to have its representatives present during the testing process, but subject to reasonable written safety rules and procedures as may be established by Provider and Installer. After Provider has determined, in its reasonable judgment, that the Project meets the requirements of and has been approved for interconnection by the Local Electric Utility, has been installed in accordance with all Applicable Laws, and is capable of producing electricity on a continuous basis for at least four (4) continuous hours, Provider shall notify Host that the Installation Work is complete. Provider shall provide Host with written notice of the Commercial Operation Date for the Project, which may be immediately upon delivery of such notice to Host.

(g) Standard of Operation. Provider shall design, obtain permits, install, operate, and maintain the Project so as to keep it in good condition and repair, in compliance with all Applicable Laws and the requirements of the interconnection agreement, and in accordance with the generally accepted practices of the electric industry, in general, and the solar generation industry, in particular, and all instructions of any original equipment manufacturers' warranties for equipment included in the Project. Such work shall be at Provider's sole expense. Except for emergency situations or unplanned outages, Provider shall cause the work to be performed between the hours of 7:00 am and 7:00 pm, Monday through Saturday, in a manner that minimizes interference with Host and Host's employees, visitors, tenants and licensees and their customers to the extent commercially practical. Provider shall, and shall cause its contractors to,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

keep the Site reasonably clear of debris, waste material and rubbish, and to comply with reasonable safety procedures established by Host for conduct of business on the Site. In the event of an emergency or unplanned outage, Provider shall have unimpeded access to the Project, subject to any site-specific security requirements of Host.

(h) Provider Project Shut Down. Provider may shut down the Project at any time in order to perform required emergency repairs to the Project Provider shall give Host notice of such shutdown soon as reasonably practicable. At other times, Provider shall give Host advance notice of the shutdown as may be reasonable in the circumstances. Provider shall not have any obligation to reimburse Host for costs of purchasing electricity that would have been produced by the Project but for such shutdown unless the performance guarantee in Section 5(b) is not met. Provider and Host will agree upon a reasonable shut down duration. Provider shall use reasonable efforts not to schedule shutdowns during peak periods of electric generation and periods when peak energy and demand prices are charged by the Electric Service Provider, except as may be required in accordance with prudent electric industry safety practices in the event of equipment malfunction.

(i) Metering. Provider shall install and maintain a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy provided by the Project and may, at its election, install a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy delivered by the Local Electric Utility and consumed by Host at the Premises.

Subject to any applicable requirements of the Local Electric Utility:

(i) Installation. Provider shall maintain and test the meter in accordance with but not limited to Applicable Law and as provided herein. Provider shall ensure that the meter is installed and calibrated correctly to manufacturer and utility specifications during commissioning of the Project.

(ii) Measurements. Readings of the meter shall be conclusive as to the amount of electric energy delivered to Host; provided that if the meter is out of service, is discovered to be inaccurate pursuant to Section 4(iii) below, or registers inaccurately, measurement of energy shall be determined by estimating by reference to quantities measured during periods of similar conditions when meter was registering accurately.

(iii) Testing and Correction.

A. Standard of Meter Accuracy; Resolution of Disputes as to Accuracy. The following steps shall be taken to resolve any disputes regarding the accuracy of the meter:

(1) If either Party disputes the accuracy or condition of the meter, such Party shall so advise the other Party in writing.

(2) Provider shall, within thirty (30) days after receiving such notice from Host, or Host shall, within such time after having received such notice from

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider, advise the other Party in writing as to its position concerning the accuracy of such meter and state reasons for taking such position.

(3) If the Parties are unable to resolve the dispute through reasonable negotiations, then either Party may cause the meter to be tested by an agreed upon and disinterested third party.

(4) If the meter is found to be inaccurate by not more than two percent (2%), any previous recordings of the meter shall be deemed accurate, and the Party disputing the accuracy or condition of the meter shall bear the cost of inspection and testing of the meter.

(5) If the meter is found to be inaccurate by more than 2% or if such meter is for any reason out of service or fails to register, then (1) Provider shall promptly cause any meter found to be inaccurate to be replaced or adjusted to correct, to the extent practicable, such inaccuracy, (2) the Parties shall estimate the correct amounts of energy delivered during the periods affected by such inaccuracy, service outage or failure to register as provided in Section 4 (i) (ii) or (iii), and (3) Provider shall bear the cost of inspection and testing of the meter and reimburse or credit Host if Host was the disputing Party. If as a result of such adjustment the quantity of energy for any period is decreased (such quantity, the "Electricity Deficiency Quantity"), Provider shall reimburse or credit Host for the amount paid by Host in consideration for the Electricity Deficiency Quantity, and shall bear the cost of inspection and testing of the meter. If as a result of such adjustment the quantity of energy for any period is increased (such quantity, the "Electricity Surplus Quantity"), Host shall pay for the Electricity Surplus Quantity at the price applicable during the applicable period.

B. Host's Right to Witness Tests. Host shall have the right to witness each test or any calibration of meters or monitoring equipment conducted by or under the supervision of Provider to verify the accuracy of the measurements and recordings of the meter or the monitoring equipment. Provider shall provide at least five (5) Business Days prior written notice to Host of the date upon which any such test or calibration is to occur. Provider shall prepare a written report setting forth the results of each such test, and shall provide Host with copies of such written report and the underlying supporting documentation not later than thirty (30) days after completion of such test. Host shall have the right to access all meters at reasonable times and with reasonable prior notice for the purpose of verifying readings and calibrations, but Host shall not have the right to open or undertake any other physical actions on the meters and access rights shall be subject to any requirements or limitations of the Local Electric Utility. If the metering equipment is found to be inaccurate, it shall be corrected and past readings shall be promptly adjusted in accordance with Section 4(i)(A)(5).

(iv) No Duty on Host. Notwithstanding the foregoing, the Parties acknowledge and agree that Host is under no responsibility or duty to ascertain, to inspect or to otherwise

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

determine whether the meter or any other part of the Project is out of service, is discovered to be inaccurate or registers inaccurate readings; is malfunctioning or is otherwise defective, it being agreed that at all times such responsibility or duty shall remain with the Provider.

5. SALE OF ELECTRIC ENERGY.

(a) Sale of Electricity. Throughout the Operations Period, subject to the terms and conditions of this Agreement and the Lease, Provider shall sell to Host and Host shall buy from Provider all electric energy produced by the Project, whether or not Host is able to use all such electric energy. The Point of Delivery of the electric energy shall be as indicated in Exhibit E. Title to and risk of loss with respect to the energy shall transfer from Provider to Host at the Point of Delivery. Provider shall own the Capacity Value of the Project. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host. The interconnection point of the Project with the Local Electric Utility shall be as indicated in Exhibit E.

(b) Performance Guarantee. Beginning on the Commercial Operation Date and as of each anniversary thereof, if the Project produces less than eighty-five percent (85%) of the applicable Estimated Annual Production specified in Exhibit F, unless, and then only to the extent that, the failure to meet the Estimated Annual Production is due to (i) failure, damage or downtime attributable to third parties or Host, (ii) equipment failure or delayed repair of equipment due to the claims process with the equipment manufacturer which are beyond the reasonable control of Provider, (iii) a Force Majeure Event, (iv) variability due to weather, (v) acts or omissions of Host of any of its obligations hereunder, (vi) any Host Requested Shutdown, Provider Safety Shutdown or Project Relocation under Section 10(a), (b), or (c); or (vi) any reduction in output attributable to interference with solar access of the Project by adjoining landowners; in its next invoice Provider shall credit Host an amount equal to the product of (i) the positive difference, if any, of the Avoided Energy Price during such period minus the applicable kWh Rate specified in Exhibit A, multiplied by (ii) the difference between the actual Project Output during such 12-month period and eighty-five percent (85%) of the Estimated Annual Production for such period. Such credit shall be Host's sole and exclusive remedy for Provider's failure to meet the Estimated Annual Production for such period.

6. PAYMENT AND BILLING.

(a) Rates. Host shall pay Provider for electricity produced by the Project at the rates set forth in Exhibit A attached hereto. The rate during any Extension Term shall be mutually agreed upon by Host and Provider.

(b) Billing. Host shall pay for the electricity produced by the Project monthly in arrears. Promptly after the end of each calendar month, Provider shall provide Host with an invoice setting forth the quantity of electricity produced by the Project in such month, the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

applicable rates for such electricity, and the total amount due, which shall be the product of the quantities and the applicable rates.

(c) Invoice Delivery. Invoices shall be in writing and shall be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; or (iv) transmitted by email (such transmission to be effective on the day of receipt if transmitted prior to 5:00 pm local time on a Business Day or in any other case as of the next Business Day following the day of transmittal)addressed as follows:

To Host: City of Melrose
562 Main St
Melrose,MA 02176
Attention: Jim Troup
Email: jtroup@cityofmelrose.org

(d) Payment. Subject to the subparagraph (e) below regarding disputed invoices, Host shall pay each invoice within thirty (30) days of receipt of the invoice. Payments shall be made by check or electronic funds transfer to an account designated by Provider in the invoice or in a written notice delivered to Host. Any amounts not paid when due, including any amounts properly disputed and later determined to be owing, shall accrue interest on the unpaid amount at the rate equal to the lesser of (i) 1% per month, compounded monthly or (ii) the highest rate allowed by applicable law.

(e) Disputed Invoices. If Host objects to all or a portion of an invoice, Host shall, on or before the date payment of the invoice is due, (i) pay the undisputed portion of the invoice, and (ii) provide an itemized statement of its objections setting forth in reasonable detail the basis for its objections. If Host does not object prior to the date payment of any invoice is due, Host shall be obligated to pay the full amount of such invoices but Host may subsequently object to such invoice and, if such objection proves to be correct, receive a refund of the disputed amount; provided, however, that Host may not object to any invoice more than eighteen (18) months after the date on which such invoice is rendered. The right to dispute or object to an invoice, shall, subject to the time limitation provided in this Section 6(e), survive the expiration or termination of this Agreement.

7. SUPPLEMENTAL POWER

(a) Back-up and Supplemental Electricity. Except as otherwise provided herein, throughout the Term, Host shall be responsible for obtaining all of its requirements for electric energy in excess of the amounts produced by the Project and pay for such service pursuant to contracts with or applicable tariffs of the Local Electric Utility or other Electric Service Provider. Provider shall have no obligation to obtain or pay for such supplemental or back-up electricity.

(b) Interconnection and Interconnection Fees. Provider shall be responsible for arranging the interconnection of the Project with Host's Local Electric Utility in a manner which

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

includes bi-directional or "net metering". Host shall be responsible for maintaining the interconnection of the Site with the Local Electric Utility through to the Host's side of the Point of Delivery. Provider shall be responsible for maintaining the interconnection of the Project to the Provider's side of the Point of Delivery with the Local Electric Utility. Host shall enter into any retail agreement required by the Local Electric Utility pursuant to its tariffs. Provider shall be responsible for all costs, fees, charges and obligations required to connect the Project to the Local Electric Utility distribution system, including but not limited to fees associated with system upgrades and operation and maintenance carrying charges ("Interconnection Obligations"), however, if system upgrades in addition to any upgrades contemplated and budgeted for as of Effective Date are required, Provider shall be entitled to adjust the Energy Purchase Prices in Exhibit A to compensate Provider for such increased costs, and if the Parties are unable to agree on such adjustments, Provider may exercise its right to terminate under Section 4(b).

(c) Production Excess. Provider shall, with the cooperation of Host, work to qualify the Project for the highest available compensation for any solar production which is not used at the time of generation and is transmitted to the Local Electric Utility (the "**Production Excess**"). The Parties will work cooperatively and in good faith to meet all requirements regarding such Production Excess under Applicable Law, the Applicable Solar Program, and Local Electric Utility tariffs, including applicable interconnection and metering requirements (e.g., Massachusetts tariff Schedule Z). In the event that the Project produces Production Excess, then the Parties agree that (a) Host shall be entitled to the associated compensation and/or bill credits (including but not limited to Net Metering Credits, Alternative On-Bill Credits, or Qualifying Facility compensation), and (b) Provider shall transmit such Production Excess into the Local Electric Utility system on behalf of and for the account of Host.

(d) Applicable Solar Program Incentives. Provider shall receive all payments available under any Applicable Solar Program. Host shall provide reasonable assistance to Provider in preparing all applications and other documents necessary for Provider to receive such payments, including designating Provider as the customer for purposes of the Applicable Solar Program or assigning payments from the Applicable Solar Program to Provider. If Host receives any payments under the Applicable Solar Program or other programs in respect of the Project, it shall promptly pay them over to Provider. Host's obligation to make any payments to Provider under this Section 7(d) is limited to any payments actually received by Host.

(e) Ownership of Tax Attributes. Provider (and/or Financing Party) shall be the owner of any Tax Attributes that may arise as a result of the ownership and operation of the Project and shall be entitled to transfer such Tax Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Tax Attributes, and if Host is deemed to be the owner of any such Tax Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Tax Attributes, it shall promptly pay them over to Provider.

(f) Environmental Attributes. Except as otherwise provided for under Applicable Law, or Applicable Solar Program rules, or the applicable tariff of the Local Electric Utility, Provider (and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Financing Party) shall be the owner of any Environmental Attributes that may arise as a result of the operation of the Project and shall be entitled to transfer such Environmental Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Environmental Attributes, and if Host is deemed to be the owner of any such Environmental Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Environmental Attributes, it shall promptly pay them over to Provider.

(g) Capacity & Ancillary Services. Provider shall be entitled to receive any payments for electric capacity or ancillary services that may become available as a result of the construction or operation of the Project. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such payments, and if Host is deemed to be the owner or provider of such capacity or services, Host shall assign the same to Provider If Host receives any payments in respect of capacity or such services it shall promptly pay them over to Provider.

(h) Neither Party is A Utility. Neither Party is, and neither Party shall assert that the other Party is, (i) an electric utility or public service company or similar entity that has a duty to provide service, (ii) subject to electric rate regulation, or (iii) otherwise subject to regulation by any governmental authority as a result of its obligations or performance under this Agreement.

(i) Project Alterations. Host agrees to negotiate in good faith with respect to any alterations to the Project proposed by the Provider that may increase payments available under the Applicable Solar Program, Tax Attributes, Environmental Attributes, or increased capacity or ancillary services. Proposed alterations may include, but are not limited to, the addition of an energy storage system to the Project. Upon mutual agreement, this Agreement and the Lease shall be amended to include any agreed upon Project alteration.

8. OWNERSHIP OF PROJECT; SERVICE CONTRACT.

(a) Ownership of Project. As between the Parties, Provider shall retain title to (i) the Project and the Environmental Attributes produced or associated with the Project or the energy produced by the Project, and (ii) all compensation associated with such Environmental Attributes under the Applicable Solar Program or under any other successor program.

(b) Service Contract. Since this Agreement provides for the sale of electric energy from the Project which is an alternative energy facility under Section 7701(e)(3)(D) of the Internal Revenue Code of 1986 as amended, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended.

9. PURCHASE OPTIONS; REMOVAL AT END OF TERM.

(a) Early Purchase Option. On the seventh (7^{th}), tenth (10^{th}), and fifteenth (15^{th}) anniversary of the Commercial Operation Date, provided no Host Event of Default has occurred and is continuing, the Host shall have the option to purchase the Project from Provider at a price

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

which will be the greater of (i) the applicable value identified in Exhibit B or (ii) the Fair Market Value of the Project as determined by mutual agreement of Host and Provider as of such anniversary date; provided, however, if Host and Provider cannot agree to a Fair Market Value within twenty (20) days after Host has exercised its option, the Parties shall select and share equally the costs of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project, provided that Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal. If Host desires to exercise this option, it shall no later than ninety (90) days prior to the applicable anniversary date notify Provider of its election to exercise the option, and, unless it has rescinded the exercise of the option as aforesaid, on or before such anniversary date shall pay the purchase price to Provider by electronic transfer in immediately available funds to an account designated by Provider.

(b) End of Term Purchase Option. Host shall have the right to purchase the Project from Provider at the expiration of the Operations Period at the then Fair Market Value of the Project. No earlier than twelve months prior to the expiration of such Operations Period and no later than nine (9) months prior to the expiration of the Operations Period, Host shall notify Provider of its intent to exercise the option. Within ninety-one (91) days of its receipt of such notice, Provider shall give Host its appraisal of the Fair Market Value of the Project at the end of the Term. Host may, but is not obligated to, accept such appraisal. If Host does not accept such appraisal within ten (10) Business Days of receiving the appraisal from Provider, the Parties shall meet to discuss the appraisal. If they are unable to reach agreement within twenty (20) days of the Host's receipt of the appraisal from Provider, the Parties will engage and share the costs equally of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project consistent with the terms of the transaction. Notwithstanding the foregoing, in the event that Provider enters into a sale/leaseback transaction in connection with funding the installation of the Project, the process of determining the Fair Market Value of the Project in this Agreement shall be undertaken by a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project and shall be undertaken consistently with the terms of such transaction so that the process for determining Fair Market Value under this Agreement shall be the same as provided in the agreements for such sale/leaseback transaction. Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal.

(c) Transfer of Ownership. Upon Host's notice that it elects to exercise the option set forth in either Section 9(a) or 9(b) above, Provider shall prepare and deliver to Host a set of records on the operation and maintenance history of the Project, including a summary of known defects. Upon payment of the purchase price, Provider shall deliver, or cause to be delivered, to Host a bill of sale conveying the Project to Host free and clear of Liens on Provider's interest in the Project. Such bill of sale shall not contain any warranties, other than a warranty against any defects in title arising through Provider. Provider shall use all reasonable efforts to transfer any remaining manufacturer's warranties on the Project, or portions thereof, to Host. Upon the transfer of ownership of the Project to Host, this Agreement shall terminate.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(d) Operation & Maintenance After Sale. Prior to the effective date of Host's purchase of the Project under Section 9(a) or 9(b), Host and Provider shall discuss entering into an operation and maintenance agreement under which Provider shall perform all or a portion of the operation and maintenance requirements of the Project following Host's purchase of the Project. However, neither Party shall be under an obligation to enter into such an agreement.

(e) No Survival of Purchase Option. The options for Host to purchase the Project under Sections 9(a) and 9(b) shall not survive the termination of this Agreement.

(f) Removal of Project at Expiration. Provider shall decommission the Project in accordance with Section 9 of the Lease or Easement.

10. SHUTDOWNS, RELOCATION; CLOSURE OR SALE OF SITE.

(a) Host Requested Shutdown. Host from time to time may request Provider to temporarily stop operation of the Project for a period no longer than thirty (30) days or a predetermined date mutually agreed upon by both the Host and Provider, such request to be reasonably related to Host's activities in maintaining and improving the Site. During any such shutdown period (but not including periods of Force Majeure or Allowed Disruption Time as defined below, nor where the maintenance activities were made necessary by a Provider Event of Default), Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project during the period of the shutdown; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced during the period of the shutdown; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project during the period of the shutdown. Determination of the amount of energy that would have been produced during the period of the shutdown shall be based, during the first Operations Year, on reasonably estimated levels of production and, after the first Operations Year, based on actual operation of the Project during the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

Notwithstanding the foregoing, the Parties agree that after year six (6) (but not during years one (1) through six (6)) of the Operations Period of the Agreement, Host shall be afforded a total of fifteen (15) days which may be used consecutively or in periods of at least twenty-four hours each ("Allowed Disruption Time") during which the Host may request that the Project be shut down if, and only if, Host is performing maintenance or repairs to the Premises which require the Project to be offline. Host shall not be obligated to make payments to Provider for electricity not received during the Allowed Disruption Time; nor shall Host be required to reimburse Provider for any other lost revenue during the Allowed Disruption Time, including any lost revenue associated with any reduced sales of Environmental Attributes and Tax Attributes.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider Safety Shutdown. In addition to the right of Provider to shut down the Project for maintenance as provided in Section 4(j), Provider may shutdown the Project if Provider, in the exercise of reasonable judgment, believes Site conditions or activities of persons on a Site, which are not under the control of Provider, whether or not under the control of Host, may interfere with the safe operation of the Project. Provider shall give Host written notice of a shutdown immediately upon becoming aware of the potential for such conditions or activities. Provider and Host shall cooperate and coordinate their respective efforts to restore Site conditions so as to not interfere with the safe operation of the Project and to reduce, to the greatest extent practicable, the duration of the shutdown; provided that Provider shall not be responsible for any costs or expenses in connection with restoration of conditions at the Site required due to conditions or activities of persons on the Site not under the control of Provider. If a shutdown pursuant to this Section 10(b) continues for 180 days or longer, Provider may terminate this Agreement and Host shall pay the Early Termination Amount.

(c) Project Relocation. Host may request to move the Project to another location on the Site or to another site owned by Host, but any such relocation shall be subject to the approval of Provider and Financing Party in each of their sole discretion. In connection with such relocation, Host shall execute an amendment to this Agreement reflecting the new location of the Project but otherwise continuing all the terms and conditions of this Agreement for the remaining term of this Agreement. Host shall also provide any consents or releases required by Provider in connection with the new location. Host shall pay all reasonable costs associated with the removal and relocation of the Project, including installation and testing costs and interconnection costs. In addition, during the Relocation Event, Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project following the Relocation Event; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced following the Relocation Event; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project following the Relocation Event. Determination of the amount of energy that would have been produced following the Relocation Event shall be based, during the first Operations Year, on the estimated levels of production and, after the first Operations Year, based on actual operation of the Project in the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

(d) Premises Shutdown; Interconnection Deactivated. In the event the facilities where the Premises are located are closed or the interconnection becomes deactivated, Host shall not be excused for the period of closure or deactivation from paying Provider for all electricity produced by the Project on the Premises and delivered to the Point of Delivery unless such closure or deactivation is caused by (i) a Force Majeure Event or (ii) any unexcused action or inaction of Provider or persons for whom Provider is responsible.

(e) Sale of Site. In the event Host transfers (by sale, lease or otherwise) all or a portion of its interest in the Site, except as otherwise provided in this subsection (e), Host shall remain primarily liable to Provider for the performance of the obligations of Host hereunder

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

notwithstanding such transfer. However, if no Host Event of Default has occurred and is continuing at the time of the transfer, and the transferee is acceptable to Provider and Financing Party in their sole discretion and executes agreements assuming this Agreement in form and substance satisfactory to Provider and Financing Party in their sole discretion, Host shall be released from further obligations under this Agreement. For avoidance of doubt, if Host is a municipality or governmental entity, the sale, lease or transfer of all or a portion of Host's interest in the Site to a transferee that is a municipality or governmental entity with a credit rating assigned by Moody's Investor Service at least equal to or better than Host's shall be deemed an acceptable transferee, provided the other requirements set forth in this Section 10(e) are satisfied.

11. TAXES.

(a) Income Taxes. Provider shall be responsible for any and all income taxes associated with payments from Host to Provider for electric energy from the Project. Provider (and/or Financing Party), as owner of the Project, shall be entitled to all Tax Attributes with respect to the Project.

(b) Sales Taxes. Host shall provide Provider with any certificates or other documents required or appropriate to evidence Host's exemption from any applicable taxes, fees, and charges, including sales, use, and gross receipts taxes, imposed or authorized by any Governmental Authority on the sale of electric energy by Provider to Host. Host shall timely report, make filings for, and pay any and all such taxes assessed directly against it by any Governmental Authority. To the extent Provider pays such amounts, Provider shall notify Host in writing with a detailed statement of such amounts, which shall be invoiced by Provider and Host shall reimburse Provider for any and all such taxes assessed against and paid by Provider.

(c) Property Taxes. If project will produce not more than 125% of the annual load of the Property Provider will apply to the City of Melrose for exemption of the Project from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45, and will employ commercially reasonable efforts to secure such exemption. If the project will produce more than 125% of the annual load of the Property or if the exemption is not granted, Provider will seek to enter into a Payment In Lieu of Taxes (PILOT) Agreement with the City of Melrose to establish fixed payments in lieu of personal property tax. Upon execution of a PILOT Agreement, if the PILOT amounts differ from the Assumptions Around Pricing Elements as set forth in Exhibit A, Provider will prepare and the Parties shall execute an amendment to this Agreement , in accordance with the provisions of Exhibit A, to reflect the new rate effective as of the date the PILOT payments begin.

If Provider is assessed any real property taxes related to the existence of the Project on the Premises or if Provider is unable to obtain exemption of the Project from personal property tax and is not able to enter into a PILOT Agreement with the City of Melrose, then Host acknowledges and agrees that Provider shall have the right once per year to invoice Host for the exact amount of the such property taxes. Such invoice shall include documentation demonstrating the tax liability from the taxing authority for the current tax year and proof of payment from Provider to the taxing authority. Such invoice shall be submitted to the Host separately from any monthly invoice for solar energy generation.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

If Provider seeks to obtain exemption of the Project from personal property tax, and/or seeks to enter into a PILOT Agreement with the City of Melrose, and is ultimately unsuccessful, within thirty (30) days of such determination being made Provider will inform Host of such determination and, (1) if Host or the owner of the Site is a municipality, Host will provide Provider, or (2) if Host or the owner of the Site is not a municipality, Provider will provide Host with a good faith estimate of the annual amount of the expected personal property taxes.

Each Party has the right to contest taxes in accordance with Applicable Law and the terms of encumbrances against the Site. Each Party shall use all reasonable efforts to cooperate with the other party in any such contest of tax assessments or payments. In no event shall either Party postpone during the pendency of an appeal of a tax assessment the payment of taxes otherwise due except to the extent such postponement in payment has been abated, bonded or otherwise secured in accordance with Applicable Law.

(d) Reimbursement Deadline. Any reimbursement of taxes owing pursuant to this Section 11 shall be paid within twenty (20) Business Days of receiving an invoice from the Party who paid the taxes.

12. INSURANCE.

(a) Coverage. Host and Provider shall each maintain the insurance coverage set forth in Exhibit G in full force and effect throughout the Term. Host and Provider shall also provide any additional insurance which may be required from time to time by the Local Electric Utility or any legal or regulatory authority affecting the Premises or operation of the Project. If Host has established and maintains a program of self-insurance, Host shall maintain self-insurance for the coverages and in the amounts set forth on Exhibit G.

(b) Insurance Certificates. Each Party shall furnish current certificates indicating that the insurance required under this Section 12 is being maintained. Each Party's insurance policy provided hereunder shall contain a provision whereby the insurer agrees to give the other Party written notice before the insurance is cancelled or materially altered.

(c) Certain Insurance Provisions. Each Party's insurance policy shall be written on an occurrence basis and shall include the other Party as an additional insured as its interest may appear. Each Party's insurer shall waive all rights of subrogation against the other Party except in the case of such Party's negligence or willful misconduct.

(d) Insurance Providers. All insurance maintained hereunder shall be maintained with companies approved to do business in Massachusetts, and rated no less than A- as to Policy Holder's Rating in the current edition of Best's Insurance Guide (or with an association of companies each of the members of which are so rated), provided such requirement shall not apply if a Party maintains an active self-insurance program and provides required insurance pursuant to such self-insurance program.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(e) Flood Insurance. If required under Applicable Law, Host shall maintain FEMA-approved flood insurance for the Premises.

13. COOPERATION.

The Parties acknowledge that the performance of each Party's obligations under this Agreement will frequently require the assistance and cooperation of the other Party. Each Party therefore agrees, in addition to those provisions in this Agreement specifically providing for assistance from one Party to the other, that it will at all times during the Term cooperate with the other Party and provide all reasonable assistance to the other Party to help the other Party perform its obligations hereunder.

14. PRESS RELEASES AND CONFIDENTIALITY.

(a) Goodwill and Publicity. Neither Party shall use the name, trade name, service mark, or trademark of the other Party in any promotional or advertising material without the prior written consent of such other Party. The Parties shall coordinate and cooperate with each other when making public announcements related to the execution and existence of the Agreement, and each Party shall have the right to promptly review, comment upon, and approve any publicity materials, press releases, or other public statements by the other Party that refer to, or that describe any aspect of, the Agreement; provided that no such publicity releases or other public statements (except for filings or other statements or releases as may be required by Applicable Law) shall be made by either Party without the prior written consent of the other Party. At no time will either Party acquire any rights whatsoever to any trademark, trade name, service mark, logo or other intellectual property right belonging to the other Party. Notwithstanding the foregoing, Host agrees that Provider may, at its sole discretion, take photographs of the installation process of the Project and/or the completed Project, and Provider shall be permitted to use such images (regardless of media) in its marketing efforts, including but not limited to use in brochures, advertisements, websites and news outlet or press release articles. The images shall not include any identifying information without Host permission and the installation site shall not be disclosed beyond the type of establishment (such as "Retail Store," "Distribution Center," or such other general terms), the city and state. Only Provider has the exclusive right to claim that (i) electric energy provided to Host was generated by the Project, (ii) Provider is responsible for the reductions in emissions of pollution and greenhouse gases resulting from the generation of such electric energy and (iii) Provider is entitled to all credits, certificates, registrations, etc., evidencing or representing any of the foregoing except as otherwise expressly provided in this Agreement. However, the terms of this Agreement and information about the Project other than that described above constitutes Confidential Information, as defined below, and is subject to the remaining provisions of this Section 14.

(b) Limits on Disclosure of Confidential Information. Subject to the exceptions set forth below in Section 14(c), each Party agrees that, (i) without the consent of the other Party, it shall not disclose any Confidential Information received from the other Party to any other person and (ii) it shall use any Confidential Information received from the other Party only for the purpose of fulfilling its obligations under this Agreement. Notwithstanding the foregoing, subject to the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

requirements of Section 14(c) below, the Parties may, and shall, disclose any information required to be disclosed under rules, regulations and contracts implementing the Applicable Solar Program or Tax Attributes required to be disclosed by any Governmental Authority under Applicable Law or pursuant to a validly issued subpoena or required filing.

(c) Permissible Disclosures. Provider may provide this Agreement, and any correspondence, notices and other information related to this Agreement to any person who has provided or who is interested in providing construction or permanent financing, or any refinancing thereof, to Provider in connection with the Project. In addition, if a receiving Party is required by Applicable Law, validly issued subpoena or required filing to disclose any Confidential Information provided by the disclosing Party, the receiving Party may make disclosure as required by law, but the receiving Party shall prior to making any disclosure, if lawfully permitted to do so, notify the disclosing Party of the requested disclosure and shall use its reasonable efforts to cooperate with the disclosing Party, but at the expense of the disclosing Party, in any efforts by the disclosing Party to minimize the extent of the Confidential Information disclosed and the persons to whom disclosed. If Host is a public entity subject to the requirements of M.G.L. c. 66, § 10 ("MA Public Records Law") the provisions of the MA Public Records Law will govern Host's obligations under Section 14(b) and this Section 14(c), including Provider's right to raise applicability of the exemptions included in the MA Public Records Law. Notwithstanding any term herein to the contrary, the failure to notify the disclosing Party pursuant to this Section 14(c) shall not be deemed an Event of Default.

(d) Enforcement of Confidentiality Provisions. Each Party acknowledges that it may be impossible to measure the damages which may result from a breach of this Section 14 and agrees that the provisions of this Section 14 may be required to be specifically performed and each Party shall have the right to obtain preliminary and permanent injunctive relief to secure specific performance of the terms of this Section 14. The provisions of this Section 14 shall survive until three years after the effective date of any termination of this Agreement.

15. INDEMNIFICATION.

(a) Provider Indemnification. Provider shall indemnify, defend and hold harmless Host and its directors, officers, employees, agents, volunteers, and invitees ("Host's Indemnified Parties"), from and against all Losses incurred by the Host Indemnified Parties to the extent arising from or out of the following: (i) any third party claim for injury to or death of any Person or loss or damage to property to the extent caused by Provider's or Provider's Indemnified Parties (defined below) negligence or willful misconduct; (ii)) third party claims for penalties or fines arising from a Provider's or Provider's Indemnified Parties violation of Applicable Law; (iii) any failure to properly interconnect or comply with the procedures of the Local Electric Utility or Applicable Law; or (iv) any failure to properly handle or dispose of any Hazardous Materials brought onto the Site by Provider or by any of Provider's employees, agents, volunteers, and invitees and released as a result of the negligence of Provider or Installer or any of Provider's or Installer's employees, agents, volunteers, and invitees. Such duty to indemnify with respect to any injuries to persons or damage to property arising from the generation of electricity from the Project shall not extend to incidents occurring on Host's side of the Point of Delivery except to the extent

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

caused by incidents on Provider's side of the Point of Delivery. Such duty to indemnify shall not apply to any action or claim, whether in tort (including negligence and strict liability), contract or otherwise for any loss, injury, or costs resulting from interruptions in service. Provider shall not be obligated to indemnify Host or any Host Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Host or any Host Indemnified Party.

(b) Host Indemnification. To the extent permitted by law, Host shall indemnify, defend and hold Provider, its contractors, subcontractors, shareholders, directors, officers, employees, agents, and invitees, and Financing Party ("**Provider's Indemnified Parties**"), harmless from and against all Losses incurred by the Provider's Indemnified Parties to the extent arising from or out of (i) any third-party claim for injury to or death of any Person or loss or damage to property to the extent caused by the negligence or willful misconduct of any of Host's Indemnified Parties; (ii) Host's violation of Applicable Law; or (iii) the presence, removal or remediation of any Hazardous Materials on the Site (other than any Hazardous Materials brought on to the Site by Provider's Indemnified Parties and improperly stored, disposed of or negligently released by Provider or Installer). Host shall not be obligated to indemnify Provider or any Provider Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Provider or any Provider Indemnified Party.

(c) Notice of Claims. Whenever any claim arises for indemnification under this Agreement, the Indemnified Person shall notify the Indemnifying Party in writing as soon as possible (but in any event prior to the time by which the interest of the Indemnifying Party will be materially prejudiced as a result of its failure to have received such notice) after the Indemnified Person has knowledge of the facts constituting the basis for such claim (the "Notice of Claim"). Such Notice of Claim shall specify all facts known to the Indemnified Person giving rise to the indemnification right and the amount or an assessment of the amount of the liability arising therefrom.

(d) Defense of Claims. The Indemnifying Party has the right, but not the obligation to assume the defense for the matter for which indemnification is sought hereunder. If the Indemnifying Party does not assume the defense, it shall timely pay all costs of legal counsel and case expenses incurred by Indemnified Person in connection with the defense, when and as incurred. If the Indemnifying Party assumes the defense, the Indemnified Person has the right to hire its own, separate counsel to defend it, but the Indemnified Person shall be responsible for the reasonable costs of such separate counsel. The Indemnifying Party shall not consent to the entry of any judgment or enter into any settlement with respect to the matter for which indemnification is sought without the prior written consent of the Indemnified Person (which consent shall not be unreasonably withheld) unless the judgment or settlement involves the payment of money damages only and does not require the acknowledgement of the validity of any claim or admission of any liability by or on behalf of any Indemnified Person.

(e) Payments. At the time that the Indemnifying Party makes any indemnity payments under this Agreement, the indemnification payment shall be adjusted such that the payment will result in the Indemnified Person receiving an indemnity payment equal to the Loss after taking into account (i) all federal, state, and local income taxes that are actually payable to the Indemnified Person with respect to the receipt of such payment and (ii) all national, state, and local tax

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

deductions allowable to the Indemnified Person for any items of loss and deduction for which the Indemnified Party is being indemnified.

(f) Survival of Indemnification. The obligations of indemnification hereunder shall survive termination of this Agreement.

16. REPRESENTATIONS AND WARRANTIES.

(a) Mutual Representations. Each Party hereby represents and warrants to the other, as of date hereof, that:

(i) Organization. It is duly organized, validly existing and in good standing under the laws of its state of incorporation and of the state in which the Premises are located, respectively, and has the power and authority to enter into this Agreement and to perform its obligations hereunder.

(ii) No Conflict. The execution and delivery of this Agreement and the performance of and compliance with the provisions of this Agreement will not conflict with or constitute a breach of or a default under (1) its organizational documents; (2) any agreement or other obligation by which it is bound; (3) any law or regulation.

(iii) Enforceability. (1) All actions required to be taken by or on the part of such Party necessary to make this Agreement effective have been duly and validly taken; (2) this Agreement has been duly and validly authorized, executed and delivered on behalf of such Party; and (3) this Agreement constitutes a legal, valid and binding obligation of such Party, enforceable in accordance with its terms, subject to laws of bankruptcy, insolvency, reorganization, moratorium or other similar laws.

(iv) No Material Litigation. There are no court orders, actions, suits or proceedings at law or in equity by or before any governmental authority, arbitral tribunal or other body, or threatened against or affecting it or brought or asserted by it in any court or before any arbitrator of any kind or before or by any governmental authority that could reasonably be expected to have a material adverse effect on it or its ability to perform its obligations under this Agreement, or the validity or enforceability of this Agreement.

(b) Host Representations. In addition to the representations and warranties in Section 16(a), Host hereby represents and warrants to Provider, as of date hereof, that:

(i) Condition of Premises. Host has provided to Provider Host's complete and correct records of the physical condition of the Premises. If, during the Development Period, Provider deems such records inadequate for its intended purposes hereunder, it shall so notify Host in writing before commencing installation of the Project, in which event the Host shall reasonably cooperate in Provider's efforts to procure such information as Provider may reasonably require regarding the condition of the Premises. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project are to be installed, are materially different from the information

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

presented by Host and from conditions reasonably visible to Provider during site visits prior to entering this Agreement, then if practicable the rates payable by Host hereunder shall be adjusted to compensate Provider for the cost of design and construction changes and delays actually incurred by Provider in order to adapt the Project to the unknown conditions. If such adjustment is not practicable, Provider shall have other rights under this Agreement.

(ii) Title to Premises. Host is the fee owner of and has good and valid title to [has a valid and enforceable leasehold interest in] the Premises and to Host's knowledge there are no mortgagees, lienholders or other third party claimants to the Premises. There are no encumbrances on the Premises that would interfere with or prevent the development, construction, operation or maintenance of the Project or any portion thereof.

(iii) Host Organization. Host is a municipality organized and existing under the laws of the Commonwealth of Massachusetts.

(c) Provider Representations. In addition to the representations and warranties in Section 16(a), Provider hereby represents and warrants to Host, as of date hereof, that:

(i) Interconnection Agreement and Permits. Provider shall use commercially reasonable efforts to obtain an executed interconnection agreement and all permits for the Project in a timely and efficient manner.

17. FORCE MAJEURE; CASUALTY.

(a) Excuse for Force Majeure Event. Except as provided in Section 17(b) or otherwise specifically provided in this Agreement, neither Party shall be considered in breach of this Agreement or liable for any delay or failure to comply with this Agreement, if and to the extent that such delay or failure is attributable to the occurrence of a Force Majeure Event; provided that the Party claiming relief as a result of the Force Majeure Event shall promptly (i) notify the other Party in writing of the existence and details of the Force Majeure Event; (ii) exercise all reasonable efforts to minimize delay caused by such Force Majeure Event; (iii) notify the other Party in writing of the cessation of such Force Majeure Event; and (iv) resume performance of its obligations hereunder as soon as practicable thereafter.

(b) No Excuse for Payment for Prior Services. Excepting a Force Majeure Event which impacts business or banking transactions nationally or globally, in which case such obligations shall be suspended but not excused, obligations to make payments for services provided prior to the Force Majeure Event shall not be excused by a Force Majeure Event.

(c) Casualty; Restoration. In the event of a casualty event, to the extent that such casualty event is attributable to the occurrence of a Force Majeure Event, which destroys all or a substantial portion of the Premises, Host shall elect, within ninety (90) days of such event, whether it will restore the Premises, which restoration will be at the sole expense of Host. If Host does not elect to restore the Premises, then Provider shall not restore the Project and this

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Agreement will terminate without penalty to either Party. If Host does elect to restore the Premises, Host shall provide notice of such election to Provider and Provider shall then elect, within ninety (90) days of receipt of such notice, whether or not to restore the Project, subject to the Parties agreeing on a schedule for the restoration of the Premises and an equitable extension to the Term of this Agreement. If the Parties are not able to so agree or if Provider does not elect to restore the Project, Provider shall promptly remove any portions of the Project remaining on the Premises, and this Agreement shall terminate without penalty to either Party. If Provider does elect to restore the Project, it shall do so at its sole expense. In the event of termination of this Agreement pursuant to this Section 17(c), (i) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the casualty event; and (ii) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

If any damage to the Project is caused by the negligence or willful misconduct of Host or Host's employees, agents, or invitees, Provider shall send written notice to Host specifying (i) the reasonable and documented expenses for repair and replacement of the Project, and (ii) documented lost revenue for sales of electricity and solar incentives (including, but not limited to, Applicable Solar Program, Tax Attributes, Environmental Attributes) that would have been received based on the estimated energy production of the Project. Host shall have thirty (30) days from the receipt of such notice to review the information contained within such notice. Any undisputed amounts shall be due and payable within thirty (30) days after Provider's notice. If Host disagrees with any information contained in such notice, Host shall provide written notice to Provider within the Host's thirty (30) day review period. In the event of a dispute, Host and Provider shall use good faith to resolve such dispute and agree upon a reimbursement amount. Once Host and Provider have agreed upon the reimbursement amount, Host shall pay such agreed amount within thirty (30) days after agreement and in the event there is no dispute, then within thirty (30) days after receipt of the notice.

(d) Termination for Force Majeure Event. Notwithstanding anything to the contrary in this Section 17, if nonperformance on account of a Force Majeure Event continues beyond a continuous period of three hundred and sixty-five (365) days, then either Party shall have the right to terminate this Agreement upon thirty (30) days' notice to the other. Upon such termination, Provider shall be required to decommission and remove the Project from the applicable Site in accordance with the Lease (unless there has been a casualty event, in which case the provisions of clause (c) above shall apply to the removal of the Project). In the event of such a termination of this Agreement with respect to the Project, the Parties shall not be released from any payment or other obligation arising under this Agreement which accrued prior to the shutdown of the Project or the Premises and the indemnity, confidentiality and dispute resolution provisions of this Agreement shall survive the termination of this Agreement.

18. CHANGE IN LAW.

In the event there is a Change in Law that is applicable to the operation of the Project, the sale of electric energy produced by the Project, or any other obligation of the Provider hereunder, and compliance with the Change in Law results in an increase in Provider's costs to operate and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintain the Project, Provider will submit to Host and PowerOptions within 60 days a written notice setting forth, in reasonable detail, the following: (i) the applicable Change in Law; (ii) the manner in which such Change in Law increases Provider's costs; and (iii) Provider's proposed adjustment to the then applicable and future rates for electric energy in this Agreement to reflect such increases in costs. Host agrees to an adjustment in the then applicable and future prices such that the new prices compensate Provider for the total cost increase arising from the Change in Law and said adjustment will remain in effect for as long as the costs arising from the Change in Law continue to be incurred by the Provider; provided, however any such increase shall be no greater than ten percent (10%) of the prices set forth in Exhibit A for the Term of this Agreement.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Provider Events of Default. Provider shall be in default of this Agreement if any of the following ("Provider Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Provider under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within thirty (30) days after receipt of written notice from Host identifying the defect.

(ii) Abandonment During Installation. After commencement of installation of the Project, Provider abandons installation of the Project for thirty (30) days and fails to resume installation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has abandoned installation of the Project.

(iii) Failure to Operate. After the Commercial Operation Date, Provider fails to operate the Project for a period of 90 days which failure is not due to equipment failure, or damage to the Project, act of governmental authority, or exercise of Provider's rights under this Agreement, or otherwise excused by the provisions of Section 17(b) (relating to Force Majeure Events), and Provider fails to resume operation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has ceased operation of the Project for a period of ninety (90) consecutive days, provided, however, that such thirty (30) day cure period shall be extended by the number of calendar days during which Provider is prevented, through no fault of its own, from taking curative action if Provider had begun curative action and was proceeding diligently, using commercially reasonable efforts, to complete such curative action.

(iv) Obligation Failure. Provider fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) days if the failure involves a failure to make payment when due or maintain required insurance; or (B) sixty (60) days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Host identifying the failure.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(v) Insolvency. Provider (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or is generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Provider in an involuntary case under bankruptcy law or seeking to dissolve Provider under other Applicable Law and such petition is not dismissed within 90 days; or (G) takes any action authorizing its dissolution.

(vi) Provider has an Event of Default which results in termination under the Lease.

(b) Financing Party Opportunity to Cure; Host Remedies. Subject to the right of the Financing Party to cure a Provider Event of Default, as set forth in Section 21, upon a Provider Event of Default, if Provider or Financing Party does not cure such Provider Event of Default in accordance with the terms hereof, Host may terminate this Agreement, seek to recover damages for costs of replacement electricity and pursue any and all other remedies available at law or equity.

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Host Events of Default. Host shall be in default of this Agreement if any of the following ("Host Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Host under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within 30 calendar days after receipt of written notice from Provider identifying the defect.

(ii) Obstruction. Host (i) obstructs commencement of installation of the Project; (ii) fails to take any reasonable actions required by this Agreement or requested by Provider or necessary for the interconnection of the Project; or (iii) fails to take electric energy produced by the Project; and, in any of these circumstances, fails to correct such action or inaction, as the case may be, within fifteen (15) Business Days after receipt of written notice from Provider with respect to such act or omission.

(iii) Payment Failure. Host fails to make any payment due under the terms of this Agreement, and fails to make such payment within ten (10) Business Days after receipt of notice thereof from Provider.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) Obligation Failure. Host fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) Business Days if the failure involves a failure to maintain required insurance; or (B) sixty (60) calendar days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Provider identifying the failure.

(v) Insolvency. Host (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or be generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Host in an involuntary case under bankruptcy law or seeking to dissolve Host under other Applicable Law; or (G) takes any action authorizing its dissolution.

(vi) Host has an Event of Default which results in termination under the Lease.

(b) Default Damages. Upon a Host Event of Default, Provider may require Host to pay to Provider the Early Termination Amount, whereupon this Agreement shall terminate immediately. Alternatively, Provider may elect to sell electricity produced by the Project to persons other than Host, and recover from Host any loss in revenues resulting from such sales; and/or pursue other remedies available at law or in equity. If necessary to sell electricity to persons other than Host, Host shall allow Provider to add a new meter dedicated to the solar Project, change the point of interconnection, and/or will support Provider with necessary approvals to change the Schedule Z. After Provider's receipt of such Early Termination Amount pursuant to this Section 20(b), Provider shall collect no additional damages resulting from lost revenues from sales of electricity from the Project.

(c) Survival of Lease, Access Rights and Easement. Upon a Host Event of Default, unless Host pays the Early Termination Amount to Provider in full thus terminating this PPA, Provider may, in its exercise of remedies pursuant to Section 20(b), make continued use of, and Host may not terminate the Lease. Provider shall not be obligated to pay any rent or other consideration for the use of such rights or interests.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

(a) Financing Arrangements. Provider shall not sell, transfer or assign (collectively, an "**Assignment**") this Agreement or any interest therein, without the prior written consent of Host, which shall not be unreasonably withheld, conditioned or delayed, provided, however that Provider may mortgage, pledge, grant security interests, assign, or otherwise encumber its interests in this Agreement to any persons providing debt or equity financing for the Project. Further, Host acknowledges that Provider may obtain construction financing for the Project from a third party

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

and that Provider may either obtain term financing secured by the Project or sell or assign the Project to a Financing Party or may arrange other financing accommodations from one or more financial institutions and may from time to time refinance, or exercise purchase options under, such transactions. Host acknowledges that in connection with such transactions Provider may secure Provider's obligations by, among other collateral, an assignment of this Agreement and a first security interest in the Project. In order to facilitate such necessary sale, conveyance, or financing, and with respect to any lender or lessor, as applicable, Host agrees as follows:

(i) Consent to Sale and to Collateral Assignment. Host hereby consents to both the sale of the Project to a Financing Party and the collateral assignment to the Financing Party of the Provider's right, title and interest in and to this Agreement.

(ii) Rights of Financing Party. Notwithstanding any contrary term of this Agreement:

(A) Step-In Rights. The Financing Party, as owner of the Project, or as collateral assignee of this Agreement, shall be entitled to exercise, in the place and stead of Provider, any and all rights and remedies of Provider under this Agreement in accordance with the terms of this Agreement. The Financing Party shall also be entitled to exercise all rights and remedies of owners or secured parties, respectively, generally with respect to this Agreement and the Project;

(B) Opportunity to Cure Default. The Financing Party shall have the right, but not the obligation, to pay all sums due under this Agreement and to perform any other act, duty or obligation required of Provider hereunder or cause to be cured any default of Provider hereunder in the time and manner provided by the terms of this Agreement. Nothing herein requires the Financing Party to cure any default of Provider under this Agreement or (unless the Financing Party has succeeded to Provider's interests under this Agreement or has otherwise assumed Provider's obligations) to perform any act, duty or obligation of Provider under this Agreement, but Host hereby gives it the option to do so;

(C) Exercise of Remedies. Upon the exercise of remedies, including any sale of the Project by the Financing Party, whether by judicial proceeding or under any power of sale contained therein, or any conveyance from Provider to the Financing Party (or any assignee of the Financing Party as defined below) in lieu thereof, the Financing Party shall give written notice to Host of the transferee or assignee of this Agreement. Any such exercise of remedies shall not constitute a default under this Agreement;

(D) Cure of Bankruptcy Rejection. Upon any rejection or other termination of this Agreement pursuant to any process undertaken with respect to Provider under the United States Bankruptcy Code, at the request of Financing Party made within ninety (90) days of such termination or rejection, Host shall enter into a new agreement with Financing Party or its assignee having substantially the same terms and conditions as this Agreement.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iii) Right to Cure.

(A) Cure Period. Host will not exercise any right to terminate or suspend this Agreement unless it shall have given the Financing Party a copy of Host's prior written notice to Provider of its intent to terminate or suspend this Agreement, as required by this Agreement, specifying the condition giving rise to such right, and the Financing Party shall not have caused to be cured the condition giving rise to the right of termination or suspension within sixty (60) days after such notice or (if longer) the periods provided for in this Agreement; provided that if such Provider default reasonably cannot be cured by the Financing Party within such period and the Financing Party commences and diligently and continuously pursues cure of such default within such period, such period for cure will be extended for a reasonable period of time under the circumstances, such period not to exceed an additional sixty (60) days. The Parties' respective obligations will otherwise remain in effect during any cure period.

(B) Continuation of Agreement. If the Financing Party or its assignee (including any purchaser or transferee), pursuant to an exercise of remedies by the Financing Party, shall acquire title to or control of Provider's assets and shall, within the applicable time periods described in Section 21(a)(iii)(A) above, cure all defaults under this Agreement existing as of the date of such change in title or control in the manner required by this Agreement and which are capable of cure by a third person or entity then such Person shall no longer be in default under this Agreement, and this Agreement shall continue in full force and effect. If the Financing Party notified Host in writing within such sixty (60) day period that it must foreclose on Provider's Interest or otherwise take possession of Provider's interest under this Agreement in order to cure the default (the "**Foreclosure Notice**"), the Host shall not terminate this Agreement and shall permit the Financing Party a reasonable period of time, which shall be outlined in the Foreclosure Notice, as may be necessary for such Financing Party, with the exercise of due diligence, to foreclose or acquire Provider's interest under this Agreement and to perform or cause to be performed all of the covenants and agreements of Provider under this Agreement and the Lease.

(b) Financing Party a Third Party Beneficiary. Host agrees and acknowledges that Financing Party is a third party beneficiary of the provisions of this Section 21.

(c) Entry to Consent to Assignment. Host agrees to (i) execute any reasonable consents to assignment or acknowledgements and (ii) provide such opinions of counsel as may be reasonably requested by Provider and/or Financing Party in connection with such financing or sale of the Project.

22. LIMITATIONS ON DAMAGES.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT OR THE LEASE, AND EXCEPT AS PROVIDED IN THIS AGREEMENT IN SECTIONS 10, 19(B) AND 20(B), NEITHER PARTY NOR ANY OF ITS INDEMNIFIED PERSONS SHALL BE LIABLE TO THE OTHER PARTY OR ITS INDEMNIFIED PERSONS FOR ANY SPECIAL, PUNITIVE, EXEMPLARY, INDIRECT, OR CONSEQUENTIAL DAMAGES, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT. FOR GREATER CLARITY, IT IS AGREED BY THE PARTIES THAT THE EARLY TERMINATION PAYMENT AND ANY PAYMENT BY HOST SPECIFICALLY ADDRESSED HEREIN, INCLUDING WITHOUT LIMITATION, UNDER SECTION 10, ARE CONSIDERED DIRECT DAMAGES. FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS PROVIDED IN THIS AGREEMENT, THE LIABILITY OF THE DEFAULTYING PARTY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION AND ALL OTHER DAMAGES ARE HEREBY WAIVED.

Notwithstanding anything to the contrary, Provider's total combined liability to Host under this Agreement and the Lease (whether due to breach of contract, negligence, strict liability or any other cause) shall not exceed, for all claims, a total amount of Provider's commercial general liability policy limit (combined single limit); provided that claims by Host for indemnity related to third-party claims as provided under Section 15(a) shall not be subject to such limit.

23. DISPUTE RESOLUTION.

(a) Negotiation Period. The Parties shall negotiate in good faith and attempt to resolve any dispute, controversy or claim arising out of or relating to this Agreement (a "**Dispute**") within 30 days after the date that a Party gives written notice of such Dispute to the other Party, except that a Party may seek injunctive relief to prevent irreparable harm without first proceeding or completing any dispute resolution proceedings.

(b) Jurisdiction, Venue, and Jury Trials. If despite the efforts, if any, to negotiate, the Parties do not resolve the Dispute within the negotiation period described above, then each Party irrevocably consents to the exclusive jurisdiction of the state and federal courts sitting in Massachusetts, in connection with any action related to the Dispute. Each Party agrees that process may be served upon it in any manner authorized by such courts and that it waives all objections which it might otherwise have to such jurisdiction and process. Further, each Party irrevocably waives all of its rights to a trial by jury with respect to any such action.

(c) Survival of Dispute Provisions. The provisions of this Section 23 and Section 25 shall survive any termination of this Agreement and shall apply (except as provided herein) to any disputes arising out of this Agreement.

24. NOTICES.

Delivery of Notices. All notices or other communications which may be or are required to be given by any Party to any other Party pursuant to this Agreement shall be in writing and shall

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; transmitted by email if receipt of such transmission by email is specifically acknowledged by the recipient (automatic responses not being sufficient for acknowledgement), addressed as follows:

If to Host:

Hopkinton, Massachusetts 01748
Attention: Legal Notices
Email: legal@solect.com

Notices shall be effective when delivered (or in the case of email, when acknowledged by the recipient) in accordance with the foregoing provisions, whether or not (except in the case of email transmission) accepted by, or on behalf of, the Party to whom the notice is sent.

Each Party may designate by Notice in accordance with this section to the other Party a new address to which any notice may thereafter be given.

25. MISCELLANEOUS.

(a) Governing Law. This Agreement shall be governed by the laws of the Commonwealth of Massachusetts, without regard to principles of conflicts of law, and including principles of good faith and fair dealing that will apply to all dealings under this Agreement.

(b) Rules of Interpretation. Section headings are for convenience only and shall not affect the interpretation of this Agreement. References to sections are, unless the context otherwise requires, references to sections of this Agreement. The words "hereto", "hereof" and "hereunder" shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The word "person" shall include individuals; partnerships; corporate bodies (including but not limited to corporations, limited partnerships and limited liability companies); non-profit corporations or associations; governmental bodies and agencies; and regulated utilities. The word "including" shall be deemed to be followed by the words "without limitation". In the event of any conflict between the text of this Agreement and the contents of an exhibit hereto, the text of this Agreement shall govern.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(c) Severability. If any non-material part of this Agreement is held to be unenforceable, the rest of the Agreement will continue in effect. If a material provision is determined to be unenforceable and the Party which would have been benefited by the provision does not waive its unenforceability, then the Parties shall negotiate in good faith to amend the Agreement to restore to the Party that was the beneficiary of such unenforceable provision the benefits of such provision. If the Parties are unable to agree upon an amendment that restores the Party's benefits, the matter shall be resolved under Section 23, and the court will modify the unenforceable provision in order to restore to the Party that was the beneficiary of the unenforceable provision the economic benefits of such provision.

(d) Amendment and Waiver. This Agreement may only be amended by a writing signed by both Parties. Any waiver of any of the terms hereof shall be enforceable only to the extent it is waived in a writing signed by the Party against whom the waiver is sought to be enforced. Any waiver shall be effective only for the particular event for which it is issued and shall not constitute a waiver of a subsequent occurrence of the waived event nor constitute a waiver of any other provision hereof, at the same time or subsequently.

(e) Assignment. Except as provided in Section 21(a), neither Party may assign, sell, transfer or in any other way convey its rights, duties or obligations under this Agreement, either in whole or in part, without the prior written consent of the other Party which consent shall not be unreasonably withheld or delayed, except that without consent of Host, Provider (i) may assign its rights and obligations hereunder to an Affiliate of Provider and (ii) may sell or collaterally assign this Agreement in accordance with Section 21. For purposes of this Section 25(e), transfer does not include any sale of all or substantially all of the assets of Provider or Host or any merger of Provider or Host with another person, whether or not Provider or Host is the surviving entity from such merger, or any other change in control of Provider or Host, provided any such surviving entity assumes all obligations of Provider or Host, as appropriate, under this Agreement.

(f) No Joint Venture. This Agreement does not create a joint venture, partnership or other form of business association between the Parties.

(g) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of signature by fax, or scan delivered by email, receipt acknowledged, or electronic signature are effective to bind a Party hereto.

(h) Relation of the Parties. The relationship between Provider and Host shall not be that of partners, agents, or joint ventures for one another, and nothing contained in the Agreement shall be deemed to constitute a partnership or agency agreement between them for any purposes, including federal income tax purposes. Provider and Host, in performing any of their obligations hereunder, shall be independent contractors or independent parties and shall discharge their contractual obligations at their own risk.

(i(i) CORI. With respect to Projects to be installed at Massachusetts public schools, the Host shall have the right to conduct a check of the Criminal Offender Record Information (CORI)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintained by the Massachusetts Criminal History Board, and the Massachusetts Sex Offender Record Information (SORI) maintained by the Massachusetts Sex Offender Registry Board, for any officer or employee of the Provider or of a subcontractor of the Provider who will work at the Premises. Notwithstanding any other provision of the Agreement, the Host may refuse to allow any such employee to work on the project if the Host, in its sole discretion, determines that such employee is not suitable for work on the project based on the results of such CORI or SORI. The Host shall keep such information in a confidential file. With respect to Projects to be installed at public schools in other states, similar criminal offender and sex offender information maintained by the state shall apply, and Host shall have discretion regarding employment of such registered offenders.

(j) Notwithstanding anything in this Agreement to the contrary, Host shall have no obligation to assign to Provider any right or interest which gives the Provider greater rights or interests in the Premises or any other property owned or controlled by the Host than the rights and interests contemplated in this Agreement.

(rest of page left blank intentionally – signatures appear on next page)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

IN WITNESS WHEREOF, intending to be legally bound hereby, Provider and Host have executed this Power Purchase Agreement as of the date first set forth above.

GLOSSARY OF TERMS

"Access Rights" means the rights more fully described in the Lease for Provider and its designees, including Installer, to enter upon and cross the Site to install, operate, maintain, repair and remove the Project, and to interconnect the Project with the Local Electric Utility and to provide water, electric and other services to the Project.

"Affiliate" means, as to any Person, any other Person which, directly or indirectly, is in control of, is controlled by, or is under common control with, such Person. For purposes of this definition, "control" of a Person means the power, directly or indirectly, to direct or cause the direction of the management and policies of such Person whether by contract or otherwise.

"Agreement" means this Power Purchase Agreement, including all exhibits attached hereto, as the same may be amended from time to time in accordance with the provisions hereof.

"Applicable Law" means any constitutional provision, law, statute, rule, regulation, ordinance, treaty, order, decree, judgment, decision, certificate, holding, injunction, registration, license, franchise, permit, authorization, or guideline issued by a Governmental Authority that is applicable to a Party to this Agreement or the transaction described herein. Applicable Law also includes an approval, consent or requirement of any Governmental Authority having jurisdiction over such Party or its property, enforceable at law or in equity.

"Applicable Solar Program" means the state laws, rules, and regulations that govern the solar incentives, rights and obligations (e.g., SMART), as may be amended from time to time, by the authorities having legal jurisdiction where the Project will be installed and where the benefits will be realized.

"Avoided Energy Price" means the rate, expressed in $/kWh, set forth in Exhibit A for purposes of calculating any credits owed to Host pursuant to Section 5(b). The Year 1 Avoided Energy Price shall be the average applicable tariff rate per kWh, at the time of execution of the Power Purchase Agreement, that Host would have paid for full requirements delivered electric service (which shall include energy-related charges such as delivery, service, distribution, or taxes, but excluding demand and other related charges) from its Local Electric Utility, with a 3% annual escalation rate applied to each subsequent Guarantee Year.

"Business Day" means a day other than Saturday, Sunday, or other day on which commercial banks in Massachusetts are authorized or required by law to be closed.

"Capacity Value" means such capacity value as determined by market rules established by ISO-NE. Provider is the owner of the capacity value of the Project and shall have the right to participate in ISO-NE's Forward Capacity market at their discretion through an aggregator or as an ISO-NE Market Participant. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Change in Law" means that after the date of this Agreement, an Applicable Law is amended, modified, nullified, suspended, repealed, found unconstitutional or unlawful, or changed or affected in any material respect by any Applicable Law. Change in Law does not include changes in federal or state income tax laws. Change in Law does include material changes in the interpretation of an Applicable Law.

"Commercial Operation Date" means the date, which shall be specified by Provider to Host pursuant to Section 4(d), when the Project is physically complete and has successfully completed all performance tests and satisfies the interconnection requirements of the Local Electric Utility.

"Confidential Information" means information of a confidential or proprietary nature, whether or not specifically marked as confidential. Such information shall include, but not be limited to, any documentation, records, listing, notes, data, computer disks, files or records, memoranda, designs, financial models, accounts, reference materials, trade-secrets, prices, strategic partners, marketing plans, strategic or other plans, financial analyses, customer names or lists, Project opportunities and the like, provided however that Confidential Information does not include information which (i) was in the possession of the receiving Party before receipt from the disclosing Party; (ii) is or becomes publicly available other than as a result of unauthorized disclosure by the receiving Party; (iii) is received by the receiving Party from a third party not known by the receiving Party with the exercise of reasonable diligence to be under an obligation of confidentiality respecting the information; or (iv) is independently developed by the receiving Party without reference to information provided by the disclosing Party; or, if applicable (v) is the subject of a lawful disclosure request under the Public Records Law, M.G.L. c.66, §10 or any other applicable public disclosure laws governing Host.

"Construction Start Date" means sixty (60) days after receipt of (i) executed interconnection agreement for the Project and (ii) all permits, which shall be extended day-by-day for Force Majeure Events.

"Delay Liquidated Damages" means the daily payment of (i) $0.250/day/kW, not to exceed $15/kW in the aggregate, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date in accordance with and subject to Section 2(e).

"Dispute" means a controversy or claim arising out of or relating to this Agreement.

"Early Termination Amount" (a) for terminations occurring after the first to occur of transfer of the Project to a Financing Party or the Commercial Operation Date, means an amount determined in accordance with Exhibit B, as of the applicable anniversary date set forth thereon, which includes all lost revenues from the sale or utilization of electrical energy, Environmental Attributes, or Tax Attributes, provided however, (b) in the event Host becomes liable for payment of the Early Termination Amount prior to the first to occur of the events listed in (a), Host shall instead pay to Provider a termination payment equal to the sum of the following, not to exceed the Early Termination Amount for Year 1 set forth in Exhibit B: (1) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to third parties for permits, interconnection application fees and studies,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

SMART incentives and other Governmental Authority and Utility approvals; and (2) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to subcontractors and suppliers as of the termination date for design, engineering and procurement of equipment and other materials included in the Project, including any battery energy storage system and including the expenses and cancellation charges reasonably incurred and paid by Provider in termination of contracts and purchase orders pertaining to the System and the Installation Work; and (3) charges for Provider's internal engineering manpower and materials reasonably expended developing the Project up to the termination date based on Provider's labor rate sheet attached hereto as Exhibit H, which may be reasonably adjusted for inflation (in writing) on an annual basis, and, in the case of the costs described in sub-clauses (1) and (2) only, plus an amount equal to eighteen percent (18%) of such costs.

"Effective Date" shall have the meaning assigned to such term in the recitals.

"Electric Service Provider" means any person, including the Local Electric Utility, authorized by the Commonwealth of Massachusetts to provide electric energy and related services to retail users of electricity in the area in which the Site is located.

"Environmental Attributes" means Renewable Energy Certificates, carbon trading credits, emissions reductions credits, emissions allowances, green tags, Green-e certifications, or other entitlements, certificates, products, or valuations attributed to the Project and its displacement of conventional energy generation, or any other entitlement pursuant to any federal, state, or local program applicable to renewable energy sources, whether legislative or regulatory in origin, as amended from time to time, and excluding, for the avoidance of doubt, any Tax Attributes and the Applicable Solar Program.

"Estimated Annual Production" means the annual estimate of electricity generated by the Project for any given year. The Estimated Annual Production for each year of the Term is set forth in Exhibit F.

"Expiration Date" means the date on which the Agreement terminates by reason of expiration of the Term.

"Fair Market Value" means the price that would be paid in an arm's length, free market transaction, in cash, between an informed, willing seller and an informed, willing buyer (who is neither a lessee in possession nor a used equipment or scrap dealer), neither of whom is under compulsion to complete the transaction, taking into account, among other things, the age and performance of the Project and advances in solar technology, provided that installed equipment shall be valued on an installed basis and costs of removal from a current location shall not be a deduction from the valuation.

"Financing Party" means a Project Lessor or Lender.

"Force Majeure Event" means any act or event that prevents the affected Party from performing it obligations in accordance with this Agreement, if such act or event is beyond the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

reasonable control, and not the result of the fault or negligence, of the affected Party and such Party had been unable to overcome such act or event with the exercise of due diligence (including the expenditure of reasonable sums). Subject to the foregoing, Force Majeure Event may include but are not limited to the following acts or events: (i) natural phenomena, such as storms, hurricanes, floods, lightning and earthquakes; (ii) explosions or fires arising from lightning or other causes unrelated to the acts or omissions of the Party seeking to be excused from performance; (iii) acts of war or public disorders, civil disturbances, riots, insurrection, sabotage, declared state of emergency or public health emergency, pandemic, government mandated quarantine or travel ban, epidemic, terrorist acts, or rebellion; (iv) acts or omissions of Governmental Authorities, including the Local Electric Utility to the extent not caused by the action or inaction of Provider; and (v) strikes or labor disputes (except involving employees of the affected Party). Force Majeure Events shall not include equipment failures or acts or omissions of agents, suppliers or subcontractors, except to the extent such acts or omissions arise from a Force Majeure Event. Changes in prices for electricity shall not constitute Force Majeure Events.

"Governmental Authority" means any international, national, federal, provincial, state, municipal, county, regional or local government, administrative, judicial or regulatory entity operating under any Applicable Laws and includes any department, commission, bureau, board, administrative agency or regulatory body of any government.

"Guaranteed Commercial Operation Date" means 270 days from the Construction Start Date, which shall be extended day-by-day for Force Majeure Events and for other events outside of Provider's reasonable control.

"Hazardous Materials" means all hazardous or toxic substances, wastes or other pollutants, including petroleum, petroleum hydrocarbons or petroleum products, petroleum by-products, radioactive materials, asbestos or asbestos-containing materials, gasoline, diesel fuel, pesticides, radon, urea formaldehyde, lead or lead-containing materials, polychlorinated biphenyls; and any other chemicals, materials, substances or wastes in any amount or concentration which are now included in the definition of "hazardous substances," "hazardous materials," "hazardous wastes," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutants," "regulated substances," "solid wastes," or "contaminants" or words of similar import, under any Applicable Law.

"Host" means the entity identified as Host in the recitals, and all successors and assigns.

"Indemnified Person" means the person who asserts a right to indemnification under Section 15.

"Indemnifying Party" means the Party who has the indemnification obligation under Section 15 to the Indemnified Person.

"Initial Period" has the meaning provided in Section 2.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Installation Work" means the construction and installation of the Project and the start-up, testing and acceptance (but not the operations and maintenance) thereof, all performed by or for Provider at the Premises.

"Installer" means Solect Energy Development, LLC, the person designated by Provider to install the Project on the Premises.

"Land Registry" means the office where real estate records for the Site are customarily filed.

"Lease" has the meaning provided in the Recitals hereof.

"Lender" means persons providing construction or permanent financing to Provider in connection with installation of the Project.

"Liens" has the meaning provided in Section 8(c).

"Local Electric Utility" means the entity authorized and required under Applicable Law to provide electric distribution service to Host at the Site.

"Losses" means any and all losses, liabilities, claims, demands, suits, causes of action, judgments, awards, damages, cleanup and remedial obligations, interest, fines, fees, penalties, costs, and expenses (including all attorney's fees and other costs and expenses incurred in defending any such claims or matters or in asserting or enforcing any indemnity obligation).

"Net Metering" means the process of measuring the difference between electricity delivered by a Local Electric Utility to a customer and electricity generated by a solar system and fed back to the Local Electric Utility, as set forth in Applicable Law.

"Net Metering Credit" shall mean the monetary value of the excess electricity generated by a Project, and credited to the Host by the Local Electric Utility, as set forth in Applicable Law.

"Operations Period" has the meaning provided in Section 2.

"Operations Year" means a twelve month period beginning at 12:00 am on an anniversary of the Commercial Operations Date and ending at 11:59 pm on the day immediately preceding the next anniversary of the Commercial Operations Date, provided that the first Operations Year shall begin on the Commercial Operations Date.

"Party" means either Host or Provider, as the context shall indicate, and "Parties" means both Host and Provider, collectively.

"Point of Delivery" has the meaning set forth in Section 5(a) and Exhibit E.

"Premises" means the portions of the Site described on Exhibit D.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Production Excess" has the meaning set forth in Section 7(b)(i).

"Project" means an integrated system for the generation of electricity from solar energy consisting of the photovoltaic panels and associated equipment to be installed on each of the Premises in accordance with this Agreement.

"Project Lessor" means, if applicable, any Person to whom Provider transferred the ownership interest in the Project, subject to a leaseback of the Project from such Person.

"Provider" means Solect Energy Development LLC.

"Relocation Event" means the relocation of the Project, starting at the shutdown of the Project pursuant to such relocation, and ending at the commercial operation of the Project when such relocated Project is reinstalled at a new location, as determined by the Provider in its reasonable discretion.

"Renewable Energy Certificate" or "REC" means a certificate, credit, allowance, green tag, or other transferable indicia, howsoever entitled, created by an applicable program or certification authority indicating generation of a particular quantity of energy, or product associated with the generation of a megawatt-hour (MWh) from a renewable energy source by a renewable energy Project.

"SMART Incentive Payment Effective Date" means the date on which the SMART incentive payment becomes effective as determined by the Local Electric Utility.

"Site" means the real property described on Exhibit C attached hereto.

"Tax Attributes" means the investment tax credits (including any grants or payments in lieu thereof) and any tax deductions or other benefits under the Internal Revenue Code or applicable federal, state, or local law available as a result of the ownership and operation of the Project or the output generated by the Project (including, without limitation, tax credits (including any grants or payments in lieu thereof) and accelerated and/or bonus depreciation.)

"Term" shall have the meaning provided in Section 2 hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A

ENERGY PURCHASE PRICES

The PPA $/kWh rates set forth in this Exhibit A are dependent on Provider's good faith assumptions around the Pricing Elements set forth below, and are in accordance with the rules of the PowerOptions Solar and Storage Program. The actual SMART Incentive Payment Rate will be established upon receipt of the SMART Statement of Qualification from Massachusetts Department of Energy Resources. Upon receipt of the Statement of Qualifications, Provider shall forward a copy to Host.

Block 10

SMART Incentive Amount	$0.05819
PPA Rate ($/kWh)	$0.1590

Assumptions around Pricing Elements:

- Additional utility interconnection costs. Prices shown include budgeted interconnection costs and exclude costs (if any) for utility engineering studies or system upgrades.
- PPA Rate assumes Project is exempt from personal property tax.
- Prices shown do not include costs required to comply with additional site work, stormwater management infrastructure, environmental compliance or remediation, or Orders of Conditions, as required by local AHJ (i.e. Planning Board, Conservation Commissions).
- Federal investment tax credit amount will reflect the calendar year in which installation begins.
- Steel pricing for ground mounted or canopy structures. A change in price shall be considered material when the price of the applicable steel product or products changes by 5% percent or more between the Effective Date and the Construction Commencement Date based on the benchmark prices published by CME group U.S. Midwest Hot-Rolled Coil Index (CRU), https://www.cmegroup.com/markets/metals/ferrous/hrc-steel.contractSpecs.html or such other steel index as is agreed with PowerOptions.

Variations:

Should the actual values of the Pricing Elements materially differ from the assumed values, Provider will prepare a Final PPA Rate in accordance with the rules of the PowerOptions Solar plus Storage program. Such Final PPA Rate will be provided to Host no later than 20 days prior to the Construction Start Date, and shall automatically take effect provided such Final PPA Rate does not exceed a Maximum PPA Rate of: $0.180 unless the parties have reached agreement on

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

a Final PPA Rate that exceeds the Maximum PPA Rate as determined pursuant to the process described below.

If, upon receipt of all documentation necessary to establish a Final PPA Rate, the Provider determines that the Final PPA Rate exceeds the Maximum PPA Rate, the parties will cooperate in good faith to negotiate a PPA Rate acceptable to both parties. If, after fifteen (15) days, the Parties are not able to agree on an acceptable PPA Rate, Provider may, in its sole discretion, elect to (i) continue performance under this Agreement with the PPA Rate equal to the Maximum PPA Rate, or (ii) terminate this Agreement upon ten (10) days' written notice to Host. Upon a termination hereunder, Host shall reimburse Provider for Provider's direct costs incurred in performing under this Agreement between the Effective Date and the date of such termination.

AVOIDED ENERGY PRICE

The following table sets forth the "Avoided Energy Price" for purposes of calculating the amount on any credit due to the Host under the Performance Guarantee in Section 5(b), with a 2% annual escalation rate.

Guarantee Year	**Avoided Energy Price per kWh**
1	$0.20570
2	$0.20981
3	$0.21401
4	$0.21829
5	$0.22266
6	$0.22711
7	$0.23165
8	$0.23628
9	$0.24101
10	$0.24583
11	$0.25075
12	$0.25576
13	$0.26088
14	$0.26609
15	$0.27142
16	$0.27685
17	$0.28238
18	$0.28803
19	$0.29379
20	$0.29967

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A-1

PILOT AMOUNTS

For purposes of this PPA, the PILOT Amount assumed for each year of the Term is equal to zero dollars ($0.00).

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT B

Early Termination Amounts are calculated to achieve the same net present value for the investor as if early termination had not happened and the project went to full term.

Subject to final PPA Prices in Exhibit A
EARLY TERMINATION AMOUNTS

Year	Early Termination Amount	Early Purchase
1	$328,808	**N/A**
2	$303,048	**N/A**
3	$276,978	**N/A**
4	$267,263	**N/A**
5	$240,520	**N/A**
6	$213,412	**N/A**
7	$185,920	$146,717
8	$174,706	**N/A**
9	$163,064	**N/A**
10	$150,971	$108,133
11	$141,134	**N/A**
12	$133,837	**N/A**
13	$126,295	**N/A**
14	$118,495	**N/A**
15	$110,424	$60,763
16	$100,667	**N/A**
17	$90,525	**N/A**
18	$79,976	**N/A**
19	$69,000	**N/A**
20	$57,571	**N/A**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT D

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT E

DESCRIPTION OF PROJECT

Point of Delivery is the Local Electric Utility's meter.

The Project will be comprised of a series of solar photovoltaic equipment and parts integrated to the main electric service at the building, behind the utility meter, and interconnected to the Local Electric Utility's electricity distribution system. Main equipment components of the Project include:

- Roughly 190 x 480W Tier 1 Solar modules or equivalent
- Roughly 2 x solar inverters or equivalent
- Ballasted roof racking systems or equivalent
- Rapid shutdown system
- Solar kWh meter and monitoring system, connected to Host-provided internet service
- Combiners, Disconnects, Conduit, Switches, Pipe and Wire, and Balance of System materials.

Equipment list may change during the course of the Project

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT F

ESTIMATED ANNUAL PRODUCTION

Estimated Annual Production commencing on the Commercial Operation Date with respect to Project under the Agreement shall be as follows:

Year	Estimated Production (kWh)	Year	Estimated Production (kWh)
1	105,744	11	100,070
2	105,163	12	99,520
3	104,584	13	98,973
4	104,009	14	98,428
5	103,437	15	97,887
6	102,868	16	97,348
7	102,302	17	96,813
8	101,740	18	96,281
9	101,180	19	95,751
10	100,624	20	95,224

The values set forth in the table above are estimates (and not guarantees), of approximately how many kWhs are expected to be generated annually by the Project.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT G

INSURANCE REQUIREMENTS

1. General Liability

(a) Both Host and Provider will have a minimum level of commercial general liability insurance for the term of the Power Purchase Agreement of one million dollars ($1,000,000) for each occurrence, and two million dollars ($2,000,000) in the aggregate. Insurance coverage shall be at least as broad as the Insurance Services Office (ISO) Commercial General Liability Coverage "occurrence" form, with no coverage deletions.

(b) Both the Host and Provider general liability insurance coverage shall:

(i) Be endorsed to specify that the Provider's and Host's insurance is primary and that any insurance or self-insurance maintained by the Local Electric Utility shall not contribute with it.

2. Workers' Compensation

Host will have Workers' Compensation insurance indicating compliance with any applicable labor codes, acts, laws or statutes, state or federal, at the Site where the work is performed. Employers' Liability insurance shall not be less than $1,000,000 for injury or death each accident.

3. Property Loss

Provider shall carry adequate property loss insurance on the Project which need not be covered by the Host's property coverage. The amount and terms of insurance coverage will be determined at Provider's sole discretion.

4. Additional Insurance Provisions

Host shall furnish Provider with certificates of insurance and endorsements of all required insurance, as may be reasonably requested, including for purposes of compliance with any legal or regulatory authority or Local Electric Utility affecting the Premises or operation of the Project. Insurance required by the Local Electric Utility shall not be canceled except after (30) days prior written notice has been given to the Local Electric Utility.

5. Additional Installation Contractor Requirements

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Installation contractors will have valid commercial general liability, workers compensation, and business auto insurance as follows:

- Commercial general liability insurance will be in the following amounts: $1,000,000 for each occurrence and $2,000,000 aggregate.

- Workers compensation insurance or self-insurance indicating compliance with any applicable labor codes, laws or statutes, state or federal, where Installer performs work.

- Auto coverage not less than one million dollars ($1,000,000) each accident for bodily injury and property damage, and x million dollars ($1,000,000) in the aggregate.

- Excess liability insurance on an occurrence basis covering claims (on at least a following form basis) in excess of the underlying insurance for Commercial General Liability, Auto Liability and Employers' Liability with a minimum limit per occurrence of one million dollars ($1,000,000) and two million dollars ($2,000,000) in the aggregate. The amounts of insurance required for Commercial General Liability, Auto Liability, Employers' Liability and Excess Liability may be satisfied by Installer purchasing coverage in the amounts specified or by any combination of primary and excess insurance, so long as the total amount of insurance meets the requirements specified above.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

LEASE AGREEMENT

This Lease Agreement (this "**Lease**") is entered into as of _____, 20__, (the "**Effective Date**") by and between City of Melrose ("**Host**"), and Solect Energy Development LLC ("**Provider**") a limited liability company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement governing the terms and conditions of Provider's participation in the PowerOptions Solar Programs;

WHEREAS, Host is the owner of the properties located and described in Exhibit A (the "**Site**" or the "**Property**") and desires to make a portion of the Site (said portion of the Site as more fully described in Exhibit B, the "**Premises**") available to Provider for the construction, operation and maintenance of a solar powered electric generating project (the "**Project"**); and

WHEREAS, Host and Provider have entered into a Power Purchase Agreement dated on or about the date hereof (as amended, modified and supplemented from time to time, the "**PPA**") describing the power sales arrangement between the Parties.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Lease not defined herein shall have the meanings set forth in the GLOSSARY OF TERMS attached to the PPA.

2. TERM.

The Term of the Lease shall begin as of the Effective Date and shall continue until 11:59 p.m. on the last day of the month in which the twentieth (20th) anniversary of the SMART Incentive Payment Effective Date occurs. Notwithstanding, in the event that the PPA is terminated prior to the otherwise applicable end of term, this Lease shall also terminate; provided, however, that in the event that the PPA terminates early pursuant to Section 20(c) of the PPA (due to Host Event of Default), and Host does not pay the Early Termination Amount to the Provider, and Provider desires to continue use of the Premises under this Lease, then the Term of this Lease shall continue until the end of the term as set forth above. This Lease may be extended in accordance with the provisions for an extension of the PPA (as more specifically set forth in Section 2 of the PPA). For greater clarity, the parties hereby confirm that Provider shall also have access rights as described in Section 3 hereof, for removal of the Project pursuant to Section 9 (Removal at End of Term) hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

3. LEASE RIGHTS.

(a) Lease Access Specifications; Easement Rights. Host hereby grants Provider and its designees (including Installer) access to the Premises, for the Term and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, at reasonable times and upon reasonable notice (except in situations where there is imminent risk of damage to persons or property), for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and any other purpose set forth in this Lease (the "**Permitted Uses**"), and otherwise in accordance with the provisions of this Lease. The Premises are leased together with the following Access Rights with respect to the Site:

(i) Vehicular & Pedestrian Access. A non-exclusive easement for reasonable vehicular and pedestrian access across the Site to the Premises for the Permitted Uses. In exercising such access Provider shall reasonably attempt to minimize any disruption to activities occurring on the Site.

(ii) Utilities & Communication Cables. The right and easement to locate distribution utility and/or electrical lines, electrical equipment cables, and other related facilities, equipment and improvements across the Site. The location of any such lines and cables shall be subject to Host's approval and shall be at locations that minimize any disruption to Host's activities occurring on the Site. Access will also be provided for telephone and internet connections on the Premises for use by Provider in installing, operating and maintaining the Project.

(iii) Solar Easement. An easement to receive direct sunlight and solar energy, pursuant to which Host shall not construct new buildings or structures or install rooftop equipment, or plant new trees or vegetation of any type which now or hereafter, in Provider's reasonable opinion, may be a hazard to the Project, overshadow or otherwise block or interfere with sunlight access to the Project at all hours of the day. The solar easement granted herein includes rights of unobstructed sunlight, and in furtherance thereof, the Parties have included provisions regarding trimming of vegetation and removal of obstructions which could impair insolation of the Project.

(iv) Interconnection Easement. An exclusive right to construct, operate, maintain, reconstruct, relocate, remove, and/or repair the electric utility service infrastructure and associated wires, lines and poles and other infrastructure necessary and convenient to interconnect the Project to the Local Electric Utility electrical distribution system, across portions of the Property to be determined by the Local Electric Utility, subject to the consent of Host and Provider, such consent not to be unreasonably withheld, conditioned or delayed. Provider shall bear all costs associated with interconnection, including fees, permits, taxes and charges.

(b) Quiet Enjoyment of Premises. Host hereby leases the Premises to Provider and Provider leases the Premises from Host for the Permitted Uses for the Term. Provided that Provider remains in compliance with its obligations under this Lease, Provider shall lawfully and

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

quietly have, hold, occupy and enjoy the Premises, use of the Easements and Access Rights, and any other rights granted by this Lease twenty-four hours a day, seven days a week, for the entire Term free of any claim of any person of superior title thereto without hindrance, interruption, suit, or interference of any kind by Host or any other person or entity claiming (whether at law or in equity) by, through, or under Host.

(c) Access to Premises. For the Term of this Lease, Host hereby grants to Provider the rights necessary for Provider to use and occupy portions of the Premises for the installation, operation, maintenance, repair, and removal of the Project pursuant to the terms of this Lease, including ingress and egress rights to the Premises for Provider and its employees, contractors and subcontractors and access to electrical panels and conduits to interconnect or disconnect the Project with the Premises' electrical wiring. Host hereby covenants that (i) Provider shall have access to the Premises and Project during the Term of this Lease and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, and (ii) Host shall not interfere or handle any Provider equipment or the Project without written authorization from Provider; provided, however, that Host shall at all times have access to and the right to observe the Installation Work or Project removal.

(d) No Interference. Host agrees not to conduct activities on, in or about the Property that have a reasonable likelihood of causing damage or impairment to, or otherwise adversely affecting, the Project. Host shall take reasonable steps to limit access to the Project to prevent theft, damage, vandalism and injury. Host and Provider agree to cooperate to determine if any commercially reasonable security measures are required at the Property. Provider shall have the right to provide and install such reasonable security measures, as Host and Provider deem in their reasonable discretion, are or may be necessary for the protection of the Project or to prevent injury or damage to persons or property, subject in all cases to Host's normal security procedures and Provider's Access Rights.

(e) Storage Space. Host shall provide temporary space at the Property for the storage and staging of tools, materials and equipment and for the parking of construction crew vehicles and temporary construction trailers and facilities reasonably necessary during the Installation Work, service events during the Term, or Project removal, and access for rigging and material handling. Provider shall be responsible for providing shelter and security for stored items during construction and installation.

(f) Recording. Provider may record a Notice of this Lease in substantially the same form attached hereto as Exhibit C in the land records regarding its Access Rights under this Lease.

4. HAZARDOUS MATERIALS; SITE SECURITY; SITE CONDITIONS.

(a) Hazardous Materials. Provider and Installer are not responsible for any Hazardous Materials encountered at the Site except to the extent introduced and negligently released by Provider or Installer. Upon encountering any Hazardous Materials, Provider and Installer will stop work in the affected area and duly notify Host and, if required by Applicable Law, any Governmental Authority with jurisdiction over the Site. Upon receiving notice of the presence of suspected Hazardous Materials at the Site, Host shall take all measures required by Applicable

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Law to address the Hazardous Materials discovered at the Site. Host may opt to remediate the Site so that the Project may be installed on the Site, or determine that it is not economically justifiable or is otherwise impractical to remediate the Site, in which case Host and Provider may agree upon a different location for the Project whereupon such replacement location shall be the Site for purposes of this Lease. Provider and Installer shall be obligated to resume work at the affected area(s) of the Site only after Host notifies Provider and Installer that Host has complied with all Applicable Laws, and causes to be delivered to Provider from an authorized Governmental Authority or a qualified independent expert a written certification that (i) remediation has been accomplished as required by Applicable Law and (ii) all necessary approvals have been obtained from any Governmental Authority having jurisdiction over the Project or the Site. Host shall reimburse Provider for all additional costs incurred by Provider or Installer in the installation of the Project resulting from the presence of and/or the remediation of Hazardous Materials, including demobilization and remobilization expenses. Notwithstanding the preceding provisions, Host is not responsible for any Hazardous Materials introduced to the Site by Provider or Installer and released as a result of the negligence of Provider or Installer, nor is Host required to remediate an affected area if such remediation is deemed to be economically unjustifiable or otherwise impractical.

(b) Site Security. Host will provide security for the Project to the extent of its normal security procedures, practices, and policies that apply to the Property. Host will advise Provider immediately upon observing any damage to the Project. Upon request by Provider, such as Provider receiving data indicating irregularities or interruptions in the operation of the Project, Host shall, as quickly as reasonably practicable, send a person to observe the condition of the Project and report back to Provider on such observations. Notwithstanding anything to the contrary, except in the case of gross negligence or willful action/inaction on the part of Host's security, Provider shall bring no claim against Host based upon performance of Host's security personnel.

(c) Host shall not be required to make any repairs or alterations in or to the Site, except as follows: Complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) The Parties agree that Provider shall not be liable for any conditions on the Site arising from or related to acts or omissions occurring prior to the Effective Date, except to the extent arising from or related to Provider's negligence or willful misconduct or to the extent that such conditions on the Site are exacerbated by the Provider or Installer.

5. CONSTRUCTION; OPERATION OF PERMITTED USES; ROOF.

(a) Provider and its contractors, agents, consultants, and representatives shall have reasonable access at all reasonable times to the Site for the Permitted Uses, and to any documents, materials and records of Host relating to the Site that Provider reasonably requests in conjunction with these activities. Provider, and its contractors, agents, consultants and representatives shall comply with Host's reasonable safety and security and operational procedures (as may be promulgated from time to time), and Provider and its contractors, agents, consultants and representatives shall conduct such activities in such a manner and at such a time and day as to cause minimum interference with Host's activities at the Site.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider shall operate, maintain, and repair the Project in a manner that will not obstruct or interfere with Host's use of the Site or the rights of any other occupants of the Site, to the extent such rights are disclosed to Provider.

(c) For rooftop projects only:

(i) Provider shall install the Project in a manner that will not void the roof warranty, provided Host has provided such warranty, in writing

(ii) The Parties agree to the following with respect to repairs to the roof to be made prior to the commencement of construction: Host shall perform complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) Host has provided to Provider Host's available records of the physical condition of the Premises which, to the best of Host's knowledge, are complete and correct. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project is to be installed, are materially different from the information provided by Host, then the Parties shall negotiate in good faith to adjust the rates payable by Host in order to compensate Provider for the cost of design and construction changes and delays incurred to adapt the Project to the unknown conditions and, if the parties cannot agree to a good faith rate adjustment after thirty (30) days, Provider shall have the right to terminate this Lease and the PPA.

(e) Except with the prior express written consent of Host, Provider shall not use the Premises for any use other than the Permitted Uses.

(f) During the course of construction and completion of the Project and any substantial alteration thereto, Provider shall maintain all plans, shop drawings, and specifications relating to such construction which Host, its agents or representatives may examine at reasonable times upon reasonable prior notice for the purpose of determining whether the work conforms to the PPA and this Lease.

(g) Host has been informed by Provider and acknowledges that the presence of and construction and operation of the Project and other activities related to the development, operation and decommissioning of the Project may potentially result in some nuisance to Host, such as visual impact. Host hereby accepts such nuisance and waives any right that Host may have to object to such nuisance and Host releases Provider from any claims Host may have with respect to any such nuisance, provided the Project as built is consistent with the site plan and specifications attached hereto, as amended from time to time, or otherwise approved by Host, which approval shall not be unreasonably withheld, conditioned or delayed.

(h) For rooftop projects only, Host shall, at its sole cost and expense, throughout the Term, maintain, repair and replace in a good and workmanlike manner as and when necessary, the building on which the Project is installed, including all building structural portions, and portions of the Property subject to Access Rights. Host shall perform all maintenance, repairs and replacements required under this subsection (h) (collectively, the "**Maintenance**") promptly after

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Host learns of the need for such Maintenance, but in any event within thirty (30) days after Provider gives written notice to Host of the need for such Maintenance, and shall coordinate any Maintenance with Provider if such Maintenance requires access to the Premises; provided, however, that in cases of emergency, Host shall perform Maintenance as soon as reasonably practicable after it learns of the need for such Maintenance. Host shall reimburse Provider for any damage to the Project caused by Host's Maintenance activities.

(i) Provider covenants and agrees to perform all work, including the construction, alteration (if permitted), repair and maintenance of the Project in a good and workmanlike manner and in such a way as to minimize noise, dust and interference with the operation, use and enjoyment of the Property by Host, or by other tenants, visitors or users of the Property.

(j) Provider shall, at Provider's expense, comply with all laws and regulations applicable to Provider's installation and operation of the Project at the Property, and shall be responsible for obtaining all permits or approvals required by any applicable authority in order to construct and operate the Project, and to comply, at all times during the term of this Lease, with all such permits and approvals.

(k) Provider covenants and agrees to keep the Project in good order, repair and condition throughout the Term, and to promptly and adequately repair all damage to the Premises and the Property caused by Provider or the Project. During the Term, any and all installation and construction work performed on the Property by Provider shall be conducted in a manner to comply with any requirements of any roof warranty delivered to Provider by Host (provided, however, in the event of a roof warranty that is not existing as of the Effective Date, Provider shall comply with such requirements to the extent that they do not interfere with Provider's use of the Project).

(l) Provider shall not bring into or install or keep on the Premises, any objects, including the Project, the weight of which, singularly or in the aggregate, would exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof, as required by local building code. Provider shall engage an engineer licensed and qualified where the Project is located to certify the same to Host before Provider shall install, affix or place any part of the Project upon the Premises, with a copy of such certification to be provided to the Host.

(m) The Provider shall not make any alterations, improvements and/or additions to the Site, except as shown on the plans approved by Host as of the Effective Date, without first obtaining, in each instance, the written consent of the Host, which consent shall not be unreasonably withheld, delayed or conditioned.

(n) Provider acknowledges and agrees that the Premises are being leased by Provider in their condition as of the delivery date, "As Is," without representation or warranty except for the express representations and warranties made by Host in this Lease and in the PPA, and Provider hereby waives any implied warranty that the Site is habitable or suitable for Provider's intended purposes or any other particular purpose. Provider acknowledges that Provider has inspected the Premises, and that by commencing construction of the Project, Provider will be deemed to have

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

found the same satisfactory. Provider agrees that Host is under no obligation to perform any work or provide any materials to prepare the Premises for Provider, except as set forth in Section 4(c) of this Lease.

6. RENT. In lieu of monetary rent, the consideration for this Lease is the terms of the PPA.

7. INTENTIONALLY OMITTED.

8. PERMITS, OWNERSHIP OF PROJECT, LIENS, MORTGAGES.

(a) Permits. Provider shall pay for and obtain all approvals from governmental entities necessary for the construction and operation of the Project, including land use permits, building permits, demolition and waste disposal permits and approval. Host shall cooperate in good faith with Provider and shall execute any such applications promptly upon request by Provider, and shall not unreasonably oppose or interfere with Provider in such regard. Provider shall provide Host with copies of all permits obtained in the approval process of the Project.

In furtherance of the above, Host hereby authorizes Provider to file with such federal, state and local authorities as Provider deems appropriate, and in the name of Host, Provider or both, as Provider deems appropriate (i) one or more applications to obtain any zoning relief regarding the Property or portions thereof as may be necessary and/or desirable to develop, construct and operate the Project on the Premises; and (ii) one or more applications to obtain construction, use or occupancy permits for the Project or any portion thereof.

(b) Project Ownership. Provider or Financing Party shall be the legal and beneficial owner of the Project at all times. The Project is personal property and shall not attach to or be deemed a part of, or fixture to, the Site. The Project shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. Host covenants that it will place all persons having an interest in or lien upon the real property comprising the Premises, on notice of the ownership of the Project and the legal status or classification of the Project as personal property. Host and/or Provider shall make any necessary filings to disclaim the Project as a fixture of its respective Premises and Site in the appropriate Land Registry to place all interested parties on notice of the ownership of the Project by Provider.

(c) Liens. To the extent permitted by Applicable Law, each Party shall not directly or indirectly cause, create, incur, assume or suffer to exist any mortgage, pledge, lien, (including mechanics', labor or materialman's lien), charge, security interest, encumbrance or claim of any nature, including claims by governmental authorities for taxes (collectively referred to as "Liens" and each, individually, a "Lien") on or with respect to the interests of the other in the Site, the Premises, and the Project, and in the Access Rights granted hereunder. Provider shall, to the extent allowed under Applicable Law, have Installer execute lien waivers with respect to any mechanic's or materialman's lien against Host's interest in the Site. If permitted under Applicable Law, Host will post notices of non-responsibility to notify Installer and others that Host is not responsible for work performed on the Project. Each Party shall promptly notify the other of the imposition of a Lien on the property interests of the other Party, and shall promptly discharge such lien, provided however, that a Party may seek to contest the amount or validity of any Lien affecting the property

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

of the other Party, provided it timely complies with all procedures for contesting such Lien, posts any bond or other security necessary under such procedures, and if such procedures do not require the posting of security, the Party establishes for the benefit of the other Party a deposit, letter of credit, or other security acceptable to the other Party to indemnify the other Party against any Loss which could reasonably be expected to arise if such Lien is not removed or discharged.

(d) Non Disturbance Agreements. Host shall pay for and obtain all consents required for it to enter into and perform its obligations under this Lease from its lenders, landlord, tenants, and any other persons with interests in the Site. If there is any mortgage, deed of trust, fixture filing or ground lease or similar encumbrance (a "**Mortgage**," and the holder thereof from time to time the "**Holder**") encumbering the Property, whether executed and delivered prior to or subsequent to the date of this Lease, Host shall, promptly upon request of Provider, use commercially reasonable efforts to cause the Holder of any such Mortgage to enter into a mutually agreeable nondisturbance agreement, which provides that (i) this Lease is subordinate to the Mortgage (unless the Holder shall elect otherwise); (ii) in the event that the Holder or any other party shall succeed to the interest of Host (such Holder or other party, a "Successor"), at the election of the Holder or Successor, Provider shall attorn to the Holder or Successor and this Lease shall continue in full force and effect between the Holder or Successor and Lessee; (iii) in the event of foreclosure of the Mortgage, so long as the Provider is not in default with the Lease after any applicable cure period, Holder agrees to recognize the rights of the Provider under this Lease, including Provider's Access Rights and the priority of Provider's (and/or Financing Party's rights) in the Project; and (iv) Holder or Successor recognizes that the ownership of the Project remains in Provider and acknowledges that the Project is personal property of Provider. Such nondisturbance agreement shall be substantially in the form attached hereto as Exhibit D or in the form customarily used by Holder, and it shall be recorded, at Host's expense, in the appropriate Land Registry. If Host is the fee owner of the Premises, Host consents to the filing of a disclaimer of the Project as a fixture of the Premises in the Land Registry. If Host is not the fee owner, Host will obtain such consent from such owner of the Premises.

9. REMOVAL AT END OF TERM.

Subject to Host's exercise of its purchase option under Section 9(a) or 9(b) of the PPA, upon the expiration or earlier termination of the Lease, Provider shall, at Provider's expense, remove all of its tangible property comprising the Project from the Premises on a mutually convenient date but in no case later than one hundred eighty (180) days after the Expiration Date, which may be extended on a day to day basis if the circumstances warrant and are agreeable to the Parties. The Premises shall be returned to its original condition except for ordinary wear and tear. If the Project is to be located on a roof, then in no case shall Provider's removal of the Project affect the integrity of Host's roof, which shall be as leak proof as it was prior to installation of Project (other than ordinary wear and tear). For purposes of Provider's removal of the Project, Host's covenants pursuant to Section 3 (Lease Rights) and Section 16 (Representations and Warranties) shall remain in effect until the date of actual removal of the Project. Provider shall leave the Premises in neat and clean order. If Provider fails to remove or commence substantial efforts to remove the Project by such agreed upon date, Host shall have the right, at its option, to remove the Project to a public warehouse and restore the Premises to its original condition (other than ordinary wear and tear) at Provider's reasonable cost.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

10. RELOCATION; CLOSURE OR SALE OF SITE.

Sections 10(c) (Relocation) and 10(e) (Sale of Site) of the PPA are incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

11. TAXES.

Section 11 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease.

12. INSURANCE.

Section 12 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

13. COOPERATION; SOLAR ACCESS; FUTURE IMPROVEMENTS; RIGHT TO INSPECT AND ENTER.

(a) Cooperation. Section 13(a) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein. Additionally, Host shall execute and deliver to Provider and/or the Local Electric Utility any agreements required by Local Electric Utility for the interconnection of the Project with the Local Electric Utility's distribution system.

(b) Host to Not Restrict Solar Access. Host, or any lessee, grantee, invitee or licensee of Host, shall not erect any structures on, or make other modifications to, or plantings on, or engage in any activities on, the Site which will interfere with the construction, operation or maintenance of, or solar access of, the Project. Further, Host shall maintain the Premises in a manner which allows for full unobstructed passage of sunlight to the Project, including removing or trimming vegetation or other objects causing shading of the Premises. Provided, however, for rooftop projects, Host may construct, reconstruct, modify, or alter the Premises so long as such activities do not interfere (including shading) with the operation of the Project. Host's failure to comply with its obligations in this section 13(b) shall be a material breach. Provided, however, Host shall have thirty (30) days to cure such breach.

(c) Provider's Right to Remove. The parties hereby acknowledge that Provider shall have the right (but shall not be obligated) to trim or remove, at Host's reasonable cost, any trees or other vegetation now or hereafter on the Site which now or hereafter in the reasonable opinion of Provider may overshadow or otherwise block or interfere with access of sunlight to the Project.

(d) Adjoining Properties. If Applicable Law and existing easements do not ensure that structures or plantings on adjoining property will not interfere with the solar access for the Project, then Host and Provider shall use commercially reasonable efforts to obtain from owners of adjoining properties any easements reasonably necessary to protect the solar access of the Project. Such easements shall run for the benefit of both Host and Provider. Provider shall pay for the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

expense of obtaining such easements, including payments to property owners and legal costs, but the rates payable by Host for electric energy from the Project shall be increased by an amount sufficient for Provider to fully amortize such costs, over a period equal to the lesser of (i) five years or (ii) the remaining term of this Lease without regard to Host's option to purchase the Project.

(e) Right to Inspect and Enter. Host and its agents, consultants, and representatives shall have reasonable access to the Premises at all reasonable times, subject to Provider's reasonable safety, security, and operational rules and, except for emergency situations, subject to Provider's consent which shall be obtained at least 5 business days prior and such consent not to be unreasonably withheld, conditioned or delayed, to inspect the Premises for the purpose of ascertaining its condition and to carry out such maintenance and repairs to Host's property and equipment as may be required; provided, however, that such access shall not interfere with Provider's performance of its obligations hereunder; and provided, further, that neither Host nor any of its agents, employees, consultants, contractors or representatives shall operate, touch or perform any repair or maintenance to the Project.

14. PRESS RELEASES AND CONFIDENTIALITY.

Section 14 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

15. INDEMNIFICATION.

Section 15 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

16. REPRESENTATIONS AND WARRANTIES.

Section 16 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

17. FORCE MAJEURE; CASUALTY.

Section 17 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

18. INTENTIONALLY OMITTED.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Section 19(a) (Provider Events of Default) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

(b) Remedies. Upon the occurrence of a Provider Event of Default, Host may, at its option, terminate this Lease, and shall be entitled to exercise any and all rights and remedies available under this Lease, at law or in equity.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Section 20(a) (Host Events of Default) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

(b) Remedies. Upon the occurrence of a Host Event of Default, Provider may, at its option, terminate this Lease, and shall be entitled to exercise any and all rights and remedies available under this Lease, at law or in equity.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

Section 21 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

22. LIMITATIONS ON DAMAGES.

Section 22 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

23. DISPUTE RESOLUTION.

Section 23 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

24. NOTICES.

Section 24 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

25. MISCELLANEOUS.

Section 25 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

EXHIBIT B to Lease Agreement

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT C to Lease Agreement
Form of Notice of Lease
[On following Page]

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Record and return to:
Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

[insert address]

NOTICE OF LEASE

In accordance with the provisions of Massachusetts General Laws, Chapter 183, section 4, as amended, notice is hereby given of the following described lease and easements:

Parties to the [insert name of lease agreement] (the "Lease"):

Host/Landlord:

Provider/Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
(and its successors and/or assigns)

Property Description: The real property located at [Street], [Town, State Zip] described on the attached Exhibit A (the "Property"). For Landlord's title see Deed recorded with the [__Insert County___] [Registry of Deeds/Land Records] in [Book _____, Page _____] [Certificate of Title No_____].

Description of Leased Premises: A portion of the Property as described on the attached Exhibit B where solar equipment will be installed and accessed for the term of the agreement, including the roofs, exterior and interior walls, through to the main electric room, and exterior areas of the Property. (the "Lease Area")

Date of Execution of the Lease: _____ (the "Effective Date").

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Term of Lease:

The Term of the Lease includes a Development Period, Operations Period and Decommissioning Period. The Lease shall commence on the Effective Date and, unless terminated earlier pursuant to the provisions of the Lease, the Operations Period shall continue until 11:59 p.m. on the last day of the calendar month in which the twentieth (20th) anniversary of the Commercial Operation Date, as defined in the Lease, unless the Tenant exercises the Options to Extend, in which case the Term of Lease shall include the Development Period, the Operations Period, the [Extension Terms] and the Decommissioning Period.

Options to Extend:

Tenant shall have the right to extend the Term of the Lease for [_____] year terms.

Decommissioning Period

Tenant shall remove the System within 180 days of the termination of the Lease, (provided that if such 180 day term ends within the months of December, January, February, March, or April, the Decommissioning Period shall extend to July 31) whereupon the Lease shall expire and shall be of no further force and effect

Easements.

(a) Under the Lease, Landlord granted the easements (the "Easements") to Tenant described in Exhibit C across and burdening the Property.

(b) Landlord's grant of Easements in the Lease shall commence on the Effective Date and end upon termination of the Decommissioning Period.

Ownership of the Facility.

Landlord shall have no right, title or interest in the solar energy facility (as defined in the Lease) ("Project") or any component thereof and Tenant shall be the exclusive owner thereof.

Miscellaneous

1. This Notice of Lease may be executed in multiple counterparts, each of which shall be deemed an original and all of which, together, shall constitute one and the same instrument.

2. This Notice of Lease does not describe or refer to all of the terms or conditions contained in the actual Lease and nothing contained herein shall serve to modify or amend the terms of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

actual Lease. In the event of any inconsistency between the provisions of the Lease and the provisions of this Notice, the provisions of the Lease shall control.

3. Any capitalized term not defined herein shall have the definition ascribed to it in the Lease.

EXECUTED as a sealed instrument on as of _____ __, 202_.

FORM OF SNDA

SUBORDINATION, NON-DISTURBANCE AND ATTORNMENT AGREEMENT

THIS AGREEMENT (this "Agreement") is made as of this _____ day of _____, 20__, by and among _____, a duly organized banking association, with a principal office at _____("Lender"), _____("Landlord"), and Solect Energy Development LLC, ("Tenant").

W I T N E S S E T H

WHEREAS, Tenant and Landlord have entered into a Lease Agreement dated _____, 20__, (the "Lease") covering the premises located at _____ (the "Premises"), notice of which is recorded with [Name of Registry] (the "Registry") in Book _____, Page _____, (being the property more particularly described in Exhibit A attached hereto and incorporated herein) pursuant to which Tenant has installed or will install on the Premises a photovoltaic facility for the generation of electricity from solar energy (the "Solar Facility"); and

WHEREAS, Lender is the mortgagee pursuant to a [Mortgage and Security Agreement dated _____] (the "Mortgage") and a [Conditional Assignment of Rents and Leases dated _____] (the "Assignment") encumbering, the Premises which are both recorded with the _____ Registry in Book _____page _____ and Book _____ page _____ respectively; and

WHEREAS, Lender, Tenant, and Landlord wish to set forth respective rights of each party;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter contained and other valuable consideration, the parties hereto covenant and agree as follows:

1. The Lease and any extensions, renewals, replacements or modifications thereof, and all of the right, title and interest of Tenant thereunder in and to the Premises are and shall be subject and subordinate to the Mortgage and to all of the terms and conditions contained therein, and to any advances, renewals, modifications, replacements, consolidations, amendments and extensions thereof.

2. Lender consents to the Lease and in the event Lender comes into possession of or acquires title to the Premises as a result of the foreclosure, or other enforcement of the Mortgage, or as a result of any other means, Lender agrees that Lender will recognize Tenant and will not disturb Tenant or Tenant's financing parties in their possession of the Premises or their rights in the Lease for any reason other than one which would entitle Landlord to terminate the Lease under its terms or would cause, without any further action by Landlord, the termination of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease, and the Lease will continue in full force and effect as a direct agreement between Lender and Tenant.

3. The Solar Facility shall not be, or be deemed to be, a part of or an accession or addition to or a fixture on the Premises even though the Solar Facility is installed on the Premises; nor shall the Solar Facility be moved from the Premises by the Lender unless Tenant's prior written consent to such move has been obtained.

4. Lender waives any and all right, title and interest in the Solar Facility and shall not acquire any such right title or interest by virtue of the installation of the Solar Facility on the Premises. The undersigned Lender further waives any right to seize, or to claim any interest, whatsoever in the Solar Facility on account of any claim or right the undersigned may have against any person, including, without limitation, any claim or right the undersigned may have or assert against the Landlord, by foreclosure or otherwise.

5. Tenant may at any time, at its option, enter upon the Premises and inspect, maintain, remove or repair the Solar Facility to the extent provided in the Lease.

6. When sending to Landlord any notice of impending or actual foreclosure of the Premises, the undersigned Lender shall concurrently provide Tenant a copy of the same.

7. Tenant agrees with Lender that if the interests of Landlord in the Premises shall be transferred to and owned by Lender by reason of foreclosure or other proceedings brought by it, or any other manner, or shall be conveyed thereafter by Lender or shall be conveyed pursuant to a foreclosure sale of the Premises, Tenant shall be bound to Lender under all of the terms, covenants and conditions of the Lease for the balance of the time thereof remaining and any extensions or renewals thereof which may be effected in accordance with any option therefor in the Lease, with the same force and effect as if Lender were the landlord under the Lease and Tenant does hereby attorn to Lender as its landlord, said attornment to be effective and self-operative without the execution of any further instruments on the part of any of the parties hereto immediately upon Lender succeeding to the interest of Landlord in the Premises. Notwithstanding the foregoing, Lender shall not be: (i) liable for any act or omission of Landlord, or for any fact, circumstance or condition existing or arising prior to Lender's succession in interest to Landlord unless such fact, circumstance or condition shall continue after such succession; or (ii) subject to any offsets, claims or defenses which Tenant might have against Landlord, except as set forth in the Lease.

8. This Agreement shall bind and inure to the benefit of the parties hereto, their successors and assigns. As used herein the term "Tenant" shall include Tenant, its successors and assigns; the words "foreclosure" and "foreclosure sale" as used herein shall be deemed to include the acquisition of Landlord's estate in the Premises by voluntary deed (or assignment) in lieu of foreclosure; and the word "Lender" shall include the Lender herein specifically named and any of its successors, participants and assigns, including anyone who shall have succeeded to Landlord's interest in the Premises by, or through, Lender foreclosure of the Mortgage.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

9. All notices, consents and other communications pursuant to the provisions of this Agreement shall be in writing and shall be sent by registered or certified mail, return receipt requested, or by a reputable commercial overnight carrier that provides a receipt, or by facsimile with confirmation of transmission, and shall be deemed given when postmarked and addressed as follows:

If to Lender:

If to Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

If to Landlord:

or to such other address as shall from time to time have been designated by written notice by such party to the other parties as herein provided.

10. This Agreement may not be modified orally or in any manner other than by agreement, in writing, signed by the parties hereto. This Agreement may be executed in counterparts, each of which shall be deemed an original, and such counterparts taken together shall constitute but one agreement. This Agreement shall be governed by the laws of the state or commonwealth where the Premises are located.

MEMORANDUM

TO: Melrose City Council

FROM: Martha Grover, Sustainability Manager

RE: Hoover and Horace Mann Solar PPA/Lease Authorization

DATE: February 13, 2023

Attached for your review are the Solar Power Purchase and Lease agreements with Solect Energy Development to install a 67.3 kW AC and 50 kW AC system on the Hoover and Horace Mann Elementary School roofs respectively. We seek authorization from the City Council for Mayor Brodeur to execute these agreements.

The city has worked with Solect for over a year to develop these projects and take advantage of the new roofs scheduled to be installed this summer, favorable federal tax credits, Block 10 utility SMART incentives, and fantastic solar access at these two schools. Action 28 in the Melrose Net Zero Action seeks to "Maximize the installation of clean energy sources on municipal property" and these projects are in line with and support the city's effort to lead by example.

I look forward to answering your questions at a future meeting but don't hesitate to reach out in advance at mgrover@cityofmelrose.org or 781.979.4195 as well.

POWER PURCHASE AGREEMENT

This Power Purchase Agreement ("**Agreement**" or "**PPA**") is entered into as of _____, (the "**Effective Date**"), by and between City of Melrose, a municipality with an address of 562 Main St Melrose, MA 02176 ("**Host**"), and Solect Energy Development LLC, ("**Solect**" or "**Provider**") a Limited Liability Company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement dated June 30th, 2020, as amended, governing the terms and conditions of Provider's participation in the PowerOptions Solar and Storage Program;

WHEREAS, Host is the owner of the properties located and described in Exhibit C and desires to make a portion of such properties available to Provider for the construction, operation and maintenance of a solar powered electric generating Project, and to purchase from Provider the electric energy produced by the Project;

WHEREAS, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended; and

WHEREAS, Provider desires to develop, design, construct, own and operate the Project located at and described in Exhibit D, and sell to Host the electric energy produced by the Project; and

WHEREAS, Provider and Host have entered into that certain Lease dated on or about the date hereof (as amended or modified from time to time, the "**Lease**") pursuant to which Host has granted Provider a leasehold interest and certain use and access rights to the Premises.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Agreement have the meanings set forth in the attached GLOSSARY OF TERMS or as defined in the body of this Agreement.

2. TERM.

(a) Term. This Agreement shall consist of an Initial Period and an Operations Period. As used herein, "**Term**" shall mean all of the Initial Period and the Operations Period, unless the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider or Host terminates the Agreement prior to the end of the Initial Period pursuant to the terms of this Agreement, but any such termination shall not terminate any provisions hereof that expressly survive such termination.

(b) Initial Period. The Initial Period will begin on the Effective Date and will terminate on the earlier of (i) the Commercial Operation Date or (ii) the date the Agreement is terminated pursuant to the provisions of Section 4(b) or 4(d).

(c) Operations Period. The Operations Period will commence on the Commercial Operation Date and will terminate at 11:59 p.m. on the last day of the month in which the twentieth (20^{th}) anniversary of the SMART Incentive Payment Effective Date.

(d) Extensions. Provider shall have one option to extend the Operations Period for five (5) years (an "**Extension Term**") upon mutual agreement between Provider and Host. Provider shall delivering a written request to extend to Host at least six months prior to the end of the Operations Period, or Extension Term, as the case may be. Any extension shall be reflected in a written amendment to this Agreement signed by the Parties.

(e) Early Termination by Host. If Host terminates the Agreement prior to the Expiration Date, except as otherwise provided in this subsection (e), Section 9 (Purchase Option), Section 17 (Force Majeure), or Section 19 (Provider Event of Default and Host Remedies), Host shall pay, as liquidated damages, the Early Termination Amount set forth on Exhibit B, and Provider shall cause the Project to be disconnected and removed from the Premises in accordance with the Lease. Upon Host's payment to Provider of the Early Termination Amount, this Agreement and the Lease, in accordance with its terms, shall terminate automatically. Notwithstanding the foregoing, Host may (i) terminate this Agreement with no liability whatsoever pursuant to Section 4(d) or (ii) in lieu of termination, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date, be entitled (as its sole and exclusive remedy) to (x) the payment by Provider to Host of Delay Liquidated Damages not to exceed $15/kW in the aggregate, plus (y) (if Installation Work had commenced at the Premises as of the date of termination) all direct costs reasonably incurred by Host to return its Premises to its condition prior to commencement of the Installation Work if Provider fails to do so within a reasonable time, as required pursuant to the Lease. Alternatively, Host may terminate this Agreement with no liability whatsoever if Provider fails to commence the Operations Period by the date that is 60 days after the Guaranteed Commercial Operation Date.

The Construction Start Date and Guaranteed Commercial Operation Date shall be extended on a day-for-day basis due to (a) Force Majeure or (b) acts, omissions or delays of a Governmental Authority or Local Electric Utility. Provided, however that clause (b) shall be beyond the reasonable control of the Provider and not caused by the Provider's fault or negligence. Provided, further that the day-to-day extension of the Construction Start Date shall not exceed one hundred eighty (180) days, unless otherwise mutually agreed by the Parties in writing.

3. ACCESS RIGHTS.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(a) Access Specifications. Pursuant to the Lease, Provider has access to and use of the Premises for the Term for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and for any other purpose set forth in this Agreement or in the Lease, and otherwise in accordance with the provisions of the Lease. Access Rights with respect to the Site are more fully described in the Lease and include, without limitation, vehicular and pedestrian access, and other rights to install electrical lines and communications cables.

(b) Remote Monitoring. Host will provide an internet portal or equivalent access by means of which Provider will communicate data from the revenue grade performance monitoring system. Provider will be responsible for connecting monitoring equipment for the Project to the internet enabling remote monitoring of the Project.

4. PLANNING, INSTALLATION AND OPERATION OF PROJECT.

(a) Site Assessment and Planning. During the Initial Period, Provider shall have the right, at its own expense, to assess the suitability of the Premises for the Project and shall act diligently in conducting such assessment. The assessment shall include the right to inspect the physical condition of the structures on which the Project will be located; to apply for any building permits or other governmental authorizations necessary for the construction of the Project; to arrange interconnections with the Local Electric Utility; to make any applications to the appropriate Public Utilities Commission or other agencies for receipt of payments for the Project under the Applicable Solar Program; to apply to any other governmental agencies or other persons for grants or other determinations necessary for the construction of or receipt of revenues from the Project; or to make any other investigation or determination necessary for the financing, construction, operation or maintenance of the Project. The Provider shall, in accordance with Section 5(l) of the Lease, at its own cost, engage an engineer licensed and qualified in the state where the Project is located, to certify that any objects brought, installed or kept on the Premises will not exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof as required by local building code. Provider shall provide a copy of any structural engineering analysis to Host at Host's request.

(b) Termination of Development Activities by Provider. At any time during the Initial Period, Provider shall have the right to cease development of the Project and terminate this Agreement upon written notice to Host if:

(i) Provider determines that the Premises, as is, are insufficient to accommodate the Project; or

(ii) there exist site conditions or construction or interconnection requirements that were not known as of the effective date of this Agreement and that could reasonably be expected to materially increase the cost of Installation Work or would adversely affect the electricity production from the Project as designed;

(iii) there has been a material adverse change in the rights of Host to occupy the Premises or Provider to construct the Project on the Premises;

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) an interconnection agreement with the Local Electric Utility, in form and substance satisfactory to Provider, is not executed by Provider and the Local Electric Utility within two hundred seventy (270) days after the date of this Agreement;

(v) Provider has not obtained financing within twelve months after the date of this Agreement to construct, install, own and operate and maintain the Project;

(vi) the Project does not qualify under the Applicable Solar Program;

(vii) despite its diligent efforts, Provider does not obtain all permits and approvals, on terms and conditions satisfactory to Provider, which are necessary for the construction, operation and maintenance of the Project; or

(viii) the Project is not exempt from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45 (Acts of 2021, Chapter 8, §61, as amended and the Massachusetts Department of Revenue regulations adopted in connection therewith) and a Payment In Lieu of Taxes Agreement with the municipality where the Project is located is not executed and approved by the municipality to establish fixed payments in the amount(s) set forth on Exhibit A-1.

If Provider gives Host notice of such termination, this Agreement shall terminate effective as of the date specified in delivery of such notice without any further liability of the Parties to each other, provided that (i) Provider shall remove any equipment or materials which Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to its pre-existing condition; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(c) Commencement of Construction, Modification of Design. Provider shall conduct a construction kick off meeting with Host. Upon prior notice to Host, Provider shall have the right to commence installing the Project on the Premises in accordance with the agreed-upon schedule as determined during the construction kick off meeting.

(i) As of the date hereof, Provider anticipates that the Project shall consist of the components and shall have the designs set forth in Exhibit E attached hereto.

(ii) Notwithstanding subsection (i) above, Provider has the right to modify the design of the Project, including the selection of the components in the Project, as Provider, in its sole discretion, may determine, provided, however, that such changes shall not result in the Project exceeding the nameplate capacity, building footprint (if project is on the roof), location and height set forth in Exhibits D and E, without Host's approval.

(d) Construction Commencement Deadline. If Provider has not commenced the Installation Work before the Construction Start Date, Host may terminate this Agreement and the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease by delivering notice to Provider of its intention to terminate this Agreement, and the Agreement shall terminate twenty-one (21) days after Provider's receipt of such notice; provided, that if Provider commences the Installation Work within such twenty-one (21) day period, this Agreement shall not terminate. Upon any termination in accordance with this Section 4(d) neither Party shall have any further liability to the other with respect to this Agreement, provided that (i) Provider shall remove any equipment or materials that Provider has placed on the Site; (ii) Provider shall restore any portions of the Site disturbed by Provider to their condition prior to the commencement of construction; (iii) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the delivery of the notice; and (iv) the confidentiality provisions of Section 14, the indemnity obligations under Section 15 and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

(e) Contractors. Provider shall use licensed and insured contractors to perform the work of installing, operating, and maintaining the Project. Provider intends to use Installer to perform such work, but may use other contractors, for all or a portion of such work, in Provider's sole discretion. Provider shall advise Host of the Installer prior to commencement of the work on the Site. Provider shall be responsible for the conduct of Installer and its subcontractors, and Host shall have no contractual relationship with Installer or its subcontractors in connection with the work on the Project. Provider shall ensure that Installer maintains insurance applicable to the Installer's activities that satisfy the requirements in Exhibit G.

(f) Status Reports, Project Testing, Commercial Operation. Provider shall give Host regular updates, on a reasonable schedule requested by Host, on the progress of installation of the Project and shall notify Host of when Provider will commence testing of the Project. Testing shall be conducted in accordance with guidelines, standards and criteria reasonably accepted or followed by photovoltaic solar system integrators in the United States. Host shall have the right to have its representatives present during the testing process, but subject to reasonable written safety rules and procedures as may be established by Provider and Installer. After Provider has determined, in its reasonable judgment, that the Project meets the requirements of and has been approved for interconnection by the Local Electric Utility, has been installed in accordance with all Applicable Laws, and is capable of producing electricity on a continuous basis for at least four (4) continuous hours, Provider shall notify Host that the Installation Work is complete. Provider shall provide Host with written notice of the Commercial Operation Date for the Project, which may be immediately upon delivery of such notice to Host.

(g) Standard of Operation. Provider shall design, obtain permits, install, operate, and maintain the Project so as to keep it in good condition and repair, in compliance with all Applicable Laws and the requirements of the interconnection agreement, and in accordance with the generally accepted practices of the electric industry, in general, and the solar generation industry, in particular, and all instructions of any original equipment manufacturers' warranties for equipment included in the Project. Such work shall be at Provider's sole expense. Except for emergency situations or unplanned outages, Provider shall cause the work to be performed between the hours of 7:00 am and 7:00 pm, Monday through Saturday, in a manner that minimizes interference with Host and Host's employees, visitors, tenants and licensees and their customers to the extent commercially practical. Provider shall, and shall cause its contractors to,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

keep the Site reasonably clear of debris, waste material and rubbish, and to comply with reasonable safety procedures established by Host for conduct of business on the Site. In the event of an emergency or unplanned outage, Provider shall have unimpeded access to the Project, subject to any site-specific security requirements of Host.

(h) Provider Project Shut Down. Provider may shut down the Project at any time in order to perform required emergency repairs to the Project Provider shall give Host notice of such shutdown soon as reasonably practicable. At other times, Provider shall give Host advance notice of the shutdown as may be reasonable in the circumstances. Provider shall not have any obligation to reimburse Host for costs of purchasing electricity that would have been produced by the Project but for such shutdown unless the performance guarantee in Section 5(b) is not met. Provider and Host will agree upon a reasonable shut down duration. Provider shall use reasonable efforts not to schedule shutdowns during peak periods of electric generation and periods when peak energy and demand prices are charged by the Electric Service Provider, except as may be required in accordance with prudent electric industry safety practices in the event of equipment malfunction.

(i) Metering. Provider shall install and maintain a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy provided by the Project and may, at its election, install a revenue grade kilowatt-hour (kWh) meter for the measurement of electrical energy delivered by the Local Electric Utility and consumed by Host at the Premises.

Subject to any applicable requirements of the Local Electric Utility:

(i) Installation. Provider shall maintain and test the meter in accordance with but not limited to Applicable Law and as provided herein. Provider shall ensure that the meter is installed and calibrated correctly to manufacturer and utility specifications during commissioning of the Project.

(ii) Measurements. Readings of the meter shall be conclusive as to the amount of electric energy delivered to Host; provided that if the meter is out of service, is discovered to be inaccurate pursuant to Section 4(iii) below, or registers inaccurately, measurement of energy shall be determined by estimating by reference to quantities measured during periods of similar conditions when meter was registering accurately.

(iii) Testing and Correction.

A. Standard of Meter Accuracy; Resolution of Disputes as to Accuracy. The following steps shall be taken to resolve any disputes regarding the accuracy of the meter:

(1) If either Party disputes the accuracy or condition of the meter, such Party shall so advise the other Party in writing.

(2) Provider shall, within thirty (30) days after receiving such notice from Host, or Host shall, within such time after having received such notice from

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Provider, advise the other Party in writing as to its position concerning the accuracy of such meter and state reasons for taking such position.

(3) If the Parties are unable to resolve the dispute through reasonable negotiations, then either Party may cause the meter to be tested by an agreed upon and disinterested third party.

(4) If the meter is found to be inaccurate by not more than two percent (2%), any previous recordings of the meter shall be deemed accurate, and the Party disputing the accuracy or condition of the meter shall bear the cost of inspection and testing of the meter.

(5) If the meter is found to be inaccurate by more than 2% or if such meter is for any reason out of service or fails to register, then (1) Provider shall promptly cause any meter found to be inaccurate to be replaced or adjusted to correct, to the extent practicable, such inaccuracy, (2) the Parties shall estimate the correct amounts of energy delivered during the periods affected by such inaccuracy, service outage or failure to register as provided in Section 4 (i) (ii) or (iii), and (3) Provider shall bear the cost of inspection and testing of the meter and reimburse or credit Host if Host was the disputing Party. If as a result of such adjustment the quantity of energy for any period is decreased (such quantity, the "Electricity Deficiency Quantity"), Provider shall reimburse or credit Host for the amount paid by Host in consideration for the Electricity Deficiency Quantity, and shall bear the cost of inspection and testing of the meter. If as a result of such adjustment the quantity of energy for any period is increased (such quantity, the "Electricity Surplus Quantity"), Host shall pay for the Electricity Surplus Quantity at the price applicable during the applicable period.

B. Host's Right to Witness Tests. Host shall have the right to witness each test or any calibration of meters or monitoring equipment conducted by or under the supervision of Provider to verify the accuracy of the measurements and recordings of the meter or the monitoring equipment. Provider shall provide at least five (5) Business Days prior written notice to Host of the date upon which any such test or calibration is to occur. Provider shall prepare a written report setting forth the results of each such test, and shall provide Host with copies of such written report and the underlying supporting documentation not later than thirty (30) days after completion of such test. Host shall have the right to access all meters at reasonable times and with reasonable prior notice for the purpose of verifying readings and calibrations, but Host shall not have the right to open or undertake any other physical actions on the meters and access rights shall be subject to any requirements or limitations of the Local Electric Utility. If the metering equipment is found to be inaccurate, it shall be corrected and past readings shall be promptly adjusted in accordance with Section 4(i)(A)(5).

(iv) No Duty on Host. Notwithstanding the foregoing, the Parties acknowledge and agree that Host is under no responsibility or duty to ascertain, to inspect or to otherwise

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

determine whether the meter or any other part of the Project is out of service, is discovered to be inaccurate or registers inaccurate readings; is malfunctioning or is otherwise defective, it being agreed that at all times such responsibility or duty shall remain with the Provider.

5. SALE OF ELECTRIC ENERGY.

(a) Sale of Electricity. Throughout the Operations Period, subject to the terms and conditions of this Agreement and the Lease, Provider shall sell to Host and Host shall buy from Provider all electric energy produced by the Project, whether or not Host is able to use all such electric energy. The Point of Delivery of the electric energy shall be as indicated in Exhibit E. Title to and risk of loss with respect to the energy shall transfer from Provider to Host at the Point of Delivery. Provider shall own the Capacity Value of the Project. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host. The interconnection point of the Project with the Local Electric Utility shall be as indicated in Exhibit E.

(b) Performance Guarantee. Beginning on the Commercial Operation Date and as of each anniversary thereof, if the Project produces less than eighty-five percent (85%) of the applicable Estimated Annual Production specified in Exhibit F, unless, and then only to the extent that, the failure to meet the Estimated Annual Production is due to (i) failure, damage or downtime attributable to third parties or Host, (ii) equipment failure or delayed repair of equipment due to the claims process with the equipment manufacturer which are beyond the reasonable control of Provider, (iii) a Force Majeure Event, (iv) variability due to weather, (v) acts or omissions of Host of any of its obligations hereunder, (vi) any Host Requested Shutdown, Provider Safety Shutdown or Project Relocation under Section 10(a), (b), or (c); or (vi) any reduction in output attributable to interference with solar access of the Project by adjoining landowners; in its next invoice Provider shall credit Host an amount equal to the product of (i) the positive difference, if any, of the Avoided Energy Price during such period minus the applicable kWh Rate specified in Exhibit A, multiplied by (ii) the difference between the actual Project Output during such 12-month period and eighty-five percent (85%) of the Estimated Annual Production for such period. Such credit shall be Host's sole and exclusive remedy for Provider's failure to meet the Estimated Annual Production for such period.

6. PAYMENT AND BILLING.

(a) Rates. Host shall pay Provider for electricity produced by the Project at the rates set forth in Exhibit A attached hereto. The rate during any Extension Term shall be mutually agreed upon by Host and Provider.

(b) Billing. Host shall pay for the electricity produced by the Project monthly in arrears. Promptly after the end of each calendar month, Provider shall provide Host with an invoice setting forth the quantity of electricity produced by the Project in such month, the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

applicable rates for such electricity, and the total amount due, which shall be the product of the quantities and the applicable rates.

(c) Invoice Delivery. Invoices shall be in writing and shall be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; or (iv) transmitted by email (such transmission to be effective on the day of receipt if transmitted prior to 5:00 pm local time on a Business Day or in any other case as of the next Business Day following the day of transmittal)addressed as follows:

To Host: City of Melrose
562 Main St
Melrose, MA 02176
Attention: Jim Troup
Email: jtroup@cityofmelrose.org

(d) Payment. Subject to the subparagraph (e) below regarding disputed invoices, Host shall pay each invoice within thirty (30) days of receipt of the invoice. Payments shall be made by check or electronic funds transfer to an account designated by Provider in the invoice or in a written notice delivered to Host. Any amounts not paid when due, including any amounts properly disputed and later determined to be owing, shall accrue interest on the unpaid amount at the rate equal to the lesser of (i) 1% per month, compounded monthly or (ii) the highest rate allowed by applicable law.

(e) Disputed Invoices. If Host objects to all or a portion of an invoice, Host shall, on or before the date payment of the invoice is due, (i) pay the undisputed portion of the invoice, and (ii) provide an itemized statement of its objections setting forth in reasonable detail the basis for its objections. If Host does not object prior to the date payment of any invoice is due, Host shall be obligated to pay the full amount of such invoices but Host may subsequently object to such invoice and, if such objection proves to be correct, receive a refund of the disputed amount; provided, however, that Host may not object to any invoice more than eighteen (18) months after the date on which such invoice is rendered. The right to dispute or object to an invoice, shall, subject to the time limitation provided in this Section 6(e), survive the expiration or termination of this Agreement.

7. SUPPLEMENTAL POWER

(a) Back-up and Supplemental Electricity. Except as otherwise provided herein, throughout the Term, Host shall be responsible for obtaining all of its requirements for electric energy in excess of the amounts produced by the Project and pay for such service pursuant to contracts with or applicable tariffs of the Local Electric Utility or other Electric Service Provider. Provider shall have no obligation to obtain or pay for such supplemental or back-up electricity.

(b) Interconnection and Interconnection Fees. Provider shall be responsible for arranging the interconnection of the Project with Host's Local Electric Utility in a manner which

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

includes bi-directional or "net metering". Host shall be responsible for maintaining the interconnection of the Site with the Local Electric Utility through to the Host's side of the Point of Delivery. Provider shall be responsible for maintaining the interconnection of the Project to the Provider's side of the Point of Delivery with the Local Electric Utility. Host shall enter into any retail agreement required by the Local Electric Utility pursuant to its tariffs. Provider shall be responsible for all costs, fees, charges and obligations required to connect the Project to the Local Electric Utility distribution system, including but not limited to fees associated with system upgrades and operation and maintenance carrying charges ("Interconnection Obligations"), however, if system upgrades in addition to any upgrades contemplated and budgeted for as of Effective Date are required, Provider shall be entitled to adjust the Energy Purchase Prices in Exhibit A to compensate Provider for such increased costs, and if the Parties are unable to agree on such adjustments, Provider may exercise its right to terminate under Section 4(b).

(c) Production Excess. Provider shall, with the cooperation of Host, work to qualify the Project for the highest available compensation for any solar production which is not used at the time of generation and is transmitted to the Local Electric Utility (the "**Production Excess**"). The Parties will work cooperatively and in good faith to meet all requirements regarding such Production Excess under Applicable Law, the Applicable Solar Program, and Local Electric Utility tariffs, including applicable interconnection and metering requirements (e.g., Massachusetts tariff Schedule Z). In the event that the Project produces Production Excess, then the Parties agree that (a) Host shall be entitled to the associated compensation and/or bill credits (including but not limited to Net Metering Credits, Alternative On-Bill Credits, or Qualifying Facility compensation), and (b) Provider shall transmit such Production Excess into the Local Electric Utility system on behalf of and for the account of Host.

(d) Applicable Solar Program Incentives. Provider shall receive all payments available under any Applicable Solar Program. Host shall provide reasonable assistance to Provider in preparing all applications and other documents necessary for Provider to receive such payments, including designating Provider as the customer for purposes of the Applicable Solar Program or assigning payments from the Applicable Solar Program to Provider. If Host receives any payments under the Applicable Solar Program or other programs in respect of the Project, it shall promptly pay them over to Provider. Host's obligation to make any payments to Provider under this Section 7(d) is limited to any payments actually received by Host.

(e) Ownership of Tax Attributes. Provider (and/or Financing Party) shall be the owner of any Tax Attributes that may arise as a result of the ownership and operation of the Project and shall be entitled to transfer such Tax Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Tax Attributes, and if Host is deemed to be the owner of any such Tax Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Tax Attributes, it shall promptly pay them over to Provider.

(f) Environmental Attributes. Except as otherwise provided for under Applicable Law, or Applicable Solar Program rules, or the applicable tariff of the Local Electric Utility, Provider (and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Financing Party) shall be the owner of any Environmental Attributes that may arise as a result of the operation of the Project and shall be entitled to transfer such Environmental Attributes to any person. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such Environmental Attributes, and if Host is deemed to be the owner of any such Environmental Attributes, Host shall assign the same (or the proceeds thereof) to Provider. If Host receives any payments in respect of such Environmental Attributes, it shall promptly pay them over to Provider.

(g) Capacity & Ancillary Services. Provider shall be entitled to receive any payments for electric capacity or ancillary services that may become available as a result of the construction or operation of the Project. Host shall provide reasonable assistance to Provider in preparing all documents necessary for Provider to receive such payments, and if Host is deemed to be the owner or provider of such capacity or services, Host shall assign the same to Provider If Host receives any payments in respect of capacity or such services it shall promptly pay them over to Provider.

(h) Neither Party is A Utility. Neither Party is, and neither Party shall assert that the other Party is, (i) an electric utility or public service company or similar entity that has a duty to provide service, (ii) subject to electric rate regulation, or (iii) otherwise subject to regulation by any governmental authority as a result of its obligations or performance under this Agreement.

(i) Project Alterations. Host agrees to negotiate in good faith with respect to any alterations to the Project proposed by the Provider that may increase payments available under the Applicable Solar Program, Tax Attributes, Environmental Attributes, or increased capacity or ancillary services. Proposed alterations may include, but are not limited to, the addition of an energy storage system to the Project. Upon mutual agreement, this Agreement and the Lease shall be amended to include any agreed upon Project alteration.

8. OWNERSHIP OF PROJECT; SERVICE CONTRACT.

(a) Ownership of Project. As between the Parties, Provider shall retain title to (i) the Project and the Environmental Attributes produced or associated with the Project or the energy produced by the Project, and (ii) all compensation associated with such Environmental Attributes under the Applicable Solar Program or under any other successor program.

(b) Service Contract. Since this Agreement provides for the sale of electric energy from the Project which is an alternative energy facility under Section 7701(e)(3)(D) of the Internal Revenue Code of 1986 as amended, this Agreement is a service contract within the meaning of Section 7701(e)(3) of the Internal Revenue Code of 1986, as amended.

9. PURCHASE OPTIONS; REMOVAL AT END OF TERM.

(a) Early Purchase Option. On the seventh (7^{th}), tenth (10^{th}), and fifteenth (15^{th}) anniversary of the Commercial Operation Date, provided no Host Event of Default has occurred and is continuing, the Host shall have the option to purchase the Project from Provider at a price

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

which will be the greater of (i) the applicable value identified in Exhibit B or (ii) the Fair Market Value of the Project as determined by mutual agreement of Host and Provider as of such anniversary date; provided, however, if Host and Provider cannot agree to a Fair Market Value within twenty (20) days after Host has exercised its option, the Parties shall select and share equally the costs of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project, provided that Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal. If Host desires to exercise this option, it shall no later than ninety (90) days prior to the applicable anniversary date notify Provider of its election to exercise the option, and, unless it has rescinded the exercise of the option as aforesaid, on or before such anniversary date shall pay the purchase price to Provider by electronic transfer in immediately available funds to an account designated by Provider.

(b) End of Term Purchase Option. Host shall have the right to purchase the Project from Provider at the expiration of the Operations Period at the then Fair Market Value of the Project. No earlier than twelve months prior to the expiration of such Operations Period and no later than nine (9) months prior to the expiration of the Operations Period, Host shall notify Provider of its intent to exercise the option. Within ninety-one (91) days of its receipt of such notice, Provider shall give Host its appraisal of the Fair Market Value of the Project at the end of the Term. Host may, but is not obligated to, accept such appraisal. If Host does not accept such appraisal within ten (10) Business Days of receiving the appraisal from Provider, the Parties shall meet to discuss the appraisal. If they are unable to reach agreement within twenty (20) days of the Host's receipt of the appraisal from Provider, the Parties will engage and share the costs equally of a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project consistent with the terms of the transaction. Notwithstanding the foregoing, in the event that Provider enters into a sale/leaseback transaction in connection with funding the installation of the Project, the process of determining the Fair Market Value of the Project in this Agreement shall be undertaken by a nationally recognized independent appraiser with experience and expertise in the solar photovoltaic industry acting reasonably and in good faith to determine the Fair Market Value of the Project and shall be undertaken consistently with the terms of such transaction so that the process for determining Fair Market Value under this Agreement shall be the same as provided in the agreements for such sale/leaseback transaction. Host may, in its discretion, rescind its exercise of the option to purchase by written notice to Provider received no later than the fifth (5th) Business Day following receipt of such appraisal.

(c) Transfer of Ownership. Upon Host's notice that it elects to exercise the option set forth in either Section 9(a) or 9(b) above, Provider shall prepare and deliver to Host a set of records on the operation and maintenance history of the Project, including a summary of known defects. Upon payment of the purchase price, Provider shall deliver, or cause to be delivered, to Host a bill of sale conveying the Project to Host free and clear of Liens on Provider's interest in the Project. Such bill of sale shall not contain any warranties, other than a warranty against any defects in title arising through Provider. Provider shall use all reasonable efforts to transfer any remaining manufacturer's warranties on the Project, or portions thereof, to Host. Upon the transfer of ownership of the Project to Host, this Agreement shall terminate.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(d) Operation & Maintenance After Sale. Prior to the effective date of Host's purchase of the Project under Section 9(a) or 9(b), Host and Provider shall discuss entering into an operation and maintenance agreement under which Provider shall perform all or a portion of the operation and maintenance requirements of the Project following Host's purchase of the Project. However, neither Party shall be under an obligation to enter into such an agreement.

(e) No Survival of Purchase Option. The options for Host to purchase the Project under Sections 9(a) and 9(b) shall not survive the termination of this Agreement.

(f) Removal of Project at Expiration. Provider shall decommission the Project in accordance with Section 9 of the Lease or Easement.

10. SHUTDOWNS, RELOCATION; CLOSURE OR SALE OF SITE.

(a) Host Requested Shutdown. Host from time to time may request Provider to temporarily stop operation of the Project for a period no longer than thirty (30) days or a predetermined date mutually agreed upon by both the Host and Provider, such request to be reasonably related to Host's activities in maintaining and improving the Site. During any such shutdown period (but not including periods of Force Majeure or Allowed Disruption Time as defined below, nor where the maintenance activities were made necessary by a Provider Event of Default), Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project during the period of the shutdown; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced during the period of the shutdown; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project during the period of the shutdown. Determination of the amount of energy that would have been produced during the period of the shutdown shall be based, during the first Operations Year, on reasonably estimated levels of production and, after the first Operations Year, based on actual operation of the Project during the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

Notwithstanding the foregoing, the Parties agree that after year six (6) (but not during years one (1) through six (6)) of the Operations Period of the Agreement, Host shall be afforded a total of fifteen (15) days which may be used consecutively or in periods of at least twenty-four hours each ("Allowed Disruption Time") during which the Host may request that the Project be shut down if, and only if, Host is performing maintenance or repairs to the Premises which require the Project to be offline. Host shall not be obligated to make payments to Provider for electricity not received during the Allowed Disruption Time; nor shall Host be required to reimburse Provider for any other lost revenue during the Allowed Disruption Time, including any lost revenue associated with any reduced sales of Environmental Attributes and Tax Attributes.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider Safety Shutdown. In addition to the right of Provider to shut down the Project for maintenance as provided in Section 4(j), Provider may shutdown the Project if Provider, in the exercise of reasonable judgment, believes Site conditions or activities of persons on a Site, which are not under the control of Provider, whether or not under the control of Host, may interfere with the safe operation of the Project. Provider shall give Host written notice of a shutdown immediately upon becoming aware of the potential for such conditions or activities. Provider and Host shall cooperate and coordinate their respective efforts to restore Site conditions so as to not interfere with the safe operation of the Project and to reduce, to the greatest extent practicable, the duration of the shutdown; provided that Provider shall not be responsible for any costs or expenses in connection with restoration of conditions at the Site required due to conditions or activities of persons on the Site not under the control of Provider. If a shutdown pursuant to this Section 10(b) continues for 180 days or longer, Provider may terminate this Agreement and Host shall pay the Early Termination Amount.

(c) Project Relocation. Host may request to move the Project to another location on the Site or to another site owned by Host, but any such relocation shall be subject to the approval of Provider and Financing Party in each of their sole discretion. In connection with such relocation, Host shall execute an amendment to this Agreement reflecting the new location of the Project but otherwise continuing all the terms and conditions of this Agreement for the remaining term of this Agreement. Host shall also provide any consents or releases required by Provider in connection with the new location. Host shall pay all reasonable costs associated with the removal and relocation of the Project, including installation and testing costs and interconnection costs. In addition, during the Relocation Event, Host will pay Provider an amount equal to the sum of (i) payments that Host would have made to Provider hereunder for electric energy that would have been produced by the Project following the Relocation Event; (ii) revenues that Provider would have received with respect to the Project under the Applicable Solar Program and any other assistance program with respect to electric energy that would have been produced following the Relocation Event; and (iii) revenues from Environmental Attributes and Tax Attributes that Provider would have received with respect to electric energy that would have been produced by the Project following the Relocation Event. Determination of the amount of energy that would have been produced following the Relocation Event shall be based, during the first Operations Year, on the estimated levels of production and, after the first Operations Year, based on actual operation of the Project in the same period in the previous Operations Year, or based on reasonable data offered by Provider if the Project was offline for any reason during such previous Operations Year.

(d) Premises Shutdown; Interconnection Deactivated. In the event the facilities where the Premises are located are closed or the interconnection becomes deactivated, Host shall not be excused for the period of closure or deactivation from paying Provider for all electricity produced by the Project on the Premises and delivered to the Point of Delivery unless such closure or deactivation is caused by (i) a Force Majeure Event or (ii) any unexcused action or inaction of Provider or persons for whom Provider is responsible.

(e) Sale of Site. In the event Host transfers (by sale, lease or otherwise) all or a portion of its interest in the Site, except as otherwise provided in this subsection (e), Host shall remain primarily liable to Provider for the performance of the obligations of Host hereunder

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

notwithstanding such transfer. However, if no Host Event of Default has occurred and is continuing at the time of the transfer, and the transferee is acceptable to Provider and Financing Party in their sole discretion and executes agreements assuming this Agreement in form and substance satisfactory to Provider and Financing Party in their sole discretion, Host shall be released from further obligations under this Agreement. For avoidance of doubt, if Host is a municipality or governmental entity, the sale, lease or transfer of all or a portion of Host's interest in the Site to a transferee that is a municipality or governmental entity with a credit rating assigned by Moody's Investor Service at least equal to or better than Host's shall be deemed an acceptable transferee, provided the other requirements set forth in this Section 10(e) are satisfied.

11. TAXES.

(a) Income Taxes. Provider shall be responsible for any and all income taxes associated with payments from Host to Provider for electric energy from the Project. Provider (and/or Financing Party), as owner of the Project, shall be entitled to all Tax Attributes with respect to the Project.

(b) Sales Taxes. Host shall provide Provider with any certificates or other documents required or appropriate to evidence Host's exemption from any applicable taxes, fees, and charges, including sales, use, and gross receipts taxes, imposed or authorized by any Governmental Authority on the sale of electric energy by Provider to Host. Host shall timely report, make filings for, and pay any and all such taxes assessed directly against it by any Governmental Authority. To the extent Provider pays such amounts, Provider shall notify Host in writing with a detailed statement of such amounts, which shall be invoiced by Provider and Host shall reimburse Provider for any and all such taxes assessed against and paid by Provider.

(c) Property Taxes. If project will produce not more than 125% of the annual load of the Property Provider will apply to the City of Melrose for exemption of the Project from personal property tax pursuant to M.G.L. c.59, § 5, cl. 45, and will employ commercially reasonable efforts to secure such exemption. If the project will produce more than 125% of the annual load of the Property or if the exemption is not granted, Provider will seek to enter into a Payment In Lieu of Taxes (PILOT) Agreement with the City of Melrose to establish fixed payments in lieu of personal property tax. Upon execution of a PILOT Agreement, if the PILOT amounts differ from the Assumptions Around Pricing Elements as set forth in Exhibit A, Provider will prepare and the Parties shall execute an amendment to this Agreement , in accordance with the provisions of Exhibit A, to reflect the new rate effective as of the date the PILOT payments begin.

If Provider is assessed any real property taxes related to the existence of the Project on the Premises or if Provider is unable to obtain exemption of the Project from personal property tax and is not able to enter into a PILOT Agreement with the City of Melrose, then Host acknowledges and agrees that Provider shall have the right once per year to invoice Host for the exact amount of the such property taxes. Such invoice shall include documentation demonstrating the tax liability from the taxing authority for the current tax year and proof of payment from Provider to the taxing authority. Such invoice shall be submitted to the Host separately from any monthly invoice for solar energy generation.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

If Provider seeks to obtain exemption of the Project from personal property tax, and/or seeks to enter into a PILOT Agreement with the City of Melrose, and is ultimately unsuccessful, within thirty (30) days of such determination being made Provider will inform Host of such determination and, (1) if Host or the owner of the Site is a municipality, Host will provide Provider, or (2) if Host or the owner of the Site is not a municipality, Provider will provide Host with a good faith estimate of the annual amount of the expected personal property taxes.

Each Party has the right to contest taxes in accordance with Applicable Law and the terms of encumbrances against the Site. Each Party shall use all reasonable efforts to cooperate with the other party in any such contest of tax assessments or payments. In no event shall either Party postpone during the pendency of an appeal of a tax assessment the payment of taxes otherwise due except to the extent such postponement in payment has been abated, bonded or otherwise secured in accordance with Applicable Law.

(d) Reimbursement Deadline. Any reimbursement of taxes owing pursuant to this Section 11 shall be paid within twenty (20) Business Days of receiving an invoice from the Party who paid the taxes.

12. INSURANCE.

(a) Coverage. Host and Provider shall each maintain the insurance coverage set forth in Exhibit G in full force and effect throughout the Term. Host and Provider shall also provide any additional insurance which may be required from time to time by the Local Electric Utility or any legal or regulatory authority affecting the Premises or operation of the Project. If Host has established and maintains a program of self-insurance, Host shall maintain self-insurance for the coverages and in the amounts set forth on Exhibit G.

(b) Insurance Certificates. Each Party shall furnish current certificates indicating that the insurance required under this Section 12 is being maintained. Each Party's insurance policy provided hereunder shall contain a provision whereby the insurer agrees to give the other Party written notice before the insurance is cancelled or materially altered.

(c) Certain Insurance Provisions. Each Party's insurance policy shall be written on an occurrence basis and shall include the other Party as an additional insured as its interest may appear. Each Party's insurer shall waive all rights of subrogation against the other Party except in the case of such Party's negligence or willful misconduct.

(d) Insurance Providers. All insurance maintained hereunder shall be maintained with companies approved to do business in Massachusetts, and rated no less than A- as to Policy Holder's Rating in the current edition of Best's Insurance Guide (or with an association of companies each of the members of which are so rated), provided such requirement shall not apply if a Party maintains an active self-insurance program and provides required insurance pursuant to such self-insurance program.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(e) Flood Insurance. If required under Applicable Law, Host shall maintain FEMA-approved flood insurance for the Premises.

13. COOPERATION.

The Parties acknowledge that the performance of each Party's obligations under this Agreement will frequently require the assistance and cooperation of the other Party. Each Party therefore agrees, in addition to those provisions in this Agreement specifically providing for assistance from one Party to the other, that it will at all times during the Term cooperate with the other Party and provide all reasonable assistance to the other Party to help the other Party perform its obligations hereunder.

14. PRESS RELEASES AND CONFIDENTIALITY.

(a) Goodwill and Publicity. Neither Party shall use the name, trade name, service mark, or trademark of the other Party in any promotional or advertising material without the prior written consent of such other Party. The Parties shall coordinate and cooperate with each other when making public announcements related to the execution and existence of the Agreement, and each Party shall have the right to promptly review, comment upon, and approve any publicity materials, press releases, or other public statements by the other Party that refer to, or that describe any aspect of, the Agreement; provided that no such publicity releases or other public statements (except for filings or other statements or releases as may be required by Applicable Law) shall be made by either Party without the prior written consent of the other Party. At no time will either Party acquire any rights whatsoever to any trademark, trade name, service mark, logo or other intellectual property right belonging to the other Party. Notwithstanding the foregoing, Host agrees that Provider may, at its sole discretion, take photographs of the installation process of the Project and/or the completed Project, and Provider shall be permitted to use such images (regardless of media) in its marketing efforts, including but not limited to use in brochures, advertisements, websites and news outlet or press release articles. The images shall not include any identifying information without Host permission and the installation site shall not be disclosed beyond the type of establishment (such as "Retail Store," "Distribution Center," or such other general terms), the city and state. Only Provider has the exclusive right to claim that (i) electric energy provided to Host was generated by the Project, (ii) Provider is responsible for the reductions in emissions of pollution and greenhouse gases resulting from the generation of such electric energy and (iii) Provider is entitled to all credits, certificates, registrations, etc., evidencing or representing any of the foregoing except as otherwise expressly provided in this Agreement. However, the terms of this Agreement and information about the Project other than that described above constitutes Confidential Information, as defined below, and is subject to the remaining provisions of this Section 14.

(b) Limits on Disclosure of Confidential Information. Subject to the exceptions set forth below in Section 14(c), each Party agrees that, (i) without the consent of the other Party, it shall not disclose any Confidential Information received from the other Party to any other person and (ii) it shall use any Confidential Information received from the other Party only for the purpose of fulfilling its obligations under this Agreement. Notwithstanding the foregoing, subject to the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

requirements of Section 14(c) below, the Parties may, and shall, disclose any information required to be disclosed under rules, regulations and contracts implementing the Applicable Solar Program or Tax Attributes required to be disclosed by any Governmental Authority under Applicable Law or pursuant to a validly issued subpoena or required filing.

(c) Permissible Disclosures. Provider may provide this Agreement, and any correspondence, notices and other information related to this Agreement to any person who has provided or who is interested in providing construction or permanent financing, or any refinancing thereof, to Provider in connection with the Project. In addition, if a receiving Party is required by Applicable Law, validly issued subpoena or required filing to disclose any Confidential Information provided by the disclosing Party, the receiving Party may make disclosure as required by law, but the receiving Party shall prior to making any disclosure, if lawfully permitted to do so, notify the disclosing Party of the requested disclosure and shall use its reasonable efforts to cooperate with the disclosing Party, but at the expense of the disclosing Party, in any efforts by the disclosing Party to minimize the extent of the Confidential Information disclosed and the persons to whom disclosed. If Host is a public entity subject to the requirements of M.G.L. c. 66, § 10 ("MA Public Records Law") the provisions of the MA Public Records Law will govern Host's obligations under Section 14(b) and this Section 14(c), including Provider's right to raise applicability of the exemptions included in the MA Public Records Law. Notwithstanding any term herein to the contrary, the failure to notify the disclosing Party pursuant to this Section 14(c) shall not be deemed an Event of Default.

(d) Enforcement of Confidentiality Provisions. Each Party acknowledges that it may be impossible to measure the damages which may result from a breach of this Section 14 and agrees that the provisions of this Section 14 may be required to be specifically performed and each Party shall have the right to obtain preliminary and permanent injunctive relief to secure specific performance of the terms of this Section 14. The provisions of this Section 14 shall survive until three years after the effective date of any termination of this Agreement.

15. INDEMNIFICATION.

(a) Provider Indemnification. Provider shall indemnify, defend and hold harmless Host and its directors, officers, employees, agents, volunteers, and invitees ("Host's Indemnified Parties"), from and against all Losses incurred by the Host Indemnified Parties to the extent arising from or out of the following: (i) any third party claim for injury to or death of any Person or loss or damage to property to the extent caused by Provider's or Provider's Indemnified Parties (defined below) negligence or willful misconduct; (ii)) third party claims for penalties or fines arising from a Provider's or Provider's Indemnified Parties violation of Applicable Law; (iii) any failure to properly interconnect or comply with the procedures of the Local Electric Utility or Applicable Law; or (iv) any failure to properly handle or dispose of any Hazardous Materials brought onto the Site by Provider or by any of Provider's employees, agents, volunteers, and invitees and released as a result of the negligence of Provider or Installer or any of Provider's or Installer's employees, agents, volunteers, and invitees. Such duty to indemnify with respect to any injuries to persons or damage to property arising from the generation of electricity from the Project shall not extend to incidents occurring on Host's side of the Point of Delivery except to the extent

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

caused by incidents on Provider's side of the Point of Delivery. Such duty to indemnify shall not apply to any action or claim, whether in tort (including negligence and strict liability), contract or otherwise for any loss, injury, or costs resulting from interruptions in service. Provider shall not be obligated to indemnify Host or any Host Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Host or any Host Indemnified Party.

(b) Host Indemnification. To the extent permitted by law, Host shall indemnify, defend and hold Provider, its contractors, subcontractors, shareholders, directors, officers, employees, agents, and invitees, and Financing Party ("**Provider's Indemnified Parties**"), harmless from and against all Losses incurred by the Provider's Indemnified Parties to the extent arising from or out of (i) any third-party claim for injury to or death of any Person or loss or damage to property to the extent caused by the negligence or willful misconduct of any of Host's Indemnified Parties; (ii) Host's violation of Applicable Law; or (iii) the presence, removal or remediation of any Hazardous Materials on the Site (other than any Hazardous Materials brought on to the Site by Provider's Indemnified Parties and improperly stored, disposed of or negligently released by Provider or Installer). Host shall not be obligated to indemnify Provider or any Provider Indemnified Party for any Loss to the extent such Loss is due to the negligence or willful misconduct of Provider or any Provider Indemnified Party.

(c) Notice of Claims. Whenever any claim arises for indemnification under this Agreement, the Indemnified Person shall notify the Indemnifying Party in writing as soon as possible (but in any event prior to the time by which the interest of the Indemnifying Party will be materially prejudiced as a result of its failure to have received such notice) after the Indemnified Person has knowledge of the facts constituting the basis for such claim (the "Notice of Claim"). Such Notice of Claim shall specify all facts known to the Indemnified Person giving rise to the indemnification right and the amount or an assessment of the amount of the liability arising therefrom.

(d) Defense of Claims. The Indemnifying Party has the right, but not the obligation to assume the defense for the matter for which indemnification is sought hereunder. If the Indemnifying Party does not assume the defense, it shall timely pay all costs of legal counsel and case expenses incurred by Indemnified Person in connection with the defense, when and as incurred. If the Indemnifying Party assumes the defense, the Indemnified Person has the right to hire its own, separate counsel to defend it, but the Indemnified Person shall be responsible for the reasonable costs of such separate counsel. The Indemnifying Party shall not consent to the entry of any judgment or enter into any settlement with respect to the matter for which indemnification is sought without the prior written consent of the Indemnified Person (which consent shall not be unreasonably withheld) unless the judgment or settlement involves the payment of money damages only and does not require the acknowledgement of the validity of any claim or admission of any liability by or on behalf of any Indemnified Person.

(e) Payments. At the time that the Indemnifying Party makes any indemnity payments under this Agreement, the indemnification payment shall be adjusted such that the payment will result in the Indemnified Person receiving an indemnity payment equal to the Loss after taking into account (i) all federal, state, and local income taxes that are actually payable to the Indemnified Person with respect to the receipt of such payment and (ii) all national, state, and local tax

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

deductions allowable to the Indemnified Person for any items of loss and deduction for which the Indemnified Party is being indemnified.

(f) Survival of Indemnification. The obligations of indemnification hereunder shall survive termination of this Agreement.

16. REPRESENTATIONS AND WARRANTIES.

(a) Mutual Representations. Each Party hereby represents and warrants to the other, as of date hereof, that:

(i) Organization. It is duly organized, validly existing and in good standing under the laws of its state of incorporation and of the state in which the Premises are located, respectively, and has the power and authority to enter into this Agreement and to perform its obligations hereunder.

(ii) No Conflict. The execution and delivery of this Agreement and the performance of and compliance with the provisions of this Agreement will not conflict with or constitute a breach of or a default under (1) its organizational documents; (2) any agreement or other obligation by which it is bound; (3) any law or regulation.

(iii) Enforceability. (1) All actions required to be taken by or on the part of such Party necessary to make this Agreement effective have been duly and validly taken; (2) this Agreement has been duly and validly authorized, executed and delivered on behalf of such Party; and (3) this Agreement constitutes a legal, valid and binding obligation of such Party, enforceable in accordance with its terms, subject to laws of bankruptcy, insolvency, reorganization, moratorium or other similar laws.

(iv) No Material Litigation. There are no court orders, actions, suits or proceedings at law or in equity by or before any governmental authority, arbitral tribunal or other body, or threatened against or affecting it or brought or asserted by it in any court or before any arbitrator of any kind or before or by any governmental authority that could reasonably be expected to have a material adverse effect on it or its ability to perform its obligations under this Agreement, or the validity or enforceability of this Agreement.

(b) Host Representations. In addition to the representations and warranties in Section 16(a), Host hereby represents and warrants to Provider, as of date hereof, that:

(i) Condition of Premises. Host has provided to Provider Host's complete and correct records of the physical condition of the Premises. If, during the Development Period, Provider deems such records inadequate for its intended purposes hereunder, it shall so notify Host in writing before commencing installation of the Project, in which event the Host shall reasonably cooperate in Provider's efforts to procure such information as Provider may reasonably require regarding the condition of the Premises. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project are to be installed, are materially different from the information

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

presented by Host and from conditions reasonably visible to Provider during site visits prior to entering this Agreement, then if practicable the rates payable by Host hereunder shall be adjusted to compensate Provider for the cost of design and construction changes and delays actually incurred by Provider in order to adapt the Project to the unknown conditions. If such adjustment is not practicable, Provider shall have other rights under this Agreement.

(ii) Title to Premises. Host is the fee owner of and has good and valid title to [has a valid and enforceable leasehold interest in] the Premises and to Host's knowledge there are no mortgagees, lienholders or other third party claimants to the Premises. There are no encumbrances on the Premises that would interfere with or prevent the development, construction, operation or maintenance of the Project or any portion thereof.

(iii) Host Organization. Host is a municipality organized and existing under the laws of the Commonwealth of Massachusetts.

(c) Provider Representations. In addition to the representations and warranties in Section 16(a), Provider hereby represents and warrants to Host, as of date hereof, that:

(i) Interconnection Agreement and Permits. Provider shall use commercially reasonable efforts to obtain an executed interconnection agreement and all permits for the Project in a timely and efficient manner.

17. FORCE MAJEURE; CASUALTY.

(a) Excuse for Force Majeure Event. Except as provided in Section 17(b) or otherwise specifically provided in this Agreement, neither Party shall be considered in breach of this Agreement or liable for any delay or failure to comply with this Agreement, if and to the extent that such delay or failure is attributable to the occurrence of a Force Majeure Event; provided that the Party claiming relief as a result of the Force Majeure Event shall promptly (i) notify the other Party in writing of the existence and details of the Force Majeure Event; (ii) exercise all reasonable efforts to minimize delay caused by such Force Majeure Event; (iii) notify the other Party in writing of the cessation of such Force Majeure Event; and (iv) resume performance of its obligations hereunder as soon as practicable thereafter.

(b) No Excuse for Payment for Prior Services. Excepting a Force Majeure Event which impacts business or banking transactions nationally or globally, in which case such obligations shall be suspended but not excused, obligations to make payments for services provided prior to the Force Majeure Event shall not be excused by a Force Majeure Event.

(c) Casualty; Restoration. In the event of a casualty event, to the extent that such casualty event is attributable to the occurrence of a Force Majeure Event, which destroys all or a substantial portion of the Premises, Host shall elect, within ninety (90) days of such event, whether it will restore the Premises, which restoration will be at the sole expense of Host. If Host does not elect to restore the Premises, then Provider shall not restore the Project and this

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Agreement will terminate without penalty to either Party. If Host does elect to restore the Premises, Host shall provide notice of such election to Provider and Provider shall then elect, within ninety (90) days of receipt of such notice, whether or not to restore the Project, subject to the Parties agreeing on a schedule for the restoration of the Premises and an equitable extension to the Term of this Agreement. If the Parties are not able to so agree or if Provider does not elect to restore the Project, Provider shall promptly remove any portions of the Project remaining on the Premises, and this Agreement shall terminate without penalty to either Party. If Provider does elect to restore the Project, it shall do so at its sole expense. In the event of termination of this Agreement pursuant to this Section 17(c), (i) the Parties shall not be released from any payment or other obligations arising under this Agreement prior to the casualty event; and (ii) the confidentiality provisions of Section 14, the indemnity obligations under Section 15, and the dispute resolution provisions of Section 23 shall continue to apply notwithstanding the termination of this Agreement.

If any damage to the Project is caused by the negligence or willful misconduct of Host or Host's employees, agents, or invitees, Provider shall send written notice to Host specifying (i) the reasonable and documented expenses for repair and replacement of the Project, and (ii) documented lost revenue for sales of electricity and solar incentives (including, but not limited to, Applicable Solar Program, Tax Attributes, Environmental Attributes) that would have been received based on the estimated energy production of the Project. Host shall have thirty (30) days from the receipt of such notice to review the information contained within such notice. Any undisputed amounts shall be due and payable within thirty (30) days after Provider's notice. If Host disagrees with any information contained in such notice, Host shall provide written notice to Provider within the Host's thirty (30) day review period. In the event of a dispute, Host and Provider shall use good faith to resolve such dispute and agree upon a reimbursement amount. Once Host and Provider have agreed upon the reimbursement amount, Host shall pay such agreed amount within thirty (30) days after agreement and in the event there is no dispute, then within thirty (30) days after receipt of the notice.

(d) Termination for Force Majeure Event. Notwithstanding anything to the contrary in this Section 17, if nonperformance on account of a Force Majeure Event continues beyond a continuous period of three hundred and sixty-five (365) days, then either Party shall have the right to terminate this Agreement upon thirty (30) days' notice to the other. Upon such termination, Provider shall be required to decommission and remove the Project from the applicable Site in accordance with the Lease (unless there has been a casualty event, in which case the provisions of clause (c) above shall apply to the removal of the Project). In the event of such a termination of this Agreement with respect to the Project, the Parties shall not be released from any payment or other obligation arising under this Agreement which accrued prior to the shutdown of the Project or the Premises and the indemnity, confidentiality and dispute resolution provisions of this Agreement shall survive the termination of this Agreement.

18. CHANGE IN LAW.

In the event there is a Change in Law that is applicable to the operation of the Project, the sale of electric energy produced by the Project, or any other obligation of the Provider hereunder, and compliance with the Change in Law results in an increase in Provider's costs to operate and/or

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintain the Project, Provider will submit to Host and PowerOptions within 60 days a written notice setting forth, in reasonable detail, the following: (i) the applicable Change in Law; (ii) the manner in which such Change in Law increases Provider's costs; and (iii) Provider's proposed adjustment to the then applicable and future rates for electric energy in this Agreement to reflect such increases in costs. Host agrees to an adjustment in the then applicable and future prices such that the new prices compensate Provider for the total cost increase arising from the Change in Law and said adjustment will remain in effect for as long as the costs arising from the Change in Law continue to be incurred by the Provider; provided, however any such increase shall be no greater than ten percent (10%) of the prices set forth in Exhibit A for the Term of this Agreement.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Provider Events of Default. Provider shall be in default of this Agreement if any of the following ("Provider Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Provider under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within thirty (30) days after receipt of written notice from Host identifying the defect.

(ii) Abandonment During Installation. After commencement of installation of the Project, Provider abandons installation of the Project for thirty (30) days and fails to resume installation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has abandoned installation of the Project.

(iii) Failure to Operate. After the Commercial Operation Date, Provider fails to operate the Project for a period of 90 days which failure is not due to equipment failure, or damage to the Project, act of governmental authority, or exercise of Provider's rights under this Agreement, or otherwise excused by the provisions of Section 17(b) (relating to Force Majeure Events), and Provider fails to resume operation within thirty (30) days after receipt of notice from Host stating that, in Host's reasonable determination, Provider has ceased operation of the Project for a period of ninety (90) consecutive days, provided, however, that such thirty (30) day cure period shall be extended by the number of calendar days during which Provider is prevented, through no fault of its own, from taking curative action if Provider had begun curative action and was proceeding diligently, using commercially reasonable efforts, to complete such curative action.

(iv) Obligation Failure. Provider fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) days if the failure involves a failure to make payment when due or maintain required insurance; or (B) sixty (60) days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Host identifying the failure.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(v) Insolvency. Provider (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or is generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Provider in an involuntary case under bankruptcy law or seeking to dissolve Provider under other Applicable Law and such petition is not dismissed within 90 days; or (G) takes any action authorizing its dissolution.

(vi) Provider has an Event of Default which results in termination under the Lease.

(b) Financing Party Opportunity to Cure; Host Remedies. Subject to the right of the Financing Party to cure a Provider Event of Default, as set forth in Section 21, upon a Provider Event of Default, if Provider or Financing Party does not cure such Provider Event of Default in accordance with the terms hereof, Host may terminate this Agreement, seek to recover damages for costs of replacement electricity and pursue any and all other remedies available at law or equity.

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Host Events of Default. Host shall be in default of this Agreement if any of the following ("Host Events of Default") shall occur:

(i) Misrepresentation. Any representation or warranty by Host under Section 16, is incorrect or incomplete in any material way, or omits to include any information necessary to make such representation or warranty not materially misleading, and such defect is not cured within 30 calendar days after receipt of written notice from Provider identifying the defect.

(ii) Obstruction. Host (i) obstructs commencement of installation of the Project; (ii) fails to take any reasonable actions required by this Agreement or requested by Provider or necessary for the interconnection of the Project; or (iii) fails to take electric energy produced by the Project; and, in any of these circumstances, fails to correct such action or inaction, as the case may be, within fifteen (15) Business Days after receipt of written notice from Provider with respect to such act or omission.

(iii) Payment Failure. Host fails to make any payment due under the terms of this Agreement, and fails to make such payment within ten (10) Business Days after receipt of notice thereof from Provider.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iv) Obligation Failure. Host fails to perform any obligation hereunder, such failure is material, such failure is not excused by the provisions of Section 17(b) (relating to Force Majeure Events), and such failure is not cured within: (A) ten (10) Business Days if the failure involves a failure to maintain required insurance; or (B) sixty (60) calendar days if the failure involves an obligation other than payment or the maintenance of insurance, after receipt of notice from Provider identifying the failure.

(v) Insolvency. Host (A) applies for or consents to the appointment, or the taking of possession by, a receiver, custodian, trustee or liquidator of itself or a substantial portion of its property; (B) admits in writing its inability, or be generally unable, to pay its debts as such debts become due; (C) makes a general assignment for the benefit of its creditors; (D) commences a voluntary case under any bankruptcy law; (E) files a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, winding up, or composition or readjustment of debts; (F) acquiesces in, or fails to contest in a timely manner, any petition filed against Host in an involuntary case under bankruptcy law or seeking to dissolve Host under other Applicable Law; or (G) takes any action authorizing its dissolution.

(vi) Host has an Event of Default which results in termination under the Lease.

(b) Default Damages. Upon a Host Event of Default, Provider may require Host to pay to Provider the Early Termination Amount, whereupon this Agreement shall terminate immediately. Alternatively, Provider may elect to sell electricity produced by the Project to persons other than Host, and recover from Host any loss in revenues resulting from such sales; and/or pursue other remedies available at law or in equity. If necessary to sell electricity to persons other than Host, Host shall allow Provider to add a new meter dedicated to the solar Project, change the point of interconnection, and/or will support Provider with necessary approvals to change the Schedule Z. After Provider's receipt of such Early Termination Amount pursuant to this Section 20(b), Provider shall collect no additional damages resulting from lost revenues from sales of electricity from the Project.

(c) Survival of Lease, Access Rights and Easement. Upon a Host Event of Default, unless Host pays the Early Termination Amount to Provider in full thus terminating this PPA, Provider may, in its exercise of remedies pursuant to Section 20(b), make continued use of, and Host may not terminate the Lease. Provider shall not be obligated to pay any rent or other consideration for the use of such rights or interests.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

(a) Financing Arrangements. Provider shall not sell, transfer or assign (collectively, an "**Assignment**") this Agreement or any interest therein, without the prior written consent of Host, which shall not be unreasonably withheld, conditioned or delayed, provided, however that Provider may mortgage, pledge, grant security interests, assign, or otherwise encumber its interests in this Agreement to any persons providing debt or equity financing for the Project. Further, Host acknowledges that Provider may obtain construction financing for the Project from a third party

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

and that Provider may either obtain term financing secured by the Project or sell or assign the Project to a Financing Party or may arrange other financing accommodations from one or more financial institutions and may from time to time refinance, or exercise purchase options under, such transactions. Host acknowledges that in connection with such transactions Provider may secure Provider's obligations by, among other collateral, an assignment of this Agreement and a first security interest in the Project. In order to facilitate such necessary sale, conveyance, or financing, and with respect to any lender or lessor, as applicable, Host agrees as follows:

(i) Consent to Sale and to Collateral Assignment. Host hereby consents to both the sale of the Project to a Financing Party and the collateral assignment to the Financing Party of the Provider's right, title and interest in and to this Agreement.

(ii) Rights of Financing Party. Notwithstanding any contrary term of this Agreement:

(A) Step-In Rights. The Financing Party, as owner of the Project, or as collateral assignee of this Agreement, shall be entitled to exercise, in the place and stead of Provider, any and all rights and remedies of Provider under this Agreement in accordance with the terms of this Agreement. The Financing Party shall also be entitled to exercise all rights and remedies of owners or secured parties, respectively, generally with respect to this Agreement and the Project;

(B) Opportunity to Cure Default. The Financing Party shall have the right, but not the obligation, to pay all sums due under this Agreement and to perform any other act, duty or obligation required of Provider hereunder or cause to be cured any default of Provider hereunder in the time and manner provided by the terms of this Agreement. Nothing herein requires the Financing Party to cure any default of Provider under this Agreement or (unless the Financing Party has succeeded to Provider's interests under this Agreement or has otherwise assumed Provider's obligations) to perform any act, duty or obligation of Provider under this Agreement, but Host hereby gives it the option to do so;

(C) Exercise of Remedies. Upon the exercise of remedies, including any sale of the Project by the Financing Party, whether by judicial proceeding or under any power of sale contained therein, or any conveyance from Provider to the Financing Party (or any assignee of the Financing Party as defined below) in lieu thereof, the Financing Party shall give written notice to Host of the transferee or assignee of this Agreement. Any such exercise of remedies shall not constitute a default under this Agreement;

(D) Cure of Bankruptcy Rejection. Upon any rejection or other termination of this Agreement pursuant to any process undertaken with respect to Provider under the United States Bankruptcy Code, at the request of Financing Party made within ninety (90) days of such termination or rejection, Host shall enter into a new agreement with Financing Party or its assignee having substantially the same terms and conditions as this Agreement.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(iii) Right to Cure.

(A) Cure Period. Host will not exercise any right to terminate or suspend this Agreement unless it shall have given the Financing Party a copy of Host's prior written notice to Provider of its intent to terminate or suspend this Agreement, as required by this Agreement, specifying the condition giving rise to such right, and the Financing Party shall not have caused to be cured the condition giving rise to the right of termination or suspension within sixty (60) days after such notice or (if longer) the periods provided for in this Agreement; provided that if such Provider default reasonably cannot be cured by the Financing Party within such period and the Financing Party commences and diligently and continuously pursues cure of such default within such period, such period for cure will be extended for a reasonable period of time under the circumstances, such period not to exceed an additional sixty (60) days. The Parties' respective obligations will otherwise remain in effect during any cure period.

(B) Continuation of Agreement. If the Financing Party or its assignee (including any purchaser or transferee), pursuant to an exercise of remedies by the Financing Party, shall acquire title to or control of Provider's assets and shall, within the applicable time periods described in Section 21(a)(iii)(A) above, cure all defaults under this Agreement existing as of the date of such change in title or control in the manner required by this Agreement and which are capable of cure by a third person or entity then such Person shall no longer be in default under this Agreement, and this Agreement shall continue in full force and effect. If the Financing Party notified Host in writing within such sixty (60) day period that it must foreclose on Provider's Interest or otherwise take possession of Provider's interest under this Agreement in order to cure the default (the "**Foreclosure Notice**"), the Host shall not terminate this Agreement and shall permit the Financing Party a reasonable period of time, which shall be outlined in the Foreclosure Notice, as may be necessary for such Financing Party, with the exercise of due diligence, to foreclose or acquire Provider's interest under this Agreement and to perform or cause to be performed all of the covenants and agreements of Provider under this Agreement and the Lease.

(b) Financing Party a Third Party Beneficiary. Host agrees and acknowledges that Financing Party is a third party beneficiary of the provisions of this Section 21.

(c) Entry to Consent to Assignment. Host agrees to (i) execute any reasonable consents to assignment or acknowledgements and (ii) provide such opinions of counsel as may be reasonably requested by Provider and/or Financing Party in connection with such financing or sale of the Project.

22. LIMITATIONS ON DAMAGES.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT OR THE LEASE, AND EXCEPT AS PROVIDED IN THIS AGREEMENT IN SECTIONS 10, 19(B) AND 20(B), NEITHER PARTY NOR ANY OF ITS INDEMNIFIED PERSONS SHALL BE LIABLE TO THE OTHER PARTY OR ITS INDEMNIFIED PERSONS FOR ANY SPECIAL, PUNITIVE, EXEMPLARY, INDIRECT, OR CONSEQUENTIAL DAMAGES, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT. FOR GREATER CLARITY, IT IS AGREED BY THE PARTIES THAT THE EARLY TERMINATION PAYMENT AND ANY PAYMENT BY HOST SPECIFICALLY ADDRESSED HEREIN, INCLUDING WITHOUT LIMITATION, UNDER SECTION 10, ARE CONSIDERED DIRECT DAMAGES. FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS REMEDY OR MEASURE OF DAMAGES IS PROVIDED IN THIS AGREEMENT, THE LIABILITY OF THE DEFAULTYING PARTY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION AND ALL OTHER DAMAGES ARE HEREBY WAIVED.

Notwithstanding anything to the contrary, Provider's total combined liability to Host under this Agreement and the Lease (whether due to breach of contract, negligence, strict liability or any other cause) shall not exceed, for all claims, a total amount of Provider's commercial general liability policy limit (combined single limit); provided that claims by Host for indemnity related to third-party claims as provided under Section 15(a) shall not be subject to such limit.

23. DISPUTE RESOLUTION.

(a) Negotiation Period. The Parties shall negotiate in good faith and attempt to resolve any dispute, controversy or claim arising out of or relating to this Agreement (a "**Dispute**") within 30 days after the date that a Party gives written notice of such Dispute to the other Party, except that a Party may seek injunctive relief to prevent irreparable harm without first proceeding or completing any dispute resolution proceedings.

(b) Jurisdiction, Venue, and Jury Trials. If despite the efforts, if any, to negotiate, the Parties do not resolve the Dispute within the negotiation period described above, then each Party irrevocably consents to the exclusive jurisdiction of the state and federal courts sitting in Massachusetts, in connection with any action related to the Dispute. Each Party agrees that process may be served upon it in any manner authorized by such courts and that it waives all objections which it might otherwise have to such jurisdiction and process. Further, each Party irrevocably waives all of its rights to a trial by jury with respect to any such action.

(c) Survival of Dispute Provisions. The provisions of this Section 23 and Section 25 shall survive any termination of this Agreement and shall apply (except as provided herein) to any disputes arising out of this Agreement.

24. NOTICES.

Delivery of Notices. All notices or other communications which may be or are required to be given by any Party to any other Party pursuant to this Agreement shall be in writing and shall

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

be either (i) delivered by hand; (ii) mailed by first-class, registered or certified mail, return receipt requested, postage prepaid; (iii) delivered by a recognized overnight or personal delivery service; transmitted by email if receipt of such transmission by email is specifically acknowledged by the recipient (automatic responses not being sufficient for acknowledgement), addressed as follows:

If to Host:

City of Melrose
562 Main St
Melrose, MA 02176
Attention: City Solicitor Shannon Phillips
Email: sphillips@cityofmelrose.org

If to Provider:

Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, Massachusetts 01748
Attention: Legal Notices
Email: legal@solect.com

Notices shall be effective when delivered (or in the case of email, when acknowledged by the recipient) in accordance with the foregoing provisions, whether or not (except in the case of email transmission) accepted by, or on behalf of, the Party to whom the notice is sent.

Each Party may designate by Notice in accordance with this section to the other Party a new address to which any notice may thereafter be given.

25. MISCELLANEOUS.

(a) Governing Law. This Agreement shall be governed by the laws of the Commonwealth of Massachusetts, without regard to principles of conflicts of law, and including principles of good faith and fair dealing that will apply to all dealings under this Agreement.

(b) Rules of Interpretation. Section headings are for convenience only and shall not affect the interpretation of this Agreement. References to sections are, unless the context otherwise requires, references to sections of this Agreement. The words "hereto", "hereof" and "hereunder" shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The word "person" shall include individuals; partnerships; corporate bodies (including but not limited to corporations, limited partnerships and limited liability companies); non-profit corporations or associations; governmental bodies and agencies; and regulated utilities. The word "including" shall be deemed to be followed by the words "without limitation". In the event of any conflict between the text of this Agreement and the contents of an exhibit hereto, the text of this Agreement shall govern.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(c) Severability. If any non-material part of this Agreement is held to be unenforceable, the rest of the Agreement will continue in effect. If a material provision is determined to be unenforceable and the Party which would have been benefited by the provision does not waive its unenforceability, then the Parties shall negotiate in good faith to amend the Agreement to restore to the Party that was the beneficiary of such unenforceable provision the benefits of such provision. If the Parties are unable to agree upon an amendment that restores the Party's benefits, the matter shall be resolved under Section 23, and the court will modify the unenforceable provision in order to restore to the Party that was the beneficiary of the unenforceable provision the economic benefits of such provision.

(d) Amendment and Waiver. This Agreement may only be amended by a writing signed by both Parties. Any waiver of any of the terms hereof shall be enforceable only to the extent it is waived in a writing signed by the Party against whom the waiver is sought to be enforced. Any waiver shall be effective only for the particular event for which it is issued and shall not constitute a waiver of a subsequent occurrence of the waived event nor constitute a waiver of any other provision hereof, at the same time or subsequently.

(e) Assignment. Except as provided in Section 21(a), neither Party may assign, sell, transfer or in any other way convey its rights, duties or obligations under this Agreement, either in whole or in part, without the prior written consent of the other Party which consent shall not be unreasonably withheld or delayed, except that without consent of Host, Provider (i) may assign its rights and obligations hereunder to an Affiliate of Provider and (ii) may sell or collaterally assign this Agreement in accordance with Section 21. For purposes of this Section 25(e), transfer does not include any sale of all or substantially all of the assets of Provider or Host or any merger of Provider or Host with another person, whether or not Provider or Host is the surviving entity from such merger, or any other change in control of Provider or Host, provided any such surviving entity assumes all obligations of Provider or Host, as appropriate, under this Agreement.

(f) No Joint Venture. This Agreement does not create a joint venture, partnership or other form of business association between the Parties.

(g) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of signature by fax, or scan delivered by email, receipt acknowledged, or electronic signature are effective to bind a Party hereto.

(h) Relation of the Parties. The relationship between Provider and Host shall not be that of partners, agents, or joint ventures for one another, and nothing contained in the Agreement shall be deemed to constitute a partnership or agency agreement between them for any purposes, including federal income tax purposes. Provider and Host, in performing any of their obligations hereunder, shall be independent contractors or independent parties and shall discharge their contractual obligations at their own risk.

(i(i) CORI. With respect to Projects to be installed at Massachusetts public schools, the Host shall have the right to conduct a check of the Criminal Offender Record Information (CORI)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

maintained by the Massachusetts Criminal History Board, and the Massachusetts Sex Offender Record Information (SORI) maintained by the Massachusetts Sex Offender Registry Board, for any officer or employee of the Provider or of a subcontractor of the Provider who will work at the Premises. Notwithstanding any other provision of the Agreement, the Host may refuse to allow any such employee to work on the project if the Host, in its sole discretion, determines that such employee is not suitable for work on the project based on the results of such CORI or SORI. The Host shall keep such information in a confidential file. With respect to Projects to be installed at public schools in other states, similar criminal offender and sex offender information maintained by the state shall apply, and Host shall have discretion regarding employment of such registered offenders.

(j) Notwithstanding anything in this Agreement to the contrary, Host shall have no obligation to assign to Provider any right or interest which gives the Provider greater rights or interests in the Premises or any other property owned or controlled by the Host than the rights and interests contemplated in this Agreement.

(rest of page left blank intentionally – signatures appear on next page)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

IN WITNESS WHEREOF, intending to be legally bound hereby, Provider and Host have executed this Power Purchase Agreement as of the date first set forth above.

GLOSSARY OF TERMS

"Access Rights" means the rights more fully described in the Lease for Provider and its designees, including Installer, to enter upon and cross the Site to install, operate, maintain, repair and remove the Project, and to interconnect the Project with the Local Electric Utility and to provide water, electric and other services to the Project.

"Affiliate" means, as to any Person, any other Person which, directly or indirectly, is in control of, is controlled by, or is under common control with, such Person. For purposes of this definition, "control" of a Person means the power, directly or indirectly, to direct or cause the direction of the management and policies of such Person whether by contract or otherwise.

"Agreement" means this Power Purchase Agreement, including all exhibits attached hereto, as the same may be amended from time to time in accordance with the provisions hereof.

"Applicable Law" means any constitutional provision, law, statute, rule, regulation, ordinance, treaty, order, decree, judgment, decision, certificate, holding, injunction, registration, license, franchise, permit, authorization, or guideline issued by a Governmental Authority that is applicable to a Party to this Agreement or the transaction described herein. Applicable Law also includes an approval, consent or requirement of any Governmental Authority having jurisdiction over such Party or its property, enforceable at law or in equity.

"Applicable Solar Program" means the state laws, rules, and regulations that govern the solar incentives, rights and obligations (e.g., SMART), as may be amended from time to time, by the authorities having legal jurisdiction where the Project will be installed and where the benefits will be realized.

"Avoided Energy Price" means the rate, expressed in $/kWh, set forth in Exhibit A for purposes of calculating any credits owed to Host pursuant to Section 5(b). The Year 1 Avoided Energy Price shall be the average applicable tariff rate per kWh, at the time of execution of the Power Purchase Agreement, that Host would have paid for full requirements delivered electric service (which shall include energy-related charges such as delivery, service, distribution, or taxes, but excluding demand and other related charges) from its Local Electric Utility, with a 3% annual escalation rate applied to each subsequent Guarantee Year.

"Business Day" means a day other than Saturday, Sunday, or other day on which commercial banks in Massachusetts are authorized or required by law to be closed.

"Capacity Value" means such capacity value as determined by market rules established by ISO-NE. Provider is the owner of the capacity value of the Project and shall have the right to participate in ISO-NE's Forward Capacity market at their discretion through an aggregator or as an ISO-NE Market Participant. The Provider shall sell the capacity of the Project into the Forward Capacity Market by the later of twelve (12) months from the Commercial Operation Date or the first date available to participate in the Forward Capacity Auction; if not, the Provider relinquishes ownership of the Capacity Value of the Project to the Host.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Change in Law" means that after the date of this Agreement, an Applicable Law is amended, modified, nullified, suspended, repealed, found unconstitutional or unlawful, or changed or affected in any material respect by any Applicable Law. Change in Law does not include changes in federal or state income tax laws. Change in Law does include material changes in the interpretation of an Applicable Law.

"Commercial Operation Date" means the date, which shall be specified by Provider to Host pursuant to Section 4(d), when the Project is physically complete and has successfully completed all performance tests and satisfies the interconnection requirements of the Local Electric Utility.

"Confidential Information" means information of a confidential or proprietary nature, whether or not specifically marked as confidential. Such information shall include, but not be limited to, any documentation, records, listing, notes, data, computer disks, files or records, memoranda, designs, financial models, accounts, reference materials, trade-secrets, prices, strategic partners, marketing plans, strategic or other plans, financial analyses, customer names or lists, Project opportunities and the like, provided however that Confidential Information does not include information which (i) was in the possession of the receiving Party before receipt from the disclosing Party; (ii) is or becomes publicly available other than as a result of unauthorized disclosure by the receiving Party; (iii) is received by the receiving Party from a third party not known by the receiving Party with the exercise of reasonable diligence to be under an obligation of confidentiality respecting the information; or (iv) is independently developed by the receiving Party without reference to information provided by the disclosing Party; or, if applicable (v) is the subject of a lawful disclosure request under the Public Records Law, M.G.L. c.66, §10 or any other applicable public disclosure laws governing Host.

"Construction Start Date" means sixty (60) days after receipt of (i) executed interconnection agreement for the Project and (ii) all permits, which shall be extended day-by-day for Force Majeure Events.

"Delay Liquidated Damages" means the daily payment of (i) $0.250/day/kW, not to exceed $15/kW in the aggregate, if Provider fails to achieve the Commercial Operation Date by the Guaranteed Commercial Operation Date in accordance with and subject to Section 2(e).

"Dispute" means a controversy or claim arising out of or relating to this Agreement.

"Early Termination Amount" (a) for terminations occurring after the first to occur of transfer of the Project to a Financing Party or the Commercial Operation Date, means an amount determined in accordance with Exhibit B, as of the applicable anniversary date set forth thereon, which includes all lost revenues from the sale or utilization of electrical energy, Environmental Attributes, or Tax Attributes, provided however, (b) in the event Host becomes liable for payment of the Early Termination Amount prior to the first to occur of the events listed in (a), Host shall instead pay to Provider a termination payment equal to the sum of the following, not to exceed the Early Termination Amount for Year 1 set forth in Exhibit B: (1) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to third parties for permits, interconnection application fees and studies,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

SMART incentives and other Governmental Authority and Utility approvals; and (2) all fees, costs and expenses reasonably incurred which are either paid by Provider, or which Provider is obligated to pay and does pay, to subcontractors and suppliers as of the termination date for design, engineering and procurement of equipment and other materials included in the Project, including any battery energy storage system and including the expenses and cancellation charges reasonably incurred and paid by Provider in termination of contracts and purchase orders pertaining to the System and the Installation Work; and (3) charges for Provider's internal engineering manpower and materials reasonably expended developing the Project up to the termination date based on Provider's labor rate sheet attached hereto as Exhibit H, which may be reasonably adjusted for inflation (in writing) on an annual basis, and, in the case of the costs described in sub-clauses (1) and (2) only, plus an amount equal to eighteen percent (18%) of such costs.

"Effective Date" shall have the meaning assigned to such term in the recitals.

"Electric Service Provider" means any person, including the Local Electric Utility, authorized by the Commonwealth of Massachusetts to provide electric energy and related services to retail users of electricity in the area in which the Site is located.

"Environmental Attributes" means Renewable Energy Certificates, carbon trading credits, emissions reductions credits, emissions allowances, green tags, Green-e certifications, or other entitlements, certificates, products, or valuations attributed to the Project and its displacement of conventional energy generation, or any other entitlement pursuant to any federal, state, or local program applicable to renewable energy sources, whether legislative or regulatory in origin, as amended from time to time, and excluding, for the avoidance of doubt, any Tax Attributes and the Applicable Solar Program.

"Estimated Annual Production" means the annual estimate of electricity generated by the Project for any given year. The Estimated Annual Production for each year of the Term is set forth in Exhibit F.

"Expiration Date" means the date on which the Agreement terminates by reason of expiration of the Term.

"Fair Market Value" means the price that would be paid in an arm's length, free market transaction, in cash, between an informed, willing seller and an informed, willing buyer (who is neither a lessee in possession nor a used equipment or scrap dealer), neither of whom is under compulsion to complete the transaction, taking into account, among other things, the age and performance of the Project and advances in solar technology, provided that installed equipment shall be valued on an installed basis and costs of removal from a current location shall not be a deduction from the valuation.

"Financing Party" means a Project Lessor or Lender.

"Force Majeure Event" means any act or event that prevents the affected Party from performing it obligations in accordance with this Agreement, if such act or event is beyond the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

reasonable control, and not the result of the fault or negligence, of the affected Party and such Party had been unable to overcome such act or event with the exercise of due diligence (including the expenditure of reasonable sums). Subject to the foregoing, Force Majeure Event may include but are not limited to the following acts or events: (i) natural phenomena, such as storms, hurricanes, floods, lightning and earthquakes; (ii) explosions or fires arising from lightning or other causes unrelated to the acts or omissions of the Party seeking to be excused from performance; (iii) acts of war or public disorders, civil disturbances, riots, insurrection, sabotage, declared state of emergency or public health emergency, pandemic, government mandated quarantine or travel ban, epidemic, terrorist acts, or rebellion; (iv) acts or omissions of Governmental Authorities, including the Local Electric Utility to the extent not caused by the action or inaction of Provider; and (v) strikes or labor disputes (except involving employees of the affected Party). Force Majeure Events shall not include equipment failures or acts or omissions of agents, suppliers or subcontractors, except to the extent such acts or omissions arise from a Force Majeure Event. Changes in prices for electricity shall not constitute Force Majeure Events.

"Governmental Authority" means any international, national, federal, provincial, state, municipal, county, regional or local government, administrative, judicial or regulatory entity operating under any Applicable Laws and includes any department, commission, bureau, board, administrative agency or regulatory body of any government.

"Guaranteed Commercial Operation Date" means 270 days from the Construction Start Date, which shall be extended day-by-day for Force Majeure Events and for other events outside of Provider's reasonable control.

"Hazardous Materials" means all hazardous or toxic substances, wastes or other pollutants, including petroleum, petroleum hydrocarbons or petroleum products, petroleum by-products, radioactive materials, asbestos or asbestos-containing materials, gasoline, diesel fuel, pesticides, radon, urea formaldehyde, lead or lead-containing materials, polychlorinated biphenyls; and any other chemicals, materials, substances or wastes in any amount or concentration which are now included in the definition of "hazardous substances," "hazardous materials," "hazardous wastes," "extremely hazardous wastes," "restricted hazardous wastes," "toxic substances," "toxic pollutants," "pollutants," "regulated substances," "solid wastes," or "contaminants" or words of similar import, under any Applicable Law.

"Host" means the entity identified as Host in the recitals, and all successors and assigns.

"Indemnified Person" means the person who asserts a right to indemnification under Section 15.

"Indemnifying Party" means the Party who has the indemnification obligation under Section 15 to the Indemnified Person.

"Initial Period" has the meaning provided in Section 2.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Installation Work" means the construction and installation of the Project and the start-up, testing and acceptance (but not the operations and maintenance) thereof, all performed by or for Provider at the Premises.

"Installer" means Solect Energy Development, LLC, the person designated by Provider to install the Project on the Premises.

"Land Registry" means the office where real estate records for the Site are customarily filed.

"Lease" has the meaning provided in the Recitals hereof.

"Lender" means persons providing construction or permanent financing to Provider in connection with installation of the Project.

"Liens" has the meaning provided in Section 8(c).

"Local Electric Utility" means the entity authorized and required under Applicable Law to provide electric distribution service to Host at the Site.

"Losses" means any and all losses, liabilities, claims, demands, suits, causes of action, judgments, awards, damages, cleanup and remedial obligations, interest, fines, fees, penalties, costs, and expenses (including all attorney's fees and other costs and expenses incurred in defending any such claims or matters or in asserting or enforcing any indemnity obligation).

"Net Metering" means the process of measuring the difference between electricity delivered by a Local Electric Utility to a customer and electricity generated by a solar system and fed back to the Local Electric Utility, as set forth in Applicable Law.

"Net Metering Credit" shall mean the monetary value of the excess electricity generated by a Project, and credited to the Host by the Local Electric Utility, as set forth in Applicable Law.

"Operations Period" has the meaning provided in Section 2.

"Operations Year" means a twelve month period beginning at 12:00 am on an anniversary of the Commercial Operations Date and ending at 11:59 pm on the day immediately preceding the next anniversary of the Commercial Operations Date, provided that the first Operations Year shall begin on the Commercial Operations Date.

"Party" means either Host or Provider, as the context shall indicate, and "Parties" means both Host and Provider, collectively.

"Point of Delivery" has the meaning set forth in Section 5(a) and Exhibit E.

"Premises" means the portions of the Site described on Exhibit D.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

"Production Excess" has the meaning set forth in Section 7(b)(i).

"Project" means an integrated system for the generation of electricity from solar energy consisting of the photovoltaic panels and associated equipment to be installed on each of the Premises in accordance with this Agreement.

"Project Lessor" means, if applicable, any Person to whom Provider transferred the ownership interest in the Project, subject to a leaseback of the Project from such Person.

"Provider" means Solect Energy Development LLC.

"Relocation Event" means the relocation of the Project, starting at the shutdown of the Project pursuant to such relocation, and ending at the commercial operation of the Project when such relocated Project is reinstalled at a new location, as determined by the Provider in its reasonable discretion.

"Renewable Energy Certificate" or "REC" means a certificate, credit, allowance, green tag, or other transferable indicia, howsoever entitled, created by an applicable program or certification authority indicating generation of a particular quantity of energy, or product associated with the generation of a megawatt-hour (MWh) from a renewable energy source by a renewable energy Project.

"SMART Incentive Payment Effective Date" means the date on which the SMART incentive payment becomes effective as determined by the Local Electric Utility.

"Site" means the real property described on Exhibit C attached hereto.

"Tax Attributes" means the investment tax credits (including any grants or payments in lieu thereof) and any tax deductions or other benefits under the Internal Revenue Code or applicable federal, state, or local law available as a result of the ownership and operation of the Project or the output generated by the Project (including, without limitation, tax credits (including any grants or payments in lieu thereof) and accelerated and/or bonus depreciation.)

"Term" shall have the meaning provided in Section 2 hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A

ENERGY PURCHASE PRICES

The PPA $/kWh rates set forth in this Exhibit A are dependent on Provider's good faith assumptions around the Pricing Elements set forth below, and are in accordance with the rules of the PowerOptions Solar and Storage Program. The actual SMART Incentive Payment Rate will be established upon receipt of the SMART Statement of Qualification from Massachusetts Department of Energy Resources. Upon receipt of the Statement of Qualifications, Provider shall forward a copy to Host.

Block 10

SMART Incentive Amount	$0.05819
PPA Rate ($/kWh)	$0.182

Assumptions around Pricing Elements:

- Additional utility interconnection costs. Prices shown include budgeted interconnection costs and exclude costs (if any) for utility engineering studies or system upgrades.
- PPA Rate assumes Project is exempt from personal property tax.
- Prices shown do not include costs required to comply with additional site work, stormwater management infrastructure, environmental compliance or remediation, or Orders of Conditions, as required by local AHJ (i.e. Planning Board, Conservation Commissions).
- Federal investment tax credit amount will reflect the calendar year in which installation begins.
- Steel pricing for ground mounted or canopy structures. A change in price shall be considered material when the price of the applicable steel product or products changes by 5% percent or more between the Effective Date and the Construction Commencement Date based on the benchmark prices published by CME group U.S. Midwest Hot-Rolled Coil Index (CRU), https://www.cmegroup.com/markets/metals/ferrous/hrc-steel.contractSpecs.html or such other steel index as is agreed with PowerOptions.

Variations:

Should the actual values of the Pricing Elements materially differ from the assumed values, Provider will prepare a Final PPA Rate in accordance with the rules of the PowerOptions Solar plus Storage program. Such Final PPA Rate will be provided to Host no later than 20 days prior to the Construction Start Date, and shall automatically take effect provided such Final PPA Rate does not exceed a Maximum PPA Rate of: $0.200 unless the parties have reached agreement on

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

a Final PPA Rate that exceeds the Maximum PPA Rate as determined pursuant to the process described below.

If, upon receipt of all documentation necessary to establish a Final PPA Rate, the Provider determines that the Final PPA Rate exceeds the Maximum PPA Rate, the parties will cooperate in good faith to negotiate a PPA Rate acceptable to both parties. If, after fifteen (15) days, the Parties are not able to agree on an acceptable PPA Rate, Provider may, in its sole discretion, elect to (i) continue performance under this Agreement with the PPA Rate equal to the Maximum PPA Rate, or (ii) terminate this Agreement upon ten (10) days' written notice to Host. Upon a termination hereunder, Host shall reimburse Provider for Provider's direct costs incurred in performing under this Agreement between the Effective Date and the date of such termination.

AVOIDED ENERGY PRICE

The following table sets forth the "Avoided Energy Price" for purposes of calculating the amount on any credit due to the Host under the Performance Guarantee in Section 5(b), with a 2% annual escalation rate.

Guarantee Year	**Avoided Energy Price per kWh**
1	$0.20333
2	$0.20740
3	$0.21154
4	$0.21578
5	$0.22009
6	$0.22449
7	$0.22898
8	$0.23356
9	$0.23823
10	$0.24300
11	$0.24786
12	$0.25282
13	$0.25787
14	$0.26303
15	$0.26829
16	$0.27366
17	$0.27913
18	$0.28471
19	$0.29041
20	$0.29621

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT A-1

PILOT AMOUNTS

For purposes of this PPA, the PILOT Amount assumed for each year of the Term is equal to zero dollars ($0.00).

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT B

Early Termination Amounts are calculated to achieve the same net present value for the investor as if early termination had not happened and the project went to full term.

Subject to final PPA Prices in Exhibit A
EARLY TERMINATION AMOUNTS

Year	Early Termination Amount	Early Purchase
1	$265,445	**N/A**
2	$244,508	**N/A**
3	$223,318	**N/A**
4	$215,310	**N/A**
5	$193,573	**N/A**
6	$171,540	**N/A**
7	$149,196	$120,103
8	$139,970	**N/A**
9	$130,399	**N/A**
10	$120,461	$88,671
11	$112,663	**N/A**
12	$106,405	**N/A**
13	$99,936	**N/A**
14	$93,244	**N/A**
15	$86,318	$49,464
16	$78,259	**N/A**
17	$69,888	**N/A**
18	$61,187	**N/A**
19	$52,138	**N/A**
20	$42,724	**N/A**

fee for school purposes a certain parcel of land, now or formerly owned by Clarence Cochrane et al, and bounded and described as follows: Beginning at a point on the westerly line of Damon Avenue, said point being the P. C. of a curve and being one hundred thirty-three and sixty-eight one-hundredths (133.68) feet northerly from the P. C. at Ruggles Street; thence by said curve, radius five hundred twenty-eight and eighty-six one-hundredths (528.86) feet, bearing northerly and to the left one hundred five and forty-three one-hundredths (105.43) feet to a point on the westerly line of said Damon Avenue; thence northerly by said westerly line of Damon Avenue ten and eighty-three one-hundredths (10.83) feet to land now or formerly of Dawson; thence westerly by said land of Dawson twelve and seventy-seven one-hundredths (12.77) feet to land of the City of Melrose; thence southerly by land of said City of Melrose one hundred seventeen and twenty-nine one-hundredths (117.29) feet to the P. C. of a curve and point of beginning. The above description is of a parcel of land of Damon Avenue, known as Lot (A) and shown on plan entitled, "Plan of Damon Avenue in Melrose, Mass., dated January 26, 1929, John F. Rand C.E.", and recorded in the Middlesex South Registry of Deeds, Book 6285 Page 382. All structures and trees upon said parcel of land are included in this taking. No betterments are to be assessed for this improvement. The question of damages sustained by the owner or owners of the land taken in accordance with the foregoing having been duly considered, it is hereby determined that no damages have, or will be, sustained by reason of said taking and, therefore, none are awarded.

CITY OF MELROSE

In Board of Aldermen June 19, 1967

AN ORDER Taking premises numbered 23 Hesseltine Avenue, Lots A^3 and B, adjacent to Horace Mann School, for school purposes

Offered by Alderman V. Edward Perkins for the Committee on Education, Health and Public Welfare

The duly elected and qualified Board of Aldermen of the City of Melrose, in the County of Middlesex, having complied with all the preliminary requirements prescribed for the purpose hereinafter set forth, and having made an appropriation of money for the purpose; and, it being necessary and desirable to acquire said land for said purpose, adopts the following order of taking:-

BE IT ORDERED

that, in accordance with the provisions of Chapter 79 of the General Laws, as amended, there be, and there hereby is, taken, on behalf of said city for school purposes, a certain parcel of land, being the premises numbered 23 Hesseltine Avenue, adjacent to the Horace Mann School, owned now, or formerly, by Charles A. Kane, and more particularly bounded and described as follows:-

Lot A^3 - B/T 131 PC. 89

Beginning at a point on the easterly line of Hesseltine Avenue, said point being thirty-six and twelve one hundredths (36.12) feet from an angle in said street, and being on the dividing line between land of Andrew C. and Mary A. Williams and land of Charles A.Kane; thence easterly along land of Andrew C. and Mary A. Williams one hundred twenty-one and twenty-one one hundredths (121.21) feet to land of Leonore H. Simonds; thence northwesterly along land of Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to land of Frank D. Rydant; thence westerly along land of said Frank D. Rydant forty-two and seventy one hundredths (42.70) feet to the easterly line of Hesseltine Avenue; thence southerly by said easterly line of Hesseltine Avenue one hundred and eight (108.00) feet to point of beginning and containing eleven thousand and eighty-eight (11,088) square feet and being Lot A^3 shown on Land Court Plan 484J F, filed with Land Court, Certificate ~~525h~~ in Book ~~139~~, Page ~~89~~ cancelled

" 60979 " 407 " 33

Lot B

Beginning at a point on the southerly dividing line of land belonging to Frank D. Rydant, said point being forty-two and seventy one hundredths (42.70) feet easterly from the easterly line of Hesseltine Avenue; thence easterly along said dividing line fifty-eight (58.00) feet to an angle; thence northerly by land of said Frank D. Rydant sixty (60.00) feet to land of Arnold C. and Barbara J. Wilson; thence easterly along land of said Arnold C. and Barbara J. Wilson fourteen and fifty one hundredths (14.50) feet to an angle; thence northerly along land of said Arnold C. and Barbara J. Wilson sixty (60.00) feet to land of City of Melrose; thence easterly along land of City of Melrose three hundred eighty-one and sixty-nine one hundredths (381.69) feet to the westerly line of Ruggles Street; thence southerly along said westerly line of Ruggles Street five (5.00) feet to land of Ellen E. Fogg; thence westerly by land of said Ellen E. Fogg

BK 11349 PG436

one hundred (100.00) feet to an angle; thence southerly along land of said Ellen E. Fogg and land of Dorothy L. Lightbown, land of Raymond F. and Lucie F. Risser and land of Max Solomon, one hundred and ninety (190.00) feet to land of Irving W. and Mildred N. Bray; thence westerly along land of said Irving W. and Mildred N. Bray forty-four (44.00) feet to land of Joseph S. and Mary Nutter; thence northerly along land of said Joseph S. and Mary Nutter forty (40.00) feet to an angle; thence westerly along land of said Joseph S. and Mary Nutter fifty and twenty-five one hundredths (50.25) feet to land of Leonore H. Simonds; thence northerly along land of said Leonore H. Simonds sixty-five (65.00) feet to an angle; thence westerly along land of said Leonore H. Simonds one hundred and two (102.00) feet to land of Charles A. Kane; thence northwesterly along land of said Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to point of beginning and containing fifty-nine thousand and forty (59,040) plus or minus square feet.

The foregoing descriptions are of two parcels of land in the City of Melrose shown on plan of same entitled, "Plan of Land in Melrose, Mass., showing land to be taken for school purposes, dated March 8, 1967, George R. Winters, Engineer and Superintendent, Melrose Public Works Department", to be recorded herewith.

The description given in this order of taking conforms to the deed of the parcel taken and the plan to be recorded herewith is a true survey of said parcel.

All trees and structures in said parcel of land are included in this taking. Interest in said land is taken in fee simple thereof.

We estimate and determine the damages sustained by the said Charles A. Kane, or his successors, in his, or their, property by reason of said taking to be in the amount of twenty-five thousand three hundred forty-two dollars and fifteen cents ($25,342.15) said amount including the sum of three hundred forty-two dollars and fifteen cents ($342.15) estimated to be equal to that portion of the tax, which it is estimated will be assessed upon said parcel in the year 1967, apportioned pro rata according to the number of days in said year after such taking. It being understood that if said Charles A. Kane is not such owner and entitled to such damages, the said award to be made to the true owner or owners.

The owner, or owners, of said land, or of any interest therein may request an offer pursuant to Section 8 A of Chapter 79 of the General Laws, of settlement of all damages for such taking within six months from the date when the right to damages vests; and may petition the Superior Court to determine their damages within two years from the date of the recording of this order of taking.

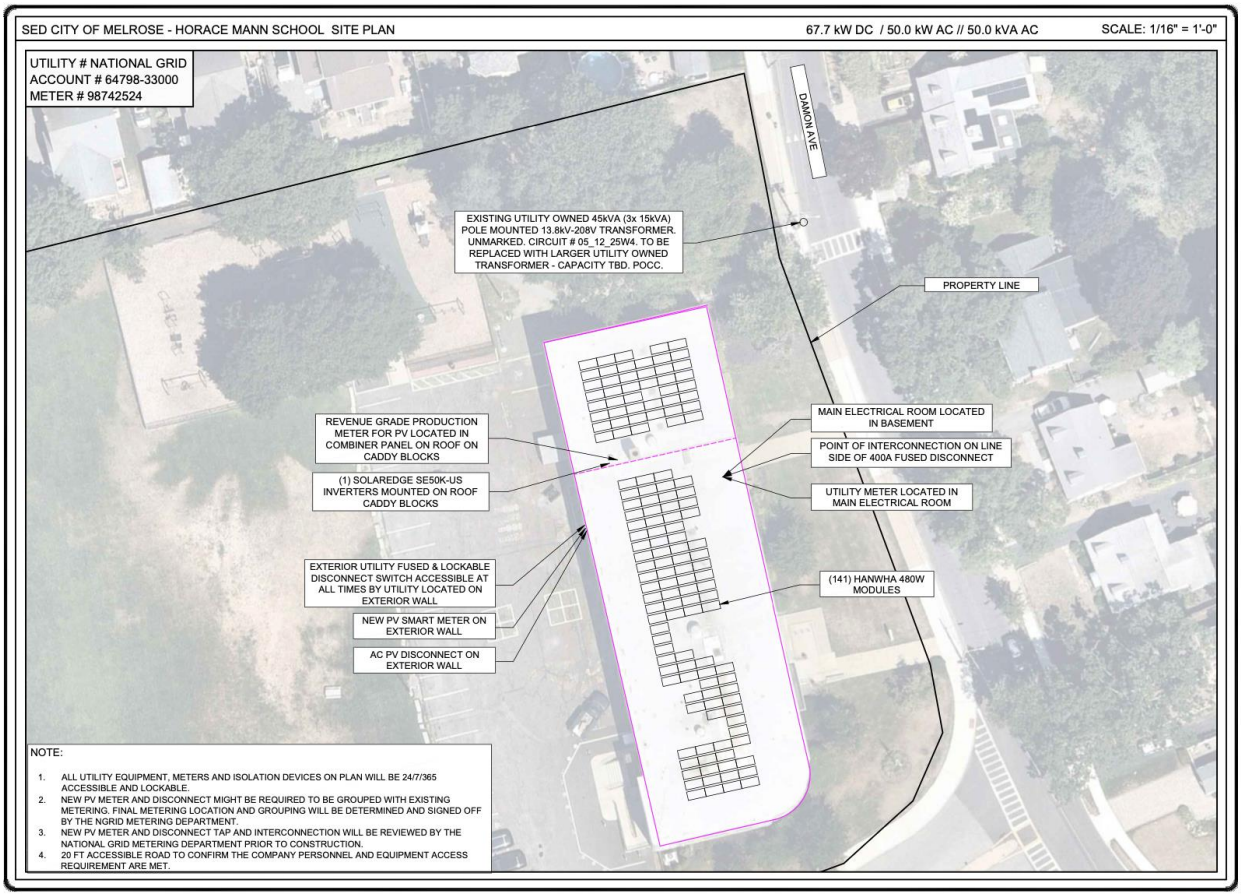
Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)



Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT D

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT E

DESCRIPTION OF PROJECT

Point of Delivery is the Local Electric Utility's meter.

The Project will be comprised of a series of solar photovoltaic equipment and parts integrated to the main electric service at the building, behind the utility meter, and interconnected to the Local Electric Utility's electricity distribution system. Main equipment components of the Project include:

- Roughly 141 x 480W Tier 1 Solar modules or equivalent
- Roughly 1 x solar inverters or equivalent
- Ballasted roof racking systems or equivalent
- Rapid shutdown system
- Solar kWh meter and monitoring system, connected to Host-provided internet service
- Combiners, Disconnects, Conduit, Switches, Pipe and Wire, and Balance of System materials.

Equipment list may change during the course of the Project

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT F

ESTIMATED ANNUAL PRODUCTION

Estimated Annual Production commencing on the Commercial Operation Date with respect to Project under the Agreement shall be as follows:

Year	Estimated Production (kWh)	Year	Estimated Production (kWh)
1	78,451	11	74,241
2	78,019	12	73,833
3	77,590	13	73,427
4	77,163	14	73,023
5	76,739	15	72,621
6	76,317	16	72,222
7	75,897	17	71,825
8	75,480	18	71,430
9	75,064	19	71,037
10	74,652	20	70,646

The values set forth in the table above are estimates (and not guarantees), of approximately how many kWhs are expected to be generated annually by the Project.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT G

INSURANCE REQUIREMENTS

1. General Liability

(a) Both Host and Provider will have a minimum level of commercial general liability insurance for the term of the Power Purchase Agreement of one million dollars ($1,000,000) for each occurrence, and two million dollars ($2,000,000) in the aggregate. Insurance coverage shall be at least as broad as the Insurance Services Office (ISO) Commercial General Liability Coverage "occurrence" form, with no coverage deletions.

(b) Both the Host and Provider general liability insurance coverage shall:

(i) Be endorsed to specify that the Provider's and Host's insurance is primary and that any insurance or self-insurance maintained by the Local Electric Utility shall not contribute with it.

2. Workers' Compensation

Host will have Workers' Compensation insurance indicating compliance with any applicable labor codes, acts, laws or statutes, state or federal, at the Site where the work is performed. Employers' Liability insurance shall not be less than $1,000,000 for injury or death each accident.

3. Property Loss

Provider shall carry adequate property loss insurance on the Project which need not be covered by the Host's property coverage. The amount and terms of insurance coverage will be determined at Provider's sole discretion.

4. Additional Insurance Provisions

Host shall furnish Provider with certificates of insurance and endorsements of all required insurance, as may be reasonably requested, including for purposes of compliance with any legal or regulatory authority or Local Electric Utility affecting the Premises or operation of the Project. Insurance required by the Local Electric Utility shall not be canceled except after (30) days prior written notice has been given to the Local Electric Utility.

5. Additional Installation Contractor Requirements

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Installation contractors will have valid commercial general liability, workers compensation, and business auto insurance as follows:

- Commercial general liability insurance will be in the following amounts: $1,000,000 for each occurrence and $2,000,000 aggregate.

- Workers compensation insurance or self-insurance indicating compliance with any applicable labor codes, laws or statutes, state or federal, where Installer performs work.

- Auto coverage not less than one million dollars ($1,000,000) each accident for bodily injury and property damage, and x million dollars ($1,000,000) in the aggregate.

- Excess liability insurance on an occurrence basis covering claims (on at least a following form basis) in excess of the underlying insurance for Commercial General Liability, Auto Liability and Employers' Liability with a minimum limit per occurrence of one million dollars ($1,000,000) and two million dollars ($2,000,000) in the aggregate. The amounts of insurance required for Commercial General Liability, Auto Liability, Employers' Liability and Excess Liability may be satisfied by Installer purchasing coverage in the amounts specified or by any combination of primary and excess insurance, so long as the total amount of insurance meets the requirements specified above.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

LEASE AGREEMENT

This Lease Agreement (this "**Lease**") is entered into as of _____, 20__, (the "**Effective Date**") by and between City of Melrose ("**Host**"), and Solect Energy Development LLC ("**Provider**") a limited liability company located in Hopkinton, Massachusetts (together, the "**Parties**").

WHEREAS, Host is a member of PowerOptions, Inc. ("**PowerOptions**"), a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts and the Internal Revenue Code that assists its members with procuring energy products and energy-related services for facilities they own and/or operate;

WHEREAS, Provider and PowerOptions have entered into an agreement governing the terms and conditions of Provider's participation in the PowerOptions Solar Programs;

WHEREAS, Host is the owner of the properties located and described in Exhibit A (the "**Site**" or the "**Property**") and desires to make a portion of the Site (said portion of the Site as more fully described in Exhibit B, the "**Premises**") available to Provider for the construction, operation and maintenance of a solar powered electric generating project (the "**Project"**); and

WHEREAS, Host and Provider have entered into a Power Purchase Agreement dated on or about the date hereof (as amended, modified and supplemented from time to time, the "**PPA**") describing the power sales arrangement between the Parties.

NOW, THEREFORE, in consideration of the promises, the covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows.

1. DEFINITIONS. Certain capitalized terms used in this Lease not defined herein shall have the meanings set forth in the GLOSSARY OF TERMS attached to the PPA.

2. TERM.

The Term of the Lease shall begin as of the Effective Date and shall continue until 11:59 p.m. on the last day of the month in which the twentieth (20th) anniversary of the SMART Incentive Payment Effective Date occurs. Notwithstanding, in the event that the PPA is terminated prior to the otherwise applicable end of term, this Lease shall also terminate; provided, however, that in the event that the PPA terminates early pursuant to Section 20(c) of the PPA (due to Host Event of Default), and Host does not pay the Early Termination Amount to the Provider, and Provider desires to continue use of the Premises under this Lease, then the Term of this Lease shall continue until the end of the term as set forth above. This Lease may be extended in accordance with the provisions for an extension of the PPA (as more specifically set forth in Section 2 of the PPA). For greater clarity, the parties hereby confirm that Provider shall also have access rights as described in Section 3 hereof, for removal of the Project pursuant to Section 9 (Removal at End of Term) hereof.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

3. LEASE RIGHTS.

(a) Lease Access Specifications; Easement Rights. Host hereby grants Provider and its designees (including Installer) access to the Premises, for the Term and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, at reasonable times and upon reasonable notice (except in situations where there is imminent risk of damage to persons or property), for the purposes of designing, installing, inspecting, operating, maintaining, repairing, and removing the Project, and any other purpose set forth in this Lease (the "**Permitted Uses**"), and otherwise in accordance with the provisions of this Lease. The Premises are leased together with the following Access Rights with respect to the Site:

(i) Vehicular & Pedestrian Access. A non-exclusive easement for reasonable vehicular and pedestrian access across the Site to the Premises for the Permitted Uses. In exercising such access Provider shall reasonably attempt to minimize any disruption to activities occurring on the Site.

(ii) Utilities & Communication Cables. The right and easement to locate distribution utility and/or electrical lines, electrical equipment cables, and other related facilities, equipment and improvements across the Site. The location of any such lines and cables shall be subject to Host's approval and shall be at locations that minimize any disruption to Host's activities occurring on the Site. Access will also be provided for telephone and internet connections on the Premises for use by Provider in installing, operating and maintaining the Project.

(iii) Solar Easement. An easement to receive direct sunlight and solar energy, pursuant to which Host shall not construct new buildings or structures or install rooftop equipment, or plant new trees or vegetation of any type which now or hereafter, in Provider's reasonable opinion, may be a hazard to the Project, overshadow or otherwise block or interfere with sunlight access to the Project at all hours of the day. The solar easement granted herein includes rights of unobstructed sunlight, and in furtherance thereof, the Parties have included provisions regarding trimming of vegetation and removal of obstructions which could impair insolation of the Project.

(iv) Interconnection Easement. An exclusive right to construct, operate, maintain, reconstruct, relocate, remove, and/or repair the electric utility service infrastructure and associated wires, lines and poles and other infrastructure necessary and convenient to interconnect the Project to the Local Electric Utility electrical distribution system, across portions of the Property to be determined by the Local Electric Utility, subject to the consent of Host and Provider, such consent not to be unreasonably withheld, conditioned or delayed. Provider shall bear all costs associated with interconnection, including fees, permits, taxes and charges.

(b) Quiet Enjoyment of Premises. Host hereby leases the Premises to Provider and Provider leases the Premises from Host for the Permitted Uses for the Term. Provided that Provider remains in compliance with its obligations under this Lease, Provider shall lawfully and

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

quietly have, hold, occupy and enjoy the Premises, use of the Easements and Access Rights, and any other rights granted by this Lease twenty-four hours a day, seven days a week, for the entire Term free of any claim of any person of superior title thereto without hindrance, interruption, suit, or interference of any kind by Host or any other person or entity claiming (whether at law or in equity) by, through, or under Host.

(c) Access to Premises. For the Term of this Lease, Host hereby grants to Provider the rights necessary for Provider to use and occupy portions of the Premises for the installation, operation, maintenance, repair, and removal of the Project pursuant to the terms of this Lease, including ingress and egress rights to the Premises for Provider and its employees, contractors and subcontractors and access to electrical panels and conduits to interconnect or disconnect the Project with the Premises' electrical wiring. Host hereby covenants that (i) Provider shall have access to the Premises and Project during the Term of this Lease and for so long as needed after termination to remove the Project pursuant to the applicable provisions herein, and (ii) Host shall not interfere or handle any Provider equipment or the Project without written authorization from Provider; provided, however, that Host shall at all times have access to and the right to observe the Installation Work or Project removal.

(d) No Interference. Host agrees not to conduct activities on, in or about the Property that have a reasonable likelihood of causing damage or impairment to, or otherwise adversely affecting, the Project. Host shall take reasonable steps to limit access to the Project to prevent theft, damage, vandalism and injury. Host and Provider agree to cooperate to determine if any commercially reasonable security measures are required at the Property. Provider shall have the right to provide and install such reasonable security measures, as Host and Provider deem in their reasonable discretion, are or may be necessary for the protection of the Project or to prevent injury or damage to persons or property, subject in all cases to Host's normal security procedures and Provider's Access Rights.

(e) Storage Space. Host shall provide temporary space at the Property for the storage and staging of tools, materials and equipment and for the parking of construction crew vehicles and temporary construction trailers and facilities reasonably necessary during the Installation Work, service events during the Term, or Project removal, and access for rigging and material handling. Provider shall be responsible for providing shelter and security for stored items during construction and installation.

(f) Recording. Provider may record a Notice of this Lease in substantially the same form attached hereto as Exhibit C in the land records regarding its Access Rights under this Lease.

4. HAZARDOUS MATERIALS; SITE SECURITY; SITE CONDITIONS.

(a) Hazardous Materials. Provider and Installer are not responsible for any Hazardous Materials encountered at the Site except to the extent introduced and negligently released by Provider or Installer. Upon encountering any Hazardous Materials, Provider and Installer will stop work in the affected area and duly notify Host and, if required by Applicable Law, any Governmental Authority with jurisdiction over the Site. Upon receiving notice of the presence of suspected Hazardous Materials at the Site, Host shall take all measures required by Applicable

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Law to address the Hazardous Materials discovered at the Site. Host may opt to remediate the Site so that the Project may be installed on the Site, or determine that it is not economically justifiable or is otherwise impractical to remediate the Site, in which case Host and Provider may agree upon a different location for the Project whereupon such replacement location shall be the Site for purposes of this Lease. Provider and Installer shall be obligated to resume work at the affected area(s) of the Site only after Host notifies Provider and Installer that Host has complied with all Applicable Laws, and causes to be delivered to Provider from an authorized Governmental Authority or a qualified independent expert a written certification that (i) remediation has been accomplished as required by Applicable Law and (ii) all necessary approvals have been obtained from any Governmental Authority having jurisdiction over the Project or the Site. Host shall reimburse Provider for all additional costs incurred by Provider or Installer in the installation of the Project resulting from the presence of and/or the remediation of Hazardous Materials, including demobilization and remobilization expenses. Notwithstanding the preceding provisions, Host is not responsible for any Hazardous Materials introduced to the Site by Provider or Installer and released as a result of the negligence of Provider or Installer, nor is Host required to remediate an affected area if such remediation is deemed to be economically unjustifiable or otherwise impractical.

(b) Site Security. Host will provide security for the Project to the extent of its normal security procedures, practices, and policies that apply to the Property. Host will advise Provider immediately upon observing any damage to the Project. Upon request by Provider, such as Provider receiving data indicating irregularities or interruptions in the operation of the Project, Host shall, as quickly as reasonably practicable, send a person to observe the condition of the Project and report back to Provider on such observations. Notwithstanding anything to the contrary, except in the case of gross negligence or willful action/inaction on the part of Host's security, Provider shall bring no claim against Host based upon performance of Host's security personnel.

(c) Host shall not be required to make any repairs or alterations in or to the Site, except as follows: Complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) The Parties agree that Provider shall not be liable for any conditions on the Site arising from or related to acts or omissions occurring prior to the Effective Date, except to the extent arising from or related to Provider's negligence or willful misconduct or to the extent that such conditions on the Site are exacerbated by the Provider or Installer.

5. CONSTRUCTION; OPERATION OF PERMITTED USES; ROOF.

(a) Provider and its contractors, agents, consultants, and representatives shall have reasonable access at all reasonable times to the Site for the Permitted Uses, and to any documents, materials and records of Host relating to the Site that Provider reasonably requests in conjunction with these activities. Provider, and its contractors, agents, consultants and representatives shall comply with Host's reasonable safety and security and operational procedures (as may be promulgated from time to time), and Provider and its contractors, agents, consultants and representatives shall conduct such activities in such a manner and at such a time and day as to cause minimum interference with Host's activities at the Site.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(b) Provider shall operate, maintain, and repair the Project in a manner that will not obstruct or interfere with Host's use of the Site or the rights of any other occupants of the Site, to the extent such rights are disclosed to Provider.

(c) For rooftop projects only:

(i) Provider shall install the Project in a manner that will not void the roof warranty, provided Host has provided such warranty, in writing

(ii) The Parties agree to the following with respect to repairs to the roof to be made prior to the commencement of construction: Host shall perform complete roof replacement that will be "Solar Ready" prior to Project installation.

(d) Host has provided to Provider Host's available records of the physical condition of the Premises which, to the best of Host's knowledge, are complete and correct. If it is discovered that the actual site conditions on part of, or on the entire Premises upon which all or part of the Project is to be installed, are materially different from the information provided by Host, then the Parties shall negotiate in good faith to adjust the rates payable by Host in order to compensate Provider for the cost of design and construction changes and delays incurred to adapt the Project to the unknown conditions and, if the parties cannot agree to a good faith rate adjustment after thirty (30) days, Provider shall have the right to terminate this Lease and the PPA.

(e) Except with the prior express written consent of Host, Provider shall not use the Premises for any use other than the Permitted Uses.

(f) During the course of construction and completion of the Project and any substantial alteration thereto, Provider shall maintain all plans, shop drawings, and specifications relating to such construction which Host, its agents or representatives may examine at reasonable times upon reasonable prior notice for the purpose of determining whether the work conforms to the PPA and this Lease.

(g) Host has been informed by Provider and acknowledges that the presence of and construction and operation of the Project and other activities related to the development, operation and decommissioning of the Project may potentially result in some nuisance to Host, such as visual impact. Host hereby accepts such nuisance and waives any right that Host may have to object to such nuisance and Host releases Provider from any claims Host may have with respect to any such nuisance, provided the Project as built is consistent with the site plan and specifications attached hereto, as amended from time to time, or otherwise approved by Host, which approval shall not be unreasonably withheld, conditioned or delayed.

(h) For rooftop projects only, Host shall, at its sole cost and expense, throughout the Term, maintain, repair and replace in a good and workmanlike manner as and when necessary, the building on which the Project is installed, including all building structural portions, and portions of the Property subject to Access Rights. Host shall perform all maintenance, repairs and replacements required under this subsection (h) (collectively, the "**Maintenance**") promptly after

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Host learns of the need for such Maintenance, but in any event within thirty (30) days after Provider gives written notice to Host of the need for such Maintenance, and shall coordinate any Maintenance with Provider if such Maintenance requires access to the Premises; provided, however, that in cases of emergency, Host shall perform Maintenance as soon as reasonably practicable after it learns of the need for such Maintenance. Host shall reimburse Provider for any damage to the Project caused by Host's Maintenance activities.

(i) Provider covenants and agrees to perform all work, including the construction, alteration (if permitted), repair and maintenance of the Project in a good and workmanlike manner and in such a way as to minimize noise, dust and interference with the operation, use and enjoyment of the Property by Host, or by other tenants, visitors or users of the Property.

(j) Provider shall, at Provider's expense, comply with all laws and regulations applicable to Provider's installation and operation of the Project at the Property, and shall be responsible for obtaining all permits or approvals required by any applicable authority in order to construct and operate the Project, and to comply, at all times during the term of this Lease, with all such permits and approvals.

(k) Provider covenants and agrees to keep the Project in good order, repair and condition throughout the Term, and to promptly and adequately repair all damage to the Premises and the Property caused by Provider or the Project. During the Term, any and all installation and construction work performed on the Property by Provider shall be conducted in a manner to comply with any requirements of any roof warranty delivered to Provider by Host (provided, however, in the event of a roof warranty that is not existing as of the Effective Date, Provider shall comply with such requirements to the extent that they do not interfere with Provider's use of the Project).

(l) Provider shall not bring into or install or keep on the Premises, any objects, including the Project, the weight of which, singularly or in the aggregate, would exceed the maximum load per square foot of the building and/or roof of the building and taking into account snow loads and all other equipment located on the roof, as required by local building code. Provider shall engage an engineer licensed and qualified where the Project is located to certify the same to Host before Provider shall install, affix or place any part of the Project upon the Premises, with a copy of such certification to be provided to the Host.

(m) The Provider shall not make any alterations, improvements and/or additions to the Site, except as shown on the plans approved by Host as of the Effective Date, without first obtaining, in each instance, the written consent of the Host, which consent shall not be unreasonably withheld, delayed or conditioned.

(n) Provider acknowledges and agrees that the Premises are being leased by Provider in their condition as of the delivery date, "As Is," without representation or warranty except for the express representations and warranties made by Host in this Lease and in the PPA, and Provider hereby waives any implied warranty that the Site is habitable or suitable for Provider's intended purposes or any other particular purpose. Provider acknowledges that Provider has inspected the Premises, and that by commencing construction of the Project, Provider will be deemed to have

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

found the same satisfactory. Provider agrees that Host is under no obligation to perform any work or provide any materials to prepare the Premises for Provider, except as set forth in Section 4(c) of this Lease.

6. RENT. In lieu of monetary rent, the consideration for this Lease is the terms of the PPA.

7. INTENTIONALLY OMITTED.

8. PERMITS, OWNERSHIP OF PROJECT, LIENS, MORTGAGES.

(a) Permits. Provider shall pay for and obtain all approvals from governmental entities necessary for the construction and operation of the Project, including land use permits, building permits, demolition and waste disposal permits and approval. Host shall cooperate in good faith with Provider and shall execute any such applications promptly upon request by Provider, and shall not unreasonably oppose or interfere with Provider in such regard. Provider shall provide Host with copies of all permits obtained in the approval process of the Project.

In furtherance of the above, Host hereby authorizes Provider to file with such federal, state and local authorities as Provider deems appropriate, and in the name of Host, Provider or both, as Provider deems appropriate (i) one or more applications to obtain any zoning relief regarding the Property or portions thereof as may be necessary and/or desirable to develop, construct and operate the Project on the Premises; and (ii) one or more applications to obtain construction, use or occupancy permits for the Project or any portion thereof.

(b) Project Ownership. Provider or Financing Party shall be the legal and beneficial owner of the Project at all times. The Project is personal property and shall not attach to or be deemed a part of, or fixture to, the Site. The Project shall at all times retain the legal status of personal property as defined under Article 9 of the Uniform Commercial Code. Host covenants that it will place all persons having an interest in or lien upon the real property comprising the Premises, on notice of the ownership of the Project and the legal status or classification of the Project as personal property. Host and/or Provider shall make any necessary filings to disclaim the Project as a fixture of its respective Premises and Site in the appropriate Land Registry to place all interested parties on notice of the ownership of the Project by Provider.

(c) Liens. To the extent permitted by Applicable Law, each Party shall not directly or indirectly cause, create, incur, assume or suffer to exist any mortgage, pledge, lien, (including mechanics', labor or materialman's lien), charge, security interest, encumbrance or claim of any nature, including claims by governmental authorities for taxes (collectively referred to as "Liens" and each, individually, a "Lien") on or with respect to the interests of the other in the Site, the Premises, and the Project, and in the Access Rights granted hereunder. Provider shall, to the extent allowed under Applicable Law, have Installer execute lien waivers with respect to any mechanic's or materialman's lien against Host's interest in the Site. If permitted under Applicable Law, Host will post notices of non-responsibility to notify Installer and others that Host is not responsible for work performed on the Project. Each Party shall promptly notify the other of the imposition of a Lien on the property interests of the other Party, and shall promptly discharge such lien, provided however, that a Party may seek to contest the amount or validity of any Lien affecting the property

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

of the other Party, provided it timely complies with all procedures for contesting such Lien, posts any bond or other security necessary under such procedures, and if such procedures do not require the posting of security, the Party establishes for the benefit of the other Party a deposit, letter of credit, or other security acceptable to the other Party to indemnify the other Party against any Loss which could reasonably be expected to arise if such Lien is not removed or discharged.

(d) Non Disturbance Agreements. Host shall pay for and obtain all consents required for it to enter into and perform its obligations under this Lease from its lenders, landlord, tenants, and any other persons with interests in the Site. If there is any mortgage, deed of trust, fixture filing or ground lease or similar encumbrance (a "**Mortgage**," and the holder thereof from time to time the "**Holder**") encumbering the Property, whether executed and delivered prior to or subsequent to the date of this Lease, Host shall, promptly upon request of Provider, use commercially reasonable efforts to cause the Holder of any such Mortgage to enter into a mutually agreeable nondisturbance agreement, which provides that (i) this Lease is subordinate to the Mortgage (unless the Holder shall elect otherwise); (ii) in the event that the Holder or any other party shall succeed to the interest of Host (such Holder or other party, a "Successor"), at the election of the Holder or Successor, Provider shall attorn to the Holder or Successor and this Lease shall continue in full force and effect between the Holder or Successor and Lessee; (iii) in the event of foreclosure of the Mortgage, so long as the Provider is not in default with the Lease after any applicable cure period, Holder agrees to recognize the rights of the Provider under this Lease, including Provider's Access Rights and the priority of Provider's (and/or Financing Party's rights) in the Project; and (iv) Holder or Successor recognizes that the ownership of the Project remains in Provider and acknowledges that the Project is personal property of Provider. Such nondisturbance agreement shall be substantially in the form attached hereto as Exhibit D or in the form customarily used by Holder, and it shall be recorded, at Host's expense, in the appropriate Land Registry. If Host is the fee owner of the Premises, Host consents to the filing of a disclaimer of the Project as a fixture of the Premises in the Land Registry. If Host is not the fee owner, Host will obtain such consent from such owner of the Premises.

9. REMOVAL AT END OF TERM.

Subject to Host's exercise of its purchase option under Section 9(a) or 9(b) of the PPA, upon the expiration or earlier termination of the Lease, Provider shall, at Provider's expense, remove all of its tangible property comprising the Project from the Premises on a mutually convenient date but in no case later than one hundred eighty (180) days after the Expiration Date, which may be extended on a day to day basis if the circumstances warrant and are agreeable to the Parties. The Premises shall be returned to its original condition except for ordinary wear and tear. If the Project is to be located on a roof, then in no case shall Provider's removal of the Project affect the integrity of Host's roof, which shall be as leak proof as it was prior to installation of Project (other than ordinary wear and tear). For purposes of Provider's removal of the Project, Host's covenants pursuant to Section 3 (Lease Rights) and Section 16 (Representations and Warranties) shall remain in effect until the date of actual removal of the Project. Provider shall leave the Premises in neat and clean order. If Provider fails to remove or commence substantial efforts to remove the Project by such agreed upon date, Host shall have the right, at its option, to remove the Project to a public warehouse and restore the Premises to its original condition (other than ordinary wear and tear) at Provider's reasonable cost.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

10. RELOCATION; CLOSURE OR SALE OF SITE.

Sections 10(c) (Relocation) and 10(e) (Sale of Site) of the PPA are incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

11. TAXES.

Section 11 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease.

12. INSURANCE.

Section 12 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

13. COOPERATION; SOLAR ACCESS; FUTURE IMPROVEMENTS; RIGHT TO INSPECT AND ENTER.

(a) Cooperation. Section 13(a) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein. Additionally, Host shall execute and deliver to Provider and/or the Local Electric Utility any agreements required by Local Electric Utility for the interconnection of the Project with the Local Electric Utility's distribution system.

(b) Host to Not Restrict Solar Access. Host, or any lessee, grantee, invitee or licensee of Host, shall not erect any structures on, or make other modifications to, or plantings on, or engage in any activities on, the Site which will interfere with the construction, operation or maintenance of, or solar access of, the Project. Further, Host shall maintain the Premises in a manner which allows for full unobstructed passage of sunlight to the Project, including removing or trimming vegetation or other objects causing shading of the Premises. Provided, however, for rooftop projects, Host may construct, reconstruct, modify, or alter the Premises so long as such activities do not interfere (including shading) with the operation of the Project. Host's failure to comply with its obligations in this section 13(b) shall be a material breach. Provided, however, Host shall have thirty (30) days to cure such breach.

(c) Provider's Right to Remove. The parties hereby acknowledge that Provider shall have the right (but shall not be obligated) to trim or remove, at Host's reasonable cost, any trees or other vegetation now or hereafter on the Site which now or hereafter in the reasonable opinion of Provider may overshadow or otherwise block or interfere with access of sunlight to the Project.

(d) Adjoining Properties. If Applicable Law and existing easements do not ensure that structures or plantings on adjoining property will not interfere with the solar access for the Project, then Host and Provider shall use commercially reasonable efforts to obtain from owners of adjoining properties any easements reasonably necessary to protect the solar access of the Project. Such easements shall run for the benefit of both Host and Provider. Provider shall pay for the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

expense of obtaining such easements, including payments to property owners and legal costs, but the rates payable by Host for electric energy from the Project shall be increased by an amount sufficient for Provider to fully amortize such costs, over a period equal to the lesser of (i) five years or (ii) the remaining term of this Lease without regard to Host's option to purchase the Project.

(e) Right to Inspect and Enter. Host and its agents, consultants, and representatives shall have reasonable access to the Premises at all reasonable times, subject to Provider's reasonable safety, security, and operational rules and, except for emergency situations, subject to Provider's consent which shall be obtained at least 5 business days prior and such consent not to be unreasonably withheld, conditioned or delayed, to inspect the Premises for the purpose of ascertaining its condition and to carry out such maintenance and repairs to Host's property and equipment as may be required; provided, however, that such access shall not interfere with Provider's performance of its obligations hereunder; and provided, further, that neither Host nor any of its agents, employees, consultants, contractors or representatives shall operate, touch or perform any repair or maintenance to the Project.

14. PRESS RELEASES AND CONFIDENTIALITY.

Section 14 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

15. INDEMNIFICATION.

Section 15 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

16. REPRESENTATIONS AND WARRANTIES.

Section 16 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

17. FORCE MAJEURE; CASUALTY.

Section 17 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

18. INTENTIONALLY OMITTED.

19. PROVIDER DEFAULT AND HOST REMEDIES.

(a) Section 19(a) (Provider Events of Default) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

(b) Remedies. Upon the occurrence of a Provider Event of Default, Host may, at its option, terminate this Lease, and shall be entitled to exercise any and all rights and remedies available under this Lease, at law or in equity.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

20. HOST DEFAULT AND PROVIDER REMEDIES.

(a) Section 20(a) (Host Events of Default) of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

(b) Remedies. Upon the occurrence of a Host Event of Default, Provider may, at its option, terminate this Lease, and shall be entitled to exercise any and all rights and remedies available under this Lease, at law or in equity.

21. COLLATERAL ASSIGNMENT, FINANCING PROVISIONS.

Section 21 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

22. LIMITATIONS ON DAMAGES.

Section 22 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

23. DISPUTE RESOLUTION.

Section 23 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

24. NOTICES.

Section 24 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

25. MISCELLANEOUS.

Section 25 of the PPA is incorporated as if fully set forth herein, and any references to the PPA shall apply to the Lease as used therein.

fee for school purposes a certain parcel of land, now or formerly owned by Clarence Cochrane et al, and bounded and described as follows: Beginning at a point on the westerly line of Damon Avenue, said point being the P. C. of a curve and being one hundred thirty-three and sixty-eight one-hundredths (133.68) feet northerly from the P. C. at Ruggles Street; thence by said curve, radius five hundred twenty-eight and eighty-six one-hundredths (528.86) feet, bearing northerly and to the left one hundred five and forty-three one-hundredths (105.43) feet to a point on the westerly line of said Damon Avenue; thence northerly by said westerly line of Damon Avenue ten and eighty-three one-hundredths (10.83) feet to land now or formerly of Dawson; thence westerly by said land of Dawson twelve and seventy-seven one-hundredths (12.77) feet to land of the City of Melrose; thence southerly by land of said City of Melrose one hundred seventeen and twenty-nine one-hundredths (117.29) feet to the P. C. of a curve and point of beginning. The above description is of a parcel of land of Damon Avenue, known as Lot (A) and shown on plan entitled, "Plan of Damon Avenue in Melrose, Mass., dated January 26, 1929, John F. Rand C.E.", and recorded in the Middlesex South Registry of Deeds, Book 6285 Page 382. All structures and trees upon said parcel of land are included in this taking. No betterments are to be assessed for this improvement. The question of damages sustained by the owner or owners of the land taken in accordance with the foregoing having been duly considered, it is hereby determined that no damages have, or will be, sustained by reason of said taking and, therefore, none are awarded.

CITY OF MELROSE

In Board of Aldermen June 19, 1967

AN ORDER Taking premises numbered 23 Hesseltine Avenue, Lots A^3 and B, adjacent to Horace Mann School, for school purposes

Offered by Alderman V. Edward Perkins for the Committee on Education, Health and Public Welfare

The duly elected and qualified Board of Aldermen of the City of Melrose, in the County of Middlesex, having complied with all the preliminary requirements prescribed for the purpose hereinafter set forth, and having made an appropriation of money for the purpose; and, it being necessary and desirable to acquire said land for said purpose, adopts the following order of taking:-

BE IT ORDERED

that, in accordance with the provisions of Chapter 79 of the General Laws, as amended, there be, and there hereby is, taken, on behalf of said city for school purposes, a certain parcel of land, being the premises numbered 23 Hesseltine Avenue, adjacent to the Horace Mann School, owned now, or formerly, by Charles A. Kane, and more particularly bounded and described as follows:-

Lot A^3 - Plan 131 of 60

Beginning at a point on the easterly line of Hesseltine Avenue, said point being thirty-six and twelve one hundredths (36.12) feet from an angle in said street, and being on the dividing line between land of Andrew C. and Mary A. Williams and land of Charles A. Kane; thence easterly along land of Andrew C. and Mary A. Williams one hundred twenty-one and twenty-one one hundredths (121.21) feet to land of Leonore H. Simonds; thence northwesterly along land of Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to land of Frank D. Rydant; thence westerly along land of said Frank D. Rydant forty-two and seventy one hundredths (42.70) feet to the easterly line of Hesseltine Avenue; thence southerly by said easterly line of Hesseltine Avenue one hundred and eight (108.00) feet to point of beginning and containing eleven thousand and eighty-eight (11,088) square feet and being Lot A^3 shown on Land Court Plan 484J F, filed with Land Court, Certificate ~~525~~ in Book ~~138~~, Page ~~89~~ amended

" 60979 " 407 " 33

Lot B

Beginning at a point on the southerly dividing line of land belonging to Frank D. Rydant, said point being forty-two and seventy one hundredths (42.70) feet easterly from the easterly line of Hesseltine Avenue; thence easterly along said dividing line fifty-eight (58.00) feet to an angle; thence northerly by land of said Frank D. Rydant sixty (60.00) feet to land of Arnold C. and Barbara J. Wilson; thence easterly along land of said Arnold C. and Barbara J. Wilson fourteen and fifty one hundredths (14.50) feet to an angle; thence northerly along land of said Arnold C. and Barbara J. Wilson sixty (60.00) feet to land of City of Melrose; thence easterly along land of City of Melrose three hundred eighty-one and sixty-nine one hundredths (381.69) feet to the westerly line of Ruggles Street; thence southerly along said westerly line of Ruggles Street five (5.00) feet to land of Ellen E. Fogg; thence westerly by land of said Ellen E. Fogg

(continued)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

BK 11349 PG436

one hundred (100.00) feet to an angle; thence southerly along land of said Ellen E. Fogg and land of Dorothy L. Lightbown, land of Raymond F. and Lucie F. Risser and land of Max Solomon, one hundred and ninety (190.00) feet to land of Irving W. and Mildred N. Bray; thence westerly along land of said Irving W. and Mildred N. Bray forty-four (44.00) feet to land of Joseph S. and Mary Nutter; thence northerly along land of said Joseph S. and Mary Nutter forty (40.00) feet to an angle; thence westerly along land of said Joseph S. and Mary Nutter fifty and twenty-five one hundredths (50.25) feet to land of Leonore H. Simonds; thence northerly along land of said Leonore H. Simonds sixty-five (65.00) feet to an angle; thence westerly along land of said Leonore H. Simonds one hundred and two (102.00) feet to land of Charles A. Kane; thence northwesterly along land of said Charles A. Kane one hundred sixty-two and eighty-six one hundredths (162.86) feet to point of beginning and containing fifty-nine thousand and forty (59,040) plus or minus square feet.

The foregoing descriptions are of two parcels of land in the City of Melrose shown on plan of same entitled, "Plan of Land in Melrose, Mass., showing land to be taken for school purposes, dated March 8, 1967, George R. Winters, Engineer and Superintendent, Melrose Public Works Department", to be recorded herewith.

The description given in this order of taking conforms to the deed of the parcel taken and the plan to be recorded herewith is a true survey of said parcel.

All trees and structures in said parcel of land are included in this taking. Interest in said land is taken in fee simple thereof.

We estimate and determine the damages sustained by the said Charles A. Kane, or his successors, in his, or their, property by reason of said taking to be in the amount of twenty-five thousand three hundred forty-two dollars and fifteen cents ($25,342.15) said amount including the sum of three hundred forty-two dollars and fifteen cents ($342.15) estimated to be equal to that portion of the tax, which it is estimated will be assessed upon said parcel in the year 1967, apportioned pro rata according to the number of days in said year after such taking. It being understood that if said Charles A. Kane is not such owner and entitled to such damages, the said award to be made to the true owner or owners.

The owner, or owners, of said land, or of any interest therein may request an offer pursuant to Section 8 A of Chapter 79 of the General Laws, of settlement of all damages for such taking within six months from the date when the right to damages vests; and may petition the Superior Court to determine their damages within two years from the date of the recording of this order of taking.

EXHIBIT B to Lease Agreement

DESCRIPTION OF PREMISES

The Premises includes locations where solar equipment will be installed and accessed for construction, operation, maintenance and decommissioning as depicted on the Site Plan below (as it or the Project may be modified pursuant to the Lease).

The Premises is benefitted by the Access Rights and Easements set forth in Section 3 of the Lease including rights to combine and connect the Project to Host's existing main electric equipment and rights to interconnect the Project to the utility network.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

EXHIBIT C to Lease Agreement
Form of Notice of Lease
[On following Page]

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Record and return to:
Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

[insert address]

NOTICE OF LEASE

In accordance with the provisions of Massachusetts General Laws, Chapter 183, section 4, as amended, notice is hereby given of the following described lease and easements:

Parties to the [insert name of lease agreement] (the "Lease"):

Host/Landlord:

Provider/Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
(and its successors and/or assigns)

Property Description: The real property located at [Street], [Town, State Zip] described on the attached Exhibit A (the "Property"). For Landlord's title see Deed recorded with the [__Insert County___] [Registry of Deeds/Land Records] in [Book _____, Page _____] [Certificate of Title No_____].

Description of Leased Premises: A portion of the Property as described on the attached Exhibit B where solar equipment will be installed and accessed for the term of the agreement, including the roofs, exterior and interior walls, through to the main electric room, and exterior areas of the Property. (the "Lease Area")

Date of Execution of the Lease: _____ (the "Effective Date").

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Term of Lease:

The Term of the Lease includes a Development Period, Operations Period and Decommissioning Period. The Lease shall commence on the Effective Date and, unless terminated earlier pursuant to the provisions of the Lease, the Operations Period shall continue until 11:59 p.m. on the last day of the calendar month in which the twentieth (20th) anniversary of the Commercial Operation Date, as defined in the Lease, unless the Tenant exercises the Options to Extend, in which case the Term of Lease shall include the Development Period, the Operations Period, the [Extension Terms] and the Decommissioning Period.

Options to Extend:

Tenant shall have the right to extend the Term of the Lease for [_____] year terms.

Decommissioning Period

Tenant shall remove the System within 180 days of the termination of the Lease, (provided that if such 180 day term ends within the months of December, January, February, March, or April, the Decommissioning Period shall extend to July 31) whereupon the Lease shall expire and shall be of no further force and effect

Easements.

(a) Under the Lease, Landlord granted the easements (the "Easements") to Tenant described in Exhibit C across and burdening the Property.

(b) Landlord's grant of Easements in the Lease shall commence on the Effective Date and end upon termination of the Decommissioning Period.

Ownership of the Facility.

Landlord shall have no right, title or interest in the solar energy facility (as defined in the Lease) ("Project") or any component thereof and Tenant shall be the exclusive owner thereof.

Miscellaneous

1. This Notice of Lease may be executed in multiple counterparts, each of which shall be deemed an original and all of which, together, shall constitute one and the same instrument.

2. This Notice of Lease does not describe or refer to all of the terms or conditions contained in the actual Lease and nothing contained herein shall serve to modify or amend the terms of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

actual Lease. In the event of any inconsistency between the provisions of the Lease and the provisions of this Notice, the provisions of the Lease shall control.

3. Any capitalized term not defined herein shall have the definition ascribed to it in the Lease.

EXHIBIT D to Lease Agreement

FORM OF SNDA

SUBORDINATION, NON-DISTURBANCE AND ATTORNMENT AGREEMENT

THIS AGREEMENT (this "Agreement") is made as of this _____ day of _____, 20__, by and among _____, a duly organized banking association, with a principal office at _____("Lender"), _____("Landlord"), and Solect Energy Development LLC, ("Tenant").

W I T N E S S E T H

WHEREAS, Tenant and Landlord have entered into a Lease Agreement dated _____, 20__, (the "Lease") covering the premises located at _____ (the "Premises"), notice of which is recorded with [Name of Registry] (the "Registry") in Book _____, Page _____, (being the property more particularly described in Exhibit A attached hereto and incorporated herein) pursuant to which Tenant has installed or will install on the Premises a photovoltaic facility for the generation of electricity from solar energy (the "Solar Facility"); and

WHEREAS, Lender is the mortgagee pursuant to a [Mortgage and Security Agreement dated _____] (the "Mortgage") and a [Conditional Assignment of Rents and Leases dated _____] (the "Assignment") encumbering, the Premises which are both recorded with the _____ Registry in Book _____page _____ and Book _____ page _____ respectively; and

WHEREAS, Lender, Tenant, and Landlord wish to set forth respective rights of each party;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter contained and other valuable consideration, the parties hereto covenant and agree as follows:

1. The Lease and any extensions, renewals, replacements or modifications thereof, and all of the right, title and interest of Tenant thereunder in and to the Premises are and shall be subject and subordinate to the Mortgage and to all of the terms and conditions contained therein, and to any advances, renewals, modifications, replacements, consolidations, amendments and extensions thereof.

2. Lender consents to the Lease and in the event Lender comes into possession of or acquires title to the Premises as a result of the foreclosure, or other enforcement of the Mortgage, or as a result of any other means, Lender agrees that Lender will recognize Tenant and will not disturb Tenant or Tenant's financing parties in their possession of the Premises or their rights in the Lease for any reason other than one which would entitle Landlord to terminate the Lease under its terms or would cause, without any further action by Landlord, the termination of the

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Lease, and the Lease will continue in full force and effect as a direct agreement between Lender and Tenant.

3. The Solar Facility shall not be, or be deemed to be, a part of or an accession or addition to or a fixture on the Premises even though the Solar Facility is installed on the Premises; nor shall the Solar Facility be moved from the Premises by the Lender unless Tenant's prior written consent to such move has been obtained.

4. Lender waives any and all right, title and interest in the Solar Facility and shall not acquire any such right title or interest by virtue of the installation of the Solar Facility on the Premises. The undersigned Lender further waives any right to seize, or to claim any interest, whatsoever in the Solar Facility on account of any claim or right the undersigned may have against any person, including, without limitation, any claim or right the undersigned may have or assert against the Landlord, by foreclosure or otherwise.

5. Tenant may at any time, at its option, enter upon the Premises and inspect, maintain, remove or repair the Solar Facility to the extent provided in the Lease.

6. When sending to Landlord any notice of impending or actual foreclosure of the Premises, the undersigned Lender shall concurrently provide Tenant a copy of the same.

7. Tenant agrees with Lender that if the interests of Landlord in the Premises shall be transferred to and owned by Lender by reason of foreclosure or other proceedings brought by it, or any other manner, or shall be conveyed thereafter by Lender or shall be conveyed pursuant to a foreclosure sale of the Premises, Tenant shall be bound to Lender under all of the terms, covenants and conditions of the Lease for the balance of the time thereof remaining and any extensions or renewals thereof which may be effected in accordance with any option therefor in the Lease, with the same force and effect as if Lender were the landlord under the Lease and Tenant does hereby attorn to Lender as its landlord, said attornment to be effective and self-operative without the execution of any further instruments on the part of any of the parties hereto immediately upon Lender succeeding to the interest of Landlord in the Premises. Notwithstanding the foregoing, Lender shall not be: (i) liable for any act or omission of Landlord, or for any fact, circumstance or condition existing or arising prior to Lender's succession in interest to Landlord unless such fact, circumstance or condition shall continue after such succession; or (ii) subject to any offsets, claims or defenses which Tenant might have against Landlord, except as set forth in the Lease.

8. This Agreement shall bind and inure to the benefit of the parties hereto, their successors and assigns. As used herein the term "Tenant" shall include Tenant, its successors and assigns; the words "foreclosure" and "foreclosure sale" as used herein shall be deemed to include the acquisition of Landlord's estate in the Premises by voluntary deed (or assignment) in lieu of foreclosure; and the word "Lender" shall include the Lender herein specifically named and any of its successors, participants and assigns, including anyone who shall have succeeded to Landlord's interest in the Premises by, or through, Lender foreclosure of the Mortgage.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

9. All notices, consents and other communications pursuant to the provisions of this Agreement shall be in writing and shall be sent by registered or certified mail, return receipt requested, or by a reputable commercial overnight carrier that provides a receipt, or by facsimile with confirmation of transmission, and shall be deemed given when postmarked and addressed as follows:

If to Lender:

If to Tenant: Solect Energy Development LLC
89 Hayden Rowe Street
Hopkinton, MA 01748
Attn: Legal Notices

If to Landlord:

or to such other address as shall from time to time have been designated by written notice by such party to the other parties as herein provided.

10. This Agreement may not be modified orally or in any manner other than by agreement, in writing, signed by the parties hereto. This Agreement may be executed in counterparts, each of which shall be deemed an original, and such counterparts taken together shall constitute but one agreement. This Agreement shall be governed by the laws of the state or commonwealth where the Premises are located.

Re: Request to Authorize MWRA I/I Program Funding – Phase 12

The MWRA Sewer System I/I Local Financial Assistance Program assists MWRA communities with the rehabilitation and replacement of existing sewer lines, manholes and services to reduce the inflow and infiltration of ground water and rain water. The program goals are to reduce the inflow and infiltration of water into the City sewer system, therefore reducing the City's sewer discharge assessment rate, mitigating sewer surcharges and overflows during heavy rain events, and minimizing the seepage of sewage into the ground. Under Phase 12 of the program, the City has $119,000 remaining that has not been appropriated. The funding is distributed as 75% grant and 25% zero interest loan.

The balance of Phase 12 funding will be used to continue work to identify and remove I/I. Previous work conducted by the DPW included metering, flow isolation, smoke testing, and CCTV to identify and quantify sources of I/I in the sewer system; and rehabilitation of pipes using cured-in-place-pipe (CIPP) lining and replacement of leaking manhole covers. These Phase 12 funds will be used for a pipeline rehabilitation project that will employ both trenchless CIPP and open cut methods to remove I/I from the system.

Water and sewer debts scheduled to be retired in FY24 and FY25 will coincide with the borrowing under this program. Therefore, the impact of the 0% interest loan ($29,750) to be repaid over 10 years will not have an impact on the water and sewer rates.

A positive vote is required before the DPW can apply for and access the grant funds and interest-free loan from MWRA.

Subject: Request to Appropriate 2021 Rideshare Funds

Each year, the City of Melrose receives a disbursement from the Department of Public Utilities associated with the services provided by rideshare companies. The payment is based on 10 cents per ride initiated in Melrose. We are hereby requesting an appropriation of funds in the amount of $10,274.50 to be used on projects that address infrastructure impacted by rideshare services. The amount of $10,274.50 represents the municipal portion of 10 cents per ride for 102,745 rides that originated in Melrose in 2021.

These funds are required to be used "to address the impact of transportation network services on municipal roads, bridges or other transportation infrastructure or any other public purpose substantially related to the operation of transportation network services in the city or town…." As in recent years, the 2021 funds are proposed to be used for pedestrian improvements, including accessible curb ramps and associated signage and line painting. The Traffic Commission approves new crosswalks but does not have a funding source for their implementation. The Commission recently approved a request for a crosswalk at Grove Street and Walnut Street. The petitioner noted that there is an MBTA bus stop for the 131 bus in this immediate vicinity, as well as a nearby bus stop for the Charter School where she frequently sees students trying to cross Grove Street. This crosswalk will add to pedestrian safety in this neighborhood.

There is no City match component to this funding source. We would be happy to answer any questions about this requested appropriation of funds.

Re: Free Cash Request Essex Agricultural

Please be advised that enrollment for Essex North Shore Agricultural & Technical School District is nine students for Fiscal Year 2023. The adopted Fiscal 2023 budget was based on Chapter 74 Non-Resident tuition and transportation costs for an estimated seven students. The supplemental appropriation requested for tuition and transportation for the two additional students is $35,311. This additional appropriation will bring the total Chapter 74 tuition and transportation funding for Essex North Shore Agricultural & Technical School District for Fiscal Year 2023 to $179,296.

Re: **Free Cash – School Department Supplemental Appropriation ($2.5M)**

As the Chief Financial Officer and City Auditor, I am pleased to have this opportunity to provide you with the position of the Office of the Auditor in funding this request for the use of Certified Free Cash for the School Department (see memorandum dated 02/21/2023). The School Department has requested $2.5 million dollars of funding to cover Special Education and Transportation related costs as provided for in the School Department request to your office. It is my recommendation that the funding source should be from Free Cash to close the Fiscal FY23 School Department Budget. This was and has been my position, and I represented such at the City Council meeting previously.

(A.) Overview:

Free Cash is for many communities, the only supplemental funding source available to them to address funding matters pertaining to the Operating Budget during a fiscal year. For this reason alone, it is critically important that communities strive to have Free Cash in the amount of 5 to 7 percent of their Operating Budget as recommended by the Department of Revenue, Division of Local Services (see November 17th, 2022 DOR publication on "Highly Recommended Financial Reserves). Historically, the city has used Free Cash to supplement both City and School Operating Budgets. I have attached some additional supplemental information on the nature and origin of what makes up "Free Cash" and some previous examples of the uses, for your review.

In addition, we must be mindful, that according to the School Department in a memorandum dated February 9th, 2023 on page 9, "Given the timing of these decisions and the fact that the majority of the school year has occurred, the scale of the impact to teaching and learning within MPS would be catastrophic". As the two key strategies this City has adopted, and held to historically, are the **"Safeguard of the Assets"** and the **"Continuity of Stable Service Levels",** such a change, in my opinion, would deviate from our core obligations and therefore not be prudent.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

(B.) Bond Rating:

In addition to being good fiscal practice, maintaining conservative budgeting strategies provides assurance to the Bond Rating Agencies that we are being consistent in our fiscal methodologies. The City has an excellent bond rating from Standard and Poor's' Bond Rating Agency of AA+ and has held this rating for a decade. No small task given what had transpired on the national and local economies during that timeframe. A bond rating is instrumental in the determination of interest expense the City will pay when it goes to market and takes out a bond. The lower the interest rate we receive, the more revenues can be allocated to direct community services. Having solid Free Cash balances is one key component.

(C.) Material Funding Components:

The City realized a number of "one-time" funding components, in addition to increased receipts in other categories, worth highlighting, and that provided for the final Free Cash determination which is the highest General Fund amount Certified in the City's history. These receipts contributed to the increase we realized from last fiscal year's certified balances. They include:

1. Host Community Cannabis receipts of $955,505 which exceeded last year's revenues by $499,986. We do not anticipate this to be the case next fiscal year.
2. Tax Liens redeemed (one-time) greater than last year by $349,484.
3. Deferred Taxes CH41 greater than last year by $41,228.19.
4. Unencumbered/Unexpended (one-time) greater than last year by $820,102.65.

Please advise if you have any questions.

Thank you.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Supplemental Information

Subject: Free Cash

The first question that generally surfaces is "What is Free Cash" (otherwise known as "available funds").

Q: What is Free Cash?

A: In short, Free Cash is the fund surplus that accumulates from previous fiscal years. Once all expected revenues have been received and all bills have been paid for the fiscal year (July 1st through June 30th), we send our final financial reports to the Department of Revenue Division of Local Services (DLS). They will Certify the amount of remaining funds that will go toward the determination of the community's "Free Cash" amount for the ensuing fiscal year's use. The money then becomes available for the City to use.

On February 16, 2003, the City of Melrose received notification from the Massachusetts Department of Revenue that our City's Free Cash has been Certified at $7,159,906 dollars. This is very good news for the community, the largest amount in its history.

Q: Why do we have Free Cash?

A: There are a number of reasons why the City has Free Cash. The main reason is that the City Budget approved by the City Council each year is a good faith estimate of revenue and expenses. We are conservative in our revenue estimates, because we don't want to put the City at risk of running short, but there are other factors at play as well. If the economy is strong, we may very well see additional revenues from new development or re-development, both taxes and permit fees. If a senior employee retires or leaves and we replace that person, it will often times be at a lower salary, if we have less utility costs than we budgeted for, or for any reason we don't spend the full amount allocated in the budget, that money goes toward the determination of our Free Cash amount.

When you add it all up, Free Cash can be anywhere from zero (or even negative), to a substantial amount. The Division of Local Services recommends that communities strive to have a Free Cash balance each fiscal year of 5% to 7% of their Operating Budget. Melrose strives to reach that target consistently. If we simply apply this amount to the most recent budget approved, the percentage comes in at 7.5%. The five-year average for the City is $5,227,175 dollars.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Q: What can it be used for?

A: It is important to note, however, that Free Cash is considered "one-time" money and should not be used as if it were a recurring revenue. For one thing, we only see it after the fiscal year is over, and it is not certified until the fall. More importantly, it is not dependable, because the amount changes in unanticipated ways from year to year. Therefore, it should be used principally for one-time expenses, such as Capital Improvements, or matching funds for a grant or replenishing reserves. There are times we may need such funds during the year to pay for unanticipated or higher than expected operating expenses (such as snow and ice), at the time the budget was developed as well, and that is to be expected.

Some projects and uses in the past year included the following:

1. Stabilization Funds/Trust Funds: $1,225,000
2. Snow and Ice Expenditures: $341,621
3. School Bathroom Design Study: $150,000
4. DPW Trees: $70,000
5. New DPW Equipment: $482,000

In closing, any Free Cash use requires an appropriation by the City Council on the Mayor's recommendation, but only after the DLS has Certified the Free Cash total. The same rules apply to the DLS's certification of Retained Earnings, which is the Enterprise Fund (Water, Sewer, Ambulance and Mt. Hood) equivalent of Free Cash.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MELROSE PUBLIC SCHOOLS

DATE: February 21, 2023

RE: FY23 MPS Free Cash requests - updated 2/21/23

In conjunction with the memo sent to the Melrose City Council, dated February 17, 2023, the Melrose Public Schools respectfully requests Mayor Brodeur consider the following request as well. The School Department recognizes and appreciates the investment of operating and capital monies allocated by the City every year in the interest of teaching and learning. The District is respectfully requesting that the City Council and Mayor consider the following funding appropriation requests for the FY23 Melrose Public Schools (MPS) budget.

As discussed at the February 14, 2023 Melrose School Committee meeting, the District approved FY23 budget is impacted by several factors that have resulted in a revenue gap. The impacts are detailed in a February 9, 2023 memo to the MPS School Committee. The below request will greatly assist the district in maintaining the current level of teaching and learning within the district. As the February 9, 2023 memo indicates, if approved, the additional revenue will be used to fund mandated special education costs for tuition, transportation, and services at the Franklin ECC. Additionally, the District is respectfully requesting the Medicaid reimbursement transfer at this time as well. The Medicaid funds are used as part of the District's budget offset funds.

Thank you for your consideration.

Transfer In Account: 0111 491003
Special Education tuition and transportation in the amount of: $2,500,000.00

Transfer In Account: 16204 49000
Medicaid reimbursement in the amount of: $262,674.93

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

RE: FY23 MPS Rebuild Budget Update

This memo outlines and summarizes the Melrose Public Schools rebuilding of the FY23 approved budget. This was an extensive and time consuming process that is an opportunity to account for legacy budgeting practices as well as to reassign costs to more accurate centers and budget categories. The following is an overview of the work, action steps, and next steps as we move forward to FY24. As we work collaboratively and transparently, please see below for more information.

FY23 Budget Rebuild Update

The FY23 budget has been impacted by the legacy grant practice of duplication as well as continued increases in special education tuition and transportation costs. Through the ongoing collaboration with the City and an outside consultant, Clifton, Larson, and Allen (CLA), the FY23 budget was rebuilt with the following priorities:

- Correct the double counting of the three grants (METCO, Title I, and IDEA 94-124).
- Assign existing broad system wide (SW) spending lines to specific schools and cost centers. This included assigning shared staff by Full Time Equivalent (FTE) to the buildings where instruction and position(s) are located. Additionally, ECC special education costs are the mandated responsibility of the District to provide. Significant amounts of these costs were historically charged to the tuition revolving offset fund. These costs have been moved to the operating budget.
- The district has requested $2,500,000 in additional revenue from the Mayor and City Council (see Memo here) to help close an identified gap in special education obligations for tuition and transportation.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Correcting the double counting of the three grants - Background

Several legacy accounting issues contributed to an FY22 budget deficit. This gap was closed utilizing school and City COVID-19 relief funds. None of the City's stabilization funds were impacted. However; given the time of the discovery, we knew the FY23 approved budget would also be impacted in a similar manner.:

Once the double counting of these specific grant funds (METCO, Title I, and IDEA 94-124) was corrected the FY23 approved budget was reduced by $1,260,000. The table below outlines the School Committee approved budget of $40,253,740, and the City Council approved budget of $35,511,659 which includes $115,081 less in City appropriations than approved by the School Committee and the full Chapter 70 allocation of $9,680,222. The FY23 Reduced budget listed in the table below decreases the FY23 budget by $1,260,000 for the removal of the grant amounts and $115,081 for the variance between SC approved and City Council approved budgets. The FY23 Adjusted budget adds back $115,081 in offsets from higher than projected Medicaid reimbursement.

FY23 MPS Budget
Impact of Grant Removal

Budget Category	Amount Approved April 12, 2022	City Council Approved June 21, 2022	FY23 Reduced	FY23 Adjusted
Ch70	$ 9,680,222	$ 9,680,222	$ 9,680,222	$ 9,680,222
City Appropriation	$ 25,946,518	$ 25,831,437	$ 25,831,437	$ 25,831,437
Offsets	$ 4,627,000		$ 3,367,000	$ 3,482,081
	$ 40,253,740	**$ 35,511,659**	**$ 38,878,659**	**$ 38,993,740**

The table below illustrates the impact of the grant removal by School Committee Voter categories. The FY23 Rebuild Proposal removes the grants and calculates forecasted FY23 expenses based on known student needs. The variance by category calculates the need for additional funding to meet the current level of student services.

SC Budget Category	FY23 Adjusted SC Approved	FY23 Rebuild Proposal	Variance by Category
Elementary Budget	$ 14,028,381	$ 15,884,214	$ 1,855,833
Secondary Budget	$ 15,524,213	$ 15,816,269	$ 292,056
Special Education	$ 4,585,597	$ 6,330,685	$ 1,745,088
Administration & Other	$ 4,855,549	$ 3,810,241	($ 1,045,308)
District Totals	**$ 38,993,740**	**$ 41,841,409**	**($ 2,847,669)**

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Assign existing broad system wide (SW) spending lines to specific schools and cost centers - Background

Past budgeting practice included grouping any shared staff in broad SW budget lines. This created challenges tracking full-time equivalent (FTE) personnel costs per building and cost center. Administration spent significant time reviewing staffing and FTE status by building and assigning FTEs to the facility or cost center where instruction or service delivery occurs.

The Franklin Early Childhood Center (ECC) special education costs are mandated and the responsibility of the District to provide for students when needed. Significant amounts of these costs were historically charged to the tuition revolving offset fund rather than the operating budget. Additionally, in FY20 all ECC preschool educators joined the MEA and became salary and benefits eligible at rates per the Collective Bargaining Agreement. Special Education teachers, certified service providers, and special education paraprofessionals' salaries were also moved to the FY23 rebuild operating budget.

These changes better align with DESE's chart of accounts and end of year reporting (EOYR) requirements. The table below captures the FY23 budget rebuild adjustments by school building and department budgets.

Building/Dept.	Orig Budget	Revised	Change	Text Description of changes	Impact
Hoover	$ 1,988,317	$ 2,366,726	$ 378,409	3.2 FTE allocation from itinerants	$ 211,282
				1 L/T Building sub moved from DW	$ 19,800
				3 add'l para's	$ 61,366
				1 academic interventionist	$ 28,860
				from .35 to 1 FTE Psychologist	$ 57,970
				misc	$ (869)
HV Changes					**$ 378,409**
Horace Mann	$ 1,692,558	$ 1,904,444	$ 211,886	2 FTE allocation from itinerants	$ 161,561
				1 L/T Building sub moved from DW	$ 19,800

Notable Expense Increases - Background

Removing the special education grant increased the existing gap between budgeted amounts for tuition and transportation funding. It has been past practice to under budget in both of these categories. For example, in FY20, tuition costs increased by more than $1,000,000; however, FY21 budgeting was increased by $100,000. As well, in FY19 transportation costs increased by $242,000; however, the FY20 transportation budget was decreased by 8%. MPS has respectfully requested $2,500,000 of additional funding from the City to help close that gap this year(see Memo here). As special education tuition and transportation costs continue to increase at unpredictable rates, it is possible that the district will need to request use of the special education stabilization funds this school year.

Notable Expense Increases for FY23		
Special Education tuition	$ 1,600,000	Grant removal and unbudgeted new tuitions
Special Education transportation	$ 710,440	Under budgeted and unpredictable
Special Education - adding ECC	$ 569,989	Costs should be charged to operating
Misc	$ (32,760)	Misc. costs and savings
District Totals	**$ 2,847,669**	

The table below outlines the additional revenue request from the City along with other internal offset projection adjustments.

Additional Revenue Requests and Adjustments		
To Mayor and City Council	$ 2,500,000	January 24, 2023, Memo requesting additional revenue (City Council vote would be required)
Increase Ed Stations/ECC offset projections	$ 200,000	Increased offset after moving Special Education costs to Franklin operating (SC vote would be required)
Increase Circuit Breaker/Medicaid offset projections	$ 147,669	Decreases incremental build up of expenses (SC vote would be required)
Total	**$ 2,847,669**	

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

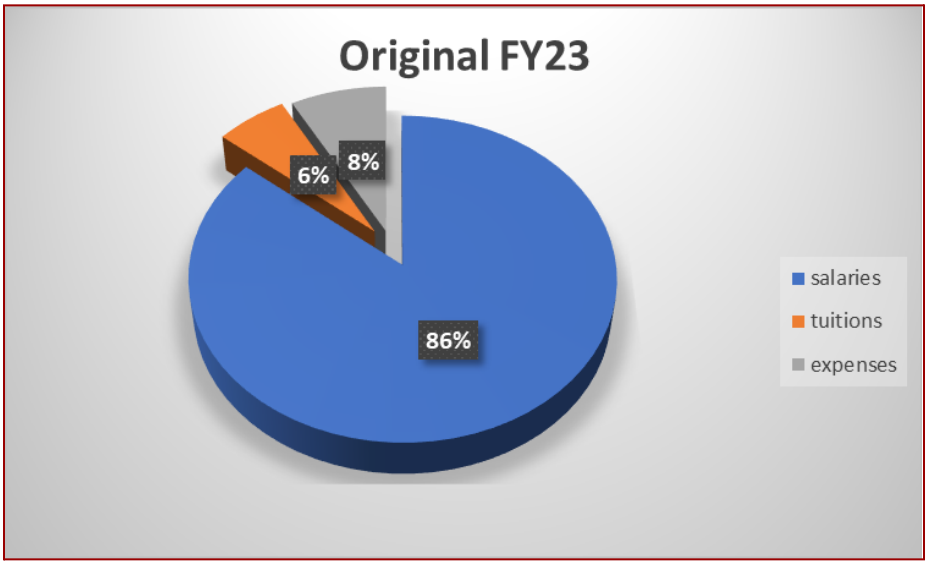
The district has worked to reallocate and utilize existing resources when possible to mitigate the impact of the request to the City. The budget rebuild includes potential increases in offset revenue based on projections and breakage due to vacancies. Any open positions are first reviewed for internal solutions (aside from obligated direct service providers). On January 18, 2023, the operating budget was frozen to conserve resources for the spring and requiring additional approval for essential expenses and purchases.

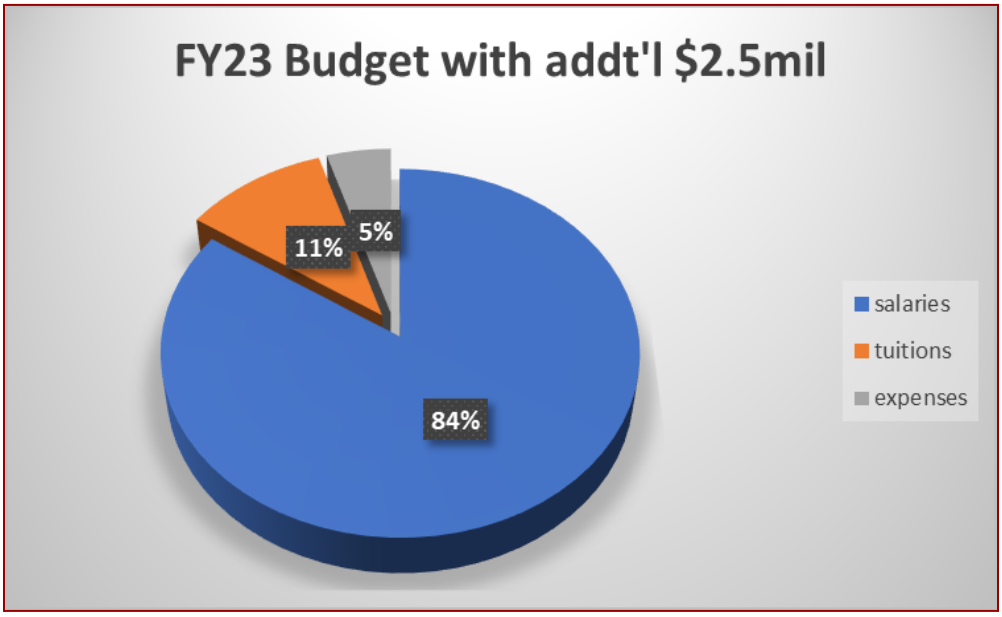
Next Steps



The changes to the FY23 rebuilt operating budget are impacted by several factors including the ratification of the new Unit A teachers and Unit B Paraprofessionals contracts. Further refinements may be needed when the new contracts' salaries and retro payment compensations are completed, all salaries are encumbered, and MUNIS updates are finalized. Special education tuition and transportation will be monitored and adjusted if necessary.

If the additional revenue is approved by the City, the MPS School Committee will need to vote on adjustments to the four budget categories as outlined below (pending any additional changes)

.



SC Budget Category	FY23 Adjusted SC Approved	FY23 Rebuild Proposal	Variance by Category
Elementary Budget	$ 14,028,381	$ 15,884,214	$ 1,855,833
Secondary Budget	$ 15,524,213	$ 15,816,269	$ 292,056
Special Education	$ 4,585,597	$ 6,330,685	$ 1,745,088
Administration & Other	$ 4,855,549	$ 3,810,241	($ 1,045,308)
District Totals	**$ 38,993,740**	**$ 41,841,409**	**($ 2,847,669)**

The pie chart below shows total operating budget percentages by three categories: salaries, tuitions, and expenses based on the original FY23 City Council approved budget in June 2023.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The pie chart below shows the FY23 rebuild budget if an additional $2.5 M is approved by the City Council to address the budget gap.

If the additional revenue is not approved by the City, the only way the district and MPS School Committee can reduce the budget is through salary reduction which means laying off employees to generate the cost savings. Given the timing of these decisions and the fact that the majority of the school year has occurred, the scale of the impact to teaching and learning within MPS would be catastrophic. Reducing special education tuition or transportation costs is not an option as these are mandated services. The pie chart illustrates how a lack of additional funds shifts category proportion relative to the operation budget.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

The table below shows average salaries and number of hypothetical FTE reductions that would need to be considered in order to generate a cost savings of $2.5M this late in the school year. Clearly this would be devastating to service delivery if this course of action was decided at the beginning of the school year. It simply would decimate our ability to safely and properly run the district if decided in the spring.

	Non-union Administration	Directors/ Administrators	Teacher	Paras
Average Salary	$131,184	$107,314	$ 79,448	$22,807
# of FTEs to Reach $2.5M	2	7	17	6
# of FTEs @80% Expended to Reach $2.5M	5	16	106	75

We understand the magnitude of this request and are very grateful for our City partners who continue to understand the importance of high-quality education. We further appreciate their commitment to ongoing collaboration as we work to solve this budgetary problem together. The FY23 rebuild budget as presented enables the District to maintain existing levels of teaching and learning and essential service delivery for all learners. We believe that the new budget development practices and the FY23 MPS Rebuilt School Budget will **continue** to support high quality educational experiences, and allow for more accurate and effective cost tracking, clear communication, responsible fiscal oversight, and strategic budget planning both in the short and long term.

Subject: Please fund school budget shortfall with free cash

Dear City Council Members,

Please consider funding the $2.5 million shortfall in the school budget with the free cash available to the city. I want my children to grow up through a school system that has the funds to educate them and prepare them for the future as best as possible. Investing in our schools will have a long-term positive impact on our children, teachers and staff, and the city. Please vote in favor of using free cash to fund the school budget shortfall.

Thank you for your time and consideration!

Sincerely,

Ghobrial, Andrew

From: Annie Lin <[redacted]>
Sent: Tuesday, March 7, 2023 10:40 AM
To: City Council
Cc: *Mayor Brodeur; School Committee; Kukenberger, Julie
Subject: Request to approve free cash allocation to Melrose Public Schools

To the City Council members:

I write today to ask you to vote as quickly as possible in favor of allocating $2.5 million of the City's $7.16 million free cash from this fiscal year to stabilize the Melrose Public Schools' budget.

I further ask that you carefully consider the future City budgets and permanently allocate more to the school budgets for future years.

We are all aware of the increased costs involved with educating our students in the past few years; I won't lay them out again here. I will, however, state that I do not believe that many of these increases are going away. The MPS budget needs to be permanently increased, and a commitment to increased financial support from the City will be but a small part in bridging the gap between where we are and where we need to be in coming years.

I do not consider the City's budget to be a success this year. Over $7 million in free cash is beyond fiscally conservative. I appreciate that there is a need for an emergency reserve, and hope that the City can continue to have free cash at the end of each fiscal year. Even with a permanent increase of $2.5-3 million to the public school budget, to help close the current budgetary gaps, we could expect to have sufficient free cash at the end of the next, and future, fiscal years.

I respect your hard work as Councilors and appreciate your time and service to our City.
Sincerely,
Annie Lin

Subject: Request to fully fund the schools...

Dear City Councilors-

I am writing as a Melrose community member and a parent of high school sophomore. My son is actively engaged in the Melrose school community and is thriving as a saxophone player in the concert and jazz bands, an athlete on the JV soccer team, and a budding chemist with his favorite teacher, Doctor Hurley, who is an outstanding educator. Recently our son told us that he and his friends sometimes attend chess club meetings after school, and he is learning to love this game. I am thrilled about all of it.

What **I** hear when he talks about his day to my wife and I is money. All of this comes from a public school system that provides these activities and opportunities because of the funding it receives and the budget priorities it makes.

This funding is in need of your support, and specifically that you fully-fund the $2.5 million free cash request from the school committee to cover its shortfall for this fiscal year. As the school committee has told us, in no uncertain terms, if this funding is not made, in full, there will be cuts.

When we imagine these financial cuts, we know they will first come from music, sports, and after school activities. What I think is important to recognize, is that these programs already run on shoe string budgets: Melrose has been lauded for its outstanding music program, but is currently needing a fundraiser to be able to replace marching band equipment that is well past its usefulness; Melrose sports teams already require fees and booster clubs to pay for some of the essentials. Any cuts means these programs just stop existing.

If those measures aren't enough, personnel will be impacted, meaning **multiple** teachers will be let go. We just showed our support for them as a community and made a commitment to raise their salaries, and now we would be letting some of them go. That will send a message that Melrose does not support its schools, their teachers, or its students. Please do not send this message.

Education costs are rising, this is clear. It is clear every time we hear from the school committee and their concerns for the drastic and continuing rising costs of special education and transportation. These issues are not unique to Melrose, they are not going away, and are only going to continue to increase. Melrose must meet these needs, and continue to anticipate them, by fully funding the real cost of education for our community.

I ask you to vote tomorrow to fully fund the $2.5 million request for our schools and I thank you for all you do for Melrose.

-Sandy Dixon

Subject: Please Fund $2.5Million Shortfall

Dear Members of the City Council,

I am writing to you as a parent of two Melrose Public School students. Please fund the $2.5 million shortfall in the school budget with the free cash that is available.

According to page 160 of the School Committee agenda from February 14th, if the $2.5 million is not approved by the City Council, the "only way the district and MPS School Committee can reduce the budget is through salary reduction which means laying off employees to generate the cost savings". Over the past three years, students and parents have had to deal with many stresses and uncertainties. It is unfathomable that after all we have gone through, we are now wondering if our teachers will be laid off as a result of our city officials not coming together to resolve this issue.

Admittedly, I am still trying to comprehend how a shortfall of this magnitude could take place. With all who have access to the budget, it is inexcusable that we're even in this position. I do not take lightly that the School Committee is asking for this money, however something must be done to ensure our students receive the education that they deserve.

Thank you for your consideration.

Best,
Jeralyn O'Leary

Message:
Dear Members of the Melrose City Council,

Thank you for all that you do, especially when it is time to make difficult decisions . As we have recently seen, Melrose teachers and education in general were a top priority in our city. Most residents want fair contracts for teachers and for our schools to be sufficiently funded now and for the long term. In order for our city to be competitive regarding all aspects in the future, any deficits within our school budget needs to be addressed now. I urge you to use whatever means necessary, including free cash, to establish appropriate funding to our school system. Now is not the time to punish or hold the entire school community accountable for mistakes that were made by a few or caused by drastically continued rising costs associated with education.

Please do right by this city and fully fund what is needed to have an operational school budget going forward. The students and teachers of Melrose need this.

Respectfully,
Tracey Cruickshank

Subject: please fully fund the $2.5 million free cash request from the school committee

Dear City Councilors,

I am a Melrose resident and parent of two students at MHS. While there, as well as when they were in the middle school, they spend too many periods with absent teachers, often with no substitute. Undoubtedly this is because we underpay our teachers and underfund our schools. This directly harms our students (and their teachers) and indirectly harms the entire community.

Therefore, I am writing to ask that you fully fund the $2.5 million free cash request from the school committee to cover its shortfall for this fiscal year. As the school committee has told us, in no uncertain terms, if this funding is not made, in full, there will be cuts.

Our students and our community cannot afford more cuts to the schools. Those cuts will undoubtedly come from programs that enrich our students: music, sports, and after school activities. These programs already run on tight budgets, often relying on fundraisers and outdated equipment to get by.

If further cuts to these programs aren't enough, personnel will be impacted, meaning multiple teachers will be let go. We just showed our support for them as a community and made a commitment to raise their salaries, and now we would be letting some of them go. That will send a message that Melrose does not support its schools, their teachers, or its students. Please do not send this message.

I ask you to vote to fully fund the $2.5 million request for our schools.

Subject: Free Cash Allocation for Melrose Public Schools

Dear City Council Members:

I urge you to fully fund the recent request from Mayor Brodeur to utilize the unprecedented free cash available this year to fund the Melrose Public Schools for the remainder of the year and avoid the catastrophic personnel cuts that will be necessary without such funding.

This has been another difficult year for the staff and students of the Melrose Public Schools and their families. On top of the ongoing staffing concerns, the prolonged and contentious negotiation with the teacher's union, and significant leadership changes, I believe the potential for budget cuts would do unimaginable and longlasting damage to our schools and our greater community. Ensuring a stable, appropriately funded school system is a core function of a city and an essential obligation of the Melrose City Council. Melrose will not be a community where people want to move and put down lasting roots if they cannot rely on the City to fund stable schools. Layoffs in an already understaffed system would lead to chaos and learning loss. While it is unfortunate and frustrating that we are in this situation, it would be unconscionable to require our students to bear the brunt of accounting errors, global inflation, and the need for increased special education services.

In addition to using free cash to fund this year's budget gap, I would implore the City Council to fund the schools at an adequate level in the coming years to reflect the actual needs of the district and to avoid the reliance on free cash allocations or creative accounting to fill gaps on a regular basis. Melrose is facing significant financial challenges in the coming years with many competing priorities. I hope we can come together as a community to engage honestly about the expenses and trade-offs that we collectively face. In the short-term, however, we cannot allow the community's reputation, goodwill, and obligations to our students and teachers to be compromised by not funding the immediate budget shortfall.

Thank you for your consideration and for all of your efforts to sustain Melrose as a wonderful place to live,

-Abby

Subject: Fund FY23 MPS Budget with Free Cash

Dear Melrose City Council Members,

I write today to ask you to fund the $2.5M shortfall in the FY23 Melrose Public School budget from the city's $7.16M free cash.

Additionally, I urge you to take a more proactive approach to MPS finances. I ask that you permanently allocate more of the City's funds towards the MPS budget in future years.. Year after year we seem to be in the same position of needing to "backfill" the school budget from free cash, instead of proactively and appropriately funding the school budget at the outset.

I thank all of you for your service and dedication to the City of Melrose.

Sincerely,
Ilana Bortinger

Subject: Request to approve free cash allocation to Melrose Public Schools

Dear City Councilors and Mayor Brodeur,

As 14-year residents of Melrose with daughters at MHS and Winthrop, we are writing to urge you to approve the allocation of $2.5 million of the City's $7.16 million of free cash from this fiscal year to stabilize the Melrose Public Schools' budget. While we are highly disappointed that the City is in this position, we see free cash as the solution for the current gap and implore the School Committee to build budgets beginning in FY 24 that are needs-based, take into account accurate spending from previous fiscal years, and reflect projected increases informed by data. Long term, the City must think hard about our priorities as we have continually failed to fund the school system. We ask that you work collaboratively with the School Committee to ensure we implement accounting practices that provide timely and accurate information to inform budget plans and allow for costs to be managed real-time so that we are never in this position again. While we are in a difficult situation right now, if the allocation is not passed quickly, our schools will be in crisis, forced to make decisions that will cause significant harm to our students and educators.

Thank you very much for your time and consideration. We greatly appreciate your service to our community.

Sincerely,

Emily and Chris Minton

Subject: Use of free cash to fund MPS

Dear City Council Members,

I write in advance of tonight's meeting and your consideration of allocating a portion of the City's $7 million in free case to the MPS in order to provide full funding now. Please do so. There is - or at least should be - no greater priority within our City than funding the MPS. The school district is our bedrock and should be treated as such. Especially as a parent of two elementary school aged children, I have a very difficult time understanding what better use the available funding can go towards. The MPS should be funded in full always, but no more than ever to demonstrate the City's commitment to the District and surrounding community that a strong school system engenders. It is the best investment any municipality can make. That the City has so much free cash on hand might ,by some, be viewed as an asset. I believe, however, that the availability of so much free cash can and should reasonably be taken as a failure to properly fund the MPS. The City has already experienced upheaval from the recent teacher strike. While I fully understand there are and should be opposing viewpoints as to what may constitute a reasonable budget, once set it must be funded in full. Please leave no question as to where the City's priorities are. Invest in our students, teachers and school system and use whatever free cash is necessary - now.

Regards,

Greg Pagnini

Subject: tonight's vote / funding the budget shortfall

Dear City Council members,

I'm writing to encourage everyone on the council to vote to fund the budget shortfall tonight and then again next week.

Whatever internal arguments there may be over who's to blame for the shortfall, this city can't afford not to keep our schools fully funded. As it is, we under budget our schools and underpay our staff compared to local towns with similar demographics.

Our schools are the single most important asset we have as a city. Keeping them fully funded is not only a community and basic equity issue, it's essential to maintaining Melrose's reputation as a desirable place to live.

This fact should be self-evident to every member of the council, regardless of political bent or affiliation.

Thank you for your consideration,
Alastair Moock and Jane Roper

13th March 2023

Melrose City Council
562 Main Street
Melrose, MA 02176

To the City Council members,

I'm writing today to ask you to vote in favor of allocating $2.5 million of the City's $7.16 million free cash from this fiscal year to stabilize the Melrose Public Schools' budget. I would also strongly ask that you take into account future City budgets and permanently allocate more funds to school budgets in future years.

As a resident, voter, taxpayer, parent of a MPS student, and a volunteer and co-chair of two PTO committees at Winthrop Elementary, I believe it is urgent that this funding is passed in full now. It is unacceptable that Melrose is in this position, and we unequivocally need a budget for FY '24 that accurately funds the many evolving needs of our schools. Having $7+ million in free cash might be considered a victory, were our school system adequately funded. The fact that we have this free cash and a school system in the condition ours is in simply demonstrates a continued failure to accurately fund our schools.

The mayor, the city council, and the school committee need to work together to find a permanent solution to this problem, which is a stain on our city and our district. Our children and their teachers - the future of Melrose - deserve better.

Sincerely,

Danielle Martínez

Subject: Statement on behalf of 32 Melrose residents

Hello,

Thank you for hearing my public comment at the Appropriations + Oversight Committee meeting today.

As promised here is the list of 32 Melrose residents from 5 wards who I was speaking on behalf of.

Why is there a shortfall?	1. Impact of legacy grant practice of the duplication of grants during budget planning 2. Wrong allocation of special education tuition money to the wrong budget (operating v. school budget) 3. Increased special education and transportation costs	Source: School Committee Agenda pages 152 for shortfall explanation			
What will happen if it's not covered?	The city must vote to cover the extra costs or there will be layoffs in the school system	Source: School Committee Agenda page 160 for layoffs if not approved			
What's the city's plan?	The mayor filed for the shortfall be covered with the "free cash" (revenue the city wasn't sure we'd get from from 2022 taxes). There's over $7M in free cash, so it's okay to use the $2.7M Next the City Council has to vote to approve the use of free cash to cover this. Discussion will happen on March 13. Vote will happen at a later date	Soures: City Council Agenda announcing APPRO-2023-15 (3/6) City Council discussion 3/13 Agenda City Council vote date tbd (maybe 3/20)		APPRO-2023-15: An Appropriation from Free Cash in the Amount of Two Million, Seven Hundred Sixty-Two Thousand, Six Hundred Seventy-Four Dollars and Ninety-Three cents ($2,762,674.93) to various accounts as set forth herein.	
What can you do?	Lisa Covino will read a statement to the City Council on March 13, asking that they vote to pay the $2.7M school budget shortfall with free cash. Please add your name, street address, ward, and if you're a registered voter to support this statement (and in lieu of making your own statement)	City Council Meeting schedule			
What's Lisa's statement?	My name is Lisa Covino, I'm here to speak to order APPRO-2023-15. Thank you Mayor Brodeur for filing it. To the council, I urge you to fully fund the $2.7 million shortfall in the school budget with the free cash available to the city. Our schools are crucial for the future of our community, and we cannot afford to compromise on our children's education. Thank you for voting in favor of using free cash to fund the school budget shortfall. We also support any additional funding that our schools need. This message has been signed by X Melrose residents from X wards. I will email you their names, addresses, and wards after this meeting.

Subject: Melrose public school shortfall

City Councilors,

My name is Sarah Jeune and as a Melrose Public Schools parent, I'm asking that you vote unanimously to fund the $2.5 million dollar shortfall to support the schools using the free cash available from the city.

Thank you

ELECTIONS OFFICE
CITY CLERK'S OFFICE
CITY HALL, 562 MAIN STREET
MELROSE, MA 02176
TELEPHONE – (781) 979-4116

TO: Honorable Mayor Paul Brodeur

DATE: February 28, 2023

FROM: Kristin Foote
City Clerk | Interim Elections Administrator

RE: Request for Free Cash

The City Clerk, Elections Office and Board of Registrars of Voters respectfully request an appropriation from free cash in the amount of $35,449 to purchase essential voting equipment and necessary supplies to continue the City's commitment to secure, straightforward and efficient elections.

Casting History

In 2020, vote-by-mail ("VBM") was first allowed due to Covid-19 health restrictions and in the presidential election approximately 16,000 ballots were mailed and 2,000 cast in person. The recently passed Votes Act of 2022 has increased accessibility and participation by providing registered voters with the permanent option of VBM. A byproduct of this accessibility has been quadrupled tasks around ballot preparation and processing as well as increased demand on poll workers during election day. VBM casting occurs concurrent with in-person casting and this has added pressure to election workers as they process the resultant increased VBM volume.

Of the approximately 14,000 ballots cast in the recent 2022 state election, they were cast almost equally: 50% in person on election day and 50% via VBM. We seek to purchase one high-speed tabulator to alleviate volume stressors as we continue our efficient and accurate elections. The unit currently in use by Somerville, Cambridge and Boston provide a speed of 85-100 pre-folded/mailed ballots per minute and will significantly reduce processing time as well as poll worker fatigue. To provide a sense of perspective, the tabulators currently used in Melrose scan in-person and VBM ballots approximately 8 ballots per minute. Ballots processed by the new equipment will occur on election day, by precinct, in full view of the public. Currently the Secretary of State's Elections Division has approved this high efficiency unit for use in the Commonwealth and there is a sole source supplier.

Office Equipment

Additionally, free cash is being sought to replace irreparable broken desks, purchased circa 2005, and to purchase modular workstations to provide functional workspace, tools, and processing stations for the staff who supplement the Elections Administrator in handling the added processing. Part of this request will be used to purchase secure storage to comply with state regulations that election materials (ballots, envelopes, tabulation, and tally sheets) be secured and stored for 22 months.

Thank you for your consideration.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Free Cash Request for Melrose Police & Fire Radio System Upgrade
Date: March 6, 2023

I am hereby requesting that the Honorable City Council appropriate $903,000 to fund the replacement of the City's Police and Fire safety radio equipment.

As you are aware, in addition to adequately funding our schools, our public safety infrastructure is our highest priority. The outdated radio system currently used by the Melrose Police and Fire Departments is several decades old, with replacement parts increasingly hard to find. This is especially the case for the portable radios that our first responders use on a daily basis to provide services to the Melrose community. Effective, clear, uninterrupted communication between first responders, dispatch, and any outside agencies is critical, and broken equipment poses a significant challenge to effective operations and safety.

The radio system upgrade proposed will provide modern equipment that can be supported by the manufacturers. It will provide redundancy in the case of a failure of the primary system. It also meets interoperability requirements set forth by the Commonwealth of Massachusetts' Executive Office of Public Safety and Security. Most importantly, it will continue to meet the needs of the MPD and MFD even if we ultimately replace the current public safety buildings.

I want to thank Chief Ed Collina and Chief Kevin Faller for their tireless efforts in seeking outside funding for this critical need, including applying for a public safety grant through the Mass Gaming Commission's Community Mitigation Fund. However, our application through this program is by no means guaranteed to be successful and at best would only provide a portion of the cost of this complete system upgrade. Therefore, we are requesting the full cost be appropriated by the City Council at this time.

CFO Dello Russo and I are in complete agreement that this important public safety project merits funding through Free Cash and we respectfully ask your prompt consideration and approval of this request.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

MEMORANDUM

To: Mayor Paul Brodeur
From: Chief Kevin M. Faller (MPD) / Chief Edward Collina (MFD)
Date: February 27, 2023
Re: Free Cash Request – Melrose Police & Fire Radio System Upgrade
Cc: CFO Patrick Dello Russo / Margot Fleischman (Chief of Staff)

Mr. Mayor:

Please take this communication as an official request to allocate free cash in the amount of **$903,000 (nine hundred and three thousand dollars)** for the purchase and completion of a ***radio system upgrade*** for the Melrose Police and Fire Departments. Cyber Communications, Inc provided a detailed quote and breakdown of the project in July of 2022, and it is enclosed with this request.

The current public safety radio system and equipment that is being used is outdated and major components of the system are no longer supported. Our portable radios and radio system is our most used piece of equipment. Portable radios are used by our Fire and Police personnel on every call for service. Communication is an important part of every emergency response. To ensure the safety of our first responders and the residents of our community who rely on our public safety personnel to respond effectively and efficiently, this upgrade is imperative. Failure of our radio system and/or portable radios will result in a poor outcome for us and our customers who we provide services to on a daily basis.

The project consists of an upgrade for both the radio frequency (RF) infrastructure and dispatch console equipment, upgrade antenna systems as needed (20-30 years old), as well as upgrading portable radios that are outdated and are no longer supported. Currently, the Melrose Police and Fire radio system uses telecommunication circuits to all RF sites except Mount Hood repeaters. Verizon is no longer supporting FDDA or RNTA circuits. This project will upgrade all sites to fiber or microwave for both Melrose Police and Fire. This will allow the new Motorola repeaters and receivers the IP connection they need.

We have also been assured by Cybercomm, Inc. that this needed upgrade to the system will not be obsolete if a new police or fire station are constructed in the future.

The radio upgrade will provide redundancy as well. This is important in the case of a failure of the primary system, there will be an immediate backup system to ensure radio communications stay online,

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

thus maintaining public safety. Effective, clear, uninterrupted communication between first responders, dispatch, and any outside agencies is critical.

The radio equipment and upgrade proposal has also been reviewed and meets interoperability requirements set forth by the Commonwealth of Massachusetts' Executive Office of Public Safety and Security.

Thank you for your prompt attention to this matter and please feel free to contact us with any questions.

Chief Kevin M. Faller (MPD)

Chief Edward Collina (MFD)

CITY OF MELROSE

Auditor's Office

Patrick D. Dello Russo
CFO/City Auditor

City Hall, 562 Main Street
Melrose, Massachusetts 02176
Telephone - (781) 979-4110

To: Honorable Mayor Paul Brodeur & City Council
City of Melrose

From: Patrick D. Dello Russo, CFO/City Auditor
City of Melrose

Date: March 2, 2023

Re: 3/6/23 Requested Free Cash Appropriations

Please be advised, if the following orders presented on the 3/6/23 agenda are approved the remaining balance in free cash would be as follows:

	APPRO Request	Balance of Free Cash	Dept
Certified Free Cash for Fiscal 2022		**7,159,906.00**	
If APPRO-2023-14 is approved	*35,311.00*	7,124,595.00	School
If APPRO-2023-15 is approved	*2,762,674.93*	4,361,920.07	School
If APPRO-2023-16 is approved	*35,449.00*	4,326,471.07	Elections
If APPRO-2023-17 is approved	*903,000.00*	3,423,471.07	Public Safety

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Melrose City Council

Appropriations and Oversight Committee

March 13, 2023

Public Safety Communications Upgrade

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

What is the need?

- Current communications system components are obsolete and no longer supported
- Equipment cannot be replaced because the components are no longer manufactured.
- Currently using recycled parts (not guaranteed) for repairs

Re: Mass DEP GAP III Grant for Municipal Water and/or Wastewater Facilities

The City of Melrose has applied for and received a GAP Energy Grant from the Massachusetts Department of Environmental Protection. GAP Energy Grants provide opportunities for energy cost savings through energy efficiency upgrades, installation of clean energy, and energy storage systems and have primarily focused on the water/wastewater sector. Our application was to retrofit the pumps at our two largest sewer pump stations (Upham Street and Fellsway) with variable frequency drives (VFDs). Our pump stations are currently equipped with soft start motors which operate only in 'on' or 'off' modes. Thus, when a pump is triggered to turn on, it runs at full capacity. The new VFDs will allow the pumps to operate over a range of flow rates, allowing us to optimize their efficiency. The grant award is $19,833 of a total project cost of $32,850. The DPW proposes to fund the remainder with Sewer Enterprise Funds through our operating budget. The grant will cover the final design and installation of the VFDs.

We formally request acceptance of this grant award of $19,833 from the Mass DEP Clean Energy Results Program for our Water/Wastewater pump stations. Funds will be deposited into the relevant account as directed by the CFO/Auditor's Office. There is no cost or encumbrance required to enter into this agreement and additional project costs have already been identified to be funded from normal Operating Budgets in our Enterprise Accounts.

Dear Martha Grover,

Congratulations! I am pleased to notify you that the Melrose water utility has been awarded a Gap III Grant for Municipal Drinking Water and/or Wastewater Facilities in the amount of $19,833 through MassDEP's Clean Energy Results Program (CERP) with the support of the Department of Energy Resources (DOER). Your grant award may be further adjusted based on the availability of utility incentives. I want to thank you for your commitment to installing energy efficiency and/or renewable energy measures at your facility that will reduce energy use, costs, and emissions of greenhouse gases to the benefit of all our communities and the environment.

The CERP Team will be following up with you on the grant contracting phase. If you have any questions before then, please feel free to contact either Danah Tench (danah.tench@mass.gov or 617-733-3998) or Michael DiBara (michael.dibara@state.ma.us or 508-767-2885). Again, congratulations on your leadership and on making this investment that will help the Commonwealth meet its greenhouse gas emissions reduction goals!

Governor Charles D. Baker

Lt. Governor Karyn E. Polito

Mr. Ghobrial,
I am forwarding you a letter I wrote earlier this week that was published today in the Melrose Weekly News. Please include it as my Public Comment in the meeting packet asthe Melrose City Council Meeting of 2-13-2023. I request that it be included in the meeting packet and be entered into the public record. I just saw Councilor Cinella's order that will be on Monday night's agenda regarding the Public Safety Buildings work.
Thank you.

Katy Kennedy

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Every time I hear a siren, I say a prayer. May they be safe. I'm not sure when I started doing this but I can't remember a time when I haven't performed this ritual. I pray that firefighters, ambulance personnel, police officers, people who are experiencing a medical episode, car crash victims, individuals at risk of violence and persons impacted by life altering losses due to fire, among others, will remain safe and be helped.

As I hunkered down over the weekend, I worried about those who did not have the luxury of staying home in a warm space during our historic and record breaking cold snap. I was especially concerned about members of the Melrose Fire Department. The recent Small Town Secrets Investigation on NBC 10 documented summer temperatures in the high 80's inside Fire Headquarters as well having inadequate heat in the building frequently. During the time of the interviews with Ed Collina and Bob Driscoll, the fire station had no heat at all. The media disclosure about the deplorable conditions of the station including rats, sewage, plumbing and the overall structural integrity of the building in which our public servants of the fire service work must be handled immediately. To put off solutions any longer is to dishonor the men and women who put their lives on the line for the rest of us.

Unfortunately, it often takes shocking facts to be widely known in order for governments and politicians to do something. The negative publicity about the Brazil Street neighborhood trauma, the city wide rat and sanitation nightmares and the recent Melrose Teachers Contract fiasco seemed to motivate the City to act. Melrose was shamed into responding.

The state of Melrose Public Safety Buildings in general and the Fire Department Headquarters in particular is a moral issue. I implore elected officials as the budget process begins to use ARPA funds and free cash to fund a temporary alternative building now. Finally, I challenge Paul Brodeur to look at Fire Headquarters whenever he pulls into his designated parking space. If the Mayor is truthful, he will not be able to say that the building is a safe place for anyone.

Hi Andrew,

I'm resending the following with a signature line typo corrected. Please include this version with any attachments when posted to the portal. Additionally, the slides we wish to present tomorrow include some animation. A non-PDF version is attached to be used during the presentation. Will you or someone else be able to run the slides on our behalf? We can also do it so long as this version is loaded and ready to go.

Thanks and best,
Eugenia

> Dear Honorable City Councilors,
>
> We, the Melrose Public Safety Building Committee, have prepared a 25 minute presentation to update the City Council and the public on progress made since we were last before you all in November. At that time, we requested appropriation of $68,500 to contract architecture firm Dore + Whittier (D+W) to provide pre-design services. In that time, our committee, police, and fire leads have been working closely with D&W to update the space programming needs, resulting in a square footage estimate for each of our four public safety buildings based on functional requirements. The space programming needs summaries are attached for your review.
>
> When we convene tomorrow, our committee will provide an overview of our process to date. Notably, Fire Chief Collina and Police Chief Faller will present a summary of their department needs and how they've been incorporated into the space programming. Emmanuel Andrade, our proposal and solutions lead, will present the scope of building upgrades being considered and proposed phasing of construction. Our team will also present a schedule of the committee's work and deliverables in the next 4 months, including preliminary plans for public engagement sessions beginning in April to present our analysis, solicit feedback, and answer questions as our final recommendation takes shape.
>
> Please see the attached presentation which will guide our presentation. We note that because we are still in the *pre-design* phase of our work as an advisory committee, we are unable to provide cost estimates for these projects as part of this week's presentation. That information is not yet available. However, we welcome the opportunity to provide a progress update at a future date to review the next phase of our work together and any additional information that is available and will be considered as we work to narrow the list of options to a final recommendation.
>
> We appreciate your engagement and support of this critical project for our City, and welcome your questions both in tomorrow's meeting, and offline.
>
> Thank you and best regards,
>
> Eugenia Gibbons & Jeff McNaught, Committee Co-Chairs

Highlights from Space Upgrades:

- Adequate Public Areas
  (vest/lobby, meeting rooms, toilet rooms)
- Expanded Administration and Operations
  (offices, training, detention, apparatus…)
- Improved Staff Support/Living
  (locker rooms, break room, training…)
- Modernized Building Infrastructure
  (elevators, utility rooms, storage…)

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Preliminary Recommendations

MPSBC Recommends:

- New Police Station at New Location
  (new site TBD by City)
- No Reduction to Number of Fire Stations
- No Combined Public Safety Building

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Preliminary Construction Phasing

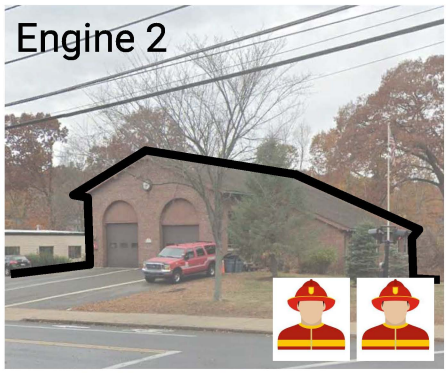
Preliminary 3-Phase Approach:

1. New Police Station and Engine 2
   - *PD remains at current Police Station*
   - *FD personnel relocates to Central Fire and Engine 3*
   - *18 - 24 months of construction*
   - *PD relocates to New Police Station*

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Preliminary Construction Phasing

Preliminary 3-Phase Approach:



2. Central Fire
   - *FD personnel relocates to upgraded Engine 2*
   - *18 - 24 months of construction*

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Preliminary Construction Phasing

Preliminary 3-Phase Approach:

3. Engine 3
   - *FD personnel relocates to upgraded Central Fire*
   - *18 - 24 months of construction*
   - *FD personnel relocates to upgraded Engine 3*

MPSBC currently considering options for shortening the construction phasing.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Preliminary Square Footage

Stations	Gross Square Feet (GSF)		
	Existing	Proposed in 2017	Proposed in 2023
Police Station	7,144	24,066	30,624
Central Fire	13,903	23,240	18,736
Engine 2	7,400		27,178
Engine 3	7,200	7,200	19,490
TOTAL	**35,647**	**54,506**	**96,028**

Notes:

- *GSF refers to everything within building footprint: walls, corridors, stairs, utility spaces, etc.*
- *In 2017, Central Fire and Engine 2 were planned as one single station.*
- *In 2017, Engine 3 was planned to be renovated but not expanded.*
- *'Proposed in 2023' indicates preliminary areas; GSF still in development.*

Fax - (781) 662-2182

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Affordable Housing Trust Appointment
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the appointment of Helena Widtfeldt, 44 Briggs Street, to the Melrose Affordable Housing Trust for a one-year term, said term to expire on the last day of January 2024. Ms. Widtfelt's term fills the unexpired term of resigned Affordable Housing Trust member Carolyn Federoff.

For over a decade, Ms. Widtfelt has worked for affordable housing industry organizations such as Quaddel, a national leader in providing program management, consulting, and training solutions to the affordable housing industry. I'm confident that her collected experience, in addition to her knowledge of planning and development via her master's degree in community development and planning, will drive forward the City of Melrose's mission to promote greater diversity and racial equity in the community and for the benefit of low- to moderate-income households in accordance with the provisions of MGL c. 44, § 55C.

Thank you for your consideration.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Library Board of Trustees Reappointment
Date: January 31, 2023

I respectfully request the Honorable City Council confirm the reappointment of Cathryn Mercier, 466 Pleasant Street, to the City of Melrose Library Board of Trustees for a three-year term, said term to expire the last day of February 2026.

My recommendation to reappoint Ms. Mercier, a staunch advocate for our public library who has supported the building, its services, and patrons through a pandemic and now a phase of transition and renovation, comes with the support of Melrose Public Library Director Linda Gardener. I look forward to Ms. Mercier's and our other Library Board of Trustees' continued fulfillment of the trustee's mission and their collaborative dedication to the library.

Thank you for your consideration.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Cathryn M. Mercier

466 Pleasant Street

January 31 2023

Mayor Paul Brodeur
Melrose City Hall
Second Floor
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur,

I write to express my interest in continuing to serve on the Melrose Public Library Board of Trustees. My current appointment expires on the last day of February 2023.

Not only do I find this work on behalf of the city and its people to be valuable in supporting the library's extensive public services to our community, but also I consider it my duty to support the library as a fundamental place for beginning, enhancing, and continuing the development the engaged citizenry essential to democracy.

I have been honored to serve on the library's last strategic planning efforts and to have been part of the collaborative efforts to bring to our city a new library, a gorgeous building that preserves the historic – as the best of Melrose does – even as it anticipates the future needs of our city.

It been my pleasure to serve Melrose in this way and I would welcome reappointment to this position.

My best,

Cathryn M. Mercier

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Human Rights Commission
Date: February 14, 2023

I respectfully request the Honorable City Council confirm the reappointment of Joseph Phillips, 1 Hillside Ave, to the Melrose Human Rights Commission (HRC) for a three-year term set to expire on the last day of February 2026.

Mr. Phillips has a proven track record of dedicated commitment to the Melrose community, as evident in his passionate participation and service to the HRC and the Diversity, Equity, and Inclusion Advisory Task Force, in addition to community groups. Mr. Phillips, along with my office, co-organized and hosted the City's October 8, 2022, Melrose Dance for Community event, which brought together residents of all ages, abilities, genders, ethnicities, and backgrounds, building a stronger sense of community. I look forward to his continued efforts to ensure the City of Melrose and our community work together to grow into "One community, open to all."

Thank you for your consideration and support for Mr. Phillips' reappointment to the Historical Commission.

ELIZABETH A. REIDY

[redacted]

EXPERIENCE

Counsel, Robins Kaplan LLP **May 2021 to the Present**

Represent national and global primary and excess insurers in first-party and third-party liability and property disputes with their insureds and third-party claimants, including in litigation, mediation and appraisal proceedings.

- Obtained dismissals on behalf of first-party property insurers in business interruption matters arising from the COVID-19 pandemic.
- Negotiated a successful resolution on behalf of a Lloyd's Syndicate of a claim arising out of two water losses and addressed novel questions as to the applicability of M.G.L. ch. 175, s. 99 to surplus lines insurers.
- Successfully represented insurer against homeowner's claim for coverage for a fire loss, resulting in favorable resolution after filing a motion to dismiss.
- Obtained successful award for insurer in Massachusetts Reference proceeding arising out of a water loss under a builder's risk policy.

Partner, Nystrom, Beckman & Paris, LLP **September 2012 to April 2021**

Extensive civil litigation experience in a wide range of cases, including insurance coverage, complex contract disputes, fiduciary duty claims and other business torts, financial fraud and employment matters.

- Reviewed, analyzed and advised clients with respect to first- and third-party insurance claims under D&O, E&O, fidelity bond and general liability policies.
- Represented over one hundred dairy farmers in antitrust action alleging violations of the Sherman Act in federal court against national dairy cooperative and marketing agency.
- Obtained favorable result in five-day jury trial in breach of fiduciary duty and breach of contract action on behalf of member of limited liability company.
- Granted summary judgment on behalf of trustee in declaratory judgment action, thereby obtaining insurance coverage for tort committed by trustee acting within the scope of his duties.
- Drafted appellate briefs for the Massachusetts Appeals Court in insurance coverage matter against company's excess insurer after underlying settlement, which concerned a matter of first impression.
- Successfully resolved dispute on behalf of medical device company in professional malpractice action against accounting firm, arising from firm's negligent audits.
- Resolved dispute for company and majority shareholder during mediation in matter alleging breaches of fiduciary duty against both the majority and minority shareholders.
- Obtained savings of approximately $4 million on behalf of property management company in dispute with state housing authority.
- Recovered significant unpaid sales commissions on behalf of sales representative on the eve of trial.

Senior Associate, Reed Smith, LLP, Washington, D.C. **September 2006 to September 2012**

Litigation associate with significant expertise in insurance coverage matters and experience with the retention and management of expert witnesses, the taking and defending of fact and expert depositions, arguing motions and jury instructions, drafting of pre- and post-trial motions, managing all aspects of discovery and client management.

- Represented lenders in coverage disputes with mortgage insurers, arising out of the lenders' alleged fraud, misrepresentation and negligence.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

ELIZABETH A. REIDY
[redacted]

- Lead associate during eight-week jury trial in Florida representing hotel owner against primary insurer arising out of hurricane damage resulting in a $28 million verdict.
- Part of a trial team in six-week bench trial in Louisiana and obtained award supporting a claim adjustment of over $60 million against multiple first-party property insurers.
- Pro Bono Matters
    - Successfully represented individual in a family law matter, from initial case investigation through trial.
    - Successfully represented inmate against prison facility and other defendants.

AWARDS

- Named a "Rising Star" by Massachusetts Super Lawyers in 2015 and 2016.
- Received Wiley E. Branton award from the Washington Lawyers' Committee for Civil Rights and Urban Affairs for pro bono matter.

EDUCATION

American University, Washington College of Law, Washington, D.C., Juris Doctor, May 2006

- *Magna cum laude*, Order of the Coif, Cumulative GPA: 3.72
- *Journal of Gender, Social Policy & the Law*, Publications Editor, 2005-2006
    - *Gonzalez v. United States Air Force: Should Courts Consider Rape to be Incident to Military Service?*, 13 Am. U.J. Gender Soc. Pol'y & L. 635 (2005)

Wake Forest University, Winston-Salem, N.C., Bachelor of Arts in English, Minor in Political Science, May 2003

- Dean's List, Spring 2000-Spring 2003
- Member of *Sigma Tau Delta* (English Honor Society)

BAR ADMISSIONS

- Massachusetts, District of Columbia and Maryland (inactive)
- Federal District Courts for the Districts of Massachusetts, Maryland and District of Columbia

Which Boards would you like to apply for?

Commission on Women: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I am very interested in joining the Melrose Commission on Women because I believe in: - The importance of advocating for and on behalf of women and girls in the community to obtain equality in all matters, including pay, health care, and education; - The need to ensure women are given the support they need at work and home, after giving birth or adopting (i.e., parental leave, child sick leave, breastfeeding policies); - The mental health crises facing working mothers who are overburdened at work and with primary caregiving responsibilities at home; - The mental health crises facing women postpartum due to the lack of medical care and support from the community; - Teaching young members of the community the importance of the role of women in society and demonstrating that we are equal members who deserve and equal voice; - Educating the community on the difficulties surrounding childcare for working parents and working mothers in particular, particular as we emerge from the Covid 19 pandemic where there are still significant childcare gaps. As an attorney in Boston (and previously Washington DC), in an industry and at companies that are male dominated, I've seen the importance of advocacy and having a voice. I believe that the status quo will not change unless women step up to advocate for themselves. I would love the opportunity to use my training and experience as an attorney to advocate for younger generations in Melrose to help younger women get one step closer to equality in all facets of life.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Commission on Women
Date: February 14, 2023

I respectfully request the Honorable City Council confirm the appointment of Elizabeth Reidy, 346 West Emerson Street, to the Commission on Women for a three-year term set to expire on the last day of February 2026. Ms. Reidy's appointment replaces that of Emily Minton, whose term will expire on the last day of February 2023, and who is not seeking reappointment.

Ms. Reidy has expressed deep concern and interest in the welfare of women and girls in Melrose. As an attorney with practice advocating for others, she is eager to translate her experience, skills, and passion for equality into tangible efforts to improve the quality of life for women and girls here in Melrose. I believe Ms. Reidy will be an adamant supporter of the Commission on Women's mission to represent the interests of women and girls in the community and promote and facilitate equality in all areas of life and more.

Thank you for your consideration and support for Ms. Reidy's appointment to the Melrose Commission on Women.

Re: Melrose Conservation Commission
Date: February 14, 2023

I respectfully request the Honorable City Council confirm the appointment of Sydney Hy, 118 Waverly Avenue, to the Conservation Commission as an associate member for a one-year term set to expire on the last day of February 2024.

Ms. Hy's education and research in public health and environmental justice have provided her with a special interest in conservation, both generally and within our community. I am eager for Ms. Hy, who has been awarded an EPA Watershed Academy Training Certificate, to join the Conservation Commission in support of the City's efforts to protect, promote and enhance the quality of the natural resources within the City, especially wetlands and water resources and more.

Thank you for your consideration and support for Ms. Hy's appointment to the Conservation Commission as an associate member.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Sydney Hy

118 Waverly Avenue, Melrose, MA • [redacted] • [redacted]

January 20, 2023

Dear Melrose Conservation Commission,

I am writing to express my interest in joining as a member of the commission. I was born and raised in Melrose, and it is with great pride that I seek the opportunity to serve the community through efforts to conserve and protect the local environment.

I recently earned my master's in biology at Umass Lowell, where I spent the last year working on a research project in Kwapich Lab. Throughout my academic career, public health has been a major focus for me in my coursework and experience working in hospitals and ambulances. I have found environmental justice to be an extension of health systems through my combined experience in field work and healthcare. My research focused a rare urban ant species that I found here in Melrose, which highlighted the significance of conservation as I explored the impacts of human activity on biodiversity. This work emphasized the inherent value of nature outside of a human-centered lens and motivated me to become active in environmental justice. I have also had additional volunteer experience with the Melrose Youth Orchestra, Melrose Symphony Orchestra, and other organizations throughout the years, which has instilled community values in me. It would be an honor for me to join the Melrose Conservation Commission to protect natural resources in Melrose.

I have attached along with this letter of interest my resume and EPA Watershed Academy Training Certificate. I can be contacted by the email or phone number listed above to further discuss the position or my qualifications for the role. Thank you for taking the time to review my statement and resume, and I look forward to hearing back.

Sincerely,
Sydney Hy

Re: Melrose Historical Commission
Date: February 7, 2023

I respectfully request the Honorable City Council confirm the reappointment of Joseph Hunt, 132 Mount Vernon Avenue, to the Melrose Historical Commission for a three-year term set to expire on the last day of February 2026.

Thank you for your consideration and support for Mr. Hunt's reappointment to the Historical Commission.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

23 January 2023

Hon. Paul Brodeur
Mayor Melrose
City Hall
562 Main Street Melrose,
MA 02176

Mayor Brodeur:

My name is Joseph Hunt and I have been a member of the Melrose Historical Commission for 10 years. As my present commission is about to expire (February this year), I request that you consider a renewal of my commission for another three years.

As a longtime resident of Melrose (since 1947) I've provided the Commission with a lived and mature perspective of an historic period of Melrose development. I have observed both beneficial historical preservation efforts (e.g., the current Library expansion project) as well as some regrettable ones (e.g., the destruction of the Ensign Thomas Lynde house once at Pine Banks Park). However, these lived experiences coupled with my practical engineering background makes me envision a bright Melrose future. A future enhanced by inclusionary and balanced historical preservation efforts that safeguard what is historically valuable without turning our city into a sterile time capsule.

With my Commission renewed, I'm excited and looking forward to continuing my contributions to this Commission's important work as a valuable advisory resource.

Sincerely,

C. Joseph Hunt

Melrose City Hall – 2nd Floor
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur,

I am writing to you to let you know that I have enjoyed my brief time on the Melrose Historical Commission. It is a wonderful group of people that I serve with. Preliminary plans are underway to commemorate the 50th anniversary of the Commission later this year.

My term is coming to a close (it was a 1-year remainder to a term) and I would like to be considered for re-appointed for a full term to the Melrose Historical Commission. Having lived in the city over 50 years I find the work we do very interesting.

I hope you look positively upon this request and will forward my name to the City Council for their approval. Thank you for your consideration.

Very truly yours,

George J. Bibilos

From: Mayor Paul Brodeur
Re: Melrose Zoning Board of Appeals
Date: February 7, 2023

I respectfully request the Honorable City Council confirm the reappointment of Benjamin Rosenberg, 76 Ardsmoor Road, as a Full Member of the Zoning Board of Appeals (ZBA) for a five-year term set to expire on the last day of February 2028. Mr. Rosenberg's appointment satisfies the Engineering role on the board.

With nearly 20 years of structural engineering experience, Rosenberg has shown a commitment to being a sensible leader in his field. He has a proven track record of managing teams on large-scale projects for esteemed universities, museums, and other notable structures, all the while cultivating positive relations with both employees and the public — often serving as a mediator during difficult conversations. Since his initial appointment, Mr. Rosenberg's practical leadership and strong qualifications have added immense value to the Melrose ZBA.

Thank you for your consideration and support for Mr. Rosenberg's reappointment to the ZBA.

Minutes Acceptance: Minutes of Mar 20, 2023 7:45 PM (Reading of the Minutes)

Benjamin Rosenberg, PE, LEED AP
76 Ardsmoor Road
Melrose, MA 02176
[redacted]

6/27/2022

To Whom It May Concern:

I write to express my interest in serving as a Full Member on the City of Melrose Zoning Board of Appeals. As a licensed and practicing structural engineer, a teacher, and a Melrose resident, I look forward to bringing my professional experience to bear in support of the ZBA's mission. I would also consider the position of Associate Member should the Full Member position be otherwise filled.

During my seventeen years at Silman, I have worked as both the lead technical designer and the project manager on a wide variety of project types and sizes, ranging from single- and multi-family residential to commercial to institutional work. Leading teams of up to six people internally and being the primary coordinator with the architect and broader project teams, I enjoy the creativity and communication necessary throughout the design and construction process. On projects ranging from the ongoing repairs at Harvard Stadium to the MIT Met Warehouse development for the School of Architecture + Planning to commercial fit-outs in Cambridge and Malden, I have supported each stage of the project's structural, architectural, and owner-driven requirements. As a Principal and Sector Manager, I am engaged on aspects of firm-wide management that require the ability to ask critical questions in our initiatives and decision-making process and then to message to a broad swath of employees. This sometimes involves difficult conversations and I have worked hard to cultivate the ability to bridge disparate views in search of resolution. Our firm's founder, Bob Silman, imbued our firm with a deep sense of the importance of serving society through our contributions to the built environment. Serving on the ZBA will allow me to engage with the City of Melrose in support of this mission.

As a lecturer in the Architecture Department at the Rhode Island School of Design (RISD) for the past five semesters, I have been able to engage architecture students in the field of structures by building on my own experience, including through the use of numerous case studies. Developing the curriculum allows me to present structural material as integral to the broader design industry, as indeed structures must be considered with architecture, zoning, code, and other disciplines in order to properly support a project.

My family and I have developed a wonderful sense of belonging since moving to Melrose last July, and I look forward to engaging with the City to deepen our community roots. I am happy to provide additional information as needed.

Sincerely,

Benjamin Rosenberg, PE, LEED AP

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Beebe Estate Board of Trustees
Date: February 28, 2023

I respectfully request the Honorable City Council confirm the reappointment of William Butler, 102 Crescent Road, to the Beebe Estate Board of Trustees for a three-year term set to expire on the last day of February 2026.

Mr. Butler is dedicated to working collaboratively with his fellow trustees to maintain and preserve a beloved community landmark—the Beebee Estate. I am proud to request his reappointment.

Thank you for your consideration and support.

From: Mayor Paul Brodeur
Re: Melrose Commission on Women
Date: March 1, 2023

I respectfully request the Honorable City Council confirm the appointment of Allison Goldberg, 24 Cottage Street, to the Commission on Women (MCW) for a two-year term set to expire on the last day of February 2025. Ms. Goldberg's appointment replaces the membership of Kristyn Bunce DeFilipp, whose term is expired and who is not seeking reappointment.

In Ms. Goldberg's professional capacity as a Program Director for the Barbara Lee Political Office/Barbara Lee Family Foundation, and previously at the State House, she has been an unwavering advocate for women. Currently, she serves as a coach for women who want to run for office, guaranteeing women have a seat at the table and ensuring their voices are heard, and previously she promoted public policies that bolster women and their communities.

For these reasons and more, I am confident that Ms. Goldberg will be an excellent addition to the MCW and support the Commission's mission to represent the interests of women and girls in the community.

Thank you for considering Ms. Goldberg's appointment to the Melrose Commission on Women.

Which Boards would you like to apply for?

Commission on Women: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I recently heard about the openings on the Melrose Commission on Women and am very interested in serving in this capacity. I've been devoted to women's empowerment throughout much of my life, and am a fierce advocate in promoting policies that bolster not just women but their communities as well. I have been active in government and public policy for over a decade, and for the past several years, I have brought together my two passions of politics and feminism by working for the Barbara Lee Political Office/Barbara Lee Family Foundation. There, I work daily to help position women to run for and win elected office, in order to "have a seat at the table" and ensure that women's voices are heard where we need them most. I would very much value the opportunity to serve on the Melrose Commission on Women and help advance the interests of women and girls here in Melrose. I feel that now is a great time for me to get more involved with the City - I have lived in Melrose for almost 6 years, and have 3-year-old and 1-year-old sons. I want to be able to show them what it means to stand up for women and how they can grow up to be allies, even from a young age. I appreciate the consideration of my application and look forward to further discussions about this opportunity!

Re: Melrose Board of Health
Date: February 28, 2023

I respectfully request the Honorable City Council confirm the reappointment of Carol Ann Licitra, 308 E Foster St, to the Melrose Board of Health for a three-year term set to expire on the last day of February 2026.

Ms. Licitra, whose initial term on the BOH began during the peak of COVID-19, has proven herself a sensible decision-maker who is equipped to handle the challenges presented to a community during a public health crisis, as well as during the recovery phase of such a crisis. As the Health & Human Service Department and BOH continue to partner in 2023 to improve our community's health and well-being, Ms. Licitra's experience is an asset to the BOH.

Thank you for your consideration and support for Ms. Licitra's reappointment to the Melrose Board of Health.

From: Mayor Paul Brodeur
Re: Melrose Commission on Women
Date: February 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Emily Paisner, 71 E Emerson St, to the Melrose Commission on Women (MCW), for a one-year term set to expire on the last day of February 2024. Ms. Paisner's appointment replaces the term of Rilda Kissel, who has resigned from the Commission.

Ms. Paisner's genuine interest in serving on the MCW stems from her passion for advocating for equality for women and girls, which she has previously expressed through her podcast *Equal Parts*, which brought to the forefront the challenges around women, work, and motherhood. She also serves in a girls' leadership role in our community as a girls' lacrosse coach.

I believe the MCW would be an excellent outlet for Ms. Paisner's dedication to advocating for equality for women and girls and I look forward to her partnership to help the City promote constructive action in areas of interest and concern to women and girls in the community.

Thank you for your consideration and support for Ms. Paisner's appointment to the Melrose Commission on Women.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I have lived in Melrose for ~4 years and am looking for additional ways to get involved in the community. Advocating for women's issues is extremely important to me. I previously hosted a podcast called Equal Parts, bringing issues and challenges around women, work, and motherhood to the forefront. I coach girls lacrosse in Melrose and am raising both a son and daughter in our community.

AYES:	Cinella, Eccles, Garipay, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Stewart, Williams, Grigoraitis
ABSENT:	John Obremski

C. Grants

D. Information Items

E. Licenses

F. Order

1. **ORDER-2023-59 :** Per Council vote to divide this order, this original order has been duplicated into ten other orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance, Chapter 235, Corner Lot Setbacks

Offered by: Mayor Paul Brodeur

From: Appropriations & Oversight Committee OUGHT TO PASS

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

RESULT:	**PASSED [10 TO 0]**
MOVER:	Leila Migliorelli, At-Large
SECONDER:	Jack Eccles, At-Large
AYES:	Cinella, Eccles, Garipay, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Stewart, Williams, Grigoraitis
ABSENT:	John Obremski

Motion: remand order 2023-81 back to committee: Apporpriations and Oversight

Councilor Karamcheti explains she is not opposed to the change but rather the process. Requesting additional time for ward constituents to understand the process and to be able ask questions of the planning board.

RESULT:	**PASSED [10 TO 0]**
MOVER:	Manjula Karamcheti, Ward 1
SECONDER:	Robb Stewart, Ward 3
AYES:	Cinella, Eccles, Garipay, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Stewart, Williams, Grigoraitis
ABSENT:	John Obremski

2. **ORDER-2023-81 :** Previously under Order 2023-59 until a vote by Council divided order into eleven different orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance, Chapter 235, BA-2 Zoning District Line Change at 521-529 Franklin St.

Offered by: Mayor Paul Brodeur

From: Appropriations & Oversight Committee OUGHT NOT TO PASS

RESULT:	**RECOMMITTED TO COMMITTEE [10 TO 0]**
MOVER:	Manjula Karamcheti, Ward 1
SECONDER:	Robb Stewart, Ward 3
AYES:	Cinella, Eccles, Garipay, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Stewart, Williams, Grigoraitis
ABSENT:	John Obremski

3. **ORDER-2023-82 :** Previously under Order 2023-59 until a vote by Council divided order into eleven different orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance - General Code Amendment, Vegetation Height for Corner Lots & in Yards along Streets

Offered by: Mayor Paul Brodeur

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

From: Appropriations & Oversight Committee TABLED

RESULT:	**HELD IN COMMITTEE**

4. **ORDER-2023-83 :** Previously under Order 2023-59 until a vote by Council divided order into eleven different orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance, Chapter 235, Structure Definition

Offered by: Mayor Paul Brodeur

From: Appropriations & Oversight Committee OUGHT TO PASS

RESULT:	**PASSED [10 TO 0]**
MOVER:	Leila Migliorelli, At-Large
SECONDER:	Christopher Cinella, At-Large
AYES:	Cinella, Eccles, Garipay, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Stewart, Williams, Grigoraitis
ABSENT:	John Obremski

5. **ORDER-2023-84 :** Previously under Order 2023-59 until a vote by Council divided order into eleven different orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance, Chapter 235, Definition of Retail Food Establishment

Offered by: Mayor Paul Brodeur

From: Appropriations & Oversight Committee OUGHT TO PASS

RESULT:	**PASSED [10 TO 0]**
MOVER:	Leila Migliorelli, At-Large
SECONDER:	Ryan Williams, Ward 7
AYES:	Cinella, Eccles, Garipay, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Stewart, Williams, Grigoraitis
ABSENT:	John Obremski

6. **ORDER-2023-85 :** Previously under Order 2023-59 until a vote by Council divided order into eleven different orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance, Chapter 235, Definition of In-law Apartment

Offered by: Mayor Paul Brodeur

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

From: Appropriations & Oversight Committee OUGHT TO PASS

On discussion Councilor Stewart references the letter read into public comment (attached to the agenda) and the light it sheds. Worries this may propagate additional illegal apartments. Wants to see tighter controls on taxation.

Councilor Garipay encourages the administration to provide policies/precedures for in-law apartments.

Councilor Eccles agrees there needs to be discussion on short term rentals but separate and apart from this (zoning amendment) order.

Councilor Williams supports the amendment; had discussions regarding short term rentals with the building commissioner and there are currently only 50 known throughout the city. Affordable housing is a different conversation.

RESULT:	**PASSED [8 TO 2]**
MOVER:	Leila Migliorelli, At-Large
SECONDER:	Christopher Cinella, At-Large
AYES:	Cinella, Eccles, Jamaleddine, Karamcheti, MacMaster, Migliorelli, Williams, Grigoraitis
NAYS:	Mark Garipay, Robb Stewart
ABSENT:	John Obremski

7. **ORDER-2023-86 :** Previously under Order 2023-59 until a vote by Council divided order into eleven different orders reflecting each Zoning Amendment: Amending Melrose Revised Zoning Ordinance, Chapter 235, Votes for Special Permit Approval & Term

Offered by: Mayor Paul Brodeur

From: Appropriations & Oversight Committee OUGHT TO PASS

1. **INFO-2023-14:** FY 24 budget update from State Senator Jason Lewis and State Representative Kate Lipper-Garabedian

Sponsored by: Ward 6 Jen Grigoraitis

Senator Jason Lewis shares a powerpoint on Chapter 70 (School Aid) funding. This can be found in the meeting packet. Second to Mass Health, school aid is the largest budget thereafter. He speaks about the local contribution via property taxes and state aid. Senator Lewis speaks about the Student Opportunity Act and how this act helped enhance the formulas used to determine funding.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

For Melrose there was a 12% increase in Chapter 70 amounting to one million. A 27% increase is expected for Melrose for FY24. This would amount to 12.3 million if approved in the final budget.

Representative Kate Lipper-Garabedian speaks on other funding sources available to Melrose. She speaks on funds for local economic recovery for small business, funding for recreational enhancements, and security cameras at the middle school. Additionally, funds were secured for the Fire Department and Memorial Hall. SNAP and family shelters also received additional funding. She also speaks the hybrid meeting law that has been extended to 2025. Additionally, she speaks about the bill to create a Public Safety Building Committee similar to that of the Massachusetts School Building Authority.

Representative Lipper-Garabedian speaks on the updates to the Lynn Fells Parkway to enhance safety on the corridor. She also speaks about a 25% plan for the intersection of Melrose Street at Lynn Fells Parkway that will be available at months end. A project website will soon launch and meetings held.

School Committee Chair Margaret Driscoll thanks the legislative delegation for their efforts for the school lunch program and mitigation of the 14% tuition increase.

Mayor Paul Brodeur thanks the legislative delegation for their efforts and their work with DCR and speaks about gun violence.

School Committee Member Jennifer Razi-Thomas thanks the delegation for the increases in the student opportunity act funding as it helps Melrose. She ponders how the city can receive assistance for Special Education and transportation costs this upcoming fiscal year. Senator Lewis notes that the circuit breaker should fund most of these expenses.

Councilor Garipay asks if Melrose will see additional funds before the end of the fiscal year. He is very excited at the prospect of a new Public Safety Building Committee and wonders when this will come to fruition. Senator Lewis speaks about the funding source and notes that one needs to be established. Councilor Garipay also asks about host community agreements in the cannabis industry.

Councilor Karamcheti asks if educator diversity efforts will see finding and advocacy.

Councilor Migliorelli asks about the MSBA and how a similar organization for public safety buildings would be created. She speaks to the state surplus and how this can be passed down to municipalities.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Councilor Stewart thanks the legislative delegation for their advocacy for Melrose and asks about future fiscal years and funding.

At 8:13 PM Councilor Jamaleddine lost connectivity and was unable to re-join.

School Committee Member Dorie Withey thanks the delegation for their advocacy and asks about early education and childcare what is in the legislation for programming.

RESULT:	**NO ACTION TAKEN**

Motion: Enter into Executive Session

Motion: Enter into Executive Session
By: Mayor Brodeur, Second: Councilor Stewart - motion carried.

Meeting Adjourned: 8:21 PM

RESULT:	**PASSED [8 TO 0]**

State Legislative Delegation Briefing

Presentation to Melrose City Council and School Committee

March 30, 2023

Prepared by the Offices of Senator Jason Lewis and
Representative Kate Lipper-Garabedian

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

How Does The Chapter 70 School Funding Formula Work?

Step 1
Calculate Foundation Budget

An adequate funding level for each school district given the specific enrollment and demographic characteristics of each district

Step 2
Calculate Local Contribution

The share of the foundation budget that must be contributed from each city or town's local revenues, based upon the relative wealth of that community

Step 3
Calculate State Chapter 70 Aid

Makes up the difference between the foundation budget and the local contribution

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Key Provisions Of Student Opportunity Act

- **Revised Chapter 70 foundation budget calculations in several areas to ensure more adequate and equitable funding for school districts across the state**
  - Employee and retiree healthcare benefits
  - Special education
  - English learners
  - Mental health services
  - Low-income students, especially in communities with concentrated poverty (also revised the process for accurately counting low-income students)
- **Provided additional state funding and supports for local school districts**
  - Full funding of charter tuition reimbursements
  - Included out-of-district transportation costs in the Special Education Circuit Breaker
  - Lifted the annual cap for the MSBA to increase the number of school building projects that can be accepted into the program each year

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Key Provisions Of Student Opportunity Act (cont.)

- **Implemented new policies designed to maximize the impact of funding increases in closing opportunity gaps and improving student outcomes**
  - Required school districts to develop and make publicly available SOA plans
  - Created a new 21st Century Trust Fund to support innovation in teaching and learning
  - Established a permanent Data Advisory Commission to improve the use of data at school, district, and statewide levels
- **Identified policy areas requiring further study and analysis**
  - Established a rural schools commission to make recommendations for addressing the unique challenges faced by rural and regional school districts
  - Directed DESE to report on accurate costs for educating students at recovery high schools
  - Directed MSBA to report on the need for updates to the school building program
  - Directed DESE and DOR to analyze and make recommendations for potential changes to the local contribution side of the Chapter 70 formula

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Statewide Impact Of Student Opportunity Act

- Expected to increase total Chapter 70 aid by **$1.4 billion annually** over inflation (once the SOA is fully phased in)
- Expected to increase required local contributions by $900 million annually over inflation (once the SOA is fully phased in)
  - Most municipalities are not impacted, however, because they already fund their school budgets at a higher level than their required local contribution
  - Accounting for existing levels of school spending, local spending is expected to increase by $90 million annually over inflation (once the SOA is fully phased in)
- FY24 will be the third year of SOA implementation; expected to be fully implemented by FY27

**Figures/estimates are from 2019 when the SOA was signed into law. Certain assumptions that were used in making these projections, such as enrollment, may be different now.*

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Benefits To Melrose From Student Opportunity Act

- **Increase in Chapter 70 state aid**
  - FY23 Chapter 70 increase of $1M (+12%)
  - Expected FY24 Chapter 70 increase of **$2.6M (+27%)**, for a total amount of $12.3M
  - FY24 will be largest increase in Chapter 70 (in both dollar amount and percent) for Melrose Public Schools!
  - More accurate calculation of low-income student population
- **Increase in special education circuit breaker reimbursements**
  - FY24 budget fully implements reimbursement for out-of-district transportation costs
- **Increase in charter school tuition reimbursements**

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Other Education Issues That The State Legislature May Tackle This Session

Significant legislation has been filed in the new legislative session to address:

- School transportation costs
- Special education costs
- School facility construction costs (MSBA)
- Educator diversity
- Vocational technical education
- Universal free school meals
- MCAS testing and accountability, including graduation requirement
- Early education and childcare, including public pre-K and OST care
- Public higher education

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

State Funding Secured for Melrose by Delegation

COVID-19 Recovery Law

- **$150K** for high school elevators to update the safety and accessibility of Melrose High School
- **$75K** for City's economic recovery for small businesses and nonprofits
- **$60K** for The Food Drive

FY23 Budget

- **$75K** for enhancements to Melrose's recreational developments
- **$60K** for a Fire Breathing Apparatus for the Melrose Fire Department
- **$50K** for security cameras at Melrose Veterans Memorial Middle School

Economic Development Law

- **$150K** for repairs to the Fire Department
- **$100K** for improvements at Memorial Hall
- **$100K** for placemaking activities in the City of Melrose
- **$6M** for MelroseWakefield Healthcare behavioral health facility in Malden

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

FY23 Supplemental Budget

This month, the Legislature passed and sent to the Governor a Supplemental Budget bill to ensure **sufficient funding for critical state programs and supports** through the end of the fiscal year, including:

- **$132M:** Emergency SNAP benefits for food security
- **$85M:** Emergency family shelters
- **$68M**: Early education and care workforce stabilization
- **$65M**: Free school meals for remainder of 2022-23 school year
- **$1M:** Public awareness campaign re pregnancy crisis centers.

The bill also extends and makes permanent certain **pandemic-era flexibilities**, including:

- Hybrid meetings of public bodies and town meetings through March 31, 2025
- Outdoor dining and cocktails-to-go through March 31, 2024

Chapter 90 Funding for Melrose (FY24)

In the past two weeks, the legislature passed a bill authorizing funding for infrastructure, preservation, and municipal improvement projects. Under a state formula, Melrose would be allocated **$513,713.39**.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

HD3675/S1489 - An Act creating a municipal and public safety building authority

- Many towns across the Commonwealth do not have the tax base or borrowing ability to upgrade or build new public safety complexes and municipal buildings

- This legislation creates an independent public authority, similar to authorities that help finance municipal school buildings and libraries, to provide matching funds for local public safety and municipal buildings

- Rep. KLG & Sen. Lewis have cosponsored.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

It would be an honor to serve on the Melrose Board of Appeals as it aligns with both my personal and professional values to promote the public good. As an Architect and 11-year Melrose resident, I am passionate about the way we shape our communities. I believe my experience as an Architect and familiarity with the appeals processes uniquely positions me to add value to the Board of Appeals. I am excited at the opportunity to contribute my expertise through informed objective insight of the current Zoning Ordinance with the intent to improve the future built environment and quality of life for our residents and community.

MEMORANDUM
To: Melrose City Council
From: Mayor Paul Brodeur
Re: Zoning Board of Appeals
Date: March 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Daniel Gelormini, 20 Pilgrim Road, to the Melrose Zoning Board of Appeals (ZBA) as an Associate Member for a 2-year term set to expire on the last day of February 2025. Mr. Gelormini's appointment replaces the membership of Julianna Hanlon, who recently resigned from the ZBA.

Mr. Gelormini's experience as an architect and insight into the appeals process and City's zoning ordinances will add immense value to the Melrose Zoning Board of Appeals.

Thank you for your consideration.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Affordable Housing Trust Reappointments
Date: March 29, 2023

I respectfully request the Honorable City Council confirm the following Affordable Housing Trust reappointments:

- **Seamus Kelley, 259 West Emerson St., to the Affordable Housing Trust, for a two-year term, said term to expire on the last day of January 2025.**
    - Mr. Kelley has over 15 years of experience as an operations and public policy leader and decision-making experience with a focus on project management, government affairs, public policy, strategic implementation, and external relations.

- **James Oosterman, 54 Ellis Farm Lane, to the Affordable Housing Trust, for a two-year term, said term to expire on the last day of January 2025.**
    - Mr. Oosterman was a founding member of the Melrose Affordable Housing Task Force, established in 1998 to encourage, support, and advocate for public and private affordable housing initiatives. His dedication to this work is also visible in his service to the Melrose Housing Authority, through which he worked closely with the North Suburban Consortium, the City's Office of Planning and Community Development, and other organizations with similar missions to the Affordable Housing Trust.

Mr. Kelley and Mr. Oosterman are committed to serving the City of Melrose in their capacity as members of the Affordable Housing Trust. I'm confident that they will each continue to drive forward the City of Melrose's mission to promote greater diversity and racial equity in the community and for the benefit of low-to-moderate-income households in accordance with the provisions of MGL c. 44, § 55C.

Thank you for your consideration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Hello, Lily,

Pardon my delay in responding to your email regarding continuing to serve on the Melrose Affordable Housing Trust. I would very much appreciate being reappointed to serve on this committee for another term. My interest in Affordable Housing in the City of Melrose has not diminished since my initial appointment, and I look forward to finding ways to support this growing need from the resources in our Affordable Housing Trust.

Please contact me if you or the Mayor require additional information.
Sincerely,

James Oosterman

Melrose, MA 02176
[redacted]

February 28, 2023

Paul Brodeur
Mayor
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur:

Please accept this letter as an expression of my interest to continue to serve as a member of the Melrose Commission on Women. I joined the Commission in Fall 2019 full of ideas of things we could do to help raise awareness and get more members of our community involved in our work. A few months later, the pandemic halted our plans and slowly tried to find virtual ways to support, celebrate and give women a way to escape during those challenging days.

We hosted a book club, a legislative briefing on Roe v. Wade with local elected officials and other experts, held a celebration of the election of the first female Vice President, hosted a session to help women develop their personal elevator speech and funded a scholarship for a MHS graduate committed to advancing women's issues.

I am proud of everything we were able to accomplish but am excited to work with a full body of Commissioners to do so much more to help women, girls and those who support them and continue to make Melrose a community for all.

Thank you for the consideration.

Sincerely,

Karen Grant Blackburn

Re: Melrose Commission on Women Reappointment
Date: March 27, 2023

I respectfully request the Honorable City Council confirm the reappointment of Karen Blackburn, 15 Lodge Avenue, to the Commission on Women (MCW) for a three-year term set to expire on the last day of February 2026. Ms. Blackburn originally joined the MCW in 2019 and currently serves as commission chair.

Under Ms. Blackburn's leadership, the MCW has hosted many successful community events such as a legislative briefing on Roe v. Wade intended to support and advocate for women and girls in Melrose. In addition, Ms. Blackburn works tirelessly to establish an open and inclusive environment for her fellow commissioners by ensuring every member has an opportunity to talk and share ideas.

Thank you for considering Ms. Blackburn's reappointment to the Melrose Commission on Women.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I have lived in Melrose since 2014, and feel connected to the town and its future. I have a 2nd grader at Winthrop, and her sister will start kindergarten in September. I am also a queer woman. All of these identities inform my viewpoint of the city. Additionally, I work for an organization that specializes in housing and homelessness for youth experiencing homelessness. I spend my 9-5 connecting the puzzle pieces within our community partners, and would like to do some of that work locally, in the city I live in.

Date: March 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Lauren Knott, 16 Mount Vernon Street, to the Commission on Women, for a one-year term set to expire on the last day of February 2024. Ms. Knott's appointment replaces the appointment of Lauren Grymek, who recently resigned from the commission.

As a queer woman and a professional working to support youth experiencing homelessness or who are at risk for homelessness, Ms. Knott and I are eager for her to represent the LGBTQ+ community and support women and girls locally here in Melrose.

Thank you for your consideration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

LAUREN KNOTT
[redacted]
16 Mount Vernon Street, Apt 1, Melrose, MA 02176 | [redacted]

RELATED EXPERIENCE

Point Source Youth, Boston, MA
Vice President of Strategic Partnerships August 2022-Present

- Recruit community partners to hire the organization to provide technical assistance to end youth homelessness
- Build relationships with local nonprofits, policy makers, and philanthropy to fund direct cash transfers for youth experiencing homelessness
- Work across departments to conduct outreach for 4 annual conferences and recruit community sponsors to support the conference

The Technical Assistance Collaborative, Boston, MA
Senior Associate July 2019- July 2022

- Lead TAC's work addressing youth homelessness, leading a team of five consultants working on various youth focused initiatives in eight communities
- Seek out business development opportunities and assist in responding to various Requests for Proposals (RFP) throughout the year
- Facilitate trainings on various topics related to HUD programs, such as grant administration, racial equity, and youth engagement

Associate December 2013-June 2019

- Facilitate planning and implementation processes for communities to address homelessness among youth
- Assist communities in developing system gaps analyses with data from multiple sources in order to identify needs and funding priorities
- Staff and manage Continuum of Care (CoC) Help Desk, which answers technical questions for recipients and subrecipients of HUD grants
- Provide direct technical assistance (TA) to multiple CoCs on writing and implementing written standards of assistance for all housing interventions, finalizing governance documents, and conducting system mapping and gaps analyses
- Assist multiple CoCs in the design and implementation of their coordinated entry systems to match HUD requirements and meet community needs
- Provide training and TA to communities and programs on how to adopt a Housing First approach
- Develop training materials on various topics, such as grant administration, program management tools, performance measures, and data systems

The North Carolina Housing Coalition, Raleigh, NC
Policy Associate August 2012-August

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

2013

- Coordinated and presented at technical assistance sessions, as requested by various communities around the state, on topics such as strategies to increase affordable housing
- Monitored legislative committee meetings, news and other information centers to track pertinent legislation
- Conducted extensive research to support the Coalition's policy positions using Census, Comprehensive Housing Affordability Strategy (CHAS), and Bureau of Labor Statistics data
- Prepared policy and advocacy materials, including issue briefs, county fact sheets and talking points, that clearly communicated housing policy issues for policymakers, coalition members, and other stakeholders
- Participated in direct lobbying to elected officials
- Ensured website/social media outlets offered the most current information on policy positions, legislation, and other policy related activities

Salvation Army, Raleigh, NC
MSW Intern, Project C.A.T.C.H. August 2011-April 2012

- Developed protocols for children upon admission to shelters, including screening for mental health and developmental issues with initiation of appropriate referrals, area services, and resources
- Reviewed and improved curriculum and trained shelter staff on trauma, stress, and parent/child relationships

HomeStart, Inc., Boston, MA
Representative Payee September 2010-March 2011

- Supported 30 formerly homeless individuals in budget creation and financial education
- Paid monthly rent and bills for clients according to budget developed with participant
- Maintained accurate and detailed financial records on behalf of clients
- Continued to supervise eight volunteers and ten staff members during weekly walk-in hours, ensuring prompt service for clients and resolving any difficulties with tough cases

Crossroads Housing Search Coordinator September 2009-September 2010

- Designed and implemented successful housing search program at a family shelter in East Boston, resulting in twenty-five families securing permanent, stable housing
- Handled caseload of 15 homeless families while providing technical housing search supervision to three case managers who were in charge of ten additional scattered-site families
- Collaborated with clients to identify an appropriate housing search strategy and apply at local housing authorities and private developments
- Presented housing search trainings to outside agencies and shelter staff as requested

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

- Supervised eight volunteers and ten staff members who assisted the organization during weekly walk-in hours, training them on housing search strategies and answered questions around tough cases
- Developed outreach plan for new volunteers, including faith and collegiate groups

Housing Advocate/Case Manager July 2008-September 2009

- Managed caseload of 45 homeless clients living in six different shelters in Cambridge
- Helped clients identify housing wants and apply at appropriate housing authorities and developments
- Worked with clients to apply for public benefits and locate education and job training opportunities
- Forged connections across community organizations to build relationships and identify resources

EDUCATION

The University of North Carolina at Chapel Hill, Chapel Hill, NC
Masters of Social Work, Concentration in Community, Management and Policy Practice, May 2013
Nonprofit Leadership Certificate, May 2013

Franklin & Marshall College, Lancaster, PA

CONTACT INFORMATION

Address: 177 Ashland Street, Melrose, MA 02176

PROFESSIONAL EXPERIENCE

HARVARD MEDICAL SCHOOL – BOSTON, MA

- **Office of Faculty Affairs, September 2022 – Present**
  - **Program Director for Academic Operations**

- Serve as the primary resource for quad-based departments (depts) and oversee academic collaborations with key stakeholders across HMS for issues related to the Basic and Social Science Departments.
- Streamline academic operations, facilitate bi-directional communication between OFA and other HMS offices, and manage OFA interface with quad-based depts on faculty recruitment, compensation, diversity & inclusion, research funding/regulations, retention, and advancement.
- Provide critical advice on early-stage review of promotion materials for quad faculty and oversee strategic priorities to meet institutional standards for faculty set by the LCME on faculty preparation, productivity, participation & policies.
- Collaborate with HMS IT and other partners on data collection & faculty reporting capacities and prepare OFA data, reports, and assessments for meetings.
- Interface with HMS offices on collection of data identified to meet the 15 standards in the area of faculty reporting and ensure adherence.
- Manage academic aspects of offer letters (appointment, teaching, mentoring) & promotion letters, respond to quad dept questions/concerns, and ensure adherence to components & rationale of HMS CV.
- Attend monthly Docket Committee meetings and serve as office lead for the Faculty Council annual election process.
- Innovate, refine mechanisms, and participate in strategic plan refresh, while overseeing Faculty of Medicine By-Laws annual review.
- Systematically explore and operationalize new appt types on the quad and support career development of non-ladder researchers.

HARVARD UNIVERSITY – CAMBRIDGE, MA

- **Wyss Institute for Biologically Inspired Engineering, August 2013 - September 2022**
  - **Senior Manager, Academic Affairs, March 2021 – September 2022**
  - **Manager, Academic Affairs, April 2018 – February 2021**
  - **Coordinator, Academic Affairs, August 2013 to March 2018**

- Direct the Wyss Institute Department of Academic Affairs, including all staff, budgets, and other administrative processes
- Manage academic appointments (e.g., postdoctoral fellows, visiting scholars, graduate students), including recruitment, onboarding, reappointments, etc.
- Manage international visa (J, H, B, F) and immigration processes for Wyss academic personnel
- Develop and implement Wyss/Harvard programming (e.g., community building, new hire orientation, etc.) for academic appointments
- Supervise time and labor reporting for Wyss graduate students and temporary hires
- Advise Wyss faculty on academic appointment processes (e.g., immigration, reappointments, new hires)
- Liaise with HMS Human Recourses and Harvard International Office on Wyss appointments

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

- Collaborate with Finance and Sponsored Research on costing changes for Wyss personnel
- Develop and maintain Wyss appointment database and analytics
- Co-chair of the Harvard Medical School Visa Committee. Committee is designed to share any new visa regulations and to discuss any visa issues.
- Founder and member of Harvard Talent Management League

- **Harvard College, August 2013 – Present**
  - **Freshmen Academic Advisor (unpaid appointment)**

- Supervise Harvard College freshmen (3-4 per year) on university policies, programs of study, and degree options and requirements
- Provide academic advising to supervisees
- Discuss and sign off on course selection cards for supervisees
- Provide college transition guidance, including work-study, clubs/activities, and time management
- Provide career counseling

- **Harvard Law School Executive Education, January 2012 – August 2013**
  - **Program Administrator**

- Manage all program logistics for multi-day executive education programs for legal professionals
- Manage material preparation, space, accommodations, operations, media services, catering, and transportation
- Recruit participants (e.g., law firm leaders, corporate counsel) for program participation
- Market HLS Executive Education's online presence via Facebook, Twitter, blogs, and other media
- Develop, maintain, and update the Executive Education website
- Communicate with program participants at all stages of their involvement with Executive Education (e.g., recruitment, pre-program, program, alumni networks)
- Manage financial processing in coordination with HLS Financial Office

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

HARVARD UNIVERSITY – CAMBRIDGE, MA

TUFTS UNIVERSITY – BOSTON, MA

- School of Medicine, May 2007 – January 2012
  - Administrative Coordinator, Medical Curriculum

- Coordinate the preclinical curriculum in a student services environment
- Primary liaison for all administrative communications to faculty and students
- Directly supervise paid audiovisual student teams in coordination with lectures
- Administer Board Exams for medical students
- Manage first- and second-year class curriculum class scheduling
- Point-of-contact for all first- and second-year medical students and faculty on all curriculum needs
- Administrative support for the Associate Dean for Educational Affairs and the Curriculum Committee
- Responsible for the planning, coordination, promotion, execution, and evaluation of Medical School events, including conferences, workshops, retreats, and formal and informal social events

ARIZONA DEPARTMENT OF ECONOMIC SECURITY – CASA GRANDE, AZ

MEMORANDUM
To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Council on Aging
Date: March 27, 2023

I respectfully request the Honorable City Council confirm the appointment of Margaret Ivins, 177 Ashland Street, to the Melrose Council on Aging (COA) for a 2-year term set to expire on the last day of February 2025. Ms. Ivin's appointment replaces the membership of Eileen Lyle, who resigned from the COA and whose term expired on the last day of February 2022.

A highlight of Ms. Ivin's candidacy includes her many years working within the Academic Affairs Department of Harvard University as both an employee and a volunteer Academic Advisor for freshmen. Through these roles, she has demonstrated a commitment to the Harvard community and the success of the university's faculty, staff, and student body.

I am confident that Ms. Ivin's appointment to the Melrose Council on Aging will provide her with the opportunity to demonstrate an equivalent commitment to our community's population of residents aged 60 and older.

Thank you for considering Ms. Ivin's appointment to the Melrose Council on Aging.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Council on Aging: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I am interested in working on the Council of Aging because I have a passion for working with the elderly and I want to give back to my community. The elderly population is often overlooked and underserved, and I want to make a difference in their lives. The Council of Aging provides essential services and programs that help older adults maintain their independence, health, and quality of life. By working with the Council of Aging, I can utilize my skills and expertise to improve the lives of seniors in my community. I am excited about the opportunity to work with a team of dedicated professionals who share my passion for making a difference in the lives of older adults.

Date: March 28, 2023

I respectfully request the Honorable City Council confirm the reappointment of Jason Jancaitis, 16 Tappan Street, to the Melrose Conservation Commission for a three-year term set to expire on the last day of February 2026.

Thank you for your consideration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

JASON JANCAITIS, PE
PROJECT MANAGER

Professional Profile

Jason has over 20 years professional experience working on a wide range of wastewater projects for municipalities and private sector clients. Jason is experienced in wastewater treatment facility upgrades, collection system and pump stations projects from the planning stages through construction and startup. Jason is registered as a Professional Engineer in Massachusetts, Maine and New Hampshire, and as a Licensed Soil Evaluator in Massachusetts.

Related Experience

Lowell Regional Wastewater Utility, Lowell, MA – Wastewater Treatment Facility Upgrades. Managed design and construction administration of the upgrades at the Lowell Regional Wastewater Utility's Duck Island WWTF. Project includes clarifier mechanism replacement, chemical feed systems, septage receiving, sludge thickening, and associated piping and controls improvements. Develop a Request for Proposals to allow the client to preselect critical pieces of equipment. Managed preselection process, including the technical and vendor evaluation for new multi-stage blowers, clarifier equipment, rotating drum thickener, and dewatered sludge conveyors. Managed the pre-qualification of general contractors and filed sub-bid contractors in accordance with Massachusetts General Laws.

City of Haverhill, MA – Odor Control Improvements. Project Manager for the design and construction administration for odor control improvements at the Haverhill WWTF. Evaluated available technologies and developed the recommended plan for a new facility-wide odor control system. Designed chemical storage and feed system associated with the odor control project. Responsible for the design of a new biofilter which will treat 23,000 cfm of odorous air. Oversaw construction administration for the project.

City of Portsmouth, NH – Sanitary Sewer Infiltration and Inflow Study. Project Manager for investigations of the City's sanitary sewer collection system to reduce infiltration and inflow into the collection system. Project included flow isolation of 150,000 LF of sewer, smoke testing of 200,000 LF of sewer, CCTV inspection of over 50,000 LF of sewer, as well as dye testing and private property surveys. Responsible for the final report summarizing the data, which was submitted to EPA to meet the requirements of an Administrative Order. Developed a phased schedule for rehabilitation work with the City.

Town of Acushnet MA – School Pump Station Replacement. Project Manager for the replacement of an existing Gorman-Rupp suction lift pump station serving the Town's school complex. Evaluated options for improvements, developed system curve for force main, and prepared cost estimate for the project. Oversaw the development of plans and specifications for the pump station replacement. Project Manager for the project during construction administration.

City of Portland, ME – Curtis Road Pump Station Evaluation and Replacement. Project Manager for the replacement of an existing Gorman-Rupp suction lift pump station with an upgraded system. Responsible for reviewing all aspects of design,

including pump capacity analysis and sizing, and development of plans and specifications. This project was delivered using a design-build approach.

City of Portland, ME – Franklin Street Pump Station Upgrades. Project Manager for the upgrades to the Franklin Street Pump Station. This project included installation of a new channel grinder, replacement of slide gates and valves, evaluation of flow meter technologies, and upgrades to the electrical distribution system and HVAC systems. Evaluated odor control technologies for potential implementation. Managed subcontractors for hazardous materials assessment of the station. This project was delivered using a design-build approach.

Town of Tewksbury, MA – Andover Street Force Main Replacement. Project Manager for the replacement of a 6000 LF force main in a busy commercial/industrial area of Tewksbury. Evaluated existing pump station capacity and historical infiltration and inflow records. Prepared cost estimate for the project. Responsible for permitting of the project with ConComm and Mass Highway. Prepared cost estimate for the project. Project Manager during bidding and construction administration of the new force main installation.

City of Gardner, MA – Headworks Upgrade. Responsible for evaluation of screening and grit removal technology. Oversaw design of the new facility, including process and building services designs. Primary author of the Preliminary Design Report.

City of Leominster, MA – WPCF Headworks Upgrade. Oversaw design of the new building which includes a mechanical fine screen and screenings washpress, and replacement comminutors and slide gates. The new facility was built over the existing channels while maintaining WPCF flows of up to 30 MGD. Performed hydraulic analysis of flow patterns at full range of flows for this facility (1-30 MGD). This project also includes the replacement of three influent screw pumps with new higher capacity pumps to allow pumping redundancy, and construction of a new electrical room and motor control center. Responsible for contractor oversight during construction.

Town of Hudson, MA – WWTF Upgrade. Evaluated existing plant pumping and headworks systems. Designed upgrade to the plant headworks, including screening, septage handling, and aerated grit chamber. Evaluated and designed refurbishments to existing sludge and scum pumps. Designed 1,400 LF force main replacement. Served as lead project engineer during construction administration of the $14.2M project which included construction of a dissolved air flotation process for tertiary phosphorous removal. Reviewed shop drawings, payment requisitions, and change orders. Responsible for contractor oversight during construction, and start-up of the new facility, including performance testing of the new tertiary equipment.

City of Leominster, MA – Nutrient Removal Upgrades. Design of a tertiary phosphorous removal process at the Leominster WPCF. Responsible for layout, sizing, and hydraulic analysis of a new ballasted flocculation process for tertiary phosphorous removal. Evaluated existing chemical storage and pumping systems and designed upgrades. Evaluated existing buildings and processes for building code compliance. Responsible for contractor oversight during construction and start-up of the new facility.

City of Fitchburg, MA – Headworks Upgrade. Design of a headworks upgrade at Fitchburg's Easterly Wastewater Treatment Facility. Evaluated operational capabilities and lifecycle cost analysis for competing odor control technologies. Prepared preliminary design report, including basis of design for replacement screening/washpresses and conveyors. Prepared project evaluation form and State Revolving Loan Fund applications. Evaluated facility's susceptibility to flooding due to high river levels.

BRADLEY FREEMAN

39 Apple Hill Road
Melrose, Massachusetts 02176
[redacted]

The Honorable Paul Brodeur
Mayor, City of Melrose
City Hall
Melrose, MA 02176

Dear Mayor Brodeur,

Thank you for the opportunity to formally express my interest in serving on the Parks Commission in the City of Melrose. As a twelve-year resident of Melrose, with two children who participate in the programs hosted by the Parks Department and Recreation Department, I believe that I have the experience, vision and enthusiasm needed to build upon the great work and collaboration of the Parks Commission.

During my time in Melrose, I have frequently visit the City's parks to watch my children participate in sports or enjoy one of the many playgrounds, hike on our nature trails or play golf at Mount Hood. I strongly believe that having open and vibrant parks and recreation spaces are critical to fostering a welcoming and inclusive experience for residents of all ages in Melrose. As Melrose continues to experience growth, it is more important than ever that our Parks and Recreation Department offerings maintain their excellence and continue to develop new programs that meet the needs of the entire community.

I am in my fourth year on the Board of the Incarnation Baseball League, along with eighth year as a youth coach, and understand the complexities of balancing interests and demands on limited playing facilities. In addition to serving as a coach in the Inc, I have coached my son in the Recreation Department's flag football league and the winter basketball program. In doing so, I have been continually impressed by the dedication of the Department employees, as well as the commitment of the participating families, to ensuring the success of these programs.

I would welcome the opportunity to bring my perspective and experiences to the Parks Commission, as it helps the Parks Department and Recreation Department navigate the challenges and complexities of a growing City with increasing interest in the outdoors and recreational activities.

Please do not hesitate to reach out if I can provide any additional information or answer any questions.

Sincerely yours,

Bradley Freeman

MEMORANDUM
To: Melrose City Council
From: Mayor Paul Brodeur
Re: Parks Commission
Date: March 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Bradley Freeman, 39 Apple Hill Road, to the Melrose Parks Commission, for a five-year term set to expire on the First Monday of May 2028.

Mr. Freeman is a longtime Melrose resident and active participant in our community. During his 12 years in Melrose, he has served on the Board of the Incarnation Baseball League and as a Melrose youth coach. Through these experiences, he has gained important insight into the nuances of the City's parks and recreation spaces in Melrose including our in-demand playing facilities and has gained respect and dedication to ensuring the success of the Recreation Department's programs.

I'm particularly confident that Mr. Freeman's professional experience in the field of government relations and communications will add immense value to the commission, as commissioners work together with the City to oversee the management of our public parks, squares, playgrounds, and other recreation spaces.

Thank you for your consideration.

WORK EXPERIENCE

Association of Independent Colleges and Universities in Massachusetts:
Vice President for Government Relations — July 2015 – present
Director of Public Policy and Advocacy — June 2012 – June 2015

- Lead all government relations activities for non-profit advocacy organization representing the public policy interests of fifty-nine private, nonprofit colleges and universities in Massachusetts
- Work closely with the AICU Mass Board of Directors and member colleges and universities to develop and implement legislative initiatives and recommend strategy to achieve policy goals
- Meet with elected and administrative officials in Boston and Washington, DC to further the public policy goals of the association and membership
- Monitor legislation and regulations to assess the impact on members and develop strategies to respond accordingly
- Prepare briefing materials and present government relations strategy plan to AICU Mass presidents and members of the government relations subcommittee
- Research, draft and deliver oral and written testimony before legislative committees on issues impacting member institutions, including efforts to impose mandatory PILOTs, taxes on endowments, efforts to increase funding for financial aid and federal research dollars and workforce development initiatives
- Develop positive legislative agenda to position AICU Mass and its members as a partner in addressing complex issues, such as workforce development, college affordability and employee retention
- Identify opportunities for AICU Mass and its members to engage with the business community and other stakeholders, and serve as a liaison to the business community and trade associations
- Serve on the executive committee of the Coalition to Preserve Nonprofit Services on behalf of AICU Mass to develop a coordinated response to efforts to impose new taxes or regulations on the nonprofit community
- Attend political events on behalf of AICU Mass membership to further relationships with elected officials in Boston and Washington, DC

O'Neill and Associates:
Associate Director — January 2012 – June 2012
Senior Account Executive, Washington /Boston — July 2008 – December 2011
Account Executive, Boston, MA — January 2008 – July 2008

- Established close working relationships with senior-level client contacts in order to manage and support federal and state accounts relating to non-profit, community relations, education, and transportation in the government relations practice area
- Developed and implemented successful federal and state strategy for appropriations and government funding on behalf of clients
- Represented client interests in meetings with members of Congress, Massachusetts Legislature, and their respective staff
- Supported clients in drafting of legislative language, appropriation requests, grant applications, and messaging points for testimony and legislative meetings
- Monitored Congressional and State House legislative schedule in relation to client interests
- Identified and pursued new business opportunities in Washington, DC and Boston, MA
- Attended political events on behalf of clients to further develop key relationships to advance client's interests
- Coordinated with fundraising committees of federal and state political candidates to plan and host fundraisers
- Provided clients with relationship marketing introductions to industry leaders and state officials to help facilitate product sales
- Served as project manager for clients, developing overall strategy and providing detailed instruction to team members to ensure that benchmarks are achieved in timely manner. This process included

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

delegating responsibilities among the selected team members and maintaining oversight of all aspects of the project.

Bill Richardson for President:
New Hampshire Regional Field Director — September 2007 – January 2008
New Hampshire Field Organizer — July 2007 – September 2007
Advance and Event Volunteer — April 2007 – July 2007

- Directly responsible for vote goal and political operation in 35 cities and towns, including Concord, NH
- Built field and regional political infrastructure necessary for a campaign
- Managed paid staff and volunteers – four staff and 12 full time interns/volunteers on election day
- Recruited local and out-of-state campaign volunteers
- Coordinated volunteer activities including literature drops, neighborhood canvassing, visibilities, and event support
- Directly involved in organizing, scheduling, and advancing all state events for Governor Richardson while in New Hampshire
- Worked directly with senior staff and fellow regional field directors to coordinate campaign activities including events with Governor Richardson or surrogates, campaign-wide canvassing efforts, and voter identification outreach
- Collaborated with communications staff to craft appropriate messages and talking points for New Hampshire campaign events

The Office of Representative Alice K. Wolf:
Legislative Aide, Massachusetts House of Representatives — July 2006 – June 2007

- Drafted and tracked legislation dealing with education, transportation, and environmental reforms
- Organized neighborhood meetings with local Cambridge officials, elected officials, and state agencies to discuss issues of concern in community
- Developed comprehensive communications strategy and managed all media relations including responding to media inquiries and drafting press releases, media advisories and talking points
- Oversaw Constituent Services within the office, working with state agencies to resolve constituent cases

From: Polina Latta, Human Resources Director

Re: Compensation and Classification Study

Date: March 24, 2023

In FY22 the City of Melrose hired a Human Resources Services, Inc. (HRS) to perform a comprehensive classification and compensation study of approximately 70 non-union positions including department heads and staff, which has not been done since 1988. The goal of this initiative was to invest in the City's role as an employer, and modernize and standardize our pay practices for non-union Managers and staff to provide for meaningful progression and promotion while ensuring compliance with the Fair Labor Standards Act and the Mass Pay Equity Act.

The study involved updating the job descriptions, classifying positions according to a uniform point analysis standard, surveying the market of comparable municipalities as needed to determine representative rates of compensation, and developing and recommending a new compensation and classification system for the non-union group of positions.

Based on internal and external equity, the study recommended replacing the current multiple non-union plans with one consolidated compensation and classification plan for the non-union positions. The proposed pay plan supports pay equity and hierarchy based on skill and job requirements. It consists of 23 pay grades and ten steps in each grade with minimum and maximum salary and 2% between steps. HRS recommended continuing the policy on pay steps for easier maintenance and consistency of the plan. The pay ranges targeted the 75th percentile of market, which was necessary in order to remain competitive as compared to other municipalities in Massachusetts.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

This is a base salary plan and does not include compensation for stipends, cost-of living, benefits, or other compensation. For initial placement of employees within the plan, the City used the approach of placing at the step closest to but just above their current wage in order to not reduce the pay of any current employee. For employees whose salary was below the minimum of the pay range efforts were made to bring it into the range. To maintain fairness, it was recommended that should an employee salary fall above the upper limit of the range the City should maintain that salary and not reduce it.

The proposed pay structure is designed to provide appropriate compensation through the next three fiscal years. As position duties and responsibilities change over time or as new positions emerge, the consultant has furnished a tool to evaluate and measure the position against a common set of criteria in a systematic and objective manner to rank the job in the appropriate grade of the compensation structure.

In order to ensure that pay levels remain equitable and competitive the City was advised to maintain the current plan by applying cost-of-living increase across the entire compensation structure periodically, as determined by the administration, or the new compensation structure will become outdated, and the City will have difficulty recruiting talent, as we have witnessed in the past.

Therefore, we are requesting an appropriation in the amount of $167,310 (One Hundred Sixty-Seven thousand, three hundred and ten dollars) to fund a one-time salary adjustment for FY23 as recommended by the HRS compensation study. The requested appropriation is from the following accounts $159,784 from Free Cash (01-324001), $3,763 from Sewer Retained Earnings (6000-319000), $3,763 from Water – Retained Earnings (6100-319000) to various salary and wage lines as set forth herein.

Re: New Order for funding of the HRS Compensation Study

Date: March 27, 2023

I have been asked to provide this memorandum in regards to the expected submission of a new Order by your office requesting City Council to fund the HRS compensation study. Mainly, you have requested that I provide an opinion as to whether or not such a new request is legally valid and may be considered by City Council at this juncture in light of City Council's previous vote defeating a similar Order on February 6, 2023.

By way of background, previous *Order 2023-29* relative to funding the HRS compensation study first appeared on the City Council Agenda at Council's October 17, 2022 meeting. Said Order from your office requested as follows:

> *"An Appropriation in the amount of $167,310 (One Hundred Sixty-Seven thousand, three hundred and ten dollars) to fund the HRS compensation study. The requested appropriation is from the following accounts $159,784 from the Contract Stabilization fund (84042-590000), $3,763 from Sewer, Reserve for Retained Earnings (84152-590000) and $3,763 from Water, Reserve for Retained Earnings (84162-590000) to various salary and wage lines as set forth herein."*

This Order was then subsequently discussed in the Appropriations and Oversight Committee on November 7, 2022. It was then recommitted to Committee by City Council on December 19, 2022. On February 6, 2023 City Council took a full vote on this Order and the Order was defeated.

In my opinion, a new Order embodying substantially the same subject as *Order 2023-29* can be legally submitted to Council at this time for their consideration.

While City Council's Rules of Order do not allow for "any committee or member" of Council itself to introduce such an item within six months of its previous rejection, there is no rule barring the Mayor from requesting consideration of such an item. [1]

Furthermore, if there were such a rule that restricted your ability to make a communication or filing to Council based on the content/subject matter of a given Order, in my opinion this would be violative of your authority under the City Charter. Specifically, *Section 3-6(a)* of the Melrose City Charter gives you the clear authority to recommend to City Council for its consideration the passage of such measures as in your judgment the needs of the City so require.

Please do not hesitate to reach out to me directly with any questions or concerns in this regard.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

[1] See *Rules of Order Melrose City Council* (Adopted January 2023), specifically Rule 37, pg. 13.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Implementation of Compensation Plan in FY23
Date: April 3, 2023

As you are aware, last fall I requested an appropriation from the Contract and Wage Stabilization Fund to allow the City to implement the results of the City's recent compensation study. Although periodic review and adjustment of compensation plans is a standard best practice for municipalities in Massachusetts, until last year Melrose had not done such a study in several decades. Our external compensation study, which was funded by the City Council, resulted in a recommendation of $167,310 in one-time salary adjustments for FY23 order to ensure that our pay levels remain equitable and competitive.

At this time, I am requesting that the City Council consider an appropriation from Free Cash to fund implementation of this plan. I understand there was reluctance to increase any employee pay until the teacher and paraprofessional contracts were settled. Those contracts have been settled, as have DPW, crossing guards, police patrol officers, and police superior officers (tentative agreement). There are currently no collective bargaining units out of contract. It is now time to adjust the salaries of our non-union staff, and I would like to provide some further information on why this remains an important priority.

First and foremost, the City's non-union employees are entitled to the same fairness and equity in pay that we provide for all other City employees. While the City is under no legal obligation to implement the study, the study does indicate that we are out-of-market with respect to many positions, and our employees deserve competitive salaries.

In this challenging labor market, when municipalities across the Commonwealth are experiencing extreme difficulties in recruiting and retaining qualified candidates, we simply cannot afford to lose experienced staff through attrition because our pay rates are not competitive. This is certainly true of the positions that were included in the study, many of which are unique and require specific experience, advanced degrees, and specialized knowledge. Staff turnover in these roles causes disruptions in workflow of critical projects and incurs the financial costs of recruiting and onboarding of new employees. Loss of both institutional knowledge and workplace continuity also affects employee morale.

Taking into account the feedback provided by the Council, CFO Dello Russo will be building the compensation plan into our Fiscal Year 2024 operating budget. This, however, still leaves the matter of our non-union employees' pay adjustments in Fiscal Year 2023 (retroactive to July 1, 2022) on the table. It is not good budget practice to fund a current year operating expense in a subsequent year, so we wish to avoid the situation where the Fiscal Year 2024 budget is artificially increased in order to meet this one-time cost. We are therefore requesting that the City

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Council appropriate these funds from Free Cash to make our employees whole for Fiscal Year 2023.

Not taking action to implement the compensation plan puts us even further behind our peer communities. It risks our employee's losing faith in the process with which they cooperated, and which was intended to create greater trust in the equity of their pay relative to their peers and to the regional labor market. I urge the Council to take this opportunity to fund the compensation increases recommended in the study.

PATRICK D. DELLO RUSSO
CFO/City Auditor

To: Honorable City Council
City of Melrose

From: Patrick D. Dello Russo, MBA
CFO/City Auditor

Date: March 28, 2023

Re: **Free Cash Appropriation Considerations for the remainder of the Fiscal Year.**

As the CFO/City Auditor, I submit this summary of Financial Management Strategies for the remainder of the Free Cash available for the remainder of the fiscal year. To-date: $3,423,471.07 is available of the $7,159,906 Certified.

Part I.

Reserves/Stabilization Funds & Management ($950,000)

The City of Melrose has established a number of Financially Strategic Stabilization Funds, with a collective balance just under $7.5 million dollars. This provides assurance to the community that we can meet a negative downturn in the economy or unanticipated costs, which could disrupt the delivery of services and negatively impact our operating budget at any given time within a fiscal year. There is "tremendous value here" in our collective decision to safeguard the assets of the community through the establishment of these funds. There is no greater priority from a financial perspective.

1. We have developed a **"Foundation Stabilization Fund" # 8401**, with a balance just under $3.9 million dollars. The request before you is to add the sum of $50,000 thousand dollars to this fund for a total of close to $3,95 million dollars. The City's goal is to have the Fund equate to 5% of the operating budget. In Fiscal 2023 that amount would be just over $4.7 million dollars. If approved, this would be a positive move in our efforts to reach that goal. The Massachusetts Municipal Association "best practice" includes adopting reserve funding targets of 5% or more based on the specifics of the municipal

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

budget and consideration of spending and revenue risks. There is also a standing City Council Ordinance (Section 48-5) that speaks to the funding of the Stabilization Fund annually. We have also budgeted $50,000 to go into this fund as part of the standard annual operating budget request.

2. We have established a **"Contract Stabilization Fund" #8404,** with a balance of just over $882,000 thousand dollars. The request before you is to add the sum of $450,000 thousand dollars to this fund in order to insure that the city can fund negotiated collective bargaining agreements when settled, and non – union compensation obligations for example. This includes any retroactive payments relative to the respective contracts and non-union salary adjustments. To date, going into FY2024, the Fire Union is out of contract as of June 30, 2023. The target balance for this fund is $1.3 million dollars.

3. We have established a **Capital Stabilization Fund # 8405,** with a balance of just over $472,000 thousand dollars, and we seeking $100,000 dollars at this time as it mirrors our targeted amount of $550,000 at this time. Capital purchases in excess of $25,000 thousand dollars are funded from this source. This enables the city to add flexibility in addressing its' capital needs (pay as you go financing) for items that are not advantageous to issue debt on (departmental equipment, for example) and may be needed at any time during a fiscal year.

4. We have established a **Suits and Claims Stabilization Fund # 8406,** with a balance of over $496,378 thousand dollars. The city uses this fund to address costs associated with legal claims and suits that arise throughout the fiscal year. We are not seeking any funding at this time as it meets our target amount of $500,000 thousand dollars.

5. We have established a **"Special Education Stabilization Fund" #8408,** which is used to fund special education costs realized by the School Department that exceed its budgeted funds. We are requesting you to add $250,000 thousand dollars to this fund at this time. We currently have just over $502,000 thousand dollars in this fund. Our new target allocation is a standing balance of $750,000 thousand dollars given the increases in costs we are realizing.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

6. We have established a Statutory Fund under Chapter 32b, Section 20; called the **"OPEB Fund" #8407,** (Other Post Employment Benefits), with a balance of just over $1,038,000 thousand dollars. We are requesting the sum of $50,000 thousand dollars be added to this fund. The continued funding of this significant liability plays a "key" role in the determination of our Bond Rating by Standard and Poor's Rating Agency (please see most recent S & P report dated September 15, 2020). We have also incorporated a request for $50,000 thousand dollars as part of the standard annual operating budget request.

7. We have established an **"OSHA" Fund # 8409,** (Occupational Safety and Health Administration), stabilization fund with a current balance of over $204,000 thousand dollars. We are requesting the sum of $50,000 thousand dollars be added to this fund which would bring the balance to just over $250,000 thousand dollars. The City's target amount for this fund is $250,000 thousand dollars.

Part II.

Project/Program and Cost considerations ($1,158,893.48):

1. School Department Curriculum Program - $169,959.48
2. School Department Master Plan - $125,000
3. HRS Nonunion compensation plan funding - $159,784
4. DPW Tree Planting Program - $84,150
5. Radar Speed Signs and Traffic Study - $50,000
6. IT Investments in City/School Technology - $200,000
7. Accessibility and Adaptive Equipment Projects - $100,000
8. Medicare - $40,000
9. City Solicitor Liability Insurance Program - $30,000
10. HR Department - Workers Compensation - $150,000
11. Cemetery Department - $50,000

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Part III.

Open Items and Cost Considerations ($1,314,577.59):

1. Public Safety Overtime - $300,000
2. Snow & Ice Funding Contingency - $1,014,577.59

Summary Observations

Balance Information:

Part I. $ 950,000.00

Part II. $ 1,158,893.48

Part III. $ 1,314,577.59

Total: $ 3,423,471.07

In closing, it is always our intent to seek transfers to offset budgetary items that need supplemental funding such as Medicare for example, in lieu of using Free Cash Funds. The amounts represented here are estimates until a formal request is made from the Mayor to the City Council for funding. Supplemental items may be introduced, and some items may be changed in dollar scope as well as more information becomes available. In the event we do not have to use the Snow and Ice Funding Contingency, the Mayor will make an additional funding request to present to the City Council prior to the fiscal year end. The objective of this memorandum is to simply provide you with some perspective on items under consideration by the Office of the Mayor.

MELROSE PUBLIC SCHOOLS

📚 MyView Implementation Report - March 24, 2023

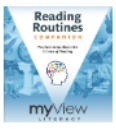
Summary

What follows is a high level overview of this year's Savvas MyView implementation thus far. While we are still learning about the program, overall, we are seeing success both with the use of the materials themselves and with the progress that students are making as evidenced by recent data team meetings and benchmark assessments.

In grades K-3 nonsense reading fluency, from the fall administration of the assessment to the winter, the percentage of students meeting or exceeding grade level benchmarks (Tier 1) increased from 63.82% to 87.57%, while the percentage of students at risk (Tier 3) decreased from 11.3% to 2.81%. These results indicate that the majority of students are able to decode grade level words based on phonics patterns. Daily phonics instruction is a routine part of the *MyView* literacy program in all grades. This data suggests that the repeated daily routine is supporting the growth in DIBELS nonsense-word fluency, words read correctly assessment.

In grades 1-5 in oral reading fluency, from the fall administration of the assessment to the winter, the percentage of students meeting or exceeding grade level benchmarks (Tier 1) increased from 75.55% to 89.07%. While the percentage of students at risk (Tier 3) decreased from 13.21% to 5.31%. Daily instruction using the MyView Literacy program supports oral reading fluency in multiple ways. Students are able to hear modeled fluent reading frequently from their teacher and then are given opportunities to practice reading with a partner.

Materials Status



From late summer into early fall there were significant challenges with the receipt of materials. We were notified that subcontractors had been hired to package and ship materials from the warehouse and reliability was not consistent. We received boxes with packing slips that did not match what was inside, we were sent materials from another program, and we even received a shipment that was labeled to be sent to a school in Florida. Frustration was at an all time high as the school year began and many student consumables still had not arrived. As quickly as possible we instituted work-arounds, including photocopying consumable materials with permission from the publisher, and using hardcover consumables while we awaited the paperback style workbooks. By mid-October, all materials had finally arrived and in most classrooms, implementation was underway with fidelity. Here is a cataloged list of what we have received for each classroom space:

Professional Development

Thus far this year, Savvas has been on site for summer PD for staff and virtual during curriculum meeting times. After a couple of earlier sessions that did not meet our needs, we pulled our full day PD on November 8th in house and the PD was led by MaryAnn Barriss, Sue Jones and Mel Acevedo. We then attended a user group meeting and raised our concerns to the Head of PD at Savvas. Following that meeting, we had multiple sessions scheduled in order to collaboratively design future curriculum meeting sessions. There were subsequently two sessions that addressed the writing component of the MyView curriculum and one session where staff could choose between the following presentations: *Project-Based Inquiry in MyView, Small Group Resources in MyView or Foundational Skills, The Science of Reading in MyView.*

Future Professional Development Offerings

Our next PD opportunity will include on site embedded days where Savvas trainers will engage in model lessons, provide planning support, and work directly with our instructional coaches. In addition, two neighboring districts - North Reading and Arlington - have reached out to us to come and observe lessons in action. This speaks to our teachers' commitment to implementation with fidelity and I am excited we will be able to offer our support as other districts navigate their curriculum journey. We have also been asked to star in some Savvas training videos!

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

MELROSE PUBLIC SCHOOLS

Long Term Visioning

In addition to continued, targeted PD, observations and support through the instructional coaches, and an expansion of the use of the materials to include all supporting elements as well as the project based inquiry in each unit, we also look forward to drawing more explicit cross curricular connections. Many of the anchor texts are non-fiction and often in the realm of science or social studies. We hope to therefore work with our 6-12 directors of science and social studies on how to best capitalize on those connections and grow more robust science and social studies lessons that are tied to the literacy anchor for the unit. In addition, our Literacy Task Force will be well underway as we enter the FY24 school year, and reviewing the components of the MyView program - through a records review and classroom observations - will be a high priority on their list of tasks.

Re: **Free Cash Appropriation Considerations for the remainder of the Fiscal Year.**

As the CFO/City Auditor, I submit this summary of Financial Management Strategies for the remainder of the Free Cash available for the remainder of the fiscal year. To-date: $3,423,471.07 is available of the $7,159,906 Certified.

Part I.

Reserves/Stabilization Funds & Management ($950,000)

The City of Melrose has established a number of Financially Strategic Stabilization Funds, with a collective balance just under $7.5 million dollars. This provides assurance to the community that we can meet a negative downturn in the economy or unanticipated costs, which could disrupt the delivery of services and negatively impact our operating budget at any given time within a fiscal year. There is "tremendous value here" in our collective decision to safeguard the assets of the community through the establishment of these funds. There is no greater priority from a financial perspective.

1. We have developed a **"Foundation Stabilization Fund" # 8401**, with a balance just under $3.9 million dollars. The request before you is to add the sum of $50,000 thousand dollars to this fund for a total of close to $3,95 million dollars. The City's goal is to have the Fund equate to 5% of the operating budget. In Fiscal 2023 that amount would be just over $4.7 million dollars. If approved, this would be a positive move in our efforts to reach that goal. The Massachusetts Municipal Association "best practice" includes adopting reserve funding targets of 5% or more based on the specifics of the municipal

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

budget and consideration of spending and revenue risks. There is also a standing City Council Ordinance (Section 48-5) that speaks to the funding of the Stabilization Fund annually. We have also budgeted $50,000 to go into this fund as part of the standard annual operating budget request.

2. We have established a **"Contract Stabilization Fund" #8404,** with a balance of just over $882,000 thousand dollars. The request before you is to add the sum of $450,000 thousand dollars to this fund in order to insure that the city can fund negotiated collective bargaining agreements when settled, and non – union compensation obligations for example. This includes any retroactive payments relative to the respective contracts and non-union salary adjustments. To date, going into FY2024, the Fire Union is out of contract as of June 30, 2023. The target balance for this fund is $1.3 million dollars.

3. We have established a **Capital Stabilization Fund # 8405,** with a balance of just over $472,000 thousand dollars, and we seeking $100,000 dollars at this time as it mirrors our targeted amount of $550,000 at this time. Capital purchases in excess of $25,000 thousand dollars are funded from this source. This enables the city to add flexibility in addressing its' capital needs (pay as you go financing) for items that are not advantageous to issue debt on (departmental equipment, for example) and may be needed at any time during a fiscal year.

4. We have established a **Suits and Claims Stabilization Fund # 8406,** with a balance of over $496,378 thousand dollars. The city uses this fund to address costs associated with legal claims and suits that arise throughout the fiscal year. We are not seeking any funding at this time as it meets our target amount of $500,000 thousand dollars.

5. We have established a **"Special Education Stabilization Fund" #8408,** which is used to fund special education costs realized by the School Department that exceed its budgeted funds. We are requesting you to add $250,000 thousand dollars to this fund at this time. We currently have just over $502,000 thousand dollars in this fund. Our new target allocation is a standing balance of $750,000 thousand dollars given the increases in costs we are realizing.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

6. We have established a Statutory Fund under Chapter 32b, Section 20; called the **"OPEB Fund" #8407,** (Other Post Employment Benefits), with a balance of just over $1,038,000 thousand dollars. We are requesting the sum of $50,000 thousand dollars be added to this fund. The continued funding of this significant liability plays a "key" role in the determination of our Bond Rating by Standard and Poor's Rating Agency (please see most recent S & P report dated September 15, 2020). We have also incorporated a request for $50,000 thousand dollars as part of the standard annual operating budget request.

7. We have established an **"OSHA" Fund # 8409,** (Occupational Safety and Health Administration), stabilization fund with a current balance of over $204,000 thousand dollars. We are requesting the sum of $50,000 thousand dollars be added to this fund which would bring the balance to just over $250,000 thousand dollars. The City's target amount for this fund is $250,000 thousand dollars.

Part II.

Project/Program and Cost considerations ($1,158,893.48):

1. School Department Curriculum Program - $169,959.48
2. School Department Master Plan - $125,000
3. HRS Nonunion compensation plan funding - $159,784
4. DPW Tree Planting Program - $84,150
5. Radar Speed Signs and Traffic Study - $50,000
6. IT Investments in City/School Technology - $200,000
7. Accessibility and Adaptive Equipment Projects - $100,000
8. Medicare - $40,000
9. City Solicitor Liability Insurance Program - $30,000
10. HR Department - Workers Compensation - $150,000
11. Cemetery Department - $50,000

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Part III.

Open Items and Cost Considerations ($1,314,577.59):

1. Public Safety Overtime - $300,000
2. Snow & Ice Funding Contingency - $1,014,577.59

Summary Observations

Balance Information:

Part I. $ 950,000.00

Part II. $ 1,158,893.48

Part III. $ 1,314,577.59

Total: $ 3,423,471.07

In closing, it is always our intent to seek transfers to offset budgetary items that need supplemental funding such as Medicare for example, in lieu of using Free Cash Funds. The amounts represented here are estimates until a formal request is made from the Mayor to the City Council for funding. Supplemental items may be introduced, and some items may be changed in dollar scope as well as more information becomes available. In the event we do not have to use the Snow and Ice Funding Contingency, the Mayor will make an additional funding request to present to the City Council prior to the fiscal year end. The objective of this memorandum is to simply provide you with some perspective on items under consideration by the Office of the Mayor.

Subject: Water and Sewer Enterprise Funds – Free Cash Request2

The City has recently opened bids for two important contracts for capital improvements in our water and sewer systems. For each of these contracts, we are requesting a free cash appropriation to allow us to sign the contracts for the full amount of the bids, including all additive alternates. The details are described below.

2023 Water Main Improvement Contract
Each year, the DPW Engineering Division bids and oversees a water main replacement project. This project is part of our "Multi-year Roadway and Utility Replacement Program" and typically focuses on streets where we have water main replacement needs along with roadway improvement needs. As part of this program, we also have National Grid replace any cast iron gas mains and services with plastic.

At this time, we are ready to perform water main replacement on the following streets that National Grid has either completed or is in the process of completing:

1. Trenton Street at the triangle with Washington Street, to replace a small section of substandard (2") water main with significant pressure problems
2. Nowell Road, and Henry Ave. from Highland to Nowell
3. Henry Ave. from Richardson Road to Nowell
4. Reading Hill Ave.
5. Sewall Woods Road

Based on construction cost estimates and available funds, we determined that we could perform items #1 and #2 from this list as our "base bid" for our 2023 Water Main Improvements Project. Given construction market uncertainty, we bid #3 and #4 as "additive alternates." We concluded that item #5 would need to be bid during the 2024 construction season, as it exceeded all possible funding sources. The low bidder's prices were as follows:

Base Bid (Items #1 and #2): $757,626.90
Add Alternate A (Item #3): $164,479.05
Add Alternate B (Item #4): $344,438.35

We are hereby requesting $440,000 of retained earnings from the Water Enterprise Fund to supplement our MWRA loans and applicable operating budget line items, to allow us to award the complete contract to construct items #1 through #4 during the 2023 construction season. Nowell Road and Reading Hill Avenue, in particular, have been ranked in "poor" roadway condition for several years, and we do not want to delay our ability to pave these roads in 2024. This supplemental funding will allow us to complete these projects and prepare these roadways for paving next construction season.

Sewer Pump Station Generators
In FY22, the City Council approved $400K of retained earnings to design and construct backup power generators at the Upham and Fellsway Sewer Pump Stations, which are the largest two sewer pump stations in Melrose. These stations do not presently have functioning backup power. We hired BETA Group to design the stations at a cost of $82,950, which includes construction administration.

Given that the generator installation would involve significant site disruption, we included additive alternates to replace the fencing at both stations at the completion of construction and to perform final landscaping to screen the generators. There are economies of scale in performing this work simultaneously with the generator project.

We recently opened bids, and the low bid was as follows:

Base Bid (generators and appurtenances): $416,750
Add Alternate A (fencing at Fellsway station): $33,000
Add Alternate B (fencing at Upham Station): $58,850
Add Alternate C (landscaping/screening): $10,000

Our recommendation is to complete the entire scope, including Add Alternates A, B, and C. The total cost of the project, including design and construction administration, is $601,550. In order to carry a construction contingency of approximately 5%, we are hereby requesting $230,000 from retained earnings in the Sewer Enterprise Fund.

We respectfully request your consideration of both of these retained earnings allocations. Thank you.

Re: Request to Authorize MWRA I/I Program Funding – Phase 12

The MWRA Sewer System I/I Local Financial Assistance Program assists MWRA communities with the rehabilitation and replacement of existing sewer lines, manholes and services to reduce the inflow and infiltration of ground water and rain water. The program goals are to reduce the inflow and infiltration of water into the City sewer system, therefore reducing the City's sewer discharge assessment rate, mitigating sewer surcharges and overflows during heavy rain events, and minimizing the seepage of sewage into the ground. Under Phase 12 of the program, the City has $119,000 remaining that has not been appropriated. The funding is distributed as 75% grant and 25% zero interest loan.

The balance of Phase 12 funding will be used to continue work to identify and remove I/I. Previous work conducted by the DPW included metering, flow isolation, smoke testing, and CCTV to identify and quantify sources of I/I in the sewer system; and rehabilitation of pipes using cured-in-place-pipe (CIPP) lining and replacement of leaking manhole covers. These Phase 12 funds will be used for a pipeline rehabilitation project that will employ both trenchless CIPP and open cut methods to remove I/I from the system.

Water and sewer debts scheduled to be retired in FY24 and FY25 will coincide with the borrowing under this program. Therefore, the impact of the 0% interest loan ($29,750) to be repaid over 10 years will not have an impact on the water and sewer rates.

A positive vote is required before the DPW can apply for and access the grant funds and interest-free loan from MWRA.

Re: FY2023 Free Cash Appropriation for Franklin School Window Replacement

In collaboration with the City of Melrose School Department, the Department of Public Works requests your consideration for an appropriation of $300,000.

The window bays at the Franklin School have long exceeded their useful life. In April 2023, Phase I of the window replacement will take place and address the most critical of conditions. The selected contractor will perform the work over the April vacation week and while the school is vacant. Phase II is planned to take place over the summer break and will address 5 bays (10 windows). Plans to accommodate the summer programs are already under consideration in anticipation of this critical project. The remaining windows at the school will continue to be part of our Capital Improvement Plan for future capital funding.

The full scope of the work includes the replacement of 5 bays (10 windows), industry testing (heat, water, air, structural), and required masonry in the general area of the windows. The scope also includes an allowance for additional work that may be required and for conditions that are currently unforeseen. The selected vendor performs this work under the State TRD01 Contract. The project schedule considers current industry lead times for materials and ensures completion of this project ahead of the 2023-34 School Year.

Thank you very much for your consideration on this project and this much needed investment in our School Buildings.

Feel welcome to contact us with any further questions.

Proposal

76221

Date: 03/31/2023

Suburban Glass & Mirror, Inc
60 Powdermill Rd. Acton, MA. 01720

Billed To: City of Melrose
DPW City Yard
72 Tremont St
Melrose MA 02176

Job # 32662
Project: 16 Franklin St
Franklin School Sumer Window Replaceme
Melrose MA
Jay McNeil
781-665-0142

This quote is valid until: 05/01/2023

Scope:

We will supply materials and labor to remove and replace (5) bays (10 windows) at the Franklin School on the various floors. We will use an aerial lift to access the areas, we will then have an abatement company set up protection and remove the windows, frames, and surrounding caulking as needed. We will then have a hygienist clear the area and dispose of the materials off site per code. We will then furnish and install the new windows. New windows to be: Universal Windows to match mock up windows. Windows to be 550 series, sub sill, ultralift balances, pole operated lock. There will be an uneven orientation (2/3 fixed and 1/3 operable). (3) pieces per opening with the (2) ends having operable windows and the middle being fixed. Finish will be dark bronze. Glass to be double glazed low-e and argon tempered safety glass. The operable windows will have half screens with charcoal fiberglass mesh. We will caulk the exterior of the window with Dow 795 structural silicone and then install wood trim or break metal where required on the interior of the frame.

Note: Lead time for windows is approx. 8 weeks from time of order. No testing figured at this time (see additional pricing for testing). No permits or bonds figured at this time. If a permit is required, it will be the cost of the permit plus $1,000.00.

Excludes: Off hour work, unforeseen conditions, accidental damage to landscaping, permits and bonds.

Labor: $49,210.00
Materials: $179,430.00

Work to be performed under state contract TRD01. Prevailing wage rates apply.

Exclusions to bid:
Unforeseen conditions, off hour work, permits, bonds, hazardous removal, testing

Suburban glass and mirror co. Inc. Is not responsible for accidental damage to customer's glass in the removal, transport, storage or install of said items.
All material is guaranteed to be as specified. All work to be completed in a professional manner according to standard practices. Any alterations or deviations from above specifications involving extra costs will become an extra charge over and above this price. Owner to carry fire, tornado, and other necessary insurance.
Our workers are fully covered by workman's compensation insurance.
This price is valid for thirty (30) days.

Total	**228,640.00**

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Council on Aging
Date: April 10, 2023

I respectfully request the Honorable City Council confirm the appointment of Ellen Cobau, 79 Otis Street, to the Melrose Council on Aging for a three-year term set to expire on the last day of February 2026. Ms. Cobau's appointment replaces that of Nancy Messina, whose term expired on the last day of February 2023.

Ms. Cobau's current capacity as a nurse at Mass General Hospital and previous experience as the public health nurse for the City of Melrose has prepared her to be a natural health and education resource to our community's older adults via her service to the Melrose Council on Aging.

In addition, Ms. Cobau has shown special interest in areas of health and safety of older adults, as made evident in the development of a webinar about preventing falls as well as her strong interest in social determinants of health.

Thank you for your consideration.

Nurse Case Manager — Job Title

Which Boards would you like to apply for?

Council on Aging: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

As a nurse I am very much interested in the social determinants of health. These are the conditions in the environments where people are born, live, work, play, worship and age that affect a wide range of health, functioning, and quality of life outcomes. The Council on Aging (COA), with its mission of connecting older adults with resources to positively impact their lives, is well-poised to make Melrose a good place not just to age in place but to thrive in place!! As a Board Member of COA, I would utilize the depth and breadth of my healthcare experience & knowledge to work with the Board on needs assessment, advocacy, and outreach so all will age well in Melrose. Please consider my application. thank you

PLACEMAKING RESUME

ROBERT S. TULLIS

Formerly: Sr. VP & Director of Design, GID Development

Robert Tullis is a licensed architect who has practiced at his own firm and others in Boston for over forty years. For thirteen years he was a Vice President at Elkus Manfredi Architects, New England's largest architectural firm. He migrated to real estate development in 2008 and was Senior Vice President and Director of Design at the General Investment & Development Companies (GID), where he oversaw all design aspects of the GID Development Group's multifamily and mixed-use projects. He retired in September 2022.

Mr. Tullis has been involved in or directed the design of a number of well known mixed-use projects that feature placemaking as an essential component; including University Park at MIT in Cambridge MA, The Grove at Farmer's Market in Los Angeles CA, Americana at Brand in Glendale CA, and BelMar in Lakewood CO. He masterplanned and directed the design teams involved in GID's Regent Square Houston, High Street Atlanta, and Waterline Square Manhattan mixed-use projects. In his travels to U.S. cities and during his trips to Europe; he observes and photographs the distinctive places these cities are known for and cites them in his work.

Mr. Tullis was chair of the Boston Society of Architects' Placemaking Network for ten years; and developed and taught a Placemaking course at the Boston Architectural College, focusing on creation of vibrant, attractive, and memorable places within cities and towns and emphasizing the importance of an architect's awareness of the spaces between buildings and the characteristics that transform them from SPACE into PLACE.

Mr. Tullis's past speaking engagements include:

- BSA Placemaking Network 2009- "Metrics of Place vs. Space, what I re-learned on vacation"
- Build Boston in 2010- "Life in the Square, the role of the public plaza in urban placemaking" (organized forum and gave the keynote speech)
- Sugarland TX Land Use Forum 2014- "Town Square and Beyond, creating places for the community"
- Rice Design Alliance 2014- "Walkable Places"
- SNEAPA Conference 2015- "Exploring New Paradigms for 21st Century Placemaking"
- ABX Boston 2015- "Placemaking, A New Paradigm"
- BSA Placemaking Network 2016- four-part lecture series on the observers, researchers, theorists, and advocates of placemaking.
- BAC, Programming, Codes, & Human Factors, 2016 -2019 guest- "Use & Activity in Public Places"
- BSA Placemaking Network 2017- "Boston's Creek Square and Siena's Piazza del Campo"
- EM Summer Lecture Series 2017- Four Talks on Placemaking (posted on YouTube)
- Tufts University UX+Design Conference 2019- "Looking Backward to go Forward"
- Aspire 2021 AIA Conference- "Placemaking, how and why we react to architecture and landscape"
- Catholic University, Cognitive Architecture course 2022- "Placemaking, architectural form and space."

Mr. Tullis's publications include:

- "Looking Backward to go Forward?" In Urban Experience and Design, edited by Justin B. Hollander and Ann Sussman, Routledge, New York and London, 2021.
- "Programming Urbanism for Human Engagement." In Programming for Health & Wellbeing in Architecture, edited by A. Vernon Woodworth, Routledge, New York and London, 2022
- Currently working on a book- "Placemaking, designing the human-centered city square and public realm"

Mr. Tullis holds an A.B. from Colgate University (honors in Architectural Studies and Fine Arts) and an M.Arch from the Harvard Graduate School of Design. He is a member of the BSA, AIA, ULI, CNU, and is a LEED AP.

Which Boards would you like to apply for?

Historic District Commission: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I am a retired architect, who most recently worked on the staff of a national R.E. Development company. In my 40 year career, I have a great deal of experience with historic buildings and historic districts. I have a specialty interest in placemaking, and am currently working on a book on the subject of how to design attractive and vibrant places in the midst of urban buildings. I am interested in serving Melrose, my home for over 30 years, in some capacity that draws on my experience and skills.

MEMORANDUM

To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Historic District Commission
Date: April 11, 2023

I respectfully request the Honorable City Council confirm the appointment of Robert Tullis, 8 Thurston Road, to the Historic District Commission (HDC), for a three-year term set to expire on the last day of February 2026. Mr. Tullis' appointment replaces the membership of Justine Sterling, who is not seeking reappointment.

Mr. Tullis, an architect with 40 years of experience, has a real passion for architectural detail and knowledge of historic buildings and districts. As a member of the Library Building Committee, Mr. Tullis reviewed the plans for the Melrose Public Library Renovation Project, highlighting his interest and commitment to serving the Melrose community—a commitment he would like to continue by serving on the HDC.

Thank you for your consideration.

Re: Acceptance of Massachusetts Cultural Council Grants

Date: April 5, 2023

On behalf of Mayor Brodeur, I am pleased to present the Honorable City Council with a request to accept funding from the Massachusetts Cultural Council (MCC) in the form of two grants, both in the amount of $2,500.

These two grants are being awarded for the City of Melrose's Dance for Community, held on October 8, 2022 and the Melrose Community Iftar Celebration, scheduled for April 8, 2023.

Both grants come from the MCC's FY23 Festivals Program which began accepting applications on October 22, 2022 for activities made available to the public between July 1, 2022, and June 30, 2023. 100% of the funds will be disbursed to the City upon receipt of the signed MCC Standard Contract Forms for each grant. There is no match required.

Dance for Community Event Summary:
The family-friendly event, initiated by the Melrose Human Rights Commission and the Mayor's DEI Advisory Task Force, was held on Saturday, October 8, from 2 p.m.—5 p.m. in front of City Hall on Essex Street. The event centered around community re-unification and featured local artists, food, and free community dance lessons by Melrose resident Jen Earls, founder of Dance for Humanity. Dance for Humanity is an organization based around community-building through dance, with a mission of helping people connect with themselves, each other and the land for greater health, happiness, and wellbeing.

5th Annual Community Iftar Celebration Summary:
The Melrose Human Rights Commission's Annual Community Iftar Celebration brings residents this annual program in honor of Ramadan and Islamic traditions. Iftar is the traditional fast-breaking meal eaten at sunset during Ramadan.

I respectfully request acceptance of these two grants.

Thank you for your consideration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Mass Cultural Council

April 01, 2023

Dear Lauren Grymek,

We are pleased to inform you that City of Melrose has been approved for a Festivals & Projects grant of $2,500 (FY23-FE-PRJ-48699) from the Mass Cultural Council.

Thanks to vigorous advocacy from the cultural sector, the Legislature once again showed strong, bipartisan support for the Mass Cultural Council, and its programs and services in the FY23 state budget. This allows us to continue to support Massachusetts' dynamic artists and creative individuals, communities, cultural organizations, schools, and creative youth development across the Commonwealth.

Enclosed you will find a contract package that contains award instructions and reporting requirements. Please review these documents carefully and return the required paperwork to our Fiscal Department by April 28, 2023. This will help us process your grant as quickly as possible. For questions about the contract, please contact Marc Sulmonte at 617-858-2823 or marc.sulmonte@mass.gov. For questions about the program please contact Festivals.Projects@mass.gov.

Culture is ultimately about you. You play an integral role in creating and supporting a cultural life in Massachusetts that is vital, accessible, and thriving. Thank you for all that you do to elevate our rich cultural life in Massachusetts.

Nina Fialkow
Chair

Michael. J. Bobbitt
Executive Director

ATTACHMENT B: Additional Terms & Conditions

1. SCOPE OF CONTRACT. The Contractor agrees to perform the services set forth in the application for funding filed by the Contractor with the Council (the "Application") in accordance with the terms and conditions of the contract (the "Contract"). The Application is incorporated into the Contract by reference; the terms of the Application are binding on the Contractor unless amended by a subsequent written agreement signed by both the Council and the Contractor. The Contractor represents that it is qualified to perform and has obtained all necessary licenses and permits required to perform the services under this Contract.

Additionally, the Contractor agrees to perform the services in accord with the requirements set forth by the Council in the FY23 Festivals & Projects guidelines (the "Guidelines"), as posted on www.massculturalcouncil.org. The Guidelines are incorporated into the Contract by reference; the terms of the Guidelines are binding on the Contractor unless amended by a subsequent written agreement signed by both the Council and the Contractor.

2. NON-DISCRIMINATION AND ACCESS FOR PEOPLE WITH DISABILITIES. The contractor agrees to abide by state and federal regulations which bar discrimination on the basis of race, gender, religious creed, color, national origin, ancestry, disability, age, gender identity, or sexual orientation, and which require accessibility for persons with disabilities. The MCC expects the contractor to be in compliance with:

- The Americans with Disabilities Act of 1990 (ADA)
- Section 504 of the Rehabilitation Act of 1973 (Section 504)
- Title VI of the Civil Rights Act of 1964
- Other applicable state and local laws

(a) If a complaint or claim alleging violation by the Contractor of any statute, order, rule, or regulation with which the Contractor is obligated to comply is presented to the Massachusetts Commission Against Discrimination ("MCAD"), the Contractor agrees to cooperate with MCAD in the investigation and disposition of such complaint or claim and to assume all legal fees incurred by the Contractor in connection with the defense of such claim.

(b) In the event of the Contractor's non-compliance with the provisions of this Section 2, the Council shall impose such sanctions as it deems appropriate, including but not limited to: (i) withholding of payments due the Contractor under the Contract until the Contractor complies; and (ii) termination or suspension of the Contract.

3. PENALTIES, HOLDS, REDUCTIONS, RESTRICTIONS, REVERSIONS AND CANCELLATIONS. The Council has the right to withhold, reduce, cancel, revert, discontinue funding, or apply restrictions to the use of grant funds if the Contractor:

- Fails to perform the services set forth in the Application and/or fails to perform the services in accord with the requirements set forth by the Council in the Guidelines.
- Does not comply with all grant requirements and/or reporting requirements as stated in the Guidelines.
- Intentionally misrepresents its finances, organization/programming, or other eligibility requirements in the Application and/or any reports submitted to the Council.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

ATTACHMENT D
CREDIT and PUBLICITY AGREEMENT
between the
MASS CULTURAL COUNCIL and GRANTEES

This credit and publicity agreement is hereby incorporated into the body of the grant contract between the Mass Cultural Council ("the Council") and the grant recipient ("the Contractor") named below as explicit terms and conditions of the contract. By the signatures below the Contractor agrees to abide by these terms and conditions.

THIS FORM MUST BE SIGNED AND RETURNED WITH YOUR CONTRACT.

1. ADVOCACY & ACKNOWLEDGING LEGISLATIVE SUPPORT

90% of Mass Cultural Council's budget comes from an appropriation by the State Legislature. It is important to thank those elected officials responsible for funding Mass Cultural Council. We strongly encourage the Contractor to send personalized letters to the leadership of the State House and their state representative and senator, thanking them for Mass Cultural Council's appropriation and your grant award. For more information on how to find and contact your legislators, visit https://massculturalcouncil.org/about/contracts/credit-and-publicity-kit/.

While we strongly encourage all grantees to conduct this kind of advocacy for public funding for the cultural sector, **recipients of CIP Portfolio and CIP Gateway grants must meet specific advocacy requirements in order to remain eligible for funding**. Review the Portfolio Guidelines or Gateway Guidelines for details.

2. CREDIT

Mass Cultural Council Credit Logo: Credit must be given by the Contractor to the Council regarding all activities to which Council funds contribute by using the credit logo in:

a) Printed promotional materials such as postcards, flyers, season/subscription brochures, and newsletters: Any promotional material, regardless of length, prepared by the Contractor, that credits an annual funding source, must also credit the Council.

b) Digital materials such as web sites, blogs, videos, and social media: Do not include the logo on surveys.

c) Programs/Playbills: Credit must be given on all programs printed by a grant recipient in a type size not smaller than 7 point font.

d) Event signage: For any event presented with funding from the Council, signage must include the Council listed with other major public, private, and corporate sponsors, in proportional order of the size of the contribution.

e) Exhibition Signage: For any exhibition presented with funding from the Council, the wall text must include the Council listed with other major public, private, and corporate sponsors, in proportional order of the size of contribution.

f) Educational Materials: Credit must be given to the Council in all educational materials distributed in association with any Council-funded activity, such as brochures, pamphlets, flyers, etc.

The logo must be produced as a unit without alteration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Verbal Credit: When written credit is not applicable, such as there being no printed program, verbal credit shall be given prior to performances.

3. DONOR RECOGNITION
Any wall plaques or advertisements that acknowledge the Contractor's annual or ongoing support from corporations and/or foundations must also acknowledge the Council.

4. COLLABORATORS
Organizations that are collaborators with the primary grant recipient must comply with these requirements. The Contractor is responsible for informing said collaborators of this policy and ensuring they fulfill these obligations.

5. CO-SPONSORSHIP
Those programs that are "co-sponsored" will have additional, specific publicity requirements, dependent on the program at the time of negotiation. Under no circumstances may a Contractor state or imply that its programs and/or activities are "sponsored," "co-sponsored" or "presented" by the Council without expressed, written consent from the Council.

6. ADDITIONAL REQUIREMENTS
Mass Cultural Council reserves the right to negotiate additional requirements regarding credit and publicity on a case-by-case basis.

FOR MORE INFORMATION ABOUT THIS POLICY, CONTACT YOUR PROGRAM STAFF CONTACT OR MASS CULTURAL COUNCIL'S PUBLIC AFFAIRS DEPARTMENT.

Contract Package Checklist

Please include this completed checklist as the cover letter of your contract package to ensure the package is complete and that payment can be made as quickly as possible.

Check off each of following items to indicate they are in your completed package before mailing it to Mass Cultural Council:

- ☐ **This Checklist:** Have you double checked all the items on the list?
- ☐ **Standard Contract Form:** Is it signed and dated? Does it have the "wet" signature?
- ☐ **Massachusetts W-9:** Is it signed and dated? Does it have the "wet" signature?
  - ☐ **OR, check this box if you have previously submitted this form and there have been no changes to your organization's information. You do not need to complete a new form.**
- ☐ **Contractor Authorized Signatory Listing:** Is it signed and dated? Does it have the "wet" signature? **We need this again even if you have sent it previously.**
- ☐ **Massachusetts Electronic Funds Transfer (EFT) Authorization Agreement:** Is it signed and dated? Does it have the "wet" signature?
  - ☐ **OR, check this box if you have previously submitted this form and there have been no changes to your banking information. You do not need to send a new form.**
- ☐ **Voided Check or Bank Letter:** Did you include the required document along with the EFT Authorization Agreement?
- ☐ **Attachment A:** Please return this printed attachment, so we have the full contract package on file.
- ☐ **Attachment B:** Please return this printed attachment, so we have the full contract package on file.
- ☐ **Attachment D:** Is it signed and dated?

Mass Cultural Council

March 31, 2023

Dear Randall Carter,

We are pleased to inform you that City of Melrose for Melrose Human Rights Commission has been approved for a Festivals & Projects grant of $2,500 (FY23-FE-PRJ-52825) from the Mass Cultural Council.

Thanks to vigorous advocacy from the cultural sector, the Legislature once again showed strong, bipartisan support for the Mass Cultural Council, and its programs and services in the FY23 state budget. This allows us to continue to support Massachusetts' dynamic artists and creative individuals, communities, cultural organizations, schools, and creative youth development across the Commonwealth.

Enclosed you will find a contract package that contains award instructions and reporting requirements. Please review these documents carefully and return the required paperwork to our Fiscal Department by April 28, 2023. This will help us process your grant as quickly as possible. For questions about the contract, please contact Marc Sulmonte at 617-858-2823 or marc.sulmonte@mass.gov. For questions about the program please contact Festivals.Projects@mass.gov.

Culture is ultimately about you. You play an integral role in creating and supporting a cultural life in Massachusetts that is vital, accessible, and thriving. Thank you for all that you do to elevate our rich cultural life in Massachusetts.

Nina Fialkow
Chair

Michael. J. Bobbitt
Executive Director

_X_ NEW CONTRACT

PROCUREMENT OR EXCEPTION TYPE: (Check one option only)

__ **Statewide Contract** (OSD or an OSD-designated Department)
__ **Collective Purchase** (Attach OSD approval, scope, budget)
_X_ **Department Procurement** (includes all Grants - 815 CMR 2.00) (Solicitation Notice or RFR, and Response or other procurement supporting documentation)
__ **Emergency Contract** (Attach justification for emergency, scope, budget)
__ **Contract Employee** (Attach Employment Status Form, scope, budget)
__ **Other Procurement Exception** (Attach authorizing language, legislation with specific exemption or earmark, and exception justification, scope and budget)

___ CONTRACT AMENDMENT

Enter **Current Contract End Date *Prior*** to Amendment: _____, 20___.
Enter **Amendment Amount**: $ _____. (or "no change")

AMENDMENT TYPE: (Check one option only. Attach details of amendment changes.)

__ **Amendment to Date, Scope or Budget** (Attach updated scope and budget)
__ **Interim Contract** (Attach justification for Interim Contract and updated scope/budget)
__ **Contract Employee** (Attach any updates to scope or budget)
__ **Other Procurement Exception** (Attach authorizing language/justification and updated scope and budget)

The Standard Contract Form Instructions and Contractor Certifications and the following Commonwealth Terms and Conditions document are incorporated by reference into this Contract and are legally binding: (Check ONE option): _X_ Commonwealth Terms and Conditions __ Commonwealth Terms and Conditions For Human and Social Services __ Commonwealth IT Terms and Conditions

COMPENSATION: (Check ONE option): The Department certifies that payments for authorized performance accepted in accordance with the terms of this Contract will be supported in the state accounting system by sufficient appropriations or other non-appropriated funds, subject to intercept for Commonwealth owed debts under 815 CMR 9.00.
__ **Rate Contract.** (No Maximum Obligation) Attach details of all rates, units, calculations, conditions or terms and any changes if rates or terms are being amended.)
_X_ **Maximum Obligation Contract.** Enter total maximum obligation for total duration of this contract (or ***new*** total if Contract is being amended). **$2,500**

PROMPT PAYMENT DISCOUNTS (PPD): Commonwealth payments are issued through EFT 45 days from invoice receipt. Contractors requesting **accelerated** payments must identify a PPD as follows: Payment issued within 10 days __% PPD; Payment issued within 15 days __ % PPD; Payment issued within 20 days __ % PPD; Payment issued within 30 days __% PPD. If PPD percentages are left blank, identify reason: _X_ agree to standard 45 day cycle __ statutory/legal or Ready Payments (M.G.L. c. 29, § 23A); __ only initial payment (subsequent payments scheduled to support standard EFT 45 day payment cycle. See Prompt Pay Discounts Policy.)

BRIEF DESCRIPTION OF CONTRACT PERFORMANCE or REASON FOR AMENDMENT: (Enter the Contract title, purpose, fiscal year(s) and a detailed description of the scope of performance or what is being amended for a Contract Amendment. Attach all supporting documentation and justifications.)
This is a grant of financial assistance for Melrose Community Iftar Celebration.

ANTICIPATED START DATE: (Complete ONE option only) The Department and Contractor certify for this Contract, or Contract Amendment, that Contract obligations:

__ 1. may be incurred as of the Effective Date (latest signature date below) and **no** obligations have been incurred **prior** to the Effective Date.
__ 2. may be incurred as _____, **20**__, a date **LATER** than the Effective Date below and **no** obligations have been incurred **prior** to the Effective Date.
_X_ 3. were incurred as of **July 01, 2022**, a date **PRIOR** to the Effective Date below, and the parties agree that payments for any obligations incurred prior to the Effective Date are authorized to be made either as settlement payments or as authorized reimbursement payments, and that the details and circumstances of all obligations under this Contract are attached and incorporated into this Contract. Acceptance of payments forever releases the Commonwealth from further claims related to these obligations.

CONTRACT END DATE: Contract performance shall terminate as of **June 30, 2023,** with no new obligations being incurred after this date unless the Contract is properly amended, provided that the terms of this Contract and performance expectations and obligations shall survive its termination for the purpose of resolving any claim or dispute, for completing any negotiated terms and warranties, to allow any close out or transition performance, reporting, invoicing or final payments, or during any lapse between amendments.

CERTIFICATIONS: Notwithstanding verbal or other representations by the parties, the **"Effective Date"** of this Contract or Amendment shall be the latest date that this Contract or Amendment has been executed by an authorized signatory of the Contractor, the Department, or a later Contract or Amendment Start Date specified above, subject to any required approvals. The Contractor certifies that they have accessed and reviewed all documents incorporated by reference as electronically published and the Contractor makes all certifications required under the Standard Contract Form Instructions and Contractor Certifications under the pains and penalties of perjury, and further agrees to provide any required documentation upon request to support compliance, and agrees that all terms governing performance of this Contract and doing business in Massachusetts are attached or incorporated by reference herein according to the following hierarchy of document precedence, the applicable Commonwealth Terms and Conditions, this Standard Contract Form, the Standard Contract Form Instructions and Contractor Certifications, the Request for Response (RFR) or other solicitation, the Contractor's Response (excluding any language stricken by a Department as unacceptable, and additional negotiated terms, provided that additional negotiated terms will take precedence over the relevant terms in the RFR and the Contractor's Response only if made using the process outlined in 801 CMR 21.07, incorporated herein, provided that any amended RFR or Response terms result in best value, lower costs, or a more cost effective Contract.

AUTHORIZING SIGNATURE FOR THE CONTRACTOR:

X: _____. **Date:** _____.

ATTACHMENT A - SCOPE OF SERVICES AND ADDITIONAL TERMS & CONDITIONS

CONTRACTOR NAME: City of Melrose for Melrose Human Rights Commission

ADDRESS: City Hall 562 Main Street Melrose MA 02176-3113

BRIEF DESCRIPTION OF CONTRACT SERVICES (make any necessary changes if your project has changed significantly from the information below; initial and date):

This is a grant of financial assistance for Melrose Community Iftar Celebration.

APPLICATION #: FY23-FE-PRJ-52825

TOTAL MAXIMUM OBLIGATION OF CONTRACT: $2,500

CONTRACT START DATE: July 01, 2022

CONTRACT TERMINATION DATE: June 30, 2023

Contract must be signed and returned to the offices of the Mass Cultural Council no later than **April 28, 2023**.

DATE ANNUAL OR FINAL REPORT IS DUE: July 14, 2023

PAYMENT: For Festival and Project Grants, the Contractor will be reimbursed one hundred percent (100%) of the Contract amount upon receipt of a completed and authorized Contract. The Council shall make reasonable efforts to process payments promptly. The Council shall not be liable for any interest or penalty charges for late reimbursement.

ADDITIONAL RESTRICTIONS BEYOND THOSE STATED IN PROGRAM GUIDELINES (*if blank there are none*)**:**

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

ATTACHMENT B: Additional Terms & Conditions

1. SCOPE OF CONTRACT. The Contractor agrees to perform the services set forth in the application for funding filed by the Contractor with the Council (the "Application") in accordance with the terms and conditions of the contract (the "Contract"). The Application is incorporated into the Contract by reference; the terms of the Application are binding on the Contractor unless amended by a subsequent written agreement signed by both the Council and the Contractor. The Contractor represents that it is qualified to perform and has obtained all necessary licenses and permits required to perform the services under this Contract.

Additionally, the Contractor agrees to perform the services in accord with the requirements set forth by the Council in the FY23 Festivals & Projects guidelines (the "Guidelines"), as posted on www.massculturalcouncil.org. The Guidelines are incorporated into the Contract by reference; the terms of the Guidelines are binding on the Contractor unless amended by a subsequent written agreement signed by both the Council and the Contractor.

2. NON-DISCRIMINATION AND ACCESS FOR PEOPLE WITH DISABILITIES. The contractor agrees to abide by state and federal regulations which bar discrimination on the basis of race, gender, religious creed, color, national origin, ancestry, disability, age, gender identity, or sexual orientation, and which require accessibility for persons with disabilities. The MCC expects the contractor to be in compliance with:

- The Americans with Disabilities Act of 1990 (ADA)
- Section 504 of the Rehabilitation Act of 1973 (Section 504)
- Title VI of the Civil Rights Act of 1964
- Other applicable state and local laws

(a) If a complaint or claim alleging violation by the Contractor of any statute, order, rule, or regulation with which the Contractor is obligated to comply is presented to the Massachusetts Commission Against Discrimination ("MCAD"), the Contractor agrees to cooperate with MCAD in the investigation and disposition of such complaint or claim and to assume all legal fees incurred by the Contractor in connection with the defense of such claim.

(b) In the event of the Contractor's non-compliance with the provisions of this Section 2, the Council shall impose such sanctions as it deems appropriate, including but not limited to: (i) withholding of payments due the Contractor under the Contract until the Contractor complies; and (ii) termination or suspension of the Contract.

3. PENALTIES, HOLDS, REDUCTIONS, RESTRICTIONS, REVERSIONS AND CANCELLATIONS. The Council has the right to withhold, reduce, cancel, revert, discontinue funding, or apply restrictions to the use of grant funds if the Contractor:

- Fails to perform the services set forth in the Application and/or fails to perform the services in accord with the requirements set forth by the Council in the Guidelines.
- Does not comply with all grant requirements and/or reporting requirements as stated in the Guidelines.
- Intentionally misrepresents its finances, organization/programming, or other eligibility requirements in the Application and/or any reports submitted to the Council.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

ATTACHMENT D
CREDIT and PUBLICITY AGREEMENT
between the
MASS CULTURAL COUNCIL and GRANTEES

This credit and publicity agreement is hereby incorporated into the body of the grant contract between the Mass Cultural Council ("the Council") and the grant recipient ("the Contractor") named below as explicit terms and conditions of the contract. By the signatures below the Contractor agrees to abide by these terms and conditions.

THIS FORM MUST BE SIGNED AND RETURNED WITH YOUR CONTRACT.

1. ADVOCACY & ACKNOWLEDGING LEGISLATIVE SUPPORT

90% of Mass Cultural Council's budget comes from an appropriation by the State Legislature. It is important to thank those elected officials responsible for funding Mass Cultural Council. We strongly encourage the Contractor to send personalized letters to the leadership of the State House and their state representative and senator, thanking them for Mass Cultural Council's appropriation and your grant award. For more information on how to find and contact your legislators, visit https://massculturalcouncil.org/about/contracts/credit-and-publicity-kit/.

While we strongly encourage all grantees to conduct this kind of advocacy for public funding for the cultural sector, **recipients of CIP Portfolio and CIP Gateway grants must meet specific advocacy requirements in order to remain eligible for funding**. Review the Portfolio Guidelines or Gateway Guidelines for details.

2. CREDIT

Mass Cultural Council Credit Logo: Credit must be given by the Contractor to the Council regarding all activities to which Council funds contribute by using the credit logo in:

a) Printed promotional materials such as postcards, flyers, season/subscription brochures, and newsletters: Any promotional material, regardless of length, prepared by the Contractor, that credits an annual funding source, must also credit the Council.

b) Digital materials such as web sites, blogs, videos, and social media: Do not include the logo on surveys.

c) Programs/Playbills: Credit must be given on all programs printed by a grant recipient in a type size not smaller than 7 point font.

d) Event signage: For any event presented with funding from the Council, signage must include the Council listed with other major public, private, and corporate sponsors, in proportional order of the size of the contribution.

e) Exhibition Signage: For any exhibition presented with funding from the Council, the wall text must include the Council listed with other major public, private, and corporate sponsors, in proportional order of the size of contribution.

f) Educational Materials: Credit must be given to the Council in all educational materials distributed in association with any Council-funded activity, such as brochures, pamphlets, flyers, etc.

The logo must be produced as a unit without alteration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Verbal Credit: When written credit is not applicable, such as there being no printed program, verbal credit shall be given prior to performances.

3. DONOR RECOGNITION
Any wall plaques or advertisements that acknowledge the Contractor's annual or ongoing support from corporations and/or foundations must also acknowledge the Council.

4. COLLABORATORS
Organizations that are collaborators with the primary grant recipient must comply with these requirements. The Contractor is responsible for informing said collaborators of this policy and ensuring they fulfill these obligations.

5. CO-SPONSORSHIP
Those programs that are "co-sponsored" will have additional, specific publicity requirements, dependent on the program at the time of negotiation. Under no circumstances may a Contractor state or imply that its programs and/or activities are "sponsored," "co-sponsored" or "presented" by the Council without expressed, written consent from the Council.

6. ADDITIONAL REQUIREMENTS
Mass Cultural Council reserves the right to negotiate additional requirements regarding credit and publicity on a case-by-case basis.

FOR MORE INFORMATION ABOUT THIS POLICY, CONTACT YOUR PROGRAM STAFF CONTACT OR MASS CULTURAL COUNCIL'S PUBLIC AFFAIRS DEPARTMENT.

RE: Fire Headquarters Earmark

In anticipation of the acceptance of the Commonwealth of Massachusetts Earmark of $150,000 to support the Melrose Fire Department for repairs to the Fire Headquarters building, please accept this memo as a general outline of proposed work that the Department of Public Works will oversee.

- Engineering/Architect Study for proposed Electrical and Structural upgrades/improvements.
- Deep cleaning of all upholstered and tiled floor coverings.
- Reconstructed Murphy bed in the dispatch area.
- Window and door replacements.
- Upgrades to the living quarters, including but not limited to kitchen cooking area, dining area, sleeping quarters, locker facilities.
- Masonry repairs.
- Flooring repairs.
- Roof repairs.
- Storage improvements.

We anticipate the full allotment of this Earmark Obligation to be used to make repairs and renovations that best serve the Firefighters located at the Fire Headquarters Building. Through collaboration with the City's Administration and the Fire Chief, we will determine the specific scope of work that maximizes the value of the proposed renovations and greatly improves the living conditions.

Thank you very much for your consideration. Please feel welcome to contact us with any questions you may have.

RE: Acceptance of M.G.L. c. 138, § 19C (Farmer Brewery)

Dear Honorable City Council Members,

As you may recall from my State of the City Address last month, I am eager to establish a local process in Melrose to allow for the operation of breweries within City limits. With a reputation as a destination business, a brewery would help draw visitors from a wide geographical area, benefitting other local businesses, and potentially generating thousands of dollars in meals tax for our community.

The initial step in moving us towards this goal, is for City Council to accept Massachusetts General Laws. c. 138, § 19C.[1] This statute addresses Farmers Brewery Licenses, the state license which must be issued to breweries prior to their operation within City/Town limits in Massachusetts. Generally, such a license allows the business to manufacture and sell at retail those products produced by the brewer.

Acceptance of this statute by City Council would open the door for the next parts in the local process to occur - the Melrose Liquor Licensing Commission considering, reviewing, and potentially adopting local Liquor Licensing regulations for the local issuance of Farmer Series Pouring Permits[2], and the necessary Melrose Zoning ordinance changes being made to allow for this new intended use/ business within City limits. The necessary public hearings before the requisite public bodies involved would need to be noticed and held relative to any such intended changes. I also anticipate the involvement and input of a number of City Departments relative to such changes and the operation of this new type of business within our community, such as:

- Office of Planning and Community Development
- Department of Inspectional Services
- Police Department
- Health & Human Services Department

I expect that allowing for this new type of business within Melrose will help stimulate economic activity and support business development opportunities in Melrose, adding to the diversity of our business inventory, and offering an additional amenity to residents.

I respectfully request your favorable action and welcome any questions you may have.

Sincerely,

Paul Brodeur

[1] https://malegislature.gov/Laws/GeneralLaws/PartI/TitleXX/Chapter138/Section19C

[2] This local pouring permit is required to allow for a Farmer Brewer Licensee to pour on-premises for sale and sampling to the public its own beer.

Part I ADMINISTRATION OF THE GOVERNMENT

Title XX PUBLIC SAFETY AND GOOD ORDER

Chapter 138 ALCOHOLIC LIQUORS

Section 19C FARMER-BREWERY LICENSES; HEARING; APPEAL; NOTICES TO INTERESTED PARTIES; OPERATION OF BREWERY; RECORDS; FEES

Section 19C. (a) For the purpose of encouraging the development of domestic farms, the commission shall issue a farmer-brewery license to any applicant who is both a citizen and resident of the commonwealth and to applying partnerships composed solely of such individuals, and to applying corporations organized under the laws of the commonwealth or organized under the laws of any other state of the United States and admitted to do business in the commonwealth and to applying limited liability companies and limited liability partnerships organized under the laws of the commonwealth, subject to such conditions as the commission may prescribe by regulation to address issues of citizenship and residency and the need for a license manager under

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

section 26 as qualifications for a limited liability company or limited liability partnership to hold a license pursuant to this section and sections 15, 18, 18A, 19 and 19B, unless: (1) such person does not comply with reasonable application procedures required by the commission; or

(2) the commission determines that such person is not of responsible character; or

(3) a church or school located within five hundred feet of the brewery premises has objected to issuance of the license in accordance with section sixteen C; or

(4) the commission determines that the applicant retains or owns an interest, directly or indirectly, in the business of a licensee under section twelve or fifteen; or

(5) the commission determines that the applicant retains or owns an interest, directly or indirectly in more than one business licensed under section eighteen; or

(6) the applicant has not furnished the requisite license fee or bond; or

(7) the commission determines that the co-partners, corporate officials or stockholders of the applicant do not meet the requirements of clauses (2), (4) and (5), or that the manager or agent intended to conduct the farmer-brewery business on the applicant's behalf does not meet such requirements, or that such co-partners, officials, stockholders, agent or manager remain undisclosed.

(b) The commission may on its own motion, and shall upon the written request of any applicant who has been refused a farmer-brewery license or has been refused transfer or renewal of such a license, hold an evidentiary hearing, notice of which shall be mailed to the applicant at the address

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

given in his application. Such hearing shall be before the commission, or a member thereof. The commission shall present its reasons for refusing issuance. The applicant may appear in person or by counsel, may cross-examine witnesses for the commission and may present evidence. The hearing shall be stenographically or sound recorded. If the hearing is conducted by an examiner, the examiner shall report on the hearing to the commission. The commission shall decide within thirty days of the completion of the hearing whether to issue the farmer-brewery license or grant the transfer or renewal. If the commission refuses the license, transfer or renewal following the hearing, notice in writing of the refusal shall be mailed to the applicant. In all such cases, the commission shall keep on file a statement in the form of an opinion of the reasons for the refusal, and shall furnish a copy thereof to the applicant.

(c) Any applicant who has appeared before the commission at such a hearing and who has been refused a farmer-brewery license or the transfer or renewal of such a license may appeal to the superior court of the county where the applicant resides or has his principal place of business within the commonwealth, or to the superior court for Suffolk county.

(d) Every applicant for an original brewery license or for a transfer of such a license shall, within seven days after filing an application with the commission, send written notice of his application by registered mail, return receipt requested, to:

(1) each school which offers instruction and training to children of compulsory school age in accordance with sections one and four of chapter seventy-one and which is located within a radius of five hundred feet from the premises on which the brewery is to be operated; and

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

(2) each church as defined in section sixteen C which is located within a radius of five hundred feet from such premises.

The notice shall also state that the church or school has the right to object under section sixteen C to the issuance or transfer of the brewery license. If the authorities in charge of any such school or church complain to the commission in writing that a brewery license has been issued or transferred without the mailing of the requisite notice, and that they object to such issuance or transfer, the commission shall hold a hearing to determine whether the requisite notice was mailed. If after a hearing the commission determines that notice was not mailed as required, then the commission shall cancel the farmer-brewery license unless, such school or church had actual notice, prior to issuance or transfer, of the application and of the right to object under said sixteen C, or such school or church did not complain as soon as possible after actual notification of the application and of the right to object.

Any farmer-brewer aggrieved by the cancellation of his license or any school or church aggrieved by the commission's refusal to cancel such a license may appeal as provided herein.

(e) A farmer-brewer may operate a farmer's brewery under such conditions as the commission may prescribe by regulation.

(f) A farmer-brewer may import malt, cereal grains fermentable, sugars and hops, but may not import malt beverages or alcohol into the commonwealth.

(g) A farmer-brewer may sell malt beverages or malt beverage products:

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

(1) at wholesale to any person holding a valid license to manufacture alcoholic beverages under section nineteen;

(2) at wholesale to any person holding a valid wholesaler's and importer's license under section eighteen;

(3) at wholesale to any person holding a valid farmer-brewery license under this section;

(4) at wholesale in kegs, casks, barrels or bottles to any person holding a license to sell under section twelve, thirteen or fourteen, and, for the sole purpose of resale in containers in which the wine was delivered, to any person holding a license to sell under section fifteen; provided that the total annual sales to sections twelve, thirteen, fourteen, and fifteen licensees shall not exceed fifty thousand gallons;

(5) at wholesale to any registered pharmacist holding a certificate of fitness under section thirty;

(6) at wholesale to churches and religious societies, educational institutions, incorporated hospitals, homes for the aged, manufacturers of food products, and manufacturers of drugs and chemicals as authorized by, and subject to the provisions of section twenty-eight;

(7) at retail by the bottle to consumers for consumption off the brewery premises;

(8) at wholesale to any person in any state or territory in which the importation and sale of malt beverages is not prohibited by law; and

(9) at wholesale to any person in any foreign country.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

(h) A farmer-brewer may not sell at retail to consumers any malt beverage or malt beverage product not produced by the brewery or produced for the brewery and sold under the brewery brand name. All retail sales must be made on the brewery premises.

(i) A farmer-brewer may be licensed by the local licensing authorities to sell malt beverages for consumption on the brewery premises in accordance with this section and such regulations as the commission may prescribe.

(j) All malt beverages sold by a licensee hereunder shall be sold and delivered in such manner and under such conditions and with such labels or other marks to identify the producer as the commission may prescribe.

(k) Every farmer-brewer under this section shall keep such records as the commission may prescribe, and shall file with the commission, whenever and as often as it may require, duplicates of copies of such records. The commission shall at all times, through its designated officers or agents, have access to all books, records or other documents of every licensed farmer-brewer relating to the licensee's brewery business.

(l) The annual license fee for each farmer-brewer in respect of each brewery shall be computed based on the malt beverage barrelage produced by the brewery as follows:

5,000 barrels or less per year: $ 22/per year
More than 5,000 and less than 20,000 barrels per year: $ 44/per year
More than 20,000 barrels and less than 100,000 barrels
per year: $ 82/per year

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

More than 100,000 and less than 200,000 barrels
per year: $110/per year
More than 200,000 and less than 1,000,000 barrels
per year: $110/per year
Each additional 1,000,000 barrels per year: $111/per year

For the above purposes, a barrel shall be thirty-one gallons.

(m) Every applicant for a farmer-brewery license shall, at the time of filing an application, pay a license fee based on a reasonable estimate of the amount of malt beverages to be produced during the year covered by the license. Persons holding farmer-brewery licenses shall report annually at the end of the year covered by the license the amount of malt beverages produced during such year. If the total amount of such malt beverages exceeds the amount permitted by the fee already paid, the licensee shall pay whatever additional fee is owing under this section.

(n) Notwithstanding section 17, a local licensing authority, subject to the approval of the commission, may grant a license to sell malt beverages for consumption on the premises at any location it deems reasonable and proper, and approves in writing, on the grounds of a farmer-brewery licensed under this section and on the grounds of the farm operated as appurtenant and contiguous to, and in conjunction with, such farmer-brewery; provided, however, that such licensees may sell for on-premises consumption only malt beverages produced by the brewery or produced for the brewery and sold under the brewery brand name. All the procedures under section 15A shall apply to the granting of a license under this subsection.

§ 137-1. Licenses for keeping, storage or sale required; fees; approval of application. [Amended 4-6-1987 by Ord. No. 1655; 11-15-2004 by Ord. No. 05-084[1]; 5-16-2005 by Ord. No. 05-213]

A. The City Council may grant licenses, in accordance with the provisions of MGL c. 148, § 13, to suitable persons to use land for the construction or maintenance thereon of buildings or other structures for the keeping, storage or sale of any of the articles named in § 9 of such chapter, except fireworks, firecrackers or torpedoes, and for the keeping of vehicles with gasoline or other volatile inflammable fluid, as defined in § 14 of such chapter, in the same. The fee for any license granted under this section shall be in accordance with the following schedule:

(1) For a license for keeping in a designated building or structure one to five cars, inclusive: $50; six to 25 cars, inclusive: $100; and 25 cars and up: $150.

(2) For a license or licenses to keep and store crude petroleum, or any of its products, or other inflammable fluids: for the first 10,000 gallons at the rate of $20 for each 1,000 gallons or fraction thereof; and for all over 10,000 gallons at the rate of $1 for each 1,000 gallons or fraction thereof.

(3) For a license or licenses to keep, store and sell crude petroleum, or any of its products, or other inflammable fluids: for the first 10,000 gallons at the rate of $15 for each 1,000 gallons or fraction thereof; and for all over 10,000 gallons at the rate of $1 for each 1,000 gallons or fraction thereof.

(4) For licenses for keeping, storing and selling ammunition in a designated building or structure: $2.

B. No license shall be granted under this section unless the application therefor is approved by the Chief of the Fire Department, nor shall any license be granted for the keeping for sale at any retail filling station of more than 40,000 gallons of gasoline or more than 500 gallons of other inflammable fluids.

State law references — Granting of licenses, after notice and hearing, for storage of petroleum and its products, filing of certificates of registration thereof annually, revocation by Council and reinstatement by State Fire Marshal, MGL c. 148, § 13; explosives, MGL c. 148, § 9 et seq.

§ 137-2. Annual registration of license; notice to Council of failure to file.

A. Licenses granted under § 137-1 shall be subject to the provisions of MGL c. 148, § 13, requiring the filing of a certificate of registration therefor annually, and the fee for the filing of such certificate shall be 1/2 the amount of the fee for the license.

B. The City Clerk shall, on the first day of May in each year, notify the City Council of all owners or occupants of land used under licenses hereinbefore referred to who have failed to file a certificate of registration as herein required, and, upon receipt of such notification, the City Council may, in the manner provided by law, revoke

1. Editor's Note: This order provided an effective date of 1-1-2005.

§ 143-1. Issuance of licenses; fees. [Amended 5-20-2002 by Ord. No. 02-303]

A. The City Council may, upon petition, license suitable persons to be dealers in or keepers of shops for the purchase, sale and barter of junk, old metals or secondhand articles, at such places as may be designated in such licenses, and also junk collectors to collect by purchase or otherwise from place to place in the City junk, old metals and secondhand articles under the rules, regulations and restrictions hereinafter prescribed, which shall be expressed in every such license, provided that no such license shall be issued or in force unless all scales, weights and measures which are to be used by the applicant in his/her business under the license shall have been inspected, tested and sealed by the Sealer of Weights and Measures immediately before the issuance of the license.

B. Such licenses may be granted during the month of April to take effect on the first day in May next following. The fee for a license to be a dealer in, or keeper of a shop for, the purchase, sale and barter of junk, old metals or secondhand articles shall be $125, and the fee for a license to be a junk collector shall be $150.

State law references — Junk and junk dealers, MGL c. 140, §§ 54 to 56; license fees, MGL c. 140, § 202; effective date of licenses, MGL c. 140, § 203.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

It would be an honor to serve on the Melrose Board of Appeals as it aligns with both my personal and professional values to promote the public good. As an Architect and 11-year Melrose resident, I am passionate about the way we shape our communities. I believe my experience as an Architect and familiarity with the appeals processes uniquely positions me to add value to the Board of Appeals. I am excited at the opportunity to contribute my expertise through informed objective insight of the current Zoning Ordinance with the intent to improve the future built environment and quality of life for our residents and community.

Re: Zoning Board of Appeals
Date: March 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Daniel Gelormini, 20 Pilgrim Road, to the Melrose Zoning Board of Appeals (ZBA) as an Associate Member for a 2-year term set to expire on the last day of February 2025. Mr. Gelormini's appointment replaces the membership of Julianna Hanlon, who recently resigned from the ZBA.

Mr. Gelormini's experience as an architect and insight into the appeals process and City's zoning ordinances will add immense value to the Melrose Zoning Board of Appeals.

Thank you for your consideration.

Re: Affordable Housing Trust Reappointments
Date: March 29, 2023

I respectfully request the Honorable City Council confirm the following Affordable Housing Trust reappointments:

- **Seamus Kelley, 259 West Emerson St., to the Affordable Housing Trust, for a two-year term, said term to expire on the last day of January 2025.**
    - Mr. Kelley has over 15 years of experience as an operations and public policy leader and decision-making experience with a focus on project management, government affairs, public policy, strategic implementation, and external relations.

- **James Oosterman, 54 Ellis Farm Lane, to the Affordable Housing Trust, for a two-year term, said term to expire on the last day of January 2025.**
    - Mr. Oosterman was a founding member of the Melrose Affordable Housing Task Force, established in 1998 to encourage, support, and advocate for public and private affordable housing initiatives. His dedication to this work is also visible in his service to the Melrose Housing Authority, through which he worked closely with the North Suburban Consortium, the City's Office of Planning and Community Development, and other organizations with similar missions to the Affordable Housing Trust.

Mr. Kelley and Mr. Oosterman are committed to serving the City of Melrose in their capacity as members of the Affordable Housing Trust. I'm confident that they will each continue to drive forward the City of Melrose's mission to promote greater diversity and racial equity in the community and for the benefit of low-to-moderate-income households in accordance with the provisions of MGL c. 44, § 55C.

Thank you for your consideration.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Hello, Lily,

Pardon my delay in responding to your email regarding continuing to serve on the Melrose Affordable Housing Trust. I would very much appreciate being reappointed to serve on this committee for another term. My interest in Affordable Housing in the City of Melrose has not diminished since my initial appointment, and I look forward to finding ways to support this growing need from the resources in our Affordable Housing Trust.

Please contact me if you or the Mayor require additional information.
Sincerely,

James Oosterman

Hi Lily,

Thank you for reaching out about reappointment to the city's Affordable Housing Trust Fund. I would very much appreciate being reappointed. I am hopeful that the AHTF will compliment the work underway to update the city's zoning and we will see some meaningful progress around affordable housing in the city.

Thank you,

Karen Grant Blackburn
15 Lodge Avenue
Melrose, MA 02176
[redacted]

February 28, 2023

Paul Brodeur
Mayor
City of Melrose
562 Main Street
Melrose, MA 02176

Dear Mayor Brodeur:

Please accept this letter as an expression of my interest to continue to serve as a member of the Melrose Commission on Women. I joined the Commission in Fall 2019 full of ideas of things we could do to help raise awareness and get more members of our community involved in our work. A few months later, the pandemic halted our plans and slowly tried to find virtual ways to support, celebrate and give women a way to escape during those challenging days.

We hosted a book club, a legislative briefing on Roe v. Wade with local elected officials and other experts, held a celebration of the election of the first female Vice President, hosted a session to help women develop their personal elevator speech and funded a scholarship for a MHS graduate committed to advancing women's issues.

I am proud of everything we were able to accomplish but am excited to work with a full body of Commissioners to do so much more to help women, girls and those who support them and continue to make Melrose a community for all.

Thank you for the consideration.

Sincerely,

Karen Grant Blackburn

Re: Melrose Commission on Women Reappointment
Date: March 27, 2023

I respectfully request the Honorable City Council confirm the reappointment of Karen Blackburn, 15 Lodge Avenue, to the Commission on Women (MCW) for a three-year term set to expire on the last day of February 2026. Ms. Blackburn originally joined the MCW in 2019 and currently serves as commission chair.

Under Ms. Blackburn's leadership, the MCW has hosted many successful community events such as a legislative briefing on Roe v. Wade intended to support and advocate for women and girls in Melrose. In addition, Ms. Blackburn works tirelessly to establish an open and inclusive environment for her fellow commissioners by ensuring every member has an opportunity to talk and share ideas.

Thank you for considering Ms. Blackburn's reappointment to the Melrose Commission on Women.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I have lived in Melrose since 2014, and feel connected to the town and its future. I have a 2nd grader at Winthrop, and her sister will start kindergarten in September. I am also a queer woman. All of these identities inform my viewpoint of the city. Additionally, I work for an organization that specializes in housing and homelessness for youth experiencing homelessness. I spend my 9-5 connecting the puzzle pieces within our community partners, and would like to do some of that work locally, in the city I live in.

From: Mayor Paul Brodeur
Re: Commission on Women
Date: March 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Lauren Knott, 16 Mount Vernon Street, to the Commission on Women, for a one-year term set to expire on the last day of February 2024. Ms. Knott's appointment replaces the appointment of Lauren Grymek, who recently resigned from the commission.

As a queer woman and a professional working to support youth experiencing homelessness or who are at risk for homelessness, Ms. Knott and I are eager for her to represent the LGBTQ+ community and support women and girls locally here in Melrose.

Thank you for your consideration.

RELATED EXPERIENCE

Point Source Youth, Boston, MA
Vice President of Strategic Partnerships August 2022-Present

- Recruit community partners to hire the organization to provide technical assistance to end youth homelessness
- Build relationships with local nonprofits, policy makers, and philanthropy to fund direct cash transfers for youth experiencing homelessness
- Work across departments to conduct outreach for 4 annual conferences and recruit community sponsors to support the conference

The Technical Assistance Collaborative, Boston, MA
Senior Associate July 2019- July 2022

- Lead TAC's work addressing youth homelessness, leading a team of five consultants working on various youth focused initiatives in eight communities
- Seek out business development opportunities and assist in responding to various Requests for Proposals (RFP) throughout the year
- Facilitate trainings on various topics related to HUD programs, such as grant administration, racial equity, and youth engagement

Associate December 2013-June 2019

- Facilitate planning and implementation processes for communities to address homelessness among youth
- Assist communities in developing system gaps analyses with data from multiple sources in order to identify needs and funding priorities
- Staff and manage Continuum of Care (CoC) Help Desk, which answers technical questions for recipients and subrecipients of HUD grants
- Provide direct technical assistance (TA) to multiple CoCs on writing and implementing written standards of assistance for all housing interventions, finalizing governance documents, and conducting system mapping and gaps analyses
- Assist multiple CoCs in the design and implementation of their coordinated entry systems to match HUD requirements and meet community needs
- Provide training and TA to communities and programs on how to adopt a Housing First approach
- Develop training materials on various topics, such as grant administration, program management tools, performance measures, and data systems

The North Carolina Housing Coalition, Raleigh, NC
Policy Associate August 2012-August

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

2013

- Coordinated and presented at technical assistance sessions, as requested by various communities around the state, on topics such as strategies to increase affordable housing
- Monitored legislative committee meetings, news and other information centers to track pertinent legislation
- Conducted extensive research to support the Coalition's policy positions using Census, Comprehensive Housing Affordability Strategy (CHAS), and Bureau of Labor Statistics data
- Prepared policy and advocacy materials, including issue briefs, county fact sheets and talking points, that clearly communicated housing policy issues for policymakers, coalition members, and other stakeholders
- Participated in direct lobbying to elected officials
- Ensured website/social media outlets offered the most current information on policy positions, legislation, and other policy related activities

Salvation Army, Raleigh, NC
MSW Intern, Project C.A.T.C.H. August 2011-April 2012

- Developed protocols for children upon admission to shelters, including screening for mental health and developmental issues with initiation of appropriate referrals, area services, and resources
- Reviewed and improved curriculum and trained shelter staff on trauma, stress, and parent/child relationships

HomeStart, Inc., Boston, MA
Representative Payee September 2010-March 2011

- Supported 30 formerly homeless individuals in budget creation and financial education
- Paid monthly rent and bills for clients according to budget developed with participant
- Maintained accurate and detailed financial records on behalf of clients
- Continued to supervise eight volunteers and ten staff members during weekly walk-in hours, ensuring prompt service for clients and resolving any difficulties with tough cases

Crossroads Housing Search Coordinator September 2009-September 2010

- Designed and implemented successful housing search program at a family shelter in East Boston, resulting in twenty-five families securing permanent, stable housing
- Handled caseload of 15 homeless families while providing technical housing search supervision to three case managers who were in charge of ten additional scattered-site families
- Collaborated with clients to identify an appropriate housing search strategy and apply at local housing authorities and private developments
- Presented housing search trainings to outside agencies and shelter staff as requested

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

- Supervised eight volunteers and ten staff members who assisted the organization during weekly walk-in hours, training them on housing search strategies and answered questions around tough cases
- Developed outreach plan for new volunteers, including faith and collegiate groups

Housing Advocate/Case Manager July 2008-September 2009

- Managed caseload of 45 homeless clients living in six different shelters in Cambridge
- Helped clients identify housing wants and apply at appropriate housing authorities and developments
- Worked with clients to apply for public benefits and locate education and job training opportunities
- Forged connections across community organizations to build relationships and identify resources

PROFESSIONAL EXPERIENCE

HARVARD MEDICAL SCHOOL – BOSTON, MA

- **Office of Faculty Affairs, September 2022 – Present**
  - **Program Director for Academic Operations**

- Serve as the primary resource for quad-based departments (depts) and oversee academic collaborations with key stakeholders across HMS for issues related to the Basic and Social Science Departments.
- Streamline academic operations, facilitate bi-directional communication between OFA and other HMS offices, and manage OFA interface with quad-based depts on faculty recruitment, compensation, diversity & inclusion, research funding/regulations, retention, and advancement.
- Provide critical advice on early-stage review of promotion materials for quad faculty and oversee strategic priorities to meet institutional standards for faculty set by the LCME on faculty preparation, productivity, participation & policies.
- Collaborate with HMS IT and other partners on data collection & faculty reporting capacities and prepare OFA data, reports, and assessments for meetings.
- Interface with HMS offices on collection of data identified to meet the 15 standards in the area of faculty reporting and ensure adherence.
- Manage academic aspects of offer letters (appointment, teaching, mentoring) & promotion letters, respond to quad dept questions/concerns, and ensure adherence to components & rationale of HMS CV.
- Attend monthly Docket Committee meetings and serve as office lead for the Faculty Council annual election process.
- Innovate, refine mechanisms, and participate in strategic plan refresh, while overseeing Faculty of Medicine By-Laws annual review.
- Systematically explore and operationalize new appt types on the quad and support career development of non-ladder researchers.

HARVARD UNIVERSITY – CAMBRIDGE, MA

- **Wyss Institute for Biologically Inspired Engineering, August 2013 - September 2022**
  - **Senior Manager, Academic Affairs, March 2021 – September 2022**
  - **Manager, Academic Affairs, April 2018 – February 2021**
  - **Coordinator, Academic Affairs, August 2013 to March 2018**

- Direct the Wyss Institute Department of Academic Affairs, including all staff, budgets, and other administrative processes
- Manage academic appointments (e.g., postdoctoral fellows, visiting scholars, graduate students), including recruitment, onboarding, reappointments, etc.
- Manage international visa (J, H, B, F) and immigration processes for Wyss academic personnel
- Develop and implement Wyss/Harvard programming (e.g., community building, new hire orientation, etc.) for academic appointments
- Supervise time and labor reporting for Wyss graduate students and temporary hires
- Advise Wyss faculty on academic appointment processes (e.g., immigration, reappointments, new hires)
- Liaise with HMS Human Recourses and Harvard International Office on Wyss appointments

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

- Collaborate with Finance and Sponsored Research on costing changes for Wyss personnel
- Develop and maintain Wyss appointment database and analytics
- Co-chair of the Harvard Medical School Visa Committee. Committee is designed to share any new visa regulations and to discuss any visa issues.
- Founder and member of Harvard Talent Management League

- **Harvard College, August 2013 – Present**
  - **Freshmen Academic Advisor (unpaid appointment)**

- Supervise Harvard College freshmen (3-4 per year) on university policies, programs of study, and degree options and requirements
- Provide academic advising to supervisees
- Discuss and sign off on course selection cards for supervisees
- Provide college transition guidance, including work-study, clubs/activities, and time management
- Provide career counseling

- **Harvard Law School Executive Education, January 2012 – August 2013**
  - **Program Administrator**

- Manage all program logistics for multi-day executive education programs for legal professionals
- Manage material preparation, space, accommodations, operations, media services, catering, and transportation
- Recruit participants (e.g., law firm leaders, corporate counsel) for program participation
- Market HLS Executive Education's online presence via Facebook, Twitter, blogs, and other media
- Develop, maintain, and update the Executive Education website
- Communicate with program participants at all stages of their involvement with Executive Education (e.g., recruitment, pre-program, program, alumni networks)
- Manage financial processing in coordination with HLS Financial Office

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

HARVARD UNIVERSITY – CAMBRIDGE, MA

TUFTS UNIVERSITY – BOSTON, MA

- School of Medicine, May 2007 – January 2012
  - Administrative Coordinator, Medical Curriculum

- Coordinate the preclinical curriculum in a student services environment
- Primary liaison for all administrative communications to faculty and students
- Directly supervise paid audiovisual student teams in coordination with lectures
- Administer Board Exams for medical students
- Manage first- and second-year class curriculum class scheduling
- Point-of-contact for all first- and second-year medical students and faculty on all curriculum needs
- Administrative support for the Associate Dean for Educational Affairs and the Curriculum Committee
- Responsible for the planning, coordination, promotion, execution, and evaluation of Medical School events, including conferences, workshops, retreats, and formal and informal social events

ARIZONA DEPARTMENT OF ECONOMIC SECURITY – CASA GRANDE, AZ

- Office of Child Protective Services, February 2007 – May 2007

MEMORANDUM
To: Melrose City Council
From: Mayor Paul Brodeur
Re: Melrose Council on Aging
Date: March 27, 2023

I respectfully request the Honorable City Council confirm the appointment of Margaret Ivins, 177 Ashland Street, to the Melrose Council on Aging (COA) for a 2-year term set to expire on the last day of February 2025. Ms. Ivin's appointment replaces the membership of Eileen Lyle, who resigned from the COA and whose term expired on the last day of February 2022.

A highlight of Ms. Ivin's candidacy includes her many years working within the Academic Affairs Department of Harvard University as both an employee and a volunteer Academic Advisor for freshmen. Through these roles, she has demonstrated a commitment to the Harvard community and the success of the university's faculty, staff, and student body.

I am confident that Ms. Ivin's appointment to the Melrose Council on Aging will provide her with the opportunity to demonstrate an equivalent commitment to our community's population of residents aged 60 and older.

Thank you for considering Ms. Ivin's appointment to the Melrose Council on Aging.

Council on Aging: Submitted

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board or commission?

I am interested in working on the Council of Aging because I have a passion for working with the elderly and I want to give back to my community. The elderly population is often overlooked and underserved, and I want to make a difference in their lives. The Council of Aging provides essential services and programs that help older adults maintain their independence, health, and quality of life. By working with the Council of Aging, I can utilize my skills and expertise to improve the lives of seniors in my community. I am excited about the opportunity to work with a team of dedicated professionals who share my passion for making a difference in the lives of older adults.

JASON JANCAITIS, PE
PROJECT MANAGER

Professional Profile

Jason has over 20 years professional experience working on a wide range of wastewater projects for municipalities and private sector clients. Jason is experienced in wastewater treatment facility upgrades, collection system and pump stations projects from the planning stages through construction and startup. Jason is registered as a Professional Engineer in Massachusetts, Maine and New Hampshire, and as a Licensed Soil Evaluator in Massachusetts.

Related Experience

Lowell Regional Wastewater Utility, Lowell, MA – Wastewater Treatment Facility Upgrades. Managed design and construction administration of the upgrades at the Lowell Regional Wastewater Utility's Duck Island WWTF. Project includes clarifier mechanism replacement, chemical feed systems, septage receiving, sludge thickening, and associated piping and controls improvements. Develop a Request for Proposals to allow the client to preselect critical pieces of equipment. Managed preselection process, including the technical and vendor evaluation for new multi-stage blowers, clarifier equipment, rotating drum thickener, and dewatered sludge conveyors. Managed the pre-qualification of general contractors and filed sub-bid contractors in accordance with Massachusetts General Laws.

City of Haverhill, MA – Odor Control Improvements. Project Manager for the design and construction administration for odor control improvements at the Haverhill WWTF. Evaluated available technologies and developed the recommended plan for a new facility-wide odor control system. Designed chemical storage and feed system associated with the odor control project. Responsible for the design of a new biofilter which will treat 23,000 cfm of odorous air. Oversaw construction administration for the project.

City of Portsmouth, NH – Sanitary Sewer Infiltration and Inflow Study. Project Manager for investigations of the City's sanitary sewer collection system to reduce infiltration and inflow into the collection system. Project included flow isolation of 150,000 LF of sewer, smoke testing of 200,000 LF of sewer, CCTV inspection of over 50,000 LF of sewer, as well as dye testing and private property surveys. Responsible for the final report summarizing the data, which was submitted to EPA to meet the requirements of an Administrative Order. Developed a phased schedule for rehabilitation work with the City.

Town of Acushnet MA – School Pump Station Replacement. Project Manager for the replacement of an existing Gorman-Rupp suction lift pump station serving the Town's school complex. Evaluated options for improvements, developed system curve for force main, and prepared cost estimate for the project. Oversaw the development of plans and specifications for the pump station replacement. Project Manager for the project during construction administration.

City of Portland, ME – Curtis Road Pump Station Evaluation and Replacement. Project Manager for the replacement of an existing Gorman-Rupp suction lift pump station with an upgraded system. Responsible for reviewing all aspects of design,

including pump capacity analysis and sizing, and development of plans and specifications. This project was delivered using a design-build approach.

City of Portland, ME – Franklin Street Pump Station Upgrades. Project Manager for the upgrades to the Franklin Street Pump Station. This project included installation of a new channel grinder, replacement of slide gates and valves, evaluation of flow meter technologies, and upgrades to the electrical distribution system and HVAC systems. Evaluated odor control technologies for potential implementation. Managed subcontractors for hazardous materials assessment of the station. This project was delivered using a design-build approach.

Town of Tewksbury, MA – Andover Street Force Main Replacement. Project Manager for the replacement of a 6000 LF force main in a busy commercial/industrial area of Tewksbury. Evaluated existing pump station capacity and historical infiltration and inflow records. Prepared cost estimate for the project. Responsible for permitting of the project with ConComm and Mass Highway. Prepared cost estimate for the project. Project Manager during bidding and construction administration of the new force main installation.

City of Gardner, MA – Headworks Upgrade. Responsible for evaluation of screening and grit removal technology. Oversaw design of the new facility, including process and building services designs. Primary author of the Preliminary Design Report.

City of Leominster, MA – WPCF Headworks Upgrade. Oversaw design of the new building which includes a mechanical fine screen and screenings washpress, and replacement comminutors and slide gates. The new facility was built over the existing channels while maintaining WPCF flows of up to 30 MGD. Performed hydraulic analysis of flow patterns at full range of flows for this facility (1-30 MGD). This project also includes the replacement of three influent screw pumps with new higher capacity pumps to allow pumping redundancy, and construction of a new electrical room and motor control center. Responsible for contractor oversight during construction.

Town of Hudson, MA – WWTF Upgrade. Evaluated existing plant pumping and headworks systems. Designed upgrade to the plant headworks, including screening, septage handling, and aerated grit chamber. Evaluated and designed refurbishments to existing sludge and scum pumps. Designed 1,400 LF force main replacement. Served as lead project engineer during construction administration of the $14.2M project which included construction of a dissolved air flotation process for tertiary phosphorous removal. Reviewed shop drawings, payment requisitions, and change orders. Responsible for contractor oversight during construction, and start-up of the new facility, including performance testing of the new tertiary equipment.

City of Leominster, MA – Nutrient Removal Upgrades. Design of a tertiary phosphorous removal process at the Leominster WPCF. Responsible for layout, sizing, and hydraulic analysis of a new ballasted flocculation process for tertiary phosphorous removal. Evaluated existing chemical storage and pumping systems and designed upgrades. Evaluated existing buildings and processes for building code compliance. Responsible for contractor oversight during construction and start-up of the new facility.

City of Fitchburg, MA – Headworks Upgrade. Design of a headworks upgrade at Fitchburg's Easterly Wastewater Treatment Facility. Evaluated operational capabilities and lifecycle cost analysis for competing odor control technologies. Prepared preliminary design report, including basis of design for replacement screening/washpresses and conveyors. Prepared project evaluation form and State Revolving Loan Fund applications. Evaluated facility's susceptibility to flooding due to high river levels.

BRADLEY FREEMAN

39 Apple Hill Road
Melrose, Massachusetts 02176
[redacted]

The Honorable Paul Brodeur
Mayor, City of Melrose
City Hall
Melrose, MA 02176

Dear Mayor Brodeur,

Thank you for the opportunity to formally express my interest in serving on the Parks Commission in the City of Melrose. As a twelve-year resident of Melrose, with two children who participate in the programs hosted by the Parks Department and Recreation Department, I believe that I have the experience, vision and enthusiasm needed to build upon the great work and collaboration of the Parks Commission.

During my time in Melrose, I have frequently visit the City's parks to watch my children participate in sports or enjoy one of the many playgrounds, hike on our nature trails or play golf at Mount Hood. I strongly believe that having open and vibrant parks and recreation spaces are critical to fostering a welcoming and inclusive experience for residents of all ages in Melrose. As Melrose continues to experience growth, it is more important than ever that our Parks and Recreation Department offerings maintain their excellence and continue to develop new programs that meet the needs of the entire community.

I am in my fourth year on the Board of the Incarnation Baseball League, along with eighth year as a youth coach, and understand the complexities of balancing interests and demands on limited playing facilities. In addition to serving as a coach in the Inc, I have coached my son in the Recreation Department's flag football league and the winter basketball program. In doing so, I have been continually impressed by the dedication of the Department employees, as well as the commitment of the participating families, to ensuring the success of these programs.

I would welcome the opportunity to bring my perspective and experiences to the Parks Commission, as it helps the Parks Department and Recreation Department navigate the challenges and complexities of a growing City with increasing interest in the outdoors and recreational activities.

Please do not hesitate to reach out if I can provide any additional information or answer any questions.

Sincerely yours,

Bradley Freeman

MEMORANDUM
To: Melrose City Council
From: Mayor Paul Brodeur
Re: Parks Commission
Date: March 28, 2023

I respectfully request the Honorable City Council confirm the appointment of Bradley Freeman, 39 Apple Hill Road, to the Melrose Parks Commission, for a five-year term set to expire on the First Monday of May 2028.

Mr. Freeman is a longtime Melrose resident and active participant in our community. During his 12 years in Melrose, he has served on the Board of the Incarnation Baseball League and as a Melrose youth coach. Through these experiences, he has gained important insight into the nuances of the City's parks and recreation spaces in Melrose including our in-demand playing facilities and has gained respect and dedication to ensuring the success of the Recreation Department's programs.

I'm particularly confident that Mr. Freeman's professional experience in the field of government relations and communications will add immense value to the commission, as commissioners work together with the City to oversee the management of our public parks, squares, playgrounds, and other recreation spaces.

Thank you for your consideration.

Melrose, Massachusetts 02176
[redacted]

WORK EXPERIENCE

Association of Independent Colleges and Universities in Massachusetts:
Vice President for Government Relations — July 2015 – present
Director of Public Policy and Advocacy — June 2012 – June 2015

- Lead all government relations activities for non-profit advocacy organization representing the public policy interests of fifty-nine private, nonprofit colleges and universities in Massachusetts
- Work closely with the AICU Mass Board of Directors and member colleges and universities to develop and implement legislative initiatives and recommend strategy to achieve policy goals
- Meet with elected and administrative officials in Boston and Washington, DC to further the public policy goals of the association and membership
- Monitor legislation and regulations to assess the impact on members and develop strategies to respond accordingly
- Prepare briefing materials and present government relations strategy plan to AICU Mass presidents and members of the government relations subcommittee
- Research, draft and deliver oral and written testimony before legislative committees on issues impacting member institutions, including efforts to impose mandatory PILOTs, taxes on endowments, efforts to increase funding for financial aid and federal research dollars and workforce development initiatives
- Develop positive legislative agenda to position AICU Mass and its members as a partner in addressing complex issues, such as workforce development, college affordability and employee retention
- Identify opportunities for AICU Mass and its members to engage with the business community and other stakeholders, and serve as a liaison to the business community and trade associations
- Serve on the executive committee of the Coalition to Preserve Nonprofit Services on behalf of AICU Mass to develop a coordinated response to efforts to impose new taxes or regulations on the nonprofit community
- Attend political events on behalf of AICU Mass membership to further relationships with elected officials in Boston and Washington, DC

O'Neill and Associates:
Associate Director — January 2012 – June 2012
Senior Account Executive, Washington /Boston — July 2008 – December 2011
Account Executive, Boston, MA — January 2008 – July 2008

- Established close working relationships with senior-level client contacts in order to manage and support federal and state accounts relating to non-profit, community relations, education, and transportation in the government relations practice area
- Developed and implemented successful federal and state strategy for appropriations and government funding on behalf of clients
- Represented client interests in meetings with members of Congress, Massachusetts Legislature, and their respective staff
- Supported clients in drafting of legislative language, appropriation requests, grant applications, and messaging points for testimony and legislative meetings
- Monitored Congressional and State House legislative schedule in relation to client interests
- Identified and pursued new business opportunities in Washington, DC and Boston, MA
- Attended political events on behalf of clients to further develop key relationships to advance client's interests
- Coordinated with fundraising committees of federal and state political candidates to plan and host fundraisers
- Provided clients with relationship marketing introductions to industry leaders and state officials to help facilitate product sales
- Served as project manager for clients, developing overall strategy and providing detailed instruction to team members to ensure that benchmarks are achieved in timely manner. This process included

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

delegating responsibilities among the selected team members and maintaining oversight of all aspects of the project.

Bill Richardson for President:
New Hampshire Regional Field Director — September 2007 – January 2008
New Hampshire Field Organizer — July 2007 – September 2007
Advance and Event Volunteer — April 2007 – July 2007

- Directly responsible for vote goal and political operation in 35 cities and towns, including Concord, NH
- Built field and regional political infrastructure necessary for a campaign
- Managed paid staff and volunteers – four staff and 12 full time interns/volunteers on election day
- Recruited local and out-of-state campaign volunteers
- Coordinated volunteer activities including literature drops, neighborhood canvassing, visibilities, and event support
- Directly involved in organizing, scheduling, and advancing all state events for Governor Richardson while in New Hampshire
- Worked directly with senior staff and fellow regional field directors to coordinate campaign activities including events with Governor Richardson or surrogates, campaign-wide canvassing efforts, and voter identification outreach
- Collaborated with communications staff to craft appropriate messages and talking points for New Hampshire campaign events

The Office of Representative Alice K. Wolf:
Legislative Aide, Massachusetts House of Representatives — July 2006 – June 2007

- Drafted and tracked legislation dealing with education, transportation, and environmental reforms
- Organized neighborhood meetings with local Cambridge officials, elected officials, and state agencies to discuss issues of concern in community
- Developed comprehensive communications strategy and managed all media relations including responding to media inquiries and drafting press releases, media advisories and talking points
- Oversaw Constituent Services within the office, working with state agencies to resolve constituent cases

PATRICK D. DELLO RUSSO
CFO/City Auditor

To: Honorable City Council
City of Melrose

From: Patrick D. Dello Russo, MBA
CFO/City Auditor

Date: March 28, 2023

Re: **Free Cash Appropriation Considerations for the remainder of the Fiscal Year.**

As the CFO/City Auditor, I submit this summary of Financial Management Strategies for the remainder of the Free Cash available for the remainder of the fiscal year. To-date: $3,423,471.07 is available of the $7,159,906 Certified.

Part I.

Reserves/Stabilization Funds & Management ($950,000)

The City of Melrose has established a number of Financially Strategic Stabilization Funds, with a collective balance just under $7.5 million dollars. This provides assurance to the community that we can meet a negative downturn in the economy or unanticipated costs, which could disrupt the delivery of services and negatively impact our operating budget at any given time within a fiscal year. There is "tremendous value here" in our collective decision to safeguard the assets of the community through the establishment of these funds. There is no greater priority from a financial perspective.

1. We have developed a **"Foundation Stabilization Fund" # 8401**, with a balance just under $3.9 million dollars. The request before you is to add the sum of $50,000 thousand dollars to this fund for a total of close to $3,95 million dollars. The City's goal is to have the Fund equate to 5% of the operating budget. In Fiscal 2023 that amount would be just over $4.7 million dollars. If approved, this would be a positive move in our efforts to reach that goal. The Massachusetts Municipal Association "best practice" includes adopting reserve funding targets of 5% or more based on the specifics of the municipal

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

budget and consideration of spending and revenue risks. There is also a standing City Council Ordinance (Section 48-5) that speaks to the funding of the Stabilization Fund annually. We have also budgeted $50,000 to go into this fund as part of the standard annual operating budget request.

2. We have established a **"Contract Stabilization Fund" #8404,** with a balance of just over $882,000 thousand dollars. The request before you is to add the sum of $450,000 thousand dollars to this fund in order to insure that the city can fund negotiated collective bargaining agreements when settled, and non – union compensation obligations for example. This includes any retroactive payments relative to the respective contracts and non-union salary adjustments. To date, going into FY2024, the Fire Union is out of contract as of June 30, 2023. The target balance for this fund is $1.3 million dollars.

3. We have established a **Capital Stabilization Fund # 8405,** with a balance of just over $472,000 thousand dollars, and we seeking $100,000 dollars at this time as it mirrors our targeted amount of $550,000 at this time. Capital purchases in excess of $25,000 thousand dollars are funded from this source. This enables the city to add flexibility in addressing its' capital needs (pay as you go financing) for items that are not advantageous to issue debt on (departmental equipment, for example) and may be needed at any time during a fiscal year.

4. We have established a **Suits and Claims Stabilization Fund # 8406,** with a balance of over $496,378 thousand dollars. The city uses this fund to address costs associated with legal claims and suits that arise throughout the fiscal year. We are not seeking any funding at this time as it meets our target amount of $500,000 thousand dollars.

5. We have established a **"Special Education Stabilization Fund" #8408,** which is used to fund special education costs realized by the School Department that exceed its budgeted funds. We are requesting you to add $250,000 thousand dollars to this fund at this time. We currently have just over $502,000 thousand dollars in this fund. Our new target allocation is a standing balance of $750,000 thousand dollars given the increases in costs we are realizing.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

6. We have established a Statutory Fund under Chapter 32b, Section 20; called the **"OPEB Fund" #8407,** (Other Post Employment Benefits), with a balance of just over $1,038,000 thousand dollars. We are requesting the sum of $50,000 thousand dollars be added to this fund. The continued funding of this significant liability plays a "key" role in the determination of our Bond Rating by Standard and Poor's Rating Agency (please see most recent S & P report dated September 15, 2020). We have also incorporated a request for $50,000 thousand dollars as part of the standard annual operating budget request.

7. We have established an **"OSHA" Fund # 8409,** (Occupational Safety and Health Administration), stabilization fund with a current balance of over $204,000 thousand dollars. We are requesting the sum of $50,000 thousand dollars be added to this fund which would bring the balance to just over $250,000 thousand dollars. The City's target amount for this fund is $250,000 thousand dollars.

Part II.

Project/Program and Cost considerations ($1,158,893.48):

1. School Department Curriculum Program - $169,959.48
2. School Department Master Plan - $125,000
3. HRS Nonunion compensation plan funding - $159,784
4. DPW Tree Planting Program - $84,150
5. Radar Speed Signs and Traffic Study - $50,000
6. IT Investments in City/School Technology - $200,000
7. Accessibility and Adaptive Equipment Projects - $100,000
8. Medicare - $40,000
9. City Solicitor Liability Insurance Program - $30,000
10. HR Department - Workers Compensation - $150,000
11. Cemetery Department - $50,000

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Part III.

Open Items and Cost Considerations ($1,314,577.59):

1. Public Safety Overtime - $300,000
2. Snow & Ice Funding Contingency - $1,014,577.59

Summary Observations

Balance Information:

Part I. $ 950,000.00

Part II. $ 1,158,893.48

Part III. $ 1,314,577.59

Total: $ 3,423,471.07

In closing, it is always our intent to seek transfers to offset budgetary items that need supplemental funding such as Medicare for example, in lieu of using Free Cash Funds. The amounts represented here are estimates until a formal request is made from the Mayor to the City Council for funding. Supplemental items may be introduced, and some items may be changed in dollar scope as well as more information becomes available. In the event we do not have to use the Snow and Ice Funding Contingency, the Mayor will make an additional funding request to present to the City Council prior to the fiscal year end. The objective of this memorandum is to simply provide you with some perspective on items under consideration by the Office of the Mayor.

Cc: Honorable Mayor Paul Brodeur

RE: Free Cash Request for School Facility Master Plan Study

The Feasibility Study recently completed for the Beebe Elementary School and the current challenges with the Ripley School building highlight the need to perform a comprehensive assessment of all school facilities to better understand how existing facilities can be used in an optimal way to best serve the needs of Melrose students and the community at large.

A comprehensive district-wide school facility evaluation was last performed in 1997 by HMFH Architects. That study was instrumental at the time in positioning the City and School Department to embark on a capital campaign for new school facilities in collaboration with the Mass School Building Authority (MSBA). It resulted in three major school facility projects including the Lincoln Elementary School Renovation and Addition (2000), the new Roosevelt Elementary School (2002) and the new Melrose Veterans Memorial Middle School (2007). Other important capital projects in school facilities that have been performed in recent years include the series of investments in the Melrose High School (Science Labs, Learning Commons, Guidance and Administration Upgrades, Roof Replacement and HVAC Upgrade), the renovations to the Horace Mann Elementary School and the Modular Classroom additions at the Winthrop and Hoover Elementary School.

These projects addressed enrollment challenges and obsolete facility needs at the time, but the needs and challenges that confront the district today—25 years after the last School Facility Master Plan Study--require a new, comprehensive evaluation. This Study

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

will assess existing physical conditions at each of the school facilities, review their adequacy to house anticipated student enrollment over the next 20 years and make recommendations for necessary renovations and reconfigurations in line with desired educational outcomes. The study will also help identify the priorities for pursuing grant funding for capital construction projects through the MSBA.

It is imperative to start planning now to identify the next Core Capital Project to submit for grant funds to the MSBA as it can take years for project to receive an invitation to proceed. In addition, a decision about the future use of the Beebe Elementary School will be needed once the library vacates the space next year. This study will help guide these important decisions.

This project ranked highly on the 2022 Capital Improvement Program (CIP) list of projects. It addresses the major CIP criteria and is linked to several other CIP Projects. It is estimated to cost $125,000, based on a review of similar efforts and discussions with architects familiar with this work.

Thank you for your support. We look forward to discussing this further with the City Council as they consider this request.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

January 31, 2023

The Honorable Mayor Brodeur and
The Honorable City Council
of the City of Melrose, Massachusetts

RE: Proposed Zoning Amendments

To His Honor and the Members of the Council:

At its meetings on December 19, 2022 and January 23, 2023, the Planning Board voted to submit the attached zoning amendments to the City Council. These proposed changes seek to clarify sections of the code for easier interpretation and understanding, ensure compliance with Massachusetts General Laws, and reduce the number of variance requests for violations that are regularly approved by the Board of Appeals. The purpose and reasoning behind each proposed amendment will be described in detail below.

Corner Lot Setbacks
The purpose of this amendment is to allow properties on corner lots to have similar side yard setback requirements as those properties that are not at the intersection of streets. In the Boards extensive review of corner lot properties, allowing for side yard setback distances on corner lots by Variance has not been detrimental to the streetscape or to the abutting properties. Two yards often function as side yards and allowing for a side yard setback in these locations provides the Owner space to build a structure that is consistent with the use of the yard while not creating negative impacts to the rhythm of buildings on the block.

Changing the Ordinance to allow for side yard setbacks will remove the need for many cases to obtain a Variance for corner lot setback relief. Since 2017, 38 cases have been brought before the Board of Appeals for variances related to a hardship imposed by the corner lot setback requirements. Removing the need for this permit reduces the Owners' administrative work, uncertainty, cost and extended permitting time that is associated with construction on corner lots. This amendment is also identified as an action item in the Melrose Forward Master Plan.

Structure Definition
The Melrose Zoning Ordinance (MZO) currently defines retaining walls and fences as structures. MZO §235-24.B, Accessory Buildings and Other Structures, requires

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

accessory structures to be governed by regulations for an accessory building unless specifically exempted by a variance. Oftentimes fences and retaining walls are therefore required to have an accessory structure setback from property lines. Since it is a typical condition for a retaining wall or fence to be on or close to a property line, it was likely not the intent of the regulation for accessory structure setback to apply to them. Removing retaining wall and fence from the definition of structure will resolve this issue.

BA-2 Zoning District Line Change at 521-529 Franklin St.
521-529 Franklin Street (parcel B12 058) is split into two zoning districts. The front of the parcel facing Franklin Street is in BA-2, while most of the parking lot to the rear is in UR-A. The property owner requested that the entirety of the lot be brought into BA-2 explaining that refinancing and insuring the property is complicated by the split zoning and the best use of the property is in line with uses permitted in BA-2.

Definition of Retail Food Establishment
This amendment updates the definition of retail food establishment to allow for the sale of alcoholic beverages for off premise consumption, which reflects the recent change in the City's liquor laws.

Definition of In-law Apartment
The definition of in-law apartments in the MZO has been found to be overly restrictive and creates undue hardship for many applicants who wish to create a dwelling unit for a family member in their home or attached to their home. The provision requiring the unit to be located within the single-family dwelling as it existed on January 1, 1990, is limiting and prohibits additions to accommodate in-law apartments. The Board of Appeals has approved variances from this provision on several occasions to permit in-law apartments and allow for this reasonable use where all other provisions are met.

This amendment strikes paragraph F from the definition and modifies paragraph G to address this issue. Removing paragraph F will allow for alterations and additions to existing single-family houses to accommodate in-law apartments. Revising paragraph G would continue to restrict the size of the unit in relation to the existing single-family home; additions would need to conform to the dimensional regulations within the district; and a special permit from the ZBA is still required for all in-law apartment proposals. This amendment is also identified as an action item in the Melrose Forward Master Plan.

Votes for Special Permit Approval & Term
Votes for Approval
This amendment updates the MZO to be consistent with recent changes to MGL C.40A (the Zoning Act) and reflect State regulations. Chapter 358 of the Acts of 2020 made several amendments to Chapter 40A, including: (1) changes to section 5 to reduce the number of votes required to enact certain kinds of zoning ordinances and bylaws from a ⅔ supermajority to a simple majority; and (2) changes to section 9 making similar changes to the voting thresholds for the issuance of certain kinds of special permits.

Minutes Acceptance: Minutes of Apr 18, 2023 7:45 PM (Reading of the Minutes)

Changes to the MZO related to Zoning Amendment voting is not needed because the language just references Section 5 of the Zoning Act.

Special Permit Term
This amendment increases the time allowed to exercise a special permit, which reflects another recent change to the Zoning Act. Chapter 219 of the Acts of 2016 increased the timeframe to exercise a special permit from two to three years. Municipalities are not obligated to adopt the longer timeframe, however, increasing the special permit term is more accommodating while conforming to the MGL.

Site Lines and Fence Height in Front Yards On Corner and Non-Corner Lots
